

Bigshot 411

Chapter 411: Tamper Procedure

The students of Class 4 trusted Qin Sheng very much.

If Qin Sheng still gave them notes at this time, then the notes would be very useful for the college entrance examination.

They were all very serious in studying the questions on the notes.

If they didn't understand, they would directly ask Qin Sheng for advice.

The last two weeks of the college entrance examination were very tense.

The students of the third grade of high school in H City were all racing against time to study.

Even the teachers were very busy.

Only Qin Sheng was reading a medical book, unlike a student who was about to take the college entrance examination.

Two days before the college entrance examination

Qin Sheng then took out her textbook to review.

She flipped through the book very quickly, finishing one in less than forty minutes. For the physics textbooks, she only needed twenty minutes.

'When she had just returned from her rebirth, she had been very slow because she had not learned the knowledge of the third year of high school for a long time.

Now, she only needed to read it once more and she would be able to imprint all the knowledge into her mind.

Although it was the end of class, the classroom was very quiet. The sound of flipping through the book could be clearly heard by Huang Xiaoyan. Huang Xiaoyan looked at Qin Sheng.

For a moment, she was stunned.

Her eyes moved along with Qin Sheng's movements.

"Sheng Sheng, are you revising? Are you sure you've finished reading?"

Huang Xiaoyan's mouth was wide open. She was very surprised.

Huang Xiaoyan seriously suspected that Qin Sheng was just flipping through the textbook out of boredom.

If she was reviewing the book, how could it be so fast?

Qin Sheng nodded. "Yes, I haven't read the book for a long time. I should review it once."

Although Qin Sheng was not worried about the exam this time and was very confident, she still wanted to read it once so that she could get a score close to full marks.

She needed to give Fu Hanchuan and Old Master Lu a satisfactory report card.

Huang Xiaoyan was dumbfounded. "This speed, Sheng Sheng, you are too amazing. You can't be casually reading it, right?"

Qin Sheng just smiled faintly.

She was focused on reading the textbook in her hands again.

Huang Xiaoyan swallowed her saliva.

Forget it. Qin Sheng was a top student, and was even more amazing than Su Yixiu. It was normal for such a genius to read faster.

However, she still felt that Qin Sheng's speed was too fast.

She had not finished reading a single textbook in the past four to five hours. As for Qin Sheng, she only spent half an hour, which was eight to nine times her speed.

It was really infuriating to compare people.

Forget it, she had better study hard.

By the time school was over, Qin Sheng had already finished reviewing the entire curriculum. She did not look at the examination papers or the problem sets.

For Qin Sheng, it was enough for her to finish reading the textbook.

After returning to Fu Garden and having dinner, she sat in the living room with Fu Hanchuan for a while before returning to her room.

Fu Hanchuan also returned to the study room.

He held his phone as if he had been waiting for something.

As expected, a message was sent over very quickly.

[Sheng Sheng has entered Black Emperor.]

Fu Hanchuan curled his lips and entered Black Emperor as well.

Qin Sheng and Fu Hanchuan arrived one after the other.

The hackers of Black Emperor were already used to the operation of the two of them.

If QS appeared, then C would definitely appear.

If QS did not come, then C would definitely not appear on Black Emperor.

They seriously suspected that Hacker C had used some kind of trick. As soon as QS came online, C would know.

So, what was the relationship between QS and C?

'When Qin Sheng saw C, she frowned and typed on the computer keyboard, "Did you tamper with Black Emperor's program?"

This meant that Qin Sheng's message of coming online had naturally been sent to Fu Hanchuan's phone..

Chapter 412: Report

Fu Hanchuan laughed softly. He did not hide anything. "Yes."

"Why?" Qin Sheng's message came again.

The two of them were chatting privately. The others from Black Emperor could not see their conversation.

Fu Hanchuan's reply was very concise. "You are very powerful, so I want to compete with you."

"Let's go to the training ground now."

Qin Sheng saw Fu Hanchuan's reply and did not ask further.

After all, she had the same thoughts as C.

comment

If he was like other hackers, Qin Sheng would not compete with him every day.

But C was very powerful. Competing with him, Qin Sheng also found the rare feeling of her blood boiling.

'The two of them entered the training ground together.

'The hackers were watching the competition while chatting.

"What's the relationship between QS and C?"

