

Bodyguard 10131

Chapter 10131

Just when everyone thought that he wasn't going to say anything, he suddenly stretched and stood up.

"The meeting is over? Then I'll go. "

Everyone was confused,"huh? We've only just started, how did it end?"

"You're going to see Lin Yi yourself?"Madam Qing's eyes lit up.

The other three advisors were all shocked.

This boss's laziness was not an act. Usually, when there was nothing important, he was always sleepy. It was as difficult as ascending to the heaven to get him to take the initiative to do something.

Otherwise, with his identity as the first Walker and his terrifying strength that was not weaker than the high priest 's, if he was willing to put in a little more effort, the Walker system would not have been suppressed so badly by the priest system.

According to his past experiences, it was already good enough that he'd be willing to help Lin Yi this time. Why would he come personally?

Cruel malevolence rubbed his sleepy eyes. "There are some things I don't understand. Let's talk to him."

Everyone was dumbfounded.

Madam Qing, however, smiled. "That's good. I'll go back to being lazy."

In front of the shocked eyes of the other three, cruel malevolence yawned and walked out of the meeting room.

In just a breath's time, the drowsy-eyed No. 1 Walker had arrived at the eastern sea King Palace thousands of miles away. If the news of this speed were to spread, it would definitely scare a lot of people to death.

Lin Yi wasn't too surprised to see him in the eastern sea's Royal study.

"You knew I was coming?" cruel malevolence raised his eyes.

"A little," Lin Yi smiled faintly.

Cruel malevolence looked at him deeply. "Then, you should be able to guess why I am here. Right?"

"If I'm not wrong, it's about the Poseidon." Lin Yi nodded without hiding anything.

"This is good too."

"Then I'll ask you directly. Is the sea god still alive?" cruel malevolence immediately asked.

Lin Yi was prepared for this, but he still couldn't help but feel his heart tighten.

The other party was the first Walker under the sea God's command. In name, other than the high priest, he was the sea god's closest and most loyal believer.

The key was that his strength was unfathomable.

Once such a person learned the truth of the seagod's death at his hands, it was impossible to accurately predict what kind of reaction he would have.

If the negotiations fell through, Lin Yi's only choice would be to give up everything and escape the sea!

There was no other reason. Even with his current strength, he could not see the depth of the other party's strength, let alone fight with him.

After a moment of silence, Lin Yi spoke slowly, "The sea god you know is already dead."

As soon as the words left his mouth, the entire world suddenly froze.

In an instant, the scene in front of him turned into hell, and Lin Yi experienced the despair and powerlessness of an ordinary person. His entire sea of consciousness was occupied by death Qi.

Even with his strong will, he couldn't help but fall into the dead Qi and couldn't escape.

At the last moment, it was the will of the New World that protected his last trace of consciousness. Then, under the sweep of the world's will, the heavy aura of death in his sea of consciousness was immediately swept away.

"What?"

Cruel malevolence's sleepy eyes flashed with surprise. He was going to help Lin Yi, but it seemed like it was unnecessary.

Seeing that Lin Yi was safe and sound, a trace of admiration flashed across Lang Mie's eyes, "Just based on your determination, you are qualified to occupy a place in the top five advisors. You are quite impressive."

This was the truth.

Although the top five advisors were all top-notch figures, there was still an obvious gap between them and him, the first advisor. Other than the equally unfathomable Madam Qing, it was hard to say whether the remaining three would be able to escape unscathed from the impact just now.

She didn't expect Lin Yi to be completely fine.

"You're not going to attack me?" Lin Yi was even more surprised.

The attack just now was extremely dangerous, and 99% of the Supreme realm experts in the sea realm would have been trapped in it. It was not surprising that they were killed instantly.

However, Lin Yi could clearly feel that cruel malevolence didn't do it on purpose. He was forced to do it.

To put it bluntly, he didn't even make a move, it was just his own aura.

If the opponent really wanted to attack, Lin Yi knew that he wouldn't be able to last one move. Of course, it would be a different story if he entered a new world.

Cruel malevolence lazily sat on the chair and yawned, ""Why should I attack you?"

"You're not planning on standing up for Poseidon?" Lin Yi asked, confused. If I'm not wrong, as the first Walker, the bond between you and the sea god is quite deep, right?"

Cruel malevolence did not care. "That is the business of the godly state experts. I am just a small figure in the Supreme realm. How can I get involved? I will just watch."

"....."

Lin Yi was stunned for a long time before finally squeezing out a sentence. "You're also an interesting person. "

Cruel malevolence looked at him and suddenly said, ""I always feel that you can beat me."

"You think so highly of my potential?" Lin Yi raised a brow.

Cruel malevolence shook his head. "Not potential. Now."

"Isn't this too exaggerated?"

Lin Yi's heart jumped.

Other than the flash of the world's will, he did not use any power of the New World in front of the other party. Even so, he could still be detected. This person was really a monster.

Cruel malevolence looked at him deeply. "I don't know how you did it. But you're interesting. We can fight if we have the chance."

If it were anyone else, they would have felt their scalps go numb upon hearing this.

Even the high priest did not dare to say that he could defeat cruel malevolence, let alone the others.

Lin Yi wasn't scared at all—in fact, he was a little excited, "Let's wait a little longer. We'll find an opportunity in the future."

"Alright, I'll be waiting."

Cruel malevolence suddenly got up and lazily walked out of the door, "Since there's nothing else, I'll take my leave."

Lin Yi said, confused.

You actually came all the way from the sea god's Palace just to ask this question?

Although the answer to the sea god's question was indeed of utmost importance and could directly decide the fate of the top advisors, the fact that this fellow didn't mention a single word about the current situation was definitely because he was slacking off.

"Since you're already here, it's not appropriate to leave without helping me, right?"

As expected, Wolf extinguisher's face darkened immediately after Lin Yi said that.

After a long time, this fellow turned his head stiffly and sat back down. His listless face was filled with bad luck, like a student who wanted to skip class but was caught red-handed by the Dean.

If this scene was seen by others, they would be so shocked that their teeth would fall out.

His strength was publicly acknowledged to be on par with the high priest, and he was a peak existence in the entire sea realm. To be ordered around by a new Poseidon shrine member like Lin Yi, no one would believe it.

Chapter 10132

Cruel malevolence looked lazy and didn't look like a big Boss with a strict aura. However, his identity and strength were clear. There were few people who could speak in front of him.

Not to mention his omnipresent aura, which made people not dare to approach him.

Lin Yi was probably the only one in the entire sea who dared to treat him like this, and they'd only met twice before. Strictly speaking, they weren't even acquaintances.

"Are you so familiar with everyone?"

Cruel malevolence complained helplessly. Although his face was full of disdain, he was not unhappy at all.

At least with Lin Yi, he was buying it.

Of course, the prerequisite was that Lin Yi's previous performance had already gained his approval. If it was someone else, with his personality, he wouldn't even look at them-he'd have the time to go back to sleep, right?

"If there's ready-made labor, wouldn't it be a pity to not use it if it expired?"

Lin Yi had expected this attitude.

Before today, he had not been able to determine the first advisor's stance. But after the question he had asked, he knew that he was a friend and not an enemy.

Although their relationship had not reached the point where they were completely open and honest, this invisible tacit understanding had already been established.

Of course, the most important thing was that they got along well with each other.

Even though they didn't talk much, they didn't deliberately guard against each other like they did with strangers.

Some people were clearly meeting for the first time, but there was an inexplicable sense of familiarity like old friends of many years. This was affinity.

