

Bigshot 621

Chapter 621: Posted a Question

After saying that, Qin Sheng ran away.

Fu Hanchuan was stunned for a second. He did not expect Qin Sheng to say such a thing to him.

When he came back to his senses, a low laugh escaped from his throat.

His hand touched his lips, and his eyes were filled with joy.

—

Because in the past, under Fu Hanchuan's deliberate guidance, the two of them had always been getting along as boyfriend and girlfriend, but their movements were restrained a little.

Now, their interactions were not too different from before.

But Qin Sheng could feel that the atmosphere was obviously different from before.

Her heart would be touched by Fu Hanchuan's intimate actions.

This feeling was very strange, but Qin Sheng had already confirmed her feelings for Fu Hanchuan, and the two of them had established a relationship, so she didn't run away anymore.

Fu Hanchuan held the magazine in his hands and glanced at Qin Sheng, who was sitting on the sofa and swiping her phone. He chuckled.

Then, he took out his phone.

His fingertips tapped lightly on the screen. He found posts on the internet about how to get along with his girlfriend. After browsing around, he did not find any satisfactory answers.

Fu Hanchuan frowned.

He skillfully sent a post asking for help.

[C: I just established a relationship with my girlfriend. How should I get along with her?]

The netizens were very enthusiastic. In less than ten minutes, there were already more than 20 replies.

[Brother, I remember you. You're here again? Now that you're asking this question, did you successfully confess your love the last time? You're so fast! Congratulations!]

Fu Hanchuan did not know how to confess his love to Qin Sheng. Assistant Lin's suggestion was not reliable, so he could only come online to ask for help.

Pretending to be drunk was a suggestion made by a netizen. He could use it to confess and see how the other party would react.

If the other party's reaction was abnormal, it meant that she would most likely agree to the confession.

However, if she acted very calmly, it was hard to say.

Fu Hanchuan followed this method.

He pursed his lips and replied to this comment, [Yes, thank you.]

He continued reading.

Most of the comments were unreliable.

[Brother, you have a girlfriend? Then what are you waiting for? Just lure her to your bed. That way, she will be even more inseparable from you!]

[Agree with the comment above. Brother, don't make yourself feel wronged. Isn't a girlfriend used to satisfy your physiological needs?]

[A person who failed to confess is passing by. Showing off his girlfriend is inhumane.]

[Add one above, single dog expresses envy.]

Fu Hanchuan scanned through all these comments and silently replied, [She is the person I like.]

After replying, he continued to read.

Seeing the last comment, he finally felt that it was more reliable.

[Don't listen to those people above, they should all be single dogs. They are jealous of you. My suggestion is, since she has agreed to be your girlfriend, what you need to do now is to maintain this relationship. You can do things that make her feel romantic, give her gifts, take her to the movies, etc. In short, you have to do things that make her feel romantic.]

Fu Hanchuan looked at these words very seriously.

His brows were tightly furrowed. A romantic thing like watching a movie?

Fu Hanchuan immediately thought of bringing Qin Sheng to watch a ghost movie. Perhaps she would jump into his arms out of fear.

But when he thought of Qin Sheng's previous experience in the haunted house, he silently denied this idea.

So, bringing her to watch a romantic movie?

Fu Hanchuan's eyebrows gradually relaxed.

He gave the other party a thousand Chinese yuan.

Chapter 622: Saving Money For Qin Sheng

If this was any other time, he might have given more than 100,000 yuan. Fu Hanchuan was not a person who lacked money.

However, he was very stingy at this moment.

After all, he still had to save money for Qin Sheng. Fu Hanchuan could tell that Qin Sheng was a little money grubber. In addition, Qin Sheng had earned a lot of money. Fu Hanchuan felt that Qin Sheng's company's development in the future would not be slower than his.

1

Fu Hanchuan did not want to fall behind Qin Sheng, so he had to save more money for Qin Sheng.

Therefore, he would not waste money on such small matters.

However, the miserly look in Fu Hanchuan's eyes had already become a nouveau riche behavior in the eyes of others.

A casual sentence was enough to tip 1,000 yuan.

Many people scrolled through the comments of the nouveau riche under his posts, begging to be his mistress. It was very neat, and more than a dozen replies were like this.

Those shrewd people continued to give Fu Hanchuan ideas.

