

Bodyguard 10101

Chapter 10101

Although Qin Kaiyun had other children, and some of them were ambitious, they posed no threat to Qin Qing.

First, without the full support of his grandmother, he wouldn't be able to get the approval of the higher-ups, and second, he wouldn't get Lin Yi's approval. This was especially important for the future head of the Qin family!

Anyone with a brain could tell that the future of the Qin family was bound to this King hai hai, and how far they could go in the future depended on what heights Lin Yi could reach.

It wasn't an exaggeration to say that Lin Yi was the current Emperor of the Qin family, especially now that the Qin family had offended the four Seas 'royal families. His every move would decide the fate of the entire Qin family, including their life and death!

Under the old lady's suggestion, Lin Yi and the higher-ups of the house had a drink and a chat, repairing the cracks left behind and laying the foundation for future in-depth cooperation.

At the same time.

The royal families of the four Seas, however, caused quite a stir.

In the palace of the eastern sea, Ao Tian Xia, the king of the eastern sea, looked at the urgent messages from the other royal families of the three Seas. He frowned and fell into deep thought.

Qin Qing was indeed a chess piece that the four Seas 'royal families had carefully arranged. She was the most important method for them to truly control the Qin family.

For a long time, although the Qin family had been working closely with them and had always been known as the fifth royal family to the outside world, advancing and retreating together with the royal families of the four Seas, those with discerning eyes could see that they were not completely of one mind.

Between the four Seas 'royal families and the ocean goddess Hall, the Qin clan's actual attitude was on their side in name, but in reality, they had always maintained a neutral position. They would not actively participate in any actions that were actually disadvantageous to the ocean goddess Hall. At most, they would only be there to act as a figurehead.

It was also because of this that the Qin family was able to walk on a tightrope between the two sides and did not become the first cannon fodder to be destroyed.

But after what happened today, this balance was completely broken. If the Qin family sided with Lin Yi, it meant that they sided with the ocean goddess Hall. This was definitely not good news for the four Seas 'royal families.

The AO family's legitimate sons were quietly waiting at the side.

"Yes!" Ao Yi was the first to break the silence. "Although the Qin family isn't big, they control the sea route to the eighteen levels of hell. We must strike back!"

The rest of the philosophers agreed.

The royal families of the four Seas had spent a lot of effort on Qin Yitong. Other than trying to control the Qin family, they also wanted to find out the detailed sea route map of the eighteen levels of hell.

The reason why the Qin clan was able to cooperate with the four Seas' Royal clans was because they controlled the sea route map of the eighteen levels of hell. This was the most important Foundation for them to establish themselves. Even the four Seas' Royal clans could not lay their hands on it!

Only through the eighteen levels of hell could they establish contact with the land on the other side of the sea Road and Exchange for all the core land resources necessary for the survival of the Marine human tribe.

Other than that, there was no other stable and reliable trading channel in the entire sea.

In terms of land, Jianghai city was on the edge of the ocean, and there were more or less some connections between the two cities. Unfortunately, Jianghai city was only an isolated island without a vast hinterlands and the resources they needed to survive.

Otherwise, with the Qin family's Foundation alone, even if the Qin family's old grandmother's vision was more advanced, it was also impossible to reach today's step.

Only monopoly was the eternal shortcut to prosperity.

Ao Tian Xia's fingers rhythmically knocked on the table, but he didn't give a direct response. He looked at the silent ao si.

Seeing this, ao si understood and said, "father, if it's only the Qin family, there's no need to worry. I'm just afraid that the wind won't stop even if the tree wants to calm down. Someone wants to use this as an excuse to make a big move."

Ao BA snorted, "of course there's someone behind him. I dare say that it's the people behind Lin Yi. Otherwise, he's just an empty title Sea King. What right does he have to make the Qin family bow their heads?"

Although the Qin family's people are trash, at least that old woman's eyes aren't that blind. "

Everyone nodded in agreement.

Even if ao Tian Xia, the one who cast the four Dragon Seal, knew that Lin Yi was the one who ruined everything, he still wouldn't really see him as a threat. In the eyes of him and the other royal families, Lin Yi was just a puppet pushed out by the Poseidon shrine.

The high priest and the top five advisors were the real enemies. As for Lin Yi, he didn't need to be mentioned.

Ao Yi said coldly, "let's cut the crap. Since we've been provoked, we'll just fight. Otherwise, people will think that the royal families of the four Seas are afraid. That will be a big problem!"

Ao si said, "of course we have to fight. But the problem is how to fight. If we attack rashly, what if we fall into the enemy's trap?"

"What if he has predicted your move?" ao BA sneered. "What if he knows that we won't attack him easily, so he's bluffing? what will you say?"

The group of Royal disciples immediately started quarreling.

When ao Tian Xia stopped knocking on the table, everyone's fierce quarrel stopped.

"This is a provocation to the four Seas" royal families. We must respond strongly. "

Ao Tiantian's expression was grave and stern. Immediately, everyone present became nervous. Even the few people who had shouted the fiercest just now could not help but reveal some surprise in their eyes.

All this while, although the conflict between the four Seas "royal families and the sea god Hall had never stopped, there had never been a real battle.

The sea god temple's power was beyond its reach. It did not have the power to directly control the four Seas.

As for the four Seas "royal families, they were still apprehensive. No matter how much they vilified them on the surface, the Poseidon shrine's people were not just for show. If they really got serious, none of them would be able to gain any advantage.

What's more, if they really became anxious, no one could guarantee that the Lord seagod wouldn't personally come!

At least in this Sea region, the godly state experts still had Supreme ruling power.

If not for this, the powerful four Seas 'royal families would not have always held the title of followers of the sea god and were willing to let the sea god temple be the retired emperor above them, even if it was only in name.

Ao Yi's eyes lit up as he rubbed his hands.

Ao si frowned slightly and stopped talking.

Ao BA suddenly stopped talking, and his frivolous expression turned into a deep one, not revealing anything.

Ao Tian Xia took in all the expressions of the three people. As for the other royal family disciples, they were actually just the wings of these three people. No matter how high they shouted, how high they jumped, it was meaningless.

"However, it will still take some time to coordinate the forces of the four Seas' royal families, so we can't rashly start a war. Otherwise, we'll draw fire to ourselves and be broken down one by one. It's not worth it."

Ao Tian Xia's tone changed and he said with a hint, "Do you have any good ideas?"

The royal family disciples looked at each other.

In the end, it was ao si who stood up and said, "it's not convenient for us to go into battle personally. However, we can assume an offensive stance. We will focus on surrounding the Qin family. We must let the entire sea region know the consequences of betraying the royal families of the four Seas!"

Chapter 10102

"We only have one thing to do, and that is to surround them but not attack. As for the rest, we can let someone else do it for us."

The corner of ao Si's mouth curved into a playful arc. "Recently, a new force has emerged in the Huanghai region. The leader claims to be the master of the Huanghai. In just a few months, he has grown to a point where we have to treat him seriously. He has even threatened our territory a few times."

"The Lord of the barren sea? Aren't you afraid that you'll cut his tongue?"

Ao Yi's eyes flashed with disdain.

The rest of the royal family disciples also looked at him with disdain.

The vastness of the sea area was almost impossible to have an accurate concept so far. Although it was generally believed that the royal families of the four Seas occupied the core area, that was purely because the scope of exploration was limited.

The main territory of the Marine human tribe was limited to the four Seas.

Apart from the four Seas, there were still large areas of the sea that had yet to be explored and developed. Other than a few extremely vicious people who had no way out and would charge in to try their luck, the rest were countless extremely powerful sea beasts, as well as ubiquitous killing intent.

Even the royal families of the four Seas could not venture deep into the Huanghai. They had tried to hunt down some forces in the Huanghai but all of them returned in defeat.

