Chapter 341: Disgust

Qin Churou's palms were sweating profusely as she nodded her head.

With a troubled expression, she said, "I was worried that Sister had really cheated and would make a fool of herself in the competition, so I didn't tell Dad."

Qin Hai frowned and asked again, "Did you know that Qin Sheng won first place in the National High School Mathematics Competition with a perfect score and broke the record?"

Qin Hai stared at Qin Churou, scrutinizing her with his eyes.

At that time, the leading teacher in the school had told everyone the good news as soon as he went back, so Qin Churou naturally knew about it.

However, Qin Churou didn't dare to let Qin Hai know about it.

Qin Churou was stunned. "Dad, did Sister get first place?"

Qin Hai nodded.

Qin Churou acted very surprised. "That's great. I didn't expect that Sister didn't cheat. Then, I'm relieved."

Qin Churou's acting was very good. Qin Hai didn't notice anything strange, and his eyebrows gradually relaxed. In the end, he still had some resentment toward Qin Churou for hiding things from him, and he didn't give her much face.

"I hope so."

His gaze fell on Lin Shuya again.

It was fine before. He had always thought that Lin Shuya was gentle and virtuous, but after Qin Sheng returned to the Qin family, he saw Lin Shuya's fierce appearance one after another.

The contrast between Lin Shuya and Li Yan seemed to be more obvious.

Li Yan was young, beautiful, and considerate. She could also help him in his work.

As for Lin Shuya, she stayed at home all day and often yelled at him.

She didn't do her part as a wife.

If it weren't for the fact that he didn't want to give her a portion of the property after the divorce, he would have divorced Lin Shuya long ago.

At this moment, Qin Hai was also very impatient.

He withdrew his gaze and didn't look at Lin Shuya. He said in a deep voice, "Lin Shuya, you'd better behave yourself and do your duty. Otherwise, I can divorce you at any time. Don't blame me for not caring about the relationship between husband and wife."

Qin Hai left after saying this.

At this moment, when she heard the word 'divorce' again, Lin Shuya's face turned pale.

If Qin Hai didn't remind her, she would have forgotten about the conflict between her and Qin Hai a few months ago.

Lin Shuya didn't dare to get a divorce.

Qin Churou saw Lin Shuya's worried expression. "Mom, are you okay?"

Lin Shuya fell onto the bed and shook her head. "I'm fine."

Qin Churou held Lin Shuya's hands worriedly and said considerately, "Mom, don't worry. If Dad looks down on you, I will definitely stand on your side."

Lin Shuya was very gratified. "Rou'er, if only I had given birth to you and not Qin Sheng."

Qin Churou lowered her eyes and hid the pride in her eyes.

—

In the next few days, Qin Sheng's life did not change much. She was not someone who liked to go out. Usually, other than Fu Garden, the Lu family, and school, she basically did not go anywhere else.

On Hong Yuan's side, he was also about to complete the preparations for the acquisition of real estate.

On this day, in the real estate conference room.

Fei Long Group's chairman, Dai Ren, and his subordinates who had followed him over sat on one side of the conference table. The people on Fang You's side sat on the other side of the conference table.

Dai Ren had an arrogant look on his face. He raised his head high. "Have you all thought it through?"

Fang You's side was in a difficult position. "Chairman Dai, isn't your price a little too low? 500 million isn't even enough to cover the cost. Just that piece of land alone would cost 300 million, not to mention those buildings.."

Chapter 342: Coercion

"Ha, Chairman Fang." Dai Ren sneered, "You know the situation in your company. Time waits for no man. If this drags on, those houses will be taken away by the bank. What's the use of keeping them?"

Fang You's face was very stiff.

Dai Ren continued, "Chairman Fang, I think not many people are willing to buy your houses. The villa area you built last time had a quality problem. Your company's reputation has collapsed. If that's the case, who else is willing to buy your houses?"

Hearing this, Fang You's face turned pale.

Dai Ren was a little immoral, but he was right. No one was willing to buy his land now.

However, Fang You still wasn't willing to accept it. The price he offered was too cheap.

