

## Bigshot 521

### Chapter 521: Qin Sheng's Results

Old Master Lu was a little jealous. Fu Hanchuan's words seemed to show that he was not as attentive to Qin Sheng as Fu Hanchuan was.

He said stubbornly, "It seems that your subordinate is not good. His efficiency is really bad."

Just as he said that, Fu Hanchuan received a text message. It was from Assistant Lin.

In the text message was a picture. It was Qin Sheng's report card.

Fu Hanchuan looked at it very seriously.

A bright black bolded font, 750, entered his eyes.

Without a doubt, Qin Sheng got full marks for all the subjects.

Chinese, 150!

Mathematics, 150!

English, 150!

Science, 300!

National ranking, first place!

The four subjects' papers did not deduct a single point!

The college entrance examination was a test that was evaluated by a group of teachers from various regions.

The exam this time was very difficult. Very few students could complete the entire test, and there were not many students with good results.

Among the three major subjects, most of the students did not exceed a hundred. As for the science subjects, they were also very poor. Even those with better results only had about 230 points.

Very few students were able to pass the exam with 250 points, let alone a full score.

/ please keep reading on Myb0xn0vel(d0t)c0m.

Fu Hanchuan was also stunned when he saw this heaven-defying result.

Soon after, the corner of his lips curled up into a very proud smile.

His little girl was very impressive.

Fu Hanchuan's college entrance examination results back then were not bad, but he did not get a full score. At that time, his handwriting was quite sloppy. Because of this, a total of three points were deducted.

Back then, he was also the top scorer in the national college entrance examination.

“Sheng Sheng, you got full marks in all your subjects, and you are also ranked first in the country.” Fu Hanchuan could not help but smile.

Hearing this, Qin Sheng saw the smile on Fu Hanchuan’s face and also felt proud. She also smiled and said, “En.”

Although Qin Sheng did not care much about the exam this time, it was still very good to get full marks.

Lu Ming was biting an apple. When he heard Fu Hanchuan’s words, his mouth was wide open, and even the apple in his mouth fell to the ground.

Full, full marks?

She, Qin Sheng, this pervert, really got full marks?

Wasn’t the exam this time very difficult?

Moreover, Qin Sheng only used less than forty minutes to complete the exam, yet Qin Sheng easily got full marks?

What about the Chinese essay and the English essay?

No points were deducted?

Lu Ming did think that Qin Sheng would get first place in the country in this college entrance exam, but he never expected that Qin Sheng would get full marks?!

Kacha!

Lu Ming took a bite of the apple.

He suspected that Qin Sheng had reserved her strength in the usual exam of H City High School?

How many marks had she deliberately lost?

Otherwise, if Qin Sheng didn’t get full marks in the monthly exam, but in this extremely difficult college entrance exam, she had gotten full marks?

This didn’t make sense.

Lu Ming didn’t understand, and he didn’t want to probe further.

All he needed to know was that Qin Sheng was a pervert and that she could not be provoked.

Old Master Lu also came over and took Fu Hanchuan’s phone. “Let me take a look.”

He did not bring his glasses over. He was a little farsighted now, so Old Master Lu could only hold his phone a little further away to take a look.

The font on it was not small, so Old Master Lu could easily read the content.

His eyes were almost narrowed into slits as he smiled. “Not bad, not bad. This result, I have to show it off properly. That group of old guys will definitely envy me for having a good granddaughter.”

Lu Ming retorted, “Sheng Sheng is not your granddaughter. You only have one grandson.”

Old Master Lu glared at Lu Ming. “Lu Ming, shut up!”

## **Chapter 522: Nowhere To Be Found**

Lu Ming made a zipping gesture with his mouth.

1

Old Master Lu didn’t have much time to spare for Lu Ming. He retracted his gaze and looked back and forth at the report card on Fu Hanchuan’s phone.

He had already looked at it four or five times, but he still couldn’t bear to put down his phone.

Qin Sheng smiled helplessly.

A warm feeling welled up in her heart. The feeling of being cared for like this was great. She had never experienced it with Lin Shuya and Qin Hai, her two biological parents.

—

At H City High School.

