

## **Bigshot 1001**

Chapter 1001 Competition, A World Problem

In the beginning, Feng Ping was very relaxed.

However, in the middle stage, cold sweat started to appear on his forehead.

In the end, his hands were trembling and his face started to turn pale.

On the big screen on the stage, there was a progress bar showing the two of them.

After 40 minutes, Feng Ping was already far behind the other team.

An hour later, the other party put down the mouse and said sarcastically, "Feng Ping, I thought your ability was very powerful. It turns out that you're just so-so."

Feng Ping's face was extremely pale.

He looked at his own hand, not expecting to lose at all.

Feng Ping shook his head in disbelief. "That's impossible. How could I lose?"

The host announced, "The score between Imperial Capital University and Fenghua University is 0:1. If Imperial Capital University loses the next match, they will lose this match."

There was a burst of warm applause around them, and the mood of Fenghua University team was high.

The leading teacher of Imperial Capital University patted Lu Ming's shoulder. "Lu Ming, just do your best."

"Don't worry. I can win," Lu Ming said confidently.

He was not ranked ninth in Black Emperor for nothing.

Just as Lu Ming had said, he won the match easily and ended it in 40 minutes.

The score between the two schools was 1:1.

There was still one last match to decide the winner.

Qin Sheng's opponent was Fojack.

Fojack's computer skills were extremely good. In the previous matches, Fojack had crushed his opponents every time and his speed of hacking programs was very fast.

Even Lu Ming could not guarantee that he could win against him.

At this moment, Qin Sheng went on stage to represent Imperial Capital University in going against Fojack. As she stood on the stage, many people recognized Qin Sheng as the top scorer of the college entrance examination and began to discuss her.

"Qin Sheng? As far as I know, she's in the Medical Department. Does she also know how to solve computer programming problems?"

“Why do I keep feeling like Qin Sheng is going to screw up this time? No matter how good Qin Sheng is, he’s still no match for Fojack.”

“Hehe, is there no one else in Imperial Capital University? They actually sent Qin Sheng. Let’s see how badly Imperial Capital University loses.”

There were many strange voices.

Their voices were not soft, so some of them reached Qin Sheng’s ears. She did not care. When the time came, she would naturally slap them in the face.

The host was also very surprised to see Qin Sheng. She wanted to create some topics for the competition.

“Qin Sheng,” she asked, “you didn’t appear in the previous matches. Did you join at the last minute this time?”

Qin Sheng nodded. “En.”

The host was interested. “Then, are your skills very good? Otherwise, Imperial Capital University wouldn’t have arranged for you to go against Fojack.”

Qin Sheng was not modest. “At least, I can beat him.”

When Fojack heard this, he sneered. “Heh, Qin Sheng, don’t get slapped in the face later. I’ve never lost on the computer since I was young. Would I lose to a woman like you? What a joke!”

The host tried to smooth things over and said with a smile, “It seems like both sides are very confident. Let’s see who will win in the competition and help their school win the championship.”

“The questions for this competition are very difficult. It’s a hacker problem that no one in the world has been able to solve for the past five years. You don’t need to solve it all. The competition will end in two hours. Whoever makes the fastest progress will win.”

“It’s just a world-class problem. I can solve it all the same.”

Chapter 1002 She Loved To Tease People

Fenghua University’s leading teacher sat on a chair. When he heard this, he smiled proudly.

“Fojack’s strength is strong. It’s not surprising that he can solve this world problem. No matter what, Imperial Capital University is bound to lose. One of the top universities in the country actually lost to Fenghua University. It seems that Imperial Capital University is just so-so.”

“That’s right, didn’t Qin Sheng say that she could beat Fojack? Then let’s just wait and see. If they lose, they’ll be the ones to lose face.”

Because of the subtle influence of the school, most of the students of Fenghua University looked down on other universities.

As for G Country, they were even more eager to curry favor with them.

The treatment of international students in G Country was much better than that of Chinese students in Fenghua University.

Qin Sheng and Fojack went to their respective seats and sat down.

Fojack looked at Qin Sheng in disdain.

She actually dared to say that she could win in front of him. She also dared to treat him like that during the break. It seemed that there was no need for him to show mercy.

He wanted to make Qin Sheng regret it.

Fojack's gaze was very intense, but Qin Sheng did not care.

The competition officially began.

