

# Bewedded Not Beloved Chapter 486 – 495

## Chapter 486

It seems that Mira has been successfully engaged to Naven, otherwise she would not be so calm.

With a smile on her face, Livia has always liked to wear white clothes, but today she is wearing a magenta windbreaker. She is full of vibes and has a taste of a bride.

I and Lina looked at each other, Mira had already walked up to us calmly, with his head up high, in a victorious posture.

“How? I can sleep well in the bathroom? If you like, you can come here every night to sleep.”

“Mira, you are so insidious.” When Lina was talking to Mira, I held her arm tightly, I was really afraid that she could not help but hit Mira’s face with a punch.

Beating her now won’t solve any problems.

“Usually, it doesn’t matter whether it’s insidious or insidious, but it’s useful or not. Now it seems to be quite useful.” Mira smiled, and the dark circles under her eyes disappeared.

“After all, you still have a guilty conscience, you have fainted me and dare not let me appear.”

“We need to use facts to speak. The fact is that I am engaged to Naven.” She stretched out her hand to show me, there was a bright ring on her ring finger.

Lina glanced at it: “It’s just an engagement, Mira, I told you last time, even if you get married, you can still get a divorce, let alone a vague engagement.”

“My wedding date with Naven has also been set, Livia, don’t dream anymore, do you know that the interests of our Ron family and Jade’s family have long been tied together, whether it is public or private, I will marry Jade Naven is married.”

Before, I didn’t see that Mira wanted to marry Naven so much. She didn’t show it. At that time, I was stupidly trying to push Naven to her. I guess Mira’s eyes were trying to catch him.

“Since this is so guilty of conscience and stuns us, how about waiting until the day of your wedding ceremony, will you also stun me in this way?”

“Livia, you are destined to be a loser in your life. Naven will definitely marry me, she will!” Mira shouted these words very hard, looking a little hysterical.

Lina and I have been fainted by her for so long, and our mouths are dry and dizzy, so we need to go to the hospital for a checkup.

We didn’t say anything to Mira, and walked directly past her.

We don’t want to entangle with her, but Mira is endless, she shouted behind us: “Livia, no matter how you seduce Naven, he won’t be interested in you anymore! You should know yourself, you A woman who had a miscarriage!”

I stopped abruptly, and turned quickly to look at Mira.

She raised her head proudly and looked at me with contempt.

I was framed by her and lost my child, and now she still takes it out as a reference.

Originally, I wanted to wait until the new hatred and old hatred to be counted with her, but now I can't wait.

I walked towards Mira, she waited for me with a sneer.

She thought I would not do anything to her, but she was wrong.

I walked up to her, raised my hand, and slapped her in the face.

It seems that I have never slapped anyone in my life. I slapped my bow from left to right, and made my palms hurt.

I slapped Mira himself with these two slaps, she forgot to cover her face, she gaped her mouth and looked at me stupidly: "Livia, you, you beat people..."

"Don't think I didn't know that you and Zhen Xian colluded to harm me, Mira, you harmed me, I will ask you to get it back!"

My palms were numb, and Lina immediately ran over to stand in front of me, afraid that Mira would fight back.

However, Mira seems to be silly by me.

Or, my present momentum scared her.

She just stared at me motionlessly.

Beating her didn't solve any problems, and my hand hurts.

"Livia, do you need me to beat her? I beat her like a pig."

If it was before, I would definitely say forget it, but today I suddenly don't want to calm down like before.

I watched Lina said to her: "Okay."

Lina was stunned for a moment, and then his eyes brightened and became particularly excited.

She quickly took off her coat and threw it to me, then rolled up the sleeves of her shirt.

Then she squeezed all the knuckles of her fingers, each one squeezed, Mira didn't know what she was going to do, she had not recovered from the astonishment of slapping her with her face.

After Lina squeezed his fingers, he shook his neck and approached Mira.

Mira seemed to feel wrong, and stepped back step by step: "What do you want to do? Lina, I warn you, don't mess around."

"Who are you warning? You warn me to be a bullshit. Here you call me ill-fated every day. If I were you, I wouldn't come back here at all. Why don't you talk to people like you? Fist directly to greet."

As Lina said, he bent down and raised her legs. She had long legs. I didn't even see her clearly, so I kicked Mira in the face.

Mira, a mentally handicapped female stream, was kicked to the ground by her.

She fell to the ground with a loud noise, and it seemed that the fall was not light.

Lina had no sympathy at all, and then went up and grabbed her by the collar and pulled her up from the ground.

The clothes on Mira's body were relatively thin, and I heard the noise of the fabric being torn, and the neckline of Mira was torn by Lina.

I clearly just saw a large footprint on Mira's left face, running through her entire face from left to right from top to bottom.

Lina's tall feet are also exceptionally large, with a 39-yard big foot, it feels that the footprints are larger than Mira's face.

The kick was so heavy that Livia and Mira were all in a trance.

Lina raised his fist to her, I went over and took Lina's hand: "Forget it."

"I just kicked it, just forget it, it's too cheap for her."

"But if you step down, she is probably like a pig." I shook my head with Lina: "She can't be beaten. What if you beat her to death."?

Lina unwillingly let go of Mira and rubbed his nose: "Yes, you are too casual, it's really boring to beat you."

She released Mira, Mira did not stand still and sat on the ground.

She leaned against the wall softly, only the breath out of her breath did not come in: "Livia, Livia, if you hit me, I will definitely call the police. I will call the police and arrest you."

"Are you being stupid by me or something? It was Miss Ben who beat you, who had a relationship with Livia?"

## Chapter 487

I pulled Lina away. She had heavy hands. If she hit a few more punches, Mira would probably lie down in the hospital for a while.

Forget it, what is the suffering of flesh and blood?

Lina and I went to the hospital for an examination. Fortunately, neither of us had any serious problems. It is estimated that we inhaled some chemical gases that caused people to coma, but there should be no sequelae.

After checking, we stopped by to take a look at Cora.

She happened to be in this hospital.

She was lying on the hospital bed with a bad face, and several special nurses were taking care of her.

She was weak, as if she didn't even have the energy to curse.

I walked over, and when she saw me, she immediately yelled: "Livia, she actually left me alone that night."

"You can, if you stay with us, you can't even lie down in a hospital bed, and you have to sleep in the bathroom with us." Lina said.

"What do you mean?"

"After you were sent to the hospital, Mira didn't know what kind of gas was sprayed in the room. Lina and I slept in her bathroom for more than a day and just woke up." I told her.

Cora didn't seem to be surprised: "This kind of idea is a pediatrics for Mira, you must know that the methods that I used to treat you when I was young were all Mira taught me."

"Is it interesting for you to throw the pot right now?" Lina sneered: "It will only make people think that you are vicious and stupid. Even the way to prank people is still invented by your sister, and then you will be her puppet."

Cora's Qiqiao made smoke, but she was boring and could only lie on the hospital bed softly.

"Livia, I dragged down the water. Originally, Mira must have wanted to medicine you, but you didn't eat and made me toss me to death. Do you know how many laxatives she put in the food?"

I know that the amount must be a lot, otherwise she wouldn't have been lying in the hospital for two days and still look good.