He tried to negotiate with Dai Ren, "How about this, Chairman Dai, I'll make a concession, and you'll make a concession. How about 750 million?"

Dai Ren's expression was clearly impatient.

He looked at his watch. "There's no need to discuss the price. I won't give up a single cent. Chairman Dai, I don't have much time to waste with you. I'll give you 20 minutes to discuss it. If there's still no result after 20 minutes, then our acquisition will be abandoned."

After saying that, Dai Ren and his subordinates left the meeting room.

Dai Ren's eyes were very confident. He had predicted that Fang You would sell the company to him in the end.

Fang You had no choice.

In the meeting room, Fang You was sitting in his seat with a face full of annoyance.

His subordinate, who had worked hard with him for many years, frowned, and said, "No, I don't agree to be acquired by the Fei Long Group. 500 million just to buy us, a big company? Isn't this taking advantage of a burning house?"

"Yes, I don't agree either. Chairman, Dai Ren is obviously trying to lower the price by buying the company at this time. Heh, 500 million yuan? He's really shameless to say it out loud."

"Chairman, you can't agree to it. If you let Dai Ren buy the company, then there will be nothing left."

"I also agree not to sell it. This company is fortunately built by the Chairman with our hard work. We definitely can't sell it at such a low price. I'm not willing to accept it."

"That's right, Chairman. We can get through this difficult time together. We have stumbled along the way. I believe that as long as we work hard, we can get through this crisis."

Fang You hugged his head in frustration. He shook his head in pain. "No, there are still many workers whose wages have not been paid. This company must be sold."

Hearing this, his subordinates fell silent. No one spoke again.

The meeting room was so quiet that one could hear the sound of a needle dropping to the ground.

Soon, 15 minutes had passed. Fang You asked with difficulty, "Do you have anything else to say?"

Those subordinates looked at each other and did not say anything else.

"Alright, then it's settled. 500 million. We'll sell the company to Dai Ren," Fang You said.

There was another period of silence.

Everyone felt uncomfortable. They had worked together for many years. They had seen with their own eyes that this company had grown from nothing. Now, it was going to be sold to another person at a low price. They found it hard to accept.

After a long time, one of the subordinates stood up. "Chairman, if you ever want to start a business again, let me know. I still want to work together with you."

Then, many people echoed his words.

Clap, clap, clap.

Dai Ren clapped. It had already been 20 minutes. Dai Ren came at the right time. "You guys are really touching."

Dai Ren's tone was a little mocking..

Chapter 343: Stop

When the staff of Fang Corporation heard Dai Ren's words, they instantly clenched their fists.

Dai Ren said disdainfully, "How is it? Chairman Fang, have you discussed it clearly?"

Fang You nodded his head with difficulty

Dai Ren narrowed his eyes. "Alright then, let's sign the contract."

He gave his secretary a look.

The secretary threw a contract in front of Fang You. "Chairman Fang, sign it."

The secretary's tone was arrogant. He did not take Fang You seriously.

Dai Ren saw the secretary's attitude towards Fang You, but he did not scold him.

Fang You was just a person who was on the verge of bankruptcy. Dai Ren was also a snobbish person. He did not take Fang You seriously.

There were two contracts in total. Each contract had Dai Ren's name on it.

Fang You read the entire contract very seriously.

After a long time, he finally put down the contract. The pen was by Fang You's hand, and he picked it up with a trembling hand.

His hand paused in mid-air, and the tip of the pen did not fall on the paper.

Fang You's subordinates all turned their heads, not daring to see Fang You sign the contract. They were afraid that they would be unable to control themselves and destroy the contract.

Dai Ren saw that Fang You had not made any movements and said impatiently, "Hurry up, I don't have much time to waste with you. The company has a lot of things waiting for me to handle."

Fang You gritted his teeth and finally made up his mind.

No matter how reluctant he was to leave now, there was no turning back.

Everything was already a foregone conclusion.

Fang You's exerted force and gritted his teeth, wanting to sign his name.

Dai Ren raised his eyebrows, a hint of pride flashing in his eyes.

Fang You was just one step away from signing his name when the door of the meeting room was opened. It was Hong Yuan.