Qin Sheng looked at the procedure and frowned slightly. She did not do anything for a long time.

Fojack spent five minutes typing on the computer keyboard.

Fifteen minutes later, Qin Sheng was still sitting in her original position.

On the big screen, Qin Sheng's progress bar was zero.

The audience began to whisper.

"What's wrong with this Qin Sheng? It's been 15 minutes and there's still no movement from her?"

"She can't be, can she? Imperial Capital University has sent someone like her to participate in such an important competition. Is there no one else?"

"I'm really convinced. I thought she was very powerful. It turns out that I've been overthinking it."

"Hehe, I'll just wait for Imperial Capital University to lose. Qin Sheng was just saying that she could win. I wonder who gave her the courage to say that."

"..."

Many of Imperial Capital University's supporters had still held on to a glimmer of hope that Qin Sheng might really have such an ability. But after seeing this, their last glimmer of hope completely disappeared.

With Qin Sheng's current state, they did not even know if she understood the programming, let alone if she could win against Fojack.

Feng Ping sneered. "Lu Ming, you're going to lose the bet between us."

"There's no rush. The competition isn't over yet, is it?" Lu Ming said in a composed manner.

He took out his phone and played with it. At this moment, he did not pay much attention to it. He was not worried at all that Qin Sheng would not know the question.

Lu Ming could be considered to have a very clear understanding of Qin Sheng's methods.

Qin Sheng loved to tease people the most. She was most likely thinking about this question right now, and when she came up with it, she would start working on the computer.

In this way, Fenghua University and many of the audience members would mock them, and then Qin Sheng would give them a hard slap in the face.

Lu Ming had not forgotten how Qin Sheng had treated him. He could still remember it clearly even now.

When the people from Fenghua University saw that Qin Sheng had not made a move for a long time, they crossed their arms and said disdainfully, "I really thought that Qin Sheng, as the top scorer of the college entrance examination, was very powerful. It seems that she's just so-so after all. Imperial Capital University sent Qin Sheng and Fojack to honor their promise. Heh, they must be out of their minds."

It was noisy in the audience, and Qin Sheng could vaguely hear some words.

Qin Sheng was not affected. She looked at the progress of Fojack and saw that it was only 11%.

Qin Sheng retracted her gaze and thought for another ten minutes.

She clicked the mouse, then her slender white fingertips began to type on the keyboard. Lines of code jumped on the computer screen.

#### Chapter 1003 Let's Make a Bet

From time to time, Fojack would look in Qin Sheng's direction and saw that she had finally started to move.

He laughed in disdain.

He had started 20 minutes earlier than Qin Sheng, so how could Qin Sheng beat him? What a joke!

Fojack was thinking while he wrote the code, so his speed was not fast. However, he thought that Qin Sheng would be the same as him.

Therefore, Fojack wasn't in a hurry.

In this match, everyone thought that Fojack would win. The two of them were not in the mood to chase each other. Everyone was bored and started to play with their phones, rarely looking at the field.

The teacher-in-charge of Imperial Capital University's team, Teacher Li, had been paying attention to the situation. The first thing he saw was Qin Sheng starting to operate the computer.

"Qin Sheng has started. However, it's been 20 minutes since the competition started. Fojack has entered 11%. There's a high chance that she won't be able to catch up."

Teacher Li's tone was filled with regret.

It seemed that Imperial Capital University was going to lose again this year.

Lu Ming was sitting next to the leading teacher, and he heard every single word that the teacher said. Lu Ming put down his phone.

He looked at the 1% progress bar on the big screen and touched his chin. "Teacher, do you believe that Qin Sheng can win?"

Teacher Li glanced at Lu Ming but didn't say anything.

It was obvious that he did not believe she could.

Lu Ming's mind spun quickly, and a sneaky smile appeared on his face. "Teacher Li, how about we make a bet?"

Seeing Lu Ming's expression, Teacher Li saw Lu Ming had ill intentions.

However, he still nodded. "What are we betting on?"

"I bet that Qin Sheng will win. You bet that she will lose." Lu Ming stretched out a finger. "3,000 yuan in chips."

Teacher Li frowned, feeling that there was a trap.

Lu Ming was a money-grubber, and if he wasn't so sure that he would win, he wouldn't have bet with him like this.

