Chapter 201: The Battle Is Too Intense

Despite being aware of the awe-inspiring presence of the Mermaid Battle Soldiers, Lu Heng paid them no heed.

After all, he knew little about the situation in the South Sea, let alone the notorious reputation of the two burly men Li Po left behind to guard the gate...

Despite his vigorous objections, Li Po insisted on leaving Wu Ji and Wu Mie to guard the gate.

Even when Lu Heng invited them to enter the courtyard, the brothers politely declined and glared at the nearby Mermaid Battle Soldiers.

"If we don't keep an eye on those untrustworthy fairies, who knows what sorts of sly tricks they might pull behind our backs."

Compared to the two muscular brothers, the mermaid with a delicate figure and small hands was indeed effeminate.

However, the two brothers said so in front of hundreds of Mermaid Battle Soldiers, their arrogant behavior made Lu Heng somewhat amused.

These brothers are really straightforward.

Do they not fear being dragged out to become a signature dish or fresh sashimi in the Mermaid Kingdom after speaking such words?

However, with the brothers being so persistent in guarding the gate, Lu Heng could not force it and had to follow them back to the courtyard with Xiao Ai.

Lu Heng desired to talk with Xiao Ai about her mother's affair.

It can be perceived that, after finishing talking about the Wuqi Country matter, the young girl became somewhat uneasy.

Initially, she merely regarded her mother as a wealthy girl who had been forced to wander through the wilderness due to some circumstances and thus paid no attention to it. However, now realizing her mother's extraordinary status, Xiao Ai also apprehends that her father's disappearance and mother's death were not that simple.

At the very least, her father may still be alive somewhere in this world...

However, soon after Lu Heng and Xiao Ai returned to the courtyard and had just finished talking, the voice of the Wu family brothers could be heard outside the door.

"Senior Wolf God, Luo Yujun from the Immortal Kingdom wishes to see you... Do you want to see him?"

Although these two brothers are quite straightforward in character, they are quite respectful in front of Lu Heng.

And their report also made Lu Heng curious.

Luo Yujun? The Immortal Kingdom's lord? How did this guy come here?

After thinking for a moment, Lu Heng said, "Please let Lord Luo Yujun come in."

Soon, in the watchful eyes of the Wu family brothers, Luo Yujun, who had been sitting in the carriage all the time without revealing his identity, entered the small courtyard where Lu Heng was located.

The strange voice, mixed with male and female voices as before, but Luo Yujun's true appearance was beyond Lu Heng's expectations.

It turned out to be a young boy with red lips and white teeth...

Lu Heng was somewhat surprised while the fair and youthful Luo Yujun smiled politely. Although his voice was unusual, his demeanor was extraordinary, elegant and aristocratic.

"The Immortal Kingdom's Luo Yujun, I have met the Senior Wolf God."

Meanwhile, the news of the Immortal Kingdom's lord's visit to the Wolf God had reached the Chief Minister's hands as Luo Yujun and Lu Heng came face to face.

Just as Yu Huaifeng had received news of Hanhai Department's priest bringing the Wu brothers and the Great Sage of Fu Feng to meet the Wolf God and was pondering over the relationship between Hanhai Department and the Wolf God, fresh news arrived.

He was suddenly taken aback.

"Luo Yujun? Did he also go to pay a visit to the Wolf God?"

After perusing the message in his hand, Yu Huaifeng was somewhat bewildered.

Luo Yujun not only paid homage to the Wolf God but also brought along Praetorian Guards as his escorts.

Not only did he bring Praetorian Guards as his escorts, but he also brought all forty of them...

Nowadays Luo Yujun is chatting with the Wolf God in the courtyard, and besides the Wu family brothers from the Hanhai Department guarding the gate, there are forty Praetorian Guards scattered outside the courtyard for patrol.

As for the several hundred Mermaid Battle Soldiers he arranged, who were originally there, they are now pushed to the fringes and can't even get close to the small courtyard where the Wolf God is located.

Although several hundred Mermaid Battle Soldiers can overthrow a country, compared to the forty Praetorian Guards in the Immortal Kingdom's arsenal, they fall short...

Yu Huaifeng's brow furrowed tightly as he immediately issued an urgent secret order.

"Recall all the patrolling soldiers and generals from the north! Stand by at the capital city at all times!"

After issuing this urgent secret order, Yu Huaifeng had the mood to ponder on the new intelligence he had just received.

Luo Yujun from the Immortal Kingdom led forty Praetorian Guards to visit the Wolf God, leaving behind some Praetorian Guards to guard the Wolf God's courtyard... this is a great show of support from the Immortal Kingdom for the Wolf God.

When the Hanhai Department came to visit the Wolf God, Yu Huaifeng was still skeptical. But with Luo Yujun's appearance, he was completely convinced.

Both of these groups of people have come for the sake of the Wolf God!

No wonder the Hanhai Department and the Immortal Kingdom, who never participate in the Treasure Conference, have both come this year. It turns out that they have a hidden agenda.

It's just that they are helping the Wolf God in this way... The face of this Wolf God is really prominent.

Yu Huaifeng felt a bit of a headache.

The mere mention of the enigmatic Wolf God had already put the Mermaid Kingdom on edge.

Now, there are more troublesome characters causing chaos...

Can the Mermaid Kingdom not know the details of Luo Yujun from the Immortal Kingdom, that others don't know?

He is an immortal evil demon who crawled out of an ancient battlefield and, relying on that mysterious battlefield, pieced together the fortune of the Immortal Kingdom through various means. Its Praetorian Guards, which were vigorously cultivated, are also an undeniable force on the South Sea.

The combined forty Praetorian Guards are equivalent to an ancient devil.

Then, in addition to the Immortal Kingdom, there was the Hanhai Department...

Compared to the ferocious ancient evil demon Luo Yujun, the Hanhai Department is not as terrifying.

Although the Li Tribe people are awe-inspiring, Li Po is the most talented priest in the tribe for tens of thousands of years and the Wu family brothers are also famous. But the Hanhai Department is just one of the Nine Li Tribe.

It only makes people tremble slightly that the Hanhai Department has come alone.

What gave Yu Huaifeng a headache was that the Li Tribe's nine branches have always been of one mind. Offending one branch equals offending all nine branches.

The nine branches of the Li Tribe, including the old man who once killed people in large numbers of the Raiding Wind Department, Priest Li Tan of the Driving Mountain Department, who boasts about his extraordinary skills, and the Holy Maiden of the mysterious and unfathomable Sacred Mountain of the Li Tribe...they never intervene in the cultivating world's affairs, only drifting in the human world.

But once they choose to interfere, it always brings great disaster and bloodshed.

Who would dare to ignore the nine branches of the Li Tribe?

The Immortal Kingdom forbids mortals from entering, Luo Yujun holds the ancient battle armor, and the Praetorian Guards are peerless all over the world. But when the Hanhai Department of the Li Tribe was previously set within the territory of the Immortal Kingdom and they wanted to migrate to the Immortal Kingdom for several years, Luo Yujun still opened the door and let these mortals enter his forbidden Immortal Kingdom.

Although the heritage of the Mermaid Kingdom is stronger than that of a mere Immortal Kingdom, the nine branches of the Li Tribe still cannot intimidate the Mermaid Kingdom.

However, the pressure brought by the Immortal Kingdom, Hanhai Department, and the Wolf God at the same time, has also grown to the point of being impossible to ignore...

Yu Huaifeng considered for a long time and finally gave another command.

Summon all domestic coastguard forces and guard the country!

The grandiosity of the Wolf God's stance leaves the Mermaid Kingdom with no choice but to take it seriously.

Chapter 202: Pressure as Heavy as a Mountain

After dealing with the matters of the Wolf God, Yu Huaifeng's mood slightly stabilized.

Afterwards, he continued to handle the affairs of the Treasure Conference.

For the current Mermaid Kingdom, the Treasure Conference still ranked as the most important event.

The Treasure Conference, held once every twelve years, cannot afford to have any mistakes.

Coming in second place is the matter of the Moluo Sword Master.

Lord went to the ancestral temple for worship. Nowadays, Yu Huaifeng is responsible for organizing the arrangements for the Treasure Conference, which can be said to be extremely busy.

However, just as the night fell, Yu Huaifeng raised his head from various trivial matters of the Treasure Conference and planned to take a walk in the courtyard, when the sound of water outside the door surged again.

Someone had come.

Yu Huaifeng looked up and found that it was the subordinate responsible for delivering the message of the Wolf God.

Seeing this subordinate in a hurry, Yu Huaifeng's heart suddenly sank... Was there another problem?

Despite this, Yu Huaifeng remained calm on the surface.

He walked up to the door nonchalantly and asked, "What's the matter?"

The Mermaid didn't dare to delay and handed over the new jade scroll quickly.

Yu Huaifeng took the jade scroll and his face immediately changed.

The message in the jade scroll wasn't complicated, but it struck Yu Huaifeng like a bolt from the blue.