Fu Hanchuan picked out two more comments that seemed very reliable to tip.

There was an aura of nouveau riche everywhere.

However, Fu Hanchuan was indeed a nouveau riche.

Fu Hanchuan withdrew from the post. He went online to buy movie tickets again. This was his first time going to a movie, not to mention buying movie tickets.

Fu Hanchuan could have gotten Assistant Lin to buy the tickets, but he wanted to arrange the date himself. He didn't want to let someone else do it.

Fu Hanchuan took more than ten minutes to choose a romantic movie.

He bought two tickets.

Then, he went to Qin Sheng's side and sat down. He and Qin Sheng were very close. Qin Sheng felt it.

She was very puzzled. "Brother Fu, what's the matter?"

"Sheng Sheng, are you free tonight?" Fu Hanchuan asked in a low voice.

"Yes," Qin Sheng answered.

"Then how about we go to the movies together?"

Finally, he added, "I've already bought the movie tickets."

Qin Sheng wanted to reject the rest of his words, but she couldn't. However, she didn't want to brush off Fu Hanchuan's intention first.

"Okay," Qin Sheng agreed.

"Okay." Fu Hanchuan couldn't help but smile.

Qin Sheng was happy when she saw this.

She was worried that Fu Hanchuan would notice her abnormality, so she quickly looked down at her phone.

At night, Fu Hanchuan brought Qin Sheng to the cinema. He held Qin Sheng's hand.

Many couples came over.

At the start of the movie, Qin Sheng was watching very seriously. There were many ambiguous scenes. The couple sitting in front of Qin Sheng and Fu Hanchuan even kissed in front of everyone.

Fu Hanchuan's eyes flickered.

He tilted his head to look at his little girl. Unfortunately, Qin Sheng was watching the movie seriously and did not notice Fu Hanchuan's thoughts.

Fu Hanchuan rubbed the space between his eyebrows. He felt a headache.

Was his little girl a little too ignorant?

Under such conditions, she did not have any thoughts at all.

There were many ambiguous scenes of the male and female protagonists later on. Fu Hanchuan had been looking at Qin Sheng the whole time. His gaze, uh... was full of resentment.

1

However, Qin Sheng did not even look at Fu Hanchuan.

Qin Sheng was like that. If she did something, she would do it seriously. It was the same for watching movies.

Therefore, she did not pay attention to Fu Hanchuan's reaction.

This situation continued until the end of the movie. In fact, the movie was not considered long. At most, they would only kiss.

There were only six kissing scenes in a movie.

Qin Sheng retracted her gaze. She finally noticed Fu Hanchuan's actions.

She was very confused. "Brother Fu, what's the matter?"

Chapter 623: Rejected the First Platform

Fu Hanchuan was helpless. "It's nothing. I just wanted to see you."

If she had not seen the couple in front of her, Qin Sheng would have really believed Fu Hanchuan's words.

She hesitated for a moment and took the initiative to kiss Fu Hanchuan on the lips. Before Fu Hanchuan could react, she had already retreated.

1

Qin Sheng's face was very red. This was already the most extreme measure for her.

Fu Hanchuan could not help but curl his lips. "Sheng Sheng, I like it very much."

Qin Sheng's face turned red.

She had a nagging feeling that ever since she established a relationship with Fu Hanchuan, he had become very different.

Fu Hanchuan saw Qin Sheng's expression and did not tease her anymore. Otherwise, his little girl would be anxious.

— —

The rest of their life was peaceful. In less than two weeks, Three Realms had reached 200 million downloads on the three platforms.

The payment rate was very high.

In these two weeks, the game had earned 300 million.

Three Realms, a big hit!

The chairman of the FS Software Platform also realized that the DG Platform's traffic was getting closer and closer to the FS Software Platform.

Moreover, the reason why was clearly because Three Realms was downloadable on DG Platform.

"Chairman, if this continues, if Shengshi Technology releases another game on DG Platform, we will be overtaken by DG Platform," the marketing manager reported.

Lu Ge's expression was very ugly. He did not say anything.

The marketing manager suggested, "Should we send someone to contact them and let Shengshi Technology release it on our platform as well?"

Lu Ge looked at the marketing manager with a heavy gaze.

