

Bodyguard 10151

Chapter 10151

It turned out that their perception was not wrong.

In less than a thousandth of a second, the crack suddenly expanded infinitely, and the sea god's clone that was so powerful that it made everyone despair just a moment ago directly turned into a porcelain vase on the verge of breaking.

"So what if he's the sea god! I'll see you die!"

Ao Yuzhou laughed crazily as he turned the tables. The undead Dragon's attack became even crazier. Although there was a risk of losing control if this continued, it was worth it compared to killing the sea god's avatar.

After all, if the sea god's clone hadn't been destroyed, he would have been the one to die.

Lin Yi, who had been watching coldly from the side, sighed at this scene. It seemed like this was his limit.

In the eyes of others, this was naturally the result of ao Yuzhou's battle. The undead giant Dragon's damage had exceeded the upper limit of what the sea god's clone could withstand, which led to the instant collapse.

However, the collapse of the sea god's clone had nothing to do with ao Yuzhou.

It was purely because he had reached the limit of the time Lin Yi could maintain it, that was all.

"Barely enough time for an incense stick to burn? it's alright."

Lin Yi was quite satisfied with the results.

Although there were various restrictions, with Li Yuanji's cooperation, they could create a clone of the sea god for the time it takes an incense stick to burn. This was enough to solve many troublesome situations.

After all, from the performance just now, even though the sea god's avatar was controlled by the new world's will and wasn't as easy to control, it was still unrivaled in the entire sea region.

This was a trump card that was almost impossible to deal with. Its only weakness was its duration.

But come to think of it, how many in the entire sea region could withstand the sea god's avatar for the time it takes an incense stick to burn?

Bang!

With a clear cracking sound, the sea god's clone completely shattered under everyone's gazes.

The group of big shots heaved a sigh of relief.

Although ao Yuzhou, the King of the West Ocean, would definitely become more aggressive after today, they were more willing to face such a powerful hero than the sea god's avatar.

At the end of the day, they still felt that ao Yuzhou was more human. Compared to the cold gods, it was obviously easier to deal with the human-like heroes.

After all, humans had weaknesses.

Furthermore, they could already see that even if ao Yuzhou managed to laugh to the end, he had also paid an irreversible price.

It was unknown if he could summon such a ferocious undead dragon in the future. Even if he could suppress them for a while, he would not be able to suppress them forever.

It was all a scheme.

However, just as the leaders of these forces were calculating the best strategy and waiting for ao Yuzhou to kill Lin Yi, the situation changed again.

The undead dragon that had just suppressed the sea god's clone-the one that was unparalleled in their eyes-disappeared without a trace the moment it turned to Lin Yi.

"What's the situation?"

Everyone was looking at each other, guessing at all the possibilities, but no one connected it to Lin Yi.

It wasn't that they were looking down on Lin Yi, but after witnessing the Grand scene just now, no one would link this to a mere golden class early phase peak practitioner.

The difference was too great. It was an act.

Lin Yi did show some extraordinary strength, but objectively speaking, it wasn't enough for him to participate in the games at the top. At most, he could only be considered an accessory to the sea god.

Now that the sea god's clone was gone, he naturally lost his value as a pendant.

If it wasn't for the fact that he was the sea god Hall's Sea King hai, the spokesperson, which made people more or less afraid, even the people sitting in the VIP seats were confident that they could easily kill him, let alone ao Yuzhou, who was like the sun at midday on the stage.

They would never have thought that this man, whom they had regarded as the sea god's pendant, was the one who had taken away the arrogant ao Yuzhou.

At this moment, ao Yuzhou, who had been suddenly transferred into the new world, was still in his undead giant dragon form. However, he had already felt a trace of panic.

In fact, it was an instinctive tremble from the depths of his soul.

"What the hell is this place?!"

He couldn't be blamed for being so panicked. Even when facing the sea god's clone just now, he hadn't felt this kind of instinctive trembling from the depths of his bones.

The feeling this place gave him was even more terrifying than the sea god Himself!

The moment this thought appeared, he almost went crazy.

What in the world could be more terrifying than the gods?

It wasn't that he couldn't imagine it, but he really didn't dare to imagine it. Moreover, he really couldn't understand why a Supreme existence of that level would target him?

As the unruly King of the West Ocean, he was only confident that he could arm wrestle with the sea god when he was at his most confident. And this was the sea god who couldn't even take care of himself.

But now, an existence far higher than the sea god had suddenly appeared. How could he accept this?

He was confident and even arrogant, but he was not arrogant to the point of stupidity.

Just as he was feeling uncertain, Lin Yi's voice sounded, ""You're welcome,"

"It's you?"

Ao Yuzhou couldn't help but widen his eyes as he looked at Lin Yi's form.

"It's always been me, right?" Lin Yi smiled.

“.....”

Ao Yuzhou suddenly came to his senses. No wonder he felt so familiar. It turned out that the sea god's avatar had this inexplicable profound meaning.

He'd thought it was just an illusion from the sea god, but it seemed like Lin Yi was the cause.

Ao Yuzhou suddenly felt that he had fallen into a huge conspiracy. "Who are you? Who sent you here?"

Even now, he still didn't want to believe that Lin Yi was the mastermind behind all this. He would rather believe that the one behind all this was the high priest or lang mie.

After all, losing to a mere golden class early phase peak venerable was too stupid-he couldn't accept it.

"Would you believe me if I told you I was sent by the sea god?" Lin Yi said, amused.

Ao Yuzhou was at a loss for words. Although this was the most reasonable explanation, as a powerful person who had just fought with the sea god's avatar, he would be lying to himself if he believed this.

"It doesn't matter. It doesn't matter who sent you here. It's all for nothing when it comes to me!"

Ao Yuzhou finally managed to calm himself down and spat a breath of undead dragon Breath at Lin Yi's face.

It had to be said that whether it was the timing or the timing, the control was quite exquisite.

Normally, even the top masters of the sea would be in trouble if they were hit by this, let alone a golden class early phase peak like Lin Yi.

Chapter 10152

However, before he could even get a little cocky, he saw that Lin Yi was still standing on the same spot after the breath landed. It was as if the breath wasn't a fatal attack, but a pure fart.

Apart from being a little dirty and smelly, it didn't have any destructive power to speak of.

"How is that possible?"

Ao Yuzhou almost went crazy on the spot. Even when he was facing the sea god's clone, he wasn't this desperate. At this moment, he started to doubt his life.

He didn't believe it. Countless undead rushed out and pierced through Lin Yi's body, taking his life force.

But the weird thing was, no matter how much the undead took, Lin Yi didn't react at all. He didn't even have a reaction. His life force was still coming out, and it didn't decrease. Instead, it became more abundant.

This time, the pride in ao Yuzhou's heart completely collapsed.

He couldn't see through Lin Yi at all-he felt like he was nothing but a clown in front of Lin Yi, after all.

"Who are you?"

Ao Yuzhou once again asked this question with great difficulty.

However, compared to just now, his tone was obviously more cautious and wary, and even a little scared.

"I don't know who he is," Lin Yi replied faintly, "he's just an ordinary practitioner. "

"Ordinary ..."

Ao Yuzhou felt that his intelligence had been insulted.

Lin Yi shrugged, "the only special thing is that you're in my territory. Naturally, I'm in charge of my own territory. It's reasonable, right?"

"Reasonable, your mother!"

Ao Yuzhou cursed out unconsciously, but he was immediately shocked. Even if he didn't want to believe it, everything had already been linked up.

