

Bodyguard 10311

Chapter 10311

they'd seen plenty of sword saints change their positions, but it was the first time they'd seen someone like lin yi stomping the previous one to death, even forcing the entire sword to lower their heads.

Including the sword soul, as long as it was a living thing or object that had gained sentience, the first thing it would do was to feel fear.

who wouldn't be afraid of a beast like lin yi?

If he destroyed the sword tomb on a whim, or directly used them as a sacrifice to the heavens, they wouldn't even be able to Find A Grave to cry to!

Lin Yi communicated with the sword rule origin directly.

"I need a sword soul that is strong enough to help my sword evolve."

To this simple request, the rule of sword quickly responded in a simple and clear way.

No, I can't.

Lin Yi blinked, but immediately understood what the other meant. It wasn't that the other didn't want to give it to him-no matter what, he was a Sword Saint now, and even if the sword rule origin rejected him, it wouldn't be this stingy.

After all, things like sword souls were rare outside, but in the sword catacomb, they could be seen everywhere.

Normally, it would be a matter of minutes even if there were eight to ten of them, let alone one sword soul.

the problem was that eight to ten sword souls were useless!

Following the gradual unsealing of the seal on its power, the demonic devouring sword was gradually returning to its original form. It had a sword soul!

However, its sword soul was sealed too tightly, and there was no possibility of unsealing it in a short period of time. If another sword soul were to enter at this time, it would be no different from a dove occupying a magpie's nest.

A mountain could not hold two tigers, and a sword could not hold two sword souls.

This was not the biggest problem.

The real problem was that even if the other sword souls were to enter, there was a high probability that they would not be able to suppress the sword soul of the demonic devouring sword.

Even if it was still in a sealed state, with the various signs displayed by the demonic devouring sword, it was definitely not something that other ordinary sword souls could easily touch. Entering it would be equivalent to giving it away.

"No matter what, I have to give it a try, or you'll have to prepare to find the next Sword Saint," Lin Yi insisted.

"....."

the rule of sword was silent.

although it hadn't formed a true rapport with lin yi yet, lin yi was still the only master of the sword rules, so it was basically just a name.

but even so, it could feel lin yi's huge potential.

a fine bird chooses a tree to live in. although it had the final say in the selection of sword saints, it still depended on luck to a large extent on how strong a sword saint could be selected.

It was already rare for someone like the previous generation's Sword Saint, ye Qiyuan, to reach the bottom line of the sea area.

If he was unlucky enough to meet a good-for-nothing, even if he did not have human emotions, the rules of sword that had developed its own will would probably be depressed to death!

Although it didn't fully recognize Lin Yi's strength yet, it had to admit that Lin Yi was the one with the highest potential for the future among all the sword Saint candidates it had seen.

if they missed lin yi, they would never have another sword saint candidate like him in the future.

after a long silence, the rule of sword finally made a decision.

Under his power, ancient swords that were buried deep in the ground burst out one after another, floating in front of Lin Yi.

although they couldn't be compared to the ten famous swords in terms of quality, they were all one in a million.

Lin Yi immediately understood what it meant.

"if the quality isn't good enough, why don't we use quantity to make up for it?"

This was definitely not the most ingenious method. It was simple and crude, but thinking about it carefully, it was the most correct method!

There was no other reason. The number of sword souls here was truly outstanding.

Since one soul sword couldn't take over the nest, then he would use thousands, tens of thousands, or even hundreds of thousands, or even millions of them to forcefully crack it!

Such a nouveau riche's way of playing was definitely unprecedented in history.

Lin Yi didn't hesitate at all and started guiding the sword soul into the sword. One by one, the sword souls entered the sword.

To them, this was a rare opportunity.

once the sword soul entered the sword tomb, under normal circumstances, it could only be buried here forever with the ancient sword. it would rarely have the opportunity to see the light of day outside.

unless they could reach the level of the ten great ancient swords, they would not be able to resist the restraints of the sword tomb even if they were brought out. in the end, their sword souls would only shatter.

as such, the demonic devouring sword's occupation of their territory was an opportunity for them to reincarnate!

Even if it was not exclusive and could only be shared with other sword souls, it was still enough to make them advance one after another.

One, two Yingluo

Ten, twenty wuwuwu

One hundred, two hundred crickets.

In the blink of an eye, the number of sword souls that had entered the demonic devouring sword had already reached a three-digit number, and it was rapidly approaching a four-digit number.

however, the demonic devouring sword did not seem to change at all. it continued to entangle with the abyssal power of the abyssal blade while not rejecting the endless sword souls.

It seemed that to it, the vast amount of sword souls were not here to occupy The Magpie's Nest, but to provide it with supplements!

Lin Yi said, tongue-tied.

He had expected that things would not be so simple, but he had not expected it to be like this.

Any one of the sword souls here was enough to stir up a storm. However, in the hands of the demonic devouring sword, they had all become food to fill his stomach. Moreover, from the beginning to the end, they had the posture of a bottomless pit that could not be filled.

it was really unimaginable.

gradually, when the number of sword souls that had poured into the demonic devouring sword broke through four digits and was charging towards five digits, the remaining sword souls finally began to realize that something was not quite right.

Immediately after, some of the sword souls with higher spiritual qualities started to retreat.

it was true that they dreamed of the opportunity to see the light of day again, but the premise was that they had to maintain their own will, and not become nourishment for others to swallow!

but it was too late.

After being nourished by the previous few thousand sword souls, the demonic devouring sword seemed to have become addicted.

with it as the center, an invisible gravitational vortex suddenly appeared. all the sword souls in the surroundings were instantly sucked into it. they had no chance of struggling or escaping at all.

Ten thousand, twenty thousand Wuwu

lin yi's eyes twitched as he looked at the sword's appetite. this wasn't just the sword soul-even candy shouldn't be eaten like this.

Fortunately, the sword tomb was large enough. Even if the demonic devouring sword was eaten in such a way, it could not be finished in a short time.

in the end, when the number of sword spirits that were filled in exceeded the order of one hundred thousand, the gravitational vortex finally began to gradually become smaller.

even so, after swallowing another 20000 sword souls, the demon devouring sword finally stopped.

In total, there were 120000 sword soul Fragments!

If this were to be said, it would definitely shock everyone to the point that their eyes would pop out. 120000 sword souls were squeezed into a sword, who the f * ck would believe this?

Chapter 10312

Lin Yi even felt that the sword rule force was relieved.

although the sword tomb was huge, the number of sword souls was not endless. if the demonic devouring sword continued its previous momentum, there was a possibility that the entire sword tomb would be emptied, and that would be a real problem.

After all, if the sword soul was gone, could the sword tomb still be called the sword tomb?

At this moment, the demonic devouring sword, which had 120000 sword souls, did not look any different from before.

As the owner, Lin Yi could clearly feel that the 120000 sword souls weren't really in the sword. They were just used as labor, as a medium to control the power of the sword.

It felt like a supercomputer with 120000 additional processors.

An immediate effect was that his computing power had increased by leaps and bounds!

in this way, even if they had the same level and scale of power, the effect of mobilizing it was completely different!

one of the most obvious signs was that the abyssal blade had been on par with the west wind, but now the east wind immediately overwhelmed the west wind.

lin yi sighed in relief.

Although he couldn't completely devour the Abyssal Blade now, it shouldn't be a big problem to devour it within three days according to the current situation.