The marketing manager's body trembled. He could clearly feel the displeasure in Lu Ge's eyes. He thought that he had said the wrong thing. He stood to the side in fear and did not dare to speak for the time being.

It was not that Lu Ge had not thought about the marketing manager's suggestion.

However, he had not forgotten that he had said that even if Shengshi Technology begged him, he would not allow Shengshi Technology's game to be released on their platform.

Now, it was his turn to beg Shengshi Technology?

Lu Ge really could not say this. Wasn't this slapping him in the face?

The meeting room was very quiet.

Lu Ge's brows were tightly knitted. After a long while, he said with difficulty, "Send someone over."

“Then how much is the profit share of the download game? Shengshi Technology’s condition for the other three platforms is 7-3.”

The profit of the game company and the platform was usually 50% to 50%.

70-30% was already a huge concession.

Lu Ge hardened his heart. “70 to 30%. If they are still unwilling, then take a step back, 80% to 20%.”

Lu Ge was very clear about the determination in Hong Yuan’s tone. If they were to offer 73% of the profit, it would be very difficult for them to agree.

But if it was 80% to 20%, Lu Ge had some chance of winning. He felt that Shengshi Technology would not refuse. After all, businessmen were all interested in profits.

However, Lu Ge was wrong.

1

Shengshi Technology was rather independent. Even if Lu Ge lowered the conditions to free on the shelves, didn’t charge a single cent, and didn’t split the profits, Hong Yuan still didn’t agree to it.

Hong Yuan sat in his office.

He had just finished talking with the marketing manager of FS Software Platform, and Su Yixiu was also present.

“Yixiu, you saw it just now. If our game is on the FS Software Platform, we don’t need to split the profits with FS Software Platform. This is beneficial to us in every way. Moreover, FS Software Platform is the largest software application platform in the country, but I still rejected it. Do you know the reason?”

Chapter 624: Boss Is Rich

Hong Yuan was very clear about Su Yixiu’s ability. He also knew that Qin Sheng valued him and would arrange an important position for him in the future.

This position would probably be on par with him, or even higher than him.

It wouldn’t be too bad after all.

Therefore, Hong Yuan was very serious in teaching Su Yixiu.

Su Yixiu’s hand that was flipping through the documents paused. Then, he asked in puzzlement, “Why?”

Hong Yuan raised his eyebrows. “That’s because FS Software Platform has humiliated us. We have to be tougher. If we can’t see any benefits, we don’t have to cooperate with the FS Software Platform.”

Qin Sheng’s image appeared in Su Yixiu’s mind. She was indeed such a person.

She was very confident and did not want to be wronged.

Hong Yuan said again, “Of course, there are three important reasons that give us the confidence to refuse to cooperate. One is that other than FS Software Platform, there are many other powerful software platforms. We don’t have to be stuck on FS Software Platform.”

Su Yixiu was very serious. He tried his best to remember what Hong Yuan had taught him.

After all, he did not want to betray Qin Sheng's trust in him.

Hong Yuan then said, "The second reason is that we have enough strength to reject it. If Three Realms were placed on other platforms, it would be a huge hit. The third reason is..."

Hong Yuan raised his eyebrows. "Our boss is rich."

Hearing this, Su Yixiu couldn't help but laugh. "Indeed."

Hong Yuan looked at Su Yixiu meaningfully and frowned.

He had a feeling that Su Yixiu treated Qin Sheng very differently.

However, since Qin Sheng had helped him, it was normal for him to treat Qin Sheng differently.

Hopefully, it wasn't what he thought in his heart. Otherwise, Su Yixiu was destined to be sad.

1

Hong Yuan did not think about Su Yixiu and Qin Sheng anymore.

He said, "Tomorrow, you and Lin Dong will go to Shengshi Technology's press conference. I won't be attending. You should prepare for it."

Under such circumstances, it was usually Hong Yuan, the general manager of the company, who would attend.

However, Hong Yuan had some thoughts of training Su Yixiu, so he left this matter to Su Yixiu.

Su Yixiu naturally understood as well. He replied, "Alright, I'll prepare well."

"Okay, you can go out first."

Su Yixiu left the office. Hong Yuan nodded his head in satisfaction. Su Yixiu was a good seedling, a genius, and with sufficient effort. No wonder he could obtain the second-best result in the National College Entrance Examination. If he was properly groomed... His achievements for the company in the future would definitely not be small.

