

## **I signed In For A Billion Dollar Mansion From The Very Beginning Chapter 260-264**

### **Chapter 260: Attack!**

In the business center.

Lin Fan remained seated there and didn't choose to escape.

He had not provoked anyone.

However, if Huo Tian came looking for a beating, Lin Fan wouldn't back down.

Not long after, an older person walked into the business center.

Huo Tian's uncle, Huo Chengtian.

He had a high status in the Huo Corporation.

Everyone in the Huo family was protective of their faults.

Beside Huo Chengtian were more than twenty bodyguards who looked aggressive.

The surrounding people all retreated.

No one would stop Huo Chengtian.

Even the security guards of the commercial center did not dare to move at this moment.

After offending a behemoth like the Huo family, the security guards of the business center could no longer stop them.

As long as no one died here, these security guards would not interfere with the Huo family.

"I heard that Lin Fan offended the Huo family and even fractured Huo Tian's hand. He's doomed."

“Lin Fan, you can offend anyone but the Huo family. Can the Huo family be offended?”

“Let alone us, even some big companies don’t dare to start a war with the Huo family. The Huo family has a business legend like Huo Xinyu. Those who go against her are all very miserable.”

Everyone felt that it was a pity.

Even the entertainment companies who wanted to work with Lin Fan didn’t dare to help him.

Lin Fan was really in trouble now.

“Mr. Lin.” Huo Chengtian walked in front of Lin Fan and said in a low voice. No one could tell if he was happy or angry.

“Mr. Lin, you broke my nephew’s hand, right?” Huo Chengtian said.

“Why don’t you ask your nephew what he did first?” Lin Fan smiled calmly.

“Is it important?”

“Take him down and break his limbs!” Huo Chengtian said calmly, a sinister glint flashing in his eyes.

So what if he broke Lin Fan’s limbs? Legally, Huo Chengtian would at most need to pay some medical fees.

The Huo family did not care about this bit of medical fees at all.

It would take at least a hundred days to recover from a serious injury. If his limbs were broken, it would be difficult for him to recover to the level of a normal person for at least a year or two.

This was the style of the Huo family.

“Mr. Huo, why don’t you give me face and discuss this matter today more instead of resorting to violence? He can consider compensating the Huo family.” Yun Qian looked at Huo Chengtian.

“CEO Yun, normally, the Huo family might give you some face, but not today.”

“If you insist on stopping us, then the Yun family will be the Huo family’s enemy,” Huo Chengtian said.

“You...” Yun Qian gritted his teeth and clenched his fists.

Yun Qian could not accept becoming the Huo family’s enemy, especially Huo Xinyu’s enemy.

At this moment, Huo Chengtian looked at Lin Fan.

“Do it,” Huo Chengtian said calmly.

Xia Wanqiu looked at Lin Fan with her beautiful eyes. If there were so many bodyguards, no matter how good Lin Fan’s physique was, he wouldn’t be a match for them.

If his limbs were really broken...

A cold glint flashed across Xia Wanqiu’s beautiful eyes.

Lin Fan patted Xia Wanqiu’s head, indicating that everything was fine.

Lin Fan snapped his fingers.

The door to the business center opened.

Rows of bodyguards in black walked in.

There were at least 50 bodyguards!

At the front was a girl with outstanding looks, Lin Fan’s manager, Lin Qianwei.

Many burly bodyguards walked in front of Lin Fan and bowed 90 degrees.

Lin Qianwei walked in front of Lin Fan and bowed slightly. "Boss, I'm sorry for being late."

Lin Fan nodded. "It's fine."

"Have you stopped Huo Tian?" Lin Fan asked.

"Yes, the mission is completed." Lin Qianwei nodded gently.

At this moment, Huo Tian was lying on a stretcher.

Huo Tian was supposed to be sent to the hospital.

But when Huo Tian reached the door, Lin Qianwei had already brought people over.

Hence, Huo Tian didn't go to the hospital and was carried up by Lin Fan's men.

"Uncle, save me!"

"It's this Lin Fan who broke my hand. Uncle, avenge me!!" Huo Tian's face was pale as he glared at Lin Fan.

"F\*ck, how many years has it been since someone dared to treat me like this? Lin Fan, you're finished. I can still see how your limbs are broken here, hahahaha." Huo Tian laughed.

Lin Fan looked at Huo Chengtian. "I just wanted to break his hand only originally. I didn't expect Mr. Huo to want to break my hands and legs just now. It also reminded me what I should do."

"Now, I shall break Huo Tian's limbs." Lin Fan didn't even look at Huo Tian.

Today, everyone thought that Lin Fan was in trouble.

But in reality, that was not the case.

The Huo family didn't want to let Lin Fan off. They had thought that Lin Fan would beg for mercy like Yun Qian.

But no one expected this.

Today, Lin Fan had no intention of letting the Huo family off!

So what if the Huo Corporation was a company worth hundreds of billions?

