

Bodyguard 10321

Chapter 10321

the nameless scholar gritted his teeth. "i don't believe that you can withstand such a heavy load. i bet you're just bluffing!"

the abyssal queen didn't say anything, but she looked at lin yi with suspicion.

no one in the entire ocean would be a match for lin yi if he were to do anything he wanted, and all the so-called "ceiling" people would have to step down from their positions.

from now on, lin yi was the only one who could be the ceiling of the sea!

Was such a thing possible?

"If you like to gamble, then go ahead. I'll be there for you," Lin Yi smiled.

the nameless scholar was suddenly in a difficult position.

it wasn't that he really couldn't afford to gamble, but it had suddenly developed to this stage for no reason. he was really losing a lot of money. how did he, who was at the top of the sea realm, fall to the point of gambling his life with others?

the key was that based on this situation, the probability of him losing the bet was extremely high!

at this moment, the abyssal queen finally spoke, "i'm sure you didn't come here to fight us to the death. i admit that you have enough strength to talk to us. tell us your intention."

As he spoke, he removed the gravestone behind Lin Yi.

lin yi looked at the nameless scholar, who was suppressing the beasts as well, forcing them back into the mirror.

Chu Hongyi's jaw dropped when she saw this from afar.

the two ceiling-level figures of the sea actually gave in at the same time!

not only was this a rare sight, but she had never seen such a scene before. even when she was suppressed by the high priest zhang xisheng in a one-on-one battle, she had never been afraid of him.

Had Lin Yi's power reached such an exaggerated level that even the former number one of the sea realm was no match for him?

However, Lin Yi didn't let his guard down at all. He still maintained his high pressure posture.

although the nameless scholar and the queen of the abyss appeared to be taking the initiative to admit defeat, they were actually retreating in order to advance.

The exchange just now had already proven that the two of them couldn't outrun the sword sacrifice. If they continued to fight head-on, the most likely result would be that they would each suffer another wave of sword sacrifice.

In contrast, the two of them could focus on defense after the attack.

as long as they could survive the second wave of the sword festival, they would have a chance to regain the initiative.

after all, the chances of lin yi being able to make a third wave were extremely low.

Of course, this was another invisible gamble-if Lin Yi really did create a third wave, then their struggles would be in vain.

But Lin Yi stopped his sword sacrifice as well.

" to be honest, i don't have any ill intentions towards you two. on the contrary, what i want to do is exactly what you two have been dreaming of. "

Lin Yi's words stunned the two.

"Do you know what we want to do?" the Queen of the abyss frowned.

"freedom and leaving hell street, i'm not wrong, am i?" lin yi smiled.

"....."

the two of them looked at each other and saw the shock in each other's eyes.

The two ceiling-level players were guarding hell Street. This wasn't a secret in the outside world, at least in the upper-class circle.

However, due to the mysterious nature of hell Street, no one really knew why the nameless scholar and the abyss Queen were here.

Only they knew that it was not that they wanted to stay here, but that their freedom was limited and they had to stay here!

The nameless scholar looked at him coldly and said, "do you know what you are saying?."

&Nbsp; "the two of you are just trapped by evil gods. This isn't that hard to guess, right?"

Lin Yi's answer surprised the two.

the word 'evil god' was a taboo here because they were too close to the evil god and every minute was under the evil god's surveillance.

Lin Yi's words had undoubtedly attracted the attention of the evil gods.

At that moment, the evil God's eyes must be somewhere in the void, quietly observing everyone's reaction.

the nameless scholar's eyes flickered, but he didn't dare to reply.

In contrast, although the abyssal Queen's expression was also unnatural, she still managed to maintain a calm expression.

"are you trying to say that you are going to help us break the evil god's curse?"

The reason why she and the nameless scholar were trapped here was because they had been cursed by the evil god. If they dared to take even half a step out of hell Street, they would immediately die from the backlash.

to be able to reach the ceiling of the ocean, the two of them weren't people who would be easily scared. even if the other was an evil god, just this reputation might not be enough to suppress them.

Over the years, the two of them had made many attempts in this area.

but in the end, without exception, they all failed. luckily, they had a strong foundation and were able to withstand the evil god's backlash.

Otherwise, Lin Yi wouldn't even be able to see them today. He would only see two cursed corpses.

"the purpose of my trip is to deal with the evil god's human body. i'm sure the two of you know what this means," lin yi said.

"....."

if lin yi had said that before, he'd be treated as a lunatic.

but now, with the two waves of sword sacrifice as the base, they didn't fall out with lin yi even if he was still talking nonsense.

"What big words."

The nameless scholar snorted coldly and said, "even if you can get past us, you won't be able to see Lord evil God's human body. What are you going to do?" Your mouth?"

lin yi raised a brow. "so you two are also hoping that i can solve it. i can understand it this way, right?"

The nameless scholar and the Queen of the abyss were speechless.

at this point, even if they denied it, it would only be self-deception.

Even if there was a God watching, his every move would be under the evil God's surveillance. There was no need to put on an act at this time. Not only would he not be able to hide from the evil God's eyes, but he would also be lowering his status.

It was one thing for the great ceiling of the sea to be trapped here as a watchdog by an evil god, but if he didn't even dare to express his true feelings, he might as well die early.

after a long time, the abyssal queen said in an old and experienced voice, " " if you can't break hell's reincarnation, you will never see the human body of the evil god. no matter how much you say, it's just a waste of your saliva. "

"Where's hell?" Lin Yi asked.

the two of them looked around at the same time.

"What you're seeing now is reincarnation," the Queen of the abyss said indifferently.

"as long as anyone enters this place, they'll enter the cycle of reincarnation, and it'll be an eternal cycle. no matter how many years have passed, they'll never be able to escape."

"This is the origin of hell Street."

"how old do you think the owner of this breakfast stall is?" the nameless scholar sneered.

lin yi looked at the owner-it was a young woman, not very strong. even if she had some sort of technique to keep herself young, she couldn't be over fifty.

Chapter 10322

"thirty-two,"

this was the answer he came to after using his spiritual sense to check the age of the other party's bones.

The nameless scholar sneered, "we've been eating breakfast here for more than six hundred years .."

lin yi's eyes narrowed. his spirit sense was basically accurate, and even if it was, it couldn't be that far off.

Judging from the abyssal Queen's expression, it was obvious that she was not lying.

An ordinary woman had been selling breakfast here for six hundred years. The key was that the other passers-by were used to it and didn't feel anything was wrong.

This meant that this was not the life and death cycle that ordinary people understood, but a Pure Cycle.

"You can talk big after you crack this."

Three copper coins dropped in front of Lin Yi the moment the nameless scholar finished his sentence.

Three plain copper coins without any spiritual energy.

At the same time, a mysterious message appeared in Lin Yi's mind. Use these three copper coins to break Hell's reincarnation.

the queen of the abyss explained, " there is nothing perfect in the world. there is no such thing as an invulnerable layout. even the reincarnation game left by the evil god has the possibility of being cracked. of course, this is only in theory. "

"Three copper coins for three chances?"

lin yi pondered for a moment before asking, "Has anyone succeeded in the past?"

