

## Bigshot 971

### Chapter 971: Wisdom is Falling

“T-the Unrivaled is actually crying...”

“How horrifying, that ugly monster is too terrifying. It actually disgusted the Unrivaled so much that he’s crying.”

“So the Unrivaled isn’t actually unrivaled. That ugly monster’s the one that’s so ugly that it’s unrivaled!”

“With something like that on him, even I wouldn’t be able to do it! How tragic...”

...

!!

Everyone stared at the sight, and could not help but shudder. They were incredibly fearful of the ancient demon.

They put themselves in the Unrivaled’s shoes. If they had the ancient demon on them, they would definitely have gone crazy.

Yang Jian could not stop himself from gulping as he said reverently, “The expert really is the expert. He’s even good at torturing others.”

“The Unrivaled is definitely the worst of the traitors, bar none,” The drunkard nodded, starting to pity the Undying.

The strong man laughed spiritedly and said, “No need to care about him. We should take the chance to catch up to him!” All of them continued to ascend, unable to pull themselves away from being immersed in Wisdom.

At the same time, outside of the Door of Wonder.

Splashes could be heard as the Unending Sea suddenly formed shocking waves.

Earlier, the drunkard continued to suppress the Unending Sea, constantly clashing with the old hag. That was how the Unending Sea calmed down.

At that moment, it suddenly erupted. It was like a massive beast that suddenly flared its teeth.

“Hahaha after being silent for so long, the moment is finally here,” The old hag let out a maniacal laugh. She looked at the Door of Wonder in mockery.

Wisdom opened the Door of Wonder. It was a move that put all its eggs in one basket. At the same time, they gave the gray mist a chance.

All the experts were attracted by the Door of Wonder, so the gray mist could do whatever they wanted!

She deliberately made the Unending Sea go silent to let the drunkard and the others relax their guard. Now, it was time for them to launch their plans.

The Unending Sea started to rage as the sea spread everywhere. It was incredibly quick, expanding thousands of miles in a flash.

The cultivators around the sea were swallowed up with their guards down.

“What’s happening? Why is the Unending Sea suddenly moving again?!”

“No, the gray mist is starting to move. Retreat, retreat!”

“Its speed is faster than anything else from before. The sea was probably hiding its true skills before this. What’s it trying to do?”

...

All of the cultivators started to panic, fleeing everywhere.

The Unending Sea seemed to be expanding without limits. It seemed to have a goal and was incredibly pressed to achieve it.

“Is the gray mist trying to do something again?” Yao Mengji led some of the heavenly armies, and very quickly realized what happened with the Unending Sea.

He might have been given an opportunity by the expert, but he was still just at the first step of a Wisdom Elite. The Door of Wonder was more effective for those who were stronger, so he was in no rush to join the Door of Wonder. Instead, he stayed outside with Gu Yuan, Gu Changqing, and the others, leading the Heavenly Army to patrol the outside world.

The Volcanoes of Disaster were sealed, and many places of corruption were already stopped. They never expected the Unending Sea to suddenly move again after calming down.

“Mengji, the Unending Sea is moving more than any time before this. It chose to move when everyone else is in the Door of Wonder. This was planned. There’s definitely an incredibly sinister plot behind all this.”

At that moment, Gu Yuan led some of the armies over.

He said seriously, “There are far too many corrupted monsters in the Unending Sea. There are even supreme being level monsters there. We can’t stop the sea from swallowing everything with just ourselves. Should we rush into the Door of Wonder to tell the others?”

“No!” Yao Mengji shook his head immediately.

“It was so difficult for the Door of Wonder to open again. Everyone can only enter once. They’ll lose the chance the moment they get out.

“Mengji, if we just let the Unending Sea go on like this, there might be terrifying consequences. We’ll have to go to the expert then,” The Holy Emperor said.

“That’s right. We’ll go to Fallen Immortal Mountain. Holy Emperor, go tell everyone you can. Gather as much power as you can to oppose the Unending Sea together!” Yao Mengji did not waste any time as he immediately turned toward Fallen Immortal Mountain.

They were naturally already incredibly familiar with Fallen Immortal Mountain. However, they were not there to see the expert but to invite Jiang Liu and the others who were at the foot of the mountain.

Chaos descended. Even though Nanan and Dragin entered the Door of Wonder, they were split into two. It was precisely to prevent something like that from happening.

Elite King, Su Zhen still dealt with the manure. Jiang Liu chopped wood at the foot of the hill, and the stone steele was still guarding the mountain.

Hearing Yao Mengji’s words, they looked at each other with a somber expression.

Jiang Liu frowned slightly as he said with a conflicted look, “The Unending Sea naturally needs to be suppressed. It’s just that... I have to guard the foot of the mountain to protect the expert.”

Elite King shook his head, saying firmly, “The gray mist and Wisdom are two opposing sides. We absolutely can’t just look on as the gray mist disrupts the world. The expert still has the chicken, cow, peacock, willow, and the others. Daji and Fire Phoenix are still here as well. We won’t be that useful while suppressing the Unending Sea is more important.”

He obviously made a decision.

Jiang Liu said seriously, “Elite King’s right. Since that’s the case, let’s go!”

They immediately turned into rays of light as they rushed to the Unending Sea.

When they arrived above the Unending Sea, the sea already expanded more than anyone expected. It originally just swallowed two-star regions, but it was about to swallow up the third.

Gray mist monsters swam in the sea. The gray mist was everywhere, spawning more monsters to attack cultivators.

“No, the sea is still expanding. Can it really swallow the whole Origins Realm?”

“My sect has been drowned. The gray mist is too strong. No one can stop it!”

“A new era is coming. We can only live if we absorb the gray mist!”

“What do we do? The Door of Wonder is surrounded by countless white-haired monsters. We can’t even get in!”

“Wisdom is falling. Wisdom is done for!”

“Who can save us?”

...

The cultivators of the Origins Realm were filled with hopelessness. The mortals looked on like ants as they looked at planets and stars falling.

The Unending Sea’s expansion already completely suppressed the cultivators who did not absorb the gray mist. There were more and more corrupted monsters trampling down on everyone.

At that moment, a bucket of manure suddenly appeared in the distance, slamming into the sea!

## Chapter 972: Shake the Skies, Fight for Wisdom

Boom!

That bucket of manure looked incredibly ordinary. It was filled with filth on the surface, but it glowed. It looked like a meteor descending from the sky, slamming onto the surface of the sea!

The turbulent sea was suppressed by that power and suddenly turned quiet.

The Endless Sea that expanded nonstop suddenly stopped.

“Who’s that? He managed to hold back the Endless Sea.”

!!

“A supreme being, it’s a supreme being. Only, didn’t all the supreme beings already enter the Door of Wonder?”

“Look, it’s the group from the Heavenly Palace. There are still supreme beings in the Ancient Forbidden Zone!”

...

Many cultivators were all surprised and excited as they looked in that direction.

They saw a big and tall man wearing shaggy clothes slowly walk over. Yet, he had an indescribable sense of imperiousness to him. He was Elite King.

To his left, Jiang Liu held his blade and walked forward incredibly calmly. He looked very ordinary, but there was a depth to him.

On the right was Su Zhen. He held the manure shovel on his shoulder and his other hand dug his nose. He had simple animal skin clothes on. He looked like a wild man who acted as he pleased.

Behind the three of them were many clouds!

Yao Mengji, Luo Emperor, Gu Changqing, and the others had stern expressions on their faces as they led the Heavenly Army over. They had an immense aura to them!

