

Bodyguard 10281

Chapter 10281

"Hold on."

everyone raised their heads and looked towards the source of the voice. a tall woman in red had appeared at the peak of the capital, taking the spot that should have belonged to lin yi!

the luck of the four seas above her head was only an arm's length away from her.

"Impudent!"

Wei Yu 'er was the first to react. She immediately drew her sword and charged forward.

not to mention his background, the other party had appeared at this time and place-their intention was obvious-they wanted to take the four seas "fate that should have belonged to lin yi!

an invisible but substantial sword qi instantly descended upon the red-robed lady.

After the last battle with ao Qing, although she was not able to completely pin down ao Qing, Wei Yu 'er's strength had obviously improved. With her unique talent and physique, what she lacked was high-intensity combat.

if her actual combat level was high enough, it would be a piece of cake for her to fight and break through.

Her sword Qi was enough to kill any top third-tier combat power easily. Even if it was a majority of second-tier combat power, they would be seriously injured if not dead.

however, when it landed on the woman in red, it did not hurt at all.

this scene truly shocked the entire audience.

The woman in red glanced at Wei Yu 'er indifferently, but her eyes did not linger on her. It was as if Wei Yu' er's strength was not enough to attract her attention.

"You're not worthy to fight me."

after that, he ignored wei yu 'er's next attack and reached out to grab a handful of solidified luck of the four seas. under the watchful eyes of the crowd, he pulled it into his arms.

this time, her intentions were completely confirmed.

Everyone's eyes fell on Lin Yi-the guy was trying to steal the four Seas "fate so blatantly! Anyone in Lin Yi's position would've exploded in anger.

It was not easy to conquer the four Seas. Now, before he could even sit firmly on the position of the sovereign of the four Seas, others had already come to snatch the luck of the four Seas. Who could bear to step on their nose and face like this?

but lin yi didn't do anything.

If it were not for the fact that they had the shocking record of killing three great combat forces in a second with a single sword strike, many people would probably have the same thought at this moment.

lin yi, scared.

lin yi ignored everyone's gazes and looked at the lady in red quietly, not planning to make a move.

Under his instructions, even Wei Yu 'er stopped her actions and walked to the side with her long sword, watching coldly.

The woman in red was also quite surprised by this. A trace of mockery flashed in her narrowed eyes, and she immediately continued to seize the fate of the four Seas.

The four Seas 'luck was indeed enormous, but because it was scattered across the four Seas, it was as difficult as ascending to the heavens for someone to absorb it.

Now that Lin Yi had become the ruler of the four Seas, the fate of the four Seas had gathered together for the first time, and she could easily pick the fruits of her labor in her current position.

however, the red-clothed woman's expression changed very quickly.

the luck of the four seas that she had seized and drawn into her arms actually flowed out from behind her. her whole person was like a bamboo basket. no matter how she drew water, she could not hold on to even a single bit. she was destined to be empty-handed.

The woman in red was unwilling to give up. She continued to try a few more times, but the result was the same without exception.

her body could not lock in the fate energy of the four seas!

"I don't think you're worthy of getting your hands on the four Seas" luck,"Lin Yi said faintly.

the reason why he was so indifferent was because he had already expected this.

A hard currency like fate energy was, to some extent, a derivative of the world's will, especially the fate energy of the four Seas. If one didn't achieve the corresponding achievements, one wouldn't be able to get a share of it.

this wasn't a cabbage on the side of the road that anyone could snatch away.

Otherwise, the lady in red wouldn't have had the chance to do so. The luck of the four Seas would have been divided up by the few top figures of the sea.

The crowd watching this scene couldn't help but laugh in low voices.

The woman in red could not help but feel a little angry from embarrassment. The purpose of her trip this time was not to seize the luck of the four Seas. What she had just done was actually on a whim. She did not expect that she would make such a big fool of herself.

However, she quickly calmed herself down and continued to look down at Lin Yi.

"I'm here today to pass on a few words. Lin Yi, listen carefully."

after a pause, she slowly said, "Lin Yi, you don't deserve to be the ruler of the four seas."

Everyone was in an uproar.

Although no one knew the identity of the woman in red so far, since she could appear here and speak in such a manner, she must have an extraordinary background.

moreover, from the outstanding display just now, it was already enough to see that he was very powerful. at the very least, he was at the top of the top tier.

One could only imagine how terrifying the existence behind such a character was.

in fact, the audience who were slightly more flexible-minded had already vaguely guessed that this woman's background must be one of the few top figures in the sea!

the only question left was who exactly it was.

lin yi looked at her and chuckled as he took a step forward. this seemingly ordinary step actually crossed a hundred meters when he landed, right in front of the lady.

the distance between them was less than a meter.

the red-robed lady's heart skipped a beat. she subconsciously wanted to put some distance between them, but the luck of the four seas behind her had somehow condensed into an extremely thick giant wall. even with her strength, she could not break through it.

The luck of the four Seas was actually helping him?

Just as this horrifying thought emerged in the red-robed lady's mind, the luck of the four Seas suddenly transformed into a tall mountain, pressing down on her head and shoulders.

boom!

the red-robed lady could not hold on any longer. with a loud explosion, she was crushed to the ground.

Everyone was dumbfounded.

they did believe that lin yi's strength was enough to suppress the opponent, and it wasn't surprising that he could even kill the opponent in one move, but lin yi didn't even do anything. he just walked up to them.

Although the last step was a little exaggerated, it shouldn't be enough to scare the other party to the ground, right?

lin yi lowered his head and looked down at the woman in red, his tone cold. "Whether I'm worthy or not, you don't have the qualifications to judge. Woman, you seem to think too highly of yourself."

The woman in red raised her head with great difficulty to look at him. Her eyes were filled with fear and resentment.

this was completely different from the script she had expected.

she was the representative of the top figures of the sea realm. this time, she represented more than one top figure of the sea realm. in addition to her own powerful strength, she thought that her appearance this time could refresh the knowledge of the entire sea realm.

at the very least, he had to let this bunch of ignorant frogs at the bottom of a well understand what it meant by there's always someone better than you and heavens beyond heavens!

The result was the current situation.

Chapter 10282

Lin Yi hadn't even done anything yet, and she was already on the ground.

In everyone's eyes, he looked like a defeated dog who had come to show off. The arrogance he had previously put up instantly fell from the sky and directly fell into the dust.

The red-clothed woman would never have thought that she would be taught a lesson by the luck of the four Seas!

"I'm not convinced!"

The woman in red gritted her teeth and tried to break free from the suppression.

However, the luck of the four Seas that was pressing down on her was like a towering mountain. No matter how hard she tried, she could not move.

in the face of the gathered fate energy of the four seas, even a top-tier combat power was just a lowly existence like an ant. it was completely insignificant, and all her struggles were destined to be in vain.

"i don't care if you're convinced or not."

Lin Yi's one sentence was enough to break the woman's defense.

she still had the thought of fighting lin yi this time-at least from what she knew, they were on the same level, and even if she lost, it would only be a narrow loss-the difference wouldn't be too big.

in the end, not only did she not get the chance to fight lin yi, but she was also being ignored by him!

She wouldn't have lost her composure if Lin Yi was mocking her. After all, the mockery itself showed that she was a threat to Lin Yi.

