

Bodyguard 10011

Chapter 10011

With the yuan spirit seed, Lin Yi could clearly feel the changes in his emotions. He couldn't help but laugh-this guy was the type of person who would cripple himself!

As the leader of Jianghai Academy, he had a deeper understanding of such matters.

The so-called "using love Prince as the starting point to control the entire fifth royal family" was simply nonsense. There was no possibility of such a big pie falling to the ground.

Unless the Diwu royal family's brains were damaged!

Lin Yi only agreed because he wanted to establish a connection with the four Seas "superpowers, laying the foundations for Jianghai College's expansion into the sea realm.

However, if ning Wanjun and Li yuanzhen could work together to control her lover boy, it would be a brilliant move, and it might come in handy in the future.

As Lin Yi and Li Yuan finished their discussion, the poisoned ning Wanjun refused to lower her head to the lover boy. She could no longer hold back Zhang Heng's attack and was about to die.

Just as Zhang Heng turned into a sharp claw and was about to deliver the final fatal blow, a spatial fluctuation suddenly appeared, and Ning Wanjun disappeared from everyone's sight, along with her aura.

"Spatial rule force!"

The expressions of lover boy and the others changed drastically.

Li Yuan's gaze towards Lin Yi was filled with respect.

Everyone knew how terrifying the rules of space were. The only flaw was that it was extremely difficult to improve one's control. Under the same level of rule control, other cultivators would not even have the chance to fight back in front of a spatial ability user!

He'd pretty much guessed Lin Yi's strength before, but he still had some doubts. Now, however, he had no more doubts about Lin Yi's ability to arm wrestle with the fifth royal family.

His control over the laws of the ocean was more than 30%, and he also had control over the laws of space. From the performance just now, his control over the laws of space was definitely not low.

With such a luxurious setup, they could easily occupy a place even in the sea area where Kings gathered.

Plus, Lin Yi was related to the sea god Hall, the Supreme ruler of the sea.

With all these factors combined, this was definitely a F * cking thick leg!

At this moment, not only did Li Yuan not regret it, but he could not help but feel lucky.

He had racked his brains to please the lover boy for what? he just wanted to find a big thigh. Now, a super big thigh that was a hundred times thicker than the lover boy's was in front of him. Wasn't this a blessing in disguise?

If he knew that Lin Yi's control over the space rules was only five percent, he'd probably cry himself to death ...

Of course, if they knew Lin Yi's real identity, it would be a different story. The only ancient God practitioner in the world, it was an extremely sensitive identity, but in the eyes of those who knew it, it was still a very dignified identity.

"Who is it? Who is it?"

Lover boy and the others didn't link it to Lin Yi.

It wasn't that their eyes weren't sharp enough, but Lin Yi was too good at confusing people.

After all, his cultivation realm was not a deliberate disguise, but a real cultivation realm of a Big Shot at the consummate level. No matter what methods were used to investigate, there was no way to see that he was fake.

In fact, at least three people in the group, including love Prince, could see through the target's true realm.

The three of them verified with each other that Lin Yi was a noob.

If not for that, the group of half-step Venerables wouldn't have been so stunned by this. After all, who would have thought that a true ancient God cultivator was standing in front of them?

Lin Yi gave Li Yuan a look, and Li Yuan immediately understood and stepped back. He said to the crowd with a serious face, "Lover boy, I've been feeling that something was wrong since just now."

"What's wrong?"

"Before my attacks land on this piece of trash, they would always be distorted and devoured by an inexplicable power. Now that I think about it, it should be the power of space rules!"

The lover boy and the others looked at each other. "No wonder you couldn't take him down after so long with your strength. I thought he had some other tricks up his sleeve. It turns out that someone is secretly making a move!"

In just a few short sentences, the image of an old and cunning man lurking in the void had become deeply rooted in everyone's minds.

"Space rule power is too unsolvable. If he keeps hiding and doesn't come out, we can't do anything."

Everyone looked at love young master.

Apart from a few top-grade rules, the rules of space were almost invincible. Even if their control of second-grade rules was not bad, they had almost no feasible countermeasures.

Moreover, based on how he had taken ning Wanjun away in front of all of them, the other party's control of the rules might not be lower than theirs, but might even be higher!

It was easy to pull people into the void, but the whole process had to be so smooth. The top-notch heat that was inadvertently revealed in the details made them shudder just thinking about it!

He might be a hidden Big Shot at the level of a ten-thousand-year-old monster.

The more they thought about it, the more afraid they were. If they had really provoked such an existence, they would probably be completely annihilated today!

"Dugu yixiong is also nearby. Lover boy, it's not good to stay here for long."

Zhang Heng's expression turned serious as well.

With his outstanding strength, if it was within the range of his strength, he didn't mind showing it in front of the lover boy. After all, he had promised to be a sinecure of the fifth royal family, so he could take this opportunity to raise his value.

However, if the other party was really some hidden Big Shot, he wouldn't dare to make such a big boast even if he had ten thousand guts.

He had the strength of a Supreme realm cultivator in name, but only he knew how much of it was false.

Not to mention anything else, just the fact that they couldn't take down ning Wanjun was already enough to explain the problem.

His strength could at most suppress an ordinary half-step Supreme realm. In the eyes of the half-step Supreme realm, he was considered a tier-one, but he was far from the legendary stage where he could challenge a Supreme realm expert.

"Then ... Alright."

Lover boy's expression was ugly as he struggled for a moment, but in the end, he gave up the idea of continuing to chase after ning Wanjun.

Compared to the aftermath of the love tribulation, the current potential threat was obviously greater. As the core of the Diwu royal family, he really did not need to take such a risk.

However, he still looked at Lin Yi unwillingly.

Of course, he didn't care about a "piece of trash" like Lin Yi.

He was afraid that they were both ning Wanjun's prey, but in his mind, he was a high-value target that ning Wanjun had to scheme and scheme to get close to. On the other hand, Lin Yi was just cannon fodder that the woman had fished up to be used in the emergency.

If he had a Manchu Han Imperial Feast, then Lin Yi's was at most a street food stall. They weren't even on the same level.

However, he was still a little jealous, the kind of jealousy that an old man would have when he saw a new person ...

Chapter 10012

Li Yuan noticed his thoughts and quickly advised, "Lover boy, that spatial ability user has protected him several times. I'm afraid he has some relationship with this kid. We'd better not cause more trouble."

The crowd reacted and agreed.

What a joke. They didn't even know if they could escape successfully. If they provoked the hidden boss because of their cheap hands, they would really be crying until they couldn't find A Grave.

“.....”

The lover boy was helpless, but he couldn't go against the will of the crowd.

These people surrounded him with the intention of sucking up to him, but on the other hand, if he wanted to gain a firm foothold in the family, he could not do without their help.

"You're lucky, kid. "

Lover boy cursed under his breath and was about to leave with the others.

But at this moment, a huge silhouette suddenly appeared in front of everyone without any warning. Its body was so huge that it was actually ten thousand meters long!

Even though they were 20 miles away, the terrifying pressure that felt like it was right in front of them still made it hard for them to breathe.

What was truly shocking was that from the beginning to the end, the giant beast did not show any signs of moving. It had always been there, but because of its special talent, no one could detect its existence.

"Illusory whale!"

Everyone exclaimed in shock.

There was no doubt that it was a giant whale, but it was not a giant whale in the true sense. It was a super ancient existence that existed between reality and nothingness, only appearing in ancient legends.

