

Bodyguard 10341

Chapter 10341

"Bribe? if i want to control a mere clone of his, do i need to be bribed?"

the evil god laughed. " that's why i say, no matter how powerful you human cultivators are, you are still frogs in a well. as long as my thoughts come into contact with him, he will naturally be eroded by my thoughts. it's too simple. "

"he's been in the new world the whole time, you wouldn't have had the chance to come into contact with him!" lin yi retorted after some thought.

"He didn't go out, but this deity's will came in, so it's fine,"

" i've been planning in the sea for so many years, " the evil god said in a playful tone. " my will is everywhere. as long as you take something from the sea, you can't escape from my palm. "

"the luck of the four seas is dense."

lin yi reacted instantly.

the only thing he had recently obtained from the sea and brought into the new world was the light from providence from the four seas that he had collected during the summit ceremony!

The evil god laughed strangely. you're not too stupid. There's no free thing in the world, especially something as good as the luck of the four Seas. You can take it just because you want to.

do you think it's possible without me adding fuel to the fire?"

lin yi mumbled, "no wonder jiang xiaoshang was acting weird ever since that day ..."

"Don't you think it's too late to react now?"

The evil god had finally revealed its plans: "Projecting 40% of the Godhead's power is such a big deal. Even I have to take the huge risk of being discovered by the God of creation!

if i didn't have a backup plan like jiang xiaoshang, i wouldn't be able to ensure that everything would go smoothly. do you really think i would take such a risk?

if i wasn't 100% sure, why would i bet my life?

No matter how good your new world is, it's not as valuable as this God's divinity!"

“.....”

Lin Yi didn't reply.

Now that things had come to this, it seemed like there was no need to say anything.

in the next second, he gave up on resisting and allowed the demonic devouring sword's violent aura to devour his primordial spirit completely.

However, the evil God's will immediately intervened and helped him block it.

"you want to die?"

the evil god sneered. " without my permission, it's not up to you whether you die or not. but don't worry. when things are done over there, i'll definitely fulfill your wish. "

Just as it finished speaking, the situation on the live broadcast suddenly changed.

The power of the evil God's divine persona, which had an absolute advantage just a second ago, suddenly stopped moving for some reason, as if someone had pressed the pause button.

on the other hand, the world's will took advantage of this opportunity to pounce on him like a wolf.

In the blink of an eye, it had swallowed more than half of the divine spark's power.

Everything happened so quickly that the evil god could not react in time.

Then, he saw Jiang xiaoshang raise his middle finger at the image and smile teasingly, "are you surprised? are you surprised?"

the evil god was stunned.

Jiang xiaoshang was the most important backup he had set up, and he was also the key to ensuring that nothing would go wrong.

once there was a problem at this stage, it was very likely to become the first falling domino. if the situation continued, the whole game would be lost.

As such, the bet it had placed on Jiang xiaoshang was not just a small one or two. It was a huge investment!

after being stunned for a moment, the evil god finally reacted in anger. "you've been pretending to fall for it all this time just to lure me into the trap?"

jiang xiaoshang laughed awkwardly through the screen, "did you really think that i wouldn't notice your little tricks under the cover of the luck of the four seas?" It's fine to look down on this clone of mine, but to look down on my true body like this, evil god, who gave you the courage to do so?"

"jiang shang!"

The evil god gritted his teeth, and at the same time, he couldn't help but feel cold all over.

At this point, it had already sensed a huge conspiracy.

it had always thought that it was the biggest conspirator behind the scenes, but now that it thought about it, it was simply ridiculous!

in terms of schemes, in the entire god realm, other than the god of creation, all the gods combined would not be a match for that person!

sensing the huge danger behind him, the evil god's consciousness immediately wanted to retreat.

it no longer had any hopes of swallowing the new world. at this point, it would be the greatest victory if it could stop its losses in time.

unfortunately, it was too late.

40% of its Godhead's power had already been bound by the new world's will. With Jiang Xiaoshang's help, it was like throwing a meat bun at a dog. There was no chance for it to retreat.

It wasn't just the power of the Godhead, even the evil God's consciousness realized that it had lost its way out!

He didn't know when it started, but the demonic devouring sword's violent aura had turned Lin Yi's body into an invulnerable human cage, leaving no gaps.

"Don't you think it's too late to quit now?" Lin Yi said faintly.

The evil God's will was dumbfounded, and then it laughed in anger. "Don't tell me you want to devour my divine sense? A mere grass snake wants to swallow an elephant? Aren't you afraid that you'll explode?"

"Wealth comes from danger. Lord Evil God personally came to give me an opportunity. If I don't have the courage to take it, wouldn't I be too disappointing to Lord Evil God?"

Lin Yi's essence spirit didn't look like it was in a sorry state anymore.

At the end of the day, the demonic devouring sword's various mishaps were actually just a carefully arranged double act.

It was to firmly restrain the evil God's consciousness here!

As long as it was separated from the Godhead's power, not only would it be easier for Jiang xiaoshang to take it down, he could also use this opportunity to swallow it.

This was the evil God's divine sense, a part of the evil God's essence spirit. If he devoured it, the benefits to Lin Yi's essence spirit would be immeasurable!

of course, if it was someone else, even if they had the courage, they would not have the means and confidence to do so.

there was no need to think about it. the evil god's divine thoughts were definitely not that easy to digest. if others swallowed it, they would be devoured to death in minutes.

lin yi, however, was different.

he had the support of the new world's will. as long as the new world did not collapse, he would be able to stand in an invincible position.

as long as he could swallow it, it was only a matter of time before he completely digested the evil god's divine sense.

Somewhere in the void.

Feeling the sudden loss of contact with 40% of the Godhead's power and part of its divine will, the evil God's true body was furious!

It was the God who was the least like a god, and at this moment, its behavior was not as rational as the other gods. Instead, it was more like a human tyrant who had lost. To be precise, it was a gambler who couldn't afford to lose, flustered and exasperated.

"ant, you're looking for death!"

The evil god immediately disregarded everything and forcefully broke through the divine territory's restriction with the remaining 60% of the Godhead's power.

this kind of performance was really a bit out of control for a god.

however, as soon as it broke through the limit, an even more vast godhead aura blocked its way.

Chapter 10342

the heretic god was instantly stunned, and its expression changed drastically as it shouted out two words.

"jiang shang!"

The aura on the other side blocked its path without any fluctuations, and it also pointed out its intentions.

"disguising yourself as a hysterical gambler and using this method to escape from the divine territory. evil god, do you want to betray the divine territory and become the enemy of all the gods? "

The evil God's heart sank to the bottom.

This was indeed what it was thinking.

Losing part of his divine sense and 40% of his Godhead's power for no reason was painful, but it was far from enough to make him lose his mind.

Since he'd locked onto Lin Yi's location, he'd have the chance to make Lin Yi spit it out sooner or later as long as it was still there!

as a god, it had full confidence in this.

The reason why he pretended to be an unpresentable gambler was purely to divert the attention of the gods and make them think of him as an out-and-out laughing stock, so that he could get away with it.

It was clear that the biggest threat to it now wasn't Lin Yi, who'd made it bleed, but the gods of the God Realm!

Especially the one in front of him.

but it was too late.

the evil god sneered back. " you're scheming against me. jiang shang, i don't think i've offended you much. "

the other party's aura was still calm,"first, he didn't plan anything, he was just playing along." second, you've offended me, and i've always been a narrow-minded person, so it's appropriate to say that i'll seek revenge for the smallest grievance."

"....."

