

## Bigshot 591

### Chapter 591: Ye Yutong Pleaded For Mercy

The shop assistant's face turned pale and she kept quiet.

Manager Li ignored the shop assistant.

When he faced Qin Sheng, his attitude was very respectful. "You're Miss Qin?"

Qin Sheng replied, "I'm Qin Sheng."

"Hello, Miss Qin. I'm the store manager of the shop." Manager Li's attitude was very respectful. "I'm sorry. It's my fault for not disciplining them properly. I let the shop assistant offend you. I'll definitely handle this matter properly."

Qin Sheng wasn't unreasonable. Moreover, this was a shop under Fu Hanchuan's name.

She didn't want to cause too much trouble.

However, Qin Sheng wasn't some saint. She wouldn't let go of people who offended her easily.

Qin Sheng nodded. "I hope you can handle some people."

"Okay." Manager Li heaved a sigh of relief. "I'll definitely make you satisfied."

Now, no matter how stupid the store assistant was, she knew that she had already provoked someone she shouldn't have provoked.

Her face was extremely pale.

This job was extremely good. The salary was high, and there was a lot of commission in a month.

1

She didn't want to lose it.

She quickly lowered her head and begged Qin Sheng for mercy, "I'm sorry, Miss. It's my fault. I was blind. You can tell the store manager to forgive me. I'm divorced and I still have a son living with me. I can't lose this job. Please take pity on me."

Qin Sheng's gaze was indifferent as she ignored her.

She had no need to sympathize with unimportant people.

Whether she sympathized or not had nothing to do with her.

Mother Lu could not help but nod her head in satisfaction when she saw that Qin Sheng's eyes were not moved at all.

She hated people who easily forgave someone who had offended others the most.

If Qin Sheng really forgave her, her impression of Qin Sheng would be greatly reduced.

Ye Yutong looked at the shop assistant and hesitated for a moment before saying, "Qin Sheng, why don't you let her go? It's not easy for divorced women. This job is her livelihood. If she were to lose it, she would be very sad."

"Yes, yes, yes." The shop assistant nodded repeatedly.

Her eyes turned red. "Miss, you are so beautiful. You must be very kind. I think you won't take my small actions to heart."

Qin Sheng was very tall. She looked down at the shop assistant.

Her red lips parted slightly. "I'm sorry, I'm not kind."

Mother Lu frowned. Did that shop assistant want to morally kidnap her?

Mother Lu didn't want to see this shop assistant anymore. She urged, "Deal with her."

"Yes," Manager Li agreed. "You can go."

The shop assistant was stunned. She didn't expect Manager Li to be so merciless. She was completely flustered.

"Manager, let me go. Other than being fired, I'll do anything you want me to do."

Manager Li was impatient. "Security, take her away."

The security chased the shop assistant out.

The shop assistant wanted to come in again, but unfortunately, the security guard was standing at the entrance of the clothing store. She had no choice but to beg for mercy outside.

The security guard warned, "If you affect the business of the store, don't blame me for calling the police."

The shop assistant shut her mouth.

Fu Shihan looked at everything that had happened in disbelief.

Why was there a sudden reversal?

Qin Sheng was perfectly fine while the shop assistant was fired.

She frowned. She could not understand why Qin Sheng would make a shop manager treat her with respect.

Ye Yutong had thought it through.

Could this shop manager be related to HD Group? Fu Hanchuan was the manager of HD Group.

Then everything could be explained clearly.

It was Qin Sheng, who was protected by Fu Hanchuan.

Qin Sheng had just sent a message to Fu Hanchuan asking for his help.

Ye Yutong clenched her fists tightly. Her sharp nails once again pierced into her palms. She did not feel any pain.

Her heart was filled with jealousy and her expression was a little malevolent.

### **Chapter 592: Men Love the New and Hate the Old**

Even so, Fu Shihan was still unwilling to let Qin Sheng go. She stepped forward and said, "Manager."

Fu Shihan was a regular customer of the store, so Manager Li naturally recognized Fu Shihan.

However, Fu Shihan had offended Qin Sheng, so Manager Li didn't give Fu Shihan a good look.

"What's the matter?" Manager Li frowned and asked.

"Kick Qin Sheng out, or else I won't come to your store. You're not the only high-end clothing brand in H City."

Fu Shihan's spending in the shop was several million a month.

She thought that she could threaten the manager.

Who knew...

Manager Li said disapprovingly, "That's up to you."

"You!" Fu Shihan was so angry that her face turned green.

