Lee Seongbong's loud roar immediately shocked everyone.

"Whoever utters another word of nonsense will be chased out of the Lee family and I will not let him off!" roared Lee Seongbong.

The entire living room immediately fell silent.

"I'm warning all of you today, do not think that just because we have been living peacefully for more than a decade and we have enjoyed high standing in Korea for more than a decade, we can afford to be complacent. In this world," his eyes turned cold. "There are more people who can destroy the Lee family than you can imagine!"

As the head of the Lee family he knew about the mysteries of China, the mysteries of Chinese martial arts, and the mysterious reclusive clans.

He also knew why Lee Seongjae had spent so many years chasing after the Extreme Fist Technique Manual.

Without being powerful enough, they could only be beaten and dared not retaliate.

"From today onwards, none of you is to provoke the Extreme Martial Arts Academy and none of you is to provoke Lin Group," announced Lee Seongbong. "I don't care how Lin Group takes away the market share of the Lee family, and I don't care if the Extreme Martial Arts Academy is too aggressive. From today onwards, everyone in the Lee family must stay far, far away from them!"

“Mr Lee...”

“I said, shut up!” Lee Seongbong’s eyes turned icy. “Whoever disobeys my orders shall be killed!”

The living room fell silent again.

The sinister intention to kill surrounded every person.

Nobody dared to speak anymore and they all obediently shut their mouths. Everyone knew that Lee Seongbong wasn't joking around. He said he would kill them, so he would really dare to kill them!

Everyone left and Lee Seongbong sat in the living room all by himself. He was thoroughly exhausted.

He leaned against the chair when his ears suddenly twitched.

“Let me know if anything happens with Lin Group as well as the Extreme Martial Arts Academy,” he turned to instruct the butler before getting up to return to his study.

After he closed the door, Lee Seongbong’s face instantly became threatening!

“Why were you so impatient?” He snapped, “Did you know that you nearly ruined our plans? You idiot!”

“It doesn't matter, he seems to believe us now,” scoffed Lee Seongjae as he sat in one corner off

the study. "If you didn't kneel and didn't surrender, that Jiang Ning would probably still be wary of us. But now, I'm sure he thinks that the Lee family is afraid of him."

"Taking his life when he is feeling most relaxed is a better plan." Lee Seongjae glanced at Lee Seongbong and said disdainfully, "God of War? Bullshit! What is he in the face of the reclusive clans?"

he had seen what Fang Yin was capable of, and he was thoroughly shocked.

That sort of martial artist was a really highly skilled one. He was at a level of understanding and enlightenment that he couldn't imagine at all. As for Jiang Ning...What was he even?

Lee Seongbong took a deep breath and slowly calmed himself down.

But the grimness on his face didn't reduce at all.

He had put on a good act.

He had even killed off several important members of the Lee family just to show Jiang Ning and to make Jiang Ning let his guard down.

God of War?

Humph!

If this happened ten years ago, he might still be wary. But the Lee family today was different from how they were ten years ago.

NH

“Is that Fang Yin going to do anything?”

“No, he's not,” said Lee Seongjae. “I've already checked with him. None of these people can be trusted.”

“What we need to do is not only to get the manual, but we must also kill Jiang Ning and kill Fang Yin!”

His voice was murderous and he sounded as if killing Jiang Ning and Fang Yin was nothing difficult.

The two brothers' act had already come to this stage. If they didn't get the results they wanted, wouldn't they have been acting for nothing?

Both of them exchanged glances and they could see the viciousness and murderous looks in each other's eyes. Since they had reached this stage, they could only advance. Even if the entire ship sank, they would not look back.

Lee Seongbong had behaved extremely humbly in front of Jiang Ning, and he had even given orders in front of everyone else to kill off those who had offended Jiang Ning.

Those people were the core members of the Lee family!

And he had them killed just like that!

Wasn't it because he was afraid of Jiang Ning?

And now, he had given instructions for the entire Lee family to cooperate with Lin Group as well as the Extreme Martial Arts Academy. They were not to provoke Jiang Ning at all.

This was as good as putting himself in the lowest position possible. He was even willing to kneel before Jiang Ning, so he didn't care about what everyone else said about him.

Regardless of who witnessed this scene, they would have become very wary of Jiang Ning because of Lee Seongbong's actions even if they didn't know who Jiang Ning really was. They would also realize that the Lee family was truly terrified of Jiang Ning!

Nobody would have thought that this was just an act put up by Lee Seongbong and Lee Seongjae.

They had put their own reputations on the line and used the prestige of the Lee family to lower Jiang Ning's guard against them.

"We must definitely kill Jiang Ning. if we don't kill

him, we will not be able to obtain the manual. But the bigger problem is, how are we going to kill Fang Yin?" said Lee Seongjae. "As long as Fang Yin is still alive, even if we get the manual, we won't be able to keep it."

What was the manual?

That was the chance for the Lee family to rise to greater heights in the future!

The Lee family was now the most powerful family in Korea, but Korea was too small. To Lee Seongbong, Korea used to be very large, but after he took control of it, he felt that this place was simply too small.

He wanted to venture out. He wanted to go further and higher.

He wanted to gain even more and to take even more.

But without sufficient martial arts support, that was impossible. This manual gave him a chance! It gave him the best chance!

After Lee Seongjae had personally exchanged blows with Fang Yin, he was even more aware of the extreme limits of Chinese martial arts, and he realized how much more terrifying he could be.

It was just like how Lee Seongbong was wary of Jiang Ning. He was wary because Jiang Ning was simply too powerful.

The two brothers sat there and looked at each

other. Both their gazes looked mildly insane.

Since things had come to this, there was no turning back.

“Let's just go according to plan. I'm quite sure that Jiang Ning must be feeling terribly complacent by now.” Lee Seongbong scoffed. “Kill him first, then we'll set another trap to kill Fang Yin!”

“Once both of them are dead, the Lee family will have the manual all to ourselves. In less than 10 years, the Lee family can become one of the most powerful families in the world!”

when that happened, the two brothers would become the greatest heroes in the Lee family's history.

Everything was going to plan. There were a few hiccups earlier, but everything was still within their control.

.....

Lin Group was speeding up their entry into the Korean market.

Lee Group was now fully cooperative.

They didn't make things difficult nor make any trouble for Lin Group. they even took the initiative to provide help so that Lin Group could adapt better to Korea's environment.

Xiaozhao and her team did not waste any time nor any opportunities.

NH

She had listened to Jiang Ning and just took care of the things within her scope. She didn't need to think about what motives Lee Group had or whether they were sincere about working with Lin Group.

As long as she got the right resources, she would make use of them without bothering to be polite about it.

In just a few days, Lin Group started to publicize their brand, and even used Lee Group's sales channels to publicize themselves.

This caused a huge wave in the Korean market.

Nobody thought that the largest company in Korea, Lee Group, would do something like that.

Many people started to become curious about Lin Group. They were curious about this company that had come to this country for the first time and were curious about their products. Then they started to try there are products out and were convinced by Lin Group's products.

It didn't take much time for this to happen.

Jiang Ning Never asked about the business side of things unless Xiaozhao and her team ran into trouble.

He was now waiting.