Fortunately, the living environment of the Huanghai was harsh. There were only a few strong people who could take root in it. Even if there were some forces gathered, they were not large in scale. Compared to the behemoths of the four Seas, they were not worth mentioning.

Without the cover of Huanghai, none of the royal family disciples would have even looked at them.

Only the Lord of the Huanghai Kingdom, who had recently emerged, had swallowed up many other forces of the Huanghai in just a few months. This was why he had grown so strong that even the royal families of the four Seas had to pay attention to him.

Ao Tian Xia looked at ao si thoughtfully, ""You want to drive the Tiger to swallow the wolf?"

Ao si nodded. "The Overlord of the Huanghai is very ambitious. He has gathered such a group of vicious people. He will not be willing to be trapped in the harsh environment of the Huanghai. As far as I know, he has already set his eyes on our territory."

"He would dare!"

The royal family disciples were furious.

However, ao si said, "it's not a bad thing for him to have such ambitions. He can be used by us. If we promise him the Qin family's territory and let him replace it as the new fifth royal family, do you think he will be moved?"

"Of course he would be tempted to leave the barren sea," said ao BA. "But you've said that he has wild ambitions. Aren't you afraid that you'll only bring trouble to him if you keep him?"

Ao si laughed, "the royal families of the four Seas will conquer the entire sea area sooner or later. If we don't even have this bit of courage, wouldn't we be laughed at? In the end, this is a matter of mutual exploitation. As for who uses who more, with our strength, do we have to be afraid of losing?"

Although everyone was not convinced, their opinions were surprisingly unanimous on this issue.

There was no other reason. The pride of the four Seas 'royal families was engraved in their bones. If they were afraid that they could not even control a bumpkin from a mere Savage Land, this was not worthy of their pride.

"This is worth a try. As long as we can lure the Lord of Huanghai out, we will be undefeatable," ao Tianxia decided.

Everyone came to a realization.

As long as the other party came out, it would be good to be a good hatchet man to deal with the Qin family, but if he didn't know what was good for him, he could just use the opportunity to lure him to death. No matter what, it would not be a loss.

"One last question, which one of you is going to recruit the Lord of Huanghai?"

As soon as ao Tian Xia said this, many people's faces changed and they all shrank their necks.

Pride was pride, but they were still very clear about the dangers of the Huanghai. Especially since the other party was known as the master of the Huanghai, he must be the evilest of the evildoers. To venture deep into the Huanghai to deal with such a figure, it was a huge risk to their lives.

"Since I'm the one who suggested it, I'll go," ao si said with a smile.

The rest of the people naturally had no objection to this. Even ao Yi and ao BA, who were in fierce competition with him, chose to acquiesce. They each had their own advantages and didn't need to take risks in this kind of thing.

Two days later.

Ao si led a group of elite experts deep into the Huanghai. At the bottom of a volcano, they met one of the chief emissaries under the command of the Lord of the Huanghai.

It was a short man.

"Are the movements of the four Seas" Royal clans all so slow? you made me wait for so long. You must be very angry. "

Although this person's figure was small, his aura was unexpectedly vast and mighty. As he spoke, he was spinning an extremely rare object in this Sea area at an extremely fast speed.

Fingertip spinning top.

"Impudent! How dare you be so rude to the fourth prince!"

The elite attendant was immediately furious, but ao si reached out his hand to stop him. He looked at the other party with a faint smile and said, ""How should I address you?"

"Fortune envoy," the short man said awkwardly.

Ao si nodded slightly. "I've long heard of the four messengers of Huanghai's reputation. They are famous for their wealth, understanding, eliminating evil, and subduing evil. They are all new masters who have risen to fame. Today, I've seen them for myself. They are indeed well-deserved."

The short man played with the spinning top on his finger nonchalantly and looked at him with interest. ""I'm just a golden class early phase venerable, and you're able to say things like you've heard of me for a long time. As expected of a Royal, you're pretty thick-skinned. "

"You deserve to die for speaking rudely to the fourth prince!"

The group of experts flew into a rage.

If the master was disgraced, the subject would die. This time, they were specially chosen by ao si to be brought out. Naturally, they were all ao Si's trusted subordinates who had been carefully trained.

From their point of view, a golden class early phase venerable didn't even have the right to talk to ao si. Now, he was being disrespectful to ao si. He really didn't know what was good for him!

If they were not in the Huanghai desert, they would have already executed him on the spot!

As ao Si's personal guards, they were the elites of the elites even among the entire royal family of the four Seas. Each of them was at least a mid-stage golden class venerable.

To deal with the person in front of them, any one of them could easily kill him in one move.

However, the short man in front of him was not nervous at all. Instead, he showed a playful smile. "Oh, so I've lost my composure. Then I really do deserve to die. Why don't you guys send me on my way?"

One of them was fearless.

The group of accompanying experts immediately felt a great humiliation. Under the prestige of the four Seas' royal families, others would tremble in fear when they saw them. 80% of them would flatter them, and even the remaining 20% would stay away from them.

Who would dare to provoke him like this?

However, ao si suddenly stretched out his hand to stop everyone. ""Stand down. Don't be rude to the moneymaker. Don't forget what we're here for!"

He didn't think a golden class early phase venerable would have much confidence, though-he was just a frog in the well who hadn't seen the real world.

However, the other party was, after all, a subordinate of the Lord of the Huanghai territory. If they were to fall out here, it would be extremely difficult for him to carry out his plan of driving the Tiger to swallow the wolf.

He was a man of great ambition, so he naturally did not lack shrewdness.

Chapter 10103

Seeing this, the moneymaker was a little disappointed. ""You royal families just like to chit-chat. You're not straightforward at all. Boring."

"I'm sorry for not being strict with my subordinates. "

However, ao si did not take it seriously at all. Instead, he probed with a meaningful sentence, ""It seems that you still have some doubts about joining forces with the royal families of the four Seas?"

When a person reached a certain level, every move they made would have a deeper meaning.

Although the person in front of him seemed weak, he could be one of the four messengers and was one of the few people most trusted by the Lord of Huanghai. His deliberate neglect was definitely not as simple as he seemed on the surface. He was most likely trying to test him.

The moneymaker replied casually, "doubts?" I'll be honest with you, my boss doesn't believe that you'll ever be a royal family of the four Seas. You just made up a big story and wanted us to beat up the Qin family. You're not practical at all. Do you think you're fooling two fools?"

Ao si frowned. "I am here with full sincerity. As long as the master of the Huanghai agrees to cooperate, I will immediately offer you the resources that you are most lacking. After the matter is settled, you will be the new fifth royal family and be on equal footing with the royal families of the four Seas!"

As he spoke, he ordered his attendant to bring out a large number of cultivation resources. There were all kinds of medicinal pills, materials, and weapons. All of them were rare and precious treasures!

It was known that the private collection of the four Seas' Royal clans was the best in the sea area. It was rumored that at least 60% of the rare resources in the sea area were in the treasure vaults of the four Seas' Royal clans. The dream of countless people in the sea area was to take a walk in the treasure vaults of the Royal clans.

Unsurprisingly, the moneymaker showed a drooling expression.

"As long as we reach an agreement, all of these will be yours," ao si said enticingly with a faint smile.

The moneymaker swallowed his saliva greedily. "These are good things, but my boss said that no matter how good these things are, they're still poison. Who knows what you're selling?

What if you're just making up an excuse to trick us out before you take action?

Hehe, the blood debt between us is not small. The hatred your Four Seas "royal families have for my boss is probably not any less than the Qin clan, right?"

"....."

Ao Si was silent.

Driving the Tiger to swallow the wolf was a plan to kill two birds with one stone. After dealing with the Qin family, this group of Huanghai bandits would become a big problem. Naturally, they had to be eradicated.

As for the so-called new fifth royal family, it was just a saying.

