Chapter 871 Swallowing Gray Mist!

“Ugh!”

The Wisdom Pill Pavilion’s people started to wail in agony as their bodies started to explode.

At the same time, a stench was emanating from their bodies.

“What’s happening? What did you do?” “Poop explosion? Are you telling me what we ate was... No! Impossible! You’re lying!”

“How disgusting. You actually launched a sneak attack on us, how despicable!”

Their physical bodies were being destroyed and healing at the same time. They would not die so easily. They were just crying due to the defilement.

“Did you really think we’d give you the actual good stuff? How naive. Come see what you all

ate.”

With a wave of Blackie's paw, the Fallen Immortal Mountain's wildlife appeared in front of everyone. Blackie collecting the two buckets of manure was shown as well.

"Aaah, it really is that. It really is..."

"Die, all of you need to die!"

"Isn't it just some glorified fertilizer? So what if we ate it? Real men can handle anything. It's better than dying!"

"That's right. You'll pay for our humiliation with your lives!"

"Let's trap their souls in poop for ten thousand years!"

The pavilion leader and the others were glaring at them fiercely as they roared loudly at Blackie and the others.

Their powers poured out as their bodies reconstructed themselves, slowly coming back.

Normally, they would be able to reconstruct their bodies with just a thought. Yet, their powers were flowing weirdly and were a little out of control at that moment.

Blackie let out a cold smile as he said plainly, “Haha, unlimited Poop Explosion!”

“Ugh!”

Their bodies started to explode over and over again.

“Impossible. How’s this happening? Even the gray mist seems to be subdued!”

The pavilion leader panicked as he looked at Blackie with reluctance and disbelief.

He did not know that Blackie’s piss had been mixed inside. It was incredibly strong at warding off evil. Even the gray mist would need to retreat.

“Ah, this is too much. You’ve crossed the line.” The third elder of the Wisdom Pill Pavilion’s face was twisted. He clenched his teeth in incredible anger.

He was full of hatred.

He had been a noble figure.

Yet, Xiao Chengfeng and the others had humiliated him over and over. He had always held himself back for the sake of the Wisdom Pill Pavilion's plan. He wanted to make Xiao Chengfeng and the others regret everything.

Yet, what happened was an even greater humiliation. Even the pavilion leader was humiliated. That feeling caused him to go crazy.

That group was not human!

They were too arrogant in their ways!

"You're trying to kill us with your current state? I think I should just give you a quick death instead!"

Xiao Chengfeng let out a cold laugh. He suddenly acted, pulling out his sword as he slashed right at the third elder.

"Heavenly Flame Shield!"

The third elder widened his eyes as he let out

a roar.

He used his full power to conjure up a black flame, using it to shield his body.

Yet, the shield was slashed through by the sword. It went right at the third elder.

“How is this possible? You’ve broken through and become a Wisdom Dictator?!” the third elder shouted out in disbelief.

A Wisdom Dictator was not something so easy to become.

A lot of preparations had to be made. Then, they would have to seclude themselves for thousands of years or it would be impossible to breakthrough.

How could Xiao Chengfeng have passed that hurdle?

Only, no one answered him.

The sword aura slashed through his body.

He was dead.

At the same time, the Divine Sword Mountain's lord and the others started to attack the others from the Wisdom Pill Pavilion.

The six elders were extraordinary at combat, but they had been affected by the Poop Explosion. Not only were their powers being suppressed, their bodies were constantly exploding as well. There was no way they could hang on. Their souls were already on the brink of disappearing from the attacks.

"You're all...looking for death!" the pavilion leader roared in a low voice before he finally attacked.

He pointed a finger at Xiao Chengfeng.

"Wisdom Defying Finger!"

A massive finger shot toward Xiao Chengfeng.

With that finger, Wisdom started to revolt. It caused the world to distort and was enough to shatter Xiao Chengfeng.

Xiao Chengfeng's countless slashes were being destroyed.

Yet, just as it started to descend, a paw dropped down from the skies, shattering the finger. "This dog's actually so strong. You...ugh!" The pavilion leader looked at Blackie with shock and anger. He only said one sentence before his body exploded again.

"Killing you would be like killing a chicken for me!"

Blackie's face was cold as he sent another paw at the pavilion leader.

The pavilion leader's body had just been reconstructed when it was shattered again.

"Ah, you're looking for death!"

The pavilion leader roared, his temper was boiling.

If he had not been tricked into eating that thing, he would not end up being trampled over by a mere dog.

Embarrassing, it was far too embarrassing.

The moment he thought about how he had treated that thing like a treasure and was now exploding from the unbearable stench over and over again, he was absolutely disgusted.

“You forced me! All of you forced me into this. Don’t blame me for showing you my trump card!”

The pavilion leader shouted with killing intent and madness.

“Gray mist, condense. My body will turn into a sea of misfortune. Gather!

“Ugh!”

At that moment, his body suddenly exploded by itself. He turned into gray mist that covered everything.

The gray mist seemed to be alive. It started to distort, slowly forming the shape of a human.

“Ah, pavilion leader, no!” “You’re so ruthless!”

The six elders could not avoid misfortune as their bodies quickly dried up. The gray mist left their bodies bone-dry as it gathered toward the pavilion leader.

“Quick, interrupt his spell!”

Xiao Chengfeng and the others could naturally see that something was wrong with the pavilion master. Their expressions changed immediately as they launched various skills at the gray mist.

Yet, it was useless.

“Hehehe, I’m going to kill you all!”

From within the gray mist came a sinister voice. It caused all of them to shiver involuntarily.

His appearance slowly solidified. It vaguely looked like the pavilion leader, but it was formed completely out of the gray mist. “What a strong aura of misfortune,” Yun Chen had a dark look on his face as he said nervously.

The Wisdom Pill Pavilion’s reach was unparalleled. It could gather a sea’s worth of gray mist. The gray mist’s power was even stronger than what had been sealed in the Yun clan. It was a power that even those who were incredibly strong needed to face earnestly.

“Lord Dog, what do we do?” Xiao Chengfeng asked Blackie for help as usual.

“Don’t worry, I’ll deal with it.”

Blackie slowly walked forward as a rare serious look appeared on his face.

He opened his mouth and started to suck.

Huff.

All of the gray mist around them gathered in his mouth. Even the pavilion leader’s slowly solidifying body started to disperse, slowly being sucked up by Blackie.

“Stupid dog, you’re crazy. Do you think everything will be fine once you swallow the gray mist? The gray mist will explode in your body and contaminate you as well!”

The pavilion master laughed, “Hahaha, you’re done for. You’re about to turn into the same type of being as me!”

Chapter 872 Blackie, Danger!

Huff!

The unending gray mist was all absorbed into Blackie’s mouth.

Blackie's stomach started to expand. It started to look like a ball.

The pavilion leader cried out in agony. He finally lost control of his mist form as all the gray mist was swallowed by Blackie.

Woof woof woof!

Blackie cried out to the skies as his body kept expanding and shrinking, again and again...

The unending gray mist started to seep out of his body, surrounding him completely.

There was even gray mist within Blackie's pupils.

"L-L-Lord Dog, are you okay?" Xiao Chengfeng's teeth were chattering as he quietly retreated a few steps, maintaining a safe distance away from Blackie.

Even when he was facing the pavilion leader contaminated by the gray mist, he had not been afraid. Yet, he did not dare to make a single move when facing Blackie who was being contaminated by the gray mist. He was worried he'd be killed with a single wave of Blackie's paw.

The others were also looking at Blackie in fear, retreating as well.

Blackie had mentioned that the gray mist could only be cleansed in the expert's yard. He had just swallowed all the gray mist, so there would definitely be problems.

In truth, just by looking at Blackie's state, it was obvious that there were problems!

"Ugh!"

Blackie was constantly growling in a low tone. An aggressive aura exploded from within his body. The strong pressure caused Xiao Chengfeng and the others to suffocate. The gray mist was still circling his body.

However, at that moment, Blackie's pants suddenly glowed.

The glow from the pants was constantly fighting against the gray mist. In the end, it managed to suppress all of the gray mist.