After Luo Yujun's departure, Wuqi Country's lord personally led the group to visit the Wolf God in his temple.

A simple message, but it revealed incredibly dreadful intelligence.

The sudden arrival of Wuqi Country, was it also aimed at the Wolf God?!

However, Wuqi Country is a dependent tribe of Candle Dragon, and has always refrained from interfering in external affairs. Therefore, whenever Wuqi Country moves outside, its actions can represent Candle Dragon...

Now that Wuqi Country has come for the Wolf God, doesn't it imply that even the ancient monster Candle Dragon has come to help the Wolf God?

Furthermore, considering that both of them are ancient existences from the past...

The Wolf God, surprisingly, is a close friend of Candle Dragon? Did they know each other during ancient times?

Hmm...

Yu Huaifeng was completely bewildered.

This news is so shocking that he couldn't maintain his composure.

Besides the notorious name of Candle Dragon, the peculiar temper of the old demon is also well-known. No one has ever heard of someone who can enter his magic eyes or qualify to be his friend.

The only qualified one fell and died in the ancient times, and turned into a mountain range.

But this Candle Dragon, who has such an infamous temper, is actually a good friend of the Wolf God?

This information is more terrifying than anything Hanhai Department or Luo Yujun supporting the Wolf God.

Although Hanhai Department and Luo Yujun are powerful, they may not necessarily be in conflict with the Mermaid Kingdom... Even if there is a conflict, it will not be to the point of no return.

However, the ancient monster Candle Dragon always does as he pleases and seeks revenge for even the slightest offense. If he is truly provoked, it will be a never-ending trouble!

With the pressure from all four sides - the Wolf God, Candle Dragon, the Li Tribe, and the immortal kingdom - Yu Huaifeng suddenly lost his composure.

He immediately walked outside with a serious expression.

"Hurry and invite the Prime Minister to come here to oversee the affairs of the Treasure Conference. I am going to the ancestral temple to see the lord! I won't be able to come back for now!"

Yu Huaifeng looked anxious, and because of his command, the Mermaid Kingdom once again shook.

The sudden change in personnel authority was enough to affect the already eerie atmosphere of the underwater city.

However, these things have nothing to do with Lu Heng at the moment.

As Yu Huaifeng hurriedly rushed to the ancestral temple, Lu Heng bid farewell to the Lord of Wuqi Country.

At first, Lu Heng was surprised by the visit of the Lord of Wuqi Country. After the conversation ended, he was somewhat amused and bemused.

The conversation with the Lord of Wuqi Country wasn't particularly long, but Lu Heng understood the karma quite well.

After the conclusion of the Dragon Falling Mountains debate, Candle Dragon (Zhu Jiuyin) took a jog around the estate, spreading the word to all the subordinates of the clan that he had formed an acquaintance with two dearest friends.

One is Lu Heng, the Wolf God of Hanyu mountain, who cultivates the Heavenly Thunder and possesses a divine power.

The other is Jiu Mie, a wandering old ascetic cultivator who has gone through the hardships of the mortal world and possesses profound cultivation.

Candle Dragon has conveyed the message that everyone must treat these two close friends with respect and cannot be negligent when meeting them.

Therefore, after Wuqi Country learned about the news of the Wolf God's arrival in the South Sea, they kept a close eye on any information related to Lu Heng. Before Lu Heng searched for the Erba God Man, not only did the South Sea countries help to search under Luo Yujun's leadership, but Wuqi Country also devoted national efforts to search for the sixteen old monsters in secret.

Later, the news that Lu Heng had rescued his friend and exterminated the Erba God Man was spread, and Wuqi Country ceased its search.

However, shortly thereafter, there was intelligence from the Mermaid Kingdom that the Wolf God might be in conflict with them.

When Lu Heng left Fan Jie Mountain, the Mermaid Kingdom became aware of his arrival and Wuqi Country received intelligence, and promptly rushed towards the Mermaid Kingdom.

Their purpose was to serve the Wolf God when a conflict arose between Lu Heng and the Mermaid Kingdom...

The Wuqi Country's lord was extremely respectful, while Lu Heng sighed slightly.

It turned out that Wuqi Country really was after him...

However, since the Candle Dragon didn't come, this should be considered good news.

Based on Lu Heng's understanding of the Candle Dragon, it was better that it didn't come. If it did come, it might have ended up in a fight with the Mermaid Kingdom...

When a real fight breaks out, it is hard to tell whether it is a blessing or a curse.

Lu Heng still leans towards a peaceful resolution to this matter, but if peace is impossible, he will consider other means.

After bidding farewell to the Lord of Wuqi Country, Wenren Bumie, Lu Heng's small courtyard returned to tranquility.

However, Lu Heng knew that with the arrival and departure of the Lord of Wuqi Country, within the Mermaid Kingdom, it is likely that the opposite of peace and quiet of his small courtyard will prevail tonight.

But for Lu Heng, this is a good thing.

Smilingly, Lu Heng said to Xiao Ai, "Xiao Ai, your worries are unfounded. I bet we will definitely be able to meet the Lord of the Mermaid Kingdom tomorrow."

Lu Heng's words made Xiao Ai purse her lips.

The little girl glanced at the Mermaid Kingdom's court not far away and said, "At this point, if we still can't see Miss Huo, either everyone in the Mermaid Kingdom is stupid... or they're really powerful, powerful enough to be invincible."

"Unfortunately, from what we can see now, they are neither stupid nor powerful enough to be invincible. So, apart from fulfilling their promise, they have no other choice."

The little girl's straightforward comment made Lu Heng laugh and say, "Yes, it's this merciless speaking style. When I'm not suitable to speak next, Xiao Ai, you can remember this and timely step forward to mediate for me."

Lu Heng's words made Xiao Ai blush.

"It's... it's not merciless..."

The little girl murmured softly with a tinge of resentment.

Lu Heng chuckled heartily, remarking, "I never said that you were unkind... I simply find it necessary to express the occasional bit of sardonic humor."

"One cannot always be benevolent in this world. Sometimes, excessive kindness can prove to be a hindrance."

"The notion of 'deceiving the sage and the worthy' is such a cultivate."

"Therefore, we ought to demonstrate a certain ferocity on select occasions."

Chapter 203: Rumors and Gossips

The early morning of December 6th.

There are still two days left before the Treasure Conference of the Mermaid Kingdom.

The atmosphere inside the Mermaid Kingdom is completely different from previous Treasure Conferences.

The news of both the Hanhai Department and the Immortal Kingdom paying their respects to the Wolf God has already spread throughout the city overnight. And now, out of the forty Praetorian Guards brought by Luo Yujun, thirty are stationed outside the campus where the Wolf God resides.

Luo Yujun only brought ten people back to his residence.

Such a posture startled the cultivators in the city.

Moreover, the news about the Moluo Sword Master has gradually spread throughout the city with the approaching of the Treasure Conference.

People know that the Wolf God's visit to the Mermaid Kingdom was for the sake of a friend who was controlled by the Moluo Evil Sword and killed someone in the Mermaid Kingdom.

Also, Hanhai Department Priest Li Po and Immortal Kingdom Lord Luo Yujun have come for this matter, and only the Wolf God is highly regarded.

With such a situation and the pressure from three sides, even the Mermaid Kingdom has felt the pressure.

The fact that all the nearby patrol fleets were recalled that night is a clear indication.

Moreover, in some circles, the news of Wuqi Country's lord's visit to worship the Wolf God has revealed a terrifying secret.

If this situation is not handled properly, it may even attract the notorious ancient monster!

In this way, the Mermaid Kingdom is facing pressure from all sides...

People are marveling at how terrifying the Wolf God is, realizing it is not an ordinary ancient beast. In this situation, even the Mermaid Kingdom must be vigilant.

However, as the news spread, some discussions were also taking place throughout the city...

"The Wolf God of Hanyu Mountain is too domineering. Are his friends worthy of life, while other lives are not? Therefore, when the Moluo Evil Sword kills someone, the Mermaid Kingdom punishes and administers justice, exterminating the Moluo Evil Spirit for the benefit of the world. What fault is there in this? However, he arrogantly relies on his martial prowess and comes to our door to demand an explanation, even forcing the Mermaid Kingdom to release prisoners...Humph! He is so full of himself!"

"Exactly! This action is too domineering! Demons like this should be eradicated by everyone. The Moluo Evil Sword has caused chaos in the world, and yet the Wolf God not only doesn't make an effort to strangle it, but also wants to protect it. Can this kind of behavior be done by the predecessors of the righteous path?"

"Stepping into the evil path, wielding a devil sword, killing people and still having someone to protect you... hmph! It's good to have senior cultivators as friends, even if we do evil deeds and commit arson, we won't die. If only I had a senior cultivator friend too."

"Who could be a good person when mixing with the Candle Dragon? Bah! They are nothing but bullying others by relying on their strong power! Ridiculous gods! It's almost like being a demon!"

