

Bodyguard 10111

Chapter 10111

A Dragon's Roar resounded.

Qin Qing and the others couldn't help but break out in a cold sweat for Lin Yi and themselves as they looked at the faint Black Dragon.

If Lin Yi were to die Here today, it would be over for them and the Qins.

"You dare to come a second time with such a small trick? You don't know the immensity of the heavens and earth!"

Along with ao Shi BA's crazy laughter, the scene was filled with the roar of a Dragon. In the next moment, he turned into a Dragon Shadow and passed through Lin Yi's body.

The scene suddenly fell silent.

Everyone subconsciously thought that Lin Yi was going to follow in his footsteps after that.

In the end, the "Lin Yi" that was pierced by ao eighteen shattered, and the real Lin Yi appeared on the other side, completely unharmed.

"A law clone?"

Ao eighteen was shocked for a moment. Ordinary avatars were naturally unable to block his law attacks. Even domain avatars were not this strong. Only law avatars could block his law attacks.

It was also a clone, but from the domain level to the law level, this was a proper qualitative change.

This was because the power of a domain clone still relied on the main body. However, the power of a law clone came from the laws themselves. In theory, as long as the laws existed, it would be a perpetual motion machine.

The only thing that could limit it was the main body's spiritual energy. If the spiritual energy was unlimited, then the number of spiritual energy could be unlimited. Of course, this was only in theory.

However, no matter what, the law doppelg nger was still a great weapon that could change the situation. Unless one could rely on absolute power to crush it directly, just endless harassment alone could drag down a force.

"It's just a small trick, what's there to be surprised about?" Lin Yi shrugged.

Ao Shi BA's face darkened, "mocking me?" A law clone is pretty good, but it's a pity that it's completely meaningless in front of me. In front of absolute power, all of these are destined to be nothing more than gaudy tricks. "

"Oh? Then why don't you show me something that's not as gaudy?"

Lin Yi attacked again as he spoke.

This time, he transformed into the demon God Chi You and was ready to fight for real. Although the encounter just now was short and it seemed that neither of them had gained any substantial advantage, he had already verified his previous guess and it was time to draw in the net.

What a great gift!

Lin Yi looked at the man with interest, just like the time he met the high priest at the Qin house.

In terms of absolute strength, ao Shi BA was much weaker than the high priest, and was far from the top level in the entire sea area. However, he had an extremely special thing on him. If he could capture it, it would be a great supplement for the New World!

Ao Shi BA faintly sensed that something was not right, but he immediately threw this absurd thought to the back of his mind.

This time, he was confident that he had a terrifying background that was enough to rule the entire sea. He was confident that even the sea god couldn't do anything to him, let alone Lin Yi and Sea King.

This time, not only did he want to take back everything that belonged to him, but he also wanted to use this opportunity to rise from the ashes and become the Lord of the entire sea realm!

The AO brothers were his stepping stone, and so was Lin Yi!

"I'll teach you one thing, you must know your own limits. "

Ao Shi BA coldly snorted, and the evil look on his face became even more intense. He suddenly opened his hands and said, ""Today, I'll show you what the true ultimate power is. The birth of ten thousand Dragons!"

As soon as he finished speaking, the Dragon's Roar was heard again, and everyone's expression changed.

It was just a dragon roar before, but now countless Black Dragon shadows emerged, almost covering the entire Palace.

Ao Tianxia, the King of the East Sea, and the other super sinecures of the royal families were all awakened. All kinds of thoughts of searching quickly crossed each other in the sky.

This power not only affected the Royal Palace of Dong Hai, but it also affected an area of thousands of miles!

Ao Yi, ao si, and ao BA glanced at each other and murmured in disbelief.

"Black Dragon law!"

The essence of the so-called rules was an essential element that constituted the world. They were generally abstract concepts and rarely existed in physical form.

The dragon clan was an extremely rare exception.

It was said that the dragon clan had existed for a long time, even longer than this world itself. They lived in this world, but to a certain extent, they were beyond this world, so that all the rule power exerted on them would be greatly reduced, and they might even be directly immune to it.

As a result, their existence itself was listed in the order of rules by the world.

Although the royal families of the four Seas were all marine humans, their ancestors all had the bloodline of the Dragon race. The ultimate goal of every royal family descendant was to awaken their bloodline and master the rules of the Dragon race.

However, the probability of this happening was way too low. Even among all the talented ao clan brothers, not even one of them could be found.

At present, the only one confirmed to have mastered the rules of the Dragon race was the King of the East Sea, ao Tian Xia.

Who would have thought that it would be controlled by ao eighteen!

Moreover, it was the most dangerous rule of all dragon clans, the Black Dragon rule. No matter which dragon clan genealogy it was, the Black Dragon was the most evil and chaotic villain, no one else.

Ao Yi and the others were completely dumbfounded.

Previously, they had not been able to see through ao eighteen's attacks. But now, with the appearance of ten thousand Dragons, even if they were slow, they could still react.

The key was that ao Tian Xia and the royal family of Dong Hai had been alarmed by the thoughts colliding in the sky. Today's matter was completely out of their control. Even if they wanted to hide it, they couldn't.

"What's the point of this?"

Ao BA sat down listlessly.

Mastering the rules of the Dragon race was almost as good as locking in the position of the future successor in advance. Unless they could also master it, it would be useless no matter what they did.

In the past, they could set up a trap to get rid of ao Shi BA. Ao Tian Xia would turn a blind eye for the big picture. But now, even if they had the power to kill ao Shi BA, they would not dare to do it again.

With the rules of the dragon clan in place, ao eighteen's status would skyrocket. In order to get rid of any potential threat, their father might even take the initiative to suppress them.

The rules of the dragon clan were related to the luck of the entire clan. This was the inherent legitimacy that no one could replace!

Ao Yi, who had always been proud, also drank to drown his sorrows.

"It's still too early. Maybe this King hai hai will give us a surprise." Ao si looked at Lin Yi.

"Him?"

Ao Yi and ao BA raised their eyebrows, showing their disdain. But at this time, they really had no other hope.

At this moment, under the cover of the birth of the ten thousand Dragons, even the demon God Chiyu Lin Yi looked extremely small.

Chapter 10112

BOOM! BOOM! BOOM!

With three consecutive vibration killing strikes, the powerful might of the vibration rule was revealed without a doubt, and it instantly shattered a Black Dragon Phantom.

This was the dragon clan's rule that could be said to specifically counter rule power.

But even so, it still didn't affect the overall situation. In front of the dense mass of ten thousand Dragons, what he had shattered was only the tip of the iceberg, completely useless!

Soon, Lin Yi was completely swallowed by the countless black dragons.

Although they knew that Lin Yi wouldn't be killed so easily-after all, he was someone worth the old grandmother's entire family betting on-Qin Qing and the others were still worried for him.

At the very least, if it were them, they really couldn't imagine how they would be able to survive such a terrifying attack.

Even ten lives wouldn't be enough.

In the beginning, everyone could still feel the constant tremors and explosions coming from inside, but as time passed, the movement gradually became smaller and smaller.

On the other hand, the Black Dragon's Shadow was still a magnificent sight of ten thousand Dragons coming into being. The unparalleled terrifying pressure still made everyone present unable to even think of resisting.

The hearts of ao Yi and the others had already turned cold.

Lin Yi's death wasn't a bad thing for them, and even if there wasn't any personal grudges between them, they still wanted Lin Yi to die without a burial place. Not to mention that they looked down on people like Lin Yi who came from a grassroots background.

But now, seeing Lin Yi being suppressed by the ten thousand Dragons, they only felt pity for him.

They saw their future in Lin Yi.

Whether they were willing to admit it or not, from the moment ao eighteen released the ten thousand Dragons, the battle for the heir apparent that they were so passionate about had already ended.

Once ao eighteen took over the throne, with his vicious and vengeful behavior, none of his brothers would have a good end.

