

Bigshot 481

Chapter 481 Would Not Give Her Any Property

Qin Hai really wanted to say that he would chase Qin Churou out of the Qin family.

However, he moved his lips and was unable to say it out loud.

Qin Sheng was a jinx. Ever since she returned, the Qin family had never been as smooth-sailing as before. If it were not for the fact that Qin Churou was a lucky star, he was worried that the Qin family would be ruined by Qin Sheng.

He tried to persuade Qin Sheng. "Sheng'er, Rou'er is only an adopted daughter. She won't be a hindrance to you. Don't worry, I won't let Qin Churou inherit any of the Qin family's assets in the future."

Qin Sheng's eyes became even more mocking, "Since you can't bear to part with her, don't come to me. Qin Churou is your daughter, not me!"

Qin Hai took a step forward. He was still unwilling to give up. Qin Sheng had a powerful backer. If he could curry favor with her backer, it would bring a lot of benefits to Qin Real Estate.

"Sheng'er, give me a chance to fulfill my responsibilities as a father." "Chairman Qin."

Fu Hanchuan extended a hand and blocked in front of Qin Hai.

"Chairman Qin, if you have nothing else to do, don't come and disturb Sheng Sheng."

Fu Hanchuan's eyes were very cold.

Qin Hai was stunned and subconsciously took a step back.

With Fu Hanchuan's warning, he did not dare to say anything. He could not afford to offend Fu Hanchuan.

He watched the two of them get into the car.

After Qin Sheng left, the love on Qin Hai's face disappeared, and his face darkened completely.

He had already begged Qin Sheng to come back, but she did not give him any face at all

However, even as a mistress, she did not know how to weigh the pros and cons.

Only the Qin family would be her backer in the future.

As for that man, he was just playing with her. How could a girl who was still wet behind the ears be sincerely liked by others?

When the novelty wore off, that man would abandon Qin Sheng.

Qin Sheng was beautiful, but there were thousands of beautiful women in this world. Qin Hai felt that Fu Hanchuan would not always like Qin Sheng. Fu Hanchuan only protected Qin Sheng because she was beautiful.

Qin Hai was angry. Every time he fought with Qin Sheng, he could not gain any benefits.

After that man didn't want Qin Sheng, and Qin Sheng came to him and begged him to let her go back to the Qin family, he wouldn't agree.

He, Qin Hai, couldn't afford such a daughter!

—

In Shengshi Technology Conference Room.

Shengshi Technology had basically completed the development of an all-intelligent game.

The people in charge of each group, Yu Bei, and the others were sitting around the conference room. They all looked at the big screen nervously.

A video of the game ended. They were still worried, but their eyes were still on Hong Yuan.

One of the employees asked impatiently, "General Manager, how is it? Can it be done?"

Hong Yuan analyzed, "The special effects of this game and the hero designs are all fine. Once it is released, I have the confidence that it will become a blockbuster."

Hong Yuan was very confident.

After all, with the current level of the game, it was far from being able to reach that level.

"However..." Hong Yuan frowned. "The main problem now is that we have too much game content and need too much memory. It will probably require 12 GB of memory. This will dissuade some players."

His originally elated heart was drenched in cold water.

Those employees all fell silent.

It was very difficult to solve the memory problem.

It would be impossible to compress more than 10 GB into a few gigabytes of memory if it didn't take a few months, or even more than a year, to do it.

"General Manager, are we going to put our game release on hold like this?"

Chapter 482 No One Wanted Her

Hong Yuan replied, "It should be released according to the original schedule. You don't have to be too depressed. The all-intelligent game developed by our company has already exceeded the current level. Presumably, this memory isn't too big of a problem."

Even though that was the case, those employees were still unwilling to believe that the memory problem could be solved so easily.

Yu Bei was also very confident. "What are you afraid of? Isn't it just a memory problem? Don't worry about it."

One of the employees was very surprised. "Brother Bei, can you finish it?"

Yu Bei coughed a few times. "Don't we still have our boss? With that pervert around, do we still need to worry?"

Yu Bei did not answer shamelessly. He knew very well what he was capable of. He could not complete the memory compression in just two weeks.

When Yu Bei mentioned Qin Sheng, the employees finally relaxed.

After Yu Bei's description, they thought that Qin Sheng was omnipotent. Naturally, the matter of compressing the memory was not a big problem for Qin Sheng.

