

Bigshot 191

Chapter 191: Someone Better Than Him

Li Bao laughed coldly and said in a weird tone, "Alright then, I'll just wait for the results this afternoon."

There were a total of more than 400 papers. It was not much, and it was still a competition question. There would be quite a number of students who would be left blank. Ten teachers would grade the papers, and it would basically take two hours to correct them. From there, the top 20 would be selected to participate in the final round of the competition.

Luo Xuewen went to sit somewhere else. He did not want to stay with Li Bao anymore.

As for what Li Bao said, he was not worried.

Once the results were out, he would naturally be slapped in the face.

There were still ten minutes before the end of the exam. Su Yixiu had also submitted his papers in advance.

The reporters saw Su Yixiu. In every competition that Su Yixiu won, as long as he participated, the first place would be his.

These two reporters recognized Su Yixiu and they immediately went forward to ask.

"Student Su, may I ask if you have the confidence to win the first place this time? Previously, there was a female student who left the stage early. She even said that the first place was hers. What do you think?"

Normally, Su Yixiu would not bother with these reporters. However, this time, he said something rare. "I'm second. There's someone better than me."

The reporters' curiosity was piqued.

There was still someone who was better than Su Yixiu?

They quickly asked, "Who is the person you're talking about? Is it convenient for you to tell us?"

Su Yixiu only said, "The results will be out in the afternoon. You'll naturally know."

A figure flashed through the reporters' minds. The astonishingly beautiful young lady just now said that she could get first place. Her eyes were filled with confidence.

However, they quickly suppressed their thoughts.

After completing the test paper in forty minutes, she could still get first place? Was that possible?

They still wanted to ask Su Yixiu, but unfortunately, Su Yixiu had already left. He came to Luo Xuewen's side.

Luo Xuewen did not ask how Su Yixiu did on the test. He was also very confident in Su Yixiu.

"Let's go. We'll have lunch first, then we'll go back to rest."

Li Bao did not ridicule Su Yixiu for submitting the exam ahead of time. Su Yixiu was capable, and even he could not say anything against Su Yixiu.

After the exam ended, He Manyun came out with the other students.

He Manyun had the best math results in G City, and Li Bao had high hopes for her.

Seeing her come out, Li Bao quickly went up to her.

“He Manyun, how did you do?”

He Manyun pinched the corner of her shirt and forced a smile. “Not bad.”

Li Bao immediately smiled and said, “Good, good, good. Not bad, Manyun. With your ability, you will definitely be able to enter the last round of the competition. If you can’t get first place, there will be no problem for you to get second place.”

Li Bao did not see the panic in He Manyun’s eyes.

The questions this time were very difficult. He Manyun had to work very hard. She did not have time to finish the last question. Even the second to last question still had a few steps that she had not written down.

If she had not been absent-minded for a few minutes in the examination venue, she would have been able to finish the second to last question.

After finishing the morning’s competition, there was still tomorrow’s rush-answer segment left.

In the afternoon, it was time to wait for the results to be released.

Su Yixiu and Qin Sheng were not too concerned about the results.

After Luo Xuewen asked around, he could only go alone.

Actually, the results were notified by text message, but those teachers still hoped to see who would enter the next round and what the results would be, so they went to the school early to wait.

Many students also went to the school to see the results.

The teacher using the computer was still typing and organizing the results, while Qin Sheng’s test paper had already been passed around among the marking teachers.

Chapter 192: Qin Sheng, Full Marks

They were very shocked by this full marks test paper.

This was the first time that a full marks test paper had appeared in the National High School Mathematics Competition.

One had to know that the questions in the competition were extremely difficult. Many students would leave a large number of blanks. Even if they did it, they might not be right.

The highest score in previous competitions was only 93 points.

Now, there was actually a full score of 100 points!

When they first received this test paper, they felt that it was unbelievable. They looked at Qin Sheng's answers carefully.

Qin Sheng's thought process for answering the questions was perfect to the extreme.

Qin Sheng's words were as if they were printed. They were neat and there was not a single wrong word.

The entire test paper was so perfect that no one could pick out a point that could be deducted.

This perfect score was worthy of its name.

The invigilator in Qin Sheng's room was curious as well. Before the ranking was determined, he could not help but walk into the office and ask, "What is the highest score?"

