

Bodyguard 10161

Chapter 10161

Hai Wutian shook his head, "that's definitely not the case. He's never asked the sea god's clone to come down. He's nothing compared to Lin Yi."

"That's why, no matter who is in his position, they would definitely hate you to the bone. "

"The first spokesperson of the sea god may seem like an empty title," hou Maha said in a deep voice. "But he truly represents the orthodoxy of the sea god. Now that the orthodoxy is in your hands, you can imagine what he'll do."

"The situation in the West Sea has just been opened up," the Python said. "If master returns to the sea goddess Hall, there might be trouble. And it's hard to say if the sea goddess Hall has set up some traps for master to walk into!"

Everyone looked at Lin Yi.

Lin Yi had been thinking about how to break out of this situation since the beginning.

After a long time, he suddenly woke up and stretched his body with sleepy eyes. "The meeting is over? Alright then, go back and rest. "

"....."

Everyone was speechless.

It turned out that this boss had been absent-minded from the beginning to the end. Was he infected by cruel malevolence?

"You're not worried at all?" hai Wutian couldn't help but ask. "It's such a big deal."

Lin Yi smiled. "There's nothing to worry about. You guys stay here. I'll go back to the Poseidon shrine alone."

Now that the West ocean's Order of Mercy had been opened, with the great Python and the guards unit in charge, as long as nothing out of the ordinary happened, it was enough to stabilize the situation.

"With the high priest's cunning, he won't let go of this opportunity so easily," hou Moshe said worriedly. "Master, if you go back alone, there might be some problems."

"I'm fine. Cruel malevolence and the others should have gone back by now. "

Lin Yi wasn't worried at all.

His alliance with the Wayfarer was quite strong, at least until their common enemy, the high priest, fell.

Moreover, he was alone. No matter what situation he was in, it would not be too difficult for him to escape. At most, he could hide in the New World and walk the sea again.

"But ..."

Everyone stopped talking after seeing Lin Yi's firm attitude.

After everyone left, Lin Yi's expression was no longer as calm as before. It wasn't because of the pressure from the high priest, nor was it because he was having a headache about how to deal with the silent march.

The problem came from the New World.

To be more precise, it was the seagod's divinity that he sealed in the New World.

As silent march grew stronger, Lin Yi could clearly feel the ocean God believers' foundations shaking. It wasn't a big problem in itself, but it affected the divinity.

The power of the divine persona was quickly being lost.

Jiang xiaoshang's voice sounded in his mind, ""The loss of the divine persona's power will result in a portion of it being absorbed by your new world.

This is a good thing, it can greatly speed up the world's evolution. Perhaps it won't be long before 1.5 million years is shortened to 1 million years, or even 500000 years, or 300000 years. "

Lin Yi knew this very well, but he still smiled bitterly, ""It's a good thing, but it's a pity that the remaining part was wasted."

With his current strength, Godheads were definitely non-renewable rare resources. The more he used, the less he would have.

Once the remaining seagod's divine spark was used up, it would be impossible to find the next one.

According to the ideal pace, he would at least have to reach the peak of the late stage of the Golden class before he could try to digest the remaining divinity. Only then would he be able to maximize its value.

But now, it was forced to be brought forward.

There would inevitably be a huge waste, and there was no solution at all. They could only watch as they were lost.

Jiang xiaoshang chuckled."Think on the bright side. This way, you can at least improve your strength faster and reach the top of the sea realm earlier. You'll have a higher chance of becoming the sea realm's sovereign."

Lin Yi shook his head, "There's another problem. Once the seagod's divinity is completely destroyed, it also means that the seagod's tablet won't be as useful in the future. It won't be so easy to use it to coerce the Emperor and command the vassals. "

This was an enormous loss on a strategic level. Before he obtained the absolute strength to unite the entire sea realm, nothing could replace the Golden signboard of the sea god.

Jiang xiaoshang nodded."That's why your plan has to be brought forward. If you don't use it now, it'll be useless once it expires."

Lin Yi fell into deep thought, the high priest's figure appearing in his mind."We do need to plan it out."

As the two of them spoke, the power from the divinity could be said to have an immediate effect. The speed of the new world's development increased by more than five times, and it was a big step closer to the emergence of a symbolic life.

Lin Yi's spirits were lifted-this was much better than he'd expected!

"Three hundred thousand years!"

Jiang xiaoshang was also quite surprised. "This is only the beginning. The loss of the Godhead's power will only get faster and faster. The speed of your new world's evolution will double and increase even more. It seems like it won't be a problem to increase it by ten times."

Lin Yi's eyes brightened up, but he was discouraged. "Even if it's ten times more, it'll still take thirty thousand years. I still can't afford to wait."

Going from two million years to thirty thousand years was a huge improvement, but it was still too long for a human practitioner. Even if Lin Yi could survive for that long with his current strength, the situation didn't allow him to.

"If you can shorten the time limit to 10000 years, I'll give you a huge surprise," Jiang xiaoshang said as he looked at him.

"Oh? How big is it?"

Lin Yi's interest was piqued-the guy wasn't a coward when it came to talking, but he'd never cut him off when it came to business.

Jiang xiaoshang rolled his eyes, "it's so great that I wish you couldn't do it."

"Well, just wait and see," Lin Yi smiled.

This guy's fate was bound to him. The faster his strength increased, the more this guy would want.

Since the benefits were so great that even Jiang xiaoshang felt the pinch, it was indeed worth looking forward to.

At the same time, in Zhong hai.

The sea area was divided into Four Seas, North, South, East, and West. Strictly speaking, there was no such thing as "Zhong hai". The so-called "Zhong hai" was actually just a no man's land at the junction of the four Seas.

Although this place had an excellent geographical advantage in theory, it was deserted all year round due to the large number of super sea beasts distributed here.

However, today was a rare day of liveliness.

This was because there were millions of silent march here. Due to the great momentum, even ordinary supersea beasts could only retreat.

After all, no matter how strong the Super sea beast was, it would be useless in front of a million cultivators.

Chapter 10162

"We're less than two thousand miles away from the Poseidon shrine after Zhong hai. We'll make that Lin Yi pay with his blood!"

"Right! We must make him pay with his blood!"

The crowd was excited, like a huge powder keg that could explode at any time.

However, as the initiator of this silent march and the spiritual leader, Wei Yu 'er was very uneasy about the atmosphere.

She had never thought that things would turn out like this.

She only wanted to go to the sea god's Palace and seek justice from the Lord sea god, but she had never thought of overthrowing the sea god's Palace, and even more so never thought of sitting in a high position above tens of thousands of people.

Even with her insignificant experience, she could tell that the silent march had changed.

This was supposed to be a non-violent protest, but along the way, there were no less than a hundred conflicts with the big and small Lin Yi groups, and more than three thousand people were killed or injured.

What made her even more uneasy was that not only did this huge Army have to fight Lin Yi to the death, they even exchanged fire with the temple guards twice recently.

Although the other party had restrained himself and did not kill anyone twice, as they got closer and closer to the sea goddess Hall, it was only a matter of time before they had a big fight with the temple guards!

That was the symbolic official power of the sea god's Palace.

As a result, even if she was extremely unwilling, she would inevitably be pushed to the forefront of the confrontation with the seagod Hall, and a great battle would be inevitable.

Wei Yu 'er felt that something was amiss. Unfortunately, with her experience, she could not find the source of the problem.

"Uncle, what should I do?"