"Do you think Mira only wants to poison me? She knows that you are also hostile to her, for fear that you will make trouble. If you only want to poison me, then why put the laxative in the food and put it directly in my teacup Isn't it all right?"

Cora licked her dry lips: "Then what should I do now? Should I go back to Ron's house after I'm cured? I'm really afraid that Mira will do it again frantically, then my life will be gone."

"Have you got your jewelry? Give up easily if you don't get it?"

Cora's eyes widened: "I just want to get my jewels. I don't care about the struggle between you two. Don't hurt the pond fish by then. You two will kill me instead of tossing each other to death."

Lina laughed suddenly, tears coming out of laughter: "I think it's very possible, Cora, your IQ, you should stay away from them."

Ron Ling angrily picked up the apple on the bedside table and threw it to Lina. I quickly pulled Lina away.

She was still laughing in the hallway: "Really, Cora is so stupid that I have nothing to say, why did you say that a clever godfather gave birth to such a stupid daughter?"

How do I know? I am not father's daughter, so if Mira is not, only Cora is father's biological daughter.

When Lina and I walked out of the hospital, I received a call from Naven.

At first, the signal of my phone was blocked, but now I can get through.

I connected and put it in my ear, Naven's tone was very anxious: "How do you Livia, your phone has never been able to get through."

"I was turned over by Mira medicine."

"I know." He said.

"You know, how would you know?"

"I sent someone to Ron's house to check, and I saw you and Lina were lying on the floor of the bathroom."

This makes me more depressed: "Then why don't you save us?"

"That gas can only cause people to coma. It is not a toxic gas. Even if it is sent to the hospital, it will wait for you to wake up naturally. I have asked the

bodyguard to protect you secretly, so there is no need to arouse Mira's suspicion and let you sleep on the ground for a while. "

"Is that sleeping for a while?" Lina yelled into the phone: "Do you know how cold the bathroom floor is? It doesn't matter if I sleep in the bathtub, you let Livia lie on the cold floor tiles, she But it didn't take long to finish the confinement."

"When my people find you, it's not long before you wake up." Naven explained.

I don't pay attention to this. I noticed the key words in his earlier passage: "You said you don't cause Mira's suspicion? What do you mean?"

"During my engagement ceremony with her, you were fainted by her and you didn't come to the scene, so I made an engagement with her. You can come on the day of the wedding."

"If on the day you got married, I was calculated by Mira and couldn't come, are you waiting for me to go to the wedding banquet with you and her child on the full moon?" No wonder Mira said that Naven had already set her wedding date with her. it is true.

No matter what Naven's motivation is, I still feel uncomfortable in his heart to marry Mira

"That won't be true. I think you should be more cautious because of the lessons learned when I get married with her." Naven called me a couple of thousand pounds.

"In this case, in order not to arouse her suspicion, then we should stop talking on the phone. We will also reduce contact during this time. That's it."

When I got angry, I hung up Naven's phone.

Lina looked at me: “He really plans to have a wedding with Mira?”

“Yes.”

“No wonder Mira is so proud.”

“Don’t care about her.” I felt a little more comfortable thinking about her pig-headed face being beaten by Joe Yi.

We walked to Smith’s car. She frowned when she heard the call. I hurriedly asked her, “What happened?”

She said: “The woman from Mira called the police and told me of intentional injury. Now the police have found my villa.”

“Let’s go back quickly and assist in the investigation.”

Lina was very annoyed, and slammed the door and got into the car: “She still has the face to complain and call the police. She turned over our medicine for more than 20 hours, and now my tail vertebra still hurts.”

Of course, a woman like Mira who has never suffered a loss would call the police, and I expected it.

Lina and I rushed back to the villa. The police had already arrived. There were two police cars parked at the door, and seven or eight police officers sat on the sofa in the living room.

It seems that Lina is a criminal who kills people and gets worse.

Lina walked over, and the police immediately stood up and came from the door of the reporter: “Is Lina? After receiving a report from the reporter, you

have maliciously harmed the reporter. Now please follow me to the police station for investigation.”

## Chapter 488

I went to the police station with Lina. I thought I would record a confession to explain to the police, and then apologize and fine me a little bit more seriously, and that’s what happened.

But I didn’t expect this matter to be quite serious. The police said that Mira had sued us and said that I instructed Lina to physically and violently hurt Mira.

“We are in a verbal conflict. Mira stunned us for more than 24 hours with harmful chemical gases. I just taught her a normal lesson. What happened to the courtesy? We haven’t called the police yet, and she has sued the wicked first.”

“You shut up first.” The police sternly said to Lina: “What kind of courtesy? Is a courtesy exchange? If you get hurt, you can call the police. Isn’t there any king’s law in this world? You have solved something privately. What do you want our police to do?”

I pulled La Lina’s skirt to keep her from facing the police.

The police continued. You are malicious revenge, you have taken too hard. The informant’s facial nasal bridge was fractured, and the entire face was swollen and could not be recognized. He is still lying in the rescue room for rescue! “

“is it so serious?”

“Of course it’s so serious, you don’t know how heavy your fists are.”

I think the police should not be alarmist, because Lina used to practice Sanda. Her punches are so heavy that most men can't bear it, not to mention the mentally handicapped women like Mira.

I thought for a while and said to the police: "Can you call a lawyer?"

"Yes, but if she is not out of danger, you cannot be released on bail."

"Don't worry," Lina said to me, "My lawyer is very capable and promises to get us out."

I remember Lina did know many friends.

The police were kind and gave us enough time to call.

But Lina made a round of calls and none of his lawyer friends were willing to answer.

"I wipe..." Lina couldn't help but swear words again: "It's really people who take the tea cold. I haven't done anything yet. These people are 100,000 feet away from me. When I, Lina Dongshan, I will rise again. All are driven out of Rovandel."

"You don't have to say something cruel." I was very distressed, even Lina couldn't help it. My lawyer in Rovandel didn't know anyone except Simon.

But Simon and I have fallen out, and I will never look for him again.

I thought about it for a while. There is only one person in Rovandel except Naven. I can ask for help. He should be able to help me.

Lina and I looked at each other and called out a person's name: "Russel."

“Yeah, call Russel, he will definitely come and fish us out, besides, Russel likes you so much.” Lina hit me with his elbow and smiled.

At this time, I am not in the mood to make jokes with her. If it's just a friend, I'm justified in asking Russel, but I know that Russel likes me, and I trouble others again and again. Isn't that just a spare tire? There is a problem with moral character.

I licked my lips and let it go: “Then I would rather call Naven.”

“Just call Russel.” Lina took out the phone and dialed Russel's number, then handed it to me.

Russel answered very quickly. As soon as the phone was put to my ear, I heard Russel's voice coming out of the microphone. Hey: “Lina.”

I whispered: “I am not Lina, I am Livia.”

“Livia, what's the matter?”

I stubbornly couldn't speak, Russel said: “If you have anything, just say it!”

At this time, the police knocked at the door. They had been calling us for a long time.

I thought about it and gritted my teeth, but I could only say: “That's right, do you have any familiar lawyers?”

“what happened?”

“Because we had a little conflict with Mira, she was injured in the hospital and we were arrested by the police.”