“There are actually supreme beings who haven’t entered the Door of Wonder? It looks like Wisdom nurtured quite a few protectors!”

In the Unending Sea, the old hag slowly appeared from the sea. Her body was bent as she looked at the group with a dark look on her face.

She could feel the power of Elite King and the others. Even though they did not give her as much pressure as the drunkard, it was still incredibly terrifying. The other two were no ordinary supreme beings either. Only Wisdom would have been able to give birth to new supreme beings in this day and age.

“Even Madman Chu’s corpse has been suppressed. His mount made into a meal to help us break through to become supreme beings. The chaos of the corruption has been suppressed, so are you still trying to cause trouble?” Elite King stared at the old hag as his power surged.

“Hahaha,” The old hag laughed in mockery.

“It was just a buried skeleton of my master’s from the last lifetime. It didn’t even have a fraction of my master’s power. Are you really so proud of suppressing it? You don’t know anything. Just wait and see!”

The Heavenly Palace frowned.

Sure enough, the old hag had goals in mind when she caused so much trouble. Furthermore, Madman Chu's skeleton being suppressed did not phase her at all. It was obvious there was a massive plot behind everything.

Jiang Liu said coldly, "With us here, the Unending Sea won't expand any further!"

"With just you guys? Let me show you your place!" The old hag let out a cold laugh as she raised her hands.

In a flash, there were water spouts along the whole Unending Sea. Those water spouts reached the skies and had terrifying auras. On the surface of the sea, many corrupted beasts started to appear, letting out roars as the world changed.

At the same time, white-haired monsters came roaring in support of the Unending Sea.

The scene completely dumbfounded all the cultivators there.

"The sea swallowed up countless living beings, corrupting everyone."

"Other than the old hag, there are still so many beasts with supreme being auras in the sea; How terrifying!"

"Your power soars after swallowing the gray mist. Even if all the cultivators of the Origins Realm come here, will we be able to stop this calamity?"

"We can't. The Unending Sea is unstoppable!"

...

It was not the first time the gray mist erupted.

Every time the gray mist erupted, it would a response from the Origins Realm. However, each time, it was suppressed by the drunkard, Xiao Chengfeng, and the others. The cultivators of the Origins Realm might have felt the disturbances, but there were not many of them who faced it head-on.

At that moment, the Unending Sea showed its full might. It scared countless cultivators, establishing the power of corruption.

“The gray mist is the through the path. Those who cultivate gray mist will scale the heights of Wisdom and invite a new era. Wisdom is emotionless, treating life as pieces. The gray mist will give you a new life. There’s still time to give yourself to the gray mist,” The old hag laughed out loud.

Many cultivators had a glint in their eyes. Their Dao Hearts was always firm, never being seduced by their greed and the allure of becoming stronger. At that moment, their hearts started to sway as they faced the power of the gray mist.

After all, Wisdom was falling. If they did not absorb the gray mist, they would be killed by the gray mist cultivators. It was better to absorb the gray mist and walk a new path.

“That’s a load of crap. The gray mist is a lie. It is a complete scam for everyone, meant to sway your hearts. It’s just all for the sake of Madman Chu’s ambition. He wants to make all of you his pawns, throwing Wisdom into chaos!”

Elite King saw through everything, and pointed out Madman Chu’s intentions, “Right now, countless cultivators are being killed every day. All of this is for the sake of Madman Chu’s selfish intentions. My fellow cultivators, let us shake the skies and fight for Wisdom!”

“Shake the skies, Fight for Wisdom! The Heavenly Palace will fight!”

Yao Mengji and the Heavenly Army shouted at the same time. Their power surged, turning into a vibrant light that shone into the skies, threatening to pierce through the gray mist!

“Shake the skies, fight for Wisdom! The Empath Sect will fight!” The Empath Sect’s elder spoke.

“Shake the skies, fight for Wisdom! The Yun Clan will fight!” The followers of the old master of the Fallen Immortal Bow, the Yun Clan, shouted. They carried on with the will of their ancestor, facing the gray mist!

“Shake the skies, fight for Wisdom! The Divine Sword Mountain will fight!” The two masters of the Divine Sword Mountain stood on their swords. Thousands of disciples were behind them. Their power shone as it turned into a sharp blade, threatening to pierce through the clouds!

“Shake the skies, fight for Wisdom! The expert’s wildlife will fight!” Another roar was heard. The wildlife beneath the Fallen Immortal Mountain roared as they arrived. They were fed for so long and were idle all the time. It was a long time since they got to go out, and they were incredibly excited. Their roars reached the skies.

On top of that, they were granted quite a few opportunities by the expert. Quite a few of them were already at the peak of the Wisdom Dictator Realm. Suddenly, their powers covered up even the beasts of the Unending Sea.

“Amitabha, we are here to change the corruption.”

...

Force after force appeared, and all of them were incredibly strong. Their powers soared to the skies as the Wisdom of saints flowed. It caused the cultivators of the Origins Realm to feel a surge of excitement.

“Everyone, we’ve cultivated our whole life for this battle!”

“Then... let’s fight!”

“We are cultivators, how could we be afraid of battle?!”

...

Boom!

Countless cultivators condensed their powers, clashing against the waves of the unending sea, turning a massive wall!

Chapter 973: War of the World

“They don’t know their place. Kill them!” The old hag had a dark look on her face. After letting out a sharp roar, she slashed at the skies!

The power of a supreme being condensed into a massive claw in the skies, covering most of the Heavenly Army, trying to kill all of them!

Elite King let out a cold snort, raising his hand and pointing at the huge claw.

The next moment, the two forces clashed.

The beasts in the Unending Seas surged forward. Some cultivators rushed out as well, filled with killing intent.

!!

On the Heavenly Palace’s side, the various forces gathered together. They were completely ready for battle.

It was a battle involving the whole world. No one could avoid the fight for Wisdom.

“Roar!”

Suddenly, a massive beast charged out of the sea. The sea erupted, causing massive waves to soar. Just the force from those waves was enough to kill Wisdom Dictators. That massive figure charged right at the cultivators.

It was a massive whale, filled with golden scales. Its fins looked like wings and arms at the same time, constantly moving. Its massive aura showed off the power of a supreme being.

“Leave this to me!” Jiang Liu walked forward, appearing in front of that beast in just a step. Even if the fierce sea slammed onto him, he remained unmoving.

He took out his sword, raised it, and slashed!

It was just an incredibly ordinary action, but he trained it to insane realms. Everyone who looked at it could feel that he chopped a tree. They even started to visualize the massive waves and that massive beast as a tree...

That sword had no power to it at all. There were no powers or spells, but there was an irrefutable law to it. Under that slash, the massive waves were sliced into two, and the beast was as well!

The blood splattered into the air, tainting the sea. It was the blood of the supreme being!

The beast’s life force lit up, recovering as it went back into the sea, looking at Jiang Liu in fear.

Yet, Jiang Liu did not look at it anymore. Instead, he raised his sword again, slashing right at the Unending Sea!

Splash!

The next moment, the entire Unending Sea was split into two. Massive Waves surged into the skies. The Unending Sea’s floor was exposed like a dark hole. In it, countless beasts died under that strike.

The sea was filled with blood. One slash killed millions!

“H-how strong!”

“What’s up with that slash? I didn’t feel any power at all.”

“It’s so strong, that person seemed to have grasped the purest of Wisdom. He has the power to create miracles out of everything!”

“It turns the ordinary to godly powers?”

...

Countless Cultivators all widened their eyes. They did not know Jiang Liu, but just those two slashes earlier were already enough to cause Jiang Liu’s name to be known in the whole Origins Realm!