After a while, ao si smiled. "It is excusable for you to have such concerns. However, I have come with great sincerity. We can sit down and talk about all your concerns until we can come up with a plan that is satisfactory to both of us."

"There's no need to make it so complicated. My boss has already thought of the conditions before we came. "

The moneymaker raised a finger. "Just one. Give us the sea Map of the 17 levels of hell, and we'll agree to cooperate!"

"The sea Map of the 17th floor of hell?"

Ao si couldn't help but frown. The sea road to hell was the key to connecting to another land. Other than the most unfathomable 18th level of hell, which was in the hands of the Qin family, the first 17 levels of hell were in the hands of the four Seas 'royal families.

Only by piecing all the sea routes together could a complete passage be outlined.

If any of them were missing, the other families could only watch helplessly.

It was also because of this that the Qin clan had the opportunity to be on equal footing with the four Seas 'Royal clans. At least in terms of speaking rights on this hell Sea Road, it did not lose to the four Seas' Royal clans, and was even slightly superior.

After all, although the seabreeces in the first 17 levels of hell were extremely complicated, if one was willing to risk their lives to go there, there was still a certain chance of clearing a path without a seabreeking map.

But the eighteen levels of hell were different.

The complexity of the sea Road within it was more than a thousand times more complicated than the previous seventeen levels of hell. The Royal clans of the four Seas had used human lives to fill it up for countless years, but they had never been able to fill it up. In the end, they had to rely on a Sea Road map from the Qin clan's old grandmother to truly open it up.

Now that they had fallen out with the Qin clan, the sea road to hell was cut off. Even the powerful royal families of the four Seas were helpless.

They could only blame the Qin family for keeping it a secret too well. They had infiltrated for so many years in the open and in the dark, but in the end, they still did not have any substantial achievements.

It wasn't easy to use the four Dragon Seal to control Qin Yitong, trying to get the map out of him after he took over as the head of the Qin family. But Lin Yi ruined everything!

Once the sea route to hell was broken, the resources that the Marine humans needed for their survival would no longer be available.

Although the various clans' reserves could barely support them for a period of time, it was only for a short period of time. The reserves would eventually be used up. At that time, if the sea road of hell still couldn't be restored, it would be a disaster for the entire sea realm's sea human race!

That was why the royal families of the four Seas were so anxious that they did not hesitate to lower their status and pay a high price to tempt these bandits of the Huanghai desert who were not even worthy of their attention!

The moneymaker said faintly, "since you have promised my boss to be the new fifth royal family, this is the most important sincerity. Otherwise, how can my boss be the fifth royal family without even a Sea Map of the hell sea?"

With just an empty title, they want to trick us into fighting to the death, and if we don't handle it properly, we might even have to go against the sea god Hall. Hehe, we're not that stupid. "

"This is a matter of great importance," ao si muttered. "It's not just a matter of the East Ocean, but also of the royal families of the other three ocean. I have to go back and discuss it before I can give an answer."

"There's no hurry. You guys can discuss it slowly. My boss can afford to wait anyway."

The moneymaker chuckled and turned to leave without another word.

Ao si gave a signal with his eyes, and a follower who specialized in tracking hurriedly followed him.

The trickiest thing about this bunch of bandits was that no one knew where their lair was. If they could find out where it was, it would not be difficult for the royal families of the four Seas to destroy them.

However, after a short while, the follower returned with a dejected face.

"What?!" Ao Si was shocked. "You're a mid-stage golden class venerable, but you can't even keep up with an early stage golden class venerable?"

The follower smiled bitterly, "that person didn't seem to be strong, but his movement technique was extremely strange. He was almost as strong as me."

Moreover, this is the barren sea, where all kinds of sea beasts and ultra-sea beasts live everywhere. He's familiar with the route and can come and go as he pleases, but I was attacked as soon as I entered, so I really can't follow him. "

"Alright, thank you for your hard work."

Ao si did not blame him too much. Although he was inevitably a little disappointed, this was like cutting grass to kill a rabbit. Even if he did not hit it, it was not a loss.

Ao si immediately led his men back.

Chapter 10104

On the other side, after the moneymaker got rid of its tail, it quickly returned to its lair. At this time, a group of people were drinking, and the scene was very lively.

"You're back? Come, come, come, let's drink two cups to quench our thirst!"

A middle-aged man stood up. If Lin Yi was here, his jaw would've dropped. This man was the long-lost third seat of the Jianghai Academy's Academic Council, Zhang Shichang!

He was not the only one. Shen Qingnian, the second seat of the Academy, was sitting beside him!

The rest of the people present were either members of the warrior's Department or their own officials. They were all familiar faces in Jianghai Academy.

"Damn it, you guys only know how to hide and relax. Why must I deal with that stupid bird royal family!"

The moneymaker cursed, his signature finger-tip spinning. He was the first old friend Lin Yi made when he first entered Jianghai college, Han Qi.

If word of this were to get out, it would definitely catch the eyes of everyone in Jianghai Academy.

Not only were they not exterminated as the rumors said, they even came to the sea area and made a name for themselves. They became the tough bandits of the Huanghai that even the royal families of the four Seas wanted to recruit!

What was even more outrageous was the fact that everyone here had all become golden class early phase Venerables!

It was simply unimaginable.

Even with Lin Yi's background and all his miraculous encounters, he was only an early phase golden class venerable on the surface.

With their strength and Foundation, even if they really encountered a heaven-defying opportunity, at most, only a few people like Zhang Shichang, Shen Qingnian, and Han Qi would have a slight chance of breaking through. How could it be possible for all of them to advance together?

One must know that the difficulty of breaking through to the Supreme realm was extremely high. Even Luo Banshi, a peerless figure, had been stuck for so many years, and even now, he did not dare to say that he had succeeded!

Shen Qingnian laughed. "Who asked us to be cursed by the evil god? we can't go out as we please. Only you have a special Constitution. You can only do more work for the capable."

Han Qi curled his lips. "Master Tian's plan not only included us, but also the forces of the sea and even the evil gods. I really don't know how to end such a big game!"

"We've already reached this stage, why are you still talking about this? Furthermore, if it wasn't for his schemes, we brothers might not even be able to step into the Supreme realm in this lifetime. Even if we have to bear the curse of the evil god, I think it's worth it. "

Zhang Shichang laughed heartily, "plus, he told us to wait for Lin Yi. Naturally, Lin Yi will be in charge of cleaning up the mess. What's there to worry about?"

"I don't even know how to contact him. Why don't I leave this to you?" Han Qi rolled his eyes at him.

Zhang Shichang shook his head. "That's not possible. I'm the Lord of Huanghai now. I'm too big a target. I don't know how many eyes are watching me. Brother, you have to do this yourself."

"I'm not counting on you. "

Han Qi said, speechless.

They were sent here by Tian Xiangyang to act as Lin Yi's Vanguard. Their only mission was to cooperate with Lin Yi's next move.

The problem was that they knew what Lin Yi was doing through the news, but that was all. It wasn't easy to get in touch with Lin Yi without anyone knowing.

"What did they say about the sea Map of the 17th floor of hell?" Shen Qingnian asked.

Han Qi spread his hands, "what else can I say? it's just as you predicted. Let's go back and discuss it .."

Shen Qingnian laughed, "if that's the case, then it's most likely a success. Lin Yi is now in control of the Qin family. It's not hard for him to get the map of the eighteen levels of hell. If we can get the first seventeen levels, we can complete the sea road to hell."

When the time comes, we'll have a lot more room to maneuver once we've successfully broken through, and we'll have a bright future ahead of us. "

"It's a good idea, but it's still unknown if it'll succeed. "

However, Han Qi looked a little worried.

However, it turned out that his worries were unnecessary. Only one day later, ao si brought his people back to the agreed place last time. The first thing he said was good news.

"Your request for the sea Map of the first 17 levels of hell has been discussed internally. I will now give you a reply on behalf of the four Seas 'royal families. We can agree to it on principle!"