Legend had it that this species even existed before the beginning of chaos.

For a moment, the hands and feet of love young master and the others turned cold, and they did not dare to make any more movements.

He did not even need to think that this was a Supreme rank super sea beast. Moreover, it was not the kind of Supreme rank that had just entered the beginner level, but an extremely high-level Supreme rank!

Such an existence was not something that the people present could fight against.

If the illusory whale attacked them, they would all die.

"Although the illusory whale is ancient, it's said that it's very gentle and won't attack people casually. As long as we're careful not to disturb it, it shouldn't attack us."

Zhang Heng reminded him carefully.

Lover boy and the others held their breaths. They knew that they were insignificant in the eyes of the illusory whale, just like how an elephant wouldn't pay attention to a few ants. As long as they didn't make too much noise, they did have a chance of survival.

But very quickly, everyone discovered that something was wrong.

The illusory whale didn't take the initiative to attack them, but no matter how they tried to leave this place, they were all trapped in the same place.

Even though love Prince tried to use a high-level Space Array talisman, it was to no avail.

It must be known that this was an earth-grade talisman, which could be used for instant mass teleportation. Even with the foundation of his fifth royal family, it was a treasure that could only be encountered by luck.

Being outside was equivalent to having an absolutely safe escape route at all times, and its ability to escape was not inferior to the average spatial ability user.

However, it was of no damn use.

"The space has been sealed!"

The lover boy was the first to react, and his face suddenly became extremely ugly.

The rest of the people were shocked.

"Legend has it that the illusory whale is a sacred beast that controls the power of the rules of space," Zhang Heng mumbled. "I didn't expect it to be true ..."

The rules of space were extremely rare, even among cultivators, they were as rare as Phoenix Feathers and Qilin horns. As for the beasts that had mastered the rules of space, they were even rarer.

Anyone who was even slightly involved was a legendary existence. Once they met, there was almost no possibility of a direct confrontation.

"Could it really have its eyes on us?"

Everyone was shocked and incredulous.

On the other side, Lin Yi raised a brow at the scene.

As soon as the illusory whale appeared, he had already sensed the change in space. However, he didn't panic. Instead, he looked interested.

Of course, he wasn't interested in the illusory whale.

His current strength was no small matter, but it would be impossible for him to fight against a legendary creature like the illusory whale. The difference in strength between the two was the same as when he first entered Jianghai Academy and challenged Banshi Luo. There was no chance at all.

But then again, with the existence of the New World, even if he was targeted by the void whale, Lin Yi had the confidence to escape unscathed.

The illusory whale could seal space, but it couldn't seal his Natal connection with the New World.

As long as the New World was here, Lin Yi could leave at any time-this was his biggest strength and capital. Otherwise, he wouldn't have gotten himself involved in this battle for the king of the coastal waters.

After all, this wasn't just about the ownership of the Sea King.

The sea goddess Hall, the royal families of the four Seas, and all the other forces of the sea realm, including the fifth royal family, would be affected by a single move. This was a truly big game of chess. A slight mistake would result in one's body being crushed.

If it weren't for the fact that he had to shoulder the fate of everyone in Jianghai college, he wouldn't even think about getting involved.

"There's someone on the back of the illusory whale!"

"Ah!" Zhang Heng suddenly exclaimed.

Everyone looked toward the source of the voice, and indeed, there was an insignificant figure sitting on the back of the illusory whale. However, even though the figure was insignificant in size, the massive aura that this person displayed at this moment made everyone present turn pale with fright.

For a moment, this person's aura even overshadowed the illusory whale!

That was a virtual whale!

"Dugu yixiong!"

The lover boy's face was extremely ugly as he revealed the identity of this person. The rest of the people around him were suddenly shocked and lost their minds. This time, they had really hit the iron plate head-on.

For a time, everyone began to complain.

If it wasn't for the fact that lover boy was bent on killing ning Wanjun and had delayed the matter time and time again, and had chosen to retreat at the first moment, they wouldn't have fallen into such an awkward situation.

He knew that dugu yixiong was nearby, yet he didn't leave immediately. Instead, he stayed and continued to have fun. He must be out of his mind.

However, now that things had come to this, no matter how much they complained in their hearts, it was useless. The only solution at the moment was to form a group to keep warm. With so many people joining forces and the deterrence of the background of the lover boy, even if the opposite party was the only one, he would still be a little afraid.

At this moment, dugu yixiong was lazily sitting on the back of the illusory whale. He was holding a pot of old wine in his hand, and his drowsy eyes glanced at the crowd.

"A person from the Diwu royal family?"

Dugu yixiong muttered casually, but everyone heaved a sigh of relief.

Since he could recognize the identity of the lover boy, it meant that the name of the fifth royal family was enough to deter him. What they were most afraid of was that this guy could not even see the weight of the fifth royal family. That was really like a scholar meeting a soldier. He had unspeakable suffering.

Chapter 10013

Having said that, since they were in the sea area, as long as they had a little understanding of the power structure of the four Seas, they would never have any intention of resisting the forces of the Diwu royal family.

No matter how strong an individual was, it was impossible for them to fight against a super force of this level alone, including dugu yixiong, who was a famous super sea beast Hunter.

The lover boy was relieved. He coughed and walked out. "I've long heard of brother dugu's great name, and it is indeed well-deserved. I am Qin Qing, pleased to meet you!"

"Nice to meet you?"

Dugu yixiong revealed a strange smile. "Are you sure it's an honor? Why do I feel that you're quite unfortunate? there's a high bounty on your Qin clan's head outside. Although I don't usually do business with people, the price is really not bad. "

"....."

A basin of cold water was poured over his head, and the scene was very awkward for a moment.

Everyone thought that the name of the Diwu royal family was loud enough to intimidate the other party. They did not expect that it would be this unexpected.

The lover boy's face changed. "Who is so bold? how dare you target the Qin family?" Don't you know that my Qin clan has a close relationship with the royal families of the four Seas, and that our honor and disgrace are one?"

"If I tell you that it's the price offered by the four Seas" royal family, will you be very surprised?" dugu yixiong looked at him.

The lover boy choked to death on the spot.

Lin Yi couldn't help but laugh at the scene.

Jiang xiaoshang joined in the fun and said, "this kid is too naive. Even the royal families of the four Seas are not United. What more his family, the self-proclaimed fifth royal family?"

With the power of the four Seas "Royal clans, if they really were a single piece of iron, the entire sea realm would be their territory. Even the sea goddess Hall wouldn't be able to get involved. At most, they'd be treated like a puppet."

"The Poseidon shrine is behind this?" Lin Yi asked.

Jiang Xiaoshang chuckled, "it's hard to say if the Poseidon shrine did it directly, but as the biggest beneficiary, would you believe that they didn't have a shadow behind it?"

However, there is no lack of ambitious people anywhere, and there will certainly be no lack of such people within the royal families of the four Seas. It is not strange to take action against the so-called fifth royal family, the Qin family. "

"I guess I'll have to make my move soon," Lin Yi nodded.

Since he had decided to use the Qin family as the starting point, this was a good opportunity. If it were during normal times, it would not be easy to intervene in the Qin family's Affairs. After all, it was not easy to cross the threshold of the fifth royal family.

As the two of them were talking, Dugu Yixiong sneered at the lover boy, ""Your luck is indeed not very good, but I'm not a bloodthirsty person. If your Diwu royal family can offer a good price, I may consider it."