Wei Yu 'er came before a man wearing a bamboo hat. Back when her entire family was in trouble, it was this man who had passed by and saved her.

"If you don't feel comfortable like this, then you can leave," the man with the bamboo hat said in a hoarse voice.

"But ..."

Wei Yu 'er thought for a while, and finally shook her head firmly, ""I want to go to the seagod Hall."

She didn't like the feeling of having no control over herself, but for the sake of her parents and sister who had died tragically, she had to seek justice. Otherwise, she would never be able to rest in peace.

The man in the bamboo hat glanced at her and sighed. ""Why bother?"

Back then, he had only saved Wei Yu 'er in passing. Even he had not expected that things would develop to such an unexpected stage.

However, he did not want to interfere with Wei Yu 'er's decision. He was just going to follow her for a while. As for how far they would go in the end, no one could control it.

At this moment, an alarm sounded ahead.

Wei Yu 'er's eyelids twitched. After getting used to it over this period of time, she was already very clear what this urgent alarm meant.

"Lin Yi's men are here again."

The man in the bamboo hat was not in the mood to get involved in this kind of thing. However, this time was different from the past. The scale of the other party's attack was far larger than before. No one would believe it if they said that the million-strong silent march had been broken through.

It was true that most of the silent march's members were low-level cultivators, and they had no power to resist in front of a true master. They could only play a limited role compared to ordinary people.

However, among the millions of people, there were many experts who were at least at the level of a Titan. There were even a considerable number of Supreme realm experts.

After all, everyone could see that this was a grand event. If one could stand out in this Grand occasion, they would definitely be able to attract many people's hearts. Therefore, many ambitious people were mixed in.

In terms of overall scale, the number of experts in silent march was not any less than Poseidon Hall 's. In fact, they far exceeded them!

However, at this moment, facing an opponent with less than one percent of their numbers, they were actually impaled from head to toe. It was really a big surprise.

A plate of loose sand.

The man in the bamboo hat had no intention of attacking. He was not interested in this so-called silent march.

The only reason he stayed here was to take into account Wei Yu 'er's safety.

"Uncle, please save them. They are innocent."

Wei Yu 'er looked at her companion lying in a pool of blood and felt sorry for her.

She also knew that many of the people in the silent march were not actually companions, but there were still many people in the same situation as her.

And in every conflict, the ones who suffered the most injuries were often these people.

They became the cannon fodder of the ambitious.

The man in the bamboo hat was silent for a long time. Under the little girl's pleading gaze, he nodded helplessly. He picked up a scattered iron sword and walked towards the crowd. "Let the guards come over. Be careful."

"Yes, yes."

Wei Yu 'er nodded heavily.

As the initiator and spiritual leader of the silent march, although it was not her own wish, everyone had indeed assigned her a team of powerful guards.

Although their strength could not be compared to those famous Ace battle teams, they were still much stronger than the elites of the various large factions. Under normal circumstances, it was more than enough to protect her.

However, not long after the man in the bamboo hat left, a strange figure passed through the guards 'line of defense and appeared directly in front of her as if no one was there.

When she saw the other party's appearance, Wei Yu 'er forgot her fear for a moment and subconsciously blurted out,""Lin Yi!"

She'd never seen Lin Yi before, but as the source of all this, especially the one who'd caused her parents and sister's tragedy, Lin Yi's face was already deeply engraved in her mind.

After all, he was the main character of her nightmares.

"Be careful!"

The people around her also noticed the strangeness at the first moment, especially the survivors like her. They were all so angry that their eyes almost popped out.

'Lin Yi' revealed a strange smile as a pitch-black sword appeared in his hand. Before anyone could react, he had already pierced through Wei Yu 'er's heart.

Wei Yu 'er looked at the half of the sword in front of her in a daze, her mind blank.

With the huge difference in strength, as long as the other party could break in, killing her would only take a thought. This was the most normal result.

"So ... This is the feeling of death ..."

Wei Yu 'er quickly lost consciousness and fell to the ground powerlessly. The people around her were in a mess as they cried out in alarm.

Although she was just an ordinary little girl and couldn't be said to be outstanding in any way, her existence was indeed significant to the millions of people in the silent march.

Her death was a huge blow to the silent march.

As expected, after the news spread, the entire team fell into complete chaos.

The magnificent million-strong Army instantly fell apart.

At this time, any ACE Team, or even the temple guards, would be able to easily take them down.

Chapter 10163

Even when he was fighting one against two at the West Ocean and was up against ao Taiwei and ao Sifang, two of the top combat strength pillars, he had not been serious from the beginning to the end. Otherwise, his opponent would not have been able to retreat in one piece.

This time, even he was acting like he was serious. Did Lin Yi really have that kind of terrifying power?

In the following days, the storm that targeted Lin Yi and the walkers continued to brew. The situation didn't show any signs of calming down, but instead became more and more intense.

After a few short days of rest and collective mourning, the silent march continued to advance towards the sea God's temple.

Due to the high priest's order and the retreat of the temple guards, the Army of a million marched straight into the core area of the sea God's temple's influence, as if they had entered no one's land.

What was strange was that Lin Yi, who had been causing trouble all this while, suddenly stopped all his activities.

Very quickly, the million-strong Army marching silently arrived at the city gates, completely surrounding the magnificent buildings of the Poseidon shrine.

At the same time, he shouted a clear slogan.

Lin Yi, pay with your life.

The huge square in front of the main hall became the central stage for the confrontation between the two sides.

On one side, there was a group of ambitious big shots mixed in the silent march. There was no lack of famous experts among them, and some of them were even on the list of top-tier combat power, and their fame was not inferior to the royal families of the four Seas.

On the other side were the Poseidon shrine's powerful figures.

The high priest Zhang xisheng, the first Walker Wolf mie, the general of the temple guards Bai Ze, and other top figures were all present.

In terms of the line-up of both sides, the scale of this match was much higher than that of the previous match with West Ocean!

This high-profile meeting could even be called a Summit of the sea realm.

Whoever could escape from such an occasion would undoubtedly become the most popular person in the entire sea area. Even if he was previously unknown, as long as he had the strength and means, he would be able to reach the sky in a single step.

This was the perfect stage that all the ambitious people dreamed of!

However, in front of the sea God's temple's high priest, even if they were eager to give it a try, the ambitious ones hidden in the silent march did not dare to jump out.

Self-confidence was a good thing, but if one's overconfidence turned into arrogance and turned themselves into cannon fodder, then that would be hilarious.

In the end, at this critical moment, a figure suddenly landed in the middle of the sea.

Lin Yi!

The crowd exploded in an instant.

Not to mention the Avengers on the silent march's side, who were filled with hatred, even the sea god temple's side was in an uproar.

"What a high-profile entrance!" The top five advisors facepalmed in unison. "Is it because the firepower of the referee is not strong enough?"

Lin Yi, on the other hand, didn't seem to notice it at all. He looked around at the crowd and raised an eyebrow at the huge sign. "Lin Yi's life? So I'm that sinful?"

"Hmph, after doing so much evil, isn't it a little too late to quibble now?"

An unruly figure from the opposite crowd jumped up.

"Li shuangxiong, the descendant of the ancient crocodile?" He's actually participating in the silent march?"

Although this person did not have the highest combat strength in the sea realm, he was second to none in the new generation. He was also undoubtedly the strongest of the new generation, and a popular figure who would definitely rise to the top in the future.

"Golden class mid phase peak?"