Lin Yi was dead now, and they would die even more miserably later.

Some of them even thought of escaping. Han Qi, who was watching all this coldly, secretly curled his lips.

With his current ability, he could easily see through people's hearts. This group of royal family descendants were indeed all talents. In just a short time, someone had already planned an escape plan. It was called meticulous and thorough, which simply made people clap the table and praise him.

He wasn't worried at all about Lin Yi, who was being suppressed in every aspect.

First, with his understanding of Lin Yi, he knew that this guy wasn't someone who would be easily suppressed. Second, as a healer of the evil god, he had more authority than anyone else on the scene when it came to Ao Shi Ba's strength.

The ten thousand Dragons' birth looked scary, and its power alone was beyond the standard, but it wasn't enough to crush Lin Yi.

That was the truth.

Ao Shi Ba was still attacking madly. Lin Yi was like a small boat in the middle of a storm. It looked like he could be overturned at any time, but he managed to stabilize himself at the last moment.

As time passed, even Ao Shichen himself began to notice something strange.

"Could it be that this fellow still has energy to spare?"

As soon as this shocking thought appeared, he suppressed it. How could this be possible?

With the strength he'd just displayed, only the most powerful beings in the entire ocean would be able to take it. Lin Yi was just a mere early phase golden class venerable-no matter how much he overestimated him, he couldn't be on the same level as those beings.

He must have used some life-saving trump card!

Ao Shiba made a clear judgment immediately and continued to increase his attacks without hesitation. As long as he used up his trump card, Lin Yi would collapse in minutes.

He heard a strange word from Lin Yi's mouth.

"Capture."

Ao eighteen's heart skipped a beat. It was as if something was being pulled out of his body by an invisible force. However, after carefully sensing it, he realized that nothing was missing. It seemed to be a pure illusion.

What he didn't know was that in Lin Yi's new world, there was an extremely evil and powerful thought.

Evil god remnant thought!

All sorts of negative emotions surged towards Lin Yi like a tidal wave. Even with Lin Yi's spirit and willpower, he was about to be crushed in an instant.

Once it collapsed, even if they didn't die on the spot, they would become idiots!

Fortunately, he had the support of the new world's will.

"These deity-level existences are indeed all monsters. Even a remnant will is so terrifying."

Lin Yi let out a breath of air, still a little scared.

Although the moment just now was extremely short, it was the closest he had been to death in a long time. It was only a remnant thought that had left its master, but it was so ferocious and terrifying. If it was the evil god Himself, it would be unimaginable.

Jiang Xiaoshang appeared and said, ""You're really lucky. You can encounter such good things wherever you go. I'm really convinced."

Lin Yi rolled his eyes at him, "If it were someone else, they would have met with disaster. My little bit of good fortune can't withstand such torment."

Having said that, he couldn't hide the excitement in his eyes for successfully capturing the evil God's remnant thought!

To any cultivator below the divine level, this was definitely a deadly and ominous thing. However, to him who had the support of a new world, it was a super supplement that could only be encountered by luck!

"Although it's a lot weaker than the previous sea god, after all, it's not the complete evil God's original body, but the evil god is much stronger than the sea god. Even just this remnant will is enough to make your new world reborn!"

Jiang xiaoshang was also very excited.

"It can make a crippled ao Shi BA come back to life. He's even several times stronger than he was at his peak. The evil God's power is this terrifying?" Lin Yi asked with anticipation.

Jiang xiaoshang said faintly, "it's terrifying, but there's no such thing as a free lunch. The more powerful the power, the greater the price."

That ao eighteen looks normal, but he's actually been bewitched a long time ago. Does he really think that the evil gods are doing charity?"

Lin Yi looked at him and asked curiously, "What will happen if it is allowed to continue living in ao Shi BA's body?"

"It's hard to say,"

Jiang xiaoshang shook his head and said, "the curse of the evil god is essentially a deal between man and God. However, the power gap between the two sides is too huge. It is destined that this will not be a fair deal. The more power you obtain, the more things the evil god will take from you."

That ao Shi BA's strength has increased to such an exaggerated extent. He must have made a big deal. However, as for what he sold, I'm afraid only he himself knows. "

After a pause, Jiang xiaoshang suddenly became excited, ""You can also do business with the evil god!"

"Didn't you just say that he'd make a lot more than me?" Lin Yi looked at him. "It's a losing business, why would I do it?"

Chapter 10113

"If other people do business with evil gods, they will naturally lose everything but you are different."

Jiang xiaoshang chuckled. "The deals between humans and gods have always been that the gods pay the humans first, and the humans pay the gods later. The evil gods are no exception. After all, they're not afraid that the humans will go back on their word and not pay.

But don't forget your identity. As the last cultivator of the ancient gods, you have the capital to renege on this debt. "

Lin Yi looked at him speechlessly. "You're really the one who keeps the company of darkness. I'm destined to never learn anything good from a guy like you. You have no moral integrity at all."

After saying that, he turned around and used his divine sense to communicate with the evil god remnant thought.

Jiang xiaoshang was speechless.

This time, he was prepared. With the protection of the new world's will, the process was not as dangerous as before.

A moment later, Lin Yi retracted his spirit sense with a face full of regret.

"How is it?" Jiang xiaoshang asked hurriedly.

Lin Yi shook his head, "it didn't go well. There's something wrong with the evil God's remnant thought's intelligence. I told it to pay with my life but it didn't agree."

Jiang xiaoshang choked for a while before he managed to squeeze out, ""You're the ruthless one. Just because it's a business with no capital, you're threatening others with your life, right?

However, one thing was wrong. One's life might be precious to one, but it was worthless to evil gods. After all, there were many people in the world who wanted to sell their lives and one of them wouldn't be lacking.

Whether one's price was high enough or not was not up to one to decide. It was up to the evil gods to decide. Of course, it would be the same for other gods.

By the way, what do you want it to give you?"

"I don't think it's too much to raise my level to semi-divinity," Lin Yi replied honestly.

"....."

Jiang xiaoshang almost choked to death on the spot. ""You're really a F * cking talent!"

False gods and gods were only one level apart from each other. Apart from that, they were almost on the same level. To put it bluntly, even the evil god itself was not much different from a false god.

This guy opened his mouth and asked for a false god. If the true evil god was present, he would probably be so angry that he would have high blood pressure on the spot!

"I didn't have a choice," Lin Yi said with a face full of regret, "I took a step back and barely made a deal."

"What?"

"You'll see soon," Lin Yi smiled. "Let's get down to business first."

As he spoke, he immediately ordered the new world's will to make a move. Although the evil God's remnant will was powerful, there was still an insurmountable gap between it and the world's will. In front of it, it had no power to resist at all.

Just as the evil god remnant will was about to be annihilated, a message filled with hostility suddenly burst out.

"I'll remember you!"

This was a declaration from the evil god.

"Are the evil gods that petty?" Lin Yi blinked.

Jiang xiaoshang did not know whether to laugh or cry. "The gods can not be humiliated, and even more so, they can not be bullied. Furthermore, the evil god is not a kind person. How can he not bear a grudge when you tricked him like this?"

If it were any other cultivator, even if they were a powerful figure standing at the top of the sea, they would definitely be frightened and uneasy if they were targeted by a God-level existence like the evil god.

Lin Yi, however, didn't show any reaction.

To be more precise, he had already expected this from the beginning.

However, as the last cultivator of the ancient gods, he was destined to stand on the opposite side of the gods. His ultimate opponent was destined to be the God of creation. In contrast, he didn't have to worry about being targeted by the evil gods. If he could exchange it for immediate combat power, it would be a great profit.

As for the future, that was a matter for the future.

At this moment, as the evil God's remnant thoughts were swallowed by the new world's will, the spirituality of the New World began to soar at a speed visible to the naked eye. It was like a computer chip being upgraded. Although it changed the basic computing power, the entire new world was obviously more alive.