She was a big customer who spent several million a month. Shouldn't Manager Li be nervous when he heard that she wouldn't come to the shop?

Why did he say that so casually?

Fu Shihan felt that store Manager Li probably didn't know about her spending.

Thinking of this, Fu Shihan reminded, "Store manager, I'm a VIP customer in the store. My monthly spending is no less than two million."

"So what if you spend a lot?" Manager Li glanced at her.

Fu Shihan's face stiffened. She thought that her reminder was very obvious.

Manager Li was still trying to ruin her reputation.

Then, Manager Li continued mercilessly, "Miss, you are slandering my customers indiscriminately and making a racket in public. I'm sorry, but our store can't tolerate you anymore."

"You want me to leave? I'm a VIP customer in your store!" Fu Shihan widened her eyes in disbelief.

Manager Li smiled and said, "There are at least a thousand VIP customers in our store. There are also hundreds of people like you who spend millions of dollars. We really don't care about your money."

Fu Shihan had rarely suffered such grievances.

First, it was Manager Lu, and now it was a small store manager.

Fu Shihan gritted her teeth and said, "Okay, then I won't come to your store in the future."

Fu Shihan regretted what she said after she said that.

This clothing store was owned by HD Group and could already be compared to many big brands.

Most of the clothes inside looked very noble and beautiful.

Fu Shihan liked this store very much.

When she wore these clothes, many people would be envious of her.

Manager Li said plainly, "Do as you wish."

Fu Shihan was so angry that she stomped her feet. "Sister Tong, let's go."

Ye Yutong did not leave immediately. Instead, she tried to persuade Qin Sheng.

Her voice was gentle, "Qin Sheng, sometimes, you have to forgive those that should be forgiven. Otherwise, you will offend a lot of people. Qin Sheng, it is not good to rely on men. After all, men are unreliable and tend to dislike the old."

Ye Yutong deliberately looked at Mother Lu.

She was saying that Qin Sheng was not sensible.

Mother Lu rolled her eyes when she heard that.

Fortunately, Fu Hanchuan did not like Ye Yutong. Otherwise, a woman like her would definitely cause trouble in the family if she married into the family.

Qin Sheng narrowed his eyes and replied, "Ye Yutong, you don't have to worry about that. Brother Fu is not such a person."

Qin Sheng now completely understood.

Ye Yutong liked Fu Hanchuan.

And she also realized that she was abnormal. She was especially concerned about Ye Yutong and did not like her very much.

Qin Sheng's hand covered her heart, and it was beating very fast.

Could it be that she had fallen in love with Fu Hanchuan?

Qin Sheng's beautiful eyebrows furrowed.

She had never thought about marrying anyone. She even thought that it would be good to live alone.

But this person, if Fu Hanchuan...

She didn't mind.

**Chapter 593: Give Me the Clothes**

Ye Yutong sneered. "Then I'll wait and see."

Her eyes were dark. Sooner or later, she would snatch Fu Hanchuan back.

"Han'er, let's go."

"Okay."

Ye Yutong and Fu Shihan walked towards the door.

The stone that Manager Li had been holding in his heart finally fell.

He said respectfully, "Miss Qin, are you satisfied with the result?"

"I'm fine." Qin Sheng nodded.

"Miss Qin, as compensation, everything in the shop is free for you today," Manager Li said generously.

HD Group was rich and powerful. This little money was nothing to HD Group.

Manager Li could also see that Qin Sheng had a deep relationship with his president. If he fawned on Qin Sheng, he would be rewarded in the future.

"Oh, right."

Manager Li slapped his head and almost forgot about this matter.

He pointed at the set of clothes and said, "Miss Qin, look. Do you like this set of clothes? This is what my president instructed me to give you."

Fu Shihan frowned. She hadn't gone far yet.

When she heard Manager Li's words, she turned around.

Manager Li was indeed talking about the set of clothes.

Fu Shihan had fallen in love with the dress the moment she saw it.

However, the shop assistant had said that it was the most precious treasure of the shop and that she could not buy it no matter what.

She could only give up.

She did not expect that Manager Li would actually say that he was giving it to Qin Sheng.

Fu Shihan broke free from Ye Yutong's hand and rushed back to the shop.

"Shihan."

Ye Yutong quickly chased after her.

Fu Shihan questioned, "Didn't you say that this dress is not for sale to anyone?"

Manager Li replied very politely, "Indeed, it's not for sale, so I'm giving it to Miss Qin."

"I'll spend ten million. Give it to me, I'll buy it!"