Everyone was overjoyed when they heard this.

Lover boy also felt relieved and quickly said, ""The Qin family has always recruited talented people. If brother Dugu is interested, I can introduce you to the family head. You will definitely be satisfied with the treatment!"

"Don't misunderstand. I'm not talking about the money for selling my body. I'm talking about the money for your life. "Dugu yixiong shot him a glance.

"....."

Lover boy couldn't help but choke.

Dugu yixiong lazily gulped down a mouthful of wine,"Now you can think about how much you're worth. I'll give you a chance to make a bid later. If you can satisfy me, I'll let you go today."

Lover boy's expression stiffened, and he subconsciously wanted to speak.

In the end, he heard the other party add indifferently,""Remember, you only have one chance to bid. If I'm not satisfied, then you can only blame your own life for being too cheap."

The lover boy didn't dare to speak.

He still wanted to bargain. He thought that with his identity and background, as long as he was willing to open his mouth and communicate, he would definitely be able to scare the other party. After all, how many people in the four Seas would dare to really face the edge of the Qin family?

Did they really think that the title of the fifth royal family was self-proclaimed?

But now, it seemed that it was hard to say for the others, but at least this person in front of him did not seem to care much about the Qin family. If he was not careful, he might really die Here today ...

"Alright, we're done talking about other things. Next, we can talk about serious matters."

Dugu yixiong stood up and looked at the silent Lin Yi. He greeted him with a half-smile, "How are you, fellow traveler?"

Peers? What peers?

Lover boy and the others looked at each other.

"You're looking for me?" Lin Yi raised a brow.

Lover boy and the others couldn't help but have a strange expression on their faces.

Someone couldn't help but laugh, "did Big Boss dugu say that to you?" You're just a piece of trash at the consummate level of a giant, but you're quite good at making your own presence known!"

Zhang Heng snorted. "Kid, if you want to save your life, don't talk to him. He's not talking to you. He's talking to the spatial master hiding in the dark."

Until this moment, all of them still thought that the person who had just saved Ning Wanjun was a spatial Big Shot.

As for Lin Yi, no matter how you looked at him, he was just a soy sauce.

Lin Yi said, understanding the situation. "Is that so?"

"Duh! Do you think big Boss Dugu is trying to seal off the entire space for you? Don't you have a limit to how much you're giving yourself? Don't you have the least bit of brain?"

Everyone started to mock him.

They were certain that Dugu Yixiong had come for the spatial expert who was hiding in the dark. They had only been implicated because of the foolish actions of their lover boy.

As long as the price offered by the lover boy could satisfy the other party, and they could flatter him, Dugu Yixiong would most likely let them go.

After all, even if the deterrence of the Diwu royal family was not taken into account, these people were not just any Tom, Dick or Harry. Even with dugu yixiong's strength, he could not kill them easily.

However, dugu yixiong jumped down from the whale and walked to Lin Yi, "You like to play dumb? What a coincidence, I also like to pretend to be a pig to eat a Tiger. You and I are indeed on the same path. "

"....."

Lover boy and the others were speechless.

This time, even a fool would know how ridiculous they were just now. From the beginning to the end, the guy they collectively regarded as a useless trash was actually the big boss behind the scenes who had hidden the deepest?

Zhang Heng couldn't help but exclaim, "was that you?" How is this possible?"

The rest of the people also had disbelief written all over their faces.

To be fair, it wasn't that they were underestimating the enemy this time. Everyone knew that there were many hidden talents in this battle for the coastal waters King, and they wouldn't easily treat anyone they met as ordinary.

As for Lin Yi's strength level, they'd checked back and forth no less than five times, cross-checking with each other before coming to a conclusion. They were being extremely cautious.

How could it overturn like this?

In an instant, Lin Yi's image in their eyes quickly changed from a good-for-nothing to a cunning old man. Love Prince was even covered in cold sweat.

Chapter 10014

If Dugu Yixiong hadn't suddenly intervened, they would've been targeted by this hidden old bastard. Moreover, they would've been completely unaware of this from the beginning. What would've happened then?

Just thinking about it made him shudder.

Dugu Yixiong glanced at everyone's expressions and raised an eyebrow at Lin Yi, "You must have spent a lot of effort on them. I'm sorry, I've cut you off."

"You're thinking too much. We just met by chance, we're just strangers," Lin Yi smiled.

The lover boy wanted to refute, but he didn't dare to say anything when the two of them looked at him.

Behind him, Li Yuan saw this and sent him a divine sense message: "From the way I fought with this person just now, he doesn't seem to have much enmity towards us. He just doesn't want us to kill him."

Wanjun. From what I can tell, he's still relatively friendly to you and the Qin family, so he shouldn't be an enemy."

"Really?" the lover boy was a little suspicious.

Li Yuan struck while the iron was hot. "Young master, think about it. If he really had the intention to target us, he would have done it a long time ago. Why would he wait until now?"

"Maybe he's worried about our strength?"

The lover boy was a man who had seen the world. Dugu yixiong's reputation and the aura of the illusory whale had suppressed him so much that he didn't dare to resist. It was impossible for an ordinary expert to scare him.

At this time, Zhang Heng, who was the strongest among the group, interrupted, ""From the way he saved ning Wanjun without leaving a trace, if he were to attack us, it would be difficult for us to deal with him. After all, he is a Space Master."

"Do you mean that his strength is not inferior to dugu yixiong 's?"

Lover boy's face suddenly changed.

Heng was being very tactful with his words, but the meaning was clear. If Lin Yi really did attack them, they wouldn't be able to fight back at all.

Li Yuan quickly said, "this is a good thing. If this man can restrain dugu yixiong, our situation will be much better. We won't be so easily controlled by him."

"Yes, yes. It's best if the two of them start fighting quickly. Let's just sit on the mountain and watch the Tigers fight!"

The rest of the crowd chimed in.

"That sounds good, but I doubt he has the strength to do so. After all, dugu yixiong is not someone to be trifled with."

The lover boy's attitude began to change.

Although dugu yixiong had given him a chance to buy his life, the malicious intent of a cat toying with a mouse was clearly written on his face. Qin Qing was not a young master with no experience in the martial world. He had seen many sinister people.

He knew that no matter how much he cooperated and how much he took the initiative to bleed, the possibility of the other party biting back after taking the benefits still existed, and it was probably more than 50%!

If Lin Yi could really hold dugu yixiong back, it would be a great benefit for him!

Li Yuan took the opportunity to say, "if this person's strength is above dugu yixiong's, young master might as well put in some effort. If you can rope in such a figure under your command, it will be of great benefit to your grand plan."

"We'll see. "

Lover boy didn't say anything, but his eyes looked at Lin Yi with a bit of interest, even a bit of heat.

Li Yuan secretly laughed and no longer said anything.

Although his strength was average, he was an expert in reading people's minds, especially for targets like Qin Qing, who he had studied carefully before. He could easily provoke her.

Since he was already tempted, he wasn't far from falling into the trap.

The only problem left was to see if Lin Yi could suppress dugu yixiong!

At this moment, dugu yixiong had already thrown away the wine jar in his hand. He licked his lips in excitement, "Do you know why I've been hunting super sea monsters?"

"Why?" Lin Yi asked.

"Hehe, you're still playing dumb."

"You're responsible for all the Dead Sea monsters along the way, aren't you?"dugu yixiong suddenly changed the topic.

