

Bigshot 241

Chapter 241: Regret

Su Yixiu had only roughly skimmed through the contract and had already memorized the contents.

Starting from the summer after the college entrance examination, he had to go to work. The first month was 20,000 yuan, and there would be an increase later on. He would have all sorts of benefits for the year-end bonus.

This was already an extremely good treatment.

He did not expect Qin Sheng to help him pay for his college tuition and miscellaneous fees.

Su Yixiu's eyes were a little moist. "Thank you, Qin Sheng."

"No need. I just took a liking to your value and decided in advance. After all, there are very few geniuses like you." Qin Sheng did not hide her thoughts.

Although Qin Sheng said so, Su Yixiu was still very grateful to her.

After all, if it were not for Qin Sheng, he would have delayed his studies and gone out to earn money. He might have even delayed his grandmother's best opportunity for treatment.

"Take a look at this contract. If there are no problems, sign it."

Qin Sheng paused and said, "It's not too late to sign it after your grandmother's surgery."

Su Yixiu probably didn't have the mood to care about these contracts anymore.

Qin Sheng strode out of the door. She could see the situation inside through the glass.

Qin Sheng clenched her fists.

In her previous life, Old Master Lu was lying on the bed with all kinds of tubes inserted into his body. He was on his last breath.

She had missed the last chance to see him.

Qin Sheng's eyes reddened. She lowered her eyes and suppressed her emotions.

Qin Sheng asked, "Yixiu, can you inform me about your grandmother's surgery?"

Su Yixiu was a little puzzled, but he still nodded. "Okay."

"Thank you. The password on the bank card is your birthday."

After saying that, Qin Sheng left the hospital in a hurry.

Su Yixiu looked at Qin Sheng's back and frowned slightly.

Why did Qin Sheng's voice sound a little off?

Su Yixiu did not think too much about it. He took the bank card and went to find the doctor to arrange for his grandmother's surgery.

Doctor Li had a surgery to perform tomorrow, so he could only arrange for Grandma Su's surgery to be the day after tomorrow.

—

Two hours had passed since she came out of the hospital. There was only one class left in the morning.

Qin Sheng did not return to the classroom immediately.

She came to the small forest. It was very quiet around her, and only the sound of the wind blowing leaves could be heard.

Qin Sheng sat on the ground with a big tree behind her.

She just stared blankly at the sky.

The scenes from her past life flashed before her eyes.

The more she thought about it, the more she felt that she was stupid.

She had pushed the people she trusted the most far away, and instead, she had been helping Qin Churou and the Qin family.

In her past life, she could only blame herself for having such an ending. She had placed too much importance on family ties and had been blinded by those so-called family ties.

Qin Sheng laughed mockingly.

Now, she only hoped that she could properly protect Old Master Lu and Fu Hanchuan.

She hoped that she would be as heartless to Qin Hai and Lin Shuya as she was now.

Qin Sheng only stood up and walked out of the forest an hour later when the bell rang.

Huang Xiaoyan happened to see Qin Sheng and ran over.

She hugged Qin Sheng's arm. "Sheng Sheng, you're finally back. Where have you been?"

"Let's go and eat."

Huang Xiaoyan did not wait for Qin Sheng's reply and continued to talk to herself.

Qin Sheng rarely spoke, but Huang Xiaoyan was a chatterbox.

Usually, Huang Xiaoyan was the one talking while Qin Sheng was listening.

Qin Sheng smiled. Now that she had sorted out her emotions, she walked to the restaurant with Huang Xiaoyan.

In the afternoon, Fu Hanchuan had a class, which happened to be the last period.

H City High School did not have evening self-study, so it was very free.

After the class, Fu Hanchuan returned to Fu Garden with Qin Sheng.

Chapter 242: Lu Ming's Provocation

Fu Hanchuan was busy in the kitchen while Qin Sheng was sitting at the dining table, looking at her phone. From time to time, she would raise her head to look at Fu Hanchuan in the kitchen.

Fu Hanchuan did all the work in the kitchen by himself.

Qin Sheng wanted to help, but Fu Hanchuan chased her out of the kitchen.

The food that Fu Hanchuan usually cooked for himself was very simple and casual.

However, he did not dare to be careless when he lived with Qin Sheng. He especially looked it up on the internet and learned ten new dishes. He wanted to change Qin Sheng's taste every day.

