

Bodyguard 10331

Chapter 10331

One palm was a world.

In an instant, Lin Yi's essence spirit was suppressed by the world. Fortunately, the world's will protected his essence spirit at the critical moment, or he would've been destroyed!

Even so, the surface of his divine body was covered with dense cracks. It was obvious that he was on the verge of collapse.

"Eh? You're still not dead?"

The human body was surprised.

The great world palm was exclusive to the evil gods. Even if the other gods coveted it, they could not secretly learn it. This was because the basic premise of mastering the great world palm was to master a variety of rule powers!

its power was not as simple as one plus one, but a qualitative change formed from the quantitative change after a deep fusion.

this level of power was already above most rule bending powers. at least for human cultivators, it was a proper dimension-lowering attack.

as far as it knew, there was no force in the entire sea area that could contend with it.

lin yi's performance just now had refreshed its knowledge again and again, but in front of the big world palm, everything was just a trick.

lin yi was seriously injured.

the pitch-black sword projection that could cut through hundreds of rain nomological moves appeared to be too weak in front of the great world palm and could not continue.

but lin yi's presence was still there.

Not only was he still there, but he quickly recovered after a short period of dejection. He was even more powerful than before!

Such a terrifying recovery ability, even the human body that was known for its absolute rationality, felt an unprecedented sense of fear at this moment!

when it saw lin yi again, its eyes twitched.

Lin Yi's appearance had changed completely. His entire body was covered in a menacing black armor, only his face was exposed.

"This sword actually has a liberated form?"

The human body noticed the key details with a glance.

The black armor on Lin Yi's body was one with the demonic sword in his hand. More accurately, the black armor was a derivative of the demonic sword, which was another form of the sword!

Lin Yi didn't reply and charged at him with the demonic blade.

compared to just now, the aura he exuded had undergone an earth-shattering change. he was no longer the calm and indifferent person he was before. instead, it was replaced with an absolute calm without any emotions.

Even cold.

In this state, Lin Yi was an emotionless killing machine-his every move was for the highest efficiency of killing.

The massive change in his fighting style, in addition to the strength boost from the demonic devour sword's release, had instantly reversed the situation.

The human body realized that she couldn't keep up with Lin Yi's pace!

it should be known that it had always been the privilege of the strong to increase the pace of the battle. even if it seemed that the two sides were evenly matched, as long as the pace of the battle exceeded a certain critical point, the strong would instantly obtain absolute dominance over the weak!

Once they couldn't keep up with the rhythm, they wouldn't even be able to perform some basic moves, let alone seize the initiative.

even if it was forcefully cast, there was a high chance that it would go out of shape, and it would be impossible to display its due effect.

in a battle between experts, the core was to compete for power.

Rhythm was a part of momentum, and the most important part.

lin yi's performance during the previous exchange was amazing, but it wasn't out of the human body's control.

the more outstanding lin yi's performance was, the more it admired him.

in its eyes, the moment lin yi stepped into the secret room, he was already in its grasp.

Lin Yi's everything was destined to be for it!

However, things were different now.

having lost control of the tempo, the human body was shocked to find that it had no chance of turning the tables. it could only watch as the situation slowly fell into an abyss that was not beneficial to it.

The positions of the Hunter and the prey seemed to have completely reversed!

"since you've fallen into this god's trap, you can only accept your fate. don't even think about turning the tables!"

The human body launched a counterattack forcefully while trying to contact the evil God's main body.

It was only a doppelganger terminal. Although it was an invincible existence for human cultivators in the sea, it was far inferior to the main body in terms of the comprehensive and accurate information it could grasp and the power it could really mobilize.

the situation had suddenly developed to this point, and it had completely gone out of its control. it could only choose to let the evil god take over.

however, there was still no news.

this time, the human body finally panicked.

Not being able to contact the main body for a while was not a big deal. After all, even if it was an evil god, it was impossible for it to monitor the changes in the entire sea at all times. It was completely understandable that it did not pay attention to its side.

However, if they still couldn't contact him after such a long time, that would be a big problem!

after all, it was a human body, and even to the evil god, it was one of the most important pawns. especially after fighting with lin yi, how could it not react at all?

Unless the evil God's true body didn't want to respond to it, but simply couldn't care about it!

all sorts of possibilities flashed through his mind. once he thought of the worst possible outcome, the human body's face turned pale.

although gods would not fall so easily, especially evil gods, who were definitely among the top existences even among the gods, they would not fall just because they wanted to.

However, just because the possibility was small didn't mean that it wouldn't happen.

Although the evil god was powerful, it had made many enemies in the God territory. If those gods really joined forces, it was not entirely impossible to forcibly put on a show of the evil God's fall.

The human body was lost in thought for a second before Lin Yi cut off his left arm.

"you speak too much nonsense."

lin yi stomped on it without any expression on his face.

then, without giving it any chance to breathe, the demonic devouring sword cut open its stomach without saying a word. the incomplete body of the human body was cut into two on the spot.

the entire scene was like a shocking scene of dismemberment.

this was not the end.

Lin Yi didn't hold back at all as he continued to kill. Even though his opponent had been cut into pieces, he didn't let his guard down.

He knew very well that the evil god would not give up its human body so easily. Once it got rid of Li Yuanji's restraint, no matter how miserable its human body looked now, it could turn the tables in an instant!

"never underestimate the power of a god."

this was jiang xiaoshang's advice to lin yi, and he added that if the other party was an evil god, he had to be extra careful!

In the end, Lin Yi cut it to the point where not even a bit of foam was left.

Chapter 10332

But even at this point, Lin Yi still didn't let his guard down. He still maintained his highest level of vigilance.

sure enough, the coffin that had been opened suddenly closed again without any warning.

In the next second, Lin Yi threw out dozens of black sword rays.

However, these powerful sword radiances, which were enough to cut through the rain of rules, did not even leave a scratch on the ancient coffin.

the coffin was undamaged.

Just as Lin Yi was about to make his next move, the coffin suddenly fell into an endless abyss and disappeared.

at the same time, the entire secret room was quickly invaded by the endless abyss. everything in front of lin yi's eyes changed drastically, and then, his eyelids twitched as he saw what appeared in front of him.

There were five tombstones.

They were the gravestones of cruel malevolence and the other four that he had seen earlier.

Lin Yi's current state of absolute calmness was something he'd come up with in order to control the demonic sword's released power. In this state, he'd have no distractions, and there wouldn't be any emotional fluctuations.

however, at this moment, he could not help but feel his heart tighten.

In any case, cruel malevolence and the other four were his most important allies since he came to the sea.

However, due to the lack of contact, their alliance did not seem to be that close, and they seemed to only be in a relationship of mutual benefit.

but with lin yi's personality, he didn't want to see this.

after checking with his spirit sense, lin yi's expression changed slightly. "It's actually a real Kasaya."

Before this, even when he saw the five gravestones, he didn't believe that cruel malevolence and the others had died. There were probably five empty graves under them.

But now, he had actually detected five corpses.

Just as Lin Yi was about to go one step further and break open the tomb to confirm it, a low, hair-raising groan echoed through the entire abyss.

A word appeared in Lin Yi's mind.

the evil god muttered.

This was not the voice of the abyssal Queen, nor was it anyone else's voice. It was the whisper of an evil god!

