

Black Iron 1671

Chapter 1671: Turning Real

In the white and the debris of his space of mind sea, Zhang Tie's consciousness became void and paused in the split second...

The period of time appeared to be both short and long. The entire space of his mind sea seemed to have broken apart and disappeared while the two moons, stars, the All-spirits Tower, the marvelous arch door and those immortal runes in the space of his mind sea were contracting and collapsing limitlessly inwards. When everything in the space of his mind sea contracted onto an infinite, small point, time stopped running.

After a while, the infinite, small point exploded in a split second. At the same time, Zhang Tie recovered his consciousness.

Numerous rotating galaxies and stars appeared in the explosion when the entire space of Zhang Tie's mind sea became over 10 times larger than before.

360 huge, splendid stars appeared one after another.

The two large rotating galaxies contracted and turned into two bright moons. After that, the two bright moons collided with each other and turned into a bigger brilliant moon with a dazzling light.

The arch door of Castle of Black Iron reappeared right above the bright moon. However, it became completely golden.

The All-spirits Tower reappeared in the bright moon like the Guanghan Moon Palace in Hua legend.

Numerous immortal runes reappeared in the watery brilliance like musical notes and spirits on the staff. They danced with light. When the moonlight penetrated through those immortal runes, a bizarre, ethereal piece of music sounded in the moon palace while a breeze blew over the entire space of his mind sea as fast as light...

When the bright moon came into being, Zhang Tie's body also saw some changes, which made Zhang Tie so comfortable that he almost hummed. Because he felt that a mysterious pass between his left brain and his right brain disappeared at this moment while ice and fire integrated with each other before turning as harmonious and tranquil as water. The extreme pain brought by the conflict between ice and fire instantly turned into a cool sense all over his body as if he had become an immortal being.

To tell the truth, this pleasure was even one hundred times greater than that in making love as it made each cell and pore of Zhang Tie thrilled, even in the marrows and the depth of his soul.

The appearance of galaxies and the moon completely stabilized the new space of his mind sea. After that, the rotating galaxies and stars continued to collide with each other, giving out colorful splendid light. In this process, those galaxies and stars turned into the firmest debris and foundation as they gradually integrated with each other into a lofty, firm mountain as high as 300,000 m which was as transparent as crystals and rubies.

A mysterious, looming flame was burning inside the crystal, firm mountain, reflecting a mysterious glow over the mountain.

The moment the brilliant moonlight and starlight cast onto the firm mountain, they had turned into snowflakes and capped the mountain, turning the entire mountain into a snow mountain.

As white snow gradually fell, a part of the top of the mountain turned snow-white. After the snow line extended almost 30,000 m downwards, the mysterious, looming light inside the mountain gradually stabilized. From then on, the white snow started to melt, forming numerous waterfalls and brooks.

The snow water at the bottom of the mountain turned golden.

Numerous water drops and flows started to converge in his space of mind sea. Right at the foot of the mountain, numerous rivers converged into a huge lake.

When everything came to an end, the void of Zhang Tie's mind sea had completely changed.

Zhang Tie was dumbfounded by the changes over there.

To be honest, Zhang Tie didn't know the reason until now. He only knew that his spiritual energy had experienced an utter change.

Previously, although Zhang Tie's spiritual energy was powerful, it was always untouchable. He could only sense it. Even though he had promoted to a divine dominator and realized a round of improvement of his spiritual energy, his spiritual energy was still as virtual as the starlight and moonlight over the sky; however, now, everything had changed. His spiritual energy had completely turned real and touchable as the water in the golden lake.

'What is the real spiritual energy used for?'

A whim occurred to him.

At the same time, Zhang Tie was stunned by what he saw. He found that his sight and senses suddenly appeared in his room, which were watching him sitting on the bed, legs crossed. Everything in the room was under his eyes. It felt like triggering a body-separation skill while a substitute was watching him quietly from the ceiling.

However, Zhang Tie was clear that it was not his body-separation skill but the perception of his spiritual energy and consciousness which was greater and more splendid than that of his substitute as his auditory sense and olfactory sense were also activated. It was Zhang Tie's first time to know that his consciousness and perception could extend out of his body by his spiritual energy without the help of any carrier, substitute, insect or beast.

It was an enthralling feeling.

Zhang Tie tried it as he found he could freely move his visual angle from the ceiling and the bottom of the bed to the washroom and the window as fast as lightning bolt as if there was an invisible person traveling in the room. That was pretty interesting!

The window of the room was still closed with curtains. When Zhang Tie “came” to the window, he took a look outside through the window as he found it was already dark outside as the entire city was brightly lit and pretty boisterous.

Only after a short while, Zhang had circled around his room many times and grasped this ability.

Zhang Tie found that his consciousness and spiritual energy could completely move freely in the room, which might help him reach far.

‘I wonder whether this ability could penetrate through the wall.’

As he thought about it, his perception had already penetrated through the wall smoothly and came to the neighboring room, which startled him a lot.

Because each immortal general’s room was specially installed with a heavy-lead alloy layer for the sake of their privacy and safety, which could isolate all the trials of a spiritual look-in. Even sage-level knights couldn’t easily penetrate through such a protective layer spiritually and discover the situation outside.

In the beginning, Zhang Tie had already tried it and confirmed that he couldn’t penetrate through such an obstacle spiritually even as a divine dominator. Of course, his lotus-flower eyes could see through it; however, its principle was different than that of spiritual penetration.

Nevertheless, this time, the obstacle in the wall appeared to have disappeared for Zhang Tie as he could easily penetrate through the thick wall spiritually like penetrating through the air.

‘What happened?’

Zhang Tie became puzzled as he drew his spiritual energy back into his room in a split second. After that, he meticulously controlled his consciousness and senses to penetrate through the same wall as slowly as he could.

The real wall indeed became as transparent as air in front of his perception and consciousness.

When he slowly penetrated through the wall spiritually and perceptively, he could clearly see the thick lead layer in the wall. This obstacle still existed in Zhang Tie’s perception and consciousness; however, it didn’t exist in front of Zhang Tie’s spiritual energy. Concerning Zhang Tie’s spiritual energy, the heavy lead layer was a sort of wave, which was not strictly coherent.

As for Zhang Tie’s spiritual energy, there was no real substance in this world as everything was like a wave. Only Zhang Tie’s spiritual energy was real in this world.

It was a universal law between yin and yang and an occult realm of the rules of creation. When Zhang Tie’s spiritual energy was virtual, everything in this world like a table, a stone, a wall, even air was real and touchable for Zhang Tie’s spiritual energy when his spiritual energy was like an untouchable wave. However, when his spiritual energy turned real, all the real objects in this world became virtual and turned into waves macroscopically. Additionally, he could easily penetrate through the huge space and gap between waves spiritually.

It was Liu Meng’s room in the neighborhood. Nobody was in his room. Zhang Tie then penetrated through Liu Meng’s wall and came to Liu Yong’s room spiritually where he saw the two brothers.

The two brothers were sitting in the cultivation room in front of a pile of over 100 earth element crystals. They were playing with those earth element crystals with mesmerizing looks.

In this case, besides watching what they were doing, Zhang Tie could also hear their talk clearly as if he was right in front of them. However, the two brothers didn't notice Zhang Tie's "arrival" at all.

"We should put these items into the space-teleportation equipment. If so many earth element crystals were noticed by others, it would be hard to explain it to them..." Li Yong suggested Liu Meng.

"Explain what? No matter what, these things belong to us. It's my first time to see so many earth element crystals since I was born. I would look at them and touch them before going to bed every night. Only in this way, could I sleep well. If you put them into the space-teleportation equipment, I could only see them once in each half a month. That is not cool..." Liu Meng refuted.

"I wonder what Zhang Tie is cultivating. He's been in his room for three days..."

"He's such a great powerhouse, a water immortal general at such a young age. Besides top flair, he must work pretty hard. We got to learn from him..."

"You're right. As we've got so many element crystals, let's not waste them. We have to become earth immortal generals as soon as possible!"

"Hmm, let's absorb one more before going to bed!"

After saying that, Liu Yong took an earth element crystal and held its upper half with one palm while Liu Meng held its lower half with one palm. After that, they palmed against each other using the other palm, eyes closed at the same time.

Last time, Zhang Tie had felt that the two brothers were cultivating a two-in-one cultivation method. He was right.

Zhang Tie didn't stay too long in their room. Instead, he penetrated through the wall in a split second and came to the room neighboring Liu brothers. Nobody was in there. Zhang Tie then came to the other room in the neighborhood...

...

He heard splashes and saw misty steam. After entering the room spiritually, Zhang Tie found that Jiang Ruoxin was taking off her clothes one piece after another, exposing her beautiful naked body. After that, she entered the bathroom elegantly while the mirror inside there turned blur due to steam.

Jiang Ruoxin slightly mobbed over the mirror, exposing her infinite, beautiful naked body in the smooth mirror. After that, she cupped her two little white "rabbits" and watched them with a faint frown, murmuring, "Although you're not as big as that of Yuelan, you're not too small either..." after saying that, she let out a sigh before entering the bathtub full of fresh blossoms.

Zhang Tie was completely petrified. Not until Jiang Ruoxin entered the bathtub and raised a naked, smooth leg mesmerizingly did Zhang Tie wake up and flash into a strange room after penetrating through some walls flurriedly while feeling like a thief.

Chapter 1672: A Shock

After hearing that voice, Zhang Tie became amazed at once. He had not imagined that someone in the immortal palace was interested in his background...

As Zhang Tie looked over there spiritually, he saw two people sitting together in a room as same as his, one was the handsome youth in white garment whom he met in the dining hall of the immortal palace, the other, given her costume, was a deacon of the immortal palace, a beautiful female deacon.

The youth was in black robe; instead of the white garment. Although his voice sounded cold, he still revealed a warm smile, which could even melt snow. The combination of the cold voice and the warm smile made him more mesmerizing.

"You don't even care about me. Do you know how much I miss you these days? I could only meet you by sending the customized robe to you..." the female deacon complained as she watched the handsome man beside her, and leaned against him.

"We will have time when we get back to Dragon Emperor Big Realm. We could do whatever we want over there..." the handsome man said with a smile as he put one hand around the female deacon's neck, causing her breasts to rise and fall in different shapes. At the same time, she groaned out of excitement while her cheeks flushed. As a result, the female deacon closed her eyes.

"Hmm...you're already...ah...the general priest of the immortal palace...why...do you care...ah...about him...ah..." the female deacon asked as she groaned.

