

Bodyguard 10031

Chapter 10031

However, he was forced by the current situation, so he really didn't have the confidence to say anything tough. He could only smile and say, ""Finding the sea crown is not necessarily a good thing. Forgive me for being honest, but with your strength, you may not be able to hold on for an entire day."

"What if?" Lin Yi smiled.

The black shadow Man was extremely certain. "There are no' what if 'S. You can't imagine how terrifying my financial backer is. I'll say this bluntly. This time, King hai hai has already been set up."

If the others were more tactful and played a supporting role, they might have a chance to escape unscathed.

However, if you overestimate yourself, then I'm afraid you won't even know how you died. From the bottom of my heart, I hope you won't do anything stupid. "

"That means your financial backer behind the scenes is really an extraordinary Big Shot."

Lin Yi replied with a surprised expression.

The black shadow man's heart relaxed, and his face became even more arrogant, ""Of course. Even the royal families of the four Seas are nothing but a motley crew in front of him. They will be destroyed sooner or later!"

The threat in his words was already written on his face.

Lin Yi asked an irrelevant question, "Is there no fifth royal family?"

The Man in Black was obviously stunned for a moment, and then he snorted. ""Do you think that self-proclaimed bullsh * t fifth royal family is worthy of my financial backer's attention?"

Lin Yi nodded.

Just this one comment was enough to roughly determine the position of the Qin family.

The man thought that Lin Yi was hesitating when he saw Lin Yi's silence. He was about to strike while the iron was hot when Lin Yi said, "Since we're done chatting, I'll send you on your way."

After he finished speaking, his figure flashed and he rushed over.

The Man in Black was shocked. He quickly activated the acceleration mode and tried to enter the ultimate stealth mode.

But Lin Yi wasn't affected at all-even the ultimate stealth lost its effect, much to his surprise.

This was his last life-saving measure.

Once this failed, he'd be defenseless in front of Lin Yi-he wouldn't have any power to resist anymore. Otherwise, he wouldn't have wasted so much time and effort on Lin Yi.

One had to know that if his financial backer found out that he was deliberately pulling the Tiger skin to pull off the big flag, the first one to die would be him!

However, all of this was no longer important.

This was because he would never see his financial backer again. With just a face-to-face encounter, the black shadow Man had died on the spot!

In terms of pure strength, even if there was a gap, it would not be too big. At least, it would not be so big that he would not even have the chance to counterattack.

But in this new world, Lin Yi was a God without a doubt. All the rule power the black man had was just a gift to the New World, it didn't affect Lin Yi at all.

Without rule force, he was nothing.

"What a pity, it's just ordinary leeks."

Lin Yi shook his head in disappointment as he felt the feedback from the New World.

If the black shadow Man saw his expression, he would probably die with a grievance.

However, this was the truth. Compared to dugu yixiong, who was an outstanding leek that could easily give away a pile of seagod's belief points, someone like him was at best a defective product. He did not have the self-cultivation of a high-quality leek at all.

Other than replenishing the new world's rule force and consuming the spirit to replenish his spirituality, the biggest gain the man gave Lin Yi was the information on his financial backer.

"Xiao Wudi ..." He said.

Lin Yi really didn't think that this powerful man was actually Xiao Wudi.

He had met Xiao Wudi once before entering the ruins of the Empire. He was Hai Wutian's sworn enemy, the candidate recommended by the sea god's Wayfarer, Zhang Xiangding, who was ranked tenth in the sea god's Palace.

Hai Wutian had a very high opinion of this man, but at the same time, he was also very afraid of him.

As a true Supreme realm expert, it was unbelievable that he would be so openly afraid of someone below the Supreme realm, especially someone like him, who could be considered an elite among the other Supreme realm experts.

According to him, if it wasn't for the freak Lin Yi, he would've given up on the fight for king of the sea.

In fact, even with Lin Yi, Hai Wutian only had a bit of hope.

Even so, to everyone's knowledge, Xiao Wudi was just a hired thug hired by Zhang Xiangding. Zhang Xiangding was the more important person behind the scenes.

However, in the man's memory, his financial backer was Xiao Wudi.

Zhang Xiangding, the tenth-ranked sea God's Wayfarer of the sea god's Hall, was just a cover. Xiao Wudi was the real manipulator.

"What a great game of chess ..."

Lin Yi couldn't fully understand Xiao Wudi's plan from reading the man's memory. After all, the man's position wasn't high, and he didn't know much about the core information.

But even so, the scales and claws that were pieced together by all kinds of marks still shocked Lin Yi.

This Xiao Wudi's style was far greater than he had imagined.

Even Jiang xiaoshang was dumbfounded. "Oh my, this guy actually wants to kill a God?"

For ordinary people, the gods were high and mighty and inviolable. This had almost become an unbreakable iron stamp in everyone's mind!

The word "Deicide" might appear in some small novels, but it would never really appear in reality. Even the new beast God who could be said to have overturned the general structure of a region had not been able to truly accomplish the feat of killing a God so far.

Although the change of power in the beast God Hall was extremely dangerous, it was essentially a change of old and new within the rules and order.

To put it bluntly, everything that the new beast God did seemed to be treasonous, but in fact, he was very cautious and stepped on the edge. He never crossed the red line drawn by the God of creation.

However, Xiao Wudi was different.

All the signs pointed to the fact that everything this guy did was directed at the sea god, and he clearly wanted to kill the sea god!

"Is there any chance of him succeeding?" Lin Yi couldn't help but ask.

He had seen many ambitious people, but this was the first time he had seen someone as ambitious as Xiao Wudi.

Putting everything else aside, if this person were to succeed, it would be a destructive overturn of the entire sea realm. Even the fate of Jianghai city would be affected or even completely changed.

Chapter 10032

"The possibility is zero."

Jiang xiaoshang immediately gave an answer, but then added, ""However, according to the way he's playing, even if he can't really kill a God this time, he'll definitely make a profit without losing anything. He's really good at calculating."

Lin Yi shook his head helplessly, "I don't care how well he plans, but when he plans on me, I can't avoid it even if I want to. I'm born to work hard."

"Acting! Continue acting!"

Jiang xiaoshang rolled his eyes at him. "I'm afraid you're already overjoyed. This guy is definitely the biggest leek in history for you. Dugu yixiong is nothing compared to him."

If you can successfully cut this wave, your strength will at least take a big step forward. At that time, it will be natural for you to want to gain a firm foothold in this Sea area. "

"What are you saying? am I that kind of person?" Lin Yi said with a straight face.

"....."

Jiang xiaoshang was speechless.

At this moment, deep within the ruins of the Empire.

Xiao Wudi had both hands in his pockets as he strolled around leisurely. Combined with his unremarkable appearance of being thin and short, no one would pay attention to him if he were in the outside world.

He looked like a passerby from head to toe.

The only exception was the sea monsters that were sprawled on the ground wherever he went.

This group of vicious and terrifying existences were all trembling in fear. Whenever Xiao Wudi glanced at them, they would bury their heads in the ground. They did not have the dignity of a Supreme realm existence.

"Eh? One of them died?"

Xiao Wudi suddenly stopped and gasped.