As soon as these words came out, the crowd in the distance was in an uproar again.

The reason why they were so afraid of dugu yixiong, other than his own aura and the deterrence from the illusory whale, was mainly due to his shocking battle record of killing the Super sea beast!

The corpses of the sea monsters along the way had already crushed all of their confidence in fighting them.

Therefore, dugu yixiong's men didn't even dare to test him. They were trembling in fear with just a few words from him. They were so close to kneeling down in front of him.

After all this time, this was Lin Yi's achievement?

Lin Yi pinched his nose,"What do you want to express?"

Dugu yixiong laughed. "The Super sea beasts are ridiculously powerful, but their physical bodies are only average. They're not even as useful as some ordinary sea beasts. In the eyes of any ordinary person, it's a thankless effort to attack them."

"Oh? Then what did you, the Super sea beast Hunter, say?"

Lin Yi looked at him, calm and composed.

Everyone in the distance revealed a curious expression. In the end, dugu yixiong suddenly changed to using his divine awareness voice transmission.

"It's true that the price-to-price ratio is low for hunting these creatures, but as long as you can get something from them, it's worth it no matter how big the price is. As for what it is, I'm sure you should know very well as someone in the same industry."

"What is it?" Lin Yi was still confused.

"You're still pretending even now. Is there any meaning to it?"

"The seagod's faith is a good thing. You've collected quite a bit, haven't you?" dugu yixiong sneered.

Lin Yi couldn't help but look at him.

Although he had already guessed it the moment this person appeared, he was still surprised to hear it from the other party.

If not for Jiang xiaoshang's cheat, he would not have known about the supersea beast's Secret.

In fact, even if he knew, he would not be able to extract the sea god's faith level from the corpse of the Super sea beast. After all, it was not a physical substance, but a mysterious power of faith.

He didn't expect this person to not only know about it, but also be an expert in it!

"It's not simple ..."

This was the first time Lin Yi felt a real threat since he came to the sea. Even the illusory whale didn't make him feel anything. The impact wasn't as strong as the words!

"I think you've heard of the saying," those in the same trade are enemies. ""

Dugu yixiong said faintly, "I've spent a lot of effort to discover the hidden value of the supersea beast. The heavens reward the diligent. This secret should be mine alone. Now that you know about it, what do you think I should do?"

Lin Yi raised his eyes with a weird expression. "Silence?"

"You can only blame yourself for knowing too much," dugu yixiong smiled faintly.

Lin Yi was speechless.

This guy was a F * cking lunatic!

Just because he knew the value of the Super sea beast, he wanted to kill him to silence him. What kind of weird logic was this?

Chapter 10015

"Pardon me for asking, but how can you be so sure that this is a secret that few people know about? maybe a lot of people know about it?"

Lin Yi couldn't help but ask.

"Many?"

Dugu yixiong sneered, "I've gone through so much trouble and escaped death dozens of times to figure out this top secret. Do you really think that many people know about it?" Even the royal families of the four Seas can't possibly know about it. Otherwise, they would have long organized a force to hunt down the Super sea beasts!"

The Super sea beasts were powerful, but they were all independent creatures. If even he could hunt them alone, it would not be difficult for a super force like the royal families of the four Seas to hunt the other super sea beasts, except for a few that could not be provoked.

"Really?" Lin Yi shrugged. I knew it, didn't I?"

Dugu yixiong's expression suddenly turned cold. "That's why I'm giving you a chance to explain yourself. If I'm satisfied with your answer, I can spare your dog life. I'll only erase your relevant memories. If you can't ..."

The following words were self-evident.

"Should I thank you then?" Lin Yi smiled.

"There's a limit to my patience. You still have a breath's time. "

Dugu yixiong looked at him indifferently.

Lin Yi's aura was locked down.

Although the other party did not make any offensive moves, his intuition told him that no matter what he did next, he would immediately suffer a destructive blow.

Especially now that the space had been sealed, even the most powerful spatial rule power was useless at this moment.

The other party had truly come prepared.

In the distance, the lover boy and the others swallowed their saliva. Even though they were not dugu yixiong's primary target, they were still nervous and drenched in cold sweat.

If such an invisible and terrifying aura were to land directly on their heads, eight out of ten would probably be suppressed on the spot.

"You seem to think that you'll definitely win?"

Lin Yi couldn't help but ask.

He could feel that the other party was indeed very strong, invincible under the Supreme realm. However, if he really thought that he could do as he pleased, he was a little too naive.

Dugu yixiong didn't take it seriously and grinned, "If I don't even have this bit of confidence, do you think I'll come to you? Alright, it's time. "

With that, dugu yixiong didn't hesitate anymore. A strange vortex suddenly appeared around Lin Yi.

At first glance, it didn't look that scary. It didn't even have any momentum. Compared to the suffocating aura just now, it gave people the feeling of one word.

Just this?

Everyone looked at each other. Could it be that it was difficult to live up to one's reputation? if he only had this level of skill, he wouldn't be able to cause any substantial damage to them even if he went up against them.

Unless, this was just a test.

However, with dugu yixiong's level, even if he was just testing the waters, it shouldn't be that low, right?

While everyone was shocked, Lin Yi, who was the person involved, felt a fatal danger. This vortex was not as simple as it looked!

However, just as he was about to use the power of space rules to avoid being locked on by the vortex, he suddenly found that he could not escape at all.

Dugu yixiong laughed awkwardly at Lin Yi's shocked expression, "Don't tell me you think that I sealed the space for that bunch of trash? Unless your control over the spatial laws is higher than the void whale, don't even think about leaving this place. Save your energy. "

The crowd was in an uproar.

The faces of lover boy and the others turned extremely ugly, not only because they were regarded as trash, but because the other party's words had directly killed all their hopes of escape.

On the surface, it seemed like the lover boy had given in and was willing to be a fat sheep for the other party to demand as much as he wanted, but in reality, he had been trying all kinds of things in silence while dugu yixiong's attention was on Lin Yi.

Although he did not have the power of space rules, as a core descendant of the fifth royal family, he definitely had more than one treasure on him that could help him escape. There were more than ten space props!

If one failed, there would always be another. As long as he was given a chance, in theory, there would always be a way to escape.

Unfortunately, dugu yixiong's words had cut off all his possibilities!

Any space prop was essentially a carrier of space rule power, and all the source of their power came from the space rule ability user.

This was a fatal problem.

If the space rule ability user's control of the rules was not enough, it would cause all the space items to lose their effectiveness, and then become complete garbage.

Just like now.

Whose control over the laws of space could be higher than that of the illusory whale?

Lin Yi couldn't, and the space items in love Prince's hands couldn't either!

"If even that person can't beat him, then we really have no other choice."

Li Yuan reminded lover boy in a low voice.

"Let's continue watching,"lover boy gritted his teeth.

At this time, Lin Yi, who had failed to activate the space rule power, was completely locked in by the vortex. Dangerous dark arcs of lightning kept flashing through the vortex.

"Compound rules?" Lin Yi's eyes twitched.

This was clearly a fusion of the rules of the ocean and the rules of lightning. Although they were both level-two rules, their power was unique among level-two rules, even comparable to the existence of top-notch rules.

When the two were combined, the power was not as simple as one plus one equals two!

The key was that even though it didn't touch his body, he could clearly feel that the other party's control of the rules was extremely high. Both of them had at least 20% control!

"You have good eyes, but you realized it too late."

