

Bodyguard 10361

Chapter 10361

in addition, the mainstream intelligence agencies have been doing special propaganda in this regard, instilling a deep-rooted concept into their customers. Intelligence is expensive for a reason.

"is that wrong?" the queen frowned.

Zhao Xian shook his head. actually, we've done an internal calculation. On average, less than 20% of the information sold is truly valuable to our customers.

in other words, at least 80% of every piece of information, especially the details that seem so detailed and professional, are actually invalid information.

the only value of their existence is to make the customer willingly pay a high price.

"even if there are occasional exceptions, the possibility of an exception is minuscule."

in fact, if you carefully study the detailed cases publicized by the various mainstream intelligence agencies, you will find that as long as you analyze the core information correctly, you can get the same effect even without these details.

"it's also because of this that i came up with the idea of doing my own personal intelligence. i don't want the details to be detailed, i only want it to be practical."

" just like the information on the freshmen this time, i didn't investigate the details of the thirty freshmen. instead, i specifically analyzed their core strength and combat style, and made suggestions on their positions in the team. "

" this information might not be useful at other times, but it's the right medicine for the upcoming battle to join the alliance between the four great academies. "

everyone nodded in agreement.

at the very least, zhao xian had already told him everything about the industry.

moreover, his way of thinking for the purpose of gathering information was somewhat similar to his original intention. after all, this was how information was used when it first appeared.

The Queen was puzzled. you are the manager of the Zhiwei Pavilion. The information of the freshmen is also sold through your hands. Can't you process the information of the Zhiwei Pavilion and add it to your own information? wouldn't that be better? "

zhao xian smiled bitterly. " your majesty, you may not know this. all the mainstream intelligence agencies, including our zhiwei pavilion, have the best protection for information. "

" from the source of the information, to the collection and summary, to the detailed analysis, and finally to my hands to sell it, every link is divided up and closely monitored. "

"Other than the pavilion master, no one in the entire Zhiwei Pavilion knows the full picture of the information. At most, they only know a part of it."

just like me, I only know that the content of this information is about the thirty new students. Other than that, I only know the price of this information and the customers who buy it. I don't know anything else.

"Can't you take a peek?" the little girl raised her hand.

zhao xian smiled and shook his head. "every piece of information has a special miniature encryption formation. as long as the client who has obtained permission can open it, if others try to crack it, the formation will destroy the information immediately and send it back to the higher-ups of the zhiwei pavilion."

"It looks so powerful."

the little girl nodded, not fully understanding. she turned to the queen and asked, " "Sister Queen, do you understand?"

The Queen's face darkened and she flicked her forehead. "don't compare my intelligence to yours!"

Everyone smiled.

"So you're planning on selling us your private information, brother Zhao?" Lin Yi asked.

zhao xian waved his hands. " i'm not selling it. i'm giving it to you as a gift. you saved my mother's life, and i'm still asking you for money. am i still a person? "

" but this is my first time gathering personal information. although i'm confident, i can't guarantee that it'll be foolproof. "

"Regarding this point, I hope that all of you will carefully consider it."

I suggest that all our benefactors find a few more small intelligence agencies to verify it. After all, no matter how rich that Academy is, it can only buy out a few large mainstream intelligence agencies on the market at most. Small agencies can't control it.

With that, he handed a Jade to Lin Yi.

Lin Yi and the others looked at each other. "Since brother Zhao is so kind, then we will not refuse."

He didn't refuse and directly took the Jade slip and read it with his spiritual sense.

After a while, Lin Yi opened his eyes and passed the Jade to Xu Anshan. He said to Zhao Xian seriously, "thank you for your help, brother zhao. your information is very useful to us. it's been a great help."

Zhao Xian's personal information made him think of the scouts' reports in the secular world.

There was no mention of other personal information, but as long as it was related to the profession, it would be extremely detailed. At the same time, extremely professional analysis and suggestions would be given, highlighting the profession!

"it's my honor to be acknowledged by my benefactor!" zhao xian was very happy.

"you don't owe us a favor now, we owe you a favor. don't keep calling me benefactor, just call me by my name, lin yi will do."

Lin Yi took the initiative to clink glasses with him, "With Zhao Xian's outstanding intelligence gathering abilities, we will have many opportunities to work together in the future. I hope you can guide me in the future."

Before Tianji was transferred over, both Lin Yi himself and the school needed to find a reliable source of information.

With Zhao Xian's intelligence gathering skills, he was definitely a rare partner.

While it was not impossible for them to work with the mainstream intelligence agencies, the Jianghai Academy's financial resources could not afford to be used without restraint. Furthermore, they were unfamiliar with the place and were afraid that the bigger the store, the more likely they would be to bully their customers.

Zhao Xian was overjoyed. then I'll call you brother Lin. In the future, if you have any information needs, I'll do my best to satisfy you. I won't dare to slack off.

"It's a deal!"

Lin Yi made the decision immediately, and everyone started drinking.

as they talked and laughed, zhao xian took the initiative to reveal a lot of local information to lin yi and the others. many of these things were new to lin yi and the others, and they couldn't help but rejoice.

This information didn't seem that important, but if he didn't know, he might step into a minefield.

Zhao Xian's actions had clearly taken everyone's situation into consideration. It seemed like they were chatting aimlessly during the banquet, but in reality, he was using this method to do them a favor and curry favor.

however, there was one thing that he did not reveal. although he had said a lot, he did not reveal any information about the internal affairs of the zhiwei pavilion, including the information about which family had bought out the freshmen.

lin yi, xu anshan, and the others looked at each other. they weren't displeased at all, but admired zhao xian even more.

there was no doubt that since he was out here to obtain private information, this person definitely had his own ambitions.

If it were someone else, even if they didn't secretly trample on their boss, they would definitely take advantage of their boss's information to do them a favor. After all, this kind of thing was almost cost-free and had very little risk.

however, zhao xian did not.

At least in this aspect, Zhao Xian had displayed a high level of professionalism.

as long as he followed the rules, he would be a long-term partner worthy of trust and investment.

Chapter 10362

while everyone was talking, the little girl who was fiddling with the bronze mirror by herself suddenly let out a cry. the next second, she disappeared from everyone's sight.

“.....”

everyone was shocked, and the queen even stood up.

she could tell that the bronze mirror wasn't normal, but it wasn't like lin yi, who could directly see the connection between the mirror and space power. however, this incident reminded her of her old rival, the nameless scholar.

The mirrors of the nameless scholar had a similar effect.

what if this bronze mirror was like those mirrors, and the other end was directly connected to some dangerous secret realm? if the little girl barged in like this without any preparation, then it would really be dangerous.

"don't worry, i've already found her."

Lin Yi's words calmed her down.

just in case, lin yi had left a mark on the girl's body, and he could sense her location the moment she disappeared. she was downstairs.

the queen reacted quickly and rushed downstairs in a flash.

at this moment, the little girl was looking at the crowd in front of her with a blank face. " "Ah? What is Wan 'er doing here?"

he tilted his head and thought for a long time before he suddenly became excited.

Did Wan 'er transmigrate? was it the kind of transmigration that master had mentioned?

Just as she was about to let her imagination run wild, she was jolted back to reality by the curses in front of her. A well-dressed woman was pointing at the nose of a waiter in front of her and scolding him.

At his feet was a broken bowl and a pool of soup.

"what kind of service are you? You can't even hold a bowl properly. Do you know what day it is today?"