In his sea of consciousness, a small dot of light representing the black shadow Man suddenly disappeared into thin air, which meant that the other party had completely lost all signs of life.

However, to be on the safe side, he still took the opportunity to detonate the primordial spirit curse.

Anyone who worked for him, as long as they had reached an agreement with him, would be imperceptibly cursed by him. With a single thought, he could make the other party's primordial spirit self-destruct.

And this was only to prevent the other party from leaking his information.

Although his men only knew a small part of the information, he still activated The Grudge to be safe.

However, what surprised him was that after he activated the Ju-On, it was like a clay ox entering the sea, there was no reaction.

This was a little strange.

One had to know that without his approval, it would be impossible for a primordial spirit that had been cursed by him to self-destruct even if it wanted to. At the very least, it would give him some feedback and warning before it collapsed.

However, there was nothing.

"Spatial isolation?"

Xiao Wudi immediately guessed the right answer. In fact, even an ordinary spatial isolation couldn't completely isolate the connection between him and the Ju-On. Only a high-level spatial ability could do that.

At this moment, a female's voice rang out in his sea of consciousness, "A high-level spatial ability user? If he really is a troublesome person, you'd better kill him in advance. Otherwise, if he finds out about our plan, we'll be in deep trouble!"

"How does he know? Are we going to rely on that little clue that can't even be considered a clue to make a guess?"

Xiao Wudi smiled indifferently.

He had absolute confidence in information control. Other than himself and the person hiding in his sea of consciousness, no one else knew his real plan.

What he didn't know was that there was really someone who could rely on those small scales and claws to reverse-deduce the whole picture behind him step by step!

Of course, this wasn't Lin Yi's ability, but Jiang xiaoshang 's.

Xiao Wudi's plan was well thought out, and it was indeed a genius idea. Unfortunately, there was nothing new in the world.

Jiang xiaoshang could see all of his actions clearly. Even though he could not directly reverse-engineer every step of his plan, the general outline was extremely clear.

If he'd known this, he would've changed his plan and killed Lin Yi first!

Unfortunately, there were no ifs.

Even so, Xiao Wudi still showed some respect, ""Let number five and number seven go over and take a look. However, the key now is still that little girl. The sea god actually sealed most of the divinity in her body. To think that she's already given up on this, hehe."

"The sea god wants to die and then live, but no matter how much he calculated, he still didn't include us. It can only be said that if the heavens want him to die, he has no choice."

The woman's voice laughed.

Xiao Wudi's eyes flickered."First it was the beast God, and now it's the sea god. I have a feeling that more and more Gods Will Fall from their altars. A new era is coming!"

"As long as you grasp this opportunity, you'll definitely be able to soar into the sky with your heaven-defying talent. The next step is to become the master of the sea goddess Hall and suppress the Royal clans of the four Seas. At that time, you'll be the only ruler of the vast sea!"

The woman's voice was also full of excitement. Although she and Xiao Wudi were not related, they were connected by fate during their most desperate times. They were not master and disciple, but more like master and disciple. After such a long time together, she had also poured out her heart and soul to Xiao Wudi, and their bond was quite deep.

"Thank you!" Xiao Wudi returned the favor."Then I can gather the power of the entire sea area and help you rebuild your divine body. That day will definitely come!"

The woman treated him as her disciple, but in his heart, she was never his master. Instead, there was another layer of inexplicable longing for the opposite sex.

It was a pity that the woman was completely unaware of all this.

Suddenly, Xiao Wudi's eyelids twitched. ""I've found that little girl!"

After he finished speaking, a flash of lightning appeared, and he disappeared from his original spot. The group of super sea beasts that had been lying on the ground earlier felt as if they had been granted Amnesty, and they fled in different directions.

After a breath, a dark electric arc suddenly condensed into a human figure again. It was Xiao Wudi.

And at this moment, the person in front of him was a little girl.

If Chu Mengyao was here, she would definitely be shocked, because this little girl was the one she had been thinking about, Xiuyan 'er, who had disappeared for no reason.

However, at this time, Xiu Yan 'er's face no longer had the innocent expression of a young girl in the past. There were no pupils in her eyes, only an unusually pure azure color, faintly revealing a bit of sacred and inviolable aura.

"The sea god?"

Xiao Wudi stopped ten steps away.

Although he believed that his plan was foolproof at this point, and that even the seagod's personal appearance wouldn't change the situation, the seagod was still the seagod, and that invisible deterrence still made him not dare let his guard down.

Even if it was just a God who had lost his divinity, even if he knew that the other party's strength was no longer one-ten-thousandth of his peak, he still could not be underestimated.

Chapter 10033

"An insect like you also wants to blaspheme this God?"

"Bugs?"

Xiao Wudi raised his eyebrows. "What a high and mighty title. It suits your status as a God. Of course, it also suits my future status. After all, I'll be sitting in your position in the future."

"You?"

Xiu Yan 'er's azure blue eyes suddenly emitted two substantial pressures. This was a variant of divine might. Everything in its path was distorted and crushed. Its destructive power was terrifying, enough to beat up 99% of the rules.

A starving camel was still bigger than a horse, and even though the current seagod was in dire straits, he was still a distance away from truly dying of starvation.

Even if the current Xiu Yan 'er wasn't his original body and was just a substitute that he had infused most of his divine spark into, she still had a divine might that couldn't be blasphemed.

Just this point alone made him invincible.

Although Xiao Wudi didn't put his opponent in his eyes, his body chose to Dodge very honestly.

It was common sense not to take a God's might head-on. Even if the other party was already a Phoenix that was no better than a chicken, they still had to give him enough respect on this point.

Xiao Wudi was confident, but he was not brainless.

However, at this moment, the divine might that Xiu Yan 'er released was integrated with her line of sight. As long as her line of sight passed, there would be divine might sweeping past. No matter how fast the average cultivator's movement technique was, they would not be able to avoid it.

After all, how could movement techniques be faster than sight?

However, Xiao Wudi's body turned into a flash of lightning, and Shen Wei could not catch up with him. The scene fell into a strange and shocking stalemate.

"What in the world can be faster than lightning?"

This was Xiao Wudi's greatest confidence.

Normally, even a high-level lightning rule power user could not completely turn himself into lightning, but he could. This alone was enough to make him stand at the peak of invincibility.

Among all the level-two rules, the lightning rule was the most overbearing and unsolvable rule. It had unsolvable speed and terrifying damage.

At this moment, Xiao Wudi didn't even know how he was defeated because he didn't have a physical body.

From head to toe, two words were prominent.

There was no solution.

And this was where his confidence lay in his direct confrontation with the sea god.

"No matter how fast an insect runs, it is still an insect."

Xiu Yan 'er's divine might suddenly erupted. At this moment, the divine might no longer came from her eyes, but from her entire body. It was as if she was about to self-destruct at any moment.

Seeing this, Xiao Wudi's heart skipped a beat. "They're going to die together! As expected, gods are all emotionless lunatics!"

If it was any other cultivator, under the circumstances where their own strength had an absolute advantage, even if they could not cause a fatal injury to the other party for a moment, they would never choose to die together with the other party so rashly.

Even if there was such a reckless person, he would have to hesitate for a while.