The Queen of the abyss and the nameless scholar looked at each other and replied, " "I've succeeded one and a half times."

"who's that?" lin yi asked.

"high priest zhang xisheng."

lin yi couldn't help but shake his head."he can't be counted, but he's half."

the high priest might have really broken the cycle in form, but the final result was that he was induced and controlled by the evil god. this obviously could not be considered a true solution, at most only half.

Lin Yi even suspected that the round itself was part of the evil God's plan.

After all, a figure like the high priest was not someone that even the gods could control easily. It had to go through a far-reaching layout and even pay a sufficient price to achieve the effect.

"What about the other half?"

The Queen of the abyss did not answer. She only revealed a corner of the endless abyss, her view facing one of the five tombstones.

But when he saw the name on the gravestone, he couldn't help but be surprised.

Anyone who saw this scene would subconsciously think of cruel malevolence. After all, he was the recognized ceiling, a figure who was on par with the high priest Zhang xisheng.

It was reasonable that he was the remaining half.

however, the name on the gravestone was the second walker of the sea god hall, bu qinglian.

"madam qing?"

lin yi's eyelids twitched-he had a different opinion of the second advisor, the one who'd offered him an olive branch first.

Mysterious and friendly.

These were the two biggest impressions Madam Qing left on Lin Yi.

strictly speaking, they didn't interact much, but madam qing was the person lin yi trusted the most in the poseidon shrine. he trusted her even more than he trusted his first walker, cruel malevolence.

in fact, from the past few incidents, mrs. qing didn't let lin yi down.

The one Lin Yi felt the most pity for was Madam Qing.

"Why is she half?"

lin yi couldn't help but recall madam qing's background. no one in the entire sea area knew about her, including lang mie and the others.

lin yi didn't even get any information from ao taiwei's old memories.

It could only mean one thing-lady Qing was probably even older than ao Taiwei!

Lin Yi's intuition told him that the reason why Madam Qing was able to solve the evil God's reincarnation game was probably related to her mysterious origin.

"She's the one."

For the first time, the Queen of the abyss's loli face no longer had the air of maturity, and she looked a little puzzled and confused.

from the results, she did walk out of hell Street. However, her exit didn't lead to the 19th level of hell. Instead, it appeared in my abyss.

"so, that's why she died with the other top five advisors in your endless abyss?"

Lin Yi said.

Cruel malevolence and the other four suddenly moved together. Although they didn't give any prior notice, it was obvious that they were doing this for something big that could overturn the entire sea realm.

Other than the human body of the evil god, he could not think of a second possibility.

In other words, they'd been one step ahead of Lin Yi, but they'd just failed.

at this moment, the nameless scholar said, " "you're asking so many questions, don't tell me you're thinking of running away?"

"you're hoping that i'll get into the trap because you're afraid that i'll use you instead?" lin yi asked.

“.....”

the nameless scholar immediately stopped talking.

with lin yi's perverted performance just now, he really didn't have much room to refute.

luckily, lin yi didn't look at him anymore. he weighed the three coppers in his hand and walked into the busy market.

The moment his foot touched the ground, Lin Yi seemed to hear the sound of the gears of fate turning.

Fate and reincarnation had always been a pair of cause and effect that could not be resolved.

Lin Yi didn't have any thoughts of using violence to break out of this situation as he looked at the realistic flow of people.

this kind of brainless thought was very cool, but it was not feasible at all.

After all, the Samsara game was a key barrier that the evil god had specially set up for his human body, and it might even be the last barrier.

Unless the person in the game was strong enough to be on par with the gods, it was impossible to break out of the game by force. This was obviously a self-contradictory false proposition.

only the gods had the power to stand shoulder to shoulder with the gods.

A true God would never appear in such a place.

Since he couldn't break the game by force, he could only follow the rules of the game here and use copper coins to break the game.

as the most basic trading currency, even in this street full of smoke and fire, three copper coins could only buy a limited number of things.

if he only used one copper coin at a time, then it would be even more so.

more importantly, what could he buy to break out of this situation?

lin yi remembered bu qinglian's gravestone and thought, "is madam qing using this method to give a hint to death and reincarnation?"

Death and reincarnation, at first glance, seemed to be a very suitable match.

Lin Yi thought for a while and dismissed the thought. Madam Qing might be giving him a hint like that, but she didn't want him to copy it.

the abyss queen and the nameless scholar looked at lin yi as he stood still in the moving crowd. they were both looking forward to it.

Chapter 10323

there were very few people who could come to hell street, and those who had the strength to try the transmigration game were even rarer.

Plus, Lin Yi was here for the evil God's human body. No matter how high the chances were, it was the closest chance to regaining their freedom for the two!

"Do you think he'll be able to find a way to crack it?"

the queen of the abyss turned around and sat on a bench, swinging her short legs from time to time. if one did not know her background, they would never associate her with the words "sea ceiling".

The nameless scholar squinted his eyes. the only way to break the cycle of reincarnation is to achieve eternity. If he can't even think of this, he doesn't have the right to stand here.

"How can you buy something eternal with just three copper coins?"

the queen of the abyss rubbed her temples, feeling a slight headache.

This was the first time Lin Yi had come across such a trap, but she and the nameless scholar had been researching it for hundreds of years.

unfortunately, he still had no clue.

even when the high priest and madam qing had succeeded once and a half, they had not been able to see anything special and had no reference value.

but then again, as the guards of hell street, even if they had figured out a way to break it, they wouldn't be able to enter the samsara game.

to be precise, the two of them were part of the samsara game.

The ones who could really break the situation were always outsiders.

Under everyone's watchful eyes, Lin Yi suddenly moved.

he walked to a small stall and bought a candle for a copper coin.

everyone could not help but be confused,"what do you mean? does he really think that a candle can obtain eternity?"

the queen of the abyss muttered, " candles can bring light, but they will burn out very quickly. let alone one candle, even 10000 candles will not help. "

" he thinks he's smart. i thought he had a brilliant solution. "

The nameless scholar sneered.

However, after Lin Yi lit the candle on the street, the situation changed.

as everyone expected, the candle burned out very quickly.

as the flame went out, its candlelight also disappeared. everything was normal.

however, the nameless scholar and the queen of the abyss were sharp enough to notice that the brightness of the entire hell street seemed to be a tiny bit higher than before.

This change was too small, so small that no one could detect it.

If it wasn't for the fact that he had been trapped here for hundreds of years and was too familiar with everything in hell Street, even with the sharp perception of a top-tier combat power, he wouldn't have been able to detect such a subtle change.

"the candlelight actually stayed?"

The nameless scholar's eyes couldn't help but flash with shock.

He knew that light would be absorbed, so he had excluded the option of using candlelight to create eternity from the beginning.

however, the common sense of the transmigration game in front of him was obviously different from what he had known in the past.

" yes! " the abyss queen said excitedly, " since the candlelight has changed the environment of hell street, it has naturally caused a permanent change. it has broken the endless cycle of hell street! "

the next second, however, time went back to the moment the coin touched lin yi's face.