The handsome man let out a long sigh as he whispered to the female deacon, "Dragon Emperor Immortal Palace is facing crises. As such a young powerhouse suddenly came to our immortal palace as the deputy head, of course, I gotta care about him. What if he's dispatched by other immortal palaces? If so, our immortal palace would be in danger. As members of Dragon Emperor Immortal Palace, we would be involved in it too. It's closely related to us all. Why don't we care about that?"

"Oh...I've inquired about him these days...but got no information...about his background...It seems that only the head and General Deacon Leng know about his background...It's said that Zhang Tie firstly appeared in the airport of Heavenly Square City... He then went straight to our immortal palace..."

"Where was he when Zi Clan Castle was in trouble that night?"

"I...I...have no idea. He might have gone out...with Liu brothers and...the two new female immortal generals..."

The handsome man slightly squinted as he stopped his movement at once, continuing, "When did they come back that day?"

Being stimulated by the youth, the female deacon was already panting as she quivered slightly all over, answering, "It seems that...seems that they came back soon after head and general deacon went out..."

"Before daybreak?"

"They might have come back soon after Zi Clan Castle was in trouble..."

"That's not true..."

"It's said that the battle in Zi Clan Castle was very short...the person who killed those immortal generals of Star Emperor Immortal Palace was a wind immortal general...Zhang Tie doesn't have such an ability..."

"What about those in the underground prison? Did you get any information from those suspects?"

"No...I didn't go to the underground prison...after being caught...those suspects...were all interrogated by head...I didn't get any information from them..."

"Keep an eye on them these days. If there's an abnormal situation in the immortal palace, let me know in no time. Additionally, I noticed that Head didn't mean to stay in Heavenly Square City for long; but I don't know his plan in details. If we know the arrangement of the headquarters, we could make plans a bit early..."

"Hmm..."

After saying these words, the man slowly removed his hand from the collar of the female deacon as he stood up. At the same time, his voice turned tender, "Alright, if you stay too long in my room, you might arouse others' attention. There's a long way to go. It's not good if our relationship is exposed to the public. We should care about this point. When we get back to Dragon Emperor Big Realm, you can resign from the immortal palace. When we get married, we would not be afraid of gossips..."

The female deacon nodded as she took a hopeful look at this handsome youth. Closely after that, she stood up and adjusted her dress so that the others couldn't find any loophole from her.

Watching the female deacon finish adjusting her skirt, the man opened the door, letting her leave there in a submissive manner.

"Deacon Fan, the robe looks much better. Thanks..." the handsome man spoke loudly.

"It's my duty. If there's any need, just let me know, General Priest Zhou..." The female deacon's voice recovered normal too; instead of being that coquettish.

"Thanks!"

"See you..."

After closing the door, the female deacon left decently and calmly. At this moment, the handsome man raised his head with a frown as his eyelight was flickering weirdly. Watching the ceiling, he murmured, "Is that not him for real?" After that, he shook his head and entered the cultivation room. Taking a water element crystal, he started his cultivation, legs crossed...

Zhang Tie was watching the whole process in the room spiritually. As an experienced expert in affection, Zhang Tie instantly realized that this man was taking advantage of that female deacon. However, women were usually blind in love. That female deacon couldn't find that she was just a tool; instead, she thought this man really loved her. She even would like to sacrifice everything for him. Whereas, this man was tricky and cunning, whose intention for joining Dragon Emperor Immortal Palace appeared to be bad.

'Dragon Emperor Immortal Palace is becoming more and more interesting.'

After taking another look at this man, Zhang Tie left his room freely in a split second.

Zhang Tie almost traveled across the immortal palace, including each corner and nook.

In head's room, Zhang Tie saw Huang Baimei cultivating quietly over there. Even being a shadow knight, Huang Baimei still failed to notice Zhang Tie's existence spiritually...

In the underground prison, Zhang Tie saw Leng Manxue paying a tour inspection inside there with a cold look...

At a hidden place close to the underground warehouse, Zhang Tie saw a young guard and a virgin having a date and expressing their love to each other...

In the room of some guards, Zhang Tie found that some guards were writing words on the table while drinking. They were talking about the future of the immortal palace quietly as if they were intending to leave the immortal palace. However, nobody dared show their dissatisfaction because of the fear of strict punishment in the immortal palace...

In the blink of an eye, Zhang Tie had known everyone's condition and emotions.

The tiny immortal palace couldn't cater to Zhang Tie's curiosity anymore; nor could it meet the travel of Zhang Tie's utterly different spiritual energy. Given Zhang Tie's current spiritual energy, it was like a whale in a fishing rod. Zhang Tie couldn't fully exert his spiritual energy at all as he had traveled across the immortal palace.

Zhang Tie instantly came to the air 10,000 m high outside the immortal palace spiritually. He could overlook the entire city over there. Zhang Tie intended to test the upper limit of the distance of his spiritual travel. Therefore, he extended his spiritual energy to the utmost as much as possible. In a split second, Zhang Tie's spiritual energy had broken out of Heavenly Square City and come to the place over 80 miles away from the immortal palace, where Zhang Tie felt his spiritual energy was shackled as he could barely further extend it. Within this range, Zhang Tie could casually appear in any place spiritually without any obstacle. He could notice the movement of any of the millions of people across the city.

After having a nice trip outside, Zhang Tie returned to the sky spiritually, where he instantly felt two bizarre energy in the vapor and clouds.

Before his spiritual energy turned real, Zhang Tie could sense and manipulate the invisible vapor in the air using his water chakra as a shadow knight and his spiritual energy as a divine dominator. However, after his spiritual energy turned real, Zhang Tie could not only sense the invisible vapor but also sense the two bizarre energy in the invisible vapor in the air.

Of course, the energy that a drop of water contained was trivial. However, the connection between the energy of numerous vapor was prodigious and terrifying. It could be said that the two energies could reach everywhere from the sky to the earth which was as great as the ocean. One energy was above the other. They were resting in the air quietly and terrifyingly in response to the earth and the higher space as if they contained endless secrets. Zhang Tie could feel that they were correlated to his realm of combining his fist intention with the universe. However, the latter was dwarfed by the two energies as it was more like the tip of an iceberg.

'Could I use the two energies?'

Since this whim occurred to him, Zhang Tie hadn't forgotten about it. He then extended his spiritual energy into the two energies in the sky and started to draw the two energies out of there like drawing water out of the ocean. He didn't stop until his spiritual energy couldn't work anymore.

Zhang Tie could already sense the two energies going a bit berserk while they were attracting each other as if they were going to integrate with each other. However, they were fastened by Zhang Tie's spiritual energy. Previously, Zhang Tie planned to try it on Zi Clan Castle in Heavenly Square City; however, after taking a look at the buildings not far from brightly lit Heavenly Square City and Zi Clan Castle, Zhang Tie changed his opinion at a stroke. As it was his first time to try it, Zhang Tie didn't know about its destructive ability. In case of casualties, Zhang Tie fixed his eyes onto a barren hill over 60 miles away from Heavenly Square City.

In a split second, Zhang Tie integrated the two energies that he separated from the sky...

...

A sudden white light appeared across Heavenly Square City, causing the sky as white as daybreak. When many people in Heavenly Square City looked up out of amazement, the earth across Heavenly Square City shocked heavily, the tablewares quivered, the lanterns swayed, many tiles fell off. When so many people in Heavenly Square City were in panic, the aftermath of a hurricane-sized impact wave swept over the entire city, sending the entire city into chaos...

Chapter 1673: The Terrifying Power

On the next early morning, all the immortal generals of Dragon Emperor Immortal Palace in Heavenly Square City had arrived at the wilderness over 60 miles away from Heavenly Square City as they gazed at the huge pit in the middle of the barren land with solemn looks.

"There was a hill yesterday. How could...how could it turn into a pit today..." Liu Meng told Zhang Tie using his battle qi as he took in a deep breath. Given Liu Meng's tone, Zhang Tie could sense Liu brothers fear despite being always careless.

In fact, almost none of the immortal generals at present could stay calm.

Of course, Zhang Tie also disguised to be solemn like the others with a frown and serious look. Pursing his lips, he was watching this huge pit and those collapsed, destroyed even charred trees, mountain rocks and hills within dozens of miles. In fact, it had become a terrifying, depopulated zone within dozens of miles.

All the people in Heavenly Square City were in turmoil last night. All the immortal generals of Dragon Emperor Immortal Palace including Zhang Tie were requested to put on their flight suits and make tour inspection over the city in case of emergencies. Not until this early morning did the turmoil relieve slightly. All the immortal generals then got to the barren hill to check what happened here under the leadership of Head Huang.

From the sky, it was a huge hundred of meters deep pit whose diameter was over 0.6 miles. The neighboring terrain was changed as all the hills within dozens of miles were compressed as if they had suffered an unimaginable disaster.

Everyone above the huge, deep pit was shocked by what they saw as they remained quiet for quite a while.

Zhang Tie's look was half real because he was the "culprit" of all these. Zhang Tie was actually the first one who "saw" this scene last night. However, before he took a careful look at it, the entire immortal palace in Heavenly Square City had been mobilized. Zhang Tie was also "woken up" by Leng Manxue and was ready to fight. He even made a tour inspection in Heavenly Square City overnight.

It was impactful to watch and sense the scene created by himself. Besides, Zhang Tie felt extremely lucky. Thankfully, he made the experiment within this hill over 60 miles away from Heavenly Square City. If he chose Zi Clan Castle as his target, Heavenly Square City might have been swept over by him while millions of people in the city would have been burned into ash by his trial strike. If so, he would have made big trouble.

Zhang Tie didn't imagine that his trial strike could realize such a terrifying effect as its power was far greater than his most powerful kinetic strike. Neither did Zhang Tie know how he could make this. Last night, he was crystal clear that the two energies annihilated the moment they collided with each other. At the same time, a strong light appeared from nowhere with a terrifying lightning bolt, and then, it became all these.

"Let's take a look down there..." Huang Baimei finally opened his mouth after suspending over there for quite a while. By flapping the wings of his flight suit, he instantly shot towards the huge pit, closely followed by Zhang Tie and the others.

After coming to the bottom of the pit and watching the situation over there, everybody turned more solemn.

Within the hundreds of meters deep pit, there was not a single drop of water. Besides, it was pretty smooth inside the pit since the bottom and the walls of the pit were as thick as the remains of burning candles.