Cruel malevolence pouted and said, "tell me. What do you want me to do? I'll be blunt. Don't ask me for things that are too tiring. I'm afraid of being tired."

"It's just a little commotion," Lin Yi smiled. "It's nothing to you."

"....."

Cruel malevolence looked at this guy's relaxed expression and felt like he was being tricked. However, he thought about it. He was the first Walker of the Poseidon shrine. Who would dare to trick him?

He was definitely thinking too much.

Lin Yi said as he pulled out a plan. Not only were his tasks listed, but the other top five advisors were all listed as well, including hai Wutian.

Cruel malevolence's eyelids twitched, ""You've made such a big move all of a sudden, can you cover it up?"

Lin Yi looked at him, "it's impolite not to return the favor. You guys don't like to be beaten up, do you?" Since the opportunity has presented itself, why don't you take advantage of it and make a big one? are you going to keep it for the new year?"

"Alright, you're ruthless."

Cruel malevolence was convinced, and he looked at Lin Yi with more approval.

Putting aside the difference in strength, Lin Yi's personality was the complete opposite of his. He was a lazy salted fish by nature, while Lin Yi was a proactive and aggressive person.

Even if there was no opportunity, he had to create one. Now that there was an opportunity, he was even more determined to make a big move. In the eyes of others, he was the kind of person who wanted to see the world in chaos!

However, unexpectedly, the two people with completely different personalities did not dislike each other. Instead, they had an inexplicable sense of admiration.

Lin Yi watched as cruel malevolence stood up and left. He pondered for a moment and called Qin Qing.

"Help me make a statement saying that I'm going to the West Ocean for a date."

Qin Qing was shocked and asked, "are you serious?" That old liar obviously has the backing of the royal families of the three Seas. If you go just like that, you might be walking into a trap. "

The intelligence showed that in order to match the rhythm of this time, the elite forces of the royal families of the three Seas had been redeployed and mobilized.

His intentions were clear-once Lin Yi entered the West Sea, it didn't matter if he won or lost the fight. There was almost no chance of him coming out unscathed.

After all, the West Sea was the most remote place among the four Seas, and also the place where the sea goddess Hall could not reach.

Once that group of people fell out with each other, even with the sea god Hall's strength, it would be impossible to provide any assistance.

Not to mention that the Poseidon shrine's internal affairs were not completely United. When the time came, not only would the high priest not go all out to save them, but he would also be happy to see it happen.

No matter how he looked at it, it wasn't a wise move for Lin Yi to go to the West Sea.

Qin Qing couldn't help but advise him. "Even if we really want to fight face to face, we don't have to do it at the West Ocean. Why don't we just set it at the border between the East Ocean and the West Ocean? this way, they won't be able to say anything wrong."

The meaning of his words was that he still had to find a way out.

Lin Yi smiled, "it's okay. I'm also looking forward to seeing the West sea's culture. The sea is so big, I haven't even had a chance to explore it."

Qin Qing couldn't understand what he was saying.

He couldn't help but want to complain, 'you're really big-hearted, is this the time to go sightseeing?'

But seeing Lin Yi's determination, he knew that he couldn't change his mind anymore. He nodded helplessly, "Then I'll go with you."

House Qin's fate was now completely tied to Lin Yi. According to his grandmother's orders, his only mission was to follow Lin Yi and cooperate with him as much as possible.

"House Qin is the fifth royal family in name, but our Foundation is limited. There will be more and more forces joining Lin Yi in the future. We can't compare to him in other aspects, but our only advantage is that we joined him earlier.

In the future, if we want to occupy a place under his command, we must truly solidify our status as a senior statesman. Only by holding on tightly to this favor will our Qin family have the opportunity to rise to a higher level. "

This was his grandmother's original words.

The first time Qin Qing heard it, she thought it was too exaggerated. Although Lin Yi had shown extraordinary strength and methods, he was still far from the level his grandmother was talking about.

After all, to reach that level, Lin Yi had to rule the four Seas at the very least. Was that even possible?

Such a thing would have been unimaginable in the past.

However, after personally witnessing the fate of the eastern sea's royal family, Qin Qing's rationality told her that it was not impossible, even though she still felt that it was a little unreal.

After all, the eastern sea's royal family was publicly acknowledged as the strongest among the four Seas 'royal families.

Because of ao Tian Xia's personal condition, it was difficult to replicate the same action for the other royal families of the three Seas. However, since a miracle had already happened once, there was no guarantee that there would not be a second or third time!

He was still far from that level, but with Lin Yi's influence, it wasn't like he didn't have a chance.

Just the thought of seeking hegemony in the four Seas made one's heart surge with excitement!

Qin Qing had just finished brainwashing himself when Lin Yi looked at him and said, ""Forget it, you're in the way. Why don't you use this time to study the eighteen levels of hell?"

Qin Qing choked for a long time and finally couldn't help but say, ""Although you're telling the truth, your words are a little hurtful."

"It's okay, you'll get used to it after I say it a few more times." Lin Yi nodded.

Chapter 10133

"....."

If it wasn't for the fact that she couldn't beat him, Qin Qing would have wanted to kill him. She shook her head helplessly and said, "Although we have the entire sea route map now, the first 17 levels of hell are heavily guarded by the royal family of the three Seas. Even if we want to enter, we can't."

"Let's get ready-we'll be able to go in eventually," Lin Yi smiled.

Seeing how certain he was, Qin Qing didn't say anything more and immediately organized people to work on the details of the Hell's Sea Map.

Having a map of the sea was one thing, but whether or not it could be used correctly was another matter. Without enough manpower and resources, even if he had all the maps, it would be useless to guard the treasure Mountain.

In this aspect, the Qins were Lin Yi's most trusted people.

If everything went as expected, this would be the Qin family's biggest support under Lin Yi's command. Naturally, they would take this very seriously, even more so than Lin Yi himself.

After that, Lin Yi set off for the West Sea.

However, with his current status, especially at such a Grand occasion, he naturally could not go alone.

The ninth advisor, hai Wutian, had come to accompany them as the representative of the sea god Hall. In addition, the Python and hou Moshe had brought the entire personal guard unit.

Even though there were not many of them, with their Supreme realm auras, they still attracted the attention of many people along the way.

Those who were less courageous thought that a war was about to break out, and they scattered in all directions.

"Keep a low profile," Lin Yi said, speechless. "You're all so unruly, like a Japanese entering a village. "

However, it had to be said that during this period of time, the great Python's training of the people had been quite effective. The 100-man personal guard Camp of the coastal water King had already shed their arrogance from the previous guards of the divine Hall.

All of them were on high alert, their bodies exuding a strong sense of danger, like a pack of fierce wolves in the wilderness, ready to attack their prey at any time.

It was no wonder that the passersby were afraid.

In fact, even the sea monsters were tactful enough to keep a distance from them, not to mention the passers-by. They were afraid that they would run into the muzzle of a gun.

By the time they entered the territory of West Sea Haiti the elites of West sea's royal family guarding the border were on high alert as if they were facing a great enemy. They were all on guard, but at the same time, they were also panicking.

It was not that they had not seen the temple guards before. With their level of elite, they were not much worse than the general temple guards.

However, this was the first time they had seen such a group of howling animals.

"Newcomer, state your name! This is the boundary of the four Seas. Anyone who trespasses without permission will be killed without mercy!"

A commander of the West Ocean Army stood out.

If it was only his family, he really might not have the courage to do this. But now that the royal families of the three Seas were working together, the elites of the other two families were also quickly surrounding them as he spoke.