The only difference was that there were only two copper coins in front of Lin Yi this time.

the nameless scholar and the queen of the abyss were both stunned.

as they were part of the samsara game, their conditions would naturally be reversed to this point in time.

but when they saw that there were only two copper coins, they immediately reacted.

"you used up a chance?"

Lin Yi nodded, interested. "it's really different from what i imagined. the evil god is indeed an unusual god. he's a very interesting god."

the nameless scholar and the queen of the abyss looked at each other, their eyes full of confusion.

lin yi, naturally, wouldn't go out of his way to explain it to them. he just kept replaying the scene in his mind.

the candlelight was not absorbed by the surroundings as it was common sense. instead, it directly changed the brightness of the entire environment. there was only one explanation for this, and that was that the evil god had given the samsara game special rules of existence.

these laws weren't as powerful as the world's origin laws. to a certain extent, it could only be considered a small experiment.

As a God, he was not firmly bound to the various laws of the world's origin like the other gods and was honestly a dog of the God of creation. Instead, he used this underhanded way to experiment with some other kinds of laws that were separated from the world's origin.

Just the evil God's tendency was enough for Lin Yi to figure out many things.

One had to know that once the path of establishing another rule was taken a little further, it would form its own world, which was the path of the ancient gods!

"You only have two chances left," the nameless scholar said indifferently.

lin yi smiled nonchalantly and walked into the crowd.

This time, he naturally wouldn't buy any candles.

Judging from the appearance, the candle light that would not disappear belonged to the category of eternity, and in theory, it could break the reincarnation game. However, since the evil god did not recognize it, it could only be invalid.

After all, this was their home ground. Even if they were obviously going back on their word, there was nothing they could do.

Lin Yi took a lot longer to make his decision this time-he'd walked the entire Street from the beginning to the end, but he didn't make a move.

"looks like he's only so-so after all."

the nameless scholar sneered, but a hint of disappointment flashed in the depths of his eyes.

whether it was him or the abyssal queen, as long as there was a one in ten thousand chance of regaining their freedom, they would definitely fight for it with all their might, even at any cost.

although he'd felt that lin yi's aura was conflicting with his from the very first time he'd seen him, he'd be more than happy if lin yi could break out of this situation.

the abyssal queen wasn't in a rush. she looked at lin yi."Let's see what he'll buy first."

Lin Yi stopped in his tracks almost at the same time she finished her sentence.

In front of him was a blind man who was playing the erhu.

Ding.

A copper coin fell into the bowl by blind's feet with a crisp sound.

"Thank you for the tip, Sir system."

"Thank you," blind man said calmly and continued playing his erhu, not saying another word to Lin Yi.

Lin Yi didn't say anything, either. He just stood there quietly, listening to the man play the erhu.

“.....”

the nameless scholar and the queen of the abyss were both speechless at this scene.

Copper coins were so important that anyone could only use up to three copper coins to break the game. Once they used it up, no matter how strong they were, they could no longer enter the game as an outsider.

from then on, they would either be completely excluded from the samsara game, or they would be like the two of them, falling into the game and becoming a part of it, forever being the dogs of the evil god.

and lin yi just gave something so important to the blind man!

Chapter 10324

Even as enemies, the two couldn't help but feel like they were toying with him. After all, whether Lin Yi could break out of this situation or not would affect them the most.

Unfortunately, they couldn't interfere with Lin Yi's decision now.

If they really forced Lin Yi to change his mind or even take the copper back from blind, the backlash from the transmigration round would make them wish they were dead.

therefore, even if they were extremely unhappy, they could only stand there and watch.

however, their expressions gradually changed.

at some point in time, the entire hell street had been immersed in the mournful erhu music. everyone's happiness, anger, sorrow, and joy were affected and even dominated by it!

"is this pixiu entering the dao with pleasure?"

Endless scholar and the Queen of abyss reacted at the same time.

before this, they had thought that if they wanted to break out of the situation, they had to buy something substantial with copper coins to create an eternal solution to the reincarnation.

he had never thought that things that were eternal did not necessarily exist physically!

for example, the dao that blind was displaying in front of them in the form of an erhu.

The limits of the Dao were the laws.

even though the skills that blind had displayed were far from being able to form his own rules, it was still a long way off.

However, it was undeniable that the erhu in his hands had far exceeded the scope of ordinary people. It was not an exaggeration to say that it had reached the peak.

looking at the entire hell street, this was undoubtedly the closest thing to the road, and the key was that it only needed a copper to hear.

"Did he really find the blind spot?"

The nameless scholar couldn't help but feel excited.

The abyssal Queen looked at Lin Yi with a strange look in her eyes as she mumbled to herself, "This person has quite a few unexpected things."

However, just as the two of them were looking forward to the end of the Samsara game, time turned back again.

Ding.

there was only one copper left in front of lin yi.

The nameless scholar and the Queen of the abyss changed their expressions at the same time.

As players of the game, they couldn't retain their memories like Lin Yi. They could only deduce that Lin Yi used up two chances according to the rules.

They had no idea what Lin Yi bought with the copper coins the last two times.

in the end, the two were still in awe of lin yi's godly skill the second before the backtrack, but now that the backtrack was over, they immediately felt that lin yi was no match for fehra.

That was the truth.

no matter how amazing your previous performance was, since you screwed up in the end, it meant that everything had been screwed up. there was nothing to say about that.

"Trash."

The nameless scholar didn't hide his disdain at all-the higher the hope, the greater the disappointment. He didn't like Lin Yi to begin with anyway.

as soon as he finished speaking, wei yu 'er's sword was already at his neck, ready to stab him through.

the nameless scholar's expression changed slightly.

if it was just wei yu 'er, he would not care about her at all. but with lin yi around, he might not be able to take it if she suddenly made a copy of her sword.

The nameless scholar wanted to counter-attack, but Lin Yi's calm voice came from the side.

"you'd better take it easy. otherwise, she might accidentally lose her sword. i can't say anything else except to express my regret to you,"

lin yi paused for a second before adding, if you want to ask someone for help, you must have the awareness to ask for help. Otherwise, even if a good thing is done, it may not necessarily fall on your head. What do you think? "

"....."

The nameless scholar's eyes flickered with an ominous glint, but in the end, he silently suppressed his anger.

The Queen of the abyss looked at this scene with a playful expression."so there are times when you have to endure humiliation for an important mission. hehe, why do i feel so comfortable looking at your expression?

Lin Yi, I'm starting to like you."

Lin Yi looked at her loli body."no, i'm afraid it's illegal."

the abyssal queen could not help but be stunned. it took her a long time to react, and her pretty face instantly turned cold."Go to hell!"

although he said that, his hands did not move at all.

she was the same as the nameless scholar-she didn't have high hopes for lin yi, but she had to admit that lin yi was the best chance they had in a while.

If Lin Yi couldn't do it this time, they'd have to wait a few hundred years, or even a few thousand years for another chance like this to come.

whether or not they could survive until then was an unknown.

after all, as the evil god's dogs, how long they could live wasn't something they could decide. it all depended on the evil god's mood. if they lived well, they might just die one day.

lin yi ignored the two.

After two tests, he had roughly figured out the purpose of this transmigration game.