"Being friends with Moluo Sword Master, isn't that being a demon? Hahaha..."

...

Similar discussions appeared in some places in the city.

However, most people still choose to be bystanders.

For the cultivators who are invited to participate in the Treasure Conference, they are not sure whether the Wolf God is domineering or not, but as for the Mermaid Kingdom...they have always been tough in their methods.

Upon entering the Mermaid Kingdom, one must abide by the laws of the Mermaid Kingdom. Once violated, the Mermaids can directly catch and kill the violators in accordance with the law.

The laws of the Mermaid Kingdom have always been strict.

Therefore, although there were verbal attacks against Lu Heng, more people remained neutral and curious to see how the Mermaid Kingdom would respond to the Wolf God.

Shortly thereafter, Lu Heng and Xiao Ai found out about the rumors and gossip surrounding the attacks on Lu Heng.

In the courtyard, the little girl with silver animal ears who heard the news had a gloomy face, and her anger was almost out of control.

She looked at Lu Heng with extreme anger and said, "The Wolf God, those rodents spreading rumors outside!"

In the courtyard, after listening to Praetorian Guard's report, Lu Heng shook his head and said,

"Although their words are extreme, they are not entirely wrong. What are we here for? Isn't it to protect our friends?"

"And our friend is none other than Moluo Sword Master who killed a man."

Lu Heng laughed and said, "So let them say what they want. What can you do with your anger? Can you rush out and kill them all? Wouldn't that just confirm that we are using our power to bully the weak?"

Lu Heng's words made the little girl flinch slightly, then feel extremely wronged.

"But... but we never sheltered any demons!"

Xiao Ai was incredibly upset, with a face about to cry. "The Wolf God clearly came to care about Miss Huo. He only saves people when they are not fully controlled by the demonic sword. If Miss Huo really falls into the demonic path, the Wolf God will be the one to kill her... The rumors that those people outside spread are completely unfounded!"

The little girl was left feeling wronged, while Lu Heng smiled and said,

"Living under the scrutiny of others can be tiresome. Xiao Ai, you care too much about what others think."

Lu Heng's words made Xiao Ai even more upset.

"But...but..." the little girl pouted with grievances. "Those people were slandering you maliciously...You are not what they said!"

The little girl was so heartbroken in her distress that even if she was the one being scolded, she wouldn't feel as sad.

Lu Heng laughed heartily and ruffled her hair, "Don't be too concerned. Some people just see the situation change and feel jealous, that's why they cause trouble. If we confront them, we will fall into the trap set by those sneaky rats in the dark."

"Keep a calm and level-headed attitude, and nothing can bring you down."

Lu Heng's words caused Xiao Ai to widen her eyes in astonishment.

"Are people causing trouble? Is it possible...?"

The young girl instinctively looked towards the nearby palace.

However, Lu Heng shook his head and said, "It's not the Mermaid Kingdom. The Mermaid Kingdom has a high opinion of itself. Although they may feel pressure due to yesterday's events, they would not resort to such despicable tricks... There is someone else behind this mischief-making."

Lu Heng said, "You surely remember the seven people Brother Huo killed after he fell into darkness... All seven were accomplished cultivators, with many disciples, friends, relatives, and acquaintances. If they were to band together, they could be considered a small force in the South Sea."

"Before, when the Mermaid Kingdom wanted to kill Brother Huo, they didn't object and therefore didn't take action. But now that I have arrived, they feel pressured. They worry that because of me, the Mermaid Kingdom may change its mind and release its enemies. So, they have to take action."

Lu Heng smiled and said, "Through their actions, the ones being roasted over the fire are not me, Lu Heng, but the Mermaid Kingdom..."

"These people are trying to influence public opinion, to make us completely stand against the Mermaid Kingdom. If this opinion they are guiding continues to fester, then if the Mermaid Kingdom really does release Brother Huo in the future, wouldn't they lose face? An ancient great power, afraid of the threat of a wolf demon, releasing a prisoner... If such rumors spread, the lord of the Mermaid Kingdom may become murderously angry."

"If their scheme succeeds, it could indeed block any possibility of reconciliation between us and the Mermaid Kingdom."

"However, the Mermaid Kingdom definitely doesn't wish to see such a confrontational situation."

Lu Heng chuckled and said, "So you need not be angry, for there is someone who is even more enraged than you... Ha ha ha..."

I'll Quit Being a God

Chapter 204: In the End, Stood Alone Against Everything

Lu Heng's words were incomprehensible to the little girl.

Although the young girl was exceptionally intelligent, matters involving public opinion manipulation and conspiracies made her feel unfamiliar.

Lu Heng, having experienced similar situations in his past life, immediately noticed the irregularities and remained unmoved, waiting for a response from the Mermaid Kingdom.

Compared to the chaos caused by the villains manipulating public opinion and stirring up trouble on the internet for money in his past life, the rumors and slanders found within the Mermaid Kingdom were child's play.

Lu Heng believed that the Mermaid Kingdom would also be unwilling to easily initiate a war, otherwise they would not have welcomed him into the city using slow tactics.

While Lu Heng was comforting Xiao Ai in the courtyard, Yu Hailing, the lord of the Mermaid Kingdom who had just come out of the ancestral temple in the palace, also listened to the report of the Chief Imperial Secretary.

Suddenly filled with anger.

"How dare they act recklessly in the Mermaid Kingdom! Have these people grown tired of living?"

Yu Hailing's face instantly turned cold, "That madman Mu Yepeng led people to disturb women and cause chaos in my Mermaid Kingdom. I haven't had a chance to settle accounts with their friends and family--if not for that Mu Yepeng's bastard behavior, would things escalate to this point?"

"Now this group of people still have the audacity? Do they take my Mermaid Kingdom for granted?"

Yu Hailing's gaze was icy. "Since they like to make a fuss, let them make as much fuss as they want! Immediately arrest all these people and send them to the city gate to be sliced into sashimi! And then feed them to the sea monster! Let them cause a commotion in the belly of the sea monster!"

The daunting command of Yu Hailing left the Chief Imperial Secretary helpless and bitter.

"My lord! Ponder upon this," pleaded the Chief Imperial Secretary with helplessness, "although these people may have ulterior motives, if their speech is not punishable by law, it is not in line with the legal system of our country. There is no provision in the law that these people cannot curse the Wolf God of Hanyu Mountain."

Continuing his plea, the Chief Imperial Secretary lamented, "The Mermaid Kingdom has always had strict laws, so we must act in accordance with the law, and not disregard its credibility due to momentary impulse. Once the credibility is destroyed, the consequences would be unimaginable!"

The Chief Imperial Secretary persisted in his persuasion, but Yu Hailing raised her eyebrows, and looked at him coldly.

"You mean these people cannot be arrested?"

The Chief Imperial Secretary hastily nodded, "Cannot be, absolutely cannot be."

Faced with the Lord's cold gaze, the Chief Imperial Secretary showed no sign of backing down.

Yu Hailing pursed her lips and snorted, "If you can't catch them, you can't catch them. I just need to vent and I don't really expect you to obediently listen... Fine, you can go now and do whatever you need to do."

Yu Hailing said, "As for that group of troublemakers, let them go for now. But send someone to keep an eye on them. If they dare to break the law, arrest them immediately."

"I can't deal with them now, but I'll have a chance sooner or later!"

Yu Hailing complained angrily, "Am I just a pawn to them? If we don't eliminate these bastards, they'll keep thinking the Mermaid Kingdom is an easy target!"

Yu Hailing walked and vented her anger at the same time.

However, the Chief Imperial Secretary has long since departed, following Lord's orders to handle his own affairs. The only one who is currently by Yu Hailing's side is Chief Minister Yu Huaifeng, who entered the palace last night to pay his respects.

Following behind Lord and feeling slightly relieved after Lord had scolded him for a while, Yu Huaifeng finally spoke up and asked, "Lord, now that things have come to this...when will we pay our respects to the Wolf God?"

In the palace, Yu Hailing's footsteps faltered slightly. Then, she snorted and said, "Disappear! Just take him directly to the Extreme Hell Prison for a visit, I don't have time to see him."

Yu Hailing's response left Yu Huaifeng shocked and dismayed.

"But, my lord, didn't we agree earlier to go and pay respect to the Wolf God today and discuss how to deal with Miss Huo Feng's matter...? How could you change your mind like this?"

Yu Hailing glared at him and said, "Are you trying to teach me how to do things? Am I a lord or are you? I will meet if I want to and won't if I don't want to! As the lord of the Mermaid Kingdom, do I not even have this freedom?"

"Besides, doesn't the Wolf God only want to see his friends? Then why don't you just take him directly! Do you really think this kind of old monster who knows how many years of life would be interested in a little girl like me? Maybe my ancestors have already met him, why would he care to see me?"

"If I go up to him anxiously, maybe he will be disgusted and feel that I am wasting his time."

"So just take him to see his friend, it will fulfill his request, save everyone's time, and everyone will benefit. Isn't that great?"