Ao si looked at Han Qi expectantly and said, "Can you bring me to the master of the Huanghai desert now?"

However, Han Qi stretched out his hand and said, "Where's hailutu?"

"....."

Ao Si was stunned for a long time before he said, ""Such an important item can only be handed over after an official agreement is reached with the Lord of the Huanghai territory. How can it be taken lightly?"

Han Qi looked at him from the corner of his eyes. "My boss said that I am fully in charge of the negotiations. I am not allowed to go back to see him without the sea Map. Are you deliberately making things difficult for me?"

Looking at this guy's uncouth attitude, ao si suddenly had a stomach full of vulgarities.

This guy didn't play by the rules at all.

As a member of the royal family of the four Seas, even if he wanted to lure the other party into being his hatchet man, he should still be the party who had the initiative in the negotiation. After all, the difference in strength between the two parties was obvious. They were not on the same level at all.

Who would've thought that this guy would be so fearless, as if he had him in the palm of his hand. It was really hard to understand!

However, in the end, ao si still forcibly suppressed his anger. ""The map is so important that I naturally won't bring it with me. If you're in a hurry, why don't you come with me to my royal family's base?"

In his opinion, the other party would not have the guts to follow him back. After all, once they left Haiti boundary of Huanghai, it would not be easy for a golden class early phase venerable like him to escape.

In the end, Han Qi did not hesitate and agreed, "Alright, then I'll have to trouble myself to make a trip with you."

"....."

Ao si couldn't help but look at him again. He couldn't help but have some doubts in his heart. He agreed so readily. Could it be that he really had some incredible backing?

However, on second thought, as long as they were in his territory, no matter how strong the other party's backing was, it would be useless.

Even the sea goddess Hall had to keep a distance from the four Seas "Royal clans. What kind of powerful trump cards could a mere Bandit have?

At this moment, ao Si's eyelids suddenly twitched. He then revealed a playful expression, "It seems that the Fortune envoy has chosen the right time."

"What do you mean?" Han Qi looked at him.

"Just a moment ago, I received news that the newly promoted Sea King wanted to mediate and brought the Qin family over to talk with the royal families of the four Seas. It's a good opportunity for you to observe them up close and know your enemy."

Ao Si's meaning was obvious.

Chapter 10105

Their target wasn't just house Qin-it was Lin Yi, or more accurately, the people behind Lin Yi.

As far as they knew, Lin Yi alone wouldn't be able to cause this much trouble!

"Then I'm really interested in taking a good look at it." Han Qi smiled meaningfully.

Eastern Sea Royal Palace.

From ao Yi, all the core disciples of Eastern sea's royal family were present. Opposite them was Lin Yi, and below him was Qin Qing and the higher-ups of the Qin family.

Although the King of the East Sea, ao Tian Xia, did not appear in person, and the other three sea royal families did not send representatives, this was a rare scene in the East Sea.

After all, the royal family of the eastern sea was the leader of the four Seas. When ordinary forces of the sea came here, they had to act as if they were foreign officials. It was already an honor to be received by any royal family, let alone all the members.

However, on the surface, they were still not on the same level.

After all, Lin Yi was the king of the ocean, and he was competing with the King of the East Ocean.

Qin Qing came up and immediately fired. "The Sea King is here to host the meeting on behalf of the sea god Hall. The leaders of the four Seas 'royal families don't even show their faces. Aren't you being a little too arrogant?"

Ao BA sneered back. "You're indeed the future successor of the Qin family. Your aura is much stronger than before. What's wrong? isn't this the time to be chased by the girl's parents?"

The royal family disciples burst into laughter.

Qin Qing's face turned red. This was his dark history.

In the past, when he had been fooling around, although those women were generally loyal to him, the elders in their families could not tolerate it. He had been hunted down by the women's parents more than once or twice, and had been forced to ask for help from the royal families of the four Seas several times. This was already a well-known reserved program.

Qin Qing choked, and the entire Qin family's aura weakened.

All the higher-ups of the Qin family were worried, but they didn't expect Qin Qing to perform so well, so they all looked at Lin Yi.

The Qin family's old grandmother and head of the house, Qin Kaiyun, didn't show up. Lin Yi was the real backbone of their trip.

Lin Yi glanced across the crowd, his eyes sweeping past Han Qi, and a knowing smile appeared on his face.

Then, he turned to the AO clan brothers and said, ""Let's get down to business. I've come here for two things. The first is to represent the sea goddess Hall to inspect the execution of the Oracle.

The second reason is that your Four Seas "Royal clans and the Qin clan have had some minor conflicts recently. The ocean goddess Hall's opinion is that the overall situation should be more important, so it's best to sit down and discuss everything. Otherwise, it'll be bad for each other and even the entire sea realm if the harmony is damaged.

After all, you're the ones who control the lifeline of the entire marine human tribe. "

The group of ao family brothers showed a disdainful look.

"From what you're saying," ao Yi directly retorted, "you're saying that you, a coastal Sea King, can represent the will of the sea god Hall?"

"If these words came from the mouth of the high priest or the first Walker, I would think it's somewhat convincing," said ao BA with a sneer. "But you, a coastal Sea King who got your position by luck, put on such a high and mighty attitude. Don't you think it's too ridiculous?"

Only ao si didn't sneer at Lin Yi in front of him. He looked at Lin Yi with a judgmental gaze.

Lin Yi didn't say anything. He took out a map and placed it on the table.

Everyone looked at each other. Finally, someone couldn't help but step forward curiously. However, he was stunned after taking a look.

"The divine decree of grace?"

This map covered all the territories of the four Seas 'royal families. However, unlike the current centralized state, the four families were divided into many areas, and each area was marked with a name. These were the core royal family descendants who had the right to inherit.

The AO brothers 'eyelids twitched.

"What do you mean?" ao Yi looked at Lin Yi coldly.

"The Lord Poseidon's orders must be carried out," Lin Yi said faintly. "Anyone who disobeys on the surface is an enemy of the Poseidon shrine. As for this map, it's a plan the high priest and the top five came up with."

The sea god Hall has fully considered everyone's interests and will come out to guarantee everyone's interests. As long as you distribute according to this map, the sea god Hall will immediately give you an official title. "

This was an undisguised plot to divide the royal families of the four Seas.

As the most powerful competitor, ao Yi would definitely not agree. According to the normal development, he would not only get a small piece of the map, but the whole royal family of Dong Hai!

However, from the perspective of the other ao clan brothers, looking at the map in front of them, they had a different feeling.

With their strength, there was no hope of normal competition. They could only rely on those few people to make a living.

The key was that even if they got the right person, the reward they would receive would be limited. There was a high chance that they would only be rich and idle. Prince ao tianchou was their ceiling.

On the other hand, if they really carried out the order of gratitude, even if the territory assigned to them was not big, it was still real territory!

With a territory, they would have the capital to make a fortune. This was something that they had always dreamed of.

Even though they knew that this was an open scheme to split them apart, the AO brothers' attitudes still changed. The most direct change was that they weren't as aggressive towards Lin Yi as before.

Ao Yi looked at his brothers and said in a deep voice, ""How are we going to execute the order of shirking grace? this is the internal affairs of the four Seas" Royal clans. It's not good for the sea god Hall to interfere so rashly, is it?"

Lin Yi smiled, "please don't misunderstand. This is the guidance from the sea god's Palace. The details will be decided by your internal discussions. But there's one thing."

"The Poseidon shrine needs to see clear progress. Within ten days, the royal families of the four Seas must come up with a clear distribution plan as the role models for all the forces in the sea. It'll save us time and internal friction."

"....."

Everyone was speechless.

You're obviously urging us to have an internal strife, and you still have the face to say that you don't want us to waste our time?

Ao Yi couldn't help but flare up. However, ao Si was the first to speak, ""This matter is of great importance. We can only give you an answer after discussing it with father and the other royal families of the three Seas."

