

Bigshot 551

Chapter 551: Qin Churou Cheats

"You're ranked 11th in the country?" Teacher Chen asked with a frown.

Lu Ming nodded frantically. "Yes, I'm ranked 11th. If I were to go to your school, will there be a bonus?"

Under normal circumstances, if they were to encounter someone ranked 11th, they would not let him go.

After all, the 11th place was not much different from the 10th place.

However, with Qin Sheng's perfect score in front of them, they were not very interested in Lu Ming's score.

Moreover, they were not in the mood now.

Therefore, they rejected him mercilessly. "Go to whichever school you like."

2

Lu Ming: "..."

He pointed at himself in disbelief. "You really don't want me?"

"No." Teacher Chen and Teacher Liu's tone was very firm.

Lu Ming could not help but ask for the reason.

Teacher Chen was getting impatient from being pestered.

He sized up Lu Ming from head to toe and said in disdain, "Your score is too low."

Lu Ming: "..."

"Hahahaha." Old Master Lu laughed loudly. "Lu Ming, you'd better not go over and embarrass yourself."

Lu Ming looked at Old Master Lu with resentment.

Was his score low?

Old Master Lu knew Lu Ming very well and could tell what Lu Ming was thinking at a glance.

He raised his eyebrows and said, "When you can get full marks for all the subjects like Sheng Sheng, I can give you ten million."

"Then forget it." Lu Ming sat back down in his seat.

Full marks? Does that mean you can get it just because she can get it?

Only that pervert Qin Sheng can get it.

The three teachers walked out of the private room.

Teacher Chen's tone was very pleased. "I've pulled another genius student over. Don't be discouraged. I believe that you can pull the next one. However, there will not be a genius like Qin Sheng in the future."

His words were not wrong. Very few top scorers in the college entrance examination received the same treatment as Qin Sheng. Even if it was ten million yuan, even if it was Qin Sheng's request to skip class as she pleased.

As soon as the results came out, he quickly pulled out Qin Sheng's information and rushed over to compete for Qin Sheng.

He even agreed to all of Qin Sheng's conditions.

"Chen Wei, let's go over and have a good talk." Teacher Wu hooked Teacher Chen's neck. Then, he raised his eyebrows. "Teacher Liu, come over as well."

"Tsk tsk, Wu Fang, no matter how much you bully me, Qin Sheng has been dragged to Imperial Capital University by me."

"Stubborn."

After leaving the hotel, Teacher Wu and Teacher Liu started to force Teacher Chen to drink. Then, Teacher Chen went crazy from drinking. He was recorded and posted on the group chat of the teaching staff.

They could be said to have vented their anger.

On the other side, Qin Sheng and the rest had already eaten their fill. They did not want to see Qin Hai and his family. Not long after, they also left the hotel.

Qin Hai put down his chopsticks heavily.

He was not in the mood to eat.

Lin Shuya frowned and asked, "Brother Hai, this Qin Sheng actually scored full points!?"

Qin Hai sneered, "Lin Shuya, you keep saying that Qin Sheng cheated in the exam day after day, that Qin Sheng does not have the strength. To be able to do so well in the college entrance exam, and even score full marks?!"

Lin Shuya couldn't refute.

She could say that Qin Sheng cheated confidently before.

But now, she couldn't say it out loud.

The school exam could be cheated, but the college entrance exam couldn't be cheated.

Qin Hai's eyes fell on Qin Churou and sneered, "It's better to say that Qin Churou cheated. Otherwise, her usual results wouldn't be more than a hundred points lower than the college entrance exam."

1

"Brother Hai!" Lin Shuya wanted to speak up for Qin Churou.

Qin Hai raised his hand to interrupt. "Alright, I know what you want to say. Qin Churou was disfigured and didn't have the time to review for the college entrance exam. Furthermore, she was framed by Qin Sheng and lost her reputation. Her bad mood resulted in her poor college entrance exam. I've heard this kind of excuse many times."

Chapter 552: Fu Hanchuan Should Be Hers

Qin Churou bit her lower lip, feeling wronged in her heart.

Indeed, it was because of these reasons that she failed the exam.

1

She could have gotten into the top 100 in the country.

She could have gotten into the top three in the Youth Painting Competition.

However, Qin Churou did not dare to let Qin Hai know what she was thinking. Qin Hai hated it when others refuted him.

Qin Hai warned, "Qin Churou, don't disappoint me next time."

"Yes, Dad, I won't," Qin Churou replied with an aggrieved tone. Her eyes were red.