"Chairman Fang, don't sign it yet!"

Everyone in the meeting room looked over. Even Dai Ren frowned.

"You are?" Fang You stood up.

Hong Yuan smiled, and his gaze fell on Dai Ren. "Chairman Fang, I was thinking of discussing the acquisition of the company with you."

Dai Ren looked at Hong Yuan warily.

His brows were tightly knitted. He was thinking about who Hong Yuan was.

H City was very developed, but there were not many people who could fork out hundreds of millions to purchase the real estate company.

He had basically already arranged everything that could be taken out. No one would compete with him.

What about now? Who was this person?

Dai Ren stood up. His gaze was unfriendly. "The real estate company is the company that I, Dai Ren, want to purchase."

He pointed at the contract in front of Fang You and smiled. "We've already discussed this. The contract is about to be signed. If it weren't for your interruption, I'm sure it would have already been signed by now."

Hong Yuan smiled politely. "Isn't it still not signed yet? As long as the contract isn't completed, I have a chance."

Dai Ren felt very uncomfortable. This person clearly wanted to go against him.

It seemed that he didn't know who he was. He dared to come and snatch the thing that he had taken a fancy to!

Thus, Dai Ren revealed his identity.

"Hello, I'm Dai Ren, the chairman of Fei Long Group. May I ask which company you're from?"

Hong Yuan didn't answer him. He only said, "It's not important who I am, and there's no need to tell you."

After knowing Dai Ren's identity, Hong Yuan's attitude didn't change much.

Dai Ren narrowed his eyes. "Do you know Fei Long Group's position in H City?"

Hong Yuan smiled and replied, "Of course I do. Fei Long Group's wealth is ranked ninth in H City.."

Chapter 344: Look At This First

Dai Ren was sizing up Hong Yuan. Once again, he was sure that he had never seen him before. He must have come from a company that did not know the immensity of heaven and earth.

Dai Ren sneered. "Okay, then don't blame me. You can't take away this real estate. Even if you do, be careful of your family's company. Don't go bankrupt if you're not careful."

Hong Yuan didn't take Dai Ren's threat seriously. If it was before, Hong Yuan might have taken it into consideration. But with Qin Sheng's words, he wasn't worried about Dai Ren anymore.

Now, Hong Yuan trusted Qin Sheng very much. As long as it was Qin Sheng who said it, he would definitely do it.

Qin Sheng's words were a shot in the arm for him.

After saying that, Dai Ren still didn't see any strange expression on Hong Yuan's face. Dai Ren sneered and stubbornly refused to admit it.

He had to snatch Fang Real Estate today.

Dai Ren looked at Fang You with a dark expression, "Sign it. This person obviously doesn't have much money. If you're counting on him to buy your company, don't even think about it. Chairman Fang, if you don't sign it now, I won't be so easy to talk to anymore. The price will have to be lowered again."

It was obvious that Dai Ren was threatening Fang You.

If Fang You didn't sign it immediately, Dai Ren would lower the already low purchase price even further.

Fang You frowned. He was weighing the pros and cons.

Hong Yuan said, "Chairman Fang, don't worry. I know the value of the houses in that area. Although I'm also a businessman, I still have a conscience."

He looked at Dai Ren meaningfully. "At least, I won't be as ruthless as someone who has lowered the price so much."

Fang You looked at Hong Yuan and finally nodded. "Okay, let me hear your opinion."

When Dai Ren saw that Hong Yuan agreed, he immediately sneered. "I'd like to see what you're capable of."

After saying that, he sat down on his seat.

He crossed his arms and looked at Hong Yuan and Fang You.

He wanted to see what kind of good conditions he had for Fang You.

Dai Ren was determined to get Fang Real Estate. Otherwise, he wouldn't have gone through so much trouble to arrange all of this. It was all for the sake of getting Fang Real Estate. Before the acquisition, he had already arranged everything. He was just worried that someone would compete with him.

It wasn't that he was worried that he wouldn't be able to compete with others. It was just that he wanted to suppress the acquisition price and buy Fang Corporation at the lowest price.