However, to the emotionless God, this was just a cold calculation problem. When he calculated the correct answer, even if the correct answer seemed unreasonable, he would not hesitate to put it into practice, just like now.

With such a large-scale explosion of divine might, Xiu Yan 'er, as the carrier, was naturally dead, and Xiao Wudi would inevitably be buried with her under the omni-directional coverage of the divine might.

This was not the result he wanted.

At the critical moment, a graceful and elegant shadow emerged from his sea of consciousness. Her slender Jade-like hand gently pointed, and a cold air immediately enveloped Xiu Yan 'er.

In the blink of an eye, Xiu Yan 'er was frozen into a human-shaped ice sculpture, and the divine might that was already on the verge of exploding suddenly stopped.

"Aunt!"

Xiao Wudi looked at the woman's shadow with a burning gaze. The woman smiled in return, but after releasing the cold air to seal Xiu Yan 'er, her shadow obviously became thinner, as if she was about to disappear from this world.

"Aunt, come back first. Leave the rest to me," Xiao Wudi said hurriedly.

"Alright," he said.

The woman's shadow then re-entered Xiao Wudi's sea of consciousness.

At this time, Xiu Yan 'er's voice came from the ice sculpture, but it carried a rare bit of emotion,""A wandering ghost false god and a self-proclaimed extraordinary insect. You two are a perfect match."

Xiao Wudi didn't take it seriously. Instead, he laughed proudly. "You can scold me as harshly as you want. I also want to see what a God who is forced into a desperate situation will look like. Will he be like us insects?"

"You think you can replace me like this?"

"You sealed your Godhead origin in the sea crown in advance after the last generation's Sea King died," Xiao Wudi said. "As long as I get the sea crown, I'll get the key to the sea God's throne. Am I right?"

Xiuyan 'er seemed to choke and fell into silence.

Many high-level cultivators could predict their own death. As the sea god, he could naturally predict his own death, so he had laid down the foreshadowing in advance. The sea crown was the most important part of it.

Xiao Wudi was right.

After a long time, the sea God's voice once again sounded, "With your insignificant strength, even if you get the sea crown, you won't be able to break the outer seal. The greatest value you can get is to be an undeserved King of the coastal waters."

Xiao Wudi laughed. "I can't break it with my own strength. But what if I gather the strength of hundreds of Supreme realm cultivators? do you think I can break it?"

The sea god was silent.

At any other time or place, such a thing would be a fantasy. But right now, it was happening.

Xiao Wudi had sent people to plunder and replenish their strength because he was preparing for this!

"In order to make them add a power supply rule in the selection, I paid a huge price. If I can only get a mere position of Sea King, then I will suffer a great loss."

Xiao Wudi smiled smugly. "But if I can get the position of the sea god, then it's a big deal. One must be brave, or else how can I be the big winner? what do you think?"

As he spoke, power supplies appeared in front of him one after another. These were the experts he had sent out, and they were beginning to deliver the goods according to the agreement.

In just a short time, Xiao Wudi had been replenished with sixty portions of energy.

And this was only the first batch. There would be a second batch, a third batch ...

With this energy, it would not be a problem for him to become as strong as a hundred Supreme realm cultivators in a short time!

This amount of power was already completely enough to break the seal left behind by the sea god.

Chapter 10034

If it was the sea god in his normal state, with the difference between the God Realm and the Supreme realm, even the most insignificant seal created by a thought would not be something an ordinary Supreme could touch.

It was a pity that he had lost his divinity. Although he was still the sea god in name, his strength was rapidly declining all the time. He was not far from the previous beast God.

Even though it wasn't like the beast God Hall, where one's advisor would be defeated, there wasn't much of a difference between them now that they had the ambitious Xiao Wudi.

The biggest difference was that the new beast God was very cautious and never really overstepped the rules of the God of creation, but Xiao Wudi didn't have any scruples in this regard. That was all.

It was unknown if he had choked or was completely frozen, but the sea god had stopped moving.

Xiao Wudi was unconcerned, 'even deities can play dead? Haha, it's a pity that it's useless to pretend to be dead. Your subordinates don't know your situation at all, and you don't dare let them know, right?'

Normally, The Walking of gods was the spokesperson of the gods, and both sides were a community of interests.

This was especially true for the top-ranking wayfarers of the gods, who were deeply bound to the gods. In theory, this relationship was much deeper and stronger than blood relations.

In theory, it could be said to be impeccable.

Unfortunately, the beast God Hall had just made a precedent of the lower overcoming the higher, which indicated that a new chaotic era had arrived. This relationship that should have been unbreakable was now in danger.

Under the guidance of some power behind the scenes, the gods and The Walking of gods had fallen into a fatal chain of suspicion.

With the sea God's current situation, once he announced his situation, he would most likely not be welcomed with the support of a United will, but one ambitious person after another.

He didn't need many, even one was enough to make him consigned to eternal damnation.

Therefore, he didn't dare to take the risk, nor could he afford to.

"A pathetic God who can only wait for death. Who do you think is more like an insect?"

Xiao Wudi laughed in delight.

For today, he and the woman he called aunt in his sea of consciousness had already planned for a full thirty years. Although this time was nothing compared to the actual position of the sea god, the effort they had spent during this period of time was completely unimaginable to ordinary people.

He had already gambled everything he had.

Now, everything was going smoothly and everything was ready. All that was left was the crucial wind!

Just as Xiao Wudi was feeling satisfied, the two light spots representing number five and number seven in his sea of consciousness suddenly disappeared, just like the situation of the black shadow Man before.

"There's such a thing?"

Although Xiao Wudi still looked nonchalant on the surface, he was still a little concerned.

Number five and number seven were considered to be among the strongest of the experts he had led. In terms of individual combat power, they were definitely top experts below the Supreme realm.

If he didn't use his trump card, it wouldn't be easy to get rid of them in such a short time even if he did it himself, let alone the two of them!

However, Xiao Wudi still had no intention of fighting.

The ruins of the Empire was the home ground that he had carefully chosen, especially since he had set a limit on the cultivation level of all the trial-takers. A group of people who had not even reached the threshold of the Supreme realm could not pose any real threat to him.

In the sea God's words, they were nothing more than a bunch of bugs.

Despite his contempt, Xiao Wudi was not arrogant enough to completely ignore him. He directly ordered remotely, ""No. 1, No. 2, No. 3, you guys go and take a look together."

For the top three experts to move out together, strictly speaking, this was actually quite a big scene.

In his opinion, such a lineup was more than enough.

Soon, the three of them did the same thing as the previous ones. The light spots representing them disappeared in Xiao Wudi's sea of consciousness at the same time.

"Something's not right. "

The woman's voice sounded again, and she suggested with a bit of solemnness, "I think it's time for you to make a trip down personally."

Xiao Wudi raised his eyebrows. "This bug is indeed out of my expectations. But a bug is a bug. My top priority now is to follow the plan. Otherwise, I might lose a lot because of a small loss."

"That's true, but ..."

The woman was still a little worried.

Her identity was extraordinary. At her peak, she was a false god who was only one step away from becoming a god. Her intuition was no longer the same as the sudden impulse of ordinary cultivators. It was almost a warning from the future.

