

## **Black Iron 1551**

### **Chapter 1551: Trick in Trick**

When the earth knight of Heavens Holding Pavilion entered the gate, he had already released his protective battle qi. However, the pitch-dark brick directly penetrated through the protective battle qi of the earth knight as some bizarre golden runes flashed by, striking heavily against his head.

Like how a commoner got a sneak attack against the back side of his head by a piece of brick, the earth knight passed out at a stroke silently...

Before he fell off freely, another hand appeared in the air as it seized the falling earth knight who was spurting white foam, suspending in the air of tunnel.

Not until then did that fat fully display his body with a bizarre wave like a chameleon.

At the same time, the black brick in his hand gradually shrunk; finally, it turned into a beam of light and shot into the fat's forehead. If those treasure-seekers saw what happened just now, they would definitely be shocked——The piece of pitch-dark brick was definitely special. Even silver secret weapons couldn't lurk in its owner's body in such a marvelous manner.

After putting away his brick, the fat started to observe the earth knight who had already passed out from his head to foot like how a timber wolf looked at a little white rabbit. Licking his lip obscenely, he almost drooled.

"F\*ck, knights from top six sects are really rich. An earth knight could carry a portable space-teleportation finger ring, and this super vigorous waistband; it has already broken through the black iron effect. His clothes are also made of top-quality boa silk mixed with secret silver silk; they could match soft armor in defensive capability. Look at the shoes, it's caliga with a layer of rune alloy plate on its sole; it's puncture-resistant and more agile in movement. F\*ck, even your underwear could clean itself automatically and could wear for one year without washing. It is worth at least thousands of gold coins. That's too lavish! This dad couldn't even afford a pair of your underwear with the money that I made in 10 years previously. Haha, what a Heavens Holding Pavilion! Pitifully, all of them belong to me now..."

In the blink of an eye, that earth knight had been naked, leaving not even a pair of underwear.

Watching this naked man, the fat teleported all the items into the space-teleportation finger ring that he had just got as he said, "Don't blame me; it's you who intended to kill me first. Therefore, it's reasonable for me to screw you up. I know that you Heavens Holding Pavilion always took your promise as f\*art; like that you want to make a fortune alone and maintain your reputation at the same time, I want to be a pimp using your fortune!"

After finishing his grumble, the fat looked at that space-teleportation finger ring as he hid it into one of his smelly shoes before revealing a big smile.

No knights might feel like searching for treasures from his dirty and smelly shoes.

After doing all this, the fat found a problem. Looking around, he muttered as he scratched his own head, "How should I deal with you? I only seek for fortune instead of taking people's life. If I let you drop off,

you would die; and I would expose my secret item; later on, I couldn't use my brick anymore. However, I couldn't take you with me; otherwise, I Fan Sanguang, as a virgin, would arouse misunderstandings and could barely marry wives in the future."

After thinking about it for a short while, Fang Sanguang finally got an idea. Eyebrows jumping, he revealed an obscene smile as he took a vial out of his portable medicine container. After opening its lid carefully, he sprayed some liquid onto the naked earth knight.

The moment the liquid met air, it caused white bubbles which kept expanding themselves, wrapping the naked earth knight at once, leaving his head outside for the sake of breath. When the white bubbles almost reached his hand, Fang Sanguang forcefully threw that naked earth knight away.

Being wrapped by the white bubbles, the naked earth knight and those white bubbles instantly stuck onto the wall of the tunnel; instead of dropping off.

"Hehheh, this super foaming glue is great. I'm a genius..." Fang Sanguang murmured pleasantly as he watched the earth knight being fixed onto the wall. However, in a split second, his face turned weird as he mumbled, "Motherf\*cker, this scene appears so familiar. I feel ejecting an earth knight onto the wall. Whatever! No matter what, this guy would wake up 3 days later, when he would remember nothing at all. I'd better take a look at the treasures of Great Wilderness Sect right away..."

After saying that, Fan Sanguang threw the last glance at that naked guy before slowly increasing his height, making his fat frame normal. Later on, he unveiled his gauze and wore a disguising mask. After changing himself completely, he started to fly downside stealthily... leaving that naked earth knight in white bubbles on the wall of the tunnel, who might have a psyche shadow after waking up three days later.

...

After flying downwards for over 60 miles, Zhang Tie and Bai Suxian reached the end of the tunnel as they found it pretty bright in front of them.

The space of the second-floor of Dongtian was almost as same as that of the last one like that in All-spirits Tower. The mere difference between the two spaces was that there were two towers of time instead of one on the huge octahedron in the center of the floor.

Meanwhile, another item was floating quietly above the two towers of time, giving out brilliant double-color light.

## **Chapter 1552: A Rarity**

The value of the two towers of time was immeasurable. Even Zhang Tie's heart pounded at the sight of them.

However, what was more attractive than the two towers of time was the item giving out golden and silver light above the towers of time—a totem of two metal snakes, tails in mouths, which was the symbol of Great Wilderness Sect.

'A metal totem, giving out two brilliant colors, floating in the air, a totem of Great Wilderness Sect...'

Anyone who integrated these pieces of messages would know that the two metal snakes were the unparalleled treasure of Great Wilderness Sect.

At least Zhang Tie held that opinion. At the sight of the totem, he had realized that the two snakes were definitely more valuable than that of the two towers of time.

After triggering his lotus-flower eyes, Zhang Tie felt bizarre energy around the two snakes. Like Centralpillar Mountain, it carried a strange gravity; additionally, the two snakes appeared having formed an unknown energy circulation.

When Zhang Tie caught sight of all this, another person had already accelerated towards the two odd-looking snakes floating above the two towers of time as fast a lightning bolt—Swords Immortal of Taiyi Fantasy Sect.

Zhang Tie and Bai Suxian also moved very fast; however, Zhang Tie retained his real flight ability. Therefore, Swords Immortal arrived at this space of Dongtian ahead of Zhang Tie.

Of course, Swords Immortal saw what Zhang Tie had seen and thought almost like Zhang Tie.

Watching Swords Immortal rushing over there, before Zhang Tie opened his mouth, Bai Suxian had already enlarged her infusion of spiritual energy into Zhang Tie's body.

"Hahaha, Swords Immortal, nice to see you again..." Zhang Tie burst into laughter as he took Bai Suxian towards the two snakes above the towers of time. In this sense, Zhang Tie would never allow Taiyi Fantasy Sect to occupy the treasure of Great Wilderness Sect ahead of him.