The so-called eternal Samsara breaking sounded like it was true, but it was actually just a cover.

if he were to use this method to solve it, he would not be able to see the evil god's human body in the end. instead, he would end up like madam qing, falling into an endless abyss.

It was a way to break the formation, but it wasn't what Lin Yi wanted.

the only way he could use as a reference was the high priest, zhang xisheng.

even if the nameless scholar and the abyssal queen didn't know anything about the details of how he cleared the level, lin yi was sure that the high priest didn't clear the level because of his strength or his smart choice.

The only reason was that the evil god wanted him to clear the level, that was all.

in other words, the key to solving the samsara game was not how to solve the game itself, but to show your ability in the process and let the evil god choose you!

judging from the high priest's life after that, he had become a puppet of the evil god.

What the evil god saw in him was his huge value!

with the same train of thought, lin yi didn't have to use all sorts of methods to solve the samsara game. he didn't have to follow the original train of thought and find the solution like looking for a needle in a haystack.

that would be impossible to succeed.

The reason was simple, the evil god would cheat.

To crack a trap that could be broken at any time, using normal thinking would only force oneself into a dead end. Only by jumping out of the original rules would there be a possibility of winning by surprise.

so this time, lin yi threw the last copper in his hand on the ground.

“.....”

The nameless scholar and the Queen of the abyss were both stunned. "What is this? Are we just giving up?"

Then, they saw Lin Yi squat down and pick up a handful of sand.

the two did not understand.

even with their experience, they couldn't see the meaning behind lin yi's actions.

Chapter 10325

Using the last copper to exchange for a handful of ownerless sand on the ground, what did this mean?

However, as Lin Yi did this, the evil God's will, which was observing everything from somewhere in the void, suddenly had an unprecedented reaction.

The sand in Lin Yi's hands was no longer just sand.

if one's insight was strong enough, they would find that the patterns inside the sand were extremely intricate and complex. various rule forces blended and converged, vaguely forming a miniature world.

although the structure of these miniature worlds could not be compared to the real world, at least it was certain that they were no longer ordinary sand.

A world in a grain of sand.

this was lin yi's final answer, but it was also an extremely dangerous test.

He was not only testing if he could solve the Samsara game, but more importantly, he needed to verify a guess, a fatal guess that was directly related to his life and was enough to determine his life and death!

time passed by, and the hell street seemed to have paused. all the light was focused on the sand in lin yi's hand.

lin yi was waiting for the evil god to react.

the nameless scholar and the abyss queen were worried as well. they didn't know what lin yi was doing, but they could guess that there was a deeper meaning to it.

As expected, after waiting for an extremely long fifteen minutes, the evil god finally gave its response.

the smoke and fire in hell street suddenly stopped.

The stalls and shops on the street, as well as the noisy crowd that came and went, all disappeared in an instant.

all that was left was an empty and creepy dark alley.

This was the true background of hell Street.

"he actually guessed yingluo right?"

the nameless scholar and the queen of the abyss were dumbfounded.

from their point of view, lin yi's solution was a simple handful of sand. no one would believe it if they told them that. the hell's wheel that could stump all the masters in the sea was solved in such a child's play.

to the two of them, this scene completely subverted their three views.

without a doubt, this was what hell street would look like after it was cracked. as the guard dogs chosen by the evil god, they had a say in this matter.

"are the two of you coming together, or are you staying here?"

lin yi looked at the two.

now that things had come to this, he couldn't let the two of them get away with it. whether they were friends or enemies, he had to make a clear statement.

the nameless scholar's eyes flickered.

although he had expected this to happen, he did not expect that this rare event that had not appeared for thousands of years would actually become a reality.

he was really caught off guard!

naturally, he wanted to break free from the evil god's chains, but the price was to lower his head to lin yi.

Hmph! the nameless scholar snorted coldly. if you can get rid of the evil God's human body, I'll kowtow to you. But if you can't, I'll definitely take your head to the evil god as an apology!

This declaration was interesting.

Lin Yi turned to the abyssal Queen, who replied graciously, I'm not as sneaky as him. Since you've already broken the trap, I'll naturally follow you to fight against the evil god. I mean what I say.

lin yi nodded and looked to the end of hell street."That's good, the opportunity to submit your certificate has come."

"Proof of allegiance?"

the two's expressions changed as they followed lin yi's line of sight. they felt a familiar yet unfamiliar presence at the end of the road.

It was familiar because it was the aura of the evil god.

as for the unfamiliarity, it was because they had never seen such a terrifying and dense evil god aura. compared to this, all the evil god curses they had seen in the past were simply child's play and not worth mentioning.

"evil god forbidden spell!"

"this is the last line of defense that the evil gods have set up!" the nameless scholar blurted out.

the queen of the abyss narrowed her eyes and nodded. "looking at this, the evil god's human body should be behind the forbidden spell."

lin yi tried to feel the strength of the forbidden spell, but his face changed and he stopped.

even at the level of his primordial spirit, he almost fell into the trap the moment he touched the forbidden spell. if it was not for the protection of the new world's will, there would only be two outcomes.

Or they would completely fall into it and be unable to extricate themselves forever. From then on, they would be forced to be a dog for the evil god like the nameless scholar and the Queen of the abyss.

otherwise, they would suffer a backlash and their primordial spirits would self-destruct on the spot.

there was no third possibility.

in contrast, the nameless scholar and the queen of the abyss obviously knew the dangers involved, and they both wisely suppressed their curiosity.

"how are you going to break it?"

"shut up!" the nameless scholar poured cold water on him. "if you think that the three of us can break through the evil god's forbidden spell by force, then you'd better go to bed early!"

the queen of the abyss frowned and said, "whether it's primordial spirit or power, our level is far from that of the evil gods. this qualitative gap can't be made up for by numbers."

no amount of tofu can break a diamond. besides, we only have three bowls of tofu. it's not much."

hitting a stone with an egg was nothing more than this.

"Did I say that it's only the three of us?" Lin Yi said.

the nameless scholar was taken aback, "you can't possibly be planning to include the cannon fodder you brought, right?" Even if you bring 10000 of those, what's the use?"

Lin Yi shook his head and said suddenly, "Come out,"

the nameless scholar and the queen of the abyss looked at each other.

subconsciously, he looked at wei yu 'er and chu hongyi. there was no one else present except for them.

in fact, hell street could not accommodate many living people. other than the two ceilings chosen by the evil god to be watchdogs, chu hongyi was an extremely rare exception.

Having said that, even if others wanted to enter this place, they couldn't, let alone hide from their perception.

Just when they subconsciously thought that Lin Yi was just trying to be mysterious, a graceful figure appeared out of thin air, quietly appearing beside Lin Yi.

"who is it?"

looking at the woman who had appeared out of nowhere, the two of them could not help but be shocked.

What shocked them wasn't this person's unparalleled beauty, but the profound aura that naturally flowed from his body.

with just a glance, the nameless scholar and the queen of the abyss were already sweating profusely!

Logically speaking, Lin Yi's previous display of strength was enough to put them in their place. Otherwise, with their temperament and pride, they wouldn't have let Lin Yi break out of the situation like this.

however, compared to the beauty in front of him, lin yi's terrifying aura, which was enough to kill three valley masters, was suppressed!

