

ALL-MIGHTY GIRL GETS SPOILED BY A BIGSHOT

All-Mighty Girl Gets Spoiled by A Bigshot

"Alright, but don't blame us if you dare to lie to us."

The manager sneered in his heart. He had indeed lied to them.

However, he did not have to worry about them finding out. After all, he believed that Qin Sheng would protect him well.

This was also China's territory, and they couldn't allow a G Country citizen to be presumptuous here.

The executive smiled and extended his hand. "Mr. Lin, we have a pleasant cooperation."

--

The next morning, the senior manager gave Lin Yuanren the documents that he had prepared early in the morning.

The 3 billion yuan was also transferred into his card.

"I hope you can keep it a secret. Don't let Shengshi Technology know that I leaked it."

After Lin Yuanren agreed, he couldn't wait to take a photo of the information and send it to Francois.

After receiving it, Francois handed it over to Major.

Major arranged for everyone in the Science and Technology Department to conduct overnight research.

The information inside was recorded very clearly.

Therefore, their research went smoothly.

In less than a week, they first developed the all-intelligence technology. They used the code given by Shengshi Technology to create a very intelligent virtual character.

Francois boasted on the internet, [Thank you, Shengshi Technology, for sending us the all-intelligence technology. We have developed the all-intelligence technology based on the information you gave us. Next, there is the 5D technology and holographic virtual technology. We will continue to study it. I think we will be able to develop it in less than two weeks.]

When his words spread to the country, the netizens exploded.

Some of them were loyal fans of Shengshi Technology.

However, they did not speak up for Shengshi Technology anymore.

After all, if Shengshi Technology hadn't given the technology to G Country, would they have created the all-intelligent technology?

[This is indeed all-intelligent technology. Shengshi Technology actually sold the technology to G Country. Shengshi Technology, I was wrong about you.]

[Hehe, so Shengshi Technology is just a bootlicker. Have they forgotten whose money they're earning?]

[I have a pair of holographic glasses here. Who wants them? They're sold for 30,000 yuan. No matter how much I like Shengshi Technology's games, I won't use their games anymore.]

[Heh, Shengshi Technology, since you're sucking up to G Country like this, then scam to G Country. China doesn't welcome you.]

[...]

Francois' words had completely angered everyone, and they all pointed their fingers at Shengshi Technology.

Many people began to sell holographic virtual reality glasses.

There were also a lot of people who uninstalled the all-intelligence mobile games and holographic virtual reality online game.

Shengshi Technology earned more than 100 million yuan every day from game top-ups, but it had fallen to 40 million yuan. This could be said to be an avalanche.

Many gaming companies were laughing at Shengshi Technology.

Shengshi Technology acted as if nothing had happened and stayed out of this matter.

Hong Yuan saw that Shengshi Technology's game users had decreased by so much, and there were no other games in the company that needed to be developed, so he simply gave some employees a break.

The head of China's computer science department called to ask. He was very worried. "General Manager Hong, you really sold the technology to G Country."

"Yes." Hong Yuan nodded. He took a sip of tea and smiled faintly. "But we didn't sell it. They bribed the company's employees."

The head of the computer department frowned and asked, "Bribe?"

"Yes, but our boss is prepared."

"Oh?" The head of the computer department was relieved. He was also interested. "What preparation?"

All-Mighty Girl Gets Spoiled by A Bigshot

Hong Yuan didn't mention the specific countermeasures and only said, "Minister, don't worry. Even if they get their hands on that technology, it won't be of any use to them. It'll also bring them trouble. You'll see the results in five days at the latest."

The head of the computer department naturally believed Hong Yuan's words, and he was relieved.

After the two of them ended the call.

Hong Yuan put down his phone and shook his head.

If anyone dared to deal with Qin Sheng, they had to be prepared to be slapped in the face.

Qin Sheng, this pervert, was not someone that could be dealt with by just anyone.

In this world, Fu Hanchuan was probably the only person worthy of Qin Sheng.

Hong Yuan was not worried that Qin Sheng would be bullied. Instead, he was worried about the person who dealt with Qin Sheng.