Lu Ming was afraid that Teacher Li would not agree, so he advised, "Teacher Li, look, Qin Sheng is now 10% behind Fojack's progress. It's hard for her to make a comeback. This is a deal that's guaranteed to win and not lose. As for why I supported Qin Sheng's win, it's because she's my friend. I have to support her."

Teacher Li had been fooled by Lu Ming. He slapped his thigh and said, "Alright, I'll take the bet."

The corners of Lu Ming's mouth instantly widened into a bright smile.

He was extremely smug in his heart.

3,000 yuan, received!

However, when Teacher Li looked at the big screen again, Qin Sheng's progress bar had already reached 4%, while Fojack's was only at 12%.

Another 11 minutes later, Qin Sheng's progress bar surpassed Fojack's.

Qin Sheng: 15%

Fojack: 14%

Lu Ming crossed his legs and was not surprised by the result. Teacher Li looked at Lu Ming, who returned a big smile to him.

Teacher Li was so angry that he gritted his teeth.

He had been tricked by Lu Ming again. As expected, nothing good would come out of wagering with Lu Ming.

Lu Ming said with a smile, "Teacher Li, don't be angry. Look, at this rate, Qin Sheng will definitely win. Imperial Capital University can also fight back against Fenghua University. Isn't that good? Don't tell me you're still thinking of Qin Sheng losing and then winning the bet?"

Teacher Li: "..."

He was speechless. He could not refute Lu Ming's words.

It seemed that he had to learn his lesson. Next time, he would definitely not agree to Lu Ming's bet. Lu Ming was a very smart kid, and he could not do anything to him.

"Quickly, look at Qin Sheng's progress bar."

Someone in the audience shouted, and the attention of the people who were playing with their phones was attracted by this voice.

Chapter 1004 Fojack Caught Up

When they saw Qin Sheng's progress bar, they were all stunned, thinking that they had seen wrongly.

Qin Sheng had caught up to Fojack in just over ten minutes?

The audience all sat up straight. From their angle, they could clearly see Qin Sheng's movements. She was extremely fast.

If it were not for Qin Sheng's progress bar reaching 15%, they would have thought that Qin Sheng was just randomly hitting the keyboard.

The audience who supported Imperial Capital University had a glimmer of hope once again, and they stared at the progress bar without blinking.

A student from Fenghua University said anxiously, "Teacher, what is this?"

Fenghua University's leading teacher tried to console him. "It's fine. Qin Sheng just did it by accident. Let's just wait and see. In the end, it'll definitely be Fojack who wins. Fojack has received professional training. How can we not know his strength?"

The student nodded in agreement. "Indeed. Then, let's let Qin Sheng and the people from Imperial Capital University show off a little longer."

On stage, Fojack had also noticed Qin Sheng's progress.

Beads of sweat formed on his forehead. He could not believe that Qin Sheng would surpass him.

How was it possible that Qin Sheng had reached 15% in just 14 minutes?

Fojack knew how difficult these questions were. Even he had spent almost 25 minutes to reach 10%. His speed was getting slower and slower.

Could it be that Qin Sheng really had such strength?

This was the first time Fojack had encountered such a situation.

He was panicking. He sped up his typing, but his mind was blank. The code was even mixed with Chinese characters.

Two minutes later, many lines of code had been added to the screen, but his progress had not changed at all.

Fojack deleted all the codes.

After stopping for three minutes, Fojack finally calmed down.

At this moment, Qin Sheng's progress had already reached 19%.

The leading teacher of Fenghua University clenched his fists, his heart in his throat.

At this moment, very few people in the audience were playing with their phones. Everyone was staring at Qin Sheng, Fenghua, and the progress bar on the big screen.

Qin Sheng had caught up to Fenghua. They had not expected such a reversal.

One of the audience members could not help but sigh. "This Qin Sheng seems to be really well-rounded. She scored full marks in her college entrance examination, she's good at painting, and now, she's even good at programming."

"I suspect that Qin Sheng was thinking about how to solve the entire program in those twenty-five minutes. I have a feeling that her speed won't slow down. I'm starting to look forward to whether Qin Sheng can solve this world difficult problem."

"Forget it. Qin Sheng's just an 18-year-old student. It's a joke for her to be able to solve a world problem."

The audience member who was doubted still insisted on his own idea.

There were many miracles in the world, and Qin Sheng was also a rare genius student. It was not surprising that she could solve this difficult problem.