" my son has been selected for the alliance's special recruitment. on such a joyous day, you actually crushed my eight treasures soup! "

"look, the soup is all over me. how are you going to compensate me?"

the waitress was a girl, and one look at her and you could tell that she was the honest and quiet type. in the face of such an aggressive situation, she was suddenly at a loss and didn't know what to do.

the little girl looked at the scene in front of her and tried hard to recall the previous situation. suddenly, she pulled the girl's sleeve and said, " "sister, did i knock your bowl over just now?"

Everyone's eyes were drawn to her.

"Is it her?" the gorgeous woman continued to be aggressive.

Under everyone's watchful eyes, the waitress's face was so red that it was almost bleeding, but she still quietly pulled the little girl behind her and denied softly, " "it has nothing to do with her. i was careless."

"Accidentally? Do you think that you can just brush it off by saying that you were careless?"

"You didn't just destroy my Eight Treasures soup. You also destroyed my new clothes. Do you know how much they cost?" the gorgeous woman said. do you think a stinky waiter like you can afford thirty thousand spirit jade?"

the waitress's face was red and her voice sounded like she was crying. " "I'm sorry, I'll definitely compensate you."

"Compensate me? What are you going to compensate me with?"

The gorgeous woman sneered. just by looking at you, I don't think you've ever worn clothes that cost more than ten spiritual jades in your life. Do you know how much 30000 spiritual jades is? "

"even if you work at the imperial kitchen for a hundred years, you won't be able to save up 30000 spiritual jades. i'd like to hear how you're going to compensate me."

the waitress was speechless.

The service staff of the Imperial Kitchen was not treated badly, especially by the boss. Even so, she was only paid 60 spiritual Jade a month.

Although 30,000 spiritual jades was not as exaggerated as having to work for a hundred years, it was still a huge sum of money for her.

at this moment, the little girl stood up and said,"can i compensate you with my mirror?" I really bumped into my sister just now. Auntie, can you stop being so fierce to her?"

"Aunt Yingluo"

The gorgeous woman choked and looked at Xiao Wan 'er with disgust. "Where did this wild child come from? Using a dirty broken copper mirror to disgust people, boss, is there no one here to take care of it?"

"no one even cares about an ugly person like you, and you still have the time to care about others?"

the queen had appeared behind the little girl. she glanced at the gorgeous woman and said, " "It's not wrong to be ugly, but it's your fault that you came out to bite people when you're so ugly."

"You! why is there another wild child!"

the gorgeous woman exploded in anger and walked in front of the queen, raising her hand to slap her.

However, the Queen did not do anything. With just a simple look, she felt as if she had fallen into an ice cellar. Her outstretched hand did not listen to her command, and even her legs began to tremble unconsciously.

the crowd had been watching the show, especially the relatives and family. they were all speaking up for the gorgeous woman and criticizing the waitress and xiao wan 'er.

however, they immediately realized that something was wrong.

although their cultivation level was limited, they were still natives. in terms of experience, they were far from comparable to the people from other small places. just by looking at her posture, they knew that the queen was not to be trifled with.

At this moment, a young man stepped forward and stood in front of the gorgeous woman.

It was her son, the main character of the celebration party, Li Jingning.

Li Jingning looked down at the queen. " "Little girl, watch your mouth. This is not a place for you to be impudent."

"Is that so?"

The queen couldn't help but reveal a playful smile. " "You're the new student directly under the alliance? That's just right, I'll help a certain someone to test her color today."

After he finished speaking, he released his aura and immediately shocked a large number of people around him. The diners hurriedly fled in alarm.

Her aura wasn't as domineering as Lin Yi's, but she was still a golden class late phase peak venerable. She was a monster-like existence, and normal practitioners wouldn't be able to withstand her aura.

Li Jingning's expression changed, but he didn't move an inch.

Not only that, the gorgeous woman behind him was not affected at all.

He was only an early phase golden class venerable, far from the Queen's level, let alone in terms of pure strength. But he was able to withstand the Queen's pressure at such a close distance.

Just this point alone showed that he had the potential to be a monster.

"to be able to enter the alliance's direct special recruitment, he is indeed something."

The Queen was also a little surprised.

just as she was about to raise the price further to measure the other party's worth, the waitress beside her suddenly said weakly, " "I spilled the eight Treasures soup. I'm willing to take responsibility."

Li Jingning's expression changed, and even the Queen was shocked.

The Girl's Realm wasn't high. She had only just reached the threshold of the foundation building stage. In this situation, she was just a pure ordinary person.

Chapter 10363

The Queen did not take special care of her just now. The only person who could receive special treatment from the Queen was the little girl.

in other words, the girl was actually bearing all the pressure from the queen, and the position she was standing in was even closer than li jingning's!

She was actually not affected?

For a moment, the Queen couldn't help but wonder if she had been hallucinating, or if she had subconsciously avoided this girl.

"Are you still taking responsibility?"

The gorgeous woman didn't know what was going on. She thought that her son had managed to control the situation, so she jumped out again. a lowly person like you, even if you sell your entire family, it won't be enough to compensate for my son's banquet!

"Do you know what the Alliance's special recruitment is?"

"every single person who can enter the alliance's direct special recruitment is a genius among geniuses, a prodigy among prodigies. they'll all rise to the top in the future, and they're destined to leave their names in the history of the divine kingdom on land."

my son's future is beyond the imagination of people at the bottom like you. Do you think you're worthy of being responsible? "

Lin Yi's voice came from the stairs.

even if he is specially recruited by the Alliance, he is just a newbie. At most, he will have a slightly higher starting point than his peers. In the future, there will be many who will become ordinary people.

lin yi slowly walked in front of the crowd and looked at li jingning with a playful look before turning to the gorgeous woman. you're praising him to death. Do you have a grudge against your own son? "

the gorgeous woman immediately frowned. " "Who are you?"

The Queen chuckled. didn't you say that the Alliance is directly recruiting students? I'm sure you've heard of the new student selection. This person in front of you is the person in charge of one of the four Academies participating in the new student selection, Jianghai Academy.

"Is your sister from Jianghai Academy?"

li jingning looked at lin yi, surprised.

The gorgeous woman was also shocked, but then she showed a disdainful expression. "so what? Let's not even talk about whether it's true or not. Even if you're really from that Jianghai or whatever school, can you even compare to Ganges school?"

Although the eternal river Academy was not a member of the Alliance, it had always had the strength of a God-ranked Academy. Especially since it was a local Academy, its reputation within the divine Kingdom was naturally far from what the Jianghai Academy could compare to.

To the vast majority of local cultivators, Jianghai Academy was no different from a dilapidated Academy in the mountains. It was not even worth mentioning.

Even if he suddenly appeared and obtained the qualifications to compete with the eternal river Academy for the Alliance, he would still be unknown in the eyes of the public. He was destined to be a fringe character.

"so you guys trust the eternal river academy?" lin yi smiled.

of course, "the gorgeous woman said proudly. Lord ha linha, the representative of eternal river Academy, has already personally promised our Jing Ning that he will definitely be chosen as their main force in the new student battle.

"with eternal river academy's focused training, our jingning will definitely be able to shine in the new student battle and become one of the best among this year's specially recruited new students!"

"Is that so?"

lin yi raised an eyebrow, "but i've received a different piece of news. the eternal river academy has extended an olive branch to all thirty of the new students, and your son doesn't seem to be the special one."