The evil god was instantly rendered speechless.

if it had been any other god, even if it only had 60% of its godhead's power, they would not have dared to treat it with such an attitude.

however, jiang shang had the right to do so even when he was at his peak.

helplessly, the heretic god had no choice but to lower its head. " "What do you want?"

" it's official business, " the other party replied indifferently. " you secretly projected the power of the godhead to the lower realm and seriously violated the rules of the god territory. as the law enforcement deity, i have the obligation to bring you to justice as a warning to others. "

"business my ass!"

The evil god was truly exasperated this time. " you've already arranged a clone around that guy and guarded an ancient god's descendant without reporting it. you clearly have ulterior motives. as a law enforcement deity, you know the law and break it, so your crime is doubled! "

"are you trying to alert the god of creation by shouting so loudly?" the other party replied calmly.

The evil god could not help but choke again, and his heart trembled.

the other party was indeed the most difficult god to deal with in the entire divine realm. it was impossible for his every move to escape its perception, and playing any tricks in front of him would only be inviting humiliation.

in the current situation, the only way for it to escape was to alert the god of creation. after all, the ancient god clan was the number one taboo.

In this way, even though it would still be difficult for it to escape this calamity, the other party's crime would be even greater. At that time, the entire focus would definitely shift to Jiang Shang, giving it the possibility of getting away with it!

Unfortunately, it was still useless.

&Nbsp; under the enemy's seal, it was an evil god but it couldn't even send out a message. It was just unbelievable.

the evil god finally revealed a look of horror. " "What do you want?"

"Kill one as a warning to the others," the other party said indifferently.

you ... the evil God's eyes flashed wildly. you want to kill me to silence me? "

"if you must understand it this way, i have nothing to say."

After he finished speaking, he had already completed his setup and was charging towards the evil god.

looking at this horrifying scene, the evil god could not help but feel despair and regret. if it had not thought of taking the new world for itself immediately when it first discovered jiang xiaoshang, but had announced it directly, today would have been a completely different scene.

But it was too late.

"Even if you, Jiang Shang, want to kill me, it's not that easy. Do you really think that the words" evil god "are made of paper?"

after all, the evil god was a god. seeing that the situation was irreversible, he immediately gave up all pretense of emotions and chose to fight head-on without hesitation!

"Isn't it just a life and death struggle? come on!"

The collision between the two gods caused the aftershock to shake the entire God's domain.

All the gods were awakened, and their expressionless faces showed confusion. All kinds of divine thoughts surged back and forth in the sky of the divine realm, searching for the source of the vibration.

Soon, the news came that the evil god had violated the prohibition and was suppressed on the spot by the God of law enforcement, Jiang Shang, and was expelled from the deity's list!

As soon as the news came out, the gods were in an uproar.

The gods who had many grudges with the evil gods were naturally happy to see the evil gods end up like this. The existence of the evil gods was a huge unstable factor to the divine territory, and the actions of the law enforcement gods won the hearts of the gods.

but at the same time, the gods could not help but be secretly shocked at the ruthlessness and power of the law enforcement god.

the evil god's strength was first-class among the gods. in the past knowledge of the gods, unless the god of creation personally took action, the law enforcement god would have to pay a huge price even if he could suppress the evil god.

However, this time, after the God of law had suppressed him, he had actually escaped unscathed!

The gods secretly guessed that the power of this law enforcer, who was known as omniscient, had completely surpassed the gods. Perhaps he had already begun to be on par with the God of creation!

this conclusion was even more shocking than the fall of the evil god.

After all, the fallen evil gods were already in the past. This extraordinary law enforcement God Jiang Shang was the one who was truly capable of changing the structure of the divine realm.

the shock of the god domain had just begun.

The process of the evil God's fall did not end there.

being suppressed by the law enforcement god, the evil god's divine persona was shattered and fell into the divine territory. the fall of the evil god was irreversible and no one could change it, not even the evil god itself.

its situation was far more unsolvable than the seagod's when he lost his divinity.

in fact, the moment its divinity shattered, its spirit sense was wiped out from the world by the law enforcement god. it didn't reveal lin yi's new world to the outside world even after its death.

what was left of it was only 60% of its godhead.

such a huge amount of godhead power, especially after it went out of control, would definitely be a terrifying disaster that would destroy the world if it fell into the mortal world!

according to common sense, the law enforcement god should have restrained it at the first moment and let it return to the divine territory, waiting quietly for the birth of the next evil god.

but this time, he did not.

60% of the Godhead fell from the sky. The moment it appeared, the giant welcoming array that had been set up in the barren sea started to operate.

"damn, after waiting for so long, we can finally see the light of day again!"

zhang shichang, shen qingnian, han qi, and the rest of the jianghai university's warrior's department members who had been cursed by the evil god, each took a position in the giant welcoming formation. using the power of their own curses as a guide, they drove the formation to operate at high speed.

They were here because of a deal between the Lord of the Tian family, Tian Xiangyang, and the evil god.

&Nbsp; logically, this was a simple transaction between man and God. Everyone would offer themselves to the evil god and become the evil God's lackeys in exchange for the evil God's power.

Chapter 10343

the evil god had never thought that this was actually just a part of tian xiangyang's plan, and what tian xiangyang was after was actually the power of its godhood!

at this moment, as the giant guiding array was operating at high speed, the broken godheads that fell from the sky were immediately attracted.

more than half of the sea water in the vast sea area was instantly evaporated!

There was not a single drop of water in the vicinity of the barren sea, turning it into a desert.

However, the giant welcoming array wasn't the ultimate goal of shattering the Godhead. The essence of its existence was just a transfer station.

On the other end of the giant welcoming array was Jianghai Academy!

when the majestic crumbling godhead descended upon them, the entire jianghai institute, which was currently facing the onslaught of the super beast tide, could not help but stop in its tracks.

after the baptism of the beast tide during this period of time, everyone in the academy could be considered to have seen a big scene.

During Lin Yi's absence, the beast God Hall launched a few surprise attacks. Many times, it looked like the defense line was going to collapse at any time, but the college managed to hold on.

It wasn't as if the beast God Hall hadn't dispatched any true experts. Although the high priest and the first Walker hadn't arrived, the other high-ranking top-level advisors had appeared one after another and had already attacked the Academy.

However, the final result was that the beast God Hall's experts, who had an absolute advantage on the surface, were forced back.

there was only one reason-banshi luu had come out of seclusion.

Luo Banshi had emerged from his closed-door cultivation with the might of a newly-advanced Supreme realm cultivator and had taken over the battlefield at the school's most critical moment. He had even killed the fourth and fifth advisors of the beast God Hall on the spot!

With his terrifying performance, Jianghai Academy had finally found a stabilizing force.

The school was already preparing to move to the secret realm when the situation called for it-they were planning to use guerilla tactics until Lin Yi returned.

He did not expect Banshi Luo to stabilize the situation by himself.

at that moment, everyone in the academy, including xu anshan, looked at banshi luu in unison as the shattered godhead fell from the sky.

Seeing this, Banshi Luo sighed to himself, and his face lit up.

the great era that master Tian has planned, the unprecedented great era of our Jianghai Institute, has arrived!

Everyone was confused, and only Xu Anshan seemed to be thinking.

None of them knew about Tian Xiangyang's scheme. Some of them were still in a dilemma, thinking that Tian Xiangyang's death was too strange!

In fact, Tian Xiangyang's death was indeed very strange because his death was part of his own plan!

all of this was for this moment.

logically speaking, such a terrifying power that could shatter a godhead would be far more powerful than a normal nuclear bomb once it landed.

the entire city would be razed to the ground, let alone the jianghai academy.

