[I'll Quit Being a God](#)

Chapter 331: The Refined Moon Demon Lord

The situation in front of them is simply the unluckiest condition for the demonic beings.

Just as they had finally left Yanjing City, before they could even walk out of the danger zone, they were stopped by such a senseless lunatic.

What is this Ao Tianxing's Proud Sky Secret... I have never even heard of such a thing.

Please go away lunatic and find someone else!

There are countless cultivators in Yanjing City not far away, such as the Old Monk Jiu Mie, who is at the pinnacle of immortality, Lu Heng, who wields Thunder from the Imperial Order and holds half of the ancient sword, and then there is Emperor Yan of the Fire Pass Country, and Lianshan Jing... so many cultivators to choose from, but you insist on provoking an ordinary person like me.

Are you mentally ill or something?

Normally, faced with such a provocation from Ao Tianxing, the demon would have already slapped him directly and destroyed him completely.

However, in the current dangerous situation, it had to suppress its anger and still spoke kindly and politely.

"Sir, you are mistaken. I am very weak and have not even opened the Heaven Door, so how could I be considered a cultivator? If you are looking for cultivators, there are plenty in Yanjing City, all of whom are top-notch powerhouses. Each one of them has a reputation that can suppress an entire region."

"If you are looking for cultivators, then go find them. Why waste your time with someone like me?"

The demon endured the insults and kept begging for mercy.

Unfortunately, Ao Tianxing in front of it was not fooled by its tricks.

The brawny man in a scholar's robe snorted coldly and said, "Hesitating and making excuses, shrinking back in fear, it's sickening to watch."

"If you stand up straight and curse me a few times, I'll respect you as a man, and maybe even spare you."

"You carry unparalleled cultivation, yet you play games and hide from me. Today, I'm determined to beat you up!"

With a fierce glare, Ao Tianxing angrily shouted, "Come at me! Either you die today, or I do!"

Wild true energy circulated around Ao Tianxing's body in an instant.

The whistling dragon roar resonated from within him, and one could faintly see a huge dragon roaring behind him.

Such a momentum was indeed extraordinary, causing a slight sinking feeling in the hearts of the evil demons.

Though Ao Tianxing is crazy, his strength is so formidable... Damn it! Must you have a grudge against me?

The evil demon secretly lamented in his heart.

Now, outside Yanjing City, how dare it continue to fight with the madman?

Once the evil aura is exposed, it will inevitably attract nearby wizards.

If the movement is any larger, it will attract the treacherous and hypocritical Wolf God of Hanyu Mountain, and then it will really be over.

How could one's thousand years of cultivation be ruined here?

At this thought, the evil demon couldn't help but curse loudly.

"You madman, are you crazy? What right do I have to fight you? Can't you see that I am busy?"

"I kindly made a concession, but you always push for more... Do you think I have no temper? If you don't step back, I'll make you bleed and die without a burial place!"

The evil demon cursed loudly.

Ao Tianxing laughed heartily and said, "Good! You curse well and with pleasure! Since you are so eager for a fight, it would be impolite of me not to accompany you... Come on! Let's fight happily!"

The burly man, Ao Tianxing, gathered his true energy again and directly let out a terrifying dragon roar, and the huge dragon's howl echoed through the wilderness.

Under the impact of the violent momentum, the evil demon's expression twisted.

You insist on not making concessions, but getting angry at you doesn't work either... Are you really insane?

At this moment, the evil demon also became angry.

Has it ever suffered such humiliation before? Just because it swallowed its anger doesn't mean it had no temper!

As he watched the wild momentum of Ao Tianxing, the evil demon no longer could bear it and directly roared in anger, tearing apart the human skin puppet on its body.

In an instant, pitch-black demonic energy pierced the sky, and the fierce and ominous demonic figure was revealed.

"My name is Refined Moon Demon Lord! Today I shall take your life!"

At the moment his demonic figure was revealed, Refined Moon Demon Lord immediately roared in anger, and his eight dazzling blue arms folded in front of him, each forming a different seal.

Then, they both struck with a palm attack at the same time.

"Augustus Soars to the Sky!"

Amid Refined Moon Demon Lord's roar, eight rounds of pure and bright full moons rose directly along the track.

The cold and gloomy lunar energy swept across the four corners, everything it reached, the trees froze, all things withered, and were directly transformed into ice sculptures.

Within a radius of one thousand feet, it instantly turned into a chilly world resembling ice and snow.

As the first to bear the brunt, Ao Tianxing's entire body stiffened from the continuous impact of the lunar energy from the eight rounds of full moons.

But the more it happened, the more excited his expression became.

"Hahahaha... Refined Moon Demon Lord! Refined Moon Demon Lord!"

Ao Tianxing exclaimed excitedly, "The demonic leader of the Kingdom of All Demons from the North, I never expected to encounter you here in the Fire Pass Country... hahaha! Today, I, Ao Tianxing, will become famous, starting with you, Refined Moon Demon Lord!"

Not frightened by the infamous name of Refined Moon Demon Lord, Ao Tianxing instead laughed loudly as if awakening and invigorating himself for his good fortune.

Seeing his insane appearance, Refined Moon Demon Lord became increasingly furious in his heart.

The eight suspended, bright and clear full moons directly transformed into eight cold rays of light and flew towards Ao Tianxing in front, vowing to take him out with a single strike.

Then, promptly flee from this place.

However, as all eight full moons flew towards him at once, the chilly lunar true qi began to freeze everything, even the space became engulfed in the terrifyingly low temperature. Despite this, only the lower half of Ao Tianxing's body became stiff and he was not otherwise affected.

He let out a loud laugh, as his true qi raged throughout his body. A massive, golden divine dragon flew out from behind him, madly dancing around him.

Facing the eight incoming full moons, Ao Tianxing didn't shy away and went straight to meet them head-on.

"Proud Sky Dragon's Roar!"

With a punch, a loud dragon's roar resounded instantly.

The golden giant dragon charged directly towards the eight full moons in front of it.

Terrifying shockwaves rampaged towards the surrounding mountains and fields. In an instant, several mountain peaks crumbled and exploded, causing miles of forest to turn into scorched earth!

Fortunately, there were no villages near the galloping road where Ao Tianxing intercepted, and the vast aftermath didn't harm the innocent.

However, the surging and billowing magic power, as well as the momentum of the two powers clashing, unavoidably caught the attention of the Yanjing City wizards.

In the distant sky, dozens of figures flew towards here.

Meanwhile, on the galloping road, Ao Tianxing with his half-stiff body covered in ice chips laughed out loud and said, "Great! What a thrill! Come at me again!"

However, after the smoke and dust cleared away, what appeared in front of him was the empty wilderness of the galloping road.

The Refined Moon Demon Lord, whose whole body was filled with magic power, has completely disappeared without leaving even a trace of breath.

Ao Tianxing, who saw this scene, was completely stunned.

"Refined Moon Demon Lord?!"

He was a bit incredulous and shouted loudly, "Come out quickly!"

However, the Refined Moon Demon Lord, who dominated the North, really disappeared without any trace and didn't even stop for a moment. As soon as he struck one hit, he fled to the far distance.

He didn't give Ao Tianxing any chance to continue bothering him.

On the contrary, in the void, the flashing light continued to flicker and dozens of wizards appeared here, surrounding Ao Tianxing.

The leader, Gongshu Jie, had a cold expression and looked down at the madman below. He said,

"Who are you? Why did you use force outside Yanjing City?"

[I'll Quit Being a God](#)

Chapter 332: What Scared the Refined Moon Demon Lord?

Gongshu Jie asked, but Ao Tianxing glanced at him and said,

"Just a mere black-robed Wuzhu...hmph! Not worthy to speak to me!"

After speaking, Ao Tianxing flew up and rushed outside, saying, "Get out of my way! I'm going to find the Refined Moon Demon Lord!"

The moment he flew up, Gongshu Jie's pupils slightly contracted, instantly recognizing this person's extraordinary might.

"Stop!"

The pitch-black Wuzhu robe billowed in the void. In the blink of an eye, Gongshu Jie switched places with the wizard in front of Ao Tianxing, intercepting him in place of the wizard.

At the same time, a surging flame divine power circled around Gongshu Jie, and a fiery red spear appeared in his hand, directly hacking towards the charging Ao Tianxing.

The spear, which gathered flame divine power, carried an unmistakable aura of true fire that no one could ignore.

As the spear thrust forward, Ao Tianxing's eyebrows suddenly jumped, but he didn't retreat. Instead, he punched straight up, roaring as he smashed his fist forward.

"Ao Tian is invincible!"

With one punch, the spear shattered.

Boom -

Amidst the deafening roar, the true fire spear dissipated in all directions.

Ao Tianxing stumbled back two steps, his hands drenched in fresh blood.

"Hmm?!" Seeing his own injury, Ao Tianxing was somewhat surprised. "Interesting..."

However, looking at the black-robed Wuzhu in front of him again, Ao Tianxing shook his head. "It's a pity that your position is too low to earn me any fame. If the second strongest martial artist in the Fire Pass Country, Gongshu Jie, came here, we could have had a good fight. But unfortunately..."

"As for me right now, I only wish to find the Refined Moon Demon Lord!"

After speaking, Ao Tianxing transformed his body into a blaze of light and rushed towards a different direction.

The strength of Wuzhu in front of him was not weak, and a real fight between them wouldn't have an immediate winner. But he didn't have time to waste.

Having finally caught a widely reputed figure like the Refined Moon Demon Lord, he couldn't let go of this great opportunity to make a name for himself.