The gorgeous woman was stunned and then shook her head, " "Impossible, nonsense!"

Lin Yi looked at Li Jingning, "you think so too?"

it's normal for the eternal river Academy to get in touch with other new students in private, "li Jingning said coldly. but not everyone can get their official promise. I'm definitely one of them, and the one they value the most.

"so confident?" lin yi smiled, amused.

"it's not that i'm confident," li jingning said proudly. "i just believe in the eternal river academy's intelligence. as long as they're in their right mind, they should know what to choose after seeing my personal information."

Even Emperor Xu Anshan was speechless at this kind of arrogance.

In terms of arrogance, he was a natural-born Emperor, at least in his immature period. No one could compare to him.

However, this proud Son of Heaven in front of him seemed to have surpassed his master.

"I've seen your information before, but why don't I feel like you're the most special and important one?" Lin Yi said with a hint of interest.

Li Jingning wasn't discouraged at all. He was still very arrogant. "that only means that your jianghai academy is limited in its ability to obtain complete information on me."

This confidence was almost overflowing from the screen.

"maybe,"

Lin Yi shook his head with a half-smile on his face. He suddenly raised a finger. " however, with the same amount of information, if i had to choose, my first choice would definitely not be you, but her. "

Looking in the direction of his finger, she saw the blushing waitress who was standing quietly at the side.

for a moment, the scene fell into a strange silence.

after a long time, li jingning finally reacted and sneered, " "even if you're joking with me, you should at least come up with a more reliable excuse, right?"

the gorgeous woman laughed, " he is just a normal foundation stage person. he doesn't even have the right to sweep the floor for the alliance. how can he be compared to my son? even if you talk in your sleep, there should be a limit, right? "

One of the core recruitment standards of a divine college was to start at the Supreme realm.

this was especially so for the 30 new students directly under the alliance. other than the minimum threshold of the supreme realm, every single one of them was a monster among monsters.

The waitress in front of him, however, was a far cry from any standard.

Lin Yi said seriously, " he xiyin, dual personality. the outside personality is an ordinary foundation establishment girl, but the inside personality is a golden class early phase venerable. she's a human-shaped monster who once slaughtered an entire city. "

One sentence, and everyone was dumbfounded.

Any city in the divine Kingdom on land was far superior to other places, not even Jianghai city. After all, Jianghai city did not have a Supreme realm expert in charge, but there were countless of them here.

it wasn't as if there hadn't been legends of a single person wiping out an entire city, but all of them were exclusive to the big shots standing at the top of the entire divine kingdom on land.

even if this he xiyin really had a golden class early phase venerable personality, this was still unimaginable.

It was just like when Lin Yi first arrived in Jianghai city. He was only a Big Shot in the early stage of the complete realm, but he wanted to annihilate the entire city.

was that even possible?

everyone's eyes turned to he xiyin, who was at a loss. she blushed and shook her head. "I didn't do that. It was my sister."

Chapter 10364

"You have an older sister?" li Jingning frowned.

"the inner personality is her sister."

Lin Yi was shocked when he saw the information.

most of the time, he xiyin was just an ordinary girl who knew her place. her realm was just around the foundation establishment stage, her family background was average, and she was quiet, timid, and docile. she was just an ordinary girl here.

however, once the inner personality woke up, it would instantly become another person.

cold, overbearing, powerful, and bloodthirsty.

Because of this, he Xiyin received special attention from the Alliance headquarters and was directly recruited.

Zhao Xian had given the 30 new students a rating in his report. They were divided into four grades: heaven, earth, black, and yellow. There were three people in the heaven grade, and he Xiyin was one of them.

in comparison, li jingning, who was also extremely talented, had only been evaluated as a local grade by zhao xian, just like the others.

"If there's a chance, you'll be the first one to be chosen. I hope you're prepared." Lin Yi said.

"ah?"

he xiyin didn't know what to do and waved her hands."I, Yingluo, will disappoint you, Yingluo."

she knew that her inner personality was indeed scary, but in the end, it was her inner personality, not her.

although they were using the same body, the connection between her and her inner personality was only that. she couldn't control what her inner personality did at all, and she couldn't call her inner personality out.

Based on past experience, the inner personality would only appear when she was willing to. If she wasn't, she wouldn't appear no matter what he Xiyin did.

including the danger to his life.

As a result, he Xiyin wasn't happy at all about receiving the notice of special recruitment from the Alliance. Instead, she was on edge.

If there was a way to reject it, she would have done so long ago, given her personality.

after all, she really couldn't control her inner personality. with her own strength and qualifications, it was almost a scam to enter the alliance's list of specially recruited freshmen.

if the alliance went back on their word and thought that they had wasted their resources on her, then she wouldn't be able to pay for it even if she lost her life.

Lin Yi smiled, " you don't have to be nervous. Since we're willing to bet on you, it means that we have confidence in you. Even if we take a step back and lose the bet, it's our own problem. It has nothing to do with you.

"but yingluo"

He Xiyin was still worried and stopped talking.

the gorgeous woman couldn't help but say sourly, " hehe, a run-down Academy from who knows where, a low-level figure who doesn't even dare to speak loudly, and you're speaking as if it's the truth.

then, she suddenly sneered at he xiyin, I advise you not to be so smug. You look like you've never seen the world. Do you know if he's real or not? "

"what jianghai academy? maybe they're just here to trick people like you. if you take it for real, then you're really not far from being sold off."

the queen sneered back,"perhaps it's more appropriate to say this to your son. do you really not know what the eternal river academy is like, or are you just pretending not to know?" If you don't know, just spend some money to buy information on the main roads. It's very cheap."

"....."

The gorgeous woman choked.

As a native, how could they not have heard of the reputation of the eternal river Academy? to be honest, when the other party came to the door this time, she was also skeptical. It was only when she saw Harlin personally come forward and make a promise that she was relieved.

the eternal river academy didn't have a good reputation, but harlin's reputation had always been reliable.

Li Jingning snorted coldly. you don't have to worry about that. I've already said that it's not my fortune that any Academy has chosen me. It's that Academy's fortune.

"then we'll wait and see."

Lin Yi turned around and left, but he stopped before adding, oh, by the way, I'll get someone to compensate you for the bowl of soup that you knocked over just now. As for this lady's clothes, I don't think it was splashed, so naturally, I can't say whether I'll compensate you or not.

"How come it didn't get splashed? i spent 30000 spirit jade to buy these clothes, waah!"

The gorgeous woman wanted to continue, but when she looked down, there was no trace of the soup on her clothes.

" that's not right. it was clearly dirty just now. how come it's gone? "

the gorgeous woman couldn't believe it. then, she reacted, " "No, it must be your trick. If you don't compensate me, I'll run away."

"Grandnephew's wife, let's stop here."

A deep voice was heard.

Lin Yi and the others turned to the source of the voice-it was a middle-aged man with a refined aura.

when he xiyin saw him, she quickly bowed. " "boss,"

Not only her, but even the overbearing gorgeous woman also hurriedly restrained her arrogance when she saw this person and smiled apologetically, " "Little granduncle, why have we alarmed you?"

the elegant man's eyes swept across the crowd before landing on lin yi, I'm Li Chang, the owner of the Imperial Cuisine restaurant. I'm really sorry for the misunderstanding today. To express my apology, all the dishes today will be free of charge.