After all, humans rarely mocked those who were far inferior to them. Most of the time, they would only give cheap pity.

on the contrary, when one started to mock, no matter how contemptuous one's attitude was, deep down, it was because one felt threatened.

Unfortunately, Lin Yi's attitude was just looking down on her, not mocking her at all.

From the look in his eyes, it was just a simple fact.

The red-clad woman was not a match for him.

The red-clothed woman gritted her teeth, "you want to be the ruler of the four Seas, but even the sea goddess Hall, who is one of your own, has not appeared. Don't you feel embarrassed?"

without the sea god's palace's approval, no matter how big the scene is, you're just a clown for self-entertainment."

his words were hysterical, but it resonated with many people present.

for such a grand event, even the forces in the corners of the world would think of ways to send representatives as soon as possible. only the ocean goddess hall, the nominal legitimate sea realm, had never sent a representative.

Lin Yi was Sea coast King, and he could be considered the representative of the sea god Hall, but it didn't make sense for them to not send someone else this time.

If things went according to plan, it wouldn't even be surprising if high priest Zhang xisheng came personally to Lin Yi's coronation. After all, this was a once-in-a-thousand-years event, and it was of great significance to the Poseidon shrine.

The sea god Hall's cold attitude this time was already equivalent to the public opening of the conflict in the eyes of those who were observant.

Lin Yi and the high priest were like fire and water.

"That's right, without the official approval of the seagod Hall, it's still a bit of an illegitimate title."

"a ruler of the four seas who isn't recognized by the sea god temple has to have at least a 50% discount. it's hard to say if he can hold his position firmly in the future!"

"we're only dealing with it coldly for now. if the sea goddess hall were to publicly turn hostile one day, our sea realm would welcome a new wave of turmoil sooner or later. i hope they don't burn us with the fire."

The representatives of the various forces were discussing in private.

Other than a few who were already on Lin Yi's side, most of them had no other choice.

they were mostly fearful of lin yi-they'd probably cheer for him if he fell in the hands of the poseidon shrine.

"Does Poseidon Hall's attitude matter?" Lin Yi narrowed his eyes.

"what big words!"

the red-clothed woman sneered, "do you need me to introduce you to the sea goddess hall's position?" hehe, although the sea goddess hall has never actually ruled the four seas, it's still the only legitimate ruler of the sea realm. is its attitude not important?"

the representatives of the various forces nodded.

All this time, the sea god Hall had presented itself as an equal to the four Seas "royal families. Many times, it even gave people the feeling that they were not as powerful as the latter.

However, whether it was in the eyes of the truly knowledgeable people or in the hearts of the more extensive lower-class commoners, the sea god Hall had always been a transcendent existence ranked above the royal families of the four Seas.

Of course, now that Lin Yi had unified the four Seas, he had the foundation to completely integrate the power of the four Seas, but that was a different matter.

but no matter what was said, the seagod hall still had a status that absolutely couldn't be underestimated.

without its official approval, lin yi's position as the ruler of the four seas was like a castle in the air without a foundation. there was no way he could hold it steady.

"Is that so?"

lin yi's lips curled up.

At this moment, a familiar yet powerful fluctuation suddenly appeared in the minds of everyone present. Everyone was shocked.

an oracle from the sea god!

the red-robed woman was dumbfounded.

everyone, including her, had almost subconsciously forgotten about lin yi's miracle. he was the number one representative of the sea god!

the contents of the divine decree were simple-the sea god had personally acknowledged lin yi as the ruler of the four seas, that was all.

however, it was this simple sentence that dispelled all the doubts just now.

the attitude of the sea god's palace was of utmost importance, but in front of the lord sea god's divine decree, it was not worth mentioning.

in the end, the seagod hall existed because of the seagod.

without the lord seagod's endorsement, the seagod hall would only be a slightly stronger power than the previous four seas "royal families, and nothing more.

if the sea god hall started a war with lin yi, many people would choose to stand on lin yi's side!

Lin Yi's calm expression sent waves of shock through the lady's heart-could it be that he'd expected this?

if not, how could he be so fearless?

but at this moment, she finally understood why no one from the sea goddess hall had come.

With the conflict between them, there was no way high priest Zhang xisheng would stand on Lin Yi's side. Whether it was him or his representative, they would all be on the opposite side of Lin Yi.

in that case, once the current situation appeared, it would be difficult to back down.

Anyone could stand on the opposite side of the Lord seagod, and the sea realm never lacked such independent people, but only the seagod Hall and high priest Zhang xisheng absolutely could not.

That was because it was equivalent to self-destruction.

the high priest had seen this coming, and that was why he'd chosen to stand by and do nothing. no matter what lin yi did, he wouldn't be the one to be burned.

On the other hand, he could also target Lin Yi later based on his performance!

Chapter 10283

however, this made the red-robed lady very embarrassed.

she'd just been talking about using the sea god's temple as an example, but in the end, she'd been slapped to the ground by the lord sea god's divine decree. this level of face-slapping was completely unprecedented, and it would probably be difficult to find someone like this in the future.

for a moment, everyone looked at the woman in red with a playful gaze.

although many of them had the same attitude as her and secretly doubted her, they did not say it out loud in public. naturally, it was not a slap in the face.

“.....”

even though the red-robed lady thought that she had a strong mind, she could not help but feel an urge to die at this moment.

However, she was no ordinary person.

At this point, there was no doubt that Lin Yi would become the ruler of the four Seas. After all, even the sea god Himself had sent down a decree to show his approval. Who had the right to say anything?

"even if you're lucky enough to become the sovereign of the four seas today, you won't live more than three days without the approval of those two!"

the red-robed woman gritted her teeth and shouted.

Everyone looked at each other, "those two?" Which two?"

the high priest zhang xisheng had the right to say that, but he was silenced by the lord poseidon's order. who else had the right to threaten lin yi?

lin yi looked down at her indifferently. "tell me."

the woman in red once again struggled to get up, but she was still suppressed by the luck of the four seas. with her powerful strength, which was comparable to the top-tier battle strength, she was as helpless as an ant.

"you can see for yourself!"

The red-robed woman felt extremely humiliated.

she was supposed to show lin yi and the audience her attitude today, with the will of a superior being.

However, the situation was completely reversed now. She couldn't even stand on the same level as Lin Yi, let alone look down at him. She could only lie on the ground like a bitch.

In the eyes of others, her following words were just wagging her tail and begging for mercy!

today's experience was destined to be a dark history for her.

lin yi, on the other hand, would become her nightmare.

lin yi, on the other hand, didn't think too much about it. his eyes fell on the two pieces of paper that appeared behind the lady in red. the two pieces of paper were emitting a terrifying aura that pushed the sea water away.

One must know that even those specialized water-proof props could only form a layer of air at best.

it was already very difficult to drain ten feet of water.

It was unimaginable to be able to drain a hundred feet.

However, these two pieces of white paper were clearly the most ordinary of papers, and there were no traces of any special formations on them. Normally, if they were to fall into water, they would melt in minutes.

the shocking scene before their eyes was only because they were contaminated with the aura of their respective masters, that was all.

lin yi's eyes narrowed when he saw the contents.

he muttered to himself for a moment before the contents of the two pieces of paper turned into two lines of large words that hung above the imperial city of the north sea like a heavenly book.

