

## Bigshot 611

### Chapter 611: Virus Implantation

Du Kaifeng immediately called Liu Cheng and questioned him.

At that time, Liu Cheng was very proud of himself.

“Manager Du, did you think that I would be easily bribed by you? I’m not you, so I can’t do such a wicked thing. I did this because of Boss’ instructions. You guys are also quite stupid, thinking that I would really give you the information.”

Du Kaifeng’s voice rose. “Did you guys tamper with the information on it?”

“Yes.” Qin Sheng had said that he didn’t need to hide those things, so Liu Cheng didn’t hide it, “Some of the code inside has viruses. Oh, right, the code that I gave you to compress the memory also has viruses.”

Du Kaifeng was so angry that his face turned green. A thought vaguely rose in his mind.

He clenched his fists. “Is the problem with our company’s server caused by those viruses?”

Liu Cheng said with a smile, “Yes.”

“It’s really you guys!” Du Kaifeng roared, “You guys are so despicable!”

1

“Our boss doesn’t need a gentleman to treat villains.”

After Liu Cheng said that, he added in his heart, not to mention that Qin Sheng was not a gentleman.

“Alright, Shengshi Technology, Liu Cheng, and Hong Yuan, all of you wait for me.” Du Kaifeng gritted his teeth.

1

Liu Cheng said nonchalantly, “Alright, then we’ll wait for you.”

Liu Cheng had told Du Kaifeng all this with Qin Sheng’s permission.

He did not have to worry that Du Kaifeng would do anything bad to Shengshi Technology.

With Qin Sheng’s ability, Fang Xuelin and Du Kaifeng wanted to scheme against her?

One word. Difficult!

After hanging up the phone, Du Kaifeng fell into his office chair. His face was ashen.

All he could think about was that he was going to die.

Fang Xuelin would not let him off so easily. Not to mention getting a promotion, he would not even be able to keep his current job. He might not even be able to find a job in H City.

At this moment, when Fang Xuelin came looking for him, Du Kaifeng panicked.

After struggling for a long time, he gritted his teeth and went to the hospital.

He could push all this onto others. It had nothing to do with him.

1

—

In the hospital.

Fang Xuelin had already changed into a suit. His wife supported him and was preparing to leave the hospital.

“Chairman.”

Du Kaifeng ran in, looking very anxious.

Fang Xuelin glanced at him and said unhappily, “Du Kaifeng, you’re finally here.”

Du Kaifeng wiped the sweat off his forehead.

He said, “I looked for Liu Cheng.”

Fang Xuelin frowned. “How is it?”

“Chairman.” Du Kaifeng lowered his head. “I realized that we’ve fallen into Shengshi Technology’s trap from the start. Shengshi Technology is very despicable.”

Saying this, he stopped.

“Continue,” Fang Xuelin ordered in a deep voice.

Du Kaifeng’s body trembled. He said again, “Shengshi Technology knew that we would steal their game, so they specially arranged for Liu Cheng to pretend to betray them and provide us with information.”

“In the end, there was a virus in the code given to us. Our company’s server was damaged this time because of those viruses.”

Fang Xuelin’s expression did not look good.

Du Kaifeng did not dare to look at Fang Xuelin. He lowered his head the entire time. “So, Chairman, we fell into Shengshi Technology’s trap from the beginning.”

Fang Xuelin’s wife saw that Fang Xuelin’s expression was not good.

She quickly patted Fang Xuelin’s back. “Hubby, don’t we still have a patent in our hands? You don’t have to worry too much about this. After all, the patent is in your hands. Shengshi Technology is violating your patent. It doesn’t have much to do with whether the two games are similar or not.”

## **Chapter 612: Fake Patent Certificate**

Fang Xuelin sat back down on the bed.

Although his wife had said so, and Fang Xuelin let out a sigh of relief, he still felt that things were not that simple.

Then, he picked up his phone and instructed, "Go to the patent office and ask if the patent for the all-intelligent game is mine."

After Fang Xuelin hung up the phone, Du Kaifeng quickly put in a good word. "Chairman, could it be that this patent is fake? This must be real. No matter how skilled Shengshi Technology is, there's no way they can get their hands on the patent office."

At this time, Fang Xuelin was very impatient with Du Kaifeng.

He stared at Du Kaifeng with a heavy gaze. "You caused this incident. If it weren't for you, Shengshi Technology wouldn't have set up such a big trap for Long Yue Technology. The company has fallen into an unprecedented crisis. After the matter is settled, I'll look for you to settle the score."