Lin Yi sized him up and smiled,"Sir, you're being too serious. Your restaurant's dishes are very good. It's just a small interlude and it didn't affect the mood."

"are you in front of lin yi, young hero lin from jianghai academy?" li chang cupped his hands.

"that's right, it's me."

Lin Yi nodded, but he was a little confused.

with the distance between Jianghai city and this place, no matter how famous he was in Jianghai city, it would not be easy for his name to spread here. After all, this was not just a geographical distance, but also a natural gap in their knowledge.

In the eyes of the people here, Jianghai city was just a small place on the edge of the country. Their attitude was similar to how a big city looked at a remote mountain area. From top to bottom, everyone had an innate arrogance and contempt.

Not to mention the fact that news from Jianghai city was hard to get, even if it did, a face like Lin Yi wouldn't be able to show his face here.

At most, only a professional like Zhao Xian would know something about this. It was probably one in a million to recognize Lin Yi.

Li Chang saw Lin Yi's confusion and smiled, "There's no need to be surprised, Hero Lin. I have a deep relationship with Jianghai city. An old friend came to visit me a few days ago, and he was the one who told me about the current situation at Jianghai Academy."

Lin Yi and Xu Anshan looked at each other, finding it even weirder. "Is your friend also from Jianghai Academy?"

"His name is Xiang Yusheng." Li Chang nodded his head with a deeper meaning.

The Sea King Xiang Yusheng!

lin yi and xu anshan couldn't help but be surprised.

He used to be as famous as Banshi Luo, one of the face-class fighters of the entire Jianghai college, but he'd disappeared after the fight with Lin Yi.

Xiang Yusheng's departure was a huge loss for Jianghai Academy.

If he had stayed behind and accepted the divine spark's upgrade, he'd definitely become another golden class late phase peak full master. This way, the remaining elite forces of Jianghai Academy would have a much more solid foundation.

Unfortunately, everyone had their own ambitions.

Of course, Xiang Yusheng's disappearance last time was suspicious as well. There must be some big secret behind it. Even if he stayed in Jianghai college, Lin Yi didn't dare to trust him completely.

After all, he and Xiang Yusheng didn't have the tacit understanding and trust that he had with Luo Banshi.

"is senior xiang still here?" lin yi asked, his heart moved.

li chang shook his head. " other than reminiscing about the past, he came to find me mainly to ask about someone. at first, he didn't have any clues. however, last month, he somehow got news of that person, so he left in a hurry. "

"to inquire about a person?"

lin yi and xu anshan looked at each other, and a name subconsciously appeared in their minds-the head of the general affairs department of the repeating students department!

even in the history of jianghai academy, the general affairs office of the repeating students was a legendary organization that could leave its mark on the history books.

it wasn't just the mysterious general affairs director. every member of the group was a monster among the five retained students, including the deputy director, the sea king xiang yusheng!

no one knew where this legendary general affairs director had gone. they only knew that he had come to the outer realm.

however, no one knew if he was still here.

However, from the looks of it now, this person was most likely still in the divine Kingdom on land. After all, there were not many people who could make the Sea King pay so much attention to them.

lin yi nodded and cupped his hands, "thank you for the information, sir."

li chang smiled and shook his head, "there is no need to thank me. it is my fortune to be able to meet such a young talent. if you don't mind, i hope that you can come to my restaurant more often."

"in addition, i have a presumptuous request. this is a vip card of my imperial kitchen. please accept it, young hero lin."

as he spoke, he personally handed over a purple crystal card.

everyone present, including li jingning and his mother, could not help but be shocked.

"don't accept a reward without doing anything? isn't this a little too valuable?"

lin yi frowned.

the purple crystal card was a divine crystal in itself, and it was not an ordinary divine crystal either. it was worth at least a million spiritual jades, including the status it represented as a vip.

At his current level, a million spiritual jades was nothing to him. However, as a stranger who had just met him, it was still quite surprising that the other party had spent such a large sum of money.

naturally, it would also raise vigilance.

Li Changcheng said sincerely, " please don't blame me, young hero Lin. I don't have any other hobbies. I just like to make friends with the heroes of the world. I opened this Imperial Kitchen for nothing else, not to make money. I just want to have a place for my friends to meet whenever they want.

"If young hero Lin thinks highly of this li, please accept it and come visit often in the future."

" by the way, that old friend of mine also has this card. if he comes here, he'll also come to stay. maybe lin shaoxia will meet him in the future. "

Lin Yi fell into deep thought.

at this moment, zhao xian's divine awareness voice transmission came from his sea of consciousness. Li Chang really likes to make friends with all kinds of people. In addition, he has a deep background and is generous. People in the pugilistic world call him little Meng.

the meaning of his words was that this person could be of use in the future and could be a friend.

"since boss li is so generous, then i will not refuse."

lin yi didn't reject the offer and took the purple card.

With his current strength and confidence, although he still had to be careful when he first arrived, he did not have to be too cautious. There was no need to be too taboo about receiving a VIP card.

to put it bluntly, he wasn't someone who could be tricked by anyone, and lin yi had that much confidence.

"lin shaoxia, you're so straightforward!"

Li Chang was overjoyed. They chatted for a while more before he personally saw Lin Yi and the others out.

Li Jingning and his mother were completely speechless at this scene.

Among the Li family's relatives, Li Chang's status was extremely high. Although li Jingning was able to get to where he was today mainly because of his own powerful talent, his granduncle, Li Chang, had also contributed a lot.

however, the gorgeous woman was still somewhat indignant.

"our family's celebration for jingning was ruined by such a person. why are you so biased towards those country bumpkins? "

li chang glanced at her, but didn't say anything. he said to li jingning, " "Hair is long but knowledge is short. In the future, don't let your mother come out and show her face in public, lest you provoke a disaster without knowing it."

his words made the gorgeous woman's face turn pale, as if she had fallen into an ice cellar.

li jingning had been selected for the alliance's direct special recruitment, and it was the time for her to hold her head high as a mother. she was still full of thoughts that she would be able to raise her head in the li clan in the future and become an important first-class clan relative.

however, li chang's simple words shattered her fantasy.

with li chang's status in the li clan, it was almost the same as the clan leader. his words were equivalent to imprisoning her. in the future, not only would she not be able to bask in glory, she might even become a laughingstock for others to talk about behind her back.

How could she endure this?

most importantly, with her status, she did not dare to disobey li chang directly. otherwise, if she really angered him, her end would be even worse.

" little granduncle, " li jingning said in a low voice. " my mother didn't do anything too outrageous, did she? why must she be so uptight? "

"You have the courage to talk back to me. You do have the aura of a heaven's favorite."

li chang looked at him, chuckled, and shook his head. " "have you done any research on jianghai city?"

Li Jingning frowned. it's just a fringe college. Even if it can barely reach the threshold of a divine college, it's not qualified to be mentioned in the same breath as a local college. Is there a need to specially study it? "

"that's why i said you're too young. you're too proud and arrogant."

Li Chang sighed and slowly said, " there are 172 God-ranked Academies in the God nation on land. How many of them have you seen that can go against a God's shrine on their own? "

li jingning was stunned.

Divine Academies were powerful, and to his knowledge, they were the most powerful organization for human cultivators. In all aspects, they were even more powerful than many deep-rooted local clans.

but even so, it was impossible to compete with any god's divine palace alone.