Yu Huaifeng chuckled repeatedly after hearing Yu Hailing's speech.

"My lord, this matter is of great importance. We cannot act rashly!"

Yu Huaifeng advised, "If you are concerned about public opinion, I can invite the Wolf God to meet you in a different courtyard. In this way, it will not seem like you are seeking an audience with the Wolf God, but rather it will seem like the Wolf God is seeking an audience with you... How about that?"

Yu Huaifeng knew that the lord had changed her mind because of the rumors spread by those rats.

It is now widely believed that the Mermaid Kingdom fears and worships the Wolf God. If the news were to come out that the lord of the Mermaid Kingdom went to pay respect to the Wolf God, it would certainly give those rumor-mongers a new reason to celebrate.

How can a national affair be changed just because of a dispute of temperament?

Yu Huaifeng tried to persuade, but Yu Hailing just glanced at him and retorted, "Master Yu, as a grown man, why do you make everything so complicated? You act like an old woman... Can you just be straightforward? If I say I won't see him, then I won't!"

"The Wolf God is here to save someone, while we are here to kill someone. If we were to fight, would it matter whether or not I went to see him?"

"If we wouldn't fight anyway, does it matter whether or not I go see him?"

"Then why waste time? I have no interest in dealing with this old monster who has been living for who knows how many years. You can take him to the Extreme Hell Prison yourself."

Yu Hailing instructed, "And when you take him to the Extreme Hell Prison, be careful. Although the Wolf God has a good reputation and is not like Candle Dragon, who is an old rascal, you still need to be cautious and watch out for him trying to escape when visiting other prisoners."

After speaking, Yu Hailing directly disappeared in the palace without looking back, leaving Chief Minister behind.

Standing on the long corridor under the sea, where seawater surged and fishes swam, Yu Huai watched Lord's departure with a helpless smile.

Their lord was truly unpredictable, which was a headache.

However, upon careful consideration, it appears that the matter is indeed as Lord said. Whether or not the Mermaid Kingdom and the Wolf God will break apart depends not on whether or not Lord sees the Wolf God, but on the Wolf God's attitude toward his friend...

With that in mind, Yu Huaifeng couldn't help but let out a sigh and said:

"It seems that this matter will ultimately fall on me..."

Yu Huaifeng sighed with no other options and left the corridor, walking toward outside the palace.

He intended to visit the Wolf God once again.

Chapter 205: South of the Great Wall

When Chief Minister Yu Huaifeng visited, Lu Heng was sitting at the doorway discussing the Hanhai Department's path of cultivation with the Wu family brothers.

It turned out that the nine branches of the Li Tribe have a different path of cultivation than the commonly known one.

They neither open the door of heaven nor transform the internal energy, but instead only cultivate supernatural powers.

Each person of the Li Tribe has a natural born talent for supernatural powers awakened at birth. Their path of cultivating is to cultivate supernatural powers and refine their physical bodies.

The fleshly body, which cultivators don't value, is refined by them to be like steel and iron, incredibly robust. Each person of the Li Tribe is like a human-shaped fierce beast, and their physical strength alone is terrifying.

Not to mention the unique talents and mysterious abilities possessed by the Li tribe people, which often manifest as an unfathomable power.

There are those who possess the divinatory ability to see through an enemy's next move, those who have the insight to accurately sense the thoughts of their targets, and those who can execute swift and unpredictable movements covering thousands of meters with their godly movement techniques.

However, according to the Wu brothers' account, these seemingly impressive abilities are merely commonplace amongst the nine branches of the Li tribe.

The truly terrifying abilities are those that are shrouded in mystery, such as Wu Ji's "Blood-stained Battle Armor" and Wu Mie's "Indestructible Golden Bones".

It wasn't until Lu Heng's conversation with the two brothers that he realized the true power behind the several thousand people living outside of Hanyu Mountain.

No wonder the population of Li Tribe, a tribe that strong and powerful, has been declining. If each branch could have tens of thousands of people, they would probably become invincible.

And so, when Yu Huaifeng arrived at the other courtyard, the Wolf God, who had now become a pressure on the whole Mermaid Kingdom, was casually sitting on the doorstep, chatting with two muscular men from the Hanhai Department who were standing by the door.

His relaxed smile didn't show any ferocity.

If it weren't for their previous acquaintance, anyone who saw this scene wouldn't have connected this easy-going elegant man in white with the rumored Wolf God...

Seeing Yu Huaifeng approach, Lu Heng smiled and stood up, "Master Yu, has the lord finally agreed to see me?"

Yu Huaifeng smiled awkwardly, "The lord has important matters to deal with and cannot be present. But she has instructed me to greet the Wolf God and take you to visit your friend at the Extreme Hell Prison on her behalf."

Yu Huaifeng spoke nonsense with his eyes open, "I beg forgiveness from the Wolf God for words that were not intentionally spoken by me. The Treasure Conference is approaching and there are many important matters to attend to, which prevents Lord from being able to leave..."

Yu Huaifeng attempted to defend Lord, while Lu Heng smiled and said, "I understand, I understand. After all, national affairs are important. I am grateful that Lord allowed me to visit the Extreme Hell Prison, and I don't expect anything more. When can we depart for the Extreme Hell Prison?"

Lu Heng directly inquired without any delay.

Yu Huaifeng laughed and said, "We can go now... Does the Wolf God need to prepare anything?"

Lu Heng shook his head, "No, let's go."

Saying so, Lu Heng called out in the courtyard, "Xiao Ai, let's go."

In the courtyard, the silver-haired girl with beastly ears hurriedly carried the Heavenly Thunder Sword on her back and followed Lu Heng.

At the same time, Lu Heng's massive white wolf body also emerged.

Lu Heng's primordial spirit transformed into a flash of white light and returned to his physical body. The huge white wolf spoke a few words to the Wu brothers and the arriving Praetorian Guards, leaving them to wait there, before leading Xiao Ai to accompany Yu Huaifeng.

The massive ray once again lifted off the ground, carrying Lu Heng, Xiao Ai, and Yu Huaifeng into the air and over the city.

Behind the ray were three hundred Mermaid Battle Soldiers and ten Mermaid Generals, presenting an even grander scene than when Lu Heng entered the city on that day.

This scene quickly caught the attention of the cultivators in the city.

The news quickly spread that the Wolf God, under the leadership of the Chief Minister, had crossed the Mermaid Kingdom and the Great Underwater Wall to head further south.

"The Chief Minister has gone south with the Wolf God..."

"Could it be true that the Mermaid Kingdom is really going to release the prisoner?"

"It's unlikely... the Mermaid Kingdom is deeply rooted and had even killed the old demon Bi Fang in the past, so why would they be afraid of the Wolf God?"

"Speaking of which, have you realized that the lord of the Mermaid Kingdom hasn't shown up yet? Isn't that unusual? According to reason, she should have met with the Wolf God today, shouldn't she?"

"Could it be that the lord of the Mermaid Kingdom has already reached a secret agreement with the Wolf God?"

"It's also possible that they are planning for war... According to an ancient legend, to determine whether the Mermaid Kingdom is genuinely moving their forces, it all depends on the lord. If the lord of the Mermaid Kingdom is still visible before the enemy arrives, it proves that the Mermaid Kingdom has not

used its full strength yet. Only when the lord of the Mermaid Kingdom disappears before the enemy arrives, will the real terror come..."

"Why do you say that? Has the lord of the Mermaid Kingdom disappeared, preparing for some great weapon?"

"That is not clear. Only heard that before the old demon Bi Fang came to kill, the lord of the Mermaid Kingdom also disappeared for several days. When the lord appeared again, with the power of thunder, completely killed the ancient monster Bi Fang in the South Sea..."

"Hmm... so if that's the case, the current lord of the Mermaid Kingdom has been missing for three days... Does that mean that something exciting is about to happen?"

"Well... it's hard to say. Let's just keep watching. This year's Treasure Conference is more lively than any other year!"

The cultivators in the city discussed eagerly, as the Wolf God left the city and subtle changes occurred among the various parties.

But for now, Lu Heng doesn't need to worry about all of this.

Standing on the back of the gigantic ray, he has already crossed the magnificent Great Wall Under the Sea towering 100 meters high, and is heading towards the deeper and more mysterious southern waters.

The further south he goes, the deeper and more profound the seawater becomes.

The ocean floor beneath him continues to extend downward as if it will never end, leading to the sinister and dark abyssal depths.

Beyond the Great Wall Under the Sea, the seawater becomes increasingly cold. As he travels further south, the chill in the water becomes more intense.

Lu Heng can feel that the coldness in the seawater is not a physical sensation.

Due to the temperature of the seawater, there is not much difference compared to the north. However, as one goes further south, it becomes colder, and this eerie chill unexpectedly comes from the heart.

Even cultivators who have achieved success in their training cannot help but feel the chill while in the seawater of the south.