What was unusual was that before it fell, the Academy's array, which had long been deeply modified, suddenly soared into the sky and actually took the initiative to wrap around it in mid-air.

Of course, it was still far from enough to take in the shattered Godhead.

no, I'm still missing a crucial buffer!

Those with sharp eyes could already see the danger.

the sudden rise of the academy's formation was truly astonishing, but without the most crucial buffer, the academy would not be able to withstand the fall of the shattered divine spark.

Anyone with a bit of common sense could sense the huge risk.

Even the menacing beast tide stopped in their tracks at this moment. Although these fierce beasts that were forcibly driven were generally irrational, they always retained their survival instinct to avoid danger.

If even the beasts knew how to avoid danger, the students from Jianghai Academy could feel it even more clearly.

Whether it was the visual impact or the substantial and terrifying pressure, it was enough to make anyone's legs go soft!

this feeling was like an ordinary person facing the great power of natural disasters. let alone resisting it, they couldn't even run away when it came to it.

at this moment, the only thing that everyone could feel was how small they were.

"Don't be afraid! Stay where you are, this is our opportunity, an opportunity to change our fate. Everyone, stand straight and receive it!"

Banshi Luo's words immediately calmed the hearts of the people.

many people still found it unbelievable. after all, no matter how they looked at it, it was an out-and-out doomsday scene. if they didn't escape, they would die.

Of course, even if he escaped in this situation, he would still die.

Because there was no time to escape.

however, out of their trust in banshi lu, everyone still held their heads high and chose to face this terrifying opportunity that fell from the sky.

At the crucial moment, a hunchbacked figure trembled as he walked out of the crowd.

"that's yingluo."

The beast God Hall's experts watching from a distance were all shocked when they saw the hunchbacked old man's appearance. "The former beast God!"

The hunchbacked old man slowly opened his arms and looked at the shattered Godhead that was getting closer and closer. His eyes were burning.

"I've been waiting for this day for far too long."

As he spoke, the hunchbacked old man suddenly soared into the sky.

Under everyone's watchful eyes, he charged into the shattered Godhead like a moth into the burning flames without hesitation.

No matter which angle one looked at it from, there was no doubt that he was courting death.

As a matter of fact, the hunchbacked old man's aura completely disappeared from the world the moment he was engulfed by the light of the shattered godhead.

From now on, there would be no more former beast gods in the world.

All traces of his existence completely disappeared with the leap of this moth into the fire.

at the same time that he was swallowed, the terrifying momentum of the broken godhead immediately weakened a lot, and it became gentle at a speed that was visible to the naked eye.

until its impact had dropped all the way to the upper limit that could be completely absorbed by the academy's array!

"This is a Kasaya."

Everyone was dumbfounded.

No one knew how an ordinary-looking hunchbacked old man could have such great power that could change the huge momentum of the shattering Godhead!

Only Banshi Luo was aware of all this.

today's scheme was a joint effort between tian xiangyang and the former beast god. the former's goal was to transform jianghai academy into a god-ranked academy with the support of the divine spark's power, and everyone would be like dragons!

as for the latter, he was seeking death.

since ancient times, no god had ever had a good end. no matter how many resources the former beast god had, he couldn't change the avalanche of vitality.

Death was inevitable.

the only chance left for him was to die and then live, which was why the scene in front of him was happening.

no one in the world was more familiar with the power of a divine persona than the gods, but ordinary gods would not covet the divine personas of other gods, because the powers of the divine personas of different elements were not compatible, and might even repel each other.

however, the former beast god did not have such concerns.

Chapter 10344

the most useful trump card he had now was his ability to withstand the crushing godhead. he could completely withstand the massive potential energy of the shattered godhead with his own power.

As for the price, it was his own.

The previous beast God would not sacrifice himself for nothing. Through the previous arrangement with Tian Xiangyang, he had already completed a deep bond with the newly upgraded Academy's array.

Although he would die after today, his will would be able to completely merge with the Academy's formation through the shattered Godhead that he had received.

From this day forth, he, the former beast God, would become the contract spirit of Jianghai Academy.

From now on, if Jianghai Academy existed, he would exist. If Jianghai Academy fell, he would fall!

When he first learned of Tian Xiangyang's plan, even Luo Banshi could not help but be stunned.

a human had actually managed to take a spot on the chessboard that involved the beast god, the sea god, and the evil god. he had even won and become the final winner.

he had never seen anything like this in his life!

There was no other person like Tian Xiangyang in the entire universe, from the past to the future!

as the former beast god exhausted his remaining life force, the potential energy of the shattered godhead that fell from the sky was completely absorbed and integrated into the academy's magic circle. in a gentle and drizzling manner, it gently fell on the heads of everyone in the academy.

In an instant, the path to heaven opened.

Everyone was shocked to find that the various difficulties that had prevented them from improving their strength, even the barriers that could not be broken through in theory, had actually disappeared in the blink of an eye.

the foundation that they had accumulated from their previous cultivation erupted at this moment.

At least 70% of the students in Jianghai University had already broken through in the face of the upcoming battle. This was especially true for the top five from the retained Department and the top ten from the Academy. They had broken through in the blink of an eye.

it was even three levels!

in the blink of an eye, jianghai academy, which only had one supreme realm cultivator, banshi lu, had dozens of other supreme realm cultivators!

most importantly, this was only the beginning. if things continued like this, it was highly likely that the remaining students would break through to the supreme realm.

after all, the chasm between them and the supreme realm had completely disappeared after being cleansed by the divine spark's power.

however, they weren't the ones who were exaggerating.

The student council's first seat, Xu Anshan, went from being a giant to a golden class late phase peak venerable!

As for Luo Banshi, he also rose six levels, from golden class early phase peak to golden class late phase peak full cultivation!

the experts from the beast god hall were already numb from watching this scene from afar.

even though the previous jianghai academy was strong, its overall strength was limited. other than the upgraded school's formations, which were difficult to break through, the only person they could take seriously was banshi lu.

However, no matter how insane Luo Banshi was, he was still a golden class early phase venerable. Even if he managed to defeat one of the beast God's most powerful followers, his threat was still limited.

At the very least, they were certain that once the high priest and the first Walker arrived, Banshi Luo would be like a Mantis trying to stop a chariot!

by then, jianghai academy would have been destroyed along with banshi lu.

After gnawing at Jianghai University, the next step would be to advance into the ocean.

no one could stop the beast god hall!

but now, all of jianghai academy's students had been reborn. the overall strength of the school had risen by more than one level!

not to mention, banshi lu had suddenly risen to such a level. if he continued to perform as he did before, even the beast god hall's high priest and the first walker might not be able to defeat him.

The situation suddenly became confusing.

Initially, Jianghai Academy was just a rock blocking the beast God Hall's path. Now, it had become a mountain!

" this is already at the level of a god-ranked academy. their strength is comparable to a small-scale gods palace. they're not something we can easily crush. "

The Third Walker rubbed his forehead. it's not realistic for us to break through their line of defense with just the few of us. Let's retreat for now and wait for Lord beast God's divine order.

in truth, the students from jianghai academy had yet to fully adapt to their new strengths.

once they've gotten used to it, their overall strength might even be able to suppress the beast god hall's experts. if they were to charge out, they wouldn't be able to raze jianghai academy to the ground. instead, they would have to think about how to save their lives.