One of the teachers answered, "Qin Sheng, perfect score."

When the invigilator heard this result, he was not surprised at all. He had already expected this score.

He nodded. "This girl is indeed very impressive. She only used half an hour to complete the entire examination paper."

Half an hour?

The other teachers could not believe it. She could complete a full score in half an hour, and it was even a math competition question?

The invigilator looked at the reactions of the other teachers. He smiled and said, "What we can't do doesn't mean that other people can't do it as well. There will always be geniuses in this world."

—

When the results were announced, there was already a circle of students and teachers outside. They were all nervously waiting for the results.

First, everyone's results were posted. After that, the results of each student would be sent to the phone of the leading teacher.

Once the results were posted, there were many people looking at them.

Everyone started from the first place. The top 20 could participate in the last round of the answering contest. Therefore, they deliberately added the scores of the top 20 schools in bold and black.

H City High School, Qin Sheng, score 100!

The first thing they saw was Qin Sheng's name.

She actually scored 100 points in the mathematics competition. They all thought that they had seen wrongly.

In normal exams, it was not unusual to score 100 points in the mathematics exam, but this was a mathematics competition!

The difficulty of the mathematics competition questions in the National High School Group was comparable to the Olympiad. Even the mathematics experts could not solve the last question in a short period of time.

Now, there was actually a person who scored 100 points!

Looking down, it was Su Yixiu from H City High School, with a score of 95.

Then, it was 88 points.

Then, it was 87 points.

The difference in the scores below was not very big, and many of the rankings were tied.

Many students were dejected when they saw that they did not make it into the top 20.

Li Bao squeezed into the front early on. When he saw that the first and second place were from H City High School, his face turned green with anger.

When he saw that Qin Sheng was ranked first, he felt even more incredulous.

40 minutes to write a test paper and get full marks?

Li Bao did not care about Qin Sheng and Su Yixiu anymore. He continued to look for He Manyun's name.

She was not the third.

She was also not the fourth.

Li Bao's heart sank. When he gradually lost hope, he finally found He Manyun in the 20th place.

81 points!

Seeing this score, Li Bao could not believe it.

He Manyun was the one with the best math scores in G City High School. According to her standard, it was impossible for her to only get 81 points.

Although He Manyun knew that she did not perform well this time, she did not think that she would be ranked below 20th place. She also wanted to know Qin Sheng's results, so she came over.

However, she was delayed on the way. After the results were posted for a while, she finally arrived at the school.

She squeezed into the crowd and anxiously looked for her name.

Chapter 193: Knowing the Answer In Advance

She did not pay too much attention to the people in front of her. She looked down and found her name in the twentieth place.

He Manyun looked at her score and was stunned for a moment.

How could it be? How could she only have 81 points?

She was so close to not being able to participate in the last round of the competition.

He Manyun did not look good. She continued to look for Qin Sheng's score.

She started from the back.

He Manyun did not know Qin Sheng's name. She only knew that Qin Sheng was from H City High School. However, H City High School only had two students participating in the mathematics competition, so it was easy to find him.

He Manyun kept looking until she reached the 200th place, but she still could not find Qin Sheng.

Li Bao frowned and asked, "Who are you looking for?"

"The girl from H City High School who came to participate in the competition. She submitted her paper in advance. I want to know her results," He Manyun answered nonchalantly.

Li Bao's face darkened when he heard He Manyun's words. He was very angry.

He had placed high hopes on He Manyun. He thought that she could bring glory to him as a math teacher by getting second place this time.

In the end, she was left behind.

He had even mocked Qin Sheng's results.

Now that Qin Sheng had gotten full marks, what about He Manyun? She was only in the 20th place, a full 19 points away from Qin Sheng.

Wasn't this a slap to his face?

Li Bao blamed He Manyun for his disgrace.

If He Manyun had not failed him, how could he be in such a sorry state?

Li Bao seemed to have seen the students and teachers pointing fingers at him.

At this moment, he did not have a good expression towards He Manyun. He said in a deep voice, "Start from the beginning. If you fail, don't embarrass yourself outside."

He Manyun's face flushed red when she was mocked by Li Bao in front of so many teachers and students, but she did not dare to retort.

He Manyun's family was not good. She was very arrogant, but no teacher had ever confronted her.

He Manyun could not figure it out.