Lin Shuya changed the topic. "Brother Hai, who is the man who is supporting Qin Sheng?"

Qin Hai glanced at her and answered, "The behind-the-scenes boss of Shengshi Real Estate. His background should be HD Group. Moreover, he is related to the Lu family."

"HD Group?!" Lin Shuya was very surprised.

She didn't expect him to have connections with the HD Group!

Although Lin Shuya didn't care about the Qin Real Estate, she had heard about the HD Group.

The media reports on the HD Group were overwhelming.

Even for someone like Lin Shuya who didn't go out to work and only paid attention to the shopping mall knew how powerful the HD Group was.

The backer was someone from the HD Group, so his background shouldn't be simple.

Lin Shuya did not expect Qin Sheng to be such a big shot on the list.

Qin Churou was also stunned when she heard that.

Indeed, it was what she thought.

Fu Hanchuan was related to the HD Group. The people from the HD Group had told Qin Hai that she had offended the HD Group, so it was Qin Sheng who complained to Fu Hanchuan.

1

Only then would the HD Group deal with Qin Real Estate.

Qin Churou slowly clenched her fists and her chest was filled with jealousy.

She was jealous of Qin Sheng.

Qin Sheng, a country girl, was actually able to catch Fu Hanchuan's eyes.

Such a handsome and affectionate man with a good family background should be hers.

Qin Hai said in a low voice, "Therefore, Lin Shuya, Qin Churou, you'd better not provoke Qin Sheng. If our Qin Corporation died one day, we wouldn't even know how."

Lin Shuya was puzzled. "Brother Hai, we aren't bad either. Why should we be afraid of them?"

"Hehe." Qin Hai sneered. "Idiot. The last time Qin Sheng left the Qin family, it was that man who planned it. If the company wasn't going bankrupt, I wouldn't have cut ties with Qin Sheng so easily."

"I'm warning you. If you provoke the HD Group again, don't come back to the Qin family."

Lin Shuya quickly agreed.

"Brother Hai, don't worry. Since that man is so powerful, I don't dare to provoke him no matter what."

Qin Churou suddenly raised her head. There were still some tears in her eyes.

"Father, you know my character. I can be sure that I didn't provoke Sister. Previously, something happened to our company. Could it be that Sister spread rumors and said that to take revenge on us?"

Lin Shuya also felt that Qin Churou's words were very reasonable.

"Brother Hai, Qin Sheng is unruly and unreasonable. From the moment she returned to the Qin family, she didn't put us in her eyes. She even contradicted us time and time again. It's not strange that she let that man deal with our Qin family. She doesn't like Rou'er, so she said that Rou'er offended the HD Group."

1

Lin Shuya was trying to justify Qin Churou. "Brother Hai, you watched Rou'er grow up. With her personality, she would never offend such a big shot."

Qin Hai's brows gradually relaxed.

The gaze he used to look at Qin Churou was no longer as disdainful as before.

2

Qin Hai leaned back in his chair. "No matter what, we have severed our relationship with Qin Sheng. It's better for us not to look for Qin Sheng in the future."

Since Qin Sheng had a big shot like Fu Hanchuan on the list, Qin Hai wanted to curry favor with him through Qin Sheng more than anyone else.

This way, the Qin Corporation would not have to worry about money.

He would not need to beg others to cooperate with him every day.

If word got out that he had a relationship with the HD Group, wouldn't those people still rush to find him to cooperate?

Chapter 553: The Game Was Bad

However, Qin Sheng was a mischievous person, and Fu Hanchuan had warned him before.

Qin Hai did not dare to gamble.

If he really went to look for Qin Sheng again, that man would really bankrupt Qin Real Estate.

Hearing this, Qin Churou obediently agreed.

However, she felt disdain in her heart.

Don't even think about it if you want her to not cause trouble for Qin Sheng!

With her, Qin Churou, around, Qin Sheng would not be able to live a good life.

Qin Hai naturally didn't know what Qin Churou was thinking, and Qin Churou didn't dare to let Qin Hai know either.

—

When they went back, Qin Sheng wasn't with Old Master Lu.

Fu Hanchuan and Qin Sheng went back to Fu Garden in two separate cars.

Old Master Lu and Lu Ming sat together, and the chauffeur drove them back to the Lu Residence.

In the car.

Old Master Lu picked up a call. It was from Father Lu.

Lu Ming pricked up his ears.

Old Master Lu glanced at him in disdain.