"do you dare to come to the abyss for a battle? [signature: Queen of the abyss]

"I'll be waiting for you on hell Street. "Signature: nameless scholar."

everyone was in an uproar.

previously, in addition to the high priest zhang xisheng, the first walker wolf extinguisher, and the sword saint ye qiyuan, the rest of the five ceilings recognized by all parties in the sea area were the queen of the abyss and the nameless scholar.

Compared to the first three, the latter two were particularly mysterious in the eyes of the world because they rarely appeared.

In particular, in the last 50 years, the traces of the Queen of the abyss and the nameless scholar had almost completely disappeared. If it weren't for the terrifying battle records they had left behind, everyone would have thought that they had already fallen.

however, at their level, how could they die so easily if they wanted to?

ye qiyuan had died because of the uniqueness of the inheritance of the rules of sword, and the change of sword saints. otherwise, no one in the entire sea area could kill him.

He had never expected that these two people who had disappeared for more than 50 years would show up at the same time on this extremely special occasion!

furthermore, it was two letters of challenge.

everyone was shocked, but lin yi himself didn't look surprised. in fact, he had expected this to happen the moment ao qing and shang xia appeared.

there was no need to mention the abyssal blade in the hands of the yunxia. its relationship with the queen of the abyss was as clear as the lice on the monk's head.

As for ao Qing's actions, especially the abilities she displayed, they were quite similar to the signature abilities of the nameless scholar.

Lin Yi hadn't met the nameless scholar in person, but it wasn't hard to figure out the connection from all the information he had.

it could be said that the previous battle was not only for the position of the ruler of the four seas, but also a preview for the future.

whether it was chu xia or ao qing, they were two letters of challenge!

Everyone was waiting for Lin Yi's reaction-it'd be big news if he accepted the challenge.

lin yi challenging the ceiling of two seas-the news itself was even more shocking than him officially becoming the ruler of the four seas!

although the latter was related to the power structure of the entire sea area, in the natural logic of the law of the jungle among cultivators, any change in order was only a representation of the change in strength.

The previous battle could only be regarded as a battle on the surface. The following battle on the ceiling was the real deal.

lin yi could only secure his position as the ruler of the four seas if he retreated from a battle like this. otherwise, he'd just be a passerby no matter how famous he was.

"Can you let me get up now?"

The red-robed lady's embarrassed voice came from below. The two letters of challenge were revealed. Her identity was already clear. She had come representing the two great ceilings. Even if her own strength was not mentioned, her status was definitely not a small matter.

Humiliating her in a place like this was the same as humiliating two of the ceiling-she didn't believe Lin Yi had the balls to do that!

She could've said that she didn't know what was going on, but if Lin Yi didn't treat her with respect now, he'd be provoking the abyss Queen and the nameless scholar.

Lin Yi only looked at her and said nonchalantly, "lie down, it's good like this."

"....."

The red-clothed woman almost fainted.

she wasn't the only one, the entire crowd was dumbfounded as well, looking at lin yi as if he was a god.

did he really not take the two great ceilings seriously?

The woman in red forced herself to raise her neck, and her eyes were spitting fire as if she wanted to eat someone. "you'd better think it through before you speak. you're using me to provoke the abyss queen and the nameless scholar. how many lives do you think you have?"

all the representatives looked at each other-at least from their point of view, lin yi's performance was a little too much.

Chapter 10284

"if you say they're provoking me, then they're provoking me. if they're not happy, they can come to me anytime." lin yi chuckled.

his words once again made the woman in red speechless.

lin yi suddenly bent down and looked at her with a playful expression."so yingluo and the others really can't come out, right?"

"You're so silly!"

The red-robed woman couldn't help but exclaim in shock, " "are you testing me?"

Lin Yi raised an eyebrow, " I'm not testing you. I'm just testing my theory. If they really wanted to do something to me, they could've just come to me in such a place. Why would they go through all this trouble to send you a letter of challenge? "

In fact, this was not just his speculation. Some intelligence agencies had also made similar speculations before. It was very likely that the Queen of the abyss and the nameless scholar were trapped somewhere.

Otherwise, no matter how reclusive the two of them were, they wouldn't have disappeared for fifty years.

Of course, there was also a speculation that they were in closed-door cultivation. When cultivators, especially high-level cultivators, closed-door cultivation could easily last for decades or even centuries.

but after seeing ao qing and chu xia, lin yi ruled out this possibility. the only possibility left was that he was trapped.

now, it seemed that the queen of the abyss and the nameless scholar were not only trapped, but they were trapped together. this was a little interesting.

This time, the red-robed woman was truly a little frightened.

If Lin Yi only showed his strength before, she really wouldn't care much about him. After all, there was a big difference between him and the real ceiling of the sea, and it wasn't that easy to close.

however, if his strength was combined with his unfathomable scheming, it would be a different matter.

just like now, after testing her strength, lin yi ignored the two ceiling threats.

Since you can't even come out, you have the nerve to threaten me?

the woman in red suppressed the shock in her heart and said, " "when do you plan to fight? i'll go back and report to the two lords."

"We'll talk about it when I'm in the mood," Lin Yi said, amused.

"Then when will you be in the mood?" the red-robed woman asked, unwilling to give up.

"maybe tomorrow, or maybe a hundred years later. just wait patiently."

lin yi's answer made everyone faint, but it didn't seem like there was anything wrong with it.

If it were anyone else, facing the two ceiling-level challenges, they would naturally be trembling with fear as if they were walking on thin ice, not daring to slack off in the slightest.

but with lin yi's current level, he had the right to talk to the opponent as an equal. even if he asked for a fight, it didn't mean that he had to agree, unless he came to cause trouble.

“.....”

If time could be turned back, the woman in red would probably never come here again. She had thought that she could show her face as a superior, but she had come to humiliate herself.

Gritting her teeth, the woman in red said in a low voice, " "Then can you let me go back to report now?"

"you can come and go as you please, do you really think this place belongs to your family?"

Lin Yi glanced at her, "Stay here and be a maidservant."

everyone was speechless.

This emissary was considered to be one of the top two emissaries, but not only did he not give her any face, he even asked her to stay and be a servant? he was really pressing the faces of the queen of the abyss and the nameless scholar to the ground and stepping on them!

the red-robed woman herself was dumbfounded. " "you, you want me to be your maid?"

Even if she was beaten to death, she would never have thought that things would actually develop like this!

"you've misunderstood. you're not going to be my maidservant,"

lin yi shook his head and pointed at wei yu 'er, who was holding her sword, " "you're her maidservant."

the red-robed woman's face turned red with anger. " "on what basis! Why should I be a maidservant for this kind of lowly thing!"

she couldn't even accept being lin yi's servant, but at least she could clearly feel that lin yi was stronger than her.

humiliation was humiliation, but the tradition of respecting the strong cultivators, at least logically, was barely justified.

But Wei Yu 'er?

This woman couldn't even break her defense. Why?!

"You don't have a choice,"

"her strength will soon surpass yours," lin yi added,"she might even be able to give you some pointers. you won't lose out if you're her servant."

besides, you're a maidservant, so it's not a bad thing to be familiar with this kind of thing, right?"

the woman in red was shocked again. although she didn't say anything, her eyes clearly said something.

How did you know?

Lin Yi saw the surprise in her eyes and replied, "i guessed."