The scene caused everyone's eyes to light up, pleasantly surprised.

"T-that's a very extraordinary pair of pants!"

“It’s actually able to suppress all that dense gray mist. It’s an amazing heavenly tool!”

“Is everything okay?”

Xiao Chengfeng answered, “These are pants that the expert made for Lord Dog. Its power might be immense, but it looks like it’s still not enough.”

Those words shocked everyone again.

The expert was the expert. Just a casually made pair of pants was already so powerful. It defied all expectations.

The expert could produce peerless heavenly items whenever he pleased?

Why was he so strong?

Yun Chen said with worry, “What do we do?”

The gray mist might have temporarily been suppressed, but Lord Dog’s body was still shaking. It was obvious that Blackie was struggling to hold on, and they did not know how long the pants would last. “Judging by the situation, we have to look for the expert,” Xiao Chengfeng said seriously.

That was the expert's beloved dog. If anything were to happen to Blackie, he would not know what to tell the expert.

They still had time to rush to the expert. He would definitely be able to save Blackie.

"Lord Dog, I'll bring you back to the expert. Please, don't bite me," Xiao Chengfeng walked over to Blackie as he spoke meekly. Right after that, he grabbed Blackie and headed toward the Forbidden Area.

They ran as quickly as they could. In less than four hours, they arrived at the foot of Fallen Immortal Mountain.

Even though it was their second time here, the people from the Divine Sword Mountain still looked at the mountain with deep respect.

Just by looking at it, they could sense that the whole mountain was filled with the power of Wisdom. It was right in front of them, but it seemed like its own world. There were countless auras that could not be described coming from within. They did not dare to do anything reckless at all.

The stele in front of the mountain, Jiang Liu the woodcutter, and even the two who picked up manure. Even the wildlife and the plants were things that would be unbelievable to the outside world. Every flower and plant was filled with Wisdom. A commoner would be able to become an immortal just by looking at everything!

Fu Yuanhai took a deep breath as he stared at the mountain. His eyes glinted uncertainly as he quietly followed behind Xiao Chengfeng.

“How is Lord Dog doing?”

The stele and Elite King were both drawn to Blackie’s condition.

They appeared at the same time and looked at Blackie anxiously.

“Xiao Chengfeng, what are you trying to pull? You caused the expert’s beloved dog to end up like this?”

“I even gave you two buckets of treasure. What happened?”

Xiao Chengfeng let out a bitter smile as he said helplessly, “The gray mist is really difficult to handle. Lord Dog ate a lot of it and ended up like this. I need to hurry up the mountain. The expert might be able to do something.”

“Ah, Lord Dog must be in a lot of pain.”

The stele let out a sigh. It had been contaminated by the gray mist before, so it could empathize. Thankfully, the expert helped him.

ncer

The Elite King said with concern, "Let's not delay things any further then. Hurry on up."

As Xiao Chengfeng carried Blackie up the mountain, the Elite King and the stele stopped the rest from advancing.

"Xiao Chengfeng can go up alone. The expert's on a break, so it's not good for all you cultivators to go up at the same time. Please, forgive us."

The few of them were strangers. They had never met the expert before, so they were stopped.

"Haha, that's fine. We won't go up then."

The Divine Sword Mountain's lord immediately retreated.

He had really wanted to look at the expert's awesomeness. After all, being able to see such an amazing character was something that only happened once in a lifetime. However, he knew the rules as well. He was merely a side character at most at that point, he still needed to work hard.

Behind everyone, Fu Yuanhai's eyes had an imperceptible tinge of reluctance.

Xiao Chengfeng already knew the way up, so he went straight to the middle of the mountain, and the courtyard slowly appeared.

“Lord Dog, don’t worry. We’re here. We’re right in front of your home now. You have to hold on!” Xiao Chengfeng consoled Blackie as he walked to the door. He could not help but feel a sense of apprehension.

Blackie had ended up like that. Would the expert be angry and decide to kill him?

Ah, he had been too reckless. He should not have allowed Lord Dog to suck up the gray mist!

Xiao Chengfeng clenched his teeth and knocked on the door.

Knock knock knock.

“Xiao Chengfeng has an urgent matter for Lord Saint.”

“Oh, no.” Nanan was the one who opened the door. Her eyes flashed as she looked at Xiao Chengfeng in confusion. However, when she saw Blackie on Xiao Chengfeng’s back, her eyes widened anxiously.

“What happened to Blackie?”

“It’s all my fault for being so weak. I caused Lord Dog to be like this.”

Xiao Chengfeng’s face was filled with self-blame as he brought Blackie inside.

At that moment, Daji and the others had already come forward as well. When they saw Blackie, their expressions changed. They were filled with anxiety and anger. They even had a violent glint in their eyes.

Blackie was not only the expert’s beloved dog, he was also an existence that had been with the expert since the very start. Practically all of them had been helped by Blackie before. However, at that moment, Blackie was reduced to that state.

Looking at him holding back the pain, tears started to form in Dragin’s eyes.

Daji had a serious look on her face. “Blackie ate too much gray mist.”

“That’s right. This time, we met an incredibly strong gray mist. It’s all my fault. I should’ve asked for reinforcements earlier. Can we save Lord Dog?”

Xiao Chengfeng’s face was incredibly bitter as he kept blaming himself.

“The gray mist won’t come out so easily. I’m worried that it’s currently corrupting Blackie.”

Daji shook her head as she frowned.

When she collected the gray mist before, she had always killed the host before sealing it. Yet, she could not kill Blackie in that situation.

“Oh, no.”

Suddenly, the door to the backyard opened. Li Nianfan walked over from the backyard and could not help but be stunned when he saw Blackie on the ground. After that, he hurried over.

“Is this...rabies?!”

Chapter 873 Interesting Thing From The Storeroom

Rabies?

Everyone was confused at the new word, but all of them relaxed.

Since the expert knew the illness, it probably meant there was a cure.

Xiao Chengfeng took a deep breath as he said regretfully, "Lord Saint, it's all my fault. I did not protect Blackie."

He was already prepared to be punished.

However, Li Nianfan waved it off, saying calmly, "There's no need for that. This has nothing to do with you. This illness is nothing much either. It's fine."

Blackie was reduced to that state by the gray mist, but it was not a serious illness?

All they could say was that the expert was still the expert. Li Nianfan said, "Dragin, go into the storeroom and bring me my syringe and the medicines next to it." "Oh."

Dragin acknowledged it and rushed into the storeroom.

She was naturally incredibly curious about the storeroom.

There were countless treasures inside. She had personally seen Li Nianfan casually take out amazing treasures from within it. It was like magic.

It was not just her. Everyone else was filled with curiosity when it came to the storeroom as well.

That was also Dragin's first time inside the storeroom.

The storeroom was very big. After the tidying up from the last time, it was much tidier inside, even if it was still a little messy. At the very least, everything had been sorted into categories.

Bookshelves, cooking equipment, farming tools, work tools... Everything had been organized well. Whether it was the books or the pots and pans, all of them would definitely cause pandemonium in the world if they were brought out. They would be heavenly objects fought over by countless cultivators.

In the deepest part of the storeroom, there were piles and piles of boxes as well. A vague heavenly power could be felt coming from them. It was even more impressive compared to the things outside.

Even though she was already used to everything around the place, the storeroom still caused Dragin to feel a sense of pressure.

It was too absurd.

Compared to everything inside, the things outside were nothing!

She followed Li Nianfan's instructions and looked for the syringe and medicines. However, she suddenly stopped when she arrived at the door. She looked curiously at a few of the things that were hanging there with confusion and curiosity.

She picked something up and looked at the words on it.

"Black Silk?"

What was that?

She would have to ask big brother.

Dragin's eyes flashed as she decided to just bring it along

Li Nianfan had been wondering why Dragin was taking so long, but he immediately took a breath of cold air when he saw what she brought out. He could not help but avert his gaze.

He was doomed.

What could he do? He was going to be doomed!