“Okay, tell me which police station, I will find someone right away.”

I told him the address, and Russel comforted me: “Don’t worry, small things are easy to solve.”

Then he hung up the phone, and I returned the call to Lina. Lina was very proud: “What? I said he would agree to Russel with one bite!”

“Why are you calling him?” I was depressed: “It’s shameless to trouble people time and time again by taking advantage of others’ goodwill towards me.”

“Anla Livia, your sense of guilt is too heavy. Wouldn’t it be a waste to have someone like Russel not using it?”

I didn’t bother to listen to her fallacies, but the current situation does not allow her to be beaten as well. I just waited for Russel’s lawyer to come over.

Fortunately, according to Russel’s current status, it is not difficult for him to find a lawyer, and it should not be too troublesome for him.

We sat in the house for about 15 minutes, and then the police opened the door and said to us: “Go out and sign, someone will bail you.”

Is Russel’s lawyer so good? The police also vowed to us just now that it is absolutely impossible to let us out on bail. How long is this?

I walked out with Lina, and when we reached the hall, we saw Russel.

He is wearing an egg white short trench coat, light blue jeans, and long straight and slender legs. They are really seductive. Many policewomen are sneaking at him.

The beauty of Russel Russel is completely different from that of Naven.

Russel is like a crane on the wild beach, not aggressive, but appreciative.

And Naven is like a toned cheetah. He is the most charming when he runs and preys, but he will kill me at any time.

Why do you think of Naven again this time? He annoys me, and I don't think of him these days.

I stepped towards Russel and said, "I didn't expect you to come in person." I was a little embarrassed: "I wanted to ask you to find a lawyer for us."

"This kind of thing doesn't need a lawyer, and it's not a big deal."

"But Mira is in the emergency room now."

"She is not that serious. Even if she has a fever and a cold at this time, she still has to go to the emergency room." Russel patted my shoulder gently. His movements were very gentle, and instantly soothed my uneasy emotions: "It's a trivial matter, you guys didn't drive, and I will take you back wherever you go."

Lina smiled at me triumphantly, and bit his ears at me: "The spare tire is the best to use since ancient times. Sometimes the real man is unreliable. I don't think you should rush to turn him into a regular.

"What are you talking about!" I glared at Lina and pinched her hard, she was quite happy with her joking.

## **Chapter 489**

Russel sent us to Lina's villa, and now I can't go back to Ron's house in this situation.

Just as everyone was together, Russel briefly introduced us about the bidding.

He said that they had already received the tender for Mira and the two parties signed the contract, and construction began immediately.

“Then what’s next?” Lina scratched his scalp: “I thought this is a good way to let Mira enter the urn, but I didn’t expect how to make her fall to the ground.”

“There are many ways, but it is too slow, and it is not fatal to her, I have one that is fatal.”

“What is it?” Lina and I asked at the same time.

“The main investor withdraws from this project.”

Lina blinked: “Then you have to pay a lot of liquidated damages?”

“What if the investor ran away? Then all the debts are not for Mira to carry?”

“Running? You said it was you? Where did you go? If Mira reports to the police, you are wanted by the police. There is no need to play so big, right!”

“If you want to play, just play so big.” Russel smiled slightly, his eyes staying on my face: “As long as I can help you, I don’t think all problems are a problem.”

“No, no,…” I waved my hand hurriedly, and Russel’s words frightened me: “This is my personal grievance with Mira, don’t drag you down.”

“I don’t need to be wanted by the police, don’t worry, I can get even the money for the liquidated damages, but Mira took the liquidated damages, and she has to pay more than me, because there are still a lot of points below. Bao

Company, knowing that everyone is staring at her like a leech, Mira will definitely collapse first.”

“No.” I looked at Russel earnestly: “This is my business with Mira, and I don’t want to drag anyone into the water.”

“I know, I have a sense of measure, don’t worry, you don’t have to be so stressed.” Russel smiled and stood up: “Then you guys can rest well, I’ll go now.”

“Russel,” I chased him to the door, and he turned his head and looked at me deeply: “What are you thinking, I also know you don’t love me, so I don’t want me to share it.”

“It’s not like that.” Russel smiled deeper: “Don’t worry, I don’t like you as much as you think. Love is mutual. No one gives such wishful thinking for free, right?”

Russel became more confused about what I said, and then he waved at me and left.

Lina and I looked at his back for a long time without knowing what to say.

Lina lay on my shoulder and sighed, “My God, it can be seen that Russel loves you so much.”

“What are you talking about? Didn’t you hear it just now? He doesn’t like me as much as I thought.”

“He’s just talking, did he just tell you like that, Livia, I love you so much that I can’t help you out. I’m willing to do anything you want me to do. I’m your super big licking dog invincible spare tire? Men just want face, Did you ask him to tell you that?”

Lina said that I was more stressed: “In this case, I can’t let him do anything for me, and I can’t get him emotionally rewarded.”

“Then you will report it to him. Anyway, Russel and his family are not lost to Naven in terms of appearance and family life, so why bother to hang him on a tree?”

I hit her with an elbow and glared at her: “Is it human to say this?”

She giggled and covered her elbow: “Just talk about it, besides, didn’t Naven annoy you? We were caught by the police and you won’t look for him.”

I was playing tricks, Lina had never been in love, and I didn’t understand this.

I have slept on the floor at night and didn’t rest well. Lina patted me on the shoulder: “Take a good night’s sleep, and take you to the fun at night.”

“Where to go?”

“You’ll know when you go.” Lina is always mysterious. I was under pressure, but I fell asleep quickly when he fell on the bed. He slept until it was dark before waking up and sat on the bed. It took a while to realize that it was night.

Lina came to pat on my door and said to me, “Be better dressed at night.”

“Where to go? You don’t say I won’t go with you.”

“There is a party in the evening that suits a fighter among celebrities like us.”

I don’t know what Lina is going to do. She found a dress for me to wear. The red velvet suspender dress is very visible. I haven’t worn such clothes for a long time.

I was forced to put it on, because there was no fat on my body, it was nice to put on a curve.

Lina looked up and down with his arms and I was very satisfied: “You look good, Livia walks in just like you, to ensure that the eyes of the men in the audience are all attracted by you.”

“I’m not a socialite, this dress is too revealing that I don’t wear it.”

“Where is it exposed? It’s just that the two suspenders are a little thinner. Alright, alright, let me tell you that the reception tonight was hosted by Zhen Xian.”

I looked at Lina: “Zhen Xian?”

“Yeah, that woman’s joint Mira made you so miserable. How can we make her feel better.”

“I heard that Brian had fired her from Wendell’s enterprise and did not continue to cooperate with her. Her wedding engagement with Brian was also cancelled.”

“This is not enough, do you know? Zhen Xian recently fell in love with a little fresh meat. With your charm, Livia can seduce little fresh meat with just a look.”

“Don’t let me do this.”

“This is called treating the person’s body by the way of a person. Zhen Xian seems to be very concerned about that little fresh meat. If you get him over, then Zhen Xian will definitely make smoke. Do you know what else? Reliable secret report, Zhen Xian is pregnant.”

This is big news: “No? She is so old.”