He didn't think that someone would suddenly appear along the way who wanted to compete with him.

Of course, he was destined to not succeed. Dai Ren was determined to get the Fang Corporation's real estate.

Hong Yuan no longer paid attention to Dai Ren. Instead, he extended his hand toward Fang You. "Hello, Chairman Fang. Let me introduce myself. I'm the General Manager of Shengshi Technology, Hong Yuan."

Fang You hurriedly shook his hand back.

When Dai Ren heard this name, his brows furrowed fiercely.

Shengshi Technology?

This name was very familiar.

However, Dai Ren couldn't remember it even after thinking for a long time.

Here, Hong Yuan gave Fang You a document. "Chairman Fang, before we discuss the acquisition of the houses, why don't you take a look at this?"

Fang You took it and looked at it very carefully. When he saw the contents, he looked over at Dai Ren.

His gaze was very suspicious.

He quickly retracted his gaze. "Director Hong, do you have any evidence?"

Hong Yuan smiled. "Yes. I will need to borrow the computer in your conference room."

After saying that, he looked at the secretary. The secretary immediately understood. He nodded and walked over to the computer with a USB flash drive..

Chapter 345: Fake Video

When Dai Ren saw this, his brows were tightly furrowed. He had a very bad premonition.

Hong Yuan's secretary walked in front of the computer and inserted the USB flash drive into the computer. This computer was connected to the large screen in the conference room. Once it was connected, the computer's page appeared on the large screen.

The secretary's finger tapped on the mouse, occasionally swiping the mouse.

Soon, a video appeared on the computer page.

Seeing the person above, Dai Ren's eyebrows jumped.

Hong Yuan raised his eyebrows and asked, "Chairman Dai, you should know the person above. It's a manager of your company, Li You."

Hearing Hong Yuan's words, Dai Ren's face, which was already dark, became even uglier.

Fang You also vaguely guessed something, and his face instantly darkened.

Wasn't the other person up there the purchasing manager of their company?

The company's raw materials for building the houses were all bought by the purchasing manager's arrangement, and they were all bought through his hands.

After those villas had problems, that manager had already been fired. Who would have thought that he actually had connections with the Fei Long Group, and now Fei Long Group was here to buy his company.

He wouldn't believe that Dai Ren had nothing to do with the crisis in his company.

Dai Ren was also a little flustered. He stood up and sneered.

"Do you think you can slander our company with just a fake video?"

Unfortunately, the people from Fang You's side ignored Dai Ren. Their eyes were fixed on the video.

In the video, Fei Long Group's manager, Li You, was negotiating with the purchasing manager of Fang Real Estate.

At first, the purchasing manager was hesitant and smoked several cigarettes in a row. In the end, when Li You promised to raise the money to 10 million, the purchasing manager finally agreed.

He took the check from Li You's hand.

He repeatedly promised, "Director Li, don't worry. I will definitely settle it for you. But you have to arrange a position for me in Fei Long Group after they fire me."

Li You smiled and said, "Don't worry. As long as you settle it, the chairman will not mistreat you."

The purchasing manager nodded.

Before Li You left, he reminded him again, "Keep it a secret. If anyone finds out that I came to see you, don't blame me."

Finally, the video stopped on Li You's smug smile before he left.

Dai Ren's face was very dark. He was cursing Li You in his heart for being an idiot. Someone had even filmed such a thing!

Dai Ren slapped the table. "This Li You, he actually did such a thing behind my back!"

After scolding Li You, he looked at Fang You, "Chairman Fang, this Li You usually likes to make decisions on his own. If it wasn't for his ability, I wouldn't have kept him around. Since he did such a thing, Chairman Fang, don't worry. When we go back, I will definitely not let him off."

Fang You didn't say anything.

Looking at the video, he already understood that this Li You was sent by Dai Ren. His goal was to destroy his company and then acquire it.

Fang You's face was gloomy. This Dai Ren really had a good plan!

Hong Yuan raised his eyebrows. "I also have a video of Chairman Dai. You should take a look."

Dai Ren's eyelids twitched. He didn't know what Hong Yuan still wanted to do to him.