Taiyi Fantasy Sect had definitely joined the action of Imperial Alliance on destroying Great Wilderness Sect. It would be intolerant even by God if such a murderer could grab the treasure of Great Wilderness Sect at this time. Otherwise, those late members of Great Wilderness Sect would never be reassured in their afterlife! If Jiang Clan or Demons-kill Valley grabbed the treasure of Great Wilderness Sect ahead of Taiyi Fantasy Sect, although Zhang Tie wouldn't feel happy for that, at the least he would not feel unhappy. However, if the Imperial Alliance grabbed the treasure of Great Wilderness Sect, Zhang Tie would never feel comfortable as he would feel sorry about the fact that he was cultivating *Great Wilderness Sutra*.

Even though Zhang Tie himself couldn't get it, he would never let Imperial Alliance get it. In fact, Zhang Tie was infuriated about Imperial Alliance's brutality inside at this moment.

When Zhang Tie entered the space, he scanned the octahedron under the two towers of time by his lotus-flower eyes.

Like the former one, this octahedron still had six gates, which seemed to be leading to the next floor of Dongtian of Great Wilderness Sect. Whereas, Zhang Tie felt strange that these six gates didn't have patterns on them, but flowing runes and faint, flickering luster.

It seemed unimaginable. When a rich man decorated his villa, if the first floor was with Hua characteristics, the second floor would be with styles of other subcontinents, which felt extremely uncoordinated and weird.

When he imagined about the abnormality of the natural phenomena gates on the first floor, Zhang Tie felt a bit strange. However, he had no time to discern them and figure out the reason.

...

Swords Immortal almost reached 6 times the speed of sound; however, Zhang Tie and Bai Suxian moved faster. The moment Zhang Tie and Bai Suxian accelerated, they had already reached 10 times that of the speed of sound. Only after a short while, they had already caught up with Swords Immortal.

The exits of Zhang Tie and Swords Immortal were both on the dome of this space with a distance of a few miles, right in the center of the stamen of the huge lotus flower. Within nearby a few miles, there were four more exits. The towers of time and the weird totem were only about 200 miles away from them. As for heavenly knights, it was too short a distance. At the speed many times that of sound, it would take Zhang Tie and Bai Suxian less than 2 minutes to finish this distance.

Swords Immortal didn't even hear Zhang Tie's sound at all. Because he moved too fast that Zhang Tie's words couldn't catch up with him. However, the moment Zhang Tie caught up with him, Swords Immortal found them at once.

After sensing the faint waves behind him due to rapid flight, Swords Immortal turned around as he saw Zhang Tie and Bai Suxian approaching him from 7 o'clock behind him at a terrifying speed.

Of course, Zhang Tie targeted at the totem that gave out brilliant golden and silver light above the two towers of time.

Noticing their high speed, Swords Immortal sensed the terror of a divine dominator for the first time. Meanwhile, he understood why Zhang Tie could survive the battlefield at the bank of the Weishui River——Zhang Tie was flying with the ability of divine dominator rather than his chakras. Ten times the speed of sound was far greater than the maximal speed of heavenly knights. It could almost match that of sage-level knights.

At the same time, Swords Immortal also noticed that Zhang Tie was flying together with Bai Suxian, hand in hand.

'That's unreasonable. At this critical moment, the faster the better, why Zhang Tie would stick to Bai Suxian?'

A question occurred to Swords Immortal.

Like how Zhang Tie felt strange about the six portals downside there, Swords Immortal also felt something strange. Similarly, Swords Immortal didn't think too much about that. Thankfully, Bai Suxian beside Zhang Tie could reduce Zhang Tie's speed.

After noticing Zhang Tie's amazing speed, Swords Immortal had already intended to adjust his direction. Like two vehicles moving neck by neck on two lanes of an expressway, when Zhang Tie almost surpassed Swords Immortal, the latter's eyes suddenly turned cold as a brilliant quality sword appeared in the hand of Swords Immortal before being hacked towards Zhang Tie without demur...

## **Chapter 1553: The Scramble**

In front of the top treasure of Great Wilderness Sect, even being afraid of Zhang Tie's power and reputation, Swords Immortal didn't think too much about it. If he couldn't prevent Zhang Tie, he could only watch Zhang Tie taking away that top treasure.

However, tactics and rules were emphasized in this case. In such cases, if these powerful knights with strong backgrounds couldn't solve their problem verbally, they would definitely deal with it by force. Whereas, if they were not rivals with vendettas, they were not destined to kill the opponents at their full efforts; instead, they would keep the opposite alive at the least.

Heavenly knights were powerhouses with exceptional control abilities. In such a competition, if heavenly knights didn't mean to kill the opponent, the opponent would know it immediately the moment the brawl started.

Swords Immortal's swordsmanship was really something. The moment he launched his attack, a heavenly Knight-level sword aura had shot out of his hand and charged at Zhang Tie in the shape of a glazed long dragon. However, that sword aura stopped less than 100 m away from Zhang Tie when it turned into a huge net comprising of numerous tiny sword aura with the shake of the glazed long dragon, blocking Zhang Tie's way right away.

Such extremely brilliant swordsmanship and battle skill!

Previously, Swords Immortal just wanted to stop Zhang Tie for a second; unimaginably, his strike caused much greater trouble to Zhang Tie.

When the net of sword aura approached him, Zhang Tie thought of his substitute; however, he devoted it at once.

Almost at the same moment, Zhang Tie felt the other heavenly knights, namely Clouddragon Immortal the deputy head of Heavens Holding Pavilion, Moonsreflecting Immortal the deputy head of Qionglou Pavilion and Treasureflame Immortal of Demons-kill Valley, almost appearing in this Dongtian.

The other heavenly knights also found the two towers of time and that totem giving out brilliant, golden and silver light above them.

Like what Zhang Tie and Swords Immortal were thinking about, all the heavenly knights moved towards the totem in the air at their maximal speeds almost at the same time.

Body-separation skill was Zhang Tie's trump card, which even helped Zhang Tie to survive himself in the battle at the bank of Weishui River. If he exposed this trump card for a treasure whose function was unknown, he might have to sustain a series of outcomes.

The others might choose the totem at the cost of exposing this trump card; however, as for Zhang Tie who had Great Wilderness Sutra, Castle of Black Iron and lotus-flower eyes was actually not very immersed in looking for treasures. To tell the truth, the treasure of Great Wilderness Sect couldn't match his trump card which could save him in emergencies.

In the blink of an eye, Zhang Tie determined to not expose his body-separation skill.

Given the great consumption of Bai Suxian's spiritual energy, if he triggered his counterstrike ability of divine dominator, Zhang Tie could only choose to detour the net!

If Zhang Tie could trigger his battle qi, he could definitely break the net of sword aura; if he had spiritual energy, he could also break it easily; he could even break through it by his protective battle qi and protective sword qi. As long as he had recovered, he could have a myriad of counter-measures. Pitifully, Zhang Tie had not recovered as he could neither trigger his battle qi nor run his spiritual energy.

