

Bodyguard 10371

Chapter 10371

Looking at the 30 freshmen present, although each of them was an out-and-out monster in the outside world, they were all peerless geniuses who could suppress one side. However, just like Zhao Xian's four levels, where there were people, there would be a higher and lower level, and there would be a world of martial arts.

Among the 30 new students, only a few of them were stronger than the others and qualified to be the core of a team. They were the ones who would shoulder the life and death of an Academy.

Return to zero and Qin Shizhen were undoubtedly the top choices of all the academies!

As for he Xiyin with her dual personality, although her inner personality was indeed strong, it was too unstable. If she pulled a stunt at a critical moment, or even if her inner personality didn't appear, it would be a big joke.

as for the other freshmen present, including li jingning, there was a clear gap in their raw strength compared to the other two.

The result was just as everyone had expected.

As soon as Xia wubing, the representative of the great Zhou Academy, stepped forward, he chose Qin Shizhen as their first core without any hesitation!

following that, hero academy's number two drew zero!

Strictly speaking, Qin Shizhen and return to zero were on the same level, so it was normal for them to be first or second. The only difference was that the latter was more aggressive, while the former was more stable.

However, since they had been chosen, the two academies' next plans for team-building were naturally obvious.

The great Zhou Academy, which had chosen Qin Shizhen, would definitely have a more stable way of thinking when building a team. On the other hand, the hero Academy, which had chosen zero, would definitely have a more offensive style when building a team.

But no matter what, with the two of them in the two teams, they had already ensured the lower limit of their strength.

Next, as long as the great Zhou college and hero college followed the plan and formed a team with the two of them as the core, even if there were some accidents in the subsequent selections, it would be insignificant.

The existence of these two people had already guaranteed a huge fault tolerance rate.

It was also because of this that the first and second lots were so important that the eternal river Academy was willing to use such a ridiculous cheating method to get them.

Lin Yi included-he'd pick these two first if he had a choice.

unfortunately, he was unlucky.

Fortunately, Lin Yi had the third lot in his hands. He might've missed the two favorites, but he still had a lot of options.

Everyone's eyes were on Lin Yi.

two of them were especially hot.

one of them was the eternal river academy's representative, harlin. he was lin yi's enemy, and his eyes were red with jealousy. lin yi's next choice would directly affect the entire situation of the eternal river academy.

the loss of qin shizhen and return to zero was already a huge blow to the ambitious eternal river academy. all that was left was the last option.

They'd be done for once Lin Yi picked the last core member.

as for the other gaze, it came from li jingning.

Even if Qin Shizhen and return to zero were the two most popular candidates in all the mainstream organizations 'information on freshmen, li Jingning's pride and arrogance would never allow him to admit that he was inferior to the two.

however, now that the two of them had been snatched away by the first two, it was no doubt a big blow to him.

it'd be even more embarrassing if lin yi didn't pick him after this-other people wouldn't think much of it, but he'd lose face.

"I choose Yingluo."

lin yi's eyes swept over li jingning, and he paused for a moment. "he xiyin,"

everyone was speechless.

As a monster who had once massacred a city alone, he Xiyin was naturally the focus of attention this time. Several mainstream intelligence agencies had the same evaluation as Zhao Xian and gave her the same evaluation as Qin Shizhen and return to zero.

however, that was only limited to the inner personality.

He Xiyin's personality wasn't even worth mentioning. Once she entered the battlefield of the freshmen battle, she wouldn't even be qualified to be cannon fodder, let alone play a role.

this kind of new student, the difference between the upper and lower limits was like the difference between heaven and earth. who would dare to bet all on her?

if this was the last round, it was not difficult to understand why someone would choose her in the end. it was nothing more than buying a lottery ticket with the smallest price.

if it didn't hit, the loss wouldn't be big.

However, if it hit, he Xiyin's inner personality would awaken at the critical moment and explode. That would be a great deal!

The problem was that this was lot number three, the priceless lot number three!

even if they missed out on qin shizhen and return to zero, there would still be a large number of excellent freshmen to choose from. even if their raw strength was not as outstanding as those two, they might not be worse than them in certain aspects.

as long as the follow-up team-building thought process was right, it was really hard to say who would win or lose in the entire team.

after all, lin yi's jianghai college had both number three and number six. there was a high chance that they'd be able to form a strong core duo.

"they've given up on themselves. hehe, a bunch of idiots."

harlin and the other experts from the eternal river academy were overjoyed.

he xiyin wasn't part of their plan from the start, and lin yi's choice was the same as giving away the third lot for nothing.