In less than half an incense's time, Lin Yi's group was surrounded by ten times the number of elites.

For a time, the situation was tense.

The commander of West Ocean was greatly relieved. He immediately said in a clear voice, ""Report your names and come over one by one for inspection. Otherwise, we will regard you as a criminal and you will bear the consequences."

Hai Wutian and Lin Yi looked at each other before stepping forward, ""I'm hai Wutian, the ninth advisor of the sea god Hall. I'm here with Lin Yi, the Sea King, to the West Sea for the meeting. Please make way.
"

"Lin Yi, the king of coastal waters?"

The West Ocean commander's lips curled into a mocking smile. "I'm sorry, but I've never heard of this person. My King has ordered that anyone who wants to enter the territory of the West Ocean must undergo a personal inspection. This is the rule of the West Ocean, so I advise you to cooperate."

The commanders of the other two seas all revealed contemptuous and playful smiles.

Even a three-year-old kid would've heard of Lin Yi's name after all the commotion they'd caused. How could they not recognize him?

They were all gathered here to wait for Lin Yi to take the bait.

Hai Wutian's face darkened. "We've already revealed our identities. Why are you still pestering us? do you know the consequences of this?"

It wasn't an exaggeration to say that Lin Yi represented the Poseidon shrine in the West Sea meeting.

If they were to be searched before even entering the West Sea, it wouldn't just be embarrassing for Lin Yi, it'd be a slap to the face for the entire Poseidon shrine.

No matter what, the sea god's Palace was still the only official authority in the sea, and Lin Yi was the official representative of the sea god.

Since he had agreed to attend the West Ocean meeting, he was an out-and-out Imperial envoy.

Yet now, the Imperial envoy, after revealing his identity, had to accept the personal search of a local patrol guard. The word "humiliation" was almost written directly on his face.

If it could be tolerated, then who couldn't?

However, the other party was already prepared. He said in a business-like manner, ""It's been a bit chaotic recently, we just caught a bunch of scammers two days ago, and coincidentally, they said they're the king of coastal waters, Lin Yi. "

Naturally, he was saying that Lin Yi and the others were also liars.

At the same time, it was in line with the theme of the West Ocean meet, calling Lin Yi a scammer. It wasn't a big deal, but it was humiliating enough.

"This is a psychological battle," the leading priest, Hou Maha, reminded. "If we accept the search, this scene will be recorded and spread widely. When it is released at the meeting, we will be at a disadvantage in terms of momentum."

In any battle, momentum was the most important. Even if this had nothing to do with the battle itself, as long as one's momentum could be crushed, the other party would have profited.

If it can affect your state of mind, then it's even more worth it.

Hai Wutian gritted his teeth in anger. "F * ck, this is so disgusting! He doesn't dare to fight openly, so he only knows how to use these little tricks to disgust people!"

Hou Moshe was also having a headache. "The key is the reason they came up with. It sounds logical to others, but if we don't cooperate, it will only make us look like we have a guilty conscience."

It was foreseeable that the moment Lin Yi accepted the search, something else would happen.

With the level of shamelessness the other party had displayed, if he didn't put in enough effort to embarrass Lin Yi, he'd definitely be finding his conscience.

It was better to hope that the sun would rise from the West tomorrow than to hope for such an unrealistic thing.

Everyone looked at Lin Yi in unison.

At the same time, the enemy's encirclement tightened, clearly knowing that Lin Yi wouldn't cooperate.

Lin Yi looked around and smiled faintly, "The guest should do as the host wishes. Since they have invited us so sincerely, we as guests should know our place, right?"

Everyone looked at each other, speechless.

Hai Wutian's face was as if he had just eaten sh * t. ""We're just going to take this loss?"

Chapter 10134

Although he knew that he was alone, and the other party was obviously prepared, waiting for him to take the bait, and there was a high chance that he would lose, he was still unhappy.

Lin Yi looked at him strangely, "We haven't even made a move yet, why are we already destined to suffer?"

"Ha?"

Hai Wutian froze, and before he could react, Lin Yi said, ""Pierce them!"

After he finished speaking, his figure flashed, and he actually directly led the charge.

Everyone was shocked, but they quickly reacted and immediately shouted and followed.

As Supreme realm experts, which one of them was not proud and arrogant? which one of them would be willing to suffer such a loss?

If Lin Yi chose to bear with it, they'd have no choice but to do so, even if they were unhappy.

But now that Lin Yi had shown this side of him, even if it seemed unwise to others, it was much better than being a coward!

The great sea King had to have this kind of pride.

Only by following such a hot-blooded master would they be able to hold their heads high!

Hai Wutian followed and laughed, ""Starting a fight the moment we don't agree. Your bad temper hasn't changed at all. It's just what I want!"

Seeing Lin Yi leading the group to charge at them, the three commanders were clearly taken aback.

This was part of their plan, and everyone would be forced into a corner, but they didn't think that Lin Yi would be so decisive, charging at an enemy ten times his size!

Although the guards unit had the foundation of the guards of the divine Hall and could be regarded as the first team in the entire sea area in terms of team combat strength, they did have the capital to be reckless.

But that also depended on who the other side was.

They weren't normal cannon fodder-they were the elites of the three Seas, sent here to stop Lin Yi. They would've been able to face the same number of guards under normal circumstances, let alone ten times the number of guards.

"Since he's so sincere in seeking death, I'll satisfy him."

The commander of West Ocean Burst into laughter.

He was just worried that he wouldn't have a chance to make a contribution. If he could take Lin Yi down this time, it would be a huge contribution, and his position in the West Ocean would definitely rise. In the future, he might even have a chance to get the position of the commander of West Ocean!

The other two commanders of the North Sea and South Sea showed the same smile at the same time.

Now that things had gotten this big, as long as they could get Lin Yi's head, the credit would go to them no matter where they went. They'd been thirsty for it for a long time.

With the three's orders, the three Seas "elites, ten times the size of Lin Yi's personal guards, immediately began to surround and kill!

His first move was an earth-shattering combined attack.

This was the standard of the elite forces of the sea. If they did not have a decent strategy, they would be embarrassed to take it out. No matter how strong they were individually, they could only be regarded as high-level cannon fodder at best.

In the blink of an eye, the guards unit led by Lin Yi was covered in fire from all directions, not a single one escaped.

The commander of West Ocean sneered, 'you're trying to be a hero with this little ability? Truly an idiot who doesn't know life and death. To be able to let such a trash take the position, it seems the seagod Hall has come to an end. "

The other two commanders laughed smugly.

The terrifying part of the art of teamwork was that it could increase everyone's strength, achieving the effect of one plus one being greater than two.

Under normal circumstances, in a battle of the same number of elite forces, the side that suffered the first blow would definitely lose.

Any so-called backup plan could not make up for this degree of reduction in members!

As for individual strength, unless one was strong enough to reach the high priest's realm, there was no way to reverse the overall situation. If one was trapped in it, they would only become high-level cannon fodder.

Moreover, this was not a one-on-one battle, but ten-on-one!

With their experience, they'd eat their eyes if Lin Yi and the others still managed to escape.

It was impossible.

But in the next second, Lin Yi led a group of guards and charged out of the area like a pack of wolves and tigers.

Most importantly, there wasn't even a single scratch on their bodies.

It gave people the feeling that the earth-shattering combined attack just now was simply a lonely fight, not even air could be considered.

"How is this possible?"

The commanders of the three Seas were collectively dumbfounded. This was completely different from what they had expected. It was simply a subversion of their knowledge.