Lin Yi raised his eyes and shook his head after one look. "With your strength, you don't have the right to ask me questions. You should leave."

"Ha?"

Li Shuang Xiong could not help but show a surprised expression. "I thought I was crazy enough, but I didn't think there'd be someone even crazier than me. You're just a golden class early phase peak venerable, are you serious?"

He didn't even wait for Lin Yi's reply as he transformed into a ten thousand feet long ancient crocodile. More importantly, he wasn't a normal ancient crocodile-he was a two-headed ancient crocodile!

Ancient crocodiles were ancient mutants known for their ferocity. They had even once stood shoulder to shoulder with the dragon clan. However, as a descendant family, the Li family was not as prominent as the royal families of the four Seas because of their small population.

But even so, among the forces other than the four Seas 'royal families, the ancient alligator Li family was still an outstanding one that could not be underestimated.

In particular, li shuangxiong had awakened the unprecedented two-headed ancient crocodile. His strength was tyrannical, and he could easily sweep away all those at the same level. As long as he was around, the ancient crocodile li clan would definitely rise up in the foreseeable future!

Although li shuangxiong's target was Lin Yi, the terrifying killing intent he exuded still made the spectators back off.

Those who were slightly weaker had their primordial spirits corroded by the baleful Qi on the spot, causing them to go crazy and be suppressed by the others around them.

However, the killing intent had no effect on Lin Yi.

Because Lin Yi had turned into the devil Chiyou, his killing intent was much stronger than his opponent's.

There was no expected confrontation of rules. Under the shocked gazes of everyone present, the two sides directly launched the most primitive and most violent physical battle.

BOOM!

With a heavy thud, the two giant crocodile heads were pressed to the ground. Even with the ancient crocodile's natural strength, it couldn't break free from Lin Yi's hands.

This was not the end.

The devil Chiyou did not only have two arms, but four!

While the two crocodile heads were being held down, the other two arms struck their heads at the same time. At the same time, violent rule power burst out.

Vibration kill.

Looking at the crocodile head that had been blasted into two lumps of bloody flesh on the spot and Li shuangxiong whose life force was rapidly disappearing, the entire scene fell into a strange, dead silence.

For a long time, no one spoke.

Whether it was the silent march or the sea god's Palace, they all looked at the demonic god stepping on the two-headed ancient crocodile's corpse with unconcealed shock in their eyes.

They knew that Lin Yi wasn't weak-he wasn't as simple as a golden class early phase peak, but they didn't think it would be this strong.

That was li shuangxiong!

He wasn't just at the peak of the middle stage of the Golden class, he was also at the peak of the new generation of Masters in the sea realm. Killing people above his level in seconds was a common occurrence for him.

Even the older generation experts who had been famous for a long time had lost many of their lives at his hands.

He was destined to have a bright future ahead of him, and he was destined to be the leader of the pack-and yet, he'd been killed by Lin Yi in an instant, without any fancy moves at all.

How was this possible?

If this was a game, everyone would definitely agree with one obvious fact: this was a forced hack!

"Could it be that li shuangxiong was bribed by him and deliberately put on an act?"

Someone couldn't help but Mutter.

This was outrageous. Who would put on an act for others with their own life?

Chapter 10164

If li shuangxiong knew about this in the netherworld, he would have crawled up and strangled him to death when he heard this. Even if sh * t had entered his brain, he shouldn't be so brainless, right?

Someone beside him corrected him."It's definitely not an act. But I'm curious. Why didn't li shuangxiong use the vicious water rule, which is the trademark of an ancient crocodile descendant? he couldn't have been suppressed to the point where he couldn't move, right?"

"How is that possible? He's the one who's being challenged-he's the one who can suppress Lin Yi, how can Lin Yi suppress him?"

Little did he know that li shuangxiong really couldn't move.

With the rapid evolution of the New World, it was hard for Lin Yi's overall strength to increase significantly before the iconic event of the birth of life, but that didn't mean that his combat strength wouldn't increase.

Cultivation level was cultivation level, and battle prowess was battle prowess.

It was one thing for a normal practitioner, but it was a completely different thing for an animal like Lin Yi.

After the New World evolved further, the most obvious benefit was that he could control the world's will more easily.

He was the one who had used the world's will to forcefully clear the area and the rule bending power around li shuangxiong. The so-called rule bending experts were essentially borrowing power from the rules that constituted the world Order. Once the path was isolated, 90% of their strength would be lost.

Clearing the field with rules would undoubtedly be Lin Yi's most important trump card in the future!

In the dead silence, Lin Yi raised his eyes. "Some of you want me to pay with my life, some of you want to take the opportunity to stand out. I can understand your thoughts, but everything has a price. Before you come up, you'd better ask yourself if you can afford the price."

The other side was speechless.

Even though the silent march had barely been United because of Wei Yu 'er's death, it was still a motley crew in the end.

If there were benefits, there would naturally be people swarming over.

However, once they were hit in the head and the situation fell into a disadvantageous position, they would immediately be at a loss. In a more serious situation, they might even collapse on the spot.

"Did you kill Wei Yu 'er?"

Someone in the crowd suddenly shouted.

This question also lingered in the minds of many people.

Although the public opinion was completely against Lin Yi, it didn't mean that the whole world was against him.

Lin Yi's appearance was, of course, a deliberate attempt by someone to smear his name and ruin his public relations, but from another perspective, it also showed that Lin Yi had a certain Foundation in the public.

Even though he was being criticized by the public, there were still many people who believed in him. However, in front of the millions of people who were marching in silence, their voices were suppressed.

Of course, no one knew what the person's intentions were.

"Would you believe me if I said I didn't kill him?" Lin Yi said.

Someone on the other side immediately retorted, "bullshit!" At that time, there were dozens of guards watching. One person might recognize the wrong person, but could dozens of people recognize the wrong person at the same time?"

Lin Yi smiled but didn't answer. He suddenly removed his Chiyou form and changed into a completely different image to everyone's surprise.

The high priest.

Everyone looked at the "high priest" in the middle and couldn't help but look at the high priest on the main seat opposite them. With their eyesight, they couldn't see the slightest difference, and even the fluctuations of their divine sense were exactly the same.

If they were to walk outside, at least 99% of them would have no doubt that this "high priest" on the stage was the person they were looking for.

"Can you really pass the fake for the real?"

Many people were immediately swayed, but even more people were waiting to see the high priest's reaction.

Lin Yi's way of doing things seemed to be a demonstration of his self-clarification, but of all people, he had to pretend to be the high priest-this was interesting.

He was obviously implying something.

But the high priest didn't seem to be moved at all, as if he didn't understand the meaning behind Lin Yi's actions.

At this time, playing dead was the best strategy.

No matter what he did, he'd be able to draw the attention away from Lin Yi, and that'd be the same as helping Lin Yi out of the situation-he wouldn't make such a low-level mistake with his rank.

As expected, people started targeting Lin Yi again.

"That's a good idea. However, if you think that you can get away with it by passing off the real thing as a fake one, aren't you underestimating everyone's brains too much?"

"That's right! Before there is any conclusive evidence to prove that it was someone else, you are the murderer of Wei Yu 'er. No one can deny that!"

"A life for a life. Today, we only have one goal-you, Lin Yi, have committed a heinous crime and must pay the price!"

For a moment, the crowd was in a frenzy.

For high-level cultivators who had reached a certain level, it didn't matter what others thought of them. This was a necessary mental process.