Yet, Dragin did not know what was going through Li Nianfan's mind. She happily rushed to Li Nianfan's side as she asked curiously, "Big brother, are these clothes? They feel so strange. There's so little cloth, and a lot of places are exposed. Also, what does the black silk mean?"

Li Nianfan let out a slight cough as he forced himself to keep his calm. "Ahem, black silk is actually a special stocking. Wearing it...yes, will give you a special kind of beauty. These clothes are used for special dances that enhance one's beauty as well."

The moment he said that, the eyes of all of the women around glowed as they looked at the black stockings and clothes hungrily.

No wonder they felt strangely fond of those clothes when they saw them. It could actually increase beauty.

Li Nianfan's lips twitched as he said, "That's not something a kid can wear. You need long legs and a well-developed body."

Little Fox looked at the black stockings longingly and said, "Brother Li, can I try it out? I have long legs and I think I'm quite well-developed."

Ah, that...

Li Nianfan could not help but glance at her.

She really was well-developed. She had curves in all the right places.

Of course, she would be able to wear it, but the main thing was who would be able to hold back if she did...

Daji could not help but say, "Mr. Li, why didn't you take out such nice clothes before?"

"I actually just thought about it not long ago," Li Nianfan sighed as he said honestly.

He had prepared those things for Daji and Fire Phoenix. It was to spice up their bedroom activities.

Everyone understood what the stockings could do. Those clothes were quite special. With certain dances to accompany it, it would be very alluring.

He had planned on using it soon, but he never expected Dragin to take it out just like that.

He was forced to say that they were normal clothes. Otherwise, would he not be labeled as a pervert?

In truth, Daji and Fire Phoenix had fox tails and phoenix wings. They were natural-born cosplayers. The joys he could get from watching them wear those clothes were hard to describe. It only recently did Li Nianfan suddenly remember about the black stockings.

However...

If Qin Manyun and the others wanted to wear it as well, Li Nianfan did not mind. At the most, he would get a few more nosebleeds.

Suddenly, Blackie's whimpering snapped Li Nianfan out of his thoughts. He laid on the ground and wagged his tail. He was looking at Li Nianfan pitifully, and his eyes even started to tear up. He was suffering immensely.

'I've been lying down here for so long, withstanding the pain. All of you are over there discussing stockings. Are you all people?

'Hurry up and save me!'

"That's right, I almost forgot. I have to save Blackie."

Li Nianfan pat Blackie on the head as he put some medicine in the syringe before stabbing it into Blackie's butt.

The moment the needle was in, Blackie no longer shook. His eyes were no longer rolling as well. He had noticeably calmed down a lot.

“Lord Saint, is one needle all it takes?” Xiao Chengfeng was stunned. He knew it would be easy for the expert but he did not think it would be that easy.

Li Nianfan smiled and nodded, “Yes, Blackie will be fine after a few days of rest. Thank you for sending Blackie back. Otherwise, he would’ve turned into a mad dog.”

“Lord Saint, you’re being too polite. It’s my fault for not protecting Blackie.”

Xiao Chengfeng waved it off, not daring to take credit. He was already incredibly lucky the expert did not blame him.

“Would you like to stay behind for a meal?” Li Nianfan invited.

“I’ve already taken up so much time. I won’t stay much longer,” Xiao Chengfeng rejected while he held back the pain.

A meal was incredibly valuable, but he knew very well that he had no right to stay behind for a meal after failing to protect Blackie. If he had accepted the expert’s generosity, he might have caused the expert to be unhappy.

Even though he liked to show off, he knew his place in front of the expert.

Hence, Li Nianfan sent Xiao Chengfeng off. Turning around, he saw that the ladies had already taken the stockings and were figuring out how to put them on.

The scene felt a bit off, but it was also incredibly exciting.

“To have these fairies wearing stockings, I must be the luckiest person alive...”

Chapter 874 The Expert’s Rare Hobby

Very quickly, Daji and the others opened up one of the stockings as they looked at it curiously in their hands.

“What a strange pair of pants,” Fire Phoenix could not help but say.

It was one thing for it to be so thin, but it was also full of holes. It seemed to be transparent as well. Would wearing it not reveal all their flesh?

If one were to call them pants, they did not really block anything. If one said they were not pants, they seemed to be somewhat wearable.

Shi Tuqin curiously reached out and touched it. Her eyes started to glint.

She exclaimed, "This feels so slippery. It's cool and feels incredibly smooth. Just touching it feels unbelievably comfortable. It would probably feel even more comfortable to wear it."

The others nodded as well.

They were all immortals and had seen various treasures. Yet, it was the first time they had seen such special pants and material. With the fact that the expert had brought it out, they could not help but feel curious.

The stockings were probably a form of treasure as well.

"Does it really feel that nice to touch?" Li Nianfan got curious as well. He could not help but reach out and touch it. He was immediately shocked.

That feeling was impeccable. If Daji and the others wore it, would it feel even better to touch them?

It really was something gifted by the system. Why did he let it collect dust on the wall before this?

"Can we put it on now?" Fire Phoenix looked at Li Nianfan in anticipation. Her fiery eyes were filled with hope.

"Not yet."

Li Nianfan shook his head. "What you're wearing right now doesn't match with the stockings. Hold on, I have to design some clothes that would go with it."

Stockings were something that needed very specific clothes to accompany them. Otherwise, they would look incredibly out of place. Li Nianfan would naturally not allow something like that to happen.

Immediately, he picked up a pen and a piece of paper and started to design something. Daji and the others looked for a while before they started to head off to do their own things.

Daji and Fire Phoenix were in charge of cooking. Nanan, Dragin, and Qin Manyun went to the backyard to tend to the fruits and vegetables. Shi Tuqin and Little Fox went to wash the clothes. They split up their tasks incredibly clearly.

Blackie remained lying on the ground. Waves of gray mist started to slowly flow out of his body and be absorbed into the surrounding area, integrating itself with the wisdom around the courtyard and patching up the deficiencies.

Xiao Bai was the one who was the freest.

Everyone had their own awareness. They enjoyed the feeling of busying themselves during their carefree days. It had been a long time since anyone slacked off. After all, it was boring not doing anything the whole day.

Xiao Bai looked around and finally rested his gaze on Blackie. He walked over and started to massage Blackie, saying kindly, “Blackie, don’t worry. Let me help you hurry up your recovery.”

After having dinner, Li Nianfan threw himself into creative works. He was completely immersed. Even his eyes started to shine brightly as he enjoyed himself during the process.

He did not stop even when the sky was completely dark. At that moment, there were already over thirty of his creations stacked up in front of him. All of them were clothes that were incredibly suited to be worn with stockings.

Not far away, Daji and the others naturally gathered together as they looked at Li Nianfan silently. Their eyes were all doubtful.

Qin Manyun could not help but say, “Surely he’s too immersed in this? Are the clothes really that amazing? He seems to look so happy.”

Shi Tuqin nodded meaningfully, “He’s basically forgotten everything else. Now I know that he actually has his hobbies, too.”

Before, Li Nianfan would always be incredibly calm and would always have deep insights about everything. No matter what, everything he did would casually cause heaven and earth to resonate with him. Everything he ended up doing was unrivaled, so everything he did was done calmly.

Yet, he was completely immersed and unable to stop designing the clothes at that moment. It really seemed like a rare hobby for Li Nianfan.

They had to say that the clothes really did look quite special. It felt like something from a whole new world.

Daji said seriously, "It looks like these stockings are incredibly important to him. We'll have to properly wear them for him to look at."

The girls could not help but look at their figures. Long legs, incredible figures, and supple skin. They should be able to satisfy the requirements to wear the stockings. They could not afford to disappoint Li Nianfan.

"Alright, let's stop here for now."

It was past midnight when Li Nifanfan put down his pen and let out a satisfied smile.

Over 50 clothes. It was enough for now. He was anticipating it...

Daji walked over and said, "It's late. Let's go and rest."

"Okay."

Li Nianfan nodded before he brought Daji and Fire Phoenix back to their room.

The next day, Li Nianfan flew to the Heavenly Palace on the Deluxe Merit Cloud.