“Wow, not bad, Jiang Liu! If Xiao Chengfeng saw that strike, he would definitely be shocked,” Su Zhen said with a smile after being surprised for a moment

Jiang Liu’s expression was calm as he said plainly, “Even though I have a sword in hand, I’m not a sword cultivator. I merely pursue the Wisdom of woodcutting. I don’t have a sword, but an axe. I can chop anything!”

The moment he said that, he raised the sword in his hand, turning into an emotionless woodcutting machine.

The old hag’s eyes widened as she said with clenched teeth, “Who are you?”

“I’m just a woodcutter,” Jiang Liu said as he slashed down again!

Boom!

The surface of the Endless Sea suddenly exploded as a long-logged, winged beast that looked like a buffalo roared. Those horns had a silver glow on them, turning into power as it charged at Jiang Liu.

At the same time, the massive whale roared as it joined forces with the bull.

The two supreme beings beasts attacked Jiang Liu at the same time. The supreme being's powers shook the world, condensing into terrifying forms. However, it was still split into two by Jiang Liu's ordinary slash. Even though it stopped Jiang Liu's attacks, the two beasts fell into the sea again, still suffering.

"Humph!" the old hack raised her hand lightly. Six supreme beings emerged from the Unending Sea!

Six beasts shot out, exuding intense pressure.

Even though the beasts were ordinary supreme beings, their numbers put them at an advantage. Unless it was someone like the drunkard or the Unrivaled, they would not be able to ignore them.

"S-so many supreme beings?!" The power of supreme beings filled the air. Everyone's hearts thumped rapidly as their heads went numb.

The words supreme beings explained everything. They were powers that stood at the top, everything else were ants.

Every additional one could change the tides of battle. There were so many at that moment, so how could they fight?

Six beasts appeared together, charging at Jiang Liu with their powers on display.

"It's finally my turn," Su Zhen laughed as he charged with his shovel in hand. He was incredibly quick, and the shovel in his hand was incredibly special. With just a stab, it pierced through the powers of the beasts.

"No need to panic, leave the supreme beings to us!"

Steeles from Fallen Immortal Mountains started to descend from the sky, hitting the middle of those beasts. Words appeared as they suppressed the beasts, making it hard for the beasts to move.

The old hag looked at everything with a dark look on her face. She prepared to move but saw the bucket of manure flying right at her.

That bucket was incredibly scary and was buffed by the stench. Just the smell alone was enough to cause them to want to faint, greatly affecting her combat ability.

It was Elite King's turn to act.

"You must be the safety net of this lifetime's protectors!" The old hag said, pointing forward as her surroundings turned muddied to face that stench.

The Endless Sea's expansion caused her to become much stronger. Initially, she could not even face the drunkard for that long, but now she felt like she was already not much worse than the drunkard. Even so, she was only around equal to Elite King.

She never expected that there would still be people around to stop her after the Door of Wonder opened.

In truth, the Elite King was not at the level of the old hag. The key was in the bucket in his hand. Jiang Liu and Su Zhen were the same. They clearly received the love of Wisdom, which caused their skills to become the best among those at the same level.

"Safety net?" Elite King laughed in his heart.

They were just the ones at the foot of the mountain. The ones staying inside were the truly terrifying existences. If Daji and Fire Phoenix acted, the old hag would have already died!

"Everyone, suppressing the gray mist is our responsibility, charge!"

The wildlife all shouted loudly. They were idle for far too long, but they finally had the chance to unleash their true nature on the Unending Sea.

The cultivators saw that the supreme beings from the Unending Sea were stopped, and immediately charged forward with great spirits.

Chapter 974: Continuous Supreme Beings

In the Door of Wonder, waves and waves of Wisdom surrounded the place like clouds. The power constantly erupted, and the powers as incredibly powerful.

On the steps, the cultivators were constantly making breakthroughs.

Cultivators Junjun was on the twenty-fifth step. His face was slightly red as his eyes shone intelligently. With a raise of his hand, a book appeared out of Wisdom, and he proceeded to read it.

He looked at it in incredible detail. Waves of Wisdom circulated him, turning into mystical images.

Cultivator Junjun shut his eyes and was completely immersed in his book. At one moment, he seemed to be enlightened as a look of realization appeared on his face.

!!

At the same time, waves of immense energy erupted from his body. It was incredibly powerful. Even in the Door of Wonder, it resonated with Wisdom.

“That’s... Did he have a breakthrough? He broke through to the supreme being realm?!”

“Who’s that amazing? A supreme being?!”

“It’s that old guy from the Heavenly Palace. Dang, the Heavenly Palace is terrifying. They got another supreme being.”

“All the Wisdom Dictators on the twenty-fifth step seem to be from the Heavenly Palace...”

“How did they train themselves?”

...

That sight attracted the gazes of everyone in the Door of Wonder.

Becoming a supreme being involved resonates with Wisdom itself. That was because a supreme being was the end goal of cultivation. It was the pinnacle of life!

Finally, Cultivator Junjun’s power reached its peak. Countless waves of Wisdom turned into a vortex that shot right into his body, solidifying him in the supreme being realm. At that moment, Cultivator Junjun twirled his beard with a smile on his face.

However, Cultivator Junjun Cultivator Junjun had a breakthrough when another wave of power erupted. Everyone jumped at that.

It was Nuwa.

Her body was surrounded by a saintly glow. Behind her was the image of a human with the tail of a head. Many lotuses appeared around her, slowly opening.

“A-another one?”

“The Heavenly Palace’s people are really benefitting from the Door of Wonder.”

“When did becoming a supreme being get so easy?”

This time, all of them just let out their exclamations when another wave of supreme being aura was felt. It was Juling Shen.

“Wah!” He raised his axe high as he let out a wild roar. His body rapidly expanded as an incredibly strong power caused their hearts to chill even when just a sliver was oozing out.

All of them were numb, completely so.

Looking at the scene, everyone gulped with widened eyes.

“I refuse to believe there will be more...” Someone just said that sourly when another aura was felt. It caused him to swallow his words.

Taishang Elder’s mustache danced with the wind as his whole body showered in a golden light. There were countless images of pills around him, and a golden furnace materialize, emitting an intense glow.

Waves of pill fragrance could be smelled, enveloping the Door of Wonder.

This time, he reached the pinnacle of Pill Wisdom, becoming a supreme being.

Everyone was silent.

Whatever.

They were already numb.

Just destroy them.

“They really are protectors. They soar the moment they get the chance,” Space Disruptor frowned slightly as he looked at Cultivator Junjun and the others coldly. A wave of killing intent surfaced in his heart.

Even though he already entered the Door of Wonder during his last lifetime, he still stopped at the thirty-second step this time. Cultivator Junjun and the others managed to use the twenty-fifth step to get into the supreme being realm. They might even be able to catch up to him.

"It's a pity, we should've killed them before they got into the Door of Wonder!" One of the traitors said viciously.

Another supreme being meant another powerful force on the battlefield. It had to be said that Wisdom opening the Door of Wonder definitely bolstered its strength greatly.

"Hahaha, they became supreme beings too," Yang Jian laughed happily.

"Not bad, they really are my friends. However, it'll be impossible to catch up to me," Xiao Chengfeng said with a smile. At the same time, he did not forget to show off. His face turned serious as he took a step forward, standing on the thirtieth step!

That sight caused the traitors' expressions to sink.

Throughout that time, the Unrivaled continued to be harassed by the ancient demon.