"Then let's tell the boss about this immediately and let her solve it," one of the employees suggested.

Hong Yuan rejected it. "We'll think of a way first. If it really doesn't work, we'll look for her again."

Hong Yuan also wanted to look for Qin Sheng immediately, but according to Qin Sheng's personality, she would not help.

Qin Sheng would only help if there was really had no other way.

It was rare for Yu Bei to not refute.

The meeting dispersed and Hong Yuan left the office. Su Yixiu was in the conference room sorting out the documents.

Yu Bei went over and ridiculed, "Su Yixiu, do you think our boss is too lazy to look on? This is clearly her own company, yet she wants others to beg her to come. The key is that we have already begged her, but she still hasn't come."

Yu Bei was a chatterbox. Almost every time a new person came to the company, he would criticize Qin Sheng to them.

Su Yixiu was Qin Sheng's classmate, and Qin Sheng valued him, so Yu Bei ridiculed her even more harshly.

Su Yixiu continued to organize the documents in his hands and ignored them.

Yu Bei: "Su Yixiu, when will your cell phone number be blacklisted by Qin Sheng?"

Yu Bei felt that as good brothers, good things had to be fought together.

He and Hong Yuan had been blacklisted, so Su Yixiu had to accompany them.

Just like back then, Yu Bei had tricked his brothers to work for Qin Sheng.

Su Yixiu had only treated Yu Bei as an invisible person the entire time. He had always been a dull person and had never responded to Yu Bei.

After packing up the documents, Su Yixiu walked out of the office.

Yu Bei was still talking to himself. "This Qin Sheng, no man will dare to have her in the future. Whoever marries her will have to feel inferior."

Yu Bei looked in the direction where Su Yixiu had just stood. "Su Yixiu, tell me..."

His voice stopped. Where was he? Where did he go?

Yu Bei looked around the conference room. The entire conference room was very empty and he was the only one there.

"F*ck!" Yu Bei cursed.

This Su Yixiu was really like Qin Sheng. He was very cold and did not speak much.

Just like Qin Sheng, he left without saying a word.

Fortunately, Yu Bei was already used to Su Yixiu's operation.

He did not hesitate anymore and returned to his seat to continue working.

In the end, the entire company spent three days. Everyone worked overtime until 10 o'clock. That was the limit of their memory.

They could not reduce the memory to even lower.

After another two days without any clues, Yu Bei suggested, "General Manager, if we continue to be busy like this, it will only be a waste of time. Why don't we ask the boss for instructions?"

Chapter 483 Compressed Memory

Yu Bei had wanted to look for Qin Sheng for a long time. After a day of work, Yu Bei saw that his progress was slow, so he suggested looking for Qin Sheng to help.

However, Hong Yuan was more stubborn and insisted on continuing to try.

This attempt took five days.

There were only three more weeks before the closed beta.

Hong Yuan frowned and nodded. "Alright, I'll go look for her."

Yu Bei heaved a sigh of relief. With the help of that pervert Qin Sheng, there shouldn't be any problems. He could finally go back and relax. He had been sleeping late and waking up early these past few days, and he was exhausted.

When Hong Yuan returned to his office, he remembered that his cell phone number had been blocked by Qin Sheng. A few days ago, he had looked for Qin Sheng a few times, wanting her to come over to the company.

Qin Sheng was impatient. Now, he was also on the blacklist of Qin Sheng's QQ account.

Hong Yuan had a headache.

His gaze fell on Su Yixiu. "Yixiu, lend me your phone to call Boss."

Seeing Su Yixiu's confusion, Hong Yuan took the initiative and said, "My phone number has been blocked by Boss. I can only use your phone."

Su Yixiu got through to Qin Sheng's phone and handed the phone to Hong Yuan.

"Boss," Hong Yuan said,

Qin Sheng recognized Hong Yuan's voice, but she didn't hang up immediately.

She had blocked him. If it weren't for something urgent, Hong Yuan wouldn't have called her.

"Uncle Hong, what's the matter?" Qin Sheng's voice was cold.

Hong Yuan was afraid that Qin Sheng would hang up on him, so he said straightforwardly, "Boss, the game's development is basically completed, but we've encountered a bottleneck."

Qin Sheng frowned. "What's the problem?" "It's the memory problem. Previously, the entire game's memory was 12 GB, but now we've compressed it to 10 GB. It's been a few days, but there hasn't been any progress, so we're just wondering if you have any ideas."