Then, he moved to the window.

He put a hand to his mouth, as if he was talking in private.

Lu Ming saw it and was speechless

He could only sit quietly by the side.

As soon as Old Master Lu hung up the phone, Lu Ming couldn't wait to go up and ask, "Grandpa, my dad called back. What's the matter?"

"They'll be back in a few days."

"Really?" Lu Ming was excited.

This time, his college entrance exam results were so high in the country. Could he ask his parents for some rewards?

Old Master Lu was very disgusted. "Looking at you like that, you must be thinking about the bonus."

Lu Ming didn't refute him. He complained, "Grandpa, if you didn't deduct all my pocket money, would I be so poor?"

"I was just trying to train you. Look at you. All you do is stay at home all day, eating and playing. It's annoying to look at you."

It was originally fine, but Lu Ming had stayed at home for twenty days. Now that Old Master Lu saw Lu Ming, he felt very annoyed.

He wanted to stuff him back into his mother's womb to be rebuilt.

1

Lu Ming said righteously, "I like to fool around and wait for death."

Old Master Lu was so angry that he blew his beard and glared at him. "Then I won't muddle along for you."

Lu Ming was also angry.

He turned his head and stopped talking to Old Master Lu.

Old Master Lu was also happy that Lu Ming ignored him.

—

Long Yue Technology Conference Room.

Fang Xuelin was sitting at the conference table, and a game video was playing on the big screen.

Fang Xuelin revealed a satisfied expression on his face.

The other higher-ups were also talking in low voices. Obviously, they were very satisfied with this game.

After the video was played, Fang Xuelin turned his office chair and asked with raised eyebrows, "How is it?"

Lin Dong, the game tester, said very respectfully, "Chairman, the settings of this game and its full intelligent function are undoubtedly incomparable to all the current games. If it is released, it will definitely become a blockbuster."

"But..." Lin Dong wanted to say something but hesitated.

Fang Xuelin frowned and asked, "But what?"

Lin Dong mustered up his courage and asked the question.

"Chairman, there are still many details that are lacking in this game. The computer screen is not high-definition enough. The scenes inside and the appearance of some characters, as well as some other aspects, are not very compatible with our game. This will affect the user's experience. There's also a fatal problem that needs to be solved. It's easy for the game to get stuck."

Fang Xuelin frowned. "Then how can we solve it?"

"Maybe we were in a hurry before, so we didn't do it very well. These problems aren't difficult to solve. If we spend more time on it, it won't be a big problem," Lin Dong replied.

Chapter 554: Was the First To Release the Game

"How long will it take?"

"At least a month, at most two months."

Fang Xuelin asked again, "How long will it take to solve the problem?"

"Two weeks."

Hearing this, Fang Xuelin immediately denied it. "No, there's no time. We have to release the game immediately."

"This..." Lin Dong frowned. He really wanted to persuade Fang Xuelin to wait until the game was stable before releasing the game.

This was because once the user experience was not good and the user was lost, it would be very difficult to recover in the future.

He could not release the game so hastily.

However, before he could say it out loud...

Fang Xuelin interrupted him. "It's settled then. As for the problems you mentioned, you can slowly improve them in the future. The most important thing now is to seize the market first and let Shengshi Technology's half a year of hard work go to waste. If it's too late, it'll be too late."

Fang Xuelin's gaze was dark.

Since Shengshi Technology dared to oppose him, don't blame him.

It was likely that Shengshi Technology had invested a lot in developing the game. Perhaps they were counting on this all-intelligent mobile game to make money back.

If there was no such game, would Shengshi Technology go bankrupt?

Fang Xuelin was looking forward to seeing Shengshi Technology's expression after learning that their game had been stolen.

Hearing Fang Xuelin's words, Lin Dong silently shut his mouth.

He knew very well that no matter how much he tried to persuade Fang Xuelin, he would not change his mind.

A high-ranking official asked, "Chairman, how much time do we prepare for the internal test?"

"Three days."

As soon as he finished speaking, Lin Dong immediately stood up to object.

“Chairman, three days is too little time. It’s very difficult to see the problems. Moreover, it’s only three days. It’s very difficult for those users to discover our game.”

Fang Xuelin said nonchalantly, “Three days is not a little time. We need to seize the initiative and launch the game earlier. We must finish the test earlier. As for the fact that you said we can’t discover it, as long as we have money, there will naturally be a lot of downloads. There’s no need to worry about that.”

After saying that, his gaze fell on Lin Dong.