The most obvious change was that the speed of the new world's evolution had increased by several times!

Lin Yi was excited.

The changes in the earth's crust in the New World were increasing rapidly. All kinds of volcanoes appeared one after another, and lava erupted out of the sea. The increasingly complicated geographical conditions meant that there were more opportunities for life to be born.

Although the atmosphere was still poisonous and not suitable for the survival of basic life forms, under the active catalysis of the will of the New World, the atmosphere was also rapidly evolving. At this rate, it would not take long for it to be completely purified.

Most importantly, this was the first time Lin Yi had detected the existence of amino acids.

This was a product of the new world's own evolution!

For a new world that was bound to give birth to life, this was definitely a milestone event. On a larger scale, this was the origin of future life!

Lin Yi had a strong feeling that once the New World gave birth to life, even if it was just the most basic and primitive life, his strength would welcome an earth-shaking leap.

"With the new world's current spirituality, it should be able to calculate how long it will take for the first life to be born, right?" Jiang Xiaoshang asked with interest.

Lin Yi nodded, but his expression changed to one of helplessness after communicating with the new world's consciousness.

"Two million years."

To be fair, for a long topic like the evolution of life, this was already a rather short period of time.

After all, normal evolution took hundreds of millions of years, but the new world's progress was already hundreds of times faster. This was all thanks to the series of excellent nutrients it had swallowed, especially the sea god's divinity and the evil God's remnant thought just now.

Lin Yi had expected this, but seeing the number in person still made him dizzy.

Two million years ... No matter how confident he was in himself, he could not live to that extent.

Moreover, even if he really had the ability to live that long, with his identity as the last ancient God cultivator, would the gods allow him to live in peace for millions of years?

Thinking about it, it didn't seem realistic.

"Two million years is a bit long, but for an animal like you, would you obediently endure for two million years?"

Jiang xiaoshang pouted. "It's only been a few months. The New World has already evolved to such an extent. Only a fool would believe that you won't have any great opportunities in the future."

Two million years was not a fixed time limit. As long as there were a few more opportunities like this, and the new World could evolve rapidly, the time limit could be shortened by several times or even tens of times.

Perhaps two million years will become two hundred years in a short time. "

Jiang xiaoshang had thought that this was the most optimistic situation he could think of, but the future proved that he was still too conservative.

To an unreasonable animal, all common sense was destined to be broken.

Two hundred years?

The facts proved that they had underestimated him!

At this time, the people outside didn't notice anything strange about Lin Yi's body at all. They only saw that he was sinking deeper and deeper into the black Dragon's Shadow, and they all thought that his body was cold.

Chapter 10114

Qin Qing and the higher-ups of the Qin family were so anxious that they couldn't sit still.

If it wasn't for the fact that they were too weak to interfere in a battle of this level, they would have already turned hostile and attacked.

The old lady had made it clear that the future of the Qin family was tied to Lin Yi. If anything happened to Lin Yi, the Qin family would be finished.

Even if they had to die, they had to protect Lin Yi.

Unfortunately, the cruel reality was right there-they didn't even have the right to help Lin Yi when he was in trouble. They could only sit there and wait for him to get out.

If Lin Yi couldn't get out himself, they'd be dead with him.

Of course, Lin Yi didn't set his eyes on the Qins for their measly power-the network was the core value of the Qins, and all that was left was his grandmother's eye for things. He had no other hopes.

At that moment, almost everyone had already given Lin Yi the death sentence.

Although ao eighteen, who was in the middle of the game, felt something strange, he did not take it to heart. On the contrary, he felt much clearer than before, and his control of his power became better.

He didn't know that this was because the evil god remnant thought had been extracted!

In order to warn the others, he wanted to kill Lin Yi even more.

From the beginning to the end, Lin Yi had never really entered his eyes. He was just a stepping stone for him to announce his strong return, a tool to intimidate the AO brothers, nothing more.

However, just as he was about to pull in the net, the situation suddenly changed.

Among the layers of Black Dragon shadows, a perfect Lotus bloomed quietly, followed by a second, a third ...

In the blink of an eye, the sky was filled with lotus flowers. The Holy and solemn aura formed a strong contrast with the evil and brutal black Dragon's Shadow.

At the same time, Lin Yi's aura, which had just disappeared, reappeared, and it was rising at an unimaginable speed!

In an instant, it had already broken through the limit of the early phase of the Golden class, and was still rising with an unstoppable momentum!

Seeing this scene, one of the senior guardians of the royal family could not help but Mutter.

"When a Saint descends, the sky will be filled with lotuses. Could he be the legendary Supreme Saint?!"

As soon as these words came out, the entire place was in an uproar.

Supremacy was not the realm of power that was commonly known. It was a label that targeted the background of a venerable expert.

As long as one reached the Supreme realm, they were already like gods to mortals. In the ancient legends that were passed down by word of mouth, every Supreme came from the inheritance of their previous life.

If one did not have the experience from their previous life, no matter how talented one was in this life, no matter how much luck one had, one would never have the chance to knock on the door to the Supreme realm!

Thinking about it carefully, this was a very obvious paradox.

Since he wasn't a venerable in his previous life, he was destined to be unable to advance to the venerable realm in this life. Then, how did he become a venerable in his previous life? To be more precise, where did the first venerable come from?

In the end, there was only one explanation. It was destined.

In short, the heavens had decided on a group of Venerables, and all the Venerables in the future would be in this group of people's reincarnation. There would not be more or less.

As for the threshold for the first batch of Venerables, it was the most outstanding group of existences in the ancient times. In the human race, they were Saints who benefited the common people!

In other words, at least in this version of the legend, every Supreme realm expert was the reincarnation of a Sage.

However, even though they were both reincarnated, there were differences in their composition.

Up to this day, most of the Supreme realm experts had already lost their Saint auras, and there were no signs of Saints on them.

However, there were a few rare individuals who would gradually regain the demeanor of a Saint after entering the Supreme realm.

One of the most obvious signs was that every breakthrough was accompanied by all kinds of heavenly phenomena, and the sky full of lotuses was one of them!

"Him? On what basis?"

Ao Yi and the others stood up in shock. A Supreme Saint venerable was one in a million among all the Supreme realm experts. Their existence itself had extraordinary significance.

It was already rare for ao Shi BA to grasp the rules of the Dragon race, but compared to this Supreme Saint venerable, he was instantly inferior.

In front of a true absolute Saint, the Dragon race was nothing.

Even if he did break through, he'd only be golden class early phase peak-nothing in the eyes of everyone here, but the pressure Lin Yi was exuding was enough to make everyone not dare to raise their heads!

This was the power of a Saint venerable.

"You're just pretending to be mysterious. It's just some bullsh * t phenomenon. Do you think you can scare me like this?"

Ao Shiba was obviously provoked as well. Without a word, he burst out with all his strength again. All the Black Dragons roared and finally gathered into an indescribable giant black Dragon, roaring down at Lin Yi.

In the blink of an eye, Lin Yi was swallowed up.

Lin Yi's aura disappeared as well, and ao Yi and the AO brothers couldn't help but have complicated expressions.

Of course, they didn't want to see an extra Saint venerable in the enemy camp, but compared to Lin Yi, they were more afraid of their superficial brother, ao eighteen!

Stomping Lin Yi to death in public was enough to make him famous, especially if the one he stomped to death was an absolute Saint venerable. Ao Shiba's status in the four Seas 'royal families would rise to an unparalleled level, and they would never be able to fight against him again.

That was because he had helped the four Seas 'royal families get rid of a huge threat in advance!

But before he could feel happy, Lin Yi's calm voice sounded again, ""Your mouth is a little stinky, Black Dragon. Remember to brush your teeth next time."

"....."