In fact, the moment the attack landed, even hai Wutian and the others felt that they were doomed, let alone them.

With their strength, if they were to take it head-on, even if they were not completely annihilated, they would definitely suffer heavy casualties.

It was hard to imagine that he would be able to rush out unscathed.

However, after the attack landed, everyone was surprised to find that the terrifying attack had actually passed through their bodies.

From the beginning to the end, not a single trace was left behind.

It gave off the feeling that everything was an illusion.

But that was obviously impossible.

This group of three Seas "elites on the other side definitely had the intention to kill, and they had nothing better to do than to use such a powerful illusion to scare people.

More importantly, he had wasted such an important opportunity to strike first!

One had to know that while teamwork was powerful, it also meant that it required enough time to prepare for a joint attack.

Once it missed, it would not be able to attack again in a short period of time. Instead, it could only let the other party ride on its face and attack!

"Xu Chen! There's a void Gu there!"

Someone in the West Sea battle formation suddenly cried out in alarm.

Everyone looked at the source of the voice-there was a huge figure behind them.

Although no one could really see its appearance because it was between the real and the void, looking at the entire sea area, the only existence that could match this feature was the void Phoenix, and there was no other possibility.

The commander of West Ocean and the other two commanders looked at each other and gasped in shock.

"What is this guy's ability? He actually managed to attract the help of a void worm?"

Xu Chen's existence was too ancient, and it had an extremely special symbolic meaning in the sea realm. Many people even used Xu Chen as their totem, and his status was not inferior to that of the dragon clan.

In fact, Xu Chen's population was far fewer than that of the Dragon Tribe. In addition to his unique ability, the number of people who could win his favor in the entire history probably could be counted on one hand!

The morale of the three Seas 'elites immediately plummeted.

They could not be blamed. The ability of The Phantom sniper was enough to make all their attacks miss. This kind of dimensional reduction attack was enough to make people despair.

Once any super sea beast was used well, it would undoubtedly be a great killing weapon on the battlefield, let alone a legendary existence like the void Phoenix.

Reality and nothingness could alternate at any time.

Even Supreme realm cultivators would be helpless against such a power, and it was natural for them to be helpless.

Chapter 10135

Lin Yi had already brought a bunch of animals to the front as they spoke.

Although the three Seas had ten times the number of elites, the force that could truly block Lin Yi's group as an encirclement wasn't that exaggerated.

The first to bear the brunt were naturally the West Ocean elites.

To capture the bandits and capture the king, the elites of the three oceans were obviously under the control of the West Ocean, even though there was no superior-subordinate relationship between them.

As long as West Ocean collapsed, the situation would collapse on its own!

"Are you taking me for a soft persimmon? You're so arrogant!"

The commander of West Ocean couldn't help but laugh in anger.

Having Xu que as a backer had indeed given him a shock, but Xu que's abilities were mainly reflected in the defensive aspect. Once he used them on the offensive, they would at most make people feel uncomfortable, but not enough to determine the overall situation.

Their biggest disadvantage now was that they had just used a wave of joint attack techniques and could not use them again in a short time.

The impact was indeed huge, but it was far from enough to make them collapse. After all, even if they ignored the elites from the other two seas, they still had four times the number advantage!

In a large-scale battle, a four-fold advantage might not be as exaggerated as ten-fold, but it was already an insurmountable gap.

The advantage in numbers was the fault tolerance.

Coupled with their own elite strength, the commander of West Ocean had absolute confidence that they could easily take on this wave of attack from Lin Yi's group!

As long as they survived this wave, the next thing would be simple.

He believed that even Xu que couldn't have unlimited power. As long as he could hold them off, the elites of the other two seas would be able to finish the battle!

Then, he saw the shadow of a 10000-foot-long giant dragon coming toward him. The unparalleled and terrifying pressure made the West Ocean elite's knees go soft.

Those who were slightly weaker even knelt down on the spot uncontrollably.

And not just one or two!

"Dragon's might!"

The commander of West Ocean was so angry that his eyes were about to pop out. Although he had indeed heard of it before, he had not taken it to heart. How could a grassroots who could not even be considered as a branch of the royal families of the four ocean have mastered the rule power of the Dragon race?

The people of the sea realm were quite superstitious about bloodlines.

If not for this, the royal families of the four Seas would not have been able to control the four Seas as they were now. Although there was no lack of resistance, the superstitious belief of bloodline suppression had saved them a lot of trouble.

However, he was now suffering from a backlash.

As soon as the overwhelming Dragon's might was released, in addition to its own great intimidating power, it also caused an indescribable blow to the morale of the elites of the three Seas!

Otherwise, there wouldn't be so many people who knelt on the ground in fear.

Even the commander of West Ocean himself couldn't help but be dazed for a moment, let alone the elites under him. He even subconsciously wavered in his heart.

Taking advantage of this opportunity, the Python led a group of roaring personal guards into the formation.

What followed was a brutal massacre!

Like a hot knife cutting into butter, the commander of West Ocean had never thought that the iron formation of West Ocean that he had carefully built would be so vulnerable.

They clearly had the absolute advantage in numbers, but at this moment, after the close combat, not to mention forming the expected direct suppression, they couldn't even achieve the minimum stalemate. They collapsed immediately!

At this moment, the difference in strength between the two sides was not an elite against an elite, but a trump card against cannon fodder!

Lin Yi's spirits were lifted, and he couldn't help but look at the snake with praise.

Today's battle was the first battle to test the strength of the guards unit.

He would not be surprised no matter what the outcome was.

But with Xu Qiao's support and his Dragon might, Lin Yi was confident that he wouldn't be at a disadvantage even if they were outnumbered.

However, in the current situation, this wasn't just not suffering any losses. It was simply eating people!

In terms of individual strength, his personal guards unit was not much different from the three Seas "elites. According to normal understanding, even if they could take the initiative in a short time, it would be difficult to gain much of an advantage.

As it turned out, Lin Yi had still underestimated the strength of his men.

The key was the Python.

Hai Wutian, who was acting as the wing guard, sighed, ""The sea Python race is indeed a natural-born Fighting race. Not only are they strong individually, but they are also first-class in training troops!"

"The personal guard unit has been strongly marked by him. Everyone has been trained to be like wolves and tigers. Although they are unstoppable when they attack, there is a hidden problem. They can't defend."

Now, under the great Python's training, no matter if it was the formation or the joint attack technique, they were all unconventional ways to make a single attack.

A desperate attack!

It was also because of this that these animals were able to explode with such explosive combat power, even Lin Yi was shocked.

However, on the other hand, if Xu que had not blocked the joint attack for them, this 100-man team, which was born to attack, would probably have collapsed in one exchange and would not have been able to hold on until now.

Lin Yi wasn't unhappy with this at all-with such a powerful force in his hands, any force that wanted to target him would have to think twice.

However, this way, the name of the guards unit would not live up to its name.

After all, the job of the guards unit was to act as a shield.

But now, under the great Python's training, it had directly turned into a battle axe. It was more ferocious than anyone when it chopped people. As for defense, it had no defense at all.

"It's okay," Lin Yi smiled, speechless, "killing people is the best defense. "

While they were talking, the guards unit had already pierced through the West Ocean elites.

Although the number of casualties was only about 50, which did not seem like much, they were all Supreme realm experts.

Even with the foundation of the four Seas 'royal families, it was not easy to gather such an elite force.

With the vastness of the sea area, even though there were many Supreme realm experts, it was not to the point where they could be found everywhere. Every single one of them was highly sought after.