However, when Ao Tianxing rushed away this time, Gongshu Jie didn't make a move to stop him.

Standing in the void, he silently watched the departing figure of the muscular man, with a cold and indifferent expression.

The wizard beside him looked at him carefully and asked, "Master Gongshu, why didn't you tell this guy your name?"

Gongshu Jie shook his head and said, "Although Gongshu Jie has some reputation, he is not as famous as the Refined Moon Demon Lord in the Kingdom of All Demons in the north."

"But this person in front of me only wants to seek a strong opponent to fight with and try to build a reputation. A mere Gongshu Jie is not weighty enough for him to stay."

"Since we already know the origins of both sides that fought here, we'll just report it when we go back."

As Gongshu Jie spoke, he led the wizards towards Yanjing City.

When leaving, he seemed to sense something, and he glanced slightly in a certain direction before nodding.

And in the direction that Gongshu Jie nodded towards, Lu Heng and Jiu Mie stood in the void, smiling as they both politely gestured in greeting towards the black-robed Wuzhu.

After the monk and the wolf watched the wizards leave, they then drifted lightly to where Refined Moon Demon Lord and Ao Tianxing were fighting.

Looking at the scorched earth in the scene, Lu Heng said, "It seems that this Refined Moon Demon Lord is the demonic cultivator we encountered in the underground magma world."

The demonic talisman in Lu Heng's hand emitted an aura that was somewhat similar to the remaining Taiyin True Qi in this place.

However, Jiu Mie said with confusion, "But this Refined Moon Demon Lord's cultivation is outstanding, he is a top demonic leader that everyone in the Kingdom of All Demons in the north fears and respects. Why did he flee directly now?"

"It spent who knows how long and put a lot of effort into setting up the formation and trying to remove the divine treasure underground, but now it doesn't have any sentimentality and is running so fast..."

The more Jiu Mie analyzed, the more he couldn't understand it.

"This is too strange, isn't it?" Jiu Mie looked at Lu Heng and said, "Could it be that the famous Refined Moon Demon Lord was scared by the world-renowned Wolf God?"

Lu Heng smiled bitterly and said, "Friend, please don't make fun of me. If Lu Heng's name was really that useful, I would not have been targeted by that mysterious demon shadow."

"According to rumors, the strength of this Refined Moon Demon Lord is probably stronger than you and me by a bit. Maybe only Friend Candle Dragon can barely surpass him."

"Such a top-notch leader of the demonic path, how could he be scared off just by hearing my name... there must be another reason."

As Lu Heng spoke, he was also perplexed and puzzled, "But what exactly scared it into this state? In the underground magma world earlier, besides the two of us, there seemed to be... uh... the Green State Cauldron?"

Lu Heng looked at Jiu Mie and thought of a possibility, "Could it be that the Green State Cauldron scared it into this state?"

Jiu Mie frowned and thought for a moment before saying, "There is indeed such a possibility. It seems that this Refined Moon Demon Lord not only knows about the remains of the fire god Zhu Rong in this place, but also knows the true power of the Green State Cauldron..."

"It's just unclear what power this cauldron actually holds that could scare the dignified Refined Moon Demon Lord into such a miserable state."

Jiu Mie was perplexed and Lu Heng shook his head repeatedly.

The monk and the wolf locked eyes for a moment and each sighed to themselves.

"It's a pity that we can no longer catch the Refined Moon Demon Lord, otherwise we could have uncovered some ancient mysteries... What a pity..."

While they lamented, the monk and the wolf turned around and directly walked towards the city, leaving the site behind.

There isn't even a feeling of regret.

Even with the strength of Lu Heng and Jiu Mie, it would be absolutely impossible for them to defeat Refined Moon Demon Lord in a direct confrontation, without using the Heavenly Thunder Sword.

When the Dragon Soul appears tomorrow, it will definitely need The Heavenly Thunder Sword to suppress the evil demons, so it cannot be used at this moment.

So Lu Heng and Jiu Mie were merely boasting.

For Lu Heng and his companions, it was actually a good thing that Refined Moon Demon Lord, who was after all the leader of the demonic way, was scared and fled in a miserable state.

At the very least, the appearance of the Dragon Soul tomorrow would be free from the threat of a great demon.

After returning to Yanjing City, Lu Heng met with Lianshan Jing.

With the Dragon Soul about to appear, if the matter with Refined Moon Demon Lord hadn't happened, Lu Heng and his companions would have gone outside the city to make arrangements by this time.

But now there is still time.

Having driven away a top-notch demon and sealed an upcoming sacred object underground, Lu Heng and his group finally had their hands free to deal with the demons in the Green Hell Cave.

Fifty miles west of Yanjing City, amidst barren mountains, Lu Heng and his companions set up a formation, disappeared into the void, and waited for the demons of the Green Hell Cave to take the bait.

Fifty miles away in Yanjing City, it was all song and dance, and bustling with activity, as if the wizards were completely unprepared for the demons' plan to attack the city tomorrow.

Such a situation was relayed through the demons' scout to a mountain valley two thousand miles away outside Yanjing City.

The Lord of All Demons, upon receiving the message, nodded and said, "Order the city scouts to continue monitoring the situation at the Fire God Temple and report back every hour."

As the critical moment approached and his plan of hundreds of years was about to succeed, even the Lord of All Demons couldn't help but feel a little excited.

Beside him, Wan Rong dressed in a purple outfit, had a cold and sculpted look on her face.

Meanwhile, the three demons of the Green Hell Cave and the Four Elders almost all gathered above the demonic palace below.

Except for Xie Yunniang, who had other plans and didn't arrive, all the key demon leaders of the Green Hell Cave are now present.

I'll Quit Being a God

Chapter 333: Now, the Pressure Has Fallen Upon the Heavenly Demon Lord

Above the demonic palace, a congregation of demons gathered, and the evil demons and demonic aura rose to the sky.

In order to act covertly, the disciples of the Green Hell Cave have always scattered to different places and acted on their own. They only return to the cave at specific times to report to the Lord of All Demons.

For the Green Hell Cave, such a grand gathering of demons like the one happening now is a historic first.

Seated beneath the Lord of All Demons, according to seating order, were General Tiger Dragon, Tiancan Taoist, and Yin Yue Bone Demon, the three demon generals.

Next are Xiao Juechen of the Four Elders, Niu Tie Yi, and Madame Green Bamboo.

As for Xie Yunniang, she was not present at the seating arrangement.

Beneath the Four Elders were the demon generals from various caves and lairs, all of them powerful demons. Even the weakest among them had the strength of a fellow Wuzhu in a city.

With such strength, even when looking all over the world, they were a powerful demonic force, fully deserving of being called a gathering of talents.

But now with all the demons gathered together, Niu Tie Yi growled angrily and said, "Xie Yunniang has always been lazy and indifferent to the affairs of the cave. I have been in the Green Hell Cave for eighty years, and have been promoted by the cave master to the position of one of the Four Elders, but she has always been lazy and shirking responsibilities. I have long been displeased with her."

"I never expected that she would be lazy and selfish as usual, but even on such an important day for the demon cave, she didn't bother to show up... This Xie Yunniang! How dare she hold the same position as I do - one of the Four Elders? I, Old Bull, cannot accept this!"

The loud scolding of Niu Tie Yi caused the whispering of the demons below.

Having just listened to the scout's report, the Lord of All Demons at the head of the group now saw Niu Tie Yi getting angry. Instead of speaking up to stop him, the Lord whispered to his wife Wan Rong who was by his side.

It was as if he was indifferent to everything below.

And after Niu Tie Yi finished speaking, Madame Green Bamboo who had a good relationship with Xie Yunniang spoke up.

She coldly said, "Niu Tie Yi, are you being too meddlesome? The Demon Lord has already stated that Yunniang has other important matters to attend to, and it is normal for her to not come. We should understand this."

"You simply won't let it go. You're such a petty man for a grown adult... I can see you're jealous that Yunniang has a higher seat than you and you want to take advantage of the situation to push her down, isn't that right?"

Madame Green Bamboo's few words made Niu Tie Yi's eyes turn bloodshot and caused him to slam the table and shout out in anger.

"What the hell are you talking about, Madame Green Bamboo?! Do you think I'm that kind of person?"

"I'm only pointing out that you two unscrupulous scoundrels have been taking high positions without doing your duties properly! If we're talking about cultivation, there are several demon generals in this hall whose abilities are comparable to yours."

"But when it comes to merit, which demon in this hall isn't stronger than you two scoundrels?"

"You and Xie Yunniang are both constantly up to no good, not doing what you're supposed to. That Xie Yunniang is always running off and can never be found when there's work to be done."

"And you, who keeps that little fox that only cultivates the righteous path, and talks about cultivating the righteous path day in and day out... It's really ridiculous."

"You're a demonic creature, do you really want to raise a righteous goddess?"

Niu Tie Yi angrily rebuked, "The most outrageous thing is that you were aware of the Wolf God of Hanyu Mountain's situation, but failed to report back in time, but instead ran to the South Sea... Such a selfish and self-interested behavior is tantamount to desertion in the face of danger. If it weren't for the magnanimity of the lord, you would have been sent to the Demon-Slaying Platform long ago."

Niu Tie Yi scolded angrily, but Madame Green Bamboo didn't yield at all, saying, "How many times have I said it? I am taking Xiaoxiao to the South Sea to seek medical treatment! We are going to look for Wu Gu, one of the ten witches of the Spirit Mountain, to cure Xiaoxiao!"