On the other hand, Qin Sheng's hands were moving very quickly, but the progress bar was stuck at 20% and did not move again.

Slowly, Fojack caught up to Qin Sheng again.

The crowd went into an uproar again.

"Fojack caught up with Qin Sheng. Did I see wrongly?"

"What's wrong with this Qin Sheng? Wasn't she very fast? She is still typing on the computer keyboard! Did she write the wrong steps?"

"Tsk, tsk. I'm thinking that it's very likely that Qin Sheng has seen the steps to solve the problem. That's why she was so fast at the beginning. Since there aren't any ready-made answers later on, she naturally doesn't have any ideas."

Chapter 1005 Fojack Wins

Lu Ming had also been panicking for a while. He frowned, but when he saw Qin Sheng's actions and her expression, he relaxed.

On the other side, the lead teacher of Fenghua University's brows also relaxed.

"I knew it," he said sarcastically. "It's impossible for Qin Sheng to win against Fojack."

Then, he looked at the team from Imperial Capital University. "Imperial Capital University has lost to our school for three years in a row. It's time for them to shift their first place in computer science."

When Fojack saw this, he was completely relieved.

There were still 20 minutes before the end of the competition, and Qin Sheng had stopped progressing.

Her progress bar was still at 20%, far behind Fojack.

Fojack laughed coldly, his disdain growing.

Qin Sheng stopped. Was this because she could no longer make up the problem?

Fojack continued with his work. The code was very difficult for him. He couldn't even complete 1% in 10 minutes. In the end, his progress came to a standstill.

The disappointment in the audience who supported Imperial Capital University was evident.

They had originally thought that Qin Sheng could salvage the situation, but she did not.

Soon, two hours had passed and the competition was over.

"Please come to the center of the stage," the host said.

She then said, "Qin Sheng and Fojack's progress bars are 20% to 31% respectively. Fojack won this round. Imperial Capital University and Fenghua University's results are 1:2. Let's congratulate Fenghua University for winning the National College computer competition."

The supporters of Fenghua University in the audience applauded enthusiastically.

On the other hand, Imperial Capital University was much quieter.

"Lu Ming, you've lost the bet," Feng Ping sneered.

Lu Ming's brows were tightly knitted together. He kept feeling that something was not right. Qin Sheng should be able to win, but at this moment, Qin Sheng did not respond.

He could not help but be suspicious. Could it be that Qin Sheng was really thinking in the wrong direction?

Just as this thought appeared in his mind, he heard Qin Sheng's pleasant voice. "Who said I lost?"

The host thought that Qin Sheng was unconvinced, so she explained, "Fojack's progress is higher than yours, so he naturally wins."

"Your answers are wrong."

The host frowned. "That's not very possible. The solution to this world-class problem has been circulating among the top experts in all the countries. Although there hasn't been a final result, the current process has been publicly acknowledged by everyone."

Qin Sheng raised an eyebrow. "I've already conquered it."

Lu Ming's eyes lit up. He finally knew why Qin Sheng's progress was not displayed at the end. It turned out that the code written by Qin Sheng was different from what others had given.

Since Qin Sheng had already said that she had conquered it, there should not be any problems.

Lu Ming stood up and said, "Host, you've also said that there's no way to solve this programming problem for five years. Perhaps you've all gone in the wrong direction. Now that Qin Sheng has suggested that she can solve it, won't you take a look?"

Fojack sneered sarcastically. "Lu Ming, you also said that this is a difficult problem in the world's programming. Qin Sheng solved it in just two hours? Hehe, what a joke."

The leading teacher of Fenghua University also said, "That's right. Since you've lost, don't play any other tricks. Our time is precious."

The audience that supported Fenghua University also joined in the commotion.

They were all questioning Qin Sheng because they felt that it was impossible for her to solve this programming problem in a short two hours.

She had even managed to figure out a part of the answer to this difficult programming question?

As soon as Qin Sheng came, she wanted to overthrow the experts' success after five years of hard work. Was this possible?

#### Chapter 1006 Your Answer Is Wrong

An expert who was well-versed in computer programming stood up. "Qin Sheng, are you sure you've already gotten the results?"

Qin Sheng nodded. There was confidence in her eyes. "I'm sure."

"Alright, then I'll go over your answer with Li Tong. If it's correct, then you'll win this match."