Fu Shihan tossed out her bank card.

This was all the money she had on hand.

Manager Li didn't give in. "It's not for sale."

Fu Shihan really liked that set of clothes. She was really unwilling to give up on this set of clothes. It would only ruin this set of clothes for a woman like Qin Sheng.

She knew that Manager Li wouldn't sell the dress to her.

Fu Shihan could only turn her attention to Qin Sheng.

She said arrogantly, "Qin Sheng, if you give this dress to me, I will forgive you for what happened today."

Qin Sheng ignored Fu Shihan.

She asked, "Manager, who designed this?"

"Our president designed it himself," the store manager replied.

Fu Hanchuan had designed this set of clothes before he met Qin Sheng. It had been hanging in the store the whole time.

Qin Sheng was looking at the clothes very seriously.

Mother Lu was very puzzled. "Sheng Sheng, is there anything strange about this?"

"Nothing." Qin Sheng shook her head.

Qin Sheng remembered that in her previous life, she seemed to have seen the design of this set of clothes at Fu Hanchuan's place. It was exactly the same.

It was just that the time was a few years later, and the handwriting looked very new.

It didn't look like it had been there for a few years.

But now, the time had been brought forward by three years.

Fu Hanchuan often dreamed about the things in his past life, and Qin Sheng was also very clear about it.

She frowned.

Could it be that Fu Hanchuan had specially designed this for her?

Qin Sheng put down the clothes and said to the store manager, "Wrap it up."

"Sigh, okay, right away." Manager Li immediately ordered the set of clothes in the store to be wrapped up.

Then, he asked again, "Miss Qin, do you need anything else?"

Mother Lu also said, "Yes, Sheng Sheng, let's go shopping. Don't be affected by some ignorant people."

Mother Lu's gaze fell on Fu Shihan. "Aren't you leaving yet? Who said that she wouldn't come to the store in the future? This Miss Fu, why did you go back on your words?"

#### **Chapter 594: More Than 20 Sets of Clothes, Shua!**

Fu Shihan's expression was also extremely awkward.

She glared at Mother Lu. "Our Fu family is Brother Hanchuan's family. The Lu family is nothing."

Mother Lu was speechless.

This daughter of the Fu family, why was she so brainless?

Fu Shihan also noticed the president that Manager Li mentioned. The president of the HD Group would actually personally give the clothes he designed to Qin Sheng.

Could it be that Qin Sheng had also hooked up with the president of the HD Group?

Fu Shihan secretly despised her. As expected of a vixen.

Fu Shihan felt that one day, when she saw Fu Hanchuan, she would definitely tell Fu Hanchuan about this.

As she thought about it, a smug smile appeared on the corner of Fu Shihan's lips.

She seemed to have already imagined how Qin Sheng would be abandoned by Fu Hanchuan.

Qin Sheng looked at the store manager and said, "Chase her away."

She was naturally referring to Fu Shihan.

The store manager understood and ordered the security guard standing at the side, "Take her out."

"I'll leave by myself," Fu Shihan said very stubbornly.

Before she left, she said in an ambiguous manner, "Qin Sheng, just wait for Brother Hanchuan to abandon you."

Fu Shihan took Ye Yutong's arm and left.

Ye Yutong frowned.

She heard the word 'president' and a thought came to her mind.

Could it be that Fu Hanchuan was the president of the HD Group?

But she quickly suppressed this thought.

HD Group was very famous in the country and the world. Very few people dared to offend them.

Fu Hanchuan was only twenty-three years old now. No matter how powerful he was, he would not be able to reach the position of president of the HD Group.

However, Fu Hanchuan was already outstanding enough to become the manager of the HD Group.

Ye Yutong's heart could not help but beat faster.

Fu Shihan said confidently, "Sister Yutong, don't worry. Brother Hanchuan will definitely marry you in the future."

"Okay."

Ye Yutong's hand that was hanging by her side slowly tightened.

Fu Hanchuan must be hers.

—

In the clothing store.

Mother Lu was pulling Qin Sheng into buying mode.

In the blink of an eye, the clothes in the shop assistant's hands could no longer be increased.

Qin Sheng felt a headache coming on. "Auntie, there are already a lot. Do you still want to pick?"

"Not much."

As she said that, Mother Lu looked at the clothes in the shop assistant's hands. There were probably more than twenty sets of clothes.

Er... there was indeed a lot.

Mother Lu's expression was a little awkward.

She coughed lightly. "I've chosen too much."