Fu Hanchuan also had another purpose, which was to make Qin Sheng fatter.

After dinner, the two of them sat in the living room for a while before returning to their rooms.

Due to the influence of the events during the day, Qin Sheng's mood was still a little low, so she vented her emotions on Black Emperor.

She went back to her room, turned on her computer, and logged into Black Emperor.

Lu Ming paid special attention to QS.

As soon as Qin Sheng went online, Lu Ming had already received the message.

He jumped up, his fingers tapping on the keyboard very loudly.

[The Most Handsome In the Universe: QS, if you have the guts, let's have another match. Every day, you hide there like a coward. You are a man, but you act like a woman.]

Qin Sheng saw this dialog box and narrowed her eyes.

Normally, Qin Sheng would not pay attention to this message. She was a girl, not a man.

But now, Qin Sheng was in a bad mood and wanted to find someone to vent her anger on.

Just like that, Lu Ming bumped into the muzzle of Qin Sheng's gun.

Qin Sheng's fair and slender fingers gently tapped on the mouse, and Lu Ming received a pop-up invitation to battle.

[QS challenges The Most Handsome In the Universe.]

Lu Ming was afraid that QS would go back on its word, so he immediately agreed. After all, QS had rejected him countless times. If he missed it this time, who knew how long he would have to wait?

When two experts fought, there would naturally be countless spectators watching.

Lu Ming was also a high-profile person. In order to let people see that he was not inferior to QS, he shouted in the world chat.

At this moment, almost all the online hackers on Black Emperor came over.

They put down the keyboard and mouse, put their hands behind their heads, and watched the two people's competition on the computer screen.

Some even brought melon seeds and soda, just waiting to eat melon seeds.

[The Most Handsome In the Universe: QS, be more serious later. Don't be insta-killed by me, lest you say you're not ready.]

Lu Ming was very talented. During this period of time, he had improved quite a bit.

He was also a narcissist in computer technology. He was confident that he could win this time.

After being beaten up by Qin Sheng the first time, Lu Ming had yearned to have another match with her to win back his face.

Qin Sheng narrowed her eyes and looked at the message of The Most Handsome In the Universe, but she didn't respond.

She thought of the Fei Long Group that they had attacked last time.

The corners of Qin Sheng's lips curled up slightly, and her fingers quickly tapped on the keyboard. "How about the same place as last time?"

Lu Ming quickly replied, "Okay."

He sat up straight and rubbed his palms together. This time, he would definitely beat QS to the point where he would kneel down and call him daddy, so that he could properly vent his anger.

Wherever he fell, he would have to get up from there.

[QS: Let's begin.]

The computer interface switched, and they each brought their own hacker logo to infiltrate Fei Long Group once again.

The Fei Long Group's defense system had already been maintained.

Because of what Qin Sheng had said last time, that she would visit again next time, Fei Long Group was really afraid. If the company's internal information was stolen, it would be a fatal blow to the company.

In the end, they spent a lot of money to hire a lot of high-tech computer personnel to rebuild the protective system just in case QS came again.

In the past two months, QS had not appeared. They were a little relaxed. In the end, they were still very worried and arranged people to keep an eye on them every day.

Chapter 243: Destroying the System

Qin Sheng and Lu Ming had a lot of experience hacking into computers. Both of them accurately avoided the alarm set by Fei Long Group.

The design of the protection system this time was obviously better than the previous one. It was also much more difficult to crack the system.

Lu Ming's improvement this time was indeed great.

Although the difficulty had increased, Lu Ming's speed was also faster than the previous one.

Qin Sheng raised her eyebrows and deliberately slowed down.

She leaned against the back of the chair and tapped on the keyboard with her fingertips. Her expression was a little distracted.

The QS symbol was always maintained at a distance from Lu Ming's line of defense.

When Lu Ming saw the QS behind him, he smiled proudly.

He would get back his face. Let's see if he won't press the QS to the ground this time!

Even so, Lu Ming was not careless.

Forty minutes later, Lu Ming arrived at the last line of defense.

Soon, he was only left with one last step. After this step, he could win.

Lu Ming took some time to look at Qin Sheng's position, which was very close to him.

Lu Ming frowned. He had a bad feeling in his heart. QS had always maintained the same distance from him from the beginning.

