

Bodyguard 10021

Chapter 10021

After a long while, he finally came back to his senses with an excited look on his face. "Damn it, now that you've reminded me, my three views have collapsed!"

Lin Yi wasn't surprised.

As people involved in the plot in the divine territory, be it Jiang xiaoshang, the gods, or the people of the divine territory, they were definitely the ones who had been brainwashed the most. In their knowledge, the omnipotence and omniscience of the God of creation had become a deeply rooted concept.

Or rather, it was their most unbreakable bottom-level perception.

"We're the frogs in the well!"

Jiang xiaoshang felt extremely fortunate. If he had not escaped from that environment, he would never have realized this in his entire life. Even if someone were to slap him in the face with those words, he would never have accepted it.

After all, to his knowledge, the God territory was the core of the whole world. As the master of the God territory, the God of creation was naturally the ruler of the whole world!

Little did they know that the divine realm was merely a corner of this world.

"Only by leaving that environment can I get rid of the brainwashing."

Lin Yi's spirits were lifted as he made his decision. "Only outside the God's domain can you defeat the God of creation."

He had vaguely understood this principle before, but he was even more convinced now.

Even an expert like dugu yixiong could only suffer in vain in his new world. God's domain was the home field of the God of creation. Going to God's domain to fight the God of creation was simply stupid.

Jiang xiaoshang followed up decisively, ""Nowadays, even God of creation rarely leaves God's domain. However, it's not entirely impossible. I'll give you some advice. You might really have such an opportunity!"

"Aren't you afraid of dragging your real self into this?" Lin Yi asked.

Jiang xiaoshang pouted. "Do you believe that my original body's rebellion will only be stronger than mine?" he asked.

"What do you mean?" Lin Yi asked. His status among the gods should be quite high, right?"

Jiang xiaoshang's mouth twitched. "I only realized recently that I didn't escape on my own. He deliberately guided me to escape. Damn it, I thought I had escaped from his control!"

Lin Yi was confused, "he purposely led you out?" Is there any explanation for this?"

Jiang xiaoshang gritted his teeth as he spoke, "with his abilities, if he didn't let himself go on purpose, how could I have escaped?" This is all part of his plan. He wants to use me to plot against the God of creation!"

Lin Yi was stunned.

If even Jiang xiaoshang was in his main body's scheme, then he was definitely part of his scheme as well!

In other words, Lin Yi's choice to become an ancient God might seem like his own choice, but it was very likely that his original body used Jiang xiaoshang's hand to lead him onto this path!

Thinking about it carefully, he was terrified.

"Could there be some sort of conflict between him and the God of creation?" Lin Yi asked with a frown.

Jiang xiaoshang shook his head. "It's hard to say. He knows everything that I know, but I might not know what he knows. However, I can guess that it has something to do with a lost memory."

"Lost memories?"

"We have a part of our memory that is missing and wiped clean. Other than the God of creation, I really can't think of any other existence that could have such means."

Jiang xiaoshang had a rare serious look on his face as he said, ""I suspect that my original body has used some method to recover this memory, but he just didn't share it with me."

"This is really ..."

"This is getting interesting," Lin Yi took a deep breath.

Although it seemed like there was still a lot of mystery, and Jiang xiaoshang's attitude was a huge variable, in the game of chess against the God of creation, such a variable was not a bad thing for him, who was at an absolute disadvantage.

With more variables, there would be a chance to develop and fish in troubled waters.

"Damn it, I don't want to think about it anymore. Anyway, I can't plot against him. Whether I can escape his control or not, it's all up to you."

Jiang xiaoshang was a carefree person.

His original body was an unexpected variable to Lin Yi, but wasn't Lin Yi a huge variable to that person as well?

"You're pretty free, aren't you?" Lin Yi said.

As he spoke, Lin Yi suddenly felt the feedback from the New World, and his expression changed.

Through the New World, he could clearly sense dugu yixiong's life's memories that had just been digested. Every single detail was present without the slightest error. In terms of effect, it was much better than the soul-searching skill.

That wasn't all. What truly shocked him was that he actually felt actual experience, the experience of using God's arrival!

It was completely different from the experience that others had told him. This feeling was clearly his own actual combat experience. With a thought, even his body could react skillfully. It was simply incredible!

"Now do you know why those ancient God cultivators are so frightening?"

Jiang xiaoshang chuckled.

Lin Yi was still in shock, and it took him a while to come back to his senses. "This is simply cheating. If you can absorb other people's rule power, primordial spirit, and even experience, wouldn't you be full of human-shaped leeks if you follow this train of thought?"

"That's why you have to be alert at all times," Jiang xiaoshang said seriously. "Don't go into Qi deviation. This is one of the most important factors that caused the ancient God cultivators to be besieged and killed."

"I understand."

Lin Yi nodded. New world was too much of a game-he'd get addicted to it every second, and he'd only get more and more addicted until he couldn't get out.

It wasn't impossible to do such a thing, especially for a leek like dugu yixiong that came to his door. It would be a shame to not cut it.

However, he had to exercise the greatest restraint at all times.

He wasn't afraid of falling into the evil path, but he was afraid that he would suddenly wake up one day and find that he didn't recognize himself. That would be truly terrifying.

Speaking of which, the benefits that dugu yixiong brought were beyond Lin Yi's imagination.

After this experience, Lin Yi was confident that he could use his God's arrival with ease. Other than that, there were other things he'd gained, such as experience in dealing with different types of sea beasts, and a deeper understanding of the forces in the four Seas.

In addition, there was an even bigger surprise.

It was a total of 18 points of sea god belief.

"This is a real wave of fat."

Although with the cooperation of the natural bait, ning Wanjun, his efficiency in killing the Super sea beast was not low, the ready-made 18 points of seagod's faith in front of him was still enough to make him feel excited.

Without much hesitation, Lin Yi converted them into rule bending power.

Although divine arrival was not bad, one's control of rules was the true foundation. After all, this was directly related to one's hard power.

As long as he could increase his strength, he would be able to kill the sea monsters with half the effort!

Before this, his control over the ocean's rules had already reached 25%. After a steady stream of faith, it quickly rose to 30%!

However, Lin Yi soon realized that after the thirty percent threshold, the rule control's rising trend suddenly dropped.

Chapter 10022

"It's still not enough. "

Lin Yi sighed helplessly.

Previously, Jiang xiaoshang had given him a heads up, so he was not completely unprepared for this.

Before rule control reached twenty percent, the conversion ratio between belief and control was one to one. In other words, one point of seagod belief could be converted into one point of rule control.

However, after twenty, it became two to one. In other words, it required at least two points of seagod faith to convert into one point of rule control.

Just now, it had already consumed a full ten points of his seagod's faith.

After that, after crossing the 30% threshold, the conversion ratio doubled again, directly becoming four to one.

He only had eight points of sea God's faith left at the moment. At most, he could only convert two points of control, pushing his control over the ocean rules from thirty percent to thirty-two percent!

At first glance, it was a huge loss.

However, Lin Yi didn't hesitate at all. He'd seen how powerful a person with over thirty percent rule control was. The scene of ye Tianbei destroying half of Jianghai college with a single Breath of Fire still hurt him.

After 30%, every point of increase in control was a qualitative change!

If Lin Yi met ye Tianbei again today, even if he didn't pull him into a new world, he would have the confidence to beat him up head on. 32% of the rules of the ocean was not for fun!