She mainly felt that Qin Sheng looked good in everything, so she couldn't stop choosing.

Mother Lu couldn't wait to move the entire shop back.

She reluctantly put down the set of clothes in her hands. "That's all."

"The bill."

Manager Li, who was waiting at the side, hurriedly said, "This set of clothes is given to you by the store. There's no need to pay."

Mother Lu didn't know Fu Hanchuan's identity very well before.

But she wasn't stupid.

She had already guessed from Manager Li and Qin Sheng's conversation that Fu Hanchuan was probably the president of the HD Group.

Since that was the case, it was even more impossible for her not to pay.

Mother Lu took out her bank card. "Let's settle the bill."

Manager Li was helpless and could only settle the bill for her. However, he only took half of the price.

If it was too little, Mother Lu would probably notice.

“5 million.”

Mother Lu did not feel the slightest bit of heartache. Shua!

Under Fu Hanchuan’s brainwashing, Qin Sheng also felt that 5 million was not much. She could not reject Mother Lu’s good intentions.

After putting the clothes on the car, Mother Lu did not go back immediately. She took Qin Sheng shopping for shoes and jewelry on the street.

### **Chapter 595: Emptiness and Loneliness**

It was nearly 12:30 pm when they returned to Fu Garden.

Fu Hanchuan had already prepared lunch early. He sat in the living room and waited for Qin Sheng to return.

In just half an hour, he had already looked at his watch more than a dozen times.

Fu Hanchuan pressed between his eyebrows.

Sure enough, his aunt would not let Qin Sheng return so early.

When Fu Hanchuan was looking at his watch for the fifteenth time, there was finally some movement from the door.

Fu Hanchuan stood up and walked over.

Mother Lu was carrying more than ten shopping bags, and Qin Sheng was also carrying quite a lot.

Fu Hanchuan walked past Mother Lu and took the shopping bags from Qin Sheng. He said with a heartache, “Sheng Sheng, let me help you carry them next time.”

Mother Lu clicked her tongue and shook her head. “Hanchuan, you didn’t help me carry them, but went to help Sheng Sheng carry them. After all, I’m your elder. Does the difference have to be so obvious?”

Fu Hanchuan glanced at her but didn’t say anything.

It was obvious that his eyes were filled with blame.

After Fu Hanchuan put the shopping bag into the living room, he pulled out a few tissues to wipe Qin Sheng’s sweat.

Mother Lu watched as Fu Hanchuan busied himself.

She felt extremely uncomfortable.

Fu Hanchuan was obviously raising Qin Sheng as his little wife.

When she thought about how Fu Hanchuan had set his eyes on Qin Sheng when she was only eighteen, Mother Lu felt very upset.

Fu Hanchuan made lunch and Mother Lu stayed to eat.

In the next few days, Mother Lu came to find Qin Sheng for various reasons and abducted her.

Fu Hanchuan had a headache.

But he was also very helpless and could only run to the company every day.

It was rare for Assistant Lin to see Fu Hanchuan come to the company so diligently.

After Qin Sheng moved into Fu Garden, Fu Hanchuan came to the company pitifully few times.

These days were very unusual.

Moreover, Fu Hanchuan was especially strict with his subordinates' work.

Assistant Lin only understood after he found out that Mother Lu brought Qin Sheng out every day.

It turned out that it was because the president was alone at home and lonely, so he ran to the company every day.

—

One week later.

Mother Lu and Father Lu had to return overseas to deal with the company's matters.

Before they left, she held onto Qin Sheng, reluctant to part with her.

"Sheng Sheng, don't forget Auntie."

"Oh right, remember to wear the clothes I bought for you. Wear one set a day and throw it away. If it's not enough, Auntie will buy it overseas and send it back to you. So don't be afraid that you won't have any clothes to wear. You don't have to be polite."

Mother Lu had been taking Qin Sheng out every day for the past week.

She had already bought no less than fifty sets of clothes.

Afraid that Qin Sheng would be together with Fu Hanchuan early, Mother Lu warned again, "Sheng Sheng, be careful. Don't fall in love too early. Remember to be wary of those who harbor ill intentions."

Mother Lu even deliberately looked at Fu Hanchuan.

1

As Fu Hanchuan listened, the veins on his forehead were throbbing.

Lu Ming leaned over. "Mom, don't you have anything to remind me of?"

Mother Lu said in disdain, "You're already an 18-year-old brat. Do you need someone else to remind you?"

Mother Lu didn't even look at Lu Ming anymore. She pulled Qin Sheng back to talk.