“Yeah, I also find it strange, but I found someone to check, she is indeed pregnant, it is the little fresh meat, it seems that Zhen Xian wants to take this opportunity to show off with that little fresh meat, she It’s really moving this time.”

“how do you want to do it?”

What do you want to do “I asked Lina Lina asked me.

I thought about it for a while and muttered to myself: “The way of the person is to treat the person.”

“Oh.” Lina snapped his fingers: “You can think of the way, and I will implement it.”

That being the case, it’s a different story tonight’s protagonist is Zhen Xian. I found out my most gorgeous lipstick and put it on. This color is so outstanding that I rarely use it.

But my skin is white, and this color looks good. Lina said that I am aggressive, and I must take down that little fresh meat tonight, and Zhen Xian is alive and well.

## **Chapter 490**

Although I am very unskilled in this business, Lina said that I have an idea in my heart.

Ordinary seduce is definitely not good, this man must have been rolling on the wind and moon field, what kind of woman has not seen it, it does not matter to him whether he is beautiful, as long as he has money.

So if I pretend to be a rich person, then a young and beautiful rich person like me must be more attractive than Zhen Xian.

This thought made me very excited, and I hid away and didn't want Zhen Xian to see me.

Lina said to me: "You go over there and pretend to be on the phone, you are free to play, whatever you want, I will find a way to lead that person to your side."

So I went to the end of the deck and took out the phone from the bag.

Even if you pretend to call, you have to think about whom to call.

After thinking about it, I dialed the landline of Lina's home. Anyway, there was a recording on her side. Otherwise, my phone would be black, and it would be too fake to pretend to be calling.

I pretended to call my financial adviser. I have been the president of Mira anyway, and I know a little about finance.

I use that kind of arrogant tone and can't say a bunch of things. The basic idea is to sell me the two recent stocks that have made little money, and then buy a lot of gains. better.

I noticed that the little fresh meat was all around me, and my voice was neither loud nor small, but it was estimated that my appearance was more eye-catching, so he got closer and closer to me.

So he should have heard almost everything I said.

With so much pavement, it should be time to throw out my wealth.

I pretended to say to the unnecessarily person on the phone: "In short, those profitable stocks will be sold to me. Don't worry, you will not be less than your commission. Are you satisfied with the yacht that I gave you last time? I know that you have taken a fancy to a helicopter. If I am satisfied with this order, I can satisfy you with this kind of careful wish."

This kind of dialogue from Mary Su said that my own tooth roots were sour, and then I hung up the phone and found that little fresh meat was leaning on the railing and looking at me intently.

His eyes appeared brighter on the brightly lit deck, just like a beast that had been hungry for a long time and finally found its prey.

I didn't even give him a smile, just walked past him.

Although I don't know how to attract other people's attention, the colder a woman is, the more it will jeopardize a man's appetite.

Sure enough, I just walked past him when I heard him talking to me.

"Hi, hello." Now that he struck up a conversation with me, I also stopped and turned to look at him and smiled: "Hi, hello."

I think my smile should be very moving, and Ron Xianrou's eyes brightened.

"May I have the honor to buy you a drink?" He was polite.

I wonder if I should agree to him or refuse?

I was thinking hard, when he saw me in silence and said: "Or can you drink soda without alcohol?"

In this case, I readily agree: "Okay."

I walked to a seat at the other end of the deck and waited for him. He quickly came over with two glasses.

He handed me a cup of pink bubbling liquid: "Strawberry-flavored soda, it feels very suitable for you."

The not-so-novel means of smelting sisters, but the parents are handsome, and the old-fashioned means can be bought by someone.

I smiled and took it over and thanked him: "Thank you."

I took a sip and nodded and said, "It's delicious."

He sat down beside me and took a sip of the wine in his hand.

The handsome man also looks handsome when he drinks. He reported to his family: "My name is Nie, and my name is Nie Qi."

"Oh, why?"

"When I get up, doesn't it sound like a begging beggar?"

"That's not true."

"Then you haven't consulted yet?"

"My name is Livia."

He froze for a moment, as if he knew my name: "Livia, aren't you from Naven..."

"Yes, I am his ex-wife." I smiled happily: "Well, I was scared when I heard Naven's name, so I dare not sit with me?"

“Why then?” He stretched his arms and stretched his body: “You are a single woman now, and you have the freedom to contact all men and men.”

“I love to hear these words.” I smiled slightly.

My phone rang at this time, and I took it out to see that Lina was calling.

I walked aside to answer the phone, Lina’s voice was quiet on the phone: “You have been talking with him for a long time, and you are almost done. Are you really planning to talk to him about life and ideals? I just saw Zhen Xian, look for him everywhere. If Zhen Xian bumps into you, it will be no good.”

“That’s true, but what is the use of these few words today?”

“In this way, you break something to him, and then throw him your business card and tell him to pay him the next day. There will be no time to meet again. I will wait for you at the entrance of the yacht, and the boat will leave soon.”

“Leave now?”

“Of course, to maintain a sense of mystery, this yacht is so big that if you show it to Zhen Xian, will you give up all your efforts?”

I hung up Lina’s phone and walked over here, Nie Qi was still waiting for me there.

I picked up the cup on the table and took another sip, then smiled and said to him: “Thank you for the sparkling water, goodbye.”

He was a little surprised: “Why are you leaving?”

“Yeah, I have something.”

“But the reception hasn’t started yet, and the boat will leave soon.”

“So I have to leave before the boat leaves, otherwise I can only swim back.”

I smiled and waved to him, his expression was fairly calm, but I could see a trace of anxiety in his eyes.

For a beautiful and rich single woman like me, he is definitely more interested.

In addition, he also knew my identity. Although Naven and I didn’t have any of Naven’s property when we divorced, outsiders didn’t know it. They must have thought that I had split a lot of Naven’s wealth.

Therefore, in Nie Qi’s eyes, I am not just a beautiful woman, but a huge golden mountain, the one that shines.

I walked past him and accidentally hit the table and knocked down the wine glass on his table. His hand happened to be on the table, and then all the wine in the wine glass fell on the back of his hand.

I exclaimed: “Oh, sorry.”

I saw that he was carrying a watch on his wrist. It seemed that wine had spilled on his watch. Please take off the watch. I apologized and took it over and looked at it: “It shouldn’t be waterproof, right?”

“It’s okay.” He said immediately.

“I’m sorry to break your watch. So, I am in a hurry to leave today. This is my phone number.” I took out a business card from my bag and handed it to him: “I will take the watch first, and you will give it tomorrow. I will call, if the repair is done well, I will return the watch to you, if the repair is not good, I will buy another piece to pay you.”

## Chapter 491

I was like Cinderella who had to disappear at midnight, holding Nie Qi's watch and ran away.

Lina waited for me at the entrance and got off the boat when he saw me coming and holding my hand.

"The king of soft rice has been watching you." Lina said: "What kind of ecstasy did you pour him?"

"Actually, I didn't say anything. What can I tell him in just such a little time? Talk about life and ideals? I won't just talk about trivial things."

Lina and I got off the boat in a hurry, and Lina squeezed my hand: "Don't look back, I'll take a look for you."

She looked back and told me: "He is looking at you while holding the railing, hey, what's your hand?"