In addition to the explosive increase in his strength, dugu yixiong had also left him with a shocking inside story.

"The sea god's divinity is falling ..."

There was no doubt that this was the most top-secret information in the entire sea area.

The divinity was lost, and the message behind it was enough to completely overturn all his plans for the forces in the sea.

Even if he didn't obtain any other gains, these four words alone were enough to make his efforts to deal with dugu yixiong worthwhile.

Although the sea goddess Hall did not truly control the entire sea realm, the sea goddess was still the Supreme existence of the sea realm without a doubt. If the sea goddess really lost her divinity when the beast God Hall was about to invade, it would be enough to cast a huge shadow over the future of the entire sea realm.

"If the sea god is gone, can the sea still stop the invasion of the beast God?"

Lin Yi knew the answer himself, but he still asked anyway.

Jiang xiaoshang pondered. "The key is to see how he is gone. If he is replaced by a new god like the beast God, it will not be a big problem. But if no new god stands up, no one can stop the new beast God."

However, there's another possibility. This might just be a smokescreen. "

"You're saying that he's spreading the news on purpose to show weakness?"

"Maybe. At the level of the gods, no one is a good person. Anything can happen."

Jiang xiaoshang immediately changed the topic. "However, this kind of thing can't be completely baseless. It's hard to say if the sea god's divinity is falling, but it should be true that he's secretly looking for people to gather faith. We just can't figure out his true intentions."

"Normally, if the Poseidon needs faith, the best way would be to get the Masters from the Poseidon shrine. It'd be much more efficient and safer than him finding people himself, unless ..." Lin Yi said, deep in thought.

"His enemy is inside the Poseidon shrine!" Jiang xiaoshang's eyes lit up.

"The water is getting more and more muddled,"

Lin Yi couldn't help but smile. Since he wanted to meddle in the sea, it wasn't a bad thing for him to make the sea more muddy.

After all, it was easier to fish in troubled waters.

In the outside world, lover boy and the others had been stunned for a long time. Dugu yixiong was still holding on to Lin Yi's hammer a second ago, but in the next second, both of them had disappeared. This strange situation was completely beyond their knowledge.

Don't forget, the illusory whale was still there, and this space was still tightly sealed, leaving no blind spots.

After a long time, the lover boy finally couldn't help but say, ""Can you see any clues?"

"That person is probably dead, right?"

Zhang Heng, who was the most powerful among the group, said with uncertainty, ""Dugu yixiong's advantage is too great. Moreover, he was the one who brought the illusory whale here. No one else can break this space apart except him. It must be him."

Li Yuan opened his mouth, as if he wanted to refute, but in the end, he silently shut up.

He couldn't think of any reason why Lin Yi would have the last laugh.

"Young master, you should think carefully about the price you're going to offer. Dugu yixiong is a bloodthirsty man. We can't afford to bet on him," Zhang Heng reminded him.

In other words, in order to survive, the lover boy had to pay a lot of money.

The lover boy's face couldn't help but turn a little ugly. With his status as a core direct descendant, no matter how big the family was, they wouldn't abandon him. However, if he did this, he would never be able to raise his head in the family again.

Even if he could survive dugu yixiong's attack, it would become a dark history that he would never be able to erase in the future. In fact, it had blocked his path to the position of the clan head to a certain extent.

The rest of the people also tried to persuade him. They were afraid that he would be too embarrassed to do so and eventually force them all to die with him.

One of the skinny men even said, ""Speaking of which, it's all Li Yuan's fault. If he didn't distract us and let us mistakenly think that he had the strength to compete with dugu yixiong, we wouldn't be in such an embarrassing situation."

"Ha?"

Li Yuan was dumbfounded. In terms of taking advantage of the situation, even if he wasn't a Grandmaster, he was still an expert. He really didn't think that there would be a time when he would actually be bitten back.

"You still have the face to be unconvinced?" The Thin Man snorted coldly. If we had killed that guy, dugu yixiong wouldn't have attacked us for the young master's family!

It was you who misled young master's judgment and made him have unrealistic hopes for that guy. As a result, you have indirectly offended dugu yixiong. Isn't this your problem?"

“.....”

There was no logic in his words, but everyone agreed with him.

After all, someone had to take the blame.

Seeing that the lover boy was still hesitating, The Thin Man quickly urged, ""Since the mistake has been made, we must remedy it as soon as possible. Before dugu yixiong returns, we should use our actions to show our attitude."

Li Yuan's body couldn't help but tremble.

He knew very well what this guy was talking about. He was going to sacrifice him to the flag and use his head to declare his allegiance to dugu yixiong!

The lover boy's eyes fell on him, and he seemed a little hesitant.

Li Yuan quickly said, "young master, don't believe his stupid words. It's still unknown who will win between that senior and dugu yixiong. What if that senior wins?"

He didn't have high hopes for Lin Yi either, but he had no choice now.

Chapter 10023

"You're really a short-sighted idiot. It's already come to this, and you still can't tell who's stronger and who's weaker?"

The skinny man sneered and then said with a stern face, ""It wasn't enough to mislead the young master once, and you want to mislead him a second time. Are you afraid that the young master won't be killed by you?"

Young master, time is of the essence. We can't hesitate any longer!"

The lover boy looked embarrassed, but his eyes still fell on Li Yuan. He was not a decisive person, and he had always been kind to the diners around him.

However, since things had developed to this point, he could only choose to sacrifice his fellow Daoist.

"I'm sorry,"

As soon as lover boy finished his words, there was a fluctuation in the space in the distance, and then a figure appeared.

It was Lin Yi.

Everyone was stunned.

The Thin Man was filled with disbelief, "impossible! Dugu yixiong is such a powerful existence. How could he lose to such an unknown person?" That's impossible, he must be hiding somewhere and hasn't come out yet!"

However, dugu yixiong was still nowhere to be found even after a few seconds had passed.

Everyone's expression had completely changed.

Li Yuan finally heaved a sigh of relief. He looked at the lost skinny man and said, "The consequences of angering dugu yixiong are indeed terrifying. However, wouldn't the consequences be even more dire if someone's remarks enrage a more powerful existence?"

The Thin Man was shocked and quickly looked at the lover boy.

"Since you're the one who suggested it, I don't think you have anything to say."

The lover boy didn't hesitate to hit the man's abdomen with his palm. The Thin Man didn't even have time to groan. The light in his eyes disappeared, and he fell to the ground, becoming a corpse that died with open eyes.

Zhang Heng and the others were not surprised at all.

This was the reality of the cultivation world. The order in the sea was far more chaotic than on land, so it was naturally crueler. Similar things happened all the time, so there was no need to make a fuss.

Moreover, this person's words and actions just now could be considered to have died a worthy death.

The lover boy was a core member of the Diwu royal family. If he was not even this decisive, then they would have to consider whether they should continue to cling to him.

Li Yuan looked at the body on the ground with a lingering fear. If it wasn't Lin Yi who came out, but dugu yixiong, then he would be the one lying on the ground.

Sensing the crowd's reaction, Lin Yi glanced at them from afar, not planning on speaking.

Lover boy and the others didn't dare to disturb him. They all put on a respectful posture and waited at a distance, not daring to move at all, afraid of causing Lin Yi to misunderstand.

"The fifth royal family ..."