Du Kaifeng was speechless for a moment.

He lowered his head, his eyes filled with unwillingness.

— —

There were already quite a number of netizens and game players asking about the patent certificate on Weibo.

They were very curious.

Didn't they say that Long Yue Technology copied Shengshi Technology? Why was the patent certificate in Long Yue Technology's hands?

Hong Yuan didn't make them wait too long.

Two hours later, he posted another Weibo post with a photo of the patent certificate.

[We already have a patent certificate for all-intelligent technology. Where did you get your patent certificate? Could it be that you forged the patent certificate to deceive the public? @Long Yue Technology]

Fang Xuelin had been paying attention to the news on Weibo.

He had seen this Weibo post from Shengshi Technology at the first moment.

His hands were trembling.

His face gradually lost its color.

Patent certificate, fake?

He had clearly asked his secretary to handle it. The patent office had also said that no one had successfully applied for the all-intelligent technology. They had even said that he was the first. Now, they were telling him that it was fake?

It couldn't be fake!

Fang Xuelin steadied his mind.

A minute later, the secretary's phone call came in.

“Did you get it?” Fang Xuelin asked impatiently.

The secretary answered respectfully, “Yes, Chairman, they said...”

The secretary hesitated.

“What did they say?” Fang Xuelin berated.

The secretary gritted his teeth and told him what had happened. “The people from the patent office said that we didn’t apply for a patent in the past and there was no record of it on the file, but I had already successfully applied for it.”

Hearing this, Fang Xuelin’s face turned pale, and he immediately picked up his phone.

He called a friend who didn’t have a very deep relationship with him, and that was the only person Fang Xuelin knew who worked in the patent office.

Fang Xuelin asked very ingratiatingly, “Deputy Chief Lin, this is Fang Xuelin.”

“What’s the matter?” Deputy Chief Lin’s voice was very cold, and it didn’t seem like he knew Fang Xuelin at all.

“Deputy Chief Lin, didn’t I apply for a patent from you two months ago? But why, now that we’re talking about this patent... Didn’t we go over and register it?”

Hearing this, Deputy Chief Lin didn’t say anything else.

He only exhorted, “Chairman Fang, you’ve offended someone you shouldn’t have offended. Let me give you a piece of advice. You can’t afford to offend that person’s power. During this period of time, you’d better keep your tail between your legs. I can’t help you, so don’t come looking for me.”

A busy tone came from the phone.

“Deputy Chief Lin?”

“Deputy Chief Lin?”

Fang Xuelin shouted anxiously, but the other party no longer paid attention to him.

With a bang, the phone fell to the ground.

### **Chapter 613: Found Out the Truth**

Fang Xuelin stood rooted to the ground, his mind blank.

He had never thought that things would come to this point.

Clearly, everything had been under his control.

Right, Shengshi Technology had set a trap for him from the start.

First, they had Liu Cheng pretend to be bribed by them, and then they gave them the program code with the virus. When they claimed that Shengshi Technology had plagiarized, Shengshi Technology did not make a sound.

So they had been waiting for him here.

They had deliberately watched them jump up and down. Shengshi Technology was confident that they would be able to break the plagiarism claim, so they did not panic. As long as they exposed the evidence and the patent certificate... No one would think that they were plagiarizing and infringing.

1

Fang Xuelin's hands were shaking.

For Three Realms Competition, their company had spent hundreds of millions of dollars. Now, all of them were gone.

It had gone down the drain.

It had even implicated all the games under the company's name.

It was over, it was completely over!

The company only had less than 200 million in funds on its books. Buying a server required a large sum of money. Even if they bought it, those game users would be lost.

This meant that their company had to start from scratch.

Moreover, after this incident, their company's reputation would be ruined.

No one would be willing to buy their debt.

Fang Xuelin's face had already lost a trace of color.

The company that he had worked hard on for more than ten years had all gone to waste because of a single mistake.

If he was given another chance, he would not have provoked Shengshi Technology again.

He should have thought that for a company that could take out so much money at one go and make such an all-intelligent game, the person behind the scenes would definitely not be weak.

1

Fang Xuelin squatted down in annoyance. He covered his face with his hand and could not help but shed tears of regret.

After a long while, his phone rang again.

Fang Xuelin was no longer in the mood to answer the call, but his phone rang again and again.

Fang Xuelin's eyes were filled with anger.

He picked up the phone and vented all his anger on the person who was whining.