"Okay, I'll think of something first."

Qin Sheng hung up the phone. She leaned back in her chair and pondered for a long while before she started typing on her computer keyboard. She had never considered the memory problem. She had overlooked it.

An all-intelligent game had all sorts of characters and plots that could not be controlled. It was developed randomly. Moreover, the game's scene was grand, so it naturally needed a lot of memory.

When it was first downloaded, it needed 10 GB of memory.

The further it went, the more memory it would take up. The memory problem would restrict many users from downloading the game.

Qin Sheng's brows were tightly knitted. The code on the document was deleted and deleted again.

After half an hour, she had no idea what to do. Qin Sheng leaned against the back of the chair and rubbed the space between her brows. She had a headache.

It was very difficult for Qin Sheng to be stumped. After half an hour, she had no idea what to do regarding this memory problem.

Qin Sheng rarely came into contact with this aspect.

When she had rested enough, she clicked the mouse and began to look up on how to compress memory online.

There was very little information on the Internet, so Qin Sheng only glanced at it briefly.

Then, she began to type on the computer keyboard.

Qin Sheng was very talented, so she only needed to understand it a little before she had some ideas.

In the blink of an eye, she had already written down half a page.

Qin Sheng's speed also began to slow down. Five minutes later, her fingers stopped moving on the keyboard.

Obviously, her thoughts were stuck again.

Qin Sheng stared at the computer screen. After a long time, she still didn't have any ideas, so Qin Sheng gave up. She turned off the computer and went downstairs.

Chapter 484 Liked Him

It was already 5 o'clock.

Fu Hanchuan was still cooking dinner in the kitchen. Qin Sheng was sitting at the dining table waiting. She supported her chin with one hand and watched Fu Hanchuan's busy back.

The kitchen door was transparent. Qin Sheng could clearly see the slender figure in the kitchen.

Fu Hanchuan was dressed in a white family uniform with an apron tied around his waist.

He lowered his eyes and focused on the dishes in his hands.

Assistant Lin and the others probably didn't expect Fu Hanchuan, a cold man, to be so lively in Fu Garden.

After Fu Hanchuan finished preparing the dishes, he began to stir-fry.

Qin Sheng's gaze fell on Fu Hanchuan's side profile. It had to be said that Fu Hanchuan was extremely handsome. His eyes were deep and his nose bridge was high. His facial features looked like they had been blessed by god. They were perfectly carved. Qin Sheng was momentarily stunned. She rarely noticed Fu Hanchuan's appearance. She had always thought that Fu Hanchuan as her brother and a friend.

A thought flashed through her mind.

She wanted to be together with Fu Hanchuan for the rest of her life, not as a friend or a brother-sister relationship.

Qin Sheng was stunned. She hurriedly averted her gaze.

Her face was a little hot.

If Fu Hanchuan knew about her thoughts, how would she face him? After all, Fu Hanchuan only treated her as a sister.

Grandfather Lu wanted a granddaughter, and Fu Hanchuan wanted a sister.

They were all good to her for these reasons. She should not think about other things.

Qin Sheng suppressed her thoughts. She was a little disgusted with herself.

After all, Fu Hanchuan treated her well. There was no love between a man and a woman. She actually had such thoughts.

Qin Sheng took out her phone and did not dare to look at Fu Hanchuan anymore.

Fu Hanchuan was still busy in the kitchen.

Half an hour later, Fu Hanchuan had already prepared all the dishes and brought them out.

Seeing Qin Sheng sitting on the seat obediently, the corners of his lips curled up into a smile. He placed two meat and a dish on the dining table.

“Sheng Sheng, these are all your favorite dishes. I’ve changed the way I cook them. I wonder how they taste? Have a taste.”

“Okay, thank you, Brother Fu.” Qin Sheng’s gaze was a little evasive.

She lowered her eyes, afraid that Fu Hanchuan would notice her emotions.

However, no matter how much Qin Sheng tried to hide her emotions, Fu Hanchuan, who knew Qin Sheng well enough, noticed her after a while.

He frowned. “Sheng Sheng, what’s the matter?”

Qin Sheng didn’t know how to hide her emotions in front of Fu Hanchuan. Moreover, this was the first time she had the thought of being together with Fu Hanchuan, so she didn’t know how to deal with it.

Hearing Fu Hanchuan’s words, her face became even hotter.