"even if they're lucky enough to become stronger, can they be stronger than the high priest and the first walker?" someone beside him said unwillingly. Not to mention that we have a group of more powerful oracles. How can a mere Academy make us retreat?"

At this time, Chu Mengyao's voice came, " a single Jianghai Academy is not enough for us to retreat. But what if it's the Alliance of divine Academies? are you going to retreat? "

"....."

The beast God Hall's experts were immediately rendered speechless.

The Alliance of God-ranked Academies was a huge Alliance formed by hundreds of God-ranked Academies of all sizes. Each of them was not any weaker than the Jianghai Academy, and some of the more outstanding ones even far exceeded them.

once the entire alliance's strength was combined, the scale was enough to make any of the gods halls flinch, including their beast god hall!

More importantly, the existence of the God tier Academy Alliance had obtained the recognition of the gods. More accurately, it had obtained the recognition of the God of creation!

There were rumors that the seven people who stood at the top of the Alliance were all believers who were personally conferred by the God of creation.

Even the beast God Hall didn't dare to provoke them for no reason. Otherwise, it would be the same as challenging the God of creation.

the new beast god was wild and ambitious, looking forward to the battle of gods. but no matter how bold he was, he would never dare to have any ideas about the god of creation.

That would be courting death.

In fact, almost as soon as they absorbed the power of the shattered Godhead and the entire Academy was promoted to a higher level, an invitation letter that seemed to come from God descended from the sky.

an invitation from the Alliance of divine Academies? "

banshi lu was not surprised.

after all, this was the ultimate goal of tian xiangyang's plan. as long as they joined the alliance of divine academies and officially became a part of it, jianghai academy would then have the power to protect itself.

at that time, be it the beast god hall or the other gods halls, they would have to think twice before laying their hands on jianghai academy!

However, the Alliance of divine Academies was so high and mighty that it wasn't an easy task to join it.

Even if the strength of the Academy had been forcibly pushed to the standard of the Alliance, it had only crossed the most basic threshold.

Chapter 10345

"you want us to send an observation group?"

Xu Anshan, who was at the side, frowned.

This invitation was not an invitation to join the alliance of God-ranked Academies. It was merely an invitation for Jianghai Academy to send an observation group.

on the surface, it was a visit to the alliance headquarters to observe and learn, but in reality, it was an entrance test for jianghai academy!

" yes. " banshi luo nodded. " the observation group will definitely face all kinds of tests. if they are not strong enough, i'm afraid they will be rejected. "

Everyone fell silent upon hearing this.

the immediate crisis had been resolved, but it was only temporary. once the beast god hall spared no effort in dispatching even more powerful experts, they could still pose a fatal threat to jianghai academy.

even if the beast god hall chose to hold back, if a battle of the gods really broke out, it was still unknown whether jianghai academy's overall strength would be able to stand on its own.

No matter how one looked at it, taking this opportunity to join the alliance of divine Academies was the most secure choice. There was no other choice.

you can't move now. I'll go with my men.

Xu Anshan volunteered.

Luo Banshi was undoubtedly the strongest in the Academy and the backbone of the Academy. If he left and the Beast God Hall took the opportunity to attack, it would be hard to say if the rest of the Academy could survive.

furthermore, the period of time before jianghai academy officially joined the alliance of god-ranked academies was the beast god hall's final chance to launch a massive attack.

Otherwise, once things were set in stone, there would be no more chances.

the beast god hall would pay any price for this!

"are you confident?" banshi luo was a little hesitant.

Xu Anshan was silent for a moment before shaking his head. "I'm not confident."

As a man who was born with the aura of an Emperor, his conceit and pride were far above those of the geniuses. However, he would not let his conceit affect his judgment on such an important matter.

even if he'd risen six levels and become a golden class late phase peak, he still didn't have the confidence to pass.

after all, that was the alliance of god-ranked academies. it was no small matter.

however, xu anshan's gaze quickly became determined. " "We have no choice. We have to go. It's a pity that guy isn't here."

Everyone was silent.

It went without saying who he was referring to.

"who's that guy you're talking about? do you want me to go and find him?"

Lin Yi's voice came from behind them, and the students were overjoyed.

"boss!"

It wasn't just the core members of Lin Yi's group-all the other students rushed over as well, rushing to greet Lin Yi.

although banshi lu was in charge of jianghai college, in everyone's eyes, the true savior of the school was still lin yi.

If it wasn't for Lin Yi, they wouldn't have been able to live until now, let alone wait for this opportunity. More than 90% of them would've died in the beast horde.

when lin yi wasn't around, banshi lu was the backbone of the school.

once lin yi returned, he'd be the soul of the school.

Even Banshi Luo was happy to see this.

banshi luó's eyes lit up as he looked Lin Yi up and down, "good boy, you're worthy of being a heaven-defying figure no matter where you go. your change is much greater than ours!"

With his eyesight, he could naturally see the changes in Lin Yi's body.

To be fair, his and Xu Anshan's feat of rising six levels in a single day could be considered a rare encounter.

But compared to the Lin Yi in front of her, it was nothing!

He and the others in the Academy had received 60% of the power of the heretic God's shattered Godhead. It could be considered that he had taken the majority of the power, but it was still shared among so many people.

Even if he and Xu Anshan had a stronger Foundation and received more godhood power, it was still limited.

Lin Yi, on the other hand, had swallowed 40% of the god lattice!

There was no need to think to know how big the gap was.

but even with this huge fortune, lin yi didn't break through six levels in a row. on the surface, he only went up one level, from the middle phase of the golden class to the peak middle phase.

Compared to half-master Luo and Xu Anshan, such an increase in cultivation could only be considered rather pathetic.

Of course, everyone knew that Lin Yi's strength couldn't be measured by his realm.

lin yi might only be a golden class mid phase peak venerable, but if he were to really fight, even luo banshi, who was a golden class late phase peak full master, would have to back off!

What was worth mentioning was that the New World had absorbed 40% of the evil God's Godhead, and its evolution had advanced by leaps and bounds.

lin yi could see the initial signs of life.

Cells.

Although it was the most simple unicellular organism, and its structure was extremely primitive, in the strict sense, it was still uncertain whether it could be classified as a real living being.

however, no matter how one looked at it, this was an unprecedented breakthrough for the new world!

naturally, it was the same for lin yi.

as an ancient god, being able to reach golden class mid phase peak was already proof of that.

after all, the value of the ancient god realm was much higher than that of other human cultivators of the same realm.

this wasn't the only benefit lin yi got.

In addition to 40% of the divine persona's power, he had also swallowed part of the heretic God's divine will.

from an ordinary cultivator's point of view, doing so would not only have no benefits, but it would also be accompanied by a huge risk. after all, one's primordial spirit could be affected by the evil god's divine thoughts at any time, or even be bewitched and invaded, taking over the magpie's nest.

Lin Yi, on the other hand, didn't have such concerns.

Firstly, he was confident in his spirit-after all, it had always been the strongest part of his journey, and had never been a burden.

Secondly, he had confidence in the new world's will.

no matter how strong the evil god's will was, it was like water without a source, like a tree without a root. without a foundation, it would eventually be worn down by the world's will and become the nourishment for lin yi's essence spirit.

this was only the beginning.

it was foreseeable that lin yi's strength in all aspects, including his essence spirit, would experience another wave of rapid development.

A whale falls and all things are born.

this was the nourishment left behind by a small part of the evil god, and it could not be digested in a short time. be it the primordial spirit realm or the realm on the surface, the golden class middle phase peak venerable was only the beginning.

moreover, according to jiang xiaoshang, it was a long process before the ancient god cultivators could develop life. however, once life appeared, the subsequent progress would increase by hundreds or even thousands of times.