This time, Qin Sheng's method of dealing with G Country was the same as how she dealt with Longyue Technology...

Qin Sheng had also received the 3 billion yuan that Hong Yuan had transferred to her. This was the money she had obtained from G Country.

Qin Sheng's eyes curved.

After counting the amount, she generously gave 8 million yuan to Hong Yuan and asked him to give 1 million to the executive. The rest would be given to Shengshi Technology's employees as an additional reward for this month.

When the employees received the money, they were dumbfounded.

What kind of money was this?

However, they often received bonuses from the company under various names, so they were already used to it.

Therefore, they did not ask for the reason and accepted it with a clear conscience.

--

In the next two days, Shengshi Technology continued to be attacked by the entire internet.

On the third day, after Hong Yuan's reminder, Qin Sheng finally remembered that she had to deal with the matter in G Country.

She stretched out her fair and slender fingers and pressed the space between her eyebrows. "Okay, I understand. I'll deal with it immediately."

Qin Sheng returned to her room and turned on her computer.

Her fair and slender fingers quickly moved on the computer keyboard.

In just 15 minutes, the computer screen was filled with codes.

Qin Sheng checked it once. After confirming that there were no mistakes, she narrowed her eyes and hit the enter key.

At the same time, in the Ministry of Science and Technology of G Country.

They were researching Shengshi Technology's holographic technology when all the computers in the room suddenly went black.

The staff members were all stunned. When they came back to their senses, they could not help but start discussing.

"What happened?"

"This is the first time something like this has happened!"

"Could it be that they were attacked by hackers? That's impossible. Our Ministry of Science and Technology has the most complete defense system in the world."

"Wait, there's no need to guess so much. Perhaps it's just a system malfunction. Let's take a look first."

They wanted to turn on the computer, but no matter what they did, they could not turn it on.

"What, what's going on?"

They quickly told Major about it.

Major was also in a terrible state at this time because many of the regional science and technology departments had reported this problem to them. Almost all the computers in use in the country had a black screen and could not be turned on!

Hearing his subordinate's report, he stood up abruptly.

"What? Even the computers in the Ministry of Science and Technology can't be used?!"

"Yes, we've checked, but we can't find a way to recover. Minister, what should we do now?"

"Hurry up and check our server."

Soon, his subordinate ran back and reported, "I asked. There's also a problem with the server."

All-Mighty Girl Gets Spoiled by A Bigshot

Major clenched his fists.

His face darkened. "Someone must be trying to deal with our country."

"Even our department's computers were damaged," the subordinate frowned. "Who would have the ability to do that?"

The words 'Shengshi Technology' appeared in Major's mind.

But he quickly denied it.

Shengshi Technology was indeed powerful, but it was not to this extent. It was impossible for a mere Shengshi Technology to make all the computers in the country turn black.

He gritted his teeth and said, "Call Francois over and see if he has a way to deal with it."

As soon as he finished speaking, Francois knocked on the door and entered.

It had been an hour since the screen went black. When Francois heard the news from home, he immediately rushed over.

He ran over and was still panting. "Minister, what's going on?"

Major's expression was very ugly. "See if you can handle it first."

"Alright."

Francois sat in front of his computer and began to check the reason.

His computer skills were considered top-notch in G Country. However, after an hour, he still had no clue.

During that period of time, all the computers in G Country that were connected to the internet had a black screen. Moreover, there was no way to solve it. This matter was reported by the media.

The news quickly spread to the country.

On Weibo, the netizens were gloating.

[The entire country's computers are blacking out. This is karma. I guess they must have been pranked by someone. This G Country is too arrogant. It's not surprising that they're being targeted.]

[Hahaha, I can only say that they did well.]

[F*ck, this is so satisfying. Which genius did this?]

[Wait, don't you think this is too coincidental? They first bragged about their all-intelligent technology on the internet, and this happened only three days later. Why do I keep feeling that this matter has a lot to do with Shengshi Technology?]

[Previous poster, stop showering. Even this matter has something to do with Shengshi Technology? Shengshi Technology was able to hack into the computers of G Country? Hehe, you're bragging so much. Do you want to go to heaven?]