The form teachers of the third-year classes all came to the school, anxiously waiting for the college entrance exam results of their students.

“It’s out, it’s out, the results are out!”

Someone shouted, and those teachers quickly surrounded them.

The current results did not have a high or low ranking, and they had not been sorted out according to the class. It was very chaotic.

But those teachers were anxious. Each and every one of them was looking for the results of their students.

Very soon, the results were printed out.

Every form teacher received one copy.

Arts and science were separated.

Fortunately, there were not many students in each class. In addition, there were only four classes. The total number of students in the science section was only 120. This was not difficult to find.

Teacher Lin was also looking for the results of the students in Class 4.

She remembered the names of each student and continued to look.

Qin Sheng’s score was very eye-catching.

Even someone as steady as Teacher Lin was shocked. She opened her mouth slightly.

Thinking that she had seen wrongly, she took off her glasses and looked again.

The score was the same as before.

She did not have any hallucinations.

In this college entrance exam, most of the students in Class 4 scored above 500 points.

Lu Ming scored 728 points, ranking 11th in the country.

Huang Xiaoyan and Lin Feng's scores were also very good. Huang Xiaoyan scored 540 points, while Lin Feng and Huang Xiaoyan's scores were not much different. He scored 539 points.

The exam this time was very difficult. The overall score would drop. For normal college entrance exams and science students, they would basically be able to achieve a score of 510 points.

However, this time, the admission score of 510 points would drop by one point.

Huang Xiaoyan and Lin Feng's scores could go to a better school.

"Teacher Lin, where's Qin Sheng from your class? Why don't I see her results?" the form teacher of Class 2 asked with a frown.

"Qin Sheng? Let me look."

Teacher Lin flipped through it. She looked very seriously. She didn't miss a single student, and she still couldn't find Qin Sheng's name.

"There's also Student Su Yixiu's name. I can't find it either."

"I can see Lu Ming's results."

After the teacher-in-charge of Class 2 and Class 3 finished looking at their own class's test papers, they went to look for Qin Sheng, Su Yixiu, and Lu Ming.

They could find Lu Ming's results, but they could not find Qin Sheng and Su Yixiu's results. They looked back and forth a few times, but they still could not find them.

The staff member, who was sitting in front of the computer and sorting out the results of the college entrance examination for their respective classes, hurriedly said, "Oh right, Qin Sheng and Su Yixiu's results will be released later. I forgot to tell you guys."

Released later?

Teacher Lin frowned.

The form teacher of Class 2 was the first to react. "Maybe Qin Sheng and Su Yixiu did too well and their results were redacted?"

The form teacher of Class 2 had heard that every year, the results of the top ten examinees in the country would be intercepted, and the results would be released later than the average student.

### **Chapter 523: Regret**

The form teacher of Class 3 smiled and said, "Yes, it must be because they did too well in the exam. Qin Sheng and Su Yixiu's results are usually close to full marks. I feel that they will get into the top five in the college entrance exam. This time, our school will be able to do well."

Teacher Lin was not modest this time.

She nodded and said, "They are indeed amazing."

The staff had already sorted out the results of each class.

The results of Class 4 had improved by more than ten points in every monthly test this semester.

After the form teachers of the other three classes finished looking at the results of their classes, their gazes fell on Teacher Lin again.

Their gazes were too obvious.

Teacher Lin naturally received them and asked, "Do you want to see it?"

"Yes, Teacher Lin. Your Class 4 has made great progress, right?"

"It's alright," Teacher Lin said humbly. As she spoke, she passed the results in her hands to the teachers of the other classes.

When the teachers of the other classes saw the results of Class 4, they were stunned.

Class 4 was the worst class in the entire grade. In previous years, not many of them managed to get into university, let alone a first-tier one.

This time, most of the results of Class 4 should be able to get into a first-tier university.

They were shocked for a long while before they regained their senses.

They carefully read the results of Class 4. The more they read, the more shocked they became.

The form teachers of Class 2 and Class 3 looked at each other. They could see regret in each other's eyes.

It was obvious that Qin Sheng was the reason why the students of Class 4 were able to obtain such good results.