Feng Zhuo was nodding at another expert.

They walked toward Qin Sheng's seat together. When they arrived in front of the computer, they saw a large area densely packed with computers.

He dragged it up, and the code was written on six pages.

Li Tong and Feng Zhuo were both surprised to see this.

They had needed more than two hours to write so much code. Excluding the time she spent thinking and stopping later, she only had an hour left, but Qin Sheng had managed to write so much code in an hour.

When they thought of Qin Sheng's hand speed, they felt relieved.

This was because the code Qin Sheng wrote also showed a progress bar of 20%, which meant that the first part of the code was basically the same as what they had researched, so they had skipped it.

Five minutes later, Feng Zhuo said in surprise, "This is a brand new train of thought. No one has ever thought in this direction before. Qin Sheng's direction of solving the problem might be correct."

Feng Zhuo's voice was transmitted to everyone's ears.

They were also stunned.

Qin Sheng's train of thought was correct?

Didn't that mean that she had a chance of winning this competition?

The audience who had been supporting Imperial Capital University without any hope for this game sat up straight again.

Qin Sheng's progress was very fast in the beginning, but there must be something fishy about the fact that she had stopped at the end.

When Fojack heard this, he was filled with disdain.

This was just Qin Sheng's good luck.

Half an hour later, Feng Zhuo's hands were shaking with excitement. He couldn't even speak properly. He made a phone call. "Commander Deng, hurry over to the computer science competition. One of the students might have solved the difficult problem in the card program."

The person on the other end of the phone seemed to be very excited. "Okay, I'll be there right away."

In just ten minutes, Deng Yu arrived at the scene. Deng Yu was the most authoritative expert in computer programming in the country. The steps that were recognized as the solution to this program problem were all researched by Deng Yu.

The moment he appeared, some of the audience members recognized him.

"Deng Yu! He's currently the most accomplished person in the history of Chinese computer programming."

"He actually appeared at the computer science competition. Could it be that Qin Sheng's answer was correct? And attracted Deng Yu's attention?"

Fojack's brows were also tightly knitted. He had never expected Deng Yu to come to the competition venue.

Fojack thought of something and looked at Qin Sheng in disbelief.

Qin Sheng sensed Fojack's gaze and returned him a smile.

Fojack felt that Qin Sheng was mocking him and was instantly infuriated. If it was in private, he would have attacked Qin Sheng. However, there were countless spectators in the audience, and the content would also be synchronized to the live broadcast on the internet. Fojack did not dare to act rashly.

On the other side, Deng Yu went straight to the stage and pushed Li Tong and Feng Zhuo to the side.

He put on a pair of glasses and began to check Qin Sheng's answer.

He would nod his head from time to time, his eyes filled with surprise.

40 minutes later, he stood up from his seat. The host couldn't help but ask, "Minister Deng, how is it?"

Everyone was nervously waiting for his answer.

Chapter 1007 Joining the Country's Computing Department

Deng Yu went up to Qin Sheng. "Qin Sheng, are you willing to join the National Department of Computing?"

Deng Yu finished his sentence.

Boom!

The live audience was in an uproar. Even the viewers watching the live broadcast were spammed with bullet comments, filling up the entire screen.

[The National Department of Computing? Did I hear it wrong? As far as I know, those who can enter the National Department of Computing are all above 30 years old. 18 years old? Did I hear wrong?]

[Looks like Qin Sheng has already solved this computer program. It's too awesome. Isn't it a world-level programming problem? Qin Sheng actually managed to solve it in less than two hours.]

[Hahaha, I'd like to see the faces of those people from Fenghua University. They've been mocking Qin Sheng and Imperial Capital University all this time.]

The people from Fenghua University had changed their arrogant attitude.

All of them sat in their seats, not daring to speak.

Upon hearing Deng Yu's words, the host was very surprised. "Commander Deng, does Student Qin Sheng have the right to enter the National Department of Computing?"

Deng Yu said with certainty, "Of course. I've been thinking about this difficult programming question for five years, but I've been stuck. So it turns out that I've gone in the wrong direction. Qin Sheng must be very capable to be able to solve it in a brand new way. We don't want to miss out on such a genius."

The host laughed and said, "Then, Qin Sheng, are you willing to join the National Department of Computing? There are many seniors who can guide you. Many people want to enter but can't. Qin Sheng, your future will be bright."