But he had a feeling that Hong Yuan's attack wouldn't be simple.

On the other side, Hong Yuan nodded to the secretary. The secretary understood and switched to the next video.

This time, the characters that appeared in the video were Dai Ren and Li You.

The location was probably Dai Ren's office.

Chapter 346: Don't Regret It

Dai Ren's expression changed, and his hands tightened.

He wanted to turn off the video, but he couldn't stop it.

The video was currently showing the content of Dai Ren's arrangement for Li You to bribe the real estate purchasing manager. The conversation between the two was very clear.

The people on Fang Corporation's side were livid with anger.

Dai Ren had just pretended that he was buying their company for their own good, but they didn't expect Dai Ren to have such a vicious face.

He had personally caused Fang Real Estate's reputation to collapse and even encountered a huge crisis. Now, he had lowered the price and wanted to buy their company at a price of less than 500 million.

Dai Ren really had a good plan.

Fang You's face completely darkened,

Rip...

Fang You tore up the contract in front of Dai Ren.

"Chairman Dai, your company's threshold is too high. Our Fang Corporation can't curry favor with you," Fang Ren said word by word.

Bang! Dai Ren slammed the table.

He was now thoroughly enraged. Dai Ren's eyes were dark. "Fang You, I hope you don't regret it!"

Dai Ren turned to threaten Hong Yuan. "Shengshi Technology, Hong Yuan, right?"

Hong Yuan raised his eyebrows. "What is it?"

"Heh." Dai Ren sneered. "In H City, our Fei Long Group still has a status. You don't have to open your Shengshi Technology anymore."

After saying this, Dai Ren turned around and left.

When he reached the door, his footsteps paused. "Chairman Fang, let me tell you. After this village, there won't be this shop anymore."

No matter what, the land under Fang Real Estate's name had to be his. Even if it fell into Shengshi Technology's hands, he would snatch it over.

Fang You's expression didn't waver.

After Dai Ren left, Hong Yuan said, "Let's talk about the acquisition."

Fang You had never seen Hong Yuan, nor had he heard of Shengshi Technology.

Purchasing Fang Real Estate would cost a lot of money. Fang You suspected whether Hong Yuan really had the ability to take out a few hundred million.

He frowned and said, "Director Hong, I'm very grateful that you helped me see Dai Ren's true colors. If it weren't for you, the company would have already fallen into Dai Ren's hands."

As he said this, Fang You's tone was very awkward. "But you also know our company's current situation. We urgently need a large sum of money to repay the workers' wages and the compensation fees for those villa areas. This way, our company needs to get several hundred million as soon as possible. If you guys can't come up with this amount of money, then I can only apologize."

Hearing this, Hong Yuan smiled. "Is one billion enough?"

"What?" Fang You was stunned.

Hong Yuan spoke again. "I'm buying your company. One billion, paid in one go."

It was two times more than Dai Ren's offer.

Fang You thought he heard wrong.

The other party was willing to pay one billion, and it was paid in one go!

In H City, there weren't many companies that could pay one billion in one go. Moreover, he had never heard of Shengshi Technology.

Hong Yuan asked his secretary to give a contract to Fang You. "Chairman Fang, see if there are any problems."

Fang You did not want to miss such a good opportunity. Initially, there were many companies that wanted to buy his company, but the price was too low, so he did not agree.

However, after that, there were almost no more companies that came to negotiate with him.

He was anxious.. Seeing that the time for compensation was almost up, he still could not find a company that could buy Fang Real Estate.

Chapter 347: Hiring Fang You

At this time, Dai Ren came out. However, he wanted to buy Fang Real Estate at a price of 500 million, which was even lower than the price offered by the companies in the beginning.

If it were any other time, Fang You would not have agreed to the acquisition. However, time was tight, and he did not have the time to waste, so he could only grit his teeth and agree.

He did not expect that someone would take the initiative to purchase the company in the end.

Why didn't he take the opportunity to lower the price?

Fang You read the contract in his hands very seriously and showed it to the legal department staff. They did not find any problems.

Fang You signed the contract on the spot.

There were two copies of the contract. One was kept by Hong Yuan, and the other was left for Fang you.