Soon, four blurry figures appeared in the distance. They were the four people who had been separated earlier.

The Queen of the abyss, the nameless scholar, Chu Hongyi, and Wei Yu 'er.

However, Lin Yi wasn't surprised at all when he first saw the four of them. Instead, he raised his guard.

Logically speaking, both the abyss Queen and the nameless scholar should be allies now. After all, the moment they followed Lin Yi into the tunnel, they had already betrayed the evil gods.

anyone with a brain wouldn't go back on their word after taking that step.

Since the two of them were able to reach the top of the sea, not only were their strength unquestionable, but their brains were also unquestionable.

But the aura they were giving off right now was unfamiliar to Lin Yi.

It was completely different from the probing fight he had in hell Street!

Soon, Lin Yi confirmed his hypothesis.

the other party had made a move.

Thousands of strange mirrors appeared in all directions, and ferocious giant beasts crawled out from the mirrors one after another. The endless scholars were clearly unscrupulous this time and had completely gone all out.

However, the abyssal Queen on the other side was more worthy of fear.

This was the endless abyss, her absolute home ground. At this moment, the increase in power she displayed was far more terrifying than that of the nameless scholar!

With the abyssal energy surrounding her, she became one with the entire abyss. Even Lin Yi couldn't lock onto her position.

As long as she moved, she could only guess what would happen next.

boom!

a small palm landed on lin yi's back, and the impact was so great that even lin yi couldn't take it in his current state.

ignoring Lin Yi's defense, the abyssal queen followed up with another palm.

Although she had the appearance of a little loli, the fierceness and overbearing aura she displayed at this moment was enough to make all the male cultivators in the entire sea area blush with shame!

What really shocked Lin Yi was her blank expression, and her eyes that had lost the light.

It was obvious that the abyssal Queen was not in her normal state. She had lost control of herself!

Not only her, but the nameless scholar was also the same. His eyes were lifeless and there was no fluctuation at all.

This was completely different from Lin Yi's calmness.

absolute calmness only forcefully cut off the influence of emotions on one's rationality, but it didn't mean that one didn't have any emotions. how could a living person not have any fluctuations in emotions?

However, the abyssal Queen and the nameless scholar did not have any at all.

this is the effect of the evil God's whisper? "

Lin Yi immediately made his judgment, and Wei Yu 'er who came in right after confirmed his judgment.

wei yu 'er's eyes were also lifeless, but the sword that she thrust out was extremely ruthless.

It had to be said that under the control of the evil God's whisper, everyone's power was far more brutal than their usual peak state.

Of course, there was a huge price to pay for this, and it was likely to leave behind extremely heavy side effects.

Their current strength was the result of their potential being overexerted!

The effect was immediate.

Two sea Celestials, plus two top tier fighters, under this abnormal berserk state, they were on par with Lin Yi in his released state.

one had to know that lin yi had just suppressed the evil god's human body!

but that wasn't enough to truly threaten the current lin yi.

The real threat was yet to come.

just as lin yi was fighting the four of them, the five gravestones suddenly fell, and five familiar figures slowly stood up from the darkness.

Wolf Slayer, bu Qing Lian, Xing po Jun, Xi Bao, Du Hong.

Lin Yi's heart sank when he saw the Five's ashen faces open their eyes, filled with death Qi.

this was really troublesome.

If it was just the Queen of the abyss and the other three, he could still manage to deal with them in his current state. At most, he would just have to waste some time. In any case, the defense provided by the demonic devouring sword in this state was ridiculously strong, and it would not be easy for the other party to break through it.

However, with the addition of these five people, it was completely different.

under the control of the evil god's whispers, the strength they squeezed out was much stronger than before.

Furthermore, the strength of these five people was not to be underestimated. Even the weakest among them, the fifth Walker Du Hong, was a top-tier combat power in the sea area. He was only stronger than Wei Yu 'er and Chu Hongyi.

as for the other few, each one of them was not to be underestimated.

There was no need to mention the first Walker, Wolf extinguisher. He was publicly acknowledged to be at the peak of the entire sea region. He was a superb figure who could even stand a 50 - 50 chance against the high priest, Zhang xisheng!

With the evil God's blessing, the second Walker, bu Qinglian, was also very likely to reach the top of the sea.

Chapter 10333

after all, she was one of the few people who were closest to the ceiling of the sea, and her strength was only a step away. the threat she posed to lin yi was no less than the abyss queen and the nameless scholar.

Just like that, there were four strengthened top tier frontline forces in front of Lin Yi, four strengthened sea Ceilers.

One of them had unfathomable strength, and Lin Yi suspected that it was the enhanced version of Wolf extinguisher, on the same level as the human body!

Such a terrifying lineup, let alone facing it alone, even if it was with the top experts of the entire sea region, they would still tremble in fear.

&Nbsp; "evil gods are indeed evil gods, they really aren't disappointing at all.

Even in a state of absolute calmness, Lin Yi couldn't help but feel waves of emotions.

although this trip to hell street seemed a little rushed, his preparations were already sufficient. he had almost squeezed out all the potential that could be transformed in the near future to his bones.

If not for that, it would not have been possible to completely suppress the evil God's human body in a one-on-one battle.

But even so, he had still fallen into the current situation step by step. So far, he had not had any physical contact with the evil god. He had only exchanged blows with it through the human body.

From this, it could be seen that killing a God was easy to say, but in reality, it was a heaven-defying difficulty!

the following development was as expected.

one against nine, lin yi was at a complete disadvantage!

in fact, cruel malevolence alone was enough to fight against him in his unsealed state. with the other eight, the situation was even more one-sided.

Fortunately, the demonic devouring sword had undergone a huge upgrade previously. Not only did it obtain a huge amount of power from the Abyssal Blade and the 120000 sword souls, but more importantly, it had also used this as an opportunity to unlock a deeper layer of the seal on its power.

the current liberated form was more than one level higher than the previous berserk forms, both in terms of strength and level.

especially the powerful defense of the derived black armor, it was a bug-level existence in the entire sea.

Otherwise, with his current disadvantage, Lin Yi wouldn't even have the chance to fight them head-on. He'd be crushed immediately.

even so, dense cracks appeared on the derived black armor, and some parts were even completely shattered.

wolf extinguisher had contributed the most to this!

What was worth mentioning was that Lang Mie didn't use any powerful killing moves from the beginning to the end. It looked like the most ordinary physical attack, but the damage he caused to Lin Yi was the greatest among the nine.

It was obvious that even in his current state, he still maintained the lazy attitude from when he was alive. As long as he could skive, he would definitely skive.

However, Lin Yi was almost dead from just paddling-what would happen if he went all out?

As the battle progressed, evil God's control over the nine players became more and more effective. One of the most direct signs was that the nine Wolf players' joint attacks had more and more blind spots.

There were no blind spots, which meant that Lin Yi couldn't find a chance to fight back.

In this situation, it was useless even if he forced the rhythm of the attack and defense.

This was because the other party had a tacit understanding. Under the control of the evil god, they worked together as a whole. If one person could not keep up, another two or even three people would immediately fill in the gap.

In that case, the faster Lin Yi sped up the tempo, the more energy he would use up, and the faster he would die!

at least on the surface, he was left with two choices.