But soon, Lu Ming did not think about anything else.

He only needed five minutes to win.

On the other side, Qin Sheng slowly sat up straight, and the speed of her hands also increased.

In just three minutes, she broke the fourth line of defense and the fifth line of defense.

In the past two months, Qin Sheng had been practicing her hacking skills, and her progress was also great.

When Qin Sheng appeared in front of Lu Ming, Lu Ming was still stunned.

Slowly, his eyes widened, and his eyes were filled with disbelief.

When, when, when did QS jump in front of him?

Did QS fire a rocket?

QS had not broken through the fourth line of defense three minutes ago!

When Qin Sheng saw that Lu Ming's symbol did not move, she knew that Lu Ming had been dealt a heavy blow.

However, Qin Sheng would not show mercy to these outsiders.

Thus, a dialog box popped up on Lu Ming's computer.

[QS: Defeated opponent.]

Lu Ming: "..."

His body froze in his seat.

He was actually defeated by QS again, and he was even ridiculed as a defeated opponent?!

The corner of his lips twitched stiffly as he slowly typed on the computer keyboard.

But very quickly, the corner of his lips twitched again.

He forgot that he was still unable to chat with QS.

As for the defeat of QS, it was naturally left behind when QS hacked into his computer.

He did not know when QS hacked into his computer.

This computer was given to him by Fu Hanchuan, a top-notch computer.

Lu Ming had thought about it for more than a month before he finally completed the firewall for himself.

He thought that it would take a few hours to break through this firewall of his.

He didn't expect QS to break through... his firewall without him knowing.

Lu Ming fell into self-doubt.

At this moment, Lu Ming deeply realized how overconfident he was.

However, when Lu Ming thought of QS's operation last time, he really wanted to tell him not to destroy Fei Long Group's defense system.

However, Lu Ming was unable to talk to Qin Sheng.

The next second, another paragraph popped up.

[QS: Get out, I'm going to destroy their system,]

Lu Ming: "..."

The veins on his forehead were throbbing.

Couldn't he just let him break through this level? It would only take a few minutes!

However, Qin Sheng had already begun to destroy the system, and Lu Ming had no choice but to retreat.

Chapter 244: The Arrogant QS

Qin Sheng circled around inside and destroyed the fifth line of defense.

She even deliberately made it look like the internal data of the Fei Long Group had been stolen.

In her previous life, the Fei Long Group had gone against the HD Group many times. The methods they used were all moving in a gray area, and they were cautious enough.

Even Fu Hanchuan had let them have a good time for a long time.

Qin Sheng did not want them to live so comfortably.

Her hands moved very slowly and evenly.

After destroying the fifth line of defense, Qin Sheng waited for a while.

The computer technicians from the Fei Long Group also rushed over.

Every hacker had their own logo. Qin Sheng's was a pig head and was easy to recognize.

When he saw the QS logo, he almost choked on his own saliva.

'It's him again!'

After not seeing him for two months, he thought that this hacker would not come over.

He did not expect him to come over again and even brazenly destroy the computer system.

This computer technician was the one that Qin Sheng met the last time she invaded the Fei Long Group.

Although there were four lines of defense that could trap Qin Sheng, the technician still did not dare to be careless. After all, he had seen Qin Sheng's strength the last time.

If he was not on duty, the other technicians would probably not put Qin Sheng in their eyes.

When Qin Sheng saw that the technician had arrived, she continued to move her fingers on the computer keyboard.

As she exited, she destroyed one line of defense after another.

The technician chased after her with sweat all over his head, but he could not catch Qin Sheng.

After Qin Sheng destroyed the last line of defense.

She once again left a message for the technician.

"Your defense system is still not up to standard this time. Keep working hard. I hope you can still protect the defense system next time."

After saying that, she disappeared.

The technician: "..."

How arrogant!

With his strength, it was easy for QS to not let him discover him.

Instead, he tripped the alarm and waited for him to appear before continuing to destroy the remaining four lines of defense?

So, he was just playing with him?

Although the technician had been tortured by Qin Sheng to the point of doubting his life, he was secretly excited.

Facing such an expert, he really wanted to get to know him and ask him for some technology.

However, facing the destroyed protective system, the technician had a headache.

He reported the news of Qin Sheng's arrival to the department head.