"Lin Fan, how dare you!" Huo Chengtian was furious and looked at Lin Fan.

"Why wouldn't I dare?" Lin Fan asked.

Huo Chengtian wanted to attack, but... Lin Fan had too many people around him.

Lin Fan's bodyguards had all undergone special training.

There were more than 50 bodyguards. If they were to fight, Huo Tian might be even worse off.

"Lin Fan, you better let my nephew go."

"If you continue like this, if my nephew is hospitalized, I think you'll have to go to the police station at least."

"Why don't you apologize to my nephew today and pay him tens of millions? Then this matter will be over." Huo Chengtian looked at Lin Fan with a deep gaze.

No matter what, things would be fine as long as he could snatch Huo Tian back first.

How could this matter pass just like that?

As long as Huo Tian was safe, the Huo family would definitely make Lin Fan pay an even greater price.

“Pay tens of millions?” Lin Fan smiled.

“You don’t seem to understand. I won’t let you off today.”

“Attack!”

“By the way, if Mr. Huo wants to attack too, I can’t guarantee that your nephew will be able to stand up again,” said Lin Fan.

This was the first time Xia Wanqiu had seen Lin Fan like this.

She had never seen Lin Fan so angry.

Although on the surface, Lin Fan was still very calm.

Xia Wanqiu knew that Lin Fan was already very angry.

How could Lin Fan, who was so angry, be so calm?

Even if he offended the Huo family, he would not hesitate.

After his bottom line was touched, Lin Fan wouldn’t care so much.

He did not care about the halo of a celebrity or the quality of an artiste.

Huo Tian wanted to kill the Xia family and Lin Fan. Faced with such an enemy, Lin Fan wouldn’t show mercy.

Huo Chengtian’s expression darkened.

At the same time, the bodyguards around Huo Tian had already swung their batons at his limbs.

“Lin Fan, how dare you, how dare you!!”

“F\*ck your mother!!”

“If you dare to touch me, my sister will never let you off!”

Under Huo Tian’s terrified roar,

His limbs were broken!

### **Chapter 261: Let’s Go to War, Lin Fan Attacks!**

Huo Tian fainted just like that.

His limbs were really broken.

Many of the business tycoons who saw this scene gasped.

Lin Fan had really done it!

He had not only fractured Huo Tian’s hand.

Huo Tian’s limbs were also broken.

Lin Fan had done everything that others didn’t dare to do and offended the Huo family today!

Everyone was deeply shocked.

As long as no one died, even the police could not do anything.

Furthermore, even if the police were here, they could not do anything to Lin Fan.

In the beginning, it was Huo Tian who wanted to do something to Xia Wanqiu and threaten her.

Later on, it was Huo Chengtian who wanted to break Lin Fan's limbs first.

Lin Fan was just defending himself.

After breaking Huo Tian's limbs, there would be a consequence.

Lin Fan would definitely have to pay for the medical fees.

Lin Fan didn't care about a few hundred thousand yuan in medical fees.

Since Huo Tian wanted to bully Xia Wanqiu, facing the Huo family's aggressiveness, if he kept retreating, he would only be bullied even more.

Huo Chengtian's face darkened as he sent Huo Tian to the ambulance.

Huo Chengtian wanted to say something but Lin Fan spoke first.

"If the Huo family wants to target me, you're welcome to do so anytime."

Lin Fan looked at Huo Chengtian and left the business center with Xia Wanqiu and Lin Qianwei.

Huo Chengtian did not speak.

In his eyes, Lin Fan was too arrogant.

Next, he should wait for the Huo family's full revenge!

After Lin Fan and Huo Chengtian left, the people in the business center were all shocked.

"Oh my god... Lin Fan is too handsome. He started a war with the Huo family just like that!"

“Lin Fan broke Huo Tian’s limbs. Who asked Huo Tian to want to bully Xia Wanqiu?”

“This will be a shocking battle. The Huo Corporation is a company with a market value of hundreds of billions. Lin Fan is just a celebrity. Today, the Huo Corporation suffered a loss in terms of numbers. Still, next time, Lin Fan will probably be very miserable.”

“Don’t you think Lin Fan must have something to rely on if he dares to do this?”

“What’s Lin Fan’s background? Can he withstand the Huo family’s revenge?”

“Lin Fan seems to be the second-largest shareholder of the New Era Lisheng Hotel. His status isn’t ordinary either.”

“But the Huo family has that queen, Huo Xinyu. She’s a business genius. It’s useless no matter what Lin Fan’s background is.”

....

After going to the Lake Heart Villa.

Lin Fan was alone in his room and was very calm.

He found information about Huo Xinyu.

Huo Xinyu was the queen of business.

She was proud and confident. She had defeated countless opponents in business.

The Huo Corporation had once suffered a huge blow and its market value had fallen to the brink of bankruptcy.

After Huo Xinyu took action, the Huo family reached its peak and became a large company with a market value of hundreds of billions.