Why did Li Bao let her start from the front? Qin Sheng only wrote for half an hour. How good could her results be?

However, when she saw the first place, she was stunned.

The first place was actually from H City High School. Her name was Qin Sheng. It was obvious that she was a girl.

He Manyun could not believe it.

She searched again and only found that two of them were from H City High School. They were the first place, Qin Sheng, and the second place, Su Yixiu.

He Manyun could already confirm that the woman she hated the moment she saw her was Qin Sheng.

“Impossible!” He Manyun immediately shouted.

Everyone looked at her in unison.

“Qin Sheng, Qin Sheng must have cheated. She only spent half an hour sleeping there. How can she get full marks?”

He Manyun’s voice was very loud and it was clearly heard by the other students and teachers.

They naturally noticed that Qin Sheng got first place. When they heard He Manyun mention Qin Sheng, they immediately reacted.

They discussed in a low voice.

He Manyun was not convinced. Qin Sheng had only used half an hour to get full marks. As for herself, she had used an hour and a half and still had not finished it.

She would never believe that these were Qin Sheng’s real results.

Those competition questions could be done so perfectly in a short half an hour? There was only one possibility, and that was that Qin Sheng had known the results in advance.

He Manyun sneered and said, “Those who can participate in the competition are all top students from all over the world, and their math results are also excellent. You guys can not finish all the time in the exam field, but Qin Sheng finished it in just half an hour? Do you think it’s possible?”

“Qin Sheng must have bribed some people or had a backer to know the answers in advance.”

Chapter 194: Qin Sheng Has a Backer

Those students did not believe in Qin Sheng’s results to begin with. The moment He Manyun’s words came out, they immediately started discussing among themselves.

“So this Qin Sheng was the one who came out of the examination hall very early this morning?”

“She was able to achieve full marks in half an hour, and it was even a mathematics competition. How is that possible?”

“How can there be such a genius in this world? Who would believe it if there were no tricks?”

“This test paper is stored in the Ministry of Education. It seems that she has a backer in the Ministry of Education.”

“I really thought that she was a genius. I didn’t expect that she would cheat. It’s too embarrassing.”

Li Bao did not stop He Manyun. He did not believe in Qin Sheng’s results either.

However, he was a teacher. He could not casually guess a student's results.

At this moment, He Manyun said it. It was in line with his thoughts.

After discussing for a while, they turned to the teacher from Imperial Capital University who had just posted the report card.

"Someone cheated. How are you going to handle it?"

"This matter must be investigated. We can't let her go. This is not fair to the other students."

"We also need to know what kind of background Qin Sheng has in the Ministry of Education. She can even get an answer?"

That teacher did not know how to handle it either. He opened his mouth and said, "I'll go ask for instructions. If she really cheated, someone will handle it."

Li Bao saw that the matter was on his side, so he interjected.

Even if that teacher from Imperial Capital University said so much, he was still unwilling to let Qin Sheng go.

"Don't let it be that someone really cheated, but they got away with it. After all, she has a big backing."

Li Bao even deliberately looked at Luo Xuewen. "A certain school is no longer as glorious as before. It's not impossible for them to take the opportunity to show off and attract a wave of top students."

Luo Xuewen did not know that Li Bao, as a teacher, would be so thick-skinned. Wasn't he afraid of being exposed?

Luo Xuewen stood out. "I believe that my student won't cheat. Qin Sheng has the ability."

Li Bao sneered. "You're naturally protecting the students of your school."

Just as he finished speaking, a dignified male voice sounded from behind him. "Our Ministry of Education is Qin Sheng's backer?"

Behind him was the Principal of Imperial Capital University.

Li Bao frowned. "You are?"

The Principal of Imperial Capital University introduced, "Minister Chen of Imperial Capital's Ministry of Education."

Li Bao's legs went weak and he nearly fell to the ground.

He called out embarrassedly, "Minister Chen."

The other students and teachers did not dare to make a sound. Even He Manyun did not dare to appear and hid to the side.

Minister Chen narrowed his eyes. "You said that our Ministry of Education leaked the answer to Qin Sheng?"

Li Bao braced himself and said, "Sir, isn't Qin Sheng's results too hard to believe? If we don't investigate clearly, everyone will not be convinced."