Watching the others checking around meticulously, Zhang Tie also squatted down as he easily got a piece of a palm-sized gray object out of the ground, it was like glass or glaze despite its color was not ordinary. It felt very strange. In the far, there were black, light-blue, greyish-green, even dark red objects just like being on a color palette.

Kids might feel curious about this place; however, immortal generals were scared by this scene.

Face turning slightly pale, Ji Yuelan slightly approached Zhang Tie. At this moment, she could feel safe only beside Zhang Tie.

"These objects were left by rocks at high temperature. Its content was similar to that of glaze. The colors were reflected by metals inside the rocks and the soil..." Leng Manxue explained distantly as she took a dark green crystal.

"Let's take a look in the surroundings, we might find something important!" Head Huang ordered while all the others started to fly around the deep pit. In a few minutes, they all came back in vain as they shook their heads.

"Let's talk about it after getting back to the immortal palace..."

They then flew back towards Heavenly Square City behind Head Huang.

Under their foot, all the surrounding hills were destroyed. If not these hills offset the power of this huge, deep pit like walls, Heavenly Square City might have suffered a greater loss.

Watching this, Zhang Tie felt lucky once again.

The flight suit helped him to move fast and flexibly. The moment the wings extended, the flight suit would be completely driven by battle qi. At full speed, common immortal generals could reach about 600 miles per hour with the flight suit. It was said that there were more advanced flight suits. However, such a gadget didn't exist in Taixia Country. Even though Zhang Tie had tried many kinds of flight modes, he still felt fresh about the flight suits today.

On the way back, they all remained silent as the atmosphere became a bit solemn. Although being relaxed inside, Zhang Tie dared not display it; instead, he was just immersed in driving and studying the flight suit.

Air floating metal was a key material of the flight suit. Besides, Zhang Tie found that the flight suit needed bizarre crystals which contained some strange runes. Only by combining the three elements could one fly freely in the sky by controlling the flight suit outfit using battle qi.

"Deputy head, you have really worked hard these days, hah. You preferred to hide in your room for cultivation than reaching out to me..." Ji Yuelan asked Zhang Tie as she approached him.

The moment this beauty glared at Liu brothers, the two guys had been pushed away from Zhang Tie.

Liu brothers felt normal about Ji Yuelan approaching Zhang Tie; nor did Huang Baimei and Leng Manxue care about that. Only Zhou Baifei, who was not far away, turned around and took a look over here.

By now, Zhang Tie had already known that they had held an inaugural ceremony when his mind sea saw an utter change. Everybody at present had already officially joined the immortal palace and got their own titles.

For instance, that toy boy was called Zhou Baifei, who was the general priest of the immortal palace.

A few days ago, Zhang Tie didn't have a strong aversion to him. However, after seeing how he cheated a woman, Zhou Baifei instantly turned into a toy boy in Zhang Tie's mind. Zhang Tie despised such men the most who cheated and took advantage of women on purpose. In Zhang Tie's opinion, he was completely an idiot, despite his handsome look and high level in the immortal palace; he was even more inferior than those male staff who lived on meeting rich women's sexual demand. No matter what, the latter would not betray his love or cheat a woman. However, the prior took advantage of one's affection. That was disgusting!

"I have to make progress..." Zhang Tie replied as kindly as before as if he had not noticed Ji Yuelan's discontent.

"Hah!" Ji Yuelan snorted as she continued, "Wish you promote to an immortal emperor as soon as possible..."

"Thank you, sister. If I promote to an immortal emperor, I will let you be an elder of my immortal palace..." Zhang Tie replied solemnly.

“Hah, who cares...”

“You don’t like being an elder? Alright, it seems that sister wants to pave quilt for me...”

“You’re so boring...”

It sounded so enchanting; however, given the voice, the girl felt opposite.

“What do you think of the huge pit?”

“It seems to be a natural disaster! Zhang Tie said instantly.

“But I don’t think so...”

“If not, do you think it’s created by people?”

“But even a supreme immortal general couldn’t make such a terrifying strike...”

“That’s a natural disaster then!”

“Alas, I always feel Motian Realm being more and more unsafe...” Ji Yuelan sighed with emotions.

After a short while, those people had got back to Heavenly Square City.

From the sky, the city had already recovered its order, except for many people on the open urban square, some of which had pitched up tents as if they were worried about another earthquake.

Those immortal generals then landed at the entrance of the immortal palace on its top...

Chapter 1674: Zhang Tie’s Lesson

After getting back to the immortal palace, they didn’t leave; instead, they were called to gather in an assembly hall by Huang Baimei.

In the assembly hall, Huang Baimei was sitting on the main seat while Zhang Tie was sitting close to Huang Baimei on his left, facing Leng Manxue. Next to Zhang Tie was Zhou Baifei who looked solemn. Jiang Ruoxin was sitting beside Leng Manxue. The others took a seat according to their titles. It felt like a group of important personnel of a sect sitting together to discuss something.

Although Zhang Tie looked solemn, he was actually absent-minded. Because he was very clear about what had happened last night. Watching the others in the opposite and recalling that scene when he made a spiritual journey that night, Zhang Tie unconsciously fixated onto Jiang Ruoxin’s breast...

‘It really looks a bit small. 35 C is much smaller than that of Ji Yuelan’s. It couldn’t even match that of Leng Manxue. But it’s still plump. No matter what, she’s a female knight...’

After comparing inside, Zhang Tie had felt two hot eyes fall on his face. He raised his head as he saw Jiang Ruoxin glaring at him bashfully. Even Ji Yuelan a few seats away was watching him while pouting her petite mouth. Leng Manxue moved her eyes over here at a stroke as if she had sensed something too.

Being gazed by the three women at the same time, Zhang Tie immediately moved his eyes away as he felt being put on the spot. He then pretended to cough twice softly.

Thankfully, at that moment, a female deacon entered which caught the others' attention at a stroke. After coming to the back of Leng Manxue, she lowered her body and gave a document to Leng Manxue before leaving out of there respectfully.

It was the very female deacon Fan who was with Zhou Baifei in his room that day. At this moment, deacon Fan and Zhou Baifei didn't look at each other at all. However, when deacon Fan almost left the assembly hall, she made a glimpse at Zhou Baifei. Nobody else at present could discover the story between them except Zhang Tie.

"What's up?" Huang Baimei asked in a muffled voice.

"I've had them count the losses in the city last night..." Leng Manxue answered calmly as she threw a glance at the piece of paper in hand.

"How's the loss in Heavenly Square City?"

After hearing Huang Baimei's question, even Zhang Tie pricked up his ears.

"Last night, 17 houses had collapsed, 133 people were injured, 68 of which were slightly injured, 43 were commonly injured, 6 were heavily injured, 16 people's eyes were scorched by the strong lightning and they had lost their sight for the time being; however, they've already been able to see partially now. Fortunately, it was not too late when the strong earthquake occurred last night. Most of the people were awake. The 17 houses were close to the border of the city. They were wooden structure and have not been repaired for long; besides, a small part of the 17 houses was empty. As for those with people, some people escaped at once, leaving some slower ones being hurt by logs. Four of them were heavily injured; however, they're already out of danger..."

"How did those guys lose their sight for the time being?"

"They were a crew of a business airboat in Heavenly Square City and some people drinking and enjoying the moon at a high building. When the strong lightning struck, the airboat was just arriving at Heavenly Square City in open land and the crew was preparing commodities on the deck. At that time, all these guys facing the coming direction of the strong light were dazzled as they couldn't see anything clearly until this morning.."

"Thankfully, nobody died. Dragon Emperor Immortal Palace would cure those injured ones at our full efforts. We could allocate some medicinal pills from our warehouse to them. The 17 ruined houses would also be repaired by the immortal palace. All the other places that require restoration would be invested by the immortal palace..." Huang Baimei ordered. After being silent for a second, he fixated his eyes on the face of the most inferior immortal knight at present, saying, "Mr. Xun would take its charge..."

"Yes, sir!" The old "teacher" stood up as he took the order.

"Head, it was too eye-catching outside the city last night that everybody in the city became flurried. How do we explain if we're asked about it by people in the city..." Zhou Baifei asked ahead of Zhang Tie.

"I'm gonna talk about it. I'll have someone post information across the city and tell them that we've already figured it out that a comet hit the earth last night. Let them stay calm. With the protection of Dragon Emperor Immortal Palace, they have survived this disaster; instead of suffering a great loss across the city..." Huang Baimei said fluently.

After hearing his words, Zhang Tie instantly understood Huang Baimei—it's meaningless for civilians in the city to know what created such a loud noise and the huge pit outside the city. As a branch of Dragon Emperor Immortal Palace, as long as they could give a reasonable explanation to the urban civilians and tell them they were already out of danger, meanwhile having them appreciate the immortal palace, the truth was none of the civilians' business. All the immortal generals at present would not expose the truth even if they knew something. In fact, even Huang Baimei himself might not be sure of the reason for that huge pit. This might be a pending case in Heavenly Square City.

"Heavenly Square City is in a bit turmoil these days. Deputy head, you'd better work a bit harder these days by taking two justices and Siji Jiang to learn more about the situation outside the city. You could deal with common affairs at your discretion. When in emergencies, contact the immortal palace at any time or make an early warning..."

In the blink of an eye, Zhang Tie had got a new job. Hearing Jiang Ruoxin being called Siji Jiang, Zhang Tie tried hard to not laugh out. The Siji, despite its pronunciation being similar to that of drivers in Taixia Country or old Siji, which meant an expert in love in Taixia Country, was utterly different in meaning. Loosely translated, it was similar to intelligence butler or a senior scout or personal assistant of head or deputy head. To put it simply, she was a jack of all trades.

"Yes, sir!" Zhang Tie took the order calmly as he threw a glance at Jiang Ruoxin. Liu brothers and Jiang Ruoxin took the order in unison.

"These days, Commander Lu would be in charge of the Immortal Force Camp. Anyone who dares bewilder the public or make evil deeds would be severely punished!"

"Yes, sir!" The bald tough man Lu Tianqiang took the order.

"General Priest Zhou and Inspector Ji could make a tour inspection across the city these days and contacted grassroots so as to make people reassured..."

The two people took the order in unison too.

"Alright, if there's nothing else to deal with, you could go work!" After making an arrangement, Huang Baimei ended the first short meeting which all the immortal generals of the branch of Dragon Emperor Immortal Palace in Heavenly Square City attended. They then stood up and left the assembly hall.