The only question left was how much more powerful the demonic devour sword would be after it had absorbed 120000 sword souls and swallowed the Abyssal Blade!

Lin Yi immediately left the sword tomb and prepared his next trump card.

although the progress of the demonic devouring sword was gratifying, it was still a bit risky to place all his bets on it.

You can't put all your eggs in one basket.

Lin Yi's next trump card was the Golden body of fate!

to be more precise, it was the ultimate enhanced version of the golden body of providence that he had given to the little girl before.

this time, the fate he was mobilizing was not just the fate of the people who had gathered from all over the world, but also the fate of the four seas that he had already controlled.

An ordinary body would not be able to withstand such a huge amount of fate gathered together.

The fact that this little girl was able to easily take on the Golden body of Providence also proved that she was extraordinary.

Everything else aside, at least in terms of luck, the girl was a rare person Lin Yi had seen.

her great fortune was not the kind of fortune that was written on her face, but it was engraved in the deepest part of her fate. it would only show at the real critical moment!

If it weren't for the connection he felt with the New World, Lin Yi would've suspected that this was a God's human body.

after all, this level of great destiny was truly something only gods could have!

back to the topic at hand, lin yi continued to channel the fate into his body. if it were someone else, their body would've exploded like a balloon from the flow of fate.

however, under the suppression of the divine body, no matter how much luck he had, it would not be able to shake his foundation.

He could only follow the ocean-like true energy in his body and enter the place where they should go in an orderly manner. Then, they would lie dormant and wait for the moment when they would come in handy in the future.

In the blink of an eye, three days had passed.

All of the luck that was absorbed into Lin Yi's body had faded. In theory, he was already a man with great luck, but when he stood up, it was even more reserved.

Ning Wanjun and the others' eyes lit up when they saw Lin Yi.

"master, you're different from before."

Ning Wanjun spoke out everyone's thoughts, " "Your aura seems to have disappeared, but it also doesn't seem to have completely disappeared."

the lin yi from before, due to his high status and strength, even if he didn't do anything and just stood there, he would still have a strong pressure.

the pressure wasn't directed at his own people, but unless lin yi tried to hide it, the presence was everywhere. no matter where he went, he'd attract attention.

But now, no one could feel the existence of his aura at all.

and this wasn't even the result of lin yi holding back!

no one was stupid enough to think that lin yi's strength had regressed, but at this level, it was completely beyond their understanding.

"could it be that fate coexists?"

The Qin family's grandmother's voice came from the door, her tone carrying unconcealable shock. "the supremacy's aura didn't disappear. instead, it has fused with the entire sea realm. in other words, the entire sea realm is currently enveloped by the supremacy's aura!"

his words shocked everyone.

The entire sea area was filled with an aura. Wasn't this a little too exaggerated?

everyone looked at lin yi, waiting for an answer.

lin yi smiled nonchalantly. "you're really knowledgeable, old madam. this is just a small trick i came up with to borrow power. it's not worth mentioning."

"....."

everyone was speechless.

If even such a heavenly technique was not worth mentioning, then what else was worth mentioning? killing a God?

in fact, lin yi wasn't trying to act cool. the co-existence of fate with the sea was just a side effect of his ultimate golden body of fate.

however, this additional effect was a little too overbearing.

His aura was already extremely oppressive. Now that he coexisted with the sea's fate, he could directly borrow the entire sea's aura. Once it exploded at a close distance, the kind of oppression that one could imagine was terrifying.

not to mention ordinary cultivators, even those with top combat strength would probably be unable to withstand it!

in addition, this move could also be used in reverse, perfectly integrating one's own aura with the entire sea area. this was definitely the best choice for killing and robbing when traveling.

combined with lin yi's expertise in illusion and stealth, even the ceiling-level sea warriors would be at a disadvantage!

Lin Yi skipped past the details and got to the main point. "i'm going to hell street this time, and there will be a lot of variables, so there are some things i need to prepare in advance."

everyone's hearts trembled, and their expressions became much more solemn.

even if they had absolute confidence in lin yi's strength, they couldn't help but break out in a cold sweat when they thought of the opponent lin yi was about to face.

the point was that they couldn't help at this level-lin yi had to rely on himself.

the only thing they could do was to protect lin yi's back.

But with the current situation, it wasn't an easy task to just defend the rear. The four Seas were in chaos, and it might be better to have Lin Yi himself to keep the situation under control.

but if lin yi went to hell street, and there was no news for a long time, it would be hard to control the situation.

Chapter 10313

with the strength of the people from lin yi group, it was foreseeable that this would be a difficult test.

lin yi even thought of transferring shen yifan and the others from jianghai college to save the situation, but the sea realm's top forces were a lot stronger than the jianghai college's, and shen yifan and the others weren't even in the supreme realm yet, so it would be difficult for them to hold the fort.

secondly, he was unfamiliar with the place. shen yifan might be able to handle things with ease in jianghai academy, but it was a different story in the ocean.

Fortunately, the Qin family's old grandmother was willing to step in.

with her legendary reputation and experience, along with the many channels her qin family had built up over the years, it might be hard for her to just cut off a territory like the royal families of the four seas, but it was the best choice for lin yi to save the day.

the qin family's old grandmother was in control of the overall situation. wen had hou maohe, ning wanjun, and other core departments to assist. wu had the python's personal guards unit and the moro guards to hold the fort.

such a lineup wasn't very luxurious, but it was enough to ensure a good bottom line. even if there was a real chaos in the sea, they wouldn't completely lose control of the situation.

At least, she could hold on until Lin Yi came back.

there was another hidden benefit to this arrangement. the old lady of the qin family and ning wanjun could check and balance each other, making sure that one family wouldn't monopolize the market and do anything that wasn't good for lin yi.

the qin family's old grandmother was well aware of this.

The people Lin Yi had to be wary of the most when he asked her to come out this time were her and her Qin family.

" don't worry, my lord. i will do my best to stabilize the situation at the rear and wait for your return! "

the qin family's old grandmother wasn't the least bit dissatisfied with this.

On the contrary, the more Lin Yi was like this, the more she felt happy. After all, only people like him could go further.

If Lin Yi were to give her his full trust right away, then she'd have to think twice if she should continue to bet everything on Lin Yi.

"I'll leave everything to you all."

lin yi nodded and turned to wan 'er, who was waiting beside him. "you have to practice the set of martial arts i taught you well. you can only go out and kill people after you've mastered it. otherwise, you'll only be killed."

It was a little strange to say such words to a little girl who was not even five years old, but the little girl liked it.

"oh, oh."

lil wan 'er nodded and clenched her fists, "master, if you die, i will avenge you!"

"....."

"that's not auspicious," lin yi's mouth twitched.

wan 'er tilted her head, "then when should i say it?"

"next time," lin yi replied.

"alright, wan 'er, we'll talk about it next time."

the little girl put away the small sword regretfully and turned around to carve the words 'revenge' in a corner of the hall. everyone present was speechless.

Lin Yi didn't know what to say-this student of his was pretty good in all other aspects, except that he wasted a lot of his master's energy.

After saying his goodbyes, Lin Yi set off for hell Street.

there were two people accompanying her. one was wei yu 'er, and the other was the red-clothed girl who had become wei yu' er's maidservant.