"Of course, my mission is only to supervise. I will not give orders."

"But I have to say this first-the medallion of grace is a Gift from the Sea god, and we should all accept it with gratitude." Lin Yi added.

Every member of the royal family has the right to inherit their share. They can discuss and discuss it, but they must not fight with each other, or else things will turn bad. "

The group of ao clan brothers looked at each other with complicated expressions.

Chapter 10106

Everyone's faces were filled with disapproval, but their subtle expressions revealed a completely different meaning.

Ao Si's head hurt, and he raised his guard against Lin Yi.

It didn't matter how high and mighty he and his gang were, or how much they looked down on these bumpkins who rose up from the grass-Lin Yi's position gave him the initiative.

It was a simple move to threaten the Emperor and command the vassals, but it had forced them to passively receive the attack. The key was that it was really effective!

The invisible crack had been buried. If they could not find a way to eliminate it, and let the seeds of suspicion grow infinitely, it would be a great trouble for the entire royal families of the four Seas.

Lin Yi took in everyone's expressions and smiled, "Regarding the Oracle's order of grace, I should have already conveyed the sea god temple's message. Let's move on to the second topic."

With just one sentence, ao si and the others immediately looked up to him.

If the sea god temple wanted to deal with the royal families of the four Seas, the Oracle and the writ of grace would be the best starting point. According to normal logic, they would definitely try to make a big deal out of this.

He didn't expect Lin Yi to just brush it off lightly.

However, the more it was like this, the more it made some people scratch their hearts.

If he pushed them too hard, they wouldn't dare to show their faces. On the contrary, if they were given time to react and Let the Bullets Fly for a while, things would often change miraculously.

"It's too boring to talk about things like this," ao Yi suddenly said. "Why don't we hold a banquet and have a martial arts competition to liven things up?"

He ordered his men to do as he said, not giving Lin Yi and the others any time to react.

He was trying to take back the initiative.

Under ao Yi's eye signal, a master behind him stood out immediately. He released his aura at once. He was a golden class middle phase venerable!

"Ao family Army's deputy commander, ao Wenwu, is here to seek guidance from everyone!"

The higher-ups of the Qin family all turned to look at Lin Yi and Qin Qing.

Although the Qin clan's Foundation was deep, it was still not enough to compare with the behemoths of the four Seas 'royal families. Not to mention the outermost guards, even among the specially hired guest officials, there were few experts of this level.

In the end, it was one of the accompanying priests who stepped out, his aura released-he was also a mid-stage golden class venerable!

The AO family's Army was only the outermost basic force of the four Seas' royal families, and they competed with the sea goddess Hall's temple guard Army. They mainly focused on large-scale group battles, and in terms of individual strength, they could only be considered at the bottom among all the fighting forces of the four Seas' royal families.

On the other hand, the sinecures here were already the highest level of individual combat strength that the Qin family could bring out. The difference between the two was clear at a glance.

"You have to win."

Qin Qing ordered in a low voice.

They had already been suppressed by the other party in terms of their lineup. If they still couldn't win, it would be a heavy blow to the morale of the entire team. The subsequent negotiations would be truly difficult.

After all, to a certain extent, this already represented the absolute difference in strength between the two parties. Once the other party confirmed that you couldn't withstand a single blow, it would be a fool's dream to fight for any substantial benefits on the negotiation table.

The consecrator nodded and leaped onto the stage.

Ao Wenwu grinned. He did not even bother to offer a greeting gift. Without saying a word, he charged forward without any defense.

"This guy is so arrogant!"

Everyone in the Qin family frowned.

In a battle between experts of the same level, they would definitely be extremely cautious. They would never use such a method to attack before they had probed out the other party's true trump card.

This only meant one thing-even if they were both mid-stage golden class Venerables, their own hired help was not worth mentioning in the other's eyes!

The following battle proved this point.

In the face of ao Wen Wu's fierce attacks, the Qin family sinecures had fallen into a huge passive position from the start. Throughout the entire process, they could not find any opening or opportunity to counterattack.

Qin Qing's palms were sweating as he watched. He couldn't understand a battle of this level with his eyes. He asked Lin Yi in a low voice, "Do we have a chance to turn the tide?"

"Very unlikely," Lin Yi shook his head.

In fact, he had already sentenced the Qin family's Guardian to death.

On the surface, they were both mid-stage golden class Venerables, but in reality, they were on two completely different levels. The difference between the strong and the weak was obvious in his eyes.

However, Qin Qing still held a trace of hope. "This consecrator likes to defend and counterattack. I've seen him fight with other experts a few times. Every time he comes up, he's always on the defensive. However, he can always find an opportunity to counterattack after a stalemate. There shouldn't be any problem this time, right?"

Lin Yi still shook his head, "a long defense will lead to a loss. A real defensive counterattack is a dynamic defense. You have to put pressure on the opponent from time to time during the defense so that the opponent can't fully unleash their offense. Only then will you have the chance to counterattack."

But now ...

Even though the Qin family's Guardian was not injured, and his defense seemed to be impenetrable, he could not put any pressure on the other party at all. In front of the other party, he was a pure human sandbag.

It was just that this sandbag was more durable than the average one, that was all.

And this was clearly different from his usual defensive rhythm.

Sure enough, although this battle lasted for a long time, in the end, the Qin family's consecrated expert did not pose any substantial threat to the other party. The turtle shell that he was forced to create was shattered by someone.

Even if he was forced to launch a desperate counterattack in the end, it was completely under Ao Wenwu's control, and the desperate counterattack that he had put all his eggs in one basket ended up in vain.

BOOM!

The Qins "hired help" was sent flying, landing right in front of Lin Yi.

"Next,"

Ao Wenwu said, but his eyes were on Lin Yi. The word "provocation" was written on his face.

Lin Yi narrowed his eyes.

Of course, it was not his turn to fight at this time. The other party had only sent out an unremarkable deputy commander of the AO family's Army. If he was forced to fight in person, then even if he won, he would lose in the overall situation.

The expressions of Qin Qing and the higher-ups of the Qin family changed drastically.

Although the defeated consecrator was not the strongest person on this trip, the remaining two consecrators were only slightly stronger than him, but by a limited extent.

Judging from the one-sided crushing situation just now, even if the two of them were to go up, it would be difficult to have much of a chance of winning.

Even if it was a tag-team battle, there was a high chance that he would be defeated three times.

After all, at the Supreme realm, endurance was no longer a problem. Normal battles of attrition would not be effective. If they could not gnaw down this tough bone, then they would really be defeated.

After a moment of silence, the other Qin clan tributary finally stood up and slowly walked into the arena.

"You're just pretending to be calm!" Ao Wenwu sneered. "You're just putting on an act!"

Chapter 10107

In less than half an incense's time, the Qins "consecrator fell in front of Lin Yi again. He was much stronger than the previous one, but because of his offensive style, he lost even faster!

"Carry it away, next one."

Ao Wenwu's arrogance was soaring, and the group of ao brothers behind him burst into loud laughter, taunting and taunting him.

"He's just the most useless vice commander in our ao family's Army," said ao Yi with a disdainful expression, "there are no less than ten people in the AO family's Army who are better than him, not to mention the more powerful ones from the royal families. "

"I'm very curious, who gave you the courage to betray the royal families of the four Seas?"

Everyone in the Qin family was choked red in the face.

They couldn't even refute his words. They had been very clear about the gap between them from the beginning.

If it wasn't for the Qin unification incident that crossed their bottom line, forcing them to draw a clear line with the four Seas 'royal families, they wouldn't have been so supportive even if the Qin family's old ancestor stood up against all opinions, much less be so loyal to Lin Yi.

But now, they had no other choice.

However, being forced into such an awkward situation had indeed caught everyone off guard. They had underestimated the hostility of the four Seas' Royal clans and overestimated their tolerance.