[Previous poster, for this to be Shengshi Technology's doing, it's not impossible. After all, all-intelligence mobile games and holographic virtual online games are things that we don't dare to think about. However, Shengshi Technology still developed them.]

[Wait, now that you guys mention it, I'm starting to suspect something. Could this be Shengshi Technology's scheme?]

[A small Shengshi Technology can go against a country? What a joke!]

The discussion later turned to whether Shengshi Technology had done this in G Country.

Of course, most people didn't believe it.

Some of them went to Shengshi Technology's official Weibo to ask, but Shengshi Technology naturally did not answer.

Three days had passed, and G Country was in a terrible state. They could not find any way to deal with it.

Many computers in the country had black screens, which caused a lot of trouble for production and other aspects.

"This should be a computer virus, a new type of virus." Major gritted his teeth.

"Then, Minister, how should we respond? If this continues, it will be a great loss to the country."

Major frowned.

His hand was gripping the back of the chair, and the veins on the back of his hand were bulging.

He didn't even know the source of the virus, so how could he find a way to deal with it?

The subordinate thought of the comments he had seen on Weibo and frowned. "Minister, could this be the work of Shengshi Technology? Francois announced that he had developed all-intelligent technology based on Shengshi Technology's information, and on the third day, there was a black screen on the computers."

1254

Major's face darkened.

Hearing his subordinate's words, he also became suspicious.

After letting his subordinates leave, he searched through Hong Yuan's information and found his phone number to call.

"Mr. Hong, I'm Major, the Minister of Science and Technology of G Country."

Hong Yuan chuckled. "I've been waiting for you for a long time."

How could Major not understand what Hong Yuan meant?

His face darkened. "You guys were the ones who caused the virus to invade G Country's computers."

This was the tone of a statement.

Hong Yuan didn't hide anything. He nodded. "That's right, it was indeed our doing."

Major clenched his fists tightly. "You guys are really brave!"

Hong Yuan tapped the table lightly with his fingers. "If you didn't send people to bribe our employees and give you the technology, this wouldn't have happened."

"You dug a hole for us to jump into!"

"That's right." Hong Yuan smiled and said, "You gave our company 3 billion. How can we not accept it?"

Hong Yuan had already learned Qin Sheng's personality.

While dealing with others, he also wanted to scam a sum of money from them.

Major took a deep breath and barely suppressed the anger in his heart. "How did you do it?"

Hong Yuan leaned against the back of his chair. "Our company has a new type of virus. We can implant it into those program codes. We can trigger the virus and it has a very strong spreading ability. Basically, as long as one of your computers is infected with the virus, other computers that are slightly related will also be infected."

"You won't be able to solve it in a year."

"In addition, the codes for the holographic technology and 5D technology that we gave you all contain viruses, and each virus is different."

When Qin Sheng talked about the power of the virus, he was dumbfounded and could not help but wipe his sweat for G Country.

G Country was unlucky to have offended Qin Sheng.

"Help me clean up the virus immediately!" Major said in a deep voice.

"We can remove the virus, and it won't cause any damage to your computers, but we have conditions."

Major gritted his teeth and asked, "What conditions?"

Hong Yuan replied with a smile, "Two. First, give Shengshi Technology 3 billion as compensation for the mental damage caused by your theft of the technology. In addition, you and Francois apologize online and tell the truth about this matter."

"Impossible!"

As soon as Hong Yuan finished speaking, Major retorted fiercely.

Hong Yuan was not in a hurry. He picked up the tea and sipped it carefully, waiting for Major to continue.

Major was angered by Hong Yuan. His chest heaved up and down vigorously.

If he really apologized, where would his face and the face of G Country go?

The other countries would laugh at them.

G Country would not be able to raise its head in front of these countries for a period of time.

"Mr. Hong, are you sure that a small technology company dares to go against G Country?" he asked through gritted teeth.

Hong Yuan smiled and said nonchalantly, "Why not? You don't dare to lay your hands on our company."

Major narrowed his eyes and said disdainfully, "Are you sure?"