Dugu yixiong smiled sarcastically. As a super sea beast Hunter, he had the confidence and confidence to deal with cultivators below the Supreme realm.

As the chosen one who knew the most important secret of the sea, he felt superior even when facing the strongest of the four Seas 'royal families, much less a mere Lin Yi!

He didn't know where Lin Yi got this information from, but as long as he killed Lin Yi, he would still be the main character with the secrets of the sea.

As for whether or not there was someone else behind Lin Yi, they'd find out after a soul search.

"Oh, really? I think it's okay. "

"Yes," Lin Yi replied calmly. At the last moment of the whirlpool, his body suddenly expanded and he turned into the demon Chi You!

Dugu yixiong looked at this scene and said casually, "Is there any meaning in futilely struggling?"

His control over two rules was above 20%. If he wanted to break them head-on, he would need at least 30% rule control.

However, that was already in the Supreme realm.

Chapter 10016

It was also because of this that he had the absolute confidence that he was invincible against anyone below the Supreme realm.

However, before he could finish his sentence, the devil Chi You suddenly punched out, and rings of shattering ripples immediately spread out.

The strange vortex that was surrounding Lin Yi shattered on the spot!

"How is this possible?"

Dugu yixiong was dumbstruck.

The rest of the young masters were also dumbfounded. "The laws of vibration? Are the rules of vibration so abnormal?"

It was true that the rule of vibration was a top-notch rule, and with the same level of rule control, it was indeed enough to suppress the rule of the sea and the rule of lightning in a one-on-one battle. But the problem was that the latter two were combined!

Unless Lin Yi's control of the rules of vibration exceeded dugu yixiong's by an entire level!

However, even the bystanders knew that it was impossible.

Lin Yi didn't stop even after the vortex was destroyed.

Taking advantage of dugu yixiong's moment of shock, a huge hand suddenly approached and grabbed him. Then, it clenched fiercely, and a shocking shock wave emerged from it.

Soon, dugu yixiong, who was being held in the palm, was no longer breathing.

“.....”

The entire place was dead silent.

It wasn't just people like lover boy, even Li Yuan, who had secretly sided with Lin Yi, was stunned.

He'd guessed that Lin Yi was strong, but he didn't expect him to be this strong!

In fact, Li Yuan was still hoping that dugu yixiong would kill Lin Yi instantly, and he would be free again.

The result was good. It was an instant kill, but the target was completely reversed.

At this moment, love Prince looked at Lin Yi with shock in his eyes. He no longer had the pride of a core member of the fifth royal family, but instead, it was filled with fanaticism!

He was an existence who had killed dugu yixiong in a second. What kind of scene would it be if he could rope him in as his subordinate?

He was currently ranked second among the Qin family's heirs. Although his status seemed extremely high, he had no confidence at all in front of his big brother, who was ranked first.

But if they had a strong support like Lin Yi, it was hard to say who would become the head of the Qin family in the future.

Everyone was shocked by Lin Yi's violent move, but Lin Yi himself didn't relax at all. Instead, he was even more alert than before.

"Could it be that dugu yixiong isn't dead yet?" the crowd was stunned.

Sure enough, dugu yixiong's figure reappeared on the illusory whale's back. He looked completely unharmed, but his aura was no longer as casual as before.

He was already in a bad state.

"To be able to force me to this step, I have to say that you do have some strength."

Dugu yixiong's face no longer had that confident and lazy look. He was more cautious now, "Unfortunately, you still can't escape death. Reality is cruel. The more you know, the faster you will die!"

The demon Chiyou didn't even make a sound as he pounced again.

"You don't know what's good for you!"

Dugu yixiong's eyes flashed with a trace of ruthlessness. His body suddenly burst out with a terrifying aura that was ten times more powerful than before. A faintly discernible flowing light circulated around his body.

He swung his hand, and a Whirlpool hit Lin Yi's head.

Devil Chi You was sent flying on the spot, and a bloody hole with a diameter of several feet appeared on his head!

Lover boy and the others, who were still shocked by Lin Yi's strength, were dumbfounded again.

Fortunately, with Chiyou's strong physique and Lin Yi's own self-healing ability, Lin Yi made it through in the end. The hole in his head healed at a visible speed.

However, he had yet to catch his breath when dugu yixiong once again pressed down on him.

Every single one of his moves was so powerful that even Lin Yi was shocked!

"Is this guy really that powerful?"

Lin Yi was at a complete disadvantage. Even with the strong body of the devil Chiyu, he was on the verge of collapse under the shocking attacks.

This was completely different from his initial prediction!

At his level of strength, especially with the New World, the entire structure was already different from other cultivators.

It wasn't an overstatement to say that Lin Yi's vision now had a hint of the gods' superiority. According to Jiang Xiaoshang, this was a unique advantage of the ancient gods.

After all, the essence of the ancient God cultivators was to create a world with their own hands. Their understanding of the world's origin power was naturally much higher than other cultivators!

It wasn't to the point where he could see through his opponent's pants, but the Lin Yi now could basically tell the level of his opponent's power with one look.

In this world, it was probably very difficult to find an existence that could hide their strength in front of him, unless it was those gods.

However, dugu yixiong's current performance was at least ten times better than what he had expected. The deviation was so great that it was simply unimaginable!

Jiang xiaoshang pouted. "Can't you tell? he's obviously going all out. He even used his faith in the sea god. Won't his strength increase tenfold?"

"You can use it like that?" Lin Yi asked, surprised.

He had witnessed the power of faith before. The horrifying scene of ye Tianbei turning into a giant Fire Phoenix and destroying half of the Academy with one breath was still vivid in his mind.

In his opinion, to a certain extent, faith was equivalent to the energy beans in a fighting game. After consuming one energy bean, he could release a terrifyingly powerful ultimate move.

In fact, this was indeed the case. From his experience fighting with ye Tianbei, he knew that the power of ye Tianbei's normal moves was not on the same level as the destructive flaming breath.

However, dugu yixiong's current state was completely different.

It did indeed increase his strength by at least ten times, which was quite an exaggeration, but it was still far from the level of a powerful move that Lin Yi knew.

After all, it consumed faith points. If he couldn't make it a hundred times more than usual, he would be too embarrassed to take it out.

However, dugu yixiong's current state wasn't at the level of an ultimate move. However, it was clearly a continuous state. And, the duration of this state was much longer than an instant release of an ultimate move!

"A state of Fury ..."

Lin Yi reacted immediately-this was clearly another way of using faith.

Although an instant burst was far inferior to a high-level skill, it could last for a longer time, which meant that there was more room for mistakes. Although it was inevitable that the upper limit would be reduced, it also greatly increased the upper limit.

To a certain extent, this was a more reasonable and reliable way to use the faith of the gods.

Chapter 10017

"Violent? That's a new name, but others call this state "divine advent," which means it's as if a God has come. The corresponding ultimate-type skill is called "divine explosion.""

Jiang xiaoshang explained with a smile.

At this moment, dugu yixiong, who had the ten-fold enhancement of God's arrival, had already gained the upper hand in the battle.

The demon Chiyou that Lin Yi had turned into was a target.

Thanks to his tough skin and thick flesh, he could still hold on. However, everyone present could tell that it was only a matter of time before he was trampled to death by dugu yixiong.

Even if Lin Yi found an opportunity to force his way in, his rule of vibration wouldn't be able to do anything against the tenfold increase in strength. He couldn't even defend against it, let alone hurt it.