After all, the evolution of life, in the long river of history, was a huge explosion in an extremely short period of time!

Chapter 10346

Banshi Luo looked at Lin Yi with joy. since you're back, things will be easy. You'll have to lead the team to the God-tier college Alliance. If it were us, we wouldn't be so confident.

it wasn't that he was underestimating himself, but he knew that the difficulty of the divine college alliance's test was not something that anyone present could imagine.

Whether it was Banshi Luo or Xu Anshan, although they seemed to have extraordinary strength and were confident that they could compete with any peerless genius in terms of talent, they were not confident at all.

this test was no less difficult than the beast god hall's assault.

in the entire jianghai academy, the only person who could take on this responsibility was lin yi.

"I'm fine with leading the team, but I'll need you to look after my stall for me," Lin Yi said as he looked at the group.

Luo Banshi was stunned for a moment before he replied, " "You mean the Suan ni sea?"

"Not bad."

Lin Yi nodded.

now that the poseidon shrine was gone, the royal families of the four seas were gone, and the shadow behind the scenes had also disappeared with the fall of the evil god, there would be an unprecedented power vacuum once he left.

This was the revelry of the ambitious, but it was definitely not a good thing for the entire sea area, especially for the civilians at the bottom.

moreover, he had been operating in the sea area for so long, and now was the time for him to reap the rewards. it would be unreasonable for him to leave just like that.

After receiving all the information from Lin Yi, Banshi and Xu Anshan looked at each other.

Seeing Lin Yi's sudden return, they could only guess that the guy must have done something big and gained something big, but they didn't think that Lin Yi would go this far.

"you're only one step away from truly unifying the entire sea region."

Luo Banshi and Xu Anshan looked at each other and immediately made a decision. "We can't let go of the ocean. I suggest that Jianghai Academy should undergo a deep integration with the ocean, replacing the ocean goddess Hall with the Academy to take over the entire ocean."

xu anshan nodded. "although we have the mystic realm to rely on, we still lack depth. even if our overall strength has increased, we'll be the ones who can't hold on if we really go to war with the beast god hall.

however, with the sea as our backing, it'll be completely different."

The eyes of the Academy's higher-ups at the side lit up.

Jianghai Academy was on a completely different level with and without a territorial sea.

When faced with a behemoth like the beast God Hall, the latter could only protect themselves to a certain extent at most, but the former had the ability to fight the beast God Hall head-on.

Only by fighting could they stop the war!

At that time, even if they didn't have the protection of the Alliance of divine Academies, the beast God Hall would have to think twice before making such a move.

"I was thinking the same thing," Lin Yi smiled.

Letting an outsider like Jianghai Academy take over might be a difficult decision for the ocean's factions to accept. On the surface, it might seem like a change in ruler, but in essence, it was just a change of soup and not medicine.

however, in the long run, it was not a bad thing for the entire sea region, especially for the vast lower class. no matter what, jianghai academy's governing ability was not any worse than the sea god hall or the royal families of the four seas.

In Jianghai Academy, Lin Yi, Banshi Luo, and Xu Anshan were the top three. Their decisions would determine the direction of the entire school.

"old shen, you're going to be busy again."

lin yi called shen yifan over with a smile, and the latter looked like he was about to die.

I can tell now that I'm meant to be your Butler for the rest of my life. Whenever there's any trouble, you'll always think of me first. I really have to thank you.

shen yifan had a helpless expression on his face.

Lin Yi's meaning was clear-he wanted him to be the core of the future rule of the sea area.

If it were anyone else who could receive such a lucrative job, they would definitely be laughing in their dreams.

Unfortunately, to Shen Yifan, who was the housekeeper of Lin Yi's group, this wasn't something worth celebrating. It was a good thing that Lin Yi trusted him so much, but at the same time, it made him feel a deep sense of responsibility.

it was fine if it was only within the group-even if there were some mistakes, it wouldn't cause too much of a negative impact. he could always fix it with his abilities.

Now that it was the entire sea area, the lives of billions of people were affected at every turn. The responsibility on his shoulders was not just a little heavier.

lin yi waved his hand generously, " we're brothers. there's no need to thank me. there's a lot of good things waiting for you in the future. "

"then i can only thank your ancestors."

Shen Yifan couldn't help but laugh.

although he was helpless, he entered the state very quickly and came up with a plan framework in the blink of an eye.

There were many ideas and plans that even Banshi Luo couldn't help but praise, let alone Lin Yi. In terms of governance, Shen Yifan was a unique figure not only under Lin Yi, but in the entire Jianghai city.

However, in order to cooperate with Shen Yifan's management plan, many of Lin Yi group's core members had to stay behind and perform their own duties.

it wasn't even that easy for lin yi to gather a proper representative team.

after much thought, lin yi decided on the list of people to go to the alliance of god-tier academies. the first name was the first seat of the academy, xu anshan.

The result of this trip would determine the future of Jianghai Academy. Even with Lin Yi leading the team, they couldn't afford to let their guard down.

xu anshan was already the strongest in the school after lin yi and banshi lu, and now that he'd risen six levels in a row, he'd be at the top of the sea level with his emperor's power.

Lin Yi even suspected that if he was given some time to get used to it, he could break through the ceiling of the sea with his terrifying talent.

No matter where he went, this natural-born Emperor would always be the most reliable combat force!

For the second person, Lin Yi wrote the abyss Queen's name.

as a veteran at the top of the sea realm, the queen of the abyss 'strength was undoubted. now that the evil god had fallen, she had completely broken free from the evil god's control and naturally did not need to continue being locked up in hell street.

The most important thing was that Lin Yi had inherited part of the evil God's will. He couldn't control her like the evil god did before, but he could make sure she wouldn't betray him.

the third person was the second advisor of the former ocean goddess hall, bu qinglian.

In terms of raw power, this Madam Qing might be slightly inferior to the ceiling-level sea expert, but her unfathomable Foundation meant that no one would dare to take her lightly.

Otherwise, they would die without even knowing how they died.

Chapter 10347

There was another important reason why Lin Yi brought her along this time. Madam Qing wasn't a native of the sea, she was from outside the region.

the alliance of divine academies was in the outer realms!

This time, the God tier School Alliance only gave five people, and there was one last spot left.

If he could, Lin Yi wouldn't hesitate to give this spot to cruel malevolence.

other than lin yi himself, there was no one else who could match cruel malevolence's strength. even banshi luo didn't have the confidence to do so.

unfortunately, cruel malevolence had gone missing.

cruel malevolence disappeared into the endless abyss. even the abyss queen, who was the host of the place, couldn't find any trace of him.

if it was someone else, lin yi might have believed that the man was dead, but cruel malevolence was a different story.

he came from the beast god hall, yet he had become the first walker of the sea goddess hall in the sea realm. his performance in the battle against the evil god showed that he had expected this.

there were too many inexplicable mysteries surrounding cruel malevolence. now, he had disappeared mysteriously!

lin yi had a strong feeling that this disappearance wasn't the end for cruel malevolence, but only the beginning.

However, the next time they met, it would be hard to say whether they would be friends or enemies.

After all, he was a member of the beast God Hall.

Without cruel malevolence, Lin Yi could easily pick another strong fighter as his fifth choice. Even if he couldn't reach the top level of the sea realm, it wasn't hard to find the top level.

However, Lin Yi's final choice was none other than his new disciple.