Everything the other party had done was not for the so-called peace talks, but to embarrass them!

At this moment, the Qin clan only had one consecrated expert left.

Compared to the previous two, he was much stronger, and after watching from the sidelines for so long, he had more or less figured out a way to deal with it. Logically speaking, he had a much higher chance of winning than the previous two.

However, even if he won, it would not help the overall situation.

Don't forget, Ao Wenwu was only the first person sent by the other side to fight in the front line. To a certain extent, he even had the nature of cannon fodder. If they tried their best to defeat such a character, not only would it not give them hope, it would only make them more desperate.

Ao Wenwu smirked at the hesitation of the Qin family and looked at Lin Yi. "Since the Qin clan doesn't dare to enter the battle, why don't you, the king of the sea, come down and play with me?"

"It's a good opportunity to let everyone see the elegant demeanor of you, Sea King, so that people don't keep saying that you got to the top purely by luck. It sounds so lame, don't you think?"

Lin Yi raised an eyebrow, ready to respond.

At this moment, the last Qin family helper stood up brazenly. ""Don't you know the basic etiquette of hierarchy as a disciple of the royal families of the four Seas? You're just a cannon fodder in charge of the heat, what qualifications do you have to challenge the king of the sea? are you worthy?"

"Oh? Since you're so arrogant, why don't you come down and teach me how to behave?"

Ao Wenwu didn't even look at him. He said, ""Since you say I'm Cannon fodder, then I'll do what cannon fodder should do. I'll pick on all the so-called experts of your Qin family. From now on, you can simply change your name.

Don't call it the Diwu royal family, how about calling it the trash family?"

"What big words!"

The Qin clan's consecrator attacked in anger, and his attack was as powerful as Thunder. His aura was much stronger than before, and it was even stronger than ao Wenwu 's.

Golden class middle phase peak venerable!

Seeing the two of them exchanging blows, Qin Qing quickly asked Lin Yi in a low voice, "You won't lose again this time, right?"

He was really a little numb from losing. This was the first time he represented the Qin family. If he was dejected the moment he came up, it would be too embarrassing if word got out.

According to common sense, a golden class middle phase peak venerable would have the realm advantage against a golden class middle phase venerable-even if they couldn't guarantee a complete victory, they could at least guarantee that they wouldn't lose.

However, judging from ao Wenwu's performance just now, he had clearly surpassed the strength of a normal golden class middle phase venerable. It was not impossible for him to challenge someone of a higher level!

Lin Yi thought for a moment before nodding."I can win."

The result was just as he had expected. This battle was far more intense than the previous two. Although ao Wenwu still had the upper hand, he was no longer able to completely suppress the Qin clan sinecure's offensive.

The key was that with no way to retreat, the Qin family's Guardian displayed the courage to fight with his back against the water. Coupled with the advantage of his realm, he finally suppressed the other party with a palm after many tests!

"Alright!"

The Qin family's morale was greatly boosted.

Looking at ao Wenwu who was being carried away, the AO brothers were expressionless, and some of them even had a playful look on their faces.

In their eyes, ao Wenwu was just a tool, and a low-level tool at that. It was a pity that he couldn't defeat the Qin clan by himself, but that was all.

When ao Wenwu fell, there would be stronger ones to fill in the gap.

Everyone could see that the Qin clan was already an arrow at the end of its flight. As long as ao Wenwu came, the Qin clan would definitely be forced to a dead end.

Although it was said to be a martial arts competition to liven things up, it was actually a preview of the future situation.

The AO brothers wanted to use this method to make the Qin clan feel the taste of despair. If they were to insist on doing things their own way, the Qin clan's future would not be any better than now. Instead, it would only be more miserable!

Ao Yi snorted with a faint expression. "Whoever's next, go up and play by yourself. "

The other vice commander of the AO family's Army stood up immediately. The rest of the royal family experts were also eager to try. Not to mention anything else, this was a rare opportunity for them to perform.

If they caught the eyes of these core members of the royal family, especially ao Yi, ao si, and ao BA, who were the three most powerful competitors in the future, they would be able to soar into the sky!

But at this moment, a hoarse voice suddenly interrupted, ""Get down, this person is mine."

Everyone was in an uproar.

Looking at the skinny man who looked like a sick ghost, the group of ao family brothers knitted their brows.

The people of the Qin clan, who knew the inside story of the four Seas 'royal families, couldn't help but discuss.

"His name is ao Shi BA. He used to be the most outstanding one among all the AO brothers. His talent is so terrifying that he is known as the number one person among the four Seas 'royal families. Back then, the King of the East Sea, ao Tian Xia, even said that the future of the four Seas' royal families rested on this person."

Lin Yi's eyes flashed with surprise. "Another Supreme genius?"

"If nothing had happened to him, there would be no suspense in the fight for the successor of Dong Hai. Even ao Yi, who has the highest ambition, would be disheartened."

Qin Qing then changed the topic. "However, he was ambushed on a training trip and was forced to escape into the dangerous Huanghai. There was no news of him for a whole year, and everyone thought that he was dead."

Chapter 10108

He didn't expect that he would come back a year later. However, even though he came back, his shocking talent and strength were gone, and he became a complete cripple.

From then on, he fell from the pride of the four Seas "royal family to a living joke, and now he has no status to speak of."

"No one's going to investigate why he was ambushed that time?" Lin Yi asked, trying to sound suspicious.

"An indisputable successor of East Ocean City has been turned into a cripple." Qin Qing laughed and said, "anyone can guess how deep the water behind this is."

However, what was interesting was that the King of the East Sea, ao Tian Xia, ordered people to investigate. Only three days later, the truth was revealed. The mastermind behind all this was a rebellion force at the edge of the East Sea.

Less than ten days after that, this rebel force was wiped out by the elites of Dong Hai, leaving no survivors. "

"Interesting," Lin Yi nodded.

This was obviously for the sake of the overall situation. The son he was most proud of fell out of thin air. As a father, not only could he not get to the bottom of it, but he also had to take the initiative to clean up the mess for others. This King of the East Sea was quite good.

After all, no matter how talented ao Shi BA was, it was all in the past. The future of Dong Hai could only be handed over to the AO brothers.

It had to be said that although these cold profit calculations were not humane at all, it was the most rational and optimal solution for a force.

At this moment, seeing ao Shi BA suddenly show up, the AO brothers all had complicated expressions on their faces.

Many of them had once flattered the other party. Now that they had switched sides, they were all stepping on the other party to show their loyalty to their new master. As a result, even though ao eighteen was a core member of the royal family, his life was extremely difficult.

"Old eighteen, you're a cripple. Why don't you stay in your own courtyard and come out here to embarrass yourself? what do you mean by this?"

"That's right. Even though you're a cripple now, you're still a disciple of the royal family of Dong Hai. This is related to the glory of the royal family. You should have some self-awareness!"

"Alright, alright. Don't blame him anymore. Old eighteen is probably just finding an opportunity to show his presence because his life is too boring. Someone, get old eighteen a meal and let him bring it back."

All kinds of sarcastic and sarcastic taunting were heard.

Compared to the mocking of the Qin family, these words were much more unpleasant and hurtful!

Qin Qing and the others looked at each other and laughed in their hearts. "Indeed, internal strife is the tradition of the four Seas 'royal families. Compared to dealing with external enemies, the internal strife of these royal descendants is the best show. It's truly exciting and vicious."

Ao Shi BA was a living example.

Faced with the taunting of the crowd, the sickly ao Shi BA turned a deaf ear. He walked into the arena and looked up at the Qin family's Guardian. "I'll only use one move. "

The Qin family helper frowned slightly. He could not feel any power from the other party. He was an empty shell. Not to mention the strength of the Supreme realm, he could not store any power. He was like a huge leaking ladle.