With that said, 20 minutes passed.

When Father Lu saw that it was almost time, he urged, "Let's go to the airport."

Mother Lu and Father Lu left.

Qin Sheng was reluctant to part, but she heaved a sigh of relief.

These days were really too tiring.

She would immediately fall asleep on the bed once she lay down.

Qin Sheng was most afraid of trouble. Compared to playing outside, she preferred to stay at home.

Fu Hanchuan felt slightly relieved.

Fu Hanchuan and Qin Sheng did not stay at the Lu Residence for long. They returned to Fu Garden.

### **Chapter 596: Was About To Begin**

Another week passed.

Three Realms had a million downloads on their own platform.

These gamers didn't believe that Three Realms had plagiarized.

As for the internet trolls on Weibo, they were making a lot of noise.

Many spectators who didn't know the truth were saying that Shengshi Technology had plagiarized Long Yue Technology.

They were making a big fuss.

Shengshi Technology was pushed to the forefront.

Fang Xuelin was very proud. He thought that Shengshi Technology must be sweating profusely right now, and was in a hurry to find a way to deal with it.

However, Shengshi Technology's internal situation was different.

They were currently developing a new game. This game also used all-intelligent technology. However, the content was not as huge as Three Realms.

They were not as anxious as Fang Xuelin had imagined.

As for the behind-the-scenes boss of Shengshi Corporation, Qin Sheng was even more at ease.

All she did every day was go for a run with Hanchuan in the morning, read books, and compete with Fu Hanchuan on Black Emperor. It was very relaxing.

On this day, three weeks had passed since the game was released.

The water army that Fang Xuelin had hired was still jumping around.

Thinking about it, Fang Xuelin had already spent 30 million just to hire spammers.

Shengshi Technology's plagiarism incident was getting more and more intense.

It was already starting to get out of control.

Hong Yuan couldn't help but take Su Yixiu's phone and call Qin Sheng.

He asked carefully, "Boss, it's already been three weeks. When are you going to start dealing with Long Yue Technology?"

Qin Sheng's brows were tightly knitted.

She was very surprised. "So Soon?"

Hong Yuan was stunned. He asked in disbelief, "Boss, did you forget that you're going to counterattack Long Yue Technology this week?"

Qin Sheng's expression was very uncomfortable.

Could she say that she had indeed forgotten?

Even on Weibo, when she saw Long Yue Technology's trending searches, she would swipe through them and not click on it.

Qin Sheng was too embarrassed to say that she had indeed forgotten about this matter.

She coughed lightly. "I haven't forgotten."

"That's good." Hong Yuan heaved a sigh of relief.

Qin Sheng's fingertips tapped lightly on the table, and her red lips parted. "It's time to make a move."

Hong Yuan was excited.

He had endured Long Yue Technology for a very long time, and he had long wanted to make a move against them.

However, Long Yue Technology was, after all, a veteran gaming company that had developed for more than ten years. Without Qin Sheng's instructions, he did not dare to make a move rashly.

Qin Sheng said again, "I will personally arrange the details. Uncle Hong, if there's anything that you need to do, I will contact you."

"Okay."

However, Hong Yuan thought of another place and asked very carefully, "Then Boss, shouldn't you take my phone number out from the blacklist? This will also be convenient to contact."

Qin Sheng thought for a while.

She didn't relent. "I'll send the mission to your email. There's no need for anything else."

"Boss—"

Hong Yuan wanted to say something else, but his phone rang with a busy tone.

Hong Yuan: "..."

His gaze was filled with extreme resentment.

He was in charge of Shengshi Technology. But when he contacted Qin Sheng, he could only use his subordinate's phone number.

She blacklisted him.

Qin Sheng was worried that he would go over and disturb her.

Such a hands-off manager, he actually bumped into one. However, no matter how much he resented, he was willing to work for the company.

After hanging up the phone, Qin Sheng turned on the computer.

Her fair and slender fingers lingered on the computer keyboard.

Her beautiful brows furrowed.

After a long while, she finally started typing on the computer keyboard.

### **Chapter 597: Shengshi Technology Could Not Be Kept**

Soon, a page was filled up.

Qin Sheng slightly modified it and sent it to Hong Yuan's email.

Hong Yuan knew that Qin Sheng was very fast.

So he had been waiting for Qin Sheng for a long time.

Ding.

The email notification sounded.

Hong Yuan opened it and looked at it.

He quickly browsed through the content on it, and then he started to get excited.