The department head was drinking tea. When he heard the news, he spat out a mouthful of water and coughed non-stop.

After a long while, he finally recovered.

"You mean, he, he's here again?" The department head couldn't even speak clearly.

He managed to calm himself down. "Did you catch him?"

"No."

The department head quickly asked, "Then, did he destroy the system?"

The last time Qin Sheng destroyed all the protective systems, the company had spent a lot of money to rebuild it.

For this, the department head was reprimanded by the chairman. For a long time, he was very humble.

The department head was also afraid. He was afraid that Qin Sheng would destroy the computer system like before and run away.

"She destroyed all our protective systems again." The technician reported the situation to the department head.

The department head almost couldn't breathe.

Too arrogant, too arrogant.

Not only did he break into the company's internal system, but he also destroyed the protective system. In the end, he was so arrogant that he said he would come again.

The department head asked nervously, "Did he take the information from the company?"

Chapter 245: Lost Again?

The technician shook his head. "I haven't checked it yet."

The technician wasn't worried at all when the department head asked this question.

This expert didn't seem to be here for the company's information. It seemed like he was purely here for a prank to destroy the system and give the company a headache.

Naturally, even if his goal wasn't to steal the information, the company's protective system still needed to be maintained well.

If the hostile company knew that their firewall had been destroyed and intruded into the company's internal system, it would be a fatal blow to the company.

The department head frowned and berated, "Hurry up and go."

"Yes." The technician agreed and went to check.

His gaze suddenly stopped and his eyes widened in disbelief.

Qin Sheng returned one last time. She left a message on the computer saying that she had taken a copy of the information and even kindly told him where the information had been downloaded to.

The technician: "..."

The corner of his mouth twitched. He quickly looked for the address given by Qin Sheng and indeed found the download record.

The technician did not dare to waste time and quickly told the department head about this matter.

"Director, he took away a piece of information from the company."

The department head asked in a panic, "Have you found out what that piece of information is?"

"No."

The department head knew how powerful this hacker was, so he did not make things difficult for the technical staff anymore.

This technical staff was an overseas student who had returned from abroad. His computer skills were not bad, and the department head was very clear about his strength. If even he could not stop the hacker, then QS's skills must be extremely high.

Putting down his cell phone, he called the chairman again.

When the Fei Long Group's chairman heard this news, his heart almost stopped beating.

"Call the police, call the police immediately!"

After hearing that the company's data had been stolen, the Fei Long Group's chairman was so angry that he roared.

Too arrogant. He had looked down on him time and time again.

The Fei Long Group's chairman also felt that he had been insulted.

The last time the system was destroyed by a hacker, he spent more than 10 million to rebuild it. In less than two months, he destroyed it again! D*mn!

He had to catch this hacker.

However, Qin Sheng was very cautious. He was destined not to find out who this hacker was.

On this side, in Black Emperor, the hackers who were eating melon seeds placed their bets again.

This time, they did not blindly believe that The Most Handsome In the Universe would win.

However, seeing that The Most Handsome In the Universe was so confident, they believed that he was confident.

Therefore, most of the hackers placed their bets on Lu Ming to win.

After closing the bets, they waited for the two of them to end the competition.

The first one to come out was still Lu Ming.

Generally speaking, the winner came out first, and the loser came out last.

Seeing Lu Ming appear, those hackers' eyes lit up, and they all rushed forward.

"Handsome, you won, right?"

"Handsome, you're really amazing, you can win just like that!"

"Then no matter how strong QS is, it can't be compared to you, Handsome."

"..."

Obviously, they had already forgotten that last time when Lu Ming was the first to come out, he had already lost.

However, there were still hackers who remembered that incident.

A hacker's words were especially abrupt among the many compliments.

"Handsome, did you lose again?"

The other hackers looked at him and replied bluntly, "Are you looking down on Handsome's strength?"

"Yes, how could Handsome lose?"

The hacker who had just sent out a weak reply, "Have you all forgotten? Handsome was the first to appear last time, but he lost."

Chapter 246: Qin Sheng's Challenge

The entire place was dead silent.

For a long time, not a single word floated across the computer screen.

It was very quiet.

After a long time, a hacker finally stood up. "Last time was just an accident. This time is different. Our Handsome has been training for a long time. He came out first. He must have won, right, Handsome?"