Zhang Tie could only scare them away. If he had to fight them, the fact that he had not recovered would be exposed right away. If he used Bai Suxian's spiritual energy to counterattack, her spiritual energy could never be available to the constant consumption of his skill as a divine dominator. *noVe(lb)In*

Even if he broke this net of sword aura using Bai Suxian's spiritual energy, he had to do the same thing for the second time or the third time. Although it was easy for a heavenly knight to launch such a strike, Bai Suxian couldn't bear such a great consumption of spiritual energy. By then, Zhang Tie's factual situation would be exposed either.

After detouring Swords Immortal's net of sword aura, Zhang Tie's vantage point in speed was offset at a stroke.

Swords Immortal and the following heavenly knights were all shocked by Zhang Tie's choice.

As heavenly knights, they were all very sagacious. At the sight of Zhang Tie's reaction to the net of sword aura, they immediately knew that Zhang Tie had not recovered and they were all frightened by him that day.

That day, Zhang Tie held Bai Suxian's hand when he frightened the others; so did he today...

'There's definitely something wrong with him!'

"Hahaha, Qianji Hermit is really something. Besides strong power, you also have a myriad of tricks. We were almost frightened by you. It's said that all the skills of divine dominator are driven by spiritual energy. I guess that Princess Bai is constantly injecting her spiritual energy into your body. No wonder I've not seen you manifest your own battle qi and power..." Clouddragon Immortal of Heavens Holding Pavilion said as the battle qi behind him turned into a cloud of mist, which enabled him to speed up abruptly and surpass Moonsreflecting Immortal and Treasureflame Immortal at once. At the sight of Zhang Tie's response, a weird look flashed across his eyes as his words reached the dome, which then was reflected downwards, filling the entire space.

"Clouddragon Immortal, do you want to have a try? Haha, you're so smart! You hit it..." Zhang Tie burst into laughter in front of him.

Zhang Tie's frank admission made Clouddragon Immortal frown at once. Out of suspicion, Clouddragon Immortal didn't know whether it was another trap of Zhang Tie...

## **Chapter 1554: Coalition**

Flying in front, Swords Immortal launched strikes for consecutively a few times in an overwhelming manner, forcing Zhang Tie to detour, offsetting the latter's vantage point in speed at a stroke.

In this case, Swords Immortal approached the totem first.

The moment Swords Immortal stretched out his hand to take the totem of two snakes which was giving out brilliant, golden and silver light with an ecstatic look, another light caught up with him from behind, hitting the totem at a stroke. As a result, the totem was sent flying far away while rotating, sliding away from the tips of Swords Immortal's fingers, breaking the ecstasy of Swords Immortal at once.

The light was carried by Zhang Tie's bolt-in-palm. It moved so fast that even Swords Immortal didn't catch its existence. Additionally, its angle was erratic. Before it touched the totem, it made a turn in the air. Therefore, after being hit, the totem rotated and flashed downwards with an inclination.

"Zhang Tie..." Swords Immortal roared as his face turned purple, adding, "Do you mean to oppose Taiyi Fantasy Sect?"

"Hahaha, it's a ritual to exchange gifts with each other. Immortal, can't you stand it? If so, what do you mean by striking me just now?"

Zhang Tie burst into laughter as he neglected Swords Immortal's feeling and chased after the totem. However, Swords Immortal hated Zhang Tie so much at this moment that he instantly launched a fiercer swords aura that covered Zhang Tie. Zhang Tie and Swords Immortal brawled with each other at a stroke.

They were soon caught up with by Celestial Treasureflame, Celestial Clouddragon and Celestial Reflectingmoons. Watching the treasure of Great Wilderness Sect flying downwards, the three people sped up after it at the same time.

Celestial Woodbuilding arrived in this space a bit later than the other heavenly knights before Zhang Tie released his bolt-in-palm. When Celestial Woodbuilding appeared, he saw everyone chasing after the totem of snakes. Only after a short thought, he had given up scrambling for the treasure of Great Wilderness Sect; instead, he rushed towards the two towers of time on the ground.

Although there were hundreds of birds in the wood, it's no better than having one bird in your hand. As for Celestial Woodbuilding, he preferred to occupy one tower of time rather than scrambling for an unknown treasure with the other extremely powerful heavenly knights.

As he was here a bit later than them, he had already lost the vantage point in time. Even though he joined the scramble, he would have a very low possibility to get it. When none of the other heavenly knights couldn't get the treasure, some of them might head for the towers of time, by then, it would very difficult for him to scramble for one tower of time. Therefore, Celestial Woodbuilding made such an unexpected, yet reasonable response.

After all, Celestial Clouddragon, Celestial Moonsreflecting Moons and Celestial Swords were partners who had reached many secret agreements. In this case, the moment Swords Immortal wrestled with Zhang Tie, the three heavenly knights had already reached a tactful action.

There were only 6 heavenly knights here, besides Celestial Woodbuilding who didn't join them, only Zhang Tie and Celestial Treasureflame could threaten three of them. That was to say, as long as Zhang Tie and Celestial Treasureflame were prevented, the treasure of Great Wilderness Sect would belong to them.

“Celestial Treasureflame, easy...” Celestial Clouddragon said with a smile as he released a “meteor” battle qi, blocking Celestial Treasureflame at once.

With a sound of “boom...”, Celestial Treasureflame launched a counter-strike as his eyes turned cold. The first close collision between the two heavenly knights sounded like a thunder in the Dongtian while the vigorous battle qis swept over dozens of miles. Besides, the entire space was brightly lit as if fireworks were launched.

“What do you want?” Celestial Treasureflame reproached as he threw a distant glance at Celestial Clouddragon in rapid flight.

“I’ve long heard about the Six-yang flame of Celestial Treasureflame. Coincidentally, I want to try it here...” Celestial Clouddragon said as he burst into laughter.

Celestial Treasureflame threw a glance at Celestial Reflectingmoons while Celestial Clouddragon had already blocked him. Celestial Reflectingmoons then chased after the brilliant totem of snakes.

The privity displayed by the three major sects of Taixia Country shocked Celestial Treasureflame while Celestial Clouddragon became his biggest obstacle...

In the blink of an eye, Celestial Treasureflame disappeared at once; closely after Celestial Clouddragon. The space was then filled with wrestling lightning bolts while thunder-like collisions resonated across the entire space like firecrackers.

When these heavenly knights scrambled for the totem, Bai Runshan, Immortal Deyang and the other shadow knights of the major sects had poured in the space, closely followed by earth knights. At the sight of the boisterous scene in the space, almost all the shadow knights shot over there.

...

Celestial Woodbuilding flew towards the two towers of time in a low height; unimaginably, the happy lot fell towards him. After being touched by Zhang Tie’s bolt-in-palm, the totem was flying towards Celestial Woodbuilding at a high speed, closely followed by Celestial Reflectingmoons.