But as a golden class mid phase peak venerable, his instincts told him that there was a slight danger.

"Are you sure you want to fight me? I don't know how to hold back, and if someone dies, I'm afraid it won't be good. "

The Guardian of the Qin clan tried to probe.

The so-called sparring was to suppress the morale of the other side, so naturally, it was better to let the other side lose as badly as possible.

However, the other party's identity was special. Even if he was not valued now, he was still ao Tian Xia's son. If he were to be killed in this situation, there would definitely be unexpected twists and turns.

"Old eighteen, you've really gone crazy," ao BA said indifferently. "You're making a scene in this kind of occasion. If someone accidentally kills you, we won't even be able to say a word, because they're in the right."

Everyone turned to look at him.

"Ruthless," Lin Yi said with a smile.

On the surface, he was trying to persuade ao Shi BA to join the battle, but in reality, he was reminding the Qin family's sinecures that they could kill him as they wished. Even if ao Shi BA died on the spot, the royal family of the East Sea would not have any opinion.

However, ao Shi BA, who was in the middle of the field, did not seem to hear it.

He didn't even look at the AO clan's brothers, who were all giving off weird looks, and directly attacked the Qin family's Guardian.

As he raised his hand, a Dragon's Roar reverberated through the entire area. Then, he transformed into a Black Dragon and instantly penetrated the Qin clan's Guardian's body. The entire process took less than one-thousandth of a breath, and the Qin clan's Guardian had already fallen to the ground.

The whole place was dead silent.

The people of the Qin clan were stunned for a moment before they reacted. They hurriedly rushed up to support the Qin clan's Guardian.

The Golden class mid phase peak venerable was on the verge of death-he could still hang on to his last breath with his strong life force, but if he left him alone, he'd turn into a cold corpse in minutes.

Not only were the Qin family's people shocked, the AO family's brothers also gasped in shock.

Ao Yi, ao si, and ao BA, the three most likely future masters of East Ocean, looked at each other with shock and fear in their eyes!

No matter how much they looked down on the Qin family, this Qin family helper was still a golden class mid phase peak venerable. This kind of strength could be ranked in the top ranks among the four Seas 'royal families, but he was definitely not an ordinary person.

In the end, he was actually killed in one move!

If it were any one of them, they would definitely not be able to do this!

"Could it be that he has recovered his strength?"

This terrifying thought emerged in everyone's mind at the same time. Even the most arrogant ao Yi could not help but panic in the depths of his eyes.

They had all personally experienced how terrifying ao eighteen was.

In front of this once-in-a-thousand-years heaven's favorite, the dragons and phoenixes in this group of people all paled in comparison. They were like fireflies competing with the bright moon. Not to mention attracting the attention of others, even they themselves felt inferior.

Once ao Shi BA regained his former glory, all the AO brothers would become a complete joke.

If it was in the past, before they had become enemies with each other, when ao Shi BA took over the throne, they would still have the protection of a wealthy and idle person.

But now, after a period of crazy trampling and that inexplicable ambush, they had become sworn enemies with ao eighteen!

Once ao eighteen returned, all of them would not have a good ending!

Ao si secretly shook his head and thought, 'impossible! Royal father personally examined his injuries and even invited the most authoritative medical experts. The conclusion is that there's no medicine that can cure him, this can not be false!'

With ao Shi BA's previous status, ao Tian Xia would never give up the one in ten thousand chance of recovery, because it was related to the future of the entire royal family of Dong Hai!

In the end, he had no choice but to give up, which was already a death sentence for him.

Chapter 10109

No one, no pill, no cultivation method or secret technique could change this destined result.

However, the person in front of them, ao eighteen, was a stranger to them. He was like an old friend who had died many years ago and was now standing under the sun again.

In the midst of the bewilderment, Han Qi, who was watching all of this coldly from the side, showed a strange expression. He could not help but Mutter, "The curse of the evil god?"

The sea was the sea god's territory. Unless the other gods started a War of Gods, they would not easily step into the sea, including the evil god, who was recognized as the villain among the gods.

In the entire sea, there was probably no second group of people who knew the curse better than him and Zhang Shichang.

Although the exchange just now was too short, so short that no one could see ao Shi BA's move clearly, in that one-thousandth of a second, he clearly felt the aura of his own kind on the other party.

This was the connection between the cursed of the evil god.

Combined with his previous experience and performance, ao eighteen was the kind of target most favored by the evil god. Falling from the clouds to the dust, giving up his most important thing and entering the arms of the evil god after falling into the abyss of despair ... All of these were in line with the evil God's appetite.

Just as Han Qi was secretly suspicious, ao Shiba still looked like a sick ghost. He swept his eyes over the crowd and said, "Next,"

"....."

Qin Qing and the Qin family members looked at each other.

The three accompanying consecrators had all been defeated, and there was no one left to go up unless the higher-ups of the Qin clan personally went up. However, even so, it was meaningless, because their strength was not even comparable to the consecrated just now. If they forced themselves up, they would only be asking for humiliation.

The pressure was on Lin Yi's head.

The problem that the Qin family couldn't solve, in the end, could only be solved by him. This was the responsibility of a boss.

However, what was unexpected was that before Lin Yi could say anything, ao Yi broke the stalemate.

"Old eighteen, I'll tell you one last time. This is not a place for you to mess around. If you think you can gain my attention by doing this, you're wrong."

Ao Shi BA looked at him in a daze and said, ""I've learned a long time ago that if you want to convince others, it's not enough to just rely on your mouth. You have to learn to use your hands."

"....."

One sentence made ao Yi's blood pressure soar.

He was the elder of the AO brothers, and he was also the one who was most valued by ao Tian all these years. When had he ever suffered such humiliation?

However, after looking at ao si, who was calm and collected, and ao BA, who was watching coldly from the side, he suppressed his anger. If he went up to fight with ao eighteen now, he would only let the two of them benefit from it.

Ao Yi coldly snorted. A tall and strong man immediately stepped out from behind him.

"East sea's consecrated song sanque asks for advice!"

Compared to the Vice commander of the AO family's Army, ao Wenwu, this man's aura was obviously much stronger. Although he was also a golden class middle phase peak venerable, just like ao Wenwu, his strength was far above that of the Qin family's revered elder.

"You're not worthy. "

Ao Shi BA replied indifferently. However, his movements did not stop. As soon as he finished speaking, he had already made his move.

A Dragon's Roar resounded.

Song sanque's eyelids twitched, and he immediately resisted with all his might. He had already seen some clues in the previous exchange, and he believed that he could take it with his strength. When the other party was exhausted, it would be time for him to counterattack!

That's right, he was going to kill ao eighteen!

If he wanted to stand out under ao Yi, he had to seize the opportunity to fight for it. Otherwise, he would forever be an insignificant sacrifice.

Compared to this man, Lin Yi and the Qin family were not a threat to ao Yi and the AO brothers.

As long as he could get rid of ao Shi BA, he would be in big trouble in a short time. However, he was sure that ao Yi would protect him with his life and give him the greatest honor. Otherwise, who would be willing to risk their lives for him in the future?

"I blocked it!"

Qin Qing and the higher-ups of the Qin clan were happy to watch the show. From the standpoint of their opponents, this kind of internal strife was something they would love to see at any time. The more intense the fight between the two sides was, the better it would be. It would be best if the two sides fought until their brains were smashed.

Only Lin Yi was watching ao eighteen's every move with a strange look in his eyes.

Although he could not directly sense the smell of his own kind like Han Qi, he could faintly detect the divine aura on the other party's body. It was a kind of dangerous aura that was completely different from the sea god 's, filled with extreme evil.

The power of the gods was not that easy to take.

Even the sea god, who was a God in name, would resort to all means when he encountered a problem, let alone a God who was obviously not a decent God.

Just as Lin Yi was about to continue observing, the situation on the field took a sharp turn for the worse.