Hong Yuan put away the contract. "Chairman Fang, it's a pleasure to work with you."

Fang You nodded. "It's been a pleasure working with you."

After a pause, he said, "Director Hong, as long as the money is in your account, the company will be handed over to you immediately. The house and land under the Fang Corporation will also be given to you."

"I have a presumptuous request." Fang You seemed a little embarrassed to say it out loud.

He pointed at the subordinates who were in the conference room with him. "They have worked together with me for many years and are quite capable. Look, can you keep them in the company? Of course, if they don't do well enough, you can fire them at any time."

"Chairman." One of his subordinates' eyes turned red. "Let's go together. Chairman, let's work hard again."

The other subordinates echoed him one after another. Fang You's eyes also turned red. He turned his head and said ruthlessly, "I'm not going to start another business. It's useless for you to follow me."

After saying that, Fang You turned to Hong Yuan and said, "Director Hong, why don't you consider it? Of course, it's fine if you don't agree."

Hong Yuan saw this scene and nodded to himself.

After Hong Yuan experienced the betrayal of his brothers, he first had to examine a person's character. If the other party's character was not good, Hong Yuan would not befriend them, let alone recruit them into the company.

When Qin Sheng proposed to have Fang You as management for the company, he even wanted to ask whether he should examine Fang You first for a period of time.

However, he had seen many of Qin Sheng's abilities. Qin Sheng seemed to have never made a mistake when looking for people to hire.

Later, he also went to investigate and found that Fang You's character was very good.

The scene just now confirmed his thoughts.

He was even more satisfied with Fang You.

A person who was still thinking of his brothers up until now, his character wouldn't be too bad.

Hong Yuan smiled. "There's no rush. I still have a contract here. Take a look."

Hong Yuan then asked his secretary to hand over a contract to Fang You.

"This is?" Fang You frowned.

Then, he saw a few words on the contract: Labor and Employment Agreement!

Fang You's frown deepened. He did not understand Hong Yuan's intention now.

He continued reading.

Hong Yuan explained, "My boss wants to hire you to continue to be the general manager of this real estate company. The previous personnel has basically not changed. We will proceed according to the original plan. Your subordinates can still continue to work in the company. However, there are some parts of the rat droppings that need to be dealt with. In a few days, the list will be sent over and they will be fired."

"In addition, the company's management plan also needs to change, I will also send over a few days.."

Chapter 348: You Are Very Lucky

Fang You was stunned by Hong Yuan's words.

When he came back to his senses, he asked with trembling hands, "Is it true now? Am I dreaming?"

He had worked hard for more than ten years to build this company. If he were to leave just like that, Fang You would naturally be very reluctant.

"Look at this contract. Won't you know after reading it?"

Fang You looked at it. He was only certain that it was true. Moreover, the remuneration for him was very generous. He could have 5% of the company's annual profits.

When the other subordinates saw this, they also came over.

After roughly looking at the contents, they were all very excited.

They didn't expect that after the company went bankrupt and be acquired by another company, they could still continue to stay in the company.

Hong Yuan looked at the time and knew that he should go back for a meeting. He didn't have much time to waste.

Thus, he said, "If there are no problems, you can sign it. In a few days, the boss will come and see you."

Fang You didn't hesitate to sign his name. This time, he noticed that there was a signature on it. The handwriting was very sloppy and carried a free and unrestrained air.

Qin Sheng!

Fang You did ask in surprise, "Our boss is a woman?"

Hong Yuan smiled and nodded. "Yes, you'll see her in a few days."

His tone was very mysterious. To be honest, he was looking forward to seeing Fang You's expression when he saw Qin Sheng.

No one would believe that an 18-year-old girl owned two companies. Moreover, the scale of both companies was not small.

And she had such a genius mind.

Fang You knew that Hong Yuan was in a hurry, so he did not ask any more questions.

In his heart, he thought that Qin Sheng was already around 40 years old.

Hong Yuan handed the contract to his secretary. "Then I'll be leaving first. Also, Boss said that the company won't be open for a few days. You should rest for a few days first."