The crowd didn't know what was going on, but they saw Lin Yi transform into the demon Chiyu again and kill with a simple vibration.

The giant black Dragon was annihilated on the spot!

Ao Shiba was dumbfounded. This was his ultimate move, but Lin Yi broke it so easily. What was he supposed to do?

"It's indeed an absolute Saint venerable!"

Some people in the crowd couldn't help but Mutter. The same move before and after, but the effect was so different. This couldn't be explained by a breakthrough at the last moment. Only the legendary Saint venerable could explain this.

There was no doubt that an absolute Saint venerable would be able to suppress those of the same cultivation level, and there was no doubt that they would be able to suppress those of a higher cultivation level.

On the surface, ao Shiba was a venerable at the peak of the middle stage of the yellow Class. With the curse of the evil god, his strength was enough to easily crush those of the same level. He could already be considered a very strong existence.

It was a pity that he was just an embarrassment in front of Lin Yi.

Chapter 10115

Seeing that ao Shi BA was crushed in one move, Lin Yi followed up with another palm strike. The AO brothers weren't unhappy at all, they were all overjoyed!

Although the appearance of an absolute Saint venerable was indeed troublesome, this was not their personal enemy, but the enemy of the entire royal family of the four Seas.

Even if the sky collapsed, there would be a tall one to hold it up.

On the other hand, if ao Shi BA was allowed to live, he would be a fatal threat to each of them. He was the biggest threat that they had to get rid of!

Now that they could use Lin Yi to get rid of ao Shi BA, it was definitely a blessing from heaven. There was no better situation than this.

"I can't lose!"

Ao eighteen still refused to accept the reality. Today was the stage for him to return after killing all the Kings. His great plan had just begun. How could he die halfway like this? he was not willing to accept this!

The Dragon's Roar was heard once again.

Ao Shi BA had squeezed out every bit of energy in his body, pushing the power of the ten thousand Dragons to the extreme. Both the momentum and the destructive power had skyrocketed.

Unfortunately, it was still crushed by Lin Yi's simple vibration in the end.

BOOM!

All the Black Dragons were destroyed in an instant, and all of ao Shi BA's pride and confidence were crushed into pieces along with his ten thousand Dragons.

He knew that he had lost completely.

Therefore, when he saw Lin Yi's palm coming at him, he gave up his last futile struggle and closed his eyes, choosing to wait for death.

However, the expected fatal blow did not land.

Ao Shiba opened his eyes in surprise and saw Lin Yi taking his hand back. There was no killing intent on his face, and he even patted his shoulder to comfort him.

"You're young and promising. It's a great fortune for the four Seas "Royal clans to have a genius like you. Although I represent the sea goddess Hall, the sea realm will need your strength in the future. I hope you'll take care of yourself."

Everyone was dumbfounded by his words.

With the difference in strength that they had just shown, Lin Yi had the right to be arrogant, but he let ao Shi BA go on purpose. This was a bit puzzling.

After all, from the sea goddess Hall's perspective, ao Shi BA was a heaven's favorite who had mastered the dragon clan's rules. He was a great threat to them, and the threat he posed alone was more than all the AO clan brothers present.

Although this was the home field of the royal family, it was still a competition, especially when ao Shi BA didn't show any mercy. Even if Lin Yi killed him on the spot, the royal family couldn't do anything to him!

After all, before the four Seas "royal families" power was completely combined, just the eastern sea's royal families alone were not enough to go against the sea goddess Hall.

Letting go of ao Shi BA at the last moment was really unexpected.

"This kid wants to keep him alive to fight with us?"

Ao Yi and the others immediately understood Lin Yi's intention.

Leaving ao Shi BA behind was the worst possible outcome for them, but from Lin Yi's perspective, he could just sit back and watch the internal conflict of the eastern sea's royal family.

They didn't know how far ao Shi BA could go in the future, and they didn't know how much harm he could bring in the future, but at least in the short term, Lin Yi's side didn't lose anything.

"It seems like this King of the coastal waters is very hostile to us," ao BA sneered.

Ao si shook his head slightly. "We may not be worthy of his attention yet. He is after the royal families of Dong Hai, or even the entire royal families of the four Seas. We are just his pawns."

"Him? Oh. "

Ao Yi scoffed.

However, even though he looked disdainful on the surface, he knew very well in his heart that in this situation, whether it was ao Shi BA or the AO brothers, they were all trapped in this trap, and there was no way for them to escape.

Even if he knew that the other party had ill intentions, he could only brace himself and continue.

"Since we're done with the fun, can we start talking about serious business?"

Lin Yi said with a smile.

The AO brothers were all speechless. They suggested a martial arts competition to crush Lin Yi and the Qin family's confidence, but now, Lin Yi had turned into a Saint venerable, and they couldn't even lift their heads.

Looking at ao Shi BA, who had lost his soul and left the stage quietly, the AO family brothers couldn't even feel happy about his misfortune. Instead, they only felt bitter.

Their days from now on would be difficult.

Although the rhythm was completely out of control at this point, the pride of the eastern sea royal family was still there, and they would not go so far as to directly act shamelessly.

It was just that in this way, the pace of the negotiation completely fell on the Qin family's side.

Negotiations were like the continuation of the war. The Qins may have lost their entire Army, but everyone knew that Lin Yi was their pillar of support. With a Saint venerable standing up for them, they had no choice but to be tough.

Originally, from the standpoint of the four Seas 'royal families, even if they didn't completely swallow the Qin clan's share in this negotiation, they would at least have to make the Qin clan hand over half of the sea route map of the eighteen levels of hell.

The reason was very simple. Compared to the Qin family, they were definitely stronger.

Previously, the Qin clan was able to use the name of the fifth Royal clan with ease because of their internal cracks and conflicts. Now that the Royal clans of the four Seas had begun to unite under the threat of external forces, naturally, there was no room for the Qin clan to Dodge or move.

As for the sea Map of the eighteen levels of hell in the Qin family's hands, this was a crucial bargaining chip. However, without the backing of absolute power, this so-called bargaining chip was actually nothing.

The royal families of the four Seas did not have a map of the eighteen levels of hell, but the Qin clan also did not have a map of the first seventeen levels of hell.

Without the approval of the royal families of the four Seas, you can't even reach the 18 levels of hell. What's the use of holding the sea Map?

Moreover, the periphery of the 18 levels of hell was heavily guarded by the royal families of the four Seas. Even if you had the entire sea route map, you wouldn't be able to enter. Without the strength, you were basically a piece of waste paper.

On the other hand, although the royal families of the four Seas would still be a big problem in the short term without the sea Road map, the eighteen levels of hell were in their hands. As long as they could find a way to stabilize the four Seas, they could completely explore slowly.

As long as they were willing to invest resources and human lives, the eighteen levels of hell would be broken through one day.

Moreover, who could guarantee that the sea route map in the Qin family's hands would not be leaked?

At that time, as long as they were slightly guided and added some tricks such as a sky-high reward, the pressure of the entire sea area would fall on the Qin clan's head. With the Qin clan's small physique, they would not be able to withstand it at all.

Therefore, although the four Seas 'royal families were not sitting on the sidelines, they still had a huge psychological advantage.

He just didn't expect that the situation, which was originally in a great advantage, would actually take a sharp turn for the worse and evolve to this stage!

Chapter 10116

The entire plan had been completely messed up, especially now, the AO family brothers were all worried, they were all thinking about their own situation, they didn't have the time to care about the business.

In the end, after a round of wrangling, the final result of the negotiations between the two sides was to continue to maintain the original state.

At first glance, it seemed like they didn't even talk about it.

But in reality, the key to this negotiation wasn't the negotiation itself, but the first direct contact between Lin Yi and the four Seas 'royal families.

Of course, in the eyes of others, Lin Yi didn't just represent himself, but the entire Poseidon shrine.

Naturally, there was great dissatisfaction among the four Seas 'Royal clans with the outcome of the negotiations.