She avoided looking at Fu Hanchuan. “Brother Fu, I’m fine.”

Qin Sheng picked up the spoon and gave herself some soup to drink.

Fu Hanchuan’s brows were tightly knitted together. His little girl... seemed very abnormal today.

Qin Sheng had never deliberately avoided him in the past. She treated him as her own family, so she was already used to him getting close to her.

When Fu Hanchuan’s gaze landed on Qin Sheng’s quietly reddened ears, he was stunned. A thought slowly surfaced in his mind. Was his little girl shy?

The corners of Fu Hanchuan’s lips could not help but curl up.

He picked up a prawn and deshelled it. Fu Hanchuan did not reveal Qin Sheng’s intentions. He knew very well that with regards to Qin Sheng, he only needed to take things slowly, find an opportunity, and then confess to Qin Sheng

Qin Sheng buried her head in her dinner the entire time. She did not dare to look at Fu Hanchuan anymore.

Suddenly, Qin Sheng’s bowl had a prawn that had been deshelled.

Chapter 485 Liked Him?

Fu Hanchuan said in a low voice, “Sheng Sheng, if you like it, eat more.”

Qin Sheng looked at Fu Hanchuan and saw the smile in his eyes. Qin Sheng looked away in panic and lowered her head slightly. “Thank you, Brother Fu.”

Fu Hanchuan looked at Qin Sheng's earlobe with a smile. Without a doubt, it was redder.

He picked up a prawn and peeled it, then put it into Qin Sheng's bowl.

He didn't stop until he peeled four prawns.

Qin Sheng didn't dare to look at Fu Hanchuan throughout the dinner, and Fu Hanchuan's gaze would occasionally fall on Qin Sheng. Every time he saw Qin Sheng's red ears, the corners of his lips couldn't help but curl up.

After dinner, Qin Sheng didn't dare to face Fu Hanchuan again for a short period of time. She didn't sit with Fu Hanchuan in the living room as usual, but went back to her room.

She turned on the computer and continued to deal with the memory problem.

However, she could not concentrate.

Fu Hanchuan's figure appeared in her mind from time to time.

The code on the computer screen was written and deleted, written and deleted.

An hour had passed, but there was no progress.

There were very few things that could affect Qin Sheng's mind, and Fu Hanchuan was one of them.

Qin Sheng's heart was very complicated.

She wanted to avoid this feeling consciously.

Qin Sheng did not like thoughts that were out of her control, especially things related to Fu Hanchuan.

Fu Hanchuan only treated her as a younger sister, and she was very clear about this. If Fu Hanchuan knew about her thoughts, would he stay away from her?

Qin Sheng's mind was in a mess.

She should only see Fu Hanchuan as a friend and an older brother.

An hour later, Qin Sheng was still sitting in her office chair.

On the computer screen, there was still the same code as before dinner.

Qin Sheng's furrowed brows gradually relaxed. She had already adjusted herself.

It was just that the memory problem was difficult to solve.

She had almost no clue at the moment. Qin Sheng frowned and deleted the code that she had just written.

Fu Hanchuan knocked on the door and came

in.

He put the milk beside the computer.

When Qin Sheng saw Fu Hanchuan, a blush appeared on her face again.

Fu Hanchuan knew that Qin Sheng was shy, so he didn't tease her anymore.

His eyes were on the computer.

"Sheng Sheng, what are you doing?"

Qin Sheng didn't dare to look at Fu Hanchuan, so she quickly replied, "The game development encountered some problems. I'm handling it."

Fu Hanchuan vaguely saw something in the code listed by Qin Sheng. He asked, "Is this compressed memory?"

Fu Hanchuan had personally handled this kind of problem, so he could recognize it.

"Yes." When it came to work, Qin Sheng focused her attention on her work and deliberately ignored Fu Hanchuan who was standing behind her.

"The game's memory is too big. I want to reduce 10 GB of memory to less than 4 GB."

Reducing 10 GB of memory to 4 GB could be said to be a fantasy.

However, for Qin Sheng, she had to do her best to accomplish what she wanted to accomplish.

With Qin Sheng's ability, it was not difficult to compress memory, but she needed time.

She could not completely solve this problem in a short period of time.

"Let me see."

Fu Hanchuan's tall figure bent down and his arms crossed over Qin Sheng.

Qin Sheng's hand was still on the mouse, but Fu Hanchuan acted as if he did not see it and reached out his hand.