“Is there anything else?” Fang Xuelin’s eyes contained a warning.

“Chairman, I don’t have any other questions. I think that the matter of the game getting stuck won’t appear so easily either.”

Seeing that Fang Xuelin was determined, Lin Dong once again gave up trying to persuade him. It wasn’t his own game, and he had already done his duty.

Fang Xuelin didn’t listen to him, so he didn’t continue to persuade him.

If Long Yue Technology had a problem, at worst, he could just find another game company.

With his education, it was not difficult for him to get a better-paid job.

It was just that it would be very difficult to find a company with the same treatment as Long Yue Technology.

There was a moment of silence in the conference room.

Fang Xuelin was satisfied. He glanced at his subordinates who were sitting at the conference table one by one.

Then, he said, “Alright, now that there are basically no problems with our game, let’s discuss the closed beta of the game and the official release date of the game.”

Fang Xuelin was also an autocrat. On the surface, he would ask his subordinates for their opinions, but he rarely listened to them.

At this moment, he did not ask his subordinates to come forward with their personal opinions and said straightforwardly, “Alright, I will send someone to send this game over tomorrow to the game department for approval. The day after tomorrow, we will release the closed beta version of the game. At the same time, we will use ten million dollars to advertise it. I think there will be many people who will download the game.”

In these four months, Fang Xuelin had developed his connections in the game department.

Therefore, it didn’t take too long for the game to be approved.

Chapter 555: There Was a Conflict

Fang Xuelin looked at Lin Dong with a faint smile. “How is it? The number of people in the closed beta will at least offset the time lost.”

The game closed beta member's lips curled into a smile. He said very respectfully, "Chairman, we can indeed cancel it."

"Lin Dong, I saw that you were unwilling. You're not lying to me, right?" Fang Xuelin was dissatisfied with Lin Dong's rebuttal. At this moment, even if he had pandered to Fang Xuelin... Fang Xuelin would not let him off either.

Lin Dong was holding in his anger.

He was already on the verge of enduring.

Now, he was being ridiculed by Fang Xuelin.

He simply could not bear it anymore and stood up. "Chairman, do you really want me to tell the truth?"

Fang Xuelin narrowed his eyes. "Speak."

"Then I'll speak the truth. This game is indeed creative and uses advanced technology, but the graphics are inferior. It's easy for the game to get stuck, and the user experience is poor." Lin Dong did not plan to continue staying at Long Yue Technology, so, he told him everything he thought about the game.

"Chairman, to tell you the truth, this game is a waste if it falls in your hands."

The other higher-ups secretly wiped the sweat off Lin Dong.

This Lin Dong was really very stubborn. He had to refute Fang Xuelin at this time. Wasn't this infuriating Fang Xuelin?

Did Lin Dong not intend to keep his job?

The in-house game testing at Long Yue Technology was very popular. They had a salary of 110,000 a month, and this job was not very busy.

If it were them who gave up this job, they would not be willing to give it up.

Fang Xuelin held the pen in his hand tightly. His face was very gloomy, and it was obvious that he was angry.

"Continue," he said in a deep voice.

Lin Dong said without fear, "If there is a problem with the game, it might be a fatal blow."

"It will be updated in the future." Fang Xuelin was expressionless.

Lin Dong asked with a smile, "What if there's a problem before the update?"

"Lin Dong!" Fang Xuelin gritted his teeth.

A mere subordinate actually dared to humiliate a leader like him in front of so many people!

Lin Dong did not stop. "Besides, do you think that by playing this game with so many people, you can avoid the closed beta time? Some problems can not be seen in just three days, a week, or two weeks."

Fang Xuelin gritted his teeth and said, "Lin Dong, don't think that just because you have good abilities, you can contradict me as you please."

"Chairman, didn't you ask me to tell the truth?" Lin Dong said with a smile.

Lin Dong's outburst was not just because of today's matter.

Lin Dong was very talented and was extremely sensitive to the problems of the game. Before the game was released, many of the questions he raised were ignored by Fang Xuelin.

Later, after the game was released, the problems that Lin Dong mentioned did not appear for a short period of time.

Because of this, Fang Xuelin mocked him a lot.

Because of the good pay in this job, Lin Dong also wanted to settle down, so he had been swallowing his anger.

Today, he really did not want to endure it anymore.

"Scram!"

Fang Xuelin's face was livid with anger, and the pen in his hand was heavily thrown to the ground by him.

"It just so happens that I don't want to stay at Long Yue Technology for a long time."