"Of course, our virus is already in your computers. Even if your computers are restored this time, we can trigger it at any time."

Major's expression was extremely ugly.

Hong Yuan continued slowly, "Some of the important information about G Country has already fallen into our hands. If you don't want to leak it, you'd better not act rashly."

"Department Head Major, Shengshi Technology is a company that only wants to make money. If you know your place, don't think of using it as a means to obtain our technology. There's no need for us to be enemies, right?"

All-Mighty Girl Gets Spoiled by A Bigshot

Major's face turned green and white. He was angry.

At this moment, he could not say anything.

Hong Yuan looked at his watch. He still had a meeting to attend later, so he did not want to waste any more time with Major. "Minister Major, take your time to think about it. There's no time limit. When you've fulfilled my conditions, we'll help you restore the computer to its original state."

"But..."

"The more you delay, the more losses you will incur."

After saying that, Hong Yuan ignored Major and hung up the phone without giving him any face.

Major's chest heaved up and down vigorously.

This was the first time someone dared to threaten him like this!

However, there was nothing he could do about Shengshi Technology. No matter what Hong Yuan said, it would be a huge loss to the entire country.

Major found the leader of G Country and told him about it.

The leader's expression was also very dark. Their country was a country with strong technology. Which country did not respect them?

They were actually tricked by a small company in China.

When they contacted China, their words were all about protecting Shengshi Technology. Even if G Country threatened them, they did not relent.

"What should we do?"

The leader of G Country's face was dark and he did not say anything. He called the Finance Department. "How much money did G Country lose in the past three days because of the computers being unusable?"

The Finance Department replied respectfully, "A large area of the computers have gone black, causing many productions to be unable to proceed..."

He even said a lot of things after that.

The leader of G Country was getting impatient. "Speak."

The Finance Department directly gave a number.

The expression of the leader of G Country instantly became very ugly. He hung up the phone and looked at Major, who was standing at the side trembling with fear.

"How do you do things?" he asked coldly. "How could you be tricked by a game company?"

Major lowered his head, not daring to speak.

The leader of G Country took a deep breath. "There's nothing we can do now. We can only agree to their request. This is not a matter of face. We can't afford to lose hundreds of billions a day."

Major frowned and asked, "Now?"

"Yes."

Major followed the instructions of the leader of G Country.

He first contacted Hong Yuan.

Hong Yuan smiled and replied, "Don't worry. As long as you fulfill both conditions, we will help you restore your computers."

"How long?"

"I'll help you recover within two hours. Minister Major, I'll give you my bank account number."

"Remember," Hong Yuan added, "that statement must be made using your department's official account. It cannot be deleted."

Major gritted his teeth and agreed.

Hong Yuan was very fast. In less than two minutes, a bank card number was sent to Major's phone.

Major did not delay and directly ordered his men to transfer the money.

Then, he posted the statement online.

One minute later, someone transferred it to China and attached a picture.

[Hooligan: F*ck, Shengshi Technology is awesome! Even G Country has compromised!]

Within fifteen minutes, the topic of Shengshi Technology teasing G Country's Ministry of Science and Technology became the top trending topic on Weibo. There was a lot of discussion.

[Shengshi Technology, f*ck, this is too cool. I'm convinced by this method.]

[Hahaha, this is the first time I've seen G Country suffer like this. Shengshi Technology is simply too much.]

All-Mighty Girl Gets Spoiled by A Bigshot

[As expected, my guess was right. This matter has something to do with Shengshi Technology. They actually really messed with G Country.]

[G Country must have lost all its face.]

[F*ck! I've been slapped in the face again. I won't dare to question Shengshi Technology anymore. My face really hurts.]

[I have to download the game back and charge money for the all-intelligence mobile games and holographic virtual reality online games. I have to support this kind of company that made G Country suffer!]

[...]

They were so excited that they were crazily commenting.

They almost praised Shengshi Technology to the heavens.

Some of the netizens finally reacted.

Did they sell the holographic glasses?

F*ck!

Although it wouldn't be long before another 5,000 pairs of glasses were released, they wouldn't be able to get them.

