

BIGSHOT MR. FU S WIFE IS SWEET AND WILD

Chapter 14

Lifeline

The Zhongli Group was Qin Likun's lifeline.

Qin Jianxi's words were like a stranglehold on his lifeline. His hand, which was holding the phone, stopped.

"You dare?"

Qin Jianxi raised her eyebrows and replied, "Whether I dare to or not... You're going to send me to a mental hospital, so what do you think I'm afraid of? There are some things that you can't control just because you want to. Hurry up and call, let's not waste each other's time. I actually really want to see what the Zhongli Group's stock fluctuation will be like."

Qin Likun looked at his eldest daughter who wasn't afraid at all. He felt a sense of uncertainty in his heart because he was really afraid that she had some hidden tricks up her sleeve.

The Zhongli Group's current scale was not satisfactory. He could not allow anything to happen to the group.

Hence, he did not make the call.

Zhu Jing saw her husband's expression and knew that he had been deceived by Qin Jianxi.

However, she glanced in Qin Jianxi's direction and was a little hesitant. After all, in her opinion, the Zhongli Group would belong to her son in the future.

At this moment, Qin Jianfei opened her mouth and said, “Mom, since she wants to leave, then let her leave. However, she has to sign an agreement to give up all of the Qin family’s assets. Otherwise, make her stay at home!”

Zhu Jing subconsciously looked at her husband. “Hubby, this...”

Qin Likun looked at Qin Jianxi with a sinister look. “I’ll give you money and a house. Everything else in the Qin family has nothing to do with you. You also have to give up the 30% shares that your mother left you. If you agree to this, then everything will be done as you wish.”

“Okay, I can give up on all these. The house I want will be the one in the second phase of Xinglong Garden. I know that the house was actually left to me by my mother back then. We’ll talk about the rest tomorrow.”

When Qin Likun heard that she wanted the house in Xinglong Garden, his face turned even more unsightly. This was because he was planning to give that house to his second daughter.

“Change the house...”

Qin Jianxi’s mouth twitched. Then, she said, “No, I want that house.”

Qin Likun gritted his teeth and replied, “Okay.”

Qin Jianxi smiled and didn’t say anything else. She turned around and went upstairs.

As soon as she left, Qin Jianfei was unhappy. “Dad, you said that the house was for me. When I get into university, I can move in. Now... If you give it to Qin Jianxi, what about me?”

Zhu Jing was not happy either. The current market value of that house was at least eight million yuan. In order to let her daughter live more comfortably, the interior decoration was all new. It cost her a total of three million yuan. Now, she was going to let that little b*tch take advantage of it for free?

Qin Likun's face was dark as he replied, "I'll give you another house. This matter is settled."

Between a few million yuan and 30% of the company's shares, of course, he would choose the latter. He had wanted these shares for many years, but unfortunately, Zhu Zhongjun was still on guard against him and had secretly arranged everything.

He couldn't put those shares under his name at all.

Now that he could finally get it, he was even willing to give Qin Jianxi ten million.

When Zhu Jing heard him say that, she also thought of the shares and shut her mouth. Seeing her daughter's unhappy expression, she immediately advised, "Feifei, don't make things difficult for your dad. If you like that neighborhood, mom will buy you another house."

Since her biological mother had already said so, Qin Jianfei could only nod and replied, "Okay, mom."