Hong Yuan looked at the calendar. Qin Sheng had not been to the company for another two weeks, and she had not called to contact him.

He was thinking, Qin Sheng groomed so many talents. Did she want to be a completely hands-off manager?

The more he thought about it, the more he felt that it was possible.

Hong Yuan could not help but hold his forehead. There was no one else who could run into such a Buddhist boss.

—

On the next day.

Shengshi Technology's press conference was held. The audience was filled with all the major media outlets, not only those in H City, but also those from Imperial City.

Shengshi Technology had completely entered everyone's field of vision.

The game under its name, three realms of storms, was a well-deserved blockbuster game.

The total number of downloads on the three major platforms had already reached 200 million, and this number was still growing.

The total number of downloads over several years was more than mid-tier games over the years.

Moreover, the players of Three Realms had a high viscosity, so very few people would uninstall it!

This was the first time such an explosive game had appeared in the gaming world. It had only appeared in a new company that had just been established about five months ago, and it had been developed in an extremely short amount of time.

Chapter 625: Offline Games

For a time, Shengshi Technology became a legend.

Many people knew about Shengshi Technology's deeds.

Shengshi Technology's reputation was very good. On the contrary, Long Yue Technology's reputation was very bad.

Many game players had already given up on Long Yue Technology's games.

Long Yue Technology spent a lot of money and bought a lot of servers. The entire company rushed day and night. Finally, they installed the game's system on the server.

Many games came online again.

However, FS Software Platform and DG Platform had removed Long Yue Technology's games.

As for the other platforms, because of Fang Xuelin's orders, they did not put on Shengshi Technology's game. They also did not manage to get the opportunity to release Three Realms. Their intestines were green with regret, and it was inevitable that they would be dissatisfied with Long Yue Technology.

They were worried that Long Yue Technology would one day rise up, so they did not dare to remove Long Yue Technology's game. Instead, they secretly reduced their exposure.

As a result, the number of downloads of Long Yue Technology's games was very low.

In addition, many of Long Yue Technology's former game players had uninstalled their games.

At this moment, Long Yue Technology's daily revenue was only 300,000 a day, which was not enough for the company's daily expenses.

Long Yue Technology was also a listed company, and its stock price had already fallen to the price of cabbage.

Many shareholders wanted to sell Long Yue Technology's stock, but no one wanted to buy it. They had no choice, so they often went to Long Yue Technology to ask for Long Yue Technology's compensation.

After all, tens of thousands, hundreds of thousands, and millions of yuan were not a small amount.

If Long Yue Technology withdrew from the market, all this money would be wasted.

Many people gathered at the entrance of Long Yue Technology. When those shareholders saw Fang Xuelin, they all rushed forward.

For this, Fang Xuelin could only hire a few more bodyguards to escort him to and from work every day.

Now, Long Yue Technology could not make ends meet every day.

The company's funds were only left with around 100 million.

Fang Xuelin was so worried that a few strands of his hair had turned white.

On the day that Shengshi Technology held its press conference, it used the live broadcast mode.

Fang Xuelin sat in front of the computer, his gaze heavy as he looked at the computer.

The computer screen was the scene of Shengshi Technology's press conference.

Hong Yuan was not present. Everything was left to Su Yixiu and Lin Dong.

As for why Lin Dong, who had just come out from Long Yue Technology, was allowed to speak on behalf of Shengshi Technology, it was naturally to slap Long Yue Technology in the face.

1

Lin Dong's ability was very good. Hong Yuan was very grateful that Long Yue Technology had sent him such a talent.

Su Yixiu and Lin Dong had just appeared at the press conference not long ago.

A reporter couldn't wait to ask, "Hello, may I ask who you are?"

Only Hong Yuan represented Shengshi Technology to appear in front of the public.

As for Su Yixiu and Lin Dong, they had rarely seen them.

However, a reporter saw that Su Yixiu was somewhat familiar.

She quickly remembered and asked in a daze, "You're Su Yixiu, who ranked second in this year's college entrance exam?"

"Yes." Su Yixiu nodded. "I'm now working at Shengshi Technology and am the assistant to the general manager."