The moment Celestial Woodbuilding felt ecstatic, he had heard the icy voice of Celestial Reflectingmoons, “Is Jiang Clan going to imitate the extermination of Great Wilderness Sect?”

After hearing that, Celestial Woodbuilding’s heart pounded as he saw the berserk battle qi strikes and the icy eyesight of the old witch of Qionglou Pavilion, which after crossing thousands of meters, cascaded towards the head of Celestial Woodbuilding like that in a real duel...

### **Chapter 1555: The Coming Crisis**

Even clay figurine carried the feature of fire, not to mention heavenly knights.

If the old witch didn’t say the last sentence, Celestial Woodbuilding might have already left; however, the old witch’s crankiness and ruthlessness irritated Celestial Woodbuilding at once.

Facing the coming berserk strikes and the treasure of Great Wilderness Sect, Celestial Woodbuilding didn’t yield; instead, with a flash of eye light, he made a hand gesture as he roared, “Break...” while facing the strike of Celestial Reflectingmoons by two hands.

In the loud collisions, one of Celestial Woodbuilding's battle qis struck against the totem of snakes, causing it to change its direction once again alongside the vigorous qi at a greater speed towards the dome while a lot of knights were pouring out of the tunnels over there.

Celestial Reflectingmoons was infuriated so much that she accelerated towards the dome with a roar, leaving Celestial Woodbuilding alone. Watching her back, Celestial Woodbuilding sneered as he continued to dash towards the towers of time.

The rest knights had not imagined that they could have a chance to get the treasure of Great Wilderness Sect.

At this moment, all the barbarian knights and independent shadow knights had already swarmed in. At the sight of the coming totem of snakes, over 10 shadow knights rushed towards it at once at their full efforts.

At this moment, only two shadow knights at present were a bit hesitant: Immortal Deyang, who paused when he recalled the manifestation of divination about this travel in front of the coming totem; he then flew towards Zhang Tie; instead of that treasure.

Another one was a barbarian shadow knight. In a bizarre hat made of an unknown animal's horn, with tattoos on the face, when he saw the totem of the brilliant head-to-end snakes, he didn't reveal ecstasy like the other shadow knights; instead, he looked shocked and extremely scared as he uttered a shrill sound, "Hagusira..." Closely after that, he escaped away as fast as possible.

After hearing the barbarian shadow knight's shriek and seeing him escaping backward as fast as possible, Bai Runshan who was rushing forward with sparkling eyes quivered all over as he retreated at his full efforts as well.

Growing up in South Border, Bai Runshan was very proficient in the language of barbarians in South Border. He knew that barbarian shadow knight who was a barbarian overlord in South Border called Serila, who ruled Insects Mountain and had negotiated with Lord Guangnan's Mansion for more than once; despite the two parties didn't get along well with each other, they didn't turn completely hostile against each other. What Serila shrieked just now meant the snakes of destruction.

Bai Runshan might not care about it if it was shrieked by others; however, Serila was the former outdoor disciple of Great Wilderness Sect and later on the outdoor elder of Great Wilderness Sect. When Great Wilderness Sect was exterminated, Serila was not there as an outdoor elder; therefore, he survived that catastrophe. All of his accomplishments were learned from Great Wilderness Sect. Serila who had contacted some secrets of Great Wilderness Sect must know more about Great Wilderness Sect than anyone else at present.

Additionally, Serila was of great ambition. Since he ruled the Insects Mountain for so many years, he used to call his men the direct affiliate of Great Wilderness Sect and made destructions with the aftermath of Great Wilderness Sect. Moreover, he was thinking about hefting the great banner of Great Wilderness Sect once again. However, such a person instantly escaped away while changing his face at the sight of this treasure of Great Wilderness Sect.

When he thought about this, Bai Runshan made a decision to evacuate from here as well; instead of charging at the totem-like the other shadow knights...

The other knights were constantly rushing downwards from the six entrances...

...

"Impossible!" Celestial Woodbuilding muttered when he tried to push open the gate of a tower of time. The gate on which runes were flowing remained still. At the same time, he received a message from the gate of the tower of time—Not received All-spirits Tower yet; great wilderness seal couldn't be connected to confirm your identity; forbidden in.

The tower of time was actually a rare tower of great wilderness seal, which was only accessible to disciples of Great Wilderness Sect who have cultivated *Great Wilderness Sutra*. As a result, Celestial Woodbuilding wasn't accepted in.

'What the hell?'

Celestial Woodbuilding hurriedly charged at the gate of the second tower of time. When he put his hand on the portal and intended to push it open, he was transfixed by the same message.

'Impossible! If they are towers of great wilderness seal which requires identity verification, how could one of four sage freaks enter the tower of time on the first floor easily?' Celestial doubted as he had already checked the tower of time on the first floor, which didn't need any identity confirmation at all.

'What the hell!'

Celestial Woodbuilding was flurried inside in front of the tower of time.

...

Almost at the same time, those knights who served as watchdogs outside the portals of the six full-moons gates of the first floor of Dongtian were also flurried.

According to the information displayed on the full-moons gates, it would take the six full-moons gates at least 1 month to close when one of the two moons outside turned into crescents.

At this moment, right in the eyes of those knights of major sects, the six full-moons gates closed up within a few seconds firmly and slowly in an irresistible way...

## **Chapter 1556: The Fall of a Celestial**

Watching the full-moons gates of the first floor of Dongtian closing themselves while all the patterns on the gates gradually faded away like words on paper being erased, all the knights guarding the gates widely opened their eyes.

However, something more terrible had not happened yet.

"Ahh, look..." a knight of Heavens Holding Pavilion suddenly shrieked as he pointed at the entrance of the first floor of Dongtian.

The other knights nearby raised their heads as they saw that the entrance to the first floor of Dongtian gradually shrunk like shrinking intestinal tracts of an animal. The entire metal dome appeared to have

become alive as the hard metal started to change its shape like a huge piece of jelly. When the dome stopped wriggling, the entrance leading to the first floor of Dongtian had disappeared as if it had never existed before.

“Ahh, what happened?” some knights didn’t believe their eyes as they tried to strike the metal dome by their battle qis fiercely in vain.

All the knights in the first floor of Dongtian turned pale at this moment...

Nobody could enter this space anymore; nor could over 10,000 human knights of Taixia Country exit this space; instead, they were all isolated in the second floor of the Dongtian.

Why?

...

Those knights who were pouring in the second floor of Dongtian didn’t know that the full-moons gates and the portals accessible to the Dongtian of Great Wilderness Sect behind them had already closed and disappeared as they were all rushing downwards for the possible benefits.

“Those in front of me will die...” Celestial Reflectingmoons of Qionglou Pavilion revealed a grim look like a real old witch as she roared and launched a battle qi strike towards the heavenly knight who was not backed by a major sect yet was scrambling for the totem of snakes. Only with one strike, she had already driven away some shadow knights who were also rushing towards the totem.