During the first semester of the third year of high school, because the students of Class 4 were too boisterous, the school had already placed Class 4 in a state of free-range studying. In normal examinations, very few people were able to attain a passing score.

However, after Qin Sheng arrived, the students of Class 4 started to have a strange liking for studying.

In every examination, they improved each time.

Now, most of them could get into a good university. Although their overall scores were still worse than those of Class 2 and Class 3, the difference was not huge.

They regretted looking down on Qin Sheng and letting Lin Ke take advantage.

If Qin Sheng was in their class, wouldn't their class's results catch up to Class 1?

Qin Sheng was more powerful than Su Yixiu, so Qin Sheng would definitely allow them to get a bonus if she was in their class. If word got out, it would be a matter of pride.

Now, all these benefits fell on Lin Ke.

Of course, there was no medicine for regret in this world.

They returned the Class 4 result sheet to Teacher Lin. "Teacher Lin, congratulations on getting such a good student like Qin Sheng and bringing all of your Class 4's results up."

Their tone was very sour.

Teacher Lin took it carelessly. She did not refute the form teachers of Class 2 and Class 3.

The results of Class 4 were indeed a large part of Qin Sheng's credit.

Moreover, it would not be easy for such a top student to slip away from their sight.

The form teacher of Class 2 continued, "Lu Ming's results are not bad either. He's ranked eleventh in the country. Although he's a little inferior to Qin Sheng and Su Yixiu, the results of the eleventh place have never appeared in our school before."

The form teacher of Class 3 continued, "That's right, Teacher Lin. Lu Ming transferred from Class 1 to your Class 4. You've gotten a huge bargain. This year's bonus will definitely be yours."

#### **Chapter 524: College Entrance Examination Records**

Teacher Lin did not care about the bonus.

She smiled and said, "If the outstanding teacher this year is really me, I'll treat you."

Hearing this, the form teachers of Class 2 and Class 3 felt a little better.

The form teacher of Class 1 smiled and said sincerely, "Teacher Lin, congratulations."

"Their results have been sent over," a staff member of the Academic Affairs Office suddenly shouted.

The form teachers all went over. They were really curious about Qin Sheng and Su Yixiu's results.

The staff member opened the document. The form teachers stared at the computer screen without blinking, afraid of missing any information.

Even someone as steady as Teacher Lin looked at it nervously.

"Full marks!!" The form teacher of Class 2 couldn't help but raise her voice. She was very surprised.

On the computer, the first name was Qin Sheng. Next to her name was a capital 750 marks!

Class 2's form teacher could not shut her mouth for a long time.

She had expected Qin Sheng to get a very good result.

But she did not expect Qin Sheng to get full marks!

The exam this time was very difficult. Very few people could complete the entire paper. Qin Sheng had also submitted her paper in advance for the college entrance exam.

In other words, other than the Chinese subject, which required more time, Qin Sheng had only used less than 40 minutes to write the exam paper, and she even got full marks?!

If she had not seen it with her own eyes, she would not have believed that such a pervert existed.

She then browsed through Qin Sheng's results for all the subjects.

Needless to say, they were all full marks!

Full marks for all the single subjects!

Ranked first in the whole country!

In language and English composition, where it was easy to lose points, Qin Sheng still got full marks!

Didn't they say that this exam was very difficult?

Why did Qin Sheng do better than the usual exams at school?

The gazes of the other teachers also stopped at Qin Sheng's scores.

All of them were very surprised.

The corners of Teacher Lin's lips curled up into a smile. She was very proud.

After all, she was the one who had taught them. She had gotten first place in the country. How could she not be proud?

They were stunned for a long while before they looked at Su Yixiu's results.

Su Yixiu's results were also very good.

He only lost six points.

He had a perfect score in the science subjects. One point had been deducted from his English, three points had been deducted from his Chinese, and two points had been deducted from his mathematics.

The form teacher of Class 3 did not close her mouth for a long time. "Qin Sheng and Su Yixiu's results are heaven-defying. One of them got first place in the country, and the other got second place. Qin Sheng's score is even perfect!"