"Hey, you know the way, right?"

lin yi asked.

he knew that hell street was at the bottom of the 18 levels of hell. if there was no one to lead the way, it would not be easy to find the entrance even with his current status as the lord of the four seas.

although it wasn't impossible to find, it would still take some effort.

after all, even with the map of the 18 levels of hell that the qin family had, they could only reach the 18th level in name. they couldn't go deep into the core of hell street.

the woman in red paused. " if you're asking someone to do something, you should at least call out their name. you're the sovereign of the four seas. don't you have this basic education? "

in the end, just as she finished speaking, wei yu 'er's sword was already at her neck.

to put it bluntly, although wei yu 'er's cultivation level had not changed, the increase in her strength was visible to the naked eye. now, she was on par with this top-tier battle power and was not at a disadvantage at all.

lin yi looked at her, but couldn't remember her name. he didn't seem to have asked her from the start.

this was a little awkward.

he really did not mean to belittle her in this way, but he had simply forgotten about her. he turned to wei yu 'er and asked, " "What's her name?"

"....."

Wei Yu 'er was silent, and the situation became even more awkward.

"you didn't ask either?" lin yi's mouth twitched.

logically speaking, with wei yu 'er's personality, she would slash people more often than she would talk. moreover, the woman in red had been preparing a whetstone for her since the beginning.

who would ask for the name of a whetstone?

the woman in red had an inexplicable feeling that the society had died. if others didn't know your name, the one who was most embarrassed wasn't others, but you.

the scene was stunned for a moment.

In the end, it was the red-clothed woman who took the initiative to announce her name with a black face. "I'm Chu Hongyi."

"good name."

lin yi said half-heartedly before continuing, "Do you know the entrance to hell Street?"

Chu Hongyi couldn't help but feel frustrated.

in fact, with her prideful personality, she didn't even care about these so-called masters from the outside world, especially a super dark horse like lin yi who rose up quickly by chance. in her original understanding, he was just a guy with a pretty face.

in the entire sea area, only the high priest and the others who were at the top of the sea could attract her attention.

Hell Street was like a Holy Land in the vast sea. Anyone who walked out of it was enough to stir up the wind and clouds. Everyone who had seen them could only look up to them.

and yet, he'd met his match right from the start.

It would be fine if that was all, but Lin Yi was the number one in the current situation of the left and right seas. He was someone who could go up against the ceiling, and it was her bad luck to meet this kind of animal outside.

At least she could use the one in a billion chance to comfort herself.

after all, even in the long history of the sea realm, lin yi's meteoric rise to the top in just a few months was something only a scorpion could do.

the one who had really hurt her self-esteem was wei yu 'er.

The iron-like truth was placed in front of her. This ugly girl, who couldn't enter her eyes at all, was now no longer inferior to her.

If this trend continued for a while longer, she would most likely be caught up by Wei Yu 'er, or even left in the dust by Wei Yu' er!

faced with such a terrifying reality, chu hongyi's three views were shattered.

Before this, even though she had no personal freedom in hell Street, she was still proud of it because she was sure that it was the Holy Land that represented the peak of the sea realm's combat power.

but now, she no longer had that confidence.

she didn't even know if bringing lin yi back to hell street was a good or bad thing.

Chapter 10314

The Queen of the abyss and the nameless scholar, the invincible existences in her eyes in the past, could they really suppress this perverted animal that was unreasonable in all aspects?

"there's no need to go through the eighteen levels of hell, there's another entrance."

Chu Hongyi replied in a muffled voice and then entered an inconspicuous Whirlpool beside her.

Lin Yi and Wei Yu 'er looked at each other and followed.

he didn't notice anything unusual at first-it was just a normal whirlpool, but as time went by, lin yi noticed something different.

"You're changing the route of the vortex?"

lin yi was surprised by the discovery.

In general knowledge, although the routes of the countless vortexes in the sea could change at any time, they could not be changed by human power.

in the face of such a great force of nature, even a top-tier human cultivator would not be able to overturn the vortex route!

however, chu hongyi was clearly doing this.

Chu Hongyi looked at him and said, "this is not my power. It's the power of hell Street. Do you know why that place is called hell Street?"

"Everything in the world will eventually return to hell."

"hell street is the end of the ocean. it's the home of everything."

"if you walk along the vortexes, you'll find that any one of them will eventually lead to hell street."

"what i'm doing now is just using the gravity of hell street to speed up the progress."

lin yi's understanding of the world was refreshed, and some of his questions were answered.

&Nbsp; if hell Street was the end of the ocean, then it made sense for the evil god to place his human body there.

Since that place was the end of everything, if it was guided in the opposite direction, it could naturally become the starting point of everything.

&Nbsp; as long as the evil god placed their power there, they could spread their influence to the entire sea. For example, they could kill 80000 people in one night.

lin yi didn't believe the evil god's threat of killing eight million with a curse.

However, if he used the geographical advantage of hell Street, the credibility would be much higher.

"If that's the case, then hell Street is the number one strategic location in the entire ocean," Lin Yi said faintly. "I really have to take it."

"if you have the time to talk big, you should think about how to get in first."

Chu Hongyi sneered. although this is a fast passage, you have to pass through the rebirth Valley. The four Valley Masters there are not to be trifled with. Don't think that you can pass through it easily.

"Reincarnation Valley."

lin yi blinked-he'd heard that word from grandma qin before.

that was the limit that the qin family and the four seas "royal families could reach. all the life crystals came from there.

However, as far as they knew, the people who traded life crystals with them were from the land race on the other side of rebirth Valley. They didn't expect that rebirth Valley was actually connected to the gate of hell Street.

you've made such a big fuss this time that everyone in the sea realm knows you're here. If you're blocked in reincarnation Valley and can't even reach the gate of hell Street, it'll be a joke.

chu hongyi reminded him with a sharp tone.

"if you like to smile, then smile. it's not a bad thing, it's good for your health," lin yi said faintly.

"....."

Chu Hongyi couldn't help but choke. After a moment, she couldn't help but say, " "don't you want to know about the four valley masters in advance so that you can be mentally prepared later?"

"I'm not planning on making friends with irrelevant people," Lin Yi said, looking at her. "Is there a need to know so much?"

Chu Hongyi was completely speechless.

half a day later, the three of them walked out of the vortex. in front of them was an unfathomably deep valley. it was the rebirth valley that chu hongyi had mentioned.

"after passing through here, you'll reach hell street."

Before Chu Hongyi could finish, Lin Yi had already walked in.

The three of them felt a bone-chilling cold the moment they entered the valley.

Just this chill alone was enough to make most Supreme realm experts flinch. Even a Supreme realm expert might not be able to withstand such a cold.

Soon, a human-shaped ice sculpture appeared in front of the three.

to be more precise, it was not an ice sculpture at all, but a corpse, a corpse that had been frozen to death. the despair and fear before death could be clearly seen through the ice.

Golden class mid phase venerable.

Lin Yi could tell what level the man was at with just one look. It was a corpse, but there were still many details that he could tell how strong he was when he was alive.

It wasn't top-tier, but it definitely wasn't weak either.

in the sea area, he was more or less a figure who could make a name for himself. however, here, he was directly frozen to death at the entrance of the valley.

there were no signs of a fight on this person.

In other words, this golden class mid phase venerable didn't even get to see the four Valley Masters before he froze to death. No wonder he died with grievances!

The three of them walked forward for a short while before they saw a second body.

His death was the same as the first one.

The only difference was that this one was a bit stronger-a golden class mid phase peak venerable.