But facing the collective anger of a million people, the pressure was real-even Lin Yi couldn't just ignore it.

When the top five advisors saw this, they broke out in a cold sweat for him.

Du Hong frowned,"once so many people's emotions are stirred up, it's not something that can be calmed by reasoning with facts. It's hard for Lin Yi to break out of this situation by himself."

Lin Yi was well aware of this, and he never thought of convincing the millions of people in front of him.

On such an occasion, the most effective and understandable way of speaking was to use one's fist.

Lin Yi looked around and shrugged. "I'm standing right here. If you want me to pay the price, come on. I'll take it."

The other side immediately fell silent.

If Li Shuangxiong hadn't learned his lesson, there would be many ambitious people who would be eager to try. But now, no one dared to go up.

Even those who had already reached the top of the combat power chose to stop and watch.

After all, it had only been two months since Ao Yuzhou, the King of the West Ocean, had fallen.

They didn't know how much Lin Yi had to do with this, but they wouldn't do anything before someone found out who Lin Yi was. It'd be a joke if they ended up helping someone else.

Lin Yi waited for a long time before frowning. "Not a single one?"

The situation was extremely awkward.

"Why are we talking about the morals of the pugilistic world with a murderer like him? let's attack together and avenge Wei Yu 'er and our dead relatives!" Someone shouted.

The millions of people immediately became restless.

They wouldn't have the guts to do that if the Poseidon shrine wanted to protect Lin Yi. After all, even they knew that they were at a disadvantage in every aspect, except for their numbers.

But now, from the high priest to the guards of the divine Hall, it was obvious that they were not doing anything, which was a completely different situation.

Chapter 10165

No matter how strong Lin Yi was, he was just a Firefly's light in front of a million of them. If he fell into their sea of people, he wouldn't be able to survive even if he had a hundred lives.

The first Walker, cruel malevolence, said slowly, ""I don't care if it's one-on-one, but if they want to bully us with their numbers, then you'll have to ask my buddies if they agree."

As he spoke, the group of sea God's walkers, including the top five walkers, all released their auras and assumed an offensive stance.

Although they were still far from the other side in terms of numbers, they were still powerful individuals.

This was especially so for him, Wolf Slayer. He was a terrifying character who could easily take on ao Taiwei and ao Sifang. No matter where he was placed, this kind of deterrence was not to be underestimated.

The Restless crowd on the other side suddenly lost their momentum.

A group of ambitious people looked at each other. Everyone wanted to make the crowd impulsive, but no one dared to be the first bird to stand out.

If cruel malevolence targeted them, even the top combatants among them would not be able to escape.

Lin Yi nodded at the scene.

Cruel malevolence was indeed an ideal ally. Not only did he have the strength of a ruler, but he also had a good brain. It was rare for them to have such a tacit understanding without any prior communication.

After hesitating for a long time, someone finally walked out from the crowd. It was a man wearing a bamboo hat.

"Golden class early phase peak? This kind of trash also dares to come up and stand out, has water entered his brain?"

It was not just the seagod Hall's side, even the silent march's own people could not help shaking their heads after sensing this person's strength.

Although Lin Yi was a golden class early phase peak practitioner on the surface, everyone knew that this guy's strength couldn't be measured with common sense after seeing how he killed li shuangxiong in an instant.

Strictly speaking, Lin Yi's actual combat strength was at least a late phase golden class venerable, or even comparable to a late phase peak golden class venerable.

After all, it would be a miracle if a normal golden class late phase venerable didn't get killed in a second, let alone killing li shuangxiong in a single move.

The crowd cursed.

They welcomed cannon fodder to wear Lin Yi down, but if they were destined to be useless cannon fodder that couldn't even do that, then it wasn't a good thing.

If too many cannon fodders died, it would definitely cause a big blow to their overall morale.

"Isn't he the person who is always with Wei Yu 'er?"

Someone recognized the identity of the man in the bamboo hat and could more or less understand why he had gone up, but he still shook his head. "It's meaningless. With such little strength, what else can they do other than sending themselves to their deaths?"

However, Xing pojun's expression suddenly changed after he carefully sensed the bamboo hat man's subtle presence.

Then, under everyone's shocked gazes, he walked forward.

"What?"

Lin Yi couldn't help but be surprised. He didn't have much interaction with The Third Walker, and naturally, he wouldn't think that the man was just trying to help him out.

It was obvious that there was a story between Xing pojun and this person.

"I've been looking for you for thirty years for the revenge of that sword attack. I didn't expect to meet you in this kind of situation. It seems that fate is still on my side."

Xing pojun's words caused an uproar.

What was his status?

Although he was not as powerful as the first Walker, cruel malevolence, he was still a top-tier combat force recognized by the entire sea region. Many intelligence agencies had evaluated him to be on the same level as ao Taiwei, the king of the four Seas!

Such a person would only stand out in the sea god Hall, where the highest level of combat power was gathered. Otherwise, no matter where he went, he would be the focus of attention.

However, from what he said, he had actually lost to this ordinary man in the bamboo hat. How was that possible?

Everyone looked at the man in the bamboo hat, waiting for his reaction.

In the end, the man in the bamboo hat looked at Xing pojun for a moment and shook his head, ""Too many people have been defeated by my sword. I don't remember."

"....."

Everyone present was taken aback.

They had seen pretentious people before, but they had never seen such a pretentious person!

You're just a golden class early phase peak-it'd be fine if you said that to a giant, but you're facing a top-tier combat force that's far stronger than you are-isn't it a little ridiculous to be so cocky?

However, Xing pojun was not angry at all. Instead, he nodded, ""That's true. After all, you've hidden your name for so long that many people think you're dead. Otherwise, I'm not one of those people who want to take revenge on you."

Even the slowest of them could tell that the man in the bamboo hat had a powerful background.

"Could it be some Big Shot from the older generation?"

"It doesn't look like it-he's clearly golden class early phase peak! He's not pretending, I can see it clearly!"

"Maybe he suffered some kind of injury, or his cultivation went berserk or something, and his strength regressed?"

Everyone was guessing, but they couldn't figure it out, so they could only continue to watch quietly.

"I'm sorry, but I've cut him off. Can you wait for a while?" Xing pojun turned to Lin Yi.

"I'm fine with anything. "Lin Yi shrugged nonchalantly.

Xing pojun nodded and turned back to the man in the bamboo hat. His aura suddenly became extremely serious.

Although he didn't do anything, the millions of people present were collectively placed in the atmosphere of an impending storm. Those who were slightly weaker didn't even dare to breathe.

This was the aura that only the top-tier combat strength of the sea realm had!

Everyone looked at each other. Some people had even suspected that Xing pojun's behavior was a little exaggerated, and they even suspected that both sides were cooperating to put on an act.

But now, Xing pojun's aura was fully released, yet the bamboo hat man didn't move an inch. This immediately showed his unusual side.

"There's indeed something. "

Anyone with a good eye could already tell just how powerful the man in the bamboo hat was.

At this moment, he was in the middle of Xing pojun's aura, but it was like an ancient well without any ripples.

This meant that Xing pojun's aura had no effect on him at all!

What kind of terrifying mental strength was this!

Xing pojun looked at him coldly. "Draw your sword. Don't wait until you're dead to cry your grievances. It'll be too boring if you say that you underestimated your enemy."

"That's good. "

The man in the bamboo hat nodded, took out the sword case from his back, and slowly opened it.