There were no obstacles on their way, so they went straight to where the Seven Fairies were.

With the state of the Seven Dimensions, Xiao Chengfeng, Yang Jing and the others were all busy with the Origins Realm. The Seven Fairies were incredibly idle, and had been playing around in the Heavenly Palace. When they heard that Li Nianfan was there, they immediately waited for him respectfully.

When they saw Li Nianfan, they said, "Greetings, Lord Saint."

"Seven Fairies, sorry for disturbing you. These are just some small presents, I hope you like it."

Li Nianfan took out the fruit basket that he had prepared. There were exactly seven baskets, and each of them were filled with fruits. They were many kinds of fruits, and the amount was quite substantial.

He had gone over to ask for a favor, so he naturally had to go prepared. The only thing he could really bring was something like a fruit basket, so he naturally had to be very careful with it.

"Wow, Lord Saint, you're being too polite. We like these fruits so much. How could we not like them?"

The Seven Fairies' eyes brightened, and even their breathing started to quicken.

Even The Jade Emperor and Empress that were observing them had envious gazes. They thought about asking for some once Li Nianfan went back.

some

Li Nianfan's place had greatly improved in its Wisdom after integrating the gray mist. Everything inside had evolved. The fruits contained near-perfect Wisdom. Eating them would provide great benefits.

After all, they were in an environment that lacked Wisdom. Unless they relied on the expert's fruits, their cultivation improved far too slowly.

"I came over here to ask for a favor."

Li Nianfan went straight to the point as he took out his drawing.

The Seven Fairies' eyes brightened when they saw the various dresses on the papers.

The designs were incredibly unique. They were beautiful and special both in terms of how they looked and how they were designed. It really widened their horizons.

So, clothes could be designed like that.

The Seven Fairies were all incredibly adept at sewing. So, they knew at a glance that those dresses were incredibly good at showing off one's figure. It was much better than the clothes they normally wore. If a woman wore it, it would be incredibly eye-catching.

There were even super short skirts, and long skirts, even sheath dresses... All of them looked heavenly.

Just by looking at it, all of them had the urge to wear the dresses.

He really was the expert. Even the clothes he designed were so unbelievable and shocking.

Chapter 875 Eye Candy. Alliance Leader Revealed!

"These clothes look so fresh and unique. Lord Saint, you really are amazing," Hong exclaimed. The other six fairies looked at Li Nianfan with admiration as well.

Lan looked at all the drawings. She raised her eyebrows slightly as she said, "However, I keep feeling like something's missing."

Most of the dresses could be worn by themselves, but some of them were far too short. It was left emptier at the bottom, which made her want to add something to it.

“Good eye. These outfits are all meant to go with stockings,” Li Nianfan praised before producing a pair of stockings.

The Seven Fairies looked at it curiously before they were taken aback. They felt like the stockings were a bit exaggerated in design, but they also fit their aesthetic views perfectly. It made them really want to try it

on.

There were no girls who did not like to look pretty, it was something that came naturally.

Li Nianfan could tell what they were thinking with a glance. He laughed and said, “If you like it, I still have extras to give to you.”

The Seven Fairies in stockings. Li Nianfan was about to turn the Heavenly Palace upside down...

“Really? Then thank you, Lord Saint.”

They bowed to Li Nianfan again, incredibly thankful.

Other than being beautiful, they could see that the stockings themselves were incredibly extraordinary. They were an incredibly rare treasure that could stand both the heat and the cold. Even preventing fire and water were just basic functions.

After that, they started to work on Li Nianfan's designs incredibly earnestly.

Even though there were seven of them, clothes were not something that could be done that quickly.

Li Nianfan looked on as he observed them.

The Seven Fairies were using actual clouds. Every time they raised their hands, the clouds turned into threads. The threads danced on their fingertips beautifully.

They dyed the threads using the colors of the rainbow. The colors were naturally something that could not be compared to anything in the normal world. It caused the clothes to exude a heavenly aura.

They really were immortals. How amazing.

Li Nianfan sighed in his heart. He could not help but feel that his stockings were amazing.

After four hours, Li Nianfan brought the clothes back, incredibly satisfied.

Daji and the others were full of anticipation. They were incredibly curious about the clothes and stockings Li Nianfan had. At the same time, they were a little apprehensive. They did not know if Li Nianfan would be happy with it after they put them on. If Li Nianfan was disappointed, they would be incredibly sad.

After all, it was rare for Li Nianfan to be so passionate about something.

The next moment, they looked up at the same time. When they saw the signature golden cloud in the skies, they let out a smile on their faces.

Li Nianfan was carrying a large wooden box in his hands. The moment he landed safely, they rushed forward and surrounded him.

Daji asked, "How did things go?"

"The Seven Fairies have incredibly deft fingers. All of the clothes have already been made."

Li Nianfan gulped down some water before he put the box down and said, "Take a look for yourselves."

Immediately, the girls impatiently opened the box and looked at what was inside.

Li Nianfan chose the appropriate clothes for each of them. After that, he gave them a stocking each before he impatiently asked them to head inside and change.

The girls obediently listened to Li Nianfan's instructions and went to change their clothes.

Looking at them enter their rooms one by one, Li Nianfan could not stop his heart from beating quickly. He was filled with anticipation as he waited for the moment they walked out.

Even time seemed to go slower.

Finally, with a creak, the girls walked out of their rooms one by one, neatly presenting themselves in front of Li Nianfan.

On their bodies were naturally the clothes that Li Nianfan had picked out for them. It was a completely different look from their usual clothes.

The only thing they had in common was the stockings that were under every one of their skirts.

Their long, fair legs were covered by the stockings. It caused their legs to look even sexier, filled with allure.

Even though they were the same stockings, each of them exuded a different feeling.

Even with stockings on, Daji still had a cold and proud feeling to her. She looked like a queen.

Fire Phoenix was incredibly hot. She had an incredible sexiness. She felt like an imperial sister.

Little Fox was more playful, but she had the seductive allure of a fox. Her charm and bubbly personality were on full display.

Shi Tuqin and Qin Manyun were elegant and stylish, they looked like secretaries.

Looking at the various girls who all had different styles in front of him, Li Nianfan's eyes brightened.

The stockings were so amazing. The moment they put it on, he felt like his mind and body were at peace.

His hard work during the night was worth it. In the future, he would have them wear it more. He had more eye candy!

At that moment, he really felt like he had won in life.

He had food and a nice place to stay. His life was carefree and his lifespan had been extended greatly. He also got to see all these beauties in stockings. He was enjoying every facet of his life.

That was right, other than the stockings, there were also those dancing outfits. If the outfits went with certain dances, it would be a feast for the eyes.

Li Nianfan was no longer that satisfied. His thoughts had started to run wild.

When Li Nianfan was considering the women in front of him, the girls were as well. They revealed expressions of surprise.

Shi Tuqin exclaimed, "I can't believe there's such a big change after we put on those clothes. The stockings look weird, but the style is something I can't even look away from."

Little Fox said happily, "These long stockings feel really comfortable."

Li Nianfan said with a pleased smile, "Do you all think it's good?"

Daji nodded, "It's really nice. These clothes aren't just pretty, they really suit us, too."

They immediately fell in love with their clothes the moment they saw them. No matter if it was in terms of style or the aura it exuded, it was really suited to them. It had perfectly shown off their good points, which caused them to look even better wearing them. Could they not like it?

As Li Nifanfan was designing the clothes, he had them in mind. So he could naturally match them perfectly.

“All the big sisters are so pretty. I want to wear those clothes, too...”

Nanan and Dragin’s eyes were shining as they looked on with admiration.

However, they looked at their legs and their bodies that had not gone through puberty yet. All they could do was suppress the urge in their hearts.

They felt like if they wore clothes like that in their current state, they would only be embarrassing themselves.

After that, Li Nianfan had the girls try out the various outfits. After enjoying himself thoroughly with the sights, he went back into his room to rest after lunch.

He had only fallen asleep after midnight last night and had gone to look at the Seven Fairies sowing their clothes early in the morning. He needed a proper nap.