These netizens regretted it and had no way to get the holographic glasses back. They could only wait for Shengshi Technology to sell the holographic glasses and compete with their hand speed and internet speed to snatch them.

The other countries fell silent when they saw G Country apologizing to Shengshi Technology and promising not to try to steal Shengshi Technology's technology again.

At the same time, they were also a little afraid.

Fortunately, they had not taken action yet. Even a strong country like G Country had been dealt with by Shengshi Technology, let alone these small countries.

Shengshi Technology's actions had shocked those who wanted to steal the all-intelligent and holographic virtual technology.

Subsequently, 5D glasses were promoted.

However, the technology was in the hands of Shengshi Technology. It was also Shengshi Technology who arranged for people to go over and produce them. Then, they sold these 5D glasses, and Shengshi Technology obtained an extremely rich profit from it.

The matter between Shengshi Technology and G Country had come to an end.

The research on Fulama disease had also been completed. They only needed to find a patient to test the medicine's properties. Qin Sheng began to prepare her thesis.

It had been three months since Lin Shuya took the medicine Qin Churou gave her.

On this day, Lin Shuya came downstairs for breakfast.

Qin Hai supported her and said with concern, "We'll go over for a prenatal checkup later."

Qin Hai gave the doctor some money. After learning from the doctor that Lin Shuya was indeed pregnant with a son, Qin Hai took extra care of Lin Shuya.

"Alright."

Lin Shuya nodded and touched her bulging belly.

She was very glad that this child had come at this critical moment. Because of this child, Qin Hai did not go out to fool around anymore.

Qin Hai had been taking care of her for the past few months. It was as if she had returned to the time when she was dating Qin Hai in university.

A blissful smile appeared on Lin Shuya's face.

Suddenly, she felt a sharp pain in her stomach.

Lin Shuya frowned and squatted down.

Blood flowed down her thigh.

Her face turned pale and her lips trembled. "Brother Hai, my stomach hurts. Did something happen to the child?"

Lin Shuya was wearing a dress that only reached her knees. Qin Hai saw the bloodstains on her calf and panicked. He was afraid that something had happened to his son.

"Shuya, I'll bring you to the hospital immediately. You'll be fine," Qin Hai said anxiously.

He called the ambulance.

Lin Shuya quickly entered the ward. Lin Shuya had fainted and her face was extremely pale.

When the doctor came out, half an hour had passed.

Upon seeing the doctor, Qin Hai impatiently asked, "Doctor, how is my son? Is the child alright?"

He did not mention Lin Shuya.

The doctor sighed and said, "I'm sorry, the child couldn't be saved."

1257

Qin Hai's mind went blank.

He couldn't be saved...

He finally had a son, but he was gone just like that!

Qin Hai began to complain about Lin Shuya.

It must be because of Lin Shuya.

She hadn't been pregnant for more than ten years, but she suddenly had a child and now they told him that the child was dead.

He had been taking good care of Lin Shuya these days. It was obvious that Lin Shuya's body was not suitable for pregnancy. Even if she had a child, she would still have a miscarriage.

Thinking of this, Qin Hai's expression darkened.

Unfortunately, he had been taking care of Lin Shuya these past few days. If he had been with another woman, they might already be pregnant with his child.

Qin Hai did not return to the ward to see Lin Shuya. He wanted to leave, but the doctor stopped him.

"Sir, you can't leave yet. Your wife still needs someone to take care of her, and you need to pay some fees."

Qin Hai did not want to bother with Lin Shuya.

He didn't need to be too nice to a woman who couldn't get pregnant.

Qin Hai said impatiently, "I'll arrange for someone to come over."

Then, he left without looking back.

When Lin Shuya woke up, five hours had passed.

She opened her eyes. "My child!"

"Madam," the servant at the side said respectfully.

Lin Shuya grabbed the servant's arm. "Where's my child?"

The servant hesitated for a moment before answering, "Madam, he has passed away."

"No more?" Lin Shuya's eyes widened in disbelief. Her face turned pale. "My child, hasn't he always been fine? How could he be gone?"

Moreover, it was also because of this child that Qin Hai treated her so well.