He would either die a slow death under the joint attack of nine people, or die a little faster.

however, lin yi's answer was the third.

rampage.

in an instant, the only part of lin yi's face that was exposed was covered in black armor. he had turned into a human-shaped monster in black armor.

His speed immediately increased by ten times!

The nine-man encirclement that was flawless earlier was torn apart and riddled with holes in an instant.

lin yi's explosive strength had completely exceeded the limits of what the nine of them could withstand.

Of the nine, only cruel malevolence could keep up with the pace. The rest, including the abyssal Queen, the nameless scholar, and Madam Qing, were already showing signs of fatigue.

As for the other five people, they were directly reduced to a burden.

Not only couldn't they keep up with Lin Yi's pace, but they'd also become an obstacle to their own people.

The evil god obviously wouldn't be soft-as long as Lin Yi was stopped, even if it was its own people, they would be killed.

du hong, the fifth advisor, became the first sacrificial victim to be abandoned. cruel malevolence pierced through his body and his body exploded into a mist of blood.

The scene was extremely tragic.

Of course, in theory, he was already a corpse before he climbed out of the grave. This was not considered killing each other. At most, the corpse was used up.

if this continued, du hong would not be the only victim.

as long as they couldn't keep up with lin yi's rhythm, lin yi didn't even need to do anything-the evil gods would clean up the scene on their own.

the gods had never pitied humans, and it was even more so for the evil gods. everyone was just a tool in their hands. once they were no longer useful, it was only natural that they would be abandoned.

but no matter how cruel the evil god was, it couldn't change the situation.

Under the protection of the black armor, Lin Yi's speed didn't slow down at all after the tenfold increase. Instead, it got faster and faster.

ten times the speed was just a starting point!

the state of absolute calmness before wasn't for him to increase his combat strength at all-it was the exact opposite. lin yi had specifically developed the reason for this state of calmness-it was for self-restriction.

As the energy released from the seal grew stronger, the sword's unique violence and chaos inevitably affected Lin Yi's rationality more and more!

last time in the sword tomb, when he went into berserk mode, lin yi's personality changed drastically in battle. it was the influence of the demonic devouring sword.

At that time, he had to rely on the blessing of the new world's will to escape from that state.

But now, the demonic devouring sword's power output was more than ten times higher than before!

even with the world's consciousness as his trump card, lin yi couldn't help but worry-what if he went too deep into the trap and never came back?

this wasn't him trying to scare himself, but something that was completely possible.

that was why he had specially developed the state of absolute calm in order to suppress the demonic devouring sword's violent and chaotic assault on his mind. from the results just now, it was clearly a success.

In this state, he could completely control the power of the demonic devour sword.

Chapter 10334

the premise was that he couldn't use more than ten percent of the sword's power!

10% seemed like a small amount, but it was enough to suppress the previous evil god's human body. in the entire sea area, it was enough to do whatever it wanted.

unfortunately, 10% wasn't enough to deal with the encirclement of cruel malevolence and his team.

as long as there were other options, lin yi wouldn't give up on suppressing the demonic sword, letting its violent and chaotic nature affect his rationality.

the problem was, there was no other way.

Lin Yi had to take a gamble, rather than watch as he was killed by cruel malevolence and the others.

This was a huge gamble!

There was no such thing as 70% to 80% rationality. It was only zero and one. One had to either maintain absolute rationality or completely give up rationality.

Especially in Lin Yi's situation, as long as he let go of the first opening, he'd be sliding all the way down the abyss, like a high-speed truck without brakes. He'd have to die if he wanted to stop again.

Lin Yi's speed was getting faster and faster, and the black armor on his face was getting thicker and thicker.

At first, it was only a thin layer, but after a short while, it had already swelled into a ferocious appearance. A long hook emerged from the tip of his nose, and the viciousness overflowing from it was like the long beak of some kind of vicious bird, making people's hearts jump.

as the demonic blade's power was released, the balance of the battle started to tip in lin yi's favor again.

After two face-to-face exchanges, he appeared behind the nameless scholar like a ghost.

even though he was being controlled by the evil god, the nameless scholar still displayed a strong survival instinct at this moment.

Thousands of mirrors stacked up in front of Lin Yi, blocking him.

At the same time, the thousands of mirrors connected to the terrifying beasts' attacks were perfectly stacked together under the mirrors' effects, and they all landed on Lin Yi's body.

Such power had even exceeded the ceiling of the sea.

Even a top-tier expert of the same level would probably be killed in one move if he were to take such a direct hit!

However, Lin Yi only responded with a weird laugh.

a hole appeared on the black armor on his chest, but in less than a second, the hole was repaired and even became thicker!

on the other hand, the nameless scholar's head was pierced through by the demonic devouring sword.

Not only that, under the impact of the violent and chaotic power, the nameless scholar's brain spilled all over the ground on the spot. Along with it, his primordial spirit was also obliterated without a trace.

The magnificent ceiling of the sea had disappeared from the world just like that.

upon seeing this, the remaining people under the evil god's control paused for the first time. even the evil god could not completely suppress the threat of death that was coming at them. after all, this was the deepest instinct.

Cruel malevolence and the others weren't affected. They were already dead.

after finishing off the nameless scholar, lin yi didn't stop for a second. he immediately pounced on the biggest threat, cruel malevolence, and swung his sword in a series of attacks!

In his current state, an ultimate move like sword sacrifice was no different from an ordinary attack.

in the face of such a formation, cruel malevolence, who had been lazy even in death, was finally forced to use his full strength.

He had actually used his palm to receive the sword offering!

if this scene was seen by the outside world, it would definitely overturn everyone's understanding.

What he was going to do next was a sword sacrifice, and it wasn't just one shot, but five consecutive shots. After stacking on top of each other, he was actually able to receive them so easily.

They were both at the ceiling of the sea, but the gap between them was vividly displayed at this moment.

lin yi himself wasn't surprised at all-he only laughed even more excitedly, and the demonic devouring sword cut through the physical limit, hitting the man's waist.

According to what happened to the nameless scholar, cruel malevolence would die immediately.

but he didn't.

cruel malevolence flew out on the spot, and lin yi chased after him, slashing wildly. as for the rest, he had already forgotten about them.

the reason was simple. he was not a threat.

After a few breaths, both of Wolf extinguisher's hands were stepped on by Lin Yi, and he lost the chance to escape. Lin Yi smiled and stabbed down with his sword!

the scene was extremely primitive and plain, but the ferocity and violence that overflowed from the screen collectively suffocated the remaining people who were left far behind.

"you can't!"

Light returned to Madam Qing's eyes all of a sudden, and she tried to stop him.

but lin yi didn't care.

If it was Lin Yi in his conscious state, he would have a stomach full of questions.

Madam Qing, cruel malevolence, and the others were all corpses. They were clearly dead. He had confirmed this many times before. There was no way he would be wrong.

the heretic god was able to control the corpses through murmurs, allowing them to unleash powers that were even more powerful than when they were alive. he could understand all of this.

but for someone who was confirmed dead to be able to break free of the evil god's whisper's control and even regain self-consciousness, it was truly hard to understand.

Madam Qing was not as simple as she had thought.