This was the largest casualty of the West sea's royal family in the last hundred years!

The commander of West Ocean felt his heart bleeding.

One had to know that Lin Yi and the others who were attacking had zero deaths under the damage sharing effect!

With such a brutal casualty rate in front of him, he couldn't even hope for the position of West ocean's Commander-in-Chief. If he was held accountable, he might not even be able to keep his current position.

Not only the West Ocean elites, but the other two ocean's elites who were guarding the flanks were also stunned by this cruel scene.

Chapter 10136

They were supposed to surround Lin Yi's group once more with their tacit understanding, but now, while they were still on their way, they'd slowed down.

The result was that the encirclement, which was ten times larger than the original number of people, was easily broken through by Lin Yi's group.

For a time, the remaining elites of the three Seas felt their faces burn.

Today's scene would definitely become the joke of the entire sea realm if it was spread out. It would become a dark history that they couldn't get rid of!

"F * ck, catch up!"

The commander of West Ocean was so angry that he stomped his feet and cursed, "if they Get Away Today, I'll kill all of you! None of you will have a good life in the future! I said it!"

He knew very well that he couldn't just let this end like this. He had to save his face no matter what.

Otherwise, what awaited him in front would be a bottomless abyss.

For this, he could only do it at all costs!

Only by keeping Lin Yi here would he be able to keep his position and not be punished!

However, just as he finished speaking, his trusted aide stopped in his tracks once again in disbelief. He pointed ahead and was dumbfounded.

"They, they stopped!"

The commander of West Ocean looked over and was stunned.

Lin Yi's group didn't just stop, they even changed their formation.

Everyone was stunned, and there was a short and strange silence.

The commander of West Ocean was so angry that he laughed, 'these bastards actually want to launch a counterattack? Do you really not know how to spell the word "death"?"

Anyone who was in Lin Yi's position would think of running as far away as possible after breaking out of an encirclement ten times their size-who would've thought that he'd counter-charge?

The commanders of the other two seas laughed,"good!" Since you're so eager to give up your life, then we won't be polite!"

To fight against a crowd by himself, he had to do it in one go.

Lin Yi's violent behavior was indeed frightening, but the more violent they were, the less they could last.

Now that the fiercest first wave had passed, it would be foolish to not take this opportunity to escape and actually fight back.

But soon, when they saw the soldiers of West Ocean easily cut through the elite soldiers of West Ocean again, the audience fell silent.

"No! It's impossible!"

The commander of West Ocean, who had encountered the Python again, was furious.

This was because he had lost no less than sixty men in this one attempt!

Adding the two incidents together, the number of members had been reduced by more than 30%!

Such a number of casualties would be considered heavy even in a battle between ordinary people. As for a battle at the sea, where Supreme realm experts were the main force, it was unprecedented.

However, the commanders of the other two seas saw an opportunity.

"They've weakened again and again. They're already at the end of their rope!"

With that, he ordered his men to charge forward, not giving Lin Yi and the others any chance to catch their breath.

This time, they were going to take advantage of the casualties of West Ocean to claim the fruits of their victory. This intention was clearly written on their faces.

Then, they were also killed by the group of animals.

A basin of cold water was poured over his head, and this time, the entire battlefield was completely silent.

The three commanders looked like they had seen a ghost. "How is that possible? How do they have such endurance?"

From the beginning until now, although the time was not very long, the intensity of each collision was so high that it could be ranked even in the previous sea Wars.

Especially since they had fewer people, each time, it was theoretically enough to drain all their strength!

However, in this short period of time, this group of animals should have been squeezed dry three times, but at this moment, they still looked alive and kicking!

In fact, not only were they in disbelief, but even the group of animals themselves were also in disbelief.

The way the others looked at Lin Yi was like they were looking at a God.

When Lin Yi said he was going to charge back, everyone, including the Python, had been thinking about it.

No one knew better than him the limits of the guards unit.

Although it wasn't to the extent of being crippled after a single charge, it wasn't much worse.

In his judgment, even if they could force their way down the second wave, they would have to pay a huge price. There was a limit to human strength, and this was an inevitable limit!

However, they didn't expect that not only did they not show any signs of exhaustion, but they also became more and more fierce as they charged forward!

Even hai Wutian, a supernumerary personnel, could clearly feel that in the process of charging back and forth, everyone was united by an invisible Supreme force.

This feeling of telepathy was something that no battle formation could have.

In this process, no one had lost even the slightest bit of their strength. Every bit of it had been converted into unstoppable killing on the battlefield.

That kind of ease and precision was indescribable.

In order to gather everyone's power, any battle formation would inevitably cause huge losses in the process.

Even the most brilliant battle formation would lose more than 70% of its strength!

But now, all of their losses had disappeared, and the most obvious result was that their battle endurance had increased by several times!

This was an ability that only gods could possess!

They didn't know how Lin Yi did it, but they all knew that it was Lin Yi who brought it to them.

Everyone in the guards unit was subconsciously in awe of Lin Yi, there was no longer any barrier between them.

Before this, some of them were still unwilling to leave the divine Hall guards and had some complaints in private.

But now, everyone here shared the glory.

After experiencing the miracle of the battlefield where their souls were one, they felt that it was a great honor to be Lin Yi's brothers!

As for Lin Yi himself, he was surprised as well.

Under Jiang xiaoshang's reminder, he had used the will of the New World on a whim, subtly condensing everyone's essence, energy, and spirit into one.

Even he himself did not expect that just the first test would actually have such a shocking effect!

Lin Yi's eyes swept across the crowd, and under everyone's anticipating gazes, he said, "Let's do it again,"

To their despair, the elites of West Ocean discovered that the unreasonable, violent beasts didn't stop to rest and recuperate. Instead, they turned around and charged at them again!

"Kill! Kill them!"

The commander of West Ocean roared madly. Under the double impact of shame, anger, and fear, he had lost his last bit of rationality.

Chapter 10137

The only thought in his mind was to kill Lin Yi, the man who brought him an unprecedented humiliation on the battlefield!

But what he did not notice was that this time, the elites from the other two seas on the left and right flanks did not surround him like before.

They all chose to wait and see.

It wasn't that they wanted to sell out their teammates, but they were really scared by Lin Yi's violent behavior. They couldn't afford to lose dozens of people.

In this way, the West Ocean elites, who had lost more than 30% of their forces, were directly exposed to the public.

In terms of numbers, they still had more people than Lin Yi's personal guards, but they were all alone at this moment.

Nearly two hundred elite soldiers from West Ocean were like sheep in front of a lion's mouth when faced with the charge of Lin Yi's personal guards. They couldn't even put up a decent resistance before they were cut through again.

And this time, their casualties had directly exceeded a hundred!

It was inconceivable.

This was probably the largest single death in the history of the sea. The remaining less than 100 people were completely scared out of their wits. Driven by the fear of death, they could no longer restrain themselves and fled in all directions.

The elites of the West Ocean Army had collapsed.

The other two seas 'elites looked at this scene in a daze, and they all sucked in a cold breath.

If they had charged over just now, they would have probably collapsed together. Such suffocating pressure on the battlefield had completely exceeded their limits.

All of them were speechless. Even their most elite trump cards were probably not as powerful as this!

"Lin Yi, die!"

The Xihai commander rushed to Lin Yi's side hysterically, but Lin Yi didn't even look at him. He turned around and sent out a shock kill.

To be able to become the commander of West Ocean, this person was definitely not weak. Not only was he a golden class mid phase peak venerable on the surface, but he was also one of the top fighters in the same realm.