At the Heaven Plundering Alliance, a few figures appeared before heading into the main office.

The figures were obscured by gray mist. Only when they entered the Heaven Plundering Alliance did they reveal their true faces. If Xiao Chengfeng and the others were present, they would definitely be shocked when they recognized the person.

It was Zhou Yuanhai!

At that moment, the disciples of the Heaven Plundering Alliance were all knelt down on the floor as they said reverently, "Hail, Leader!"

He was the leader of the Heaven Plundering Alliance!

Chapter 876 Praise My Name

Zhou Yuanhai had a cold look on his face as he said bluntly, "What's the progress on the matters I asked all of you to do?"

"Leader, we've done everything as you asked."

"Very good."

Zhou Yuanhai nodded with a cold smile.

He hoped that the group from the Heavenly Palace would not disappoint him. He hoped that they would be more efficient and gather more gray mist.

In truth, everything since the Divine Sword Mountain had been his plot.

The Sky Merging Sword had always been in the Heaven Plundering Alliance. He had released it and appeared as a sword servant. It had been for the sake of using Yun Chen to get close the Xiao Chengfeng and the others. He had managed to infiltrate them and earn some of their trust.

Right after that, he revealed the internal secrets of the Wisdom Pill Pavilion. It had deepened his infiltration and established some merit for himself, making him an even more trustworthy figure.

He had already achieved the initial success! At the very least, he was already getting closer and closer to the expert!

He had even arrived at the foot of the expert's mountain and seen many secrets!

"Being able to refine heaven and earth, fixing the flaws in Wisdom. You've finally appeared."

Zhou Yuanhai narrowed his eyes. His expression quickly flashed from excitement to coldness.

He had seen the Fallen Immortal Mountain. He had found out that the expert was about to cleanse the gray mist. He was certain that the expert on the mountain was the person he had always been waiting for. It was just a pity that he could not see the expert!

He had just been a step away from going up the mountain. However, he knew that that step was not so easy to take.

If he forced his way in, he would definitely die. He could only take things step by step.

"I've waited for countless years. There's no hurry. I don't care about this insignificant amount of time," Zhou Yuanhai mumbled to himself as he looked into the distance, staring toward Fallen Immortal Mountain's direction.

"Leader, are we to continue our actions?"

"Of course!"

Zhou Yuanhai said, "Continue getting the Heavenly Palace to look for the gray mist. Have them gather even more and increase their efficiency."

"But leader, can't we use to gray mist, too?" the disciple asked, not understanding anything

The Heavenly Plundering Alliance could be said to be the first to ever obtain the gray mist. However, with the explosion of the gray mist, the leader actually decided to stop collecting it. He was merely getting others to collect it. Was that not just strengthening the others?

Zhou Yuanhai laughed, “Hahaha, what’s the point of just having gray mist? Are my plans something someone like you can understand? Just do it!”

“Understood!”

The disciple immediately acknowledged his orders and left.

Zhou Yuanhai continued to walk deeper in. Very quickly, he arrived underground. That place was filled with gray mist. There was much more inside than even the Wisdom Pill Pavilion had. However, he was within the gray mist, but not contaminated at all.

Instead, he opened his mouth and started to train with the gray mist.

He was actually able to cleanse the gray mist as well!

...

Time flowed quickly.

A month passed by in a flash.

During that time, the people of the Heavenly Palace, such as Yang Jing, Xiao Chengfeng, Juling Shen, and Tong Tian had been hard at work, helping those who were contaminated by the gray mist in the Origins Realm. At the same time, the Divine Sword Mountain and the Yun Clan had joined them as well, collecting the gray mist. Yang Jing and the others were filled with admiration and envy when they found out that Xiao Chengfeng had broken through to become a Wisdom Dictator after witnessing the chess match. They increased their efforts, trying to establish as many merits as possible.

The warriors that had absorbed the gray mist should have become a lot stronger and exploded in terms of their temperament. They should have brought disaster to the world, but thanks to the existence of the Heavenly Palace, they ended up acting more like street rights, all trying their best to hide themselves. They did not dare to act out, for fear of being noticed.

One day, at some mountain in the Southern Star Region, a crack appeared in the ground. Large amounts of gray mist started to come out from that crack.

“Who has been killing my seeds? I want to be born and cleanse the world completely! I am God. Praise my name, and live forever!”

An incredibly imperious voice was heard from those mountains. In a flash, the warriors and the beasts within the mountains all submitted. They walked toward where the gray mist was.

With the gray mist that was constantly being cleansed, the gray mist that had been hiding in a certain hidden realm finally exploded, trying to reappear in the world.

Slowly, many of the strong cultivators in the Southern Star Region felt tremendous power. They had thought that a hidden treasure had appeared and all of them gathered.

Another month passed.

That day, an indescribable power erupted toward the skies like a volcano.

The power was too terrifying. The Origins Realm had no limits, but at that moment, everyone felt a shudder in their hearts. That power had actually encompassed all five star regions of the Origins Realm.

“Praise my name, and live forever!

“Praise my name, and live forever!

“Praise my name, and live forever!”

The sound seemed low, but it resounded throughout the skies. It reverberated in everyone’s ears.

When they heard that sound, countless people were first confused. Then, they were shocked. After that, they become fanatical as they also started to chant, “Praise my name, and live forever!”

They all started to move toward the source of that power.

The cultivators that had absorbed the gray mist were even more fanatical. They no longer hid themselves, and instead, rushed toward the source of the summon.

In cities, underground, royal palaces, and every star, contaminated cultivators came out of hiding

All of them were surrounded by gray mist. Their whole bodies were full of white hair. The seeds of gray mist had encompassed the whole Origins Realm. There was no way to kill them all!

"I can feel it. God is summoning us. Revered lord, we're coming."

"Hahaha, this is the true origin of Wisdom. We'll never be defeated!"

"With God's instruction, we won't need to hide anymore."

"Get lost!"

Xiao Chengfeng and Yang Jong shouted at the same time, dispersing that strangely alluring voice. Their expressions turned heavy at the same time.

Yang Jing had a cold look in his eyes. "It looks like we've cleansed too much of the gray mist. We angered the so-called 'God'. Another calamity might be happening."

Xiao Chengfeng let out a cold snort. "Humph, the last time, it hid itself just from a single arrow by the expert. Has it finally lost patience? This is better. There's no reason to fight all these small battles, we can head straight for the source!"

As they said that, their powers surged as they stopped all the nearby gray mist users that had revealed themselves.

"God is summoning us. You actually dare stop

us?!"

"Deviants. Prepare to suffer God's wrath! You'll definitely die!"

"The gray mist is true Wisdom. Join us. Submit to God and achieve eternity."

The contaminated cultivators had already gone crazy. They looked at those from the Heavenly Palace without fear and even started trying to tempt them.

Yang Jing shook his head. "How scary. There's no saving them. Kill them all!"

Chapter 877 Miraculous Soldier

Very quickly, Yang Jing and the others settled the gray mist cultivators in the area.

However, they did not look that happy. Instead, they frowned and looked into the distance.

The gray mist had erupted over there, and it had moved the whole Origins Realm. The cultivators that had been infected by the gray mist had gone crazy. Even the ones they had killed barely made a dent in the numbers.

They knew very well that the cultivators there were not that strong. They were just small fries. The really strong cultivators would have already arrived at the place where the gray mist erupted.

"Yang Jing, if we head there alone, we might be at a disadvantage," Xiao Chengfeng said seriously.

Even someone who liked to brag as much as he did had to face the cruel truth. The place the gray mist exploded would absolutely have existence even stronger than the Wisdom Pill Pavilion's leader. Even though he had broken through to the Wisdom Dictator realm, he would not stand a chance.

Furthermore, how many cultivators had been contaminated by the gray mist? There was no way to count their numbers!

How could they face so many cultivators?

After going through Blackie's incident, he had become incredibly careful. He had caused Blackie to almost be harmed by the gray mist last time. Even thinking about it made him feel guilty.

The gray mist could not be underestimated!