To be precise, this wasn't even a matter of who was better, but that they weren't even on the same level!

Chapter 10326

The aura exuded by the absolute beauty made the two of them think of one word at the same time.

The gods.

other than the high and mighty gods, they couldn't think of any other existence that could have such a profound aura!

"Impossible, Yingluo, this is impossible, Yingluo."

even though their strong instincts were constantly reminding them, with their rationality, they still couldn't believe what was happening.

no god could break through the restrictions of the gods and descend here. even the evil gods couldn't do this. leaving behind a human body was already the limit.

even if the person in front of him was really a god, it was impossible for him to be above the evil gods, right?

lin yi shook his head with a smile-he'd expected this reaction from them.

Everyone thought that he had the most confidence in entering hell Street, and even if the others wanted to, it would be difficult for them to give him enough help.

He didn't know that there was a false god standing behind him!

Li Yuanji was only a wisp of her soul now, and her strength was far from when she was the second water god. However, she had received a part of the seagod's divinity from Lin Yi, and with the new world's subtle nourishment, even if she was only an essence spirit, her strength was no small matter.

even if he couldn't fully recover to the level of a top-tier false god, his strength was still extremely above the standard in the sea realm.

The natural suppression of this level made it hard for anyone to breathe in front of her, even if they were as strong as the ceiling of the sea.

"I'll have to trouble you this time," lin yi smiled faintly.

no need to say that. You're my leader. Besides, it's all thanks to you that I can recover to this extent.

li yuanji smiled sweetly, and the originally dark hell street instantly gained color.

“.....”

The nameless scholar and the Queen of the abyss looked at this scene and fell into a state of confusion.

A god-like existence, perhaps even a God Himself, and someone like that was willing to serve Lin Yi?

had the two of them gone crazy, or had the world gone crazy?

li yuanji didn't even look at them. she followed lin yi's gaze and looked at the evil god's forbidden spell, her face turning serious.

this forbidden spell is very special. It has far exceeded the limits of what the gods can project to the human world. If I'm not wrong, it is very likely that the evil God's Natal divine consciousness is hidden in it.

Li Yuanji said thoughtfully, "the evil god is so serious about this matter. It means that the thing hidden behind it is extremely important to him. It should be his human body without a doubt.

the human body was the ultimate carrier of the gods 'power in the human world.

at a critical moment, it could even descend temporarily. it could be said to be the most important deterrent weapon of the gods in the human world. its importance was unparalleled.

Many of the declining gods dreamed of having a human body in the human world to regain their power.

Unfortunately, a high-end thing like a human body was not something that ordinary gods could afford to play with. Only a few unusual creatures like the evil gods had such means.

lin yi frowned, "natal spiritual sense?" in other words, as long as we activate this forbidden spell, we'll be able to directly face the evil god's true body?"

" that's not necessarily the case. at most, we'll just have to confront his primordial spirit across space. it won't be that easy for him to descend. "

Li Yuanji's answer made everyone's heart turn cold.

Confronting the evil God's primordial spirit across space, to everyone, was there any essential difference between this and directly going against the evil god?

There was no need to think about the consequences, it was death.

Although the nameless scholar and the Queen of the abyss were conceited, they definitely knew their own limits in such matters.

how dare a firefly compete with the moon?

Not to mention them, even Lin Yi didn't have the confidence to do that. If he really went up against the evil God's essence spirit, even with his current strength, he would collapse in an instant.

there was no other possibility.

"my primordial spirit has been nourished during this period of time," li yuanji said with a slight frown."although it can't fight with the gods head-on, it's not a big problem if it's just to hold him back in a confrontation.

however, if that's the case, i won't be able to help much in the future."

she was lin yi's biggest support on this trip, his most important trump card.

if they were trapped here by a forbidden spell from the start, it would be a huge loss no matter how one looked at it.

"no, that's good," lin yi said.

li yuanji was stunned.

"since you're fighting the evil god's soul," lin yi explained, "when you're being held back by him, aren't you also holding him back?" That's enough."

from the start to the end, lin yi was worried about nothing but the evil god's appearance!

If Li Yuanji could use this method to fight against the evil god one-on-one, it would not be a bad thing for him. Instead, it would be a good thing that he could not ask for.

in fact, he was worried about li yuanji.

Li Yuanji was his most important ally, and she was destined to be his most important helper in the future. He could not afford to lose her.

li yuanji could see his worry, and a trace of warmth surged in her heart.

don't worry about me. Although I'm still far from my peak, in this kind of confrontation, the evil gods are much more restricted than I am. They can't even unleash one percent of their power. I can handle it.

"then be careful." lin yi looked at her.

Li Yuanji's eyes were as clear as water, and she hummed softly.

"I'll start now."

as soon as she finished speaking, li yuanji extended her hand and slowly sank it into the deepest darkness that represented the evil god's forbidden spell.

Weng.

The entire hell Street trembled.

immediately, a dark red light suppressed down. in the light, there was an extremely thick evil god aura.

under the light, even the nameless scholar and the queen of the abyss could not resist at all. the so-called ceiling of the sea was just a stronger ant in front of it. after all, it was the original soul of the evil god.

If there was no external interference, everyone's primordial spirit would collapse if the dark red light pressed down.

There was no doubt about this.

fortunately, at the last moment, a ray of green light shot up into the sky and resisted the dark red light, forcibly holding up the sky for everyone.

at the same time, behind the activated heretic god's forbidden spell, a hole that was neither too big nor too small was revealed. it was only big enough for one person to enter and exit.

"Let's go!"

Lin Yi said decisively.

the nameless scholar and the abyss queen hesitated. to be honest, the evil god's forbidden spell was a huge threat to them. if it wasn't for li yuanji's help, they wouldn't have dared to go in with lin yi.

however, now that he saw hope, his courage naturally came up.

Chapter 10327

After the two of them entered the cave, Wei Yu 'er also followed them into the cave silently.

Chu Hongyi was left alone in a dilemma.

She didn't want to get involved in such Muddy Waters. Moreover, she was very self-aware. She knew that once she was involved, there was a high probability that she would die.

After much hesitation, Chu Hongyi gritted her teeth and followed him in.

it was not that she was loyal and wanted to live and die with the queen of the abyss and the others, but looking at li yuanji's confrontation with the evil god, she would only die faster if the aftermath spread out.

At the same time, somewhere in the void.

feeling the throbbing from their natal spirits, the evil gods' powerful wills were awakened. they were forced to shift their attention away from lin yi and focused on the confrontation with li yuanji.

there was no other reason. even for a god like him, his natal original spirit was an extremely precious thing, and he could not afford to lose it.

just from this point alone, li yuanji was just as lin yi had expected. she had the effect of holding the evil god back.

li yuanji's primordial spirit was at a disadvantage against the powerful pressure of the evil god, but it was not as if she had no power to retaliate.

He was once the second water god, a ruthless character who was infinitely close to the real gods.

lin yi took the chance and led the way through the forbidden passage, arriving at an empty and huge secret room.

the strange thing was that the queen of the abyss and the others who had followed him all the way here did not appear behind him at this moment.

lin yi was alerted.

this situation was not surprising to him. if he did not even have such means and just let them swarm him after breaking the forbidden spell, he would not be the evil god in the legends.

what appeared in front of him was a giant coffin in the center.