Xiao Wan 'er.

the little brat naturally didn't have any strength to speak of. if they were to go to the alliance of divine ranked academies this time, it would be very dangerous. bringing her along would most likely be a burden.

However, Lin Yi had a strong feeling that the girl had a heaven-defying fortune, and bringing her along might be a trump card that he didn't expect.

Who knew when it would play a decisive role.

It was a little metaphysical, and the old Lin Yi would've scoffed at it, but after all the ups and downs he'd gone through, especially after the direct fights with the gods, he had to believe it.

In addition, the little girl's potential could be seen with the naked eye. If she could really gain a firm foothold on the side of the divine Academy Alliance, it would definitely be a great benefit for her future growth.

With the candidate confirmed, all that was left was to bid farewell to the people in the Academy.

wang shiqing had wanted to go as well, but tang yin didn't say it out loud, but lin yi could tell from her expression that she wanted to go as well.

qiu sanniang, zhuo qingqing, and even dongfang yan were also eager to make a move.

Dongfang Yan, the pretty Warden, was especially unhappy with Lin Yi's decision.

After all, Tang Yun and the others could still be explained as not being strong enough. If something happened there, they would be in danger. However, Dongfang Yan's strength was beyond doubt.

He was already one of the top combat powers in the Academy, apart from half-master Luo and Xu Anshan. Although the enhancement of divinity this time was not as exaggerated as the previous two, he had indeed risen five levels in one go.

He was now a late phase golden class venerable!

with his domineering style, which had always regarded cross-level challenges as drinking water, it was completely possible for him to defeat the top-tier combat power of the sea realm if he were to get serious.

Lin Yi had no doubt about it.

however, for the sake of the overall situation, he decided to let her stay in the sea area this time.

After all, with the older generation leaving the sea realm, especially after cruel malevolence's disappearance and the abyssal Queen being taken away by Lin Yi, not only would there be a huge vacuum in the authority level of the sea realm, but so would the power level.

Under such circumstances, Jianghai Academy's Garrison would require a sufficiently powerful top-notch combat force, and Dongfang Yan was undoubtedly the best candidate.

dongfang yan wasn't an unreasonable woman. after hearing lin yi's explanation and his promise that he would bring her over as soon as things got on the right track, he immediately followed his advice.

At the same time, the pretty Warden was kind enough to give Lin Yi twenty barrels of the strongest spirit wine.

Lin Yi swore that this was the first time in his life that he'd been so close to getting drunk.

while dongfang yan was drinking, lin yi had to comfort tang yun and the others one by one. fortunately, he had brought xiao wan 'er along in the nick of time and let the first disciple attract the girls' attention. otherwise, he wouldn't have been able to get away with it.

other than that, lin yi met up with chu mengyao before leaving.

with jianghai academy's sudden rise in strength, the beast god hall would not act rashly until they had gathered a strong enough force. hence, jianghai city was able to enjoy a rare moment of peace.

but that didn't mean he could let his guard down.

The new beast God was full of ambition. Since he had already made his stance clear, he would not let things rest until Jianghai Academy officially joined the Alliance of God-ranked Academies.

It wasn't just Lin Yi-even Chu Mengyao, who was hiding in the beast God Hall, agreed that the upcoming period of time would be the most dangerous challenge for Jianghai Academy!

Fortunately, they had Mengyao as their spy. As long as the school was able to reorganize the sea region, even if the beast God Hall launched another attack, they wouldn't be able to take down Jianghai school in a short time.

All the arrangements were in place.

lin yi led the representatives of the five academies and officially set off on their journey to the alliance of god-tier academies.

although the alliance base was in the outer realm and was in the earth-class sea area, even the natives of jianghai city who had never been to the outer realm knew that they were in two different worlds.

Strictly speaking, Jianghai city was just a gateway to the earth-class Sea area, and the word "foreign lands" was just a vague term used by the locals of Jianghai city. In fact, it had a more common name.

a continent blessed by the gods, a divine kingdom on land.

it was said that the god realm was at the end of the god kingdom on land, but how credible this statement was was up to people's opinions.

It was extremely difficult to travel from Jianghai city to the divine Kingdom on land by conventional means. Putting aside the astronomical amount of resources required each time, there were also several stops in between, which was extremely risky.

If not for that, as the gateway to the divine Kingdom on land, Jianghai city would not have been isolated from the rest of the world.

but lin yi's group didn't need to go through all that trouble this time.

The divine college Alliance's invitation letter was also a pass. It came with spatial coordinates and could be used directly through the teleportation array.

Of course, even if he knew the spatial coordinates, it would be useless without the corresponding teleportation array.

Chapter 10348

If this invitation were to fall into the hands of anyone else in Jianghai city, there was a high chance that they would still be at their wits 'end. Lin Yi was an exception.

The teleportation formation was in the secret realm, and Tian Xiangyang had already given Lin Yi the key to the secret realm.

"So it's this."

when tian xiangyang suddenly suggested giving him the secret realm keys, lin yi was puzzled. he thought that tian xiangyang had a premonition and decided to give him the key to the core of the school.

Now that he thought about it, the reason why Tian Xiangyang did this was because he had long expected this scene today!

this was the first time lin yi had ever seen someone with such amazing planning skills!

fortunately, he was on their side-lin yi couldn't help but feel his blood run cold just thinking about what would happen if he really had an enemy like this.

It's a pity that the old man of the Tian family left too early.

Having said that, Tian Xiangyang had even schemed against the evil god and several other gods. If he did not use his own life as bait, there would be no chance of success.

When mortals and gods played chess, they could only fight with their lives for the one in a million chance of winning.

after saying goodbye to lu banshi and the others, lin yi and the others entered the secret realm.

the last time he came to zhu shen secret realm was a tough challenge for lin yi. any random native creature could be a fatal threat to him.

Now that his strength had been reborn, it was naturally a different scene.

Of course, with the vastness of the secret realms, even with Lin Yi's current strength, he didn't dare to say that he could do whatever he wanted. Just from the edge of Lin Yi's perception, he had already sensed no less than three terrifying auras.

The strength of these three auras was not inferior to those top-tier super sea beasts that ran amuck in the sea.

This was only the tip of the iceberg.

Fortunately, creatures at this level were all highly intelligent. Unless Lin Yi and the others entered their territory and provoked them, they wouldn't attack them.

After all, their auras weren't to be messed with, and so were Lin Yi's group.

they were both tough opponents.

There was a natural tacit understanding between powerhouses, and it was the same between powerhouses and beasts.

less than half a day after entering the secret realms, lin yi and the group arrived at the teleportation formation. they entered the coordinates of the god-tier college alliance and activated the formation.

naturally, lin yi was no stranger to spatial teleportation.

xu anshan, the queen of the abyss, and madam qing were also familiar with this. only xiao wan 'er was a pure newbie and was extremely curious.

strictly speaking, it was a taboo for ordinary people, especially children like xiao wan 'er, to use spatial teleportation. any slight fluctuation in the process could cause irreversible damage.

However, Lin Yi was a space rule ability user. Even if his control of the rules didn't improve much, it was more than enough to protect the little girl.

However, Lin Yi was surprised to find that his protection was unnecessary.

the little girl's adaptability to the power of space was very strong. not only did she not have the side effects of ordinary people, but she was also like a fish in water!

"Wan 'er's affinity to space is rare, the only one I've seen. Lin Yi, you've really picked up a treasure with a disciple like her."

madam qing sighed with emotion at this scene.

the rest of them nodded in agreement.

at the level of the supreme realm, true experts no longer looked at their cultivation talent in the conventional sense, but their affinity with the nomological power of various elements.