After all, the gods' divine Palace not only had experts like The Walking of gods and high and low priests, but more importantly, there were really gods behind it.

Chapter 10366

Only the entire Alliance of God-ranked Academies could fight against the gods, not any one of them.

this was the foundation of the existence of the entire divine kingdom on land, and it was also a consensus reached by everyone.

if not for this, the god kingdom on land would have long been infiltrated by the gods and divided into their territories. it would not be in the current situation where human cultivators had autonomous power.

li jingning's expression changed, 'could it be that little granduncle is trying to say that jianghai academy has such strength? it's impossible!'

"See for yourself."

li chang threw down an information jade slip and turned to leave.

li jingning's expression changed completely when he felt the massive amount of information being transmitted, especially when he saw the description of jianghai academy being promoted to a god-ranked academy in one fell swoop during the battle with the beast god hall.

Even though the beast God Hall had not gone all out, and the new beast God had not personally taken part, the strength and resilience that Jianghai Academy had displayed had completely overturned his worldview!

such a battle record was hard to find even in the local god-ranked academies.

the gorgeous woman didn't think much of li chang's attitude, but when she saw her son's reaction, she finally realized that something was wrong and panicked.

"Son, are you alright?"

"it seems like i've underestimated this jianghai academy," li jingning said, exhaling.

the gorgeous woman was shocked,"really?" then what should he do? Now that we've offended them today, will the upcoming talent show affect you?"

I've said it before, "li jingning said proudly. whichever school I go to is the school's fortune. There are many smart people in the world. Even if Jianghai school wants to choose me, they might not have the right to.

"that's true. lord harrinha promised us that the eternal river academy is a big and powerful institution. no matter how you look at it, it's much better than his stupid jianghai academy!"

the gorgeous woman immediately felt relieved. however, when she thought of the words li changlin had left behind before he left, her heart was still shrouded in a layer of haze.

after leaving the imperial kitchen, lin yi and the group said goodbye to zhao xian and returned to the accommodation arranged by the alliance.

The remaining time was to analyze the freshmen information provided by Zhao Xian, and to make contact with and observe the thirty freshmen.

No matter how good the information was, it was still just information. There were many things that needed to be experienced before one could make the correct judgment.

other than that, lin yi also went to visit the mainstream intelligence agencies.

It was not that he did not trust Zhao Xian, but there were some things that Zhao Xian's personal information was far from enough. After all, no matter how professional Zhao Xian was, there was always a limit to his manpower.

just as zhao xian had said, all the mainstream intelligence agencies and information on the freshmen had been bought at sky-high prices.

however, lin yi didn't buy information on new students from them. he wanted to buy information on the alliance, the other three competing schools, and some of the key schools within the alliance.

These things could not be considered top secrets.

If Lin Yi had the intention, he'd just sit in a teahouse for a few days and talk to a few old men.

it was just that he didn't have that much time. secondly, he might not be as comprehensive as a professional intelligence agency. more importantly, he needed to use this as an excuse to deal with these mainstream intelligence agencies.

rather than saying that he was buying information from the alliance of academies, it was more like he was buying information from the mainstream intelligence organizations.

As a plan for the future, there were some things that needed to be done in advance.

in addition, he also took some time to study the little girl's bronze mirror.

this thing contained the power of space rules. once something happened, the consequences were often unexpected.

After all, not every time would be like this.

"this bronze mirror pixiu is quite interesting."

lin yi concluded before giving the mirror back to the girl.

"are you sure it's okay to let her play by herself?"

The Queen was very cautious about this. As the controller of the abyssal power, she had some understanding of the rule power of space and knew the complexity of it.

Lin Yi nodded. this mirror is pretty special. I suspect that it was made for instant teleportation.

"spatial jump?"

everyone was shocked.

space jump and space transmission did not seem to be much different in terms of effect, but in fact, there was a fundamental difference in the internal mechanism.

although the final result was spatial displacement, the latter required time to accumulate power, while the former was instantaneous. just this little difference would make a world of difference in actual combat.

although teleportation could also be used as a strategic shift, it could not be used in battle. moreover, it needed a long time to accumulate power each time, which had a huge limitation.

On the other hand, not only could spatial skipping be used instantly, but it could also be used continuously.

the effect of this in actual combat was far from what rigid spatial teleportation could compare to.

even madam qing, who had seen a lot, couldn't help but say, " "If that's the case, then little Wan 'er has really picked up a huge treasure this time."

A bronze mirror that could warp through space was a divine artifact no matter where it was placed. Even with Jianghai Academy's vast resources, they could not produce a spatial treasure that could compare to it.

in fact, even in the entire alliance of divine academies, it was still unknown if they could possess a spatial god tool of the same level.

"Oh, really? is that so?"

The little girl's face was filled with pride.

Lin Yi chuckled as he rubbed her head. "it's true that it's a space jump, but this bronze mirror is too ancient. the power of space rules within it is already very weak. the distance of each space jump can't exceed 20 meters."

"....."

everyone was speechless.

the advantage of spatial jump was that it could break through the barrier of physical space and perform instantaneous long-distance movements.

but 20 meters?

other than the little girl, anyone else on the scene could achieve instantaneous movements that were equivalent to teleportation without the help of any spatial power. there was no need for a spatial jump.

All of a sudden, the ancient bronze mirror had turned from a spatial God tool into something that was better than nothing.

"that's fine," the queen heaved a sigh of relief.

At such a short distance, no matter how the girl played, she wouldn't be able to escape their senses, not to mention that Lin Yi had made a mark on her body.

the little girl was not disappointed at all. on the contrary, she was secretly happy.

After all, if she could really perform a long-distance space jump, she would not have kept the bronze mirror for herself, let alone play with it.

this was just right. she didn't care about the distance anyway, as long as it was fun.

and so, in the days that followed, the little girl would appear beside lin yi and the others from time to time.

Chapter 10367

Unfortunately, she couldn't control the distance and direction well. She hit her face several times, but she still enjoyed it.

Even so, Lin Yi and the others were still dumbfounded by the spatial talent the girl displayed.

it should be known that even if it was impossible to perform a long-distance space jump, this bronze mirror was still an extremely high-level space treasure. even a cultivator with a certain realm would find it extremely difficult to operate it, let alone an ordinary person like the little girl.

not to mention that the little girl could do it so easily, like playing with children's toys on the street.

this could only prove one thing. the little girl's spatial talent was so terrifying that it had far exceeded everyone's understanding.

The profoundness of space that others could not comprehend in their entire lives was an innate ability for this little girl, as simple as eating and drinking.

What was talent? This was what true talent was!

even lin yi couldn't help but feel inferior in front of a monster like this.

to be honest, his spatial talent was already considered very good. after all, with the addition of the new world, his understanding of spatial rule power was far above that of ordinary spatial ability users.

however, compared to this little girl, his master was simply trash.

emperor xu anshan couldn't help but say, "if there's a chance, help her find a teacher. it would be a pity if such a good talent is wasted."

"i was thinking of doing it myself, but it seems like i'll pass."

lin yi nodded helplessly.

He had originally planned to use his own knowledge of space to lay a foundation for the little girl. When the time was right, he would find an expert who was good at spatial rule power to be the little girl's teacher.

however, he could only dispel this thought now. he had no choice. he was afraid of leading such a genius disciple astray.

it was just that people with spatial rule powers were rare to begin with, and those who were proficient in it and could catch lin yi's eye were even rarer.