"I know that. If we go over, we'd just be looking to die."

Yang Jing glanced at Xiao Chengfeng, saying, "Did you forget what Nanan said? She asked us to look for her if we were ever in a pinch. She really wants to take revenge for Blackie."

The last time, Blackie had been harmed to that degree, and everyone at Li Nianfan's residence remembered it clearly. Nanan had purposely relayed a message to the Heavenly Palace. If something like that happened again, she wanted to be called over so they could take revenge for Blackie.

"That's right. Such a large matter has to be reported." Xiao Chengfeng nodded.

Yang Jing continued, "Other than relying on Nanan and the others, we should also make some preparations and invite more people!"

After that, they split up.

Xiao Chengfeng went to Li Nianfan's residence to tell Nanan about the situation. Yang Jing went around recruiting warriors, preparing to make a move.

Very quickly, the Divine Sword Mountain, the Yun clan, the Su family, and other forces that were close to the Heavenly Palace all gathered.

However, their powers were not too great. Those who were below the second step of a Wisdom Elite were all rejected by Yang Jing.

At that moment, a flash of light descended as Jiechi led a group of monks to the Heavenly Palace.

Yang Jing raised an eyebrow, saying curiously, "Jiechi, why are you here? The monks behind you aren't nearly as strong enough. Are you planning on coming with us yourself?"

Compared to the Heavenly Palace, Buddhism did not participate in battles that much. Even though they had eaten with the expert a few times, the benefits they got were limited, and their cultivation was not that high.

Even Jiechi was merely at the third stage of Wisdom Elite. That was thanks to the manual Li Nianfan had given them.

Jiechi clasped his hands together as he shook his head with a smile. "I only came here this time to bring someone to you."

"Oh?"

Yang Jing and the others were incredibly curious.

"Big Lord Demon, come out."

Jiechi pointed behind him as Big Lord Demon walked out.

Yang Jing looked up and raised an eyebrow. "You're only a first-step Wisdom Elite?"

That was too weak. He was only slightly better than cannon fodder.

However, Yang Jing had a thoughtful look in his eyes. That person looked a little familiar.

"He's Big Lord demon. Back then, he caused havoc everywhere with Louhou. He's also the only person the expert has shown mercy,

too.”

Jiechi looked down as he continued, “The expert spared his life for a certain reason that I can’t explain. You should understand yourselves.”

Louhou?

The only person the expert showed mercy to?

Just that name was a heavy blow. It caused Yang Jing and the others to hesitate.

The expert had always maneuvered everything under the heavens like a chess match. Everything was merely chess pieces to him. Someone like Big Lord Demon was not even worth being a sacrificial pawn. He should be dead. However, he somehow managed to survive for so long.

Yang Jing’s eyes suddenly glinted as he said, “I remember now. When the seventh world first interacted with the other worlds, we suffered so many attacks from them. At the last moment, one of your disciples thought he was a hero and brought those from the outer world to the Fallen Immortal Mountain. That group completely perished! That person was Big Lord Demon!”

Right after that, he remembered that it was not the first time Big Lord Demon had brought people to the expert and caused them to completely perish.

Big Lord Demon was a Buddhist, and his cultivation level was not high. That was why Yang Jing barely registered his existence. After so long, Yang Jing could barely remember him.

Only...

Even though Big Lord Demon's results were quite good, it did not really say much. Furthermore, Yang Jing felt like he was incredibly troublesome. How could he keep running to the expert every time he had any trouble? If he caused the expert any trouble, he would die!

"Lord Erlang, I have records about Big Lord Demon here."

Taibang Jinxing walked over. The Heavenly Palace had recorded the affairs of every immortal. Their interactions with the expert were placed on incredibly high importance. Big Lord Demon was among them. When Taibai Jinxing looked through Big Lord Demon's past, his expression changed. He looked at Big Lord Demon with a complicated expression, keeping a safe distance.

Yang Jing took the records from Taibai Jinxing's hands. Looking at it, he was stunned as well.

Big Lord Demon's first battle was not long after he escaped the Underworld. He had been sealed into the Purple Golden Gourd by Nan'an, but was let off by the expert after that. His subordinates were all killed.

After that, Big Lord Demon led Black Kirin to block the expert's path, causing the Black Kirin to die.

After that, Big Lord Demon appeared during the Grand Ceremony of Buddhism. That time, the Demon God behind him had not even been able to do anything when it died.

After that, it was the Ghost King...

It was failure after failure.

Whoever that went with Big Demon Lord would always end up dying.

Yang Jing put down the book and could not help but take a deep breath as he retreated a few steps.

He exclaimed, "There's actually such a horrifying person in this world!"

He no longer dared to look down on Big Lord Demon. He was even treated Big Lord Demon as an incredibly dangerous figure.

Even Cultivator Junjun looked at Big Lord Demon differently. He sincerely said at the important point, "The problem came from the first time he was released from the Purple Golden Gourd by the expert. He already turned into the expert's chess piece then!"

"That's right. Looking at his path, Big Lord Demon had actually been incredibly important. If not for him, how could so many opponents have died? The Heavenly Palace managed to secure so many senseless victories because of him!"

The Jade Emperor immediately nodded, already looking at Big Lord Demon differently.

The expert's plans really exceeded anyone's imagination. Who could possibly imagine that he managed to craft a chess piece like Big Lord Demon!

Jiechi said, "Now that such a big thing is happening, I feel like a killing machine as strong as Big Lord Demon should be mobilized."

Cultivator Junjun nodded deeply, "Big Lord Demon should be mobilized. He's a miraculous soldier!"

Chapter 878: Hidden Realm of the Gray Mist

As someone personally released by the expert, Big Demon Lord being able to survive for so long and having so many special points shocked everyone.

The expert's chess piece was such a hidden talent. No one dared to believe it.

However, Yang Jing suddenly thought of an incredibly severe problem. He said seriously, "We can't happily bring Big Lord Demon along!"

The others could not help but jump as well.

Big Lord Demon's specialty seemed to be bringing death to any group he was with. If he left with the Heavenly Palace's group, would they not fall under the same misfortune as well?

Even though they were all the expert's chess pieces, no one knew if they would end up harming friendly troops.

Cultivator Junjun said, "Why don't we have Big Lord Demon move on his own?"

The lord of the Divine Sword Mountain nodded, "That's a good plan. I feel like a talent like Big Lord Demon should be able to infiltrate the enemies."

"I agree."

"I'm thinking the same."

...

Everyone reached a common consensus. After that, they stared at Big Lord Demon, waiting for him to give his own opinion.

After that, clasping his hands, Jiechi said, "Big Lord Demon, since so many of them believe you so much, I believe you can use your powers to get through all those pitiful infected. Go ahead."

'Why me?!' Big Lord Demon's lips twitched. He was burly and dark-skinned. It was easy to overlook him.

Even though he was starting to feel like he was a team killing machine as well, but it was one thing for him to think so. For others to think the same felt just like social suicide.

At the same time, he started to suspect that the expert had done something to him. No matter what, it was fine if he did not die. What did other groups dying have to do with him?

However...even if he really was someone under the expert, he was not omnipotent.

He had just stepped into the first stage of the Wisdom Elite realm. He was just slightly better than cannon fodder. Could he really kill anyone?

Big Lord Demon fell silent for a moment as everyone looked at him. In the end, he nodded stubbornly.

He had a lot of experience in infiltrating enemies. He should not be in too much danger in the short term. However, he still said, "I can proceed first, but you have to quickly come help me."

Yang Jing nodded seriously, "Don't worry, we will!"

After that, Big Lord Demon left under everyone's gazes.

Not long after he left, Xiao Chengfeng brought Nanan, Dragin, and Blackie over.

Seeing Blackie, Yang Jing, and the others were shocked. They hurriedly asked in concern, "Lord Dog, why are you here? How are your injuries?"

Blackie waved his paws, saying arrogantly, "How could mere gray mist harm me? I have something against this gray mist now. I have to do this myself!"

Everyone could tell that Blackie held a grudge and wanted revenge.