This time, the woman in red's hair really stood on end. Her original identity was indeed a maidservant, but because her master was the abyss Queen, she had the confidence to look down on the outside world even if she was just a maidservant.

unfortunately, she met lin yi.

if she thought she could arm wrestle lin yi until just now, she'd give up on that hope now.

even the most brainless person would realize that if lin yi really wanted to target her, she wouldn't even know how she died!

Although the woman in red was arrogant, she was not stupid.

seeing her lower her head and lose her voice, lin yi waved his hand and dispersed the four seas "fate that was pressing down on her. even if the opponent's strength was extraordinary when she first appeared, it was no longer a threat to him now.

This kind of thing was mysterious, but for some people, once an enemy was crossed, there was only a step after that, and they didn't need to look at it again.

Lin Yi was obviously one of them.

Ever since he had accomplished the feat of killing three top combatants with a single strike three days ago, top-tier combatants had been removed from his list of enemies. Even if they appeared on the opposite side, they would only be cannon fodder.

Only the remaining few ceiling-level experts of the sea realm were his targets.

after regaining her ability to move, the red-clothed lady's first reaction was to run. she had lost the confidence to fight lin yi, but she couldn't really stay and be a servant, especially not lin yi's own.

This kind of thing was really a great humiliation.

However, Lin Yi's one glance was enough to stop the lady in red in her tracks. It was as if Lin Yi had seen through her, and she was covered in cold sweat.

what she did after that was beyond her expectations.

she actually took the initiative to walk behind wei yu 'er and lowered her head, acting like a submissive servant.

Everyone's jaws dropped.

At that moment, everyone's eyes on Lin Yi were sharp.

how arrogant was this woman just now? looking at her posture, except for a few ceiling-level people, almost no one in the entire sea area could enter her eyes.

in the end, with just a few words, he was actually tamed into submission, like two different people!

Chapter 10285

Other than Lin Yi's own people, the others had been showing their submission on the surface, but it was actually out of fear. After this, however, everyone was more respectful than fearful.

At the very least, Lin Yi's tough attitude today showed that he really wasn't afraid of the sea ceiling!

from another perspective, this also proved that he had the qualifications to speak on equal terms with the ceiling of the sea area. this point alone was enough to dispel many people's doubts.

As for the fight between Lin Yi and the other two, no one could predict who would have the last laugh.

They only needed to know that Lin Yi was on a completely different level from them, and that was enough.

Lin Yi didn't care about the change in their attitudes.

He was very clear that the lady in red would not submit to him so easily. Furthermore, he did not really need such a maidservant. He had made such an arrangement on a whim only because he wanted her to become a Whetstone for Wei Yu 'er.

wei yu 'er's upper limit was far beyond the strength that she had just displayed. if she could not fulfill her potential before the great change came, it would be a waste of her talent.

it was foreseeable that in the following days, as long as she left lin yi's sight, the red-dressed girl would definitely try to escape, or even kill wei yu 'er!

If Wei Yu 'er was able to hold on, her strength would definitely increase by leaps and bounds.

on the other hand, if he couldn't hold on, he might really die.

although lin yi had mastered the technique of creating sword shadows, even if the current wei yu 'er died, he could create another her. however, the wei yu' er then would only be a clone at best, and would not have much to do with the current wei yu 'er.

Such an arrangement, in the eyes of others, was somewhat cruel.

However, Wei Yu 'er silently accepted this arrangement. When she turned around expressionlessly, her eyes met with the woman in red.

The red-robed woman suddenly realized that in this short period of time, she had already made the resolution to die!

a thought flashed through his mind.

This ugly girl with an unremarkable appearance was probably much more troublesome than she had imagined!

Unfortunately, what was done was done-it was too late for the lady to regret her decision. She had a strong feeling that if she tried anything funny now, Lin Yi would really kill her with a slap.

after taking care of the lady in red, lin yi waved his hand and shattered the two letters of challenge.

This casual and disdainful attitude immediately made everyone's eyelids jump. The magnificent sea ceiling seemed to have no deterrent force to speak of in this person's eyes.

Lin Yi clenched his fist.

the four seas "fate energy felt the call and instantly became active, pouring into lin yi's body from all directions.

Looking at the majestic aura at the peak of the capital, there was only awe in everyone's eyes.

Before this, there were still ambitious people who had the same idea as the woman in red. They were still thinking if they could get a share of the loot. They didn't need much, even if it was just one in ten thousand.

But now, no one dared to have this kind of luck.

Under the swallowing, the solidified fate energy of the four Seas that enveloped the peak of the Imperial City decreased at a speed that was visible to the naked eye.

The crowd was once again dumbfounded.

Although it was the first time that the four Seas' fate had been gathered in such a way, it was not new for top experts to absorb fate in the sea realm. Previously, some astonishingly talented and peerless figures had done similar things.

However, even those people were very careful when they absorbed the luck.

going too far was as bad as falling short.

Luck was a good thing, but even the sea realm couldn't figure out the way to such a mysterious thing.

everyone only roughly knew that if a person's luck was strong enough, many things would be twice as effective with half the effort, and they would even have the characteristic of strong luck. when they encountered danger, they would often be able to turn it into a blessing.

however, it wasn't that luck was better.

if one's luck was too good and exceeded the upper limit of a person's endurance, it would turn from good luck to bad luck, and might even die on the spot!

As for what the individual limit was, it varied from person to person, and there was no fixed statement.

But at least there was one thing-Lin Yi's method of swallowing everything whole was beyond everyone's understanding.

those who had a slightly darker mentality were already silently preparing to watch a good show.

No matter how big Lin Yi's appetite was, he should at least see if he had the life to do so, right?

If he swallowed such a huge amount of the four Seas 'luck, he would not be afraid that it would explode on the spot!

However, Lin Yi was still safe and sound even after all the luck from the four Seas was absorbed.

In the end, he even shook his head with a slight regret, as if he had not had enough.

"Is he still human?"

the red-robed woman who was the closest to the scene felt a deep sense of powerlessness in her heart.

she had just tried it. although she couldn't store it, the solidified fate energy of the four seas was far from comparable to ordinary fate energy. just now, she had only tried to grab it, and her entire body had almost exploded on the spot.

lin yi, on the other hand, was swallowing hundreds or even thousands of times more than what she had!

A ridiculous thought appeared in everyone's mind. Luckily, the Qi from the four Seas was only a small part of the whole. Otherwise, Lin Yi would've devoured it all!

If that was the case, the four Seas, which had lost the protection of the light from Providence, would probably be reduced to a Dead Sea.

Just thinking about that scene made one shudder.

no one knew that on the surface, lin yi was swallowing the fate like a whale, but in reality, he was just a transit point. the new world was the final destination of the fate of the four seas.

with the new world's status, it was more than enough to capture a mere 10% of the four seas 'luck.

With the addition of the four Seas "luck, the new world's evolution speed obviously increased by another level. Although it was still far from the point where life could be formed, Lin Yi's sharp senses noticed a wondrous change.

The water flow in the New World began to become regular.

the current was like chaos, and even a supercomputer could not calculate the next direction of the current.

however, after obtaining the luck of the four seas, although many ocean currents were still mixed, from a macro perspective, one would find that these ocean currents had gradually become traceable.

lin yi saw two words in it-two words that were extremely important to a new world.

order.