"Say it. If it's not something important, then get out of the company!"

Fang Xuelin thought that the person who called him was someone from the company.

Hong Yuan smiled and said, "Chairman Fang, why are you so angry?"

"You are?" Fang Xuelin frowned. He felt that this voice was very familiar.

Hong Yuan checked the impure dust on his black suit and said casually, "Hong Yuan, the general manager of Shengshi Technology."

"It's you!!" Fang Xuelin gripped his phone tightly, his knuckles turning white.

His face was terrifyingly dark. "Why did you come to see me?"

Hong Yuan smiled. "I called you to thank you."

Fang Xuelin didn't say anything, but Hong Yuan could still hear Fang Xuelin's stifled breathing. It was obvious that Fang Xuelin was angry.

Hong Yuan laughed disdainfully.

He said faintly, "Chairman Fang, our company did not spend a single cent of the promotional fees this time, and we are still able to have such a great reputation. We have to thank you, Chairman Fang. Thank you for spending tens of millions of dollars to even promote us. It has also allowed Shengshi Technology to enter everyone's field of vision."

When Fang Xuelin heard this, his face alternated between green and white. It was truly wonderful.

"Do you know why our boss leaked the game to you?" Hong Yuan could already imagine Fang Xuelin's face. It must be very ugly.

#### **Chapter 614: Was Once Again Admitted Into the Hospital**

However, even so, Hong Yuan still did not let Fang Xuelin off.

If it was not for Qin Sheng's strategic plan, the situation that Long Yue Technology was facing right now would be how Shengshi Technology would probably end up.

After all, it was not difficult to kill a start-up company that had developed for many years.

Hong Yuan said with a smile, "That's because if you guys were to research this game, you would definitely spend a lot of time and money. Didn't you guys already spend a few hundred million? Adding on the money from hiring a water army to hire a marketing account and Big Vs on Weibo, I'm afraid that even if you don't have one billion, you would at least have eight or nine hundred million."

Fang Xuelin's expression was getting uglier and uglier.

His entire body was faintly trembling.

He squeezed out two words from between his teeth. "Shut up!"

Hong Yuan raised his eyebrows. Fang Xuelin's flustered and exasperated look made him even more interested. He then said, "All in all, the funds in your hands right now shouldn't be more than 200 million. If that's the case, I wonder if it's enough for you to accompany Shengshi Technology."

Fang Xuelin glared. "Hong Yuan, what do you want to do?"

Hong Yuan smiled and said, "We're just giving you a taste of your own medicine. Didn't Long Yue Technology sue our Shengshi Technology? Now it's our turn."

"You dare!!" Fang Xuelin's voice rose.

Hong Yuan could feel Fang Xuelin's anger, but...

He looked at the time. He still had work to deal with, so he didn't have time to waste on Fang Xuelin anymore.

Today, he had called Fang Xuelin to vent his anger on Fang Xuelin. This was only one of his goals, and the other was related to Du Kaifeng.

"Chairman Fang, think about it. Who caused the situation you're facing now?"

Fang Xuelin frowned. "Who?"

Hong Yuan: "Du Kaifeng."

Fang Xuelin narrowed his eyes. He didn't say anything, but the veins on the back of his hand revealed the uneasiness in his heart.

With Hong Yuan's reminder, Fang Xuelin also thought about what had happened to Long Yue Technology and who caused it.

It was Du Kaifeng!

Hong Yuan analyzed, "If it weren't for Du Kaifeng's instigation, you wouldn't have stopped Shengshi Technology from registering the company. Naturally, the connections in the audience wouldn't have been removed."

Hong Yuan dug out one thing after another and told him everything.

"Also, if Du Kaifeng hadn't told you about this crisis, would you have known that Shengshi Technology had developed this all-intelligent game? If you hadn't known about the existence of the all-intelligent game before this and didn't bribe Liu Cheng, naturally, there wouldn't have been a crisis from Shengshi Technology."

"As for Shengshi Technology, if Du Kaifeng hadn't entered your company, Shengshi Technology wouldn't have targeted it."

After saying that, Hong Yuan didn't pay any more attention to Fang Xuelin and hung up the phone.

Fang Xuelin's hand holding the phone was still very tight.

His face was gloomy. He gritted his teeth and squeezed out word by word.

"Du Kaifeng!"

Fang Xuelin regretted it. Why did he recruit Du Kaifeng into the company at that time?

His chest heaved vigorously.