"Nonsense!" Minister Chen said in a deep voice, "What you said just now is clear. No matter what the result is, Qin Sheng is cheating. Finding out that Qin Sheng cheated is what you believe in your heart. If she doesn't cheat, then we are protecting her."

"We... We didn't mean that," Li Bao said hesitantly.

Li Bao was unreasonable, but he didn't dare to be unreasonable in front of the principal.

"I think that's what you meant." Minister Chen didn't think about Li Bao's words. He had been standing by the side just now and had heard the whole story.

Minister Chen said very seriously, "Our exam papers have always been kept strictly confidential. They are kept in the safe and no one can open them. There has never been a case of a lost exam paper leaking exam questions. This math competition is absolutely fair and just."

Li Bao's face turned green and white after hearing what Minister Chen said.

He did not dare to refute. He was not convinced in his heart, but he still nodded repeatedly on the surface. "Yes, yes. I'm sorry, Minister. You taught me the right lesson. I was wrong."

Chapter 195: Adding Friends

Minister Chen's face darkened as he lectured, "As a teacher, you have to understand that there is always someone better than you. Even if you can't do it, it doesn't mean that others can't do it as well. Without evidence, you can't slander students as you wish. Of course, if it's found out that my Ministry of Education leaked the exam questions, then I will apologize to you. I won't be the Minister anymore."

Minister Chen's words were very serious.

If he had enough confidence, he would not have said that the exam questions were leaked so easily. He would not have stepped down.

The other teachers naturally realized this and felt guilty for a moment.

Without any evidence, just based on their suspicions, they said that Qin Sheng had cheated. It was indeed their fault.

Li Bao was very embarrassed for a moment.

He glared at He Manyun. "Apologize to Teacher Luo quickly. If you can't learn well, then you can slander others. He Manyun, don't think that just because you got first place in the school exam, others can't surpass you."

He Manyun's eyes were red. It was unknown if she was embarrassed or angry.

She said to Luo Xuewen aggrievedly, "Teacher Luo, I..."

Before she could finish, she was interrupted by Luo Xuewen. He waved his hand. "If you want to apologize, then apologize to Qin Sheng."

After the Minister of Education lectured Li Bao, he said to Luo Xuewen, "Qin Sheng and Su Yixiu from your school are good seedlings. Train them well."

When the Minister of Education learned that Qin Sheng had gotten a perfect score of 100 on the written test, he was also very shocked.

However, he was also very pleased.

As someone from the Ministry of Education, he was naturally happy to see such a talent appear.

Since the Ministry of Education had matters to attend to, Minister Chen did not stay in the school for too long.

Luo Xuewen took a photo of the names of the other 18 contestants on the list before he left the school.

On the way, he impatiently sent it to Qin Sheng.

[Student Qin, guess what your score is this time?]

Qin Sheng was looking at her phone and coincidentally saw this message from Luo Xuewen. She casually sent him a 100.

Luo Xuewen: "..."

He sent again: [Are you sure? It's hard to get 100 points.]

Qin Sheng did not stand on ceremony and sent another emoji coldly.

Luo Xuewen could only admit it: [You passed 100, Su Yixiu is 95.]

He sighed in his heart.

This Qin Sheng was too cold and outstanding. Perhaps only that man was worthy of her and could tolerate her temper.

Luo Xuewen told Qin Sheng about the things she needed to pay attention to the next day and the incident where He Manyun had accused Qin Sheng of cheating.

Finally, he sent the list of names he had taken to Qin Sheng.

The last round of the competition was very important.

The first round of the competition only determined whether one could enter the second round or not. The first round of the competition determined the ranking of the competition this time.

Luo Xuewen had repeated the rules of the competition many times, so Qin Sheng did not listen to it anymore. She placed her phone on the tea table casually.

The notifications from Penguin kept ringing.

Fu Hanchuan frowned slightly.

After a long while, he took out his phone, opened the app market, and downloaded a QQ app.

Fu Hanchuan had rarely interacted with others except for work matters. He rarely even called, let alone installed a chat app like Penguin.

After the download was completed, Fu Hanchuan registered an account.

He randomly picked a name.

He had just registered, but before Fu Hanchuan could get his hands on it, a request automatically popped up on his phone page.

[Would you like to add a friend from your address book?]

Fu Hanchuan clicked yes.. At the same time, Lin Haocheng received Fu Hanchuan's request to add a friend.