In the business world, everyone knew Huo Xinyu.

She doted on her little brother.

It was also because of Huo Xinyu that no one dared to offend Huo Tian.

If Huo Xinyu wanted to target a company, this company would quickly go bankrupt!

The biggest shareholder of the Huo Corporation was Huo Xinyu's father.

The second-largest shareholder was Huo Xinyu.

Faced with a behemoth like the Huo family, Lin Fan only wanted to defeat Huo Xinyu and the Huo family head-on!

...

At the Huo family.

A woman with gorgeous makeup sat there, her eyes filled with arrogance.

When she heard that her brother's limbs were broken, all her pride and dignity were provoked.

Huo Xinyu was furious.

She was the eldest daughter of the Huo family and had never suffered such humiliation.

"Lin Fan, is it?" Huo Xinyu frowned.

"An actor broke my brother's limbs. Since that's the case... I'll break all of his limbs," Huo Xinyu said.

When she was serious, everyone in the Huo family felt a chill.

“CEO Huo, what do you plan to do? How many people do you need to attack Lin Fan?” the assistant asked.

“Breaking Lin Fan’s limbs is such a superficial thing.”

“Lin Fan’s background is only that of being the second-largest shareholder of New Era Lisheng Hotel. He knows people from Yuehua and Yunhang Technologies’ Yun Qian.”

“In that case, let’s destroy the three companies together!”

....

It had only been a day.

The next morning, Lin Fan received a call from the owner of New Era Lisheng Hotel, Yan Xue.

“Boss Lin, our New Era Lisheng Hotel is finished...”

“Last night, all the ingredients, utensils and raw materials merchants cut contact with our company.”

“There’s also a lot of negative news online. Our partners have all cut off their cooperation with our company. Now, even the company’s funds have been frozen and the capital chain has broken!”

“Our five-star hotel... might go bankrupt.”

Yan Xue said, her eyes filled with panic.

She was a big boss of a company worth billions, but she had met someone.

This person was the eldest daughter of the Huo family, Huo Xinyu.

Huo Xinyu took action, causing the capital chain of the New Era Lisheng Hotel to break and made them reach the brink of bankruptcy.

Yun Qian's Yunhang Technologies also had a break in their capital chain.

As for Yuehua Entertainment, it was fine.

Because Yuehua Entertainment was a small company to begin with.

It did not even enter Huo Xinyu's eyes.

Huo Xinyu's revenge had come so quickly.

Huo Xinyu, who had once made the entire business world tremble in fear, appeared again.

Any company that was related to Lin Fan had suffered a fatal blow!

Having the capital chain broken was a very terrifying thing for any company.

The company's daily operations required money. The employees had to be paid and the utility bills had to be paid.

Without money, a company would not be able to operate and would slowly go bankrupt.

For example, Ofo, which was once extremely popular, had become a product that was eliminated by the changing times.

Huo Xinyu's methods could be said to be quite vicious.

Such a thunderous method shocked the entire business world.

The eldest daughter of the Huo family came out of seclusion and gave Lin Fan a fatal blow!

However, this didn't hurt Lin Fan.

The reason was simple. Even the eldest daughter of the Huo family didn't know Lin Fan's true identity.

Lin Fan was a major shareholder of LV and Chanel. These two companies had offices in China.

Chanel and LV were each worth hundreds of billions.

Lin Fan was also a major shareholder of the Bugatti Corporation. Ordinary people wouldn't be able to find out about such secret information.

If these foreign companies couldn't help Lin Fan suppress the Huo family,

Then, Lin Fan was still a major shareholder of Alibaba and someone that CEO Ma had his eyes on.

After Lin Fan broke Huo Tian's limbs, he didn't intend to continue pursuing the matter.

However, the Huo family's Huo Xinyu had destroyed Yan Xue's company and Yun Qian's company.

Yun Qian was also Lin Fan's brother. His company had nothing to do with Lin Fan.

However, just because they were brothers, Huo Xinyu attacked Yun Qian's company. This made Lin Fan furious.

Not to mention, Yunhang Technologies even rented Lin Fan's technology building. They had to pay tens of millions in rent every year. If Yunhang Technologies collapsed, who would pay the rent?

The enemy chose to take revenge on Lin Fan.

It also gave Lin Fan a reason to make the Huo Corporation, a company worth hundreds of billions, collapse.

"I originally didn't plan to pursue this matter further."

“Since the Huo family has started a war with me, then... let’s have a good fight with the Huo family!”

Lin Fan’s eyes were filled with confidence.

He wanted to see what this business legend, Huo Xinyu, could do!

Initially, Lin Fan didn’t want to use this relationship.

Since the Huo family had already taken action,

From now on, Lin Fan wouldn’t hold back!

At this thought, Lin Fan found CEO Ma on his contact list and made a call.

Accept the battle, Huo Xinyu!