Those shadow knights were all frightened by the terrifying deputy head of Qionglou Pavilion as they hurriedly dodged away; instead of confronting with her battle qi strike.

The other knights of Demons-kill Valley were hauled by the knights of Qionglou Pavilion and Taiyi Fantasy Sect while knights of Heavens Holding Pavilion coordinated with Celestial Reflectingmoons to scramble for the treasure. All the other knights and forces were dwarfed by the combined strength of the major sects of Taixia Country. Only after a short and fierce moment, the brilliant treasure of Great Wilderness Sect in the air had been seized by the old witch of Qionglou Pavilion.

“Quack, quack, quack, quack...” Celestial Reflectingmoons cackled in an extremely pleasant way as she held the totem of a golden snake and a silver snake.

After seeing the treasure falling in the hand of Celestial Reflectingmoons, Celestial Swords burst into laughter as he relieved his sword qi strike and extended the distance between him and Zhang Tie. At the same time, he watched Zhang Tie with doubtful sparkling eyes, “I’ve not imagined that the world-renowned Immortal Qianji couldn’t even use your battle qi now; even your ability as a divine dominator appears to have been severely declined; you even need other’s spiritual energy. What a surprise!”

Due to his wound, although he could cheat others verbally, as long as he joined a fight; especially with a heavenly knight, it was almost impossible for him to cheat such an experienced and cunning person. During the short period of close combat, Celestial Swords instantly discovered the problem facing Zhang Tie——Zhang Tie couldn’t use his protective battle qi; nor could he launch battle qi strikes. Even his ability as a divine dominator was only limited to rapid movement, which required Bai Suxian’s help. If Celestial Swords still couldn’t figure out Zhang Tie’s problem in this case, he could go die; instead of being the deputy head of Taiyi Fantasy Sect.

Zhang Tie remained silent as he just smiled and watched Celestial Reflectingmoons who was cackling with that “treasure”, letting out a sigh. The combined strength of the other major sects was really overwhelming on the premise that he had not fully recovered. The cooperation of the three heavenly knights could almost determine the final result of this scramble.

At the same time, he saw Immortal Deyang rushing towards him while Bai Runshan was catching up with a shadow knight and saying something. Celestial Treasureflame and Celestial Clouddragon had also separated as they rushed down towards the towers of time together.

Right in front of the two towers of time, Celestial Woodbuilding was still striking the entrance of one tower of time fiercely by battle qi. Although he had gained the initiative, he was still outside the gate till now.

More and more knights were pouring into this space. A large number of black iron knights had already shot inside, who then instantly started their treasure exploration in a pretty fanatic manner.

Immortal Deyang and Bai Runshan almost arrived at Zhang Tie’s side at the same time. Celestial Swords’ words shocked everyone in the space within 600 miles, including Immortal Deyang.

“Are you all right?” Immortal Deyang flew towards Zhang Tie with a concerned look.

“I’m fine. Don’t worry about me!” Zhang Tie replied with a smile as he knew what Celestial Reflectingmoons would like to know, “Let’s talk about it when we get out of here...”

“Hmm!”

Just now, Celestial Swords must have bad intention by spreading loudly Zhang Tie’s current situation. However, it was not the right moment for Zhang Tie to argue with him on this point.

“Hahaha, like what Celestial Qianji has said, only people with great mores could occupy the treasures across the world. This treasure of Great Wilderness Sect has already got its owner. The two towers of time downside there might also not belong to you. Immortal Qianji, if you try your best to search, you might get something else here before the arrival of all of the other knights...” Celestial Swords teased Zhang Tie as he cackled on one side.

The moment Bai Suxian wanted to refute him, she was stopped by Zhang Tie by raising his arm. At this moment, Zhang Tie was fixing his eyes on Celestial Reflectingmoons and that “treasure of Great Wilderness Sect” in her hand as he had a complex feeling inside.

Just now, when Zhang Tie used his bolt-in-palm to hit and deflect the “treasure of Great Wilderness Sect” with the ability of divine dominator. In fact, when the bolt-in-palm almost touched the ‘treasure’, Zhang Tie felt it hitting onto an extremely powerful protective battle qi. Before his bolt-in-palm touched that item, that item had already flown away alongside the direction of the strength of his bolt-in-palm.

‘How could an object have the powerful protective ability like protective battle qi?’

Zhang Tie was shocked.

...

Celestial Reflectingmoons guffawed as she held high the brilliant totem of a golden snake and a silver snake. Watching the surrounding knights who were looking at her with admiring and jealous eyes, she said in an extremely unscrupulous and cold tone, "Come over here if you want. This grandma has not seen the blood today. I'm waiting for it..."

Nobody dared move in the surroundings.

After looking around, Celestial Reflectingmoons became satisfied.

Right then, Celestial Reflectingmoons received a message delivered by watchdogs of Qionglou Pavilion outside the gate of the first floor—The full-moons gates have already closed themselves; even the entrance leading to the first-floor of Dongtian on the dome had disappeared.

'Rubbish!'

After being slightly stunned, Celestial Reflectingmoons swore inside. When she entered the first floor of Dongtian, she had checked the entrance on the dome, which was composed of special metal. Even sage-level knights couldn't destroy it. How could it disappear? Does it mean that the watchdogs have been killed?

In case of trouble, after throwing a glance at that brilliant treasure in her hand, Celestial Reflectingmoons was going to teleport it into her portable space-teleportation equipment; however, when she ran her spiritual energy, she found that that treasure remained still. Right then, she felt a sharp pain on her palm...

The golden snake had already become alive as its mouth had already left the tail of the silver snake and was biting her right hand. Besides sharp pain, Celestial Reflectingmoons watched her right arm gradually burning into ashes from her palm to her wrist, all the way to her elbow and shoulder like burning mosquito-repellant incense...

It was a sharp pain both physically and psychologically. Even a heavenly knight would suffer a great wallop when she saw her arm burning into ashes in the air.

"Aah..." Celestial Reflectingmoons' eyes almost popped out of her eyesockets as her shrieks shocked the entire space.

All the surrounding people were stunned, more were transfixed.

When she opened her mouth, the silver snake instantly lurked into her mouth in terms of silver light, freezing Celestial Reflectingmoons as a whole at once.

A few seconds later, Celestial Reflectingmoons immediately turned into ashes as a whole as it spread over the sky. Like having just woken up, the golden snake and the silver snake gradually recovered their original looks. As they started to wriggle in the air, they grow increasingly larger...

## **Chapter 1557: The Power of the Two Snakes**

As Celestial Reflectingmoons perished, the treasure of Great Wilderness Sect instantly turned into sheer fierce beasts. The process underwent too fast.