The aura that was faintly emitted from it allowed him to make a judgment at once. The one lying inside must be the evil God's human body!

The human body could be said to be the ultimate weapon of the gods in the human world. Once it was used, its strength was by no means comparable to any human cultivator.

lin yi completely believed that the ceiling of the sea was no different from paper in front of him.

If not for this, how could people like the nameless scholar and the Queen of the abyss be willing to be a dog?

However, the human body also had its weakness.

its biggest weakness was that once it stayed in the human world for too long, the divinity in its body would be irreversibly attacked.

And this would directly affect the strength it could display!

Therefore, in order to extend the shelf life as much as possible, unless necessary, the human body would deliberately isolate itself from the human world and would not easily appear in the world.

the evil god's choice was obviously to seal it in the coffin.

Lin Yi pondered for a moment before slowly moving forward.

after carefully observing the coffin, he suddenly raised his hand and sent the coffin cover, which weighed tens of tons, flying.

Even Lin Yi's eyes twitched when he saw the face of the person lying inside.

"are you surprised?"

The person in the coffin opened his eyes slowly. It was the sea's number one who died in front of Lin Yi, the high priest Zhang xisheng.

as he spoke, an undoubtable amount of energy followed his gaze and entered lin yi's sea of consciousness.

His sea of consciousness exploded on the spot.

lin yi didn't even have a chance to react, let alone fight back. he'd been turned into a corpse the whole time.

lin yi's voice came from the other side of the coffin.

"if i say i'm not surprised at all, would you be a little disappointed?"

"A clone?"

zhang xishan didn't look angry at all when he saw lin yi calm and composed. he only looked at lin yi more seriously now.

"It's better to be safe than sorry-it's not too much to make a clone to Scout the way, is it?" Lin Yi smiled.

" that's right. " zhang xisheng nodded. " your clone is pretty good to be able to hide from my senses. "

"You're too kind,"

lin yi knew that a large part of the credit went to li yuanji.

if it wasn't for her holding the evil god back and shifting his attention away from him, no matter how good lin yi's clone was, he wouldn't be able to fool the evil god.

at the end of the day, he could only deceive the human body in front of him, not the evil god's true body somewhere in the void.

Lin Yi looked at him,"before this, I thought that the high priest's title of number one in the sea was a bit exaggerated, but now I'm completely convinced."

with only a primordial spirit and a body made after birth, he could become the publicly acknowledged leader of the sea's ceiling.

and his original physical body actually entered the evil god's eyes and became the vessel for your human body. what a pity."

he knew very well that the high priest zhang xisheng was dead.

the person in front of him was actually just a body left behind by the other party, which was taken by the evil god.

since his physical body could enter the eyes of the evil god, there was no doubt about his strength.

If the high priest, who was not in his original body, could become the head of the sea ceiling, what would it be like if he was in his original complete body?

it was hard to imagine.

the evil god's human body looked at him in surprise. " "it seems that you know quite a lot. in order to lure him, i paid a high price. fortunately, it was worth it."

"What about me?" Lin Yi smiled. you've spent so much effort to lure me here, is it worth it?"

the situation was gradually becoming clearer.

The reason why he was standing here today was partly because of his own decision, but more importantly, it was because the overall situation was adding fuel to the fire.

And the one leading the latter was undoubtedly the evil god.

"you?"

the human body's eyes were filled with doubt.

it could be seen as an important avatar of the evil god, but unless the evil god itself took the initiative to share it, it actually did not know much of the information that the evil god's main body had.

of course, with how much the evil god valued it, when it had a need, it would definitely share it with it at the first moment.

after all, they were one.

however, after the human body made some attempts, his expression changed.

The main body actually didn't respond to it!

"What did you do?"

the evil god's main body would never give up on it unless it was absolutely necessary. the fact that it did not respond immediately could only mean that its main body was in trouble!

lin yi shrugged, "you guess."

In fact, even he did not expect Li Yuanji to be able to do this. Not only did she restrain the primordial spirit of the evil god, but she also directly cut off the connection between it and the human body!

This was definitely a crucial accident.

"could it be that the battle of the gods has been brought forward?"

the human body immediately ruled out this possibility. although the battle of the gods was inevitable, unless the critical point came, it would only be turbulent undercurrents at most, not a direct fight.

That was because the God of creation did not allow it.

Chapter 10328

but other than this possibility, it couldn't think of any other god that would directly fall out with its own main body.

as far as it knew, there was no second possibility for it to be able to hold its main body back, except for other gods of the same level.

lin yi's eyes twitched.

He had heard of the Battle of the Gods from Jiang xiaoshang before.

in some people's eyes, the beast god hall's subjugation of the higher-ups was actually the prologue to the battle between the gods, especially when the beast god hall began to launch a large-scale attack on the territories of the other gods, including the sea goddess hall. the prologue would slowly be pulled open.

Some were happy, some were worried.

there was no lack of ambitious people like the new beast god among the gods who were dissatisfied with the current order and were even tempted to make a move.

It was just that with the God of creation above them, even if the gods below had ideas, they did not dare to express them openly.

As the inheritor of the ancient gods, Lin Yi was naturally happy to see the Battle of the Gods, but he was also worried.

when the city gate caught fire, the fish in the moat would also be caught in the fire. if it really came to that time, the scope of the battle of gods would definitely not be limited to the divine realm. it would be almost inevitable that it would affect the human world.

He thought about the scene of Jianghai Academy being attacked by the beast tide. Similar tragedies would be happening all over the world.

that was a true nightmare from hell.

"forget it. since this senior has sent you to me, he must have his own intentions. i'll accept it without any hesitation."

The human body didn't waste any more time-he burst forth and appeared in front of Lin Yi in an instant.

boom!

Lin Yi didn't even have time to react before he was smashed into the ground.

The human body then exclaimed, "so hard? you're just a human, but you have a god body?"

the divine body was the standard of the gods and one of the most important symbols of the gods. as the human body of an evil god, it naturally could see it.

it was just in disbelief.

one had to know that divine bodies were unique. to put it bluntly, there would be as many divine bodies as there were gods. even a powerful existence like the evil god, who was considered an alien among the gods, could not get a second divine body.

Otherwise, it wouldn't have had to go through so much trouble to lure the high priest and take his body for itself.

he didn't expect to see a real divine body on a human cultivator today.

"Although its level is rather low, it is undoubtedly a divine body."

The human body's eyes lit up as he stepped on Lin Yi's head. "no wonder i lured you here and even broke my own forbidden spell. you do have this value."

In the next second, Lin Yi exploded.

the ground beneath his feet crumbled, and before the human could react, lin yi's palm was already on its face.

Then, there was another loud bang, and the human body was firmly pressed into the ground, leaving only two shoes outside.

It was impolite not to return the favor.

"same to you, you're pretty tough too."

lin yi wasn't just mocking him-he was really surprised.