Dragin asked, "Are we leaving now?"

Yang Jing let out a slight cough. "Ahem, let's wait for now. One day... No, let's leave in three days."

Big Lord Demon had just left. He did not know if the 'buff' was still there. Furthermore, if they actually caught up to Big Lord Demon...

It was better if they waited.

...

At the same time, in the Heaven Plundering Alliance, Zhou Yuanhai had naturally felt the changes in the Southern Star Region.

He let out a smile as he licked his lips, "The Unknown has finally lost its patience. Yes, the pace is finally picking up. I was beginning to lose my patience!"

At that moment, a man with an incredibly ordinary appearance but wearing exotic clothes flew in from a distance. It was as if space was twisting and intersecting with time itself. He distorted in front of Zhou Yuanhai.

He bowed. "Leader."

Zhou Yuanhai ordered, "The Unknown has finally erupted. The greatest power from the calamity back then is definitely there. Tian Luo, you're my right-hand man. I'll leave this to you. Bring me back that power."

He did not plan on revealing himself.

The Sky Merging Sword and the gray mist could be given to the Heavenly Palace to entice them, but there were some things he still wanted. One of them was the secret realm that had just appeared!

“Don’t worry, I won’t disappoint you.” Tian Luo’s expression did not change as he said calmly. It was as if he was talking about an incredibly ordinary task that had no pressure at all.

“Don’t be careless. Be sure to be more careful if you see the group from the Heavenly Palace. Behind them is the expert who can purify the gray mist!”

Zhou Yuanhai had a serious look on his face. After that, with a wave of his hand, an incredibly large, white pearl fell from the sky, falling in front of Tian Luo.

“This is the Sea Boiling Pearl. It’s a supreme treasure, take it.”

Tian Luo accepted the pearl before he prepared to leave. He suddenly thought of something and said, “That’s right. Leader, I captured someone. She came from the Ancient Forbidden Area. She once brought the Heaven Plundering Alliance into the Ancient Forbidden Area. Other than that, she had even brought the Murong Family, the Mu family, Taiyin, and Sitian Manxiong into the Ancient Forbidden Area. However, everyone she brought in died. She says that she has a grudge against the Heavenly Palace, but I feel like those dead troops are related to her!”

He was referring to the Left Messenger.

Back then, the Left Messenger had brought the Heaven Plundering Alliance over and led them to their deaths. It had humiliated the alliance. Tian Luo had used some methods to capture her, but he did not know how to handle her.

“You’re too particular about things. She’s just a piece of trash not worth looking at.”

Zhou Yuanhai frowned. Tian Luo was very strong, but he put his hands on all sorts of matters. If he noticed a problem, he would try to solve it no matter how small it was. He did not look far enough.

“However, since you’ve already captured her, just do with her as you please”

“I understand.” Tian Luo nodded and left.

...

After five days, Blackie and the others stepped foot into the Southern Star Region.

Just as they were about to arrive at where the gray mist had erupted, they were stopped.

A cultivator said arrogantly, “Stand right there. This place is for gray mist cultivators. You rejected cultivators have no right to enter!”

He felt very special. After all, in his eyes, those who did not absorb the gray mist were all cowards who did not pursue true Wisdom. They were all trash to be thrown aside.

Suddenly, someone shouted out, “No, they’re clearly from the Heavenly Palace! They’re our mortal enemies!”

“That’s right, they’re the ones targeting gray mist cultivators. That’s the arrogant Xiao Chengfeng, I know him!”

“They came here to kill us all. Prepare yourselves!”

“Hahaha, they dared to come here. They’re looking for death!”

...

Suddenly, countless gray mist cultivators surrounded them, filled with killing intent.

An incredibly strong aura suddenly appeared. Even though the person had not appeared, the pressure was immense. It locked onto the Heavenly Palace’s group.

Normally, a lot of those people would avoid the Heavenly Palace. However, they were now in the nest of gray mist. They had many experts and were large in number. It was enough to kill those from the Heavenly Palace!

Chapter 879: Joining

Countless immense auras locked onto Blackie and the others, filled with killing intent.

“Speak up, how do you plan on dying?!” Just as it was happening, Blackie walked forward.

He slowly walked forward before he said, “Don’t misunderstand, we’ve actually used the gray mist as well. We’re on the same side!”

Haha.

Everyone was cold, thinking that Blackie was speaking nonsense.

The next moment, their expressions changed.

That was because gray mist started to appear around Blackie’s body. Other than that, Yang Jing and the others started to materialize gray mist as well!

“Y-you’ve actually absorbed gray mist?!”

Everyone widened their eyes at the same time as they stared at Blackie and the others in shock.

“Since you’ve chosen the same path, we’re on the same side. Why were you so ruthless to us?” they asked with a bitter tone.

The Heavenly Palace had already prepared their answer. Yang Jing smiled slightly as he said, “Everyone, it was our fault before. We pursued and killed those with the gray mist so we could use it for our own training.”

The moment he said that, there were countless looks of realization.

Killing others to get more gray mist was something very normal. Many among them had done the same. However, they had all made their intentions clear from the start. None hid it as much as the Heavenly Palace did.

It caused them to think that the Heavenly Palace were good guys.

“How ruthless. You guys hid it so well!”

“The whole world was filled by all of you!”

“Heavenly Palace. You’re something else. You’re so ruthless. The higher-ups will definitely have a spot for you!”

Suddenly, a figure shot over from the distance, appearing in front of Yang Jing and the others in a flash. He had an arrogance to him but there was a smile on his face. It really made everyone feel uncomfortable.

He looked at Yang Jian and the others with a look of praise.

Killing their own with ruthless means. Hiding it so well. They were all talents. It was what the gray mist needed.

Killing others to obtain the gray mist would be regarded as terrible behavior anywhere else. However, among the gray mist cultivators, it was something worthy of praise. It was a way of cultivation.

That person introduced himself, "I'm Xu Da, the leader of the Wind Whispering Pavilion. I welcome all of you."

Yang Jing and the others greeted very naturally, "Hello, Cultivator Xu."

"Come, let me show you around." Xu Da brought them forward.

He had no suspicion toward the Heavenly Palace at all. Absorbing gray mist was the best form of proof. Everyone walked the same path, so they were temporary allies.

Listening to Xu Da, Yang Jing and the others got an overview of the situation.

The Wind Whispering Pavilion was the most prominent force in the Southern Star Region. When the gray mist had just started to erupt, they were the first to arrive. Other than them, there was also the Sky Approach Sect, the Imperious Sect, and four other major forces.

Without an exception, all of them were contaminated by the gray mist.

They had been Wisdom Dictators. With the gray mist in them, their powers improved drastically. Even the Wisdom Pill Pavilion's leader would not be able to stand up to any of them.

That caused Yang Jing and the others to be relieved. Thankfully they had been careful and made preparations. They were going to join the gray mist cultivators to see if there were any chances.

"Fellow cultivators from the Heavenly Palace, I know you like to kill others to steal their gray mist, but you can't do that here!" Xu Da warned.

"Oh? Why? As long as we swallow all the gray mist here, we'll be the strongest!" Xiao Chengfeng frowned and said unhappily. He shouted loudly.

The others had aggressive expressions as well.

Seeing their reactions, Xu Da was even more sure that they had all absorbed the gray mist. He smiled coldly and said, "There are still many cultivators in the Origins Realm. They're dumb and don't know how good the gray mist is. They're trying to kill gray mist cultivators everywhere. We have to stand

together to fight against them! This is a war between the new and old era. We can't fight among ourselves!"

Xiao Chengfeng said, "If that's the case, then whatever."

Xu Da said, "We have all gathered here to band together. You will all definitely become executives. We're also here for the Gray Mist Origin Realm!"

The Gray Mist Origin Realm?

Yang Jing was about to ask when he felt an incredibly strong and cold power.

Looking up, he saw that a world of gray mist was in front of him!

On the ground, a gigantic crack was constantly producing gray mist. Some of the gray mist dispersed everywhere, but most of it gathered together, forming a barrier!

No, compared to calling it a barrier, it was more like a massive door.