"Come in," Hong Yuan shouted toward the door, and his secretary walked in.

Hong Yuan instructed, "Invite the water army to create momentum on Weibo. Let them say that they are the players of the Three Realms. They all think that Long Yue Technology copied us."

The secretary nodded. "Yes."

Then, he asked in puzzlement, "General Manager, are you going to take action against Long Yue Technology?"

Hong Yuan's face was full of excitement. "Yes. With Boss personally taking action, Long Yue Technology probably won't be able to live for long."

The secretary followed Hong Yuan's instructions.

Fang Xuelin had invited a lot of water armies, and they had been guiding the trend online.

At this moment, Shengshi Technology's water armies joined in.

The two water armies had their own opinions.

One side said that Long Yue Technology was the original creation of an all-intelligent game, while Shengshi Technology secretly sent people to infiltrate Long Yue Technology and steal the game.

On the other hand, the water army on Shengshi Technology's side said the exact opposite.

There were hundreds of thousands of players who downloaded Three Realms on their own platform, and they all joined the camp of helping Shengshi Technology.

Many onlookers were also watching the show.

For a time, Weibo was very lively.

The topic of which all-intelligent game was the real plagiarist quickly rose to the top of the trending searches.

Because Shengshi Technology's combat strength was stronger, no matter how many people were on Long Yue Technology's side, they were still at a disadvantage.

Du Kaifeng reported this matter to Fang Xuelin.

Fang Xuelin slowly picked up his coffee.

After listening to Du Kaifeng's report, he smiled disdainfully.

"Looks like this Shengshi Technology is desperate. However, how can it compare to our Long Yue Technology? A fledgling gaming company wants to compete with us?!"

Du Kaifeng also smiled and said, "They're just clowns. Let them jump around for a while. With your help, Chairman, they won't be able to jump up very quickly."

Du Kaifeng was very good with words.

Fang Xuelin looked at him with admiration. "Du Kaifeng, you're right. They're just clowns."

Du Kaifeng was excited. He said again, "It's because you're wise, insightful, and resourceful, Chairman. Otherwise, if this game was released by Shengshi Technology, I'm afraid they would have soared to the sky. Fortunately, Chairman, you cut off the signs."

"Yeah." Fang Xuelin nodded. "Shengshi Technology really can't be kept."

Shengshi Technology's ability was extremely high. Since they could invent an all-intelligent game, it was inevitable that they would create other games.

Just by looking at the two games released by Shengshi Technology and Long Yue Technology, it could be seen that Long Yue Technology's hundreds of employees could not compare to the dozens of people in Shengshi Technology.

If Shengshi Technology were to develop, it would undoubtedly be a great blow to him.

Therefore, Fang Xuelin would definitely not allow such a situation to happen.

Fang Xuelin put down his coffee heavily, his eyes dark. "Looks like I have to make a statement and post on Weibo."

"What Weibo?"

"Continue to label Shengshi Technology as plagiarists."

Fang Xuelin glanced at Du Kaifeng and waved his hand. "You can leave first."

"Yes." Du Kaifeng was very curious, but he still left.

Fang Xuelin did not like others disobeying him.

### **Chapter 598: Inviting the Water Army To Lead the Way**

After Du Kaifeng left, Fang Xuelin picked up his phone again.

He logged into the company's official blog.

He edited a message and sent it out.

[Long Yue Technology: As a thirteen-year-old gaming company, we would never plagiarize. Now, Shengshi Technology is inviting the water army to lead the way, saying that Three Realms Competition is plagiarized.]

[Then, I'm curious about two things. First, your company has only been established for less than five months, and you can already create an all-intelligent game? Second, as a gaming company that has been developing for more than a decade, why would we plagiarize a company that has just started? To be honest, before this incident broke out, we didn't even know who Shengshi Technology was.]

[Justice is in the hearts of the people, and we, Long Yue Technology, will defend our rights to the end!]

Ever since the introduction of the all-intelligent game, many people had been paying attention to Long Yue Technology.

After this Weibo post was posted, many neutral people began to stand on Long Yue Technology's side.

After all, to be able to create an all-intelligent game in four to five months was truly inconceivable.

They couldn't believe it.

Many of the spectators were led along by the rhythm.

The players of Three Realms all swarmed over.

They started to criticize under long Yue technology's Weibo.

[Bullsh\*t! They said that it was impossible for Shengshi Technology to launch an all-intelligent game just five months after its establishment? Just because you can't do it, doesn't mean that others can't do it! Don't forget that Three Realms has done ten times and a hundred times better than your company in all aspects. Aren't you an old company? Why can't you compare to a new company?]