If she was at her peak, she would definitely believe it without a doubt.

It was a pity that her current state was too miserable. She was only left with a half-dead and broken primordial spirit. Most of the methods she used when she was a semi-divinity had lost their effectiveness. This kind of warning was still somewhat credible, but it was really hard to say.

Xiao Wudi comforted her, "aunt, you have to have confidence in our thirty years of hard work. We've prepared for all possible emergencies. Especially now that the most critical step has been completed, we're sure to win."

From beginning to end, Xiu Yan 'er, who had been infused with more than half of the sea god's divinity, was the most important person.

Now that Xiu Yan 'er was in his hands, all he had to do was to gather his power and break the seal of the sea crown in one fell swoop, taking out the other half of the sea god's divinity.

As long as he could combine the two parts of the divinity, he would be able to obtain the complete seagod's divinity, replace it, and rise to the heavens in a single step!

Now that things had come to this, no one could stop him from reaching the top.

This was because those who were truly powerful were blocked outside the ruins of the Empire, and the trial-takers who could enter here were destined to not be able to threaten him.

This was an unsolvable paradox.

The woman was still worried, "just in case ..."

"There's no "what if" here!"

Xiao Wudi cut him off firmly, his eyes shining with firm confidence, ""The position of sea god is mine, no one can stop me, not even a mere insect that doesn't know the immensity of heaven and earth!"

The woman fell silent again.

She also knew that the situation could not be changed now that it had developed to this point. She could only go along with it step by step. Otherwise, not only would it be of no help, but it might also cause more problems and make the situation worse.

In fact, so far, the situation was far from being pessimistic. On the contrary, apart from this small interlude, everything was going smoothly.

As long as he continued, Xiao Wudi had a high chance of winning.

Since he could win while lying down, why did he need to do something unnecessary?

Xiao Wudi couldn't be blamed for being so stubborn. After all, the whole logic was like this, including the woman herself. However, her strong and dangerous intuition kept warning her.

What if the other party didn't follow logic at all?

Chapter 10035

"Aunt, don't worry. Just trust me. I'll be careful."

Xiao Wudi said as he remotely controlled his contracted subordinates through Ju-On, trying to speed up the progress.

Not long after, another lucky person who found the sea crown was dropped.

And just like the previous one, this person also died in the light. From the moment he found the sea crown to his sudden death, he didn't even last for an incense's time, let alone an entire day.

The sea Crown's landing point was refreshed again, and it appeared at another random place.

After a short half a day, the third lucky person appeared. This person lasted a little longer, but it was still only the time for one incense stick to burn.

Then, the sea crown was refreshed again.

Then, the fourth, fifth, and sixth ...

More and more trial-takers gradually realized that the sea crown, which represented great power and benefits, might not be a step to the top for them. Instead, it was more like a terrifying curse.

Whoever found it would die.

However, the game was still going on. The strange thing was that even though many people had come to their senses and wanted to withdraw from this dangerous and unpredictable selection trial, there was no such option.

Once one entered the Sea King's trial, there was no mechanism for them to voluntarily withdraw. There were only two ways to leave the ruins of the Empire.

Either he would die in the trial, or he would wait for the appearance of a new king of the sea. There was no third possibility.

In order to survive safely to the end, many trial-takers no longer took the initiative to approach the place where Hai Wang appeared. Instead, they did their best to stay at the inconspicuous edge.

However, one after another, the lucky ones were still being killed and then quickly died.

"Things are getting more and more interesting."

Lin Yi couldn't help but raise an eyebrow after seeing the eleventh guy die. He clearly saw that the guy didn't approach the ocean Crown on his own accord, but was being chased by it!

Jiang xiaoshang was also speechless."Is this a selection trial? or is this some kind of trick to send food to the Neptune crown?" he asked.

If they had not seen it with their own eyes, who would have thought that the sea crown that everyone was chasing after was actually such a man-eating monster? it would actually take the initiative to chase after the trial-takers?

"The sea crown itself doesn't have a life," Lin Yi said, deep in thought,"so this must be Xiao Wudi's doing?"

Jiang xiaoshang nodded."He must have placed a curse on me. The rule bending power he controls should be the legendary Ju-On. Although it's only a level-two rule, it's the most unfathomable one.

The position of the God of curses is still empty, because no one can really control it, except for the God of creation. "

"If he wants to kill a God and become the sea god, shouldn't he be in control of the ocean's rules? why is it the curse?" Lin Yi was surprised.

Jiang xiaoshang gave him a strange look,""A God throne is just a God throne. Who told you that it must be the laws of the ocean?"

"Isn't that the case?"

Lin Yi blinked. Like most people, he'd assumed this to be the case.

Jiang xiaoshang pouted."Of course not. You can think of these deity positions as official positions in the secular dynasty. Official positions are one thing, but what kind of person is sitting in the official position is another.

Although at the beginning, the God of creation did have such considerations when enfeoffing the gods, he did not set strict restrictions on this.

As long as you have the divine persona, you can sit on the corresponding divine position. Even if the rule power you grasp is not related to the ocean, you can still sit on the sea god's position. "

"That's the first time I've heard of it,"Lin Yi said.

Jiang xiaoshang added,"but then again, it's not to the extent that there's no correlation between the two at all. However, the relationship between the primary and secondary is the opposite of what you think."

If Xiao Wudi really becomes the sea god this time, he can transform the ocean according to his preferences, such as turning the entire sea into the cursed sea!"

After a pause, Jiang xiaoshang added,""Looking at his stance, I'm afraid he's not far from success."

Lin Yi nodded, "eleven unlucky guys dying means that he can harvest eleven waves of energy to replenish his energy. If all of them were to be gathered together, it would be a bit exaggerated."

Although many of Xiao Wudi's men had died under his command, and they were all the best of the best, he could still judge from the clues that there were definitely many experts who had signed a contract with Xiao Wudi!

If Xiao Wudi wanted to collect energy, no one would be able to stop him.

Jiang xiaoshang nodded in agreement. "From the ruins of the Empire, which is a unique venue, to the rules of the sea King selection trial, all of them were carefully designed by him. As long as the snowball starts rolling, it will definitely get bigger and bigger. You have to think of a way."

Even with the New World as the base, Lin Yi would have to run if the enemy snowballed into the sky.

And once the situation developed to that point, his plan to establish a foothold in the sea would be directly destroyed.

But then again, although this sudden situation had caught him off guard, there was an opportunity in danger. If he made good use of it, it would be an unprecedented opportunity.

After all, it was almost impossible to interfere with the power structure at the top of the sea realm under normal circumstances.

This was hai Wutian's true strength.

"What?" the black shadow was dumbfounded. "Then whose was the one before?"

Energy replenishments would not appear out of thin air for no reason. It must have a fixed target before it would land in this area. The black-robed man could not help but be shocked when he thought of this.

Could there be a third person nearby?

There was actually someone who could hide under his nose for so long without leaving a trace. The key point was that he had snatched the other party's power supply. This person's attitude was obvious that he was an enemy!

With that thought, the man felt a chill run down his spine. He was even more afraid of this mysterious third person than Lin Yi!

Lin Yi was a huge threat to him, but the ultimate fear of the unknown was human nature, and even someone at his level couldn't change that.