Lin Dong also answered, "I'm an ordinary staff member of Shengshi Technology."

The reporter was enlightened. "It seems that Shengshi Technology is really far-sighted and has decided on you long ago."

Su Yixiu nodded.

In front of the computer, Fang Xuelin saw Lin Dong appear at the press conference. He even said that he had become an employee of Shengshi Technology.

He stared at Lin Dong.

He clenched his fists tightly with a ferocious expression.

Chapter 626: They Were a Good Match

No wonder Lin Dong disobeyed him and went against him. It turned out that he wanted to join Shengshi Technology!

Fang Xuelin suspected that Lin Dong was the one who exposed Du Kaifeng's bribery of Shengshi Technology's employees. Otherwise, why would Lin Dong have just left Long Yue Technology and joined Shengshi Technology?

Fang Xuelin did not believe that there was no premeditated plan.

Moreover, for Lin Dong, a new employee, to speak on behalf of Shengshi Technology, wasn't Shengshi Technology deliberately slapping him in the face?

The veins on Fang Xuelin's forehead bulged. He was angry.

Shengshi Technology was very impressive at the press conference. Fang Xuelin stared at the computer screen as if he was torturing himself.

At the press conference venue.

Those reporters wanted nothing more than to shove their microphones at Su Yixiu and Lin Dong's faces.

There were a lot of people, and it was also very crowded.

They were all competing to ask questions.

"I want to ask, how did Shengshi Technology create such an explosive all-intelligent mobile game in just a little over four months? "Also, we noticed that the game's memory is less than two GB. Can you explain it to us?"

"Is there a big force behind Shengshi Technology? Is it a company under a large corporation?"

"Did you invent all-intelligent technology before?"

"How did you know that Long Yue Technology stole your company's game this time? You have evidence in your hands, so why did it take you so long to expose it?"

"Did you ever think that Three Realms would become such a blockbuster game?"

"..."

Su Yixiu answered the reporters' questions one by one in a very organized manner. "Our boss is amazing. All-intelligent technology was developed by her alone. Even the development of the game was done according to her ideas."

“Shengshi Technology is just an independent company. It was founded by our boss. There’s no big corporation under her name.”

Su Yixiu did not mention whether there was a big force behind Shengshi Technology.

He was thinking of Fu Hanchuan, that man who looked very extraordinary.

He and Qin Sheng were also very compatible.

He was also good enough to Qin Sheng.

Su Yixiu’s heart was extremely bitter.

He knew that he was not good enough for Qin Sheng, so he would not let Qin Sheng discover his feelings for her.

1

After adjusting his emotions, he continued to answer the reporter’s questions.

“Long Yue Technology used unfair means to compete. We merely returned the favor by letting others know.”

“As for why we found out that Long Yue Technology made a move on our company, it was because our employees were loyal and were not easily bribed by Long Yue Technology. They told the general manager, so the company sent one of its employees to pretend to defect to Long Yue Technology in order to obtain evidence.”

“As for why it took so long, we wanted to let Long Yue Technology be proud for a while, making it more painful to be denounced. Another reason was that we could save a huge amount of publicity fees.”

When the reporters heard this, they could not help but feel a chill in their hearts.

This Shengshi Technology was too strategic, to actually think of these ideas.

Any company that provoked Shengshi Technology would probably end up in a terrible state.

They could not help but sympathize with Long Yue Technology for provoking Shengshi Technology.

“The last question.” Su Yixiu smiled and continued, “We have predicted from the beginning that this game will become a blockbuster. After all, all-intelligent technology combined with top-notch special effects, no matter which aspect, we dare to say that it is top-notch. Very few games can compare to it.”

Chapter 627: Lin Dong Changing Jobs?

Su Yixiu’s words were very arrogant.

However, these reporters couldn’t find any words to refute him.

Three Realms was indeed impeccable in all aspects.

Those reporters also heard from Su Yixiu’s words that the development of the all-intelligent game was mainly due to the behind-the-scenes boss of Shengshi Technology.

However, this behind-the-scenes boss had never appeared before.

They were very curious. Who was he?

A reporter then asked, "May I ask who the boss of Shengshi Technology is?"

Su Yixiu replied, "She doesn't want to be disturbed."

The reporter pressed, "Then can you tell us some information about him?"