"His watch, you didn't mean to let me ruin his thing. I will fix it tomorrow."

Lina took the watch from my hand and looked at it carefully: "You are not mistaken, are you really planning to use it for repairs?"

"So what?"

"You are stupid, what kind of rich woman is so grounded, she has to repair someone's things if she breaks it, so she can buy a piece for him."

That said, it would be too stingy to help him fix it. Nie Qi is not looking for a wealthy business woman, then I have to show off the aura of a wealthy woman.

Early the next morning, Smith Ye knocked on my door. I just woke up, my sleepy mind was still a little unclear: “Why come and shoot my door so early?”

“Now the malls are open, it’s still early?”

“Why are you going to the mall?” I turned over and wanted to continue to sleep. She ran to my bed and lifted my quilt. Fortunately, I didn’t sleep naked, or would it not be overlooked by her.

“What are you doing? Let me sleep for a while. What are you doing to the mall so early in the morning?”

“You forgot, buy a watch for that soft rice king!”

“Oh.” I just remembered it now, I went to sleep and forgot it all.

I sat up: “Okay, but is it necessary to be so active?”

“Of course, the iron must be hot, and if you are not active, then how does Ron Xianrou know that you are interested in him?”

“Who said I was interested in him?”

“Actress, pretend.” Lina pulled me up from the bed: “Hurry up.”

I was urged by Lina to eat before breakfast, so I hurried to the mall with her.

I took a look at Ron Xianrou’s watch. I didn’t know the goods. Lina looked at it for me and said, “It’s a mid-range one, and ordinary people can’t afford it, but it’s not a luxury.”

“Oh, I said then buy the same one and give it to him.”

“Are you stupid? You have worn a piece of clothing for a long time, and then someone soiled your clothes to pay you one. Do you want to pay you for the same one?”

I think about it too: “Then I will buy a similar piece and give it to him!”

“Livia, please be sober.” Lina held my face and looked at me seriously: “Aren’t you stupid? If you become a man chasing a girl, you probably won’t be able to catch any of them. “

“What do you mean?” I took her hand off: “Buy it quickly. I’m going to eat breakfast when I’m finished. I’m almost starving to death.”

“Then Ron Xianrou is interested in you because you are beautiful? He sees a lot of beautiful women. He thinks you are rich. How can he show that you are rich? Of course, you have to be generous. You have to buy a piece that is better than this. Watch, and the price has to be doubled, 5 times 10 times.”

“Then how much is this watch?”

Lina told me a number. I multiplied it by 5 and calculated it. That number was enough to make me stunned: “Are you okay? A watch can almost buy a down payment for a house.”

“Please, don’t be so petty, okay? I can’t bear to let the child not catch the wolf! Besides, does a rich woman care about that little money?”

“The money Dad left me was not spent like that. Besides, I gave Xue Wen a house!”

“Those things can be taken back, besides, there is a gold master behind you, what are you afraid of?”

“Who is my sponsor?”

“Russel and Naven, one genuine and one spare tire.”

I glared at Lina: “If you dare to say that Russel is a spare tire, I will kill you.”

“Just kidding!”

“You want me to give it to you.”

“I don’t want it. Russel is not my food.” Lina dragged me to a famous store. I know his brand. The most inconspicuous watch has 6 digits.

Today we specially wore jewels, and the clerk hurriedly greeted us as soon as we came in: “Should the two ladies buy a watch? Men’s watches or women’s watches?”

“Men’s.” Lina said to her: “Take out the top-priced watches.”

My liver trembled when I heard it, but I couldn’t show it yet.

I held on, and the clerk’s eyes lit up when he heard it, and he immediately invited us to the office inside to serve us tea: “Two ladies, please wait a moment, I’ll ask our manager to open the safe.”

Need to open a safe? How much should it cost?

The clerk went out, and I whispered and bit my ears with Lina: “Are you making a mistake? What is the top price? You see, this posture is not even a 7-digit number.”

“Seven figures, you have never seen the world.”

“You won’t tell me 8-digit numbers? Joey, even if you sell me, I don’t have that much money.”

“Don’t worry, just take a look.” Lina touched my hand: “Can you be a little prosperous? Do you think it is so easy to hit Zhen Xian? How many rich women that Nie Qi has seen, you little boy How could he get the bait?”

“Then the price is too high.”

“Tsk tusk tusk,” Lina shook his head: “As far as you are, others think you grew up poor. “

As the two of us were talking, the clerk walked in with a smiling manager with a horoscope.

The manager suddenly held a tray in his hand. The bottom of the tray was black velvet and covered with a layer of red velvet cloth. At first glance, it was noble and extraordinary.

My calf was trembling, and the manager enthusiastically introduced us to the watches in his hand, and he was spitting.

With Lina’s thighs tilted and his hands on the armrest of the sofa, Fan was able to get up.

“Don’t say so much, just show it! As long as Ron is satisfied, the price is not a problem.”

“Good, good.” The manager hurriedly opened the red velvet cloth covered on the tray. There were two watches in the tray, one gold and one silver, with a dazzling dial.

The manager pointed to the watch and said to us: “This piece is made of pure gold, with rubies inlaid inside, this piece is made of platinum with sapphires inside, and the blue one in the middle is a South African diamond. This is the largest diamond among all watch accessories. It requires exquisite craftsmanship to inlay such a large diamond in the watch dial.”

Then the manager was explaining how this watch was made by craftsmen and craftsmenhip. There were a lot of Balabala, but I only heard the money in my wallet rushing out.

## Chapter 492

Lina was also a little impatient when he heard it, and asked directly: “How much is this platinum model?”

“Both of them are distinguished guests. These two watches are the treasures of our town store, and they are never discounted. But the two of you have such a good eye, so we can get a 10% discount.”

The 9.8% discount is not as good as not. The manager pressed a number on the calculator to show us. I am working hard to calculate how much the total number is.

One hundred million, one hundred thousand million million, won't you?

I tried to restrain myself to prevent myself from opening my mouth like a fool.

The watch in front of me is so expensive. It's not that I have never seen it before. The question is, what is the point of wearing such an expensive watch? Can you grow a piece of meat or immediately promote it?

I almost rushed out. Lina pressed me firmly on the chair and nodded to the manager calmly: “Okay, there is no need to discount the discount. The 0.2% discount will be treated as if I invited you to drink tea.”

The manager and several employees bowed deeply and happily, like saying goodbye to the remains.

“The two rest here first, Ronli, Ronli, the coffee for the two is cold, so let’s change the heat quickly, we will go out to open the ticket, you two will wait a moment.”

They all went out, only me and Lina left in the office.

I squeezed her wrist and I really wanted to choke her to death: “Do you know how much the watch will cost?”

“What is a broken watch? You can’t call it a broken watch just for the price.”

“You also know the price. I can buy a house with so much money. You are crazy. Let me buy a watch for a soft meal.”

“Don’t worry, I will get this watch back for you in the future. It will definitely not be cheap. Besides, if you don’t have such a big hand, how could he abandon Zhen Xian in a short period of time? You must know that Zhen Xian treats him. He is absolutely generous. Do you have time to entangle him endlessly?”  
Since I knew that he is a soft-boiler, I don’t think he is so handsome even if he is handsome. I don’t want to pester him anymore.