Unfortunately, Lin Yi couldn't be bothered with that. He smiled evilly as he stepped on cruel malevolence, the demonic devour sword wreaking havoc on his body.

in the blink of an eye, cruel malevolence was shattered into pieces.

normally, he would have followed in the nameless scholar's footsteps and not even a trace of him would be left.

however, the strange thing was that after it was cut into pieces, the other small pieces of meat quickly regenerated and returned to a complete wolf extinguisher in less than a breath's time, intact!

Madam Qing's eyes flickered, and she was secretly shocked.

As the first Walker and the second Walker, they should have been the closest teammates to outsiders. However, in fact, she didn't know much about cruel malevolence.

even if there was, it wasn't from cruel malevolence himself, but from other channels.

she knew better than anyone how terrifying cruel malevolence was, but she never thought that he could be so heaven-defying!

it wasn't strange for the top five to be wiped out by the evil god.

Cruel malevolence's resurrection might be a subversion of common sense in the eyes of others, but it was not surprising in her eyes.

After all, she could do it too.

both of them had deep secrets, and this was something big brother would not tell second brother.

But now that he was cut like this by Lin Yi, he could still be reborn. This was a bit shocking!

Some existences with heaven-defying recovery abilities could also reincarnate minced meat, but the premise was that it depended on who killed them.

Lin Yi's every sword strike had an indescribable chaotic power that naturally countered all self-healing. Even the evil God's human body could only suffer after being hit, so why was he so heaven-defying?

Chapter 10335

lin yi, who was in a berserk state, was stunned when he noticed that cruel malevolence had recovered. even he, who had lost his mind, felt that this scene was unbelievable.

"You actually cut me up like this. You're really ruthless."

Cruel malevolence regained his consciousness and was surprised to see Lin Yi's condition.

he knew that this day would come, but he didn't think that lin yi's strength would rise to this level in such a short time!

Lin Yi's aura made him want to back off.

he has lost his mind, "Madam Qing said. I'm afraid he will keep killing us. What should we do?"

"it's not a good habit to stare at your own people and kill them,"

cruel malevolence scratched his head as he saw lin yi's red eyes staring at him. he said helplessly, let's see if we can wake him up. Madam Qing, I'll leave the rest to you.

She charged at Lin Yi after finishing her sentence.

Madam Qing turned to look at the others. They were still under the control of the evil God's whisper. She shook her head and smiled bitterly.

"you really think highly of me,"

Although she said that, she still stepped in to stop the abyssal Queen and her men.

Whitewashing and weakening.

with her strength, she could stand shoulder to shoulder with the other ceiling-level powerhouses under the control of the evil god. but now that she had regained her consciousness, without the support of the evil god, it would be much more difficult for her to fight against a strengthened ceiling-level powerhouse like the queen of the abyss.

not to mention, there were also xing pojun and the other top tier combat forces who were eyeing them covetously.

However, Madam Qing still managed to stop them. During this time, she even faced the Queen of the abyss head-on, not giving in at all!

Xing pojun and the others who wanted to attack Lin Yi couldn't break through her defense line.

Cruel malevolence seemed to have expected this.

he didn't even look at the situation behind him, nor did he pay any attention to it. they had been partners for many years, and madam qing had never disappointed him.

Not to mention, he was facing Lin Yi now. Even in his entire life, Lin Yi was an unprecedented Super Monster.

he couldn't afford to be distracted!

Huu.

Cruel malevolence let out a breath of turbid air and a layer of long gray hair slowly grew on his body.

"i hate this look the most, but for you, i can only pinch my nose and make an exception. remember to thank me when you wake up."

as cruel malevolence spoke, he grew taller and in the blink of an eye, he was more than 15 meters tall.

at the same time, not only was its body covered in long gray fur, but its face also turned into a ferocious and terrifying beast's face.

To be precise, it was a Wolf's face.

At this moment, he had transformed into a giant werewolf with an overwhelming sense of oppression.

lin yi, who was in a berserk state, seemed to feel the threat. he didn't care about the others anymore. with a sharp howl, lin yi raised his hand and attacked cruel malevolence from all directions.

"You still know how to test me? It means that he still has a brain. That's good."

Cruel malevolence said calmly. He didn't even move his feet and crushed the sword priests that were coming from all directions!

If the sword Saint ye Qiyuan saw this scene, he would probably die of depression.

the sword sacrifice was the strongest killing move of him and the sword saints of the past. in the end, it had fallen into the hands of these two monsters, and it was only used as a warm-up. it could not even be considered an appetizer.

It was truly a case of comparing goods to throw away goods, and comparing people to people would kill them!

the difference between the two ceilings was much greater than what the sea realm people knew. however, for most people, the 3rd and 50th floor ceilings were just ceilings, and they were so high that they couldn't see the top.

After a "simple" test, Lin Yi got serious.

if he was in his normal state, he wouldn't easily make a move before he had a clear understanding of the other party's background. even if he couldn't completely understand the conditions, he would at least have a clear idea of what to do.

but now, other than the most primitive fighting instinct, he had a recklessness!

however, lin yi did have the capital to be reckless.

for the first time, cruel malevolence took out his werewolf form and was ready to fight, but he was still at a disadvantage against lin yi who was charging at him.

Both of them were existences at the peak of their physical limits.

Lin Yi's divine body, needless to say, was even stronger with the demonic devour sword. Cruel malevolence's werewolf form wasn't any weaker than the evil God's human body.

fortunately, this was the endless abyss, which could completely absorb all the impact and aftermath. if it was any other independent secret realm, it would definitely be blown up by these two monsters in minutes, and it would be their physical bodies!

unfortunately, there was always a higher mountain. cruel malevolence soon fell into an all-round disadvantage.

"Kid, you've fallen so deep, are you really not afraid that you won't be able to come back?"

Cruel malevolence watched as Lin Yi's attacks became fiercer, especially the black armor on his body. He knew that this was a sign that Lin Yi's will was falling deeper and deeper.

if this continued, lin yi would be completely dominated by the sword.

At that point, no matter how strong Lin Yi's willpower was, he would lose all possibility of regaining his senses and become a puppet of the sword!

"Roar!"

Lin Yi's response was an even more violent attack.

cruel malevolence's heart sank.

At this point, the situation was on the verge of completely losing control. If he still couldn't pull Lin Yi back, then no matter how perfect his plan was, it would all be for naught.

Although from his perspective, as long as the last step succeeded, it might be a good thing to use this opportunity to sacrifice Lin Yi, but out of personal feelings, he didn't want Lin Yi to die Here.

At the very least, he could not die Here in such a pathetic manner!

"forget it. i'll do my best and leave it to fate. what happens next will depend on your own fortune."

Cruel malevolence said as he forcefully withstood Lin Yi's crazy attacks. He gathered all his strength into his claws despite the terrible injuries on his body.

In fact, after materializing, it looked like a crystal-clear tear.

Wolf God's tear!

cruel malevolence roared as he slammed his claw on lin yi's face. to be more precise, it hit lin yi's scary black armor.

the wolf god's tear seeped into the black armor.

Lin Yi immediately let out a scream of extreme pain. The pain from the sound alone was enough to make people's scalps numb. Even the abyssal Queen and the others who were fighting in the distance stopped moving.

the abyssal queen and the others regained their senses and saw lin yi tearing the fifty-foot-tall werewolf into pieces in an unprecedented violent manner!

Cruel malevolence was gone.

“.....”