"The sea god's clone is just a pretense you created? Your purpose was to bring me here?"

The more ao Yuzhou thought about it, the more shocked he became, 'this is all your scheme? On the surface, you're dealing with that old liar, but in fact, your target has been me from the beginning. Was this all part of your plan?"

“.....”

It was Lin Yi's turn to be speechless.

It was undeniable that ao Yuzhou was his main target. Compared to the bewitching master mo, this was the big fish in his eyes.

However, it would be a stretch to say that he was the one who had been plotting from the very beginning. No matter how powerful a scheme was, it was impossible for him to control everything to this extent. After all, he was not a God.

It could only be said that everyone would have times when their thoughts would change, and even the King of the West Ocean was no exception.

Ao Yuzhou's mental state was clearly on the verge of collapse. He was furious and started attacking Lin Yi. "No one can scheme against me to this extent. Who Do You Think You Are!"

But with a light slap from Lin Yi, the undead dragon turned into dust, turning into pure energy and merging into the new world.

Ao Yuzhou was stunned for a moment, and then he was shocked.

This kind of means had completely exceeded his imagination. Even the high and mighty gods would never be able to do this.

Yet, Lin Yi had done it.

He finally understood what Lin Yi meant when he said he was in charge of his own territory.

Lin Yi said indifferently, "You're also a man of character. Although we're on different sides, I don't hate you. Why don't you come with me?"

Although swallowing a Sea Master like ao Yuzhou would be a great supplement for the New World, it would be better for Lin Yi if he could get his loyalty.

After all, the current situation was rapidly changing, and his various plans had to be sped up. He was in urgent need of a top-notch expert like ao Yuzhou who could be used to hold the fort.

However, ao Yuzhou looked at him as if he was looking at an idiot. ""Have you ever seen a king who groveles and kneels at the feet of others?"

"I understand." Lin Yi nodded.

After he finished speaking, he did not waste any more time. He immediately activated the world's will and smashed the other party into pieces with a palm.

The formidable King of the West Ocean didn't even have the time to make a sound before his last trace of existence in this world was erased on the spot. Even his primordial spirit was swallowed by the world's will.

To a certain extent, this could also be considered as dust to dust.

The New World immediately began to accelerate its evolution again.

However, at this level, it was difficult to make such a qualitative change in a short period of time.

Amino acid molecules had already appeared. In addition to brewing an environment that was more suitable for life, a further symbolic feature would be large protein molecules. At that time, life in the true sense would not be far away.

"Not bad. It was two million years before, but with this man's support, I think it can be shortened by a quarter."

Lin Yi felt helpless at Jiang xiaoshang's words.

Two million years had been shortened by a quarter, but there were still 1.5 million years.

Using an ao Yuzhou to exchange for 500000 years was not a loss, but he was in urgent need of battle power. It was a pity.

After all, his strength was deeply related to the New World. Before the iconic changes appeared in the New World, it was difficult for his overall strength to have a qualitative change in the true sense.

However, unless he could once again capture prey like ao Yuzhou, it would be impossible to count on this.

Distant water could not quench present thirst.

Fortunately, Lin Yi didn't come back empty-handed this time. The base level of golden class early phase peak didn't change, but at least he strengthened the rule power of the Dragon race.

His control over the dragon clan's rules had increased from 30% to 40%.

At first glance, it didn't seem like a huge change, but in terms of actual combat power, this was already a rare qualitative change.

Other things aside, Lin Yi's previous dragon clan rules could only be used to bully noobs. He would only be one-sidedly crushed if he met Ao Yuzhou, who was a true top-tier master of the sea.

But now, although he was still not as good in terms of endurance, at least in terms of strength, he was barely qualified to fight head-on.

His consciousness returned to the outside world where the trapped Dragon platform was.

Although the crowd had not seen Ao Yuzhou's fate with their own eyes, they had all kinds of speculations in private. However, they were still certain that this King of the West Ocean was already in a bad state.

Sure enough, one of the young men sitting among them seemed to have sensed something. Suddenly, a sorrowful expression appeared on his face and he cried bitterly.

Lin Yi looked towards the voice, and the person's information appeared in his mind.

Ao Huang, the eldest son of ao Yuzhou, was also the appointed Crown Prince of West Ocean and the recognized successor of West Ocean.

Other people were only guessing, but he and ao Yuzhou had a real connection. Ao Yuzhou had only disappeared from this space earlier, but now, he had truly disappeared from this world.

In other words, ao Yuzhou was gone.

Chapter 10153

As the Crown Prince who had endured for so many years, at this moment, ao Huang did not have the slightest bit of joy that he had finally made it.

It was not because he had a deep father-son relationship with ao Yuzhou, but because the situation in the West Ocean was unstable. Once ao Yuzhou lost his strong suppression, he would not be able to stabilize the West Ocean, and it would be unknown if he could succeed the throne smoothly!

However, when the time came, unless he was willing to give up everything, he had no choice but to step forward.

Before he could speak, Lin Yi spoke up, "Ao Yuzhou blasphemed the Lord sea god and has been killed by the God. If anyone is still not convinced, then let's do it together."

His words made everyone speechless.

Lin Yi himself still wasn't much of a threat to them, but that clone was real. Who knew if the guy would summon another one?

Not to mention anything else, at least the Lord seagod's favor towards this guy was obvious to all, it was completely like the treatment of his own son.

Under everyone's gazes, ao Huang could only grit his teeth and step forward.

The others could shrink back, but he couldn't. After all, if he did, he would have nothing to do with the West Ocean.

"What big words!"

Even though ao Huang was not confident, the unruly expression on his face that looked down on everyone had some of ao Yuzhou's shadow.

"Who Do You Think You Are? You're just a lucky child who was lucky enough to receive the Lord seagod's favor. Now, because of you, the Lord seagod was forced to kill two hundred thousand believers by mistake, and you still dare to be so proud here, you really don't know what's good for you!"

As soon as he said that, the big shots of the various forces present could not help but look at him in a new light.

Even Lin Yi couldn't help but give him a second look.

This guy had some skill.

His father had just fought with the sea god's clone, but he raised the sea god's flag without hesitation and poured dirty water on Lin Yi's head, cutting Lin Yi off from the sea god.

If there were no accidents, it would be a clean break.

It was a perfect one.

Lin Yi looked at him indifferently, "no wonder you can stand out from the hundreds of sons of the AO universe. You are good with words, but you are wrong about one thing."

"What?" ao Huang was stunned.

Lin Yi glanced at the sea god followers on the ground, his tone playful. "They didn't die."

"Ha?"

Ao Huang did not believe it at all.

He might not be as strong as his father, ao Yuzhou, but he was still a golden class mid phase peak venerable. How could he not know if a group of people were Dead or Alive? did he really think that something was wrong with his brain?

He was not the only one. The leaders of the various forces in the honored guests 'seats were also very certain that the 200000 believers had truly lost their breath at this moment. Even the fluctuations of their primordial spirits had disappeared.

If this was in the secular world, he would be brain dead. How could he not be dead?

Ao Huang looked at Lin Yi as if he was an idiot. "Do you really think that you can bring these 200000 people to life with just your words? There should be a limit to your ignorance, right?"

"You're right," Lin Yi nodded.

Then, he saw the group of 'corpses' below the stage suddenly recover their vitality.

Although their faces were covered in blood and tears, and their breathing was as weak as if they had been seriously ill, even a blind man could see that they had come back to life.