Qin Sheng rejected her without even thinking. "I'm not interested."

Deng Yu did not expect Qin Sheng to reject such a good opportunity. He was stunned for a second before he said, "Qin Sheng, do you want to reconsider?"

"There's no need," Qin Sheng said firmly.

Deng Yu could only put this thought aside for the time being. He took out a business card and handed it to Qin Sheng. "Qin Sheng, whenever you've thought it through, you can look for me at any time. On any day, the doors of the National Department of Computing will be open to you."

This was the first time someone had refused to join the National Department of Computing.

Deng Yu admired Qin Sheng very much, so he was a little depressed at this moment.

The host announced the results. "After Commander Deng Yu's evaluation, Qin Sheng has perfectly solved the difficult problem in the program. The progress has reached 100%. I hereby announce that Qin Sheng has won the competition. Imperial Capital University wins by 2:1 advantage to become the champion of the National Computer Science Competition!"

As soon as he finished speaking, the entire place burst into an extremely warm round of applause.

Even a portion of the supporters of Fenghua University started clapping.

Lu Ming arrogantly came to Fenghua University's side. He had always been carefree, so he didn't care that many people were looking at him.

Lu Ming had one hand in his pocket and said sarcastically, "You've lost. It seems that your Fenghua University isn't that great either. You've lost. You guys poached this Fojack from another university at a high price. I didn't expect that he couldn't even beat an 18-year-old girl."

After he finished speaking, he shook his head.

The people from Fenghua University were so angry that their faces turned green and white, but no one retorted.

At that time, they were sure that he would win, so they were indeed very arrogant.

Other than Feng Ping, all the other students from Imperial Capital University rushed forward to surround Qin Sheng.

"Campus Belle Qin, you're too awesome."

"Qin Sheng, it's a good thing we have you. Otherwise, our school would have lost."

Chapter 1008 Apologize to Qin Sheng

They were all very excited. The match that they were destined to lose had been saved by Qin Sheng.

At this moment, Qin Sheng's image in their eyes was very high.

They really did not expect Qin Sheng's computer programming skills to be so impressive.

Fu Hanchuan sat in the audience and looked at the dazzling Qin Sheng on the stage. He could not help but smile.

His little girl was very outstanding.

However, when he saw the boys surrounding Qin Sheng, Fu Hanchuan's eyes darkened and he looked at them coldly even though they did not touch Qin Sheng.

A student from Imperial Capital University touched his arm. How could it be so cold?

Lu Ming, who was still mocking Fenghua University, noticed Fu Hanchuan's gaze.

His body trembled. He looked in Qin Sheng's direction and instantly understood.

He quickly walked over and pulled the students away. "What are you doing? Are you trying to take advantage of Qin Sheng because she's pretty?"

At this moment, the students had also calmed down a little.

They no longer surrounded Qin Sheng.

Lu Ming heaved a sigh of relief when he felt that the cold air had disappeared.

His brother's easily jealous personality was really a headache. Fortunately, he was smart enough, otherwise, he didn't know how Fu Hanchuan would treat him when he went back.

After the competition ended, Qin Sheng did not stay any longer and went back with Fu Hanchuan.

Fenghua University also left dejectedly. When they left, they kept their heads down and didn't dare to look up at all.

Feng Ping was about to leave when Lu Ming stopped him.

Lu Ming raised an eyebrow. "You've lost the bet. Remember to apologize to Qin Sheng on Weibo and the forum."

Feng Ping was stubborn. "That's right. Qin Sheng won. She was just lucky."

When the other students of Imperial Capital University heard this, they all stayed away from Feng Ping.

Usually, he was arrogant, but now, it was obvious that he was in the wrong and he was unwilling to admit it. It was better to stay away from this kind of person.

Qin Sheng had won against Fojack at the National Computer Science Competition and helped Imperial Capital University win the championship, putting an end to Imperial Capital University's two-year loss to Fenghua University.

This matter was reported by the media without restraint, and it once again made it to the top of Weibo's search.

Those netizens were shocked. First, she was the top scorer in the National College Entrance Examination with full marks, then the champion of the National University Student Painting Competition, and even the president of the Imperial Capital's painting association had personally invited her to join.

This time, it was even more impressive. A champion of the National Computer Science Competition had come and solved the world's programming problem. Even the head of the National Department of Computing had come to invite Qin Sheng to join!