The Unrivaled was incredibly proud before, being unmatched by anyone. Yet, under the circumstances, he was still forced to lower his head to fate. He did not have a shred of pride left.

The ancient demon arrogant nodded. Even the Unrivaled needed to lower his head to it. That feeling was amazing. Even though it was thanks to his hideous body, it was still worth it!

It said, "It looks like you can actually learn. Since you're being so sincere, I'll give you a chance. I'll stop disturbing you. You can focus on learning."

"Thank you, ancient demon," The Unrivaled was full on hatred, but he had to still sound thankful. He hurriedly tried to throw himself back into learning, but he noticed that the few of them that he looked down on were about to catch up to him.

Nanan, Dragin and Qin Manyun's group were already at the thirty-eighth level. They did not take too much effort to reach there. It was like they were just taking a walk, occasionally stopping. They looked at the books like they were just looking at the scenery.

Originally, everyone thought that they were just acting and would not go far. Yet, they somehow reached the thirty-eighth step, only three steps away from the Unrivaled!

"Humph, they must barely be holding on. They won't get past the fortieth level!" The Unrivaled snorted coldly, hurriedly continuing his studies.

His comprehension was already immense, which was how he even reached his level. In his last lifetime, he got to the forty-first step. During this lifetime, his skills were even better after covering up his flaws. With the movement of time, his lips curled up into a smile as he stepped into the forty-first step again.

Yet, that was not the endpoint. In this lifetime, he would definitely go even further!

Nanan, Dragin, and the others were at the thirty-ninth step. There, they sat down on the spot, looking through the books. At the same time, they summoned up a pen with their skills, taking notes.

In the Door of Wonder, everyone was immersed in their studies, unable to feel the flow of time. Some were already stopped at their limits but were not willing to retreat and leave the Door of Wonder.

That day, there were even more guests in the Door of Wonder. Team after team of cultivators entered, and the place started to get noisy.

At the same time, they looked concerned as they started to talk about what happened.

"The battle in the outside world is so intense. Thankfully, a lot of the White-haired monsters have left, letting us step in here to avoid the battle."

"The white-haired monsters left to help the Unending Sea. The gray mist is launching its counterattack!"

“Ah, I don’t know if the expansion can be stopped.”

“We can’t bother with that anymore. Let’s focus on improving ourselves.”

...

## Chapter 975: Forced Retreat

Everyone was shaken by what those cultivators who just entered said.

The traitors let out smiles. The more the gray mist and Wisdom fought, the happier they were. Only then would they be able to benefit.

The Space Disruptor looked at Xiao Chengfeng, mocking, “Did you hear that? The gray mist is throwing the outside world into chaos again. Why aren’t all of you hurrying over?”

“Haha, it’s still not our turn to show up outside. Are you afraid we’ll exceed you if we stay here?” Xiao Chengfeng let out a cold smile. There was no trace of panic on his face at all.

At that moment, Space Disruptor was stopped at the thirty-second step, while he was already at the thirty-first step. It was practically certain that he would exceed the Space Disruptor.

!!

“By the time you’re out, the gray mist might have already contaminated the whole Origins Realm. You won’t be able to do anything,” The Space Disruptor tried to disrupt Xiao Chengfeng and the others.

However, his plan was clearly about to be foiled. Xiao Chengfeng said calmly, “There’s no need for you traitors to be so concerned.”

It was not just Xiao Chengfeng, the others were not affected by the news from the outside world at all. They immersed themselves in their studies, trusting their friends outside. Furthermore, Daji and Fire Phoenix were on Fallen Immortal Mountain. If they could not do anything, then there was no point for the rest of them to appear anyway.

The most important thing at that moment was to improve themselves as much as they could, only then would they not waste that person opening up the Door of Wonder!

“Alright, the knowledge here is a bit more interesting. So big brother was actually preparing us to enter the Door of Wonder all this time,” There was suddenly a smile on Nanan’s face as she spoke. Her words caused an uneasy feeling to surface in all the traitors’ hearts.

Sure enough, Nanan raised her foot the next moment, stepping onto the fortieth step!

“T-the fortieth step!”

“T-that little girl is amazing. Even the Unrivaled is just on the forty-first step!”

“Terrifying! Could she really exceed the Unrivaled? T-then can he still be called that?”

“Look, the other girl is moving too.”

“That dog moved!”

...

The Unrivaled opened his eyes, looking at Nanan with concern. Right after that, his eyes widened as he looked at Dragin and Blackie.

Yet, something even more terrifying happened after that.

Shi Tuqin, Qin Manyun, and Little Fox all stepped onto the fortieth step too!

He started to panic because he felt like that group of protectors would almost assuredly catch up to him. This group of protectors was different from the last lifetime. There was something strange!

He could not just let them get enlightened just like that.

He immediately turned to look at the traitors as he said coldly, "Ascending the steps of Wisdom is not something you can just work hard on. Your talent, understanding, foundations, and other things can't be lacking at all. If you can't improve, then stop wasting your time. Hurry up and see what's happening outside!"

"Get lost!"

The moment he said that, the drunkard and the others' hearts sank, their expressions souring.

The Unrivaled's intentions were very clear. He wanted the traitors to go help the gray mist. This would definitely add a lot of pressure on the protectors of the outside world. At the same time, the protectors in the Door of Wonder would be too worried about the outside world to focus, which would drastically decrease their comprehension speed!"

It forced the drunkard and the others to give up on the Door of Wonder to follow the traitors!

"Unrivaled, the gray mist goes against the heavens and brings forth great calamity. It's still not too late for you to turn back. It won't be easy for you to take advantage of the situation. You might end up hurting yourselves!" The strong man said through clenched teeth.

"Hahaha, are you afraid?" The Unrivaled laughed, shooting a look at the traitors. Three of the traitors immediately left the Door of Wonder, not saying anything as they left.

Cultivator Junjun and the others clenched their fists tightly.

“Humph, aren’t you going after them? The protectors on the outside might all die if you’re not careful,” The Unrivaled let out a cold snort as he shut his eyes and continued.

“Don’t get affected by them, take the chance to enlighten yourselves. The moment you find yourself at a dead end, leave the Door of Wonder!” Cultivator Junjun immediately said, trying his best to calm down.

The others nodded as well, tossing aside all other thoughts as they studied.

...

At the Endless Sea, the war of the world already lasted for three days and three nights.

Two completely different Wisdoms fought each other. No one could refrain from this fight. There were countless casualties on both sides as blood colored the skies.

Lightning constantly struck in the skies and the world shook. The sun and moon lost their light as meteors constantly fell from the skies.

“Die!” Elite King slammed his bucket on the old hag’s face, causing her face to twist. Even her brain threatened to leave her body as her body flew in the sky.

There was not a single look of happiness on his face. Instead, he did not dare to delay anything as he stepped forward, appearing in front of the giant whale, and launching his bucket again. It immediately sent that whale flying to the sea, wiping away its life force!

One supreme being beast died just like that!

Splash!

The Unending Sea’s waves roared as the old hag was born again, reviving.

She frowned as she looked at Elite King with a sinister expression.

The Whale was already the second supreme being that was killed.

Elite King found a rhythm. He noticed that the old hag could revive constantly with the Endless Sea, but there would be an interval before she could revive. He would use that time to help Jiang Liu and the others kill the supreme being beasts. Other than the old hag, the other supreme beings died like that.

As long as he continued like that, subduing the Endless Sea was just a matter of time.

“Hahaha, this is great. Let’s continue killing them!” Shu Zhen held his shovel and pierced another one of the supreme beings, laughing.