Fang You sent Hong Yuan to the company entrance. Before leaving, Hong Yuan looked at Fang You and suddenly said, "You're very lucky."

Fang You was stunned. He couldn't understand Hong Yuan's meaning for a while.

Only later did he find out.

If weren't for Qin Sheng, they would have gone from being a big boss to being down and out. It was Qin Sheng who gave them a way out.

Of course, this was a story for another time.

—

Dai Ren left Fang Real Estate and returned to the company. He took off his suit and threw it on the sofa in the office.

Dai Ren was quite angry now.

Hong Yuan was the second person who did not put him in his eyes. That hacker was the first.

Thinking of the hacker who repeatedly broke into and destroyed his company's system, Dai Ren was so angry that his chest hurt.

Every time the internal protection system of the company was destroyed, it required a large amount of manpower, time, and financial resources to maintain. He was also afraid that during this period, other hackers would break into and steal the company's information.

Dai Ren was afraid every day.

He had thought of printing out all the information, but it was not realistic.

There was a lot of information in the company, and it was difficult to manage it when it was printed out. Usually, the company's senior executives often needed to obtain the company's information from the computer, so they had to store it in the database.

After Qin Sheng destroyed the company's protection system for the first time, Dai Ren had spent a large amount of money to hire a few top international computer experts.

Unexpectedly, it was still destroyed by Qin Sheng.

Dai Ren was angry, but he couldn't do anything to Qin Sheng.

Even the inspection department couldn't find her.

The hacker provoked him, but he couldn't find her. She was lucky.

Now an unknown company dared to oppose him?

Chapter 349: Had a Big Background

Dai Ren had checked out all the slightly famous companies in H City.

If Shengshi Technology was a big company, he would know about it.

Dai Ren was very disdainful. How could a small company dare to oppose him?

"Chairman." Dai Ren's secretary came in and called out respectfully.

Dai Ren ordered with a dark face, "Check up on Shengshi Technology immediately. I want all the information on it."

Shengshi Technology's information was not difficult to find. The secretary quickly sent the information to Dai Ren.

Dai Ren was flipping through the information, the secretary said from the side, "Shengshi Technology is a gaming company that has just been established for more than three months. It's not very big. Currently, it has a total of 38 employees, but the company's registered capital is 70 million."

70 million?

Dai Ren frowned. The company's initial capital was 70 million? He suddenly felt a little worried about the background of Shengshi Technology's boss.

"Have you found out who's in charge of Shengshi Technology?" Dai Ren asked with a frown.

The secretary replied, "I haven't found out. I only know that Hong Yuan is the general manager of Shengshi Technology. He handles the general affairs of the company. It seems that the boss of Shengshi Technology has never appeared in the company."

Dai Ren became even more worried when he heard the secretary's words.

Shengshi Technology was able to spend several hundred million to purchase the real estate of Fang Corporation, and they were even able to find those surveillance cameras. It was likely that their background was not simple.

Dai Ren's brows were tightly furrowed.

He continued to flip through Shengshi Technology's information. In the end, his gaze stopped on Hong Yuan's information.

It was written that Hong Yuan used to be the boss of Feiyuan Technology, but he was betrayed by his brother. He helped Long Yue Technology to take over the company, causing the financial chain to break, and he was even robbed of Feiyuan Technology's R&D game.

In the end, it was probably Shengshi Technology's boss who hired Hong Yuan to be the general manager.

Dai Ren continued to flip through the information. The secretary had prepared a complete set of information.

Naturally, he saw that Long Yue Technology had obstructed Shengshi Technology's registration. In the end, Shengshi Technology's registration was successful, and Long Yue Technology's connections had all been removed.

Now, Long Yue Technology had become much more well-behaved and did not dare to cause trouble for the time being.

Long Yue Technology was the number one gaming company in H City.

Its backing was also very big.

Unexpectedly, in less than a day, all their connections were removed.

The backers of Shengshi Technology were also not to be underestimated.

Dai Ren's hand trembled.

Could it be that he had to swallow his anger just like that?

Dai Ren was really unwilling. The thing that he had painstakingly planned for two years was actually a dowry for someone else!