“But I don’t have so much money now!” I really don’t have that much. The cash to Xue Wen is still the money Lina helped me.

Even if I use the money my father gave me, I save part of it on a regular basis and I can’t get it out temporarily.

Lina went to look through her account. There was not much cash, and the two of us couldn’t make up so much money together.

I told Lina, “I can’t afford it anyway, so let’s just forget it.”

She gave me a stern look: “You said that there is a rich woman who actually buys money for a fund, I’m really enough.”

“How did I know that I was going to spend such a large sum of money for a soft rice king?” My heart was bleeding when I thought of it.

“Let’s do it.” Lina took out his mobile phone from my bag and patted me: “Go and call Naven.”

“Why should I call him?”

“Ask him for money, aren’t you unwilling to find Russel? Then you go to Naven. People are very rich. He won’t take your three melons and two dates. You just ask him Definitely to you.”

“You are crazy, if he knew that I asked him for money to raise a little white face, neither of us would survive.”

“The man who is willing to spend money for a woman really loves you. Now is the right time to test whether Naven loves you, hurry up and test!”

I was holding the phone and felt that my phone was hot and it was about to explode. This was the first time I asked Naven for money. I held the phone and asked Lina hesitantly: “Then why would he ask me for money? What do I say?”

“Then Naven was too stingy. A woman asked him for money, and he asked him why he wanted the money. You just talk about eating, drinking, and having fun. I think he wouldn’t ask.”

I held the phone in my hand: “Or else forget it?”

“Forget what? You don’t want to call Naven?”

“I said let’s stop buying a watch. Regarding Zhen Xian, is there another way to beat her? You don’t have to use this method!”

“Think about it, what is Zhen Xian’s advantage? He is rich, but if you snatch Nie Qi from her in this way, it’s strange that Zhen Xian doesn’t have troubles and smokes. You have forgotten your child. Why is it missing?”

I was brainwashed by Lina. I gritted my teeth and stomped my feet. Then I dialed the phone to Naven. His voice soon came from the microphone: “Livia, are you looking for me?”

“Nonsense,” I gritted my teeth: “Why would I call you without looking for you?”

I have a bad tone, but he doesn’t care, his temper is very good.

“whats the matter?”

“You give me money.” Anyway, he had already called him, so he was just shameless.

“What?” It’s probably the first time I asked Naven for money. He didn’t know if he didn’t respond or didn’t see and hear clearly: “What did you say?”

I said again: “I want money, and it’s cash. When it hits my card, I need it urgently.”

After I finished speaking, I was very nervous. I never asked a man to ask for money, but when he heard it clearly, his tone was still faint: “Oh, good, how much?”

I counted with my fingers: “8 digits, and there can be no one in front.”

I asked for so much money, and I was afraid of my tongue flashing when I spoke, Naven was rather calm, with a particularly calm tone: “Okay, I will let them transfer it to you right away, but such a large sum of money may have to be divided into several sums. To.”

“I know.”

Naven didn't even ask me what to do with so much money. Before hanging up, he asked me: “If it is not enough, please tell me.”

Then he said goodbye to me and hung up.

I held the phone and looked at Lina in amazement, and Lina smiled at me triumphantly: “What? He agreed with every bite. He didn't ask you what you want for the money for, right? Nice job, lady!

Lina patted me on the shoulder: “I told you a long time ago that there is such a big gold mine behind you. As long as you have something to dig, don't the money come naturally?”

“You said Naven is crazy? I asked him to ask for so much money, but he didn't ask me what it was for.”

“He's so open and bright.” It's rare that Lina recognized Naven so much: “A man has to be like this. Isn't he stingy, you ask him for some money, he still asks the bottom line? Even if he is rich, he doesn't really love you. I hate the miser the most.”

As we were talking, my phone rang several times, and then huge numbers were called one by one.

My hands trembled and I almost missed my cell phone.

Lina looked at me with white eyes and said that I had never seen the world: “I'm also the president of a big group anyway, don't make it like I've never seen anything.”

“I am not anymore.”

“Sooner or later yes.”

The manager came in soon after he opened the ticket, and said with a smile on his face: “Two ladies, the ticket has already been opened. What kind of payment method is used?”

“Of course it is a transfer,” Lina said, “Should I go to the bank to get cash for you?”

“Okay, okay.” The manager nodded and bowed: “Madam, come here with me to pay the bill.”

I stood up and looked back at Lina when I walked to the door. She waved to me: “Go, go.”

## **Chapter 493**

This is the first time in my life that I spent so much money, and this money is not spent on myself and my relatives, but on an unrelated soft rice king.

After thinking about it, I feel that it's not worth it. If it weren't for the fear of Lina kicking me to death, I would now want to grab the door.

I don't know how much Naven paid me. After all, after I bought this watch, I found that there was a lot left on my account.

I paid, and the manager personally packed the watch and handed it to me with both hands. I think it can sell for a lot of money just by selling the box.

He also deliberately found two bodyguards to escort us into the car, my hands were heavy.

I said to Lina: “This is a suite!”

“Remember my words, think about it, and finally you saw Zhen Xian’s face that was green with anger. You think it’s all worth it.”

“Not worth it,” I mumbled.

At this time, my phone rang. It was an unfamiliar number. I was about to hang up. Lina looked at me and said, “Could it be that soft rice king called?”

It’s really possible. He really can choke time. I just bought his watch here, and his phone call came over.

In my heart, I really don’t want to pick it up, but after I bought it, I had to make a full set of drama. I put the phone in my ear and said to him in a lazy tone: “Hey.”

“Is it President Ron?” It was Nie Qi who was calling, his tone was very humble.

I said: “Don’t call me Mr. Ron, I feel like I’m very old, you just call my name, Livia.”

“Okay Livia,” he sounded very happy.

“Oh, yes,” I said without waiting for him to speak: “I will come to fix your watch early this morning.”

“I didn’t mean that when I called. I thought you had something to do last night. Are you free today? Let’s go out for a drink?”

“I haven’t finished it yet, I said your watch could not be repaired well, so I bought a piece and compensated you.”

“Really? That would be too expensive. In fact, it’s not necessary. My watch is not worth much.”

His tone is really not small. Although the price of his watch is tens of thousands of miles away from the one I gave him, ordinary people still can’t afford it, okay?

“I bought it all,” I said, “Then let’s have lunch together at noon. You can decide the place. After you decide it, send it to my mobile phone.”

I hung up and didn’t even say goodbye to him.

After hanging up the phone here, I saw Lina giving me thumbs up.

“What are you doing?” I’m not angry.

“Livia, I found that you are very aggressive, especially suitable for this kind of personality, so you can be a domineering female president in the future.”

“The money for the domineering female president is not spent like this.”

“Look, you have to study hard from your family, Naven, look at you when you ask him for money, and he doesn’t even ask what you want to do, so he just gives you so much money. How can Ronli be a domineering female president?”

“I don’t want to be.” I looked at the watch box in the beautiful handbag next to me, and sighed long.

“Hey, when you will give this watch to the king of soft rice, you must not make such a face, make it reluctant to give up.”