When he walked out of the gate, Zhang Tie still felt a bit strange. 'Why Head Huang didn't dispatch a task to Leng Manxue who is most familiar with the situation facing Heavenly Square City? What would Leng Manxue do these days? Does she have another task that couldn't be exposed to the others?'

Zhang Tie thought, 'It seems that new immortal generals gotta do something for the immortal palace before fully acquiring the trust of Dragon Emperor Immortal Palace.'

“Deputy head...” a voice sounded behind Zhang Tie. At the same time, Zhou Baifei paced up as he watched Zhang Tie with a big smile, “As it was too early to have a talk with you in the dining hall, after seeing deputy head, I finally understand that there’s always someone greater in the world!”

Zhou Baifei’s words sounded like a proper compliment. The others wouldn’t think that he was flattering Zhang Tie. Given Zhang Tie’s age and achievement, Zhou Baifei’s compliment was implicit.

“Hahahaha, thanks, thanks, General Priest Zhou, you’re really a ‘young and able man’...” Zhang Tie replied perfunctorily.

However, Zhou Baifei didn’t notice the irony in Zhang Tie’s words as he still maintained his smile, asking, “Deputy head, are you free? Let’s taste the flying pulp in Heavenly Square Building. You’re my guest!”

“I’m really sorry. I’m too busy these days. As you know, Head Huang has just given a task to me. I dare not be relaxed at all. Oh, General Priest Zhou, as the deputy head of the branch of Dragon Emperor Immortal Palace in Heavenly Square City, I gotta give you a suggestion. As millions of people’s lives depend on us, we can’t afford to make any mistake on this occasion. General Priest Zhou, you gotta measure what counts the most, the drinks or the lives of millions of people. As immortal generals of the immortal palace, of course, we should concern about the common lives ahead of our own demands. Take hardships before pleasure. Prioritize the interests of the commoners in Heavenly Square City in our heart. Make a high standard for ourselves and treat ourselves strictly...” Zhang Tie looked up as he made such points in a pretty righteous and merciful manner and pointed out Zhou Baifei’s weakness in work in the public.

After hearing Zhang Tie’s words, Zhou Baifei’s smile froze at a stroke. Although Zhang Tie’s words sounded a bit weird, it was their first time to hear that. They could only understand it partly. Under the gaze of the public, Zhou Baifei couldn’t refute directly. As a result, after twitching his facial muscles for a couple of times, Zhou Baifei forced a smile, replying, “Thanks for your lesson, deputy head...”

“That’s great. As a young man, you should not be proud and impatient. You know, being modest, one could make progress; being proud, one would lag behind; especially in work, we shouldn’t be immersed in establishing relationships with each other. Keep it in your mind, General Priest Zhou...” Zhang Tie continued.

Zhou Baifei’s face turned completely dark...

“Am I clear, General Priest Zhou?”

Gritting his teeth, Zhou Baifei forced a smile again as he replied, “Clear...”

Watching Zhang Tie talking so seriously with Zhou Baifei, Liu brothers, Jiang Ruoxin and Ji Yuelan bore so hard not to out loudly. They all wondered why Zhang Tie disliked Zhou Baifei...

Chapter 1675: Visitors

It was a sunny day. Lying on the wildflowers which covered the field, Zhang Tie was biting a grass stalk and appeared to have fallen asleep, eyes closed, hands under his head, in the enchanting breeze.

Above Zhang Tie's head, there was a huge green umbrella of a dragon-pattern tree which was higher than 20 m. It could rightly serve as a shelter for Zhang Tie. Only broken sunlight penetrated through the gap between swaying tree leaves and cast onto Zhang Tie like silver pieces. It felt warm, pleasant yet dark.

This hillside which was covered with red, pink, purple and white wildflowers was pretty vast. Looking into far, it was all a sea of blossoms within 10 miles. Nobody could be seen here. Besides happy bees flying among flowers, Zhang Tie could also smell the fragrance of flowers facing the breeze every once a while. In addition, Zhang Tie could hear the "rustles" of leaves of the dragon-pattern tree above his head rocking in the breeze.

Behind the hillside, there was a snow-white mountain enshrouded by cloudy fog in the distance. Zhang Tie's place was tranquil because it was an air-borne mountain called Cloud-floating Mountain over 150 miles away from Heavenly Square City.

It was really an immortal feeling by having a nap at such an air-borne place at noon.

Today was March 12, the 3584th year of Calendar of Emperor NvWa in Motian Realm; it was almost one week after the weird explosion outside Heavenly Square City.

Superficially, Zhang Tie had fallen asleep under the crown on the blossoms; in fact, he was attempting to release the two bizarre energies that caused the "natural disaster" outside Heavenly Square City a few days ago in a more controllable manner so as to apply this skill in real combats...

The pattern of release of the two energies that day was too terrifying. As long as he released them, he would lose control of them. Additionally, it took him too long to gather the two energies. The two problems determined that he would be greatly limited to the application of that power in fighting powerhouses. He could use that pattern of release to deal with still objects such as cities or fortresses; he could even raid some unprepared powerhouses in a long distance. However, it was inconvenient for him to deal with real powerhouses; especially those above heavenly knights.

Therefore, if he wanted to turn the two energies completely into a strength at his will for real, he had to tackle the above two problems. In this process, he needed to explore the many things slowly alone. Similarly, things and experiments in the lab had to go through optimizations and meet realistic demands before turning into products on assembly lines in the factory.

Therefore, as Zhang Tie accepted the task, he was pondering and trying to turn the two energies into his own fatal strike.

This task might be important for others in the immortal palace, which made all the others intense; however, it rightly spared a chance for Zhang Tie to be "indolent". No matter what, Zhang Tie knew every detail of the "natural disaster". Head Huang mainly wanted him to watch out the situation outside the city; as long as he didn't make trouble, it would be nothing serious outside there.

After nearly one week's training, Zhang Tie's powerful spiritual energy had been able to gather the two energies in an efficiency two times higher than before. Additionally, he further learned about the feature of the two energies. Although Zhang Tie still couldn't make it fast, he had already touched the slimmer light of success.

At this moment, Zhang Tie was trying to press the two bizarre energies. He used his spiritual energy to shape an invisible, empty ball in the void. The ball was divided into two halves, up and down. There was a “hole” on the top of each hemisphere, which could enable Zhang Tie to constantly “foist” the two bizarre energies into the two hemispheres respectively for “storage”.

As long as Zhang Tie was ready to launch a strike, he could fire the ball of two hemispheres towards his target. When the ball was close to the target or hit the target, Zhang Tie “withdrew” the spiritual partition from the middle of the ball, causing the two energies to integrate and annihilate with each other along with the same terrifying disaster that he made the other day.

He didn’t need too much spiritual energy to capture the two energies. However, it would consume him a lot of spiritual energy to maintain the stability and balance of the two energies in the spiritual ball. Zhang Tie had tried many times these days. Given his current level of spiritual energy, it would be very hard for him to maintain an “energy ball” as powerful as that last time in the void for over 2 hours.

Whereas, if the quantity of the two energies in the “energy ball” was reduced, he would be able to maintain the “energy ball” a bit longer. Accordingly, the destructive power of the energy ball would decrease too.

However, as for Zhang Tie, if such a skill couldn’t match his kinetic strike in destructive power, it would not be meaningless. Therefore, in Zhang Tie’s opinion, the more powerful the wholly-new skill was, the better it would be. Additionally, it should be as convenient and perfect as how he applied his battle qi.

...

Zhang Tie was doing multi-tasks at the same time. He captured the two energies from the void, checked through the consumption of that energy ball about his spiritual energy, adjusted the relation between the largest “pressure” that he could exert on the two energies and the capacity of the two energies of his ball and paid attention to the stability of the spiritual partition under different “pressure”...

It was absolutely like how pharmacists did experiments in the lab. He always honed his powerful battle skills step by step in this way. At this moment, Zhang Tie even started to admire those who had experts and secret methods to refer to. By contrast, he didn’t borrow and learn from anyone in spiritual cultivation and sharpening battle skills; instead, he could only explore them bit by bit himself. ‘King Roc Sutra’ and skills of divine dominator...

Whenever Zhang Tie hit this point, he would think in a self-deprecating way, ‘This is my fate...’

When Zhang Tie was pondering about manipulating the two bizarre energies in the void, he suddenly found that someone was flying over here. Even though his eyes were closed, Zhang Tie could still clearly “see” Ji Yuelan flying towards this air-borne mountain. Only after a short while, she had been within 25 miles and entered Zhang Tie’s spiritual cordon.

In a white skirt and a simplified flight suit— a breast armor with wings. With this simplified version, although her safety was weakened, she could move flexibly and conveniently in the sky. Therefore, many immortal generals favored this simplified suit the most.

When a woman, especially a beautiful woman flew in the sky in this suit, by extending the huge bird wings, she would look like a legendary angel that Zhang Tie heard of in subcontinent in the former world.

Ji Yuelan was not an angel; however, the scene that Ji Yuelan flew in the sky in wings made her a beautiful angel. Therefore, Zhang Tie appreciated her for quite a while.

Ji Yuelan appeared to have a clear target as she flew straight towards this hillside. As a result, Zhang Tie instantly understood her intention. He then only kept the spiritual partition between the two hemispheres of the energy ball. After losing his spiritual constraint and control, the two energies escaped away within 0.001 seconds and disappeared in the air. Before reaching Zhang Tie's level spiritually, people could not sense the two energies at all; therefore, Zhang Tie didn't worry about exposing his secret.

As was imagined, after hovering above this hillside for a short while, Ji Yuelan had noticed Zhang Tie who was falling asleep in the wild blossoms under the dragon-pattern tree, snoring heavily. Closely after that, Ji Yuelan descended under the same tree like an angel with a fresh breeze.

After hiding her wings, Ji Yuelan came to Zhang Tie's side with a smile as she picked a purple flower and swept it over Zhang Tie's face repetitively.

Zhang Tie finally couldn't pretend it anymore as he opened his eyes and looked straight into Ji Yuelan's eyes.

"Huh, the others are dying of tiredness; whereas, our deputy head is sleeping here. I'm going to accuse of your dereliction of duty to the head..." Ji Yuelan "sneered" threateningly.

"Ahem...ahem..." Zhang Tie took off his grass stalk as he replied with a solemn look, "Inspector Ji, it's not that serious. As you see, this place is high and hidden; it's suitable for me to observe whether there's someone lurking outside the city. How can you say that I'm sleeping here?"