It was true that only the embryonic form of order had begun to appear, but with the importance of order, just this embryonic form alone was worth writing about.

after all, order might not be able to give birth to life, but the birth of life was inevitably inseparable from order.

Chapter 10286

as an example of how important it was, one of the most direct examples was lin yi breaking through.

Lin Yi's aura started to rise from the peak of the early stage of the Golden class to the middle stage, and everyone was speechless.

after reaching the supreme realm, one's realm was no longer linked to one's own strength. more importantly, it was linked to one's control of rule bending power.

A truly powerful Supreme realm expert would definitely be able to mobilize powerful rule bending power. This was common knowledge.

however, how difficult was it to improve one's control over the laws? in order to reach the next level, which one of them had not gone through untold hardships and had not risked their lives?

yet, lin yi had broken through without any signs at all.

looking at his calm appearance, this thing didn't seem to be breaking through, but drinking tea?

lin yi nodded as he felt the new energy in his body. "It's alright."

Other people's realms were bound to their control over the laws, but his realm was bound to the New World. Only when the New World evolved to a certain extent would his realm rise.

order had just appeared in the waters of the new world, which was more or less a symbolic event. it was reasonable for his own realm to break through as well.

However, in the eyes of others, this scene was somewhat like a Versailles.

strictly speaking, a golden class early phase peak venerable breaking through to the middle phase wasn't a big deal.

A golden class mid-phase venerable was a high and mighty master to normal practitioners, but in the entire sea realm, there were quite a few Masters at this level.

but the problem was that he was lin yi.

When he was still a golden class early phase peak venerable, he could already kill three combat powers with one strike-what would it be like now that he was one level higher?

Lin Yi turned back to look at the lady in red, feeling a little regretful. The two letters of challenge were destroyed a little too early.

With his strength before the breakthrough, it was indeed a little difficult for him to directly face the ceiling of the sea area. If he really fought, although he might not die, there was a high probability that he would suffer some losses.

But now that he had broken through, that was another matter.

"this guy ..."

The red-clothed woman saw through his intentions and couldn't help but shiver in her heart.

for the first time, she actually broke out in a cold sweat for her master.

No matter how much she believed that the ceiling was the ceiling, it was definitely not something that any Tom, Dick, or Harry could touch. Even if it was the so-called unprecedented sovereign of the four Seas, in the end, it was just a title that was gained by bullying ordinary people. In the face of true strength, it was not worth mentioning at all.

but at this moment, the feeling that lin yi gave her was no less than her master's!

"Let's go."

Lin Yi said casually and walked down the peak, leaving everyone in shock.

It's over?

after thinking about it, the key to the ceremony was the fate of the four seas. now that lin yi had taken all the fate, the rest of the ceremony didn't really matter anymore.

from their point of view, for such an unprecedented event, any ceremony must be solemn and grand. there must be no slacking, or it would be a stain and a joke in the eyes of others.

But to Lin Yi, all these formalities were a pure waste of time. If it weren't for the luck of the four Seas, he wouldn't even bother with this ascension ceremony.

as for dirty jokes, who would dare to laugh at him?

the audience looked at each other speechlessly. they had always thought that even the strongest people standing at the peak had to care about their own people's opinions. now it seemed that they had been overthinking.

He really didn't care.

However, just as everyone was about to leave, a giant arrow that was more than twenty feet long suddenly whizzed over and hit the top of the royal city of the North Sea.

The moment it landed, the entire seabed trembled!

"The sea god arrow?"

everyone couldn't help but look at each other, "travelling ten thousand li in an instant, isn't this the poseidon shrine's exclusive messenger arrow?" i've heard that every single one of them is extremely difficult to make, and they can only be used with the high priest's permission!"

In other words, the appearance of the sea god arrow was the intention of the high priest, Zhang xisheng!

for a moment, everyone's spirits were lifted.

ever since the sea god had sent down the oracle, they had all thought that the high priest would play dead to the end. at least from the perspective of an onlooker, playing dead was indeed the most reasonable choice.

otherwise, no matter how he expressed his stance, it would not be appropriate.

after all, with the conflict between the high priest and lin yi, the possibility of him congratulating lin yi on his ascension was close to zero, but if he went against him, it would be disobeying the sea god's divine decree, and that would be a serious problem.

but unexpectedly, although the high priest's will was late, it still came in the end!

Everyone's eyes were fixed on the sea god arrow.

was the high priest going to lower his head to lin yi, or was he going to create some earth-shattering news? everyone was waiting to see.

lin yi stopped in his tracks and reached out his hand, pulling the arrow over.

The instant the sea god arrow landed in his hand, it suddenly exploded on the spot without any warning. Just the aftershock alone was enough to send the spectators several hundred meters away into a complete mess.

everyone was shocked.

Was this a sneak attack from the high priest?

lin yi, on the other hand, didn't react much to this, only frowning slightly.

the impact of the sea god arrow naturally couldn't hurt his divine body in the slightest. with the high priest's status, he wouldn't use such an underhanded trick to deal with him.

this was most likely just a small trick by his subordinates.

What made Lin Yi frown was the image that came out after the arrow exploded.

Five tombs.

The names of the tomb owners were carved on the tombstones.

The fifth Walker, Du Hong, the fourth Walker, Xi Bao, The Third Walker, Xing pojun, the second Walker, bu Qinglian, and the first Walker, Wolf extinguisher!

Since the video was shown to the public, everyone could see it clearly as well.

After a moment of strange silence, the entire place was in an uproar.

"what do you mean? the top five advisors were all wiped out?"

how is that possible? the other advisors are fine, but cruel malevolence is a top-tier figure. Who can kill him? "

that's right. Even the top-tier frontline combat power won't die so easily, let alone him, the ceiling of the sea area. He's a super big Shot who's the only one in the entire sea!

I wouldn't have believed this in the past, but now I do. After all, the scene that happened in just one second is still vivid in my mind. Who can say that it's impossible? "

" top-tier combat power and the ceiling of the sea are two different things. "

Chapter 10287

the crowd continued to argue, and most of them still found it unbelievable. the five tombs in the picture were most likely empty.

after all, it was too unbelievable that the top five advisors had been wiped out together. no ordinary person would believe it. even if the high priest, zhang xisheng, had shed all pretenses of cordiality and joined the battle personally, it was unlikely that he could achieve such a result.

If he really had such an ability, with the conflict between the priest faculty and the Walker faculty, the Walker faculty would have been exposed long ago. Why would he wait until now?

Only Lin Yi, on the other hand, frowned deeply.

He had not contacted cruel malevolence and the others since they parted ways at the sea goddess Hall. He only knew that they were going to do something very important and dangerous.

he didn't think that anyone could threaten cruel malevolence and the others at the same time. after all, they had five people working together.

cruel malevolence himself was one of the best. the others were all experienced top fighters, especially the second advisor, madam qing. she was one of the few people in the entire sea area who were closest to the ceiling.

With such a lineup, it would be difficult to overturn the situation, let alone be wiped out directly!

but from the five graves in front of him, lin yi could clearly feel the auras of the five. the auras that came through the air felt extremely real.

Of course, this did not rule out the possibility that the high priest had deliberately deceived them.