This time, even Madam Qing's scalp went numb. As for the abyssal Queen and the others, they looked at Lin Yi with fear.

Chapter 10336

Lin Yi's roar continued.

Tearing the wolf into pieces couldn't offset the great pain brought by the wolf God's tear. Even in his current state of loss of control, he couldn't bear this kind of combined attack of extreme power and spiritual sense impact.

if he was awake, he might have gone crazy!

seeing lin yi turn to them, the abyssal queen didn't even have time to figure out the situation and subconsciously turned to run.

This was her absolute home ground. Normally, even if it were other top-tier experts of the same level, they would only be suppressed by her here.

but now, facing lin yi in his current state, she had no intention of fighting back.

she knew very well that she was courting death!

but just a second after she entered the abyss, she was forced out by the violent lin yi.

Looking at the ferocious black armor in front of her, the Queen of the abyss discovered in despair that her abyssal concealment, which should have been impeccable in theory, was completely useless in front of the other party's abnormal combat instinct.

so what if he got full marks in his technique? in front of this kind of freak who had cheated, any technique was just a gimmick!

the abyssal queen was so frightened that her hands and feet turned cold when she saw the demonic devouring sword coming at her with a violent killing intent. she could not move at all and could only close her eyes in despair and wait for her death.

she was a dignified ceiling of the sea, but she actually had such helpless moments.

Madam Qing closed her eyes, feeling sad for the death of her kind. She couldn't bear to see such a cruel scene.

the situation was out of control the moment cruel malevolence lost control of lin yi. the abyss queen was the one who died, and it would be the rest of them next.

No one, including her, could withstand Lin Yi's slaughter in this state!

Surprisingly, the demonic devouring sword suddenly stopped just as it was about to pierce through the abyssal Queen's petite body.

the abyss queen was overjoyed, thinking that lin yi had regained his consciousness.

The result wasn't the same.

Lin Yi was still in that berserk state, and it wasn't his will that made him stop, but something extremely important that attracted his attention!

Seeing Lin Yi disappear into the abyss, the remaining people looked at each other.

The four women heaved a sigh of relief at the same time.

as for the third walker, xing pojun, and the fourth walker, xi bao, after losing control of the evil god's whisper, they turned back into corpses.

After all, they did not have cruel malevolence or Madam Qing's abilities. Once they died, they would be dead for real. There was no chance of resurrection!

"Will Yingluo come back?"

The abyssal Queen asked with a lingering fear. As the master of the abyss in name, she was already thinking of escaping from the abyss at this moment.

that face-off with lin yi was enough to leave a shadow in her heart for the rest of her life.

I don't know. Madam Qing shook her head with a bitter smile. I don't know.

compared to lin yi, she was more concerned about where cruel malevolence was.

although cruel malevolence had been dismembered into pieces again and died even more miserably than the last time, she knew that cruel malevolence would not die so easily.

from the battle scene just now, she had roughly guessed cruel malevolence's origin.

the beast god palace!

Before this, she only knew that cruel malevolence was the same as Lin Yi-they weren't natives of the sea, but Masters from outside the sea.

however, after fighting alongside each other for so many years, cruel malevolence had never revealed his werewolf form, much less used the iconic wolf god's tear.

the wolf god's tear was the signature of the wolf god.

and the wolf god was the former beast god that had been replaced!

no one knew why cruel malevolence had come to the sea realm, nor did they know why an expert of the beast god hall had joined the sea god and become his first walker.

Madam Qing could only vaguely guess that all of this had something to do with the arrangement of the gods.

The beast God, the evil god, the sea god, and even the former beast God were all participants in this game!

"Battle of the Gods, bi an."

when she thought of this legendary word, madam qing felt a wave of powerlessness.

her background could already be considered unfathomable, and almost no one in the entire sea could compare to her, but in the face of the overall situation of the battle of gods, it was not worth mentioning at all.

All living beings in the sea area were ants, and so was she.

However, it was hard to say if a certain someone who had already swallowed the sea god's Godhead and hammered the evil God's human body into nothingness was the same as an ant.

At this time, Lin Yi had already crossed the entire endless abyss with his ghostly speed under the drive of his instinct.

The so-called endless was only for mortals.

In front of a true expert, even the endless abyss had to reveal its limit!

Hu!

lin yi suddenly stopped and without any warning, a familiar coffin appeared.

The coffin slowly opened, and the high priest Zhang xisheng's evil God's human body once again stood up unscathed.

"You've really surprised this God. There's actually an ant like you in this world. You should be proud to be able to force this God to this step."

the human body sized lin yi up, as if the crushing experience didn't affect him at all.

Lin Yi's answer was simple and concise, and he pounced forward with his sword.

the demonic devouring sword directly pierced through the body of the human body!

However, the human body did not Dodge. Instead, he revealed a strange smile and slowly grabbed the blade of the demon devouring sword. " very good. since you're already under its control, i'll personally have a chat with it. "

As it spoke, a powerful aura unique to the gods flowed into the demonic devouring sword through its hand.

After entering, the violent Lin Yi instantly calmed down.

time seemed to have stopped, and the scene was still.

On one side was the evil God's godly aura, and on the other side was the demon devouring sword's violent aura. The two auras started to tangle around Lin Yi.

They seemed to be attacking each other, but they also seemed to be communicating.

The only thing they could be sure of was that Lin Yi could be controlled by any party, but not himself!

Gradually, the two auras seemed to have reached some kind of tacit understanding. Under the influence of the evil God's aura, the demonic devouring sword's violent aura began to rise uncontrollably.

A change that could be seen with the naked eye was that the black armor on Lin Yi's body started to look more and more terrifying, and a long iron Tail grew out from his back.

lin yi was getting further and further away from his human form.

this was a sign that his own will was being suppressed deeper and deeper. when he completely lost all traces of humanity, it would also mean that his own will would be completely suppressed.

from then on, he would never be able to return to his true nature.

He was no longer Lin Yi, but the puppet of the sword! The sword was his master!

But from another perspective, this also proved how terrifying Lin Yi's state was.

Chapter 10337

Even someone as strong as the evil God's human body was forced to give up the simplest and most brutal frontal attack and could only use such a sinister move that was not bright enough in the eyes of ordinary people.

It had no choice, it really couldn't win.

The evil God's power on the human body was limited, after all. It was more than enough to crush the other sea Masters, but it was a pity that it had to face a monster like Lin Yi.

If a forceful attack didn't work, he could only use his wits.

fortunately, lin yi's current state had a huge loophole, and it could take advantage of it to destroy lin yi's will from the inside!

not only that, but it could also take over lin yi's body completely and take the demon devouring sword at the same time, killing two birds with one stone!

In front of the evil god Himself, Lin Yi's God Body and the demonic devour sword weren't that valuable.

However, to its human body, its value was absolutely immeasurable!

don't forget, in order to obtain a body at the level of the high priest zhang xisheng, it had already racked its brains, let alone the two things in front of it.

the key was that the godly body had another huge advantage that couldn't be ignored.

It could perfectly receive the power of the gods and would not be easily eroded by the human world!

This meant that it no longer needed to hide in the coffin and sleep. It could move freely in the outside world, and from there, it could build an unprecedented powerful evil God's temple!

Just this point alone was enough to overturn the entire situation.

It could even influence the structure of the gods!