The face of Celestial Swords who was jeering at Zhang Tie just now had already frozen and turned pale.

The death of a heavenly knight was enough to scare off all the onlooking knights near her, breaking their gall bladders and souls.

What the f\*ck! These people were here for the treasure. They had never imagined that such terrifying monsters were hiding here even after the extermination of Great Wilderness Sect.

“Mamma, what are those f\*cking things? Hurry, go...”

“Devil snakes, devil snakes; those are devil snakes...”

“Quick, run...”

In the earth-shaking wails, all the knights nearby Celestial Reflectingmoons escaped away in all directions at their maximal speed while complaining that they were not granted with two more legs.

Despite Celestial Reflectingmoons didn't release her protective battle qi, she was always a heavenly knight. Now that the two snakes could perish a heavenly knight in this case, not to mention the other knights.

Watching the two weird snakes who were gradually enlarging their sizes, Zhang Tie felt Bai Suxian's palm full of sweat. Women were born to be afraid of snakes, not to mention such terrifying creatures who could even kill a heavenly knight.

“What...what are they?” Bai Suxian asked Zhang Tie in quivering voice.

“I have no idea. They should be treasures of Great Wilderness Sect. However, they're alive instead of being dead objects. Let's leave out of here first...” Zhang Tie answered. As he was not aware of anything at present and had not recovered his power, it was not his primary option to be showy facing such an unknown danger. Additionally, it was a member of the Imperial Alliance who was killed, Zhang Tie had been benign enough as he didn't applaud for her death. Instead, Zhang Tie just threw a glance at Celestial Deyang before pulling Bai Suxian's hand and flying far away, intending to leave out of here through the tunnel from where they entered here.

...

Under the gaze of everyone at present, the two small snakes who were only about 1 m in length soon grew into overwhelming boas as long as 50-60 m, swimming in the air.

In such a short period, the knights of the three major sects who surrounded the two bizarre snakes were not too far away. The fastest one was only thousands of meters away. Closely after their transformation, the two bizarre boas, one golden, the other silver, had flown towards the knights of the three major sects with red eyes.

“Aah...”

“Help...”

The two boas moved much faster than ordinary knights in the air. Only after a few seconds, the two boas had already caught up with a disciple of Taiyi Fantasy Sect and Heavens Holding Pavilion respectively.

The moment the golden boa opened its grim mouth, it had sent off a golden flame, charring a black iron knight of Taiyi Fantasy Sect hundreds of meters away at once. Similarly, when the silver boa opened its mouth, it had shot out a silver storm, turning the disciple of Heavens Holding Pavilion into shattered ice scums in a split second.

The two weird snakes were really fierce. Despite being far away from them, Zhang Tie was still dumbfounded by them. As each of the two boas could kill a black iron knight immediately, Zhang Tie estimated that they must have already reached the power of heavenly knights.

After killing two knights of a major sect, the golden boa coiled itself in the air, making it like a cylinder and covering one knight of Qionglou Pavilion, who was an earth knight. In panic, the earth knight exerted his all efforts to strike at the 1 m thick body of the golden boa. However, the strike of the earth knight didn't work at all. Actually, it felt itchy and didn't even drop a scale. As the golden boa tightened up its body, with the roars of the earth knight, his protective battle qi and whole body were broken as his blood and flesh poured down...

At the same time, the silver boa swept its tail at a speed many times that of sound, causing a shrill air-splitting metallic sound across the Dongtian. Its strength was so enormous that the moment it touched two slower black iron knights of Taiyi Fantasy Sect, it had turned the two into powders in the air, who didn't even leave any shriek.

Watching it, all the escaping knights sped up in a flurried manner.

"Ruinous beasts..." Celestial Swords the deputy head of Taiyi Fantasy Sect finally woke up as he roared and flashed towards the two weird boas after knowing that three of his disciples were killed.

As a confident heavenly knight and the top figure of Taiyi Fantasy Sect, Celestial Swords couldn't shirk his responsibilities so as to maintain his reputation when he saw his disciples being slaughtered by two weird boas.

...

The second floor of the Dongtian of Great Wilderness Sect was in complete chaos as over 10,000 knights who had not been organized flew here and there disorderly in the space.

Pulling Bai Suxian's hand, Zhang Tie stayed far away from the two weird boas together with Immortal Deyang. After making a detour, they converged with Bai Runshan at a place.

At this moment, Bai Runshan was flying towards them with that barbarian shadow knight Serila, whose lips were quivering as his face turned completely pale.

As it was not the right moment for them to greet each other, Zhang Tie instantly made a decision before Bai Runshan introduced that barbarian shadow knight to him, "Quick, follow me, we should leave out of here along the tunnel where we came from. If we continue to stay here, we might face other dangers..."

“Just now, knights of Lord Guangnan’s Mansion who were left outside the gates of the first floor sent a message...the full-moons gates of the first floor had been closed all of a sudden!” Bai Rushan said as he looked pretty gloomy. When Zhang Tie told him that there might be dangers here just now, Bai Runshan doubted that; he had not imagined that Zhang Tie’s judgment was confirmed so fast...”

## **Chapter 1558: A Fatal Trap**

“What, the full-moons gate above have already closed up?” Zhang Tie was shocked inside.

“Yes, besides the full-moons gate where we entered just now, all the other five full-moons gates have closed up. In addition, the entrance leading to the first floor of Dongtian of Great Wilderness Sect has disappeared too...”

“Aah, disappeared? But how?” Celestial Deyang almost jumped up flurriedly before Zhang Tie opened his mouth.

In such a short period, the location over 60 miles away had been filled with golden and silver flashes. When they turned around, they saw some more disciples of the three top sects turning into ashes and ice scums in front of the two boas. Celestial Deyang’s eyebrows kept jumping.

“They just disappeared out of the void. Knights had been dispatched to guard the entrance of the first floor of Dongtian and the full-moons gates of the first floor. Just now the two teams of knights both sent me a message that a huge area of metal ground appeared to be softened suddenly as it started to wriggle. In a few seconds, the original entrance had been inaccessible. After a few more seconds, the entrance directly disappeared...”

“Does it mean that none of us could leave here?”

“Unless we could break those portals; otherwise...” Bai Runshan said bitterly.

How could those portals be easily destroyed? Otherwise, they had long entered them. Such portals were never produced in this age. Even sage-level knights could barely break them.

After hearing such an answer, Immortal Deyang didn’t know what to say. He could only look at Zhang Tie along with all the others besides Zhang Tie.

The moment Zhang Tie wanted to speak, he felt a bizarre wave as the All-spirits Tower in his mind sea rocked. Closely after that, Zhang Tie looked up at the six stamens in the middle of the huge lotus flower which were six tunnels from where they came in. Right then, he found the open lotus flower gradually closing up with flashing light and looming runes, covering the six tunnels at once.