What would Qin Hai think of her?

With that thought in mind, Lin Shuya scanned the ward once again, but she did not see Qin Hai.

She asked nervously, "Where is Brother Hai? Tell me, where is Brother Hai?"

The servant thought for a moment and answered truthfully, "Sir arranged for me to come over and take care of you. Perhaps he left because he had something to do."

Upon hearing this, Lin Shuya let go of the servant weakly.

She sat on the bed in a daze.

"Madam, perhaps he had something to do and had no choice but to leave. He arranged for me to take care of you," the servant comforted her.

Actually, she felt a little guilty.

After all, after such a big incident, the husband would always stay by his wife's side. Even if the company's matter was very big, he would wait for Lin Shuya to wake up before leaving.

From Qin Hai's appearance, it was obvious that he did not take Lin Shuya seriously.

When Lin Shuya heard the servant's words, her eyes lit up with hope. "Yes, Brother Hai is busy. I'll look for him now."

Lin Shuya called Qin Hai.

Qin Hai was currently hugging another woman intimately.

When he heard his phone ring, he picked it up and looked at it. He frowned impatiently and threw the phone back on the table, ignoring it.

A minute later, the phone stopped ringing.

"Come, baby, let's continue."

He pinched the woman's chin in his arms and was about to kiss her when his phone rang again.

The woman covered Qin Hai's lips. "Your wife is calling you. Hurry up and pick it up."

Qin Hai reluctantly picked up the call. He asked in a deep voice, "What's the matter?"

"Brother Hai, where are you now?" Lin Shuya asked carefully.

Qin Hai casually found an excuse. "I'm working. I've been accompanying you these past few days. There's a lot of work piling up now, and I need to handle it."

"Brother Hai, I don't know what's going on with that child. Can we ask the doctor what the reason is?"

All-Mighty Girl Gets Spoiled by A Bigshot

It would have been fine if she did not mention the child. However, when Lin Shuya mentioned the word 'child', Qin Hai's expression darkened completely.

Lin Shuya continued, "Brother Hai, the child is gone. Let's continue. There shouldn't be any accidents with the next one, right?"

Qin Hai sneered. "Lin Shuya, it's best if you don't have a child. It's already been more than ten years, and you still can't give birth, let alone now."

"That was just an accident." Lin Shuya panicked.

"Chairman, Sister-in-law can't give birth. I'll give birth to a son for you. I'm still young."

A sweet female voice suddenly came from the phone.

Lin Shuya's expression darkened. She lost control of her emotions and shouted, "Qin Hai, you went to look for a woman behind my back again!!!"

Qin Hai's care and concern for her over the past few months had almost made her forget about Qin Hai's affairs.

At this moment, Qin Hai was together with another woman. This reminded her of the quarrel she had with Qin Hai earlier, and the scene where Qin Hai appeared before her with another woman in his arms...

Qin Hai sneered. He did not feel that he had done anything wrong. "Lin Shuya, if you can't give birth to a son, then you won't allow me to find an outside woman? Don't bother me again, or I'll divorce you."

After saying that, he hung up the phone.

Lin Shuya sat on the hospital bed, her face pale. At this moment, her mind was clear.

Qin Hai had indeed treated her so well for his son.

Now that their son was gone, they naturally returned to their previous state.

Lin Shuya's body started to turn cold. She hugged her knees helplessly.

The servant suggested, "Madam, why don't you let Miss come back?"

"Rou'er." Lin Shuya's eyes lit up, and a smile appeared on her face. "Yes, I still have Rou'er. Only Rou'er treats me sincerely."

Lin Shuya took out her phone and immediately called Qin Churou.

Qin Churou was in the middle of filming, so she didn't receive Lin Shuya's call immediately. When she called back, half an hour had passed.

"Mom, why are you calling me?" Qin Churou asked with a frown.

"Rou'er, I, I had a miscarriage. Your brother is dead." Lin Shuya sounded like she was about to cry.

Qin Churou was stunned for a moment before she smiled.

As expected, she had a miscarriage so quickly.