As he continued forward, Lin Yi soon saw the third and fourth mayflies.

if other people had seen such a scene, they would have already retreated. the later they encountered the corpses, the higher the cultivation realm of the dead.

when it came to the thirteenth one, it was a golden class late phase peak venerable!

In the outside world, he would have been one of the top combatants. However, here, he was just a frozen corpse, a corpse that was kneeling on the ground.

Although the previous corpses were not as strong as this person, they could still stand and die. Only this person died on his knees!

this wasn't because he had a cultivation state but no strength. on the contrary, it was precisely because he was stronger than the previous ones that he was kneeling here.

It was the first time Lin Yi had seen signs of a fight.

the traces weren't obvious and were just a passing glance, which meant that the person who killed him was far stronger than him. if he wasn't mistaken, it should be one of the four valley masters that chu hongyi had mentioned.

it was probably because they had fought before that the other party had deliberately let him die in such a humiliating manner.

In comparison, those who died first were considered lucky. At least they could still die standing and did not have to suffer such humiliation for thousands of years after death.

What he saw next changed everything he knew.

the death of this golden class late phase peak venerable wasn't the end, it was only the beginning.

After that, the three saw twelve more bodies.

All of them knelt on the ground, and more importantly, each one was stronger than the last.

More than half of them were golden class late phase peak full Venerables!

even at this realm, he was guaranteed to have top-tier battle prowess. if he were to be placed outside, he would be a big shot existence at the level of the king of the four seas.

but here, they were just decorations for the kneeling on the ground.

Chapter 10315

The only meaning of their existence was to show Lin Yi the power of rebirth Valley!

seeing this, even the usually expressionless wei yu 'er could not help but frown slightly. she could feel that her strength was at most on par with the people kneeling on the ground.

In other words, if she had come by herself this time, there was a high probability that she would end up kneeling to death here.

chu hongyi's expression did not look good either.

although she was from hell street and rebirth valley was only a subsidiary of hell street in name, it would be difficult for a person like her to escape such a fate if she were to be left alone here.

The four Valley masters of death Valley didn't treat hell Street with much respect!

Only Lin Yi, on the other hand, didn't have much of an expression.

"Where did this trash come from? how dare you come here and disturb this old man's clear dreams? get out!"

a deep voice suddenly rang out from all directions.

Lin Yi raised a brow-it wasn't just the Echo from rebirth Valley, but it came from more than one place. It was impossible to tell.

"yes," chu hongyi replied first, "he's the new ruler of the four seas, lin yi. he's been invited by the two lords of hell street to fight. please make things easy for him."

to the people of rebirth valley, perhaps only the names of the abyss queen and the nameless scholar, who were at the top of the sea, could be a little intimidating.

In the end, another disdainful voice replied, " "what dogshit sovereign of the four seas? you've given yourself a title, haven't you? do you think i'll acknowledge it?"

chu hongyi's expression changed slightly. this situation was within her expectations.

From her point of view, it wasn't a bad thing for the people of rebirth Valley to give Lin Yi a warning. In other words, if Lin Yi couldn't even get through rebirth Valley, he wouldn't even need to go to hell Street.

It would be embarrassing to go.

but the problem was that she was with lin yi now.

if lin yi was stuck here, she'd be buried with him. they wouldn't let her off just because she was from hell street.

In the end, her status in hell Street wasn't that high.

Hell Street had many restrictions, and the two ceiling of the sea level players were unable to break through the restrictions.

on the contrary, those who could break free from the restrictions were definitely not big shots. at best, they were just minions like her.

because of this, reincarnation valley's attitude towards hell street had always been rough. most of the time, they didn't even show the basic courtesy on the surface. in any case, the abyss queen and the nameless scholar wouldn't rush out to mess with them.

at this moment, another voice with an overbearing aura sounded.

"You can pass my reincarnation Valley if you want, but do you see the role models in front of you? if you're lucky, you might be able to make it to hell street."

The other voices laughed evilly in unison.

Chu Hongyi looked at Lin Yi helplessly, "what do we do?" if you don't do as they say, they'll definitely attack you, and all at once!"

in this kind of ghostly place where there was no light, it was naturally impossible to pay attention to any one-on-one rules of the martial world.

Once they made a move, there would only be the difference between life and death.

lin yi, on the other hand, ignored it and continued walking.

Wei Yu 'er was the same. If Lin Yi left, she would follow without any hesitation.

Chu Hongyi was taken aback. She could not help but look around worriedly. She had no choice but to be extremely careful as she slowly followed.

"Motherf * cker, another idiot who doesn't know his place!"

a ghostly figure suddenly appeared above lin yi's head, causing chu hongyi's eyes to twitch.

if she was in lin yi's position, she wouldn't even have a chance to react.

Surprisingly, Lin Yi didn't move at all.

he didn't dodge or receive the attack, as if he didn't notice the appearance of the other party at all.

did he not notice it?

doubts flashed through chu hongyi's mind, but she rejected them immediately. after these days of interaction, she recognized lin yi's strength.

If not for that, she would not have been so honest and willing to be Wei Yu 'er's Whetstone.

she was sure that with lin yi's strength, even if he was at a disadvantage against the four valley masters, he wouldn't pull her away.

lin yi must have his reasons for not moving!

As expected, the ghostly figure that suddenly appeared above Lin Yi's head didn't attack immediately when faced with such a good opportunity. Instead, it retreated as if it was afraid of something.

"damn, you're so slow, i'm too embarrassed to make a move!"

his voice was filled with anger.

immediately after, another voice laughed, " "Third brother, since when have you become so timid? you've already stepped on his neck and you're still scared to come back. Are you deliberately embarrassing our reincarnation Valley?"

"F * ck you!"

"i just don't want to play with him to death. i just want to keep him alive for a while longer!" third brother was exasperated.

"then i'm sorry, third brother. you want to play with him, but i don't have the patience. it's better to just end it with a pair of scissors!"

as soon as he finished speaking, another figure as fast as lightning turned into a flash of lightning, coming from the far end of the rebirth valley, straight for lin yi's position.

However, to Chu Hongyi's surprise, the lightning passed over Lin Yi's head. It was theoretically the best time to attack, but it was the same as the ghostly figure just now-it just streaked across.

"Second brother, you're good at talking, but your guts don't seem to match your mouth!" i thought you didn't have the patience, why didn't you dare to make a move?"

stop talking nonsense. This person is quite something. Third and fourth, attack him together!

this time, the second brother's voice was much more serious, his tone clearly fearful of lin yi.

Lin Yi didn't have any intention of attacking at all, but he'd already finished testing the waters.

when one's strength reached a certain level, one didn't necessarily have to attack just to test.

Just the invisible collision of their auras was enough to tell many things.

lin yi didn't let his aura out during the two exchanges, but it was precisely because of that that his opponent was so suspicious.

the aura was like the flame on a candle. in a normal duel, in order to suppress the other party, the bigger the flame, the better.

lin yi, however, didn't.

if that was all, it would be fine. it could only be said that his reaction was slow, or that he only had this little strength. it was not a big deal.

but the problem was, in the time between their attacks, not only did lin yi's aura not change, even the flame didn't move at all!

it was like fanning a candle, but not only did the candle not go out, but the flame did not even move!

Chapter 10316

This scene would make anyone's hair stand on end.

Although the other party had an arrogant personality, since he was able to guard rebirth Valley, he must be an expert who had been through hundreds of battles. Naturally, he could see the deep meaning behind this.