Many knights had noticed such a change. If the news that above tunnels had closed up was only known to very few people, the disappearance of the six tunnels downside there aroused a panic that instantly spread across the entire space of the second floor of the Dongtian.

“Aah, why did these entrances suddenly close up...”

“Can’t we leave out of here?”

“No, I want to leave out of here...”

Some knights close to the dome of this space noticed the chance at once as they instantly rushed over there before launching colorful battle qi strikes onto that huge lotus flower. However, what they had done was like how ants tried to shake a giant tree.

At this moment, more knights realized that the gates of the two towers of time downside there couldn't even be opened. Besides Celestial Swords, Celestial Clouddragon also flew over there to fight two boas.

As heavenly knights, Celestial Swords and Celestial Clouddragon could both strike enemies over 10,000 m away. The two weird boas couldn't make this point; however, their defensive capability was amazing. Even though Celestial Swords and Celestial Clouddragon both used their silver secret weapons, they couldn't hurt the two boas at all; instead, the strikes of the two heavenly knights irritated them, causing the two boas to speed up towards them.

In a split second, the entire space was filled with the battle qi light of heavenly knights and the flames and storms of golden and silver boas, which scared the rest of people.

To be honest, Zhang Tie felt a family of mice drilling into the same cage at the same time. Over 10,000 knights were trapped in this cage.

At this moment, everyone's heart pounded out of fear; except Zhang Tie who remained calm both inside and outside.

Such an accident was within Zhang Tie's imagination. Because he had already felt something wrong here before he came down. If everything went normal, Zhang Tie would doubt his feeling and intelligence.

Zhang Tie tried Castle of Black Iron at this moment as he found that he could still access to it freely. Therefore, he became much reassured and was not afraid even a bit of the two weird boas, nor the Dongtian which was full of crises; instead, he felt somewhat intimate and safe, which was resonance to the *Great Wilderness Sutra* that he cultivated.

Zhang Tie's calmness affected many people in the surroundings, which couldn't be disguised at all; instead, it was a message released by Zhang Tie's qi field. Watching Zhang Tie's calm look, Bai Suxian, Immortal Deyang, Bai Runshan and that barbarian shadow knight who was flurried just now became much more reassured. Additionally, they had great confidence in Zhang Tie as they all felt that they would be safe as long as they were with Zhang Tie.

The battle in the distance would not affect them for a short period. Neither did Zhang Tie move without a destination. No matter what, he couldn't get out of here for the time being. Therefore, he preferred to think about the solution. After being silent for a few seconds, Zhang Tie asked Bai Runshan, “Besides the sudden closure of the six full-moons gates and the disappearance of the entrance to this Dongtian, is there any other abnormal phenomenon?”

“Ohh, there's one more. With the closure of the full-moons gates, those patterns of stars gradually faded away too...”

‘The patterns on the full-moons gates disappeared? Does it mean that those patterns were not on the gates at the beginning? No wonder I found something wrong with those patterns.’ Zhang Tie realized it at once...

“Ahh, puppet fighters...”

All of a sudden, louder shrieks filled the space while all the reliefs on the metal walls opened their eyes as they became alive and started to attack people here.

Like what Zhang Tie had predicted, those metal sculptures were really puppet fighters. none)lb)In

At this moment, watching the disappearing tunnels, the rampant weird boas and those live puppet fighters, the other knights had long been in turmoil...

Celestial Woodbuilding flew over here flurriedly followed by a team of knights of Jiang Clan as he shouted at Zhang Tie loudly, “It’s a trap. Only disciples of Great Wilderness Sect could access to the towers of time downside there. We couldn’t have any chance to escape away unless cooperation...”

### **Chapter 1559: The Chaos**

Like that on the first floor of Dongtian of Great Wilderness Sect, there were thousands of totems of bizarre beasts on the metal walls of the second floor of Dongtian in this floor of Dongtian, most of which could fly. Not until these totems started to move did everyone realize that they were not just useless metal sculptures; they were also terrifying puppet fighters in the shape of various fierce beasts that none of people could have imagined.

At this moment, the walls were simply like dens from where puppet beast-shaped fighters flapped their wings and constantly charged out before fighting those human knights who were bumping around aimlessly, causing casualties among humans at once.

All the puppet beasts were close to black iron human knights in battle strength. Besides enormous in quantity, they almost remained alive forever. Even if they were shattered, for the time being, their broken metal pieces would also converge and recover their original complete forms in a split second before continuing their fight with human knights. Such a scene was as same as that Zhang Tie encountered in the lobby of puppets in the bloody sacrifice hieron.

However, what the puppet lobby that he saw before to this scene was what a guerrilla to a corps.

In a split second, the space of the second floor of Dongtian covering hundreds of thousands of square miles had been filled with roars, miserable shrieks, exclamations of human knights and the sonic booms caused by beast-shaped puppet fighters as well as various metallic growls and colorful battle qis. When all these were interwoven with each other, it was as earth-shaking as the battlefield at Weishui River between humans and demons.

As puppet beasts couldn’t release battle qi; therefore, they could only carry out close combat. Although human knights could release battle qis and realize distance strike, most of them couldn’t fight incessantly. Whereas, puppet beasts could realize endless fight in their territory once they were triggered.

Especially at this moment when they found their route of the retreat was cut off and they were enclosed in this space, all the knights became flurried as they didn’t mean to fight at all. Even though they outnumbered puppet beasts, most of the human knights were in small teams and couldn’t coordinate

with each other in such a short period. In this case, they could only barely draw a tie with puppet beasts. In addition, their space was constantly narrowed by puppet beasts. When puppet beasts were shattered one after another, some low-rank black iron knights were also torn into pieces.

After being shattered, puppet beasts could still recover their original looks; however, dead human knights couldn't revive.

In the distance, Celestial Swords and Celestial Clouddragon were still fighting fiercely the two boas. Even though they felt having vantage points in battle strength as heavenly knights, they couldn't hurt the two boas substantially as the latter appeared being resistant to all strikes even from heavenly knights; instead, they could only cause them to fly away or stagnate their movements. The two boas' battle strength was too terrifying that any one of them would far surpass shadow knights.

Watching the result of the fight between the two heavenly knights and the two boas, all the others stayed far away in fear of being involved in it.

Conversely, more and more knights gathered around Zhang Tie.

With the help of Celestial Woodbuilding, Bai Runshan and that barbarian shadow knight Serila, Zhang Tie's combination could easily shatter all the puppet beasts that approached them.

Watching their excellent performance, all the other aimless knights instinctively approached Zhang Tie's group.

Zhang Tie's reputation, personality and moral standing automatically attracted the surrounding knights like a piece of magnet in this case.