This was the difference in pure strength!

Dugu yixiong's disdainful voice was heard, "Looks like I've overestimated you. I thought you were qualified to fight me. Hehe, you don't even know how to use God's arrival. So what if you're lucky enough to know that secret?

Being weak is an original sin. Even if a good opportunity is presented to a waste like you, you won't be able to grasp it at all. You'll only be wasting heavenly resources!"

Lin Yi replied as he blocked the attacks, "You seem to know a lot?"

"You actually dare to continue?"

Dugu yixiong was surprised. He thought that Lin Yi would be on the verge of breaking down and wouldn't even have the chance to open his mouth.

He'd been slandering Lin Yi all this time, but he'd been forced to use his proudest skill-God's arrival-and that showed how much he valued Lin Yi.

After all, this was consuming the seagod's faith!

Normally, even those who had just entered the Supreme realm would not be able to lift their heads in his current state, let alone a giant who had reached the pinnacle of perfection.

He was the strongest in the battle for the coastal waters King this time, and he had absolute confidence in this!

As far as he was concerned, if Lin Yi could force him to use up a bit of faith, he'd die a worthy death.

However, dugu yixiong was still confident that the situation had never left his control. Lin Yi was just struggling a little bit more before his death.

As the controller of the situation, he didn't mind using a victorious stance to let this dying trash understand the gap between them.

"Don't tell me you think that the only difference between us is that I have an additional divine advent?"

Dugu yixiong's attacks became fiercer as he spoke, forcing love young master and the others to retreat. In the blink of an eye, they had retreated to the edge of the sealed space.

Even so, everyone was still covered in dust and dirt from the aftermath of his attack.

And this was just the aftermath.

They couldn't even guarantee that they'd be able to escape if they worked together-if they were in Lin Yi's position, the situation would be unimaginable.

Even the proud love young master had to admit that there were indeed differences between people. Putting aside his background as a member of the fifth royal family, he was not even worth a fart in front of such an existence.

However, in this way, let alone listening in on the conversation between the two, they would not even have the opportunity to watch the battle.

Lin Yi raised an eyebrow. "Forgive me, but other than burning faith to increase your strength, I really can't see anything special about you."

"That's why I said you're a piece of trash who has luck but doesn't know how to grasp it!"

Dugu yixiong's face was full of disdain, but his tone was a little angry. Lin Yi's words had obviously stepped on his sore spot.

"I can guess with my toes that someone like you only got this news by chance, but you don't know the ins and outs behind it, and only know how to copy a cat and Tiger to take advantage of it.

Hehe, even if you're lucky enough to get some faith in the sea god, you don't even know how to use it. Looking at you, I'm afraid you don't even know how to use divine advent?"

He was the one who said this.

Lin Yi really didn't know how to use God's arrival. It was obviously a higher level to use it directly as rule control, but he didn't have much experience with this kind of consumable rule control.

Although Jiang xiaoshang was always by his side and could theoretically be said to know everything, this cheat actually had a huge limitation because he was afraid of being discovered by the gods.

Unless it was the last resort, Lin Yi wouldn't let Jiang xiaoshang investigate on his own, in case the gods found out.

Furthermore, even if Jiang xiaoshang knew how to use God's arrival, it was only in theory. He was still far from being able to put it into practice.

At least in this aspect, Lin Yi was indeed inferior to dugu yixiong.

"From your tone, it doesn't sound like it was a coincidence, but you're really experienced in this area?" Lin Yi continued, his expression unchanged.

"Test me?"

"If I were to claim to be the second in the four Seas, no one would dare to claim to be the first!" Dugu yixiong sneered.

Lin Yi didn't believe him, "aren't you exaggerating? there's still the Poseidon shrine there. Do you think they know less about the Poseidon shrine than an outsider like you?"

"You know nothing!"

Dugu yixiong couldn't help but reveal a proud expression. "Not to mention those mediocre trash below, even that high and mighty Lord seagod is now in imminent danger. If I didn't provide him with the seagod's faith, he would have long ..."

Dugu yixiong suddenly reacted as he spoke halfway. He snorted disdainfully, "There's nothing to say to a dying piece of trash like you. You should just die in peace!"

After he finished speaking, his attacks became even more violent.

Lin Yi pondered-this guy really did have some big secret!

"Hey, that guy's about to die, right?"

Lover boy and the others looked at Lin Yi, who was on the verge of collapsing, and they were all nervous.

They didn't have any solid understanding of each other, but they'd already placed their hopes on Lin Yi. They weren't idiots, after all.

Once dugu yixiong was done with Lin Yi, he would turn around and target them. No matter how cooperative the lover boy was, the chances of them getting out of this alive were slim.

Li Yuan was still forcing himself to remain calm. "At that level, we can't see through the outcome of the battle with a single glance. That person should still have a chance to turn the tables."

As soon as he finished speaking, the demon Chiyu shattered, revealing Lin Yi's original body, which looked extremely small and fragile at this moment.

"....."

Faced with everyone's strange gazes, Li Yuan suddenly looked constipated.

Chapter 10018

The lover boy sighed. "Forget it. What's going to come will come. I hope that dugu yixiong is only after money."

Everyone was on tenterhooks. Would this rumored brutal super sea beast Hunter be so easy to talk to?

Lin Yi's lips curled up suddenly. "It's almost time. "

Dugu yixiong raised his eyelids and asked, "almost done?" Hehe, at least you have some self-awareness and know that you've reached your limit. In that case, I'll give you a quick death. "

Lin Yi's face didn't show any of the panic he'd imagined-he had a calm, half-smile on his face. "Don't misunderstand, I'm saying that you're almost done. "

"Ha?"

Dugu yixiong was stunned, and he looked at Lin Yi as if he was an idiot, "Are you serious?"

"He's quite serious,"

As Lin Yi spoke, an invisible force surrounded the man from all directions, like a giant net, trapping a big fish.

From the beginning, he had deliberately lured the other party to speak. Other than the fact that he really did have some intention of probing the other party's background, the most important thing was actually to distract the other party's attention and stall for time.

In fact, dugu yixiong had already seen through this since the beginning.

But he didn't care at all. With the terrifying boost from the God's arrival, he had the absolute advantage over Lin Yi in terms of raw strength. It wasn't something that could be distracted.

As a matter of fact, dugu yixiong didn't relax his attack even when he was talking to Lin Yi. At least from the looks of it, Lin Yi didn't get what he wanted.

However, dugu yixiong thought that he had seen through Lin Yi's plan and thought that he was standing on the second floor. He didn't expect Lin Yi to be standing on the third floor.

Lin Yi didn't even think about turning the tables by distracting him.

This level of difference in hard power was definitely not something that could be made up for with such a small trick. From the moment the other party used God's arrival, he already knew that he had to get serious this time.

The New World was his true self.

His previous experiences had proven that as long as he pulled the other party into a new world, he would be invincible. After all, he created this new world with his own hands, and it was no exaggeration to say that Lin Yi was a true God in this new world.

The only problem was that with the current level of development of the New World, it was not possible to pull anyone in, especially when the other party's strength was far above his.

He needed a stable period of time to capture it, which was why he needed to tangle with it, distract it, and stall for time.

At this moment, he had finally captured it successfully!

Dugu yixiong's face finally revealed a surprised expression as he felt the mysterious power coming from all directions.