Even in the entire divine Kingdom on land, it would be hard to find a few.

lin yi subconsciously thought of the sea king xiang yusheng.

he was the previous king of space, recognized by all in jianghai academy. he'd lost to lin yi, but even as an opponent, lin yi had to admit that he was a master in his control and development of spatial laws.

with his qualifications, he was more than enough to be the little girl's first teacher in the area of space.

Unfortunately, he could only think about it for now.

firstly, they didn't know where the other party was. secondly, even if they did meet, based on their past conflicts, the other party probably wouldn't give them face.

"Let's wait and see."

Lin Yi shook his head helplessly-it wasn't just a disciple with poor talent that was troubling, it was also a disciple with great talent. Being someone else's master for the first time was a huge headache.

Three days passed by in a flash.

lin yi and his group arrived at the headquarters on time.

shen san chi's attitude was still impeccable. he personally waited at the door. as the executive of the alliance, not to mention anything else, just this attitude was rare.

it must be known that in terms of hierarchy, every executive of the alliance was a target for the deans of god-ranked academies. no matter where they went in the divine kingdom on land, they were all undoubtedly important figures.

It had always been others who bowed to them, but Shen san Chi was able to put himself in such a low position, and the key was that he was not like this all day, but all year round!

it could only be said that extraordinary people were bound to have extraordinary aspects.

"brother lin."

shen sanchi took the initiative to greet him, and almost at the same time, another group of people slowly walked over from the opposite side.

the leader was a woman with an alluring figure. just a glance was enough to arouse the instincts of any male creature.

However, half of the woman's face was blocked by her bangs, and her aura isolated her divine sense. Even if they were face to face, no one could clearly see her eyes and her whole appearance.

he could only fantasize what kind of beauty this woman would look like if she raised her bangs through her sharp nose and bright red lips!

The more this was the case, the more fatal it was to male creatures.

lin yi had seen all sorts of pretty girls in his life, but this was the first time he'd seen a girl like this-one look at her and she'd left a deep impression on him.

"let me introduce you. this is the representative of dazhou college, teacher xia wubing."

"This is the representative of Jianghai University, Lin Yi," Shen Sanchi introduced.

Lin Yi cupped his hands in greeting.

Xia wubing didn't say anything either. He only nodded slightly in greeting.

lin yi wasn't surprised at all.

He'd bought information from Dazhou college before, and there was some information about this teacher. Other than being a venerable, she'd always been quiet, and almost no one had heard her voice.

overall, she was a mysterious woman.

a moment later, another group of people arrived at the entrance of the headquarters, led by a long-haired man with a tough appearance.

What was most eye-catching was the crow perched on this person's shoulder.

"Tai Ya?"

Mrs. Qing was a little surprised and whispered to Lin Yi, " it is said that it is the descendant of the ancient three-legged golden Crow. Its body contains the hottest fire in the world. Once it is burned, it will never die out. Ordinary methods can not put it out at all, and you can only wait until it is burned out. It is extraordinary.

lin yi nodded, his eyes on the long-haired man.

The long-haired man was also sizing him up. Seeing this, he took the initiative to say, " I'm Chen guanqi, the full representative of Hero Academy. I heard that Jianghai Academy has recently made a big move. Even the beast God Hall suffered a loss. You're very powerful.

his voice was hoarse and sharp, making people want to frown.

"You're overpraising me, Sir. I'm just trying to protect myself. The beast God Hall is so high and mighty, it's too early to say that I'm at a disadvantage," Lin Yi replied with a faint smile.

"From your tone, it seems like you're really going to bring down the beast God Hall. this is interesting."

chen guanqi smiled meaningfully, " however, if you guys fail in the competition to enter the Alliance this time, you won't be able to get the protection of the divine ranked Academy Alliance's name. Your future days might be uncertain.

there was already a faint smell of gunpowder in his words.

This time, the four Academies were the most direct competitors, so it wasn't strange for such a scene to appear.

For the sake of the school's safety, Jianghai Academy had a reason to join the alliance. It was the same for the other three schools, each with a reason that they could not afford to lose.

although the divine kingdom on land was rich in resources, it was also filled with experts, and the inner conflict was intense.

In the entire foreign lands, there were more than 3000 Academies, big and small, and the ones standing at the top of these Academies were undoubtedly the 172 God-ranked Academies of the Alliance of Academies.

they occupied at least eighty percent of the resources of the divine kingdom on land.

Chapter 10368

the remaining 3000 schools could only compete for the 20% of the resources. the competition was fierce and cruel.

at the end of the inner scroll was the divine college alliance.

The great Zhou college, the hero college, and the eternal river college were quasi-God colleges that had reached the threshold of the Alliance. All of them had fought their way out of mountains of corpses and seas of blood. All of them had stepped on the corpses of the other 3000 colleges to rise to the top!

However, this kind of power could only be maintained for a short period of time. If they couldn't successfully enter the Alliance this time and become a member of the God-ranked Academy Alliance, completely stabilizing their position, perhaps it wouldn't be long before they became the losers of the final inner scroll of the 3000 Academies and were trampled under the feet of the other rising Academies.

at that time, not to mention maintaining their current strong stance, whether they could continue to survive was unknown.

entering the alliance was a battle of life and death.

This was something that everyone present was well aware of.

As such, the group stood together without any intention of exchanging pleasantries. Other than a brief greeting, they all fell silent.

if shen sanchi wasn't present, they might have communicated more with each other, but this kind of communication might not be so harmonious and friendly on the surface.

it was just out of respect for shen sanchi, the executive of the alliance, that everyone restrained themselves.

after waiting for a while, the representative from eternal river academy still didn't appear.

"It's already time. Brother Shen, I don't think there's a need to continue waiting, right?"

Chen guanqi from the hero Academy was the first to speak. " they are late for such a big matter. it shows that they lack the most basic respect for the alliance. at the same time, they are neglecting the executive of the alliance. i think they should pay the price for their arrogance. "

lin yi and the others looked at each other, their eyes full of interest.

The four Academies were all competitors. Under normal circumstances, the one to be ostracized the most would be the outsider, Jianghai Academy.

Even if the other three Academies were competing with each other, as local Academies, they still had this tacit understanding.

but now, it seemed that the most annoying one was the eternal river academy.

According to intelligence, the eternal river Academy's arrogance was well-known throughout the divine Kingdom on land, and they made enemies everywhere. If not for the support of a certain top academy, as well as their own strength, they would have been attacked by a group of people.

Lin Yi could even feel the disdain for the eternal river Academy from the silent wubing.

shen san chi pondered for a moment, and finally nodded, " "then let's go over first."

Although he had always been considerate, he was not a good person without principles.

even with the eternal river academy's current reputation, at best, they could only get him to treat them as equals. if even he was angered, then the eternal river academy could only suffer here.

Shen Sanchi led the group to a conference hall not far from the headquarters.

However, when they arrived, they found that the people from eternal river Academy were already sitting in the most conspicuous row.

"i'm sorry everyone, we're one step ahead."

Harlin stood up with a faint smile on his face, while the other representatives all had arrogant expressions on their faces, not even looking at Lin Yi's group.

Shen Sanchi's face immediately darkened.