Although Celestial Swords revealed Zhang Tie's "secret" in the public out of malicious intention—— Zhang Tie had almost lost his battle strength, his words had long been forgotten by those knights on Zhang Tie's side when they saw Zhang Tie's valiant performance.

Zhang Tie's performance was so valiant that he was simply more reassuring than the two heavenly knights. As light appeared in Zhang Tie's hand constantly, Zhang Tie released spears one after another like lightning bolts, shattering all the grim puppet fighters within 10,000 m who were rushing over here in a split second as if they were toys. None of the puppet beasts could resist Zhang Tie's strike. Of course, such a scene strengthened the courage and confidence of those human knights. A great number of knights were constantly gathering around Zhang Tie for the sake of protection.

Watching a pterosaur-shaped metal bird flashing over here from over 7,000 m away who was going to break through a black iron knight's back using its meters long sharp peak, Zhang Tie squinted his eyes as a spear appeared in his hand before shooting it out.

After detouring some human knights like a lightning bolt by drawing some arcs in the air, the spear penetrated through that puppet bird before it was about to peck through the knight's back, shattering it into pieces before falling off with a boom.

The black iron knight who survived such a sneak attack realized that he was saved by Zhang Tie. After throwing an appreciative glance at Zhang Tie, he instantly flew towards the latter.

Zhang Tie launched another strike as another lightning bolt flew off and shot into the big mouth of a flying snake over thousands of meters away. With a loud boom, the snake collapsed into pieces and fell off too...

“Quick, quick, gather around Immortal Qianji...” those knights near the dead snake exclaimed as they rushed to Zhang Tie’s side...

## **Chapter 1560: Troublemakers**

Unlike regular human knights, puppet fighters didn’t have protective battle qi. Because of this difference, those puppet fighters became standard targets of Zhang Tie, whose body could be easily penetrated through by Zhang Tie’s spears.

Based on Zhang Tie’s terrifying strength, even though he didn’t use his ability as a divine dominator, he could easily kill those puppet fighters although he might not kill black iron knights who could release protective battle qi by spear.

Therefore, spears flashed out of Zhang Tie’s hand one after another; after being granted with dexterity and spirituality like birds and Zhang Tie’s terrifying strength, they turned into lightning bolts and displayed horrible destructive ability within thousands of meters.

The spears that Zhang Tie threw out were not golden spears, but those alloy spears which were stored in Castle of Black Iron. Each alloy spear weighed 360 kg, which was lighter than a golden spear, yet was heavier than ordinary bolt-in-palm. So was its destructive power between that of the other two. Over these years, Edward who had made over 10,000 alloy spears for Zhang Tie besides making golden spears so as to kill time in Castle of Black Iron.

Zhang Tie’s spear could realize distance strike while Celestial Woodbuilding and some shadow knights could easily clean up the puppet fighters within 1,000 m. Bai Suxian and Immortal Deyang stayed on Zhang Tie’s side like his guards. As a result, Zhang Tie’s group occupied a relatively safer place.

Watching Zhang Tie’s valiant performance, almost no knight believed that Zhang Tie had lost his battle strength while a big array of people poured towards Zhang Tie. In 3-in-1 battle formation in various scales, they gradually stabilized the situation while fighting those puppet fighters.

Not only that, even those knights of top sects unconsciously approached Zhang Tie. If not joined hands with the others, the knights of top sects might be isolated and precise targets of those puppet fighters, who could never defend the endless strike of the latter.

Celestial Treasureflame also rushed over Zhang Tie with the disciples of Demons-kill Valley as they formed a battle formation facing the endless strike of puppet fighters.

“Immortal, may I know your countermeasure? If we continued like this, our knights would be exhausted sooner or later. By then, the entire army of us would perish...”

After punching a flying dragon over 1,000 m away into pieces, Immortal Treasureflame turned fiery all over and flew towards Zhang Tie before asking Zhang Tie about his plan.

In this case, even Immortal Treasureflame possessed great anticipation for the reputation of Immortal Qianji.

Among the top sects, besides Heavens Fortune Sect, only Celestial Treasureflame faintly understood that Zhang Tie was a bit worried about the safety here before coming down. That also explained why none of the members of Lord Guangnan's Mansion came down except Bai Runshan and Bai Suixian.

Even Celestial Treasureflame previously had to admire Heavens Fortune Sect. Heavens Fortune Sect might have already forecasted something. Therefore, they only dispatched a grand elder here, who even closely followed Zhang Tie so as to reduce loss. When Celestial Reflectingmoons was exterminated, Celestial Treasureflame remembered that Immortal Deyang didn't scramble for the treasure first; instead of converging with Zhang Tie. What a great Heavens Fortune Sect!

"We're dishes on the kneading board. Celestial, watch out yourself. Calm down; let's stabilize the situation first..." Zhang Tie told Celestial Treasureflame secretly as he threw out another spear, shattering a puppet fighter over 5,000 m away.

Celestial Treasureflame was really shocked by Zhang Tie's words, which revealed too much information. It appeared that Zhang Tie had already discovered and confirmed something.

Zhang Tie indeed had already discovered something. When he shattered those puppet fighters one after another which then recovered, his All-spirits Tower had already sensed the faint waves over those puppet fighters, which came from the secret method of "controlling" in *Great Wilderness Sutra*. Being mysterious and weak, the electric wave-like qi filled the entire Dongtian. If not Zhang Tie had reached a high realm of *Great Wilderness Sutra*, he couldn't sense it at all. Additionally, the qi must be many levels higher than that of Zhang Tie concerning the secret methods of *Great Wilderness Sutra*. Thus, Zhang Tie was not sure where the mysterious qi came from.

Combining with the abnormalities in the former floor and the new situations in this floor, Zhang Tie had already got a conclusion. However, as it was too terrifying, Zhang Tie could barely accept it for the time being. Meanwhile, he was racking his mind, thinking about the countermeasures.

"The two monsters are too powerful; Celestial Woodbuilding, Celestial Treasureflame and Immortal Qianji, please come over here to defend them with us together..."

As Celestial Clouddragon said, he was flying rapidly towards Zhang Tie's group with Celestial Swords, closely followed by the two boas.

"Shameless..." Bai Suxian couldn't stand swearing on Zhang Tie's side when she saw Celestial Clouddragon and Celestial Swords coming over with the great trouble.

When the three top sects scrambled for the treasure, they were so scrupulous as they wanted to occupy the treasure of Great Wilderness Sect alone; when they found it was fatal, in fear that Celestial Woodbuilding, Celestial Treasureflame and Zhang Tie got the benefits after they and the two boas were both hurt, Celestial Clouddragon and Celestial Swords directly came over here to have more people share burdens with them...

Zhang Tie turned around as he looked into Celestial Swords's vicious and weird eyes despite the distance...