After all, whether or not they could control the entire eighteen levels of hell was directly related to the interests of all the Marine human tribe. It also determined whether or not they could continue to be superior to others.

However, in the face of an absolute Saint venerable, even if these people were unhappy, they did not dare to act rashly.

An empty title of Sea King was one thing, but a Saint was another! Anyone could see that Lin Yi's position in the sea god Hall would soar!

It was extremely possible for him to become one of the few most powerful people in the sea God's temple.

Unless he could guarantee that he would be killed in one blow, it would be too stupid to provoke such a person and pull the hatred onto himself.

And so, Lin Yi's ears were quiet for a while.

Although he had achieved his goal in name, his confrontation with the four Seas 'royal families had just begun. Therefore, he did not leave with the Qin clan immediately. Instead, he stationed his men there.

As for the reason, it was naturally to facilitate the smooth implementation of the negotiation agreement!

At the same time, after a series of undercurrents, an unexpected storm broke out in the royal family of Dong Hai.

Eastern Sea meeting hall.

Almost all the influential figures of Dong Hai, including ao Tian Xia, the royal family of Dong Hai, and the AO brothers, were present, and the highest representatives of the other three royal families were also present.

Such a scale of discussion was rare even in the royal families of the eastern sea.

Ao Tian Xia looked at everyone. "Regarding the agreement with the Qin family, there are people arguing both openly and secretly. Today, let's be honest. Everyone, please share your thoughts."

Everyone turned to the AO brothers, their eyes were fixed on ao Yi, ao si, ao BA, and ao eighteen, who had suddenly risen to power.

They were the core power of the next generation. This time, they were the ones who came forward to negotiate. To some extent, they represented ao Tian Xia's own will. They had the most say in this matter.

However, before ao Yi could say anything, ao tianchou suddenly stood up.

"There's nothing much to say. All of us royal families of the four Seas will never accept such a humiliating agreement. We clearly have the absolute advantage in strength and home ground, yet we've actually come up with such a thing. Some people have really brought shame to us royal families of the four Seas!"

Everyone was shocked.

Everyone knew that the so-called Prince seemed to have a noble status, but in fact, he was nothing in the power system of the four Seas 'royal families. At best, he was just an errand boy.

If he was tactful, he could still get a rich and idle life in the future. If he was not tactful, not to mention entering the center of power, no one would pay attention to him at all. He might even be stepped on by various people.

After all, a Prince was essentially a loser in the last competition for the throne.

In such a situation, a Prince like ao tianchou didn't even have the right to speak, let alone jump out and stomp on the AO brothers.

One had to know that ao tianchou had always been well-behaved and had never crossed the line.

There must be something wrong with this unusual matter. This person had suddenly jumped out today, so there must be an unusual deep meaning behind it.

For a moment, the atmosphere in the entire meeting hall began to become subtle.

Those with sharp minds had already realized that something big was going to happen today!

Ao Yi immediately retaliated, "everything we do is for the benefit of the four Seas 'royal families. Since you're not satisfied, why don't you go and talk to Lin Yi? maybe you can come up with a better plan?"

Everyone thought that ao tianchou would give up. After all, no matter how they looked at it, it was impossible for him to gain any benefits from fighting with ao Yi and the others. It would only cause endless harm.

To his surprise, ao tianchou sneered back. "It's just Lin Yi and you're already taking a step back. If there's another Lin er in the future, won't we have to take a step back?"

If we keep retreating, where will the dignity of the four Seas 'royal families be?

Even if you guys don't want your face, I still do!"

One sentence was enough to make all the AO brothers blush. No matter what, they were suppressed by Lin Yi in this negotiation. If they were to pursue the matter, it would be a stain on their reputation.

"Then you mean we should start a war with the sea goddess Hall?" ao eighteen suddenly asked.

He now had control over the rules of the Dragon race, and he was the only person in the entire Eastern sea's royal family other than ao Tian Xia. His invisible status was already above ao Yi and the others. Even if he lost to Lin Yi, his words still had extraordinary weight.

After all, losing to an absolute Saint venerable wasn't embarrassing at all.

"Even if we don't start a war, we can't show weakness for no reason. Otherwise, the sea goddess Hall might misjudge us and think that the royal families of the four Seas are pushovers. That would be a real problem!" Ao tianchou continued to fight back.

"Now that Lin Yi's here, why don't we just get rid of him first? we'll be able to get rid of a future threat and intimidate the sea god Hall at the same time, killing two birds with one stone!"

Everyone's eyelids twitched.

Killing Lin Yi now was no different from declaring war on the sea god temple.

Although the situation between the royal families of the four Seas and the sea god's Palace was a classic case of a hemp stick hitting a Wolf, and two were afraid, no one could guarantee what would happen if they were really forced into a corner.

No one present could afford to take this risk.

"Hmph!" Ao BA snorted coldly. "You're going to kidnap all of our will in this way. Aren't you being too clumsy?"

"I don't want to start a war with the sea goddess Hall either," ao tianchou said. "But the more we cower, the more we'll be trampled on. Only by showing that we're willing to fight can we truly intimidate our enemies!"

Everyone present looked at each other and began to discuss.

Even though the majority of the people did not agree with such a radical move, as it was too risky, at least ao tianchou's words made some sense.

There had never been a lack of hardliners within the four Seas 'royal families. They had long been dissatisfied with the strategy of the past few years. Now, they found a resonance and immediately stood out to support ao tianchou.

For a moment, the situation seemed to be out of control.

Chapter 10117

The King of the East Sea, ao Tian Xia, coughed and said, ""We do want to show our toughness in front of the sea god temple, but we still need to use methods. If we cross the line and force the sea god temple to do something desperate, none of us will be able to bear the consequences."

Normally, since ao Tian Xia had personally spoken, it meant that he had set the final tone. No one would be so blind as to jump out and refute.

However, this time, ao tianchou was clearly not going to let this go.

"Lin Yi's an interesting Sea King, but it's also because of this that his position in the sea god Hall is very subtle."

Ao tianchou looked at the crowd. "If he dies here, I bet that the sea goddess Hall won't be as united as before. On the contrary, the internal strife will only worsen. That's a heaven-sent opportunity for us Four Seas" Royal clans!"

Everyone's eyes lit up.

Seeing that more and more people were standing on ao tianchou's side, the situation was about to go out of control. The AO clan brothers couldn't help but feel anxious.

"Are you sure you want to bring the royal family of the eastern sea to eternal damnation?" ao Tianxia looked at ao tianchou indifferently.

The atmosphere suddenly turned cold.

Everyone became inexplicably nervous. In recent years, this King of the eastern sea had always been unfathomable. This was the first time he had expressed his dissatisfaction in public.

Ao tianchou didn't care at all, "killing Lin Yi will put us in eternal damnation?" Hehe, when did the royal families of the four Seas become so weak?

Big brother, have you been a dove for too long, or are you really beyond cure? so many years of suffering from a terminal illness has worn away your heroic spirit?"

Everyone was in an uproar.

Even the AO clan brothers were shocked.

Including them, it was the first time for most of the people present to hear that ao Tian Xia had contracted a terminal illness, and it had been more than a year or two!

According to common sense, cultivators who had reached the Supreme realm could no longer suffer from any illness. However, to the oceanic human tribe, this was a nightmare that they could not shake off.

Limited by their inborn deficiencies, no matter how high their realm and strength were, in the end, they couldn't escape the fatal illness they were born with.

Dying from a terminal illness was the predestined fate of the Marine human tribe, which could not be changed!

No matter how strong they were, they couldn't cure it completely. In the end, the only thing they could do was to delay the time for a while. Therefore, be it the royal families of the four Seas or a powerful force like the Qin clan, they all placed great importance on the inheritance of the clan.