Either Lin Yi used some special method to Bluff, or Lin Yi's strength was beyond their imagination.

although they didn't believe it was the latter, they were still prepared to attack together.

in the next second, three figures came from three different directions and attacked with an overwhelming and terrifying aura!

chu hongyi's eyelids twitched.

Any one of these three people was far stronger than her. Ordinary top-tier combat strength was not enough to describe them.

The three Valley masters of death Valley, even if they had not reached the ceiling, could already be considered super experts at the quasi-ceiling!

compared with bai ze, the general of the guards of the divine hall, even if he was not as strong, he was at least on the same level.

These three people attacked at the same time with such tacit cooperation, leaving no flaws or gaps. With Chu Hongyi's experience, even if it was the real ceiling of the sea, it would not be easy to take it head on!

wei yu 'er raised her sword, wanting to help out.

Only to hear Lin Yi blurt out two words, "No need."

Before he could finish his sentence, the three's killing moves had already enveloped him, but before he could do anything, an indescribable terrifying pressure exploded from Lin Yi's body.

weng.

the entire reincarnation valley trembled.

Lin Yi continued to walk forward as if nothing had happened. Behind him were the three bodies of the valley Masters who had attacked!

“.....”

Chu Hongyi covered her mouth and was dumbfounded for a long time.

In her opinion, even if Lin Yi could resolve the crisis, he would have to pay a heavy price. At the very least, he would have to struggle for a while.

Who would've thought that he didn't do anything at all and just relied on his aura to directly shock three people with near-ceiling combat strength to death!

Looking at Lin Yi's back, Chu Hongyi had the urge to kneel down.

She thought that Lin Yi was here to die, but it seemed like she had underestimated him.

If he didn't have enough confidence, why would he step into hell Street?

to him, death valley was just a small monster before the boss. there was no need to be too afraid. he just had to crush it.

"Co-existence of fate and destiny! sea aura! it's indeed a good method, and the future is terrifying."

a skinny figure had appeared in front of lin yi, blocking his path. he looked like a dying candle in the wind, or more accurately, a skeleton in a grave.

A thick layer of ice had even formed on his body.

The only difference between him and the previous human-shaped ice sculptures was that he wasn't kneeling, and there was an additional trace of undetectable aura.

"big valley master?" lin yi looked at him.

"yes, i am," the other party replied.

"You're trying to stop me?" Lin Yi raised a brow.

"i'm excited to try it out."

As the skinny old man spoke, he sat down on the spot, trembling, and put his hands together.

in an instant, a vast and pure power surged in from all directions. this was a mysterious power that carried faith.

When all of them returned to his body, the old man still looked the same. His appearance had not changed at all, but the aura that he exuded had turned the world upside down.

the entire reincarnation valley was covered by it.

What was even more shocking was the vague outline behind him. It was the shadow of a God.

"li bunian, the arhat!"

seeing this, chu hongyi suddenly recalled and couldn't help but blurt out, "He is the previous generation's ceiling of the sea realm, the legendary son of Buddha li bunian!"

The information flashed through Lin Yi's mind.

The ceiling of the sea realm rarely changed because the level was too high. The ceiling of a generation could often dominate the sea realm for hundreds or even thousands of years, unless someone died.

however, there were very few cases where unexpected changes would occur.

In the Yangtze River, the waves behind pushed forward the waves in front. When a monstrous figure appeared out of nowhere, it was possible for him to directly step on the ceiling of the sea area and rise to the top.

the son of buddha li bunian was the wave that was stepped on.

This kind of person was obviously not the same as the previous three cannon foddors who had never really stepped into the ceiling level. He was the real ceiling of the sea realm, but the ceiling of the previous generation that had been eliminated.

The old man looked at Lin Yi with his cloudy eyes, your thoughts are too complicated. The more you are tied down, the more pain you will feel. Why don't you stay with me and comprehend the great Dao? you can reach Nirvana sooner.

"I'm not interested in your Dao."

Lin Yi didn't even look at him and just walked past him.

The instant Lin Yi passed by, the Buddha behind the skinny old man suddenly put his palms together and started chanting.

chu hongyi was immediately affected. she lost her mind, and her primordial spirit was about to collapse.

at the crucial moment, she suddenly felt an indescribable pain from her back. chu hongyi quivered and immediately sobered up. she turned around and saw that wei yu 'er had stabbed her!

"mind your own business!"

chu hongyi cursed in anger.

she naturally knew that wei yu 'er had stabbed her to save her. with their tense relationship these days, she could not wait to kill the other party to vent the hatred in her heart. wei yu' er must have the same thoughts.

however, she did not expect wei yu 'er to save her!

Wei Yu 'er replied,"don't misunderstand. I wanted to kill you, but I accidentally stabbed you in the wrong direction."

"....."

chu hongyi could not help but laugh in anger. however, the invisible feeling of suffocation had been diluted by a lot, and even the pressure brought by the buddhist incantations had been greatly reduced.

this was not strange.

after all, be it her or wei yu 'er, they were not the target of the son of buddha li bunian's attack. they were only caught up in the aftermath of the attack because they were in the rebirth valley.

The first to bear the brunt of the attack was Lin Yi, who was only a step away from the man.

just the outer shockwaves were enough to almost destroy her, a top tier combat power. she couldn't imagine what kind of terrifying impact lin yi was going through.

this was the full-power attack of the previous generation's sea realm's ceiling. furthermore, the technique was profound and directly attacked the essence soul's foundation.

in her mind, lin yi was going to have a hard time this time.

in the end, she saw lin yi walk past li bunian as if nothing had happened.

“.....”

chu hongyi was completely at a loss for words. that was the son of buddha, li bunian. how could he not be affected at all?

it wasn't as if there wasn't any change at all-at least the rhythm of lin yi's footsteps had changed a little.

however, after he passed by, li bunian's life force suddenly dissipated and his head drooped down powerlessly. he had become a real corpse.

chu hongyi was dumbfounded.

The dignified ceiling of the previous generation's sea realm was actually destroyed in seconds?

in fact, she wasn't the only one who was shocked. at this moment, in hell street, the abyss queen and the nameless scholar, who were watching this scene, also frowned at the same time.

" li bunian, the son of buddha who was trampled under the queen's feet, turned out to be so weak. what a disappointment. "

in front of the breakfast stall, the nameless scholar chuckled and stood up.

the queen of the abyss was a little dazed.

she was the queen of the abyss, who had stepped on the son of buddha li bunian to rise to the top of the new generation.

However, even though she had lost to him, his strength was not as weak as what others thought. On the contrary, the difference in strength between her and Li bunian was actually very small. They could be said to be on par with each other. The difference between winning and losing was only one move.

Now that so many years had passed, they had not fought each other again.

However, from a logical point of view, even if the gap in strength could be widened, with li bunian's Foundation, the gap would not be too big, much less to such an extent.

"maybe it's not that li bunian can't take a hit, but this lin yi, he's too strong."

the queen of the abyss said faintly.

the nameless scholar chuckled indifferently, " "then i'll really have to wait and see. hell street has been silent for so many years. it's been too long since it's been lively."

"Aren't you afraid of following in li bunian's footsteps?" the Queen of the abyss looked at him.

The nameless scholar's expression was calm. that's great. I've been waiting impatiently for this day for a long time. I'm just afraid that he's not worthy.