The form teacher of Class 2 took a sip of water. "No, I need to rest."

The grade teacher had been reading the newspaper in the office. The form teachers of the four classes had gone to look at the results while he was the only one who was still sitting in his seat. He looked like he did not care about the results.

If one ignored his gaze that kept drifting over, one would think that he did not care about the results of the examinees.

When he heard that Qin Sheng and Su Yixiu had gotten first and second place in the exam...

He stood up from his seat.

He strode over. "Qin Sheng got full marks?"

His tone was filled with disbelief.

This was the first time in the many years that the college entrance exam had been held that someone had gotten full marks, and it was this year's year three student that he had brought along!

The grade teacher's hands were trembling with excitement.

The form teacher of Class 1 nodded. "Yes, Qin Sheng scored 750 points, Su Yixiu scored 744 points, and the number one and number two in the country are both in our school."

The grade teacher looked at the score on the computer.

He looked at it very seriously a few times.

His gaze fell on the source of the document again. It was indeed the results sent by the Ministry of Education. There was no mistake.

Qin Sheng's results set a college entrance examination record!

### **Chapter 525: Qin Churou's Results**

The grade director nodded excitedly

"Good, good, good. Not bad, not bad. I'll immediately tell the principal about this matter and apply to the principal for a reward."

He then said, "Oh right, bring over the results of each of your classes for me to take a look."

"There's one here." The staff member of the Academic Affairs Office gave the results sheet that he had compiled a long time ago to the director of the Academic Affairs Office.

He first looked at Class 4.

Just now, he had heard the teachers say that most of the students in Class 4 had already passed the national entrance examination. He was quite surprised.

But from what he had heard, it was far less of a visual impact.

The grade director looked at the results that were more than 500 points, and there were a few that had more than 600 points.

He nodded again and sighed, "This result is really beyond people's expectations. If it was said that this was the result of Class 4, it would be hard for anyone to believe it."

He continued to read.

The scores of Class 2 and Class 3 were similar to what he had predicted.

Finally, he saw the results of Class 1. Perhaps it was because of Qin Sheng's notes, although this exam was very difficult, the scores did not fall too far behind.

When he saw Qin Churou's results, he frowned.

"Qin Churou, 559 points?"

Qin Churou was the person who had gotten into third place from time to time, so the grade director had a deep impression of her. However, she had not expected that Qin Churou would only get 559 points.

This result, let alone in Class 1, even if it was placed in Class 4, would not stand out.

“Did Qin Churou not study in school?” the grade director asked in confusion.

Even if Qin Churou did not come to school later, with Qin Churou’s foundation, her grades could not have dropped so much.

559 points. In Class 1, she was already ranked 25th.

In the entire school, she was only ranked around 60th.

Class 1’s form teacher frowned and said, “I made a call to find out. Mrs. Qin said that Qin Churou was locked in her room every day and was studying very seriously.”

The grade teacher retorted, “If she was studying seriously, with Qin Churou’s results, she wouldn’t have ended up like this.”

Class 1’s form teacher voiced out his guess. “Could it be because of what happened in the forum?”

The grade teacher fell silent.

Before the college entrance examination, Qin Churou’s matter had indeed caused a huge commotion. Therefore, Qin Churou had returned home to study.

That sort of thing could easily affect one’s mood.

“Also, Director, she had mentioned to me that she wanted to enter Capital Film and Television University. Therefore, Student Qin Churou might not have spent too much time on her studies.”

Hearing this, the grade director did not mention Qin Churou anymore.

He started to look at the results of the other students in Class 1.

“How are the results?” The principal walked in with his hands behind his back.

He had returned from a business trip because he was really curious about the results of this year’s year three students. He had just gotten off the plane when he arrived at the school.

The grade director had just finished looking at the results of the students in Class 1.

He passed the results sheets of the few classes to the principal.

“Principal, other than the results of Qin Sheng and Su Yixiu, they are all here.”

“Oh?” The principal was very curious. “Then what about their results?”

“The Academic Affairs Office just sent their results over not long ago.”

The grade director’s finger pointed at the computer screen.

The principal quickly guessed the reason, and he couldn’t care less about the results in his hands.