[God, give me half of your IQ. No matter what Qin Sheng has achieved, I'll never be able to achieve it in my entire life!]

[I'm kneeling in front of the goddess.]

[Tell me the truth, Sister Sheng. Is there anything you don't know?]

[I have a feeling that Sister Sheng's abilities are far more than this. I'll just wait for Sister Sheng to continue to reveal her identity.]

[...]

The Lin family held a special celebration dinner for Qin Sheng, and the Qin family also attended.

As for Qin Sheng, she did not care too much about the competition.

On Monday, she went back to her experiment.

In the afternoon, Fu Hanchuan had something to do and stayed in the company, so he did not pick Qin Sheng up.

Qin Sheng was walking on the road alone when Qin Yufei happened to pass by. When he saw Qin Sheng, he instructed the driver, "Stop the car."

Qin Yufei immediately got out of the car.

A car sped toward Qin Sheng. Qin Sheng frowned. She had sensed it and wanted to avoid it.

Before she could move, a strong force pushed her away.

Chapter 1009 They Are Biological Father and Daughter

Screech...

The screeching sound of a car braking resounded.

Qin Sheng turned around and saw Qin Yufei lying on the ground, clutching his arm.

Qin Sheng quickly went over to check on his body. Seeing that there were no major problems, she heaved a sigh of relief.

Qin Yufei sat up while holding his arm. He gave Qin Sheng a reassuring smile. "Sheng Sheng, I'm fine."

Qin Sheng stared at the wound on his arm and frowned. "I'll take you to the hospital."

"President."

Qin Yufei's secretary ran over and helped Qin Yufei into the car with Qin Sheng.

In the hospital, Qin Sheng got the doctor to give Qin Yufei a full-body checkup.

Qin Sheng was waiting outside the ward when Fu Hanchuan rushed over. When he saw Qin Sheng, he pulled her over and sized her up seriously.

After making sure that Qin Sheng was fine, he pulled Qin Sheng into his arms with lingering fear.

“Sheng Sheng, thank god you’re fine.” His voice was trembling.

Qin Sheng returned Fu Hanchuan’s hug and comforted him. “Actually, I could have dodged it.”

It was just that she didn’t expect Qin Yufei to rush out to save her.

Fu Hanchuan’s tall body bent slightly, and he only let go of Qin Sheng after a while.

Qin Sheng’s worried gaze landed on the ward. Fu Hanchuan said, “Sheng Sheng, he’s good to you. Maybe you can agree to his request.”

Fu Hanchuan had tested Qin Sheng and Qin Yufei’s DNA before, and they were indeed father and daughter.

He had yet to find out the cause and effect of this matter, so he could not tell Qin Sheng about it.

However, it was obvious that Qin Yufei treated Qin Sheng extremely well. However, Qin Yufei did not know that he had a daughter.

Qin Sheng fell silent.

These days, Qin Yufei and Old Master Qin came to look for her almost every day. Every time, they would collect all kinds of fun things for her.

Qin Sheng would be lying if she said she was not touched.

She walked into the ward. The doctor had already bandaged Qin Yufei’s wound.

When Qin Yufei saw Qin Sheng, he lifted his arm that was wrapped in gauze and smiled warmly. “Sheng Sheng, look, I’m fine, aren’t I? You don’t need to worry.”

After all, his arm was seriously injured. The moment he raised his arm, he couldn’t help but frown.

Qin Yufei put down his hand. “Sheng Sheng, as long as you’re fine.”

Qin Yufei did not seem to blame Qin Sheng at all. The worry in his eyes was obvious.

The last chord in Qin Sheng’s heart was touched.

At that time, Qin Yufei had rushed out without a care and pushed her away, even though he knew he couldn’t avoid the car.

At this moment, Qin Sheng finally understood. She was not repulsed by Qin Yufei and Old Master Qin, and they were also sincerely good to her. Since that was the case, why didn’t she follow her heart?

“Dad,” Qin Sheng called out.

Qin Yufei was stunned and did not react in time. He thought he had heard wrong.

Qin Sheng called out again.

Qin Yufei finally confirmed that he did not hear wrongly. His eyes turned red. "Good child."

He was very glad that he had pushed Qin Sheng away back then.

Otherwise, Qin Sheng would not have agreed to take him as her father so easily.