However, in everyone's impression, ao Tian Xia was still many years away from his terminal illness. Coupled with his powerful strength, he could at least hold on for another 1800 years.

However, from ao tianchou's tone, could it be that he was not far from the end of his lifespan?

This speculation was too horrifying. If it was true, it would be a huge blow to the power structure of the eastern sea's royal families.

The key was ao Tian Xia's performance. There was an 80 - 90% chance that this was true!

"Big brother, you no longer have the spirit to lead the heroes. For the sake of the four Seas 'Royal clans, the best thing you can do now is to abdicate and let someone with the ability take over your position as the King of the East Sea, so as not to affect the overall situation of the four Seas' Royal clans!"

Ao tianchou directly started to force him to abdicate.

Everyone present was shocked. Even those who had sniffed out the smell in advance would never have thought that the situation would develop to this point.

He, ao tianchou, was just a powerless King. On what basis did he dare to force the Emperor to abdicate?

Soon, everyone knew where his confidence came from.

The representative of the West Ocean royal family stood up and said, "we, the four ocean royal families, are of the same breath. The decision of the East Ocean royal family is definitely not your family's business. All these years, because of your stupid decision, ao Tianxia, we have already suffered a great loss."

On behalf of the King of the West Sea, I declare that the West Sea supports ao tianchou's idea and suggests that the East Sea should be managed by ao tianchou. "

The royal families of the North Sea and the South Sea also expressed their stance, clearly standing on ao tianchou's side.

Although the East Sea was the ruler of the four Seas, the difference in strength between them was not that great. Now that the other three Seas all supported ao tianchou, at least in terms of external help, ao tianchou had an overwhelming advantage.

The key was not just that.

Although the royal families of the other three Seas had great influence, it was impossible for them to directly interfere with the internal affairs of the royal families of Dong Hai, especially when it involved a major change of power.

It was only when the three super revered elders of the royal family slowly stood up and stood behind ao tianchou that everyone finally realized the severity of the situation.

Although the Super sinecures were not from the royal family in name, as the face of the eastern sea royal family, each of them had a powerful faction behind them.

The fact that the three great priests were supporting ao tianchou at the same time meant that almost half of the Royal clan's power factions were on ao tianchou's side. This was a world-shaking event!

Some of the people present were anxious, some were secretly happy, some were furious, and some were indifferent.

A thousand people with a Thousand Faces were fully displayed at this moment.

The group of ao clan's brothers were instantly on guard.

Infighting was one thing, but if ao tianchou succeeded in forcing them to the palace today, it was needless to say that none of them would have a good ending.

However, with a super priest from the royal family in front of them, even the strongest among them, ao Shi BA, would not have any chance of winning if they were to fight.

All the pressure eventually fell on ao Tian Xia's head.

If he couldn't control the situation now, everything would be over.

However, all these years, ao Tian Xia had almost never made a move. He had also been holding back and tolerating outsiders. This point alone was the best evidence for ao tianchou's claim of a terminal illness.

At his peak, ao Tian Xia was undefeatable. However, if he was just a dying king, then he wasn't that scary.

Ao Tian Xia's expression was indifferent as he looked at everyone. "Do you guys really think I'm dying?"

No one dared to look him in the eye, but their expressions and positions had already shown their attitude.

Before this, many of them were still loyal to ao Tian Xia. However, their loyalty to a fallen king was worthless.

Ao tianchou's mouth curved into a proud smile. "One must learn to face reality. You taught me this. Accept reality, and I can still give you some face."

"What if I don't want to be decent?"

Ao Tian Xia revealed a strange expression. "Do you have the ability to help me save face?"

"No!" Ao tianchou shook his head in disappointment. "There's no point in pestering me endlessly. Do it well from the beginning to the end. Don't ruin your heroic image in my heart. It's for the best of both of us."

"Heroic?"

Ao Tian Xia couldn't help but laugh, "do you even believe that yourself?."

Ao tianchou coldly snorted. He was obviously losing his patience. "Does it matter if I believe it or not? There's no need to waste any more time. Three consecrators, please make your move. "

After saying that, the three super priests of the royal family looked at each other and immediately prepared to attack ao Tian Xia.

Chapter 10118

Now that things had come to this, they had no room for retreat.

At this moment, a loud Dragon's Roar resounded in the sky, almost splitting the entire East Sea in half. A Golden Dragon Shadow that was 10000 feet long appeared behind ao Tian Xia.

An unparalleled Dragon's might erupted, suppressing everyone present until they were unable to get up.

Ao tianchou was the first to bear the brunt.

By the time the Dragon's might had gradually dissipated, everyone had recovered from the shock. To their surprise, they found that ao tianchou had already been crushed into a miserable corpse that did not even look human.

The whole place was dead silent.

This was the strength of the king of the eastern sea!

The three super sinecures who stood out were bewildered, and the other representatives of the three Seas also showed fear on their faces.

Ao Tian Xia at his peak was so unsolvable. No matter how dissatisfied they were, they would never dare to show it in front of him. After all, absolute strength meant absolute authority. This was the privilege of the King of the East Sea!

Ao Tian Xia's cold eyes swept across the three super priests one by one. The invisible pressure was so strong that even these top-tier existences in the entire sea realm couldn't breathe.

After a long time, the killing intent gradually faded.

"From now on, the three of you will guard the 18 levels of hell. Without my permission, you are not allowed to leave the prison." Ao Tian Xia's dignified voice came.

This was like being sent to the border.

Considering the crime that the three of them had just committed, even if they had not done anything substantial and had only stood in line once, such punishment was clearly exempting mercy from the law.

The three royal family super priests were slightly hesitant.

However, ao tianchou was already dead, and the representatives of the three Seas had already given up. It was meaningless for them to continue fighting. After a moment, they all chose to bow down.

Now that things had come to this, although they would inevitably be settled, they were already considered lucky to be able to keep their lives.

Ao Tian Xia's gaze then fell on the representatives of the three Seas. "Although the four Seas" royal families are of the same breath and branch, they are, after all, different from each other. There's no need for you to worry about the internal affairs of my Dong Hai's royal family.

Please tell my three royal brothers that I'll personally visit them one by one when I'm done with my matters here. "

The representatives of the three Seas looked at each other. They really could not withstand ao Tian Xia's Supreme dragon power, so they could only cup their hands and retreat.

The remaining people heaved a sigh of relief.

A great disaster had been averted. If ao tianchou succeeded in forcing the eastern sea to abdicate, the situation in the future would be unimaginable.

However, just when everyone thought that ao Tian Xia would not stop here and would definitely carry out a deep reorganization, he waved his hand dispiritedly, indicating for them to leave.

The Dragon's might was still present. No one dared to raise any objection to ao Tian Xia at this moment. They immediately left the meeting hall.

"Big brother, why doesn't father take this opportunity to clean up the internal affairs? isn't it too easy for them to let go of those people with wild ambitions?"

"That's right. Father has always paid attention to the balance of power and kindness. This matter of forcing an abdication is so bad that it's really inexcusable if we don't purge them!"

"Maybe it's for the big picture. After all, there are problems both inside and outside. We can't act rashly."

The group of ao brothers were discussing among themselves.

Ao si suddenly walked to the back of ao eighteen and said, ""18th brother, what do you think of this matter?"

Ao Shi BA coldly looked back at him and said, ""Don't you understand it? do you still need to ask me?"

After saying that, he quickly left.

At this time, ao BA's gloomy voice came from the side, ""Seeing that father can't hold on much longer, you're ready to suck up to eighteenth brother? Fourth brother, can't you be a little more promising?"

"No." Ao si shook his head lightly. "The enemy is right in front of us. Now is not the time for us to have internal strife."

Although he didn't show it on his face just now, if someone thought about it, they would find that although ao Tian Xia was domineering, he was actually an arrow at the end of its flight.

As the king of a generation, rebellion was an unforgivable crime that would definitely result in death. Exterminating an entire family was just a basic operation.