"is that so?"

a voice suddenly sounded in front of the two, and the two couldn't help but freeze when they saw lin yi.

They came so quickly!

although the moment li bunian died, it was already decided that lin yi would come to hell street, but the speed at which lin yi appeared was still far beyond their expectations.

chu hongyi and wei yu 'er followed behind lin yi and quickly knelt down to greet them, " "This servant greets the master!"

the abyssal queen, who had the appearance of a young girl, waved her hand and said, "forget it, just wait on the side."

"Yes."

At this moment, Chu Hongyi no longer had the arrogance from before. She lowered her eyes and was very clear about her position.

the nameless scholar squinted his eyes and suddenly asked with interest, " "how did you kill the son of buddha li bunian? can you help me clear up my doubts and broaden my horizons?"

as soon as he said that, even the queen of the abyss looked inquisitive.

Although the two of them had watched the entire battle through the mirror, they were not in the real world after all. No matter how clear the mirror was, they could not feel some of the material things.

as for how li bunian died, whether it was the queen of the abyss or the nameless scholar, they could only guess a thing or two. they could not completely deduce the real beginning and end.

lin yi's use of the world's will was beyond their knowledge.

"that's easy. if you want to know, why don't you experience it yourself?" lin yi said.

"....."

the nameless scholar's eyelids twitched.

The Queen of the abyss showed an interested expression. "you're indeed different from those people in the past."

In the past, although the people who had entered hell Street were all pretty good, they were all trembling with fear. Especially when they were facing her and the nameless scholar, the two top figures, they were even more so. They were like facing a great enemy and didn't dare to relax in the slightest.

Yet Lin Yi's attitude towards them was the same as treating them as cannon fodder.

This was clearly the attitude of a superior who had absolute strength!

the nameless scholar sneered, "then i'm really curious, where did you get your confidence from?."

why are you saying so much? if you can do it, don't talk nonsense. Come on.

lin yi's attitude stunned the two.

the nameless scholar had always been good at playing with people's minds. ao sibian and ao qing were his handiwork. ever since he became powerful and rose to the top of the sea area, he had always been the one playing with people's minds.

but now, lin yi's words had made him so angry that he couldn't help but miss him.

"you're trying to get your attitude right? as expected of someone who can make a name for himself in the sea realm. he's really something."

the nameless scholar immediately reacted. he quickly adjusted his state of mind while secretly being alert. even if a person like him was careless for a moment, he would not reveal any real flaws.

on the contrary, it was very likely that he would set a trap for her.

those who were able to occupy a place at the top of the sea realm were not easy to deal with.

lin yi raised an eyebrow, "i've already said this much, are we still not going to fight?" this scholar's bearing is really a bit impressive."

His tone was very sincere.

however, when these words fell into the ears of the person involved, no matter how he heard it, it sounded a little strange.

The loli-like abyss Queen fanned the flames. "if i were the one being provoked like this, i wouldn't be able to take it. i'd definitely flip the table immediately.

If you don't even have this bit of courage, what kind of ceiling is this? you might as well dig a hole and bury yourself."

although she and the nameless scholar could be considered as old neighbors of hell street and had been together for at least a few hundred years, they had never gotten along.

If there was a chance to make the other party suffer a loss, whether it was her or the nameless scholar, they would definitely be more than happy to do so.

Lin Yi targeting the nameless scholar right from the start was exactly what she wanted-she'd be able to figure out Lin Yi's strength while watching him suffer.

Lin Yi's eyes fell on her as soon as she finished. "Queen, do you want to join us?"

"....."

the abyssal queen's face suddenly stiffened, and then she couldn't help but laugh in anger. interesting. You actually want to directly 1v2. You're so confident? "

to be fair, even if lin yi didn't beat the two of them directly, it would be a great achievement if he only tied with one of them. it would be enough to change the power structure of the entire sea area.

Now, he actually wanted to 1v2?

all experts had their own pride, but having confidence and confidence was one thing, being blindly arrogant was another.

"even zhang xisheng wouldn't dare to say that. do you think you're stronger than him?"

the nameless scholar slowly walked behind lin yi, forming a pincer attack with the abyssal queen.

Although it was a simple position, the pressure that the two of them exuded was enough to make any sea realm expert flinch.

Even the ceiling combat power of the same level would have to retreat.

Chapter 10318

Even if there was a difference between the strong and the weak, it was only a slight difference. No one could resist the joint attack of two ceiling-level experts at the same time. Even the high priest Zhang xisheng, who was previously known as the number one man in the sea area, did not have such confidence.

Seeing that the battle was about to start, Chu Hongyi tactfully retreated into the distance.

She knew very well that with her strength, she wasn't even qualified to watch the battle from a close distance, let alone interfere. Even if she retreated to the edge of hell Street, she couldn't guarantee that she could withstand the aftermath of the battle.

however, unexpectedly, wei yu 'er did not retreat. instead, she walked straight into the middle of the arena, and actually assumed a fighting stance with lin yi, back to back.

The nameless scholar and the Queen of the abyss were stunned at the same time.

"There's a limit to overestimating yourself, right? Did you come in to be funny?"

The nameless scholar's anger rose even more-he was a schemer, but for some reason, he just couldn't control his emotions after meeting Lin Yi.

"What's the point of adding her as cannon fodder?" the abyssal Queen pouted. you can't possibly think that she can share some of your burden and temporarily hold one of us back, right?"

they were not interested in knowing wei yu 'er's strength, and there was no need to know.

Lin Yi's madness was a little unreasonable, but he had his previous battle records as a basis, especially with li bunian's shocking performance in a one-hit kill.

but who was this wei yu 'er?

With the two's vision, they had already seen the upper limit of her strength with a casual glance. It was meaningless for a mere top-tier combat power to enter this ceiling-level game except to give up their lives.

"maybe it'll be of some use?" lin yi didn't seem to care.

The nameless scholar and the abyss Queen were speechless. Even Chu Hongyi, who had retreated far away, rolled her eyes when she heard this.

"if you're going to use her as cannon fodder, then it's a little too little for you to bring her alone."

the nameless scholar snapped his fingers, and thousands of mirrors appeared around them, all of them facing lin yi and lin yi.

The Mist in the Mirror was rolling, giving off an extremely uneasy aura.

These auras were all different, and huge and terrifying silhouettes could be vaguely seen among them. The only thing they had in common was that they were extremely fierce and powerful!

"space rules?" lin yi's eyes lifted.

these mirrors were obviously not ordinary mirrors. they were clearly spatial channels that connected various secret realms. every outline that appeared in them was not fake, but a real terrifying giant beast!

in comparison, the methods that ao qing had shown before looked similar, but in fact, they were completely different.

lin yi could clearly feel that each of the beasts in the mirror was strong enough to kill any top-tier combat power in the sea just by the aura they emitted.

even the quasi-ceiling combat strength of commander bai ze!

If these thousands of mirrors were to attack at the same time, the scene would make one shudder.

"If you think so, then there's nothing wrong with it," the nameless scholar replied indifferently.

any power that was linked to space was not to be underestimated. his mirror space was naturally a space as well.

while the two of them were conversing, the ground beneath their feet had unknowingly turned into an endless abyss.

Without a sound, the Queen of the abyss had also launched her power.

it wasn't just lin yi and wei yu 'er, the entire hell street was covered in an endless abyss. the power of the abyss was everywhere, crazily eroding every inch of space.