Fu Hanchuan's slightly warm palm touched the back of Qin Sheng's hand.

Qin Sheng panicked and quickly withdrew her hand.

The back of her hand was still warm.

Chapter 486 Her Talent

A barely visible smile flashed across Fu Hanchuan's eyes.

He bent down and his gaze landed on the code written by Qin Sheng on the computer screen. Fu Hanchuan had dealt with this matter before, so it was not difficult for him.

He looked at it very seriously. She was not used to Fu Hanchuan's aura being wrapped around Qin Sheng

Usually, Fu Hanchuan would move a lot to get close to Qin Sheng. At that time, Qin Sheng only treated Fu Hanchuan as a friend and an older brother. She did not have any thoughts of wanting to be with Fu Hanchuan.

Therefore, Qin Sheng didn't feel anything.

However, now that Fu Hanchuan was getting close to her, Qin Sheng felt her heart beating fast.

She looked up and saw Fu Hanchuan's serious and handsome face.

"What's wrong?" Fu Hanchuan asked in a low voice.

Qin Sheng quickly retracted her gaze. Her tone was very flustered. "Nothing."

Fu Hanchuan's eyes revealed a hint of a complete smile.

He continued to browse through the code written by Qin Sheng.

With Fu Hanchuan's speed, it only took him two minutes to finish reading all of this. Now, he had forcefully dragged it to six minutes.

Then, he began to type on the computer keyboard.

Fu Hanchuan and Qin Sheng were extremely close to each other. His chin would touch Qin Sheng's hair from time to time.

Qin Sheng sat on the office chair, feeling quite uneasy.

She only hoped that time would pass quickly. Time passed by minute by minute. After ten minutes, Fu Hanchuan finally straightened his body.

Qin Sheng's face was red again.

Fu Hanchuan's eyes were full of smiles. He began to discuss the general idea with Qin Sheng

Fu Hanchuan had deleted the code that was listed on Qin Sheng's computer just now. Those were just some drafts, so now only the code written by Qin Sheng was left on the document.

This time, Qin Sheng was not distracted and listened to Fu Hanchuan's words.

After Fu Hanchuan finished speaking, he did not leave.

"Sheng Sheng, if there's anything you don't understand, ask me." He casually picked up a medical book that Qin Sheng had placed on the table, then sat on the sofa and started flipping through it.

Qin Sheng let out a slight sigh of relief.

Although Fu Hanchuan was still staying in the room, he was at least a little further away from her and was not as close as before.

Therefore, Qin Sheng began to list the code according to Fu Hanchuan's train of thought.

She was also extremely talented in this area. Fu Hanchuan only said it once before she understood.

Qin Sheng's hand speed was very fast. The crisp sound of typing on the computer keyboard rang in the room.

Without knowing when, Fu Hanchuan's gaze had already moved away from the medical book in his hand. He quietly looked at Qin Sheng's serious side profile with a hint of indulgence in his eyes.

Qin Sheng was very serious and did not notice that Fu Hanchuan was looking at her. Otherwise, she would have to hide again and not dare to face Fu Hanchuan.

An hour later, Qin Sheng finally stopped what she was doing.

Fu Hanchuan quickly retracted his gaze and pretended to be looking at the medical book seriously.

Seeing that Fu Hanchuan had not left, Qin Sheng was stunned. "Brother Fu, aren't you going to deal with work?"

Fu Hanchuan put down his medical book and walked over. "There's no rush for work. Let me take a look and see how it's going."

Fu Hanchuan placed his hands on Qin Sheng's sides again and checked the code very seriously for Qin Sheng

wa

Qin Sheng's heart was beating like a drum. It was not easy for her heart to calm down, but it was beating fast again.

Qin Sheng had just written the code very quickly and had not checked it yet. It was inevitable that there would be mistakes.

Fu Hanchuan changed the code for Qin Sheng.

Fu Hanchuan only used less than ten minutes to finish reading a full five pages of code.

Chapter 487 To the Company

Fu Hanchuan wanted to drag this out a little longer.

However, seeing that Qin Sheng's earlobes were about to bleed, Fu Hanchuan kindly let her go. At least he had achieved his goal today.

Qin Sheng's EQ was too low. Fu Hanchuan also had a headache.

It was not easy for him to make some progress today, so he naturally would not let it go.

Thinking about it, after today, his little girl would gradually understand her feelings, and not just treat him as her older brother.