At least, from this confrontation, the strength of the high priest's physical body was not inferior to his divine body!

although they were not completely on par with each other, at least the actual combat ability that he had displayed was not inferior to his divine body at all.

It was no exaggeration to say that with just this body, the high priest could crush all the top combat forces and rise to the top of the sea!

of course, in terms of future potential, it couldn't be compared to the divine body.

as one's strength rose, especially when one started to step into the godly state, most of the physical bodies would eventually not be able to keep up with the increase in strength and would eventually find it difficult to continue.

Only the divine body had almost no upper limit!

However, potential was just potential. Before it could be realized, no matter how great the potential was, it might just be for nothing.

the advantage the god body gave lin yi in a fight was already offset by the priest's body.

as expected, the human body retaliated even more violently the moment lin yi pressed her down.

Lin Yi didn't back down.

In this huge and empty secret room, two bodies that represented the peak of the entire sea realm carried out an extreme attack that could make everyone's eyes pop out!

Berserk, primitive, every punch hit the flesh!

fortunately, this place was isolated from the outside world. otherwise, if they were in the sea, just the aftermath of the battle caused by the explosion of their physical bodies would be enough to cause an unprecedented super tsunami.

"Interesting!"

The human body obviously didn't expect things to turn out this way.

In the past, even if someone managed to get close to it, they would be crushed to death in a single encounter. After all, its existence was a dimension-reducing variable that exceeded the standard for the sea.

even if it didn't use any godly means, it could easily crush all the experts in the sea realm. after all, this was the meaning of its existence.

however, lin yi was able to fight it to a draw with his god body.

However, this was only the beginning.

"Since you're so tough, if this God still uses this old lady's warm-up method to play with you, it would seem like I'm looking down on you."

Even though the situation had developed beyond its expectations, the human body's tone still sounded very sincere.

However, the essence of this sincerity was not because it had a high quality and self-restraint as an evil God's human body.

it was just looking down on lin yi and didn't see him as a threat. it was ridiculous to have an emotional reaction to lin yi.

After all, no one would get angry at an ant. No matter how strong the ant was, it would only be a matter of a finger in the end.

"It doesn't matter," Lin Yi replied faintly, "you warm up, I warm up too. I don't mind."

"....."

The human body was stunned for a moment, and then revealed a strange expression. "is this a psychological battle? are you trying to infuriate me? Didn't anyone teach you that the gods are inhumane and absolutely rational?"

we're making use of the waste. Maybe we can find out something.

any other master would've probably broken through his defense by now.

however, the human body did not.

The way it looked at Lin Yi was always filled with playfulness and probing.

"i'm almost done warming up. next, we can have more fun. it's been so long since i woke up. i hope you won't make this god too bored."

as he spoke, rays of mysterious and powerful light suddenly lit up around the human body.

Lin Yi's eyes twitched.

each ray of light represented a law. in just a moment, there were no less than 30 laws listed in front of him, and there were even some top-level laws like space and time that were famous!

Chapter 10329

" evil gods are indeed evil gods. they really open one's eyes. "

according to common sense, the gods could only use one rule power.

In this regard, the gods were much more restricted than human cultivators.

As long as human cultivators were willing and had enough luck, they could cultivate multiple rule bending powers at the same time. People like Lin Yi, who only had limited energy and luck, couldn't master every rule bending power.

but the gods could not.

The price for the gods to be able to fully master a certain rule power was to be completely cut off from other rule powers.

Other than the God of creation, in theory, all other gods could not break through this limit, but the evil god was an exception.

According to the information he had obtained from Jiang xiaoshang, the evil god did not have its own rules like the other gods. With its special abilities, it could mobilize all known rule powers at will!

the scene in front of him was proof.

Mortal realm looked at Lin Yi expressionlessly. this is an eye-opener for you. It seems that you really haven't seen much. That's why I say that you human cultivators are all ants. Even if you crawl for your entire life, there's only so much space.

It sounded like a merciless mockery, but in reality, it was completely a statement.

Because this was the truth.

As soon as it finished speaking, it saw a light of laws behind Lin Yi.

time, space, slaughter, giant, wind, beast, ocean, dragon suan ni

And most importantly, the rule of sword.

“.....”

The human body choked for a moment.

There weren't as many of them, but Lin Yi's presence wasn't any weaker than its!

"it's a good thing i know how to do stuff like this," lin yi said with a smile."otherwise, there'd be no need to compete. it'd be wiser to just surrender."

"i have to say, you're an interesting human."

The human body narrowed his eyes slightly. you have a divine body and have mastered so many rules. From the point of view of human cultivators, you have no dead spots.

it's a pity that a human like you who has mastered so many rules is destined to only be gaudy. going too far is as bad as falling short."

as he spoke, he attacked head-on with more than 30 rule bending powers.

when an ordinary person attacked, even if they had mastered multiple rule bending powers at the same time, they would still have to attack one move at a time. at best, the subsequent changes would be difficult to guard against.

However, when the human body attacked, more than 30 rules each turned into a fatal killing move, and they all swarmed forward!

Space explosion, instant for eternity, burn all heavens, Water Moon beauty, desert heaven

All sorts of skills that Lin Yi had never seen before landed on him at the same time.

every single one of these moves required a high level of control over the rules, and they were all super forbidden moves outside-but they were all used by lin yi!

in the face of such a formation, any thoughts of escape were a joke.

Because it was impossible to escape.

even if he were to hide in the void, his position would be locked on and he would die even more miserably.

the only way was to face it head-on!

with a thought, lin yi followed suit and activated all his ultimate skills.

However, his control over the laws of time and space was too low. Even if he forcefully activated a high-level skill, its power would be far inferior to his opponent's.

however, it was better than nothing. at this time, it was better to have more power than to have less!

for a time, the sound of explosions was endless.

The entire secret chamber was a battlefield where rules and big moves collided. Fortunately, this was a place where human bodies rested. It was a space specially opened up by the evil god and had been strengthened by a special space.

otherwise, with the intensity of this wave of attacks, the entire space would be shattered!

However, while the scene was explosive, it was clear that Lin Yi was at a disadvantage.

After all, whether it was the number of rules or the control of rules, he was not on the same level as a natural cheat like the other party.

if he still wasn't at a disadvantage, then it wouldn't be that the other party was going easy on him, but that the other party was going all out.

after a long time, the two sides finished exchanging their first wave of big moves and revealed themselves again.

the human body wasn't injured at all, but lin yi's body, on the other hand, didn't have any fatal injuries yet, but it was obvious that he was in a bad shape.

the only valuable thing on you is this divine body. The rest are just fancy and worthless.

The human body commented and immediately launched the second round of attacks.

this time, it was even fiercer than before. he directly doubled the power of 70 types of rule force and turned them into 70 types of rule force big moves!

lin yi felt like he had seventy cannons on his head-even he couldn't handle the pressure.

this was the perverted part of the evil god's human body!

even if other people used their big moves one by one, they still had to go through a long time of accumulation.

In the end, not only did it release dozens of big moves at the same time, but it also released them as many times as it wanted to. It directly used them as normal attacks!

It was no wonder that even the nameless scholar and the Queen of the abyss, who were at the top of the sea, could only obediently be its dogs. This gap could not be made up for by bitter cultivation and luck.