He walked quickly to the computer.

The staff retreated to the side.

When the principal saw Qin Sheng's achievements, his heart was in turmoil, and he was stunned on the surface.

### **Chapter 526: G City High School**

The grade director said from the side, "Student Qin Sheng got full marks while Student Su Yixiu got 744 marks. The two of them occupy the top two positions in the country."

"Principal, this time, G City High School doesn't dare to look down on us."

G City High School and H City High School were arch-enemies.

Over the years, the average scores of G City High School and the number of people who were admitted to several key universities had steadily surpassed H City High School.

Because of this, G City High School constantly mocked them.

At this moment, they could finally hold their heads up high.

The principal came back to his senses. He stroked his nonexistent beard and nodded repeatedly. "Good, good, good. This result is good. This is the first time that a student from our school has obtained such good results."

"Hehe, when I see that old fellow one day, I will definitely show off and properly vent my anger."

H City High School was also used to being mocked by G City High School.

However, G City High School's results were indeed better than theirs. Even if they wanted to refute it, they could not refute it.

The principal was very excited and his eyes were eager to give it a try.

If it was possible, he could not wait to let G City High School's principal take a good look at Qin Sheng and Su Yixiu's results.

At that time, G City High School's principal's expression would definitely be ugly.

"Principal, not only are Qin Sheng and Su Yixiu's results amazing, even Class 4's results are unexpectedly good."

"Oh, is that so?"

Principal Feng finally withdrew his gaze from the computer screen. He took out Class 4's report card from the few pieces of paper and began to read it.

He had already mentally prepared himself, but he was still amazed.

He suspected that he was looking at the results of Class 2 or Class 3. He looked at the catalog again. There was no mistake. It was indeed Class 4.

The principal frowned. "This is the result of Class 4?"

"Yes." The grade director nodded with a smile.

The principal had looked all the way down. If it wasn't for the grade director's guarantee, he really suspected that the results of Class 4 were fake.

The results of Class 4 were about to catch up to Class 2 and Class 3.

The principal could not help but nod his head in delight. "It seems that our school's average score and top student rate are about to surpass G City High School."

He looked at Lin Ke and praised, "Teacher Lin, you taught very well."

Teacher Lin said humbly, "Thank you for the principal's praise. This is only the students' own credit. Student Qin Sheng's contribution is not less than mine as the form teacher."

These words were true.

Teacher Lin was very strict, but she could only let Class 4's math results be better. As for the other subjects, the students of Class 4 were unwilling to study. She forced them to study, which was also inefficient and difficult to improve.

After Qin Sheng came to Class 4, the learning atmosphere was different.

The principal smiled. "Student Qin Sheng, she is indeed a good seedling. It is our fortune to be able to come to our H City High School."

The grade director took the opportunity to ask, "Then principal, do you have any rewards for Students Qin Sheng, Su Yixiu, and Lu Ming?"

The principal, who had always been stingy, nodded without any hesitation and was very generous. "Of course, there will be no lack of bonuses, certificates of honor, and computers."

"How much is the bonus?" the grade director asked.

The principal glanced at the grade director and said, "Don't I know what you're planning? You're worried that I'll give them a small bonus, aren't you?"

The grade director rubbed his nose in embarrassment. He did have such worries.

### **Chapter 527: Showing Off**

The principal was in a good mood, so he did not mind.

He waved his hand. "The first place will receive 300,000 yuan, the second place will receive 200,000 yuan, and the third place will receive 100,000 yuan."

H City High School was rich and overbearing. Many rich families wanted to send their children to H City High School, so they would give them a lot of financial aid.

However, the principal was stingy. He did not give the students a lot of money to study. Every semester, he would give the first place student a bonus of only 1,000 yuan.

When the grade director saw how generous the principal was, he was stunned.

When he came back to his senses, he quickly said, "Principal, I'll help them thank you."

The principal stroked his nonexistent beard and said, "Go buy a few more cakes and firecrackers to celebrate."

"That's it. You guys can go back to your work first. There's more."

He looked at the staff member and said, "Quickly calculate the average score and the number of people with more than 600 points so that I can use it to make Qi Feng jealous."