After saying that, Lin Dong did not even take the documents on the conference table and directly left the conference room.

A high-ranking official advised, "Lin Dong's ability is strong. It wasn't easy for us to poach him over. Chairman, you..."

Fang Xuelin was disdainful. "Isn't he just a small employee? What's the big deal? There's no lack of geniuses in the world. I can hire a lot of people like Lin Dong."

Chapter 556: Fang Xuelin's Calculations

"That's true." The higher-up said something that went against his heart.

He still had one more worry that he did not dare to voice out. If Lin Dong went to a rival company, wouldn't that increase the strength of the rival company?

Fang Xuelin continued, "We fired Lin Dong, not Lin Dong resigning. On the dismissal notice, it's written that Lin Dong has repeatedly contradicted his boss, and the questions he raised have no basis at all. His ability and academic qualifications are not symmetrical."

He turned his head to ask his secretary, "Did you hear that?"

"Yes."

When the higher-ups heard Fang Xuelin's words, although they were objecting in their hearts, they did not dare to mention anything else.

They were worried that they would become the next Lin Dong.

Lin Dong's matter had come to an end.

Fang Xuelin began to arrange the rest of his work.

"The game will be closed beta the day after tomorrow. It will last for three days. We will start advertising tomorrow. Make sure that this advertisement is as popular as possible so that it can warm up the official release of our game. As for the funding issue, I will get my secretary to arrange a list. All you need to do is to use it within the budget of the funds."

"Qi Fang, you'll be in charge of contacting the internal beta's distribution platform. Chen Shi, you'll be in charge of advertising..."

After assigning the jobs one by one, Fang Xuelin asked, "Are there any more questions?"

Those higher-ups looked at each other, then shook their heads. "No more questions."

There were indeed still questions in their hearts, but because of Lin Dong's matter, Fang Xuelin was still angry.

If they said that they had questions, it was hard to guarantee that they would not be the next target.

These higher-ups did not dare to go up and touch Fang Xuelin's temper.

Fang Xuelin was an autocrat. Normally, he might not even listen to their opinions, let alone now.

They would not do such an arduous and unrewarding thing.

"Alright, that's it. Arrange it immediately. Don't waste time."

The meeting ended and Fang Xuelin returned to his office.

Sitting on his office chair, the corner of his lips curled into a mocking smile.

A mere Shengshi Technology dared to fight with him? They were still too young.

Fang Xuelin was very dissatisfied with Shengshi Technology taking Hong Yuan in and letting him become the general manager.

Wasn't this deliberately going against him?

Shengshi Technology even removed his connections in the closing ceremony later on.

Fang Xuelin had always wanted to teach Shengshi Technology a good lesson. When he found out that Shengshi Technology was developing an all-intelligent mobile game, he was also very interested in this mobile game. Thus, he made a move on Shengshi Technology.

At first, he encountered all kinds of setbacks, but in the end, the Du Kaifeng that he sent over found Liu Cheng.

Liu Cheng did not hesitate for long and agreed to help Du Kaifeng steal Shengshi Technology's all-intelligent game.

Everything went exceptionally smoothly.

Liu Cheng did not hide anything and gave all the information related to the all-intelligent mobile game to Du Kaifeng, all the way to the compressed program code at the back.

With these, Long Yue Technology's research and development went very smoothly, and the time it took was also very short.

Fang Xuelin wanted to pre-release the game and seize the market first.

Perhaps he could also label Shengshi Technology as a plagiarist.

In this way, Shengshi Technology would have a hard time turning things around.

Fang Xuelin's little plan was very effective, but he did not know that Liu Cheng was sent by Shengshi Technology. The information he obtained was all processed by Qin Sheng, and some virus codes had been implanted in it.

If he followed the instructions in the game, there would also be viruses in the game. As long as Qin Sheng activated it, Long Yue Technology would be finished.

The more the game was promoted, the more damage Long Yue Technology would suffer.

Fang Xuelin did not know that he had fallen into Qin Sheng's trap a long time ago, and he was still feeling smug.

Chapter 557: Defected To Shengshi Technology

Over here.

Lin Dong left Long Yue Technology.

He was actually at a loss for a moment. If he left Long Yue Technology, where else could he go?

Lin Dong could imagine that Fang Xuelin would definitely fire him, and the reason given would definitely affect his job search later on. Even if those companies accepted him, they probably wouldn't give him many heavy responsibilities.

Lin Dong was very capable and was a top student at Imperial Capital University.