"If you're waiting for suspects, why do you lie down here?" Ji Yuelan continued to ask with a sneer.

"Those who could pose a threat to Heavenly Square City must be high-profile powerhouses. Therefore, I just lay down here for the sake of observation!" Zhang Tie continued to explain with a serious look.

"Why did you close your eyes then?"

"I just pretended to fall asleep; when I was sensing it spiritually in case of exposing myself..."

"Why did you open your eyes now?"

"A fairy descended. Such a beauty could even dwarf many fresh blossoms over the hillside. If not take a good look at her, I would suffer a great loss..." Zhang Tie answered as he made a face.

"You're so flirtatious. You only know how to take advantage of me..." Ji Yuelan finally broke into laughter as she pinched Zhang Tie's arm once forcefully.

"Ayo..." Zhang Tie accented his scream in a pretty enjoyable way.

“Stop! Look at you. Even if you were stabbed by a machete, there would be no wound on you. You could never scream so loudly after being pinched by me. The others, if see it, would think, would think...” Ji Yuelan paused...

“Think what?” Zhang Tie asked with a smile.

“Think that I’m gonna eat you!” After saying that, Ji Yuelan blushed all of a sudden.

“If Inspector Ji wants to eat me, I would not oppose!”

“For real?”

“For real. Besides, I would wash myself well for the sake of your convenience!” Zhang Tie joked again with a solemn look.

“Bullsh*t!”

“You don’t believe that?”

“Unless you close your eyes!” Ji Yuelan said as she watched Zhang Tie with sparkling eyes.

Zhang Tie then closed his eyes. However, closely after that, he sniffed a fragrance while scented and sweet petal-like lips fell onto his lips and kissed him once, then once again, then the third time. After that, the two lips were glued to each other.

“Ahh...” Ji Yuelan groaned as Zhang Tie hugged her and put her under his body. Face to face, their nose tips almost touched each other as their qi reached the other’s face.

Face flushed, eyes watery, panting heavily and exhaling as fragrant as orchid, Ji Yuelan was nearing the climax as her breasts kept rising and falling,

After looking at Ji Yuelan for a while, Zhang Tie gradually revealed a smile, “Inspector Ji, is that how you eat me? But I don’t feel any pain at all. It appears that Inspector Ji didn’t eat people before. As the deputy head, I should give you a good lesson!”

Being silent and eyes closed, Ji Yuelan dared not look into Zhang Tie’s eyes. Face turning red, breasts rising and falling more heavily, she was waiting for Zhang Tie’s favor.

“When you eat something, you couldn’t eat it alive; nor could you eat its fur and drink its blood. You should do it step by step. It depends...” Zhang Tie said as he put one hand onto her breast armor and unbuttoned the first metal button.

With a click, Ji Yuelan felt warm all over as she groaned out of satisfaction through her nostrils unconsciously.

Three seconds later, the second click sounded...

After that, Zhang Tie stopped!

Ji Yuelan waited for a few minutes. When the flame in her heart was going to die out, Ji Yuelan gritted her teeth as she opened her eyes at a stroke.

However, Zhang Tie was not watching her; but looking into the distance. Along Zhang Tie's eyes, Ji Yuelan was also shocked.

A large team of airboats with the banner of an immortal palace almost arrived at Heavenly Square City, making it dark over the sky.

Zhang Tie turned around as he blinked his eyes towards Ji Yuelan and buttoned up her breast armor for her, saying, "It seems that head is going to call us back. I will continue to discuss this topic with Inspector Ji someday..."

Ji Yuelan was irritated as she pinched Zhang Tie's arm once fiercely. Zhang Tie screamed miserably before bursting into laughter. Before Ji Yuelan pinched him for the second time, he had jumped off her body, onto a high twig covered with dense tree leaves and took off his flight suit. After putting it on quickly, he then flew towards Heavenly Square City, followed by Ji Yuelan.

Right then, their jade plates rocked which meant that Head Huang was calling for them...

Chapter 1676: Handover

The formation of over 100 airboats was grand in the sky, which was barely seen even in Taixia Country.

After coming to Motian Realm for a few days, Zhang Tie had been clear about many things in this world. Take those airboats as an instance, the emblem at the fore of the airboats was a yellow triangle flag with cloud edge, in the middle of which was a pattern of a fiery unicorn.

In Motian Realm, a triangle flag with cloud edge was exclusive to immortal palaces. Only forces who had founded their own immortal palaces could use such a flag and emblem. Therefore, at the sight of the emblem, Zhang Tie had known that these airboats belonged to an immortal palace. As for the details, Zhang Tie was confused.

Zhang Tie and Ji Yuelan flew towards Heavenly Square City rapidly.

It appeared that those airboats were not here for trouble. When they arrived at Heavenly Square City, there was no trace of battle and chaos inside the city. Additionally, the call-up order from the immortal palace was not a warning. Therefore, Zhang Tie and Ji Yuelan became a bit reassured and was not in a hurry.

"Which immortal palace do these airboats belong to?"

"It should be Unicorn Immortal Palace..."

Although Ji Yuelan didn't have lotus flower eyes, she could still see clearly the emblem at the fore of the airboats within such a short distance.

"Founded by a supreme immortal general?"

"Yup!" Ji Yuelan took a look at Zhang Tie as her face had recovered. However, she looked a bit solemn, adding, "Whereas Unicorn Immortal Palace ranks top three among the 14 immortal palaces founded by

supreme immortal knights. It's said that Jiang Shang the King Unicorn who founded Unicorn Immortal Palace is a king-level powerhouse who probably promoted to an immortal emperor!"

"King-level powerhouse?" Zhang Tie asked out of confusion.

"Supreme immortal general. However, after founding their immortal palaces, supreme immortal generals would be called King XX in the public. Therefore, people used to call them king-level powerhouses. Staff within the immortal palace would like to call their head immortal king. If you call their boss supreme immortal general in front of so many immortal generals, someone might be unhappy about that!"

Zhang Tie understood it right away as he said, "Oh, I see, it's verbal bribery..."

"Verbal bribery, what's that?" Ji Yuelan asked.

"Hahaha, nothing, it means to entertain someone by speaking highly of him or her..." Zhang Tie put it simply as he thought, 'Humans are the same no matter where they are. Powerhouses in this stage are called sage-level knights; however, in Motian Realm, they prefer to be called immortal kings in order to distinguish themselves from the class of immortal generals; meanwhile, it indicates that they're only one step away from immortal emperor. Similarly, in Hua officialdom, deputy directors were usually called directors in order to entertain them. The speaker said it casually with some purpose while the listener felt happy. Why not?

"If it's called verbal bribery. You have such a glib tongue. I'm afraid that nobody else could match you in it as you're bribing people all the time!" Ji Yuelan threw a glimpse at Zhang Tie.

"I don't have a glib tongue at all. Inspector Ji should have tasted it just now!"

Ji Yuelan flushed slightly as she threw a glare at Zhang Tie. Closely after that, she came to Zhang Tie's front.

Zhang Tie smiled as he followed after her easily...

Only after a short while, the two people had arrived at Heavenly Square City. Jiang Ruoxin was also flying over here from afar. She was shocked by Zhang Tie and Ji Yuelan coming back together. After looking at the two people for a second, she remained silent.

These days, Zhang Tie divided the territory outside Heavenly Square City into east, south, west and north. He stayed in the south of the city for killing time while handing the other three to Liu brothers and Jiang Ruoxin. As nothing happened, he had not seen Jiang Ruoxin for about one week. It seems that Jiang Ruoxin was also trying to stay away from Zhang Tie. As Zhang Tie didn't call her during this period of time, Jiang Ruoxin didn't come to report to Zhang Tie at all. By contrast, Liu brothers came to report to Zhang Tie honestly every day.

"What a coincidence, Siji Jiang!" Zhang Tie greeted Jiang Ruoxin jokingly.

"Hmm..." Jiang Ruoxin replied casually as she came to Ji Yuelan's side. Ignoring Zhang Tie, she directly started a talk with Ji Yuelan using her battle qi.

"Why are you together..." Jiang Ruoxin asked Ji Yuelan.

“Erm, I went for him just now. Long time no see, it feels boring. I missed him; so I went for him, why...” Ji Yuelan who talked with Zhang Tie a bit bashfully just now spoke to Jiang Ruoxin straightly.

“Do you have a physical relationship with him?” Jiang Ruoxin asked straightforwardly too.

“Stop it. If you want to do it with him, when I go for him next time, you can come with me; you could do it first!”

“Peh...”

The women talked using battle qi; however, they had not imagined that Zhang Tie had heard all of their words. It was a new ability that Zhang Tie acquired after his spiritual energy turned real. Within the range of his spiritual energy, he could hear every talks clearly even that between knights using battle qi.

As Zhang Tie pricked up his ears to hear their private chat, he pretended to look front seriously. They soon arrived at the immortal palace.

On the square of the immortal palace, many people were present. Besides Huang Baimei and Leng Manxue, Liu brothers, Zhou Baifei, Lu Tianqiang and Xun Zizhou had long arrived here. There were 14 more strangers, including 10 males and 4 females, who were all as excellent as them given their looks besides outnumbering them greatly.

Huang Baimei was talking with someone who had the almost the same qi field as him and was introducing the immortal generals of Dragon Emperor Immortal to those strangers. Zhang Tie, Ji Yuelan and Jiang Ruoxin directly entered the vision of the strange immortal generals.

Due to his pretty young age, Zhang Tie instantly attracted the attention of 10 unfamiliar immortal generals.

Huang Baimei smiled as he introduced Zhang Tie to them, “This is Deputy Head Zhang of the branch of Dragon Emperor Immortal Palace in Heavenly Square City; this is Intelligence Jiang; this is Inspector Ji...”

All the 10 strangers were immortal generals from Unicorn Immortal Palace.

A few minutes later, over 20 immortal generals of Dragon Emperor Immortal Palace and Unicorn Immortal Palace gathered in the assembly hall of the immortal palace.

“At the order of the Church of Dragon Emperor Immortal Palace, three days later, all the immortal generals of the branch of Dragon Emperor Immortal Palace in Heavenly Square City would leave here, presenting Heavenly Square City to Unicorn Immortal Palace completely...”

As Huang Baimei opened his mouth, everyone at present became dumbfounded except Leng Manxue. Closely after that, they understood it...