Fu Hanchuan had never wanted to be Qin Sheng's brother.

He wanted Qin Sheng to be his girlfriend and the mother of his future child.

"Sheng Sheng," Fu Hanchuan stood up and said dotingly, "Rest early. And remember to drink this milk."

Just now, Qin Sheng had been busy dealing with the memory, and she forgot to drink the milk that Fu Hanchuan had prepared for her.

Every night, Fu Hanchuan would prepare milk and fruits for Qin Sheng.

Fu Hanchuan was extremely considerate to Qin Sheng

After Fu Hanchuan left, Qin Sheng looked at the milk that was placed on the side. She frowned and her hand slowly touched the spot on her heart.

This place seemed to be jumping abnormally.

Qin Sheng took a shower and dried her hair. Then, she lay on the bed.

Qin Sheng slept very well. Normally, she could fall asleep in two minutes. However, tonight, her eyes did not close for a long time, and her mind was in a mess.

On the second day, although Qin Sheng had adjusted herself, she still did not dare to face Fu Hanchuan.

She first drank the milk and picked up a piece of bread. "Brother Fu, there's an urgent matter at the company. I'll leave first."

Qin Sheng avoided his gaze. She was not suited to lie.

Fu Hanchuan did not expose Qin Sheng. "Sheng Sheng, ask the driver to send you over."

"Okay." Qin Sheng took the bread and left.

Fu Hanchuan looked at Qin Sheng's hurried footsteps and shook his head. He could not help but laugh.

He also picked up a piece of bread. This piece of bread was the same as Qin Sheng's.

Fu Hanchuan looked at it with a smile in his eyes.

—

—

When Qin Sheng arrived at the company, it was only past 8 o'clock. Shengshi Technology's working hours were 9 o'clock.

At this time, there were very few people in the company. Hong Yuan and Yu Bei did not come over.

On the other hand, Liu Cheng was sitting at his desk. It was not because he was diligent, but because he could not fall asleep since he woke up at 6 in the morning.

He was bored, so he could only come to the company.

He had waited for a long time, but no one came to the company. When he finally heard the sound of footsteps, he was surprised to see that it was Qin Sheng. Did he see wrongly?

This, this was the boss?

Liu Cheng rubbed his eyes. He didn't see wrongly.

Did the sun rise from the west today? His boss came to the company, yet she came so early?

Liu Cheng hurriedly walked over and greeted, "Boss."

Qin Sheng nodded. "En."

Liu Cheng was a friendly person. In addition, on the stock exchange, Qin Sheng had brought him to earn a large sum of money.

When he spoke to Qin Sheng, he didn't have too many scruples.

Liu Cheng rubbed his hands. "Boss, when will you buy stocks? Can you bring me along?"

Qin Sheng was a god of stocks. Liu Cheng believed it. If Qin Sheng was willing to bring him along, wouldn't the money come in an endless stream?

Speaking of which, Liu Cheng was also quite regretful. Why didn't he use all his savings to buy the shares of Tengfeng Group?

Liu Cheng didn't expect Qin Sheng to agree, but...

Qin Sheng glanced at him. "Long-term investment, HD Group."

Liu Cheng was happy. He quickly used his phone to record Qin Sheng's words.

Chapter 488 Had Been Completed

He asked again, "Boss, how are the stocks of the Qin Real Estate? I see that the stocks of Qin Real Estate have fallen a lot. Qin Real Estate had been developing very well in the past. Will the stock price rise back in the future?"

Liu Cheng had been staring at the stocks of Qin Real Estate for a long time and did not dare to make a move.

"No, even if the stocks of Qin Real Estate rise, it won't rise by much. Even if it rises, it will fall."

Qin Sheng's tone was very confident. When Liu Cheng heard this, he gave up on the idea of buying Qin Real Estate's stock.

"Boss, you are too amazing. You are a god when it comes to buying stocks. You are good at buying stocks and writing code. You even opened such a big company. Not to mention people of your age, even people in their forties and fifties can't compare to you!"

Liu Cheng was also a chatterbox, so all the flattery came out one by one.

Qin Sheng was looking down at her phone and didn't answer Liu Cheng. Liu Cheng didn't feel anything and continued to talk to himself.

Twenty minutes later, people from the company came one after another.

Hong Yuan also arrived at the company.

"Boss." Seeing Qin Sheng, Hong Yuan was also quite surprised. Why would Qin Sheng be so diligent in the company?