"It must be that Handsome won QS, but he can't compare to Handsome."

"Agreed."

Lu Ming had just gone to sort out his mood and did not look at the computer screen.

At this moment, when Lu Ming saw this sentence, he moved his hand and did not reply for a long time. He was embarrassed.

He really wanted to slap the old him to death.

Let him be arrogant, let him be arrogant!

This time, he had lost all his face.

In the future, how was he going to survive in Black Emperor?

Lu Ming hid for a long time. Seeing that everyone was still discussing, he felt that he couldn't stop it. If this continued, he would lose even more face.

He could only step forward.

"I lost."

A light sentence appeared on the computer's dialog box.

As if a pause button had been pressed, no one spoke for a long time.

"Handsome, are you sure?" After a long, long time, finally, a hacker spoke.

"Yes," Lu Ming answered quickly.

What followed was a wave of wails.

"It's over, I lost again. My money is gone again."

"I feel like my face is swollen again."

"I really don't have a good memory. Every time, I get closer to give my face to QS."

"This QS is too awesome. I promise, I won't dare to doubt their strength anymore. Damn, this face is so f*cking painful."

Of course, those who won were gloating.

"The odds are 1.5. Hahaha, I'm going to be rich."

"I only bet on QS to win, but I bet very little. Only 5,000 yuan."

"This person, Day by Day, doesn't have a good memory. He's just sending us money. When has QS ever lost? Aren't they used to being slapped in the face?"

"..."

Qin Sheng still hadn't come out. Many people were curious as to what she was still doing in there. Some people also asked Lu Ming.

Lu Ming only left one sentence, "It's disgraceful and immoral."

Destroying the protective system that they had painstakingly worked hard to build. This group of wicked people was even more wicked than his brother.

They even deliberately set off the alarm so that he wouldn't be able to completely enter the internal system of the Fei Long Group.

He was chased out in advance.

He was thought to have won by a bunch of random hackers. There was a lot of flattery, but he lost. The more he bragged, the more embarrassed he became.

Lu Ming's words piqued the curiosity of the other hackers.

They pressed on, but Lu Ming kept quiet.

Slowly, he gave up.

On this side, Qin Sheng also came out.

When they saw QS, their minds were filled with the experience of being slapped in the face again and again, so they all shut up.

For a moment, Black Emperor was very quiet.

Qin Sheng had been online for more than an hour. After the competition with Lu Ming, Qin Sheng had not left yet.

This time, Qin Sheng did not place a bet on the bet between her and Lu Ming.

Two days ago, when the stock price of the Qin Corporation's real estate had dropped drastically, Qin Sheng had already bought a few million shares. When the Qin Corporation's real estate recovered somewhat, she would receive more than double the profit.

Now that Qin Sheng had money, she was kind enough not to participate in this bet.

When she had just returned to H City, Qin Sheng would not let go of this opportunity.

Qin Sheng browsed through the forum of Black Emperor and posted another post.

[QS: Is there anyone who wants to compete with me?]

Chapter 247: Beaten Up

Qin Sheng was now a popular person on Black Emperor. As soon as the post was posted, there were many replies.

However, most of them were praising Qin Sheng. None of the people on the 30th floor dared to compete with Qin Sheng.

They were not masochists. If they were to compete with QS, wouldn't they be sent to QS to be beaten up?

These hackers did not dare to look down on Qin Sheng.

This was especially so for I Am Little Black. He was the first person to compete with Qin Sheng in the underworld. He would never forget that experience.

I Am Little Black was both afraid and impressed by Qin Sheng.

In this post, the number of posts where I Am Little Black posted was the highest. I Am Little Black posted six posts praising Qin Sheng in a row.

Qin Sheng looked around and realized that no one was willing to compete with her. She frowned.

When they reached the 40th floor below the post, a hacker finally replied, "I'll do it!"

With this opening, the next 10 floors of replies all said that they wanted to compete with Qin Sheng.

[Black Death challenges QS.]

Qin Sheng nodded in agreement.

This time, they were challenging the virtual protection system in Black Emperor.

Qin Sheng let Black Death enter the arena first while she followed behind slowly.

When Black Death came to the final stage, Qin Sheng finally exerted her strength.