At the same time,

A girl was wearing pajamas and eating cucumbers when she received messages on her phone.

The six messages on the phone were...

[Miss, Lin Fan has already become the second-largest shareholder of Alibaba. He holds 5% of the shares.]

[Miss, Lin Fan crippled Huo Tian in the business center last night because Huo Tian wanted to bully Xia Wanqiu.]

[Lin Fan’s company, New Era Lisheng Hotel, has stopped operating. Their capital chain has been broken. It was Huo Xinyu who did it.]

[Lin Fan’s good friend, Yun Qian, has his company’s funds frozen. He’s in a panic.]

[Huo Xinyu sent people to break Lin Fan's limbs. Miss, should we protect Lin Fan?]

[Miss, according to the latest news, Lin Fan called CEO Ma. It seems like he's going to look for CEO Ma. However, Huo Xinyu seems to have calculated that Lin Fan might call for reinforcements. She sent out many cars. After some analysis... Huo Xinyu doesn't want Lin Fan to lose his limbs. Instead, she wants to create a car accident and kill Lin Fan.]

The girl immediately stood up. She didn't want her favorite cucumbers and bananas anymore.

The current her was completely different from the cute girl in the past.

The current her had returned to her original appearance.

Her reply was very concise.

[Protect Master at all costs.]

[In my personal name, I announce that all the companies, industries, and branch offices in China, as well as myself, will fight against the Huo Corporation!]

[If Huo Xinyu wants Master to die, I'll make the entire Huo family die!]

Hearing such a calm voice on the other end of the phone, the bodyguard who picked up the phone shivered.

For so many years, Miss had always been innocent and cute. She was a beautiful little fairy who occasionally acted, occasionally filmed advertisements, and occasionally was a cute little foodie.

Only family members knew what was really terrifying about the girl.

She was born extremely intelligent and had a genius brain. At the age of 12, she finished her undergraduate studies on her own. At the age of 16, she was accepted by Harvard University. At the age of 18, she helped her father become the richest man in the world. In business, she was a genius girl. In life, she was an innocent dog. In relationships, she was a girl who gave silently.

1

When she helped her father become the wealthiest man in the world, no one knew where Huo Xinyu was at the time.

She had once defeated all her competitors in the global business competition. Later on, she handed the business to her father and became a celebrity to do what she liked.

Miss was not interested in all the competition in business.

And today...

Faced with the challenge of a hundred-billion-dollar corporation, Miss actually chose to take action!

The security guard who answered the call was deeply shocked.

It had been many years since he had seen Miss like this.

Today, he felt it...

The genius girl who made all the business elites in the world afraid had returned for someone called Lin Fan!

### **Chapter 262: The Huo Family Is Shocked. The Bugatti Corporation Actually Helped Lin Fan**

Lin Fan was driving, preparing to meet Yan Xue.

Lin Fan was the second-largest shareholder of the New Era Lisheng Hotel, and this hotel had branches all over Shanghai.

Such a five-star hotel had its capital chain broken in one night.

Huo Xinyu's methods could be said to be quite ruthless.

Before Huo Xinyu attacked, Lin Fan was already prepared.

If Huo Xinyu wanted to fight, so be it.

After discussing with Yan Xue for a long time at the New Lisheng Hotel, Lin Fan prepared to go to Yunhang Technologies to see Yun Qian.

After all, he had a good relationship with Yun Qian. If Yunhang Technologies collapsed, Lin Fan wouldn't be able to collect five years' worth of rent for seven floors of the technology building.

The rent of tens of millions every year was real money.

At the same time, at the Huo family.

Huo Xinyu sat there with her eyes closed.

As a business elite, she quickly destroyed Lin Fan's five-star hotel.

"CEO Huo, the capital chain of the New Era Lisheng Hotel has been broken. If nothing goes wrong, this company will close down in less than half a month. CEO Huo's move is brilliant. It's equivalent to breaking Lin Fan's arm," the assistant said.

"Yunhang Technologies has also been implicated because of Lin Fan. If this continues, which company will dare to work with Lin Fan?" The assistant revealed a look of admiration.

This was the strength of Huo Xinyu of the Huo family, one of the four great families of Shanghai.

Both companies were worth billions. Huo Xinyu could directly make both companies reach the verge of bankruptcy.

"With the two companies crippled, Lin Fan will definitely go to them."

"Lin Fan injured my brother to such an extent. It's a slap to the Huo family's face, so... I shall let Lin Fan experience the Huo family's methods."

“Orchestrate a car accident on the road. From then on, Lin Fan can disappear from this world,” Huo Xinyu said casually as if she didn’t care.

Some people should pay the price for what they had done!

At this moment... a piece of news reached the Huo family.

“CEO Huo, the latest news is here.”

“The company capital chain of the New Era Lisheng Hotel has been restored. All the raw materials merchants have also restored their relationship with the New Era Lisheng Hotel. The New Era Lisheng Hotel can operate normally now.”