"Could it be a couple?"

"Couple? Impossible. Is QS a woman? Don't joke around. Look at his arrogance. He must be a big guy with a pair of legs. How is that possible?"

"A couple could also be a man."

"Instead of guessing here, why don't we ask the handsome guy?"

Thus, a lot of hackers went to @ Lu Ming.

Lu Ming was also watching Qin Sheng and Fu Hanchuan compete.

For some reason, he felt like he had eaten a lot of dog food.

'The more he watched Qin Sheng and Fu Hanchuan get along, the more he felt that something was wrong.

Previously, he thought that his brother was pestering QS because he wanted to take QS into his own company.

But after so long, there was still no news.

QS had not been online for two weeks. Once he was online, his brother caught up again.

His brother did not seem to have patience with an insignificant person.

No matter how important he was, he would not chase Q\$ for so long.

Lu Ming's mind was full of questions.

'When he saw that the hackers were looking for him, he took a look.

It was when he saw the messages that the hackers left for him.

(Handsome, does C have a girlfriend?)

Lu Ming replied, [No, but he's chasing a girl. He won't be able to catch up with her in a short time.]

When he mentioned this, Lu Ming was very excited.

It was very rare for him to encounter something that would make Fu Hanchuan suffer. Qin Sheng was the only one.

Lu Ming did not want Qin Sheng to agree to be with Fu Hanchuan so quickly.

He did not forget that Fu Hanchuan had deducted his pocket money.

[Then what is the relationship between QS and C? Handsome, do you know QS?] the hacker asked.

Lu Ming replied snappily, [If I knew Q\$, I wouldn't have gone to look for trouble, and I wouldn't have been tortured so badly by him.]

When the hackers heard Lu Ming's words, they believed that Lu Ming did not know Qs.

Unable to guess the relationship between the two, the hackers turned to watch the two's match.

'The match between Qin Sheng and Fu Hanchuan was very exciting.

'The speed was very fast.

And sometimes, they cleared the level at the same time.

Even if they passed one after the other, the interval between the two would not be more than three seconds.

Now, they were still tied for first place in Black Emperor.

Every time they finished watching their match, the hackers were still unsatisfied, looking forward to their next match.

'Watching the masters fight, they always felt their blood boil.

Qin Sheng only stayed on Black Emperor for an hour before she went offline.

Fu Hanchuan also followed her.

Lu Ming went to find the technician who was protecting Black Emperor. [Did you find out that C tampered with Black Emperor's program?]

Lu Ming wanted Fu Hanchuan to teach QS a lesson.

He didn't expect that he would come here every day to compete with QS. It even gave him the illusion that he was throwing dog food at them.

His heart felt that something was wrong, ah, so he went to find the technical staff..

Chapter 413: Not To Be Trifled With

The technician did not know about this. When he heard Lu Ming's words, he was stunned. "What happened? Did C tamper with Black Emperor's program?"

Lu Ming told him about Fu Hanchuan's rough location of the tamper with disgust.

Lu Ming knew that Black Emperor's technician would not find that place so quickly.

He just closed the chatbox with the technician and continued to wander around Black Emperor.

Fifteen minutes later, the technician's message was sent.

(Handsome, I found it.)

Lu Ming rolled his eyes in disgust. He had been searching for it for so long? What a loser.

Lu Ming typed on the computer keyboard. [How do you deal with it?]

(1

The technician replied with an ellipsis.

Lu Ming: (???)

The technical staff member sent another message very quickly and said in a rather helpless tone, [Turn a blind eye.]

Lu Ming glared. "Someone tampered with your Black Emperor's program and you don't even care?"

The technical staff member: {I don't dare to care. If I offend the big shot and he destroys Black Emperor, I don't dare to bear this responsibility.

Black Emperor's higher-ups had also said that they had to protect big shots like C and QS.

It wasn't that they were being selfish.

They were just afraid that if they were unhappy and messed with Black Emperor's system, they wouldn't be able to handle it.

There were many computer experts gathered in the higher-ups of Black Emperor.

However, they had competed with Fu Hanchuan and lost.

Later, they gave an order.

This big shot C, as long as he didn't cause too much damage, he could do whatever he wanted on Black Emperor.

Hearing this, Lu Ming: [...]

According to his brother's character, he might really do this.