The principal was used to being laughed at by the principal of G City High School. He could not swallow his anger.

Now that he had a chance to turn things around, he naturally would not miss it.

The staff member nodded and said, "Okay."

He sat back in front of the computer. He often did these things and quickly calculated the average score and the number of people with more than 600 points.

The principal took the data and left.

He also took the transcripts of each class.

When he returned to his office, he couldn't wait to call the principal of G City High School.

The principal of G City High School was looking at his school's results.

The overall scores of the students of G City High School had generally dropped by dozens of points compared to the previous college entrance exams.

However, the college entrance exams this time were very difficult. The principal of G City High School was also very clear. He felt that the students of his school's year three were doing very well. After all, the rankings of the students of G City High School had risen a lot.

This year, G City High School's results would definitely be like the previous years, crushing H City High School in all aspects.

A cell phone rang.

Qi Feng saw that it was H City High School's principal's phone number. He frowned and picked up the call.

"Principal Qi." H City High School's principal, Principal Feng's slightly proud voice came from the cell phone.

Qi Feng said mockingly, "I wonder why Principal Feng is calling today?"

Principal Feng narrowed his eyes. "The results of the college entrance examination are out. How are the students from your school doing?"

The focus of the development of the H City and G City High Schools was on the science subjects. As for the arts subjects, they also attached importance to them. However, most of them were comparing the results of the science subjects and would ignore the arts subjects.

Qi Feng smiled and said, "They did very well on the exam. Their average score was 520. There were 34 students who scored above 600 points."

Principal Feng could hear the pride in Qi Feng's voice.

G City High School's results were already considered very good in the college entrance examination. After all, the exam questions were too difficult.

Principal Feng smiled disdainfully.

This result, he was proud?

In the eyes of H City High School, it was simply not enough.

Qi Feng then said disdainfully, "Principal Feng, how are your school's results? It can't be that your exam results are bad again, right? Don't tell me you're not as good as our G City High School in all aspects. You guys lost to us for three years."

"However, after losing for three years, how can you turn the tables this year and surpass us?"

Qi Feng's voice was very proud. "If you want me to say, Principal Feng, you'd better dismiss your Class 4. A bunch of motley crew, they're just purely dragging you down. With this delay, your overall results will all be dragged down. If it were me, I would have long chased these students out."

#### **Chapter 528: Qin Sheng, You've Heard of Her, Right?**

Principal Feng didn't say anything. He was thinking that the more Qi Feng mocked him, the more he would be slapped in the face.

Therefore, Principal Feng just held his phone to his ear and listened to Qi Feng's words. He didn't say a single word throughout the whole process.

Qi Feng continued.

"Principal Feng, don't tell me you can't bear to part with the small amount of money that those students invested?"

H City High School was rich and private, but with the support of the H City government, it was known as H City's top school.

The parents of the students in Class 4 donated a lot of money to H City High School.

Some people even donated a teaching building to them.

H City High School could do whatever it wanted with that money unlike them, who still needed to apply to the higher-ups.

Qi Feng was very jealous of the treatment that the H City High School could receive. Because it was a public school, he had to be restrained in doing anything, unlike the principal of the H City High School who was free.

In this way, Qi Feng, who was already at odds with Principal Feng, became even more displeased with Principal Feng.

Qi Feng had also applied to be the principal of H City High School, but he didn't get the job. Principal Feng, who had come with him for the interview, got the job instead.

After Qi Feng became the principal of G City High School, he had always been at odds with H City High School.

Principal Feng still didn't say anything. Qi Feng thought he had guessed principal Feng's thoughts.

His tone was very mocking. "Principal Feng, someone like you can never surpass our G City High School. It's really tragic for H City High School to have a principal like you."

Principal Feng narrowed his eyes and finally opened his mouth. "Principal Qi, does your school have any top ten students in the country?"

Qi Feng could not understand what Principal Feng was saying for a moment.

Principal Feng continued, "Does your school have any students who are ranked in the top ten in the college entrance examination?"