“Other than that, there’s also a sum of money that has been directly injected into Yunhang Technologies. Both companies have returned to normal.”

“How is that possible... We’ve already checked the connections of these two companies. We had already caused them to collapse, but now, how can these two companies return to normal so quickly?” The assistant’s expression was a little ugly.

Huo Xinyu took action and directly destroyed the two companies.

Not long after, the two companies had recovered.

This kind of thing was impossible in business.

The Huo family had already investigated the details of New Lisheng Holdings and Yunhang Technologies very clearly.

But now, both companies had returned to normal.

This could only mean that an external force had interfered with the Huo family’s counterattack on these two companies.

Lin Fan had attacked!!

Huo Xinyu gave Lin Fan a fatal blow. Lin Fan's actions had restored the capital chains of both companies.

These two companies also had a lot of connections.

In Shanghai, it was too difficult for the Huo family to cover the sky on their own.

"Have you found out the reason?"

"Which company injected funds into the two companies?" Huo Xinyu asked.

If Lin Fan wanted to save these two companies, he would need a lot of money.

And this money was at least hundreds of millions!

In other words, Lin Fan definitely had other backgrounds that Huo Xinyu hadn't found out about.

This was also the reason why the two companies could be revived instantly.

Lin Fan's counterattack made Huo Xinyu more energetic.

She had never failed in business.

If a new company was willing to help Lin Fan, she would destroy those companies too!

Her brother, Huo Tian, was injured. As his sister, Huo Xinyu would never let Lin Fan off.

"CEO Huo, this company is from overseas... Our company can't afford to offend them," the assistant said.

"This company is the Bugatti Corporation." After the assistant said that, everyone in the family gasped.

“The Bugatti Corporation?!”

“How is that possible? The Bugatti Corporation is a luxury car brand in Europe, and it’s foreign. How could Lin have anything to do with them?”

“The Bugatti Corporation is actually willing to help Lin Fan get through this? To restore the capital chains of both companies at the same time, each company needs at least 500 million in cash flow. In other words, the Bugatti Corporation offered Lin Fan a billion yuan!”

“How deep is Lin Fan’s background? No wonder I couldn’t find any other background of Lin Fan previously. So he has a connection with the higher-ups of the Bugatti Corporation. No wonder Lin Fan could get the limited edition Bugatti sports car.”

The higher-ups of the Huo Corporation gathered together, their faces filled with shock.

The intervention of the Bugatti Corporation made it more difficult for the Huo family to attack Lin Fan.

“CEO Huo, what should we do next?”

“The Bugatti Corporation has a lot of money. If they insist on helping Lin Fan, it will undoubtedly be much more difficult for us to attack him.”

“We have to kill Lin Fan. Damn it, that Lin Fan is so arrogant. So what if he has a girlfriend? Who knows if Xia Wanqiu is still a virgin? Maybe Lin Fan picked up a second-hand good.”

Many people from the Huo family were mocking Lin Fan.

The only son of the Huo family had his limbs broken.

The entire Huo family was embarrassed.

Who dared to target the Huo family like this?

Only Lin Fan.

After Lin Fan did these things, everyone in the Huo family was furious.

When Lin Fan crippled Huo Tian's limbs, the Huo family was destined to fight Lin Fan to the death.

What they wanted was to make Lin Fan pay an even more tragic price.

"The Bugatti Corporation did help Lin Fan fork out a billion dollars, but this is only limited to Lin Fan's good relationship with the Bugatti Corporation. Lin Fan definitely can't be a major shareholder of the Bugatti Corporation."

"The Bugatti Corporation can offer one billion. Can they give Lin Fan two billion?"

"Also, he has to pay back the one billion that the Bugatti Corporation offered. If we make Lin Fan lose more funds, can he withstand it?" Huo Xinyu smiled calmly.

Especially companies like New Era Lisheng Hotel and Yunhang Technologies. Such companies could not compare to the Huo family.

"I heard that Yunhang Technologies and New Lisheng Hotel are also involved in casinos. Then let's go to their casinos to play..."

"So what if they have a capital chain? It's enough to make these two companies go bankrupt instantly."

Huo Xinyu said calmly. She put on her coat and walked out.

All the higher-ups of the Huo family looked at Huo Xinyu's back view excitedly.

If the previous commercial strike was only the first step, Lin Fan's counterattack and response made this battle white-hot.

Huo Xinyu, a legend in the business world, chose to take the initiative to destroy these two companies!

### **Chapter 263: Yun Qian Is Shocked, So This Is Lin Fan's Identity**

Huo Xinyu had already used normal business methods to attack Yunhang Technologies and New Lisheng Hotel in a short period of time.

The fastest and most direct way to collapse them was to start from the casino where the two companies worked together.

The casino was also a company that the two companies had recently invested in. Yunhang Technologies and New Lisheng Hotel had invested at least two billion yuan.