Chapter 1677: Heading for Dragon Emperor Big Domain

Three days later, on the morning of March 15, the 3584th year of the calendar of Emperor NvWa in Motian Realm...

It was the first rainy day since Zhang Tie came to Motian Realm. In the drizzle, Zhang Tie stood on the deck of an airboat as he watched over 10 lines of people boarding airboats quietly.

The falling raindrops and the gloomy sky made the farewell more sentimental and tragic. The powerful Dragon Emperor Immortal Palace had to bid a farewell to this city which contained millions of people in this way after Dragon Emperor disappeared for more than 900 years. They had to present this place to others given the current situation.

Heavenly Square City was not the first city that Dragon Emperor Immortal Palace abandoned in Nine Heavens Big Domains; of course, it was not the last city either. These days, the Church of Dragon Emperor Immortal Palace would gradually reveal their plan to the public. Within one week, the Dragon Emperor Immortal Palace would evacuate from Nine Heavenly Big Domain as a whole.

Those who received the presents of Dragon Emperor Immortal Palace were Unicorn Immortal Palace, Tianlan Immortal Palace and Force Emperor Immortal Palace. The first two immortal palaces were founded by two of top three supreme immortal knights in Motian Realm while the latter one was founded by Emperor Force, one of the top three immortal emperors in this world. However, Star Emperor Immortal Palace which usually cast greedy eyes on these cities of Dragon Emperor Immortal Palace failed to enter the list of powers sharing the cake of Dragon Emperor Immortal Palace in Nine Heavens Big Domain.

Zhang Tie knew that the elders of Dragon Emperor Immortal Palace must have made negotiations and secret trades with powers of those sister immortal palaces. Therefore, it could proceed so smoothly. If Dragon Emperor Immortal Palace didn't get guarantees or benefits from those sister forces, of course, it would not present those cities to them along with the population, even with discounts.

That was like how geckos break their tails for surviving themselves when in danger.

When Dragon Emperor Immortal Palace couldn't protect these cities under its affiliation or deter the other forces, it was destined to narrow its scale. It had better exchange these cities and population for something when it could make a choice rather than being shared by the surrounding forces which looked like packs of wolves.

The decision of the Church of Dragon Emperor Immortal Palace was understandable.

The raindrops touched an invisible shield and fell down 1 m away from Zhang Tie. The open part of the deck of this airboat had been completely wet except the area of about 3 square meters centered on Zhang Tie. Therefore, Zhang Tie felt pretty special in moisture.

It seemed that there was no movable deck on the airboats in Motian Realm. Such airboats were utterly different than that in Taixia Country in style. Additionally, airboats in Motian Realm were more classical as all the airboats here were related to the dragon. Take Zhang Tie's fleet as an instance, they were all in the shape of a dragon or dragon's sons and grandsons. The commonest shape of airboat here was Bixi, which was like a huge tortoise, the sixth son of Dragon King. It was said that Bixi liked carrying heavy loads. Therefore, airboats were usually made in the shape of Bixi, which was said to be steadiest and could avoid misfortunes.

After coming to Motian Realm for a few days, Zhang Tie became more and more confident that this world had an inseparable relationship with Hua people and Taixia Country. Perhaps in far-ancient times,

Hua people here lived together with those in Taixia Country. Due to some reason, the two worlds were separated.

‘If the relationship between two worlds could be figured out, perhaps I would expose one of the biggest secrets in the history of Hua people.’

Many whims occurred to Zhang Tie. Not until he heard footsteps from behind did Zhang Tie slightly become composed. He then turned around as he saw Leng Manxue walking towards him in the rain.

Leng Manxue was in a black professional robe; instead of an outfit. Being reflected by her black robe, this woman’s face looked a bit fair in Zhang Tie’s eyes.

“Ha, General Deacon Leng, why are you here...” Zhang Tie greeted the beauty.

“Aren’t you here too? Why not attend the handover ceremony?” Leng Manxue asked Zhang Tie as calmly as before, despite the faint complex moods that Zhang Tie could identify. When she watched the city, her eyes carried a depressive and gloomy mood.

“Someone should be a watchdog here in case of trouble. Therefore, I requested to come over here from head...” Zhang Tie explained seriously which sounded perfect. Even Zhang Tie realized that he was more and more good at finding excuses for killing time. These days, Leng Manxue appeared being gloomy; however, Zhang Tie was not influenced. No matter what, this city was just like a hostel in his life trip, which was meaningless for him. No matter which party did this city belong to in the future, it had nothing to do with Zhang Tie. He only cared about improving his overall strength.

This trip to Motian Realm was regarded as a tough and fantastic survival training, Zhang Tie aimed at maximizing his ability and achievement in this survival training. After that, he would find his way back. By contrast, nothing else counted, even the rise or fall of Dragon Emperor Immortal Palace.

“Is that real?” Leng Manxue looked at Zhang Tie with crystal clear eyes as she unveiled Zhang Tie’s lie at once.

“Hehhehheh, you know, the rite is too boring. It’s just killing time. Additionally, I’m not familiar with the people of Unicorn Immortal Palace. Therefore, I didn’t join in the fun!” Zhang Tie said frankly as he shrugged.

Watching Zhang Tie’s sincere look, Leng Manxue’s eyes turned a bit tender. She turned around and continued to look at the city in the fog and rain. Her eyes narrowed emotionally as if she was murmuring, “You know, Heavenly Square City is more beautiful when it’s snowing. In November, if you’re here, you will see that heavenly waterfall outside the city would not freeze. However, the water’s steep fall would be blown away by the strong wind. Before those water drops fall down, many of them would become snowflakes flying in the sky; some would even become large areas of misty fog. As long as the sun comes out, you would see flying snowflakes under the rainbow...”

“Yes, it’s indeed beautiful, I could imagine!” Zhang Tie answered as he stroked his chin and took a look at Leng Manxue, saying, “General Deacon Leng, you must have seen a lot of such scenes...”

“Hmm, as I was born in Heavenly Square City, I have been used to this city...”

“Aah, so your parents must be in Heavenly Square City too!”

“No, they aren’t. They’re immortal generals of Dragon Emperor Immortal Palace!”

Zhang Tie then continued with a smile. “Oh, they must be in Dragon Emperor Big Domain. General Deacon Leng is coming back home soon...”

After being silent for a while, Leng Manxue opened her mouth, “They’re not in Dragon Emperor Big Domain either. When I was 3 years old, they had been killed by demons in a war between Dragon Emperor Immortal Palace and demons...”

Zhang Tie’s heart raced as he hid his smile and watched Leng Manxue seriously, “Sorry to hear that...”

“It’s fine. I will take revenge for them one day!” Leng Manxue said stubbornly and decisively as she looked up.

“Revenge?”

“Yes, it’s a famous fire demon immortal general of Yanmo Palace who killed them. That demon immortal general is still alive. One day, I would catch up with him and chop off his head...”

‘An earth knight would like to kill a semi-sage level knight?’ Zhang Tie thought Leng Manxue could barely succeed in her whole life. Because that semi-sage demon general immortal was also making progress all the time. Perhaps it would still be alive if Leng Manxue promoted to a semi-sage level knight one day; however, by then, the demon immortal general might have been a sage-level knight or on a higher level.

This world was cruel. In many cases, you could not be the center of the world because you had a lofty and great target. Conversely, the merciless reality would crush your last target time and time again. As a result, you would have to lower your head in front of reality and gradually become a wuss. You would be humble and trivial in front of your target. When you grew old and retrospected to those lofty targets that you set at a young age, you would feel ashamed of those high ambitions. Everyone would encounter such a situation, not only Leng Manxue. Even knights were not an exception. ‘If I didn’t have Castle of Black Iron and could survive the demon disaster in Waii Subcontinent, I believe that I would probably be the same kind of person.’

Zhang Tie didn’t talk to Leng Manxue about that because he felt that this woman’s weak frame was only propped by such a belief. If he ruined her belief, it was nothing different than destroying this woman. Given this point, even being a knight, Leng Manxue was like the other common women. The only difference between them was that the belief of common females was not revenge but love. If a man destroyed the belief of a woman, that woman would fall apart. It was also the reason that many common women turned decadent and felt like committing suicide after suffering great frustration in love. Among Zhang Tie’s wives, Bai Suxian and Yan Feiqing were such examples. After suffering such a spiritual strike, Bai Suxian was decadent for quite a long period of time while Yan Feiqing shifted to cultivation and viewed all the men in the world as sh*t.

“Good, ambitious! You have to take revenge for the death of your parents. Demon, fire immortal general, so what? He also has a head and a d*ck. As long as we chop off his head and d*ck, we would win, even if we have to do it 10 times or 100 times. In this world, nobody, not even demons are undefeatable...” Zhang Tie plucked up courage for Leng Manxue righteously while thumbing up, “If General Deacon Leng wants to revenge, don’t forget to call me there. I’d like to join the fun and kill some demons...”

Zhang Tie's "dirty words" won Leng Manxue's frown successfully. However, she didn't turn around and leave there; instead, she took a look at Zhang Tie as she asked, "Do you want to promote to an immortal emperor one day?"

"You bet, every immortal general wants that!"

"Hmm, take a good look at them then!" Leng Manxue suddenly pointed at those commoners who were entering the airboats in the rain as she continued using his battle qi, "When in the immortal palace, someone said His Majesty Dragon Emperor once mentioned that these commoners were the key for an immortal king to promote to an immortal emperor. Without them, nobody could break the bottleneck facing immortal king, humans or demons. Perhaps you would know their value one day..."

After hearing Leng Manxue's words, Zhang Tie became stunned, 'Immortal king is supreme immortal general or sage-level knight. According to Leng Manxue, the secret for breaking through sage-level knight are these commoners?'

'No way!'

'What does that mean?'

In a split second, numerous questions occurred in Zhang Tie's mind...

"It's said that the secret method is in the core region of Mountain Ruins..."

As her voice was still lingering around Zhang Tie, Leng Manxue had almost left the deck...

"Aah, why did you tell me this?" Zhang Tie asked Leng Manxue, causing her slightly slow down.

"I just feel that you should know that. Perhaps you have known it before; however, you forgot about it. As for the reason, just take it as an award for your refusal of Unicorn Immortal Palace's favor and the fact that you've killed so many immortal generals of Star Emperor Immortal Palace a few days ago..."

After saying that, Leng Manxue in black had disappeared.

Standing on the deck with a dumbfounded look, Zhang Tie watched the direction where Leng Manxue disappeared, then the lines of commoners entering the airboats in the rain, in meditation...