Song sanque, who had been able to maintain his momentum, was pierced through by ao Shiba in the next move. His body exploded on the ground, and he died even more miserably than the consecrator of the Qin family. He died without an intact corpse!

The whole place fell into a strange silence again.

Especially the group of ao clan brothers, each of them looked like a duck that had been grabbed by the neck, and their faces were even uglier than the other.

"This kind of trash can't do it. Why don't you guys do it yourselves?"

Ao Shi BA did not hide his disdainful look,""I'm going to take back what I've lost from you, bit by bit. I hope you won't mind."

"Arrogant!"

Ao Yi, ao si, and ao BA, the three leaders of the AO family brothers, stood up at the same time. They did have a lot of conflicts with each other, and many of them were almost in the public. But at least at this moment, they had a common enemy.

Once ao eighteen succeeded in his counterattack, all of them would not have a good ending!

But in the end, the three of them sat back down.

In the end, they were still too afraid of each other. If one of them went up, they were afraid that the other two would benefit from it.

Moreover, they still could not see through ao AI Cao's background. If they went up rashly, they might repeat the same mistake. With their current status, they could not afford to take this risk.

Ao BA said to a personal guard beside him,""You can go up and try."

The guard nodded and immediately went up.

From the moment ao Shi BA appeared, the atmosphere of this martial arts competition had completely changed. It was no longer an all-around suppression by the royal families of the eastern sea on the Qin clan. Instead, it had turned into an internal show of muscles by the AO brothers.

Although the old cunning Fox would never lose, if he couldn't stand out at this time, it would definitely greatly affect the outside world's reputation and voices.

And this directly determined their respective influence and also determined how many experts they could recruit in the future!

Therefore, no one was willing to back down at this time.

Chapter 10110

Ao BA was very ambitious. If he could defeat ao Shi BA in this battle, he would be the biggest winner today!

It was worth it to take a little risk for this.

Unfortunately, the result once again proved that he had thought too much. In less than two moves, ao BA, the most trusted personal guard, was dismembered on the spot, just like the previous one.

For a moment, the entire place once again fell into a suffocating silence.

The two people before him might not be able to see much, but ao BA's personal guard could be considered as a first-class fighting force in the royal families of Dong Hai, only inferior to the few rare super priests.

If even he had died so miserably, then the rest of the people present would definitely not be any better off than him if they were to fight. They might even die in an even more miserable way.

Ao eighteen looked at ao si with a faint smile and said, ""They've both sent cannon fodder, isn't it your turn now?"

The crowd immediately reacted.

As expected, he had made such a scene today for ao Yi, ao si, and ao BA, the three core competitors.

If he were to trace it back, from the perspective of the biggest beneficiary and the most motivated person, the most likely people behind his accident were these three people.

When the master was disgraced, the subject would die. The expert behind ao Si was about to go up, but he was stopped by ao si.

There was no joy or anger on ao Shi's face. He said calmly, "Old eighteen, the most important thing today is to receive the guests from the king of the sea and the Qin family. We can talk about other things later. The overall situation is more important."

Lin Yi couldn't help but take another look at this man—he was a lot more shrewd than the others.

With just one sentence, ao Shi BA was now on the opposite side of the entire royal family of Dong Hai. If ao Shi BA continued to target them, he would lose points in front of ao Tian Xia.

Anyone with a discerning eye could see that ao eighteen's action was not just to vent his anger by slapping everyone's face. More importantly, he was announcing to everyone that he had returned to the ranks of the competition for the future successor.

What he valued the most was the perception of ao Tianxia, the King of the East Sea. After all, he held the final decision of the successor!

"According to what you said, if I continue to challenge you, it would be me being insensible, right?"

Ao Shi BA snorted.

But just when everyone thought that he'd get angry and wouldn't let it go, he turned to Lin Yi.

Ao Shi BA pointed at the map Lin Yi gave him, ""Then why isn't my name on it? are the people of your seagod Hall blind, or is the seagod himself blind?"

Everyone was in an uproar.

The gods could not be humiliated!

Even though the royal families of the four Seas were essentially rivals of the sea goddess Hall, they still respected the sea god as the common master of the sea realm, at least in name. No matter how ambitious they were, they did not dare to overstep their boundaries on this.

They were well aware that the reason they could act on the surface but go against it in secret wasn't because they were strong enough to resist the seagod.

The Royal clans of the four Seas were so fearless only because they knew that the sea god would not rashly descend upon the sea realm unless it was an extreme situation like the destruction of the sea god's main hall.

At most, it was just a projection of a part of the power. With their Foundation and size, they could completely withstand it.

But that didn't mean they could publicly insult the sea god!

The sea God's power might not be enough to annihilate the entire royal family of the four Seas, but if they really angered the sea god, a divine punishment would descend, and all of them would suffer with him.

"Old eighteen, you're playing with fire!"

One of the AO clan brothers couldn't help but stand up. If those words had come out of ao Tian Xia's mouth, it would have been equivalent to declaring war on the sea goddess Hall.

Everyone's expression was grave.

The royal families of the four Seas indeed had the confidence and power to suppress the sea goddess Hall, but they still didn't dare to declare war in all these years, afraid that the sea goddess Hall would be unable to take the loss and end up asking for the sea god Himself.

In the secular world, this was an out-and-out super nuclear bomb.

In front of a true God-level existence, the royal families of the four Seas were nothing. This was something that everyone knew at the very least.

"A bunch of cowardly rats," ao Shi BA sneered disdainfully.

"You're the first person I've seen in the entire sea realm who'd dare to act so brazenly towards the sea god. I wonder if you're really capable of taking the sea God's wrath, or if you're just trying to get attention?" Lin Yi said slowly.

Ao Shiba was still unconcerned, "the sea god is high and mighty, why would he care about the words of a lowly person like me?" Besides, the sea goddess hasn't appeared for so many years, so who knows if she's Dead or Alive?"

Another sentence shocked everyone.

He had just publicly questioned whether the sea god was blind, and now he was even suspecting that the sea god was dead. This was simply crazy!

"I can't pretend I didn't hear that," Lin Yi's eyes darkened. "As the Sea King, it's my responsibility to make people learn to respect you."

"Oh? Since you're so arrogant, come down and teach me. "

The corner of ao eighteen's mouth curled up into a disdainful smile, and he said meaningfully, "I heard a very interesting statement before. It said that something happened to the sea god and he couldn't even protect himself. Perhaps the king of the sea can help to dispel the rumor?"

Everyone looked at each other.

They weren't particularly surprised by this. The sea realm was so vast, and all kinds of strange rumors would appear every day. Let alone rumors that something had happened to the sea god, there were even rumors that said he was the avatar of the God of creation.

However, it was a bit thought-provoking to mention it in public, especially in front of Lin Yi.

"I'm sorry, but I'm not good at refuting rumors. If I have to say it, I'm only good at physics," Lin Yi said faintly.

"Physics to refute rumors?"

Everyone was stunned. Before they could understand what was going on, Lin Yi's figure flashed and appeared behind ao eighteen. He raised his hand and sent out a palm of great mercy.

Before ao Shi BA could even make a sound, his entire body had been smacked into the ground.

"Alright!"

Qin Qing and the others were overjoyed. They had finally found a chance to vent their pent-up anger. On the other hand, the AO clan's brothers couldn't help but look shocked.

No matter what they thought of ao eighteen, his performance just now showed that none of them could match him, let alone suppress him with such a simple move.

However, after a few moments, ao eighteen's voice came from below, ""The power of time laws? It's a pity that your control is too low and you can only trap me for a moment. It's meaningless!"

With his strength, the great mercy and great compassion palm would not have landed on his head if he had not been bound by the time law.

And for an expert of his level, the same move would hardly be effective twice.

As expected, when Lin Yi used his time rule power again, he lost the chance to lock on to his opponent.