0

Hong Yuan didn't think that Qin Sheng had already solved the memory problem.

After all, the memory problem couldn't be solved in a short time.

Although Hong Yuan knew that Qin Sheng was very powerful and knew that Qin Sheng had a way to solve the memory problem, it wasn't something that could be solved in an afternoon or evening.

"Uncle Hong, I need to deal with the game," Qin Sheng said.

"Okay."

Hong Yuan brought Qin Sheng to his office and turned on his computer.

"Boss, the game source code and the completed game are all here."

Hong Yuan did not leave. He was very curious about what problem Qin Sheng had to deal with.

However, this game was originally completed according to the technology and information given by Qin Sheng. There should not be too much of a problem.

Could it be that Qin Sheng had a better idea?

Thinking of this, Hong Yuan became even more excited.

Qin Sheng was entering the program code into the game. Her memory was extremely good. Basically, as long as she looked at it once, she would remember the code.

Thus, Hong Yuan saw Qin Sheng's fingertips rapidly jumping on the computer keyboard, as fast as an afterimage.

Hong Yuan was shocked again.

This hand speed, where did it come from?

Qin Sheng was only a student who had just graduated from high school, but she was actually so amazing.

Hong Yuan's gaze shifted to the computer screen. On it was a series of English and various symbols. His eyes were dazzled. Those codes were very long.

Hong Yuan asked in a daze, "Boss, what code is this about?"

Qin Sheng's tone was casual. "Memory." "Memory?!" Even Hong Yuan, who was composed, raised his voice a lot. He was shocked.

Hong Yuan's major in university was related to code programming. He naturally knew how difficult it was to compress memory. Now, he was told that Qin Sheng had only spent an afternoon and an evening to solve the memory problem?

W

Moreover, according to Qin Sheng's character, she would definitely not spend all her time on

In other words, Qin Sheng had only spent less than seven or six hours at most, and she already knew how to compress memory to the minimum!

Hong Yuan adjusted his mood and asked again, "Boss, how much can you compress memory to?"

Qin Sheng's hand that was tapping on the keyboard paused, and then she answered, "Two GB."

Chapter 489 Did Not Believe It

"2 GB?" Hong Yuan's eyes widened.

What was the concept of compressing 10 GB of memory to 2 GB?

If it was anyone else, Hong Yuan would think that they were lying. However, this was said by Qin Sheng. In his impression, Qin Sheng had never said anything that she was not sure of.

Qin Sheng continued, "The subsequent memory usage will not exceed 3GB."

For large mobile games on the market, the initial memory was close to 2 GB. After downloading the installation package and a series of resource updates, it might take up 10 GB of memory.

Hong Yuan was even more shocked, his eyes filled with disbelief.

This all-intelligent game that they had developed had far more resources than the games on the market, so the memory usage was naturally not small. Who would have thought that Qin Sheng could directly guarantee that the subsequent memory usage of this game would not exceed 3 GB!

What kind of concept was this?

If this news were to spread, it would probably cause a sensation in the gaming industry. This technology would also be coveted by many gaming companies. Hong Yuan was originally looking forward to the release of this game. Right now, he wished that the day of the game's release would come soon.

The code on the computer screen was very dense and dazzling.

Hong Yuan, however, watched it without blinking.

—

—

Outside the office.

Yu Bei came in from the outside, stretching lazily. His eyes were narrowed, and it was obvious that he was not awake.

Liu Cheng saw the thick dark circles under Yu Bei's eyes and asked in surprise, "Brother Bei, didn't you say that you wanted to catch up on sleep? You have dark circles under your eyes. Have you gone to be a thief?"

"It's almost the same as being a thief." Yu Bei yawned and said excitedly, "Yesterday, I defeated a few G Country guys in Black Emperor's competition. They were too arrogant. I thought they were powerful, but they were just paper tigers." When Yu Bei thought about his ranking in the hacker competition, he felt extremely uncomfortable.

In the hacker competition, he was ranked second in the world, and the first place was Qin Sheng

Qin Sheng, an 18-year-old girl, had crushed him.

If outsiders knew about it, where would he put his face?

Yu Bei's excited mood seemed to have been doused with cold water. He thought of something and began to look forward to it. "Liu Cheng, tell me, when do you think Boss will solve the memory problem?"