Even Lin Yi would've given up hope if he didn't have a bigger trump card in his hand!

"aren't you afraid of breaking my divine body?"

Lin Yi suddenly asked.

the human body controlled the 70 ultimate moves and replied casually, " if it's so easy to break, it just means that this isn't a real God Body. It's not a pity to break it.

" is that so? then wouldn't it be a pity if this body of yours was destroyed? "

Lin Yi didn't even finish his sentence before seventy ultimate skills came raining down on him.

if it was anyone else, they would have died without a corpse!

"What?"

The human body let out a surprised gasp.

just as its 70 rule ultimate moves smashed down, a pitch-black sword light suddenly bloomed like a black sickle, instantly cutting all the rule ultimate moves into two!

"The sword sacrifice has such power?"

For the first time, the human body's indifferent face was moved.

of course, it knew about the sword sacrifice. however, even the sword sacrifice of the strongest sword saint in history could barely contend with a major move of its laws.

even if all the sword saints of the past generations were to gather together, they would definitely not be able to withstand 70 rules of big moves!

But Lin Yi's move just now was a sword sacrifice.

it was just that compared to the regular version of the sword sacrifice, there were many differences in the details.

Chapter 10330

in the end, the human body's eyes fell on the sword in lin yi's hand. he could see that it had a similar outline to the original demonic devour sword, but it was more sharp and concise than before.

even if it was just a simple sharp arc, it was inexplicably frightening and made people not dare to look at it directly.

The so-called emotionless human body also blurted out subconsciously, "What a fierce sword!"

"it's alright."

Lin Yi said humbly.

Putting everything else aside, the other party's eyesight was indeed first-class, and he could see through the essence of the current demonic devour sword with a single glance.

that's right, he was fierce!

after completely swallowing the abyssal blade, in addition to the exaggerated 120000 sword souls absorbed by the sword tomb, combined with the violent and chaotic power sealed in itself, the overall temperament of the demonic devouring sword was now really terrifying.

If Lin Yi wasn't its master, he would've been acknowledged to a certain extent by the sword. With his identity as the inheritor of the rules of the sword, the 120000 sword souls would've been attracted to him. Even he would've been forced to back off by the ferocious aura!

The current demonic devouring sword was an out-and-out peerless sword.

even the famous xuanyuan sword, one of the top ten ancient swords, didn't dare to appear near it. otherwise, if they were to get a little closer, they might end up like the abyssal blade.

If that really happened, Lin Yi probably wouldn't even intervene.

after all, they weren't the original ten great swords. once they were damaged, it would affect the power of the absolute-kill sword formation, but if it could be exchanged for the demonic devour sword to be upgraded, lin yi could afford the price.

of course, it would be a different story if it was the original version.

"where did you get this sword?"

the human body's face revealed an unprecedented expression of fear. it could faintly feel an instinctive tremble from the demonic devouring sword's vicious aura.

As the evil God's clone, the thing that could make it afraid must be an existence that could make the evil god itself fear!

What kind of concept was it to be able to make evil gods fear it?

a frightening word suddenly appeared in the sea of consciousness of the human body.

god punisher.

Lin Yi didn't think that the guy would think so far ahead in an instant. He replied casually, "i bought it from the roadside. it's not expensive."

Compared to the rewards he had received from the demonic devouring sword today, the various disturbances that had occurred because of it back then were not even worth mentioning in retrospect. It would not be an exaggeration to say that he had picked it up for free.

"Then you're quite lucky."

The human body nodded, and then his eyes became a little more heated. "but i'm also quite lucky."

in other words, the demonic devouring sword had already entered its eyes, and was already in its possession.

"Then you'll have to ask me for fortune-telling first," Lin Yi said faintly. "My Sword Master is fierce, but you're not that lucky to meet it."

after he finished speaking, his figure flashed and he directly slashed forward with his sword.

The human body started bombarding Lin Yi again, throwing all sorts of ultimate moves at him as if they were free.

It had been 70 a moment ago, but it had broken through 100 in an instant!

Yet Lin Yi's only response to all the attacks was a single sword.

the demonic devouring sword's unique chaotic attribute made it destined to be the nemesis of all rule power. even if it was an indefensible rule technique like space and time, it would immediately collapse when the pitch-black sword light shot over.

Gradually, the human body's expression changed.

from what it knew, it would always have an overwhelming advantage in terms of strength when facing any human cultivator.

Even if they occasionally encountered one or two hard opponents, as long as it got serious and started to summon rain, the rhythm would definitely return to the right track.

no one could withstand the rain of three-digit rules. it was very certain that there was no such person in the sea!

But now, this preconceived notion of his was being shattered by Lin Yi's sword.

Until Lin Yi suddenly appeared behind it and slashed down.

caught off guard, the human body's right arm was cut off on the spot!

"Your physical body doesn't seem to be that durable."

Lin Yi looked at the arm on the ground and shook his head.

the high priest's body was undeniably strong, but it was still too weak in front of the demonic sword. in fact, even lin yi's own god body might not be able to withstand the sword's attacks.

"Trash."

the human body said in a calm tone. this was not a curse, but a simple evaluation.

Of course, it was evaluating his current physical body.

For any powerful body, in addition to the performance of the nucleus in both attack and defense, the ability to quickly heal and even self-regenerate was also a key indicator to measure.

The high priest's body was naturally not bad in this area.

But at this moment, due to the remaining chaotic energy in the wound, its self-regeneration ability was forcibly sealed!

the advantage of the power of chaos was once again revealed.

Of course, with the absolute strength of a human body, even if he lost his right arm, he would not be at a disadvantage.

In fact, Lin Yi's burst of power may have seemed like he could handle hundreds of rain attacks with ease, but it was still a huge pressure.

He'd just cut off his opponent's right arm, but he'd also taken quite a bit of damage himself. It was basically an exchange of injury, but he'd only been able to suppress it temporarily with the demonic devour sword's violence.

This naturally could not escape the eyes of the human body.

however, even if they were evenly matched, it was still an unacceptable result for it.

it was a high and mighty god. how could it go back and forth with a mere human ant?

"Looks like you're really different from the others. You're worthy of this God getting serious."

the human body had always maintained absolute rationality and did not have the slightest ineffective emotion. for such an accident to happen, it was nothing more than changing from one plan to another.

A mere human was not enough to make it angry.

one after another, the light of laws was retracted, and all of them gathered in its palm. they did not repel each other, but instead integrated into a whole in an extremely exquisite way.

Lin Yi blinked.

This method of integrating and operating the rules was quite familiar to him. The rule power that was absorbed into the new world was operating in a similar way.

If one had to point out the difference between the two, the latter would operate more naturally and smoothly under the guidance of the new world's will.

On the other hand, the movement of his opponent's palm was a little rigid and mechanical, lacking the mysterious concept of creating all things.

However, the dangerous aura that it emitted still made Lin Yi's heart jump instinctively!

"this is the great world palm that i created myself. it's the only one in the world. you should feel lucky that you, a human ant, can see it for yourself."

the human body calmly stated a fact, then slowly pushed his palm away.