Qi Feng laughed in disdain. "Principal Feng, we are just a small city-level high school. Although our strength isn't bad, how can we compare to the capital of China? Hahaha, it's impossible for us to be in the top twenty. Could it be that you have one?"

"Indeed."

Qi Feng was stunned for a second before he laughed even louder. "You actually know how to lie? For your school to have a student who is ranked in the top twenty in the country, you must be dreaming."

Principal Feng raised his eyebrows. "Su Yixiu, you know this person, right?"

At this moment, Qi Feng stopped laughing and his hand slowly tightened around his phone.

How could he have forgotten about Su Yixiu's existence?

With Su Yixiu's results, if he did not make any mistakes in the college entrance examination, he would definitely be able to enter the top 10 in the country, and it was very likely that he would be ranked in the top three.

He had participated in the national competitions for every subject of Su Yixiu's. Other than that time when he was ranked second in the National High School Mathematics Competition, he had always been the champion.

Su Yixiu was very versatile.

Qi Feng's brows were tightly knitted, but he did not make a sound for a moment.

On the other end of the phone, Principal Feng's words came out again. "Lu Ming, have you heard of him?"

Lu Ming's results were also very good. Before Qin Sheng came, he had always been in the top two. Principal Feng had often inquired about the movements of H City High School.

Qi Feng naturally knew about Lu Ming.

Lu Ming could also participate in those national competitions, but Lu Ming was lazy and didn't want to participate.

Could it be that Lu Ming also got into the top 20?

With Lu Ming's results, it wasn't impossible.

Qi Feng's brows were tightly knitted together, and there was an obvious embarrassment on his face.

Principal Feng of H City High School didn't let Qi Feng go. "Student Qin Sheng, have you heard of her?"

### **Chapter 529: Class 4 Was a Hindrance**

Qin Sheng!!!!

Qi Feng's eyebrows could almost pick up a fly.

Qin Sheng had completed the entire paper at an unbelievable speed in the National High School Mathematics Competition and scored a perfect score!

And she had also broken the record in the scramble for answers.

Qi Feng had also checked Qin Sheng's results in H City High School. Every time Qin Sheng took an exam, she would score close to a perfect score!

He had forgotten about these three people for a moment just now.

Qi Feng asked, "Feng He, these three people you mentioned, did they get into the top 20?"

"Yes." Feng He's voice was very happy, "They are indeed amazing. Qin Sheng got the first place in the country, with full marks. Su Yixiu got 744 points, second place in the country. As for Lu Ming, he almost got into the top 10, 11th place, with 728 points."

"What?!" Hearing Feng He's words, Qi Feng suddenly stood up from his seat. He could not believe it, "Ranked first and second in the country?! Impossible!"

If a school could have a student who was ranked in the top 10 in the country, they would be able to have a good time.

And H City High School directly occupied two places, and it was the ranks of first and second.

Qi Feng did not dare to believe it, nor was he willing to believe it.

Feng He smiled and said, "There's no need for me to lie to you about this. Our school does indeed occupy three of the top 20 schools in the country."

This time, it was Feng He's turn to mock Qi Feng. "Principal Qi, your school can't do it. There's not even one in the top 20. No, there might not even be one in the top 50."

He shook his head. "Tsk tsk, that's too pitiful. Does your face still hurt?"

"Feng He, don't be too proud!" Qi Feng clenched his fists in resentment. "Aren't you just relying on your three students? Just three students won't be able to bring about the decline of your school."

As he said this, Qi Feng felt that what he said made sense.

Wasn't H City High School very lucky to have three talented students?

The other students were also not up to par.

There were also those students from Class 4. They would definitely pull down the average score of the third grade of H City High School.

How many average scores could three gifted students pull up?

Qi Feng's tone was very mocking. "Feng He, you'd better deal with those students from Class 4 first. Otherwise, you'll never be able to compare to our school."

"Students from Class 4 are a hindrance?" Feng He asked.

Qi Feng: "Feng He, the students from year three, Class 4. Don't you know what they're capable of? Each and every one of them failed their exams. Only when you took a fancy to their money would you specially set up a class to take them in."