Combining the memories dugu yixiong provided, Lin Yi quickly went through the information of the forces in the sea.

Although the loss of the sea god's divinity was still a top secret, there were no walls in the world that could keep the news out. This news would reach the various large organizations sooner or later, and with the beast God Hall's arrival, the sea realm would definitely undergo an unprecedented reshuffling.

The plan to infiltrate the fifth royal family had to be brought forward.

However, the most important thing at the moment wasn't this. It was the illusory whale that was blocking the way.

The illusory whale was still there, and the surrounding space was still sealed. Lin Yi could use the New World to escape at any time, but that would be the same as voluntarily withdrawing from the battle for the Sea King.

After all, he could only teleport to the other secret realms within Jianghai Academy through the New World. It would be difficult to return to the underwater ruins of the Empire.

The only way left was to break the spatial seal of the illusory whale.

However, even though his strength had increased tremendously, the chances of him succeeding in a head-on battle with an ancient existence like the illusory whale were still very slim.

He tried a few times, and as he expected, there was no reaction from the other side. The space didn't show any signs of being broken.

Lin Yi had an unexpected discovery. "It doesn't seem to be hostile to me?"

The illusory whale had appeared together with dugu yixiong, and it had helped him seal the entire space. According to normal logic, these two should be working together.

It was even possible that the illusory whale had already acknowledged dugu yixiong as its master.

However, it seemed that this was not the case.

If the illusory whale had already acknowledged its master, it would naturally be able to sense that its master had died. At that time, it would definitely do something. Whether it took revenge or left, it would at least have some reaction.

But there was nothing.

From the beginning to the end, the illusory whale just stood there quietly, like an ancient being in hibernation, but Lin Yi could clearly feel that it was observing him.

It was an extremely pure observation without any emotional fluctuations.

All of a sudden, a mysterious wave appeared in Lin Yi's sea of consciousness. When he clearly felt the message that the wave was sending, Lin Yi's face changed.

Lin Yi finally reacted after a while. "You want to enter my new world?"

It was another mysterious fluctuation, and the meaning this time was obvious.

Jiang xiaoshang could not help but laugh at this scene. "It seems that it is not in cahoots with dugu yixiong. At most, they are just business partners. It should be the reason why dugu yixiong came to our door this time."

"The reason?" Lin Yi asked, confused.

Jiang xiaoshang explained, "no one knows how an ancient creature like the void whale came about. However, one thing is for sure. They have existed before the chaos was separated."

I've seen a saying that they wander between reality and nothingness. If the real world is suitable for them to live in, they will enter reality. If it is not suitable for them to live in, they will return to nothingness and enter a state similar to infinite dormancy.

Only when an environment suitable for them to live in appears in reality will they recover and re-enter the real world. "

"So, this chaotic new world of mine is their ideal environment?" Lin Yi asked.

"It looks like it."

Jiang xiaoshang speculated, "I suspect that it's not just looking for an ideal environment. The growth of the virtual whale is likely to be bound to the world's origin. In other words, it's likely to form a symbiotic relationship with your new world."

Congratulations, you can rear whales now. "

Lin Yi was speechless.

After thinking for a moment, he finally agreed to the virtual whale's request and started the process of capturing it in the New World.

The illusory whale's strength was unfathomable, but Lin Yi wasn't worried that he wouldn't be able to take it down in his new world.

Moreover, in the two short exchanges just now, although it couldn't be expressed as accurately as a human conversation, it was obvious that the other party's attitude was good or evil.

At least for now, it would not pose any threat to him.

Chapter 10024

The more powerful the other party was, the more difficult it would be to capture a new world. Fortunately, the illusory whale was very cooperative. Even so, it was ten times more difficult than capturing dugu yixiong.

The entire process lasted for more than half a day before the capture was finally successful, and the virtual whale was sent into the new world.

Buzzzzzz!

The illusory whale let out an unprecedented cry of joy after entering a new world. It was like a child jumping into a bathtub, and Lin Yi couldn't help but smile at the pure joy.

Looking at this big guy happily wandering in the New World, the worry he had before suddenly disappeared.

Just as Jiang xiaoshang had predicted, he could sense the symbiotic connection between the New World and the virtual whale. The virtual whale was like a fish in water here, and the new World was clearly more active with it.

One of the most obvious signs was that the speed of evolution had become faster.

Jiang xiaoshang was speechless at this scene. ""You got such a powerful bodyguard for free. This is the treatment of a son of destiny. No wonder my original body racked its brains to place a bet on you!"

The void whale was docile and wouldn't attack people on its own. However, it was now coexisting with the New World, and anyone who attacked the New World would definitely attract its counterattack.

In other words, any enemy that Lin Yi captured in a new world wouldn't just have to face Lin Yi, the God of his home field, but also the unfathomable void whale.

The scene was as beautiful as a painting.

No matter how one looked at it, Lin Yi had profited from this.

By the time Lin Yi returned to the outside world, the crowd was completely shocked by him. Although they didn't kneel down on the surface, they were kneeling down for Lin Yi in their hearts.

What kind of F * cking monster was this!

Not only had he defeated dugu yixiong, but he had also defeated the illusory whale. They had never heard of such unfathomable and terrifying strength, let alone seen it.

The lover boy seriously doubted that if he gathered all the strength of his family, would it be possible to achieve this?

Dealing with dugu yixiong was naturally a piece of cake, but it was impossible to deal with this illusory whale ...

Lover boy's legs were wet when he thought about how he'd ordered people to attack Lin Yi.

Lin Yi suddenly turned to him. "You, come here."

Everyone looked at the lover boy, including the strongest, Zhang Heng, but no one dared to step forward and interrupt.

Lover boy's mind went blank, not knowing how he walked over until Lin Yi was right in front of him. He finally reacted and knelt down in front of Lin Yi.

The people behind him looked down and pretended not to see anything.

"I'm not a bad guy," Lin Yi said, speechless. "Why are you giving me such a big bow?"

"....."

It's hard to say if you're a bad person, but you're definitely much scarier than a bad person like dugu yixiong.

Lover boy struggled to get up after a long time. He forced a smile that was uglier than crying. "Senior, if you have any instructions, only junior can do it. I will go through water and tread on fire without hesitation!"

"It's not that difficult. I just want you to detoxify the poison. "

Lin Yi said as he released ning Wanjun from the New World. The woman was in a deep coma due to the love poison.

Lover boy's eyes twitched as he carefully observed Lin Yi's expression. He saw that Lin Yi had only casually thrown ning Wanjun to the ground and didn't do anything intimate, so he relaxed a little.

If ning Wanjun was this man's exclusive property, then he would really die today without knowing how.

In fact, he was also scared silly.

If Lin Yi was really interested in ning Wanjun, why would he have allowed him to bully her with his numbers and beat her up?

"Can you?" Lin Yi frowned.

Lover boy shivered in fear and quickly nodded his head. ""Yes, yes, yes, this junior will detoxify her now."

With that, he injected a pure rule force into ning Wanjun's body. After a few breaths, ning Wanjun's aura became stable and no longer showed signs of extreme pain from being poisoned.

"We just have to wait for her to wake up," the lover boy said carefully. "She will recover after a little rest."

"Alright, you can go." Lin Yi nodded.

"....."

Lover boy was stunned. He pointed at himself and said, ""I'm leaving?"