The smell of blood spread in his mouth.

Suddenly, he spat out a mouthful of blood. His face was frighteningly pale.

His wife walked in and just happened to see such a scene.

She hurried over.

She helped Fang Xuelin up.

“Hubby, are you okay? Hubby!”

Fang Xuelin did not have any reaction. He was already unconscious.

Fang Xuelin’s wife did not hesitate. She picked up her phone and called for an ambulance.

So, on the day of Fang Xuelin’s discharge, he once again entered the hospital.

### **Chapter 615: Talk About Cooperation**

Not long after Shengshi Technology’s Weibo post was posted, it had already become a hot topic.

#The patent for all-intelligent technology belongs to Shengshi Technology!# this topic was created less than 15 minutes ago, but it quickly rose to the top of the trending topics, reaching the explosive level.

Normally, this kind of topic could only be placed in the bottom few of the trending topics.

However, these few days, the matter between Shengshi Technology and Long Yue Technology had become too big, attracting a lot of attention.

Moreover, those gaming players were also very strong.

At this moment, as soon as this Weibo post appeared, they began to frantically scour the comments.

[This wave of face-slapping is too satisfying, 666. No wonder Shengshi Technology hasn’t made a move these few days. It turns out that they have the evidence to turn the tables and aren’t afraid of Long Yue Technology at all. I’m very curious. Why did Shengshi Technology endure for so long and not show the evidence to prove their innocence earlier?]

[Curiosity +1, this Shengshi Technology is really too tolerant.]

[I guess there are three reasons why Shengshi Technology endured for so long. The first reason is to see the pleasure of letting Long Yue Technology stand on the high ground and then fall again. The second reason is to save a sum of publicity money. The third reason is that the person at the helm of Shengshi Technology can endure.]

[The person above, after hearing what you said, I think so too. This publicity money is quite a lot. Take a look, the downloads of Three Realms on the self-created platform have already reached 14 million.]

[Who came up with this plan? This IQ is too terrifying. Long Yue Technology dared to provoke Shengshi Technology, so it’s considered unlucky. However, I do sympathize with Long Yue Technology.]

[Forget it, I’m going to download the game. Three Realms has always tickled my heart. Knowing that they didn’t plagiarize, I can download it with peace of mind.]

[...]

Once again, it set off a wave of downloading Three Realms.

These online gamers all turned into detectives and began to guess the reason why Shengshi Technology had been enduring Long Yue Technology.

One had to say that they had really guessed correctly.

The commotion on Weibo was very big.

Those software application platforms also began to regret.

If they had known this would happen, they wouldn't have listened to Long Yue Technology.

If it was on the Three Realms platform, the downloaded volume would also be very shocking.

Wasn't it just looking at the self-created platform? Now, they had earned a lot of money.

Although they needed money, the download volume of Three Realms self-created platform had already reached 15 million. Presumably, after today's incident, this number would probably continue to increase by an astonishing amount.

Then, wouldn't their free download platforms download even more?

They were greedy. When they first found out that it was Shengshi Technology that Long Yue Technology had plagiarized, they could still hold it in. However, after Shengshi Technology revealed that they had a patent, they couldn't hold it in anymore.

They didn't care about the time being late and directly contacted Shengshi Technology.

The chairmen of those companies did not even have meetings anymore. Some of them sent their subordinates to contact Shengshi Technology.

However, most of them contacted Shengshi Technology themselves.

Hong Yuan received phone calls one after another.

"Manager Hong, I'm the Chairman of the FS Software Platform, Lu Ge, I would like to talk to you about a collaboration." Lu Ge's tone was very good and very respectful.

Hong Yuan narrowed his eyes. "Speak."

Lu Ge said, "It's about the launch of Three Realms on our platform."

### **Chapter 616: Small General Manager**

Hong Yuan sneered. "FS Software Platform. I've contacted you before. What did you say back then? You directly rejected it. I think that our company doesn't have the qualifications to publish it on your platform. Let's forget about this collaboration."

Lu Ge's expression was awkward.

Back then, they had indeed rejected Hong Yuan, and their tone seemed to be very unpleasant.

Lu Ge explained, "I'm sorry, we thought wrongly at that time. To tell you the truth, the reason why we refused to publish your game on our platform was mainly because of the threat of Long Yue Technology."

1

Hong Yuan sat on the sofa in the living room at home. He poured himself a cup of tea.

Hearing this, he raised his eyebrows with great interest. "Is that so?"