In just two minutes, she passed through three lines of defense and appeared in front of Black Death.

Black Death: "..."

What happened? When did QS come in front of him?

The expression on Black Death's face was almost the same as Lu Ming's.

His whole body froze.

He was prepared to lose. Even if he was beaten, his strength was not enough, and he could not say anything.

But the problem was, QS was just playing with him.

He had to use his strength when he was about to win!

This QS was really wicked.

Black Death was extremely resentful, but he did not dare to go up and argue with QS.

He had the strength, so what he wanted to do was his own freedom. What could he say?

Also, breaking through three lines of defense in two minutes, how did QS do that?

This was the first time Black Death questioned his own skills. Was he really that bad?

After the other hackers watched the entire process of this match, they couldn't help but feel a chill down their spine.

This QS... Wasn't this too ruthless!

Many hackers returned to the post Qin Sheng had just posted and edited their own comments. If they wanted to compete with Qin Sheng, they changed it to QS, you're really amazing, and so on.

They didn't want to lose and also leave a psychological scar.

Even The Most Handsome In the Universe, who was in the top ten of the Black Emperor rankings, couldn't win. It was better for them not to join in the fun.

However, there were still some people who wanted to compete with Qin Sheng and issued a challenge to Qin Sheng.

Qin Sheng nodded in agreement one by one.

Thus, 40 minutes later.

Two hackers mustered up their courage to complain about Qin Sheng's behavior on the forum.

[Sob sob sob, I'm afraid I won't dare to play as a hacker for another month. It's too depressing.]

[QS, can't you just win? You have to keep us hanging! You have a black heart.]

When the other hackers saw this, they did not dare to challenge Qin Sheng anymore. They did not want to end up like those three hackers.

In their hearts, they could roughly imagine the image of QS.

He must be a big man who was picky about his feet!

Otherwise, why would he use such a sinister method?

Qin Sheng watched and the corners of her lips curled up slightly.

After waiting for ten minutes, no one challenged her. She went to the Black Emperor's training ground alone and conquered various systems.

The three hackers who were defeated ran to privately chat with Lu Ming.

Chapter 248: Discovery Vest 1

The Most Handsome In the Universe and C knew each other. The Most Handsome In the Universe could not beat QS, but C, the hacker, could definitely win.

They were too angry. They really could not take this lying down.

So...

"Handsome, help us call C out to deal with QS."

"Handsome, don't you want revenge?"

"Handsome, C, the hacker, is the closest to you. Only you have a way to get him online to compete with QS."

"..."

A huge wave of messages flooded in. Lu Ming looked at the computer screen, feeling extremely resentful.

Did they think that he did not want his brother to avenge him?

Lu Ming begged Fu Hanchuan time and time again, but Fu Hanchuan did not agree to help him deal with QS. Lu Ming gradually gave up.

At this moment, after seeing these messages, Lu Ming once again had the thought of getting Fu Hanchuan to make a move.

QS rarely came online. If he missed this time, he didn't know when QS would appear again.

Lu Ming didn't hesitate and called Fu Hanchuan.

"Brother," Lu Ming called carefully.

In the study, Fu Hanchuan stood up from his seat. "What's the matter?"

"Brother, your brother was bullied so badly that he almost jumped off a building," Lu Ming said pitifully. "You don't know..."

Lu Ming told him about the fight with QS.

Finally, he drank a mouthful of water and said, "Brother, you have to help me get revenge! Go and torture QS and help me get revenge. Otherwise, you won't be able to see your dearest brother tomorrow."

Hearing that Lu Ming wanted him to deal with QS, Fu Hanchuan subconsciously resisted.

He hung up the phone expressionlessly.

"Hey, hey, hey, Brother, Brother, don't hang up yet." Lu Ming had been with Fu Hanchuan for a long time. He knew that Fu Hanchuan would hang up the phone after he was silent, so he quickly shouted anxiously.

However, in the next second, he heard a busy tone.

Lu Ming: "..."

'D*mn, he hung up again.'

On the other side, Fu Hanchuan had already arrived at the door. He looked at Qin Sheng's room. It was already 9 o'clock, and there was still light coming out from the crack of the door.

Fu Hanchuan frowned. He walked lightly and came downstairs.

Rolling up his sleeves, Fu Hanchuan cut some apples for Qin Sheng, then poured a glass of milk and brought it upstairs.