“I was reluctant to give up, do you know how much it is?” I yelled at Lina.

No matter how hard it is, I have already made an appointment with Nie Qi, I can't escape now!

He quickly sent me the restaurant address. It is a French restaurant with a membership system in Rovandel. His family used to take me to Naven. It doesn't matter how delicious it is, but it is super expensive.

Lina escorted me to the entrance of the restaurant. When I got out of the car, he told me: "Remember, don't look like a small family. How can you show that the rich woman does not care when she spends a lot of money, you know?"

"I know, I know." I was impatient: "I have spent so much money. Of course I have to show it, otherwise, wouldn't it be spent for nothing?"

I walked in and saw Nie Qi right next to the window.

Seriously, he looks really seductive, and he is wearing a mint green trench coat today.

He immediately stood up when he saw me, his lower body was a pair of khaki casual trousers, and his long legs were almost straight.

I think if Naven knew that I was dating Ron Xianrou with his money, he might be able to strangle me.

I walked over with the handbag holding the watch, and handed it to him: "I don't know if you like your watch or not."

"Really no need." He said so but took it. My eyes brightened the moment he took the handbag.

He knows more goods than I do, and you can tell that this watch is very valuable just by looking at the logo.

I sat down and asked the waiter to serve me a glass of water, and then I ordered the food slowly. In fact, I was almost starving to death. I didn't eat breakfast in the morning and was dragged by Joe to the mall to buy a watch.

After I ordered the meal, the watch was still by his hand and he did not open it.

I looked up and smiled and said to him: "Let's open it, don't you see how I know if you like it or not? If you don't like it, then I will buy you another style.

"No, no, I should like it very much." He took it out of the handbag and opened it. If he was a girl, I guess he would make that wow exclamation.

He held it back alive, but from the look in his eyes, I could tell that he was quite satisfied with this watch.

Because there are invoices and various identification certificates of watch gems under the watch.

When my water came, I picked up a glass of water and pretended to look out the window.

I saw him turning over the sign, and when he was talking to me, I heard the slightest tremor in his voice.

"President Ron, oh no Livia, you are too expensive. How can my watch be so expensive? You can buy my watch for dozens of yuan."

"Really? I don't know." I immediately turned my head and smiled at him with a silly face: "Actually, I don't know the brand. I only look at the price but not the brand. The watch suits you well, so I bought it."

I leaned forward and picked up the watch in front of him. I stretched my arms across the table and said, "Come on, let me put it on for you to see if it looks good."

He reached out his hand obediently, and I put the watch on his hand.

At this moment, I found that I really look like the kind of rich female who specializes in small white faces, but this super expensive watchband is really pretty in his hand.

Nie Qi's hands were very white, so the bright rubies and blue diamonds became more and more shining, and they almost didn't blind my eyes.

## **Chapter 494**

In fact, my heart is bleeding, but I have to pretend to be indifferent and say to him: "Yes, it suits you."

"Thank you, I am really embarrassed to let you give me such a valuable thing as soon as I met."

"I didn't give it to you. I broke your watch to pay you. Then since your watch is broken, leave it to me as a souvenir!"

"Then am I going to give you something back?"

I bit my lip and looked at him up and down, then grabbed the button on his sleeve and pulled hard, and a very delicate cufflink was in my palm.

I shook the cufflinks in my hand to him: "Then give me this cufflink."

"It's not something particularly valuable." He was a little embarrassed.

“No, it’s worth something to me. I think it’s worth it.”

I smiled and put the cufflink in the bag, but I would throw it away when I went out.

I pulled off his cufflinks, so the cuffs were loose. I carefully rolled it up for him, and he thanked me with bright eyes.

Because I was leaning over, I noticed his eyes glancing past my chest.

Although my dress and skirt today are not very low-necked, it is inevitable that there will be some springtime from this angle.

I hurriedly covered my chest and almost blushed when I sat down.

Just now I was still pretending to read countless men and women rich, don’t let me blush all my work.

Just when I sat down, the meal I ordered was delivered, and it almost starved me to death.

“In order to thank you for giving me such an expensive watch, I will please.”

I ignored him and continued to eat, and smiled in my heart, heh, the watch I gave him can even be bought in this restaurant, he can really say, what is a meal?

I looked up and smiled at him: “Okay.”

On the way here, Lina told me that today noon is not just a simple solution with a watch and a meal. You have to let this man know that I am interested in him, but also let him know my true strength. .

So I had to take him to my residence. My father gave me several houses at the time, but they were just ordinary villas, not as luxurious.

While eating, I racked my brains thinking about how I should let the soft rice king come to my house to take a look, but I don't seem to have a house that can hold the scene.

I was thinking about it, and I heard him tell me: "I'm going to audition in the afternoon, but this button is off, which means you are a little disheveled."

"Should I let me return the button to you?"

"Of course not."

I was just about to say that you can just buy one in the store, but I saw that his eyes seemed to suggest something, and I agreed: "I happen to have a residence near here, so you can change it at my house! I seem to have a few men's shirts."

"Really? That's just right." He really meant this, and he understood it as soon as I said it.

This is full of hints. My invitation has been sent out, but there is no decent house near me?

Ordinary apartments and villas are definitely not good, you have to have large houses with gardens, artificial hills, and artificial lakes.

Rovandel is not ordinary people.

If I showed this soft rice king that I have such a house, then my position in his heart as a rich woman must be higher than Zhen Xian.

I didn't expect Bao Ronbailian to spend so much money. Fortunately, I don't have a hobby in this area.

I have almost eaten, go to the bathroom.

Then when I was washing my hands, I suddenly remembered that Naven seemed to have such a house not far away.

He had been there for his birthday before, but then because Simon's mother fell from the chair, I took her to the hospital, so I didn't go.

But then I rushed there, and I could see it through the big iron gate. There were not only artificial hills, artificial lakes and pavilions. His place was the most suitable.

But what do I tell him?

I said Naven would trouble you to lend me your house. I want to use it to seduce Ron Bailian?

But Haikou has been boasting, I have to pay for my words and deeds!

Anyway, I have asked him to ask for money once, and I don't care about the second time.

I washed my hands and gave Naven without hesitation. Who made him annoy me during the engagement period with Mira, what happened to me asking for some money for a house?

Naven still picked it up quickly, speaking softly, "What's the matter? Has the money been spent?"

"How can it be spent in such a short time?" I hummed.

He chuckles: "What else is there to order?"

"I'm on Chunhe Road now, I remember you seem to have a house here."

"Oh, yes."

"I want to borrow your house to use it."

"Of course." He agreed.

"The key?"

"You don't need a key. There are housekeepers and workers in it. They will open the door for you when you go, and I will let someone say hello to them when you go."

I was shocked when Naven promised again. I asked him: "Don't you ask me what you want to use your house for?"

"No need." His tone was relaxed: "I'm going to have a meeting soon. If you need anything, please call my secretary. You know his number."

I hung up Naven's phone. He didn't ask me what I used to do, but did he pretend to be generous?

Okay, I'll take people to his house anyway, wait a while, aren't the butler and the others there?

Seeing me take a man home, they will always report to Naven.

I was afraid that he would know before, but now he does not ask anything. I really want him to know and see what his reaction is?