Qin Yufei was overjoyed and immediately told Old Master Qin about this.

Old Master Qin stood up abruptly. He was so excited that he could not even speak properly. "Sheng Sheng is willing to come to our house? Are you sure?"

Qin Yufei glanced at Qin Sheng and nodded with certainty.

"Alright!" Old Master Qin walked back and forth in the room. "Bring Sheng Sheng back right now."

"I'm still in the hospital," Qin Yufei replied.

Old Master Qin waved his hand. "The fact that you called me means that you're fine. Don't we have a family doctor? Come back."

If he continued to stay in the hospital, wouldn't he be stopping him from seeing his granddaughter?

Chapter 1010 He Has a Granddaughter

Qin Yufei nodded helplessly. "Alright."

He then put down his phone. "Sheng Sheng, your grandfather wants us to go back."

Qin Sheng frowned. She looked at the gauze wrapped around Qin Yufei's arm. Although the injury on his arm was a little serious, a wealthy family like the Qin family would have a family doctor.

She agreed.

Qin Yufei and Qin Sheng returned to the Qin family together with Fu Hanchuan by Qin Sheng's side.

Qin Yufei sat in the front passenger seat and looked at the two figures sitting next to each other in the back seat. He found Fu Hanchuan more and more unpleasant to the eye.

Qin Sheng was only 18 years old. She had just returned to the Qin family when Fu Hanchuan abducted her to be his girlfriend.

Who knew? When she reached marriageable age, Fu Hanchuan might trick Qin Sheng into becoming his wife again.

Of course, Qin Yufei did not dare to criticize Fu Hanchuan too much in front of Qin Sheng. Fu Hanchuan held a high position in Qin Sheng's heart, and he was worried that he would annoy Qin Sheng.

When they returned to the Qin family, Old Master Qin did not care about Qin Yufei's injuries and pulled Qin Sheng upstairs. "Sheng Sheng, I've already prepared a room for you. Take a look and see if there's anything you're not satisfied with. I'll arrange for someone to help you redecorate it."

"Sheng Sheng is staying in the Fu Garden," Fu Hanchuan said with a frown.

Old Master Qin glared at Fu Hanchuan and said through gritted teeth, "Fu Hanchuan, I have to say this to you. You're just a couple and not married yet. It's not appropriate for you to live together. In the future, Sheng Sheng, come and live with us."

Fu Hanchuan rubbed his brows. "We'll let Sheng Sheng decide on this."

Fu Hanchuan was certain that he would be the person Qin Sheng would choose.

Old Master Qin choked and cursed Fu Hanchuan in his heart.

As expected, the next second, he heard Qin Sheng say, "Grandpa, I'm used to living in Fu Garden."

Old Master Qin still did not give up. "Then, Sheng Sheng, you can come back from time to time to spend time with this old man."

This time, Qin Sheng did not reject him.

Old Master Qin was happy. He pulled Qin Sheng to sit on the sofa and talked to her for a long time.

After Qin Sheng returned, he called Old Master Lin eagerly.

Old Master Lin was drinking his tea and asked, "Old Man Qin, what's the matter?"

Old Master Qin smiled. "It's about me taking Sheng Sheng as my god-granddaughter."

"By the way, Old Man Qin," Old Master Lin sneered, "It's been almost two months since you've been with Sheng Sheng. Aren't you just wasting your time? Sheng Sheng already has our Lin family. She will never agree to be your granddaughter. You'd better give up as soon as possible."

Old Master Qin dropped a bomb. "She agreed."

"Isn't it just a promise? What's the matter?" Old Master Lin suddenly stopped. "Wait, what did you say? S-she agreed?"

Old Master Qin nodded. "That's right. Sheng Sheng will be my granddaughter from now on."

"F\*ck!" Old Master Lin cursed and said suspiciously, "Why would Sheng Sheng agree to your request? That shouldn't be the case."

When Qin Sheng first found out that he was her grandfather, he had spent a lot of effort to get Qin Sheng to agree to it. The Qin family had nothing to do with Qin Sheng, let alone Qin Sheng agreeing to it.

Old Master Qin did not get angry at Old Master Lin's suspicion. He still had a bright smile on his face. "If you don't believe me, you can ask Sheng Sheng. Old Man Lin, I have a granddaughter too, and yours is just a maternal granddaughter."

Old Master Qin's tone was extremely smug.