He picked up the teacup and sipped it carefully.

Lu Ge thought that Hong Yuan was listening to his explanation and thought that there was hope. He hurriedly sat up straight, "Manager Hong, it is indeed because of his threat. If FS Software Platform has your company's game, Long Yue Technology will not release their games on our platform."

"Manager Hong, you also know that Long Yue Technology has many games. In addition to that all-intelligent game, for the sake of profit, we had no choice but to give up on your game."

Hong Yuan laughed mockingly. How could he not know what they were thinking?

They had only just started their company and were dealt with by Long Yue Technology, so they might as well side with Long Yue Technology.

If FS Software Platform had not ridiculed their company like that back then, Hong Yuan would have given FS Software Platform a better look.

It was just that now those platforms were all rushing to seek Shengshi Technology to cooperate with them, so there was no need to curry favor with FS Software Platform.

Hong Yuan directly rejected. "Chairman Lu, our company's games are still poor, and can't compare to Long Yue Technology. I think you should choose Long Yue Technology."

There was a moment of silence.

Lu Ge's expression was very awkward.

He really wanted to directly hang up the phone.

But with such a big benefit in front of him, he really wasn't willing to give up.

Moreover, Shengshi Technology was strong and had full-intelligence technology. Presumably, it wouldn't be too difficult for them to make other blockbuster games.

Therefore, they had to cooperate with Shengshi Technology.

Lu Ge tried his best to suppress his temper and advised him kindly.

"Manager Hong, you must be joking. Everyone knows that Long Yue Technology is going to close down."

Hong Yuan had already finished his cup of tea. He poured another cup for himself and listened to Lu Ge's words carelessly.

Lu Ge's voice continued, "Moreover, you see, our FS Software Platform is already the largest software platform in the country. If you cooperate with us, you won't be at a disadvantage, right? Also, we will give you 10% of the benefits."

Hong Yuan's hand paused, and then he said mockingly, "You've said it yourself, you're the best software platform in the country. Then, you still have to worry about Long Yue Technology's threat?"

1

Lu Ge was speechless and didn't know how to explain.

"Chairman Lu, our Shengshi Technology will not cooperate with your platform. You don't have to worry about it."

Lu Ge couldn't take it anymore. "Hong Yuan, you're just a small general manager. You can't make this decision, right?"

Lu Ge felt that their platform was the biggest gaming platform.

He took the initiative to extend an olive branch and generously let Three Realms publish on their platform. He had already given away 10% of the profits. This was already very much looking up to Shengshi Technology.

With such a huge benefit, he didn't believe that Shengshi Technology's behind-the-scenes boss wouldn't be tempted.

Therefore, Lu Ge felt that Hong Yuan was making this decision on his own.

### **Chapter 617: Brain Damage**

Unexpectedly, Hong Yuan only smiled faintly. "You don't have to worry about this. It's exactly what our boss wants."

After hanging up the phone, Hong Yuan received a few more calls.

All of them were from the major platforms.

Hong Yuan didn't reject them immediately like he did with FS Software Platform. Instead, he said very reservedly that he would discuss it with his boss.

At 10 o'clock in the evening, no one called him on his phone.

Hong Yuan wanted to look for Qin Sheng and ask for her opinion.

But when he dialed, a mechanical female voice came out, saying that Qin Sheng's phone had been turned off.

Hong Yuan's expression froze.

He had forgotten that Qin Sheng had already blacklisted his phone number, even on Penguin.

Hong Yuan could only go to the company the next day and ask Su Yixiu to borrow his phone to call Qin Sheng.

Hong Yuan told Qin Sheng about the platforms looking for them.

Qin Sheng thought about it and said, “70% to 30%. You only need to publish it on three platforms. Send me the names of the platforms that contacted you. I will pick out which one.”

“Okay,” Hong Yuan agreed.

After sending it over, he received Qin Sheng’s reply in less than five minutes.

“DG Platform?” Hong Yuan frowned. Wasn’t this the second-largest platform in the country?

He then looked at the other two platforms that Qin Sheng had picked out. In the country, they could only be considered medium-sized platforms.

Was Qin Sheng trying to support the DG Platform?

Hong Yuan wiped the sweat off his forehead for FS Software Platform. It looked like the position of the number one platform was about to be lost.

Hong Yuan told the three platforms about Qin Sheng’s conditions.