Lin Yi looked at him, "you don't want to go?" It doesn't matter if you stay, just go do what you need to do. "

After he finished speaking, he put ning Wanjun back into the new world. In a flash, he disappeared from where he was, leaving love Prince and the others looking at each other.

After a long time, the lover boy sat on the ground, paralyzed. He actually felt lost.

He'd been prepared to pay a huge price, but Lin Yi didn't even look at him-he just left!

The rest of the people didn't feel the same way. They only felt lucky that they had survived the disaster.

"Young master, do you think it's a pity?"

Li Yuan quietly walked over.

The lover boy smiled bitterly."A little. If I can get the help of such a person, my brother's position as the first-in-line successor may not be so stable."

He never hid his true thoughts from the people around him. This could be considered his unique charm.

But then again, if Lin Yi didn't leave right away, but showed interest in the family behind him, he'd stay away from him.

After all, he was the core direct descendant of the family who had been carefully cultivated. He was not so silly as to think that he could play tricks with someone of this level. If he really went up to her rashly, he would be swallowed up in minutes.

He'd only trust Lin Yi if he didn't care about him.

Humans were contradictory.

Li Yuan laughed secretly. "The way an expert does things is always unfathomable. We definitely can't grasp it. However, I thought that young master would meet that expert again sooner or later."

"What do you mean?" the lover boy suddenly became spirited.

"We can't predict the whereabouts of an expert," Li Yuan reminded. "But you should know where ning Wanjun is, right?"

"That's natural. "

Lover boy's eyes lit up, and his mind immediately became active.

Although the love poison in ning Wanjun's body had been cured, it would not be difficult to find her due to his past disputes with her, just like this time.

From Lin Yi's reaction just now, even if ning Wanjun wasn't his woman, they must have some sort of connection. As long as he found ning Wanjun, it shouldn't be hard to find him.

"Looking at that expert's attitude, he probably doesn't want to get involved in the power struggle," Li Yuan reminded. "Young master, if you want to invite this strong support, I'm afraid you'll have to think carefully about what bargaining chips you have in your hands."

"Yes, we have to think about it carefully," the lover boy agreed.

Chapter 10025

Li Yuan chuckled to himself as he watched Lin Yi fall into deep thought. He couldn't help but respect Lin Yi even more-this was the perfect way to play hard to get. It was a brilliant move.

Human nature was like this. If you were to take the initiative to cling to him, you would only be abandoned.

On the contrary, if you don't care about it, he will be worried about the gains and losses.

At this rate, it wouldn't be long before this lover boy would come up with a plan and completely believe in Lin Yi. Then, he'd go with the flow and fall into Lin Yi's control.

It wasn't as if everything was under Lin Yi's control, but it wasn't far from what he expected.

Don't forget, he still had control over the rules of time.

Although his rule control was only 5%, and he could not see the future as clearly as Banshi Luo, it was still easy for him to make a short prediction, especially when the opponent's strength was far below his.

The lover's son was originally a chess piece he had planned to play. However, after obtaining dugu yixiong's memories, the importance of this chess piece had increased by a lot.

Perhaps, this might really become the key to his future involvement in the sea realm!

However, this was not his first move.

In fact, before the beast God Hall's invasion, someone had already placed a more important and crucial hand on his behalf.

"Zhang Shichang, Shen Qingnian, Han Qi ..."

A familiar name flashed through his mind, and Lin Yi couldn't help but smile. It'd been a long time since he'd seen these old friends.

In the eyes of outsiders, these influential figures had already been eliminated by Emperor Xu Anshan in the internal conflict of the Academy. There was nothing to say about the winner being the king and the loser being the bandits.

Moreover, the beast tide had arrived after that. Everyone's attention had been automatically diverted, and no one was paying attention to it anymore.

It gave people the feeling that this group of fierce people had quietly evaporated from the world, dying without a name.

He didn't know that all of this had been deliberately concealed.

This was also the biggest tacit understanding between Lin Yi and Xu Anshan. Come to think of it, if Zhang Shichang and the others really died under Xu Anshan's hands, there wouldn't be much room for negotiation no matter how big Lin Yi's position was.

Qiu sanniang, on the other hand, could not bear it.

Zhang Shichang and the others "plans were far more far-reaching than Lin Yi 's. If the two could complement each other, it would be a huge surprise for everyone.

Lin Yi looked at the map hai Wutian gave him and headed for the marked location.

If he wanted to gain a foothold in the sea area in the future, the king of the coastal waters was an extremely crucial position, and he still needed to spend some time on this.

Of course, this was mainly because ning Wanjun was still unconscious and could not continue to be his human bait.

Otherwise, it would probably be the seagod's faith.

As for ning Wanjun, Lin Yi didn't have any feelings for her, but throwing her out unconscious as bait was a bit inhuman. He wasn't that unreasonable.

Moreover, the plot against lover boy would still need ning Wanjun. If he went too far, it would be a little troublesome to remedy it later.

With Lin Yi's speed, it was extremely fast if he really started traveling.

He was still at the outer area, far behind the other competitors, but in less than an hour, he had quickly approached the location marked by hai Wutian.

However, even though it was a location, it was actually a huge area. At first glance, it was at least three times the size of Jianghai city.

In terms of land size, the land paled in comparison to the ocean.

To search for a small Ocean Crown in such a large area was like looking for a needle in a haystack, even with Lin Yi's spirit.

At this time, strength and intelligence were all nonsense. Luck was the most important decisive factor.

Along the way, Lin Yi met a few groups of competitors, but they were all very cautious of each other and carefully controlled the distance between them. No one came up to look for trouble.

In fact, this was the normal style of this trial selection.

Unless it was directly related to substantial and major interests, no one would easily make a move. First, it was to avoid unnecessary consumption, and second, it was to avoid being seen through early.

At the level of laws, the mutual augmentation and restraint between laws were far more critical than when one was still in the domain stage. This was especially true for opponents with similar strength. Once their laws were restrained, it would be very difficult for them to turn the tables.

After all, not everyone was like Lin Yi, who had all sorts of rules and regulations in his pockets, not to mention a trump card like new world.

He scanned the area, and just when he was hesitating on where to go next, hai Wutian's voice reached his mind.

"Emergency notice! The sea crown has already been found!"

Lin Yi blinked and shrugged, speechless. "Then wouldn't the battle for the Sea King be over? I've just been a bystander for nothing."

These words were said guiltily.

Dugu yixiong alone was enough to make him fat. Not to mention, he had killed so many sea monsters and even gave him a Phantom whale as a bodyguard.

In terms of material gains, this had far exceeded the value of an Ocean Crown!

"It's not over yet," hai Wutian replied. "You must hold the sea crown for more than a day before it recognizes you as its master."

Lin Yi's eyelid twitched, "doesn't that make this lucky guy a target for everyone?"

According to this setting, anyone who obtained the sea crown would become the target of everyone else. Was this considered lucky or unlucky?

In the end, just two breaths later.

Hai Wutian's voice came again. "Target confirmed. The first winner of the ocean Crown has died. The trial will continue. The marked location has been updated. Keep an eye on it."

"What do you mean?"

Lin Yi glanced at the map and realized that the new mark was miles away from the previous one. It wasn't a further reduction in size, but a completely different place.

"Could it be that the person who snatched the sea crown has teleported away?"