Moreover, with ao Tian Xia's style of doing things in the past, even though he had been more inclined to be patient these years, he would never be soft-hearted when it was time to be ruthless.

In today's situation, if it was any other day, he would have already started a massacre. Now that he was uncharacteristically forbearing, it could only mean one thing.

What ao tianchou said was true.

It wasn't that he didn't want to go on a killing spree, but his body's current condition no longer allowed him to go on a killing spree!

That was the truth.

Not long after everyone had left, ao Tian Xia, who was sitting alone in the meeting room, suddenly spat out a mouthful of golden blood. This was the essence of the dragon race's bloodline, as well as his own life energy.

Just as ao tianchou had said, he was already beyond cure. Even with the most optimistic estimation, he would only be able to struggle on at death's door for less than three years.

When he was forced to activate the Dragon's might just now, he had almost used up the last of his vital Qi. He was left with three years, and even living for three months was an unspeakable hope.

All of this was destined to be seen through by those who were determined.

The representatives of the three Seas didn't leave the East Sea. Instead, they met with the big shots of the East sea's royal families in secret. Ao tianchou was just a chess piece that they had pushed to the surface. Without ao tianchou, there would naturally be a second and third.

After all, there was no shortage of ambitious people in the world.

Then, rebellions broke out in various places in the East China Sea.

Although each of them alone was not enough to change the overall situation, with so many of them appearing together, it was like a spark of fire. If ao Tianxia was at his peak, all of this would not be a problem.

However, in front of their eyes, it was enough to make them anxious.

The elites of the East Sea were forced to scatter everywhere. They were the most loyal force in ao Tianxia's hands. It was obvious that he was trying to lure the Tiger away from the mountain, but he had no other choice.

Unless he was willing to give up the entire Eastern Sea and hide in a corner, he could only take this step. This was an unsolvable plot.

A storm was coming, and the entire East Ocean was in a strange state of anxiety.

Only Lin Yi, who was in the eastern sea king's palace, was as calm as if nothing had happened. He even had the time to talk to people, not realizing that he was in the center of the storm.

"You can't do this. You made a stupid move and fell. You're a mess."

Lin Yi looked at the absent-minded Qin Qing and shook his head. "I can't play chess with you anymore. If this goes on, I, the king, will be turned into bronze by you."

"....."

Qin Qing was speechless-she'd only just taught him this game two days ago. Even if Lin Yi's comprehension was strong enough, he was only a beginner at best. How did he have the face to show off in front of her?

After choking for a moment, Qin Qing couldn't help but ask, "I heard that Donghai's warehouse was robbed last night. It's getting more and more chaotic here. Are we just going to watch the show and not do anything?"

Chapter 10119

"You want to join in the fun so much?"

Lin Yi looked at him. "This is just the foreplay. What's the rush? the good part is yet to come."

Qin Qing furrowed her brows. "But I heard that some of them want to kill you. They are going to use you as a sacrifice to the flag. They are going to completely tie everyone in the East Ocean to the war chariot of the jingoists!"

Although it was an internal conflict in the royal family of Eastern Sea, under the intentional guidance of some people, the spearhead would be pointed at Lin Yi from time to time.

On one hand, it was because of his identity. It was clear that the sea deity Palace had pushed forward the position of King hai to check and balance the royal families of the four Seas. On the other hand, it was because his reputation as an absolute Saint venerable was too frightening.

The high priest and cruel malevolence of the sea god temple alone were enough to deter the royal families of the four Seas from starting a war.

Fortunately, the internal conflicts between the priest system and the Wayfarer system were great. Otherwise, if they joined forces, the scattered royal families of the four Seas would not be able to resist them at all.

Now, an absolute Saint venerable had suddenly appeared.

If they let Lin Yi grow, even if the ocean goddess Hall still couldn't integrate internally, they'd still have a nuclear bomb level top-tier combat force like the high priest. It would still be a fatal crisis for the four sea royal families!

Plus, who could guarantee that the priests and walkers wouldn't change their attitude after Lin Yi's rise?

If they were to shake hands and make peace, the sea goddess Hall's reputation would definitely reach an unprecedented height. At that time, would there still be a place for the four Seas "Royal clans?"

Therefore, it was almost the consensus of all the royal families of the four Seas to nip the threat in the bud. The only difference was that ao Tian Xia did not want to become the target of public criticism at this time.

"You're afraid they'll take the risk?" Lin Yi smiled.

Qin Qing said nervously, "we must be on guard. Although the royal families of the four Seas have been peaceful for a long time and have raised a bunch of useless people, there is no lack of unreasonable lunatics among them!"

Seeing Lin Yi's noncommittal expression, Qin Qing couldn't help but panic, ""We're now surrounded. If they really want to kill us, there's no way we can escape. We really need to plan early."

"Don't you worry, I have a backup plan. "

Lin Yi wouldn't have dared to take such a risk before, but now that he had the New World in his hands, the worst case scenario would be him bringing his people into the new world. There were many things he didn't have to do.

Qin Qing grinned and finally swallowed the doubt that was on the tip of her tongue.

If someone else had said this, he would have treated it as sleep talking.

This was the core of Donghai's royal family, and even the high priest couldn't guarantee that he'd be able to escape unscathed. Lin Yi's words, however, made him believe it unconditionally, despite how unbelievable it was.

He believed in his grandmother's judgment.

"Do you know why I'm staying here?" Lin Yi said, his tone heavy.

"Why?" Qin Qing scratched her head.

"I'm waiting for someone," Lin Yi said as he placed his stone down.

"Who are you waiting for?" Qin Qing asked curiously.

As soon as he finished, a mysterious figure suddenly descended in the yard and cupped his hands at Lin Yi with a cold expression, "Sea King hai, my King would like to invite you to his palace."

Qin Qing took a closer look at the person, and her expression changed as she whispered to Lin Yi.

"Divine Dragon guards! He is the personal guard of the King of the East Sea, ao Tian Xia. It is said that there are less than ten of them, and each of them is a top master!"

"That's the person I've been waiting for," Lin Yi nodded.

After saying that, he stood up and left with the other party.

Qin Qing was left dumbfounded. After a long time, she finally said, ""I'll give you full marks for this. "

Eastern Sea Royal Palace.

Lin Yi looked at the feast in front of him. It was such a Grand and luxurious Hall, but there was only him and the King of the East Sea opposite him. It seemed unusually empty and lonely.

At this moment, the king who controlled the eastern sea could not hide the haggardness on his face. It was enough to show that the rumors of him being terminally ill were not groundless.

"I've heard of the reputation of the king of the sea. Seeing you today, you're indeed a young hero with a heroic bearing!"

Although Ao Tian Xia was almost at the end of his life, he was still full of heroic spirit and looked like a king.

"I've also heard about the eastern sea king's name for a long time," Lin Yi said as he looked at the man.

"Please take a seat."

Ao Tian Xia laughed and immediately got straight to the point, "This Prince invited you over today for one thing. I don't know if King Hai Hai has the courage to agree?"

"I'm all ears," Lin Yi smiled faintly.

Ao Tian Xia was silent for a moment, then slowly opened his mouth, "I will submit to the sea god temple."

One sentence was earth-shattering and heaven-shaking.

Nominally, the entire sea realm was a believer of the sea god, and the royal families of the four Seas had already submitted to the sea God's temple in name. In terms of procedures, every king of the four Seas had to be recognized by the sea God's temple before they could officially and truly inherit the throne.

But everyone knew that this was just a formality in name.

The only respect the royal families of the four Seas had for the sea god Hall was that they did not openly rebel.

Now that Ao Tianxia was at his wit's end due to internal and external problems, Lin Yi didn't expect him to want to submit. After all, from the other side's point of view, this was the only good solution.

However, to take this step, not only did he need to be astute, but he also needed to have the courage to give up everything!