The profit-sharing between the platform and the game company was usually 50-50. Now, it was 70-30. They really wanted to reject it, but they couldn’t handle the huge profit from Three Realms. They also wanted to continue their cooperation with Shengshi Technology.

At this moment, they could only grit their teeth and agree.

After signing the contract, Three Realms was launched the next day.

—

FS Corporation Chairman’s Office.

Pa!

Lu Ge threw the newspaper on the desk with great force.

The general manager walked in to report his work. When he saw Lu Ge’s bad expression, he asked in puzzlement, “Chairman, what happened?”

“Isn’t it about Shengshi Technology?” Lu Ge pointed at the newspaper. “Three Realms has been launched on DG Platform. It hasn’t even been released for nine hours, and the download volume has already reached 10 million.”

“Is this Shengshi Technology intentionally going against us?” The general manager frowned.

“It’s intentional.” Lu Ge’s expression was extremely dark.

The general manager’s tone was very respectful. “Chairman, it’s just a small gaming company. If they don’t cooperate, then we won’t cooperate. This Shengshi Technology might not go far either. Instead of cooperating with the largest gaming platform, they went to DG Platform. The difference in traffic between the two is tens of millions. In my opinion, they must be out of their minds.”

Although Lu Ge thought the same, he still couldn’t calm down.

“Chairman, I think that Shengshi Technology might beg to cooperate with us in the future,” the general manager said sarcastically.

Lu Ge’s eyebrows also relaxed.

“It’s just a small game company. It’s really not worth our attention.”

However, the FS Software Platform didn’t notice...

The number of downloads of DG Platform’s software had increased by several million in a day. Correspondingly, there were millions of users who had uninstalled the FS Software Platform.

After all, only one software platform’s software was needed. Any more would take up memory.

Therefore, after they downloaded the DG Platform’s software, they uninstalled the other one.

When FS Software Platform was discovered, FS Software Platform was still the largest platform. However, the gap between the two was very small, and DG Platform could easily catch up.

### **Chapter 618: Pretending To Be Drunk**

The development of the matter was all in Qin Sheng’s plan and did not deviate from the trajectory.

Meanwhile, the comments of Three Realms on various software were all well-received. After all, the game quality of Three Realms, the sound effects, and its all-intelligent technology gave the users an extremely good experience. No matter how picky they were... they could not be picky.

After Qin Sheng solved Long Yue Technology, she felt at ease and became a hands-off manager.

Every day was very comfortable for her.

That night.

Fu Hanchuan didn’t come back for a long time. Qin Sheng looked at the time and saw that it was already 9 o’clock in the evening.

Her beautiful eyebrows were tightly knitted together, and she was very worried.

Ever since she moved into Fu Garden, this was the first time that Fu Hanchuan came back so late.

Footsteps could be heard from the door.

Qin Sheng heard it and quickly stood up. She walked over to open the door.

“M-Miss Qin,” Assistant Lin called out. He was supporting Fu Hanchuan.

“Is Brother Fu drunk?”

Fu Hanchuan’s face was a little red. He was supported by Assistant Qin, so Qin Sheng thought that Fu Hanchuan was drunk.

“Yes.” Assistant Lin nodded. “There’s a drinking party today.”

Qin Sheng reached out her hand, wanting to help Fu Hanchuan.

But when her hand touched Fu Hanchuan's arm, it stopped.

She withdrew her hand.

Qin Sheng smiled. "Assistant Lin, you guys can come in first."

Assistant Lin refused. "Miss Qin, I still have urgent matters to attend to, so I won't stay here. Take good care of the president."

After saying that, he didn't wait for Qin Sheng to refuse and pushed Fu Hanchuan to Qin Sheng's side.

"Take good care of the president."

Assistant Lin ran away in a flash.

No matter what he said, he would not stay. If he ruined Fu Hanchuan's plan, Fu Hanchuan would not let him go.

Fu Hanchuan had an excellent alcohol tolerance. He would not get drunk easily.

As for his drunken appearance today, Fu Hanchuan naturally did it on purpose.

Assistant Lin was embarrassed.

He did not expect his president to even pretend to be drunk in order to pursue his wife.

1

On this side, Qin Sheng helped Fu Hanchuan to the sofa. Then, she took out her phone and seriously looked for a solution to the alcohol.

When she saw that she had to make tea, her brows were tightly knitted together.

She went to the kitchen and rummaged around, but she could not find it.

Qin Sheng could only ask the maid to buy some back.

Fu Hanchuan was still sitting on the sofa. His eyes were tightly shut, and he looked like he was asleep.