If she'd adjusted her condition and fought Lin Yi one on one, she wouldn't have lost so badly even if she lost.

Unfortunately, he had completely lost his mind under the stimulation.

Under everyone's gazes, he couldn't even take a casual strike from Lin Yi. His internal organs were shattered on the spot, and his entire body was torn apart. Not even a complete corpse was left.

His remaining primordial spirit still wanted to escape, but he used some kind of secret technique at all costs, and his speed was so fast that it was shocking.

Hai Wutian and the others felt that it was a pity, but there was nothing they could do.

This last-resort life-saving method had a huge price to pay. Its only requirement was to escape at the fastest speed possible. Ordinary means simply couldn't catch up, or it would have no value at all.

However, his body had already been repented, and at the same time, he had personally buried 300 elite soldiers of the West Ocean. Even if this man was lucky enough to survive, he would never dare to return to the West Ocean.

He was destined to be a lonely ghost in the future, and there was a high probability that he would be better off dead.

Without a vast supply of resources, it would be as difficult as ascending to heaven for him to recover in the state of his broken primordial spirit.

Even so, the elites from the other two seas had completely lost their will to fight.

If they were the ones who watched the elite troops of West Ocean being annihilated, they wouldn't have a good ending.

At that moment, Lin Yi suddenly pulled out his sword.

Without any warning, a God-exterminating slash landed accurately on the primordial Spirit of the West Ocean commander, who was fleeing for his life from dozens of miles away, and cut him into two.

He couldn't be more dead on the spot.

The whole place was dead silent.

Seeing that Lin Yi still had no intention of leaving, and instead gathered his men to point the spear at them, the remaining elites from the two seas were scared out of their wits.

While the two commanders were stunned, the elites under their command had already fled on their own accord, no longer listening to military orders.

A great defeat!

Looking at the chaotic scene of the two seas 'elites, hai Wutian couldn't help but feel proud and laugh. ""Haha, a bunch of gutless stray dogs. Even the royal families of the four Seas are nothing more than this!"

These words were actually guiltily said.

At least before today, the sea god Hall and the four Seas "royal families had each suffered losses in their clashes, and they had not gained the upper hand.

There were many times when the royal families of the four Seas United and relied on their numerical advantage to make the sea goddess Hall suffer.

There were a few times when he was at the scene and suffered a lot.

That deep sense of powerlessness was simply depressing.

However, today, facing an enemy ten times his size, and on the home ground of the other side, he had actually achieved such a great victory. It was definitely enough for him to brag about for the rest of his life!

Hou Moshe was also deeply shocked.

Although he knew that his master's future would be extraordinary from the moment he chose to work for Lin Yi, he didn't think that day would come so quickly!

It had only been a short while, and he had already crushed the elites of the three Seas into dogs!

In the entire sea realm, who could find a second person with such a shocking battle record?

It wasn't just him-everyone looked at Lin Yi with unreserved respect, feeling that they were all wise.

The same thought appeared in everyone's mind-perhaps the wisest choice they'd ever made in their lives was to follow Lin Yi.

Lin Yi, on the other hand, didn't think that much.

In this sudden encounter, the biggest gain for him was that he had tested the combat power of the guards unit, especially the powerful combat power under the support of the new world's will.

This would become his most important trump card when he faced the forces of the various seas!

After this battle, the guards unit might not be invincible in the sea, but they were at least at the top of the ladder.

The personal guards unit under his leadership was enough to compete with the trump card establishment of the sea area, which made all the forces in the sea area tremble with fear!

"What do we do next?"

Hai Wutian finally calmed down after his excitement.

It was indeed a great battle, but it also meant that he had completely fallen out with the royal families of the three Seas, especially the host, the royal family of the West Sea. After suffering such a great loss, it was obvious that they would not let it go easily.

If they continued to participate in the conference and went deep into the hinterlands of West Ocean, it was hard to guarantee that the other party wouldn't do something desperate.

If the other party went all out and used their trump card at all costs, coupled with the other two royal families eyeing them covetously, what awaited them ahead would definitely be a narrow escape!

Hou Mohe and the others had a clear understanding of this.

Confidence was confidence, but they weren't going to let this great victory get to their heads. They didn't lack this bit of rationality.

"It's fine, just keep walking. Don't misunderstand. "Lin Yi didn't seem to mind.

"What misunderstanding?" everyone was stunned.

Chapter 10138

Lin Yi smiled faintly, "we're not here as guests. We're here to cause trouble. There's no need to be so formal. It's better to be a little reckless like what we did just now."

Hai Wutian and the others were stunned for a moment, then burst into laughter.

Even though he was still a little worried, he was not as worried as before.

Since their boss had already said that he wanted to be reckless, he must have made the corresponding arrangements behind the scenes.

Since that was the case, what else was there to say? they would just do it!

Lin Yi immediately led the guards unit deeper into the West Sea.

The three Seas 'royal family elites were defeated in one battle, the West Sea elites were wiped out, and the other two seas' elites fled on the spot. Lin Yi had exchanged the shocking result of nearly three hundred people with zero casualties.

As soon as this news came out, the entire sea area was in an uproar!

Three hundred people, that was three hundred Supreme realm experts!

Even if those who joined these armies were the lowest-level venerable cultivators, and their individual strength was not as good as other venerable cultivators of the same level, they were still true venerable realm experts. In the eyes of ordinary cultivators, they were still unattainable!

Even if all the deaths in the sea region in the past hundred years were added up, there were still less than three hundred.

"Even if they were normal Supreme realm experts, they should be able to protect themselves. How did so many of them die?"

"I think so too. It sounds unrealistic. It must be fake."

"But I have a friend who works for the North Sea. He personally experienced that battle. From his tone, it should be true. He hasn't recovered from his mental state."

"Regardless of whether it's true or not, something big must have happened. Didn't you see that all the elite troops of the West Ocean have been transferred back?"

"Not only that, I heard that even the dragonbird guards are making a move"

The discussion stopped abruptly.

The West Sea Dragon Sparrow was one of the top Trump card forces recognized by the entire sea region.

Unlike the eastern sea Divine Dragon guards, which had a small number of people but outstanding individual combat power, the Western sea dragonsparrow guards were not only strong individually, but they were also the only top-tier trump card with a hundred-man Legion.

At the same level, the more people there were, the more powerful they would be. This was the most obvious truth!

Because of this, many people and even intelligence organizations ranked the dragonbird guard as the second most popular candidate for the second-ranked Army in the entire sea region, even though it was difficult for them to shake their position.

Before this, no one would have thought that the nameless Lin Yi's personal guards would be such a powerful existence, much less be compared to them.

In the end, the guards unit was just an ordinary 100-man team of the divine Hall guards.

An elite establishment of the same level, although it couldn't be said to be a lot in the entire sea area, it was definitely not a small number.

In a sea war, they were at best meat grinders in the battlefield, cannon fodder for their respective trump cards. They had no right to touch the West Sea dragonbird guards.

But now, even though many people still instinctively scoffed at it, some people had already begun to discuss and compare.

After all, he defeated the Allied army of the three Seas and wiped out the elites of the West Sea at the same time. Even the well-known trump cards might not have such a battle record.

West Sea Royal Palace.

The King of the West Ocean, ao Yuzhou, had an ashen face. He had the detailed report of that battle in his hand. Every detail of that battle had been restored in detail.

However, the more it was so, the more it made people's hearts jump!

"Trash! He has sacrificed an elite troop of our West Ocean, and he should be hacked into pieces!"

Ao Yuzhou's heart was bleeding.