[The second thing you're curious about, anyone with a discerning eye can see that Long Yue Technology hasn't released a blockbuster game for a long time. You guys are just anxious to copy Shengshi Technology's game. Doesn't the word 'all-intelligent' smell good?]

[Don't be hypocritical. If you didn't copy it, why did you only test it internally for three months? The game has a lot of bugs, so why didn't you wait until it was resolved before releasing it?]

[I know the reason above. Long Yue Technology is worried that they would launch the game later than Shengshi Technology and be accused of plagiarism. I'm afraid that they don't have any evidence, so they can only take the lead in terms of time.]

Shengshi Technology's water army didn't come in.

Only Long Yue Technology's water army was leading the pace, and there were many onlookers who were on Long Yue Technology's side.

Therefore, the comments of the players of Three Realms were all drowned out by the water army's comments.

There were also quite a number of people who were blacklisted by Long Yue Technology.

Fang Xuelin was very satisfied as he watched.

The corners of his lips curled up into a disdainful smile. It was still too tender to fight with him.

For the rest of the day, public opinion was one-sided and sided with Long Yue Technology.

They all thought that Shengshi Technology copied Long Yue Technology.

At this juncture...

Shengshi Technology also registered an official blog.

Hong Yuan posted a Weibo on it.

[Shengshi Technology: Our company has the ability to prove its innocence. Long Yue Technology, wait @Long Yue Technology]

Under the Weibo, Hong Yuan even put a link into the self-created platform to download Three Realms.

Without a doubt, there were quite a number of spammers and bystanders who came in to start a war.

[Dog plagiarizer, disgusting! Crawl for me!!]

[A powerful old-brand company plagiarizing a fledgling game company, who are you trying to fool?]

[Hehe, let's see what evidence you can come up with.]

[Stop white-washing. Go back to wash up and sleep. Your company is destined to go bankrupt. If your company launches a game in the future, if I play it, I'll be a dog. Shengshi Technology, forever blacklisted!]

**Chapter 599: The Same As the Game, Plagiarism!**

There were also quite a number of players who wanted to download the game and pick out some mistakes.

On this day, the number of players in the game quickly rose to three million.

The players who wanted to pick out the mistakes, after they played, they found that... There were no flaws.

It was still them who wanted to pick out the mistakes, but they had no way.

Instead, they were stuck in the game.

The players who were originally on Three Realms Competition had become loyal fans of Three Realms.

After they played Three Realms, they didn't want to play Three Realms Competition anymore.

They also thought that Three Realms Competition was the real version, but Three Realms Competition was like a pirated version.

1

What did it mean to be well-made?

This was it!

The game footage of Three Realms, as well as the special effects on clothes and equipment, was ahead of Three Realms Competition by dozens of streets!

These game players were confused when they thought about how they wholeheartedly supported Long Yue Technology and went to Shengshi Technology.

Were they spouting the wrong stuff?

These game players also fell down easily.

They instantly turned to Shengshi Technology and helped Shengshi Technology to spout Long Yue Technology wantonly.

Not long after.

Long Yue Technology threw out a patent certificate.

[Long Yue Technology: This all-intelligent game was first invented by our company. Three Realms is similar to the original Three Realms Competition game. We can think that Shengshi Technology copied our Long Yue Technology. We'll see you in court @Shengshi Technology]

After Fang Xuelin posted on Weibo, he was very pleased with himself.

He had already gotten the patent certificate.

Shengshi Technology did not get it in advance. Later, when they wanted to get it done, he used some tricks to get the patent office to send it back.

Everything was under his control.

He did not believe that Shengshi Technology could turn things around under such conditions.

Shengshi Technology could not defeat him.

This time, even if it did not go bankrupt, it would be greatly weakened.

Fang Xuelin called his secretary in.

“Chairman,” the secretary said respectfully.

Fang Xuelin instructed, “You can now prepare the documents and contract to purchase Shengshi Technology.”

Fang Xuelin indeed did not like Shengshi Technology, and he also saw it as a thorn in his side.

However, Fang Xuelin coveted Shengshi Technology’s technology and those employees.

To be able to develop such an all-intelligent game in less than five months, it was definitely not simple.

If he could get those employees to join him...

It would be a great help to Long Yue Technology.

Fang Xuelin’s little calculations rang out.

The secretary was very surprised. “Chairman, is Shengshi Technology going bankrupt?”