However, the strange thing was that hell Street was still full of people, and the bustling city was still in sight, maintaining a lively atmosphere.

the passers-by seemed to be unaware of what was happening in front of them.

Even if there was an endless abyss beneath their feet, they would turn a blind eye to it and not see it.

"so that's how it is, hehe."

lin yi realized what was going on-he'd felt like something was wrong the moment he'd entered hell street, and the whole street was filled with smoke and fire, but he couldn't put his finger on it.

this was not just an illusion.

as a grandmaster himself, lin yi's sensitivity to illusionary techniques was far beyond any other master at the same level.

At least on one point, he could unceremoniously say that no one in the entire sea region could be above him!

Hell Street wasn't an illusion. In essence, these people who came and went were all real. It was just that they didn't exist at this time.

It might be in the past, or it might be in the future.

This was clearly an extremely brilliant time ability.

The space of the nameless scholar, the abyss of the Queen of the abyss, and the time in front of them. The impact of these three forces together was enough to shock any human cultivator's mind.

after all, any one of them was a very powerful existence.

Lin Yi narrowed his eyes-this was an invisible show of force!

it was not from the nameless scholar or the queen of the abyss, but from the evil god who had yet to show his face.

Only an evil god could do such a thing.

The nameless scholar saw the shock in Lin Yi's eyes and hmped coldly, if you kneel down and beg for mercy at this time, it'll be too boring. Previously, someone forced Grai to a higher level than you, but unfortunately, when it comes to the real deal, he knelt down more nimbly than anyone else!

"Don't worry, my legs aren't very nimble, I can't kneel."

lin yi shook his head lightly, and the aura around him exploded as he spoke.

In the blink of an eye, it had already climbed to an unprecedented height. Sword light could be seen in the sky, and the sword sacrifice had already taken shape!

the nameless scholar and the queen of the abyss looked at each other. they could not hide the shock in each other's eyes.

they'd studied lin yi's information before.

and of all the abilities that lin yi had displayed, the one that he had to be wary of the most was the sword sacrifice!

as far as the two were concerned, this was lin yi's only real threat to them. once the sword ritual was complete, even they wouldn't be able to escape unscathed.

Of course, at their level, they would not die so easily. Even a sword ritual would find it difficult to kill them in one strike.

However, serious injuries were inevitable.

there was no need to communicate at all. the nameless scholar and the abyss queen had already formed a tacit understanding. they couldn't give lin yi the chance to prepare his sword.

Just in case, he couldn't give them a single step!

as long as lin yi didn't use the sword sacrifice, even if he used other moves, they would only be hurt a little. it wouldn't shake their foundations.

Chapter 10319

But who would've thought that Lin Yi didn't even need to do that and directly formed the sword sacrifice!

"Impossible! even the most powerful sword saint in history has to accumulate power before using the sword sacrifice. even if it's compressed to the limit, it still needs to take at least one step."

The nameless scholar's brows were tightly furrowed, and his face was filled with bewilderment.

The same doubt appeared on the Queen of the abyss 'face.

this was not hearsay, but the conclusion they came to after fighting with the previous sword saint, ye qiyuan, to verify it. at that time, the limit that ye qiyuan could reach was only two steps of storing power, only one step away from the strongest in history.

How long had Lin Yi been a Sword Saint?

no matter how high his talent was, far above ye qiyuan, in such a short time, at most he would only be one step ahead of ye qiyuan.

breaking through the heavens was just accumulating power in one step.

the scene before their eyes had completely exceeded their previous understanding.

"i already took that step before i came in, didn't you two see it?" lin yi replied faintly.

“.....”

the nameless scholar and the abyss queen were stunned as they recalled the scene where lin yi and li bunian crossed paths.

This guy did not go all out to kill li bunian but used it as a stepping stone to complete the accumulation of power for the sword sacrifice?

Was this something a human could do?

after all, he had the combat strength of a heavenly flower board. after guarding the rebirth valley for so many years, even if his strength did not advance by leaps and bounds, it was at least steadily improving. how could he be so insignificant in his eyes?

it was no wonder that li bunian died with grievances.

However, Lin Yi's answer was much more chilling to the two compared to activating the skill without storing energy.

this meant that from the moment they met, lin yi had been preparing for the sword sacrifice, and the two of them didn't even notice it. just how strong was his control over the sword sacrifice?

In an instant, Lin Yi's danger level in their hearts increased by several levels.

a normal sword sacrifice was strong, but it might not be able to hurt them, but if it was controlled to the same level as lin yi, the threat would be magnified at least ten times!

Perhaps, he could really kill them with one sword.

at this time, the nameless scholar faintly said, " " no matter how strong your sword sacrifice is, you can only kill one person. when you attack, you will still be unable to escape death. "

The sword sacrifice could attack a group of people, and any move could kill a group of people at a certain level.

Unfortunately, this kind of group damage was not enough for the top combat power.

In other words, no matter which one of them Lin Yi targeted, he would kill the other. The most ideal outcome would be a life for a life!

Lin Yi couldn't accept this result.

After all, he didn't have any deep enmity with the two of them. Even if they had some friction before, it definitely wasn't to the point where he would exchange his life for theirs. Not to mention that it wasn't a 100% guarantee that he would succeed, even if he did, he would still suffer a great loss.

"i can only kill one, but can't she do the same?" lin yi smiled.

The nameless scholar and the Queen of the abyss were stunned.

From the beginning to the end, they did not even look at Wei Yu 'er once. To a cannon fodder that was destined to not be a threat to them, any attention was unnecessary.

however, a horrifying scene appeared. unknowingly, wei yu 'er had also formed a sword offering in her hands!

“.....”

The two of them suddenly felt as if their world views were shattered.

The abyssal Queen's loli face was filled with disbelief as she muttered, " isn't the sword ritual exclusive to the sword saints of each generation? how can it be learned by others? "

In fact, the sword sacrifice was an ultimate sword technique developed by the sword Saints, built on the foundation of sword rules.

the rules of the sword could only be inherited by the sword saints of each generation, and the sword sacrifice could only be practiced by the sword saints of each generation!

other sword experts, no matter how talented they were, could at most imitate some of the thick sword intent of the sword sacrifice, but could not practice the real sword sacrifice.

However, what Wei Yu 'er was holding in her hands was not just an imitation sword intent, but a real sword offering!

even the nameless scholar and the queen of the abyss felt threatened by the fatal threat that was faintly emitted from it.

"Coherence!"

the nameless scholar gritted his teeth and made his judgment.

lin yi couldn't help but glance at him, surprised. "as expected of the ceiling of the sea. you're really knowledgeable."

wei yu 'er's sword sacrifice was the real deal, but it was not her own work. she had borrowed the power of lin yi's sword sacrifice and achieved synchronization with it, then copied it!

to a certain extent, wei yu 'er could be said to be a special clone of lin yi.

She had her own unique will, but the source of her power came from Lin Yi. Because of her special nature as a sword shadow, she had a unique advantage in receiving Lin Yi's sword rule power.

the situation fell into a stalemate.

if lin yi was the only one holding the sword, the two would be able to control the situation even if they were afraid.

However, now that he had suddenly raised his sword with two hands, the situation had changed.

Even if the power of Wei Yu 'er's sword sacrifice might not be as strong as Lin Yi's original, it was still a sword sacrifice after all. Even if it was only 60% of the original's power, it was enough to restrain them.