" if i remember correctly, the notice said to gather at the entrance of the headquarters building. i don't think you were asked to come here directly, right? "

Harlin didn't care. we'll have to come here in the end anyway. We don't want to take a detour. It shouldn't affect anything if we come here directly, right? "

Shen san Chi looked at him seriously,"who said it won't affect me?" the array that decides the order of your four families "selection is here. if you enter in advance without this shen's presence, and the array is tampered with, affecting the final fairness, who will bear this responsibility?"

"It's just a drawing array. It's something that can be seen through at a glance. What can be done to it?"

Harlin laughed.

Shen san Chi shook his head, and with a wave of his hand, he directly erased the drawing array in the center of the venue.

"for the sake of fairness, this shen should change the formation first to prevent people from gossiping later."

"Executive Shen, aren't you making a mountain out of a molehill?" Harlin's face changed.

" it's related to the alliance, " shen sanchi replied indifferently. " it's not wrong to be strict. does representative harlin have a different opinion? "

"No, I didn't,"

Harlin suddenly looked as if he had just eaten sh * t.

the reason why they had broken the rules and arrived here in advance was to tamper with the drawing of lots.

logically, such a simple and brutal formation, under the eyes of an expert like shen san chi, it would be difficult to tamper with it without being discovered.

however, the eternal river academy had always produced formation grandmasters, and this time, they had specially sent out a top formation grandmaster. as long as he was given the chance to cheat, even shen san chi might not be able to detect it.

He didn't expect that Shen san Chi didn't play by the rules and changed the entire formation.

lin yi and the others laughed at the scene.

The Queen sneered, "they're cheating so blatantly. I really don't know if I should say that this group of people from the eternal river Academy are too arrogant or are they really stupid?"

"they can't be thinking that they can have the last laugh in such a big matter with just a little bit of cleverness, right?"

Fortunately, Shen san Chi didn't investigate the formation in person. Otherwise, the eternal river Academy would have become a big joke.

this might be ridiculous for others, "Madam Qing said. but it's happened to the eternal river Institute. I'm afraid everyone is already used to it.

"He is indeed a weirdo."

Lin Yi remembered the information he'd gotten from the school.

In terms of overall strength, it was one of the best among the 3000 Academies outside of the Alliance, and everyone in the Academy was ambitious.

The slogan that they had always been talking about wasn't even about entering the Alliance of divine Academies, but to become the top of the entire Alliance.

in other words, their ambition was to enter the top ten of the alliance!

however, compared to this great ambition that everyone knew, his style seemed a little strange. to be precise, it was a little funny.

the eternal river academy's existence in the mainstream opinion had never been due to its strength or the great achievements it had achieved.

Rather, it was the various jokes it made from time to time.

some low-level mistake in the formation that directly blew up the building of their own academy, some sneak attack on the neighboring academy whose strength was less than one-tenth of their own, only to be pushed back to the academy's headquarters, and so on.

due to the atmosphere of the inner scroll, the academies, especially those outside of the alliance, had always been more serious and solemn. however, as long as the words " eternal river academy " were mentioned, the atmosphere would always become joyful.

Chapter 10369

it was the same now.

If it wasn't for Shen Sanchi's concern about the other party's background and the fact that he didn't want this incident to affect today's progress, if they really got to the bottom of it, the eternal river Academy would be in a difficult position today.

Shen Sanchi ordered for a new drawing formation in front of Lin Yi and the others.

the entire array wasn't complicated, especially since every step was done under everyone's eyes. with the grandmasters of the various families personally watching, at least in this segment, it could be said that the transparency was done to the extreme.

other than the eternal river academy, everyone else was satisfied.

"the inspection of the formation is complete. everyone, please take your positions."

Shen san Chi pointed at the four directions of the drawing array. There were four schools, one for each school.

Everyone looked at each other. There was no need for any verbal communication.

lin yi's group walked to the east, xia wubing led the group from dazhou college to the north, and chen guanqi led the group from hero college to the west.

as for the remaining south, it was left to harlin and the others from the ganges academy.

Shen Sanchi announced the rules. this time, the lots will be drawn in a snake shape. After randomly drawing the order of four positions, the subsequent lots will be changed in a snake shape.

" for example, if the order of the positions is north, south, east, and west, then lots 1 to 4 will be distributed according to north, west, south, east, lots 5 to 8 will be distributed according to north, west, south, east, lots 9 to 12 will be distributed according to north, west, east, and west, and lots 13 to 16 will continue to be distributed according to north, west, south, east. "

" and so on, until all twenty-eight freshmen have been selected. "

"everyone, do you have any more questions?"

everyone shook their heads.

such a rule was simple enough without any complications.

although the snake-shaped lot was still divided into good and bad, it was at least fairer than the traditional one, two, three, four order. it would not make the lower-ranked players suffer too much.

in some special circumstances, even the last lot might have an advantage.

Of course, the signing was only the first step. Whether or not they could really choose the most suitable new student was the final key!

Once there was a mistake in the selection, then no matter how good the draw was, it would be useless.

"Let's draw lots," Shen san Chi announced.

after he finished speaking, he personally activated the array.

The arrow in the center of the formation was like a clock, quickly flashing in front of the people from the four Academies. After a full three breaths, it left a shadow for the first time and pointed to the North where the great Zhou Academy was.

The people from Dazhou college behind Xia wubing were overjoyed. They had obtained the first lot!

according to the snake-shaped rules, their next lot was number eight. it was almost impossible for them to continue snatching the top freshmen.

But at the very least, they had obtained first priority and could freely choose the strongest freshmen in their hearts!

just this point alone was enough to give them a huge advantage over the other three academies.

Then, after three more breaths, the second shadow was left, pointing to the West where Hero Academy was located.

chen guanqi and the others also showed joy on their faces. they had obtained the second lot!

although the priority of lot number two was not as high as lot number one, they had already prepared many plans in advance. no matter what choice the great zhou academy, who had lot number one, made, they had a complete set of countermeasures.

in addition, the second lot was followed by the seventh lot. compared to the combination of the first and eighth lot, there was more room for change.

therefore, as long as there weren't too many accidents along the way, hero academy could at least guarantee that they wouldn't lose out.

The formation's arrow continued to spin.

the faces of harlin and the others from the eternal river academy, however, had already turned very ugly.

They were originally determined to get the first lot, but now they had to fight for the third lot. The difference was too big, and they were caught off guard.

Lin Yi and the others, on the other hand, didn't have much of an emotional reaction.

No matter what kind of sign it was, Lin Yi had already prepared the corresponding plans. There were good and bad plans, but as long as the follow-up details were done well, no matter which one it was, it wouldn't be too bad.

the number of lots was important, but it was far from the point where it could be decided in one go.

finally, the arrow stopped, and it was pointing to the east where lin yi and the others were!

lot number three, jianghai university.

At the same time, it naturally meant that the ambitious eternal river Academy had obtained the last lot number four.

harlin and the others 'faces turned as black as the bottom of a pot.

harlin was not convinced and jumped up. " I suspect that during the process of drawing lots, the formation was disturbed by some kind of power. In order to ensure fairness, I suggest that we draw lots again!

"....."

Everyone, including Shen Sanchi, looked at him as if he was an idiot.

No wonder the eternal river Academy wanted him to appear. They were really the same kind of people!

shen sanchi looked at him like he was an idiot and said, " I can contact the Supreme Board of Directors now. If you think there's a problem, you can file a complaint on the spot. Please.

After that, he didn't say anything and directly connected to the meeting room of the Supreme Board of Directors.

nine huge figures were projected in front of everyone.