"Sheng Sheng." Fu Hanchuan knocked on the door of Qin Sheng's room.

Qin Sheng was still in the training ground breaking the system.

Hearing this, she stopped what she was doing.

"Brother Fu." Qin Sheng opened the door.

Fu Hanchuan smiled and said in a low and hoarse voice, "Sheng Sheng, can I come in?"

"Okay." Qin Sheng nodded.

Fu Hanchuan walked in and placed the fruit on Qin Sheng's desk.

He looked around. The furnishings in the room were not much different from before Qin Sheng moved in, but there were still some things that belonged to Qin Sheng.

Fu Hanchuan smiled.

Qin Sheng returned to her seat. There was not much time left after this delay. She needed to break into this system in a short time.

"Brother Fu, wait."

Qin Sheng's hands were flying on the keyboard. She could not care less about Fu Hanchuan.

Fu Hanchuan's gaze fell on Qin Sheng's fair and slender hands. Qin Sheng's hands were very fast. In Fu Hanchuan's eyes, he could still see Qin Sheng's hands clearly.

It was a pair of beautiful hands.

Fu Hanchuan was already attracted by it. In the one minute that Qin Sheng had conquered the system, Fu Hanchuan's gaze had not left for a single moment.

"Congratulations on conquering the system."

A voice sounded.

This was a voice unique to conquering the system in Black Emperor.

Chapter 249: Discovery Vest 2

Fu Hanchuan finally shifted his attention to the computer.

He frowned. "Sheng Sheng, you also play Black Emperor?"

"Yes." Qin Sheng had already broken through the system, so she stopped.

In the current computer interface, Fu Hanchuan could not see Qin Sheng's name.

Fu Hanchuan asked directly, "Sheng Sheng, what's your name on Black Emperor?"

In fact, Fu Hanchuan already had a vague guess in his mind.

When he saw QS, Fu Hanchuan's first reaction was to think of Qin Sheng.

At first, Fu Hanchuan thought that Qin Sheng was very obedient, but after spending so much time together, Fu Hanchuan also knew Qin Sheng's character.

In front of him and his grandfather, Qin Sheng was very obedient, but in front of others, she was sometimes very arrogant.

Fu Hanchuan was quite happy. At least, in Qin Sheng's heart, he was a little different although Qin Sheng treated him and Old Master Lu the same.

Sometimes, Qin Sheng cared more about Old Master Lu.

Qin Sheng didn't want to hide in front of Fu Hanchuan, so she didn't hide anymore. She answered, "QS."

Fu Hanchuan smiled. "Then, Sheng Sheng, you should rest early."

"Okay." Qin Sheng nodded obediently.

After Fu Hanchuan left Qin Sheng's room, he went back to his bedroom and turned on his computer.

He logged into Black Emperor.

As the number one existence of Black Emperor, Fu Hanchuan had an exclusive red banner appear on Black Emperor the moment he went online.

[Pay attention, the most terrifying existence of Black Emperor has appeared!]

All the hackers online could see the news of Fu Hanchuan's appearance.

Lu Ming also knew about it.

The hackers who had just been beaten up by Qin Sheng saw C coming online, and they were overjoyed.

They thought that C had been called up by Lu Ming to deal with QS.

They ran to leave a message for Lu Ming.

"Handsome, you're really too handsome."

"Handsome, you really called C in."

"This time, let's see if QS can still be arrogant."

Lu Ming also saw that Fu Hanchuan was online. He had just called Fu Hanchuan, and he was online so quickly.

Lu Ming's first reaction was that Fu Hanchuan had finally come over to help him.

His hand was on the computer's mechanical keyboard, typing rapidly in response to the three hackers' words.

"Of course, why don't you take a look at who I am? This Black Emperor, C and I are the most familiar with each other. Previously, I thought that a small figure like QS wasn't worth C's help. It's fine if I'm bullied, but I just can't stand you guys being bullied. So, in order to get back for you guys, I let C come over."

Lu Ming finally regained some face.

He had been online the entire time, but after losing such a big face, Lu Ming didn't dare to appear.

When the hackers heard this, they all echoed Lu Ming's words.

“Handsome, you are indeed very familiar with the big boss.”

“Handsome, why don’t we go over and watch C beat QS together?”