Chapter 196: Stay At His Place

"F*ck." Lin Haocheng spat out a mouthful of water.

Fu Hanchuan, that guy, actually downloaded Penguin and even asked him to add him as a friend!

"You are Fu Hanchuan?"

Just as Lin Haocheng sent this message, a red exclamation mark jumped out.

Lin Haocheng: "..."

D*mn, Fu Hanchuan made a mistake. Otherwise, with his personality, would he add him as a friend?

Even if the sky was falling, Fu Hanchuan would not take the initiative to look for him.

Lin Haocheng's manager walked in and said, "Haocheng, it's your turn."

Hearing this, Lin Haocheng casually threw the phone to his manager and walked out of the lounge.

On this side, Qin Sheng also saw the friend request Fu Hanchuan sent her.

She looked at Fu Hanchuan in surprise and then smiled.

She put Fu Hanchuan's QQ number on the top.

"Brother Fu, we can talk more often in the future." Qin Sheng's eyes were curved, and she looked very happy.

"Okay." Fu Hanchuan also smiled.

From the corner of his eyes, he saw the nickname of Penguin on Qin Sheng's phone. It was a very simple 'S'.

Fu Hanchuan's finger lightly tapped on the screen, changed his nickname, and changed it to C.

Ding dong.

A message was sent. It was a moving picture. A cute pink pig was waving its hand at Fu Hanchuan.

Fu Hanchuan curled his lips into a smile. There seemed to be starlight in his eyes.

He clumsily used penguin and searched for a long time before he found a similar pig and sent it to Qin Sheng. However, this pig was a male and Qin Sheng's was a female.

On their phones, it looked like two pigs were greeting each other.

Qin Sheng also smiled.

The two of them sent emojis back and forth, and half an hour passed just like that.

Qin Sheng put down her phone and only then did she remember her results for this competition.

She told Fu Hanchuan, "Brother Fu, I got 100 points this time."

Fu Hanchuan and Qin Sheng sat very close to each other. When he reached out, he could touch Qin Sheng's hair.

In fact, Fu Hanchuan did the same. He raised his hand and rubbed Qin Sheng's hair. The touch was very soft, and Fu Hanchuan couldn't put it down.

"Well, Sheng Sheng did very well."

Fu Hanchuan was worried that Qin Sheng would notice his abnormality. After saying this, he reluctantly withdrew his hand.

Seeing that it was about time, he made dinner for Qin Sheng.

She would finish the last match tomorrow morning and return to H City.

Fu Hanchuan liked spending time with Qin Sheng like this. There were only the two of them in this villa, and they only had each other in their eyes.

Fu Hanchuan tossed and turned in the kitchen for more than an hour.

Finally, he came out with the food, and Qin Sheng sat at the dining table.

Qin Sheng wanted to help Fu Hanchuan cook. Although she was not good at cooking, she could still wash the vegetables.

However, Fu Hanchuan insisted that Qin Sheng sit outside.

At the dining table, Fu Hanchuan picked up some food for Qin Sheng and pretended to ask casually, "Sheng Sheng, are you leaving the Qin family and finding a place to stay?"

Qin Sheng answered honestly, "Not yet."

"Sheng Sheng, my place is very quiet. You can move in," Fu Hanchuan said in a low voice.

Qin Sheng was a little hesitant. "Will it be too much trouble for you?"

"No, I feel lonely living alone."

Fu Hanchuan's mood was a little low, and Qin Sheng could clearly feel it.

In fact, Fu Hanchuan's family background was not better than hers. His mother had passed away when he was young, and his father was on Zhou Sihui's side. He had never looked at Fu Hanchuan.

Fu Hanchuan's grandfather only valued Fu Mingxu.

Fu Hanchuan was not liked in the Fu family. He had been living outside since a long time ago.

The two of them were in the same boat.

Chapter 197: The Second Round of the Competition

"Okay, let me think about it." Qin Sheng didn't agree immediately.

She had never thought about living with Fu Hanchuan, and she wasn't used to it.

"Okay."

Seeing that Qin Sheng didn't refuse, Fu Hanchuan's worried heart also slowly relaxed.

'If Grandfather was to step out, Sheng Sheng would agree.'

Thinking of Old Master Lu, Fu Hanchuan's heart felt sour.