She was still consoling her. "Mom, don't be too sad. You don't want to hurt your body. If the child is gone, you can have another one."

Lin Shuya kept shaking her head. "I can't. Rou'er, can you come to the First Hospital of H City?"

Qin Churou frowned and weighed the pros and cons in her heart. This was the most painful time for Lin Shuya. If she did not go back, Lin Shuya would inevitably complain.

She would not have any scenes in this movie tomorrow, so she had the time.

Qin Churou nodded. "Okay, Mom. I'll buy a ticket back tomorrow. Have a good rest."

At 2 o'clock in the afternoon the next day.

Qin Churou returned to H City.

She took good care of Lin Shuya.

"Rou'er," Lin Shuya said gratefully, "it's fortunate that I have you as my daughter. Otherwise, I really wouldn't have anyone to accompany me now."

Lin Shuya was very glad.

Back then, she had chosen Qin Churou over Qin Sheng.

Qin Churou put down the porridge in her hand and held Lin Shuya's hand. She said with concern, "Mom, the child is gone. You can have another one. It's not your fault that my brother didn't come to this world."

Chapter 1259 Qin Sheng Is Qin Yufei's Daughter

Lin Shuya's eyes reddened. "Rou'er, ever since I gave birth to Qin Sheng, I couldn't get pregnant. I tried many ways but to no avail. It wasn't easy for me to get pregnant, but he passed away for some reason. I asked the doctor, but the doctor didn't know what the reason was."

"Could this have something to do with Qin Sheng?" Qin Churou frowned. "After all, you couldn't get pregnant because you gave birth to Qin Sheng back then. Could it be that you were jinxed by her?"

Lin Shuya became agitated. "It must be Qin Sheng. Otherwise, I wouldn't not have gotten pregnant after more than ten years, and I wouldn't have gone through the procedure after getting pregnant."

Qin Churou looked at Lin Shuya worriedly.

However, there was a smug look in the depths of her eyes.

Lin Shuya's eyes were red. She hated Qin Sheng to the extreme. "She's indeed a scourge! When she was born, I should have strangled her to death. I actually let her return to the Qin family and acknowledge Qin Yufei as her father."

At the mention of Qin Yufei, Lin Shuya's heart was filled with regret.

If she had known earlier, she would have married him.

Even if he was blind, Qin Yufei was also extremely rich.

The Qin family was still the richest family in China. If she became the wife of the Qin family, wouldn't everyone have to suck up to her?

Moreover, she would not sever ties with the Lin family...

Lin Shuya bit her lip. How did she end up marrying Qin Hai, this useless piece of trash?

Qin Churou noticed what Lin Shuya said.

She recognized Qin Yufei as her father?

Qin Churou was stunned. "Mom, is there any relationship between Qin Sheng and Qin Yufei?"

Lin Shuya avoided her gaze. "No, it's okay. Didn't Qin Sheng just acknowledge Qin Yufei as his godfather?"

Qin Churou had been by Lin Shuya's side for many years. How could she not know that Lin Shuya was lying?

A thought rose in his mind.

She asked nervously, "Mom, just tell me what their relationship is. If Qin Sheng wants to deal with us in the future, it'll be easier to deal with her, right?"

"No, we can't let anyone know about this."

Qin Churou walked over and looked outside. When there was no one else, she closed the door.

"There are only the two of us in the room now. No one else will hear us."

Qin Churou sat back on the bed and held Lin Shuya's hand again. "Mom, don't you believe me?"

Lin Shuya was still unwilling to give in.

She didn't dare to let anyone else know about this.

Qin Churou looked into Lin Shuya's eyes and said, "Mom, Qin Sheng isn't Dad's biological daughter, is she?"

Lin Shuya's eyes widened. "Rou'er, how did you know?"

Qin Churou didn't answer Lin Shuya's question. She continued, "Moreover, Qin Yufei is Qin Sheng's biological father. Qin Sheng accidentally recognized her biological father as her godfather, right?"

"Rou'er, you..."

Lin Shuya didn't know how Qin Churou knew about this. She looked at Qin Churou in a daze.

"You revealed it when you mentioned Qin Sheng," Qin Churou answered honestly.