Lin Yi's lips curled up into a playful smile.

To intentionally remind the other party of this matter was actually a psychological battle. Although it would not be a problem for him to deal with the person in front of him with his strength, he would still use his full strength even if he was a lion hunting a rabbit.

Furthermore, the other party had 10% of the power of a Supreme realm cultivator, so he could be considered a variable.

Chapter 10036

The most important thing was that Lin Yi had already guessed that there must be other forces behind the other party. He didn't want to reveal too much of his strength before he got to the bottom of the other party.

What if there was someone on the other side who was watching all this?

This time, the black shadow Man, who was originally prepared to go all out, was suddenly at a loss.

If he didn't use his full strength against Lin Yi, he couldn't guarantee that he'd be able to kill Lin Yi in one move. There was no point in fighting with all he had.

But if he went all out against Lin Yi, even if he succeeded, he was still afraid of the hidden third party.

He was in a dilemma!

Lin Yi didn't make the first move-he just waited for his opponent's reaction.

The man hesitated for half an hour. The only good news for him was that Lin Yi didn't take the energy from hai Wutian in front of him, perhaps because he was afraid of being ambushed.

Otherwise, if Lin Yi's strength increased greatly, he would be done for.

However, he wasn't a newbie with no experience. As time passed, he realized that something was wrong when he saw that Lin Yi and the mysterious third party didn't show any signs of making a move.

"You're bluffing?"

The black shadow Man reacted with shock and anger.

Lin Yi raised his eyes with a weird expression. "I don't think I've said anything since the beginning, but I can answer your question. There is indeed a third person here."

"Do you think I'll still believe you? Do you really think I'm as smart as you?"

The Man in Black Thought that he'd seen through Lin Yi's scheme-he wanted to create a third person that didn't exist to make him cower.

His most fundamental intention was to delay time!

It had to be said that the black shadow Man was still something. Although the process was wrong, the results were not far off.

Lin Yi was indeed stalling for time-he wanted to use new world to capture the man!

With the benefits from dugu yixiong, these girls that he'd sent to his door were all green leeks in Lin Yi's eyes. They were treasures from head to toe.

It would be a pity if they were killed just like that. The New World was their best home.

The only problem was that it took time for the New World to capture the target. It could not be interrupted in the middle, so he needed to stall for time.

Otherwise, if the other party were to run away halfway, or if they simply wanted to fight to the death, all their efforts would be in vain.

The Man in Black naturally didn't know the meaning behind this, but since he felt that something was wrong, he wouldn't cooperate anymore. Without hesitation, he used his Supreme realm power and attacked Lin Yi with all his might!

Unfortunately, it was too late.

Just as he finally made up his mind to go all out, he was surrounded by a mysterious force. Then, before he could react, he disappeared.

"What the hell is this place?"

After being captured and brought into the new world, the black-robed man did not think that it was an illusion like dugu yixiong. However, he still felt an indescribable panic.

The most shocking thing was that the moment he discovered Lin Yi's presence and sent out the Supreme realm energy he had gathered in his hand, the energy instantly dissipated!

"It was absorbed?"

The black-robed man was dumbstruck. The powerful trump card that he had expected to be able to end the battle with a single blow did not even cause a ripple. It was just resolved so calmly.

What was even more ridiculous was that he didn't even see Lin Yi raise his hand. It felt like this chaotic space was doing this on its own.

"Let me introduce you, the power supply you just snatched is hers." Lin Yi pouted.

Following Lin Yi's gaze, the man saw the unconscious ning Wanjun. His face turned red, and his brain buzzed from the huge humiliation.

At this moment, even a fool would realize that he had been tricked!

From the beginning to the end, he was the real genius!

"Anything else you want to say?" Lin Yi asked calmly.

After a long time, the black shadow Man finally reacted as if he had been struck by lightning. His voice was bitter as he said, ""I don't have any ill intentions towards you. I just want to steal your power supply. Do you believe me?"

"Of course I do. What's there to not believe?"

Lin Yi nodded, understanding.

The black-robed man's spirit was immediately lifted when he saw this. ""So, there's no need for you and I to fight to the death. It's wrong of me to want to take your things. I can make it up to you. I'll make sure you're satisfied."

Then, he glared at ning Wanjun, ""Besides, strictly speaking, you actually didn't lose anything. There's no need for us to be so tense, don't you think?"

"I'm still at a loss," Lin Yi said, "I've spent three days with you-I might've missed out on a sea crown."

"....."

The Man in Black didn't know how to continue the conversation.

Isn't this F * cking scamming? It's only three days. How do you know that you'll be able to find the sea crown? do you have that luck?

However, he was forced by the current situation, so he really didn't have the confidence to say anything tough. He could only smile and say, ""Finding the sea crown is not necessarily a good thing. Forgive me for being honest, but with your strength, you may not be able to hold on for an entire day."

"What if?" Lin Yi smiled.

The black shadow Man was extremely certain. "There are no 'what if's. You can't imagine how terrifying my financial backer is. I'll say this bluntly. This time, King hai hai has already been set up."

If the others were more tactful and played a supporting role, they might have a chance to escape unscathed.

However, if you overestimate yourself, then I'm afraid you won't even know how you died. From the bottom of my heart, I hope you won't do anything stupid. "

"That means your financial backer behind the scenes is really an extraordinary Big Shot."

Lin Yi replied with a surprised expression.

The black shadow man's heart relaxed, and his face became even more arrogant,""Of course. Even the royal families of the four Seas are nothing but a motley crew in front of him. They will be destroyed sooner or later!"

The threat in his words was already written on his face.

Lin Yi asked an irrelevant question,"Is there no fifth royal family?"

The Man in Black was obviously stunned for a moment, and then he snorted.""Do you think that self-proclaimed bullsh * t fifth royal family is worthy of my financial backer's attention?"

Lin Yi nodded.

Just this one comment was enough to roughly determine the position of the Qin family.

Chapter 10037

The man thought that Lin Yi was hesitating when he saw Lin Yi's silence. He was about to strike while the iron was hot when Lin Yi said, "Since we're done chatting, I'll send you on your way."

After he finished speaking, his figure flashed and he rushed over.

The Man in Black was shocked. He quickly activated the acceleration mode and tried to enter the ultimate stealth mode.

But Lin Yi wasn't affected at all-even the ultimate stealth lost its effect, much to his surprise.

This was his last life-saving measure.

Once this failed, he'd be defenseless in front of Lin Yi-he wouldn't have any power to resist anymore. Otherwise, he wouldn't have wasted so much time and effort on Lin Yi.

One had to know that if his financial backer found out that he was deliberately pulling the Tiger skin to pull off the big flag, the first one to die would be him!

However, all of this was no longer important.

This was because he would never see his financial backer again. With just a face-to-face encounter, the black shadow Man had died on the spot!

In terms of pure strength, even if there was a gap, it would not be too big. At least, it would not be so big that he would not even have the chance to counterattack.

But in this new world, Lin Yi was a God without a doubt. All the rule power the black man had was just a gift to the New World, it didn't affect Lin Yi at all.

Without rule force, he was nothing.

"What a pity, it's just ordinary leeks."