This was also the reason why the capital chain of the two companies broke after Huo Xinyu suppressed them a little.

If they wanted to restore the capital chains of the two companies, Yun Qian and Yan Xue would have to sell the casino.

With Lin Fan's help, the two companies managed to overcome the crisis of their capital chains being broken.

But they had only barely managed to overcome their crises.

If these two companies' newest casino went bankrupt, they would completely collapse.

Most of the cash flow of more than two billion was borrowed from the bank, and they were carrying a huge debt.

If the casino was destroyed by Huo Xinyu, they would lose a lot of money, but they still had to pay off their debts to the bank.

Faced with their two billion dollar debt to the bank and the two companies' unsustainable cash flow, if their share prices fell again, it would be very difficult to save the two companies.

A debt of billions was enough to bankrupt a company worth tens of billions.

At that time, even if Lin Fan had a very good relationship with the Bugatti Corporation,

even if Lin Fan was really a major shareholder of the Bugatti Corporation, he wouldn't be able to save these two companies.

A company worth hundreds of billions might not even have billions of yuan in cash.

Coincidentally, Huo Xinyu was a goddess in the casino.

The business-minded Huo Xinyu was also invincible in the casino.

If Huo Xinyu came to the casino personally, these two companies could not reject her.

If they rejected her, once word got out, they would be unable to continue running the casino.

This was also the reason why Huo Xinyu was terrifying.

Her business acumen, coupled with her proficiency in gambling, could be said to be a nightmare in the hearts of countless people.

Today, Huo Xinyu was prepared to personally come to the casino established by the two companies.

Before Huo Xinyu arrived, the people she sent to the casino had won 30 million in half an hour!

If Huo Xinyu came personally, it would probably be the end of Yun Qian and Yan Xue!

30 million was gone in half an hour. Yunhang Technologies only rented Lin Fan's technology building for tens of millions a year.

Now, they had lost 30 million in half an hour. Yun Qian and Yan Xue had a headache.

Huo Xinyu was going to cause trouble.

If they continued to lose, they could only forcefully close the casino.

However, the casino could not stay closed forever. Once it opened, Huo Xinyu would come.

Unless the casino closed down forever.

After offending Huo Xinyu, Yun Qian and Yan Xue had a headache.

Yun Qian immediately called Lin Fan and said, "Brother Lin, we're really finished this time. Huo Xinyu came to target our casino and we lost 30 million in half an hour. If we continue to lose, we lose until our pants are gone."

"They said that Huo Xinyu will come to the casino herself. What if she comes personally?" Yun Qian asked worriedly.

When Lin Fan heard that, he was silent for a second before saying, "Does Huo Xinyu want to come to the casino personally? That's good. I can go too."

"Since Huo Xinyu has come to challenge me head-on, I have to accept this battle," said Lin Fan with a hint of fighting spirit in his eyes.

The Huo family wanted Lin Fan to pay the price.

Little did they know that Lin Fan also wanted to hurt the Huo family!

A battle in the casino would be faster and fiercer than any commercial method.

One could either become a billionaire immediately or lose until their family was destroyed.

Even a company with a market value of hundreds of billions might not be able to take out billions at once.

Furthermore, Huo Xinyu was known as a business genius and was invincible. Lin Fan had to defeat her head-on!

Yun Qian said seriously, "Brother Lin, if we can't take it, we can choose to shut the casino down. There are other methods we can consider, but do you really want to fight Huo Xinyu head-on? It's said that Huo Xinyu rarely loses in the casino. She's very strong, and things are ever-changing when it comes to gambling. You have to be very strong if you want to defeat her."

Lin Fan replied seriously, "It's precisely because of this that I have to defeat my opponent head-on. When everyone thinks that I don't know how to gamble, the Huo family will have the same opinion. At that time, they will lose."

Lin Fan had been very smart since he was young. His memory was very good and his ability to remember cards was top-notch. Furthermore, Lin Fan knew how to gamble. Although he couldn't be as good as the God of Gamblers, Lin Fan's gambling skills weren't bad.

Gambling relied on eyesight, observation, acting skills, gambling skills, and so on.

When gambling, mentality was especially important.

After all, a bet might cost hundreds of thousands, millions, tens of millions, or even hundreds of millions.

No matter how experienced one was, his mood would fluctuate after facing a game with bets worth tens of millions.

In terms of memory, Lin Fan was top-notch.

In terms of acting skills, Lin Fan was a professional actor. No one would be able to see through him.

From the start, Lin Fan had already thought of the casino.

Today was the chance to defeat Huo Xinyu, a business genius.

The Huo family wanted to kill him, and he also wanted to kill the Huo family.

Yun Qian nodded on the phone and said, "Brother Lin, I believe in you. In that case, come and play a few rounds with that Huo Xinyu. If it wasn't for you, our two companies might not have been able to last until now."

"Brother Lin, tell me the truth. Is it really because the Bugatti Corporation has a good relationship with you that they gave you a billion yuan in cash?" Yun Qian asked.