Lin Shuya grabbed Qin Churou's hand. "Rou'er, don't tell your father about this. Otherwise, he'll divorce me."

"Okay, Mom, don't worry," Qin Churou agreed.

Lin Shuya trusted Qin Churou and was relieved.

"Mom, are you sure Qin Sheng is Qin Yufei's daughter?" Qin Churou asked with a frown.

Lin Shuya nodded. "I'm sure. I've only slept with your father and Qin Yufei. Before Qin Sheng came back to the Qin family, I secretly sent someone to take Qin Sheng's hair and run a DNA test. She's my daughter, not Qin Hai's."

All-Mighty Girl Gets Spoiled by A Bigshot

This was obviously Qin Yufei's daughter.

Qin Churou was tempted.

Perhaps she could use this to replace Qin Sheng and acknowledge Qin Yufei.

The Qin family was the number one wealthy family in the capital. If she became Qin Yufei's daughter, everyone would have to curry favor with her in the future.

She didn't have to accompany those old men for those resources.

As for Qin Hai, she did not place much hope in him.

Qin Hai yearned for a son, but he did not fancy her.

In the future, if Qin Hai really had a son, he would definitely not pass the family property to her.

Qin Hai was a person who valued benefits the most. He had only kept her around because he considered her as a lucky star. If he were to discover the truth in the future...

Qin Churou didn't dare to think about it.

"Mom, does Qin Yufei know that Qin Sheng is his daughter?"

Lin Shuya said with certainty, "He doesn't know. Qin Yufei doesn't know that he has a child. It's impossible for him to do a paternity test with Qin Sheng."

Qin Churou was relieved. She suggested, "Mom, the fact that Qin Yufei and Qin Sheng are biological father and daughter will probably happen sooner or later. Perhaps, I can acknowledge Qin Yufei."

Lin Shuya was taken aback. "You mean to let Qin Yufei treat you as his biological daughter?"

"Yes." Qin Churou nodded. "Mom, we just need to take Qin Sheng's hair and bring it to Qin Yufei for a DNA test."

"No, this is definitely not possible. As long as Qin Yufei checks, he will find out. At that time, he will turn around and deal with us. With the Qin family's power, we can't resist at all. Rou'er, I don't want anything to happen to you."

Lin Shuya was very worried.

Qin Churou held Lin Shuya's hand. "Mom, don't worry. I'll make arrangements. Nothing will happen."

"But Qin Sheng treats Qin Yufei as her godfather. If she told Qin Yufei about this, wouldn't it be easy for her to be discovered?"

Qin Churou said with certainty, "With Qin Sheng's personality, she definitely wouldn't do that. Moreover, she won't find out that I've done something inside. Qin Sheng will leave the Qin family on her own accord. Moreover, Qin Yufei will also hate Qin Sheng."

Qin Churou looked very pleased. She could already imagine the scene of Qin Sheng being chased out of the Qin family.

Lin Shuya looked at Qin Churou in a daze. For a moment, she felt that Qin Churou was a stranger.

In her impression, Qin Churou had always been a simple and considerate person who would never scheme against others.

And now...

Qin Churou noticed Lin Shuya's gaze and realized that she had lost her composure. She hurriedly said, "Mom, I'm doing this for our own good."

Lin Shuya felt guilty.

She had misunderstood Qin Churou just now.

However, she still hesitated. "But, Rou'er, this is too risky."

Qin Churou grabbed Lin Shuya's hand. "Mom, Dad is always fooling around with other women outside. He doesn't care about us at all. If he has a son, I won't be his daughter. We might be chased out of the Qin family."

Lin Shuya frowned. "Rou'er, you still have work..."

Qin Churou interrupted her. She was annoyed by Lin Shuya's indecisiveness, but she still had to be patient.

"Mom, I'm not popular yet. Moreover, all my resources come from Qin Entertainment. If Dad chases us out, we'll have nothing. Dad is heartless, so we have to find a way out for ourselves."

"Actually, I'm mainly worried that I can't give you a good life. You're used to living a rich life. I don't want you to live those hard days with me."