In that case, Lin Yi could kill one of them at any moment, while the other would be under the protection of Wei Yu 'er.

Even if they could retreat, they wouldn't be able to find Lin Yi's weakness, or at least they wouldn't be able to kill him!

"If the two of you aren't going to move, then I'll move."

lin yi's words made the two's eyes twitch-the situation had completely spiraled out of their control.

at the very least, the current situation was completely different from what they had expected. one should know that even when the high priest zhang xisheng came to hell street, he didn't make them so passive.

Lin Yi wasn't bluffing-he attacked without hesitation when the two didn't respond.

When he made his move, Wei Yu 'er naturally followed suit.

in an instant, the time and space of the entire hell street seemed to have frozen. only the two sword sacrifices, one on the left and one on the right, cut through time and space, each aiming at their respective targets.

In terms of the scene, the sword sacrifice's power was not as shocking as the opponent's.

If it was a cultivator with a slightly weaker strength, they would not even be able to see the horror of it, nor would they be able to sense the stagnation of time and space.

They would only think that this was an ordinary sword.

The only special thing about it was that it was more difficult to guard against.

Chapter 10320

However, the nameless scholar and the Queen of the abyss, the two top figures of the sea realm, had a drastic change of expression at this moment, as if they were facing a great enemy!

Others might not be able to detect the frozen time and space, but they could.

Not only that, they could even react with their strength!

It was a pity that in the face of the double blockade of time and space, whether it was the nameless scholar who had mastered the mirror, the disguised spatial power, or the abyssal Queen who was in charge of the abyssal power, there were not many real movements that they could make. They could only make extremely subtle movements.

And this little bit was completely not enough to change the outcome.

in the end, the trajectory of the two styles of sword sacrifice passed through the two of them.

One was a headshot, and the other was a throat. They were all fatal spots!

Such damage was enough to kill any top-tier combat power in an instant. Ao Taiwei and ao Sifang, who were the benchmark of top-tier combat power, had already demonstrated this.

however, the nameless scholar and the queen of the abyss did not die.

the moment they were pierced by the sword offering, their auras did indeed plummet at a speed visible to the naked eye, but they quickly rebounded.

as expected of the ceiling of the sea. It really can take a beating.

Lin Yi said sincerely.

this scene was naturally within his expectations. if he was killed so easily, then he would not be standing at the peak of the entire sea realm.

At that time, he was able to defeat ye Qiyuan mainly because of the sword saint's replacement, and his power was obviously in a vacuum period compared to his peak state. In addition, he beat ye Qiyuan at his own game and caught him off guard, which was why he finally had the last laugh.

otherwise, that battle would have been the most dangerous one he had ever fought since he entered the sea area.

in fact, it was very likely that this would be his only defeat!

Any character that could reach the top would definitely be able to attack and defend at the same time, and would definitely not have any obvious weaknesses. Even if he used an ultimate killing move like sword sacrifice, it would not be so easy to break through.

Of course, since the nameless scholar and the Queen of the abyss had each suffered a sword attack, even if they didn't die on the spot, they were bound to be greatly injured.

on the mirror surface of the nameless scholar, one shocking crack after another quietly appeared.

As for the abyss beneath their feet, it did not look much different from before.

However, Lin Yi could clearly feel that the abyss's restrictions on his five senses had decreased significantly.

Even if it was still bottomless, once he could extend his perception far enough and set up the first outer defense line, the threat of the endless abyss would be greatly reduced!

From these two points, the effects of the sword sacrifice were immediate.

the nameless scholar snorted coldly. "your biggest trump card is already gone. what qualifications do you have to compete with us? the one who laughs last is the winner. don't you understand such a simple principle?"

At the same time, the roars of thousands of giant beasts came from the mirror.

One after another, the terrifying impact fell with a loud bang. The burden it brought was so great that the cracks on the mirror, which were already shocking, were even more terrible to look at. It was almost about to break on the spot.

in fact, some of the giant beasts had already extended their claws, forcefully squeezing the spatial channel formed by the mirror.

It was obvious that they were not only satisfied with projecting their power, but were also preparing to take the opportunity to descend directly!

The nameless scholar was drenched in cold sweat.

he could communicate with the beasts through the mirror, but he could not control them.

If they were forced to descend, he would be the first to suffer a backlash.

But he had no choice-Lin Yi was giving him too much pressure, forcing him to take the risk!

the abyssal queen was doing the same.

the attack that landed on her was a replica of wei yu 'er's [sword sacrifice], but it was much weaker than lin yi's original. because of this, her injuries were much lighter than the nameless scholar's, but she was still heavily injured.

a nameless gravestone quietly appeared.

lin yi's eyelids twitched. the gravestone was the same as the five he had seen before. it was the gravestone where cruel malevolence and his team were buried.

this also proved that the abyss queen who looked like a little girl was definitely related to cruel malevolence and the other four!

The gravestone exuded an extremely dangerous aura, but it also had an inexplicable attraction that made people unconsciously want to approach it and bury themselves under it.

death was the unchanging destination of life.

And this was the scariest thing about the gravestone. To some extent, it was even scarier than Lin Yi's sword sacrifice.

Even though the sword ritual could not be avoided, at least it would not affect the mind.

On the other hand, the gravestone in front of them was like fate. One did not want to avoid it at all. They subconsciously wanted to lie flat and wait for death!

After all, he would not be able to escape death.

with thousands of beasts roaring above his head and the gravestone behind him, lin yi's situation took a sharp turn for the worse.

As for Wei Yu 'er, she had once again become an invisible person who was ignored.

This was not strange.

her only use in this battle was to be lin yi's tool for the sword sacrifice, and now that she had completed her mission, nothing she did would affect the overall situation.

even though the nameless scholar and the queen of the abyss were seriously injured, they were still not people that she could deal with.

in a battle between the ceiling, the so-called top-tier combat power did not even have the qualifications to pick up the scraps.

Furthermore, the weaker they were, the more power the nameless scholar and the abyssal Queen could mobilize. They were not even strong enough to focus on Lin Yi, how could they have the energy to deal with Wei Yu 'er, the cannon fodder?

from another perspective, lin yi might have wanted them to waste their energy on wei yu 'er to share his burden and maximize the value of cannon fodder.

Then, they once again saw the sword sacrifice in Wei Yu 'er's hands.

Not only Wei Yu 'er, Lin Yi was also holding a [sword sacrifice].

“.....”

the scene was very stiff.

The way the abyss Queen looked at Lin Yi was like she was looking at a pervert."Is the threshold for the sword ritual so low?"

they thought that the sword sacrifice was lin yi's ultimate move, and that he would be exhausted after using it once.

He didn't think that Lin Yi would use it as a normal weapon!

" i'm the current sword saint. since the two of you are in such a good mood, i'll naturally provide you with a signature dish like the sword festival. you can eat as much as you want. i can still hold on. "

lin yi didn't look like he was going to force himself.

in this way, even the nameless scholar, who had been provoked, couldn't help but change his expression.

Even if he was seriously injured, he was confident that he could take Lin Yi away with the abyss Queen.

However, now that he was facing the second wave of sword sacrifice, his confidence was gone.

Lin Yi could handle it, but they couldn't.

if there was another wave of sword sacrifices, even if he and the queen of the abyss could survive, they would at least lose half of their lives. even if they managed to survive, they would have to withdraw from the ranks of the ceiling.

Moreover, there was a high chance that they would die!