With him, Elite King, Jiang Liu, and the steele, they were already at an advantage. Ordinary supreme beings could not compare to any of them. Each of them could face two to three supreme being beasts.

However, just as they were about to completely suppress the Endless Sea, three horrifying auras shot over from the Door of Wonder.

Chapter 976: The Unrivaled’s Surprise

Supreme beings!

Supreme beings were coming from the Door of Wonder!

Everyone started to panic.

However, before they could even do anything, a terrifying palm suddenly appeared, turning into an intense flame that swallowed everything.

It started to cause the sea to boil, killing a lot of cultivators before it even got close. That was the power of a supreme being. It was incredibly tyrannical, unable to be stopped.

!!

All the cultivators panicked as a lot of the Heavenly Army were burned, turning to nothing.

“Ah, the supreme beings are helping the gray mist?!”

“What? Didn’t they come from the Door of Wonder? Why are they attacking us?”

“This is a supreme being’s spell, I can’t stop it. Save me!”

...

Jiang Liu frowned, giving up on the beast in front of him as he appeared in the skies. He slashed at the intense flame, dissipating it.

Elite King and Su Zhen also left the battle as they looked at the three supreme beings coming from the distance with dark looks on their faces.

Elite King said coldly, “Traitors? Have all of you really gone crazy?!”

He was incredibly furious. He would not have felt that way if gray mist cultivators appeared, but it was Wisdom Cultivators who appeared. That was a complete stab in the back that was hard to swallow.

Su Zhen saw things calmly, saying, “They’ve already strayed from the right path. Even though they’re not corrupted by the gray mist, their hearts have already been distorted. They can’t be called actual Wisdom cultivators.”

“Hey hey, the ambition of cultivators is endless. Otherwise, how could we have expanded so quickly? Even if they were not corrupted by the gray mist, greed, selfishness, and fear are all buried in their hearts. They just needed the chance for it to appear. Why do you continue fighting me? Life is

insignificant. If people die, then they die. It's not worth you protecting them," The old hag let out a strange laugh as she looked at Elite King and the others mockingly.

Jiang Liu grabbed his sword tightly, saying, "Old monster, don't even think about swaying us. Our ambitions are for Wisdom. Whether it's the gray mist or the traitors, all of you have strayed from the right path. Killing you is our responsibility!"

"Hahaha, do you think you can stop us now?" The old hag laughed wildly, suddenly going back into the Endless Sea.

Splash!

The Endless Sea started to rage again. Elite King's bucket and the steele swayed in the storm, letting out a radiant light as they condensed their power to suppress the Endless Sea.

Yet, the beasts in the Endless Sea started to go crazy. Just as Jiang Liu, Su Zhen, and Elite King prepared to fight, the three traitors attacked them.

"Haha, we're your opponents!" One of the traitors let out a cold laugh as he appeared in front of Elite King with a punch.

In a flash, the space around Elite King and that supreme being shattered. They entered the chaotic flow of space, exceeding the restrictions of space and time as they crossed the river of time.

That supreme being was incredibly strong, and black flames surrounded him. Elite King used three attacks, but they were rendered useless by the flames. It was like armor that repelled all spells.

At the same time, that black flame was incredibly destructive. With the attacks of the supreme being, the temperature started to get to Elite King.

He entered the Door of Wonder twice and reached the thirty-sixth step this time. He was stronger than even the drunkard had been before. Elite King never even stepped into the Door of Wonder. Even

though he was given a lot of opportunities by the expert, his skills were still not comparable. The Door of Wonder was something that brought forth amazing changes.

“Bucket!” Elite King clenched his teeth and summoned in the end.

That supreme being was even stronger than the old back. Just one bucket was not enough.

Splash!

The bucket that originally suppressed the sea left, entering the chaotic space to fight that supreme being with Elite King.

On the other side, Jiang Liu and Su Zhen fought the other two supreme beings.

Jiang Liu had his sword in hand, and each slash was incredibly ordinary, destroying everything Jiang Liu targeted!

However, they did not face ordinary supreme beings anymore, but a supreme being that stepped onto the thirty first step. That person had a golden sword in hand. His sword could shatter the earth and be just as impressive. It faced Jiang Liu’s woodcutting Wisdom head-on.

Su Zhen held his shovel in hand, using the shovel’s power to barely stand up to his opponent.

With the arrival of those traitors, it not only caused their advantage to disappear but also put them at a disadvantage as well.

On the Endless Sea, only the steele was left to suppress it.

On the steele, the words, Fallen Immortal Mountain, glowed radiantly, fighting the vicious waves. It was naturally made to suppress, but it struggled at that moment.

Roar!

The old hag did not appear from the Endless Sea, but the supreme being beasts constantly roared. Around the steele, horrifying attacks were constantly sent onto it, causing the light on the steele to start to dim.

Splash!

The quiet sea once again erupted. It lost its binds and started to expand outward, swallowing the Origins Realm.

“You traitors, are you just going to look as the gray mist expands? It will harm you in the end!” Elite King shouted in panic. He felt like the Endless Sea would definitely bring forth great calamity if it expanded.

“You don’t have to worry about that. We can control everything!” That supreme being laughed, blocking Elite King from helping.

At the same time, the Unrivaled let out a smile in the Door of Wonder. He stood up and stepped onto the forty-second step!

There were a total of forty-nine steps. After the fortieth step, each step was insanely hard. The Wisdom it contained was incredibly hard and immense. It was not anything those without immense talent could understand. The distance between every step was immense.

The Unrivaled already got his name by reaching the forty-first step in the last lifetime. In this one, he managed to get to the forty-second<sup>1</sup>

“Tsk, isn’t that just one more step? Do you need to be so happy?”

Suddenly, he heard a voice of disdain. Looking over, he saw Dragin standing behind him, looking at him in contempt. It was like she tried to say that there was nothing hard about getting another step.

“Y-you actually got to the forty-first step?!” The Unrivaled’s eyes threatened to pop out of their sockets as he exclaimed in disbelief.

However, his body shuddered very quickly as he noticed something even more shocking.

It was not just Dragin that got onto the forty-first step, but Nanan, Little Fox, Shi Tuqin, Qin Manyun and... a dog?!

Chapter 977: The Unrivaled: It’s Too Hard

“H-how are you so fast?” The Unrivaled was stunned, beginning to question everything he knew.

He knew better than anyone else how deep the Wisdom of the Door of Wonder was. He thought that Nanan and the others were only concerned about speed, and would not go far. He never expected that he would turn to see that they were right behind him.

‘Could I just be too dumb?’

“It’s just because you’re too slow,” Nanan clicked her tongue as she shut her eyes and started to study the forty-first step.

Seeing that, the Unrivaled had a sense of urgency in his heart. He could not allow anyone else to catch up to him. He wanted to be unrivaled in the world!

!!

“This is my second time in the Door of Wonder. I have a natural advantage against them. I refuse to believe that they’ll catch up to me!” The Unrivaled consoled himself in his heart, composing himself before he threw himself into understanding Wisdom.

As for the drunkard and the others, they were shocked when they saw that Nanan and the others were all already at the forty-first step.

“They are the experts’ chosen. They are extraordinary. It was so easy for them to get to the forty-fired step,” Cultivator Junjun said in admiration. He barely managed to get to the thirty-second step, arriving at the drunkard’s old height.

“We can’t embarrass the expert. No matter what, we have to at least get to the fortieth step!” Xiao Chengfeng was already at the thirty-eighth step. He exceeded the drunkard and was proud.