Previously, Dai Ren was determined to obtain the real estate, but he did not expect that someone would come along and interfere with him.

However, he did not dare to make a move.

Dai Ren was also a more cautious person. He did not dare to casually make a move if he was not confident. Just like this Shengshi Technology. Without knowing their background, Dai Ren did not dare to make a move.

However, Dai Ren was really unwilling to let him give up on the real estate just like that. He had already made plans to enter the real estate industry this year. If he did not collect enough real estate... His plan would probably be put on hold for a while.

Thus, Dai Ren ordered in a low voice, "Continue to investigate the boss of Shengshi Technology. I'll give you three weeks."

The secretary felt that this matter was very difficult, but Dai Ren was currently in a rage. She did not dare to casually raise her opinion and could only nod in agreement..

Chapter 350: Fear

As if he had thought of something, Dai Ren instructed, "Send Xue Rong to my office."

Xue Rong was very capable. It was Dai Ren who had specially spent a large sum of money to hire him back from G Country. Usually, Dai Ren would seek Xue Rong's opinion on major matters in the company.

After Xue Rong arrived, Dai Ren told him about what had happened at real estate today.

When Dai Ren mentioned that Hong Yuan was the general manager of Shengshi Technology.

"Wait." Xue Rong frowned.

Dai Ren stopped. "Is there a problem with Shengshi Technology?"

Xue Rong thought for a while and asked, "Boss, do you still remember the hacker who repeatedly hacked into our computers and destroyed our protective system?"

"Of course I remember."

Dai Ren was so angry when the hacker was mentioned. This was the first time he had been provoked like this.

He would never forget that hacker even if he died.

Xue Rong continued, "A few days ago, didn't they send a message saying that we shouldn't deal with Shengshi Technology, or else we will bear the consequences?"

At that time, when Dai Ren received Qin Sheng's warning, Xue Rong was also in the office, so he naturally saw it.

When he heard Xue Rong's words, Dai Ren also remembered.

He had been angered by these words at that time, but if today's Fang Real Estate incident did not happen, he would have thought that Shengshi Technology was just a small company that was not well-known, so it probably would not be able to cause much trouble. Dai Ren had not taken it to heart.

Dai Ren gritted his teeth. His expression was as if he wanted to kill Qin Sheng.

He slapped the table. "Them again!"

Xue Rong's brows were tightly knitted together. "Chairman, if they are really helping Shengshi Technology, I'm afraid it'll be difficult for us to deal with them."

Dai Ren naturally understood this logic, but he was still very unwilling to accept it.

“Is it possible to find hackers that are even more powerful than them?”

When Xue Rong was in G Country, he had gotten to know quite a number of hackers and programmers. The last time the computer system was repaired, it was Xue Rong who had helped hire them.

Now, he had no other choice. “I have no choice. The computer system was repaired by those hackers the last time. They had promised that it wouldn’t be easily destroyed. I didn’t expect that it would be destroyed by her in such a short time.”

“The hackers I hired are all very famous internationally. She even destroyed the system made by these hackers. Clearly, her ability is very strong. If it isn’t one of the top hackers in the world, they won’t have been able to do anything to her.”

Hearing this, Dai Ren’s heart turned cold. He fell helplessly onto his chair.

Xue Rong continued, “Chairman, I suggest that we don’t provoke Shengshi Technology for the time being. We can’t bear the consequences of the company’s data being stolen. Moreover, if we are targeted by that hacker and she destroys our computer systems again and again, it will be really disadvantageous to our company.”

“Heh.” Dai Ren sneered and gnashed his teeth. “I’m afraid that we have already been targeted by her.”

Xue Rong fell silent for a moment.

Dai Ren clenched his fists. “Otherwise, why would she come again not long after we finished rebuilding the system? She even provoked us again and again. She even said that she would come back to help us test it again after a period of time!”

Dai Ren also couldn’t understand why he had offended her.

He had almost no contact with hackers, and she was so skilled.

Xue Rong comforted him. “Chairman, this hacker seems to only target our defense system. At least, our company’s data has not been stolen..”