Lin Fan smiled and said, "Brother Yun, we have a good relationship. It's fine if I tell you. I own 13% of the Bugatti Corporation's shares."

After saying that, Lin Fan hung up.

He did not want to show off and only said a fact.

In business, just by having a good relationship, one could not borrow a billion yuan in cash.

The fact that the Bugatti Corporation was willing to pay so much money for Lin Fan meant that their relationship with him was not ordinary.

After Lin Fan said that, Yun Qian's phone fell on the office table.

Yun Qian's expression was blank and a little shocked.

Lin Fan's explanation made him understand everything.

Why would the Bugatti Corporation help Lin Fan? Why wasn't Lin Fan afraid of the Huo family at all?!

In the past, Yun Qian knew that Lin Fan had a very deep background.

Yun Qian was not sure how deep it was.

Now, Yun Qian finally knew a little more about Lin Fan's background.

Lin Fan was actually the third-largest shareholder of the Bugatti Corporation!

The market value of the Bugatti Corporation was also hundreds of billions. In terms of brand and reputation, it was countless times better than the Huo family's businesses!

In such a big company, Lin Fan was actually a major shareholder!

### **Chapter 264: Huo Xinyu, Let's Fight!**

“The Bugatti brand can be ranked at the top of all luxury car brands in the world. Every Bugatti sports car is no less than 25 million yuan.”

“And Brother Lin could become a shareholder of the Bugatti Corporation. So Brother Lin is actually so awesome.”

“Having 13% of the Bugatti Corporation's shares is equivalent to being the third-largest shareholder of the Bugatti Corporation!”

“Brother Lin is too amazing...”

Yun Qian was a little surprised.

Lin Fan could mobilize a billion dollars because of his identity and background.

If he had such a background, Lin Fan would indeed be evenly matched with the Huo family.

Even if she used normal business methods, with a background like the Bugatti Corporation, it would be too difficult for Huo Xinyu to defeat Lin Fan.

After all, the Bugatti Corporation was a luxury brand, and it was even foreign. The Huo family mostly developed locally, and commercial means would not have any effect on the Bugatti Corporation.

But now that Lin Fan was going to face Huo Xinyu at the casino, Yun Qian was even more worried.

If he lost to Huo Xinyu, Yunhang Technologies and New Lisheng Hotel would suffer a fatal blow.

If they lost over a billion yuan tonight, both companies would owe a huge debt to the bank.

At that time, the companies would go bankrupt and be completely gone.

The Bugatti Corporation had already taken out a billion in cash. It was impossible to take out another billion.

Lin Fan was only a shareholder of the Bugatti Corporation. The other shareholders wouldn't agree to him privately using billions of yuan.

Furthermore, the Bugatti Corporation might not have billions of yuan in cash to mobilize. If they really mobilized billions of yuan, even the Bugatti Corporation's own development might face problems.

If Lin Fan lost, everything would be over.

If Lin Fan didn't fight Huo Xinyu head-on, with her ability, she could still make the two companies go bankrupt.

Yun Qian sighed.

After offending the Huo family, both companies were forced into a corner.

This might only be the first step of Huo Xinyu's plan.

If Huo Xinyu succeeded, the collapse of the two companies would only be the beginning.

Xia Wanqiu's family and Yuehua Entertainment might face problems too.

"CEO Yun, what should we do tonight?" Yan Xue asked as she looked at Yun Qian.

"Don't worry, Brother Lin will personally come here to fight Huo Xinyu."

"If he loses, we'll die an ignominious death. If we win, we can crush the arrogance of the Huo family," Yun Qian said.

"If he loses, both our companies will probably go bankrupt." No matter how calm Yan Xue usually was, she was a little flustered now.

Their opponent was the current queen of business, the eldest daughter of the Huo family, Huo Xinyu.

In the casino, the door opened.

Yun Qian and Yan Xue's hearts could not help but tremble.

A woman in leather clothes walked quickly with many assistants and security guards behind her.

She was the current business queen. Her aura was very oppressive, confident, and proud. Her eyes were filled with disdain for everything around her.

As a woman with looks of 85/100, Huo Xinyu was quite pretty.

The most terrifying thing was her aura.

When people stood in front of her, they did not even dare to look at her.

Her eyes were cold and calm, as if she could see through everyone's thoughts.

When she entered, all the gazes gathered on her.

The eldest daughter of the Huo family, Huo Xinyu, was here!

She ignored everyone's greetings.

She had only one goal in coming here.

Crush the two companies.

Defeat Lin Fan.

Make Lin Fan pay a heavy price!

"CEO Huo, welcome." Yun Qian smiled apologetically and looked at Huo Xinyu.

“Let’s exchange for chips. Exchanging 200 million would be enough,” Huo Xinyu said casually, as if 200 million was a very small number in her eyes.

“Alright.” The accompanying assistant nodded.