The house was settled, and I went back to the table. At this time, the dessert came. I don't know when Nie Chengran sat next to me, and then took a small piece of cake with my spoon and handed it to my mouth.

I froze for a moment, oh, he took my expensive watch and will the service begin?

Looking at his sweet smile, I actually feel nauseous.

Zhen Xian likes this!

What's going on with rich old women, can't you eat if you have hands? Why should someone feed it?

I opened my mouth with difficulty, Nie Qi stuffed the small piece of cake into my mouth, and then looked at me affectionately with his cheek in one hand: "Is it delicious?"

It was delicious, but if he didn't look at me like that, it would be fine.

"Yeah." I nodded, now I have goose bumps on my body, OK?

## **Chapter 495**

The rich women have such a strong taste, they actually like this one?

Why let a man serve him?

Don't you have any hands?

Can't you eat by yourself?

When Nie Qi passed the small spoon for the second time, I pushed away his hand: "I'll do it myself."

He caught my finger intentionally or unintentionally: "Your hands are so cold."

His thumb rubbed the back of my hand. Not only did my goose bumps stand up, but my dandruff was about to fall off.

I pretended to unintentionally pull my hand out of his palm, and said in a whining voice: "Don't be like this, so many people are watching!"

My voice almost didn't make myself sick. I thought this cake was quite delicious, but then I lost my appetite.

I accidentally glanced out the window. What did I see?

I actually saw Naven's sister-in-law, because this is a floor-to-ceiling window, and the outside can be seen from the inside, and the inside can also be seen from the outside.

His sister-in-law was standing outside the glass window and looking at me intently. We met each other and saw each other.

This is great. It seems that I don't have to wait until I go to Naven's house and be informed by his housekeeper. His sister-in-law's first-class loudspeaker will tell him immediately when he turns around. Will pretend to let Naven know about it unintentionally.

At this moment, Nie Qi suddenly pinched my chin and turned my face around, holding a silk handkerchief in his hand, gently wiping the corners of my mouth.

Is he necessary? Is it an exaggeration?

I have to smile and say to him: "Thank you."

Nie Qi seemed to have been wrong, his movements were bolder, and he put his hands on my cheeks and rubbed lightly.

I don't wear makeup too much, otherwise the powder on my face will be rubbed off by him, okay?

I caught a glimpse of Naven's sister-in-law who was still standing outside the glass window and staring at us, barely having two hands lying on it.

Nie Qi also saw it, and asked me a little puzzled: "Who is he?"

"I don't know if I know." I replied with a smile.

Forget it, I have been seen anyway, let her talk about it.

I'm single now, I can pick up any small meat.

I lost my appetite while the woman was watching, and put down the water glass in my hand: "Stop eating, don't you want to change clothes? Go to my house to change."

When Nie Qi paid the bill, I called Lina. I said I would take Nie Qi to Naven's house to change clothes, and asked her to come to the house to find me in half an hour.

I know that Nie Qi said that changing clothes was just a rhetoric, and something must happen in the end.

This watch is enough for him to use his eighteen martial arts, but I don't want to.

Lina didn't know where to get me a driver, and also got a Bentley from her father.

As soon as Nie Qi and I walked out of the French restaurant, the driver opened the door and respectfully said to me: "Mr Ron gets in the car."

Fortunately, the driver looked familiar, otherwise I would really not dare to get in the car casually.

Dad Smith's Bentley only changed last year. The interiors of the car were all top-fitting. Later, when Dad Smith fell ill, Lina became the president. Dad Smith asked Lina to use his car. She thought it was too old and refused to drive. Still watching her sports car go to the company every day, now it finally comes in handy.

Nie Qi and I were both sitting in the back row. At this moment, his eyes were more than affectionate when he saw me. It was like walking lingeringly across the world.

His hands also began to be dishonest, sliding around on the back of my hand.

Because my hand was on my lap, his hand moved to my lap naturally.

I restrained the urge to twitch him and took his hand away from my lap. In his confused eyes, I smiled and said to him, "That's not good!"

Nie Qi looked like a veteran in love, and it was not embarrassing to be rejected by me.

He blew into my ear: "You are still very shy, I know you are in the way of the driver in front, then go to your house later."

Isn't this a proper duck tone?

I didn't expect that I spent so much money to soak a duck.

I wanted to scold the street very much in my heart, but still had a smile on my face.

I said, "It's just a change of clothes, you think too much!"

His appetite was really suffocated, but his hands were a little more honest.

I have only visited Naven's house once, and I let the driver drive to the door based on my impression.

My memory is pretty good, and I haven't made a mistake.

The car just drove outside the iron gate in the garden, and then the iron gate opened immediately. Naven had already greeted the people inside, and everyone treated me as the host and welcomed me in respectfully.

I've only seen Naven's house from the outside, but never went inside.

After I entered, I realized how exaggerated it was. I suspect that this is not a house but a park.

After entering the house, there is a very open grassland. There is a garden in front, a small forest on the left, and at the end of the forest is an artificial lake with green water like emeralds.

The car drove us forward. There was a small hill in front, a pavilion was built on the hillside, and the Nine-Six-Eighteen Bridge built on the lake below. I can't describe how I feel at this moment with a breathtaking view. Describe it with perversion.

Nie Qi's expression became more shocked as the car went inside. When the car parked at the door of the mansion, it was a four-story Chinese villa with pavilions and pavilions, which felt like a palace.

I heard Nie Qi ask me in an unbelievable tone: "Is this house all yours?"

"Yes." I pretended to be calm and calm and told him: "Actually, it wasn't mine. Naven gave it to me after my divorce."

"Oh." He nodded in understanding.

I was right, this house was originally owned by Naven.

I used Naven's money to make ducks, and I just thought about it.

Now he should be able to see the gap between me and Zhen Xian, right?

I'm younger and more beautiful than her. Don't say that I'm richer than her, much richer.

I took Nie Qi into the door, I put on pink soft-faced slippers.

I pointed to the upstairs, and pointed to a room casually: "Go up and change clothes! I wonder if you like the shirt in my closet?"

At this time, someone who looked like a housekeeper came over to me and said, "Miss, your room has just been cleaned. Do you want to take a nap?"

He pointed to the room on the third floor from the left. The butler was very clever. He was reminding me which was the master bedroom.

So I took Nie Qi upstairs and pushed aside the room. I was almost shocked.

This room is all feminine, and there are huge pictures of me hanging on the wall. When did Naven prepare these? His speed is too fast, right?

This play is really a full set, and now Nie Qi is already on the ground, let alone doubts.

I walked to the door of cloakroom 1 and opened the door. There were really some men's shirts inside.

I pointed to those shirts and said to him: "I don't know if you like it or not, pick one that you can see and wear!"

"Okay, I like your eyes." He stretched out his hand to take it and suddenly his hand stopped again, and he said to me in jealousy: "Why do you have men's shirts in your closet, do you want to explain to me? ?"

I clutched my nose and mouth and smirked: "Can I explain to you?"

"Then I won't wear it. I don't like to wear other men's clothes."

Ha, money is really a good thing. If a watch is smashed down, the tone of the conversation with me is like an old couple.