"No," hai Wutian replied. "Once the ocean Crown's master recognition ceremony is interrupted, it will automatically be teleported to another location. In other words, killing it doesn't mean that the person who obtains it will get it. It will only restart the game."

"Won't there be no end to this?" Lin Yi asked with a weird expression.

If it was just a simple fight for the treasure, then no matter how fierce the competition was, as long as there was a fight, the winner would be decided. At most, the scene would be a little bloody and tragic.

However, if it was refreshed every time, then the game would really be fun.

Hai Wutian smiled bitterly. "That's why luck, strategy, and strength are all indispensable if you want to win in the end. You can't get the title of king of the sea by only relying on your strength."

Chapter 10026

"Will the sea god be paying attention to this battle?" Lin Yi asked suddenly.

Hai Wutian was taken aback. "Probably. After all, the position of the Sea King is of great importance. It would be very troublesome if the enemy took it away. Besides, the sea crown was personally dropped by the Lord sea god. Why do you ask?"

"I'm just curious," Lin Yi smiled.

Hai Wutian didn't doubt him and immediately reminded him, ""Starting from the death of the first Ocean Crown winner, every time a new winner dies, the trial-taker will be able to receive strength replenishments from the recommender. Take care to receive them later."

"Power replenishment?"

"It's actually the rule power from the recommender. The upper limit for each use is only 10% of the recommender's own strength. As long as the trial is within the scope of this trial, the trial-taker can freely use this power, not limited by their own strength."

"In other words, you can temporarily control my power," hai Wutian said in a different way.

Lin Yi's eyes twitched, "if one time is ten percent, then if I can replenish it ten times in a row, wouldn't I be able to obtain the full strength of a Supreme realm?"

"That's right," hai Wutian said. "So the strength of the candidate will have a huge impact on the trial. The longer it goes on, the bigger the impact will be. In comparison, the candidate's strength will become insignificant!"

The cultivators' strength was limited to below the Supreme realm. On the other hand, the recommenders who were qualified to recommend candidates were all Supreme realm experts.

Putting aside the rare few weirdos like Lin Yi, for most of the practitioners, a tenth of the recommended person's strength was enough to crush their entire strength.

Especially if the recommender was strong enough, as long as he could get a boost in strength, he would immediately be able to change his weapon and completely reverse the situation!

This was obviously not good news for the cultivators who were already outstanding.

"What's your strength level compared to the ones who recommended you?" Lin Yi asked, interested.

"Above average," hai Wutian replied after a moment of silence.

He was the ninth-ranked seagod's Wayfarer, so his strength definitely couldn't be considered weak, but he wasn't particularly outstanding either. His above-average self-evaluation was still relatively objective.

"That's alright, it's not too bad. "

Lin Yi said sincerely.

"....."

Hai Wutian's defense was instantly broken, and after holding it in for a long time, he finally said, ""Do you know that the truth hurts the most?"

If it was someone else, he wouldn't be so polite, but Lin Yi's strength was too strong. Even with his strength, he might not be able to win.

Strength determined one's right to speak. Who asked him to be so capable? he, the dignified ninth-ranked sea God's Walker, could only show some respect.

Lin Yi laughed nonchalantly, "Sort out the information of the strongest recommenders and their trial-takers and send it to me together next time so that I can be prepared."

"I think they should be on guard against you," hai Wutian laughed.

It was foreseeable that at this moment, the same conversation would be happening everywhere. Those who stood out would inevitably become the target of public criticism, especially those trial-takers who had limited strength but had powerful recommenders behind them. They would become the priority targets of everyone.

In comparison, hai Wutian's strength that wasn't too outstanding was the best cover for Lin Yi.

With Lin Yi's current trump cards, it wasn't like he couldn't handle the pressure of the superior tree in the forest, but if there was an Oriole behind him, Lin Yi would be more than happy to be a sneaky old man.

After all, he didn't have the hobby of making his presence known and gaining attention.

[By the way, let me remind you. Although strength supplements are bound in most cases, there are some special circumstances where strength supplements can be snatched away.]

Hai Wutian reminded him, ""But I don't think anyone can snatch food from your Tiger's mouth."

Lin Yi raised a brow after the call ended-it'd be great if he could really steal this thing.

In theory, this meant that someone could have the strength of several or even dozens of Supreme realm experts. Although the possibility was not high, it was not entirely impossible.

Maybe he would really raise a monster!

Lin Yi thought for a moment before turning to the new target. It didn't even take fifteen minutes before he saw three bodies.

"Someone has started a large-scale attack on the trial-takers?"

This scene was actually not out of his expectations. The development of the situation was bound to continue to accelerate, and the speed of the trial-takers being eliminated would only get faster and faster, and the number of dead people would naturally increase.

In particular, after the huge variable of strength replenishment, those powerful trial-takers would naturally give up their previous strategy of lying in wait in order to consolidate their advantages. They would try to make their move as early as possible.

But Lin Yi still felt a strange aura from these bodies.

These people seemed to have all died at the hands of the same person, and they were all killed in one strike!

After a while, Lin Yi saw another body as expected, a familiar one.

Zhang Heng!

Lin Yi had some impression of this person, who had fought with ning Wanjun before.

Although his strength was not the best, he was above all those below the Supreme realm. Other than monsters like him who had the ability to challenge those of a higher realm, he could fight against other experts of the same realm.

After all, ning Wanjun wasn't a kind person, and not just anyone could suppress her the entire time.

The point was that Zhang Heng had been with the lover boy and the others, and yet he had still been killed in one hit. That was a bit of a shock.

"This group of people is quite unlucky."

Lin Yi didn't know whether to laugh or cry. First, it was dugu yixiong, and now this guy. He couldn't help but worry for his lover boy.

It was rare to encounter such a ready-made chess piece. It would be a pity if it died halfway.

Just as Lin Yi was about to examine Heng's wound, there was a strange spatial disturbance nearby.

Soon, a mass of extremely pure rule power appeared out of thin air.

Lin Yi's eyes twitched-this was clearly the unique aura of a Supreme realm master. It was only ten percent, but for anyone below that level, it was enough to turn the tables.

But to his surprise, he didn't find hai Wutian's aura on it.

According to the previous explanation, the power supply would be specially bound. For safety reasons, the recommender would leave their own unique aura. This way, it could only be received by the corresponding trial-taker, and other people could not touch it even if they were close.

Could it be that hai Wutian had been careless?

Or was this fellow so confident in his own strength that no one could snatch food from the Tiger's mouth under his hands?

Chapter 10027

Lin Yi didn't think too much about it and moved in front of the rule force, ready to take it.

With his current strength, he might not need this, but it would be a waste not to have it. Furthermore, he could use this opportunity to experience the power of a true Supreme realm expert, which was a rare experience.

However, just as Lin Yi made his move, a black shadow flashed in front of him. There was a white flash, and the rule force disappeared without a trace.

"You've hidden it deep enough!"

This time, Lin Yi was truly surprised. With his current level of perception, it was rare to see someone who could hide so well under his nose.

Especially since the other party was able to participate in the battle for the Sea King, it meant that his cultivation realm was below the Supreme realm, at most half a step into the Supreme realm. Although he was half a level higher than the usual big shots at the peak of the realm, he could still be considered an expert of the same level to a certain extent.

In recent years, he had rarely suffered a loss in front of experts of the same level.