The crowd in the distance raised their heads in anticipation. Since a person like Xing pojun was able to boast so much, this person must have a powerful background. Moreover, this sword case had been on his back the entire time, and he had never untied it. This showed how much importance he attached to it.

It must be a rare heavenly weapon!

However, when the case was opened and the rusty old copper sword inside was revealed, everyone who saw the real appearance of the sword fell silent.

Chapter 10166

What was this?

Any toy in the hands of any child would look much better than this toy. How could he have the cheek to take out this kind of scrap metal in public?

Xing pojun raised his eyes. "If you need to sharpen your sword, I can wait for you. I've waited for 30 years. I'm not in a hurry."

The man in the bamboo hat slowly held the bronze sword in his hand. "No, my sword doesn't need to be sharpened."

"Alright, as you wish."

As soon as Xing pojun's voice fell, the huge aura that was pressing down on everyone's head suddenly disappeared.

Many low-level cultivators heaved a sigh of relief. However, those high-level cultivators who had reached the level of the Titan tier and above felt their hearts tighten in unison, and their eyes widened in unison.

Because this meant that Xing pojun was about to get serious!

As expected, Xing pojun suddenly launched an attack in the next second. The sea God's temple master's signature ocean rule power immediately erupted.

However, unlike the familiar rules of the sea, the same rule power fell into his hands in a completely different form.

Hurry up!

At this moment, the law power of the ocean gave everyone the feeling that it was fast. It was unprecedentedly fast, so fast that it exceeded all conventional concepts of speed.

It gave off the feeling that Xing pojun's attack had already landed on the bamboo hat man's body the moment he attacked.

To a certain extent, it had almost surpassed the limits of space. Perhaps even the fastest speed of light in the legends was not as fast as this.

"Transmit!"

Jiang xiaoshang's interested voice sounded in Lin Yi's head, "This guy is a rare talent. He's able to play with the mediocre rules of the ocean to such an extreme variant. Interesting."

"A variant of the ocean's laws?" Lin Yi blinked.

"That's right. In theory, every rule bending power can be developed into various variants. Although the essence of the power is the same, the way the power is used is different, and it is completely possible to achieve different effects."

Jiang xiaoshang chuckled as he explained, "this method completely ignores the other effects of the laws of the ocean. It only focuses on the transmission between waves."

When he moved, the power would be transmitted to the target at the same time without any transmission process.

In other words, his attack directly skipped the conduction and was faster than any attack you know.

That's because there's no speed at all in his place. "

Lin Yi subconsciously had a thought-could this be the legendary quantum entanglement?

As expected, the end of the world is physics ...

However, on second thought, although the two were very similar in the sense that they skipped the transmission process, there was no other connection. After all, the concept of quantum entanglement was far more than the transmission of information, let alone the transmission of rule power.

At this moment, the rules of the mutated ocean species 'transmission revealed its terrifying power.

As everyone knew, there was no absolute hit in the rule power system.

In theory, no matter how fast one was, there was a possibility of missing. Even the law of acceleration, which could be called the ultimate speed, could return empty-handed if one encountered an expert who was really good at dodging.

However, Xing pojun had personally demonstrated to the millions of people present what was called a disguised sure-hit attack. As long as he wanted to, his attack could directly land on anyone's head.

The only way left to avoid his attack was to escape before his thoughts formed.

Or, to put it more simply, don't appear in front of him.

This was the power of the sea god's Palace's third advisor.

Seeing the man in the bamboo hat being instantly penetrated by the power of the ocean's rule power, the onlookers didn't have any thoughts of gloating at his misfortune. They only felt a chill on their necks.

After all, if they were in the bamboo hat man's position, the result would not be any different.

"He's dead, right?"

Seeing that the man in the bamboo hat did not move even after a long time and that his aura was weakening at a speed visible to the naked eye, everyone could not help but look at each other in dismay.

With Xing pojun's strength, a golden class early phase peak venerable being killed in one move was a sure thing, but it was still quite disappointing that he'd been praised so highly by Xing pojun before, and now he'd died so easily.

"It's not that easy to cross the threshold of the top level. "

"I thought the sea realm was finally going to produce another top-tier combat force," someone couldn't help but sigh. "It turns out that it was just a casual compliment from the Big Shot."

However, Xing pojun did not relax at all. Instead, his expression became more and more serious.

On the other hand, the aura of the man in the bamboo hat, who had taken a solid hit, continued to fall until it was completely inaudible. To everyone, he was no different from a dead person.

He can still live?

However, in the eyes of the top-tier experts, the bamboo hat man's aura did not disappear.

It had been an ancient well without any waves earlier, but now, it gave them a feeling of deathly stillness that made their hearts palpitate. It was as if his entire person had turned into an invisible black hole, sucking in all of their senses.

Soon, no one dared to try to sense his aura again.

If this continued, not to mention what would happen to the man in the bamboo hat, there was a high chance that their divine senses would be lost in it. At that time, before they could even finish watching the show, they would become either stupid or dumbfounded.

The group of experts looked at each other, their eyes filled with unconcealable horror, expressing the same thought.

This person was abnormally terrifying!

Even Lin Yi's eyes were wide open-he couldn't see the man's level anymore, it was changing all the time-normal levels didn't mean anything to this man anymore.

Maybe he was golden class early phase peak a second ago, and now he was golden class late phase peak.

The key was what he would do next.

However, Xing pojun obviously did not intend to wait for his opponent to make a move. After testing the waters with his first move, he immediately prepared an even more powerful move.

Immeasurable ocean rule power gathered around him from all directions, constantly condensing and compressing. Soon, its strength had exceeded the limits of most people's knowledge.

"My control over the rules of the ocean is at least 60%!"

Lin Yi silently measured the difference between them.

He had the highest control over two rules. The ocean rules and the Dragon rules had both reached 40%. With the addition of the New World, he would be able to show off no matter where he went.

However, compared to Xing pojun, who was recognized as a top-tier combat power, there was still a visible gap.

Lin Yi's rule bending powers were too complicated, while Xing pojun only focused on one, and the difference was huge. No matter how many rules he added, he couldn't make up for it.

However, this was not because he was showy. It was purely because he had cultivated for too short a time and lacked a deep foundation.

Chapter 10167

At this moment, Xing pojun seemed to feel some kind of urgent pressure. Without any hesitation, he turned all the ocean rule power into the most iconic big move of the ocean system and vented it all on the man in the bamboo hat.

The masses return to the sea!

This wasn't Xing pojun's personal ultimate move, but a universal ultimate move used by almost all top-tier ocean rule experts. Its power could be said to be the most powerful of all ocean rule moves.

When Xing pojun used it, it was obviously much more lethal than the other experts!

Especially with the enhancement from the transmission of the variants, the power of the masses returning to the sea did not leak out at all, and all of it was eaten by the man in the bamboo hat!

This kind of damage was something that even a peak-level sea expert like Xing pojun wouldn't be able to handle, let alone a golden class early phase peak venerable. Even if they didn't die, they would be heavily injured.

However, the strange thing was that the man in the bamboo hat, whose aura had been so weak that it was almost non-existent, suddenly erupted after taking this blow.

"I'm only going to attack once, take it. "

The copper rust on the surface of the old copper sword in the bamboo hat man's hand fell off automatically, and then it gave off an unprecedented dazzling light. In an instant, it lit up the whole place like the daytime on the sea, making people unable to open their eyes for a while.

He swung his sword.

The man in the bamboo hat softly said,""A moment of beauty."