Not only did they come back to life, but they also quickly got up. They looked at each other in shock and doubt.

Because they were under the control of the thought stamp, what they had just experienced was not very real. Instead, it was more like a real nightmare.

If it wasn't for the fact that there were 200000 people who could verify it with each other, they would have treated it as a nightmare if they were alone.

Ao Huang and the others on the VIP seats were all dumbfounded.

Although they didn't go up to the stage personally today, the face-smacking they received in the same situation as him really made their faces hurt.

"How did a dead man suddenly come back to life?" someone blurted out.

His voice was neither loud nor soft, but it was amplified by an invisible force to the entire scene. Then, the scene instantly fell silent.

The 200,000 sea god believers who had come back to life collectively looked towards the honored guests' seats, and invisible anger began to quickly brew.

Ao Huang glared at this man. This time, he really wanted to kill him.

What was a pig teammate?

This was a F * cking pig teammate!

He had said the wrong thing, but he wasn't the only one bearing the public's anger. It was all of the people in the VIP seats, because they were naturally seen as a whole by the believers below.

When a person in power began to not treat his subordinates as humans, then in the eyes of these people at the bottom, it was not that the person in power had a personal problem, but that all the people in power were not human!

With just this one sentence, ao Huang's attempt to bind himself to the side of justice was completely destroyed.

If he were to say something like speaking up for the 200000 followers, he would not be insulting everyone's intelligence, but his own intelligence.

Unfortunately, this was not the time for internal strife.

Ao Huang glared at the man before gritting his teeth and turning to Lin Yi. "No matter what kind of sorcery you use, you can never change the truth. Even if you can bewitch everyone for a while, you can't bewitch them forever."

Lin Yi looked at the crushed master mo. "This seems to be a line I should say."

Ao Huang exchanged a glance with the big shots of the other forces. He then sneered and said, "You're so fearless. Do you think that no one can threaten you now that you've killed my father?"

"Yes, that's what I'm thinking," Lin Yi nodded honestly.

His words made ao Huang and the others roll their eyes.

They had seen shameless people before, but this was the first time they had seen someone jump onto their faces so shamelessly.

Ao Huang gritted his teeth and said, "I've seen a lot of arrogant people. But, I've never seen anyone as arrogant as you. However, the heavens will punish those who are cheap. Arrogant people will never have a good ending."

"Your old man's a living example," Lin Yi said, agreeing.

"....."

Ao Huang felt that if they were to continue this conversation, he would probably really vomit blood. Thus, he decided to put up a front and said, "To tell you the truth, my father had secretly mobilized 70% of the elites of the West Ocean to surround this place. No matter what the result is today, you are doomed to be unable to escape!"

As soon as he finished speaking, hai Wutian and da mang's personal guards stood up.

Even if they didn't say a word, the powerful aura from the Ace battle team instantly enveloped the entire arena and pressed down on everyone's head.

Chapter 10154

Although the only bloody battle they had actually experienced was the previous one, with the support of the new world's will, their teamwork had far exceeded the past and had also surpassed 99% of the violent machines.

This was a domain that only belonged to Ace teams.

"Really?" Lin Yi raised his eyes.

With the fact that they had wiped out the elites of West Ocean previously, no matter how many elites the other party sent over, they would be useless against his personal guards unit.

It wasn't an overstatement to say that the personal guards unit's combat strength was still rapidly improving, and they would undergo a transformation with every battle. Perhaps the personal guards unit's combat strength would officially reach the top after the enemy had filled up all the remaining West Ocean elites.

It was not as if ao Huang did not understand this point as his imposing manner had clearly weakened.

In the end, he wasn't ao Yuzhou.

It was fine for him to put on a show using his identity as the Prince of West Ocean, but he'd be showing his lack of confidence when he really ran into someone as hard-core as Lin Yi.

However, he did not dare to admit defeat in front of so many people, especially in front of the representatives of the forces.

"No matter how strong your personal guards are, do you think they're stronger than my West Sea dragonbird guards?"

"The Dragon Sparrow is already on her way here. Once we start fighting, you'll be surrounded by enemies if you can't wipe out all of our elites in the first instance!" Ao Huang threatened.

At that time, it won't be up to you to decide whether you want to stay or leave. Do you dare to make this bet?"

"I can try."

Lin Yi remained unmoved.

Although the West Sea Dragon Sparrow was famous, as long as he was personally in charge, the guards unit, which had the support of the new world's will, might be able to fight against him!

In fact, at this moment, from the Python to the guards unit, all of them were rubbing their fists and rubbing their palms, eager to try.

Bullying noobs was nothing. Only a trump card like the West Sea Dragon Sparrow was worthy prey.

Trump card? I'm playing the trump card!

Ao Huang was a little dejected. Although he had said those harsh words, he had no idea where the West Sea Dragon Sparrow was.

Trump cards were only responsible for the highest leader and had no right to question anyone else. This was not only the principle of the West sea's royal family, but also the principle of all the major forces in the sea.

After all, this thing represented the last guarantee of power, and it was too sensitive.

In other words, mobilizing 70% of the West ocean's elites was the limit of ao Huang's control. He had no idea if the Dragon Sparrow would come or not.

Ao Huang was immediately stuck there.

In front of Lin Yi, there was no point in threatening him anymore. On the contrary, if he really angered Lin Yi, he might end up like his father.

But if he were to just give in like that, Lin Yi might not be willing to give him a way out. Even if he did, it'd be difficult for him to take over the West sea's throne.

There was only one chance. Even if he was the Crown Prince of West Ocean, who was the first-in-line successor in name, he would never have a second chance to take the position if he couldn't do it in one go!

The scene turned stiff for a moment. In the end, ao Huang could only brace himself and say, "What do you want to do by making such a big scene?"

"It's nothing," Lin Yi smiled, "I'm just carrying out my duty as Sea King, supervising you guys as you carry out the Lord sea God's orders."

"What Oracle?" ao Huang was stunned.

"The order of gratitude."

Lin Yi looked at him, "Donghai's royal family has already given you an example. They've prepared all the possible loopholes. You just need to copy the answers. It's not difficult."

Ao Huang's expression changed drastically, "you actually want us to be the second Eastern Sea? You want to dismember our West Sea royal family?"

He was not the only one. The representatives of the other forces were also shocked.

They really didn't expect Lin Yi's focus to be on this!

The sea area was destined to be unstable since the day the Oracle decree was issued. There were undercurrents surging under the various forces, but there was no one among the major forces who could really implement it except for the royal families of Dong Hai.

Even house Qin, who was the closest to Lin Yi, didn't have any.

Everyone knew that this was an excuse for the ocean goddess Hall to clear out the four Seas "royal families, but no one expected Lin Yi to move so quickly. After dismembering the eastern sea's royal families, his knife fell on western sea's head so quickly.

The key was that as Yuzhou had fallen, and the West Sea was without a leader. If they didn't deal with it well, he might really succeed!

The royal families of the East Sea had already surrendered. If the West Sea fell as well, half of the royal families of the four Seas would collapse. This was a major event that concerned the overall situation of the entire sea area!

At that time, not only the remaining North Sea and South Sea, but the large forces that had divided their own regions would definitely not be able to escape the fate of being stewed in a pot.

"You're the Crown Prince of the West Ocean," Lin Yi said faintly, "the Lord Poseidon will naturally leave you the biggest piece of land. It's not necessarily a bad thing for you. "

From now on, with the Lord seagod as your backer, you can steadily be the King of the West Sea.