When Lu Ming heard this, he felt extremely comfortable.

He tapped, “Let’s go.”

Among the three hackers, one hacker had a loudspeaker. When he publicized it outside, almost all the hackers online knew that C was here to compete with QS.

All of them rushed over to watch.

It turned out that Fu Hanchuan was here to look for Qin Sheng.

Qin Sheng was preparing to crack the next system.

A dialog box popped up in front of her.

[C: Shall we compete?]

Qin Sheng saw C, the number one on the Black Emperor rankings.

She really wanted to compete with C, so she sent out a ‘yes’.

Chapter 250: Tied For First Place

Fu Hanchuan’s lips curled into a smile as he issued a challenge to Qin Sheng.

The hackers were excited.

They had finally waited for this moment.

A showdown between two experts would definitely be very exciting.

“Place your bets, place your bets,” someone shouted.

The hackers swarmed over to place their bets. Most of them were betting on Fu Hanchuan to win.

The remaining hackers also thought that Fu Hanchuan would win. However, there were too many people betting on Fu Hanchuan to win. Even if they won, they would not earn much.

Therefore, they gritted their teeth and bet their money on Qin Sheng.

Lu Ming had just given out his pocket money and had 5,000 yuan on him.

He also bet all of it on C.

Lu Ming was confident that Fu Hanchuan would win.

What a joke. He had seen his brother’s skills with his own eyes. He dared to guarantee that there was no one in this world who could compare to his brother.

Fu Hanchuan sat in front of the computer. His eyes were locked on the hacker logo that belonged solely to Qin Sheng. His eyes were filled with gentleness.

With a light click of the mouse, the two of them entered the training ground together.

Fu Hanchuan did not use his full strength in the beginning. He had never seen Qin Sheng's competition in Black Emperor, so he could not figure out Qin Sheng's speed. As for Qin Sheng who he had just seen in the room challenging the stage, Fu Hanchuan was only focused on looking at Qin Sheng's hands.

However, he knew that Qin Sheng was very powerful, so his speed was still very fast.

Qin Sheng only used more than 20 seconds to pass the first stage. Her hand paused for a moment and entered a sentence on the dialog box, "No need to go easy on me."

Seeing this, Fu Hanchuan chuckled and entered a word, "Okay."

Only then did Qin Sheng continue to challenge the stage.

From Fu Hanchuan's observation just now, he had a rough idea of Qin Sheng's speed. He also saw that Qin Sheng did not use her full strength just now.

Qin Sheng was very powerful. It was possible that the two of them were equally matched.

In fact, Qin Sheng's speed was even faster than his.

Fu Hanchuan did not slow down his speed on purpose anymore. His well-defined fingers rapidly tapped on the keyboard, leaving only an afterimage.

Seeing this, Qin Sheng also smiled.

Earlier, when she saw C slowing down his speed on purpose, she did not use her full strength either.

At this moment, Fu Hanchuan did not show any mercy. Qin Sheng also increased her speed.

Both of them were very fast. The system they were challenging had 15 levels. The further they went, the harder it was.

However, their speed did not slow down at all. They were getting faster and faster.

The surrounding hackers were dumbfounded.

These two big shots simply did not have human speed. They were too awesome!

When Lu Ming saw that Qin Sheng did not show any signs of lagging behind Fu Hanchuan, his jaw almost fell off.

Two minutes had passed. The two of them had conquered the system at the same time, not missing a second.

[Congratulations to QS and C for obtaining first place!] A system voice sounded.

Lu Ming: "?!"

The other hackers: "?!!!"

Winning first place at the same time without missing a second?

Was this possible?

Moreover, how could QS's technology compare to C's?

Back when C was the first to come to Black Emperor, he had already ranked in the top ten. Among them, one of the hackers had been tortured by C until he changed his profession and did not dare to touch this hacker technology anymore.

Now, there was even a QS that was comparable to C's technology!

It was not that they did not suspect that Fu Hanchuan had deliberately let Qin Sheng win, but judging from their progress, that speed was not very likely.

Lu Ming was the same. It took him a long time to come back to his senses.

He still could not believe that QS and Fu Hanchuan had won at the same time.

This... wasn't the strength of QS a little too terrifying?

It was actually comparable to his brother?

Lu Ming was dumbstruck.