"What deserting the battlefield? After taking Xiao Xiao to see the doctor, didn't I immediately come back?"

Madame Green Bamboo retorted sharply, "If we are talking about dereliction of duty, isn't it you, stupid ox, who committed a more serious dereliction of duty? The Demon Lord commanded you to retrieve the offspring of the Wolf God, but you were only able to bring back one because you were ambushed halfway through."

"If you weren't so foolish, the Wolf God of Hanyu Mountain wouldn't have descended to mortal world!"

Up on the Demon Palace, there was endless noise and commotion.

After watching for a long time and waiting for both sides to argue enough, the Lord of All Demons finally spoke up and said, "As Yunniang has stated that she is still young and doesn't need to prolong her lifespan, the battle for the dragon soul this time can naturally be excluded from her."

"Now, with the great battle imminent, everyone should hold back their temper and work together to take the dragon soul first. We can discuss the rest later."

Watching the various demon generals below, as well as the Four Elders and the Three Demon Generals, the Lord of All Demons said, "After we take the dragon soul, I will rearrange the seating order based on merit."

"If anyone is dissatisfied with the current seating order, we will discuss it after we take the dragon soul... Does anyone have any objections, brothers?"

The Lord of All Demons released a major news with a casual tone.

In an instant, all the evil demons on the Magic Temple became excited.

They all stood up and bowed, saying, "We all listen to the orders of the Demon Lord! No more words needed!"

"Good!" The Lord of All Demons stood up and said, "With your help, I believe that this dragon soul will surely belong to the Green Hell Cave!"

On the Magic Temple, after the oath-taking ceremony, the demons left to mobilize and prepare for tomorrow's siege.

After the meeting dispersed, the Lord of All Demons walked in the midst of the mountain stream, watching the scenes of rising demon qi around him, and said to Xiao Juechen beside him.

"Is there any news from the Heavenly Demon Lord's side?"

The departure of the Wolf God's daughter with the Heavenly Demon Lord is the biggest concern in the mind of the Lord of All Demons.

After all, the Heavenly Demon Lord will have to face the Wolf God of Hanyu Mountain.

Even though the Lord of All Demons knew that the Heavenly Demon Lord had an extraordinary origin and was an ancient demon from the ancient era, and was also an acquaintance of Lian Cangqing, he couldn't help but feel uneasy at the thought of the Heavenly Demon Lord facing the Wolf God of Hanyu Mountain, no matter how powerful he was.

Regarding this, Xiao Juechen said, "After the evil lord left, there has been no news from him. However, according to the reports of the scouts in Yanjing City, the Wolf God of Hanyu Mountain, who arrived at Yanjing City recently, suddenly left the city today and it is still unknown where he went, as he hasn't returned yet."

Xiao Juechen said, "Moreover, when the Wolf God left, he took his sword servant Xiao Ai with him. Both of them left in a hurry and the wizards of Yanjing City didn't even have the chance to bid them farewell."

Xiao Juechen's report made the Lord of All Demons breathe a slight sigh of relief.

He said, "It seems that the evil lord's plan has begun. However, it is unknown whether its plan can really succeed in trapping the Wolf God..."

Xiao Juechen said, "The evil lord is very powerful and it once faced the Wolf God directly, causing the death of one of its disciples. Therefore, it knows the depth of the Wolf God's strength. It must have complete confidence in speaking out, otherwise it wouldn't take the risk."

"Sigh... I hope so," the Lord of All Demons shook its head, hands behind its back, looking up at the demonic aura that occasionally drifted away in the sky, and said, "After hundreds of years of planning, I have finally witnessed the appearance of the Dragon Soul in this world."

"Even for me, I now can't help feeling a bit at a loss,"

"May everything go smoothly on the evil lord's side, and successfully trap the Wolf God of Hanyu Mountain... at least delay it and prevent it from quickly returning to provide support,"

"Otherwise, we really have to give up the vast foundation of the Green Hell Cave."

In the tone of the Lord of All Demons, there was a slight touch of reluctance and regret.

[I'll Quit Being a God](#)

Chapter 334: The Sky Darkened by the Demon Cloud

Although the initial plan was to abandon the foundation of the Green Hell Cave and focus only on seizing the Dragon Soul and taking away many key demon generals.

However, the appearance of the Heavenly Demon Lord gave the Lord of All Demons hope for a win-win situation.

If we could not only seize the Dragon Soul, but also preserve the main forces of the Green Hell Cave, and then lead the demons out of the Fire Pass Country borders, it would provide more power for when we seek revenge on the beast that harmed my wife in the Cangwu Abyss.

On the second day, early morning.

As the first ray of sunlight shone into the mountain stream in the morning, the hidden demons in the stream were already lined up neatly, ready to depart.

However, the number of evil demons appearing here is not many.

The numerous demons under the Green Hell Cave are now in another location, preparing for the siege.

Among the three demon generals, Yin Yue Bone Demon and Tiancan Taoist have gone to lead troops, only General Tiger Dragon remains here.

Among the Four Elders, Niu Tie Yi has also joined the main forces, leaving only Madame Green Bamboo and Xiao Juechen by the side of the Lord of All Demons.

Although the number of evil demons here is not many, they are all the backbone and elites of the Green Hell Cave. Led by the close guards of the Lord of All Demons, many demons have no weak ones.

The Lord of All Demons stood on a high platform, looking down at many confidants below, feeling slightly excited.

But it didn't say anything more, and instead took a deep breath, then waved its hand decisively.

"Let's go!"

As soon as the order was given, General Tiger Dragon on the side let out a huge dragon chant, blowing the horn of the Lord of All Demons.

The desolate sound echoed through the mountains.

The gloomy demonic atmosphere, accompanied by the sound of the horn of the Lord of All Demons, surged in the mountain stream and directly engulfed all the evil demons in the valley.

Immediately after, the sound of the demonic horn faded away, but the formation of the Lord of All Demons' horn had already taken shape.

Under the heavens, many demonic cultivators slowly shed their demonic energy, transforming into ordinary cultivators.

With this disguise, even if one is usually near Yanjing City, which is close to the capital of the Fire Pass Country, it will certainly not attract the attention of wizards.

Not to mention that in the other direction of Yanjing City, where demonic forces are surging and evil demons are running rampant in the wilderness, wizards are busy dealing with the demon attack on the city. They have no leisure to pay attention to this group of less than one hundred ordinary cultivators.

Under the daylight, many demonic creatures led by the Lord of All Demons directly soared into the sky and headed towards the distance in a grand manner.

Not afraid of the scrutiny of wizards at all.

And in the wilderness to the east of Yanjing City, the black miasma is pervasive and the demonic clouds are surging. The dark clouds are coming from the east and are constantly advancing towards Yanjing City.

The fierce and evil demonic aura ripples through the wilderness, frightening the rare and exotic beasts into a frenzy of escape.

Amidst those dark demonic clouds, densely packed demonic figures can be seen, all of them wearing battle armor and wielding demonic weapons, shouting and bellowing in a terrifying and cacophonous manner.

Among the demonic soldiers, flags fluttered in the breeze, and giant monsters ran rampant.

Deafening shouts resounded through the mountains as the demonic clouds advanced unabatedly.

"Break through Yanjing City! Flood the Fire God Temple!"

"Break through Yanjing City! Flood the Fire God Temple!"

On the earth, countless creatures who witnessed this scene all had their faces change color in shock.

Whether they were wizards from the Fire Pass Country or ordinary cultivators passing by, they all panicked and hastily retreated when they saw the pitch-black demonic clouds obscuring the sky and approaching.

Everyone who saw this scene knew in their hearts that the witchcraft war, which had lasted for years within the Fire Pass Country and caused countless casualties on both sides, was likely coming to an end today.

The monsters from the Green Hell Cave, which had always behaved mysteriously, were now directly leading their army towards Yanjing City without any sign of hiding or avoiding.

This is clearly a plan to gather the forces of all the monsters from the Green Hell Cave in order to have a fight to the death with the Fire God Temple, and thereby bring this witchcraft war to a complete end.

Does the Lord of All Demons already have the certainty of victory and intend to capture Yanjing City today?

On the ground, many cultivators panicked and fled, and through various means each spread the news of the monster's attack on the city.

Soon, not only Yanjing City, which was thousands of miles away, but also other cities farther from this place and cultivators who were not in Yanjing City, received this horrifying news one after another.

The Lord of All Demons, who had been hiding his strength and avoiding battles for many years, is finally going to gather the power of all the demonic caves and have a decisive battle with the Fire God Temple today!

Under the sky, the overwhelming demon clouds cover the sun and the sky.

Wherever the demon clouds went, all the villages, houses, and all living beings were urgently evacuated by the warriors who had come after hearing the news.

The enormous demon clouds advanced for over a hundred miles, only to see empty villages with desolation and not catch a single living person.

The demons who had been looking forward to a hearty meal before the war were immediately filled with disappointment and resentment towards the wizard of Fire God Temple.

You think you can move people away? Can you move the entire Yanjing City away? The tens of millions of creatures in Yanjing City are all going to become food today!

Within the demon clouds, the evil demons were roaring with anger.

Failing to catch any bloodthirsty creatures made these demons extremely restless, to the point that the demon clouds advanced even faster.

Incited and encouraged by the demon generals, all the demons were ravenous and eager to rush into Yanjing City, killing and devouring every living person they saw.