On the contrary, if you don't cooperate, not to mention that you won't be able to pass this obstacle, even if you're lucky enough to pass it, you'll definitely suffer a great loss.

At that time, I'm afraid the outcome won't be so optimistic as to whether you can still compete with your brothers.

A word of advice, it's better to have one bird in your hand than to have ten in the forest. It's better to eat the food in your mouth first than anything else. "

These words caused ao Huang's expression to fluctuate back and forth, becoming uncertain.

He couldn't be blamed for hesitating. In fact, this was indeed the most realistic choice in front of him. He still had a chance to take over the entire West Ocean if he forced himself to resist, but the risk involved was definitely not small. He might even lose everything.

On the other hand, if he were to execute the order of refusal, he would at least be able to eat a piece, and it would be the largest piece among his brothers.

With his current situation and strength, the latter was obviously the more secure choice.

The group of big shots looked towards ao Huang.

Even though they did not know what the dominoes were, they knew better than anyone else that if ao Huang were to admit defeat now, the entire West Sea would face an inevitable collapse.

Ao Huang fell into hesitation.

Lin Yi suddenly added, "We don't know if long que will save the day, and even if they do, we don't know who they will support.

Do you dare to make a bet that long que's relationship with you is better than with your brothers?"

His words had directly broken through ao Huang's mental defense.

Because of his sensitive identity as the Crown Prince of West Ocean, he was much more strict than his brothers in this regard. Even though he knew that whoever controlled Dragon Sparrow would be the one to control West Ocean, he had no connection with Dragon Sparrow at all.

Chapter 10155

In contrast, his brothers were much more relaxed in this aspect.

Based on what he knew, there were no less than three who had clear interactions with the Dragon Sparrow. Although it was hard to say how close their relationship was, it was obvious that they had an advantage over him!

Just this point alone was enough to crush all his luck.

"I ..."

When ao Huang finally made up his mind and was about to speak, a voice as heavy as a mountain suddenly sounded, "Nephew, you'd better think clearly before you speak, or else you'll ruin your father's prestige. As his uncle, I can't just stand by and watch."

Everyone was shocked.

Lin Yi's eyes twitched at the man's appearance.

He had a pair of iconic dragon horns on his forehead. This man was the legendary King of the North Sea, ao Sifang, who was born with a Divine Dragon.

Immediately after, another old voice sounded from the other side.

"East Ocean is in trouble, and so is West Ocean. Even I can't sleep in peace. You're not a simple descendant."

The newcomer was old and held a Dragon-headed staff in his hand. His body was hunched like an ordinary old man, as if he would fall down at any time and die of old age.

However, in the entire sea region, no one dared to underestimate him.

Even if he looked like this, everyone present would probably die of old age naturally, and this person could probably survive for another 10000 years.

This person was the most senior expert of the four Seas 'royal families and the most senior expert in the entire sea region-the king of the south Sea, ao Taiwei.

"The North Sea King and South Sea King are here at the same time. It seems like I'm quite flattered." Lin Yi raised his eyes.

Ao tai chuckled and shook his head. "You don't need to be honored. You've personally sent off ao Tianxia and ao Yuzhou. If the two of us come to report to you without being aware of it, we'll soon follow in their footsteps."

On the other side, ao Sifang grinned and sneered. "It's their own stupidity that they fell into this guy's hands. Don't compare me with him. I can't accept such a stupid title."

"You guys are that confident that you'll end up better than the other two?" Lin Yi asked.

"Who knows? anyway, this old man has always wanted to die. It's a pity that after so many years, I still can't die. I've become what they call an undying old man. I'm also very distressed."

Leaning on the Dragon-head staff, ao Taiwei walked to ao Huang shakily, ""Child, don't be afraid. Tell me your thoughts."

Ao Huang looked at Lin Yi and stopped.

He was indeed wavering-if Lin Yi had shown him enough sincerity, he might've really chosen to join them, even if it would bring a huge amount of criticism. In front of real benefits, everything else was just floating clouds.

But now, in front of ao Taiwei and ao Sifang, he did not dare to say that.

The strength of either of these two people was not inferior to his father, ao Yuzhou. They were iconic figures of the top combat strength in the entire sea area.

If he said anything wrong, he wouldn't even know how he died.

Not only would he die, but he would also have to bear the infamy of being cursed for thousands of years, and he wouldn't even be able to enter his family's ancestral grave after his death!

Ao Sifang grinned. "I don't think it's a big deal if I don't say anything. Only a fool would believe that."

"Don't you think that's a little rude to the Lord Poseidon?" Lin Yi raised his head.

"So what if I'm impolite? You're here to cut me?"

Ao Sifang scoffed. Compared to ao Yuzhou's craziness, he, the son of the true dragon, was proud.

His pride was unparalleled.

Lin Yi nodded seriously, "Alright," he said.

After he finished speaking, he unsheathed the demonic devouring sword and directly slashed at ao Sifang.

Everyone was dumbfounded.

What kind of monsters are these? In the face of an expert who stood at the top of the sea, he just slashed over without saying a word?

At that moment, everyone even forgot that Lin Yi was only a golden class early phase peak.

Ao Sifang was stunned for a moment, and then he laughed wildly. "Interesting. Do you really want to die by my hands, or do you think I'm afraid of killing you?"

The sea god's clone had just disappeared, so anyone would be apprehensive, even if it was the top battle power of the sea realm.

However, only he, ao Sifang, was not included.

"You want to scam me, right? Hehe, you've found the wrong person, kid!"

Ao Sifang laughed as he charged forward. Streams of auspicious Qi that represented the true dragon came out of his body and gathered at all the joints in his body. His palm turned into a Dragon Claw.

The big shots of the forces who were watching the battle held their breaths.

Five claws!

With the head-on collision, the huge rule power of the Dragon race erupted at the same time. No one could see the exact situation of the fight, but they could be sure that the indestructible Dragon trapping platform had been shattered on the spot!

The aftershock spread out, and everyone was forced to retreat ten miles away. They could only hear a surprised cry from ao Sifang in the distance.

Even ao Taiwei, who was very close to him and did not move, could not help but show a hint of surprise in his turbid eyes.

"He's not a member of the four Seas 'Royal clans, but he's actually able to grasp such pure dragon clan rule power. As expected, his future generations are to be feared."

As the dust settled, the two sides each took half a step back. They were actually evenly matched!

They wouldn't have been so surprised if Lin Yi had used other methods to achieve this. After all, he had a close relationship with Poseidon, and it wasn't strange for him to have a trump card or two.

However, Lin Yi used the rule power of the Dragon race, which was very intriguing.

After all, everyone knew that the rule power of the Dragon race was exclusive to the four Seas 'royal families. No one else knew it, not even the sea god!

Lin Yi massaged his numb right arm, weighing the situation in his mind.

With 40% of the dragon clan's rule power, he could barely fight with the top combat power of the sea realm, but the other party was obviously not serious.

If he was serious, he was still lacking.

"Since that's the case, I'll play with you."

Ao Sifang waved his hand and scattered the auspicious Qi around him. Without any warning, he rushed towards Lin Yi with his bare hands.

This was his true strength.

After reaching his level, many things would return to their original state. There was no additional power when one was unarmed. At first glance, he was not even as good as the lowest level of low-level cultivators.

In Lin Yi's eyes, however, it was the most dangerous sign.

Because this meant that the opponent's next move would not have the slightest bit of power leak out, and at the same time, there would be no unnecessary waste. The horror revealed by this was something that only the person who was truly fighting against him could understand.