Lu Ming still felt indignant, so he knocked again. (There are quite a few people in Black Emperor. Youve still afraid of him?)

The technician said, [Handsome, you'd better not cause any more trouble. If you can reach C's level, I'll even worship you.]

Lu Ming once again: [...]

Reach the level of his brother?

Forget it, Ill do it in my next life.

No, I might not even be able to reach it in my next life.

With his brother's talent, was he even human?

Lu Ming didnt really want anything to happen to Fu Hanchuan. He just wanted to vent the anger in his heart.

With Fu Hanchuan's level, the people of Black Emperor wouldn't do anything to Fu Hanchuan.

Lu Ming didn't make things difficult for the technician anymore. He went offline.

He logged on to the internet and started playing a game.

Lu Ming was playing enthusiastically when very light steps came over.

Old Master Lu came to the door of Lu Ming's room. He was holding a spare key in his hand.

He was opening the door of Lu Ming's room.

Lu Ming was playing the game so enthusiastically that he didn't notice the movement outside.

Kacha! The door opened.

Lu Ming was ridiculing his teammate. "F*ck, Zhong Kui, do you even know how to play? It wasn't easy for you to hook someone this time, but you hooked a big shot. This time, we're all dead!"

"Lu Ming."

Old Master Lu's faint voice came from behind him. "Is the game fun?"

Lu Ming was now waiting for Lu Ban, who he was playing, to revive. Hearing this, he shook his head. 'It's pretty fun. It's just that my teammates are too weak in the game.'

'Just stay there and watch. Wait for me to bring my teammates to fly.'

However, thirty seconds later, Lu Ban died again.

He smiled awkwardly. "It was a mistake."

"Hehe, Lu Ming." Old Master Lu laughed coldly and then roared in Lu Ming's ear, "The college entrance exam is the day after tomorrow, and you're still playing games?"

F*ck!

Lu Ming almost fell from his chair.

He barely managed to stabilize his body..

Chapter 414: Internet Cutoff

Old Master Lu pinched his ear again. "Lu Ming, are you itching for a beating? It's already 10 pm, why aren't you sleeping?"

It was already 10 pm.

Normally, Old Master Lu wouldn't care about Lu Ming, but the college entrance exam was about to begin. Old Master Lu was also worried that Lu Ming would perform abnormally.

Old Master Lu's strength wasn't light. Lu Ming cried out in pain.

After a long while, Old Master Lu snorted coldly and let go of Lu Ming.

Lu Ming covered his ears and looked at Old Master Lu accusingly. "Grandpa, you're too ruthless."

Old Master Lu said unhappily, Why? Aren't you going to sleep?"

Lu Ming could only turn off his computer. With Old Master Lu's interruption, Lu Ming was always in a state of hacking in the game. With one person missing, their overall strength was already weak, so it wouldn't be long before they lost the game.

Seeing that Lu Ming had turned off his computer, Old Master Lu left in satisfaction.

When he reached the door, he didn't forget to remind Lu Ming, "The internet at home will be cut off tomorrow. You should study hard."

Lu Ming: "..."

He was taking his pajamas to the bathroom when he heard Old Master Lu's words. He staggered and almost fell to the ground.

1

If the internet was cut off, could he still live?

Lu Ming wanted to object.

Old Master Lu's words were heard again. "You don't want to? Then I'll deduct your pocket money for another half a year."

Lu Ming was about to say something but swallowed it back.

He pursed his lips and said against his heart, 'I'm willing. It's just two days. What's so hard about that?"

Old Master Lu snorted coldly.

He thought of something and turned back to take Lu Ming's phone away.

Lu Ming's gaze followed Old Master Lu as he left. Old Master Lu did not even look at him.

Lu Ming could only go into the bathroom.

'The day after tomorrow was the college entrance exam. He really had to study hard, although with his grades, he did not have to worry too much.

But if he did better, he could take it to his father to get his reward.

Of course, dreams were beautiful, but reality was cruel.

'The next day, the students in H City began to decorate the classroom.

The people in Class 4 were very serious in their work.

In less than an hour, they had already arranged their seats and wiped the windows clean.

After doing all this, Teacher Lin held a class meeting for the students of Class 4.

She simply said a few things to note for the college entrance exam, then left, leaving the time for the students of Class 4 to arrange freely.