In the desolate and turbulent wasteland of demon clouds, on a barren mountain, there were two figures standing quietly at the top - one tall and one short. Together, they watched in silence as the horrifying sight of the pitch-black demon clouds covered the sky and passed by.

However, there was not the slightest fear.

Slightly small in stature but with a bulky body, Mother Ghost sneered, "Xieying, it seems that today is the day you will put your plan into action. The Lord of All Demons cannot contain his desire to attack the city and has put up such a huge front. Today will surely not end well."

"With the relationship between Emperor Yan and the Wolf God of Hanyu Mountain, the Wolf God will surely come to lend a hand today."

"At that time, there will be the demons of the Green Hell Cave to attract the attention of the Wolf God in the front. Finally, there will be space to carry out your sinister plot."

Beside Mother Ghost, the sinister figure with indistinguishable features and aura shook its head and spoke.

"Although the demonic clouds are vast and mighty, my intuition tells me that the Lord of All Demons is not among them. Although these demonic soldiers and evil generals are numerous, they are all weak before the Wolf God of Hanyu Mountain."

The evil shadow said, "After all, according to legend, the Wolf God can command the heavenly thunder. In the face of this group of demons attacking the city, he doesn't even need to do anything. He just needs to summon the thunder clouds and that will be enough to deal with these little devils with their skyrocketing evil energy."

Looking at the demonic clouds in the sky, the evil shadow said, "Whether or not we can use that secret technique today depends on the Lord of All Demons' subsequent actions."

"Since he dared to make a move today, he must have been confident in dealing with the heavenly thunder commanded by the Wolf God; otherwise, he wouldn't dare come here for a decisive battle."

"But it is also not impossible that it made a stupid decision to actively come and seek death."

The evil shadow laughed and said, "Either way, we'll just watch this group of demons perform from the shadows for now. If we don't get an opportunity, we can always wait until the next time."

"Nowadays, within the Fire Pass Country, there are many demons targeting the Wolf God of Hanyu Mountain, not just me."

[I'll Quit Being a God](#)

Chapter 335: Miss, Please Wait

In the wilderness, the sinister figure and Mother Ghost watched the terrifying sight of endless demonic clouds covering the sky without any emotional response.

However, the demons hidden intentionally among the mountains below were not detected by the demons within the dark clouds.

Of course, even if they had noticed, they wouldn't have paid any attention.

After all, given the chaotic situation and the influx of monsters within the Fire Pass Country, the Green Hell Cave's flamboyant mobilization will certainly attract the attention of various parties.

Not far away from the vast demonic clouds, in the void, a cold-faced woman dressed in a scarlet robe was staring apathetically at the Green Hell Cave's procession of demons, her presence openly displayed with no attempt to conceal it.

The appearance of this scarlet-clad woman was detected by many demons within the demonic clouds.

However, none of the demons took the initiative to provoke her.

After all, this woman didn't possess the Fire God's divine power and was not a wizard of the Fire God Temple.

The current situation within the Fire Pass Country is chaotic, with not only numerous demons and evil creatures coming around in response to the rumors, but also many foreign cultivators coming to join in the fun.

Although these cultivators cultivate orthodox cultivation, not every cultivator bears a deep-seated hatred towards evil and would fight to the death with the Green Hell Cave.

This scarlet-clad woman is of high cultivation level, and since she didn't take the initiative to provoke them, they were also too lazy to bother with her.

Of course, if General Tiger Dragon of the Three Demons Army or Xiao Juechen of the Four Elders were here, they would be terrified and dumbstruck upon seeing this scarlet-clad woman.

However, both Xiao Juechen and General Tiger Dragon are absent, and leading the troops here are Yin Yue Gumo and the Tiancan Taoist, alongside with Niu Tie Yi.

As a result, the enormous demonic cloud covered the sky and obscured the sun as it passed, but all the evil creatures ignored the scarlet-clad woman in the distance.

From a distance, Lian Cangqing watched the procession of the evil creatures and the Demon Sutra passing by. However, she couldn't find the figure of the Heavenly Demon Lord within the demonic cloud, which caused her to furrow her brows slightly.

She was about to leave when she suddenly noticed a streak of light rushing towards her from a distance, intercepting her directly.

The one in the streak of light was a burly man dressed in a scholar's robe.

Facing Lian Cangqing, the man grinned and clasped his fists, saying, "My name is Ao Tianxing, the unrivaled and solitary figure who strides across the world. I wonder what is the name and origin of the lady I'm privileged to meet."

This strange man suddenly striking up a conversation caused Lian Cangqing to furrow her brows slightly.

Because she discovered something strange - this ill-intentioned guy had surprisingly clear eyes and no evil intentions towards her, showing that he was not a frivolous person who came to harass her.

If he wasn't coveting her physical appearance, then what did the other party want by abruptly rushing towards her like that?

Slightly puzzled in her heart, Lian Cangqing remained indifferent and said, "It's none of your business!"

After speaking, Lian Cangqing intended to leave.

However, she had just turned around when a loud dragon roar came from behind.

Immediately after, the fierce wind rushed towards her face.

"Miss, please wait a moment!"

The ferocious fist wind, carrying a roaring golden dragon, flew past Lian Cangqing.

With a serious expression, Ao Tianxing said, "I can tell that you are exceptional, coming to see the invading demonic army in such dire circumstances; you must not be an ordinary person."

"If you were to tell me your name and have a good fight with me, it would not be in vain for your extraordinary cultivation base."

Ao Tianxing's words made Lian Cangqing wear an odd expression.

She looked at the man in front of her again and said, "So you're a madman...good! Since you're looking to die, let me give you a technique."

Without waiting for Ao Tianxing's response, Lian Cangqing raised her fair right hand and struck a palm as she finished speaking.

"Miss...pfft..."

Before Ao Tianxing, who had just spoken, could react, he was blasted away by a tremendous palm force, turning into a brilliant meteor that disappeared into the sky.

Lian Cangqing watched as the brilliant light crossed the sky and knew that this strike didn't take away her opponent's life.

It seems that although this lunatic who calls himself Ao Tianxing is insane, his strength is quite impressive.

However, she always despised crazed people like him, therefore she could not be bothered to pay him any attention.

Directly leaving this place, Lian Cangqing flew towards the place where Long Hun is about to appear.

Since the Heavenly Demon Lord is not here, they might be found where Long Hun appears.

That old guy has also survived the Earthly Catastrophe, which is a pleasant surprise for Lian Cangqing.

Because of this, she can personally slay this old demon and vent her hatred!

Beneath the azure sky, Lian Cangqing departed with the power of escape light.

Meanwhile, in Yanjing City, upon receiving the news of the demon invasion, the wizards of the Fire God Temple, who were already prepared, immediately convened and formed a defensive formation for Yanjing City, closing the city gates and cleaning up the streets.

Yesterday's bustling and lively Yanjing City is now deserted and desolate, with empty and cold streets.

People are hiding in their own homes, afraid to go out without permission.

As for the capture of demon spies, it began straight away at the moment of locking down the city.

In these recent days, the intense activities of the demon spies were almost completely visible to the prepared eyes of the Fire God Temple. However, these spies were not dealt with in order to deceive the Green Hell Cave.

Now that the demons are invading and Yanjing City is locked down, the impending battle cannot tolerate these scoundrels who are acting as henchmen for the demons and allowing them to frolic around any longer.

Beneath the suspended island, one floating boat after another rapidly flew by, and one radiance after another fell into the residential area below.

Each beam of radiance that falls represents a demon lair being destroyed and several demon spies being captured.

High up in the sky, within the Fire God Temple, Lianshan Yue, who acted as the commander-in-chief of all city affairs, now stood beside the enormous sacred fire. Through the sacred fire, she was overlooking the entire scenery of the city and occasionally issuing new commands.

Although it may seem like nonsense in front of Lu Heng, as the head of the royal family and bearing the title of "Lord of Yan Country," she is one of the top authorities in power within the Fire God Country.

There are no more than five people within the Fire God Temple who have the power to surpass her.

As someone who holds a high position, when dealing with important national affairs, she would naturally not act recklessly. Instead, she would skillfully and efficiently handle all matters within the city.

She issued one command after another - detaining and catching demon spies, stabilizing the situation within the city, guiding residents from outside the city to take refuge, deploying the Flame Capital Great Array, and summoning wizards to prepare to block and kill demons...Under her direction, many matters were being carried out in an orderly manner.

There were no mistakes or flaws.

At this moment, in the Green Hell Cave, located in the mountains fifty miles to the west of Yanjing City, there was no one paying attention to the situation where the demon army was at the border.

The demon clouds covered the sky and came from the east, causing all eyes in this world to now turn towards the east, awaiting the final battle between the demon army and the wizards.

These mountains and forests, far away from the battlefield, remained as peaceful and quiet as ever.

The birds and beasts in the mountains continued their lives as usual, with no one aware of the impending crisis that was to come.

And it was precisely in this peaceful atmosphere that dozens of figures suddenly appeared in the mountains all at once.

They stood in an open space in the mountains and scanned the empty forests around them. As planned, they didn't attract the attention of the wizards from the Fire Pass Country.

The leader, the Lord of All Demons, spoke, "Prepare to draw the earth's qi and gather the dragon's soul!"

[I'll Quit Being a God](#)

Chapter 336: Lu Heng Who Made Others Feel Desperate

The so-called manifestation of the Dragon Soul in the mortal world doesn't refer to the actual soul of a divine dragon.

Dragons have always been elusive and difficult to find in the mortal world, hence the saying "a glimpse of a divine dragon's head but not its tail".