But with Lin Yi's understanding of this person, the possibility of him pulling a meaningless trick like this wasn't high.

however, lin yi didn't think that cruel malevolence and his team were wiped out just like that. the only thing he was sure of was that they were in real trouble.

if they didn't react and let cruel malevolence and the others die on their own, they might really be gone.

what was even more intriguing was that the high priest had suddenly sent over a sea god arrow at this delicate juncture. what was the meaning behind this?

the crowd was in a heated discussion.

" what's there to think about? it's definitely to show off his might. "

"that's right, if this ceremony ends smoothly, lin yi's personal reputation will reach an unprecedented height, even surpassing the high priest himself!"

"two tigers can't live on the same mountain, and the vast ocean can't contain the high priest and lin yi!"

Lin Yi didn't comment on this kind of guess.

the high priest's actions might have been a warning, but his true intentions were not so shallow.

"Hehe, he's fishing."

seeing this, jiang xiaoshang became interested. " the five tombs are obviously bait. If you want to help them, you'll fall into the pit they've prepared and be buried.

"But I can't just leave him to die," Lin Yi rubbed his forehead.

on one hand, it was out of loyalty. after all, cruel malevolence and the others had fought for him last time. it wouldn't be right if he didn't help them now. it didn't fit lin yi's personality.

On the other hand, even if he put aside his personal feelings, he couldn't just leave cruel malevolence and the other four to die.

jiang xiaoshang looked at him and said, " then you have to think about it carefully. the old cunning fox waited for so long before making a move. he must have a lot of tricks up his sleeve. do you think you can protect him with your current body? "

"are you trying to stop me from interfering?"

lin yi turned to look at jiang xiaoshang with a deep look. the guy had always been a person who wanted to see the world in chaos, but this time, he was acting a little weird.

jiang xiaoshang's eyes flashed and he grinned, " " i'm actually looking forward to you making some big moves. however, if you just fall into the pit that the other party has dug, then you're too stupid. you're destined to be led by the nose by the other party. "

"what do you mean?" lin yi raised a brow.

"he'll hit him, you hit you."

Jiang xiaoshang's eyes sharpened as he gave an earth-shattering idea, " "Let's go directly to the old cunning Fox and go straight to the root of the problem!"

"this idea of yours is really ..."

even lin yi's eyelids twitched. he wasn't afraid of those ceiling-level sea realm experts now, especially after breaking through. he was more confident now, but he was still a little unprepared to fight the high priest, the number one sea realm expert.

However, after thinking about it carefully, it did not make sense.

in any case, the high priest was definitely behind this. moreover, it was impossible for him to not pay a price for this.

In other words, it was very likely that the high priest was at his weakest.

The sudden appearance of the sea god arrow was not without the intention of bluffing and acting tough!

After all, if things went according to plan, Lin Yi had already unified the four Seas and sat on the throne of the four Seas. His next step would be to target the Poseidon shrine.

he had the ocean god's divine decree backing him, and was now the true representative of the ocean god. at least in name, lin yi's entry into the poseidon shrine was justified.

if the ruler of the four seas and the poseidon shrine were added to the mix, he would be a sea emperor!

The high priest Zhang xisheng was the only obstacle in Lin Yi's path.

lin yi decided without hesitation. "Then let's kill him!"

And so, under everyone's shocked gazes, Lin Yi led the guards straight to the sea god's Palace without a word.

after sensing lin yi's movement, everyone was dumbfounded.

" just because someone shot a poseidon arrow, he immediately brought people to kill him. does our sovereign of the four seas have such a bad temper? "

"I'll go! that's the high priestess we're talking about! isn't lord lin a little too arrogant?"

"Floating my ass! if you're not convinced, then do it. this is the style that a good man should have. damn it, i must hurry over and support lord lin!"

For a time, the scene was in chaos.

the news of lin yi challenging the high priest spread like wildfire, and in less than a day, it had spread all over the world, shocking all the forces.

What was a trendsetter?

This was the real trendsetter!

any random thought would shake the entire sea area, and the big shots of all parties would be trembling with fear as if they were walking on thin ice!

the red-clothed girl was in lin yi's group, watching lin yi's back as waves of shock surged in her heart.

she knew that she wasn't lin yi's match anymore, but at least from what she knew, lin yi didn't have the guts to fight the ceiling head on. otherwise, he wouldn't have ignored the two letters of challenge she brought.

However, it seemed that she was completely wrong.

Lin Yi was going to shoot the number one man of the sea right away, why would he be afraid of the two superstars behind her?

Chapter 10288

Whether it was the Queen of the abyss or the nameless scholar, although they were both recognized as the five great ceilings of the sea area, there was still a certain gap between them and the high priest in the mainstream public opinion.

The woman in red fell into deep thought. is this guy really confident? or is he just being impulsive? " she thought.

in the end, while she was still in a daze, wei yu 'er, who was beside her, suddenly slashed her sword at her without any warning.

Fortunately, the woman in red was very powerful and managed to Dodge the sword at the last moment. She was shocked and angry."what are you doing?"

Wei Yu 'er looked at her with an indifferent expression, " "to kill you."

"....."

The woman in red didn't even know how to respond.

At least in name, she was still Wei Yu 'er's maidservant. In the end, in Wei Yu' er's eyes, maidservants were actually meant to be killed?

"Didn't you want to kill me too?"

Wei Yu 'er slowly kept her sword and continued to follow Lin Yi without a word, but the words "strike first, gain the upper hand" were written all over her face.

the red-robed woman's killing intent surged, but she suppressed it after seeing Lin Yi's back.

she wanted to kill Wei Yu 'er, and she was confident that she could kill Wei Yu 'er.

But if she did it in front of Lin Yi, he'd get angry and kill her, and that wasn't something she could control.

If he wanted to make a move, he had to find a private opportunity to kill Wei Yu 'er in one move. Then, he could retreat without anyone knowing!

As for Wei Yu 'er's so-called "striking first to gain the upper hand," once she was on guard, there was nothing to fear.

the difference in their raw strength was obvious. she was confident that even if she let the other party train for a few more decades, he would definitely not have the chance to catch up to her.

After all, she was a master taught by the Abyss Queen and the nameless scholar, a unique existence in the entire sea. It was fine if she couldn't beat a monster like Lin Yi, but how could she lose to an ordinary, ugly girl?

however, it turned out that she had still underestimated Wei Yu 'er.

In a short three days, Wei Yu 'er had launched a total of thirteen surprise attacks on her.

The first few times were still fine. After she was on guard, she could easily deal with it. But from the eighth time onwards, the red-clothed woman suddenly felt an indescribable pressure.

the key was that the pressure was getting greater and greater!

This kind of pressure was not an illusion, but a physical manifestation of strength.

It was only now that she realized that Lin Yi wasn't the only monster-this plain-looking girl was a monster as well.

in a short three days, wei yu 'er's strength had increased by leaps and bounds to the point where it could threaten her life. from the eleventh time onwards, she had to be extremely vigilant at all times. otherwise, she might die under wei yu' er's sword if she made the slightest mistake!

"You're embarrassing the two of them by acting like this."

Lin Yi wasn't satisfied with this.

wei yu 'er's rate of improvement was indeed terrifying. even if it was him, it would be difficult for him to achieve this without the support of the new world. however, if he wanted to participate in the upcoming battle, there was still a gap.

The problem did not lie with Wei Yu 'er herself, but with the whetstone that he had found for her.

to put it bluntly, he had overestimated the weight of this whetstone.

