

## **Blessed 305**

### [Chapter 305 Dilan's Surprising Remarks](#)

Most members of the Cohen family did not know Jaiden. So they were snickering right now.

"What a charlatan! It makes you wonder how he managed to end up in a hospital. People like him smear the medical profession."

However, Penny suddenly discovered that it was Jaiden and she cried out in surprise, "Dr. Hudson, you are finally here!"

However, Jaiden was not in a good mood. He had heard the inappropriate remarks of the Cohen family about him.

He looked coldly at Penny and said, "Obviously, I don't have any medical skills. I'm just a charlatan. Now excuse me, I have to go see a patient for a check-up."

Big beads of sweat ran down Penny's forehead. She turned to her relatives and scolded them harshly for the rude and very inappropriate remarks they made just now.

Didn't they know who Jaiden was? How could they call such an outstanding doctor a quack? Sure enough he was offended by their remarks.

Penny's father had to go out of his way to get Jaiden to promise that he would treat her grandfather.

But those jerks offended Jaiden so much so that he was no longer ready to keep his promise. Penny was furious because Jaiden was the only doctor skilled enough to treat her grandfather.

If because of the idiotic remarks of her relatives, Jaiden refused to treat her grandfather, the latter risked danger.

Penny was really desperate. She resolved to beg Jaiden, hoping to be able to soften him up.

"Dr. Hudson, please don't take our inconsiderate remarks too seriously. They were words of despair because we were worried about my grandfather's illness. Please don't let him down."

Members of the Cohen family also changed their tune. The same people who made disparaging remarks about Dr. Hudson moments ago were now flattering him.

Unfortunately for them, Jaiden was not the kind of person who was moved by flattery. He simply ignored them.

He made his way through all these people and walked towards Trevor. It was only then that he finally smiled.

Jaiden opened the door to the room and gestured to Trevor and Luisa. "Trevor, Luisa, please come in."

When Trevor and Luisa entered, Jaiden immediately closed the door to the ward.

All the members of the Cohen family were left outside. They looked at each other in dismay.

In the ward, Dilan was reading a comic book happily.

The room had been designed with high level sound insulation. Therefore, Dilan had heard nothing of what was happening just now outside the room.

When Dilan saw Trevor and Luisa in his ward, he immediately put down the comic he was reading.

His face suddenly lit up and he said with a smile, "This is so nice! Luisa and her boyfriend came to see me again!"

Trevor and Luisa were embarrassed upon hearing this.

It happened that at the wedding last time, Trevor and Luisa were holding hands, which drew a lot of attention. It was then that Luisa announced that Trevor was her boyfriend.

Since then, this topic had become very sensitive for Trevor and Luisa.

They were still far from openly acknowledging their feelings for each other.

Trevor glanced at Luisa. At that same moment, Luisa gave him a sidelong glance. Their eyes met, making them blush.

But unlike Luisa, whose face was as red as a tomato right now, Trevor didn't let his embarrassment show.

Trevor patted Dilan's head gently and said with a smile, "That's right, Dilan. We came to see you together."

As he said this, Trevor discreetly watched Luisa, observing her reaction. He felt his heart beat faster when he saw her lower her head shyly.

Jaiden smiled silently seeing the bond between Trevor and Luisa.

At the same time, he couldn't help but sigh in his heart. How good it was to be young!

After a while, the atmosphere in the ward was totally relaxed. The embarrassment Trevor and Luisa felt a few minutes ago was no longer there. Jaiden coughed to remind everyone of his presence and said,

"Dilan, I'm going to give you a physical. You have to do as I say, okay?"

So Jaiden set about examining the little boy carefully. It took some time. When he was done, Trevor asked worriedly, "Dr. Hudson, how is Dilan recovering?"

Jaiden seemed pleased with Dilan's results as he was smiling. He nodded slightly and said, "The fact that Dilan is a fairly robust boy with no medical history has allowed him to recover well. But it will take a hundred days for him to fully recover. He will need a lot of rest, otherwise the bone will be twisted, which will affect his growth."

Dilan's face darkened when he heard that. He complained, "But I told Noor and the others that I would come back to school soon and play in the amusement park with them. Now they will go out secretly and play without me."

Hearing Dilan complaining was so much fun. Jaiden, Trevor and Luisa burst out laughing.

But suddenly, the door to the ward was pushed open.

Jaiden looked at the door with a frown. His opinion of the Cohen family worsened at this time. Jaiden thought they were so impatient and unreasonable that they would make trouble out of thin air.

Sure enough it was Penny who pushed the door open. She rushed in, with a panicked expression on her face.

Her eyes were red and tears blurred her sight. She walked over to Jaiden and begged earnestly, "Dr. Hudson, please go and check on my grandfather. He's coughing so hard he's out of breath. Besides, he can't talk."