Principal Feng picked up a glass of water and drank it. Hearing this, he smiled. "Qi Feng, this won't go as you wish. The students from Class 4 won't be a hindrance."

Qi Feng was disdainful. The students of Class 4 had terrible grades. They wouldn't be a burden?

What a joke!

Principal Feng said again, "Most of the students of Class 4 will be able to get into a key university this time. Our school's average score is more than 20 points higher than yours. It's an average score of 541 points."

The students of Class 1, Class 2, and Class 3 of H City High School were all top students from H City. There were also top students from other places. The teaching standards and various teaching facilities of H City High School were all excellent.

Therefore, the results of these few classes were all very good.

Only Class 4's results were slightly worse. At this moment, the scores of the students of Class 4 had risen, and the overall scores had also risen.

Hearing this, Qi Feng was stunned. How was it possible for most of the students of Class 4 to be admitted into a key university?

Class 4 was a famous bad class!

Qi Feng couldn't believe it.

### **Chapter 530: Most of the Students In Class 4 Could Get Into a Key University**

"Haha, what?" Qi Feng laughed mockingly. "Everyone can see the standard of your Class 4. In the previous year, not many students in Class 4 could get a second-tier university."

"This year, the standard of the students in Class 4 didn't change much, but you say that most of the students in Class 4 could get a key university? Feng He, if you want face, you don't have to do this. Aren't you afraid of being slapped in the face?"

Principal Feng smiled nonchalantly. "That depends on who's slapped in the face. Qi Feng, you'll know when the results of each school are announced."

"Oh, that's right. There are more than forty students in our school who have scored more than 600 points, and that's more than you guys."

Principal Feng hung up the phone in a good mood.

He could already imagine how angry Qi Feng's face would be when he saw their school's results.

On the other hand, Qi Feng said he didn't believe it, but he was also suspicious.

Feng He was very stubborn, and he wasn't a person who could lie. Could it be that everything he said was true?

Qi Feng frowned, then picked up his phone and arranged for people to check the results of all the science students in year three of H City High School.

H City High School didn't deliberately hide it. Qi Feng soon got a list of the results of the students in each class of H City High School.

Qi Feng directly looked at the grades of the students in Class 4.

Almost all the students in Class 4 scored above 480 points. According to the national ranking, most of them could get into a key university.

How could they do so well in the exams?

Qi Feng clenched his fists and asked, "Is this real?"

The school staff nodded. "It's true. I got this from a friend. He didn't need to lie to me with fake grades."

"You can leave now."

Qi Feng was the only one in the principal's office. He looked at the report card in front of him with a heavy gaze.

H City High School's recruitment criteria for Class 4 were not much different from last year's, but why were their results so vastly different?

Qi Feng felt that there was something strange about this.

However, there was no way to cheat in the college entrance examination.

His gaze fell on the other results sheets, and he looked at them one by one.

Qi Feng took out the results of the college entrance examination from last year's H City High School.

/ please keep reading on MYBOXNOVEL(dOt)COM.

The more he looked, the more he felt that something was wrong.

This year, the students of H City High School were ranked in the national rankings, and they were generally higher than 100. What was going on?

There were no classes that held them back, and even the other classes had improved so much.

It was inevitable that their average was better than that of G City.

Qi Feng's heart was filled with unwillingness. This year, he was confident that G City High School would surpass H City High School, but there was an accident.

Qi Feng picked up his own school's grades again.

G City High School's best test this year was He Manyun. It was only 705 points, ranked 84th in the country.

Compared to the previous college entrance exams, Qi Feng felt that this result was already very good.

However, with Qin Sheng, Su Yixiu, and Lu Ming's results in front, Qi Feng felt that this result was very bad.

He grabbed the report card and crumpled it into a ball.

"Feng He, H City High School!"

Qi Feng gritted his teeth.

They actually dared to surpass their school. H City High School could not compare to G City High School.

Today, many students came to G City High School to see their grades. It was not that they could not check their grades online, but they were curious about the grades of other students, so they came over.

He Manyun was also there.

She wore a white knee-length dress and light makeup on her face.

The other third-year students were all wearing casual clothes, but He Manyun looked very different. Many male students were sizing her up.
