Chapter 203: The Wisdom of Mortals

Nine thirty at night!

It was only after nearly forty minutes that Xia Mo rode the electric car and drove Chu Tian back to the bar.

In the room on the second floor of the bar, when Chu Tian and Xia Mo entered, Li Sisi, Li Niannian, and Bai Xiaochun were all there.

“Sister Xia.”

Seeing Chu Tian and Xia Mo come in, Bai Xiaochun smiled brightly, her eyes curved into crescent moons.

“Still drinking?”

Looking at the glass in front of Bai Xiaochun with half-filled red wine in it, Xia Mo couldn't help but laugh. “Baby, do you still remember what happened yesterday?”

Bai Xiaochun chuckled in response. “I don't remember. I drank way too much and woke up in bed with Sister Nian. It was already morning, but Sister Sisi said having some red wine is good for my health and helps me sleep.”

“Yes, that’s true.” Xia Mo sat down and explained, “Red wine is rich in various vitamins and antioxidants. Consuming it in moderation can slow down aging, reduce skin pigmentation and improve skin elasticity. It also helps protect the heart, blood vessels and prevents cardiovascular diseases.”

“Yeah, Sisi said the same thing.” Bai Xiaochun smiled as she took two glasses and poured one for Xia Mo and Chu Tian.

“What did you do?” Li Sisi said, “Where are you and Chu Tian going? They are coming back now.”

“I had an appointment,” Xia Mo replied with a faint smile. “Hey, being single is so lonely. I couldn’t resist any longer. I borrowed your Chu Tian for a few hours.”

“Tsk! ” Li Sisi smiled and pouted. “I believe you.”

“By the way, why are there so many people here today?” Xia Mo lifted her glass with a smile and took a sip.

In the past, Li Niannian stayed at the milk tea shop. Bai Xiaochun didn’t usually stay at the bar either. Both of them liked to stay at the milk tea shop.

“Talking about things.” Li Sisi said, “Niannian said that Chu Tian plans to carry out a good white milk tea business, ready to start a factory, and then, the development of the eight-pronged development, we are talking.”

“Is that so? It’s finally starting.” Xia Mo said, “Actually, I’ve been wanting to say this for a long time. With such a hot milk tea and such a store, it’s really painful to earn a lot of money every day.”

“So, it’s going to be officially developed now.” Li Niannian smiled. “Xia Mo, do you have any suggestions?”

“Me?” Xia Mo smirked and said, “I don’t understand this, so I don’t have any suggestions. I think we need to design the production line properly.”

“This is going to be an actual factory production, so Chu Tian shouldn’t handle everything personally. After all, he’s the boss. We need to establish an efficient production line that ensures the staff doesn’t know the complete recipe and production process.”

“As you all know, just a while ago, the Xiang Piao Group kidnapped Chu Tian for the sake of his white milk tea formula. So, if the formula and production process of the white milk tea were stolen, the loss would be unimaginable.”

As Xia Mo spoke, Chu Tian sat beside Bai Xiaochun and nodded in agreement. Suddenly, a message popped into his mind a vivid blueprint of a fully automatic and secret white milk tea production line.

Chu Tian was taken aback. He had triggered his ability many times before, but this time felt different more like a sudden surge of stimulation. Before he could even express his thoughts, he had acquired a complete blueprint for a fully automatic production line.

However, this thing was extremely useful!

“That’s true.” Li Niannian agreed, “We’re also talking about this. It’s easy to find a franchise store because many people are waiting to join. The problem is how to keep the production secret. I don’t think it’s that easy to get a secret production line.”

"There's no need to consider this." Chu Tian said, "I've already designed the production line. When the time comes, we just need to find someone to make it. We just need to find a place to build a factory."

What?

Hearing Chu Tian's words, Li Niannian and the others couldn't help looking at him.

Bai Xiaochun said innocently, "Hubby, you've already designed the production line?"

"That's right." Chu Tian looked at Bai Xiaochun and said with a smile, "The production line, I've already designed it. Don't worry. No one will know the formula and production process."

"Boom."

Seeing Chu Tian's confident expression, Bai Xiaochun smiled brightly and kissed Chu Tian on the face, saying, "Hubby, you're amazing."

"That's right." Chu Tian said, "Not strong enough to be a precious husband?"

"Hey..."

Witnessing their interaction, Li Sisi furrowed her brows. "Chu Tian, are you serious? Have you really designed the production line?"

“Of course, it’s true.” Chu Tian smiled and said, “This thing, in the future, our own company will lie to themselves. What’s there to fake? I really designed it.”

Xia Mo was speechless. “Chu Tian, aren’t you too abnormal? Why do you know everything?”

Hacker technology was unparalleled in the world!

His combat strength was also strong!

Even surprisingly, the production line of such mechanical aspects could be designed.

Was he a monster?

If he were a scientist, it would be somewhat understandable. However, he was studying medicine, a field seemingly unrelated to mechanics.

“I can’t help it,” Chu Tian chuckled. “Your IQ is high, but it’s not challenging enough for me. I understand why you’re shocked. Mortals’ wisdom, it’s normal for you not to comprehend.”

What?

The wisdom of mortals?

Seeing Chu Tian's smug look, Li Sisi smiled and said, "Look at you. If it weren't for the big treasure beside you, this cup of wine of mine wouldn't have been able to pour it on you. It's also a mortal's wisdom. Are you extraordinary? Why don't you go to heaven?"

"Okay." Chu Tian had a serious expression as he said, "Sister Sisi, don't speak nonsense. I can't stand being provoked. If you say this, I might really go to heaven. I won't be joking."

"Well." Li Sisi curled her lips and said, "Then hurry up and go, hurry up and go to heaven. Don't stay in our mortal world."

"That won't do." Chu Tian smiled and hugged Bai Xiaochun, "My wife is in the mortal world. I can't leave."

"You're dead..."