“No.” Fang Xuelin’s eyes darkened. “Not now, but it will soon.”

The corners of his lips curled up into a smile, very pleased with himself.

—

Shengshi Technology’s General Manager’s Office.

Hong Yuan also saw Long Yue Technology’s Weibo post, and he was stunned.

He didn’t expect Long Yue Technology to actually get a patent certificate!

What about their company?

Could it be that Qin Sheng didn’t manage it well?

But that was impossible. With Qin Sheng’s ability, it was impossible for something like this to go wrong.

Hong Yuan’s brows were tightly knitted, and he hurriedly called Qin Sheng.

He told her about this. “Boss, Long Yue Technology posted that they’ve already obtained the patent certificate and said that they’re going to sue us in court. This?”

Qin Sheng curled her lips. “That’s fake.”

Fu Hanchuan was reading a magazine. When Qin Sheng picked up the phone, he was looking at Qin Sheng.

He didn’t miss the craftiness in Qin Sheng’s eyes.

**Chapter 600: Server Was Being Controlled**

Fu Hanchuan smiled dotingly.

It seemed that his little girl was scheming against someone again.

Hong Yuan was stunned and couldn't believe it. "Fake?"

Qin Sheng raised her eyebrows and answered, "Yes, it's fake. I got someone to make a fake patent for him. As for the real one, it's in my hands."

"So, Uncle Hong, you don't have to worry."

Hong Yuan heaved a sigh of relief. At the same time, a wave of excitement rose in his heart.

It seemed that Fang Xuelin was completely defeated this time.

He thought that he could prove that Shengshi Technology had plagiarized Long Yue Technology, but he did not expect that even the patent certificate in his hands was fake.

Hong Yuan was looking forward to the look on Fang Xuelin's face when he found out the truth.

"Then Boss, when are you going to truly deal with Long Yue Technology?" Hong Yuan asked again.

He didn't forget that Qin Sheng had said that hiring the water army was just a warm-up.

Hong Yuan looked forward to Qin Sheng's counterattack.

"Tomorrow," Qin Sheng replied. "Call me if you need anything."

Finally, she added, "Don't call too often."

The smile on Hong Yuan's face froze.

He nodded sullenly. As he spoke, he gritted his teeth. "Okay, I'll look for Boss less often."

Qin Sheng naturally heard the resentment in Hong Yuan's words

She ignored him and directly hung up the phone.

Fu Hanchuan closed the magazine and asked, "Sheng Sheng, do you need my help?"

Before Qin Sheng looked over, he had already retracted his gaze.

He pretended that he had just finished reading the magazine.

Qin Sheng did not notice Fu Hanchuan's small actions. Otherwise, she would be letting her imagination run wild again.

Hearing that, Qin Sheng shook her head. "There's no need for that at the moment. Long Yue Technology isn't difficult to solve."

"Alright then. If you need me, just let me know," Fu Hanchuan said in a low voice.

Qin Sheng smiled. "Yeah. Last time, I gave Fang Xuelin a false testimony and misled him. Brother Fu, it's a good thing that you're here. The company doesn't have any connections yet, or else this matter wouldn't have gone so smoothly."

Fu Hanchuan didn't say that he didn't have much credit.

The corners of his lips curled into a dotting smile. "So, Sheng Sheng, if there's anything, remember to look for me, okay? Otherwise, I won't be of much use."

Fu Hanchuan felt that his little girl was too amazing.

It would be very difficult for him to make an impression in front of her.

"Okay," Qin Sheng answered very obediently.

At night, Qin Sheng went to bed at 9 o'clock.

The next morning, she got up early. She turned on the computer and her fingers rapidly moved on the computer keyboard.

Lines of code appeared on the computer screen.

Ten minutes later, she finally stopped.

She lazily sat on the computer chair and the corners of her lips curled up.

Her fair and slender fingers moved slightly and she pressed the enter key.

That morning, it was very quiet.

However, it caused Long Yue Technology to explode.

All the servers were being controlled!

And all of this happened unknowingly. Although Long Yue Technology had special people guarding it, they did not discover it immediately.

They only discovered it after waiting for a large number of players' feedback.

All the players who played games under Long Yue Technology's name had encountered all kinds of problems.

They had been playing well, but such a big bug had appeared.

Therefore, many players ran over to question Long Yue Technology.

Long Yue Technology's technical department was busy for a moment.

They were looking for a flaw.

After spending an hour, they realized that it was a problem with the server.

They wanted to fix it...

But they found that they couldn't control the server!