Beside Huo Xinyu were all bodyguards.

Huo Xinyu sat at the gambling table like a true queen.

She, who rarely went to the gambling table, was sitting here today.

If Lin Fan came here too, she would be able to return all the humiliation Lin Fan had given the Huo family to him.

When they heard that Huo Xinyu wanted to exchange for 200 million yuan worth of chips, Yun Qian and Yan Xue felt a chill down their spines.

Huo Xinyu did not care about gambling hundreds of thousands or millions.

She wanted to completely empty this casino.

She wanted the two companies to completely close down.

There were also a few people following Huo Xinyu.

They were also the current rich second-generation heirs of Shanghai and Huo Xinyu’s admirers.

These people were all from big families. If they wanted to defeat Huo Xinyu in gambling, they might be able to win her heart.

A total of three people sat down.

Huo Xinyu sat in the middle. The two people around her were the young masters of the big families in Shanghai, Young Master Zhao and Young Master Wang.

“I can empty this place in about 30 minutes. I’m short on time. Let’s begin,” Huo Xinyu said calmly.

“Alright.” Young Master Zhao and Young Master Wang smiled.

The three of them looked at Yun Qian and Yan Xue.

There were many people at the casino today.

The legendary Queen Huo Xinyu had arrived.

Many young masters from the big families in Shanghai wanted to play.

They were Huo Xinyu’s sims.

Huo Xinyu did not care about these people at all. At the same time, she could win a few hundred million more.

The three of them were already seated. All that was left was the casino staff.

If they didn’t gamble, the casino under Yun Qian’s company would be no different from being bankrupt.

There were many people from big families here. If they refused to gamble with Huo Xinyu, the signboard of Yun Qian and Yan Xue’s casino would be completely destroyed.

“CEO Huo, Young Master Zhao, Young Master Wang, please wait a moment.”

“Lin Fan will be here soon. He will personally gamble with you guys,” Yun Qian said.

When they heard that Lin Fan was coming, Young Master Zhao and Young Master Wang couldn’t help but sneer.

They knew Huo Xinyu's gambling skills, but they still came.

Luck played a huge role in gambling. If they won against Huo Xinyu, wouldn't they be able to feel the thrill of conquest?

But the most important thing about gambling was technique.

Otherwise, even if one had good cards, they wouldn't dare to bet and they would lose very badly.

"No way, no way. An actor dares to gamble with Miss Huo?"

"Lin Fan really thinks he's something. He injured Brother Huo Tian and showed off his might. He still wants to gamble with Miss Huo. Is he worthy?" Young Master Li and Young Master Zhao said.

Young Master Li and Young Master Zhao were Huo Xinyu's ultimate bootlickers.

However, Huo Xinyu was not interested in their way of sucking up.

Hearing the two of them speak like this, Yun Qian's eyes narrowed as he secretly remembered their names.

Lin Fan was the third-largest shareholder of the Bugatti Corporation. Just this background alone was enough to make the Li and Zhao families suffer.

Furthermore, with Lin Fan's status and popularity in the entertainment industry, how dare these two people mock Lin Fan like this?

Yun Qian didn't say it, but in his eyes, if Lin Fan could win tonight, the Li and Zhao families wouldn't be able to bear the consequences.

In the casino, three people took out their phones and silently sent a message.

[CEO Ma, Li Hefeng and Zhao Jin are mocking CEO Lin. How do you think these two families should be dealt with?]

[Miss, the young masters of the Li and Zhao families in Shanghai are scolding Lin Fan. They don't treat him as a human and actually call him a mere actor.]

[Miss, Miss, someone is scolding Boss Lin. His name is...]

One of them was CEO Ma's assistant.

The other was someone Xia Wanqiu had sent out, and the other was Su Xiaoyu's subordinate.

The young masters of the Li and Zhao families did not know that their words had already offended three people!

Huo Xinyu looked up. When she heard Lin Fan's name, her eyes rippled.

Whether Lin Fan was a shareholder of the Bugatti Corporation or a friend of the Bugatti Boss, she was going to defeat Lin Fan today!

In business and gambling, no one had ever been able to defeat her!

She didn't expect Lin Fan to really dare to challenge her.

In that case, she could make Lin Fan unable to make a comeback!

At the same time.

Bang.

The door to the casino opened.

A cool sports car with a pitch-black body and dazzling lights appeared. Its doors opened like wings.

At the car door, there were already security guards waiting for Lin Fan. They bowed to him.

All the lights in the casino were on Lin Fan.

There was a long red carpet on the ground, as if it was welcoming Lin Fan.

Everyone looked at Lin Fan.

Lin Fan had appeared!

Today, his opponent was the eldest daughter of the Huo family, a legend in the business world. She was also undefeated in the casino.

Huo Xinyu.

Faced with the Huo family's aggressiveness, Lin Fan had no way out.

Tonight, Huo Xinyu, let's fight!