By the time the maid bought back the hangover, it would probably take dozens of minutes. Adding the time she took to make it, it would take at least an hour.

Of course, Qin Sheng would not let Fu Hanchuan sleep on the sofa like this forever.

She helped Fu Hanchuan up carefully.

Fu Hanchuan leaned on Qin Sheng's body.

However, Qin Sheng did not notice...

Fu Hanchuan's lips curled into a smile. He was worried that Qin Sheng was tired, so he did not put all his weight on Qin Sheng.

When she returned to Fu Hanchuan's room, she tucked Fu Hanchuan in and prepared to leave.

However, her hand was suddenly pulled.

Qin Sheng fell down.

Coincidentally, Qin Sheng's lips were pressed against Fu Hanchuan's face. She could feel the heat that Fu Hanchuan sprayed on her face, and her heartbeat sped up.

She wanted to leave, but Fu Hanchuan hugged her tightly.

He mumbled, "Sheng Sheng, don't go."

Qin Sheng saw that she could not break free, so she could only let Fu Hanchuan hug her.

She could hear his strong heartbeat.

Because she was very close to Fu Hanchuan, although Fu Hanchuan's words were soft, they reached Qin Sheng's ears very clearly.

"Sheng Sheng, I like you. I want to be with you forever. Don't leave me, okay? Just like in my previous life, the feeling of being alone is so bitter."

### **Chapter 619: Being Alone Is Very Bitter**

Hearing this, Qin Sheng was stunned.

Then, her heart beat even more violently.

She had never thought that Fu Hanchuan would like her. She had always thought that Fu Hanchuan had treated her so well in the beginning because of Old Master Lu's relationship.

Later on, they were real friends.

Fu Hanchuan's words that caught Qin Sheng off guard gave rise to some thoughts of escaping.

The throbbing in her heart was very unfamiliar.

She could not adapt to the fact that Fu Hanchuan liked her for a while.

After all, she had always treated Fu Hanchuan as her brother and friend. Although she had developed some feelings for Fu Hanchuan in her heart, it was suppressed by Qin Sheng.

However, Fu Hanchuan's last sentence, 'the taste of being alone is so bitter' made Qin Sheng stop pushing Fu Hanchuan's hand away.

A sour feeling was spreading in the bottom of her heart.

So... did Fu Hanchuan like her in his previous life?

Fu Hanchuan had never had any girl by his side, and now, he had said that sentence.

No matter how low Qin Sheng's EQ was, she had come to a realization.

Fu Hanchuan hugged Qin Sheng. She raised her eyes and looked at Fu Hanchuan's face.

Her heart was beating very fast.

Her hand slowly touched Fu Hanchuan's face.

She had completely thought it through now. She liked Fu Hanchuan. It was the kind of relationship between a man and a woman.

No wonder she had the intention of occupying Fu Hanchuan's whole life.

She was very selfish and did not want Fu Hanchuan to treat other women as well as her.

Fu Hanchuan's eyelashes trembled slightly.

On the surface, he looked drunk, but he was not.

At this moment, the girl that he had been carefully protecting in his heart was in his arms. He wanted to wake up, but he was afraid of scaring Qin Sheng.

Therefore, he was enduring. The veins on the hand on Qin Sheng's back bulged visibly.

More than ten minutes passed just like that.

The two of them maintained the same position.

Fu Hanchuan reluctantly let go of her. He was worried that Qin Sheng would feel uncomfortable if he didn't move.

Qin Sheng straightened up.

When she saw that Fu Hanchuan didn't wake up, she heaved a sigh of relief and ran out of the bedroom.

The moment Qin Sheng closed the door, Fu Hanchuan opened his eyes.

He smiled helplessly.

It seemed that he would be stuck with Qin Sheng for the rest of his life.

However, he was willing.

The maid had already bought the tea back.

Qin Sheng went into the kitchen to fiddle with it. Her mind was in a mess. She had spent more than twenty minutes on this little amount of tea.

She waited for the tea to cool down a little before bringing it to Fu Hanchuan's room.

Qin Sheng looked at Fu Hanchuan on the bed and shifted her gaze uncomfortably.

Her heart, which had finally calmed down, was beating fast again.

Qin Sheng sat on the bed. She helped Fu Hanchuan up and fed him the sobering tea.

This time, Fu Hanchuan did not do anything else but drank it obediently.

Qin Sheng was worried that Fu Hanchuan would not be used to it, so she did not leave immediately.