Lin Yi shook his head in disappointment as he felt the feedback from the New World.

If the black shadow Man saw his expression, he would probably die with a grievance.

However, this was the truth. Compared to dugu yixiong, who was an outstanding leek that could easily give away a pile of seagod's belief points, someone like him was at best a defective product. He did not have the self-cultivation of a high-quality leek at all.

Other than replenishing the new world's rule force and consuming the spirit to replenish his spirituality, the biggest gain the man gave Lin Yi was the information on his financial backer.

"Xiao Wudi ..." He said.

Lin Yi really didn't think that this powerful man was actually Xiao Wudi.

He had met Xiao Wudi once before entering the ruins of the Empire. He was Hai Wutian's sworn enemy, the candidate recommended by the sea god's Wayfarer, Zhang Xiangding, who was ranked tenth in the sea god's Palace.

Hai Wutian had a very high opinion of this man, but at the same time, he was also very afraid of him.

As a true Supreme realm expert, it was unbelievable that he would be so openly afraid of someone below the Supreme realm, especially someone like him, who could be considered an elite among the other Supreme realm experts.

According to him, if it wasn't for the freak Lin Yi, he would've given up on the fight for king of the sea.

In fact, even with Lin Yi, Hai Wutian only had a bit of hope.

Even so, to everyone's knowledge, Xiao Wudi was just a hired thug hired by Zhang Xiangding. Zhang Xiangding was the more important person behind the scenes.

However, in the man's memory, his financial backer was Xiao Wudi.

Zhang xiangding, the tenth-ranked sea God's Wayfarer of the sea god's Hall, was just a cover. Xiao Wudi was the real manipulator.

"What a great game of chess ..."

Lin Yi couldn't fully understand Xiao Wudi's plan from reading the man's memory. After all, the man's position wasn't high, and he didn't know much about the core information.

But even so, the scales and claws that were pieced together by all kinds of marks still shocked Lin Yi.

This Xiao Wudi's style was far greater than he had imagined.

Even Jiang xiaoshang was dumbfounded. ""Oh my, this guy actually wants to kill a God?"

For ordinary people, the gods were high and mighty and inviolable. This had almost become an unbreakable iron stamp in everyone's mind!

The word "Deicide" might appear in some small novels, but it would never really appear in reality. Even the new beast God who could be said to have overturned the general structure of a region had not been able to truly accomplish the feat of killing a God so far.

Although the change of power in the beast God Hall was extremely dangerous, it was essentially a change of old and new within the rules and order.

To put it bluntly, everything that the new beast God did seemed to be treasonous, but in fact, he was very cautious and stepped on the edge. He never crossed the red line drawn by the God of creation.

However, Xiao Wudi was different.

All the signs pointed to the fact that everything this guy did was directed at the sea god, and he clearly wanted to kill the sea god!

"Is there any chance of him succeeding?" Lin Yi couldn't help but ask.

He had seen many ambitious people, but this was the first time he had seen someone as ambitious as Xiao Wudi.

Putting everything else aside, if this person were to succeed, it would be a destructive overturn of the entire sea realm. Even the fate of Jianghai city would be affected or even completely changed.

"The possibility is zero."

Jiang xiaoshang immediately gave an answer, but then added,""However, according to the way he's playing, even if he can't really kill a God this time, he'll definitely make a profit without losing anything. He's really good at calculating."

Lin Yi shook his head helplessly,"I don't care how well he plans, but when he plans on me, I can't avoid it even if I want to. I'm born to work hard."

"Acting! Continue acting!"

Jiang xiaoshang rolled his eyes at him."I'm afraid you're already overjoyed. This guy is definitely the biggest leek in history for you. Dugu yixiong is nothing compared to him."

If you can successfully cut this wave, your strength will at least take a big step forward. At that time, it will be natural for you to want to gain a firm foothold in this Sea area. "

"What are you saying? am I that kind of person?" Lin Yi said with a straight face.

"....."

Jiang xiaoshang was speechless.

At this moment, deep within the ruins of the Empire.

Xiao Wudi had both hands in his pockets as he strolled around leisurely. Combined with his unremarkable appearance of being thin and short, no one would pay attention to him if he were in the outside world.

He looked like a passerby from head to toe.

The only exception was the sea monsters that were sprawled on the ground wherever he went.

This group of vicious and terrifying existences were all trembling in fear. Whenever Xiao Wudi glanced at them, they would bury their heads in the ground. They did not have the dignity of a Supreme realm existence.

Chapter 10038

It was their destiny that their consumables had been used up. What was so strange about that?

He raised his hand and a bolt of lightning shot out. Lin Yi had never seen such a fast attack in his life. The moment he raised his hand, the lightning with powerful law fluctuations struck Lin Yi's body. He didn't even have the chance to react.

Lin Yi's entire body turned black on the spot, and all signs of life disappeared. He couldn't be more dead.

"Trash."

Xiao Wudi curled his lips in disdain.

However, as soon as he finished speaking, the burnt Lin Yi's body was full of life again. In the blink of an eye, he was back to normal. Not only did his life force not weaken, it was stronger than before.

This burst of powerful vitality actually gave people an inexplicable sense of oppression, as if they were facing some inviolable divine existence!

"Time backtrack?" Xiao Wudi was stunned.

However, this judgment was immediately overturned. Time backtrack could only restore the state to the previous state, but it could not make the state stronger than before.

However, with such an exaggerated instant recovery effect, he could not think of any other possibility other than turning back time.

Even those publicly acknowledged recovery-type rule bending powers would not have such an effect.

This was because although his attack seemed to be done casually, it actually contained a deep curse. Ordinary rule force could not even recover under normal circumstances, let alone recover so quickly.

Little did he know that this was only a realm power, not even a rule power.

If Xiao Wudi had known this, he would have fainted on the spot. How could the moves he was so proud of be neutralized by such a crude thing?

This was impossible!

Lin Yi raised an eyebrow at the disbelieving look on the man's face. "This doesn't seem to be the rule of lightning either. There's even a curse in it. Is it the legendary rule of grudge?"

"At least you have good eyes."

Xiao Wudi's heart sank, but he snorted disdainfully on the surface.

His moves were extremely confusing. In the past, almost all of his opponents would take him for granted and use the same method to deal with him. The result was exactly what he wanted.

In a rule confrontation of the same level, there was an extremely clear restraint relationship.

If he used the same method to deal with the rule of curse, he would die in minutes. Xiao Wudi had always been proud of his little tricks.

In the end, he didn't expect that he would be seen through the moment they met.

Lin Yi continued, "I heard that the curse can not only curse others, it can also curse yourself. If I'm not wrong, you got your lightning power from cursing yourself, right?"

Xiao Wudi was shocked again.

The most terrifying part of the curse was not its power itself, but its mystery.

The more mysterious it was, the harder it was to guard against it, and the more omnipresent it was.

On the contrary, the more one understood about it, the less threatening it would be. Especially if one understood it enough, once it lost the mysterious Halo shrouding it, it would degenerate into an ordinary second-level Maxim, or even be weaker than an ordinary second-level Maxim!

The mysterious ring of light was the foundation of the curse.

"You're just a frog at the bottom of a well, what do you know!"