Su Yixiu thought for a moment and then replied, "She's very young and very capable. She's also a good person."

As for the rest, Su Yixiu did not reveal anything. He did not even tell them her gender.

From the moment this incident happened, Su Yixiu could imagine that there would be a few reporters stationed near Shengshi Technology in the future. In Shengshi Technology, only Qin Sheng was a girl.

If Qin Sheng went over to the company, it was inevitable that she would be discovered.

Hearing this, the reporter's expression froze. What kind of information could this be?

However, the reporter still managed to catch the word 'very young'.

He continued to ask, "Then can you reveal his specific age?"

Su Yixiu conservatively said a number, "Under 30 years old."

Even so, the reporter was already very surprised.

Under 30 years old, he had already invented an all-intelligent game. This achievement was something that very few people could achieve.

Of course, if they knew that the behind-the-scenes boss of Shengshi Technology was Qin Sheng, an 18-year-old girl, they would probably be so shocked that their eyeballs would fall out.

That reporter did not ask any more questions. She knew that if she continued to ask, Su Yixiu would not reveal too much.

The other reporters also wanted to know more information. Just as they said three words, they were interrupted by Su Yixiu.

"I'm sorry, I won't reveal too much about the boss. She doesn't want to be disturbed."

The reporters could only shut up.

Another reporter asked, "When will the person behind Shengshi Corporation reveal his identity?"

"I'm sorry, I don't know about this," Su Yixiu said politely.

"Today is mainly the game release conference of Three Realms. Let's change the topic to the game."

The reporters asked a lot of questions, and Su Yixiu answered them one by one.

Next, it was Lin Dong's turn to explain the game.

A reporter looked at Lin Dong, his brows tightly knitted together. He was very confused. Had he seen him somewhere before?

When Lin Dong's voice stopped, he finally remembered.

He said in surprise, "Lin Dong, I seem to have seen you before. A month ago, weren't you Long Yue Technology's game tester? Why are you working at Shengshi Technology?"

Lin Dong did not think that any reporter would recognize him.

He answered truthfully, "I did leave Long Yue Technology about a month ago."

A wave of whispers immediately broke out at the scene.

"This Lin Dong just left Long Yue Technology not long ago, and he already joined Shengshi Technology. Is there some conspiracy behind this?"

"Could this Lin Dong have been bribed by Shengshi Technology?"

"I don't think so. The evidence that Shengshi Technology released has already killed Long Yue Technology. There's no need to bribe Lin Dong. Lin Dong is just a game tester for a small game. I don't think Shengshi Technology can get anything from him. This should be a normal job-hopping."

Chapter 628: Regretful Fang Xuelin

"Rather than making random guesses here, why don't we ask him what's going on?"

"..."

Thus, a female reporter frowned and asked, "Mr. Lin, can you tell us the reason why you changed jobs from Long Yue Technology to Shengshi Technology?"

Lin Dong did not hide anything and directly told her the truth.

"I was a game tester for Long Yue Technology. I've been working for Long Yue Technology for more than a year. I've pointed out a lot of problems with the game, but Fang Xuelin thought that my suggestions were terrible. Because of some reasons, I've been enduring for so many years."

"The incident broke out when I was testing the game 'Three Realms Competition'. At that time, I pointed out a lot of problems, but the chairman of Long Yue Technology, Fang Xuelin, said that I deliberately picked a fight and found an excuse to fire me."

"After that, I went to Shengshi Technology to apply for a job."

Lin Dong was very calm when he said these words, and his mood did not fluctuate at all.

A reporter pressed, "I wonder what problem you pointed out that would make Long Yue Technology's chairman fire you?"

Lin Dong said sarcastically, "The game's graphics are bad, the character settings, and the way you dress are all very problematic. There's also the possibility of the game getting stuck."

A reporter who had played Three Realms Competition nodded in agreement.

“I’ve played it before. It’s indeed like the problem you mentioned. It’s very serious, and the experience is very bad. If it wasn’t for being an all-intelligent mobile game, I would have uninstalled it long ago.”

Another reporter added, “I also feel that there are these problems. I feel like this game was rushed out. Moreover, this game was only tested for two days before it was released. It’s obvious that Long Yue Technology was in a hurry. They probably wanted the game to be released before Shengshi Technology so that Shengshi Technology could be labeled as plagiarists.”