This person's control of power, especially the dragon clan's rule power, had already reached an outrageous level!

Without hesitation, Lin Yi turned into Demon God Chi You. It wasn't just the rule power of the Dragon race, but all the other rule powers he had were unleashed without reservation.

Chapter 10156

At this moment, he could no longer hide anything.

If it wasn't done well, he would really die.

"Interesting! Again!"

As the figures of the two sides crossed each other, ao Sifang laughed wildly, and his killing intent became more and more intense!

He really didn't think that Lin Yi would be able to fight him face to face after he'd used his real strength. It was a little forced, but it was enough to make everyone's eyes pop out.

A mere golden class early phase peak venerable was able to fight back and forth with ao Sifang, who represented the top combat power of the sea realm. Who would believe this?

It was simply out of the ordinary.

Just as the two were fighting, the old ao Taiwei opened his turbid eyes, and the Dragon head staff in his hand locked onto Lin Yi's direction.

Lin Yi's heart was on alert.

Through a brief deduction of the power of time rules, he saw his own death. The source of all this danger was not ao Sifang, who was getting more and more ferocious, but ao Taiwei.

There was no solution!

Under the emergency simulation, Lin Yi quickly tried all the possible solutions, but none of them could escape his fate of death.

The only way to survive was to escape into a new world.

However, that would be different from when his primordial spirit entered the New World. Once his physical body entered the New World, he would be safe, but it would be difficult to return.

Not only did the situation that they had worked so hard to open up fail, but hai Wutian, the Python, and the others might not be able to move in time and become the sacrificial lambs.

He was in a dilemma.

"I see that you've planned a lot," ao Taiwei's aged voice said, "have you considered this?"

"Shut up!" Ao Sifang said angrily. "Old man, don't be a busybody!"

If Lin Yi was just a normal cannon fodder, ao Taiwei wouldn't even bother to respond to him no matter what he did, but now that he'd finally gotten his interest, he'd be crossing the line if Lin Yi tried to interfere.

However, ao Taiwei didn't seem to have any intention of responding. His dragon head staff locked onto Lin Yi's position.

Lin Yi chuckled, "one should always look at the bigger picture. How do you know I didn 't?"

"Oh, really? I'd like to see how you're going to solve it. "

As soon as ao Taiwei's voice fell, a black line shot out of the Dragon head staff's mouth. The space in its path twisted and collapsed. One had to know that this was not an independent secret realm with weak space barriers, but the main world!

Lin Yi's eyes twitched.

With his current strength, it was impossible for him to receive this attack even if he went all out without any distractions, let alone deal with ao Sifang's relentless pursuit.

"You're f * cking sick!"

Ao Sifang cursed, but he didn't stop Lin Yi. Instead, he cooperated and sealed off Lin Yi's space.

Although he was extremely displeased, he still had to consider the big picture.

With Lin Yi's strength and the close relationship he had with the sea god, he'd be a huge threat to both ao Taiwei and himself if he was allowed to live.

So no matter what, Lin Yi had to die Here today.

"You really want me to die?" Lin Yi said helplessly.

"I'm still waiting for you to break out of this situation. Don't disappoint me. "

Ao Taiwei's cloudy eyes stared at Lin Yi's every move, not letting his guard down at all. At his level of life, there were almost no flaws in his mentality.

If it was someone as crazy as ao Yuzhou, Lin Yi might be able to find an opportunity, but in his hands, there was no chance.

If Lin Yi was lucky enough to take this hit, he had an even more vicious attack waiting for him. Even if Lin Yi could take it, he was still going to die.

However, just as the black line was about to land on Lin Yi, a lazy figure appeared in front of him without any warning.

When the black line landed on the man's body, it was like a spark meeting water. Other than leaving behind a faint sound, there was nothing else.

When they saw this person's figure clearly, everyone's eyelids twitched wildly.

In an instant, the entire place was so quiet that one could hear a pin drop.

Ao Tai's slightly turbid eyes opened completely, revealing an unprecedented look of caution. ""The first Walker of the sea goddess Hall, Wolf Slayer!"

Cruel malevolence yawned with sleepy eyes, ""I solved this round for him. Old man, do you have anything to say?"

"....."

Ao tai froze for a moment before looking at Lin Yi deeply. "This young man has such a big face."

On the other side, ao Sifang's eyes also lit up. "Interesting, it's getting more and more interesting today!"

There were only a dozen or so people in the entire sea realm who could be called top-tier battle prowess, and the most famous and well-known among them were the Kings of the four Seas 'Royal clans.

However, they weren't the most popular candidates to be recognized as the strongest.

In the eyes of most people, there were at least two people from the sea goddess Hall who could faintly suppress them, standing at the top of the top.

One was the high priest, and the other was the first Walker, cruel malevolence.

However, everyone knew that there was a huge conflict between the two. Normally, no one would make a move. As long as one side had a slight problem, the other side would take advantage of it.

As a result, these two rarely left the seagod Hall.

Ao Taiwei had lived a hundred years longer than most people, and he believed that he could read people's minds. He never expected that lang mie would help Lin Yi!

Just what was this Lin Yi?

"Since that's the case, I won't be too happy today. I've long heard of the first Walker's name, and this old man just so happens to want to exercise his muscles. Why don't we do it today instead of today?"

As ao Taiwei spoke, he thrust his Dragon-headed staff into the ground. An unprecedented, powerful aura burst out from his old body.

The power that had been sealed for many years gushed out crazily. His shriveled and collapsed muscles burst out layer by layer. In the blink of an eye, he had turned into a super muscular man comparable to ao Sifang!

This scene shocked everyone in the area.

Ao Taiwei was too old. It was said that the last time he had fought was hundreds of years ago. Although he had always been regarded as the top fighting force in the entire sea realm, no one knew how much strength he still had at his age.

However, at this moment, even if he hadn't really made a move, just his terrifying aura was enough to make everyone feel fear.

The old man was angry, and the consequences were serious.

Cruel malevolence raised his eyelids with some effort, "I actually don't like to beat up old men, but since it's already like this, then it's fine."

Ao Tai's voice was like a great Bell, "This place is too small. We can't display our full strength. Let's change locations."

As he said that, he waved his hand.

He wasn't a space rule user, but he was able to create a crack in space with just one hand. The power was shocking, and even Lin Yi found it unbelievable.

Ao Taiwei grabbed his Dragon-head staff and walked into the spatial crack.

This void forbidden zone, which was for non-spatial rule ability users, did not seem to pose any threat to him. It was as if he was walking on flat ground.

Cruel malevolence looked at Lin Yi and walked in without saying anything.

Ao Sifang, who was left behind, had a strange expression on his face, 'he just left you behind? Or does he really think that you can escape from me with your strength?'

"None of them," Lin Yi shook his head.

The previous exchange had made him very clear that with his current strength, he had no chance of winning in a one-on-one battle with his opponent.

If he didn't have the New World as his trump card, it could even be said that he would definitely die.

Unless he could do what he had done to ao Yuzhou previously, using techniques like the sea god's clone to forcefully delay the other party until the New World was completely captured, he would not stand a chance at all.

The problem was that the sea god's clone couldn't do it a second time in a short time.

After all, the level of this thing was too high. Not only did it require the support of the new world's will, but it was also a huge burden for both Lin Yi and Li Yuanji. They wouldn't be able to recover without a few days of rest.

Moreover, the layout for the top combat power of the sea area had to be watertight.