Even in the mortal world, it is extremely rare to see a dragon, such as a scaled dragon that transforms from a snake through cultivation, or a dragon that sheds its skin to become a true dragon with the ability to control the clouds and rain.

The Lord of All Demons is waiting for the manifestation of the Dragon Soul, which according to rumors refers to the Earth Dragons instead of true dragons.

Earth Dragons are born from the essence of the earth and nurtured by the essence of heaven and earth. Although they are not true dragons, they possess unparalleled power and limitless uses.

However, the birth of each Earth Dragon requires a long period of nurturing by the earth.

Lord of All Demons was accidentally able to obtain that ancient scripture which records the existence of Earth Dragons hidden within Fire Pass Country.

Earth Dragons were discovered in ancient times. It is only now, after numerous cultivation bases, that they are able to break through the earth and ascend to the sky.

The length of time required to nurture an Earth Dragon is evident.

Once an Earth Dragon breaks through the earth and ascends to the sky, it immediately emerges from the clouds and roams the earth and sky, never to be found again.

Therefore, the opportunity to seize an Earth Dragon's soul only comes once. Once it is missed, there is no chance to recover it.

For the sake of today's plan, the Lord of All Demons has expended tremendous effort and he dares not take it lightly.

It personally leads the situation, sets up formations to gather earth energy and attract dragon souls. It also remains on guard against any potential meddling from the Fire God Temple wizards in Yanjing City.

Although the wizards in Yanjing City should not have time to care about what is happening in this remote mountainous area, it is neither too far nor too near - a distance of fifty miles.

As long as nothing unexpected happens during the process of them taking away the dragon soul, the wizards of Yanjing City will be helpless to stop them.

"Hmm?!"

Just as the Lord of All Demons thought of this, he suddenly sensed something and his facial expression slightly froze.

Suddenly, scorching hot flames rose up from the mountains and forests.

This breath...

"Not good! There's an ambush!" The Lord of All Demons' face changed greatly.

And just as it opened its mouth, the scorching hot flames rising up from the mountain and forest had already turned into a massive net, enveloping and falling down from the sky.

In an instant, it separated all the demons in the Green Hell Cave.

The figures of wizards led by Lianshan Jing appeared in the sky and mountains, and at some point, had surrounded the demons of the Green Hell Cave in the middle.

The Holy Fire Demon Binding Net, led by Lianshan Jing, is far more powerful than the usual methods of a Wuzhu.

On that crimson binding net for demons, the flowing lights and vibrant flames were so intense that even the top demons present, who were peak cultivators of demonic cultivates, didn't dare touch it without cause.

The Lord of All Demons who saw this scene had an unsightly expression and could barely believe everything that his eyes were seeing.

"This is impossible!"

It looked incredulously at Emperor Yan and Lianshan Jing in the void, roaring in anger, "You cannot know my plan! You cannot be here!"

The plan of the manifestation of the Dragon Soul in this world is an absolute secret of the Green Hell Cave.

And the location of the manifestation of the Dragon Soul in this world is even more confidential. Before arriving at this place, not many people, not even the confidants of the Lord of All Demons, knew about it.

But Emperor Lianshan Jing, who is in front of him, was able to come to this place where a trap has been set up in advance. Clearly, they were well-prepared!

The Lord of All Demons cannot accept this fact.

As soon as the Lord of All Demons roared in anger, dark clouds began to gather continuously in the sky above.

Soon, a huge cluster of disaster clouds appeared over the heads of all the demons, shrouding the entire forest.

Lu Heng's figure appeared under the disaster clouds, smiling as he bowed down to the Lord of All Demons below and said, "Hanyu Mountain's Lu Heng, greetings to the Lord of All Demons."

In the instant Lu Heng appeared, the Lord of All Demons suddenly narrowed his eyes, immediately "understanding" the karma.

"The Heavenly Demon Lord was killed by you?!"

Staring intently at the Wolf God, the Lord of All Demons let out an unbelievable yell.

The current situation clearly showed the failure of Heavenly Demon Lord's plan to exile the Wolf God...and not only had it failed, but it also revealed the secret of the appearance of Dragon Soul in the world!

Otherwise, there would be no way to explain why the Wolf God of Hanyu Mountain, who should have been led away, appeared here.

And during these days, why did the Heavenly Demon Lord suddenly disappear without any news!

The Lord of All Demons was seething with fury, while Lu Heng under the calamity clouds looked slightly surprised.

He was planning on revealing the fact that he is the Heavenly Demon Lord, but didn't expect the Lord of All Demons to have such a suspicion.

Looking down at the many demons on the ground, watching the fear in their eyes, and the Lord of All Demons's eyes filled with both fear and hatred, Lu Heng thought for a moment. Instead of explaining the situation, he acknowledged the matter according to the demons' speculations.

Smiling, he said, "So it's called the Heavenly Demon Lord? Ha...such an arrogant name, but it does match its style of doing things."

"Being a demon, yet attempting to set traps for me, but it doesn't know that its little tricks are no different than child's play in my eyes."

"Challenging me alone is like a flea shaking a tree, it's ignorant of its own insignificance. Although bravery is commendable, one could also call it foolishness..."

Finishing these words casually, Lu Heng looked at the increasingly fearful eyes of the demons below and said with a smile, "Now that the dust has settled, if you surrender, at least you can have a good death."

"Otherwise, both body and soul will perish under the lightning tribulation! It will be an unbearable agony!"

Lu Heng's low tone instantly made the demons in the mountains and forests tremble in fear.

Even the Lord of All Demons is somewhat out of control, with eyes almost bursting with anger.

The Lord of All Demons had learned firsthand the strength of that person, the Heavenly Demon Lord, an absolute master of the demonic path, far superior to it.

Even though the Heavenly Demon Lord was so powerful, he was defeated by the Wolf God. Listening to the tone of the Wolf God, it seemed that the Heavenly Demon Lord's defeat was worthless and didn't even cause any harm to the Wolf God.

This situation completely dealt a fatal blow to the morale of the demons in the Green Hell Cave.

Faced with the Wolf God Lu in the void, the demons almost couldn't conjure up any thoughts of rebellion.

Beneath the disaster clouds, there was only anxious despair in the hearts of the demons.

Is the Wolf God of Hanyu Mountain truly so powerful? Is there really no one who can rival him?

Even the Lord of All Demons couldn't help but tremble at this moment and realized that he was in a desperate situation.

But at this moment, a woman's cold voice suddenly sounded in the distance.

The voice carried an undisguised icy killing intent.

"You said you killed the Heavenly Demon Lord?!"

Under the sky, the figure of a red-clothed woman in a bloody dress suddenly appeared.

As soon as she appeared, she stared coldly at Lu Heng under the calamity clouds and angrily asked, "Say it again, did you kill the Heavenly Demon Lord?"

The sudden appearance of Lian Cangqing instantly brought a slight change to the atmosphere of despair and silence.

The demons and wizards all looked in astonishment at the red-clothed woman, wondering how she had suddenly appeared.

It's unclear where this woman got the courage to provoke the Wolf God of Hanyu Mountain...

Upon seeing this scene, the Lord of All Demons felt delighted and exclaimed loudly.

"The Wolf God Lu! Even if you can kill the Heavenly Demon Lord and get your daughter back, what about your Hanyu Mountain? Are you just going to abandon it?"

As Lu Heng watched in surprise, the Lord of All Demons laughed loudly and said, "In our actions, we always strive to be safe, how could we only have the Heavenly Demon Lord as our backup?"

"In your Hanyu Mountain, a great disaster is about to happen! If you don't rush back immediately, I'm afraid that all of the disciples at the mountain gate will be wiped out!"

[I'll Quit Being a God](#)

Chapter 337: Xie Yunniang

Inside the Holy Fire Demon Binding Net, the Lord of All Demons burst into loud laughter.

The spoken words also made Lu Heng's heart sink slightly.

In Hanyu Mountain... Could it be that the Lord of All Demons has also sent demons to cause trouble there?

Outside Hanyu Mountain, the Wind Strike Department of the Li Tribe is adjacent to it.

Priest Li Po of the Wind Strike Department, according to the information Lu Heng received, is the most experienced and powerful among the nine Priests of the Li Tribe.

Although the girl Qian appeared mischievous, she possessed extraordinary abilities and strength to fight against innate cultivators. She is the seedling for the next Priest.

Not to mention, every member of the Wind Strike Department cultivated divine abilities, and the strength of each person was remarkable.

It is precisely because the Wind Strike Department is stationed in Hanyu Mountain that Lu Heng can descend to the foot of the mountain without any worries in the current chaotic situation.

But now the Lord of All Demons has mentioned Hanyu Mountain... Could it be that it has other plans and has summoned demons to attack Hanyu Mountain?

Knowing that the Wind Strike Department is stationed in Hanyu Mountain, they still dare to provoke...

Lu Heng lowered his head and looked down at the Lord of All Demons below, saying, "If anything unexpected happens to our disciple, even if you escape to the ends of the earth, I, Lu Heng, will never give up until justice is served!"

Lu Heng's tone was casual and there was no excessive emotion.

However, such a cold warning made the Lord of All Demons tremble slightly, feeling great pressure.

The Wolf God of Hanyu Mountain... will never give up until the end of the earth...

Such a warning and threat are enough to keep all the demons in the world awake at night.

However, despite the critical situation, the Lord of All Demons cannot show any signs of weakness.