However, one cannot feel this kind of chill on the other side of the vast and magnificent Great Undersea Wall. The huge and magnificent wall seems to completely isolate this eerie chill in the south.

To the north of the Great Wall, the water is filled with sparkling corals and fish. Even in the Mermaid Kingdom, common fish can be seen everywhere in streets and alleys.

But in the southern waters, it is gloomy and lifeless, with no trace of vitality.

Lu Heng and his companions traveled south and could not even see a single swimming fish or seaweed...

On the southern side of the Great Wall under the sea, there is an entirely desolate and lifeless wasteland, barren and vast.

I'll Quit Being a God

Chapter 206: The Mysterious Stone Gate

On the back of the ray, Lu Heng witnessed a scenery that was completely different from the vibrant one on the north side of the underwater Great Wall.

It should be noted that in the deep sea, unless unexpected circumstances arise, one can find various strange creatures even at a depth of ten thousand meters.

Life is incredibly tenacious.

However, on the south side of the underwater Great Wall, even though the sea is not actually very deep and there is not much difference from the north side, the area where vitality was extinct, is many times more gloomy than the north side.

Being in this inexplicably cold seawater, Lu Heng felt a little oppressed.

Is this desolate sea area related to the legendary South Sea Deep Trench?

After all, once they arrive at the Mermaid Kingdom, they won't be far from the rumored South Sea Deep Trench if we head further south.

Lu Heng couldn't help but turn around to glance at the three hundred Mermaid Battle Soldiers behind him.

In the sea, these soldiers all rode on the backs of the South Sea Sea Monsters. In the outside world, these sea monsters were ferocious, but under the control of the Mermaids, they were extremely tame.

Three hundred Mermaid Battle Soldiers, each riding on a South Sea Sea Monster - such a large formation, but it seemed that it wasn't meant to defend against Lu Heng.

Because along the way, what Lu Heng observed was that this group of Mermaid Battle Soldiers seemed to be more vigilant about the surrounding waters than they were about him, Lu Heng.

The coastal patrol soldiers shuttle back and forth like scouts, constantly reporting the maritime situation from all directions to the military leaders. That solemn and guarded situation is indeed not to guard against Lu Heng.

But this seems to be within the borders of the Mermaid Kingdom... It is said that there are also several cities of the Mermaid Kingdom to the south, but they are not as prosperous as those in the north.

Why do these Mermaids look like they are in an enemy territory, rather than cruising in their own borders?

Lu Heng was puzzled, but he didn't dare to ask.

Perhaps this is a top secret of the Mermaid Kingdom?

However, Yu Huaifeng explained when he saw the curiosity of the Wolf God.

"Currently, on the southern side of the capital, there has been a significant change compared to before."

"For the time being, the sea on the southern side of the capital is not suitable for living. The inhabitants of several cities on the south have already been relocated to the north."

Yu Huaifeng said, "Other than the Extreme Hell Prison guarded by soldiers, there are no living creatures in the waters south of the entire country, except for us."

Yu Huaifeng's explanation left Lu Heng slightly astonished.

"What happened?"

Yu Huaifeng let out a sigh, looked towards the south, and said, "When Moluo Sword Master committed murder in the capital, the evil Moluo energy seemed to have triggered the long-dormant South Sea Deep Trench, causing the Death Qi to surge out and sweep across the sea on the southern side of the capital."

"In fact, if it weren't for the seawall of the Mermaid Kingdom that has been guarding for generations, this outbreak of evil energy would have swept through at least half of the South Sea and caused more than seventy percent casualties to the aquatic tribes of the South Sea..."

Lu Heng was greatly astonished by Yu Huaifeng's narration.

"So powerful..."

Yu Huaifeng then gave a bitter smile and said, "The outbreak of evil energy in the South Sea Deep Trench is so terrifying. Fortunately, if there is no external stimulus, the Extreme Hell Black Water will not erupt with evil energy for thousands of years..."

Yu Huaifeng's words made Lu Heng laugh, but he didn't say anything.

The little girl with silver hair and animal ears pouted and hummed softly.

The reactions of the little girl and the white wolf made Yu Huaifeng smile awkwardly and say, "Everything that I said is true. It is not an exaggeration... It is precisely because of the Moluo Sword's uniqueness that the Moluo Sword Master must be eliminated."

"The unknown origins of this ancient demonic sword seem to have some unknown connection with the South Sea Deep Trench. Over the long years, the Moluo Evil Sword has only appeared in the South Sea and never on land or in any other sea area. It is as if it is waiting for an opportunity by guarding the South Sea."

"The Moluo Evil Spirit within the sword is not a mere sword spirit, but a special entity with intelligence. Although its hidden evil intentions have not yet been realized, it is evident that it is planning to use the South Sea Deep Trench to harm the creatures of the South Sea."

Xiao Ai let out a light hum as Yu Huaifeng spoke, and ruthlessly rebutted him.

"If the Moluo Sword is so dangerous, why keep Miss Huo imprisoned so close to the Abyss? Isn't that even more risky?"

Yu Huaifeng spoke seriously and said, "Miss Xiao Ai, you are not aware that the Extreme Hell Prison, although located near the Abyss, is a demon prison constructed by my Mermaid ancestors. Any evil entity trapped here cannot escape."

"The Moluo Sword Master was confined within the Extreme Hell Prison, so as to completely cut off his connection with the South Sea Deep Trench, which could prevent the Moluo Sword from once again unleashing wickedness and misfortune upon the South Sea."

Yu Huaifeng explained in detail, and Lu Heng nodded to show his understanding.

"I see..."

Looking at the sudden appearance of a huge underwater portal in the sea ahead of them, Lu Heng said, "Could it be that large stone portal ahead is the Extreme Hell Prison?"

In the frigid and bone-chilling seawater of the sea before them, there was actually a huge stone portal suspended hundreds of feet high.

From a distance, it was even more magnificent and grand than the underwater Great Wall of the Mermaid Kingdom.

A colossal stone gate stood silently in the midst of the water. It neither reached the sky nor touched the ground, hanging motionless in the turbulent sea.

On the stone gate, various mysterious textual designs were intricately engraved.

The time-worn stone carvings had aged beyond reckoning. The moment one catches a glimpse of the stone gate, an immense and desolate atmosphere overpowers the senses.

Lu Heng's pupils contract slightly.

Within the center of that massive stone gate, a colossal design draws his eyes, for it seems all too familiar.

This design splits into two halves, each on one of the two doors' centers. When the doors come together, they piece together a tremendous Eight Trigrams figure.

Despite the mysterious hieroglyphs and patterns adorning the stone gate, this massive Eight Trigrams diagram is the largest, most prominent, and centrally located one.

The yin-yang fish in the center alone has a diameter of dozens of meters. Compared to this gigantic Eight Trigrams diagram, the numerous engravings on the stone gate are mere embellishments in the corners and not the main focus at all.

Lu Heng looked towards Yu Huaifeng beside him and asked, "Are the engravings on this stone gate left by your country's ancestors?"

Lu Heng pointed to the enormous Eight Trigrams diagram.

Hearing this, Yu Huaifeng was somewhat surprised and didn't understand why the Wolf God would ask this question. Nevertheless, he replied, "According to records, our ancestors built this stone gate together. However, we don't know the meaning behind the patterns on it."

At this point, Yu Huaifeng thought of a possibility.

"Does the Wolf God recognize this door?" Yu Huaifeng was stunned.

Has the Wolf God, who has lived for countless years, really known the ancestors of the Mermaid Kingdom?

Yu Huaifeng was extremely astonished, while Lu Heng stood on the back of the huge ray, looking up at the gradually approaching stone door and the enlarging Eight Trigrams diagram in his sight.

This was the first time he had seen the Eight Trigrams diagram in this world.

For some reason, facing this huge Eight Trigrams diagram at this moment, he had a slightly familiar feeling in his heart.

It seems that he has returned to the end of that mysterious and inscrutable stone forest, standing under the huge statue of Nüwa, looking at the small and ordinary tombstone.

The tomb of my Brother Fu Xi...

Could it be that the portal of the Extreme Hell Prison is also related to the deity Fu Xi?

[I'll Quit Being a God](#)

Chapter 207: Brilliant Starry Sea

The Eight Trigrams are the most mystical and ancient profound thing in this world.

Among the excavated cultural relics, people discovered that the pattern of the Eight Trigrams had already existed during the Stone Age when knotting was used for recording.

It is difficult to imagine that the Eight Trigrams had already appeared in that ancient time when people's wisdom had not yet blossomed.

The most ancient Inherited Eight Trigrams, according to legends, was created by the great god Fu Xi, also known as Fu Xi Eight Trigrams.

However, Lu Heng didn't have any research on the way of the Book of Changes in his previous life, and had a lack of cognitive about the Eight Trigrams.