The red-robed woman was instantly flustered and exasperated."if you let me have a fair duel with her, i guarantee that she won't be able to last more than ten moves!"

lin yi tilted his head as he looked at her,"are you that naïve from hell street?" There's no such thing as a fair duel in this world. I've fought so many people, is there even a fair match?"

The woman in red was choked speechless for a long time. She was stunned for a moment before she reacted and was shocked, " "you know about hell street?"

"isn't it written in the letter of challenge?" lin yi looked at her with a deeper meaning in his eyes.

even though he said that, from his tone, it was clear that his understanding of hell street was not limited to just the name.

This time, the red-robed woman was truly shocked.

hell street was the most mysterious place in the sea.

let alone the ordinary people, even the experts who had entered the ranks of the top combat power only knew the name of hell street at most. they knew nothing else.

The other so-called mysterious places had all kinds of legends, but hell Street didn't even have a decent legend, only a simple name.

Everyone could only guess that it must be an extremely dangerous place. Other than a few top-tier experts, no one would be able to return.

Lin Yi spoke up while the lady was still in shock, "The reason why the Queen of the abyss and the nameless scholar challenged me was because they were trapped in hell Street and couldn't get out."

"you're so silly!"

The red-clothed girl was shocked and suspicious, but she quickly swallowed her words when she saw Lin Yi's confident expression. She had already guessed that Lin Yi was testing her.

Her reaction, however, gave Lin Yi enough information.

"they didn't just come to test me," lin yi said faintly, "they have a deeper purpose, right?"

The woman in red was silent for a moment before she forced a smile. "you're thinking too much."

To be honest, Lin Yi's test was beyond her understanding.

she did come out this time as the two top spokespeople, but in the end, she was just an errand boy. she might be able to guess some things, but she was not qualified to know the truth.

No one knew the true situation of the Queen of the abyss and the nameless scholar, or what they were thinking about.

Lin Yi didn't continue to ask and waved his hand at Wei Yu 'er, " "You can continue."

Although the red-dressed lady was not as good as he had expected, she was still a top tier combat power. She was still effective in training Wei Yu 'er.

moreover, what the other party had said just now was not completely empty talk. if they were to have a fair fight, even if wei yu 'er could not last more than ten moves, there was still a high chance that she would lose.

The woman in red was so depressed that she wanted to vomit blood.

It was a pity that she had no choice but to lower her head. She could only be on her guard and be on guard against Wei Yu 'er's attacks. Otherwise, with Wei Yu' er's current increase in strength, she would really die if she was not careful.

However, her protest seemed to have some effect.

On the way, she tried to kill Wei Yu 'er, and even caused a life-threatening injury to her once. Lin Yi turned a blind eye to it, at most treating Wei Yu' er.

As long as there was enough power of the rules of sword, even the most fatal injury could be healed in a short time.

This was one of Shadow sword's major advantages.

in the end, when wei yu 'er recovered from her injuries, the lady in red was shocked to find that her opponent's strength had increased by leaps and bounds again. with her strength, she could not even suppress her opponent in a direct confrontation!

they were all monsters.

Chapter 10289

Two days later, Lin Yi and the group finally arrived at the sea god Palace.

With the size of the sea, this speed wasn't slow at all. If it was someone else, they would take at least twice the time, but it was still slower than Lin Yi alone.

A total of five days was enough for the entire seagod Hall to react, even if the time it took to send messages was also taken into account.

at this moment, the entire seagod hall was indeed on high alert.

blocking in front of them was a huge army of over a thousand people, the temple guards!

compared to an ordinary army of tens of thousands, a thousand men was nothing. in the secular world, it would not even be enough to form a regiment. however, these were all supreme realm experts.

There were more than a thousand Supreme realm experts. No matter where they were placed, such a lineup would be a decisive force.

Unlike the four Seas "royal families, which had the famous Divine Dragon, Dragon Sparrow, Moluo and Vanquisher guards, the sea goddess Hall had never had a trump card on the same level as them. However, having this personal guard of the sea goddess Hall was already enough to suppress the four Seas.

Although there had never been such a case in history, almost all the intelligence agencies and mainstream public opinion unanimously agreed that any trump card would be doomed if they were to face the temple guards on the battlefield.

lin yi looked at the tall man standing in front of him and greeted him from afar, "I hope you're well, commander Bai,"

the leader of the team was actually commander bai ze himself.

although bai ze was not recognized as one of the top five in the sea area, he was considered as one of the three giants in the sea goddess hall, on par with the high priest zhang xisheng and the first walker, wolf extinguisher. this was enough to show his weight.

even if he wasn't the ceiling, he must be like madam qing, one of the few people in the entire sea realm who were closest to the ceiling. he was a powerful existence who stood at the peak of all the top-tier battle forces.

bai ze took two steps forward and looked at lin yi with a complicated expression.

a few months ago, lin yi was just a small figure he could look down on. if it wasn't for cruel malevolence protecting him, he could've made lin yi suffer a big loss with a word.

In the blink of an eye, Lin Yi had become the ruler of the four Seas. In terms of status, he was even lower than the high priest, let alone the general of the temple guards.

when people looked down on the young for being poor, it was at least thirty years, but when it came to a monster like lin yi, it wasn't even thirty years!

Bai Ze narrowed his eyes, suppressed the complicated thoughts in his mind, and said in a deep voice, "Why has Lord Lin come to my sea god Hall this time?"

everyone from the sea god hall looked at him with surprise.

They didn't feel that Lin Yi's achievements were real before, but now, even the commander Bai Ze had to address Lin Yi as Lord Lin. It was enough to see Lin Yi's weight!

lin yi smiled. " that's weird, commander bai. i'm the sea king personally conferred by the lord seagod, and the seagod hall is my home. why do you sound like i'm an outsider? "

"In that case, Lord Lin, you've returned home to visit your family?"

bai ze's expression didn't dare to relax at all. even if he'd never fought lin yi before, he had to be careful since lin yi was able to reach his current level.

If it were someone else in his position, they'd look down on Lin Yi and think that it was luck. Even if Lin Yi's strength had increased, it was impossible for him to grow to a level that could threaten him in such a short time.

But Bai Ze would not.

he was able to sit firmly in the position of commander because, besides his own strength being strong enough, he had relied on caution.

Lin Yi's sudden arrival put the entire Poseidon shrine on guard. Although the rumors said that Lin Yi was here for the high priest and had nothing to do with Bai Ze, he couldn't just stay out of it.

Plus, with his relationship with the high priest, if he didn't get involved, it would be the same as standing on Lin Yi's side.

If Lin Yi had the last laugh, then that was fine, but if Lin Yi lost, then his future days would be tough.

As soon as he knew that Lin Yi was coming, Bai Ze realized that this encounter might be the biggest test he had in decades!

if it was not handled well, the consequences would be unpredictable.

"you're right," lin yi nodded, "but look at commander bai's attitude, maybe he doesn't welcome us?"

bai ze narrowed his eyes. " if lord lin is just here to visit, i will naturally welcome you with open arms. however, since you are just returning home in glory, there is no need to bring so many people, right? "

he was looking at the guards unit behind lin yi.

seeing these familiar faces, his heart could not help but bleed. after all, these were all his subordinates!

He even had a conflict with Lin Yi because of them.