The drunkard was on the thirty-seventh step. He saluted, “Xiao Chengfeng, you’re not bad yourself. You have a chance to get on the fortieth step. You have my admiration.”

Xiao Chengfeng laughed as he said in a pleased manner, “Hahaha, I’ve been taught by the expert before. Furthermore, I always remember everything the expert taught me. I can’t embarrass the expert!”

The other cultivators were already numb to the sights. They did not even react much to Nanan and the others constantly ascending.

Everyone conversed for a moment before throwing themselves back into understanding Wisdom. The situation outside was not great, so they could not afford to delay things at all.

Time slowly ticked away.

The Unrivaled was at the highest position. He sat down cross-legged at that moment. Wisdom emanated around him as he stared right at the book in front of him. His expression constantly changed.

He looked confused at some points, conflicted at others, bitter at some...

In the end, he sighed reluctantly, “Why? Why is it suddenly so hard? I can’t understand this Wisdom!”

He tried bitterly to think about it. He felt like he did not leave much out on the forty-first step, but he felt like he could not see anything on the forty-second step. The difficulty jumped far too much. It was too much that he did not know what to do.

The Undying continued to try, not giving up. After a long time, his eyes were red as he said, "There's no way anyone can get to the forty-third step if this is the level! It's too hard!"

Just as he was prepared to accept his fate, he felt a movement in his eyes. He saw Nanan and the rest, including that dog, walk onto the forty-second step together, tying with him.

That dog looked at him and rolled its eyes, full of disdain.

Dragin said, "There's nothing that hard about the forty-second step. Why have you stopped?"

"You! Who doesn't know how to brag?" The Unrivaled let out a cold snort, not believing it. He absolutely wanted to get to the forty-third step, but it was impossible.

"At this step, Wisdom doesn't actually teach you that much anymore. It's just giving you some context for you to deduce everything else. It's not that difficult," Dragin immediately voiced out the differences. Her relaxed tone caused the Unrivaled to stir.

He clenched his teeth, wanting to continue his studying, but finding that made no progress. He could only stare at Dragin and the others. He was hoping to see bitter expressions on their faces, but he was disappointed in the end.

Dragin and the others did not seem to have any difficulty at all. Instead, they even smiled.

That time, they were even faster than before as they stepped onto the forty-third step!

In just a flash, the five of them and the dog surpassed the Unrivaled.

"T-that's impossible!" The Unrivaled's mental state completely collapsed.

He called himself unrivaled and believed that he was only below Wisdom itself and Madman Chu.

Yet, just now, five people and a dog surpassed him. It caused his moniker as the Unrivaled to become a joke. In a flash, so many people that were stronger than him appeared. He could not accept the fact.

The other cultivators exclaimed as they watched on, “They’ve surpassed him. They’ve actually surpassed the Unrivaled!”

“Haha, look at how bitter the Unrivaled’s face is! His nickname will have to change.”

“The fact is, the Unrivaled really is strong. That group just surpassed him, so how strong are they?”

“It’s impossible to imagine. How horrifying!”

“The Heavenly Palace has so many experts. Surely they’ll be able to suppress the gray mist?”

...

At the same time, countless cultivators still fought in the Endless Sea.

Compared to the Volcanoes of Disaster, the Endless Sea was much fiercer. The gray mist seemed to be putting its all into it, causing the Endless Sea to enter a terrifying state. The other corrupted areas all stopped, and all the gray mist gathered here, fighting the Wisdom cultivators.

“What are they trying to do?” Elite King fought the black flames as he looked at the battle, constantly thinking about it.

The gray mist definitely had a goal in mind, and it was definitely a terrifying one.

Expanding and expanding...

Suddenly, Elite King’s eyes widened, figuring something out.

He shouted crazily as his two buckets circled around him, protecting himself as he punched at the spatial distortion, trying to get to the center of the battlefield.

However, the black flames surged behind him, turning into a huge beast of fire that charged right at Elite King. Its terrifying horn pierced right into Elite King's back through the defenses.

Elite King ignored the injuries, bearing with the pain the flames caused as he arrived at the center of the battlefield. He shouted at the Heavenly Army, "Quickly get someone to get those in the Door of Wonder out. The Endless Sea is targeting the Golden Lake! They've been charging right at the Golden Lake!"

Yao Mengji and the others had a drastic change in expression when they heard that.

"The Golden Lake? Isn't that the battlefield of the last lifetime?"

"I remember now. There's an altar at the Golden Lake. It's an altar Madman Chu left behind. He left his will on it!"

"What will happen if the Endless Sea meets the altar?"

"No one knows, but... it'll definitely be horrifying."

"Hurry up and call for the protectors in the Door of Wonder!"

Chapter 978: Straying From the Path

Very quickly, news of the Endless Sea closing into the Golden Lake caused many waves. Everyone had a bad feeling in mind.

It was a speculation that was related to Madman Chu.

They did not want to think about it, but there was no other explanation.

Was... the gray mist trying to revive Madman Chu?

If that was the case, was there anyone who could stop him in the world?

!!

That news was naturally spread into the Door of Wonder by the Heavenly Palace. Everyone was incredibly anxious.

The drunkard narrowed his eyes, saying, "So their aim is that altar. The Endless Sea was actually the most important one. The volcanoes were actually not the key!

"The skeleton in the volcano was just a distraction. In truth, the Endless Sea and the altar were the most important!" The strong man frowned as he said.

Yang Jian's expression turned serious as he said immediately, "This is definitely a backup plan that Madman Chu left behind. We can't let the Endless Sea get to the Golden Lake!"

"All of you, continue ascending. I'll subdue the Endless Sea!" Cultivator Junjun said without any hesitation as he headed to the Door of Wonder.

He knew that he already reached the limits of his potential. There was no reason to continue going deeper. He immediately cut off the greed in his heart, because the outer world needed him!

"We're going too!" Nuwa and Julingshen said at the same time.

They both stopped at the thirty-first step. They were already stronger than regular supreme beings. They were not reluctant to give up on the chance at all.

"Nanan and the others need this chance more than we do! We have to give them enough time!"

That was what all of them thought.

The strongest members would be able to determine the direction of a war. Nanan and the others were much stronger and would be able to influence the outcome even more. Furthermore, Nanan and the others noticeably had more potential than they did, so it was worth it for them to fight for that extra time!

“Then let’s go as well,” Suddenly, a sinister voice was heard. It was Space Disruptor who spoke.

He turned and walked down the steps. Eleven traitors followed behind him. It was their second time entering the Door of Wonder. They knew that they already reached their limits. So they decided to give up and mess with the protectors.

Other than the Unrivaled, all of the traitors prepared to exit. It definitely increased the pressure on the Heavenly Palace.

“Unrivaled, the gray mist is getting closer to the altar. If you continue like this and Madman Chu is revived, it won’t be good for you either! Hurry up and stop!” The drunkard clenched his fists as he said.

“Stop? Haha, are you asking us to stop when things have already advanced to this stage? Only I can be called the Unrivaled in the world. How dare you surpass me? Just go ahead and die. I’ll take this gamble!” The Unrivaled stared at Nanan with red eyes as he laughed maniacally. He had a fierce aura as he said, “This Wisdom is too hard. Why do you understand it, but I don’t? That’s impossible. I’ll find a way!”

The strong man frowned, “He’s gone crazy and got bedeviled.”

“Let’s go!” The drunkard gave up on ascending as well, turning to walk down the steps. The strong man and the Undying followed behind. All of them stopped at the thirty-eighth step.