Even after achieving enlightenment, the cultivator's spiritual wisdom will greatly awaken and he will be able to recall every memory that is buried deep in his mind from childhood, including the feeling of leaving the amniotic fluid as a baby, the first poop and urine after being born, the breath of sleeping in his mother's arms during full moon, and the laughter when riding on his father's neck at the age of one... These memories that ordinary people can never recall are all clear in the cultivator's mind.

Not to mention the pages of books he has read, and the strangers he has passed by... Even though Lu Heng didn't deliberately try to remember, his current level of cultivation allows him to effortlessly remember these memories.

However, such a vast store of knowledge doesn't allow one to create things that have not been experienced.

Therefore, Lu Heng, who had not studied the art of Yi Jing in his past life, could only barely recognize that the eight trigrams on this stone gate were the pre-heavenly trigrams, rumored to be related to Fu Xi.

However, he could not judge what the specific pattern of the trigram represented.

The only thing that can be certain is that this ancient stone gate must be related to that ancient deity.

On the back of the ray, Lu Heng's eyes fixed on the enormous Eight Trigrams symbol. After staring at it for a while, he felt as though the symbol had come alive and was staring back at him.

At this moment, they had already arrived in front of a massive stone gate.

The Mermaid general who led them had arrived earlier and tapped a groove beneath the stone gate with a piece of jade.

The voice of the Mermaid inside the gate could be heard, speaking in Mermaid language, which Lu Heng and Xiao Ai couldn't understand.

After communicating with the Mermaid inside the gate for a while, the Mermaid general stepped back and returned to where Yu Huaifeng and Lu Heng stood.

Slowly, the massive stone gate opened up before Lu Heng and his companions.

After the colossal stone gates opened, a stunning scene was revealed beyond them - a huge stage like the real night sky, glittering with twinkling stars.

Standing beneath this vast starry sky, Lu Heng and the Mermaids were overwhelmed by a sense of insignificance, as if they were truly facing a real star-filled expanse.

Yu Huaifeng gave a slight smile and gestured, "Please, follow me."

After speaking, as if afraid that the Wolf God would not dare to enter, he took a step into the starry sky without hesitation.

Lu Heng didn't hesitate and followed Yu Huaifeng into the stellar expanse.

A sensation of icy softness hit him immediately, as if Lu Heng had plunged into a pool of soft gelatin, making his whole body feel light and chilly.

In the next moment, as he regained his sight, he realized that he was no longer under the sea, but standing amidst a sparkling galaxy.

Bright and lifelike stars seemed to twinkle beside him, only reduced in size and lacking the scorching heat of true stars.

Standing in the void, Lu Heng saw no directions, no above or below, as if he had truly arrived in the vacuum of the universe.

The silver-haired girl with animal ears clung close to him, staring at the scene before them in amazement and slight shock.

After all, the feeling of being in the galaxy was truly magnificent.

Meanwhile, Yu Huaifeng stood at the side, smiling and saying, "This is the Extreme Hell Prison, a realm beyond the world, not within the South Sea. The friend of the Wolf God resides here temporarily."

After Xiao Ai came in, no one else came in behind Lu Heng.

The three hundred Mermaid Battle Soldiers were all left outside, it seems they were not really used to guard against Lu Heng.

However, there should also be Mermaid Battle Soldiers stationed in the Extreme Hell Prison, but it is unclear where they are.

At least Lu Heng doesn't feel their presence now.

Yu Huaifeng obviously has no intention of showing Lu Heng the garrison here, he plans to take Lu Heng directly to see his friends.

However, Lu Heng is not anxious now.

He stood in the midst of the starry sea, looking with amazement and astonishment at the slowly rotating whirlpool nebula before him, his heart sinking slightly.

If the Eight Trigrams pattern on the stone gate could still be dismissed as a coincidence, then the whirlpool nebula he was now in front of couldn't possibly be explained away by coincidence...

The Milky Way...

Could this brilliant and genuine starry sky be a completely realistic representation of the Milky Way?

Although Lu Heng's knowledge of astronomy was limited, he had previously watched many popular science videos of the Milky Way online. Compared to the shape and characteristics of the Milky Way in his memory, the starry sky before he seemed to be the Milky Way...

Moreover, on the spiral arm they were now on, there seemed to be familiar stars.

The giant white wolf passed directly over Yu Huaifeng, heading towards the sea of stars up ahead.

Xiao Ai followed closely behind him, unwilling to be separated from the Wolf God.

Yu Huaifeng, however, wore a look of surprise. "That's not the right direction!"

But since the Wolf God had gone that way, he had no choice but to follow, knowing that there were no important criminals detained in that direction.

The Wolf God's strange reaction upon entering the starry sky also piqued Yu Huaifeng's curiosity, wondering what exactly the Wolf God was looking for.

... Could it be that there is some kind of treasure left behind by ancient ancestors in this sea of stars that they haven't found yet?

With this curiosity and trust in the Wolf God's ability to maintain order in the Extreme Hell Prison, Yu Huaifeng didn't stop the Wolf God, but followed closely behind him.

The two, along with the wolf, hurried through the starry sea.

This reduced realistic starry sea didn't perfectly restore the proportions in the actual sea of stars. Otherwise, vast empty areas would have been daunting.

Although the distance between the stars was considerable, it was still incomparable to the real universe.

Soon, Lu Heng arrived on the outskirts of this spiral arm and found a prominent and familiar coordinate.

Centaur triple-star...

These three stars, which have become famous and popular because of science fiction, are now appearing in front of Lu Heng. Each star has a diameter of several meters and emits a faint, scorching light.

Not far from these three stars, there is a seemingly ordinary star floating in the starry night, surrounded by several planets of varying sizes, each no bigger than a marble.

From the distance in this sea of stars, Lu Heng can clearly see the ordinary star nearby and the small planets that surround it.

In this sparkling sea of stars, this particular star has no distinguishing characteristics and can be considered quite ordinary.

However, when Lu Heng actually found this star, he became genuinely excited.

He instinctively flew towards the star, even though he knew it was only a false sandbox model. But the familiar scene of his hometown still stirred up his desire to get closer and he could not resist it.

Then, Lu Heng froze.

[I'll Quit Being a God](#)

Chapter 208: Starry Inheritance

At the moment the giant white wolf approached the star, it seemed to be solidified and directly frozen in the void, maintaining its flying posture, even its fur was solidified and didn't fall off.

This extremely eerie scene made Xiao Ai anxious in an instant.

"The Wolf God!"

As she shouted loudly, she looked suddenly at Yu Huaifeng beside her, "You are scheming against the Wolf God!"

As soon as the voice fell, the dark blue ancient sword behind the little girl emitted a clear sword sound.

Clang-

At the moment when the sound of swords rang out, the terrifying sword intent instantly swayed in the sea of stars, and in an instant, it shattered thousands of stars around it.

Amidst the crackling sounds, Xiao Ai in the sparkling starry sky turned black in an instant. Only the ordinary star in front of the Wolf God was not affected by the sword aura and still silently revolved around the center of the galaxy.

However, when Yu Huaifeng was affected by the sword aura, he was chilled all over, and a sense of horror of an impending disaster arose from the depths of his soul.

--Clearly, the little girl in front of him was incomparable to his own cultivation base.

In the midst of the starry sea, Yu Huaifeng swiftly fled a thousand feet away in the blink of an eye, feeling both anxious and helpless as he loudly protested.

"This is where the Wolf God actively came! How could we set traps and ambush the Wolf God? Miss Xiao Ai, please calm down!"

How can the little girl beside the Wolf God be so terrifying?

Although the sword has not left its sheath, it instantly shattered thousands of surrounding stars... You must know, these stars are extremely solid cages.

Since the construction of the Extreme Hell Prison, many demonic giants have been imprisoned within the stars, yet no one has ever been able to destroy them.

But now, the stars that have not been destroyed for tens of thousands of years were shattered in the blink of an eye...

Yu Huaifeng couldn't believe his eyes as he looked at the little girl carrying the bronze ancient sword, once again refreshing his perception of her.

Even a low-cultivated maid who stood beside the Wolf God made a terrifying move... One could only imagine what dreadful scene would unfold if the Wolf God himself were to take action.

However, what was most fearsome was not the little girl before them, but the Wolf God's body completely frozen in the void - a bizarre sight that shook Yu Huaifeng more than the little wolf girl's sword shattered countless false stars.

Could it be that there really were some secrets left by the ancestors within the Extreme Hell Prison?

Even an existence like the Wolf God was affected?

Yu Huaifeng urgently persuaded the little wolf girl in the Star Sea, saying, "Miss Xiao Ai, calm down. I will immediately summon the prison warden to come and investigate the situation. The Extreme Hell Prison was left by our ancestors, and its various wonders are not fully known to us either!"

"The Wolf God might have accidentally triggered some kind of magic array, we should quickly understand the situation instead of rushing into a confrontation!"

Yu Huaifeng's voice fell, and Xiao Ai looked at him coldly. She was about to speak when a tired voice suddenly sounded from behind.

"It's okay, Xiao Ai. I'm fine. Please don't get too agitated."