The college entrance examination meant separation.

The students of Class 4 were not in high spirits.

'Teacher Lin walked for quite a while before Lin Feng stood up. He said loudly, "Everyone, let's cheer for the college entrance examination tomorrow. Sister Sheng has spent a lot of time and energy on us. Let's bring back good results. We can't let Sister Sheng down."

When Lin Feng said this, the students of Class 4 echoed his words.

"Right, let's bring Sister Sheng good results."

"After studying for so long, and with Sister Sheng's help, if I don't get good results, I'll be letting myself down."

Huang Xiaoyan also hugged Qin Sheng's arm. "Sheng Sheng, I thought I couldn't even get into a university. Now, I even dare to dream of getting into a university."

Huang Xiaoyan was also very smart. It was just that she didn't want to learn before, and her foundation wasn't enough, so she fell behind in her studies.

Later, when she was deskmates with Qin Sheng, Qin Sheng would teach her from time to time.

Huang Xiaoyan's studies were getting better.

However, when Huang Xiaoyan talked about getting into a university, her eyes were a little dim.

Qin Sheng was very helpless. She heard that all of them were talking about learning for her.

She had stopped them before, but the students of Class 4 did not listen to her.

She could only let them be..

Chapter 415: They Were Brother and Sister

Qin Sheng was surrounded by the students from Class 4. She said helplessly, "Just try your best. Don't think too much."

"Yes." Huang Xiaoyan nodded. She blinked her big eyes and said, "Sheng Sheng, I've been arranged to take the exam at No. 1 High School, and you're still staying at our school. Sheng Sheng, I won't be able to see you for the next two days."

"So?" Qin Sheng tilted her head.

Huang Xiaoyan immediately gave her suggestion. "Sheng Sheng, how about we have a meal together on the day after the college entrance exam?"

The students of Class 4 had not thought of this.

Upon hearing Huang Xiaoyan's suggestion, they agreed one after another. "Yes, Sister Sheng, the college entrance exam is over. We have to relax."

"We won't have so much time to spend together in the future. We've never played together before, so we have to arrange it this time."

"Sister Sheng, you can't refuse."

All of them were pestering Qin Sheng.

They didn't let go of Qin Sheng until Qin Sheng agreed.

Soon, it was 5 o'clock, and it was time for class to end.

There were still many students who had to revise, so they left one after another.

Fu Garden.

Fu Hanchuan cooked a dinner for Qin Sheng according to the nutrition.

He also made a glass of milk for Qin Sheng and let her rest early.

Qin Sheng always had the illusion that Fu Hanchuan was more nervous about her college entrance exam than she was.

Qin Sheng only treated the college entrance exam as a normal exam. To her, the college entrance exam was just a small matter.

However, seeing Fu Hanchuan's performance, she could only go to bed early.

Qin Sheng's sleep quality was very good. After she laid down, she fell asleep after only two minutes.

The next day, Fu Hanchuan gave an important collaboration to the company manager, which was to accompany Qin Sheng to school.

Today, no cars were allowed to enter the school.

The parents could only stay at the school gate and wait for the students to finish their exams.

Fortunately, Fu Hanchuan was a teacher of Class 4, so he could enter the school.

Fu Hanchuan parked the car nearby and walked with Qin Sheng.

He was wearing a white casual suit. Fu Hanchuan was already 23 years old, and he looked like he was only 20.

The man was handsome, and the woman was beautiful.

They were a good match.

The parents were also stunned.

It was the first time they saw such a handsome man and woman walking together.

"Are they a couple?" one of the parents guessed.

"Maybe they are brother and sister," another parent said.

A student saw that they were discussing Qin Sheng and Fu Hanchuan and came over. "Are you talking about Qin Sheng and Teacher Fu?"

"He's your teacher?" The parent was stunned at first.

"Yeah." The student nodded. "The one next to him is his sister."

"Oh, so it's his sister. No wonder she's so good-looking." The parent forgot what he had said before.

"They do look like brother and sister. It's unlikely that they're a couple. I was wondering, how could they be a couple?"

Fu Hanchuan and Qin Sheng just happened to pass by them.

Hearing their words, Fu Hanchuan: "..."

He rubbed his eyebrows, feeling a headache.

He seemed to regret attending the parent-teacher conference as Qin Sheng's brother.