In the blink of an eye, Lin Yi had completely animalized, his sea of consciousness completely occupied by the demonic devour sword. He had completely turned into a cruel and terrifying non-human monster.

"from now on, lin yi will no longer exist in this world."

the human body's lips curved into a smug smile.

However, it did not stop there.

on the contrary, this was only the beginning.

if he stopped now, it would only benefit the demonic devouring sword for nothing. how could it, an evil god, help others?

Following the human body's arm, an even more unstoppable force forced its way into Lin Yi's body. Under the impact, the violent and unsolvable demonic devour sword's aura was suppressed!

What was even more ridiculous was that no matter how the demonic devouring sword resisted, it was like an ant trying to shake a tree in the face of this vast power. It was completely useless.

if lin yi's consciousness was still clear, he would definitely be able to recognize that this evil god energy wasn't the energy from the human body.

It was the power of the evil God's divinity!

lin yi was no stranger to divinity power after swallowing the seagod's divinity.

A divine spark was the foundation of the gods "power. Without a divine spark, there would be no absolute control over the power of laws. The fall of the sea god had started from the loss of the divine spark.

the gods would not easily show such an important power to others unless they had no other choice.

Not to mention, the heretic God had forcefully projected the power of a divine persona from the divine territory. Even if it was just a part of the divine persona, the price it had to pay was immeasurable!

in comparison, even with lin yi's current god body and the chaotic energy of the demonic blade, it was still not enough.

the loss outweighed the gain.

"So you have other plans!"

Li Yuanji, who was confronting the evil god in hell Street, was the first to react, and her expression changed.

The evil God's powerful will soon came. "at my level, do you really think i'd go through so much trouble for a mere divine body? You were once a top-tier false god, but you don't even have this much sensitivity. You've disappointed me. "

its tone sounded like it was throwing a flirtatious glance at a blind man.

Li Yuanji sneered back. the gods don't have as many emotions as you. They are happy, angry, sad, and happy like mortals. You are indeed the shame of the gods.

" i'm not on the same path as that bunch of trash. it's normal for them to reject me. otherwise, i should have reflected on myself. "

"Fairy Yuanji, aren't you the same?" the evil deity asked in return. to be honest, i like this lin yi you're protecting more. you're the one who's on the same side as him, am i right?"

"What are you trying to say?" Li Yuanji's heart tightened.

ancient God! the evil god faintly said. ancient God.

the atmosphere instantly froze.

li yuanji's face turned pale on the spot.

Being an ancient God was Lin Yi's biggest secret, a secret she swore to protect with her life. If this was exposed, especially to a God like him, the consequences would be unimaginable!

If Lin Yi could successfully grow in the later stage, then there was naturally nothing to be afraid of. When the ancient God clan was strong, even the God of creation had to retreat.

but the problem was that lin yi was still thousands of miles away from that step.

Now that people knew about it, it would definitely be nipped in the bud!

sensing li yuanji's reaction, the evil god was even more certain.

don't be so nervous. As you said, I'm a strange one among the gods. I'm very sympathetic to the ancient God clan's encounter.

The evil God's words were like a whisper in her ear, almost causing Li Yuanji to lose her mind.

" evil gods are indeed evil gods. they are everywhere! "

Li Yuanji was secretly on alert.

if she had lost the battle just now, even she would have been taken advantage of by the evil god and become his puppet.

At that time, all the secrets would be revealed to the other party, and there would be no hope of turning the tables!

"i'll take this as your compliment and accept it."

The evil god laughed strangely. I paid such a big price just to lure you. To be honest, even when dealing with other gods, I have not spent so much effort. You should be proud.

"when did you find out?" li yuanji asked with a sullen face.

This was a matter of life and death, and Lin Yi couldn't give himself away.

He was extremely careful every time he used the world's will. Even if he could ensure that the gods would not spy on him, he would still shield himself and not leave any traces.

As Lin Yi's most important partner, Li Yuanji would always help him to fill in the gaps.

It was impossible to leave any flaws with such a double insurance measure.

The only hidden danger was Lin Yi's God Body.

this was something that could not be concealed. if the gods were sensitive to this, they might be able to detect it.

However, there was no definite connection between the God Body and the ancient God practitioner. Lin Yi's God Body only meant that he was extraordinary, just like how a normal person's body was strong, but it didn't mean that his intelligence was top notch!

The evil god replied with a strange smile. there's no hurry. Fairy Yuanji, you can take your time to guess. Once you've guessed it, the matter should be almost over.

As it spoke, it suddenly increased the pressure on Li Yuanji.

obviously, it was afraid that li yuanji would rush into the abyss and ruin its most important plan!

Chapter 10338

At this time, after a stalemate, the evil God's divinity power had completely suppressed the demonic devour sword's crazy counterattack and took over Lin Yi's body.

the next step would be to invade the new world!

In the face of its powerful divinity, even the defensive barrier that the New World had built on its own would not stand a chance.

"he really is an ancient god cultivator!"

The evil god felt everything in front of him and was overjoyed. a newborn world full of vitality. How compatible is this with this God? after taking over all of this, this God will be the last ancient God from now on!

Its ambition almost overflowed the screen.

According to common sense, gods and ancient gods were two completely different paths.

Everything about the gods was attached to the world's origin law and was naturally under the control of the God of creation. On the other hand, the ancient gods created a new independent world on their own, and even the God of creation could not interfere.

These two paths were completely opposite to each other.

in theory, it was impossible for anyone to be on two sides at the same time, including the high and mighty gods. however, the evil gods were an exception.

it was not an ordinary god to begin with, and the meaning of the word 'evil god' clearly showed that its way of existence was different from the other gods.

the gods were attached to the world's original laws, while the evil gods were attached to the gods!

as long as it wanted to, it could quietly attach itself to any god except the god of creation and then secretly use the rule power of the gods.

it was also because of this that the human body had a heaven-defying move like the great world palm!

Of course, this method determined that the upper limit of the rule power that it could mobilize would definitely not reach the level of the corresponding gods.

It was common sense that once a skill was used up, it would be difficult to master it.

but at the same time, it also brought it another hidden great benefit. its attachment to the world's original rules was far less close than that of the other gods.

This also meant that the influence of the God of creation on it was far weaker than that of the other gods!

If there was only one person in the world who could walk the path of both gods and ancient gods at the same time, then there was no doubt that it was the evil god!

Once the two paths were taken at the same time, with the powerful combat power of the gods and the immeasurable future potential of the ancient gods, even the evil god couldn't help but feel excited when it thought about it.

one day, it was not impossible for him to be above the god of creation!

"Lin Yi, I should really thank you. You're the only chance for me to turn over a new leaf."

The evil God's laughter echoed in the New World.

a human cultivator had actually become a god of a generation. no one would believe it if they said it out loud, but it was a real fact in front of them.

At that moment, Lin Yi's playful voice sounded.

"Oh, really? I'm so honored."

The evil God's smug laughter stopped abruptly.

The evil God's consciousness took a step back subconsciously as it looked at Lin Yi's essence spirit.

This was not quite the script it had expected!

Of course, Lin Yi's essence spirit was nothing in front of the evil God's intent. There was no need to compare the two. The difference was too big.

but the problem was that this was a new world, lin yi's home ground!