In front of that door, countless cultivators were gathered as they absorbed the gray mist. They all looked at it greedily with a fire in their eyes.

“Praise my name, and live forever!”

“Praise my name, and live forever!”

“Praise my name, and live forever!”

...

Alluring shouts came from within the gray mist door. It sounded incredibly arrogant and powerful. It earned the reverence of the gray mist cultivators.

Xu Da led the Heavenly Palace’s people close to the door. There were six others there. The gray mist that surrounded them was just as dense as Xu Da’s. It was obvious they were the leaders here.

Their skills were extraordinary. They might not have absorbed the gray mist before, but after they arrived, they naturally did.

However, Blackie glanced around and found that even though there were many cultivators around, most of them were not that strong. There were massive gulfs between all of them. The lowest among them were merely at the Immortal Realm. The only reason there were no weaker cultivators was that it was impossible for weaker ones to arrive there.

Other than that, there were no real experts outside of the seven Wisdom Dictators who had the gray mist in them. It was obvious that many strong cultivators who had absorbed the gray mist had their own ideas and did not gather here.

Xu Da pointed toward the door, "That's the Gray Mist Origin Realm."

Yang Jing asked, "What's inside?"

Xu Da had a greedy look in his eyes as he said, "It has the purest form of gray mist. That's true Wisdom. However, it's sealed in the space there. We need to unseal it to take over the Origins Realm!"

So, that was what was happening.

Yang Jing and the others had looks of realization before they started to have passionate looks on their faces.

Only, they did not intend to absorb the gray mist themselves. If they gave so much gray mist to the expert, they would definitely be rewarded!

It was several times faster than gathering small amounts everywhere.

Xiao Chengfeng said impatiently, "When can we go inside?"

Xu Da laughed loudly, “Hahaha, don’t panic. The entrance to the realm should be formed in less than a day.”

Chapter 880: One Out of Three

The next day, the gray mist’s power was even denser and wilder.

There were more and more cracks on the ground. Each crack was crazily spewing out gray mist.

After a day of figuring things out, Yang Jing found out the origins of the six other leaders. However, they had already been completely seduced by the gray mist. They felt like they were living a new life, and had abandoned their old names, giving themselves a new one.

They all called themselves Sky One to Sky Six. Xu Da had changed his name after as well, and was now called Sky Seven. They called themselves the seven who would herald a new era!

They had wanted to pull the people from the Heavenly Palace along, but were rejected.

Suddenly, the gray mist door shook. It felt like it was solidifying.

Xu Da’s eyes brightened as he said excitedly, “It’s almost there. We’ll be able to enter soon!”

However, at that moment, six figures appeared from a distance. They felt incredibly strong as they appeared in front of everyone.

The one in front was a man with exotic clothing. However, no one dared to laugh at the man because his expression was incredibly terrifying.

“I am Tian Luo from the Heaven Plundering Alliance. I’m sorry for being late.”

Tian Luo saluted everyone present. After that, he raised his hand and revealed the power of his gray mist.

Someone from the Heaven Plundering Alliance?!

Everyone was shocked, but revealed smiles after.

Looking at the person’s cultivation, it was obvious that he was someone ranked highly in the Heaven Plundering Alliance. For someone like that to have absorbed the gray mist meant that the gray mist was truly powerful!

Xu Da laughed as he said, “You’re very welcome here, Tian Luo! What a coincidence, you came just as the door to the Gray Mist Origin Realm’s opening!”

“Thank you, everyone,” Tian Luo was emotionless as he answered calmly.

He could not help looking at those from the Heavenly Palace with a glint in his eyes.

He was quite surprised that those from the Heavenly Palace were there. However, that was no matter, everything was still under his control.

Behind him, the Left Messenger was cursing her luck.

She just wanted to live a peaceful life. Why was someone always capturing her and putting her in all sorts of strange situations? This was clearly an incredibly dangerous place.

Right after that, she saw that familiar black mongrel with pants on. She then saw Nanan and the others. She could not help but shudder in fear.

Damn it, why was it them?!

She seemed to always be on the other side of them.

He was done for. The person who brought her here was done for!

The Left Messenger glanced at Tian Luo quietly, subtly moving away from him a little.

At that moment, the people from the Heavenly Palace looked at Tian Luo.

The Heaven Plundering Alliance was naturally a name they were familiar with, but that was not the important part. The important thing was the pearl in Tian Luo's hand.

They could feel the power of the Seven Battle Souls inside the pearl. That should be the Sea Boiling Pearl.

They could not believe that they would be able to get the Sea Boiling Pearl on top of the origin of the gray mist. It was so worth it!

Xu Da did not see the hidden movements that occurred between the Heavenly Palace and the Heaven Plundering Alliance. He stepped forward as he declared, "Everyone, a new era is upon us. The gray mist is true Wisdom. As the protectors of the era of the gray mist, we will have the brightest future. Right now, let's enter the Gray Mist Origin Realm together and release the gray mist. Let us welcome our king!"

"Believe the gray mist, achieve immortality!"

"Believe the gray mist, achieve immortality!"

“Believe the gray mist, achieve immortality!”

...

All of them were shouting fervently. Wave after wave of gray mist came out of their bodies, condensing into a terrifying power.

There were not many strong cultivators among them, but there were far too many of them. Even 10,000 heavenly soldiers would not be able to do anything to them.

The Origins Realm was unbelievably large. There was no way to count how many people had been contaminated by the gray mist. It was why many regular people or low-level cultivators would not be able to get here. If they could, there would be even more of them.

“Alright, everyone, follow me into the realm!”

Xu Da let out a shout. With the other Skies, they jumped into the gray mist door.

The crowd behind them followed in a hurry, eager to enter.

Yang Jing and the others exchanged looks. Only after half of them had entered did they follow.

“Ah, my body, no!”

“White hair, why have I started growing white hair?!”

“No, don’t come here. I... Ahhhh!”

“We’re the protectors of the era of the gray mist. Why is the gray mist harming us? No! Ah, I’m turning into a white-haired monster!”

...

The moment they went into the gray door, wave after wave of wails could be heard. In just a flash, countless cultivators grew white hair around their bodies, turning into beasts that wandered aimlessly in the hidden realm.

The cultivators outside did not know what was happening. They still entered fervently. By the time they could react, they were too late.

Yang Jing and the others were no strangers to the white-haired monsters. However, they never expected that the group that was perfectly healthy earlier would suddenly turn into white-haired monsters right after entering the realm.

The gray mist was far too strange.

Looking over, less than a tenth of the cultivators managed to remain normal.

No one expected that they would suffer so many heavy losses the moment they entered the realm.

However, Xu Da and the others were very calm. They had cold smiles on their faces.

“They became white-haired monsters because they just weren’t strong enough. They weren’t able to accept the gifts of Wisdom. This is fine. The white-haired beasts are the most loyal in protecting the gray mist! They will be the dogs of the gray mist.”

Xu Da answered the questions in Yang Jing and everyone else’s hearts. After that, he said, “We’re the true masters of the new era. Let’s continue moving forward.”

Everyone continued deeper inside. Other than waves and waves of gray mist, there were no dangers. However, after walking for a while, they stumbled upon three caves!

On the three caves were the words, ‘Nine dead, one alive’, ‘a thread of life’ and ‘safe passage’.

All of them glanced at ‘safe passage’ before averting their gazes, focusing on the other two caves.

Everyone knew that 'safe passage' would definitely be dangerous. Safety was just a word to sway their hearts. Instead, it was the other two scary lines that would probably be the correct paths.

Xiao Chengfeng raised an eyebrow as he said, "We need to be tested before we can find the gray mist's origin?"

"This is a part of the seal."

Xu Da explained, "Back when the gray mist descended, it was rejected fervently by many ignorant souls. Many of the strong sealed the gray mist in various places. It's naturally not going to be so easy to undo the seal. Even with so many years passing, the seal is just as scary. It's not something we can just barge through."

The Heavenly Palace's group had looks of realization. Their gazes fell back on the three caves.

One out of three. How would they choose?