It forced a smile and said, "If the Wolf God has the spare time to threaten here, it is better to immediately return to Hanyu Mountain. With the Wolf God's cultivation and speed, perhaps there is still time to make it back."

After the Lord of All Demons finished speaking, Lianshan Jing on the side immediately spoke, "With us here, the Wolf God doesn't need to worry and can return to check on the situation in the mountain."

If the disciples of the Wolf God have accidents because of this, no one will be able to bear the consequences.

However, Lu Heng shook his head and said, "It's okay. If any demons dare to go to Hanyu Mountain, it is like throwing themselves into a trap."

As soon as Lu Heng finished his sentence, under the ground about 1500 kilometers away from this place, a huge white wolf suddenly opened its eyes and leaped out of the darkness.

During this trip down the mountain, Lu Heng's physical body had been following him behind, about a thousand kilometers away, hidden in the dark and keeping watch.

If that evil shadow hidden in the dark could really use its evil techniques to harm Lu Heng's soul, his physical body can promptly arrive to support Xiao Ai and use the Heavenly Thunder Sword to kill the enemy.

Catch the evil demon hidden in the dark off guard.

But now that Jiu Mie and Lianshan Jing are by his side, even if Lu Heng's soul is damaged, he doesn't have to worry about Xiao Ai's safety. He can directly control his physical body remotely, and fly to Hanyu Mountain with great speed.

This place is about one day's journey away from Hanyu Mountain if flying normally.

However, Lu Heng possessed a top-level body technique called "Floating Light and Shadow", which allows his physical body to arrive at Hanyu Mountain within half an hour.

Above the sky, the pale lightning flashes rapidly, and the speed of the "Floating Light and Shadow" technique reaches its limit.

Even passing cultivators would not be able to see the figure inside the light if they caught a glimpse of the lightning flashing across the sky.

And in the direction where the thunder light disappeared into the sky, there are new guests arriving at the remote and quiet Hanyu Mountain today.

In the midday sunlight, Sun Yan, a white ape dressed in ordinary clothes but covered in white fur, was sweeping fallen leaves in front of the Wolf God Temple with a broom.

As the autumn season grows stronger, the number of fallen leaves in Hanyu Mountain gradually increases.

The withered yellow leaves appear even more dull yellow under the blazing sunlight.

In the peach orchard at the back of the mountain, the fat bird with bloodshot eyes stood on a tree branch with one leg, lazily yawned, closed its eyes and went back to sleep.

Since Lu Heng left, several peaches had ripened on the trees in the peach orchard, but no one went to pick them.

And as more peaches ripened, it also meant that there were more cracks on the peach wood staff buried under the peach tree...

Amid the turmoil and fierce conflict of the outside world, everything in Hanyu Mountain remains as peaceful and serene as always.

But at a certain moment, the fat bird sensed something and suddenly opened its eyes, looking towards the direction of the mountain gate.

A woman's figure slowly appeared on the winding stone steps leading up to the mountain gate.

The tight leather armor was cool and simple, covering only the essential parts, making her look seductive and alluring. Her slender figure and delicate, milky white skin were so exquisite that she looked like a divine goddess in a painting.

It was only the deep eye shadow and sharp gaze that made her look unapproachable. Even though she was dressed in a seductive way and had an enticing figure, she was as intimidating as a rose with thorns, making people hesitant to touch her.

In this way, under the surprised gaze of Sun Yan, who was sweeping the floor, the woman in leather armor walked up the steps and arrived in front of the Wolf God Temple.

Looking at the white ape in front of the Wolf God Temple, Xie Yunnian asked, "Are you a disciple of the Wolf God?"

Xie Yunnian's inquiry puzzled the white ape, Sun Yan, just a little bit.

He opened his mouth wide and said, "Master... has gone down the mountain... If you have anything to say, I can pass it on..."

Sun Yan's speech was as stumbling as ever.

Xie Yunnian looked at the white ape in front of her and shook her head, saying, "I know that he went down the mountain; otherwise, I wouldn't have come here."

After speaking, Xie Yunnian threw a command flag directly into the sky in front of the white ape, Sun Yan.

In the Hanyu Mountain, which was shrouded in dark clouds, the black command flag seemed unremarkable. However, once the flag was hoisted into the sky, it immediately began to tremble violently, and countless black ink flew out from the flag, spreading in all directions.

Just like rapidly spreading dark clouds.

Under the dark clouds, the Hanyu Mountain below was quickly engulfed by the rapidly spreading ink. The deep black ink turned into a huge black cover, directly covering the main peak of the Hanyu Mountain within it.

Looking from the outside, under the surging dark clouds, there was no trace of the Hanyu Mountain or the Wolf God Temple to be seen.

What appeared in people's field of vision was only a huge black cover that obscured everything.

In the Wind Strike Department camp outside the mountain, Qian, who was washing clothes by the lake, saw this scene and was suddenly shocked, immediately standing up.

"Oh, Grand Priest!"

The girl shouted and called out to the old priest in the camp, then flew up and headed towards the huge black ink cover.

Inside the huge ink cover, Xie Yunning threw out four black shadows from her sleeve in front of the shocked face of the white ape.

After the four black shadows landed, they quickly revealed their original appearance.

Mo Ye, with a head as big as a fight and chin filled with wriggling tentacle-like whiskers, the Red-blue Twin Devils, one with blue and another with red, each with only one arm, and Ning Po, with a worried face, thin body and quiet personality...

The few monsters who previously discussed important matters at the Ink Lake Water Mansion have now all come to Hanyu Mountain and appeared in front of the Wolf God Temple in a grand manner.

In an instant, the originally peaceful and serene Hanyu Mountain became eerie and terrifying, full of evil energy.

[I'll Quit Being a God](#)

Chapter 338: Peach Tree Rampage

These five monsters are all leaders of the demonic gang in one region.

Now gathering at Hanyu Mountain, just the terrifying momentum alone is enough to scare off countless people.

Moreover, under the cover of the treasure "Inky Cloud Cover", the disaster clouds in the sky were unable to sense the demons underneath the cover, so they didn't bring down a heavenly calamity.

At this moment, these evil monsters dared to reveal themselves in front of the Wolf God Temple.

Standing in front of the Wolf God Temple, looking around at the situation, the blue demon with the left arm laughed wickedly.

"Aside from the Lord of All Demons' other abilities, the Concealment Technique under his sect is indeed mysterious. Without Yunning's guidance, we wouldn't dare to approach this disaster cloud at all."

The red demon with his right arm laughed, saying, "Mo Ye's Inky Cloud Cover has also made great contributions. Without the cover, even if Yunning led us inside, we wouldn't dare to reveal ourselves."

The Red-blue Twin Devils changed its previous attitude and began to flatter Xie Yunning.

But Xie Yunning couldn't be bothered with the flattery of the devil pair, and said directly, "There is still the Wind Strike Department beyond the mountain. Everyone move faster and don't drag..."

Boom!

With a terrifying roar, the entire Hanyu Mountain trembled violently.

The Inky Cloud Cover in the sky also shook violently, as though it was being heavily bombarded from the outside.

Xie Yunniang, whose conversation was interrupted, frowned and looked up, saying, "They've come really fast..."

Beside her, Mo Ye rubbed the squirming tentacle-like beard on his chin and said, "Don't worry. The Inky Cloud Cover is the thing that I owe my life to. Even if the Wind Strike Department priest is strong, it will not be broken in a short time..."

Boom! Boom! Boom!!!

The deafening sound suddenly echoed outside the Inky Cloud Cover.

As if being struck by a dense meteor shower in an instant, the black Inky Cloud Cover was rattled terrifyingly from all directions.

Even Xie Yunniang and the others could see that the black Inky Cloud Cover was on the verge of collapse...

The Red-blue Twin Devils's expression was shocked, and he quickly said, "Mo Ye, don't chicken out at such a critical moment! If the Inky Cloud Cover breaks, we will be trapped with no place to escape."

"That's right, Mo Ye. We brothers trust you, so you can't deceive us!"

The Red-blue Twin Devils cried out anxiously, startled by the precariousness of the Inky Cloud Cover.

Mo Ye's expression was shaken and he felt the enormous pressure from the Inky Cloud Cover, as he said, "This...this is the whole Wind Strike Department that has been mobilized!"

Even without looking, it could feel that the continuous shocks outside the Inky Cloud Cover were not coming from one person.

There were strong and weak impacts, densely packed and continuously sounding. Obviously, the entire Wind Strike Department had been mobilized.

And the destructive power...

Mo Ye's expression became solemn as he said, "This is bad! The strength of the Wind Strike Department far exceeded my expectations. It's true that the Li Tribe's nine subdivisions cannot be underestimated. I need help from others!"

Saying so, Mo Ye flew directly into the air and said, "Brother Ning, come help quickly!"

Calling out directly to the strongest demon among the group, Ning Po, Mo Ye flew towards the Inky Cloud Cover. With his hands spread out, his body rapidly expanded and transformed into a giant over a hundred feet tall. 88,888 huge octopus tentacles flew out from the giant.

These dense and enormous tentacles each flew out and supported all the nodes of the Inky Cloud Cover. They continued to absorb true energy, maintaining the Inky Cloud Cover's indestructibility.

Below, Ning Po, who was always taciturn, also flew up and arrived beside Mo Ye, who had already transformed into a giant over a hundred feet tall. Ning Po infused his own true energy into Mo Ye's body, helping him maintain the Inky Cloud Cover.

Even so, Mo Ye still felt overwhelmed and powerless.