It wasn't that he couldn't find a job, but after the incident with Long Yue Technology, he wasn't too concerned about the salary. Right now, he only wanted to find a company that he could stay at comfortably and also develop games.

But very few companies could do this.

Shengshi Technology appeared in Lin Dong's mind.

This game was stolen by Fang Xuelin from Shengshi Technology.

To be able to develop such an all-intelligent mobile game, the abilities of the employees and bosses must be pretty good.

Lin Dong had some thoughts.

Maybe he could give it a try?

After returning, Lin Dong looked up Shengshi Technology's recruitment information online. He frowned and then called a friend of his.

His friend was in Shengshi Technology.

He asked about the situation.

He was even firmer in his thoughts.

Lin Dong made up his mind and went to Shengshi Technology the next day.

He explained his reason for coming and did not hide the fact that he had just resigned from Long Yue Technology.

Hong Yuan raised his eyebrows and asked, "Oh? I heard that Long Yue Technology's game testing job has a monthly salary of 110,000 yuan. With such good treatment, why did you leave?"

"Because I don't want to be wronged." Lin Dong didn't hide anything. "Fang Xuelin rarely accepts my suggestions, and he even sneers at me from time to time. I don't care about such a job, no matter how good the treatment is."

Hong Yuan held a cup of coffee in his hand and asked casually, "How can I trust you? How can I be sure that you're not a spy sent over by Long Yue Technology?"

"Long Yue Technology stole your game, and Long Yue produced an all-intelligent mobile game as well. The game will be in closed beta the day after tomorrow, and the game will be released after three days of closed beta. I think they want to release the game before you guys and seize the opportunity."

Lin Dong said the words that he had been hiding in his heart for a long time in one breath.

He learned that Long Yue Technology stole Shengshi Technology's game by chance.

That day, he had something to ask Fang Xuelin about, but the door to the chairman's office wasn't closed tightly.

They happened to be talking about Shengshi Technology, and also about stealing Shengshi Technology's all-intelligent mobile game.

Lin Dong thought that this matter had nothing to do with him, so he ignored it.

But he had never been able to forget this matter. He often struggled with whether or not to tell Shengshi Technology about this matter.

Today's incident also made him make up his mind to tell Hong Yuan about Fang Xuelin stealing the game.

Hong Yuan raised his eyebrows. "Looks like you really want to come to our company and not be a spy."

However, Hong Yuan was still not at ease about letting Lin Dong stay in the company.

Lin Dong graduated from Imperial Capital University and had repeatedly won domestic awards.

Hong Yuan had to admit that Lin Dong was very capable. If it were anyone else, they would have immediately let Lin Dong enter the company.

However, Hong Yuan valued character more.

He really did not wish to meet someone as heartless as Du Kaifeng. That would be a hidden bomb for the company.

For example, if it were not for the fact that the employees of the company were all good people, they would have long been bribed by Fang Xuelin, and the data of the all-intelligent mobile game might have been stolen without his knowledge.

Therefore, Hong Yuan had to personally check on the selection of employees.

Chapter 558: Successfully Entering Shengshi Technology

Hong Yuan poured a cup of coffee for Lin Dong and placed it in front of him.

Lin Dong picked it up and took a sip. Then, his brows gradually furrowed.

Ten minutes had already passed, but Hong Yuan still had not said a single word.

Lin Dong could not figure out Hong Yuan's thoughts. So, did Hong Yuan agree to let him enter Shengshi Technology?

He could not help but ask, "Manager Hong, what do you think?"

Hong Yuan smiled. "Wait, there's no rush."

"Alright, I'll wait a little longer."

Lin Dong took another sip of coffee.

He was very nervous. Although his ability was not bad, he had learned from his friend that the people in Shengshi Technology, be it ordinary employees or some of their superiors, were all extremely capable.

Compared to him, they were not much different.

In addition, he had just come out from Long Yue Technology and was Shengshi Technology's sworn enemy.

Therefore, Lin Dong was worried that Hong Yuan would look down on him.

Another ten minutes passed. Hong Yuan's secretary walked in and nodded at him. "General Manager, I've found it."

"Okay."

Hong Yuan stood up and he nodded. "Mr. Lin, please wait a moment."

He walked out of the reception room.

The secretary handed a document to Hong Yuan. "General Manager, this is all the information I've found on Lin Dong. I've taken a look at it, and there's nothing wrong with Lin Dong's information."

Hong Yuan flipped through the document.