Now, all the students in H City High School treated him as Qin Sheng's brother.

Some of the male students even went to Fu Hanchuan.

They asked him to give them a chance to pursue Qin Sheng.

Of course, in the end, Fu Hanchuan persuaded them to go back. He was even willing to say that she would focus on her studies and for them not to disturb Qin Sheng anymore..

Chapter 416: Qin Sheng's Speed

Fu Hanchuan suddenly tilted his head and his deep gaze landed on Qin Sheng.

However, there was a sense of helplessness.

His little girl's EQ was very low. When would she be able to discover his thoughts?

Fu Hanchuan did not dare to rashly bring up the idea of being together with Qin Sheng.

He was worried that he would scare Qin Sheng and then she would hide far away from him.

After entering the school, there were still 20 minutes before the first exam started, and the first 15 minutes would be in the exam hall.

Qin Sheng's exam hall was on the second floor, so there was no need to be too anxious.

Fu Hanchuan carefully checked Qin Sheng's pencil case again.

After confirming the pens and ID card, she had brought everything.

He then handed the pencil case to Qin Sheng.

"Sheng Sheng." Fu Hanchuan rubbed the top of Qin Sheng's hair and said gently, "Just try your best. If you don't do well, Grandpa and I will be there too."

Qin Sheng nodded.

Fu Hanchuan smiled and said, "Go in."

Qin Sheng walked into the examination room.

Fu Hanchuan had been standing downstairs until he couldn't see Qin Sheng. He then looked away.

He went back to the car and took out the computer that he had prepared.

Fu Hanchuan had been very busy recently. He was going to move the company's headquarters to Imperial City to accompany Qin Sheng.

Fu Hanchuan had already planned to move the company's headquarters there, but the time was one year later.

Now, he moved the time forward.

Of course, he was in a hurry.

'When he learned that Qin Sheng was going to apply for Imperial Capital University, Fu Hanchuan had already begun to prepare for this, but it would take a longer time.

In the exam hall, the examinees were lining up to enter the exam hall.

Qin Sheng stood very far away. When all the examinees had entered, Qin Sheng walked over.

"Your admission ticket and ID card?" the invigilator asked.

Qin Sheng took it out and handed it to the invigilator.

The invigilator took it and put the ID card into the detector he brought with him. Then, he looked at the profile picture in the admission ticket. His originally indifferent gaze paused.

He looked at Qin Sheng in surprise.

"You are Qin Sheng?"

Qin Sheng broke the historical record in the National High School Mathematics Competition. She even got almost full marks in the joint examination of H City.

Qin Sheng's name had already spread throughout the schools of H City.

This invigilator was a teacher in H City. Naturally, he knew about Qin Sheng. In addition, he had seen the video of Qin Sheng's mathematics competition. At that time, he was quite amazed.

He also recognized Qin Sheng.

Qin Sheng nodded and replied indifferently, "Yes. Is that fine?"

"Yes, yes." The invigilator returned the identity of the invigilator to Qin Sheng.

After Qin Sheng was checked by the other two invigilators to see if she had any prohibited items, she entered the classroom.

Soon, the exam bell rang.

Qin Sheng sat in her seat and worked on the questions very seriously

This time, the first test was science. This time, the questions were very difficult. It was much more difficult than the previous college entrance exams.

However, this did not have much of an impact on Qin Sheng.

Those students were all thinking hard. They had to think for a long time before they could write.

Only Qin Sheng was able to finish each question at an even speed. She only used twenty seconds at most to finish a multiple-choice question.

The questions that required a long round of writing and answering took less than two minutes.

The invigilator who recognized Qin Sheng was also curious. He would come to Qin Sheng's side from time to time.

Hence, he saw such a scene.

In less than three minutes, Qin Sheng flipped through one of the exam papers.

'When she wrote the short answer question again, the invigilator thought that her speed should have slowed down by now.

However, in one and a half minutes, Qin Sheng finished the short answer question and moved on to the next one..

Chapter 417: Submission

One by one, the invigilator was already numb.

'As expected of a student who could break the historical record of the High School National Mathematics Competition and obtain almost full marks. He thought that he already knew Qin Sheng's strength.

However, he did not expect that Qin Sheng was far more powerful than he had imagined.

Look, this speed, was it the speed of a human?