It had to be said that when this reporter spoke the truth, there were quite a few reporters who agreed with him.

“This Long Yue Technology thief shouting ‘catch the thief’ is indeed disgusting. However, they have also received their retribution now.”

Lin Dong heard their discussion and did not say anything. However, from the expression on his face, it could be seen that this was true.

These words had also appeared on the live broadcast.

Fang Xuelin was so angry that his face turned ashen. He glared at Lin Dong at the press conference with hatred.

He regretted it in his heart. Couldn’t he have just left him in the company at that time?

He would have tortured him properly.

He did not need to pay Lin Dong a fee to come into contact with the labor contract.

If Lin Dong wanted to leave the company, he would have to pay for it himself.

At the press conference, the reporters continued to ask, “I wonder if Long Yue Technology copied Shengshi Technology? Do you have any follow-up measures to deal with Long Yue Technology?”

This time, it was Su Yixiu’s turn to answer.

He smiled. “Our company has already submitted to the court. There are only two more days until the court session. I believe that the court will give our company justice.”

“What did your company sue Long Yue Technology for?” A reporter was interested.

Su Yixiu replied, “Plagiarism, counterfeiting patent certificates, using unfair competition measures to disrupt the market order, and sending people to steal our company’s games.”

Just one of these items was enough to make Long Yue Technology suffer, not to mention so much incriminating evidence.

Su Yixiu saw that it was almost time.

He said, “Is there anything else you want to ask? If not, that’s will be all.”

The reporters quickly asked five more questions.

Su Yixiu and Lin Dong answered one by one, announcing the end of the press conference.

Chapter 629: Bankruptcy of the Company

This time, the press conference was held very smoothly because the media participating in the press conference were specially selected by Shengshi Technology's people.

They had also made it clear that if they were deliberately looking for trouble, they would be kicked out of the press conference.

According to Shengshi Technology's style of doing things, they had no doubt that Shengshi Technology would really do such a thing.

After all, they had just told them in front of everyone that they were deliberately hanging up on Long Yue Technology to save a sum of publicity money.

Therefore, these media reporters were very well-behaved.

They were naturally good at stirring up trouble, but this press conference was surprisingly well-behaved.

After watching the entire press conference, Fang Xuelin's expression was extremely ugly.

He picked up the phone and shouted, "Fire Du Kaifeng immediately. Also, contact those who are related to our company. No one can hire Du Kaifeng."

Last time, Fang Xuelin was once again angered by Hong Yuan and was sent to the hospital.

He had just left the hospital the day before yesterday. Because he was worried about the company, he came to the company.

He had been busy with the company's matters these few days and did not have time to deal with Du Kaifeng. Only then would he let Du Kaifeng continue to stay in the company.

Fang Xuelin regretted it. Why had he taken in Du Kaifeng in the first place?

If it weren't for Du Kaifeng, he would not have gone against Shengshi Technology. The company would not have fallen to such a state and be on the verge of bankruptcy.

He could feel that he had a few very good company bosses who were distancing themselves from him.

Fang Xuelin was also afraid that if Shengshi Technology really sued him in court, it would be a fatal blow to the company.

He did not dare to think about the amount of compensation.

The company might also be sealed up.

With a bang, the door was kicked open and Du Kaifeng barged in.

Fang Xuelin's eyes were dark. "What's the matter?"

Du Kaifeng had always been afraid of Fang Xuelin. Originally, he had come to confront Fang Xuelin, but when faced with Fang Xuelin, he was instantly terrified.

His tone became very ingratiating. "Chairman, why did you fire me?"

Fang Xuelin sneered. "Du Kaifeng, look at what you've done? If it weren't for you, how would our company have provoked Shengshi Technology?"

Du Kaifeng wiped the sweat off his forehead.

He defended himself. "Chairman, this has nothing to do with me. Shengshi Technology deliberately wanted to deal with our company. Even if we didn't steal their company's game, they would have found other ways to deal with it."

Fang Xuelin's expression was extremely ugly.

"If it weren't for you, would Shengshi Technology target our company? Don't forget, it was you who bankrupted Hong Yuan's Teng Feng Technology!"

Du Kaifeng's expression was stiff.