Ao Tian Xia's action was no different from openly defecting to the enemy for the proud Four Seas 'royal families.

Once this matter came true, even if he managed to keep his position as the King of the East Sea, he would be engraved on the pillar of shame of the four Seas 'royal families, and he would never be able to rise again.

Of course, to a person who was about to die, the so-called reputation was not worth mentioning at all.

By doing this, he could at least guarantee that the position of the king of the eastern sea would be smoothly passed on to his son, and that was enough.

No matter what, from the Poseidon shrine's perspective, this was definitely a huge surprise.

Even if the royal families of Dong Hai were to split up because of this, they would gain a top-notch force for free and at the same time greatly weaken the power of the royal families of the four Seas. No matter how one looked at it, this was a great gain.

However, Lin Yi raised an eyebrow. "The meaning of the word" surrender "is great, it's not something that can be said just by talking."

"This King will naturally show sufficient sincerity."

Ao Tian Xia stared at Lin Yi's expression, "I only ask for one thing. The sea god Hall must treat my sons well, and not kill the donkey when it has served its purpose."

"See the sincerity first," Lin Yi said, determined.

Ao Tian Xia knocked on the table, and a Jade map appeared in front of Lin Yi. He flipped through it and saw the map of the seventeen levels of hell!

In the entire sea realm, this could be considered a strategic treasure.

With these, in addition to the Qin clan's sea route map, it would not be an exaggeration to say that this was the lifeline of all the Marine human tribe.

Chapter 10120

With it, the royal families of the four Seas could control a region, and with it, the sea god Hall would not be far from truly unifying the sea realm!

No matter who saw it, since ao Tian Xia had already taken out such a trump card, he was naturally very sincere and should not be insatiable.

After all, accepting ao Tian Xia's surrender was a huge profit for the sea goddess Hall. Being able to obtain the sea route map of the 17th level of hell was already a pleasant surprise. If they were insatiable, they might end up with nothing.

But Lin Yi didn't stop there. He shook his head. "It's not enough,"

Ao Tian Xia's face was clearly filled with anger. "I'm already showing the greatest sincerity. It's best for you to consider the overall situation and not act on impulse, Prince hai hai. "

Lin Yi didn't listen at all, still shaking his head firmly, "You know that's not what I want, and that's not what the seagod Hall wants."

"....."

Ao Tian Xia was silent for a moment, his anger was on the verge of exploding, but Lin Yi didn't do anything. He could only shake his head and smile bitterly, "You're indeed a young hero, you win. "

After he finished speaking, the divine Dragon Guard from earlier appeared in the Royal Palace with three boxes in his hands.

After opening it, it was the head of the representative of the three Seas!

Whether it was the previous forced abdication Incident or the recent rebellions, these three people, as representatives of the other royal families of the three Seas, had contributed greatly.

If ao Tian Xia was at his peak, killing them would be a piece of cake. However, in his current state, he could not afford to turn against the other royal families of the three Seas.

Therefore, the only reasonable choice left for him was to endure.

Yet he'd just killed three of them and put their heads right in front of Lin Yi-this was the same as declaring war on the three Seas "royal families!

Lin Yi nodded. This was what he wanted.

The map of the 17 layers of hell was not important at all. As long as he could take down the four Seas 'royal families, everything would be fine. On the other hand, if he could not take down the four Seas' royal families, then even if he had the complete map of the hell sea in his hands, it would be of no use.

Don't forget, the eighteen levels of hell were heavily guarded by the royal families of the four Seas. If they couldn't deal with them, they wouldn't even be able to enter, let alone open up all the channels to obtain land resources.

Hence, Lin Yi's focus was on the four Seas "royal families from the very beginning.

If Ao Tian Xia wanted to surrender, he would have to take action to break off relations with the other royal families of the three Seas. Otherwise, if he surrendered openly, he would still be on the same side as the royal families of the three Seas. That would be playing him and the sea goddess Hall like fools.

"With three heads here, King Hai Hai Zhu should believe my sincerity now, right?"

Ao Tian Xia looked at Lin Yi helplessly. "Once this happens, it will definitely attract the other three Seas 'royal families' crazy counterattacks. With the current strength of the eastern sea's royal family, we can't defend against it at all. Please send people from the sea god's Palace to help us with the defense. Otherwise, everything will be over."

"You're too kind, King of the East Sea," Lin Yi laughed. "Water from far away can't quench present thirst. In fact, even without the Poseidon shrine, you can still settle this situation. "

"Is the Sea King joking?"

Ao Tian Xia's face changed. He was already putting everything on the line, and if Lin Yi stood him up again, then he would really be hopeless.

Not only would he be at a dead end, but the entire royal family of Dong Hai would also be cast under a huge shadow. His sons would not have a good end.

He couldn't afford to make such a joke.

Lin Yi shook his head seriously, "don't think too much about it, King of the East Sea. I don't want to use the sea god temple. You're strong enough to settle this mess."

Ao Tian Xia couldn't help but be stunned. He then shook his head and bitterly smiled. "You think too highly of me, King hai hai."

If he was at his peak, as the number one person of the four Seas 'royal family, he would naturally have such confidence. However, now that he was a skeleton in a grave, it was impossible.

Lin Yi suddenly added, "What if I can cure your terminal illness?"

"....."

There was a dead silence in the Royal Palace. Ao Tian Xia couldn't say a word for a long time. After a while, he burst out in ecstasy. "Could it be that the Sea King can ask the sea god to help me with my baptism?"

The terminal illness of the Sea People had always been incurable.

Since ancient times, there had been no one making all kinds of attempts there, but so far, the number of successful cases was zero.

After trying out all the possible routes, the only plan left with a slim chance of success was the legendary baptism of the gods.

If he could have the seagod personally baptise him, then even if he couldn't completely recover, he could at least struggle on at death's door for a little longer. That way, many things could be easily solved.

However, what kind of existence was the sea god!

Even the strongest of the sea realm was only an insignificant ant in front of a true godly state existence. Why would the sea god go through so much trouble to personally come and baptize Ao Tian?

"I don't think that's realistic." Lin Yi shook his head.

Ao Tian Xia's hope was extinguished as he looked at Lin Yi suspiciously. "Then what do you mean by ..."

"Let me take a look for you, what do you think?"

Lin Yi smiled as he recommended himself.

Ao Tian Xia's vision almost turned black and he fainted on the spot.

He felt that his intelligence had been humiliated.

This is a peerless problem that I've tried for thousands of years, exhausted countless manpower and resources, and still can't solve, and you, a little kid from the grassroots, are here to help me?

Luckily, ao Tian Xia's condition was extremely bad right now. He didn't even have the strength to get angry. Otherwise, he would've cursed Lin Yi's eighteen generations of ancestors!

Even if you're joking, there should be a limit!

Lin Yi didn't look like he was joking at all. He said seriously, "I've carefully studied the terminal illness of your marine human tribe. In fact, the root cause is the innate conflict of bloodlines.

You have both the bloodline of the human race and the Dragon race in your body. With the influence of the sea realm's environment, the two have already fused deeply and are inseparable.

In theory, as long as the balance between the two was maintained, he could still live a normal life.

However, as your strength increased, your Dragon bloodline kept awakening. Especially after you mastered the rules of the dragon clan, the balance of your bloodline was completely broken, and it was only natural that your body would collapse quickly. "

Ao Tian Xia was stunned.

It wasn't like he'd never heard of similar arguments before, but it was still shocking to hear it coming from Lin Yi's mouth.

It should be known that the person who said this last time was recognized as the number one doctor in the entire sea area. This person had been in seclusion for many years. If it were not for the deep relationship between the two families, even with his identity as the King of the East Sea, he might not have been able to meet him.

With Lin Yi's experience, there was no way he'd met that person before, and yet he was able to come up with the exact same conclusion!