A new world under Lin Yi's control and a new world without Lin Yi's control were two completely different things to the evil god who wanted to replace him.

The latter was a delicious cake, and eating it would bring it endless benefits.

however, the former was a piece of poison. even if it ate it by force, it could be poisoned to death!

" what? " the evil god could not help but ask. " your consciousness was not crushed by the demonic devouring sword? "

Judging from the situation just now, no matter how he looked at it, Lin Yi's consciousness had been completely destroyed by the violent energy of the demonic devouring sword.

as the core driving force, it was impossible for it not to know this.

"i'm its master after all," lin yi smiled faintly,"it's not unreasonable for me to be prepared for this little irascible thing, right?"

The evil God's consciousness sank completely. so, all of this is an illusion that you deliberately created. You wanted to lure me into the trap? "

"To be precise, I'm inviting you to enter the jar."

Lin Yi corrected. Even when facing an existence like the evil god, he was still calm and composed.

After all, this was all a trap he had set up.

The other party was coveting his new world, but wasn't he also continuing the other party's divinity?

lin yi knew the benefits of the divinity all too well after consuming it.

it wasn't an overstatement to say that getting a godhead would save him ten thousand years of hard work!

of course, with his current level, no matter how well he planned, there were huge risks.

This was walking on a tightrope. If he was the slightest bit careless, he would immediately lose the whole game and be consigned to eternal damnation!

The evil God's consciousness was silent for a moment. It could feel that the will of the New World was gathering rapidly, and it was faintly forming a stance of closing the door to beat the dog. It could not help but laugh in anger.

" i heard that the ancient god cultivators are a group of arrogant people. i didn't believe it before, but i've finally seen it for myself today. "

The evil God's will sneered. if your new world had already developed to the point where life could be born, I would indeed be in danger. Unfortunately, you are still far from that.

you want to eat this god's divinity with this little bit of the world's will? aren't you too naive?"

as he spoke, he directly broke through the restraints of the world's will and created an exit to the outside world.

This way, it could attack and defend, easily breaking the situation.

lin yi's face changed.

even though he had tried his best to overestimate the other party, he had still underestimated the power of the evil god. this was only a small part of the godhead, and it already had such terrifying power. it was really despairing.

last time, he had been able to successfully swallow the seagod's divinity not only because he had walked right into a trap, but also because he had lost his divinity long ago, and his divinity's power was much weaker than normal, even less than 10%.

however, the evil god he was facing now was at its peak. even if it could only project a small part of its divine persona's power over, it would be a completely different concept.

at this moment, jiang xiaoshang appeared beside lin yi and looked at the evil god's will with burning eyes, " "The great Lord evil god is going to escape just like that?"

"are you trying to goad me into action?"

the evil god's will revealed a playful tone and laughed instead. "did i say i was leaving? Hehe, I don't have the habit of spitting out the meat in my mouth!"

"Then I'd like to experience Lord evil God's might."

Lin Yi looked on coldly, not in a hurry to make a move.

Although he had fallen into his trap, it was not strange for the other party to still maintain such confidence. The high and mighty gods would never truly look at the human ants below them in the eye.

moreover, in the current situation, the other party could indeed come and go as he pleased. the will of the new world alone was not enough to stop it.

Chapter 10339

although the level of the world's will was high, and in theory, it was enough to suppress the evil god's will, it was still a newborn after all. it only had a qualitative advantage but no quantitative advantage.

of course, the evil gods would not leave so easily either.

Lin Yi was drooling over his evil God's divinity, and his desire for the New World would only be even greater!

The problem now was that Lin Yi couldn't make it stay, and it couldn't eat the New World. After all, the divinity's power was still limited.

The situation fell into a strange stalemate.

however, the stalemate was broken very quickly. with the arrival of an even more powerful godhead, lin yi and jiang xiaoshang's expressions changed at the same time.

"They really put in a lot of money."

looking at the evil god's godhead that had suddenly expanded by three times, even lin yi was shocked by the other party's wealth.

Together, it was equivalent to 40% of the evil God's Godhead!

logically speaking, with the strict restrictions placed on the gods by the divine territory, even if 10% of the godhead was projected, it would already be a heaven-defying act. however, 40% was directly projected!

40% of the godhead's power was no longer at the level of a nuclear weapon in the human world, but at the level of a world-destroying weapon.

Once it was fully released, it was more than enough to destroy the entire sea area.

if this scene were to be exposed, it would definitely cause a stir in the entire divine realm. just this point alone was enough to make it the public enemy of all the gods!

in the face of such a mass, even the world will, which was the host of the new world, clearly showed its weak side.

even if they were unable to completely seal off their opponents, they would still have the upper hand in the battle and had a certain initiative.

But now, in the face of the evil God's will, which had 40% of the divine persona's power, the new world's will became the minority.

The advantage in quality was completely offset by the opponent's advantage in numbers, and even surpassed!

the evil god's will said in a mocking voice, " "Do you feel this God's might now?"

Lin Yi's face darkened. even if you have 40% godhood, aren't you looking down on us? "he asked.

"how can that be? i have been revering the ancient god clan for a long time. even the god of creation is afraid of them. i am not stupid enough to let my guard down."

as the evil god's will spoke, the massive power of the divine persona spread out bit by bit, and in the blink of an eye, it had already enveloped the entire new world!

With that, even if Lin Yi had the world's will, it would be hard for him to escape.

and if he couldn't get away, it was only a matter of time before the new world was completely devoured. in this situation, lin yi's own strength wouldn't be of any use.

the difference in their levels was too great!

"aren't you afraid that i'll fight you to the death?" lin yi said with a determined look.

"Hehe, if other human cultivators say this, I'll just smack their faces with dog shit! But you, I really have to be careful."

As expected, the evil God's will was on guard.

To be more precise, it had maintained an extremely cautious posture from the beginning to the end, leaving a way out for itself.

once he saw that the situation was not good, he could retreat at any time.

This wasn't Lin Yi trying to intimidate it, but it was its nature as an evil god. After all, it was The Public enemy of the gods in the God Realm, and there were more than one or two gods who wanted to harm it.

Lin Yi's lips curled up, "seems like it's working. It's settled then."

Without any hesitation, his primordial spirit immediately began to merge with the new world's will. With the addition of his primordial spirit, the world's will would gain stronger independence and initiative.

"You're a f * cking lunatic!"

the evil god's will could not help but curse.

if lin yi was allowed to complete the fusion, the new world will's level would rise to a higher level!

There was already a qualitative gap between them. Once the gap continued to widen, it could not be made up by relying on numbers.

Of course, Lin Yi had to pay a huge price for this.

after the complete fusion, his primordial spirit would become one with the world's will, and they would never be separated again.

in other words, he had completely given up on his identity as a human!

in this way, as long as the new world was not destroyed, he would also be immortal. in terms of the level of life, it was undoubtedly a huge leap.

however, for a human, especially for lin yi, who had so many female friends and so many things to care about, the price he had to pay for this fusion was unparalleled.

"He's actually serious?"

The evil God's will was still cautious, and after making sure that Lin Yi wasn't bluffing, it finally made its move, " "Get lost for this God!"

the huge godhead's power interrupted the process of lin yi's essence spirit merging with the world's will.

However, it didn't kill Lin Yi's essence spirit.