Even if it was just a shadow, the sense of oppression that came from it still made everyone present collectively breathless.

one had to know that apart from harlin, who was obviously there to keep up appearances, the other representatives were all venerables at the peak of the late stage of the golden class.

at this level of existence, it was difficult for ordinary aura suppression to have any substantial effect.

This could only mean that the strength of those nine huge figures had already reached a level that ordinary people could not imagine!

Lin Yi and the others were shocked.

he didn't have a clear idea before, but now he had a substantial understanding of what kind of terrifying existence the top board of directors, who represented the top combat power of the divine kingdom on land, was.

Of course, as far as Lin Yi was concerned, it was an eye-opener for him, but he wasn't really scared.

After all, the two gods had fallen in his hands. Even if the gods came in person, they might not be able to scare him, not to mention that his strength was no longer the same as before.

A real monster couldn't be judged by their realm, especially Lin Yi.

Under Shen Sanchi's gaze, especially after feeling the substantial pressure from the nine top directors, Harlin and the others from the eternal river Academy were all scared and broke out in cold sweat.

"no, no need!"

harlin waved his hand. " we're just giving a reasonable suggestion. since executive shen thinks there's no problem, we naturally have nothing else to say. "

the other experts from eternal river academy also followed suit.

Chapter 10370

their arrogance was one thing, but even if it was arrogance that was ingrained in their bones, it would be cured in the face of true absolute strength.

Although the people from the eternal river Academy often did things that others couldn't understand and often made a fool of themselves, those with discerning eyes knew that this was just a disguise they made to constantly challenge the boundaries of the existing order and gain benefits for their own side.

Outsiders were treating eternal river Academy as a joke, but the higher-ups of eternal river Academy weren't angry. On the contrary, they were happy to see it.

Most of the time, once this kind of seemingly despised inflexible prejudice was attached to it, it would instead bring some benefits that were usually ignored.

Using face to exchange for money was not something unacceptable to the people in power at the eternal river Academy.

Just like the joke that had just happened, it seemed like Harlin and the eternal river Academy had lost face in front of everyone, but in fact, they had not suffered any substantial losses.

on the other hand, if shen san chi had chosen to give in just now, it would have given them some kind of signal to give in, then they would have gained a lot.

No matter how he calculated it, he would not lose out.

"since there's nothing else, let's start."

the nine-person projection of the supreme board of directors didn't disappear. instead, they participated in the selection of the new talents by watching from a distance.

Shen Sanchi was slightly stunned.

the new student selection was related to which college would be able to compete to enter the alliance. to the entire divine college alliance, it was indeed not a small matter. it was normal for it to be valued by the higher-ups of the alliance.

however, in the past, the most he could do was to make a written report to the supreme board of directors and inform the nine supreme directors. that was basically all.

Normally, it would not even be worth bringing it to the Supreme board for a formal discussion.

After all, the discussions of the Supreme Board of Directors had always been related to the major events of the entire divine Kingdom on land. Even if one or two academies had already become God-ranked Academies, they still wouldn't be able to reach such a height.

However, this time, the nine Supreme Directors had chosen to use this method to monitor the entire process!

It was simply unimaginable.

If it was only one or two of the top directors who chose to pay attention to it because of their personal relationships, Shen Sanchi could understand. But for nine top directors to follow up at the same time, this was definitely the first time in history.

"Could it be that the participating academies this time really have such a terrifying amount of power?"

Shen Sanchi suppressed the shock in his heart, his scrutinizing gaze swept over the faces of each academy's representative, his heart secretly bewildered.

Even with his experience, he couldn't imagine who had the ability to get the attention of the nine supreme directors at the same time!

even he, the alliance's executive, felt a little nervous in this situation, let alone ordinary people.

Coughing lightly, Shen san Chi organized his thoughts and announced, " " the students from each school have already signed their names. 30 new students, please enter the arena. "

as soon as he finished speaking, the thirty new students who had been waiting outside the door immediately filed in under the guidance of the assistant and entered the designated area of the venue to take their seats.

with the entrance of the thirty new students, the originally calm venue suddenly became a scene of a myriad of phenomena.

It was true that the hard power of these freshmen couldn't be compared to the representative teachers of the various Academies, but those who could enter the Alliance's direct special recruitment were all monsters among monsters.

Any one of them, even if placed in Jianghai Academy, would undoubtedly be the king of freshmen.

If it wasn't for the unprecedented Lin Yi suppressing them, with their talents, they would be able to compete for the title of the strongest new student in the history of Jianghai Academy!

At this moment, they were all very clear about what the upcoming selection of new students meant. Naturally, they had to do their best to display their strongest aura!

Although according to the process, this so-called new talent show would not change who they really belonged to.

no matter which school joined the alliance in the end, they would eventually return to the alliance's headquarters.

in other words, the real impact of this year's selection would only be the next 30 days and the new student battle 30 days later!

Once the new student battle ended, regardless of whether they were the final Victor, they would be separated from the Academy that had chosen them.

however, this didn't mean that this year's new talent show wasn't important.

on the contrary, because it was directly related to the new student battle in 30 days, the results of today's draft would very likely determine the future fate of everyone present!

The closer the draw was to the front, the more it showed how much the various Academies valued them. In the upcoming new student battle, they would naturally be able to obtain more resources.

At the end of the day, not only did the freshman battle determine which school would ultimately be able to join the alliance, it was also an official ranking for the group of monstrous freshmen!

Lin Yi spotted he Xiyin in the corner, a little scared.

as one of the three new students who had been evaluated by Zhao Xian to be heaven grade, if it was her other personality, she would naturally not feel uncomfortable in such an occasion.

however, for he Xiyin, who was only in the foundation establishment stage and had never experienced any big scenes, one could imagine the pressure she felt when she stood with a group of arrogant and monstrous freshmen.

From her flustered expression, it could be seen that if it wasn't for the fear of offending the Alliance of Academies, she would definitely not be willing to appear here if possible.

Unfortunately, she had no other choice.

In the divine Kingdom on land, no one had ever been able to reject the Alliance of Academies.

As for the other new student that Zhao Xian had met at the Imperial Kitchen, Li Jingning, who had been placed on the food block by Zhao Xian, he stood among the new students without fear. Not only did he exude a powerful aura, but he was also full of confidence.

The state and performance of the two people were completely different from heaven and earth, two extremes.

however, the one who received the most attention wasn't the dual personality he xiyin, nor was it the confident li jingning, but the other two who were walking in the middle of the freshmen.

One of them had shoulder-length white hair and a melancholic aura, as if he was a member of the last royal family.

this person's name was gui ling, and in zhao xian's evaluation, he was one of the three heavenly grades, just like he xiyin.

The other person had an honest and honest appearance like an old farmer in the fields, and he exuded a simple and unadorned aura from head to toe.

his name was qin shizhen, and he was also one of the three heavenly files in zhao xian's evaluation!

These two people, whether it was their image, temperament, or the combat style recorded in the intelligence, were completely opposite.

However, they had one thing in common, and that was that they were the focus of everyone's attention. The gazes of every Academy's representative, without prior agreement, first fell upon the two of them.

the new student battle was a team competition. other than the strength of each new student, the way each academy formed their team was also of utmost importance.

A freshman's individual strength determined the lower limit, while the team-building thought process determined the final upper limit!

The first key step in building a team was the core.