It couldn't help but shout loudly, "Everyone, hurry up! I can only support it for two quarter-hours at most. The Inky Cloud Cover is about to break!"

The speed at which the Inky Cloud Cover was damaged far exceeded its expectations!

Below, Xie Yunning said, "That's enough!"

As she spoke, she flew directly towards the back of the mountain to search for the treasures and essences of Hanyu Mountain.

While the Red-blue Twin Devils grinned, he slaps away the white ape Sun Yan who tried to fight his way up and cheers as he rushes into the main hall of the Wolf God Temple.

"Oh wow! The Wolf God Temple... the Wolf God Temple... I actually set foot in the Wolf God Temple today? Hahaha! Apart from us brothers, which demon in this world can achieve that?"

"Wow! There's wine! Could this be the legendary Peach Blossom Wine? It's really amazing, and there's even a whole barrel of it!"

"Take it away, take it away! Quickly take it away!"

Inside the Wolf God Temple, the Red-blue Twin Devils cried out in excitement and cheered for achieving a feat that no other demon had achieved before.

Upon arriving at the back mountain, Xie Yunning immediately noticed the peach orchard at first sight.

After flying into the peach forest, a gigantic peach tree of unparalleled size appeared before her eyes.

The peach tree's trunk was thick and its roots were dense, as if it were the ancestor of ten thousand trees that had grown for countless years. The strong and abundant vitality surged in the peach orchard.

The huge canopy covered the sky and blocked out the sun, as if it were a vast forest.

And on the branches of the peach tree hung one peach after another.

However, the peaches in front of her kept shrinking into the branches as if they were trying to escape into the trunk.

With one bloodshot eye, the fat bird had plunged more than half of its body into the peach tree, blending almost seamlessly with it.

When Xie Yunning arrived, all of the peaches on the tree, except for a few that were plump and already ripe and had not completely disappeared into the trunk, had all shrunk and become unripe, smaller in size, and had completely disappeared into the tree.

Impossible to detect any longer.

Upon witnessing this scene, Xie Yunning flew over and seized the only body part of the fat bird that was still exposed, its head, and pulled it out from the trunk.

At the same time, she opened her right hand and several black light strips flew out from her palm, which directly pulled out the nine ripe peaches that had not yet shrunk into the trunk from the top of the tree and collected them into her bag.

After completing these tasks, she landed on the ground and spoke to the fat bird in her hand, "Are you also a disciple of the Wolf God?"

The moment Xie Yunniang landed, the ground of the peach garden cracked open and several thick peach tree roots broke out of the soil, directly coiling around the body of Xie Yunniang, who was full of demonic energy.

As the roots swept through, the extremely vigorous vitality made Xie Yunniang's eyebrows twitch, and she instantly turned into a jet-black escaping light and fled away.

However, despite her lightning-fast speed, she was still struck by those tree roots.

In mid-air, Xie Yunniang grunted as half of her arm was struck by the roots, causing her to instantly shed half a level of skin and flesh and blood to spray out in all directions.

The powerful vitality exceeded the capacity of the demon's body to bear.

Xie Yunniang, who had always been tough, loosened her grip and let go of the red-eyed fat bird when she unconsciously suffered from the pain.

Meanwhile, more roots of peach trees came sweeping furiously from behind.

After Xie Yunniang took away nine ripe peaches from the tree, which was originally inanimate, it went berserk, and its stout roots started to wildly sweep around.

Xie Yunniang fled away in her escape light, but there were constantly thick roots of peach trees breaking out of the ground, twisting and thrusting towards her.

In an instant, the whole Hanyu Mountain trembled. Countless thick tree roots broke out of the ground and swayed madly in the ink cloud, sweeping and raging in anger towards Xie Yunniang, who had taken away the ripe peaches.

Looking from afar, those wildly dancing peach tree roots were even more fierce and terrifying than the tentacles of the octopus above the sky, owned by Mo Ye.

This sight made people's scalp numb.

[I'll Quit Being a God](#)

Chapter 339: All Souls Ancestral Root

Inside the Wolf God Temple, the Red-blue Twin Devils, who carried the Peach Blossom Wine and rushed out, saw such a terrifying scene.

Those wildly dancing peach tree roots were crazily lashing out.

And with Xie Yunniang's escape, more and more peach tree roots were spreading and rushing towards this area.

Even the earth in front of the Wolf God Temple was constantly cracking, and tree roots began to spread out.

Under this vast Hanyu Mountain, it had long been occupied by the roots of that enormous peach tree.

Now that the peach tree had gone mad, countless roots were breaking through the soil and crazily strangling Xie Yunniang.

Witnessing this scene, the Red-blue Twin Devils was stunned and couldn't help but exclaim in amazement.

"Xie Yunniang, what on earth are you doing?! How did you provoke such a terrifying thing?"

"Oh my God! Xie Yunniang, you're in deep trouble!"

The Red-blue Twin Devils screamed in horror as the roots of the peach tree that broke through the soil in front of the Wolf God Temple were already strangling towards him and his brother.

These peach tree roots were no longer content with lashing and strangling Xie Yunniang, as they had now set their sights on other evil creatures in the mountain.

The vigorous and vibrant life force contained within the roots of the peach tree is the most terrifying thing for evil creatures, who dare not even touch it.

Amidst the rough and sturdy roots that had been strangling and lashing, the Red-blue Twin Devils frantically dodged and cursed loudly.

Mo Ye, who was trying hard to maintain the stability of the Mo Yun Barrier in the sky, looked down at Hanyu Mountain below, where he witnessed an even more terrifying scene.

The once peaceful and serene Hanyu Mountain is now in a state of complete chaos.

Countless peach tree roots kept breaking the ground and violently lashing at the three demons below.

The entire Hanyu Mountain no longer has the peaceful and serene appearance it once had.

The wildly dancing peach tree roots were lashing frantically at the three demons in front of the Wolf God Temple.

Moreover, it is expected that these frenzy tree roots will soon sense the presence of Mo Ye and Ning Po in the sky above. At that time...

At the thought of such a scene, Mo Ye, who was using all his energy to sustain the ink cloud shield and could hardly move, suddenly frowned and anxiously shouted.

"Xie Yunniang! You must find a way to stabilize this strange peach tree! Do not let it continue to run amok. Otherwise, the ink cloud shield will break, the evil energy will trigger the disaster clouds, and we will all die under the thunder of heaven!"

At this point, even Mo Ye, who is the most mature and prudent, has lost his composure.

They planned meticulously and prepared hundreds of measures against the Wind Strike Department outside the mountain and the disaster clouds overhead, in order to ensure safety before coming.

However, no matter how many calculations were made, no one expected such a terrifying thing to exist in the Hanyu Mountain to which the Wolf God had departed.

Because based on previous information, even among the disciples of Hanyu Mountain, Lu Ai (Xiao Ai), who is just attending to the Wolf God, has not yet reached the Innate Realm in her cultivation.

And apart from Lu Ai, others were not worthy mentioning.

But this strange peach tree in front of us...

Mo Ye's eyes were stunned, while Ning Po behind him silently stared at the numerous chaotic roots below, and all of a sudden began to speak.

"This is the All Souls Ancestral Root..."

Under Mo Ye's stunned gaze, Ning Po explained indifferently, "Among all living creatures in heaven and earth, plants are the most difficult to evolve into spirits. However, as the old legends say, there is a special demon creature in the world named the All Souls Ancestral Root."

"This object is created by the nature of heaven and earth, and is supported by those who have great divine powers to cultivate extraordinary physical bodies and condense the Qi of all living things. Although it has no spiritual wisdom and is not a demon cultivator, it is invulnerable to demons and evil demons."

"Moreover, the fruit nurtured by the All Souls Ancestral Root is a first-class spiritual and divine fruit in the world, possessing an awe-inspiring power beyond the imagination of ordinary people."

"The peach tree of Hanyu Mountain is obviously a specimen of the All Souls Ancestral Root. Xie Yunniang must have taken its fruits, causing it to become so enraged..."

Above the sky, Ning Po explained indifferently.

In front of the Wolf God Temple, the Red-blue Twin Devils and Xie Yunniang dodged left and right, trying hard to avoid the numerous thick tree roots that kept whipping towards them.

Unknowingly, they had been trapped in front of the Wolf God Temple and could no longer escape.

The number of peach tree roots around them increased, and the frequency of whipping became faster and faster. It was almost beyond their ability to dodge with their escape technique. The Red-blue Twin Devils shouted anxiously.

"You're still explaining? It's already this late, and you're still talking nonsense... Quickly tell us how to deal with this thing!"

"Yes! It's already urgent and you're still telling stories... Is this the time to tell stories? Who the hell cares what kind of spiritual roots it has!"

The Red-blue Twin Devils was so anxious that he burst into a foul-mouthed tirade.

The calmness in the sky remained indifferent and continued in a flat tone, "Although the All Souls Ancestral Root lacks intelligence, it possesses high spirituality, knows good from evil and can recognize one's kinship."

"It was born in Hanyu Mountain, blessed by the Wolf God, and must be close to the Wolf God's sect."

"Since you have captured the white ape, using its life as a threat will surely restrain the ancestral root's madness."

As soon as Ning Po's voice fell, the Red-blue Twin Devils shouted in unison.

"If only you had said this earlier, you wouldn't have been scolded!"

As the voice fell, the blue devil lifted the white ape in his hand and roared at the peach trees around.

"If you come one inch closer to me, I will immediately turn this monkey into monkey brain soup!"