Xiao Wudi immediately threw out another lightning bolt.

The development of the situation was already showing signs of going out of control. Although it was far from the point of overturning his big plan, he had to nip all these hidden dangers in the bud.

But this time, the lightning didn't turn him into charcoal like before. Instead, it was knocked out of his body by Lin Yi's palm, and he was completely unharmed!

"How is this possible?"

Xiao Wudi finally could not hide his surprise.

Logically speaking, even if his curse was broken, it was still a level-two rule power, not some random cat or dog. How could it not even leave a scratch?

Until Lin Yi's body started to glow with a holy light.

The woman's exclamation sounded in Xiao Wudi's sea of consciousness, "Divine body! He has a divine body!"

"Divine body?"

Xiao Wudi was also shocked.

He had spent decades with this woman, who was a false god from the God territory, and he knew a lot about the gods, including their divine bodies.

"No wonder your rules of curse had no effect on him. The divine body is immune to most rule powers, including your rules of curse. He probably did it on purpose the first time to test the essence of your rules. Otherwise, you wouldn't have been able to hurt him at all!"

"Wudi, we've really run into a tough one this time," the woman said in a grave tone.

Xiao Wudi's face turned ugly.

He knew all too well what the two words "divine body" represented. After all, it was the exclusive property of the gods. Even his own false god at his peak couldn't get a share of it!

Although its level was not as exaggerated as a Godhead, it had the uniqueness of a Godhead. In terms of value, it might not be inferior to the Godhead in the sea crown.

"Why does he have a divine body?"

Xiao Wudi gritted his teeth. Ever since he met the woman, he had been through a lot of ups and downs. He thought of himself as the chosen one, but compared to Lin Yi's divine body, he paled in comparison.

How could he lose to a mere insect in his eyes?

More importantly, there were too many variables in the divine body. It was enough to erase all the advantages he thought he had. After all, in terms of realm, he was only a half-step venerable.

Of course, this half-step venerable was different from other people of the same level. His strength could not only kill people of the same level in seconds, but he could also kill a true golden class early phase venerable.

As long as he wanted to, he could break through at any time. The Supreme realm was never his goal, let alone a mere golden class early phase.

But all his pride as an immortal state warrior was nothing in front of Lin Yi's God Body.

It even looked like a joke.

The woman said, "actually, this is a great thing. Originally, even if you could successfully swallow the seagod's divinity and take over the seagod's position, you wouldn't be able to possess your own divine body in a short time. This is a huge hidden danger."

"Aunt, are you saying that I can use his divine body?" Xiao Wudi asked.

The woman was very certain. "That's right. It seems that I didn't misjudge you. You're the one-in-a-million Son of Heaven's mandate. Opportunities that others can't imagine will be delivered to you spontaneously. As long as you seize it, you'll naturally be able to soar into the sky!"

Chapter 10039

Xiao Wudi was overjoyed and nodded repeatedly, "That's right, it has always been like this in the past, and this time is no exception!"

I was wondering why such a strange guy would appear out of nowhere. How could an existence at the level of divine body appear here?

It turns out that the heavens have specially prepared this for me!

If you don't take what the heavens have given you, you'll be harmed instead. Then I won't be polite and accept it!"

Xiao Wudi regained his confidence as he looked at Lin Yi again. There was no fear in his eyes anymore. Instead, it was as if he had his eyes on a fat prey. He didn't hide his greed.

"For people at your level, the divine body is an unsolvable existence," the woman reminded. "Even the most basic body can't be broken through by any means."

However, you still have me. "

She was a false god at her peak, and she was one of the strongest false gods. She even had a record of being undefeated against a certain God.

Although he was in dire straits now, and his strength in all aspects was completely different from when he was at his peak, he was not at his wits 'end when dealing with a primary divine body.

While the two of them were plotting how to take the God Body, Lin Yi was talking to Jiang xiaoshang.

"It seems that this kid is quite lucky. Guess whose scent I smell on him?"

Jiang xiaoshang deliberately kept her in suspense.

"Don't tell me it's someone familiar?"Lin Yi asked.

"....."

Jiang xiaoshang choked,"you're f * cking right!" I can actually smell the scent of a false god, and this false god is an old acquaintance of my true body. "

"What's her name?" Lin Yi asked.

"The second water god, Li Yuanji."

Jiang xiaoshang explained, "false gods are not true gods. Naturally, they can't be named as water god. However, to be able to obtain the title of the second water god, it shows how outstanding this woman's abilities are among the false gods."

My original body once witnessed her duel with the real water god. Can you guess what the final result was?"

Lin Yi blinked, "she won?" It can't be that bad, right?"

"That's not necessarily the case. It's not that easy to overcome the suppression of a true God on a false god. However, within the time limit, she didn't show any signs of defeat."

Jiang xiaoshang paused and said seriously, ""You can think of it as a draw between her and the real water god!"

"Is a draw rare?" Lin Yi asked, interested.

"Since the gods returned to the throne, there have only been three times where the gods and false gods have tied in a one-on-one battle. What do you think?"

"After that battle, Li Yuanji's name even surpassed many of the other gods at the border. She was ranked first with another person on the rankings.

However, just half a month later, her participation in the rebellion was exposed, and she was personally beaten down by my original self.

Everyone thought that she had completely fallen, but who would've thought that she's actually living in Xiao Wudi's sea of consciousness? the once glorious second water god is now just a broken soul, struggling on with her last breath. It's really sad. "

Lin Yi didn't find this strange at all. In fact, he was quite familiar with it.

He recalled the ghostly thing that was in a deep sleep for some reason.

"So, she's the one behind all this?" Lin Yi asked, realizing something.

Jiang xiaoshang nodded in agreement. "Such a big move is definitely not something a half-step venerable can come up with. Fake deity Li Yuanji must be the real mastermind behind this. Xiao Wudi is probably just a puppet pushed to the front stage."

If I'm not wrong, she wants to use the opportunity of the seagod's divinity falling to reincarnate and recover her peak strength in one go, and even go one step further!"

Lin Yi didn't comment.

After all, all of this was just a guess. As for what the truth was, it could only be known after the dust settled.

Xiao Wudi had finished talking to Li Yuanji by now. He looked at Lin Yi with an indescribable madness in his eyes.

"You should feel honored to be able to witness such a great scene."

Xiao Wudi said without any context.

Before Lin Yi could react, hundreds of energy sources appeared around him. All kinds of rule force fluctuations rose and fell, creating a spectacular scene.

"Woah, you've collected quite a lot."

Lin Yi frowned. He could guess what the man was trying to do, but he still found it hard to believe.

There was actually no difficulty in absorbing energy to replenish itself.

After all, this wasn't a permanent increase in strength. It was only a temporary borrowing. At most, when he used his own body as a container, the burden on his body would be greater, and it might leave some damage, that was all.

However, absorbing one portion and absorbing hundreds of portions were two completely different concepts.

This wasn't just a matter of the body's load, or whether the body's container could hold it at the same time. The more fatal thing was that these power supplies were not the same type of rule power!

No matter how many rule bending powers of the same element there were, the most that could be considered was whether one could consume them. Although it was exaggerated, it was not to the extent that it would make one flinch.