A figure in white appeared silently behind the silver-haired girl with animal ears. He gently patted her shoulder, calming her emotions, and sheathed the Heavenly Thunder Sword that had already been unsheathed by an inch.

Facing Xiao Ai's astonished eyes, Lu Heng in white smiled slightly and said, "Although I am moved by your concern, you can't move the Heavenly Thunder Sword. Just now, your impulsive action has caused the explosion of thousands of stars, and we might have to spend hundreds of years as laborers in the Mermaid Kingdom to compensate for that."

Xiao Ai was slightly taken aback by Lu Heng's joke, feeling a bit nervous. "Hundreds of years?"

Meanwhile, not far away, Yu Huaifeng was sweating profusely and quickly said with a forced smile, "The Wolf God is just kidding. There are too many stars in the sky, and a thousand or two exploding won't make a difference...no need to compensate."

What a joke! If it weren't for the intervention of the Wolf God who persuaded the hot-tempered she-wolf in time and stopped her from causing the destruction of the entire galaxy, the result might have been catastrophic.

Moreover, the scene of the Wolf God's sudden solidification was too scary. If it weren't for Yu Huaifeng's confirmation that he didn't trap the Wolf God, he would have thought that the Wolf God had been harmed after seeing that scene just now.

However, the fact that the Wolf God returned to normal so quickly may indicate that he had already freed himself from that strange magic formation.

Seeing the Wolf God return and the sword on the little girl's back sheathed, Yu Huaifeng carefully approached and asked, "What was happening with the Wolf God just now...?"

Yu Huaifeng looked at the slowly rotating star behind Lu Heng, hesitant to speak.

Lu Heng sighed and also looked back at the star, saying, "This is a divine thought left behind by the great deity who founded this star field with one hand. If someone who is fated to do so enters this star field, they will inherit the mantle of that great deity."

"Although I am not a destined one, I am somewhat...involved with that deity. So, coming here triggered the deity's divine consciousness left behind."

Lu Heng intended to say there might be some blood relation, but considering it would be too boastful. Moreover, he is currently a wolf demon in flesh, and only his soul belongs to himself, so he changed his words.

Lu Heng explained, "But, I am not a destined one. I couldn't obtain this starry sea, so I came back."

Lu Heng chuckled, "Master Yu, you can go back to the kingdom and select some trustworthy mermaids to come here. Maybe the destined one is in your kingdom. If the destined one is truly in the Mermaid Kingdom, then you can truly control this starry sea instead of using it as a prison for prisoners."

Lu Heng's half-joking, half-serious remark caused Yu Huaifeng to slightly startle, and he quickly bowed down to pay his respects.

"I humbly request the Wolf God to enlighten us in detail."

However, Lu Heng sighed and said, "I have nothing to teach. The divine consciousness of that great deity only glanced at me and then left with a flick of his sleeve, saying that I was not the destined one he was waiting for."

"As for who this great deity is, perhaps you will know when you find the destined one."

"And as for the true divine power of this starry sea, I am unaware. But one thing is certain, it is definitely not used simply to imprison criminals."

"That deity was a highly esteemed being from ancient times. His actions will not be mere trivialities."

Lu Heng sincerely explained, without any falsehood in his words. He indeed only saw a vague figure inside that star's interior.

When Lu Heng appeared, the figure sighed and said, "The Xuanyuan bloodline...it's fortunate that the Xuanyuan bloodline still exists in the world."

"Unfortunately, you are not the one I am waiting for...go back, there is nothing here that can give you what you seek."

After speaking, the blurry figure disappeared directly.

Meanwhile, Lu Heng returned to the Star Sea and saw Xiao Ai, who was about to draw the Heavenly Thunder Sword in anger. He quickly intervened.

This starry sea was left by the great deity Fu Xi. If you blow up the entire place with one sword, what will you do if his relatives and friends come looking for trouble?

From all the situations, it seems like the goddess Nüwa hasn't perished yet...

[I'll Quit Being a God](#)

Chapter 209: Eight Trigrams in the Palm of One's Hand

In the sea of stars, Lu Heng earnestly explained the situation to Yu Huaifeng.

Yu Huaifeng, however, didn't suspect that the Wolf God was holding back.

Or, even if the Wolf God was holding back, they would not be able to verify it.

At the very least, the Wolf God has always treated people with sincerity and would not deceive them in such matters.

The inheritance of ancient gods may be very attractive to others, but for the Wolf God, whose Taoist cultivate has already been established, it is nothing special.

We are all ancient gods, and you want me to inherit your legacy? If I inherit it, won't I be inferior to you? Where would that leave my dignity?

Yu Huaifeng, who is unaware of the owner's identity in this starry sea, speculates on the Wolf God's thoughts.

He even suspects that the Wolf God is not incapable of inheriting this starry sea, but rather unwilling, which is why he came out so quickly.

Judging from the Wolf God's familiarity with this place, it doesn't seem like the first time he has entered this starry sky. Perhaps the ancient god who created this star system is an old acquaintance of his...

While Yu Huaifeng speculated in his heart, he maintained a smile on his face.

"In that case, I am grateful for the guidance of the Wolf God. We always thought this starry sea was left by our ancestors to contain demons. We didn't expect that we were passing over a precious treasure. If it weren't for the Wolf God's guidance, we would have truly wasted it."

Yu Huaifeng calculated in his mind that he must inform Lord about this matter as soon as he returns and select a suitable Mermaid for the Extreme Hell Prison as soon as possible.

If a destined person could truly be found to completely control this galaxy, the national power of the Mermaid Kingdom would become even stronger. Even if they encounter demonic turmoil in the Extreme Abyss again, they will be able to handle it more easily.

Lu Heng nodded and said, "Then, please let Master Yu take me to meet Miss Huo Feng... the mysteries of this place are left to all of you."

Although the inheritance of Fu Xi was tempting, Lu Heng was not very interested.

The thunder technique that Lu Heng cultivated was different from that of the cultivators in the world below. If he wanted to inherit this galaxy, he might have to abandon his thunder cultivation.

This might not be a good thing for Lu Heng. Although inheriting the Great God's legacy was powerful, was it necessarily stronger than cultivating thunder?

This may not be the case.

Now, Lu Heng's study of the Taoist classics has gained some insight. If he continues to cultivate his Heavenly Thunder Way, it may not be inferior in the future.

Perhaps the great god also saw this, so he reluctantly sent Lu Heng away.

Otherwise, it is unlikely that Lu Heng's identity as a descendant of Xuanyuan alone could trigger the Starry Sea Formation specially reserved for those who are predestined.

At least that divine thought, if it was really triggered by the bloodline of Xuanyuan, it could not have spoken out the phrase "Xuanyuan's bloodline" only after Lu Heng appeared, and it would not have let Lu Heng leave with disappointment.

If he was called in because of his Xuanyuan bloodline, he should at least say a few words and catch up, right? The disappointed tone isn't at all like meeting a long-lost relative with the same bloodline.

Lu Heng suspected that he was qualified to inherit this starry sky as per the requirements of the deity.

However, the deity was disappointed as he saw no need for Lu Heng to inherit his legacy and gave up.

Furthermore, although the vague figure claimed to have nothing to offer Lu Heng, a faint Eight Trigrams pattern appeared in the palm of Lu Heng's hand when he left.

Under the spiritual connection, there seems to be a mystery within the Eight Trigrams pattern that is even more suitable for Lu Heng than the inheritance of this starry sea.

However, now that Lu Heng is in the starry sea and in the presence of Yu Huaifeng, he is temporarily unable to trigger the mysteries hidden within the Eight Trigrams pattern.

Having left this starry sea together with Yu Huaifeng, they continued their journey deeper into the starry sea.

The area where Huo Feng is being held is far away, deep in the vast galaxy.

Meanwhile, Lu Heng and his group are only at the edge of the starry sky. To put it in figurative terms, they have just entered the prison gates.

On the other hand, the location where Huo Feng is being held is at the center of this vast galaxy, a massive star emitting a faint blue glow.

With a diameter of nearly a hundred yards, it can be considered a colossal object.

It should be noted that in this ocean of stars, most stars have a diameter of only about three meters.

Upon arriving at this star emitting a faint blue light, Yu Huaifeng took out a seal and said to Lu Heng.

"With the seal in hand, the Wolf God can visit your friend inside this star. But be sure not to linger for too long, as the seal only exists for half an hour, after which the Wolf God will have to remain within the star."

Saying this, Yu Huaifeng looked somewhat worriedly at the little girl beside him.

He wasn't afraid of the Wolf God being trapped inside, considering that it wouldn't take too long to create another seal.

But if the Wolf God were to be imprisoned inside it, that silver-haired wolf-eared girl might get angry and destroy the stars with a single sword strike...Though the stars in this vast and numerous starry sky cannot be reproduced and would be gone once destroyed.

No matter how numerous the stars are, they cannot withstand such turmoil!

Lu Heng saw the concern in Yu Huaifeng's eyes and felt somewhat helpless yet amused.