The stronger the affinity, the easier it would be to increase one's control over the laws. Naturally, the upper limit in the future would also be higher.

Especially when this little girl had spatial affinity. As long as she was lucky enough, her future would be limitless!

With Lin Yi there, everyone knew that the girl wouldn't be lacking in opportunities in the future. No matter how rare the space rule power was, it was only a matter of time before she got it.

Even Xu Anshan couldn't help but praise, " "This woman has a noble aura, her future will be unspeakable."

Even Lin Yi was moved.

Xu Anshan was a man born with the looks of an Emperor. He was born with the fate of an Emperor, and his mouth was filled with the will of the heavens. Every word he said was like gold and Jade, and he would never speak without thinking.

his recognition was, to a certain extent, equivalent to the recognition of the heavenly dao!

The little girl was happy. uncle, you have a noble aura. I have a noble aura too. Why don't we become sworn brothers? "

Xu Anshan, "hehe."

"I'm not against that," Lin Yi smiled.

the queen of the abyss and madam qing smiled but did not say anything.

As the few of them spoke, the scene in front of them flickered and suddenly became extremely wide.

It was a huge square, with skyscrapers everywhere, with shuttles of all sizes crossing each other in the air. If it weren't for the fact that the architecture was different from the common world, Lin Yi would've thought he was in a future world.

However, strictly speaking, these things could also be seen in Jianghai city, but it was obvious that the development level here was far higher than in Jianghai city.

they were at least fifty years ahead of jianghai city.

"The divine kingdom of earth."

mrs. qing's tone was emotional, and lin yi looked at her, his curiosity piqued.

At this moment, a dissatisfied voice suddenly came from the side, "hey, hey, hey, a few country bumpkins who have never seen the world, what are you doing blocking the teleportation array? if you're sighing, then go to the side. you delayed my lord ha's teleportation, can you afford to pay for it?"

"It is! Instead of coming out after the teleportation, you're just standing there and looking around like an idiot. You must be from a small place!"

he doesn't have any public morality at all. He's the complete opposite of our Lord ha!

the crowd around the teleportation array began to launch a collective attack.

all kinds of unpleasant words were heard.

"lord ha?"

lin yi and the others paused and looked at the manager.

the manager shook his head helplessly. "it's normal that you foreigners don't know. lord harlinha is the most popular movie star right now. he was even invited to the anniversary of the college alliance."

Remember, his fans are especially fanatical. No matter who you mess with, don't mess with his fans. Otherwise, you'll be in big trouble."

xu anshan and the others were confused.

lin yi, on the other hand, reacted instantly. it wasn't uncommon to see people chasing after celebrities, but even a movie star appeared here-it was clear how successful this connection with the secular world was.

" it seems that the divine college alliance has been peaceful for a long time. "

lin yi whispered to xu anshan and the others.

If there was chaos, then it would definitely be more inclined to absolute power. Even if entertainment stars like movie stars existed, they would not have too high a status. In the eyes of the world, they would at best be like actors and would not attract so many people to chase after stars.

Chapter 10349

Only after a long period of peace, where there were no visible life-threatening situations in daily life, where entertainment was highly developed, could such a phenomenon occur.

This was the most modern place Lin Yi had ever seen since he came to Sky Class Island.

There was no other.

when lin yi and the others came out of the teleportation formation, another white light appeared.

A group of people appeared in the center of the teleportation formation. There were a total of sixteen Supreme realm experts, like the stars surrounding the moon, surrounding a man in white.

With the appearance of the white-robed man, the atmosphere instantly reached its peak.

"Lord ha! lord ha!"

the fans who had been waiting for lin yi's arrival all this time rushed over, pushing lin yi's group to the side.

Fortunately, Lin Yi activated his aura in time and blocked the crowd's pressure. Otherwise, even if they didn't get crushed on the spot, they would've been scattered all over the place.

After all, the people present were not ordinary people. The strong aura formed by the cooperation between fans was not something ordinary cultivators could withstand.

The abyssal Queen stood on her tiptoes and took a look. She was confused. "a titan at the peak of the early stage of the consummate level? That person only has this much strength, what's there to be entranced about?"

The strength of a Big Shot at the level of perfection was considered not bad in other places. However, in the divine college Alliance headquarters, it was clearly not up to the table.

Even if not everyone here was in the Supreme realm, at least half of them were in the Supreme realm. They were not even strong enough to deal with a perfected stage giant, let alone a peak early-stage perfected giant.

Lin Yi chuckled. if it's all about strength, then no one would chase after stars. You won't understand the way these crazy fans think.

"What a magical brain circuit."

The Queen shook her head, not fully understanding.

As the two of them were talking, an old woman came out of the teleportation array not far away. She was dressed in simple clothes and although she had strength, she was only at the peak of the early stage of the original level. In this kind of occasion, it was not much different from not having much difference.

initially, there was nothing much going on. however, with the cheers of the fanatical fans, a huge aura came pressing down like a mountain.

Not to mention the old woman, who was an expert at the peak of the early Yuanying stage, even ordinary Almightyies at the great circle of perfection couldn't withstand the impact. They were all thrown off their feet.

As for the old woman, she was directly pressed to the ground!

seeing that the fanatical crowd had no intention of stopping, the old woman couldn't help but reveal a look of fear.

however, at this time, no matter how much she shouted, it was already too late, because everyone's focus was on lord ha. no one would pay attention to the life and death of an ordinary old woman.

"old granny, be careful!"

Xiao Wan 'er immediately ran over.

In the middle, Lin Yi subconsciously wanted to use his spatial rule power to bring her back, but unexpectedly, the little girl broke free from the spatial rule Power's lock.

Lin Yi couldn't help but be shocked. He wasn't even close to touching rule power yet, but he was like a fish in water when facing space power!

if it was just a matter of high affinity, it would be fine. there were more than one or two children in the world who had high affinity. even if they could not reach the level of this little girl, there were still geniuses of the same level.

after all, this world had no lack of geniuses.

however, the little girl's performance just now was more than just affinity. she was able to break free from the spatial rule power's lock, which also meant that she could control the spatial rule power!

one had to know that she hadn't even reached the foundation establishment stage yet.

a child who wasn't even in the foundation establishment stage could actually control the power of space rules. if this news were to spread, it would definitely shock everyone.

From a certain perspective, this was even rarer than Lin Yi's ancient God cultivation.

after all, it was possible to find another ancient god cultivator, but it was very likely that there would be no second child in the world who could defy the heavens!

lin yi decided to keep this secret to himself before the girl grew up.

otherwise, once it was leaked, the most likely result would be that the little girl would be captured and cut into pieces for research. she might even be sent directly to the divine realm. at that time, even he might not be able to protect the little girl.

"it seems that i have to teach this little girl the art of illusion as soon as possible."

lin yi pondered over the training plan.

The rule power of space was naturally the most important, but in order to fool people, he had to let the little girl minor in illusion at the same time.

in this way, even if she occasionally used the rule power of space in the future, the enemy would subconsciously think that it was an illusion. it was not only a top-class tactical technique, but also the best layer of protection for the little girl.

as long as the little girl fully matured in the future and entered the supreme realm, no matter how big the world was, there would probably be no one who could stop her!

While Lin Yi was worried, Xiao Wan 'er had already rushed to the old lady's side and helped her up.

however, at this moment, the fanatical fans were surrounding their lord ha and pressing towards her, completely unaware that there was an old man and a young man on the ground facing their merciless trampling.

if this situation continued, even if xiao wan 'er and xiao yan weren't really stepped on, they would still be crushed by everyone's combined aura and be seriously injured.