However, the hundreds of power supplies in front of him were a mixture of dozens of rules.

Many of the laws could not coexist, and they were even incompatible with each other.

Even if they were just placed outside, there was already a reaction between them. The feeling of being triggered at the touch was like a huge powder keg, and it was a Super Powder keg that was ignited by a fuse!

If it was any other half-step Supreme realm, they would definitely be trembling in fear and run away.

However, Xiao Wudi didn't run away. Instead, he swallowed all the gunpowder at once!

"This is the real madman ..."

Lin Yi was filled with respect, but he wasn't going to let the enemy finish. He immediately flashed through space and attacked.

Regardless of whether the other party was seeking death or not, since it was something the other party wanted to do, he had to do it the other way around.

Once he used the space rule power, unless it was another space element user, no one could match Lin Yi's speed. Speed had always been his absolute advantage!

However, Xiao Wudi didn't have the slightest intention to compete with him for speed. He just looked at him with a teasing look.

Bang! Bang!

Lin Yi's body stopped abruptly as an invisible barrier appeared in front of him.

"This is ... Water?"

Lin Yi's eyes twitched. In the ocean, water was everywhere like air, and the power it could unleash was a hundred times more than on land.

If it were on land, the water barrier's defensive ability would only be average at best, and rule power of the same level could easily penetrate it.

But now, after Lin Yi's test attack, all the impact was absorbed by Xiao Wudi. Not only did it not hit Xiao Wudi, but even the energy supply around him was not affected at all.

Chapter 10040

"You can just wait for your death."

Xiao Wudi said disdainfully and then began to absorb the energy of the various elements around him.

As the energy rushed into his body, the laws of the curse emitted from his body one after another. Even Lin Yi couldn't help but look at the power.

This guy was actually cursing himself to forcibly suppress the conflict between the various rule powers. To a certain extent, all the power that he had swallowed into his body was now covered in the skin of the power of the curse.

Jiang xiaoshang could not help but exclaim, ""This guy is also a rare fierce and powerful figure!"

Although the various rule forces had been forcibly assimilated into the power of the curse on the surface and would not conflict with each other for the time being, their essence had not changed. The deep conflict between them would always exist.

It was just that it was forcibly suppressed by the power of the curse and did not erupt for the time being.

Unless Xiao Wudi kept cursing himself and decided to walk down this path to the end, there would always be a time when conflict would break out.

The key point was that it was not enough to just release them all at once. From the moment these rule powers were absorbed into the body, the damage caused by the conflict had already begun, and it would continue to expand as time passed.

Xiao Wudi had only used the power of the curse to temporarily cover it up.

Once the lid was lifted, the damage would be unimaginable, and there was a high probability that he would die instantly!

In other words, he was already gambling with his life.

"If he can't replace the sea god in the end, just the backlash from the power of the curse will make him consigned to eternal damnation. He's cutting off all means of retreat."

There was no lack of ambitious people anywhere, but it was rare to see a ruthless and ambitious person who could stake everything on one throw.

Since he had paid such a heavy price, Xiao Wudi had also gained a lot of benefits. He had swallowed hundreds of energy supplies, each of which was ten percent of the strength of a Supreme realm expert.

When all of them were combined together, it was no less than the full power of 50 Supreme realm experts!

Even if he was only at the early phase of the Golden class, this level of power was enough to shock everyone. Even the recommenders outside would be shocked!

Even if it was only a one-time temporary power.

Feeling Xiao Wudi's rapidly rising Qi, even Lin Yi felt an unprecedented pressure. It was a strong pressure that no one had ever faced before.

Even a true venerable like ye Tianbei could not be compared to him!

"It's so scary. "

Lin Yi said, but he didn't have any intention of stopping. He turned into the demon Chiyu and continued with a series of suffocating attacks.

Logically speaking, even an ordinary Supreme realm expert might not be able to withstand such a concentrated and powerful vibration attack.

After all, with the addition of the New World, twenty percent rule control in Lin Yi's hands was comparable to thirty percent or more of the power of other rule Masters.

However, the seemingly ordinary water barrier in front of him seemed to be falling apart every time, but it would dissipate all the impact force cleanly every time.

From the beginning to the end, not to mention disrupting Xiao Wudi's absorption process, there was not even a single aftershock that could affect him.

"So this is the power of a top-tier false god?" Lin Yi said helplessly.

Even with his toes, he could tell that this water barrier was not created by Xiao Wudi, but by the second water god, Li Yuanji!

It was just a simple barrier, but it had an almost invincible effect.

What was even more outrageous was that this barrier had the effect of sealing space. Even with Lin Yi's space rule power, he couldn't find a place to step in.

This was only the technique of a broken primordial spirit, and its strength was not even one percent of its peak!

After all, he'd been in contact with the former beast God before, so he was prepared for this.

However, the other party's performance had far exceeded his expectations.

According to normal logic, the former beast God should have been much stronger than a pseudo-God remnant soul. Why did it feel like that was not the case?

"It's not a bad thing to be able to experience the horror of the immortal state in advance. "

Jiang xiaoshang explained to him calmly, ""The gods who have lost their godhood will quickly lose all their strength. It's actually not that terrifying, but in Li Yuanji's current state, she can still mobilize some of her strength!

Even if it's just an insignificant small part, it's still a huge mountain to you now. After all, that's the immortal state!"

"Then there's no solution?" Lin Yi's head hurt.

As he spoke, he was still trying to break through the water barrier, but there was still no substantial effect.

Jiang Xiaoshang said slyly, "it's hard to say if we're going to fight them head-on. However, we'll have to wait for the right opportunity. It's not impossible to kill them even if they're false gods."

However, before Lin Yi could find the right opportunity, Xiao Wudi had already swallowed all the rule power, and his aura had reached an unprecedented peak.

By a conservative estimate, this was the aura of a golden class early phase peak venerable!

"The foreplay is ready. You can die now, worm."

Xiao Wudi grinned hideously as he broke the water barrier and attacked Lin Yi first.

There was a flash of lightning, and Lin Yi was sent flying!

In front of the body, all rule bending powers were ineffective. At least, against an entry-level Supreme realm rule bending power, in theory, it had a completely immune effect.

Lin Yi was sent flying not because his divine body lost its effect, but because he was hit by Xiao Wudi's physical attack.

The lightning caught up again, and Xiao Wudi's figure appeared in the light. He kicked Lin Yi away again!

So it wasn't him who threw out the lightning, but at this moment, he himself was the lightning!

The heavy strikes landed on Lin Yi's body one after another, and for a moment, Lin Yi had become a human sandbag. At first glance, he didn't have the strength to fight back at all.

At least on the physical level, at least on the surface, he was being one-sided crushed even though he had a divine body!

It was inconceivable.

Lin Yi reacted quickly, "you've turned all your rule power into your body's strength. The curse's rule power can even act as a universal converter. You've really understood it!"

This praise was genuine.

The strength of the rule force was one thing, but how one could play with the rules was another.

Most practitioners would only see the former, but to a true master like Lin Yi, the former only determined the lower limit. The latter was the key to the upper limit.

With Xiao Wudi's abilities, the consequences would be unimaginable if he obtained the sea god's divinity!