“We’ll leave the rest to you. I’m just a bit away from the fortieth step. The moment I reach it, I’ll go as well!” Xiao Chengfeng immediately took a deep breath as he anxiously immersed himself again right after he said that.

Yang Jian and himself benefited the most from the expert out of everyone from the Heavenly Palace. So, they walked the furthest as well. The thirty-ninth step and the fortieth step were huge leaps, so they could not give up.

“Yes, we’ll go over first!” Cultivator Junjun nodded, and all of them immediately headed out the door of Wonder.

Behind them, the traitors followed with ill intentions.

The moment they exited the Door of Wonder, they immediately noticed a dense corruption in the air. Their expressions sank.

The situation in the outside world was worse than they expected. The Endless Sea took up a lot more space than it did before. They could see the turbulent seas even from here. The war of the world already spread everywhere. Images were flying everywhere. The moment they exited the Door of Wonder, they were attacked by gray mist cultivators.

Just as they wanted to suppress the Endless Sea, Space Disruptor and the traitors blocked that way.

“Instead of being worried for the others, you should be worrying about yourselves first!” Space Disruptor said coldly. The immense power surged as it locked into everyone. His skills drastically increased in the Door of Wonder as well, reaching the thirty-eighth step. The worst of the traitors behind him reached the thirty ninth-step, and there were three of them who reached the thirty-seventh step. They were incredibly confident.

“Kill them!” The drunkard knew that the group was already completely insane. There was no need for further conversation as he decided to attack right away.

He already prepared the moment he walked out of the Door of Wonder. He pointed forward, and a formless pressure shot right at Space Disruptor. At the same time, the gourd behind him formed a refined sword of wine, stabbing right at Space Disruptor!

He wanted to end the fight quickly.

However, Space Disruptor was well prepared. He clapped his hands and said, "Space distortion!"

Between the drunkard and him, space seemed to completely twist and turn. It was as if countless worlds overlapped each other. The drunkard's attack diminished as it passed through so many spaces.

"Spatial assassination!" Space Disruptor said with killing intent.

Space quickly started to shatter, forming a pitch black dragon to swallow the drunkard, turning everything to dust. However, when it reached the drunkard, the shattered space stopped.

The drunkard was surrounded by wine. It was like a layer on him that separated the destructive powers outside. It was incredibly fragrant, and it shone in divine light.

At the same time, the strong man and the others did not stay idle. They charged forward with their powers on full display, clashing against the traitors.

The strong man's supreme being powers surged forward. With just one punch, everything shattered. His physical body was surrounded by dense Wisdom. His body itself seemed to be the strongest treasure in the world, capable of blocking anything.

The Undying was surrounded by the powers of life and death. Raising his left hand, he could revive everything in the world. Waving his right, he could kill any soul. He controlled life and death, facing two supreme beings that stepped on the thirty-seventh step.

Cultivator Junjun's group pulled up their treasures. They all got to the thirty-first step. They were able to face any of the traitors one on one. Yet, they were at far too big of a numbers disadvantage. Not only did they have no way to suppress the Endless Sea, but they were also in a bad state themselves.

#### Chapter 979: Arriving at the Battle

At the expert's residence, in the backyard, "The gray mist is getting thicker and thicker. The traitors have decided to choose betrayal in this lifetime as well!" The old tortoise next to the pond slowly opened its eyes.

On the side, the willow tree's branches flowed with the wind, and a warm voice was heard, "My brother told me that the gray mist is getting closer to the altar that Madman Chu left behind. They might be preparing to revive Madman Chu. We'll only be able to stop it if we make a move."

"The war has ignited again this lifetime. I'm worried about that person's state...," The tortoise looked at the courtyard with worry in its eyes.

It said in a conflicted tone, "Wisdom reincarnating. It's the first time this has ever happened. Even he can't control it properly. Even just a tiny mistake would cause great calamity. We shouldn't leave him at all."

"We're all born for battle, so we should head to the battlefield right now. As for that person, he has his place. Daji and Fire Phoenix are protecting him as well. We should be able to relax," The willow tree was heard again. Its tender voice had a large amount of battle intent within it.

!!

At that moment, the cow walked over as well, saying seriously, "Why don't you use the powers of time to bring us over?"

That peacock flew over as well, "Me, as well. It's time we show them the might of the expert's pets!"

"Even I won't be able to hide from this battle. What will come, will come. Count me in!" A golden dragon flew out of the pond majestically.

"If that's the case, then let's go," Lao Gui said plainly. The moment it said that, the pond next to it started to swirl. After that, a long river formed. The water of the river was incredibly turbulent, resonating with heaven and earth. It was the sound of time, regular folk could not hear it at all.

The river of time materialized under the tortoise, transcending space and time itself, allowing the tortoise and the others to slowly disappear into it.

Outside of the residence, in a mountain incredibly far away, a figure looked at the scene from afar. He blinked his eyes as they glinted in a strange light.

That figure was Zhou Yuanhai, who was missing for a long time.

He stayed there, not doing anything. He merely observed the residence and planned what he needed to do.

“Many incredibly strong auras have left the residence again. Is this my chance?” He muttered to himself with a lively look in his eyes.

He quickly shook his head against it.

“No, I hear that that person has two wives. They haven’t left yet, so I can’t be rash.”

“I’ll wait. I’ll wait some more. Only by being patient will I be the one laughing in the end...”

...

On the battlefield, Cultivator Junjun and the others were at a disadvantage due to the numbers. They practically went one against two.

“Ha!” Juling Shen let out a roar as the ax in his hand glowed and slashed at a traitor.

That slash was incredibly imperious, it was his strongest attack.

He was toyed by two traitors the whole time, so he went crazy, charging at that person.

That traitor let out a laugh as black winds danced around his body, forming a barrier on his head. It was like black water that gently wrapped around Juling Shen’s ax, softly blocking that blow.

At the same time, the other traitor pierced Juling Shen's back with his spear!

"Hahaha, die!" That traitor viciously spun the spear in his hand, mincing up Juling Shen's flesh.

"Ah!" Juling Shen cried out in agony as his life force lit up, reforming his body.

The other two supreme beings would obviously not give him the chance. They hurried over to exterminate his life force.

Julingshen clenched his teeth and charged right at them, but they immediately cut off his arms.

"Juling Shen!" Cultivator Junjun got up and tried to help, but all it did was give the traitor next to him a chance to slice off his arm.

"Haha, protector? You can't even protect yourselves. How are you supposed to protect Wisdom? Hahaha..." Space Disruptor laughed maniacally as he pinned down the drunkard.

"Die!" The two supreme beings had a surge of killing intent as they reached out for Juling Shen's life force.

Just as they were about to succeed, their eyes widened in shock and horror. Their movements were completely stopped!

They realized that they could not move at all!

"Is this the power of space?!" Space Disruptor controlled the Wisdom of Space, and let out a shout as he felt it.

After that, he exclaimed again, "No, it's not just space. It's time as well!"

Splash, splash.

In the air, the sound of waves could suddenly be heard.

That sound was different from the Endless Sea. It was not heard through their ears, but their souls!

After that, a river materialized in the air. The river water raged, never stopping. It had an incredibly ancient aura.

On the river was a massive tortoise, two cows, a peacock, and an old hag that Old Dragon turned into.

The Divine Years Tortoise controlled the river of time, sending everyone to the battlefield by breaking through space and time itself. At the same time, it prevented Juling Shen's fall at the right time.

Space Disruptor's eyes widened, knowing that the protectors' reinforcements arrived. He shouted anxiously, "Hurry up and kill him!"