His status in Qin Sheng's heart was similar to Old Master Lu's. In fact, he was even worse than Old Master Lu.

Fu Hanchuan wanted to be the only one in her heart.

After dinner, Qin Sheng sat downstairs with Fu Hanchuan for a while before returning to her room.

Although Qin Sheng was very confident about this competition, she did not relax.

This mathematics competition was related to the face of H City High School. The principal of H City High School had always protected her in the school. Qin Sheng was a person who knew how to repay kindness. She also wanted to earn some face for H City High School with good results.

Qin Sheng went to bed very early and woke up at around seven in the morning.

Fu Hanchuan had already prepared breakfast for her.

After breakfast, the two of them went to Imperial Capital University.

The other nineteen students also arrived early. Qin Sheng came to Luo Xuewen's side.

Luo Xuewen was still a little worried about Qin Sheng's performance in the competition this time. The previous exam was not much different from the usual exam. They were all writing the exam papers in the classroom.

The competition in the competition was different. They had to face a lot of audiences and the media.

They had to give the answer within the stipulated time. The first one to answer would get the score.

As long as they were nervous, it would affect their performance. The question might be answered by others first.

The second round of the competition tested not only the students' knowledge level, but also their ability to adapt and psychological quality.

"Student Qin Sheng, don't be nervous. Just try your best in the competition." Luo Xuewen tried to let Qin Sheng relax.

Qin Sheng said calmly, "It's alright."

He Manyun also came over. When she saw Qin Sheng, she slowly clenched her fists.

She did not dare to find fault with Qin Sheng now.

Many people were staring at her.

It was impossible for her to apologize to Qin Sheng. She could only avoid Qin Sheng first.

Yesterday's competition was an accident. This time, she would not make another mistake.

It was possible for anyone to get first place, but it definitely could not be Qin Sheng.

He Manyun was jealous of Qin Sheng not only because she got full marks in the exam, but also because of Qin Sheng's near-perfect appearance.

He Manyun was very arrogant. She could not stand women who were better than her.

The competition was about to start. Su Yixiu and Qin Sheng entered the classroom, and the other eighteen students also entered.

This time, the competition would be a scramble.

In front of each student was a table with dozens of pieces of paper on it.

The big screen in front would play the questions, and the students would answer them. They would write the answers on the paper and then hand them in.

The first one who got the answers right would get extra points.

If they got the answers wrong, no points would be deducted.

Below the stage were experts and judges, media reporters, and the leading teachers of the students who participated in the second round of the scramble.

The rest were the teachers of some famous universities. Their purpose of coming here was to win over the students who had outstanding performances to their schools.

They also needed some specialized talents.

Just being good at math was enough.

The first and second places were contested by Imperial Capital University and Shangbei University. The other university teachers knew the strength of their own schools and did not dare to compete with them.

He Manyun sat in her seat and looked at Qin Sheng from afar

Chapter 198: Completely Correct

Qin Sheng had obtained the best result in the first round of the competition. She had been arranged to sit in the middle of the first row.

He Manyun was sitting at the edge of the second row.

He Manyun glared at Qin Sheng unwillingly.

She could not lose to Qin Sheng!

The other students also looked at Qin Sheng's position and secretly encouraged themselves. Facing such a god of learning with full marks, they could not lose too miserably.

However, they were destined to be beaten by Qin Sheng.

The competition officially began.

A calculation question appeared on the computer screen.

Solution $(188259+132335) \times (2345+6714+61586)$

These students had all participated in specialized training. This question was not very difficult for them, but it required a lot of time.

1

The cameras of the reporters swept across the students who were thinking, but most of the cameras were focused on Qin Sheng. After all, Qin Sheng was the first student in the history of the National High School Mathematics Competition to enter the second round with a full score, and it only took half an hour.

The two reporters who were interviewed yesterday morning were also present. They looked at Qin Sheng and felt their faces hurt.

Yesterday, they were mocking Qin Sheng for not finishing the test paper. They said that she was a typical underachiever and even came to just 'participate' in the math competition.

In the afternoon, they were slapped in the face.

At that time, the two reporters were unwilling to believe in Qin Sheng's results, but the truth was right in front of them. Even the Minister of Education came out to protect Qin Sheng.

They did not dare to doubt anything anymore.

They were curious if Qin Sheng could act like yesterday and create another record.