Even if he was copying the answers, it would not be so fast.

If he did not know Qin Sheng's ability, the invigilator would really suspect that Qin Sheng was filling in blanks.

'The invigilator walked back to the podium and did not walk around Qin Sheng anymore.

He did not want to be struck down again.

As a teacher, not a single student was as powerful as her!

'There were a lot of questions. This time, Qin Sheng spent forty minutes finishing them. After a simple check, she covered the paper and lay on the table to sleep.

If it was other students, the invigilator would definitely wake them up if they fell asleep.

However, for a genius like Qin Sheng, the invigilator knew that Qin Sheng had finished the paper.

'The last time in the math competition, Qin Sheng did the same thing. After she finished the math competition paper, she fell asleep.

Thinking of this, the invigilator closed one eye to Qin Sheng's sleep.

'The other two invigilators in the classroom frowned. They wanted to wake Qin Sheng up, but the invigilator asked them to look at Qin Sheng's paper.

'When they picked it up and looked at it, it was indeed full of questions.

The invigilator was shocked.

This was probably not filled in randomly.

In half an hour, it was filled to the brim?

One had to know that there were many questions in the college entrance examination's science and engineering department. The students were racing against time to complete them. Even so, the vast majority of the students were unable to complete all the questions.

It was no wonder that they were suspicious.

However, Qin Sheng's writing was very logical. The final answers were all written out.

Please support our website and read on daonovel.com

The invigilator who originally told them that Qin Sheng had completed the exam.

The other two invigilators could only let Qin Sheng sleep, even if they didn't believe it.

Time passed quickly.

There was still half an hour before the end of the exam. At this time, they could hand in their papers and leave early.

Qin Sheng woke up at the right time.

Raising her hand, the invigilator noticed it immediately. It could be said that he had been observing Qin Sheng since it was close to 11 o'clock.

He knew that Qin Sheng would definitely hand in the papers in advance.

However, he did not expect that Qin Sheng would be able to calculate the time so accurately. It had truly shocked him.

The invigilator walked over. He lowered his voice, afraid that he would disturb the other students from answering the questions. "You want to hand in the papers?"

"Yes," Qin Sheng replied.

The invigilator took Qin Sheng's papers and glanced at them. Qin Sheng had already filled it in fully and did not leave a single blank question. The invigilator was too embarrassed to keep Qin Sheng. He nodded and said, "Okay, that's enough."

He put Qin Sheng's answer paper, answer card, and test paper back onto the podium.

This invigilator taught chemistry.

He simply looked at Qin Sheng's answers and couldn't help but nod.

Qin Sheng's thought process for answering the questions was indeed very clear and simple.

Even someone like him who had taught chemistry for more than ten years couldn't think of such a simple way to answer.

This Qin Sheng was indeed a genius.

Fu Hanchuan probably knew that Qin Sheng would hand in his paper early, so he had been waiting for Qin Sheng downstairs.

'When he saw Qin Sheng, he did not ask how Qin Sheng did on the exam.

Instead, he said in a low voice, "Sheng Sheng, let's go."

Chapter 418: She Was Qin Sheng

Qin Sheng nodded and walked out of the school gate side by side with Fu Hanchuan.

There were two reporters waiting at the school gate. H City High School was the best high school in H City. Today was the college entrance examination, so these two reporters were arranged to report on the college entrance examination of H City High School.

Qin Sheng was the first student to walk out of the examination room.

'When they saw Qin Sheng, they were all very surprised.

In an important exam like the college entrance examination, very few people would hand in their papers in advance.

Even those with bad results would stay until the end of the exam, not to mention a school like H City High School, which gathered top students.

They walked up and pointed their microphones at Qin Sheng.

“Student, there’s still half an hour left until the end of the first exam subject. Have you finished the exam?”

“Can you tell us how difficult the questions are? How many points are you confident of getting?”

“Student, you handed in your exam paper half an hour earlier. There are a lot of questions in this comprehensive science. Are you sure that you didn’t leave your exam paper blank or fill it in randomly and leave the exam room? Are you giving up on the exam? How will your parents react to this?”
The reporter’s last words were a little aggressive.

For the sake of traffic, they would always come up with some tricks.

One of the reporters looked at Qin Sheng and frowned. He always felt a sense of familiarity towards Qin Sheng.