Liu Cheng scratched the back of his head. "This matter shouldn't be solved so easily. It'll take at least ten days."

Yu Bei gloated. "Even if it's only ten days, it's enough for her to be busy. With her character of worrying about trouble, this matter should be a form of torture for her. She'll have to suffer."

He asked again, "Where's the general manager? Has he come to work?"

Liu Cheng replied, "He's here. He's staying in the office with the boss."

"Boss?" Yu Bei was very surprised. "She actually came over? No, I have to go see what she's doing here."

Yu Bei knocked on the door of the general manager's office.

"Come in." Hong Yuan. When Yu Bei walked in, he saw Qin Sheng typing something on Hong Yuan's computer

These codes were all composed of various English words and symbols. The workload was not small. Qin Sheng's hand speed was very fast, but to complete it, she needed a certain amount of time.

"General Manager, what is Boss doing?" Yu Bei was very curious.

Hong Yuan replied, "Compressing the memory. Boss seems to have found a solution within a day."

Yu Bei: "..."

It took a long time before he managed to squeeze out three words. "Are you sure?" Hong Yuan nodded with certainty. "It should be correct."

Chapter 490 Had Failed

Yu Bei was dumbfounded. In the afternoon and evening, she had solved the memory problem. Wasn't she going to fly into the sky?

At that time, dozens of people in the company had spent three days and worked overtime until very late. Only then did they manage to compress the memory by two GB.

And Qin Sheng had solved the memory problem by herself?

Did she have to be so discouraging?

However, what Yu Bei did not know was that the discouragement had only just begun.

Hong Yuan glanced at Yu Bei and thought about how shocked he was by Qin Sheng. He thought that he could also tell Yu Bei about this matter and let Yu Bei experience his feelings back then.

Thus, Hong Yuan said, "Boss said that she can compress the memory to 2 GB."

Yu Bei: "..."

Hong Yuan: "Furthermore, she can guarantee that the subsequent memory usage will not exceed 3 GB."

Yu Bei: "..."

After being stunned for a second, Yu Bei finally reacted.

"Cough, cough, cough." He coughed a few times and only recovered after a while.

He said in disbelief, "Are you sure that the subsequent memory usage of the game will not exceed 3 GB?"

Some companies spent more than ten years to compress the game's memory to 3 GB, but they were still unable to do so. Reducing it to 6 GB was already considered excellent.

The large-scale game's memory usage had always been a headache for the game company. And Qin Sheng had solved this problem in less than a day?

Hong Yuan raised his eyebrows. "Boss said it herself. What do you think?"

"No, I have to wait." Yu Bei covered his heart.

If Qin Sheng really solved it in a day, then Qin Sheng was a pervert among perverts. At that time, he had overestimated himself when he competed with Qin Sheng.

More than ten minutes had passed, and Qin Sheng had already written all the code.

Yu Bei stared at the computer screen.

He hoped that Qin Sheng could complete the compression of the memory, but he was also a little unwilling to see Qin Sheng be so smooth-sailing. Yu Bei had been very talented in hacking since he was young. He was also very arrogant, and he was proud of his good skills.

However, after meeting Qin Sheng, he was beaten up by Qin Sheng day by day.

Fortunately, he had a good mentality and could quickly adjust himself. Otherwise, he might not even dare to touch the computer now.

Yu Bei prayed in his heart that Qin Sheng would make some small mistakes this time.

He had been thinking about this memory for so many days, but he still had no clue. If Qin Sheng could completely solve it in the afternoon and evening, where would his face

go?

On this side, Qin Sheng pressed the enter key.

Yu Bei and Hong Yuan watched nervously, each with their own thoughts. One was hoping for success, the other was hoping for an accident.

The person who hoped for an accident was naturally Yu Bei.

Qin Sheng opened the interface to check the game's memory and found that there were no changes.

Seconds and minutes passed.

Ten minutes later, there were still no changes.

Qin Sheng's beautiful eyebrows furrowed. She gently clicked the mouse and began to check the code on the computer.

Yu Bei heaved a sigh of relief. Fortunately, he did not succeed.

He comforted Qin Sheng, his tone gloating, "Boss, it's normal for accidents to happen. Don't be too discouraged. After all, you only spent less than a day to complete it. If you had spent more time, it wouldn't have been a problem."

Qin Sheng checked the code expressionlessly.

Yu Bei said to himself, "Boss, everyone makes mistakes, right? I know you're very sad..."