It showed all the information on Lin Dong since high school and university.

Hong Yuan flipped through the pages. He could tell that Lin Dong was not a sinister and cunning person. On the contrary, he had a sense of justice.

However, because of his sense of justice, he was schemed against by his best friend.

He had developed a character that learned to endure.

Clearly, other than that, his nature had not changed at all.

Hong Yuan was relieved. He put away the documents.

Then, he returned them to his secretary.

“It would be a pity to miss such a talent.”

Hong Yuan returned to the reception room. Lin Dong hurriedly stood up. “Manager Hong.”

Hong Yuan smiled and extended his hand. “Lin Dong, welcome to our Shengshi Technology.”

Lin Dong was stunned.

Did Hong Yuan agree to let him join the company?

When he reacted, Lin Dong hurriedly shook his hand.

“General Manager.”

Lin Dong adapted very quickly. After knowing that he could become a member of Shengshi Technology, he changed the way he addressed Hong Yuan.

Hong Yuan let go of his hand and patted Lin Dong’s shoulder. “Your ability is not bad. I hope that you can develop very well in the company. Don’t worry, our company won’t treat you unfairly.”

“Okay, thank you, General Manager.”

Lin Dong heaved a sigh of relief, and joy slowly surfaced in his heart.

Hong Yuan turned to the secretary and said, “Bring Lin Dong to familiarize himself with the company.”

Then, his gaze fell on Lin Dong again. “Lin Dong, the work given to you is still the testing work of the game. However, we don’t have much testing work for this game at the moment. You may need to be busy with other work. How about it?”

Lin Dong didn’t care about how much work he had.

On the contrary, more work could make his life more fulfilling.

Lin Dong nodded and agreed. “General Manager, I’ll follow your arrangements.”

“Okay.”

Hong Yuan nodded in satisfaction. Then, he said to his secretary, "Bring him over."

Thus, the secretary brought Lin Dong around the company briefly and introduced Lin Dong to the other employees.

Lin Dong saw the working atmosphere of Shengshi Technology and was very glad that he decided to enter Shengshi Technology.

The working atmosphere was very strong inside.

Chapter 559: Blacklist

Lin Dong felt that the staff didn't seem to be forced to work, but rather, they were working voluntarily.

They were very serious when they worked.

But they were very happy when they talked, and there were no other employees infighting.

When Lin Dong was in the pantry, he saw many employees gathered together, talking and laughing, but sometimes they would also fight.

They were not talking about other issues, but about the game.

This kind of atmosphere was exactly what Lin Dong liked.

Lin Dong was really glad that he had left Long Yue Technology early, and he was also glad that he had chosen Shengshi Technology.

—

General Manager's Office.

Hong Yuan called Su Yixiu in. His cell phone number was still on Qin Sheng's blacklist, so he could only use Su Yixiu's cell phone to call Qin Sheng.

Obviously, Hong Yuan often asked Su Yixiu to borrow his cell phone.

"Yixiu."

Just as Hong Yuan said these three words, Su Yixiu knew what Hong Yuan wanted. He took out his cell phone and gave it to Hong Yuan.

Seeing this, Hong Yuan coughed, and his face was a little red.

He had been borrowing Su Yixiu's cell phone every day, and it was also awkward. However, there was nothing he could do about it.

Who asked Qin Sheng to blacklist him?

He insisted on it, but he couldn't persuade Qin Sheng to let him out.

Her answer back then seemed to be, uh... if there was anything, he could borrow the employee's phone to contact her. She would wait until the end of the summer vacation before pulling Hong Yuan out of the blacklist.

Hong Yuan was quite helpless, and he had figured out Qin Sheng's thoughts.

Qin Sheng was afraid of trouble. She was worried that during the summer vacation, he would often call to look for her.

Qin Sheng would hide whenever she could.

Hong Yuan called Qin Sheng.

"Boss." He smiled ingratiatingly.

"Yes." Qin Sheng asked faintly, "What's the matter?"

"Boss, Long Yue Technology has an employee who moved to our company. I learned from him that Fang Xuelin will launch the game the day after tomorrow. Moreover, it will be officially launched after three days of closed beta testing," Hong Yuan reported.

Qin Sheng was sitting at her desk, casually flipping through pages of medical books.

As she listened to Hong Yuan, Qin Sheng's reading speed did not slow down.

She did a good job of multitasking.

"Boss, what are we going to do next?" Hong Yuan asked.