Many parents of students were waiting nearby for their children to finish the exam. At this moment, they heard the reporter’s question and began to discuss in a low voice.

“Whose child is this? She didn’t even pay attention to the college entrance exam and handed in her papers in advance. If my child is like this, I’ll beat him to death.”

“Some children never understand their parents’ good intentions. They only care about playing day by day and don’t spend time on their studies. Even if it’s the college entrance exam, they still want to muddle through.”

“If [had such a daughter, I’d be so angry.”

“Maybe she’s from Grade 12, Class 4. Although H City High School is the best school in H City, the students in Class 4 basically relied on their connections to get in. This kind of child is usually from a rich and powerful family. Their grades aren’t good either.”

“Even if she doesn’t have a degree and her family is rich, she can still get a good university spot or directly enter her family’s company. It’s not our place to worry.”

This parent’s tone was very contemptuous.

His son relied on his diligence to get into Class 1. He didn’t like this kind of person who relied on connections and had a mentality of hating the rich, so his tone was naturally not very good.

‘When the other parents heard this, their gazes changed slightly when they looked at Qin Sheng.

They had the same thoughts as the previous parent.

They did not like people who used the back door to get into H City High School.

They felt that their child’s grades were good, so they felt that their child was better than those who relied on connections to get into H City High School.

However, for those who did not study but could get a good job, their hearts were a little unbalanced.

On the other side, the male reporter finally remembered who Qin Sheng was.

He patted his head. "Oh, oh, oh, you're that Qin Sheng."

"Qin Sheng?" Another female reporter frowned. She looked at the young girl in front of her and started to doubt.

She had heard that there was a genius called Qin Sheng in H City High School. She scored close to full marks in every exam.

Even in the National High School Mathematics Competition, she broke the record.

It only took her 20-30 minutes to finish writing a math paper.

In the competition, Qin Sheng was the first to answer 10 questions in a row, and her speed was amazing.

Even those experts couldn't solve the questions faster than Qin Sheng.

And this was H City High School, so there was a high possibility that this girl was Qin Sheng.

Chapter 419: Filled In Randomly

The male reporter nodded. "It must be Qin Sheng. I've seen her in the newspapers. Didn't I say that she's very beautiful? This girl's image is also very fitting."

Qin Sheng had once been widely publicized by the media in H City. There was even a photo of Qin Sheng attached to it.

This male reporter had seen Qin Sheng's photo before.

It was just that his mind had been stuck for a moment, so he did not recognize Qin Sheng.

'When he had asked Qin Sheng a question earlier, he had said something sarcastic. It was this female reporter who had brought it up. At this moment, her face was hurting badly.

Her face was very red, but she quickly changed her words. "Classmate, do you have the confidence to surpass Su Yixiu and get first place? You might even get first place in the entire country in this exam." Qin Sheng glanced at the female reporter and said calmly, "filled in the exam papers randomly."

Fu Hanchuan also protected Qin Sheng. His eyes very cold. "My family's child can do whatever she wants. I can afford to raise her."

The female reporter's face was completely red, and she was embarrassed.

The male reporter wanted to ask more questions.

Fu Hanchuan ignored them and took Qin Sheng away from the school gate.

The male reporter saw Fu Hanchuan's displeasure and did not chase after him.

Even if he asked, they would not answer.

'The two reporters were extremely regretful.

It was big news to meet the god of learning, Qin Sheng, who had turned in her papers early and left the school.

However, they had missed it just like that.

'When the other parents heard the female reporter say that she was ranked first in the country, they were very puzzled.

One of the parents asked, "That girl just now had the chance to be ranked first in the country?"

The male reporter nodded and answered very patiently, "Yes, she's Qin Sheng. She's the top student in Grade 3 of H City this year. She even got first place in the National High School Mathematics Competition."

"Qin Sheng?" The name sounded very familiar to that parent.

His eyes suddenly widened. "I remember now. Is she the girl who appeared in the newspaper before?"

The other parents who did not understand all came over to ask.

'That parent gave them a lecture.

After listening, they fell silent.

Especially those parents who looked down on Qin Sheng before Qin Sheng left. Each and every one of them felt that their faces hurt and were very embarrassed.

They did not expect that the person they mocked would have such impressive results.

Thinking of what they had just said, they wished they could take back what they had said.

