

Blessed 310

[Chapter 310 Were They Thinking In That Way](#)

Only when the training was over, Trevor felt relieved. Then, he took off his protective gear.

After saying goodbye to Bradly, Trevor and Luisa turned around to leave the place. Even though he just took a few steps, he felt sore all over his body.

Seeing that Trevor was sore from the exercise, Luisa smiled cutely and said, "It's quite close to my home. There's no one at home today so you can go to my home and have a rest first."

After thinking for a while, Trevor nodded his head in agreement as he really needed a place to have a rest anyway.

On their way, Luisa offered to drive the car since she also had a driver's license.

However, this was her first time driving this kind of expensive sports car. At first, she almost couldn't control the accelerator and the car rushed forward.

After that little accident, Luisa drove cautiously all the way.

She didn't even answer the phone when it rang on halfway.

Once they arrived at Luisa's house, Trevor immediately stepped out of the car.

All of a sudden, he stumbled and almost fell down.

Luisa rushed forward to help him and she said with a smile, "Don't force on yourself, Trevor. Let me help you."

When Luisa held Trevor's arm, a faint fragrance went into his nostrils.

They were so close that Trevor could even feel the softness of her body.

Subconsciously, Trevor said, "You smell so good..."

His words made her blush. To hide her embarrassment, Luisa lowered her head. However, she didn't let go of his arm.

Seeing the blush on her face, Trevor was fascinated.

In fact, he was lost in her fragrance that those bold words slipped from his mouth without him even realizing.

Maybe it was because of his real identity, Trevor became more and more confident.

Not long after, the two of them arrived at the door of Luisa's house.

As soon as Luisa put the key in the keyhole, she whispered to herself, "Huh? I remember that it was locked from inside before I went out."

The moment she opened the door, she found that her father was on the sofa and he was watching TV.

With wide eyes, Luisa asked in astonishment, "Dad, how come you are at home?"

At first, Rodney's attention was on the TV. However, when he heard his daughter's voice, he said subconsciously, "I called you before, but you didn't answer. I wanted to tell you that your brother will come back home for dinner today."

At that time, Luisa realized that it must be her father who was calling when she was driving.

When Rodney turned to look at the door, he frowned.

He saw that Trevor's arm was on Luisa's shoulders as she was supporting him.

From his point of view, Luisa's face was a little red while Trevor looked exhausted.

Wait a minute... With wide eyes, Rodney thought, 'Did my daughter sleep with Trevor?'

The way Luisa was surprised when she saw him at home made Rodney even more suspicious.

Was Trevor trying to take advantage of his daughter during their absence?

Thinking about it, Rodney's face darkened at once.

At that time, Keyla who was busy in the kitchen looked over when she heard the sound.

She probably thought the same with her husband and screamed loudly, "Trevor, what the hell did you do to my daughter?"

Trevor took a look at himself and Luisa. At first, he was confused.

He thought that it wasn't a big deal for him to ask Luisa for a help. Why were her parents overreacting?

However, on second thought, he realized something.

What the hell! Were they thinking he did something to Luisa?
