[Chapter 304 I Arranged The Ward](#)

In fact, Trevor didn't expect to see Penny in the hospital.

In the end, it turned out that all these people were from the Cohen family. Since Penny's grandfather was ill, they took him to Jork to see a doctor.

In fact, they wanted to arrange a top-level single ward for the elderly.

However, the last ward of this level was occupied by Dilan and Trevor was the one who arranged it.

Therefore, the Cohen family members were unhappy and complaining to the nurse.

They wanted to transfer Dilan to another ward and let the old man stay in Dilan's ward.

When Trevor found out the whole story, he shook his head and denied.

Penny couldn't accept his denial and she became even angrier.

At that time, she shouted anxiously, "Okay, Trevor. Take that boy inside to the general ward. My grandfather can't wait any longer. I will give you four times the money, okay? Don't waste our time."

Obviously, Penny had no idea how Trevor managed to arrange Dilan to stay in a top-grade ward.

However, she didn't have time to care about it. After all, the only thing she cared right now was her grandfather.

Hearing her demanding words, Trevor became a little furious.

As Dilan was also a patient, Trevor didn't want to transfer him to another ward.

Besides, he didn't lack money. So, why would he agree with such kind of unreasonable request?

Luisa was also angry at that time. With wide eyes, she said discontentedly, "Can you be more reasonable? How can you even force someone to leave the ward like this? Dilan also needs a good medical environment to recover too."

On the other hand, Penny got furious when she heard Luisa's words.

Gritting her teeth, she said impatiently, "What's your problem? I've already asked about the condition of the little boy in the ward. I heard that he just broke his leg. He will be able to recover in the ordinary ward. Why can't you let an old man stay in this ward? Why are you guys so heartless?"

Of course, Trevor knew that Penny was trying to make them feel guilty. Therefore, he didn't give in.

He was about to refute when Penny's grandfather uttered in a low voice, "Penny, you don't have to argue with him. It's fine. I'll just stay in the general ward. I have told you before that it's not a big deal. You don't have to worry about me too much. You shouldn't make things difficult for him."

The old man's words shocked Trevor as he didn't expect that he would be so reasonable.

After saying that, Penny's grandfather smiled friendly at Trevor to which Trevor replied with a nod.

At that time, Trevor realized that not everyone in the Cohen family was unreasonable like he thought.

On the other hand, Penny didn't want to give up and retorted, "No, grandpa. You can't stay in the general ward when you aren't in a good health. You have to stay in the best ward. Otherwise, everyone will say that we are not taking great care of you."

Then, she turned to look at Trevor and continued with contempt, "And you! Why are you so arrogant? Don't you want the money? I promised to give you a lot. Did you lose your mind to refuse it?"

Since Penny was being rude to Trevor, her grandfather tried to stand up in a hurry and said, "Penny, don't say those words... Ahem! Ahem!"

Even though he tried several times to stand up, he failed. Instead, he started coughing.

In a hurry, all the members of the Cohen family gathered around him with concern.

At that time, Trevor didn't have the heart to see the old man suffering. Therefore, he turned to look at Penny and said, "I think you should find a good doctor first instead of quarreling with me here."

Obviously, Penny was worried about his grandfather's health. So, she was unhappy to hear Trevor's words.

With a snort, she snapped, "Do you think I am stupid like you? We have already contacted the most famous doctor in Jork. You see, he isn't an idle person like you. So, he has to finish his work first before he can treat my grandfather."

One by one, Penny's relatives started criticizing Trevor severely.

"Tsk, tsk. Young people nowadays are rude. They don't know how to respect the elderly at all!"

"I don't know who helped this poor guy to get this kind of top-level ward."

At that time, Jaiden came up to inspect Dilan's condition. When he saw that the members of the Cohen family were insulting Trevor, he got a little angry.

In a low voice, he said, "I'm the one who arranged this ward. Do you have any problem with that?"