She came to the bedroom and sat down on a chair. She lowered her head to look at her phone. She did not dare to look at Fu Hanchuan anymore.

Half an hour had passed.

Qin Sheng walked to Fu Hanchuan's bedside to check on his condition.

He hadn't woken up yet.

Qin Sheng reached out and touched Fu Hanchuan's forehead worriedly.

It wasn't hot.

However, didn't the phone say that after drinking the sobering tea, the drunk person would wake up in twenty minutes?

Qin Sheng retracted her hand and went over to check her phone again.

At this moment, her wrist was clenched tightly and she fell onto the bed again.

Fu Hanchuan turned around and trapped her under his body.

### **Chapter 620: I Like You Too**

Fu Hanchuan's eyes narrowed as he stared at Qin Sheng. His pitch-black eyes almost sucked Qin Sheng in.

"Brother Fu, you..."

No matter how cold Qin Sheng was normally, she had no choice but to be nervous at this moment.

"Sheng Sheng, did I just confess to you?" Fu Hanchuan's voice was hoarse.

Qin Sheng avoided his gaze. She subconsciously denied it. "No, no."

Fu Hanchuan chuckled. "Sheng Sheng, you're not suited to lie."

Fu Hanchuan's decision to confess to Qin Sheng today was the result of his long consideration.

From the first time he met Qin Sheng, he had been planning step by step to lure Qin Sheng to his side.

He was patient enough.

However, when he saw Old Master Lu, Mother Lu, and the others, they all wanted to stop Qin Sheng from being with him. He couldn't take it anymore.

He was planning to confess his love.

Qin Sheng was at a loss for words. "Brother Fu, I, I..."

She didn't know how to open her mouth.

Fu Hanchuan lowered his head. His lips were very close to Qin Sheng's ears, and his hot breath sprayed into Qin Sheng's ears. Qin Sheng's heart beat even faster.

“Sheng Sheng, be my girlfriend, alright?” Fu Hanchuan’s deep and magnetic voice sounded.

Qin Sheng could not reject him. However, she wanted to avoid this sudden confession.

However, when she met Fu Hanchuan’s eyes which were filled with anticipation, she stopped trying to push Fu Hanchuan away.

Fu Hanchuan’s hands were placed beside Qin Sheng.

His eyes flashed with pain as they met Qin Sheng’s eyes.

He opened his mouth again. “Sheng Sheng, although I’m not very clear about what happened in my previous life, I know that I like you. I’ve liked you since my previous life. Otherwise, I wouldn’t have treated you so well, and I wouldn’t have been watching you from the side.”

Qin Sheng’s chest was filled with bitterness.

Fu Hanchuan’s voice was very low as he suppressed the pain in his eyes. “I think I don’t want to bear this feeling anymore.”

“Sheng Sheng, stay with me. Let me spoil you and protect you for the rest of your life.”

Fu Hanchuan’s eyes were locked on Qin Sheng. He was waiting, waiting for Qin Sheng to nod.

Although he knew that Qin Sheng would not refuse...

Fu Hanchuan was still very nervous, like a young boy waiting for a response from the girl he loved.

Qin Sheng clenched her fists.

She had indeed fallen in love with Fu Hanchuan, and she could not leave him.

Just the thought of Fu Hanchuan being with someone else made her chest hurt terribly.

If that was the case, why didn’t she follow her heart?

Qin Sheng nodded. “I’m willing.”

She could feel her heart beating very fast.

Fu Hanchuan smiled. There seemed to be starlight in his eyes. “Thank you, Sheng Sheng.”

He could not help but lower his head and kissed Qin Sheng’s lips.

This could be considered their first kiss.

Qin Sheng was stunned.

Fu Hanchuan suppressed himself and tried his best not to lose control. With just a shallow kiss, he left Qin Sheng’s lips.

He whispered in Qin Sheng’s ear, “Sheng Sheng, I’m very happy. You’re finally mine.”

After saying that, he got off Qin Sheng’s body.

Then, he hugged Qin Sheng tightly in his arms.

There was nothing to say for a while.

The two of them felt each other's heartbeats. After ten minutes, Fu Hanchuan finally let go of Qin Sheng when he saw that it was getting late.

Qin Sheng's face was very red, and even her ears were red.

Even a cold person like her would lose her coldness when facing Fu Hanchuan.

Qin Sheng closed her eyes and said the words hidden in her heart, "Brother Fu, I like you too."