He didn't know what this power represented, but his battle instinct gave him a sign of extreme danger, so he didn't hesitate to activate the strongest counterattack.

The rampaging power of the ocean's rules surged out in an instant, trying to break through the capturing forces from the New World.

However, it was useless.

Although the rules of the ocean were level two rules, they were extremely high in terms of power level. Unfortunately, they could not be compared to existences like the New World. After all, they were not in the same dimension at all.

Soon, dugu yixiong realized that he had been completely submerged by these strange forces. Then, his vision flashed, and he appeared in an inexplicable chaos.

"This is ..."

Although he wasn't killed as he had expected, he was still frightened to be suddenly trapped in an unfamiliar environment.

"That's not possible! The space has clearly been sealed. Unless one's control over spatial power surpasses the illusory whale, it's impossible to escape. In other words, this is an illusion!"

Dugu yixiong's heart settled as he thought of this.

The most terrifying thing about an illusion was that one did not know it. Once one could clearly realize that it was an illusion, the threat would be greatly reduced, or even almost zero.

"This is your final struggle? If it wasn't for the illusory whale, I might have really fallen for it. What a pity, I failed at the last step. "

Dugu yixiong's disdainful voice hadn't even faded when Lin Yi suddenly appeared in front of him. They were less than three meters apart, and dugu yixiong was shocked.

However, he quickly calmed down. After all, it was just an illusion.

"You think this is an illusion?" Lin Yi smiled.

Dugu yixiong sneered back, "since I've already seen through it, there's no need to waste your energy trying to be mysterious." It's not a shameful thing to die under my hands, but if you know it's futile and still struggle, it'll be too ugly. "

"Is that so?"

Lin Yi raised his hand and punched the man's stomach without warning. "Is this also an illusion?"

Pfft!

Dugu yixiong's entire body bent like a shrimp as he felt a severe pain. He spurted out a mouthful of bitter water on the spot. This was the first time that he had revealed such a miserable posture.

However, he still held on and did not fall.

"I can't believe there's such a real sense of pain. It seems that the level of your illusion is very high. It's rare to see such a thing."

Dugu yixiong's complexion turned unsightly as he straightened his body. He was still firm in his judgment.

A high-level illusion could deceive one's five senses, including the divine sense, so it was not strange to feel pain. However, it was really rare to see someone who could make him feel such real pain.

After all, he was in the state of God's arrival.

Although it was mainly to strengthen the power related to the laws of the ocean, to a certain extent, it was as if a God had come in person. It would naturally increase his defensive power in all aspects, including his physical defense.

In the end, what answered him was another powerful knee strike.

This time, dugu yixiong didn't spit out bitter water. Instead, he spat out a mouthful of blood.

The excruciating pain that spread throughout his entire body was frantically reminding him that if this continued, not only would his physical body be completely destroyed, it was even more likely that he would be crushed on the spot!

Was this still an illusion?

"No, an illusion is still an illusion, but this guy has also integrated into the illusion and took the opportunity to launch a fatal attack on me. It must be like this!"

Dugu yixiong quickly came to a new conclusion.

Lin Yi found it weird-this guy was really into his character.

Dugu yixiong finally launched his counterattack when Lin Yi was about to make his next move. The ocean rule power in his body burst out crazily in an instant, vaguely forming the shape of a ferocious sea beast, which immediately bombarded Lin Yi's body.

"Die!"

Dugu yixiong laughed wildly. This was the most terrifying supersea beast that he had ever encountered. He had spent a lot of effort to slowly exhaust it to death, and finally, he had stolen this ability from it.

This was his ultimate killing move.

Chapter 10019

Lin Yi's eyelids twitched. This person's strength was remarkable, not just because of his control of the ocean's rule power, but also because of the quality of his combat ability.

He was trapped in his own new world, but he could still adapt in such a short time and even counterattack. Such an opponent was really rare.

Putting aside the difference in power, even people like ye Tianbei had a clear gap with this man!

If it was in the outside world, even if he could defeat him, he would have to go through a huge battle to the death.

Unfortunately, this was a new world.

The ferocious sea beast landed on Lin Yi's body, and dugu yixiong's wild smile froze.

Lin Yi didn't get turned into dust as he expected. He didn't even react, not even blinking. He just looked at him quietly.

It was as if his all-out killing move was just a ball of air, without any real feedback at all.

"That's impossible! Could it be an illusion?"

Dugu yixiong's mind was in a complete mess.

Lin Yi didn't know what to say as he looked at his opponent's self-doubting face. He didn't think that the New World would have this kind of effect, making his opponent fall into a state of confusion.

Little did he know that the other party's ultimate attack had failed only because the ocean rule power had been swallowed by the new World as nourishment.

As long as it was rule force, it would become nutrients for the New World and be devoured completely. This was the reason why Lin Yi was invincible in the New World!

Of course, this was not true invincibility.

There was a limit to how much rule bending power the New World could absorb at the same time. Once this limit was exceeded, Lin Yi would still be injured and even suffer the backlash of the New World.

After all, he was one with the New World.

However, as the New World continued to evolve, the upper limit of the instant devouring power would also continue to increase. If it could reach the theoretical level of great success, even the existences of the immortal state could only look on and sigh.

Of course, even if it was just a chaotic state, it was enough to easily crush an ordinary Supreme realm expert, not to mention that Dugu Yixiong was not a true Supreme realm expert.

"Let's stop here. "

Lin Yi suddenly appeared behind the man.

Dugu Yixiong had reacted with his sharp battle instinct, but his movement was obviously half a beat slower under the chaotic impact. As a result, Lin Yi's [great mercy and great compassion palm] hit his back.

This extremely powerful super sea beast Hunter was shattered on the spot, leaving behind only a weak primordial spirit.

Dugu yixiong finally realized the situation he was in. He quickly sent out a message to beg for his life, but it was too late.

"Those who kill will always be killed. You should understand this principle. Have a good journey."

Lin Yi wasn't soft-hearted at all. From the moment this person tried to kill him, it was already a life-or-death situation. If he didn't even have this decisiveness to kill, he wouldn't be able to live until today.

Taking a step back, if he let this person's primordial spirit go today, he would be planting a seed of disaster for the future.

He could not do such a stupid thing.

However, Lin Yi didn't wipe out the spirit immediately. He prepared to use the soul-searching technique.

After all, the information that this person had revealed before was quite interesting.

"Wait, you're just going to waste such a ready-made high-level primordial spirit?"

Jiang xiaoshang suddenly called for a stop.

"There's another use?" Lin Yi asked, surprised. Don't tell me you want me to devour his primordial spirit?"

He did know of a method to cultivate primordial spirit that could be achieved quickly. It was to continuously devour other people's primordial spirit in order to achieve a rapid increase in the strength of the primordial spirit in an extremely short period of time.

However, this was a true evil cultivation technique.

It was not only because it was too outrageous, but also because it had a huge drawback, just like all other evil cultivation techniques.

Once one devoured someone else's primordial spirit, one's own primordial spirit would be bound to be contaminated. In the light case, it would breed all kinds of demonic thoughts, and in the serious case, one's temperament would change greatly, and even his mind might be devoured by the backlash and fall into madness.

Dugu yixiong's essence spirit was at a very high level, and he was at the peak of the realm. If Lin Yi devoured him, it would be enough for his essence spirit to experience a qualitative change.

However, he would not consider such a short-sighted and stupid thing.