As soon as he finished speaking, an ordinary sword Qi pierced through Xing pojun on the spot, and the whole place fell silent.

"Just this?"

Someone couldn't help but laugh.

It had to be said that the aura that the man in the bamboo hat had suddenly exploded with shocked everyone present. They all thought that since it was a desperate counterattack, it would at least be an ultimate move on the same level as the masses returning to the sea.

In the end, it was just a flash of sword Qi?

Even if any of them were a giant realm expert, they would be able to take the sword Qi head-on without even needing to use a top-tier battle prowess like Xing pojun 's.

However, just as everyone was ridiculing him, Xing pojun's body suddenly trembled, and then he fell down without even making a sound.

"What's the situation? Isn't this too fake?"

If it wasn't for the lack of tickets, a large number of people would have jumped up and cursed at the fake match.

However, those who were truly observant now looked at the man in the bamboo hat with an extremely cautious gaze.

This was because they could feel the life force that was being drained from Xing pojun's body. No matter how strong an expert was, he would definitely die once his life force was drained.

It was impossible to fake such a thing.

When the fourth Walker and the fifth Walker, Du Hong, saw this, they did not hesitate to join forces and go up the stage. After looking at the man in the bamboo hat vigilantly, they carried Xing pojun, who was rapidly losing his life force, down.

By the time he was carried off the stage, Xing pojun's face was as pale as a sheet of gold paper, and he was on his last breath.

His life force had been drained so quickly that he was beyond saving. However, after the second advisor, Madam Qing, took over, Xing pojun's aura was instantly stabilized.

Although he had lost consciousness, everyone knew that Xing pojun's life had been saved.

For a moment, everyone looked at Madam Qing with unspeakable respect.

This second Wayfarer of the sea goddess Hall with the most experience was actually a medical Saint rarely seen in the sea realm. If he could get close to such a person, it would simply be like having several more lives.

After putting down Xing pojun, Madam Qing looked at the man in the bamboo hat with a slightly complicated expression and said with a sigh, ""So it's you, long time no see."

Everyone was speechless.

Not only was this person highly respected by Xing pojun, but it seemed that even Madam Qing treated him as an equal. In particular, he actually had the terrifying strength to kill Xing pojun in one move. Who was he?

Everyone couldn't wait to see the true appearance hidden under the cloak.

It was a pity that although the cloak was just an ordinary cloak, this person had always wrapped himself in rule power, and no matter how strong their divine sense was, they could not penetrate it.

No matter how good the angle was, he could only see a blur.

Everyone was waiting for the cloaked man's response. As long as he spoke, he would definitely give some clues. There were so many of them, and they would definitely be able to guess his identity.

However, the cloaked man ignored Madam Qing's words and turned to Lin Yi, ""It's your turn next. "

The crowd was in an uproar.

From silent march's perspective, it was great to have a master like this stand up against Lin Yi, but it made them feel uneasy when they didn't reveal their identity.

"You don't need to rest?" Lin Yi asked.

Although he had killed Xing pojun in one hit, the cloaked man's current state was not as relaxed as it seemed, especially after taking into account the full damage from Xing pojun 's' crowd returns to the sea '.

It might be a little exaggerated to say that both sides were injured, but it was definitely not a normal state. After all, Xing pojun did not give it to him for free.

Even someone as powerful as the first Walker, cruel malevolence, was not completely unscathed after the full-force attack.

If cruel malevolence couldn't do it, the other party naturally couldn't either.

The cloaked man stroked the blade of his sword with his palm. ""I don't need to kill you."

If these words were said before, even the silent march would probably think that this guy was acting cool, and it was the kind of low-level self-deception.

But now, the third advisor, Xing pojun, was lying down there. If Madam Qing hadn't made a move, this publicly acknowledged top-tier combat power of the sea realm would have been killed in a single strike.

With such a strong and invincible footnote, no matter what the cloaked man said, no one would think that he was acting cool. Instead, they would only hear him being humble.

At the very least, they were only seeking the truth.

Lin Yi shrugged and didn't say anything else. He held his breath and prepared for battle.

Behind them, Xi Bao and Du Hong looked at each other. "Even third brother has fallen. Isn't this too much of a stretch?"

As Lin Yi's allies, they knew Lin Yi better than anyone else. They knew that Lin Yi's strength couldn't be measured by his realm.

But even so, facing such an unfathomable opponent alone still inevitably made people feel that the odds were not in their favor.

After all, an existence that could kill Xing pojun in one move was probably not much weaker than cruel malevolence at his peak.

Cruel malevolence yawned. "Since that guy dares to make such a high-profile appearance, he must have something to rely on. What are you all worried about? just wait and watch."

Xi Bao and Du Hong looked at each other and then turned to look at Madam Qing. They saw that the most experienced second advisor was also smiling without saying a word. They were confused and had to suppress their curiosity.

They really couldn't think of a way for Lin Yi to break out of this situation.

Chapter 10168

At this moment, the cloaked man suddenly asked, ""Because of you, so many twists and turns have happened, so many lives have been lost. Have you ever regretted it?"

Everyone looked at Lin Yi.

This could be considered a soul interrogation.

It started with Lin Yi going to the extreme, creating all sorts of bloody events, all the way to the silent march. Even if Lin Yi didn't participate in the entire process, there was no doubt that he was the cause.

If most people were in his position, they would more or less be confused. Not to mention guilt, they would at least have some things to reflect on.

Lin Yi's expression didn't change at all as he unsheathed the demonic blade. "No, I didn't,"

This incident was obviously controlled by the person behind the scenes from the beginning to the end. Time and time again, it became worse, and the dirty water was constantly poured on him.

He was actually the biggest victim of this incident.

If he needed to reflect on something like this, then he wouldn't be able to do anything else all day. The world was so violent, after all.

"Alright," he said.

The cloaked man didn't waste any more words. The ancient bronze sword in his hand, which had already been rid of rust, once again released a sword Qi.

A moment of beauty.

However, compared to the sword Qi that had landed on Xing pojun's body, this sword Qi was obviously much more dazzling, almost blinding everyone's eyes.

The unlucky ones who were slightly weaker even lost their sight on the spot.

This was the power of a super killer move.

A group of strong and ambitious people stared at Lin Yi's reaction. According to Xing pojun's experience, Lin Yi would also be killed in one hit.

However, if that was the case, they would lose the opportunity to perform, and at the same time, they would lose the perfect stage to rise up in one fell swoop.

But on the other hand, if Lin Yi could take that blow, it would mean that he was stronger than The Third Walker, Xing pojun. With these ambitious people's strength, they wouldn't be able to take him down.

He felt conflicted.

"Something's wrong!"

A sharp-eyed top-level combat power among the crowd was the first to notice the abnormality.

The cloaked man's instant of brilliance did seem to be aimed at Lin Yi, but after Lin Yi used his spatial rule power to avoid it by a hair's breadth, he went straight for the main seat in the center of the sea God's temple.

Sitting there was the sea god temple's number one person in name, high priest Zhang xisheng!

"His target isn't Lin Yi but the high priest, is he crazy?"

For such a sudden scene to appear, the low-level cultivators with poor eyesight might think that it was an accident and purely an accidental injury after the attack missed.

However, in the eyes of a true expert, the so-called accidental injury was simply a false proposition!

With the strength the cloaked man had displayed, Lin Yi wouldn't be able to Dodge it so easily even if he used his spatial rule ability.