...

Besides immortal soldiers, nuns and deacons, their families and some strong-willed followers of Dragon Emperor Immortal Palace also followed them away, over 30,000 people in total. By noon, all of them and immortal generals of the branch of Dragon Emperor Immortal Palace in Heavenly Square City had left Heavenly Square City for Dragon Emperor Big Domain with wealth that they got from Zi Clan Castle by over 70 Unicorn Immortal Palaces in the heavy wind and rain...

When these airboats flew off Heavenly Square City, a businessman in a high storey of a hostel near the airport inside Heavenly Square City was looking at these airboats through the window of his room gloomily in the rain. With one hand on a piece of rune jade plate, he sent out a message in a split second—The nine immortal generals and over 30,000 people of the branch of Dragon Emperor Immortal Palace in Heavenly Square City have left Heavenly Square City by 74 airboats.

After a short while, the businessman got a reply when the airboats faded away.

——Don't worry, none of the immortal generals could return to Dragon Emperor Big Domain. Your mission is over. You could leave Heavenly Square City for the Immortal Palace.

Chapter 1678: In Cultivation

Nine Heavens Big Domain was in the center of Motian Realm. The entire region was full of conflicts between humans and demons. Dragon Emperor Big Domain was over 23 miles away from Nine Heavens Big Domain in the southeast. It would take them almost 20 days or three weeks to arrive there even by airboat.

74 airboats left the branch of Dragon Emperor Immortal Palace in Heavenly Square City for Dragon Emperor Big Domain with over 30,000 people in total. The population was indeed not large for so many airboats. Given the replenishment and consumption on the way, according to the requirement of Head Huang, all the airboats had been loaded with enough water and food. Some airboats were fully loaded with materials for replenishing airboats. Therefore, these airboats could fly straight towards Dragon Emperor Big Domain.

Since the airboats left Heavenly Square City, Zhang Tie had been in cultivation in his cabin, completely ignoring everything of outside.

Cabins in airboats were not large; however, each immortal general could have one private cabin which was as large as over 30 square meters just like a small apartment. Additionally, each immortal general could have 60 L of water for both drinking and bathing per day. After taking a box of dried rations into his room, Zhang Tie had been concentrating on cultivation.

Through cultivation, Zhang Tie gradually strengthened his ability in manipulating the two energies which were directly reflected by his higher efficiency in gathering the two energies.

Spiritual energy was like a muscle, which couldn't grow stronger without constant exercise. When Zhang Tie used his spiritual energy to manipulate the two bizarre energies, his spiritual energy was also growing under control. As a result, Zhang Tie could better apply his spiritual energy in the real form in more special skills. A stone for two birds!

As it was too smooth for the branch of Dragon Emperor Immortal Palace in Heavenly Square City to retreat, Zhang Tie always felt unnerved. If the immortal generals of Star Emperor Immortal Palace were not killed by him, of course, Zhang Tie would not care too much about that. However, Star Emperor Immortal Palace suffered a great loss and didn't get Heavenly Square City in the end; instead, the city fell in the hand of Unicorn Immortal Palace. Star Emperor Immortal Palace really suffered a great loss. On this occasion, it would be a bit strange if Star Emperor Immortal Palace didn't make any response to it.

Additionally, Liu brothers told Zhang Tie that Star Emperor Immortal Palace used to be overbearing and vicious. Therefore, it was almost impossible for them to pass the event in Heavenly Square City without suffering any casualty.

It was estimated that Head Huang had already well planned the route from Heavenly Square City back to Dragon Emperor Big Domain for the fleet of airboats as he knew that Star Emperor Immortal Palace was tricky. On the way, the fleet almost avoided and detoured the sphere of influence of Star Emperor Immortal Palace. They even had many sections of alternative routes. After leaving Heavenly Square City for one day, Huang Baimei altered the route once. On this occasion, it became difficult for Star Emperor Immortal Palace to have people look for the fleet on a large scale. Additionally, as the fleet didn't land for replenishment, the opponent could barely discover their trace either.

Zhang Tie knew what Huang Baimei was worried about. Because the conflict between the branch of Dragon Emperor Immortal Palace and Star Emperor Immortal Palace was aroused by him, Zhang Tie held that he was responsible for the safety of the tens of thousands of people on the airboats on the way. During the flight, although the others thought Zhang Tie was just cultivating in his own cabin, Zhang Tie was actually paying attention to the whole fleet all the time and safeguarding everyone quietly.

Although Zhang Tie was in cultivation, he had already covered the entire fleet spiritually. He could "see" everything within 60 miles. Even a mosquito entering the range would be "caught", not to mention knights. As for those things in cabins, they were as crystal clear as they were in front of his eyes. Zhang Tie would know everything in this range as long as he wanted.

On March 24, the 3584th year of the calendar of Emperor NvWa, namely 9 days since Zhang Tie entered his cultivation in his cabin, Zhang Tie's jade plate rocked again as Head Huang was calling for all the immortal generals to attend a meeting in the conference room of an airboat.

After receiving the news, Zhang Tie ended his cultivation right away. After taking a bath, he entered the conference room for the first time.

It was sunny inside there as the wind and rain across Heavenly Square City had long disappeared; instead of being a piece of land, it was a patch of void in Motian Realm below the airboat. A few days ago, the fleet had already left Nine Heavens Big Domain.

Watching Zhang Tie coming in, those immortal generals at present hurriedly greeted Zhang Tie. Only two of them looked at Zhang Tie in an uncomfortable way: Zhou Baifei, who, after being teased and ironized several times by Zhang Tie, had long been known disliked by the latter. Therefore, Zhou Baifei always felt being put on the spot whenever he saw Zhang Tie. Superficially, his face turned stiff like Bell's palsy.

And Ji Yuelan. The moment Zhang Tie boarded the airboat, he had forgotten about Ji Yuelan. Without being flirted with and favored for a few days, only Zhang Tie knew how many times had Ji Yuelan sworn him, "The fool who only has cultivation in heart" and "Selfish dirty man" when she pitied herself or complained to Jiang Ruoxin in her cabin.

When she saw Zhang Tie again, Ji Yuelan snorted as she moved her eyes away.

Only Liu brothers silently thumbed up for Zhang Tie. Since they joined the immortal palace, the two brothers had understood that they didn't have any chance to be favored by Jiang Ruoxin or Ji Yuelan. Therefore, they gave up pursuing them. Additionally, although Ji Yuelan had a liking to Zhang Tie, Zhang Tie just treated such beauty as nothing; instead, he only cared about cultivation, which the two brothers

admired pretty much. Being stimulated by Zhang Tie, the two brothers cultivated much harder on the airboat these days...

Chapter 1679: Being Alert on the Way

Zhang Tie arrived at the conference room and greeted Liu brothers and the others closely followed by Leng Manxue and Huang Baimei's appearance when all the immortal generals at present stood up, including Zhang Tie.

"Take a seat, please..." Huang Baimei said kindly as he waved his hand without putting any airs. After everybody sat down, Huang Baimei looked around before sitting on the main seat at the desk. After that, he looked at Zhang Tie on his side, saying, "Deputy head, how was your cultivation these days?"

It was out of Zhang Tie's imagination that Huang Baimei would like to talk with him first. After hearing his question, Zhang Tie answered seriously, "As we know, perseverance is requested in cultivation; diligence is like a seedling in early spring; its growth could not be discovered within a short period of time; however, you would find it for long. Indolence is like a sharpening stone; its loss couldn't be discovered within a short period of time; however, you would find it for long."

Previously, Huang Baimei just asked Zhang Tie as a starting remark; unimaginably, Zhang Tie's words made everyone at present spirited. Even Ji Yuelan who pretended to neglect Zhang Tie instantly turned around and looked at Zhang Tie. Jiang Ruoxin's and Leng Manxue's eyes shone at a split second as they took a deep look at Zhang Tie. As for others, Xun Zizhou was overemphasizing as he directly took out a notebook and scribbled down Zhang Tie's proverb like an old teacher.

Liu brothers who talked with Zhang Tie just now gazed at Zhang Tie as if he was their idol, putting Zhang Tie on the spot.

Noticing their responses, Zhang Tie instantly realized that he had exposed one more classic proverb unconsciously.

After being shocked for a few seconds, Huang Baimei looked at Zhang Tie from his head to toe again before saying leisurely, "I've long heard that the deputy head is good in both battle strength and literary talent. Deputy head always has thought-provoking proverbs. With such a great talent, you're really wronged to be only a deputy head. When we get back to Dragon Emperor Big Domain, I will recommend deputy head to the Censorate of the immortal palace..."

After hearing Huang Baimei's words, even Zhou Baifei who pretended to stay calm couldn't stand taking a look at Zhang Tie out of jealousy.

The Censorate of Dragon Emperor Immortal Palace was directly affiliated to the Church of Dragon Emperor Immortal Palace, which was responsible for inspecting and supervising immortal generals of all the branches of Dragon Emperor Immortal Palace. Each job in it was supreme and pretty distinguished. Serving as a staff in it, people would be able to contact the core powers of Dragon Emperor Immortal Palace. Even if Zhang Tie's title rank remained unchanged, his power and social status could exceed Huang Baimei.

"Ahem ahem, forget about it; head, don't make me embarrassed..."

Even Zhang Tie felt bashful accepting such a benefit standing on the shoulder of the giant. Therefore, he declined it hurriedly.

“That’s the deal. When we get back to Dragon Emperor Big Domain, I would definitely recommend deputy head to the elders when I make a report on my work!” Huang Baimei continued. After that, he took a look at the others at present as he spoke louder, “Not only deputy head, everyone at present would have a chance to be promoted as long as you’re talented and are faithful to the immortal palace!”

Huang Baimei comforted the other immortal generals at present. Since they left Heavenly Square City, although they didn’t talk about it, they were all worried about losing their power after getting back to Dragon Emperor Immortal Palace. As all the cities in Dragon Emperor Big Domain were already under the control of the current branches and immortal generals of Dragon Emperor Immortal Palace, as freshmen there, they could not assume the same titles within a short period of time. As a result, their titles and ranks were almost useless. In the worst scenario, they might be allocated with unimportant jobs. It would not be easy for them to be outstanding back there anymore.

Element crystal was an incentive for them to join the immortal palace; however, it was not the mere reason. A manager of a big business group might not have high compensation; however, the benefits and resources that he could enjoy were far greater than that bit of compensation. If they could get good titles there, they would not lack element crystals at all.