Jiang xiaoshang laughed. "I'm not asking you to swallow him. I'm asking you to let your new world swallow him."

"That works?" Lin Yi asked, surprised.

"Why not? You will be devoured by other people's primordial spirits, but your new world won't. You can understand it as the will of the absolute justice. No matter how deep the resentment of the primordial spirit is, it's just pure primordial spirit power to it, just like rule power, it's just nourishment. "

"Won't there be any other hidden dangers?" Lin Yi frowned.

Unlike rule force, primordial spirit power was closely related to its independent will. If the New World gave birth to its own independent will, it would be a big joke.

Jiang xiaoshang chuckled. "The New World is you. You are the New World. Are you afraid that it will go out of control?"

"What's in it for me?" Lin Yi shook his head with a smile.

"The greatest benefit is that it can increase the spirituality of the New World."

"Spirituality?"

"That's right. If you compare the New World to a person, then its world itself is physical development. However, no matter how well your body has developed, you can't do it without a brain, right?"

"Sounds reasonable, but I'm the brain of this new world," Lin Yi frowned.

This was a fact.

All the key developments before the New World were personally controlled by him. To a certain extent, this was a real sandbox game for him.

Jiang xiaoshang glanced at him. "There's no other way in the early stages. You have to be the brain yourself. The evolution of a world is an extremely long process. Are you going to hide here forever?"

Lin Yi was speechless.

Jiang xiaoshang continued, "the new world's development level is low in the early stages, so there aren't many areas that you need to take care of. You can still manage it with your own brain power. However, as the development level continues to increase, any small change will lead to a chain reaction. Are you sure you can handle it?"

"....."

Lin Yi said, troubled.

Any sandbox game would become more and more difficult in the later stages, even to the point of becoming a form of mental torture. Not to mention that this was a real new world, and the difficulty level was many times higher than the most difficult sandbox game!

Chapter 10020

"Do you understand now? Rules and spirituality are two indispensable legs for the evolution of the world. Once one of them is missing, it is impossible to go far. "

Jiang xiaoshang explained,"once the New World has enough spirituality, you can let it evolve on its own. Other than the major choices. The higher the spirituality, the more perfect its evolution will be. It might even exceed your imagination."

"In other words, other than determining the direction of the evolution, I can entrust all the other details to the AI assistant, right?" Lin Yi said with a strange expression.

"This is what I meant."

Jiang xiaoshang nodded."The primordial spirit of an ultimate perfected giant is enough to make your new world experience an obvious spiritual growth. In addition, you can also share all his memories, including his actual experiences."

"Sharing?" Lin Yi blinked. Is that true?"

It wasn't strange to extract memories, but sharing experiences was a different matter. Many things were known, but if they hadn't experienced actual combat, then they would at most exist in theory.

"You'll know once you experience it," Jiang xiaoshang said with a mysterious smile.

After he finished speaking, he imparted a set of secret techniques that used the New World to devour primordial spirits.

Lin Yi had some doubts at first, but as he studied it more, he realized that this was actually a set of techniques for the ancient gods. After the ancient God practitioners "constant trial and error, it was quite perfect, and he finally let go of his worries.

Dugu yixiong had always thought that he was extraordinary and insufferably arrogant. However, he was only left with a lonely primordial spirit. He didn't have the slightest power to resist.

Very quickly, it was completely devoured by the New World.

At first, there was still a heavy resentment left in him, so strong that it could almost materialize. If Lin Yi were to do it himself, just this resentment alone would be enough to cause him endless trouble.

Unfortunately, as Jiang xiaoshang had said, his resentment was meaningless to the New World. The logic was obvious-no matter how much resentment one had, would the will of the natural law even spare them a glance?

In just a few breaths, dugu yixiong's resentment was completely dispelled. At the same time, his primordial spirit power was completely absorbed by the New World.

At this point, dugu yixiong had completely disappeared from this world, leaving no trace behind.

As soon as the New World swallowed the spirit, Lin Yi felt the change. The most obvious change was that the new world's evolution speed started to speed up.

"Uh, it can even self-optimize."

Lin Yi couldn't help but rub his nose.

This evolution was not only fast in the visual sense, but it was also clearly undergoing some kind of deep optimization. As the master of the New World, he could clearly feel that some of the previous loopholes were being repaired quickly.

And these loopholes were the "masterpieces" he had left behind when he was inexperienced.

For the first time in his life, Lin Yi was nervous-it felt like a newbie who just finished writing a crappy program was being examined by a programming expert.

Jiang xiaoshang was gloating at the side."Now you know what level you are. If you continue down this path, your new world might collapse halfway through due to too many bugs."

"You know about bugs?" Lin Yi asked.

Jiang xiaoshang pouted."Of course! What if I told you that the moment Sky Class island connected to your mortal world, my main body studied all the information about your mortal world? you'd be scared to death!"

"If that's the case, then the gods didn't know anything about the mortal world before that?" Lin Yi asked.

Jiang xiaoshang nodded."It's hard to say. I'm not the God of creation. But my original body and the other gods definitely don't know."

"This is interesting."

Lin Yi said, deep in thought.

When he first heard about the gods, he instinctively regarded them as the omniscient and omnipotent existences in myths and legends. However, after gradually understanding them, he found that the two were completely different concepts.

The so-called gods here were actually just a group of powerful cultivators.

The rules of the world that they created were not the rules of the entire world, but the rules that were limited to a certain range.

For example, the gods led by the God of creation were a group of programmers. The God of creation had the highest authority to write programs, while the other gods only had the authority to mobilize the program, but could not change the program from the bottom.

As for the gods 'wayfarers and other cultivators under their command, they could only use the surface client of these programs to achieve some superficial applications.

The ancient God cultivators who had been suppressed and killed by the gods were equivalent to independent programmers who could write the underlying code. Their existence was the biggest threat to the program.

But before this, Lin Yi thought that the entire Sky Class Island would be under the God of creation's control.

But now, it seemed that he had overestimated it.

After all, the connection between the Sky Class Island and the secular world had existed since ancient times. If the gods "power could expand to the entire Sky Class Island, they would know about the secular world.

The only explanation was that the God of creation's sphere of influence was not that large. Perhaps it could only cover the earth-rank Sea area.

In fact, it might be even smaller than this.

"If we leave the God Realm, will the God of creation not be so omnipotent?" Lin Yi suddenly asked.

"....."

Jiang xiaoshang could not help but be stunned. After thinking for a moment, he revealed a look of surprise. "You've asked a good question. In my original body's memory, the God of creation seemed to have been injured once, and that injury was outside the divine territory."

Lin Yi smiled, "now I'm pretty sure. The so-called omnipotent and omniscient God of creation is just an ancient God practitioner. It's just that the main body of his world is the God's domain, which is countless times bigger than my new world."

Although he said that, he was really relieved.

When he first found out that his enemy was the God of creation, although he did not show it on the surface, in fact, he was really under a lot of pressure.

After all, that was an omnipotent and omniscient existence. How could a mortal fight against such an existence?

But now that he'd confirmed that they were the same kind, he didn't feel helpless anymore, even if he knew that the other was countless times stronger than him.

The mountain on his head was finally lifted, and Lin Yi felt like he could see the light of day again for the first time in his life. He didn't feel that suffocating and suffocating feeling anymore.

After all, no matter how strong the enemy was, there would come a day when he would be trampled under his feet. He had enough confidence in this!

He was not the only one. Even Jiang xiaoshang was shocked.