In fact, he might even be crushed to death.

"child, don't worry about me, just go!"

The old woman panicked and quickly tried to push Xiao Wan 'er away, but her strength was completely suppressed. She couldn't even stand up, and she couldn't take Xiao Wan' er to a safe place.

At the crucial moment, a loli figure not much older than the little girl stood in front of the two.

The heavy pressure that had been pressing down on the two of them just now instantly disappeared.

"sister queen!"

the little girl looked at the abyss queen in front of her and could not help but be surprised and happy.

The abyssal Queen looked helpless. little brat, I'm a few thousand years older than you. I'm more than enough to be your great-grandmother, and you call me sister? " she said.

but you look just like my sister, " the little girl said, giggling. if you're not happy, then Wan 'er will call you Queen granny? "

"....."

"sister it is then." the abyssal queen was defeated on the spot.

The old lady listened to the two lolis 'conversation and couldn't react for a while. Seeing the fanatical fans continue to pressure them, she quickly reminded the two, " "You guys go first!"

the abyssal queen remained unmoved and glanced disdainfully at the fanatical fans behind her.

"Do they think they're worthy of me leaving?"

After he finished speaking, he immediately released his aura.

she was the same as banshi lu, a golden class late phase peak full venerable. not only was she the top in the sea, but she was also not weak in the godly school alliance headquarters.

Chapter 10350

of course, in theory, her aura alone could not match up to so many people. after all, many of them were supreme realm experts.

However, the aura of the flour strands was unconsciously integrated. Although it was huge, it did not have much autonomy.

On the other hand, although the Queen's side was lacking in quantity, at least she could control it independently and find a weak point to break through in one go.

that was the truth.

the abyssal queen had not only managed to withstand the opposing side's aura by herself, but she had also managed to suppress them. the counterattack formed by her aura had caused a large number of fanatical fans to collapse on the spot!

"who dares to block lord ha's way?"

the supreme realm bodyguards surrounding harlin immediately became alert.

four of them quickly passed by the crowd of fanatical fans and came to the queen, who was the source of the aura. their eyes could not help but reveal a little surprise.

they could see the strength of the old woman and xiao wan 'er at a glance, but the queen was clearly just a little loli, and the aura she displayed at this moment made them feel that she was unfathomable.

an illusion?

the four of them looked at each other. although they were on guard, they still spoke in a condescending tone.

do you know that Lord ha was invited by the Alliance's Board of Directors to attend a meeting at the headquarters? he is the most important guest of the Alliance. Can you afford to delay his and the Alliance's important matters? "

The Supreme Board of Directors of the Alliance was the decision-making body of the Alliance of divine Academies. It was also the center of power for the entire Alliance.

each of the nine members of the supreme board of directors stood at the peak of the divine kingdom and the alliance of divine academies!

At any time, as long as they used the name of the Supreme Board of Directors, the invisible pressure would be enough to suffocate everyone.

They were not gods, but their status in the divine Kingdom on land was like that of gods!

All of a sudden, the fanatical fans who had just been attacked by the aura immediately recovered and accused the Queen and the other two of being uneducated.

"There are really all kinds of people these days. Even if the three of you want to scam me, you should at least find a good place, right?"

"coming here to scam lord ha, aren't you kicking an iron plate? You don't know your place!"

"what do you mean reckless? do you know how to use words? That's called the ignorant being fearless!"

the queen looked at this scene expressionlessly and motioned for the little girl to help the old woman to the side. then, she slowly turned around and said, " "Are you done farting?"

"ha?"

the crowd did not know what was going on, but they immediately felt an overwhelming aura pressing down on them, and the fanatical fans could not help but retreat collectively.

" provoking lord ha in broad daylight, little girl, do you really not know the consequences of doing this? "

The four Supreme realm bodyguards 'faces darkened.

They had already noticed that the Queen was not simple, but no matter how complicated she was, she could not compete with them, a professional team of bodyguards.

Even the weakest of them was at least a mid-stage golden class venerable. Even in a God nation where Masters gathered, this group of bodyguards would be considered luxurious.

"Consequences? i really don't know."

the queen shook her head indifferently. " "i'm not interested in knowing."

As she spoke, she exchanged a glance with Lin Yi, who was a distance away, a hint of playfulness and slyness in her eyes.

After the evil god incident, she got rid of the evil God's control as she wished and regained her freedom. Although she agreed to join Lin Yi after weighing the pros and cons, she was still far from truly joining him.

lin yi was strong, and his future was limitless, but to her, he was just an equal ally that she could use.

On the other hand, wasn't Lin Yi on guard against her?

this time, they did need the help of the strongest battle power to come to the divine academy alliance's headquarters. however, the queen wasn't the only candidate.

He brought her along to prevent her from causing any trouble in the sea. After all, Lin Yi wasn't here, and the rest of them had no chance of winning against the Queen.

even luo banshi didn't dare to say that it was a sure thing, not to mention that they had to be on guard against any sudden attacks from the beast god hall.

Lin Yi and the Queen both knew this.

"You're looking for death!"

the four supreme realm bodyguards were enraged and wanted to attack the queen. however, before they could do so, they had already fallen into a bottomless abyss.

The people around him couldn't help but exclaim.

it was as if they had fallen into a swamp. no matter how the four supreme realm bodyguards struggled, they could not escape. instead, they were sinking deeper and faster.

in the blink of an eye, half of the four men's bodies had already sunk in, leaving only their necks and heads behind.

when the group of fanatical fans saw this scene, they finally calmed down a little and retreated in shock.

they might not have come into contact with the bottomless abyss, but even so, it was not difficult to see that once they completely fell into it, even if they did not die, it would be difficult for them to see the light of day again. it was no different from death.

The Queen looked at the four of them with an indifferent expression. "If you have anything else to say, say it now. You won't have the chance in the future."

the four supreme realm bodyguards were horrified and quickly called for help from their companions.

Soon, the Queen was surrounded by the remaining 12 bodyguards who had heard the news.

The Queen remained unmoved.

"little girl, if you're sensible, you'll let go of my companion. otherwise, if you kick an iron plate, you'll be the one who suffers in the end!"

as soon as the captain of the bodyguards finished speaking, the 12 of them were immediately enveloped by the abyssal power again. one by one, an endless abyss appeared under their feet, following in the footsteps of the previous four.

this time, everyone present was completely shocked.

the way they looked at the queen was no longer as relaxed and contemptuous as before. instead, they were all horrified.

It wasn't rare to see a golden class late phase peak venerable here, but someone like the Queen, who easily wiped out sixteen golden class mid phase Venerables and above, was a monster-level existence no matter where she was.

A monster's strength could never be covered by a few realms.

madam qing saw this scene from afar and turned to lin yi, " "Aren't you afraid that she'll make a big deal out of it?"

As a newcomer, especially with such a heavy responsibility on his shoulders, the best strategy was undoubtedly to keep a low profile and not stand out and become the target of public criticism.

The Queen's overbearing actions were satisfying, but it was the opposite of Lin Yi's original intentions.

Lin Yi was surprisingly calm as he smiled, " since we've come this far, it's not a bad thing to make a big scene. it's a good time to see how deep the water in the alliance of schools is. "

" i'll keep a low profile when it's time to do so. but if i can't do it, it's fine to be a little high profile. "

Madam Qing and Xu Anshan looked at each other, both sensing the change in Lin Yi.