Lin Yi could plot against ao Yuzhou to his death, but he couldn't plot against ao Sifang as well. He could roughly predict the appearance of ao Taiwei and the other party and plant Wolf extinguisher in advance. This was already the limit of what he could do.

At the end of the day, his current level was still limited. There were many things that he could not do alone and could only rely on calculations.

And even if he did, there was a limit to his strength.

Ao Sifang observed his expression carefully, then suddenly sneered, ""It seems that you're really at your wit's end. Do you think it's fun to Bluff with me at this time?"

Lin Yi looked at him with a sincere face, "I'm curious. Do you really have that much confidence in that old man? do you really think he can defeat cruel malevolence?"

"....."

Ao Sifang was stunned.

Ao Taiwei had a rough idea of how strong he was. They were both from the royal families of the four Seas, but he had no idea how strong lang mie was.

He didn't believe the rumors that he was on par with the high priest.

However, since these words were spread as if they were real, it might not be a groundless rumor. If they were 70 to 80 percent credible, the old man would be in trouble if he were to face him.

"The royal families of the four Seas are all on the same side, but a tall tree attracts the wind. Now that there's no ao Tianxia and ao Yuzhou, if even ao Taiwei dies here, how long do you think you can last on your own?" Lin Yi said calmly.

Ao Sifang fell silent.

He didn't need to think about this problem at all. He couldn't do it alone. When the time came, what awaited him would definitely be a disastrous collapse.

The royal families of the four Seas did indeed have all sorts of conflicts with each other, and even the hidden conflicts were so deep that they were almost not inferior to the priest branch and the Walker Branch of the sea god temple. It was just that they did not show it so openly.

To a certain extent, he didn't get along with the old man, but at this time, he didn't want anything to happen to the old man more than anyone else.

"If we don't go and help, that person really won't be able to be protected."

Lin Yi said, a friendly reminder.

"Don't try to play tricks in front of me," ao Sifang replied disdainfully. "You can sense their fight?"

Lin Yi crossed his arms, calm and composed. "I can't sense it, but it shouldn't be difficult for you, right?"

"....."

In the end, ao Sifang's suspicion gained the upper hand. However, his expression changed drastically after he carefully examined the area.

As he had expected, even if ao Taiwei was not as powerful as lang mie, he was still an expert at the same level. With his unparalleled experience and endless means, he should be more than enough to deal with lang mie for a while.

However, at this moment, although the battle between the two sides in the void forbidden zone was not completely one-sided, it had already shown an obvious pattern of strength.

Ao Taiwei was clearly at a disadvantage.

The critical situation was still worsening. Right now, they were going against the wind. In a while, they would probably be in a desperate situation. At that time, they might really be killed by cruel malevolence on the spot. That would be a real joke.

"You're not going?" Lin Yi asked, calm.

Ao Sifang had never been insulted like this before, especially by a weakling who was far weaker than him. More importantly, he had no temper at all.

It was simply a great humiliation!

He really wanted to slap Lin Yi to death, but he had to admit that Lin Yi wasn't as strong as him, but it wasn't a problem for him to take Lin Yi down with one move.

If he didn't have the strength, Lin Yi wouldn't even have the right to talk to him like this. This was the power of strength.

"Just you wait."

Ao Sifang could only say a classic ruthless sentence. However, it was somewhat demeaning for him to say the catchphrase of a street gangster.

Lin Yi nodded honestly, "Don't worry. I won't go anywhere from now on. I'll stay here and take over West Ocean. You're welcome to come back to me at any time."

Ao Sifang felt like vomiting blood. He snorted and said, ""Even if cruel malevolence can stall ao Taiwei and I, do you think you can rest easy? Do you really think the North Sea and South sea's trump cards are useless?"

The four Seas 'royal families each had a trump card: the East Sea Divine Dragon, the West Sea Dragon Sparrow, the North Sea Army destroyer, and the South Sea Moluo.

Now that ao Yuzhou was dead, no one knew the exact location of the dragonbird guard. However, there was clear information that the North Sea Vanquisher guard and the South Sea mo Luo guard were approaching the border of the West Sea.

The moment these two trump cards joined forces and launched a surprise attack, even if Lin Yi had the guards unit, he wouldn't be able to handle it in a short time.

Don't forget, although the West Ocean had no leader, it had gathered a large number of elites.

If there were only these so-called elites, it wouldn't be hard for Lin Yi's guards to take them down, but if they were caught in the pincer attack of two trump cards, it would be a disaster.

Lin Yi smiled, not thinking much of it. "Since I've prepared for you and ao Taiwei, do you think I'm not prepared for your two trump cards at all?"

Ao Sifang was speechless.

If it was before, he would have thought that this guy was just boasting.

In the entire sea, there wasn't a single person who could scheme against the four Seas 'royal families like this, but that person had to be at least at the level of a high priest. A mere golden class early phase peak venerable dared to talk big in front of him?

But now, even cruel malevolence had been transferred here to be a thug. What else couldn't he have planned?

That was the truth.

The North Sea Army destroyer and South Sea Molo were preparing to charge straight into the heart of the West Sea to surround Lin Yi's personal guards, but they were blocked by two people.

Two people blocking an Ace battle team, if this word spread out, it would definitely be a fantasy. Even if there was really such a thing, everyone would not hesitate to think that it was a Mantis trying to stop a car.

However, if they knew the names of these four people, they might have a different view.

The sea god temple's fifth Walker, Du Hong.

The fourth Walker of the sea god's Palace, Joker.

The third advisor of the sea god Hall, Xing pojun.

The second Walker of the sea god temple, bu Qinglian.

Although these four weren't as powerful as the first Walker, cruel malevolence, who stood at the top of the pyramid, there was no doubt that each of them was a true powerhouse of the sea realm.

In the secular world, each of them was on the level of a nuclear weapon.

It might be a bit difficult for them to face an Ace battle team alone, but if more than two of them joined forces, even if they couldn't take down the entire Ace battle team, it would be enough to deal with them.

In order to cooperate with Lin Yi, the top five were all going all out!

It was true that there was a huge risk behind the scenes, and the priest faculty could take advantage of the slightest mistake, but at the same time, it also represented an unprecedented huge benefit, which made them willing to take the risk!

Lin Yi waved his hand at Ao Sifang, who had a stiff expression on his face. "Take care."

"Alright, I'll remember you."

Ao Sifang gritted his teeth and tried to use his killer move, but Lin Yi managed to block it. He stepped into the Forbidden Zone helplessly.

He had no choice. Ao Taiwei could not hold on any longer. If he did not hurry up and send reinforcements, he would have to face cruel malevolence alone.

No matter how proud he was, he didn't have the slightest confidence in this matter.

Seeing his saviors leaving one after another, ao Huang, who thought that the situation had turned around, was dumbfounded. When Lin Yi's eyes swept over, the Crown Prince of West Ocean couldn't help but shiver.

If it wasn't for what happened just now, he might have had the determination to fight Lin Yi to the end with the resources he had.

After all, he had been thinking about taking over the West Ocean for so many years, but his desire to take over the West Ocean had vanished into thin air. No one would be able to accept it so easily, let alone be willing to accept it.

But now, not only was his father, ao Yuzhou, being schemed to death, but even ao Sifang and ao Taiwei, who appeared together, were also in Lin Yi's calculations. Even they couldn't break out of this situation.

He didn't even know where his Ace was, how could he fight Lin Yi?

