

Blessed 123

[Chapter 123 Offended A Powerful Family](#)

However, as soon as Aggy put the grape into her mouth, a sweet fragrance instantly spread into her mouth and then the flesh melted on her tongue.

The sweet and sour taste of it reminded her of the wonderful memories she had in the past.

As it tasted so good, Aggy wanted to pick up another grape when she suddenly realized that her actions wouldn't match her words if she did. Immediately, she coughed and changed the subject.

"Oh, by the way, Luisa. What happened to your family? Did you offend someone?"

Hearing her question, Luisa couldn't help but sigh and said in a trembling voice, "Well, they said that my brother offended someone so he got beaten up badly and was sent to the hospital yesterday. My parents and I rushed to the hospital once we heard the news. But, when we got there, we found that they broke both of his legs. Besides, they even threatened to remove our company from Jork!"

A loud thud of slamming the door from the corridor interrupted Luisa's words.

Not longer after, a voice sounded, "The Harper family has gone too far."

The one who spoke was a middle-aged man and he had an angry look on his face.

Followed by him was a beautiful woman who was wearing a sad look on her face.

Of course, the two of them didn't expect to have a few guests in their house.

The man and the woman were Luisa's parents, Rodney Burke and Keyla Todd.

After hearing what they said about the situation, Marlon turned to look at Aggy blankly and swallowed hard.

"So, you mean that you have offended the Harper family, one of the top ten families in Jork and now they are taking revenge on you?"

Before they came here, they heard that the Burke family had offended someone. However, what they didn't know was that they had offended a powerful family like the Harper family!

Sighing sadly, Rodney said, "Well, that's what happened. Right now, they have taken actions against our company and they have frozen the company's capital chain..."

Although he was furious, he had no choice but to accept the fact. The power he had was nothing to the Harper family.

There was nothing he could do except to put on a bitter smile and hope to get help from the others. So, he was personally talking with a rich young man like Marlon.

Of course, Marlon knew Rodney's intentions. After racking his brain, he managed to come up with an idea. "Well...how about this? I can borrow some money from my family so that your company can operate again.

Also, I'll contact some of my friends and discuss if we can do something to help your family."

Truth be told, when Marlon heard that the Harper family was the one who was taking revenge on them, he got scared and didn't dare to get involved in this matter.

If he didn't have a crush on Luisa, he would have left the place the moment he heard the name of Harper family.

Hearing it, Rodney immediately thanked him, "Thank you, Mr. Archer."

Then, he turned to look at his wife, Keyla. However, they could see the helplessness that was hidden in each other's eyes.

In fact, the ones who had the ability to run a company were all shrewd. Of course, both of them knew that the idea that Marlon just came up with wasn't useful.

However, among Luisa's friends, Marlon was the only one who seemed rich.

The other girl who named Aggy was just a follower who followed Marlon like a sidekick.

Obviously, they despised Trevor even more than any others. They didn't even bother to talk with him. As usual, Trevor was wearing the shabby clothes which made him look like a poor man. However, since he was one of Luisa's friends, they couldn't drive him away.

They could only sigh, 'What a bad luck!'

Only the sound of sighing could be heard in the room.

For a moment, everyone was so silent.

At that time, the haggard face of her daughter and the miserable condition of her son made Keyla really upset.

Subconsciously, she picked up a grape from the plate and chewed it.

Wait, it was so tasty!

Once she tasted the grape, her eyes lit up. With wide eyes, she asked in surprise, "Luisa, where did you get these grapes?"

Instead of Luisa, Marlon answered in a voice filled with sarcasm, "My classmate, Trevor brought them.

Ha-ha. Actually, I didn't expect him to bring only a bunch of grapes here though."