It wasn't that he didn't want to, but he didn't dare to!

although lin yi's essence spirit hadn't truly fused with the world will yet, it was already deeply bound to a certain extent. if anything happened to lin yi's essence spirit, the world will would self-destruct at the first moment.

At that time, even if it had 40% of the Godhead's power, it would be helpless.

Not only would he not get any benefits, but he would also be inevitably affected by the self-explosion and get himself into trouble instead of eating the fish!

As an evil god, it would not do such a stupid thing.

Lin Yi's essence spirit couldn't be left alive, and he couldn't be killed!

the evil god's will sneered,'do you think that you can stop me? do you have some kind of laughable misunderstanding of the word "evil god"?"

At the same time, Lin Yi's essence spirit was brought out of the New World by the power of his divinity.

Although Lin Yi's essence spirit was bound to the will of the world, even if he was killed outside, the will of the world would still self-destruct, but what the evil god was going to do now was obviously not so simple and violent.

it had found the perfect place for lin yi's essence spirit.

it was lin yi's god body!

lin yi froze, and before he could react, the demonic devouring sword's violent and chaotic aura was already pressing down on him.

"aren't you its owner? won't it cooperate with your acting?"

the evil god's will left behind a sentence full of amusement, " "i just communicated with it. why don't you guess if it will still listen to you, its master?"

"....."

Lin Yi's heart skipped a beat, but he couldn't care about anything else-the demonic devouring sword's violent Qi was completely out of control!

Previously, by relying on the tacit understanding they had developed, he could still barely control this rage and make sure that it didn't really break through his rationality.

but now, the demonic devouring sword was like a ferocious beast that had torn off its disguise. it pounced forward and started biting.

even with the strength of lin yi's essence spirit, half of it was torn apart in an instant!

Chapter 10340

The evil God's will monitored this scene and said unhurriedly, " don't be in such a hurry to die. It won't be too late for you to die when I really take over your new world. After all, you don't want the New World that you've worked so hard to create to be destroyed just like that, right? "

lin yi didn't have the time to reply.

right now, he was truly in an unprecedented crisis!

He was only one step away from eternal damnation.

however, even if he relied on his strong will and was able to withstand the crazy bite of the demonic devouring sword for a short time, he would still be doomed after a long time.

"don't be naive. you may be able to hold on for a moment or two, but you can't hold on for a day or two!"

the evil god's will continued to mock him.

Lin Yi gritted his teeth and asked with much difficulty, " you're so at ease to stay here with me. aren't you afraid that your little divinity can't beat my new world? "

"You're trying to lure the Tiger away from the mountain, right? Hehe, as long as I keep an eye on you and let you die not too early or too late, the victory is already set for this God."

The evil god didn't fall for it at all. It could see that Lin Yi was the biggest unstable factor.

as long as lin yi was dead, everything would be under its control!

As for the world's will on the other side, although its level was higher, it was still a new world that had just been born, and its every move was still relatively rigid.

with the advantage of having 40% of the godheads, it could completely swallow him!

the only condition was that lin yi didn't mess things up.

lin yi reminded faintly, "did you forget that there's another person beside me?" although he's not master, he's been in my new world for so long that he's no less familiar with the world's will than me.

Do you think he'll be able to help the New World?"

"you can't be talking about jiang xiaoshang, right?"

The evil god unexpectedly laughed. "if his main body was present, i would really need to avoid him. in the entire divine realm, that guy's danger level is enough to rank in the top three gods!

It was a pity that it was just an insignificant clone.

In terms of importance, he was not even considered as his human body. He was just cannon fodder that could be thrown away at any time.

Do you think I need to be afraid of such a person?

Don't you think that the word "evil god" is too cheap?"

Lin Yi's heart dropped.

The other party knew about Jiang xiaoshang's background!

in this battle against the evil gods, other than his own trump cards, jiang xiaoshang was also an extremely important help. he could even be the key to determining the outcome of the battle!

if even jiang xiaoshang was suppressed, then there was nothing they could do.

"I don't know if the evil gods are cheap or not, but if you underestimate Jiang xiaoshang's methods, I don't think there's a need for you to continue living as an evil god," Lin Yi said with a deeper meaning.

"you're really confident in him, but it's a pity that it's useless."

The evil god was still unmoved, sitting in a calm posture.

As the party with the advantage, what he had to do at this time was to stabilize the situation. Any other action would be redundant. Not only would there be no benefits, but it would also bring risks for nothing.

Lin Yi laughed coldly. "Jiang xiaoshang, you can start now."

" what? " the evil god was slightly shocked. " what did you say? "

lin yi smiled, "lord evil god is so powerful, do you need me to tell you what happened?."

indeed, there was no need to say more. the evil god had already clearly seen the situation that was happening in the new world.

originally, the new world's will would only fight head-on against its 40% godhead.

Although the scene looked extremely intense, there would be no suspense if it continued.

In the end, the world's will would have to yield to its forty percent divinity, and there would be no other outcome.

but after lin yi's greeting, jiang xiaoshang really started to work with the world will, and their cooperation was quite tacit.

With his help, the world's will immediately changed its reckless style and became extremely agile.

Pulling and swimming.

It was like a noob changing into a pro God, with all kinds of extremely fine operations.

The level of difficulty the world will was displaying at that very moment was something that even the evil god could not help but fall silent.

Even it had to admit that if this continued, it was hard to say which side the situation would turn in.

"If you go and control the situation yourself, you should still be able to make it in time," Lin Yi said, composed.

"you really want this god to go over?"

The evil god was no longer in a hurry.

although at this point, it was very difficult for lin yi's essence spirit to turn the tables, it was better to be safe than sorry. after all, lin yi had played with it once. who could guarantee that it wouldn't happen again?

"it seems like lord evil god is quite confident in his divinity," lin yi's tone changed.

It was the evil God's turn to laugh.

"there must be something wrong when things are abnormal. i have been dealing with the gods for so long, and the most important thing i have concluded is that the more the enemy wants you to do, the more you can't do it.

if i'm not wrong, you still have a trump card to escape, don't you?"

"....."

Lin Yi didn't say anything and just focused on blocking the violent Qi of the demonic sword.

"It seems that I was right."

the evil god's tone was filled with joy. " i'll tell you another secret. your friend jiang xiaoshang is actually one of my people. "

"Impossible!" Lin Yi was shocked.

The evil god laughed lightly, broadcasting the New World in front of Lin Yi.

At this moment, Jiang xiaoshang was still guiding the world's will to contend with the power of his Godhead. At first glance, it did not seem any different from before.

but slowly, lin yi realized that something was wrong.

With Jiang xiaoshang's assistance, the world will's various movements were still extremely smooth.

However, if one observed carefully, they would realize that all of this was useless. It seemed to be very exciting, but in reality, it did not really impact the power of the evil God's divine persona.

on the contrary, it gave the power of the divine persona the opportunity to take control of the new world.

It was a gaudy and useless slow suicide!

At this moment, the power of the divine persona had completely occupied an advantageous position, and the next step was to besiege the world's will for the last time.

" what kind of experience is it to watch your new world being taken away by others? "

The evil god asked curiously, " "you're dying anyway. why don't you tell me about it to satisfy my curiosity?"

Lin Yi's tone was calm, "Can you explain when you bribed Jiang xiaoshang?"