It was also fortunate that this useless commander had already taken his life under Lin Yi's sword, or else he'd be better off dead if he had the face to come back alive.

However, he had probably forgotten that this commander was completely following his orders. Without his orders, there would not have been such a carefully planned ambush.

The advisor cupped his hands. "Please calm down, Your Majesty. Lin Yi is still leading his men straight in. The guards at the front are panicking. Please give the order to stabilize the morale of the Army as soon as possible."

"That's right," the old prince chimed in. "With the West ocean's current situation, we can't afford a second defeat. We must decide on the rules as soon as possible, whether we fight or make peace."

Ao Yuzhou was furious and roared, ""Is it a fight or peace? What do you dogs want to say? Could it be that you want me to swallow my anger and shake hands with that dog shit King of near sea?"

If it were the other two seas, the king would have shown such an uncontrollable and tyrannical attitude. The subject would have been trembling in fear and would have hurriedly knocked his head to the ground.

However, in the West Sea, all the subjects looked at each other indifferently in the face of ao Yuzhou's Fury.

There was no other reason. This kind of plot would happen every three to five days, and they were already used to it.

As expected, ao Yuzhou had calmed down after a short while. He turned around and looked at his snickering officials. He rolled his eyes.

"Smile, smile, smile! What are you laughing at!"

He had brushed it off with a single sentence, without the slightest intention of pursuing the matter of disrespect. This could be considered an iconic wonder of the West Ocean.

Ao Yuzhou calmed down and rubbed his chin, ""F * ck, the other two families must be laughing at me. If that Lin guy gets away with this, West Ocean will lose all its face."

If this hadn't happened, no one would have said anything.

Now that their plan was exposed, and they were beaten up instead, the whole sea was focused on them. If they let Lin Yi kill his way through, the West Sea would become the biggest joke in history.

But with the strength Lin Yi and the others had displayed, they would need the dragonbird guards to stop them. Any other elite would be dead meat.

"Your Majesty, you can't be impulsive," the advisor quickly stood up and advised.

"The dragonbird guard concerns the entire West Sea," the old prince added. "The consequences will be dire if we suffer any losses."

"Bullshit! I, the West Ocean Dragon Sparrow, can't beat a bunch of lackeys from the temple guards?"

Ao Yuzhou was furious, but he immediately slapped himself, "Alright, you're right. The Dragon Sparrow is my favorite. I can't even afford to lose one of them. How can I lose it to a piece of trash?"

He didn't care, but he knew that with Lin Yi's personal Guard's strength, even his Dragon Sparrow wouldn't be able to escape unscathed.

For normal Supreme realm experts, as long as they were willing to invest, there was still room for replenishment.

However, if it was the dragonbird guard, even if they lost one, they wouldn't be able to replenish it in a short time.

This was the most important source of vitality for the West Ocean. If he lost too much of it, it would directly shake his rule over the entire West Ocean.

He couldn't afford to take this risk.

"Then what do you guys want? We've suffered such a huge loss and we're just going to admit it?"

Ao Yuzhou's face was filled with unwillingness.

Chapter 10139

Among the royal families of the four Seas, although he was the most independent and didn't have the demeanor of a King at first glance, he was the one with the most knowledge.

He knew what he could do and what he couldn't.

"If the dragonbird guard and Lin Yi both end up injured, our enemies will be the happiest," the advisor said. "This is all because of the conference, and it's not right for us to take the blame. It's time for master mo to make a move."

"Let him show himself?"

Ao Yuzhou subconsciously raised his brows.

The main character of this conference was master mo. The royal families of the three Seas were originally just the big shots behind the scenes. If it wasn't for their sudden impulse to intercept and kill him halfway, they wouldn't have gotten themselves into trouble at all.

The one who should really bear the pressure was this master mo who was known as the son of the sea.

The old prince clapped his hands in approval. "That's a good idea. We can't stand at the forefront of the storm in our current situation. We can only swallow our losses. We should bear with it."

Ao Yuzhou was filled with unwillingness for a long time. In the end, he could only helplessly clench his teeth. "Alright, I'll take this loss first. When he's down on his luck, I'll teach him a lesson!"

Very quickly, the latest news spread throughout the entire sea.

Master mo wasn't happy with Lin Yi's lies and took the initiative to stop him. The highly anticipated sea god conference was brought forward to the old king's city!

Under the promotion of many parties, the enthusiasm of all parties was completely ignited.

Every day, there would be countless people who came to watch the battle. They would pour into the old and abandoned King's city of the West Ocean. It was so popular that it was almost as majestic as the king's city of the past.

As the main character of this Festival, master mo, who had arrived early, naturally became the focus of everyone's attention.

Many people still had some doubts at first, but after he performed all kinds of incredible miracles, all their doubts were dispelled.

One or two people might be deceived.

However, in broad daylight, in front of so many people, including many people who deliberately came to find trouble, no one could find a clear flaw in it.

In other words, everyone who came to the old king's city had become witnesses to the miracle, and the credibility could be said to be 100%.

After all, no one believed that someone could deceive so many people at the same time.

Before this, other than the locals, people from other parts of the sea were more or less inclined to believe Lin Yi.

Even if there were people behind the scenes trying to brainwash Lin Yi into being a scammer, he was at least the sea God's chosen King of the nearby seas-that was undeniable.

Not to mention, Lin Yi had a solid battle record. Although the divine punishment that killed ao Tianxia was from the sea god, everyone knew that it had a huge connection to him.

But now, after personally witnessing master Mo's miracle, more and more people began to stand on his side.

The most direct result of this was that when Lin Yi and his group arrived at the old king City, they didn't receive respect or welcome, but ridicule and ridicule.

"Did sh * t go into the brains of these people?"

Hai Wutian was in disbelief.

If not for that earth-shattering battle, he could still somewhat understand everyone's reaction.

After all, Lin Yi didn't come from a prominent family, and many people weren't convinced that he could become the Sea King as a commoner, especially those commoner practitioners who were in the same situation.

They didn't come from powerful backgrounds, and they were all from the grass. What right did Lin Yi have to get the Lord's favor?

Without a doubt, he must have used some underhanded and despicable means. Even if he didn 't, he would at most have overdrawn his luck in advance.

No matter what, it's definitely not because of strength. Even if you're stronger than me alone, can you be stronger than everyone else?

Nonsense.

But logically speaking, with the astonishing battle record of wiping out the elite troops of the West Ocean, even if these self-deceiving doubts hadn't been completely dispelled, they should have been suppressed by now.

How could it be like this?

"That master Mo's brainwashing skills are top-notch," Hou Moshe said with a frown. "Now, all these people have been imprinted with a mental steel seal in advance. They all believe that he is the real spokesperson of the Poseidon. Subconsciously, they think we are liars. This is a little difficult to deal with."

Everyone around him agreed.

If everyone could stay neutral and decide who to trust by watching Lin Yi and Master Mo fight, things wouldn't be so difficult—they'd just have to expose a liar in front of everyone.

But now, Lin Yi wasn't just going up against Master Mo, he was going up against everyone's thoughts.

Once prejudices were deeply rooted, it was as difficult to remove them from their minds as to help a cultivator who had not even reached the perfected stage of a Big Shot step into the Supreme realm!

After all, the hardest thing in the world was always someone's mouth.

From a third party's point of view, the outcome of the sea god contest had been decided from the start. Master mo, who had the home advantage, was already in an undefeatable position. On the other hand, Lin Yi, who had come all the way here, had no chance at all.