After the enemy had taken the strength supplement, he didn't have any intention to waste time with Lin Yi. His figure flashed and he wanted to escape. His speed was so fast that even Lin Yi couldn't help but be surprised.

If he continued to chase, although it wasn't as if he didn't have a chance of catching up, the possibility was really not high.

In other words, if there were no accidents, he would definitely suffer today!

However, after a few seconds, the black shadow stopped. There seemed to be an invisible barrier blocking his way.

"Spatial lock?"

The figure shrouded in a black robe couldn't help but let out a cry of surprise. From the voice, it was a young man. It was unrecognizable, belonging to the type that even if one paid attention, it would be difficult to remember any characteristics.

Not only his voice, but his figure and aura were also the kind that would be difficult to find in a crowd.

He was a typical assassin-type expert.

If it weren't for the fact that he'd been blocked, he wouldn't even know who to look for in the future.

Lin Yi's voice sounded from behind him, "You didn't even greet me before taking my things and running away. You have to let me know who I'm going to get my debt from in the future, right?"

The black shadow turned around and looked at him coldly. "You actually know how to seal space? it seems like I've kicked an iron plate?"

If it was just an ordinary spatial move, he might not have even taken it seriously.

However, spatial lock was different. This was a high-end technique of the spatial laws, and it was impossible to use it without 20% control over the laws.

And if it was a spatial expert of that level, it would be a huge threat to any cultivator. After all, spatial laws were one of the top rules, and its name of being unassailable was not just for show.

"It's not that exaggerated. It's just a little underhanded trick. "

Lin Yi said humbly.

In reality, what he said was the truth. His control over the spatial laws was still only at 5%, which was indeed not worth mentioning.

Previously, he couldn't use a high-level technique like spatial lock. The only reason he could use it this time was because of the sharing from the illusory whale!

Now that the void whale was coexisting with the New World, they were connected in many ways. As the master of the New World, he would naturally benefit from this. Although he couldn't directly control the White Phoenix law, he could still digest and absorb some techniques of using spatial law power.

Of course, even if it was the same spatial lock, Lin Yi's spatial lock was limited by his control of the laws. It couldn't be compared to the illusory whale's spatial lock at all.

If the other party had wrapped the entire space with a steel plate that was tens of centimeters thick, then the one in front of him was at best wrapped in a layer of paper.

It broke with a single stab.

Unfortunately, the black shadow was too caught up in his thoughts to even try. If he had attacked with all his might just now, there was a high chance that he would have blurted it out.

"Is that so?"

The black shadow obviously didn't believe Lin Yi's words and didn't try to break through the spatial lock. Instead, it chose to face Lin Yi directly.

"You seem pretty confident in yourself." Lin Yi raised a brow.

According to normal logic, an assassin expert who focused on concealment was forced to face the enemy in a restricted domain. This was definitely the number one taboo!

If he were in the other party's position, the most reasonable decision at this time would be to find a way to escape, or at least enter a state of concealment like just now.

The enemy was in the light while he was in the dark. This was the basic requirement of an assassin.

The black figure took off the cloak on his head, revealing an ordinary face. His eyes were filled with mockery. "Don't tell me you think I can only hide in the dark and launch sneak attacks?"

"Don't tell me you're not?" Lin Yi nodded sincerely.

"....."

The black Shadow's face stiffened, and he couldn't help but laugh. "That's fine. I'll teach you a lesson then. A small figure should have the self-awareness of a small figure. Remember this in your next life so that you don't repeat the same mistakes."

After he finished speaking, a huge aura began to surge wildly.

"Accelerate!"

The black shadow turned into a shadow as soon as he said those two words.

Lin Yi's expression hardened. He was able to keep up with his opponent's speed at the start, but as time went on, his opponent's speed kept increasing until it completely exceeded the limit of his movement technique.

Its mobility had been completely destroyed!

Ever since he had come to the earth-class Sea area, he had never been at a disadvantage in terms of speed. At most, they were evenly matched. But now, let alone keeping up with the other party's speed, he couldn't even lock on to the other party with his divine sense.

The other party's performance had completely exceeded his past knowledge.

In fact, the other party was still accelerating!

"Law of acceleration ..."

Lin Yi reacted quickly-this wasn't just pure speed. It was obviously rule power. After all, this was far beyond the limits of a normal living being.

As the name suggested, the rule of acceleration was a rule that specialized in increasing speed. In terms of level, it could only be considered a level three rule.

Not to mention top-notch laws like space and time, even second-grade laws of each element were at least an entire level higher than it!

But that didn't mean it was weak.

The reason why level-three rules were level-three rules was not because their rule power was not strong enough, but because their rule direction was very singular. Unlike top-level rules and level-two rules, which had all kinds of possibilities of expansion, they had almost endless development prospects.

There was only one direction for the development of level three rules.

For example, the petrification rule could only petrify the target, and the toughness rule could only strengthen the hardness of the target.

Another example was the law of acceleration, which could only accelerate the target infinitely!

A single direction meant that it was easy to be targeted. Once they encountered rules that were related to restraint, they would be restrained to death.

Chapter 10028

However, everything had its pros and cons. It also had its strengths.

The lower the level of the rule, the easier it was to increase the control of the rule. It was as difficult as ascending to the sky to increase the control of the high-level rule to more than 30%. However, for the third-level rule, even if it was not easy to obtain, it was much easier.

In addition, although a single direction would be targeted, it also prevented them from being fanciful.

As long as any rule force ability was developed to the extreme, it would have the power to destroy the world, just like the infinite acceleration now!

"It's a little tricky. "

Lin Yi touched his nose and tried to lock onto the man with his spirit sense, but it was still useless.

The principle that speed was the only thing that could not be broken in the world of martial arts was always applicable no matter the level. Just this point alone was enough to make the accelerated rules one of the best among the level three rules.

Moreover, speed was power. While it was extremely fast, it also represented unparalleled impact!

In such a state, even a slight brush could cause his body to collapse in an instant, let alone a direct hit!

The black shadow's voice came from all directions, ""Hehe, the rules of space originally have the strongest mobility, but you actually used a spatial seal to lock your retreat path, taking the initiative to give up the advantage of mobility. Should I call you stupid or praise you for being extremely smart?"

Although spatial lock was an extremely powerful ability, it could seal all spatial abilities without discrimination.

In other words, to a certain extent, this was equivalent to self-destruction of martial arts for spatial ability users. Therefore, unless it was necessary, even those rare and advanced spatial ability users rarely used this move.

Because if he wasn't careful, he might get himself killed.

And this was why the other side dared to stay and face the battle head-on. What was the difference between a self-sealed space ability user and a ready chicken?

"You're telling me this because you want me to unseal the space so you can escape?" Lin Yi laughed.

"....."

The high-speed shadow was obviously choked for a moment. After a long time, he snorted coldly and replied, ""My acceleration is complete, you can only use this kind of mental victory to deceive yourself. Unfortunately, the cruel reality will not help you put on an act.

Since you've made such a stupid mistake, then you should die!"

With that, he locked onto Lin Yi.

He did have the idea of luring Lin Yi to unlock the spatial lock and escape-after all, once he broke through the lock, no one could catch up to his speed!

No matter how much he sneered, a high-level space rule ability user always had the power of a nuclear bomb. This was not something that he could belittle with his words.