He patted Xiao Ai on the shoulder and said, "I'll go in later. If I can't come out in time due to delay, please don't destroy the stars here."

Lu Heng's advice made Xiao Ai blush and feel embarrassed.

With a hearty laugh, Lu Heng took the seal handed over by Yu Huaifeng, and went straight to the hundred-meter-diameter blue star ahead.

As he approached, Lu Heng felt a slight burning sensation, but it was not serious.

When he was ten meters away from the star, a portal appeared in the void ahead. Lu Heng stepped in and found himself inside the star.

Unlike what Lu Heng had imagined, the inside of this star was not a gloomy and terrifying prison, nor was it a raging sea of magma, but a vast grassland.

Above the grassland stands a towering, ancient tree without leaves, only with withered branches and aged bark, appearing lifeless and seemingly dead.

And in the form of a woman, Huo Feng now sits cross-legged under this huge withered tree, without shackles or chains, yet afraid to leave the area covered by the tree roots, obediently sitting still under the tree.

Lu Heng's appearance surprised Huo Feng for a moment, then filled her with great joy.

"Senior Wolf God!"

Despite his excitement, he merely stood up and dared not take a step outside.

This scene made Lu Heng realize that this strange withered tree was definitely not as simple as it appeared on the surface.

Huo Feng appears to not be wearing shackles, but it's only because they're not visible.

As he approached the withered tree, Lu Heng smiled and spoke to the woman below from several meters away.

"Brother Huo seems to be quite interested, as you came to play in such a secluded place. It made it quite difficult for me to find you."

Chapter 210: Till Death Do Us Part

Lu Heng's words caused a bitter smile to appear on the elegantly dressed woman.

She let out a long sigh and said, "Since you have come, I presume you know about Huo Feng's condition. Now, I have been possessed by the Moluo Sword and merged with the Moluo Evil Sword. The Mermaid Kingdom wants to kill me, but I have no resentment."

"However, Caiyi is innocent and I am worried about her..."

The woman's plaintive sigh gave off a feeling of a tragic heroine in a play.

Lu Heng laughed heartily and said, "Brother Huo, do you intend to entrust your wife to us? You're calling Caiyi so affectionately... It seems that sharing a home and meals for some time has indeed fostered some feelings. Do tell, have you fallen for her now?"

Lu Heng's teasing made the woman's face instantly reddened, and the melancholic atmosphere of the female protagonist in a tragic drama collapsed in an instant.

"Senior!" Huo Feng looked embarrassed.

Lu Heng chuckled, then became serious, his expression became solemn.

"Well, since I'm here, I can't allow the Mermaid Kingdom to determine your life and death."

"The murderer is Moluo Evil Spirit, not you, Huo Feng. If you still have a chance, I, Lu Heng, will protect you no matter what... Of course, if you are really completely controlled by Moluo Evil Spirit, don't blame me."

After finishing his words, Lu Heng went straight to the woman under the withered tree, "Let me see your situation."

Upon seeing this scene, Huo Feng was immediately shocked and exclaimed, "Senior, please don't approach! This withered tree..."

Boom!

A piercing thunder suddenly sounded, and Lu Heng's white spirit body directly revealed the foundation of the heavenly thunder.

This spirit body was composed entirely of heavenly thunder, but usually restrained its ferocity, so it didn't differ much from ordinary spirit bodies.

However, now Lu Heng gave up suppressing the heavenly thunder and directly manifested it as its most essential power.

In an instant, the light of the heavenly thunder surged, and the aura of thunder was magnificent.

When the lightning-bright white spirit approached Huo Feng, numerous roots spread out from the ground, attempting to strangle and drive away Lu Heng.

However, the white spirit strolled leisurely and didn't even glance at the roots that emerged from the ground. The roots trembled violently upon touching the sky thunder and finally fell to the ground helplessly with no strength to retract back.

White-clothed Lu Heng came directly in front of Huo Feng's face with a smile.

The withered tree that had tortured Huo Feng many times was now completely still.

Behind Lu Heng, the snake-like, lifeless roots lying on the ground weakly and cautiously retracted back to the earth after Lu Heng passed, never daring to show themselves again.

This eerie and powerful withered tree had lost all its arrogance in the face of the Wolf God...

Under the withered tree, Lu Heng extended his right hand to Huo Feng with a smile, saying, "Brother Huo, let me examine your condition while you sit cross-legged and close your eyes."

Looking at the white-robed Wolf God before him, Huo Feng felt a flood of words in his stomach, but obediently followed the Wolf God's order, sitting cross-legged and focusing his mind.

In the next moment, the Wolf God's hand gently rested on her shoulder, beginning to examine her physical condition.

However, just as Lu Heng started, Huo Feng suddenly opened her eyes, with both eyes turning red in an instant.

Some dark and evil energy surged within the woman in front of him. In the face of Lu Heng's arrival, the Moluo Evil Spirit didn't hide at all, directly taking control of Huo Feng's body and revealing its demon shadow.

Under Lu Heng's astonished gaze, the woman before him, full of demonic energy, looked at him coldly and spoke.

"The Wolf God, if you want to save your friend, I can make a deal with you..."

Lu Heng was greatly surprised by Moluo Evil Spirit's words.

"You can still speak? You are indeed not an ordinary sword spirit."

Lu Heng withdrew his hand with a smile and said, "Tell me, what kind of deal do you want to make with me?"

The evil woman, full of evil demon, looked a little wary at Lu Heng's heavenly thunder body and moved back cautiously before speaking, "The Mermaid Kingdom and I have an endless connection. Now that I have fallen into the hands of these Mermaids, I am doomed. But if I am executed by the Mermaids, your friend will not survive either."

"However, if the Wolf God is willing to guarantee and save your friend, not letting the Mermaids kill her, and take us out of the South Sea, I will leave the body of this disciple of the Yun sect and set her free after leaving the South Sea."

"Afterwards, the Wolf God, you can pursue and try to kill me. It will all depend on our abilities... How about it? This should be the only solution that can achieve both goals."

Moluo Evil Spirit's proposal left Lu Heng quite surprised.

"Achieving both goals?" Under the withered tree, Lu Heng in white shook his head and said, "This is by no means a solution to achieve both goals... If I were to follow your proposal and let you, a demonic creature, escape, wouldn't I be aiding and abetting wrongdoing? Every innocent life you take in the future will have its consequences pinned on me."

Lu Heng rejected it by shaking his head and said, "This is not the answer I want, so I cannot agree to your proposal."

Without waiting for the woman to ask, Lu Heng smiled and said, "What Lu Heng wants is actually very simple, which is to save my friend while eliminating you. That is the outcome I desire."

"As for your proposal ... Ha...Lu Heng never negotiates with demons."

"I will try to save Brother Huo, but if he cannot be saved, then I will have to kill you first. I believe Brother Huo will understand me."

Lu Heng's words sounded callous, causing the woman's expression to stiffen slightly.

She looked coldly at the Wolf God in front of her, her eyes disdainful. "So you are a hypocrite... for the sake of your reputation, you can sacrifice even your friend's life. Indeed, it is the style of an ancient monster. It's a pity that this young man mistook you and believed you would save him, but he didn't know he had been wrong from the very beginning."

Moluo's tone was contemptuous, but Lu Heng laughed and said, "Do you think I cannot deal with you being so full of confidence?"

The woman gave a cold smile and said, "I am connected with this young man's soul, unable to be separated. Unless I choose to leave on my own, even if the Emperor himself descended, there would be no hope."

"I am now intertwined with this young man, even until death cannot separate us... if Lord Wolf God doubts it, you may try and see if I am deceiving you."

Moluo Evil Spirit is confident about his close connection with Huo Feng.

Lu Heng smiled slightly and said, "If that's the case, then I'll give it a try."

After speaking, the white-robed soul directly reached out and grabbed the woman full of evil demons in front of him. While smiling, the fierce heavenly thunder immediately merged into the woman's body.

When the thunder that urgently killed the evil demons rushed in, the woman full of evil demons screamed and instinctively tried to break free.

"Are you crazy?!" Moluo Evil Spirit exclaimed in horror, "If you act like this, both I and the young man of the Yun sect will be dead!"

Under the withered tree, the woman full of evil demons tried to struggle. However, the mighty power of the heavenly thunder was overwhelming, and now she didn't even dare to resist in the slightest, afraid that her evil demons would attract even more violent heavenly thunder.

She could only sit there stiffly with horror and pain, letting the man in white catch her and scream miserably.

In the flashing of the pale thunder, the woman's frightened eyes saw the slight smile of white-clothed Lu Heng.

Lu Heng smiled, "Don't worry, you won't lose your soul."

"I am confident in my control of the heavenly thunder. I won't lose control."

Moluo Evil Spirit looked terrified at this.

Even if she wouldn't lose control and lose her soul, she would have unbearable pain!

This white-clothed Wolf God... was clearly intentionally tormenting her!