Lin Yi didn't even want to discuss it with the guy. He gave his final ultimatum, "If you take the lead in carrying out the order of refusal, you will be the future King of the West Ocean. Of course, if you don't agree, then someone else can do it.

In any case, you have more than a hundred brothers, and there will definitely be someone who wants to grab the opportunity to climb up the ranks. You're not the only one. "

Everyone looked at ao Huang.

"The two Royal uncles are still fighting," said ao Huang with a serious face, "the two trump cards of South Ocean and North ocean are still on their way. Most of the elite forces of West Ocean are still intact. Why do you think you've won?"

Lin Yi smiled, "you're still asking me this question when things are already at this stage. Looks like I'll have to take back my comment. You're not good enough either."

The rest of the big shots were discussing in private.

They were naturally on Lin Yi's opposite side, but anyone with eyes could see that the balance was completely leaning towards Lin Yi's side from the moment ao Taiwei and ao Sifang were lured away by cruel malevolence.

"Even if ao Taiwei and ao Sifang managed to win against cruel malevolence, their trump cards would still be here. Do you think you'll still be in the West Sea?" Lin Yi added.

"....."

Ao Huang was speechless.

It wasn't that he couldn't figure it out, but he was too clear about it.

His father, ao Yuzhou, had never been an easy person to get along with. With the old grudges between them and the ambitions of those two, once they controlled the situation this time, their next move would definitely be to divide the entire West Sea!

Based on his understanding of ao Taiwei and ao Sifang, this was not a small probability event.

He'd rather join Lin Yi-he'd at least get a bigger share, and he'd have a chance to rule the West Sea again.

Finally, ao Huang made up his mind,"alright, I'll vote .."

"Yes, he's a smart person."

Lin Yi wasn't surprised at all.

This group of high and mighty royal descendants would become softer and softer at the critical moment. East Ocean was like this, and so was West Ocean.

Striking while the iron was hot, Lin Yi immediately ordered hai Wutian and hou Moshe to push on with the West sea's writ of grace.

Ao Yuzhou had more than 100 sons, and all of them were on the list of the Order of Mercy. This was destined to be a complicated project, but fortunately, there was a model in the East Sea, so the progress would be much faster.

In addition, the great Python led the guards unit to take over the West Ocean elites that had gathered nearby.

Although there were inevitably twists and turns in the process, and there were many people who were dissatisfied, gathered to resist, and incited the fire, in the face of absolute strength, all of this was not a problem.

Or rather, it was only a matter of time.

In the entire process, ao Huang was surprisingly cooperative. As the Crown Prince of West Ocean, he was far more tactful than his restless brothers, and did not cause any trouble from the beginning.

This made Lin Yi look at him in a new light.

To be honest, unless there was a crucial reversal in the current situation, ao Huang's best choice would be to cooperate.

However, being wise was one thing. For an ambitious person in a high position, it was not an easy thing to keep his rationality.

After all, he didn't just have to convince himself. He also had to convince his fans who were eating with him.

As the boss, he didn't have the right to stop.

Many people thought that ao Huang was a coward for the Crown Prince of West Ocean to join Lin Yi, but in fact, even if he made this seemingly cowardly choice, he still needed to put in a lot of courage and courage.

To him, this was a huge gamble.

Unless following Lin Yi could give him the chance to grow stronger and let his people see enough hope, he wouldn't be able to last long even if he managed to become the King of the West Ocean with Lin Yi's support.

Chapter 10159

The good news was that East Sea and West Sea surrendered one after another, especially ao Taiwei and ao Sifang. Lin Yi's name was like the sun in the sky in the sea.

Although Lin Yi wasn't at the top of the sea in terms of strength alone, in terms of influence, many Intel organizations had placed him in the top ten!

In other words, he had control over the East Sea and the West Sea. The fifth royal family, the Qin family, was his die-hard loyalty. The top five advisors were all his fighters. Most importantly, he was also the sea God's representative who could summon the sea god's avatar on the spot.

In the face of all these dazzling titles, the official identity of the Sea King, which was determined by the sea god, was not worth mentioning.

If even such a person couldn't rank in the top ten of the sea realm, then the others didn't even need to think.

In an instant, Lin Yi's name became the biggest topic of discussion in the sea area.

From an unknown grassroots practitioner to a rising star in such a short time, Lin Yi was already a legend in the sea realm.

Although many people had mentioned him before, their words were filled with ridicule. There were many people who said that he was a villain.

But now, these voices had disappeared overnight.

This was human nature.

When you surpassed them, they would be jealous of you and slander you. However, once the gap between you and them widened, once you reached a point where they couldn't even look up to you, all that was left was admiration.

The change was too sudden, and many of Lin Yi's supporters couldn't get used to it.

They'd been criticized a lot because they'd been speaking up for Lin Yi, but now, all of them had become hardcore fans, all of them claiming to have been on Lin Yi's side since ancient times.

In terms of flattering Lin Yi, he was even better than them.

The world was just so magical.

But as the person involved, Lin Yi didn't mind at all.

Public opinion was sometimes powerful, but most of the time, it was useless. Most importantly, it could turn around 180 degrees at any time. If one were to waste time on it, one would suffer from schizophrenia.

There were only two things he was most concerned about.

First, the whereabouts of the West Ocean dragonfinch.

Secondly, he had to break through the eighteen levels of hell.

There was no need to mention the former. He had already taken control of the West Ocean. Be it the new King of the West Ocean in name, ao Huang, or the other princes who were enfeoffed by the order of grace, they could only choose to side with him for the sake of their own situation.

However, as long as the dragonbird guard didn't show up, they would always be a ticking time bomb.

If they were controlled by some ambitious person in the dark and waited for an opportunity, it would definitely be a fatal hidden danger for the future.

If he was stabbed in the back when he was about to die, even with Lin Yi's current power, he might not be able to take it.

As for the latter, it was directly related to the lifeline of all the Marine human tribe. In order to truly control the sea realm, one must break through the eighteen levels of hell. This had long been a consensus of the entire sea realm.

Whoever could control the eighteen levels of hell would be the true sovereign of the sea!

Lin Yi wasn't interested in the title, but if he wanted to borrow the sea realm's power to fight against the beast God Hall, this was the only realistic option.

Otherwise, he wouldn't have the power to fight the beast God Hall head-on. He would have to be a coward forever with Tang Yun and the others.

More importantly, he had a strong premonition that if the beast God Hall was allowed to invade on a large scale, he would not be safe even if he controlled the New World.

It wasn't that Lin Yi didn't want to do it, but he wasn't interested in doing it if it meant he had no future.

At the same time, in the sea god's Palace.

The high priest's face was solemn as he looked at the gray shadow in front of him.

Although they were not directly involved in this incident, they were the main driving force behind the scenes. If it were not for them, the previous commotion would not have been so big.

But now, all of that had been converted into Lin Yi's personal influence. It was appropriate to say that he'd gone for wool and come home shorn.

"That brat actually became successful. Interesting."

The gray shadow broke the silence with a chuckle. "The East Sea and the West Sea, plus the fifth royal family, the Qin family. Now, half of the territory in the entire sea area is under his control. Compared to him, you, the high priest, are simply a pitiful worm."

The high priest shook his head indifferently, "Territory is just a minor detail. It doesn't matter. The key is the power in his hands."

With his strength and the power of the priest branch, if he wanted to, he could easily take over a territory that wasn't any weaker than Lin Yi's, let alone the royal families.

However, in his opinion, such a thing was meaningless.