Qin Sheng stopped flipping through the medical books. Then, she smiled and said, "Don't worry about him. We will follow the original plan. Tomorrow, we will spend money to let a group of people try out the game. One week later, it will be officially released."

Qin Sheng was very confident in this game.

They had experimented with it many times. This game basically didn't need any internal testing anymore.

But to be on the safe side, Qin Sheng still asked Hong Yuan to arrange for a group of professional players to carry out the test.

Naturally, this would cost a lot of money.

But Qin Sheng was a person who didn't lack money, so she didn't have to worry about money.

Hong Yuan's heart also calmed down. He trusted Qin Sheng.

He nodded and replied, "Okay."

After hanging up the phone, Qin Sheng put her phone to the side carelessly.

Fang Xuelin was not a good person, but he would resort to unorthodox methods. Qin Sheng did not care about those.

She took out another medical book to read.

After the holidays, Qin Sheng's life was very monotonous and regular.

She would sometimes go for a run with Fu Hanchuan in the morning. She would often sit in the living room with Fu Hanchuan. Even if the two of them did not talk, they did not feel awkward at all.

Other than that, Qin Sheng would read books and play on her phone, or go to Black Emperor to compete with Fu Hanchuan.

She would never go to the company unless she had something to do.

Chapter 560: The Credit of Qin Sheng

Since the end of the college entrance examination, the number of times Qin Sheng went to the company could be counted on one hand.

Qin Sheng looked at the time. It was already 5 o'clock.

She went downstairs.

Fu Hanchuan was still cooking in the kitchen.

Qin Sheng looked at Fu Hanchuan's back and her heart beat faster.

She frowned and looked away.

—

Hong Yuan followed Qin Sheng's instructions and found a thousand people to play the game.

He also let Lin Dong take a look.

Lin Dong looked at the computer screen. There was a game video playing on it. Lin Dong frowned slightly.

He continued to read.

Twenty minutes later.

"How is it?" Hong Yuan asked.

Lin Dong told him his real thoughts. "This game is not bad. It's good in all aspects. The special effects, characters, scenes, and other aspects are perfect to the extreme. I really can't find any mistakes. Our company's game is far superior to Long Yue Technology's."

Lin Dong was also amazed in his heart.

He thought that his talent in games was very high, and he could see the problems in the game at a glance.

Even the most popular game on the market now had many problems.

But this one...!

He couldn't find any flaws in it.

No wonder they could develop an all-intelligent game.

This kind of company was naturally not simple.

“Lin Dong, in Shengshi Technology, you don’t have to say anything against your will just to please your boss.” Hong Yuan frowned.

Lin Dong smiled and said, “I really can’t find any flaws.”

Hong Yuan’s brows relaxed. “That’s good.”

Hong Yuan was worried that Lin Dong would be afraid of Long Yue Technology and not dare to tell the truth.

Hong Yuan was not afraid of criticism. He was just worried that he would not find anything wrong.

Lin Dong hesitated for a moment before asking, “General Manager, I want to know who developed this game.”

Hong Yuan did not hide anything. “Our boss developed the ideas and most of the important programs in the all-intelligent mobile game by herself.”

“When will she come over?” Lin Dong pressed.

Lin Dong really wanted to get to know Qin Sheng. This was the first time he had seen someone develop an all-intelligent mobile game on their own.

The development of the all-intelligent mobile game could be said to be a cross-generational development in the game world.

The top game companies were all trying to develop all-intelligent games, but after so many years, there was still no movement.

Instead, it was completed in a company that had just been established not long ago?

Then their boss must be a very powerful figure.

Hearing Lin Dong ask when Qin Sheng would come to the company, Hong Yuan sneered, and his tone was full of resentment. “Her? You’d better not count on it.”

“Why?” Lin Dong frowned and asked.

Hong Yuan’s gaze was dim. “She’s afraid of trouble. Regarding the company’s matters, she will hide if she can. She’s afraid that we’ll go and look for her, and even blacklisted my cell phone number.”

Lin Dong: “...”

Was this real?

Lin Dong didn’t dare to believe that Qin Sheng would be a hands-off manager.

A person who could develop an all-intelligent mobile game on her own, would she dislike trouble?

Hong Yuan’s tone was very resentful. “The company has been established for almost five months. The total number of times she’s come to the company is less than ten times.”

Lin Dong: "..."

This hands-off manager was really thorough.

Lin Dong didn't ask anything else.

Hong Yuan returned to his office, and Lin Dong returned to his seat. He took out his phone and turned it on, starting the game.