Moreover, his mission was only to snatch power supplies. As for fighting head-on with others, this had never been within his scope of business.

Unfortunately, Lin Yi didn't know what to do.

With the danger approaching, Lin Yi was still trying to lock onto the enemy's position with his spirit sense. If it was someone else, it would be a waste of effort, but with his spirit sense, there was still a chance.

As long as they could lock onto the other party's position, even if it was only for an extremely short moment, they could complete a complete reversal of the situation!

This was the inherent characteristic of the law of acceleration. As long as its speed was not broken, it was invincible. However, once its speed was broken, it would be useless!

There was only a thin line between being invincible and being a free man.

The lock-on was complete!

Lin Yi's spirits lifted. He had locked onto his opponent's position at the last moment of his attack. He didn't hesitate to counter-attack!

However, the result was empty.

"You're really smart. I'm such an obvious bait and you believed me. How did you survive until today?"

The black shadow had somehow appeared on the opposite side.

At first glance, they were at least a thousand meters apart, which was a safe distance. However, to him, a thousand meters was not even a distance. It was gone in an instant!

Before he finished his sentence, the black shadow suddenly appeared in front of Lin Yi.

The unparalleled speed brought about an unparalleled impact. The face of the black figure who was a foot away revealed a contemptuous smile. "Top-level laws? Hehe, you're very strong?"

At this moment, Lin Yi's body suddenly expanded and turned into the demon Chiyou at the last moment of the battle.

"You think you can stop me like this? You're so naive!"

When the black shadow saw that the devil Chiyou had split out two giant hands to block it, it sneered. At this level of speed, any direct resistance would only be humiliating.

The reality was as he had expected. The two giant hands looked strong, but in front of his absolute speed, they could not even withstand a single blow.

There was almost no stalemate. The two giant hands were crushed without any suspense.

The winner was immediately decided!

However, before he could be happy, the next scene that followed made his eyes pop out of their sockets.

In the blink of an eye, the other two giant hands of the devil Chiyou suddenly slammed into his body, and two rings of vibration waves visible to the naked eye spread out.

"The laws of vibration!"

The black Shadow's eyelids twitched wildly, but he could no longer stop the power of the vibration from invading his internal organs. His entire body shattered with a bang.

To be fair, in order to adapt to the characteristics of the law of acceleration, he had already tempered his physical strength to far exceed those of the same level. At the very least, there was no doubt about the hardness of the surface of his body.

Unfortunately, the rule of vibration was so strong that it did not attack from the outside, but directly broke through from the inside.

To almost all physical body experts, this was a blind spot that they could not defend against!

"Eh? This is interesting. "

Lin Yi didn't let his guard down just like that. Any other physical body Master would've died from this kind of injury, but the man in front of him didn't fall down just like that. It was as if he'd come back to life!

"Time backtrack?"

Lin Yi faintly felt some kind of extremely mysterious time law fluctuation, and without hesitation, he added two more shock kills.

The black shadow man's recovery process was forcibly interrupted. A moment later, he suddenly disappeared on the spot.

"What kind of monster is this guy?"

The Man in Black didn't leave. After all, the space was still sealed. Even if he had a spatial tool, he couldn't use it. He only forced himself to enter the ultimate stealth state.

Other than the law of acceleration, the ultimate concealment was also his specialty.

It was by using one hand to speed up and the other to conceal himself that he was able to gain the favor of the financial backer behind the scenes. The backer even gave him two precious items that could reverse time in advance to save his life.

In the end, two life-saving items were thrown in at once!

If Lin Yi's alertness wasn't so high, and he didn't make it in time for the shock kill, one item would've been more than enough. Unfortunately, there were no ifs in reality.

Chapter 10029

In fact, even with two life-saving items, he was still shocked to find that his injuries had not fully recovered.

Feeling the tearing pain all over his body, the black shadow Man was shocked and afraid. "Impossible! How can the time backtrack go wrong?"

They didn't know that this was Lin Yi's doing.

After sensing the time backtrack, Lin Yi's second vibration attack already had time rule power. His control over the rules was too low, so it couldn't completely offset his time backtrack, but it was enough to interfere.

The black-robed man had completely lost his previous confidence.

In his panic, he couldn't accurately predict the cause and effect of all this, but he realized that Lin Yi was much stronger than he thought!

He had only been joking when he said that he had kicked an iron plate. With the law of acceleration and ultimate invisibility in his hands, from the beginning to the end, the black-robed man did not think that anyone could really suppress him.

However, at this moment, it seemed that his words had come true.

What was worse was that he was heavily injured and couldn't recover. If he continued to fight Lin Yi head-on, even with the bonus of ultimate stealth, the chances of him killing Lin Yi would be very low.

His only choice now was to hide until the end, betting that Lin Yi wouldn't be stupid enough to stay and waste his time after losing track of him.

As long as Lin Yi unlocked the spatial lock, he'd be able to return to the ocean and make a comeback!

In the end, although Lin Yi couldn't find a trace of him, he didn't leave just like that. Instead, he stayed and even made a meditating posture.

"Pretentious! Let's see how long you can keep up this act!"

The man looked on coldly. He didn't believe that Lin Yi would be this calm.

The position of King hai hai was a huge temptation for anyone, especially for powerful cultivators. This was an excellent opportunity to reach the sky in a single step.

Just think about it, as long as he could get the position of the king of the sea, he could become one of the most powerful men in the entire sea area. In theory, he could even be on equal footing with the sea god Palace and the royal families of the four Seas. Who could resist such a temptation?

He thought that since Lin Yi's strength was beyond his expectations, he must be as determined to win the king of the sea coast battle as his sugar daddy. There was no way he would waste his precious time on him.

After all, it was meaningless.

Lin Yi sat there for three whole days.

“.....”

The black shadow Man was already on the verge of going crazy.

In the state of ultimate concealment, his recovery speed was extremely slow. As an assassin-type expert, his patience was not lacking. He had once hidden for half a year before finally succeeding in an assassination.

But it was different now.

He had an agreement with the financial backer behind the scenes. If he couldn't plunder enough power supplies during this period, not only would he not be able to get the reward he dreamed of, but he would also suffer a fatal backlash from the agreement.

By the way, the two time backtracking tools from before were one of the rewards he had paid in advance.

On the other hand, Lin Yi could afford to waste time in this situation, but he couldn't.

To Lin Yi, the worst that could happen was that he'd just miss the Sea King's position. It was a bit of a pity, but it wasn't completely unacceptable. After all, this kind of special selection system was bound to have a lot of luck involved, and it was only fate if he got it or not. Lin Yi's mentality had always been calm.

However, the black-robed man couldn't afford to lose.

"Alright, alright, alright. You forced me to do this!"

The Man in Black gritted his teeth. If it wasn't for the fact that he had no other choice, he would never take this step. However, he had no other choice but to do this.

He was prepared to use the power replenishment he had snatched earlier!

No matter how confident he was with his speed boost, he lost the confidence to fight Lin Yi with his own strength after taking such a huge loss from Lin Yi.

The only way was to use the Supreme realm power he got and attack Lin Yi!

However, in this way, it was equivalent to arbitrarily intercepting the tribute to the financial backer behind the scenes. Even if they were able to escape danger this time, it would inevitably affect the transaction between them.

Trading came first, this was something he had to do his best to avoid.