He refuted righteously, "Chairman, this matter isn't too serious, right? The server is broken. Can't we just buy some more? Our company is also a veteran gaming company. A small Shengshi Technology will not bring our company down, right?"

Fang Xuelin was angered by Du Kaifeng's words and laughed.

With a cold laugh, Fang Xuelin's voice was filled with coldness. "Du Kaifeng, our company is going bankrupt."

"What?!" Du Kaifeng's eyes widened. He had never thought that the company would go bankrupt.

"Chairman, what is this?"

Fang Xuelin glanced at him and did not hide it. "The company only has 20 million left. When the court session starts in two days, there is a 90% chance that our company will lose. When that time comes, all of the company's money will be pasted in, and even the company may be sealed."

Chapter 630: The Lawyer Ranked Fifth

Hearing this, Du Kaifeng was completely stunned on the spot.

A company like Long Yue Technology, which had been developing for more than a decade, would really be bankrupted by a new company like Shengshi Technology?

Fang Xuelin said in a weird tone, "Do you know whose credit this is?"

Du Kaifeng's brain was working quickly.

This time, he did not refute, "I know, Chairman. This is because of me. If I have to leave the company, I will just leave. I don't have the face to stay here any longer."

After saying that, Du Kaifeng did not stay any longer.

Fang Xuelin sneered. He had been in this circle for more than ten years. How could he not see through Du Kaifeng's thoughts?

Du Kaifeng could agree to leave so easily? Wasn't it because he saw that the company was going bankrupt?

However, it was very difficult for Du Kaifeng to find a good job.

Not to mention his instructions, even if he didn't give it, those companies didn't dare to hire a villain like Du Kaifeng.

—

Two days later, the court officially opened.

Although Fang Xuelin knew that he didn't have much of a chance of winning, he still hired a famous lawyer at a high price to defend him.

"Chairman Fang, don't worry. Even if you don't win this lawsuit, I can still get the lowest compensation for you," Jiang Tian said confidently.

He was from Imperial City and was a well-known lawyer. There were very few cases that he had lost.

As for the lawyers in H City, he didn't even care about them.

When Fang Xuelin saw his confidence, he felt slightly relieved.

He nodded and said, "Alright. If it's really as you say, you will definitely get the benefits."

Jiang Tian smiled and said, "Then I will definitely get the benefits."

They walked into the court.

Quite a number of reporters came over to listen in.

When they saw Fang Xuelin and Jiang Tian, they all rushed over.

"Chairman Fang, may I ask if you have any chance of winning?"

"Chairman Fang, Shengshi Technology's evidence is very complete. I wonder if you've prepared any evidence to refute it?"

"Isn't this Lawyer Jiang? You're here to help Long Yue Technology, right? Then, do you have the confidence to win this case?"

Fang Xuelin didn't know how to answer these questions.

It was still Jiang Tian who answered, "This case is very difficult, but I will do my best to fight for the greatest benefit for Long Yue Technology."

His answer was very conservative.

He had been in the industry for many years, so he knew how to face the reporters' answers.

No matter how confident he was, he could not say it out loud.

In the end, Jiang Tian and Fang Xuelin had already sat at the defendant's side. Previously, Fang Xuelin had sued Shengshi Technology for plagiarism, but after Shengshi Technology exposed the evidence of Long Yue Technology stealing from Shengshi Technology, he withdrew the lawsuit.

On the other hand, Shengshi Technology sued them.

Therefore, Long Yue Technology became the defendant. As the chairman of Long Yue Technology, Fang Xuelin naturally had to attend.

Jiang Tian began to sort out the documents. He was confident about the lawsuit this time.

The lawyer that Hong Yuan and Shengshi Technology had hired also came in.

A reporter with sharp eyes recognized the lawyer. She was very surprised, "The fifth-ranked lawyer in the country, Song Cheng! Shengshi Technology actually hired Song Cheng! Didn't they say that it's very difficult to hire Song Cheng? And he doesn't easily accept cases outside the Imperial Capital? What's going on now?"

Some reporters had never seen Song Cheng before.

At this moment, when they heard her words, they were also very surprised. "With such a big background? I thought that Long Yue Technology's ability to hire Jiang Tian was already very impressive. I didn't expect that there would actually be a fifth-ranked lawyer?"