The two supreme beings used all of their strength to break through the restrictions of space and time, trying to kill Juling Shen again. However, two willow branches suddenly shot out from the space, binding their hands and stopping their attacks.

After that, the branches slowly tightened, wrapping their whole bodies. It was like a massive python binded them, completely shattering their bodies!

The two traitor's felt a chill in their hearts as they retreated in fear after their life forces reformed their bodies.

"How's this possible? Where did those branches come from? Why is it so strong?!"

"A willow tree became a supreme being. How did it do that? It's definitely no weaker than Space Disruptor."

As they retreated, their thoughts wandered, not sure how that group suddenly appeared.

The battlefield seeped into silence.

Everyone looked at the river that suddenly appeared and were dumbfounded. They exclaimed, "That's the river of time. The river of time appeared!"

"Could that tortoise be the Divine Years Tortoise?"

"What's that cow? It's a supreme being!"

"Are they reinforcements from the Heavenly Palace? Ha, we have a chance now!"

...

"It's the expert's backyard!"

"The expert is trying to save us!"

Cultivator Junjun and the others immediately had emotional looks on their faces. They looked at the cow and the peacock fondle. After all, they drank their milk and ate their eggs before.

Chapter 980: Too Late

"Fight!" Cultivator Junjun and the others finally saw some hope, and immediately exclaimed excitedly as their battle intent soared.

Juling Shen escaped from danger and reformed his physical body. He charged forward again for revenge.

The two cows mooed at the same time as they charged forward on their hooves.

Their skills already broke through to the supreme being realm after staying in Li Nianfan's backyard for so long. Even though they did not enter the Door of Wonder, they were still as powerful as cultivators who reached around the thirtieth step. On top of that, they came from extraordinary origins, meaning even the traitors struggled to face them.

"Animals, die!" One of the supreme beings had a dark look on his face. He managed to get to the thirty-fired step and felt like his skills were very strong. He was not afraid of facing the cows' charge at all.

!!

He raised his right hand, and the destructive light on his hand formed into a massive sword. Slashing at the cows!

That one slash was filled with unending destructive energy. Pitch black waves of Wisdom circulated around it. From afar, it looked like a black hole that swallowed all of life.

He mastered the Wisdom of Destruction. He could casually unleash the power to destroy worlds. The spells he wielded showed that destructiveness to its limits, able to destroy any opponent.

He believed that his sword would be able to slash the cow in front of him in half. Even if the cow did not die, it would be heavily injured!

It was already too late for the cow to retreat!

Yet, as the sword fell, a tortoiseshell suddenly appeared on the head of that cow.

Pang!

That terrifying slash landed on the tortoise shell, letting out a massive sound. There were not even any shockwaves as the shell perfectly blocked that attack, causing the destructive light to disappear.

"How's this possible?!" That traitor widened his eyes in disbelief.

“Not good!” He was suddenly startled as he tried to flee. However, it was already clearly too late. That cow slammed right onto his body. Everywhere the hooves stepped on caused a few dents on his body!

“Ah!” The traitor let out a furious roar. That injury was naturally not fatal to him, and his life force suddenly lit up to heal himself.

Yet, at that moment, a rainbow-colored light suddenly shone on his body. Everywhere the light touched seemed to completely stabilize the world. That supreme being’s life force actually completely disappeared under that light.

“Hehehe,” The peacock held its head high. Its eyes were full of pride, and behind it, the rainbow-colored light glowed brightly, circulating everywhere.

“How’s this possible? He died just like that?!” Space Disruptor yelled out in shock and rage. He looked at the light behind the peacock with uncertainty.

Even though that cultivator was not as strong as him, he still reached the thirty-first step. He was already an incredible expert, but he was actually wiped out just like that. Space Disruptor suddenly panicked.

“T-that light is a Wisdom Divine Light. It can cleanse anything in the world!” one of the traitors suddenly said in shock.

“How is this possible? How could Wisdom Divine Light exist here? It’s absolutely unfathomable!”

“The protectors... They must’ve been helped by Wisdom again.”

“Divine Wisdom Light counters everything in the world. Everyone, be careful. Don’t expose your life force. Otherwise, if the divine light shines on you, even supreme beings would die!”

...

The traitors all started to speak in complete fear for the Divine Wisdom Light.

Cultivator Junjun was surprised as he muttered to himself, "Wisdom Divine Light? Sure enough, the expert's nurturing really gives birth to extraordinary beings."

The peacock was given to the expert by the Heavenly Palace back then. He was prepared to make it into soup, but he abandoned that thought because it could lay eggs. During the time, its natural talent was the Five-Colored Sacred Light. It could stop any treasures in the world, and only saints could break through it. It was already incredibly strong.

After entering the expert's backyard, it never went out before. It was hard to believe that the Five-Colored Sacred Light actually turned into Wisdom Divine Light.

No matter which one it was, it was already incredibly difficult to defeat at the same level. It was terrifying.

The expert's backyard managed to deal with a traitor the moment they appeared. That was a great boost of motivation for the Wisdom cultivators.

"Hahaha, since you chose the path of the traitor, death is what you deserve!" Juling Shen let out a laugh as he grabbed his ax and frantically slashed at the traitor who almost killed him earlier. He actually thought that he was about to die earlier, and was quite scared.

"I almost died in your hand just now. Die!" His eyes were red as he cursed and slashed.

The tortoise did not participate in the battle itself. It was a very unique existence and was not suited to battle. However, it did not stay idle.

It controlled the river of time, which flowed rapidly. Waves of the power of time emanated on the battlefield. Time was the most ethereal thing. Even supreme beings could not completely prevent time from affecting them. Under the tortoise's spells, the traitors' actions were all restricted, becoming slower. Their combat abilities were drastically reduced.

“Brother, I’m here!” On the other side, they arrived next to the steele.

The Endless Sea raged wildly. Just the steele alone was not enough to suppress it. It continued going toward Golden Lake. However, there were suddenly sprouts on the surface of the sea. After that, it rapidly grew, forming a willow tree in the middle of the Endless Sea. The willow tree grew larger and larger, and its vines moved downward. No matter how the sea fought against it, it did not move.

The willow tree’s roots were planted deep beneath the sea stopping the Endless Sea’s advance.

“Roar!”

“Quickly, chop down that tree!”

“We’re just a little away from reaching the master. Charge!”

...

On the Endless Sea, all of the beasts suddenly went crazy. They roared as they frantically attacked the willow tree and the steele.

Even those white-haired monsters and the corrupted cultivators went crazy. They ignored attacks from anyone else as they charged right at the willow tree.

“Just a little more. It’s just a little more!” The old hag appeared once again, her expression incredibly fierce as she stood next to the Golden Lake.

Her skin suddenly cracked as her body rapidly expanded. She quickly turned into an incredibly strange-looking beast, rapidly swallowing everything in front of them. She started to bring the Endless Sea closer to the Golden Lake inch by inch.

“The gray mist will fail. You won’t get what you want!” The willow tree’s voice was incredibly cold. It was heard everywhere as its vines glowed in green light. It turned into many hands as it easily restricted the Endless Sea. With every swipe, it killed countless sea beasts. Even supreme beings were restricted by the willow tree, and their life forces were diminished bit by bit!

At that moment, the willow tree seemed to be unmatched. Its skills were even more powerful than the drunkard. Even facing the Endless Sea that strengthened several times over, it could still suppress it!

The sea beast that the old hag turned into raged on the sea, saying fiercely, “Hahaha, things are already at the stage where you can’t stop it. It’s too late, it’s too late!”