Moreover, even a killer move like instant beauty would not lose control after missing.

If he wanted to, even if he couldn't completely withdraw his power, he had a hundred ways to greatly reduce its power so that it wouldn't really threaten the high priest behind him.

However, he didn 't.

It was clear that the cloaked man's target wasn't Lin Yi from the start. Lin Yi was just a cover for him to make a move. His real target was the high priest Zhang xisheng!

As soon as this strong thought emerged, everyone in the audience subconsciously felt a chill in their hearts and did not dare to think further.

This meant that the cloaked man and Lin Yi had a tacit understanding, and they might even be working together to create this situation!

While everyone was still in shock, twinklebeauty had already broken through the defense line of the priests and landed on the head of Zhang xisheng.

BOOM!

The explosion of power not only shook the high priest's position, but also the entire sea God's temple complex and the entire sea.

Under the impact of the aftermath, a large number of Poseidon shrine and silent march soldiers fell.

Countless sea beasts fled in a panic. Even the ultra-sea beasts that were hidden deep in the sea craned their heads out and left quickly in unison. They were afraid that they would be swept away by the next wave of even more vicious aftershocks.

The dust settled.

The experts who were barely able to stabilize themselves couldn't wait to check on the high priest's condition. After all, he was not only the number one person in the sea goddess Hall, but also the number one person in the entire sea realm in the ranking of many intelligence agencies!

No one thought that the high priest would really die because of this. What everyone was curious about was whether such a shocking moment of beauty could break his defense!

In the end, he didn't.

Looking at the high priest, who was still intact and not even moving, everyone couldn't help but feel a little regretful.

As for the top combat forces who were interested in challenging the strongest in the sea realm, they were all sad when they saw this scene.

The high priest Zhang xisheng was a shadow that hung over their heads.

There were many among them who had been thinking about it and wanted to see the back of this number one person at all costs. Even if they could only see a vague outline from afar, it was a huge motivation for them.

Unfortunately, it seemed that they had thought too much.

If even twinklebeauty could not break through her opponent's defense, it could only mean that the gap between them was so wide that it was incomprehensible.

They had originally thought that everyone would climb the same mountain. Even if you climbed higher, as long as they persevered and snatched enough opportunities, they would always be able to catch up with you. When you were stagnant, they would catch up and overtake you in one fell swoop!

However, the cruel reality before their eyes was that they were climbing the mountain on the ground, while the high priest was in the sky.

They were in completely different dimensions.

Pfft!

One of the millions of silent march soldiers suddenly vomited blood. He was a well-known top-level combat force. After seeing this scene, he went into Qi deviation on the spot, and his breath quickly withered until he was completely gone.

The entire place was dead silent.

Who would've thought that the cloaked man's flash of beauty didn't hurt the high priest at all, but scared a top combat power to death in such a strange way!

No one would believe it, but reality was just so weird.

In front of low-level cultivators like them, the top combat power was a high and mighty figure, but in front of a Supreme existence like the high priest, they were just hopeless wretches.

The high priest's expression was calm, without the slightest hint of anger. He looked indifferently at the cloaked man, ""What is the meaning of this?"

"Nothing much. I just want you to answer my question."

The man slowly took off his cloak, revealing a well-defined face. If it wasn't for the scar from his left eyebrow to his right jaw that destroyed his heroic spirit, he would probably be able to reach the peak of his life with this face.

Chapter 10169

"Sword Saint ye Qiyuan?!"

The crowd instantly gasped in shock.

"The Saint of swords, the unique master of the rules of swords, and the indisputably strongest swordsman in the sea area since ancient times!"

"What is he doing here? Isn't he already dying in the legends?"

"One of them is the number one expert of the entire sea realm, and the other is the number one swordsman. This is going to be interesting!"

Jiang xiaoshang's voice sounded in Lin Yi's mind as he listened to everyone's discussion, "The ruler of the sword. I really don't know what to say about your luck to have met someone like you."

"Rules of the sword?" Lin Yi blinked. There's such a rule in the world?"

The essence of laws was the source of power that constituted the normal operation of the world.

He had seen various rule bending powers before. Although there were some strange ones, they were either obvious elements of the world or various phenomena derived from the origin.

One of the most fundamental signs was that they existed with the world, and they were part of the world's origin.

The only exception was the rules of the Dragon race.

This was the only thing Lin Yi had ever seen that was beyond the laws of the world's origin. It was a unique law that solely relied on the race's own power to transcend everything.

However, the rule of sword was clearly not among these two.

The sword was not a part of the world's origin, nor did it have a racial power that transcended the world like the dragon clan. No matter how one looked at it, it could not have its own rule power.

Jiang xiaoshang chuckled as he explained, "to be precise, the rules of the sword are not the rules of the world that are known to the general public. Instead, it is an extremely unique individual rule."

"Do you think I understand?" Lin Yi asked, confused.

"You can think of it this way. The rules of the world are public goods, just like the public bus in your secular world. It is always there. As long as you buy a ticket and reach the threshold, you can get on the bus and borrow its power."

Jiang xiaoshang clicked his tongue and said, "but other than public buses, there are also private cars. They didn't exist from the beginning. You bought them with your own money. Other than you, no one else has the right to use this car."

"So the Dragon rules count as private cars, then?" Lin Yi said after some thought.

"It's not exactly a public bus that can be used by everyone, but it's not only for one person. All descendants of the dragon race have the opportunity to awaken and use it."

"If I have to say it, it should be considered a company car."

Jiang xiaoshang paused for a moment before he continued. "The rules of the sword are different. Although it is not accumulated by one person, but by all swordsmen, it can only be used by one person. That is the current Sword Saint.

Because of this, the title of Sword Saint will be passed down from generation to generation. Whoever Masters the rules of the sword will be the one and only Sword Saint of this generation!"

"No wonder that ordinary looking sword Qi is so powerful in his hands. He has such a strong foundation," Lin Yi sighed.

In terms of overall power, unique rules were naturally far from being comparable to the world's origin rules.

However, when it came to individuals, the power balance between the two would be completely reversed.

After all, no matter how high one's control of rules was, unless one could reach the level of godly state, the rule power that could be mobilized in the end would still be far less than one-billionth of the origin power.

On the other hand, a unique law's overall power might not even be one-millionth of the origin law, but once it was taken over, it would have absolute control over the law and could directly mobilize all its power!

"That's not right. Didn't you collude with him? why don't you have any idea about this?" Jiang xiaoshang asked curiously.

"You believe that?"

Lin Yi said, smiling.

Jiang xiaoshang was shocked."You guys didn't talk to each other beforehand. How did you guys have such chemistry?"

Lin Yi smiled and replied with a deeper meaning,"Some tacit understanding is innate. There's no need to collude. One look is enough."

At this time, because of Ye Qi Yuan's appearance, the collective mood was unprecedentedly high.

This was especially true for the silent march.

Although they did not lack top-tier combat power, it was undeniable that the million-strong Army of the silent march had always lacked a Supreme existence who could carry the entire facade.

The sword Saint ye Qiyuan was undoubtedly the most capable person to carry this facade.

After all, he was the only person in the entire sea region who could make some intelligence agencies submit to him and voluntarily rank high priest Zhang xisheng as the second person.

Facing ye Qiyuan's soul interrogation, the high priest stood up calmly. "Everything I've done is worthy of my faith. I wonder if the sword Saint is satisfied with my answer?"

"Your faith?"