As soon as this remark was made, the violent roots of the peach trees in Hanyu Mountain suddenly stopped and the angry and frenzied momentum finally came to a halt.

After that, under the Red-blue Twin Devils's nervous gaze, the roots of the peach trees near the Wolf God Temple finally stopped their beating attacks and silently retreated to a distance of several meters, leaving the space in front of the Wolf God Temple empty.

Only then did Xie Yunnian and the Red-blue Twin Devils breathe a sigh of relief, standing on the vacant lot and breathing heavily.

Although the three evil demons were not weak in strength and their escape speed was astonishingly fast, the peach tree roots whipped them so densely that even they suffered some injuries.

Now all of them are colored in bruises and half covered in fresh blood.

However, the most uncomfortable thing was not the injuries, as the physical injuries could be restored with just a thought at this level of demonic cultivation.

What made the three evil demons most uncomfortable was the whipping of the peach tree roots.

Each root of the peach tree carries a strong vitality, which is like a deadly poison to the evil demons.

Every whip made them writhe in pain, gritting their teeth and quivering all over.

Even the toughest Xie Yunnian was now drenched in sweat and breathing heavily, not from exhaustion, but from bearing the unbearable pain.

Now seeing the peach tree stop whipping, the Red-blue Twin Devils couldn't help but shout loudly.

"Enough! We got the Peach Blossom Divine Brew and nine peach fruits. It's time to go!"

"Yeah! This Hanyu Mountain is so terrifying. If we don't run now, we might run into something strange and everyone will be trapped here!"

The demons came here only planning to take some precious artifacts, secret cultivation techniques, or divine weapons while the Wolf God of Hanyu Mountain was away.

Although we didn't get the secret cultivation technique or see any divine weapons, we did obtain the legendary Peach Blossom Divine Brew and nine peach fruits, which counts as a good haul.

The most important thing is, if we don't leave now, we might not be able to leave at all!

I'll Quit Being a God

Chapter 340: Huo Feng of the Yun Sect!

The Red-blue Twin Devils felt like retreating, and Mo Ye in the sky also nodded and said, "Indeed, it's about time."

Outside the Ink Cloud Barrier, the members of the Wind Strike Department were bombarding relentlessly, and even with Ning Po's support, it couldn't hold out much longer.

Surviving for two quarters of an hour under such intense bombardment seems like a pipe dream now.

When the Red-blue Twin Devils decided to leave, Mo Ye simply went along with the flow and agreed.

In front of the Wolf God Temple, Xie Yunniang looked at the white ape in the hands of Qing Mo and said, "Take this white ape with us. Perhaps we can interrogate it and get some information."

"Okay!"

"Hurry, go!"

Xie Yunniang's proposal immediately received the agreement of the demons.

Above the sky, Mo Ye said, "Everyone, come up here immediately and enter the Ink Cloud Cover with me. Let it carry us away!"

Mo Ye's Ink Cloud Cover, in addition to the power of shielding qi and blocking everything, can also be used to escape in critical situations.

According to the plan, as soon as everyone enters the Ink Cloud Cover, Mo Ye will release its formation. In an instant, ink will burst and all living things in Hanyu Mountain will be covered and hidden by the qi-shielding power of the Ink Cloud Cover.

At that time, the Ink Cloud Cover will transform into the most inconspicuous escape light, carrying the demons away with it.

Despite the great concern of Ren Tianlei and the strength of the Wind Strike Department priests, they were unable to detect Mo Ye and the others who escaped in the dispersed ink clouds.

In front of the Wolf God Temple, Xie Yunniang and the Red-blue Twin Devils flew up, intending to leave according to the plan.

Below the Wolf God Temple, in the underground area rich with spiritual energy, and within the Heavenly Thunder Prison, the Moluo Evil Spirit let out a mournful and miserable scream, but shouted loudly.

"Huo Feng! If you don't take action now, the disciple of that evil wolf will be captured by someone!"

Within the Heavenly Thunder Prison, Huo Feng, who was constantly bombarded by the Heavenly Thunder day and night, now looks haggard like someone on the brink of death.

At this moment, Huo Feng, who had been quiet inside him, finally spoke up.

"Three years is too long. I will only give you six months. Otherwise, I would rather watch Sun Yan be captured than let you, this demon, catch your breath for a moment!"

Huo Feng's words made the Moluo Evil Spirit mad with rage.

"You only give me half a damn year... Alright! Half a year it is! Now you take care of this body!"

Amidst the Moluo Evil Spirit's furious roar, the demonic energy within the Heavenly Thunder Prison instantly dissipated. Huo Feng took the initiative to take over the body and opened his eyes in the underground divine palace.

When the group of demons arrived at Hanyu Mountain, Moluo Evil Spirit had already sensed it and offered a deal to Huo Feng.

As long as Huo Feng is willing to take over the body and spare it from the pain of Heavenly Thunder, the Moluo Evil Spirit is willing to lend its power to Huo Feng and let him go out to drive away the demons and protect Hanyu Mountain.

Within the Heavenly Thunder Prison, even if the Moluo Evil Spirit wants to hide in Huo Feng's soul to avoid the Heavenly Thunder, it cannot do so unless Huo Feng takes over the body voluntarily.

But if Huo Feng takes over this body voluntarily, then the Moluo Evil Spirit can temporarily hide and be free from the pain of Heavenly Thunder.

Naturally, Huo Feng didn't accept the demons' offer.

After several years of the Heavenly Thunder's torture, the Moluo Evil Spirit was already close to madness. It was only a matter of time before the last trace of its will would be eradicated, causing its automatic death.

Now if it were given some time to breathe and rest, even if this demon were to be struck by Heavenly Thunder again three years later, it is unknown how long it would take to torment it to its current exhausted state.

But now the demons from outside the mountain not only took away the Wolf God's treasure, but also held Sun Yan hostage... With the loss of Peach Fruits and Divine Brew, Huo Feng could not turn a blind eye.

However, this White Ape, Sun Yan, was a disciple of the Wolf God, and he could not sit idly by no matter what.

Directly taking control of this body and letting the Moluo Evil Spirit hide in his soul, Huo Feng opened his eyes and stood up inside the Heavenly Thunder Prison.

Lowering himself to bow towards the outside, Huo Feng said, "Please, the Wolf God, set me free and drive away this evil demon. After the matter is resolved, Huo Feng will voluntarily return and enter the prison once again."

The sound of Huo Feng's respectful report echoed far through the Heavenly Thunder Prison.

After a few breaths, a sigh was heard from within the divine palace underground.

Then, the Heavenly Thunder Prison that imprisoned the evil demon opened up and transformed into two hand rings sparkling with heavenly thunder, landing on Huo Feng's wrist.

To trap the Moluo Evil Spirit within Huo Feng's body, preventing it from escaping.

Lu Heng's sigh was heard from within the underground divine palace.

"Now that you have given the Evil Spirit some breathing room, little do you know how many more years you will have to stay underground..."

Within the underground divine palace, Huo Feng's expression was solemn as he said, "Even if I have to stay underground for another thousand years, I will never complain."

As soon as the words fell, Huo Feng, who was full of demonic energy, ascended and flew out of the underground divine palace.

In the blink of an eye, he arrived on the surface, then broke the ground directly in front of the Wolf God Temple.

The surging and violent evil demon immediately shrouded the entire Hanyu Mountain.

Huo Feng's cold words echoed in the ears of Xie Yunning and other demons.

"Release Sun Yan! Give yourself a good death!"

Under the cover of ink clouds, Xie Yunning and other demons were shocked and looked down, only to find a terrifying demon suddenly rushing out from the Hanyu Mountain below.

The sharp and fierce evil demon, which was as sharp as a peerless devil sword, was surging. It seemed to have the cries of billions of resentful spirits, and it was unknown how many creatures were killed to cultivate such a terrifying momentum.

The man standing in the midst of the black evil demon cloud was wearing the clothes of a Yun sect disciple, but his black hair, black eyes, and cold and intimidating gaze showed that he was not a member of the Yun sect.

The opponent just stood there, like a peerless devil soldier, with a fierce momentum that suppressed all the demons and made them tremble in fear.

Is there still such a demon in Hanyu Mountain?

At a glance, Ning Po noticed the Heavenly Thunder Ring on the black-haired man's wrists. His indifferent expression finally couldn't hold on and revealed a shock and fear that the demons had never seen before.

"This demon was tamed by Lu Heng?!"

Ning Po's words startled all the demons present.

They looked once again at the terrifying man within the demonic cloud, feeling a shudder in their souls as they sensed the demonic aura that was far stronger than their own emanating from him.

Such a terrifying demon, was actually subdued and captured by the Wolf God?

Otherwise, why would it show up just to save the white ape under the Wolf God's door...

Mo Ye had a frightened expression, and quickly saluted Huo Feng below, "Junior demon cultivator Mo Ye, greetings to the senior in the demonic path...May I ask why the senior is here? Have you been insulted by the Wolf God? If so, we juniors will do our best to rescue you, senior!"

Facing this immensely terrifying and brutal demon, even the most arrogant Mo Ye had to lower his head.

However, amidst the demonic aura below, Huo Feng with black hair and black eyes, filled with evil energy, held an indifferent expression. He completely disregarded the respectful salute from Mo Ye and said coldly.

"Release Sun Yan, leave the peach fruits and the peach blossom divine brew, and I will not hold you accountable for your desecration of the Wolf God Temple. You are free to leave."

"Otherwise, when the sword energy soars into the sky, your blood will end up splattering on Hanyu Mountain. There is no escape!"