Qin Sheng looked at the big screen and frowned in thought. Two seconds later, she retracted her gaze and wrote her answer on the paper.

The other students were still thinking, and so was Su Yixiu.

After Qin Sheng finished writing the answer, Su Yixiu began to write.

The two people's answers were sent up separately.

There were no answers to these questions yet. Only a few experts were doing the calculations on the spot. When they took the computer to calculate the answers, dozens of seconds had already passed.

Looking at Qin Sheng's answers, their mouths opened slightly.

"Qin Sheng is right. The answer is completely correct."

Then, they said a correct answer.

Those mathematics experts did not feel unbalanced just because Qin Sheng calculated faster than them.

They exclaimed, "Student Qin is very amazing. We used the computer to calculate for 30 seconds before we could get the correct answer, but Student Qin only used two seconds to complete it."

Boom —

Their words exploded in the crowd.

Correct?

Only used two seconds?!

Perhaps even the current world record would not be so fast.

Although this question was nothing in those world-class competitions that specialized in calculating ability, Qin Sheng only used two seconds!

The way the audience looked at Qin Sheng changed.

Luo Xuewen heaved a sigh of relief.

It seemed that he was worrying too much. Qin Sheng's psychological quality was also very good.

Luo Xuewen was very gratified that such a talent had appeared in the school.

Perhaps the school would change its decline because of Qin Sheng...

He Manyun held the pen, and her palms were covered in sweat.

She had started thinking of the answer when they unexpectedly announced that Qin Sheng had answered correctly.

Hearing the praises of Qin Sheng from the expert judges, He Manyun bit her lip, feeling extremely indignant.

She was the third person to do it. If it weren't for Qin Sheng and Su Yixiu, the person they would be praising would be her.

However, He Manyun didn't dare to show anything unusual. There were cameras everywhere. In the future, the video of the competition would be broadcast on television, and almost everyone in the country would see it.

If she showed any difference, she might be discovered.

He Manyun could only swallow the unwillingness in her heart.

Chapter 199: Second Place

The next question was a short answer.

This time, the cameraman simply focused on Qin Sheng.

Qin Sheng was extremely fast in solving the questions. If one was not careful, she would hand in the answers.

Of course, the cameraman would also take pictures of the other students.

Two minutes later, Qin Sheng once again made the correct answer at an amazing speed. The process of solving the questions was very complete.

The following questions became more and more difficult, but Qin Sheng did not seem to be affected by these difficulties. Her speed was maintained at the same level.

The audience and the media were already numb.

The experts also fell into self-doubt.

Could they not even be compared to a high school student?

The few of them answered and thought together. It took them more than two minutes to clear their heads. Qin Sheng even wrote down the process of solving the questions in two minutes?

After Qin Sheng handed in the answers to the ten questions, all of them were completely correct.

Su Yixiu could also do it, but each time he was a few seconds slower than Qin Sheng.

One of the judges swallowed his saliva and said with some difficulty, "I suggest that for this competition, Student Qin will not participate in the next questions. Student Qin is number one, and the rest of the rankings are arranged among the other nineteen students."

This time, they had only prepared more than forty questions.

The first ten questions were all answered by Qin Sheng, and they were all correct answers.

The other students were all crushed by Qin Sheng.

If it continued to develop, there would be no need to compete in this competition.

Qin Sheng had everything right, and the other students got zero points.

The other judges nodded in agreement.

“Alright, Qin Sheng, you can go and rest for a while.”

Qin Sheng left her seat and sat down in the audience seats.

They had thought that with Qin Sheng gone, everyone would have a chance to perform in the following competition.

When the competition reached the fifteenth question, they were shocked once again.

However, this time, it was Su Yixiu, not Qin Sheng.

Su Yixiu’s speed was very fast. He was only slightly slower than Qin Sheng, and he answered all the previous five questions.

However, this time, they quickly accepted it.

With Qin Sheng in front, it was not so difficult to accept.

They were also amazed at Su Yixiu’s speed. Just now, their attention was focused on Qin Sheng, and they did not realize that Su Yixiu was also a very powerful existence.

Su Yixiu was in the competition, and the audience began to discuss.

“Is this the second place in the written exam? He’s too powerful, only slightly weaker than Qin Sheng.”

“He’s Su Yixiu. He has participated in all the national competitions, but he has never been second. Every time, he always wins the championship.”