"No." Ye Qiyuan shook his head slightly. "In front of so many lives, it's not worth a single cent."

The high priest could not help but show a regretful expression. "It turns out that even the sword Saint can't understand the cycle of life. What a pity."

"Your reincarnation is none of my business."

Ye Qiyuan's eyes were as calm as water, but it also seemed like countless killing intent was gathering madly. He said indifferently, "I've come here today to ask you a sword question for a dying wish of a little girl. "

As he spoke, the ancient bronze sword in his hand slowly descended. It actually penetrated the ground under his feet as if it was passing through water.

At the same time, all the swords in the area, including Lin Yi's demonic devouring sword, made a loud noise, as if they were all mourning for what was going to happen.

"This is ..."

Several of the top five advisors looked at cruel malevolence. They wanted to hear the answer to their guess from the only person who was on the same level as the sword Saint.

Unexpectedly, cruel malevolence was confused and asked, "why are you looking at me?" I don't know what that animal wants to do, you might as well go ask Lin Yi, they're the same kind. "

Everyone was speechless.

Lin Yi was indeed a beast, but strictly speaking, you're more of a pervert, aren't you?

As he spoke, ye Qiyan's figure suddenly turned into a ray of light and sped towards the direction of the high priest.

"Body as one with the sword!"

The audience couldn't help but exclaim one after another.

A Sword Saint against a high priest. This was an unprecedented scene, and it was directly related to the ownership of the number one person in the sea.

Everyone had guessed that this was bound to be an unprecedented peak battle, but no one had expected that Sword Saint ye Qiyuan would actually use the ultimate killing move of mutual destruction at the beginning!

Combining one's body with the sword, as the name suggested, was to turn one's body into a sharp sword. For a Supreme swordsman at the level of Sword Saint, it was the most powerful sword in the world.

Once this sword was used, all of his strength would explode in an instant, and it would be completely erupted in an absolutely irreversible way.

No wonder all the swords in the arena were wailing.

Chapter 10170

Once this sword fell, no matter what the other party did, Sword Saint ye Qiyuan himself would come to an end.

Regardless of whether you die or not, I will definitely die. The burden of this sword is far heavier than a battle with my back to the water.

The high priest's eyelids twitched.

Obviously, even he had not expected that the other party would be so extreme. Was it worth it for an ordinary little girl?

With his knowledge, he really couldn't understand the meaning of this exchange, but no matter what, he had to do his best to take this sword.

The moment of beauty just now did not break his defense. It was not because the sword Saint was too weak, but because it was a pure test.

Top-tier experts only fought for a thin line.

Although he didn't break through his defense, his opponent knew everything about him. Otherwise, no matter how crazy his opponent was, he wouldn't gamble with his life!

The human-shaped sword energy pierced through the high priest's body, and the entire scene instantly fell silent.

At this moment, time and space seemed to have been frozen by an invisible force. They could only feel the existence of time and space in their minds.

At this moment, each person's eyes were flashing with a set of extremely profound sword techniques. They were completely different from each other, but they also seemed to be inextricably linked.

Many people who studied swordsmanship were ecstatic.

For them, this was definitely a rare opportunity. Even for those who did not cultivate swordsmanship, if they could digest what they saw in front of them, it would be greatly beneficial.

"No wonder so many people wanted to see a Sword Saint fight. It turns out that there are such benefits. I've really learned something today!"

Everyone was overjoyed.

However, they didn't notice that the top five advisors, Lin Yi, and the other top-tier fighters all closed their eyes, not even looking at this free opportunity.

No one would reject a free opportunity. Even those with top combat strength would not be picky as long as it was useful.

The only explanation was that this opportunity was not given away for nothing.

It had an invisible price to pay.

Faced with the confusion of a high-level advisor next to her, Madam Qing smiled and explained to him, ""What you see is the source of the power of the laws of the sword. Once you accept it, you will become believers of the laws of the sword.

From now on, you will provide him with an endless stream of power and become a member of the vast Foundation of the rule of the sword. "

"Will there be any consequences?" the people around him were startled.

Cruel malevolence yawned and replied, ""Good. There won't be any consequences. At most, your level of sword principle will no longer exceed the level of a Sword Saint. After all, he is the master of the rules of the sword. You are just the foundation of the rules, or rather, consumables."

"....."

Everyone heaved a collective sigh of relief.

This was a hidden danger for people of cruel malevolence's level, but it was nothing to ordinary cultivators.

In other words, it was like if you received a lottery prize, your assets in the future would never exceed ten billion.

There was indeed a restriction, but would it have any substantial effect on ordinary people?

At this moment, the high priest had been hit head-on. Most of the people present believed that he was the number one in the sea area, and in theory, his strength should be stronger than the sword Saint.

However, in the face of the sword saint's desperate fighting style, everyone couldn't help but break out in cold sweat for the high priest.

At the very least, both sides would suffer, right?

Many ambitious people even secretly prayed that they would die together with him, which would be even more perfect.

Whether it was the high priest or the sword Saint, they were both insurmountable mountains above their heads. With the two of them present, no matter what they did, they had to look at their eyes. But if the two of them died together, it would be their stage next.

Even if there was a super character like cruel malevolence present, he couldn't control the situation alone.

The huge power vacuum needed someone to step up and fill it.

However, they immediately knew that they were overthinking it.

The high priest was unscathed!

Everyone was shocked.

Everyone had anticipated all kinds of possibilities, but they had never thought that the high priest would be completely unscathed after taking a life-for-life attack from the sword Saint!

"What's the situation? That's impossible, right?"

Everyone had a look of disbelief on their faces, but some people still noticed something strange.

The high priest was indeed unscathed no matter how one looked at him, and his expression was as calm as ever. But if one looked closely, one would notice a slight difference.

Under his calm expression, there was a trace of extremely deep anger. However, it was concealed very well, so most people could not detect it.

"It seems like he paid a price. However, the price might not be the price that everyone knows. It's just that it didn't directly manifest in his body."

As for Lin Yi, with the help of the new world's consciousness, he could see it more clearly than anyone else.

The sword saint's move just now was to exchange lives, and even the high priest could not change it.

The only thing he changed was to temporarily replace himself with another powerful existence, a gray shadow whose appearance and figure could not be seen clearly.

"Did a substitute die?"

Lin Yi and cruel malevolence looked at each other and saw the shock in each other's eyes.

Fortunately, the sword Saint had forced him to use this move in advance today. Otherwise, if he had saved it for the real life-and-death battle in the future, he might have suddenly used this move, and it might have overturned the entire situation.

After all, the true ultimate killing move could not be used a second time.

After the aftermath dissipated, the high priest looked at the sword Saint indifferently. ""Is it worth it?"

At this moment, the sword Saint was like a peerless sharp sword that had lost its edge. Although he could still barely stand, anyone with a discerning eye could see that the sword attack just now had exhausted all his vital Qi.

Even if he didn't do anything, he would soon die.

Everyone felt regretful in their hearts.

Not only those ambitious people who wished for the world to be in chaos, but the other ordinary cultivators were also sighing.

The battle between the sword Saint and the high priest was supposed to be an earth-shattering battle. As the witnesses, they could broaden their horizons and brag about it for the rest of their lives. Who would have thought that it would end like this?

The Thunder was loud, but the rain was light.

The sword Saint revealed a playful smile. ""I don't think I'll lose anything if I exchange it for your substitute. After all ... I'm just a shadow."

As soon as these words came out, the crowd was in an uproar again.