However, he had to choose the lesser of the two evils-he had no other choice but to think of a way to save himself after Lin Yi was taken care of.

"What?"

Lin Yi sensed the man's movement immediately.

This guy's ultimate hiding ability was indeed strong. If he didn't move, Lin Yi really wouldn't be able to find him, but now that he was using the power of a Supreme realm, and it wasn't even his own power, it was unrealistic to completely hide all traces.

However, the man didn't show any signs of panic. Instead, he appeared in front of Lin Yi with a calm face.

"Do you really think that you've already got me?"

Lin Yi looked at him and nodded with a sincere face, "That's right, that's what I was thinking. "

"....."

The man choked again-he finally understood that trash-talking to Lin Yi wasn't just asking for trouble.

The point was that in Lin Yi's eyes, these weren't even trash talk-they were the truth.

The truth was the most hurtful.

The Man in Black snorted."You can only be stubborn now. In front of a true Supreme realm expert, I'm really curious if you can still smile!"

"I can't say for sure, but I can try," Lin Yi replied noncommittally.

"Try it?"

"Very well," the man sneered."Your recommender is the sea god's Wayfarer, hai Wutian, who is ranked ninth in the sea god Hall. He's quite a powerful figure. If you die under his power, I don't think you'll die in peace, right?"

Lin Yi blinked his eyes, "I'm sorry to clarify this, but the energy supply you took away before was not mine, so it was not hai Wutian's energy."

"Ha?"

The Man in Black couldn't help but look at him as if he was looking at an idiot. "Did you F * cking lie to yourself and demon Phoenix? When this thing appeared, you were the only one within a hundred miles. If it's not yours, then is it mine?"

He was sure that Lin Yi didn't get any extra energy, which was why he dared to stand out.

He wouldn't be so brazen if Lin Yi had Supreme realm strength in his hands-he'd have a completely different attitude then, and he was a very realistic person when it came to this.

Chapter 10030

Lin Yi smiled, "I'm not lying, mine just came. Look."

As he spoke, a pure power of rules suddenly appeared in front of him. The strength of the aura exuded was at least one level higher than the one that the dark-robed man had snatched away!

This was hai Wutian's true strength.

"What?" the black shadow was dumbfounded. "Then whose was the one before?"

Energy replenishments would not appear out of thin air for no reason. It must have a fixed target before it would land in this area. The black-robed man could not help but be shocked when he thought of this.

Could there be a third person nearby?

There was actually someone who could hide under his nose for so long without leaving a trace. The key point was that he had snatched the other party's power supply. This person's attitude was obvious that he was an enemy!

With that thought, the man felt a chill run down his spine. He was even more afraid of this mysterious third person than Lin Yi!

Lin Yi was a huge threat to him, but the ultimate fear of the unknown was human nature, and even someone at his level couldn't change that.

Lin Yi's lips curled up into a playful smile.

To intentionally remind the other party of this matter was actually a psychological battle. Although it would not be a problem for him to deal with the person in front of him with his strength, he would still use his full strength even if he was a lion hunting a rabbit.

Furthermore, the other party had 10% of the power of a Supreme realm cultivator, so he could be considered a variable.

The most important thing was that Lin Yi had already guessed that there must be other forces behind the other party. He didn't want to reveal too much of his strength before he got to the bottom of the other party.

What if there was someone on the other side who was watching all this?

This time, the black shadow Man, who was originally prepared to go all out, was suddenly at a loss.

If he didn't use his full strength against Lin Yi, he couldn't guarantee that he'd be able to kill Lin Yi in one move. There was no point in fighting with all he had.

But if he went all out against Lin Yi, even if he succeeded, he was still afraid of the hidden third party.

He was in a dilemma!

Lin Yi didn't make the first move-he just waited for his opponent's reaction.

The man hesitated for half an hour. The only good news for him was that Lin Yi didn't take the energy from hai Wutian in front of him, perhaps because he was afraid of being ambushed.

Otherwise, if Lin Yi's strength increased greatly, he would be done for.

However, he wasn't a newbie with no experience. As time passed, he realized that something was wrong when he saw that Lin Yi and the mysterious third party didn't show any signs of making a move.

"You're bluffing?"

The black shadow Man reacted with shock and anger.

Lin Yi raised his eyes with a weird expression. "I don't think I've said anything since the beginning, but I can answer your question. There is indeed a third person here."

"Do you think I'll still believe you? Do you really think I'm as smart as you?"

The Man in Black Thought that he'd seen through Lin Yi's scheme-he wanted to create a third person that didn't exist to make him cower.

His most fundamental intention was to delay time!

It had to be said that the black shadow Man was still something. Although the process was wrong, the results were not far off.

Lin Yi was indeed stalling for time-he wanted to use new world to capture the man!

With the benefits from dugu yixiong, these girls that he'd sent to his door were all green leeks in Lin Yi's eyes. They were treasures from head to toe.

It would be a pity if they were killed just like that. The New World was their best home.

The only problem was that it took time for the New World to capture the target. It could not be interrupted in the middle, so he needed to stall for time.

Otherwise, if the other party were to run away halfway, or if they simply wanted to fight to the death, all their efforts would be in vain.

The Man in Black naturally didn't know the meaning behind this, but since he felt that something was wrong, he wouldn't cooperate anymore. Without hesitation, he used his Supreme realm power and attacked Lin Yi with all his might!

Unfortunately, it was too late.

Just as he finally made up his mind to go all out, he was surrounded by a mysterious force. Then, before he could react, he disappeared.

"What the hell is this place?"

After being captured and brought into the new world, the black-robed man did not think that it was an illusion like dugu yixiong. However, he still felt an indescribable panic.

The most shocking thing was that the moment he discovered Lin Yi's presence and sent out the Supreme realm energy he had gathered in his hand, the energy instantly dissipated!

"It was absorbed?"

The black-robed man was dumbstruck. The powerful trump card that he had expected to be able to end the battle with a single blow did not even cause a ripple. It was just resolved so calmly.

What was even more ridiculous was that he didn't even see Lin Yi raise his hand. It felt like this chaotic space was doing this on its own.

"Let me introduce you, the power supply you just snatched is hers." Lin Yi pouted.

Following Lin Yi's gaze, the man saw the unconscious ning Wanjun. His face turned red, and his brain buzzed from the huge humiliation.

At this moment, even a fool would realize that he had been tricked!

From the beginning to the end, he was the real genius!

"Anything else you want to say?" Lin Yi asked calmly.

After a long time, the black shadow Man finally reacted as if he had been struck by lightning. His voice was bitter as he said, ""I don't have any ill intentions towards you. I just want to steal your power supply. Do you believe me?"

"Of course I do. What's there to not believe?"

Lin Yi nodded, understanding.

The black-robed man's spirit was immediately lifted when he saw this. ""So, there's no need for you and I to fight to the death. It's wrong of me to want to take your things. I can make it up to you. I'll make sure you're satisfied."

Then, he glared at ning Wanjun, ""Besides, strictly speaking, you actually didn't lose anything. There's no need for us to be so tense, don't you think?"

"I'm still at a loss," Lin Yi said, "I've spent three days with you-I might've missed out on a sea crown."

"....."

The Man in Black didn't know how to continue the conversation.

Isn't this F * cking scamming? It's only three days. How do you know that you'll be able to find the sea crown? do you have that luck?