Qin Sheng naturally did not know what these parents were thinking.

Fu Hanchuan took Qin Sheng out for lunch and told Qin Sheng to go back to the dormitory to rest.

Fu Garden was twenty minutes away from H City High School. If there was a traffic jam, the time would be longer than that.

Therefore, Fu Hanchuan did not bring Qin Sheng back to Fu Garden.

Qin Sheng returned to her dormitory, while Fu Hanchuan went to a nearby hotel.

He planned to wait until the afternoon before picking Qin Sheng up to the examination venue.

From Qin Sheng's dormitory to the examination venue, it was only a seven-minute journey. Of course, even if it was seven minutes, Fu Hanchuan would still pick Qin Sheng up. He did not want to miss Qin Sheng's college entrance examination.

On the other side, it was time to collect the papers for the first subject of the college entrance exam, the science comprehensive.

Those students were all frowning, It was obvious that they were not satisfied with the exam this time.

The questions were very difficult.

Even the top students didn't finish them.

All the students left the classroom.

The three invigilators kept the papers.

One of the invigilators mentioned Qin Sheng, "That examinee really finished the test papers in half an hour.. Isn't she filling in the papers randomly?"

Chapter 420: Could Not Be Compared To the God of Learning

"Yeah." The other invigilator was also puzzled. "I'm afraid that she won't be able to finish this paper in two and a half hours, let alone half an hour. Teacher Chen, how can you be sure that she isn't just randomly filling in the paper?"

The two invigilators did not notice Qin Sheng's name, nor did they watch the video of the National High School Mathematics Competition.

They knew of Qin Sheng's existence.

However, they did not know Qin Sheng's appearance, so they did not recognize her.

"She is Qin Sheng," The invigilator who knew Qin Sheng's identity only said these four words.

The other invigilators were stunned, and then said in surprise, "She is the genius who surpassed Su Yixiu in H City High School?"

"Yes, it's her. In the mathematics competition of the high school group, she used almost the same amount of time to complete all the questions and still got a full score."

The two invigilators knew that the girl who had performed abnormally in the exam was Qin Sheng, and they also understood the speed of Qin Sheng's answers.

However, after seeing it with their own eyes, they couldn't help but be surprised.

This speed, if she could still get close to a full score, it would be too amazing.

The two invigilators were surprised for a while, and they kept the papers while discussing.

Those students left the classroom in low spirits.

The first subject was already so difficult, and the next few subjects shouldn't be much better.

Those parents were anxious to ask their children's results.

"Aren't the questions very simple? I saw a female student in your school hand in her paper in advance."

That male student was in the same exam room as Qin Sheng. He was a student in Class 1, so he naturally knew about Qin Sheng.

When he heard this, he glanced at his mother. "You're talking about Qin Sheng, right?"

"Yes." The parent nodded.

"Mom, she's the god of learning, How can we compare? No matter how difficult it is, she can do it very quickly, and almost all of it is correct. If you can make me as smart as her, I can also hand in the papers

for you in advance,” the boy replied unceremoniously.

“Also, do you know how long it took her to finish that set of papers? Forty minutes. I can’t compare to this kind of student.”

The parent’s face turned red for a moment.

She smiled embarrassedly. “Didn’t I see that she came out early? I thought that you could finish the exam papers well.”

The boy frowned. “This exam is very difficult. I still have the last question that I haven’t finished. There are still a lot of questions that were filled in randomly.”

This time’s exam was very difficult.

The exam was difficult, and everyone’s grades dropped together.

There was nothing to worry about.

The parent was embarrassed by the boy’s words.

‘When she asked the boy how the exam was, she just wanted to regain some psychological balance.

She was one of the parents who ridiculed Qin Sheng.

Although she knew that Qin Sheng got almost full marks every time, she still felt uncomfortable. She thought that her son was a student of Class 1.

No matter how good Qin Sheng was, she had only handed in her test paper in advance.

Her son had made use of all his time.

Even if it was bad, it was still not that bad.

This parent felt that it must be pretty good for her son to be able to enter Class 1 and be ranked in the top 15 of the school.

Therefore, she thought of getting some face back from him.

At this moment, with so many parents looking at her, her face was burning hot.

She did not dare to stay any longer.

She hurriedly said, “Let’s go eat lunch and hurry up..”