If he had known that this group of people were so fierce and could rise up in such a short time and forcefully grow into a trump card, he would never have compromised and let them go!

Of course, he also knew that the guards unit's success was mainly due to Lin Yi. If they continued to stay under him, there was a high chance that they would still be as useless as before.

But even so, it was still better than now.

Watching these people shine under Lin Yi's hands made him feel worse than losing a hundred million himself. This was human nature.

Seeing that Bai Ze, their former superior, was looking at them, the guards unit did not even look at him. They did not even have the intention to nod, let alone greet him. They were simply treating him like a stranger.

after all, if there was a slight disagreement, it was very likely that a fight would break out.

At that time, they would be enemies who would fight to the death, so there was no need to be polite!

Lin Yi smiled. the guards unit came from here, after all. If I come back, they'll naturally come back with me. If commander Bai stops them, isn't that too unreasonable? "

" it's my duty, " bai ze said solemnly. " i hope lord lin doesn't take offense. you can come and go as you please, but they can't. "

"What if I don't agree?" Lin Yi raised a brow.

"then this bai can only do business."

commander bai's eyes narrowed and he suddenly shouted, " "Brothers of the temple guard, listen up. Guarding the seagod Hall is our supreme duty. Anyone who tries to force their way in will be killed without mercy!"

"kill! kill! kill!"

thousands of supreme realm cultivators roared in unison. under their murderous aura, the sea within a hundred miles was in chaos. all the sea creatures fled in panic, and there were even the shadows of many ultra-sea beasts.

It was like the chaotic scene of the end of the world.

Chapter 10290

hou maha frowned as he reminded lin yi, " since the formation of the divine Hall's Guards Army, except for some small-scale battles, as long as the main force is assembled, they have not been defeated even once.

This was Bai Ze's confidence.

although the public opinion on the street was that a certain trump card could easily win against a large number of people and was invincible, in contrast, the divine hall guards had almost no sense of existence.

However, anyone with a discerning eye knew that this did not mean that the temple guards were not strong.

on the contrary, it was precisely because the divine hall guards were so powerful that they had never been officially defeated. in addition, every battle was calm and without any legendary colors, so they had no sense of existence.

A good fighter has no outstanding achievements.

quite a few organizations had started placing their bets already-most of them had lost to lin yi last time, and many even went bankrupt. most people were starting to realize that they couldn't just not believe in a monster like lin yi.

but this time, against the temple guards, the gamblers weighed the pros and cons before placing their bets on lin yi.

They had no choice-the temple guards "past achievements left them with no choice. Even if many people were convinced by Lin Yi, their rationality still stood on the temple guards" side.

lin yi, on the other hand, turned a blind eye to it and walked over,"it doesn't matter. there's a first time for everything. you'll get used to it."

everyone was stunned.

Bai Ze didn't think Lin Yi would be scared so easily, but he was still surprised by Lin Yi's arrogance.

especially when he saw the guards unit opposite him, each and every one of them following lin yi's pace with a calm expression, bai ze was suddenly a little angry!

even though he was being careful and kept his face down, he still saw himself as someone above lin yi.

The name of the sovereign of the four Seas was indeed very big, but as for how much gold it contained, it depended on the opinions of the people.

"I've given you face by calling you lord Lin twice, but you really think you're a big shot? It's fine to fool those ignorant commoners, but to come here and put on such a show, hehe."

Bai Ze raised a hand, and all the temple guards behind him immediately condensed their aura. There were more than a thousand people, but they seemed to be one.

coherence!

just this point alone was enough to show that it was extraordinary.

Even though almost every Ace could achieve coherence, and to a certain extent, the ability to achieve coherence could be seen as a dividing line between an Ace and an ordinary elite, the number of Ace troops was limited after all.

The synchronization of thousands of people displayed a deterrent and dominance on the battlefield that was far beyond the scale of a hundred people.

it was no exaggeration to say that this coherence alone was enough to suppress any so-called elite force. even if it was a trump card, it would still be suppressed.

According to past experience, as long as the momentum was suppressed at the start, then it would be suppressed from the beginning to the end, until it was completely crushed to death.

the entire process would not have any more twists and turns.

This was the style of the temple guards.

the moment the synchronization appeared, lin yi's guards activated it as well. after all, they came from here and were all too familiar with this ancient and unchanging process.

however, he still felt immense pressure.

Even though they had experienced the integration of the world will, the tacit understanding between the members of the guards unit was far beyond ordinary people, and the degree of synchronization was far deeper than others, but in the end, it still could not make up for such a huge disadvantage in numbers.

luckily, lin yi was there.

as the leader of the group, lin yi naturally had to bear the most pressure, but his face didn't show any signs of strain at all. he was just walking casually, as if no one was there.

has this kid really reached the threshold of the ceiling? "

bai ze was secretly surprised at this scene.

as far as he knew, there were only a few ceiling-level individuals in the entire sea realm who could directly ignore the suppression of the aura of a thousand people. even he, who was known as a quasi-ceiling, could not do it.

why could lin yi do it?

"that's impossible!"

When Bai Ze noticed that his mind was wavering, he immediately suppressed his doubts. If the ceiling could be touched so easily, how could it be called the sea ceiling?

it would have been pierced through long ago.

Under the tense situation, Lin Yi and his men were getting closer and closer, completely entering the temple guards "attack range. Bai Ze's raised hand slowly closed. Kill!

"is this guy crazy? do you really think that you can take the combined attack of a thousand people head on?"

Forced to follow Lin Yi's formation, the woman in red was shocked and scared. She felt the pressure from the other side and saw the combined attack land. Her scalp went numb and she subconsciously wanted to run.

Even though she was a top-tier combat power, if she were to take this joint attack head-on, her death would not be any better than the other cannon fodder!

unfortunately, at this moment, she was in the game and had no choice.

at this time, if there was any movement, she would be the first to die.

Lin Yi continued to move forward, and even the guards unit followed. Everyone's solemn expressions fell into the eyes of Bai Ze's men, they were a group of complete lunatics.

"he's been brainwashed to this extent? no wonder he's as strong as an ace-he's being used as a material by lin yi."

Bai Ze immediately felt balanced when he saw this scene.

the guards unit was nothing under him, but in lin yi's hands, it was a complete mess. so it wasn't his problem, it was just that he wasn't as vicious as lin yi, who directly used the guards as consumables.

this explanation was quite reasonable.

In the next moment, just as the combined attack of the thousand people was about to land, a powerful and mysterious fluctuation suddenly rang out in everyone's sea of consciousness. It was a divine decree!

the contents of the oracle were very simple, just three words.

Don't move.

Bai Ze's eyelids twitched, and the temple guards were instantly stunned. They looked at each other, not knowing what to do. What did they mean by not moving?

Although it was not clear why such an Oracle would suddenly be sent down, as a member of the temple guards, no one present dared to ignore the Oracle of the sea god.

After all, they were at least the sea God's servants in name.

even if not all of them were so devoted to the sea god that they would unreservedly listen to any of the sea god's orders, at least most of them were.

as a result, there was inevitably chaos within the temple guards, and the synchronization immediately lost its effect. the mountain-like pressure on lin yi's head was swept away.

Lin Yi continued to walk and was in front of Bai Ze in the blink of an eye.

bai ze's expression was extremely ugly.