However, as the person involved, Lin Yi didn't feel embarrassed at all. It was as if he didn't care about everyone's reaction.

"It doesn't matter. We're here to mess around. As for whether the others believe me or not, it has nothing to do with me."

After he finished speaking, he ignored the pointing and whispering of the passersby and directly walked towards the encampment.

Everyone was stunned.

If they didn't have the identity of the Sea King, they would have no problem doing things their own way. If it were them, they would have made the same choice. After all, it was as difficult as ascending to the sky to wake up those brainwashed people.

But Lin Yi's current identity was the Poseidon's representative, and it was his duty to wake up the blinded believers.

In everyone's eyes, this was also the most important mission for him to participate in the conference this time!

If he left this matter alone, what would he do if the Lord seagod blamed him?

They would never have thought that the current actor playing the Lord seagod was a fan of their boss. If he was happy, it wouldn't be a problem to let the Lord seagod come over to massage his legs, but the style would make people misunderstand ...

"Lin Yi moved in just like that? There's no reaction at all?"

When the news reached master Mo's side, it surprised all the big shots, including Ao Yuzhou, the King of the West Sea. They were all waiting to see Lin Yi make a fool of himself.

Ao Yuzhou pinched his chin, 'could it be that he has admitted defeat? It can't be that bad, right?"

No matter if it was him or the others, the current setup was indeed impossible for Lin Yi to solve. Unless the sea god came to the event himself, there was no way he could break the thought steel seal.

Of course, it was impossible for the sea god to descend.

If the sea god had descended, how could the sea be in such a state?

Moreover, as the big shots who stood at the top of the sea realm, they each had their own high-level information channels.

The sea god had fallen into some sort of trouble. This was no longer news in their upper-class circles. The only question was just how much trouble the sea god had fallen into, and whether it was really to the point where he couldn't even protect himself. That was all.

Master mo stroked his long beard with the air of an expert and said, ""The outcome of this conference was already decided from the very beginning. He knows this better than anyone else here. After all, no one knows better than the swindler himself how much he's worth."

Ao Yuzhou exchanged glances with the others: "It should be like this."

"It's certain that he'll be found out, but I can't make up my mind now. How should I deal with him then?" master mo suddenly said in a difficult tone.

Ao Yuzhou casually replied, "what's so difficult about this? just execute him in public. What's the point of talking nonsense with a liar?"

"That's right, we have to kill one as an example to the others, in case someone uses the sea God's name to swindle others in the future. Not only do we have to kill this Lin Yi, we have to show off our might and intimidate the small fries!"The others chimed in.

Master mo was still in a difficult position."But the heavens are kind. Most importantly, he has the identity of King hai. He's more or less a problem."

This was the key.

Lin Yi didn't just represent himself, he represented the entire sea god temple. If they touched him, they would definitely get a strong counterattack from the sea god temple.

The royal families of the three Seas didn't mind. They had a large family and business, and had the power to take on the ocean goddess Hall.

However, master mo was different. Although he had spread rumors of miracles everywhere and claimed to be the son of the sea god, and had gathered a group of followers, he was still alone in comparison to a true major force.

If the sea goddess Hall really flew into a rage out of humiliation, he definitely wouldn't be able to handle it even if he could control public opinion.

Ao Yuzhou laughed and said,"master mo is worrying too much. Don't worry, as far as I know, the sea goddess Hall's internal affairs are also full of contradictions. The high priest has long been dissatisfied with him."

If you get rid of the evil in public this time, he'll at most go through the formalities and will never really do anything to you.

Hehe, maybe he's secretly happy and still remembers your good deeds. "

"If that's true, that's great."

Master Mo's heart was instantly half at ease, but there was still another half,""Lin Yi's personal guard unit is pretty strong, it'll be a problem if they start a fight."

He fought one against ten, crushed the elites of the three oceans, and even wiped out the elites of the West Ocean.

In the face of such an amazing record, even if he deceived himself, he would never dare to say that he could settle it. If these animals went crazy and wanted to take him down, he would probably be dragged into the water.

The dangers within couldn't be underestimated.

"You don't have to worry about this," ao Yuzhou said confidently."I've already made arrangements. His personal guards have killed so many of our West sea's elites. I have to make them pay for it!"

He wasn't thinking about annihilating Lin Yi's personal guard Camp to vent his anger, but he wanted to take it back after he killed the main culprit.

If he succeeded, he'd have a trump card that was comparable to the dragonbird guard. All the elites he'd lost before would have died a worthy death!

Seeing that ao Yuzhou was so determined to get it, master Mo's heart was set.

He'd heard about the mobilization of the dragonbird guards, and in fact, Lin Yi's personal guards were strong enough to make him covet them. It was just that his appetite wasn't big enough, so he didn't dare to fight with ao Yuzhou.

Master mo nodded and said with a calm smile,""Then the rest is simple. In front of the vast sea god believers, expose this swindler's tricks and give everyone a good lesson on who the real representative of the sea god is!"

One day later.

The conference officially started. The King of the West Sea, ao Yuzhou, personally presided over it. The other two seas also sent their internally-decided heirs to attend as the highest representatives.

As for the other factions, they had sent over a hundred representatives.

The audience started to enter the venue before dawn, and a conservative estimate of the number of people was more than 100000. Even so, there were still large groups of people pouring in. In the end, even 200000 people might not be able to defeat them.

Whether it was in terms of scale or momentum, today's sea God's meet was undoubtedly destined to be recorded in history!

It wasn't just the scene, the attention hidden under the water was also unprecedented.

One of the most obvious examples was that the bets on the outcome of this conference had reached an astronomical figure that far exceeded any other time in the past.

The benefits were so great that even ao Yuzhou, the King of the West Sea, was jealous.

If it wasn't for the fact that he was tied to master mo and Lin Yi, he would've bet on the dark horse Lin Yi and make a fortune.

It would not be an overstatement to say that the sea god Convention had imperceptibly become a Supreme Summit that could influence the overall situation of the entire sea realm. Even the meeting between the top echelons of the sea god Hall and the four Seas "royal families was far from as touching as this.

The time was up.

Lin Yi, hai Wutian, and the others looked at each other before walking up the stage alone.

That's right, the venue was set up at the Coiling Dragon platform, which was specially used for public trials and execution of serious criminals. Eight 300-meter-tall Coiling Dragon pillars were erected around it, and they were connected to each other by giant iron chains.

Although it appeared to have been abandoned for many years, judging from the faint aura it exuded, the trapped Dragon platform was still in operation.

Even if it had been abandoned before, it would definitely be re-used this time.

The trapped Dragon platform, as its name suggested, was a place that specifically targeted the dragon clan's rule power. The opponent had purposely chosen this place to suppress Lin Yi's dragon clan rule power.

The other party thought that Lin Yi would object and even prepared a long speech to shut him up, but Lin Yi didn't react at all, as if he didn't care about the trapped Dragon platform at all.

He had gathered all his strength, but the result was that his punch had landed on cotton. This kind of feeling really made his stomach hurt.

Lin Yi's entrance caused the whole place to be filled with boos-the sound was so terrifying that the sea creatures dozens of miles away all ran away in fear.

As the person involved, the pressure Lin Yi was under was unimaginable.

Hai Wutian and the others broke out in a cold sweat for him.

However, Lin Yi was still expressionless.

Even though the boos from the audience were deafening, he remained calm and content.

"Hehe, he's obviously scared to death in his heart, but he still has to brace himself. Why do I feel that this fellow is a little pitiful?"

Ao Yuzhou, who was watching the battle from the VIP seats, sneered.