After the others nodded, Huang Baimei changed his tone again as he clarified the subject of this meeting, “However, before this, we should arrive at Dragon Emperor Big Domain safe and sound!”

“Head, do you mean it’s dangerous on the way?” Xun Zizhou put away his notebook as he posed such a question properly.

“Maybe; maybe not. However, we have to make corresponding preparations!”

“Head, what do you mean?” Zhou Baifei asked.

“You should remember the contradictions between Star Emperor Immortal Palace and Dragon Emperor Immortal Palace in Nine Heavens Big Domain a few months ago; especially that Star Emperor Immortal Palace didn’t make any response to the death of their immortal generals in Heavenly Square City before we left there. It’s never the style of Star Emperor Immortal Palace. Therefore, I’m afraid that Star Emperor Immortal Palace would not let it go.”

“Head, you’re worried that Star Emperor Immortal Palace is going to raid us?” Jiang Ruoxin asked with a faint frown.

“Star Emperor Immortal Palace could barely fight us face-to-face. If two emperor-level immortal palaces are in a war, it would be a major event. After Dragon Emperor Immortal Palace evacuated its force out of Nine Heavens Big Domain, the Church of Dragon Emperor Immortal Palace have already reached an agreement with the others immortal palaces such as Unicorn Immortal Palace and Force Emperor Immortal Palace. Those immortal palaces have already taken their stands; they would never stand Star Emperor Immortal Palace provoking the war and destroying the territory of Dragon Emperor Immortal Palace or killing immortal generals of Dragon Emperor Immortal Palace for no reason. If Star Emperor Immortal Palace want to raid us, they’re not only confronting with Dragon Emperor Immortal Palace alone; instead, they’re facing a greater part of human immortal palaces!”

'This might be one of the articles that the Church of Dragon Emperor Immortal Palace and the others immortal palaces have made with the compensation of those cities.' Zhang Tie thought as he asked, "Head, you mean Star Emperor Immortal Palace would do it secretly?"

"I think so!" Huang Baimei nodded as his face turned solemn, "These days, our fleet just traveled in populated areas; therefore, we were safe for the time being. Starting from this afternoon, our airboats would arrive at Brokenstars Ocean. Only by passing through Brokenstars Ocean could we arrive at Dragon Emperor Big Domain. Brokenstars Ocean is the most mysterious and dangerous area. If Star Emperor Immortal Palace want to raid us, they would definitely choose this area. Therefore, we have to be alert..."

"From today on, we will patrol outside the airboats by three shifts every day. As long as we find anything abnormal, we need to send a warning at once. As me and deputy head are water immortal generals with the greatest battle strength among you, each of us is a team. The rest of you is a team under the leadership of General Deacon Leng. Each team would be on duty for one day. Am I clear?"

All the people at present then nodded as it was a pretty proper arrangement. As Huang Baimei and Zhang Tie had the greatest battle strength, of course, they could be a team respectively. The others could assist each other when in an emergency.

"I will be on duty today. You'd better perform this formation in the airboat today in case of emergency..." Huang Baimei said as he took out something odd and allocated one to each of them.

It was a tan little ball as large as longan being covered with dense runes and bizarre patterns. Zhang Tie played with it with a confused look. However, the others had already put the little ball onto their central forehead. Closely after that, they all made a strange hand gesture. Closely after that, the little ball entered their central forehead with a golden light. Zhang Tie was shocked as he exclaimed inside, 'F*ck, is it a golden secret item?'

In the end, only Zhang Tie was scratching his head and watching the others bashfully, asking, "Erm...erm, what's this? How do I use it?"

"Ah? You never used formation bead?" All the others exclaimed as they watched Zhang Tie unbelievably...

Chapter 1680: Creepy B*stards

The Brokenstars Ocean was not an ocean; precisely, it should be Brokenstars Mountains as there were dense star-studded air-floating mountains and hills in various sizes whose areas varied from hundreds of square miles to tens of thousands of square miles. The largest one among those hills was smaller than 35,000 square miles in area. After entering Brokenstars Ocean, one would feel like entering a bizarre space composed of numerous pieces.

Besides air-floating mountains and hills in various sizes, the most agonizing thing was the weird and variable environment here. The space environment of Brokenstars Ocean was very volatile. Many places here saw different extreme climates created by space cracks besides all-the-year-round heavy fog, such as ice storm under minus 100 degree Celcius, the high-temperature flame tide which could melt airboats

into fluid, solid substances that were absorbed into this space through space cracks all of a sudden. All these made Brokenstars Ocean a perilous land of Motian Realm.

However, this perilous land was connected to Nine Heavens Big Domain and the other big domains. None of the traders could detour around this route. Therefore, people had to pass through it even at the risk of their lives. It was similar to the world Zhang Tie came from, as long as there were enough interests, people would like to do some things even at the risk of their lives.

Besides being dangerous, Brokenstars Ocean was abundant in air-floating metal. Air-floating metal could be easily exploited here. Additionally, nobody claimed its ownership of this perilous land. Therefore, since ancient times, these air-floating mountains had been exploited while there were many tunnels and mountain caves inside these air-floating mountains or hills.

Dangerous environment, complex terrain, crazy air-floating metal miners, no owner, the only route for connecting big domains, all these factors made Brokenstars Ocean the most ideal place of dauntless guys.

As long as there were people, there would be good guys and bad guys, commoners and evil guys even most merciless ones. It was determined by people's nature. Motian Realm was not an exception. In Motian Realm, many notorious bandits and criminals being hunted by big forces were hiding in Brokenstars Ocean.

It was also why Huang Baimei turned so meticulous and intense before arriving at Brokenstars Ocean. If Star Emperor Immortal Palace really wanted to do something, Brokenstars Ocean would be the most ideal place for them.

On the afternoon of March 24, when Zhang Tie's fleet entered Brokenstars Ocean, an air-floating metal exploitation airboat in flight was suddenly sent to hell somewhere...

Before the crew responded, the two strangers who suddenly landed on the deck had broken the metal hatch door of the deck and entered the airboat, killing everyone on the way towards the command module.

It happened so fast that soon after some crew in the command module heard the miserable shrieks and rushed out with weapons, the hatch door of the command module had been opened from outside with a loud boom. As a result, a crew was pressed down by the hatch door while his bones were crushed into pieces in a split second...

Closely after that, two twins in green long robe walked into the command module with dim green eye lights, one in unkempt blue hair, the other in messy red hair. Neither of them had eyebrows. Their age was unidentified while their faces looked as fresh as babies.

"Who are you..." The captain roared as he drew out of his saber and charged at them, followed by the other crew in the command module.

The two strangers didn't speak. The one in blue hair raised its hand, exposing its pitch-dark palm which was like withered twigs and could make kids cry. Meanwhile, the command module was filled with a terrifying battle qi while the captain and all the others at present were pale all over. In less than 0.5 seconds, the captain and all the crew were shattered into pieces...

Licking its lips, the one in blue hair seemed to have not been satisfied.

“Huh, here’s one more...” The one in red hair found that the crew being pressed under the metal hatch door was slightly twitching his fingers. Closely after that, it stomped onto the metal hatch door without any demur.

The distance between the metal hatch door and the ground instantly disappeared after the one in red hair stomped onto it. At the same time, rich blood and flesh mud were squeezed out of the door from all directions like fluid being squeezed by a millstone.

In the blink of an eye, everyone was dead in the command module while a rich bloody smell suffused over there.

After moving away its foot, the one in red hair walked to one side of the hand rudder and pulled down a handle, stopping the airboat at once.

After that, the two b*stards left the command module for the passenger compartment. Wherever they passed by, it would be full of blood and flesh. In less than one minute, nobody was alive on the airboat anymore; precisely, no men alive anymore.

Ten minutes later, the only woman on the airboat, who appeared to be the female cook on this airboat, died naked after enduring the undescriptive pains and wallop. Her eyes were widely opened and blood flowed out of her nose, ears, eyes and mouth as her plump body gradually turned grey...

After she died, her body was still quivering while the two b*stards were still moving on her body like gloomy, disgusting scavengers.

“Alas, this common woman is too fragile. We’ve not been satisfied...”

“Only female immortals could be helpful to our cultivation base...”

“The airboats of Dragon Emperor Immortal Palace should have arrived at Brokenstars Ocean. But if we offend Dragon Emperor Immortal Palace...”

“Hehhehheh, don’t worry. As we’ve already offended Lightfeather Immortal Palace, it’s nothing serious for us to offend one more. No matter what, Dragon Emperor Immortal is far weaker than before. As long as we do it a bit faster and kill all of them, Dragon Emperor Immortal Palace might not know that it’s done by us. Even if they find out, we won’t fear them. With 4,000 fire element crystals, we could make further improvement in cultivation base and promote to fire immortal generals in a short period of time. As long as we promote to fire immortal generals, even Lightfeather Immortal Palace couldn’t harm us. Additionally, we would have greater confidence in entering Mountain Ruins...”

“You’re right, elder brother. It’s said that there’re some more female immortal generals on the airboats of Dragon Emperor Immortal Palace...” the one in blue hair said as it licked its lips. At the same time, it pierced the female cook’s breast and took out her heart, biting off the greater part of it, blood ll over its mouth...

The one in red hair punched the one in blue hair and sent it rolling far away, glaring at the latter. “I’ve told you so many times, don’t think about eating when we’re doing something great. When you do that, you make me feel like a f*cking piece of flesh. I’m disappointed by you...”

“Hehheh, I see, I see...” The one in blue hair engulfed the rest of her heart. After that, it pulled up its pants, complaining in a low tone, “But elder brother, didn’t you eat it too last time?”

“Is that the same? I ate it after f*cking her. Additionally, she was still alive and fresh by then!”

“However, we could play with the last woman for a couple of more times. Weren’t you wasteful...”

“How dare you argue with me?”

“You’re unreasonable...”

When the two b*stards were quarreling with each other, the one in red hair suddenly stopped as it watched the one in blue hair, saying, “I’ve got the message, the fleet of Dragon Emperor Immortal Palace has already entered Brokenstars Ocean...”

“Huh, here’s our deal...” The one in blue hair sighed with moods as it instantly rushed out of the hatch room, closely followed by the one in red hair. When the two b*stards came to the deck, they flew off and disappeared into the sky, leaving a dead, bloody airboat floating in the air territory of air-floating mountains...