The size of the territory didn't represent one's strength. If one wasn't strong enough, then no matter how big the territory was, it would just be a burden. If Lin Yi didn't have the support of the top five advisors, he wouldn't even be worth mentioning.

He was not being arrogant, but he was making the most objective and realistic assessment.

The gray shadow sneered. "The most important thing now is to figure out the origin of the sea god's avatar. The sea god is already in such a state. It's hard to say whether he's Dead or Alive. How could he still have the energy to descend?"

"There's indeed something fishy about this matter. "

The high priest furrowed his brows. "There's another suspicious point. How did ao Yuzhou disappear? no one can say for sure."

The gray shadow was full of regret. "If I had known, I would have gone there. At least one thing is certain now. That kid must be hiding a huge secret. I have a feeling that if we can figure it out, it might be of great use to master."

The high priest shook his head. "Master is about to arrive. Don't do anything unnecessary. As long as we can stabilize the overall situation, whatever they do will be in vain."

The gray shadow said unwillingly, "are we just going to let it be?" With that brat's attitude, if he makes a bigger commotion, he might really ruin master's big plan!"

"That's why ... I have to give him something to do. "

A portrait of a little girl had appeared in the high priest's hand.

In the following period of time, under the push of all kinds of people, Lin Yi's reputation grew bigger and bigger, and many people even said that he was a popular candidate for the ruler of the sea.

But the more he acted like this, the more enemies he made for Lin Yi.

Soon, the momentum of public opinion reversed again.

There were still a lot of people on Lin Yi's side, but compared to a while ago, the voices against Lin Yi were clearly getting louder and stronger.

Chapter 10160

Many of them didn't know Lin Yi at all, and didn't know what he'd done. It was only because of the bragging of those so-called die-hard fans that they subconsciously disliked Lin Yi, and it became more and more intense.

One pink was worth ten black.

Not only that, but a group under Lin Yi's name had also emerged, growing at an unprecedented speed.

It was called the Lin Yi Guild.

They called themselves Lin Yi's die-hard fans, and because Lin Yi could summon the Poseidon clone, they bound it to the Poseidon. They shouted that only the people in Lin Yi's Guild were the Poseidon's loyal followers, and the others were all fake.

If that was the case, it would be fine. At most, he would just be a little annoying.

The problem was that after Lin Yi's first words, these people didn't stop, but instead went even crazier.

In the end, they developed into a group of complete fanatical believers.

In their eyes, as long as someone was not willing to join them, they were infidels and needed to be cleaned up.

Soon, more and more vicious incidents began to appear. Under the influence of the people behind the scenes, they evolved into one tragedy after another. There was even a major incident where an entire village was sacrificed.

Appalling!

Lin Yi's reaction wasn't slow at all-he'd cut off all ties in public from the very beginning, suppressing them in all aspects.

No matter if it was the Eastern or Western seas, they wouldn't allow Lin Yi's Club to exist, and they even accidentally hurt a lot of die-hard fans.

However, he could not control the South Ocean and the North ocean.

In fact, even if it was the East Sea and the West Sea, with his current control, he was still far from being able to penetrate into every corner of the basic level. At most, he could only carry out a limited integration. Without eight to ten years of in-depth sorting, this kind of thing was destined to not be done according to his heart.

The public opinion had already been divided into two sides, and with Lin Yi's crazy actions, one could imagine the trend.

More and more voices of opposition began to appear.

And in this group of oppositions, there were a lot of extremist groups and individuals. They and Lin Yi would kill each other, and the matter was getting bigger and bigger, and it was getting out of control!

With each conflict, more and more people died, and the target of all this was Lin Yi.

A single spark could start a Prairie Fire.

Under the influence of the people behind the scenes, the huge dissatisfaction was quickly condensed into a huge force. A large-scale demonstration called the silent march swept across the entire sea area in less than half a month.

Surprisingly, the leader of the Army of justice was a little girl who was not even fifteen years old.

Her name was Wei Yu 'er.

In terms of background, she was from the most ordinary family. The strongest cultivator in her family was only at the peak of the late stage of the foundation building realm. In this earth-level Sea area where high-level cultivators were everywhere, it was not an exaggeration to say that her family was poor.

As for himself, he was only in the middle stage of the foundation building realm.

In the secular world, a fifteen-year-old mid-stage foundation building expert would naturally be invincible. However, here, he could only be considered ordinary.

No matter what, Wei Yu 'er did not seem to have any outstanding qualities.

Compared to normal people, the only thing special about her was that her family died in a conflict with the Lin Yi Gang.

Including herself, if she had not been saved by an expert who happened to pass by, there was a high probability that she would have died with her family in that nightmarish massacre.

The only thing that kept Wei Yu 'er alive after the disaster was to seek justice from the sea god!

Starting from the desolate north Sea, she had initially only trekked silently to the seagod Hall by herself.

With the vastness of the sea region, the distance covered was over 30000 miles, and they had to pass through all kinds of unexpected dangers along the way. There were extremely ferocious sea beasts and super sea beasts entrenched everywhere. If they did not have the strength of a Titan or above, they would have a 90% chance of dying if they traveled alone.

For a mid-Foundation Stage expert, especially a young lady with little experience in the martial world, the possibility of making it to the sea god Hall alive was almost zero.

Fortunately, she met a few victims who were in the same situation as her on the way, so she went with them.

At some point in time, their deeds were spread out and attracted the attention of the public. Then, more and more people joined the ranks of the silent march.

Until the number of people reached an unprecedented number of one million in an extremely short period of time.

And this didn't show any signs of stopping, and was still growing at an even faster speed!

Even the sea goddess Hall would not dare to ignore such a commotion. If it could not be settled, it would be a destructive blow to the foundation of the sea goddess "followers.

The degree of threat was far more serious than master Mo's bewitchment of the 200000 believers.

Very quickly, a sound could be heard from within the seagod Palace.

Since it was Lin Yi who started this mess, he had to clean up his own mess!

Everything seemed so reasonable, and Lin Yi was forced into the eye of the storm again. This time, he was doomed to have no room to turn back.

Although they had successfully defeated master mo once, at first glance, this silent march seemed to be similar. It was just that there were more people and their momentum was greater.

However, anyone with eyes could see that the two were actually not the same thing.

Master Mo's incident was just a problem to deal with scammers, and it would be solved as long as he took down master mo. If it weren't for the other royal families of the three Seas, it wouldn't be that difficult for Lin Yi to solve.

However, it was different this time.

Although there was someone behind this, the anger of a million people was not fake, and the hatred of a million people was not fake.

In name, Wei Yu 'er was the initiator and leader of the silent march. However, this was definitely not Wei Yu' er's problem. Even if they captured Wei Yu 'er, it would not help. Instead, it would only anger the people even more!

This was an unsolvable situation.

Hai Wutian received the order from the sea god's Palace and went to Lin Yi worriedly."The high priest has summoned you back to the sea God's temple to explain and face the silent march."

"He's trying to hit me when I'm down,"

No one was surprised by this. Hou mo he even said,""It's not strange. This was originally the high priest's doing. After all, Milord has already threatened his position."

Hai Wutian was confused,'how did he threaten his position? Lin Yi's the Sea King, there's no way he'd steal his high priest position, right?"

"The most important thing about the high priest is not that he can control the entire priest system," hou Moshe said."It's that he's recognized as the number one spokesperson of the sea god. He has the most authority to explain the Lord sea God's Oracle.

But look at him now, when we talk about the Poseidon representative, is he still the first person everyone thinks of?"