“It seems that he and Qin Sheng are both from H City High School. What kind of good luck did H City High School have to get these two genius students?”

While they were discussing, Su Yixiu had already finished answering ten questions.

Su Yixiu and Qin Sheng were both very fast. While the experts were still discussing the answers, Su Yixiu had already answered them.

The judges were helpless.

This mathematics competition had been held for more than ten years. Which year would such a situation occur? Would the students participating in the competition be allowed to leave the stage early?

One was not enough. They needed another one.

The judges could only let Su Yixiu leave the stage as well.

The first and second places belonged to Qin Sheng and Su Yixiu. The other students could only compete for the third, fourth, and fifth places. The rest did not have a place, and they would not even get the merit award.

There were only twenty questions left.

He Manyun gritted her teeth. She could only take the third place. Now, the third place must belong to her.

However, the first was Qin Sheng took away. He Manyun unwilling, but also helpless.

Chapter 200: Doubting Qin Sheng's Results

He Manyun's strength was not bad, but after being manipulated by Qin Sheng and Su Yixiu, He Manyun was on the verge of breaking down.

In addition, she was very competitive and wanted to win.

When she saw others writing their answers, she panicked.

She was the first to hand in her answers twice before, but the answers were all wrong. It was either a miscalculation or a mistake.

A layer of sweat appeared on He Manyun's forehead.

Later on, He Manyun could not stand it anymore and her performance was very poor.

Out of the twenty questions, she only got one correct answer and was ranked 15th.

Li Bao looked at He Manyun's results and his face darkened.

Their G City High School had also sent two people to participate, but the other student was eliminated in the first round, and He Manyun narrowly entered the second round.

He Manyun's math results were very good in the school. The math teachers in the third grade group all thought that with He Manyun's level, even if she could not get first or second place, she could still get third place.

He Manyun did badly in the written exam, and Li Bao still had high hopes for He Manyun.

But now they were telling him that He Manyun's performance was a mess, and she only got one correct answer?

Li Bao did not have the face to stay in the classroom any longer. He stood up and wanted to leave.

When He Manyun saw his results, she almost wanted to cry.

That was impossible. How could she have done so badly?

She lost control for a moment. "I suspect Qin Sheng's results."

Li Bao, who had just reached the door, stopped in his tracks and looked at He Manyun with a gloomy expression.

He wanted nothing more than to drag He Manyun away and for her to stop embarrassing him and the school here.

However, it was impossible for Li Bao to bring He Manyun away because the reporters surrounded him and pointed their microphones at He Manyun.

“May I ask why you suspect Qin Sheng of cheating? Do you have any evidence?”

He Manyun had learned her lesson this time and did not speak too confidently.

“She got 100 points in the first written test, and this time, she crushed everyone else. Who in the world would be able to answer all the questions correctly in such a short period of time? I can raise my own doubts.”

If this was any other time, many people would have probably pandered to her.

However, with the words of the Minister of the Ministry of Education, they did not follow suit immediately.

Another reporter asked the judges, “What do you think of this student’s suspicion?”

“We’ll discuss it,” one of the judges replied.

Thus, the four judges and the experts were discussing.

He Manyun clenched her hands tightly and was very nervous.

She thought that Qin Sheng had cheated. Otherwise, she would not act as if she knew the answer. There were probably not many people in the world who were as fast as her.

Even Su Yixiu could not be compared to her. Was that possible?

However, He Manyun was also worried. What if this was Qin Sheng’s strength?

The segment of the contest would be broadcast on television two weeks later. If she was impulsive, she would definitely be cut out and presented to everyone in the country.

If Qin Sheng did not cheat, in the eyes of others, she would be someone who would not admit defeat. She would be jealous of Qin Sheng and deliberately find fault with her.

He Manyun lowered her head and waited for the results of the judges’ discussion.

The judges and experts only discussed for a few minutes before answering the reporter’s question, “Seeing Student Qin Sheng’s performance, there should be a lot of people who don’t believe that this is her strength. Then, let’s give Student Qin Sheng a chance to prove herself.”

After pausing for a moment, she said, “All of the experts and the mathematics teacher present will come up with ten questions, eight to fill in the blanks, and two short answers. Student Qin Sheng, please come up with the answers within fifteen minutes. How about it?”