The other people looked at Lin Yi with shock and thought.

from a certain perspective, lin yi had indirectly given the eternal river college a wave of help. not only did they get the third lot for nothing, but they also got the crucial fifth lot.

If it weren't for the fact that he had already recruited Qin Shizhen and GUI Ming, he wouldn't be at a disadvantage no matter what. At this point, the people from the Zhou and hero colleges would be suspecting if Lin Yi had been bribed by the eternal river college!

After all, this was a side attack on the eternal river college. With the advantage of the draw combination, the eternal river college had greatly offset the starting draw advantage of the two colleges.

other than bribing, he couldn't think of a second possibility.

compared to all the representatives, he Xiyin was the most surprised.

she'd met lin yi and the others at the imperial kitchen before, and it seemed like lin yi had given her a promise, but she didn't take it seriously. she just treated it as a joke.

They knew what they were doing.

No one knew her own place better than he Xiyin. Her inner sister appeared at random times, and any school would choose her for nothing.

Her biggest expectation for coming to the venue today was to go through the motions as a fringe person from the beginning to the end and finally end this sudden talent show without anyone asking.

then, she was kicked out of the alliance and returned to the imperial kitchen to continue being her waiter.

Chapter 10372

she didn't expect lin yi to pick her right away, and without hesitation at that!

his first reaction was naturally to be overwhelmed by the unexpected favor, but what followed was a huge pressure.

lin yi's gaze made he xiyin want to run away. she was really afraid that she'd drag lin yi down and let down the efforts of the others. it'd also affect the jianghai college's fate.

she really couldn't bear such a huge responsibility.

unfortunately, the matter was already set in stone. even if she wanted to refuse, she couldn't. she had no place to speak in this kind of occasion.

the other person with complicated feelings was li jingning.

after the incident at the imperial kitchen, he didn't have any enmity with lin yi and the others, but lin yi's attitude at the time did piss him off.

If Lin Yi had chosen him, he'd be proud as he was, but he'd be able to take it out on Lin Yi.

but lin yi would rather pick a foundation stage trash than pick number three!

In li Jingning's eyes, Lin Yi's actions were undoubtedly an insult to him.

Who couldn't endure it!

"do you think you can defeat me like this? you don't know your place!"

Li Jingning secretly sneered.

he'd never really considered the school from the very beginning-he'd only lost out to lin yi's attitude towards him, that's all. he'd lost far from anything substantial, though.

After all, he had the promise of eternal river Academy.

next, it was time to draw lots for the eternal river academy!

After deliberately remaining silent for a long time and enjoying the attention of the crowd, especially the big shots of the Supreme Board of Directors, Harlin slowly spoke on behalf of the eternal river college.

"our eternal river academy's number four has chosen the bi 'an ren yuxing."

As soon as he finished speaking, everyone's eyes immediately fell on an extremely tall and thin freshman. At the same time, it was accompanied by a wave of whispers.

The eternal river Academy's choice was somewhat unexpected, but it was also reasonable.

Ren Yuxing was one of the rare top talents in terms of both strength and talent. In some aspects, he even surpassed Qin Shizhen and GUI ning.

Among the freshmen, he was also one of the few people who received attention.

But for a small team, with this person as the core, there was a big hidden danger.

he was a strong archer.

it wasn't that ren yuxing didn't have any close-combat strength at all, but compared to his huge long-range threat, letting him fight in close-range was definitely a waste of god's gift.

In terms of long-range, Ren Yuxing's threat was the same as the other two's s. Once the other party closed in, his threat would immediately drop to the ordinary B class, or even lower.

Choosing such a person as the core of the team was a huge advantage for the long-range, but who could guarantee that the entire battle could be settled by long-range?

putting the others aside, be it qin shizhen or return to zero, which one of them looked like they would be killed by a long-range sniper so easily?

If Lin Yi's choice of he Xiyin was a move that no one could understand, then the actions of the eternal river Academy were undoubtedly a gamble.

ren yuxing's strengths and weaknesses were too obvious. he was invincible if he won the bet, but once he lost, the consequences would be unimaginable.

while the others were discussing, li jingning, who was standing among the freshmen, felt his heart gradually sink to the bottom.

Previously, Harlin had personally promised him that he would be the core of the team, which naturally meant that he would be recruited as soon as possible!

however, he chose ren yuxing instead.

it's fine. The next lot number five is still the eternal river Academy. It's the same if they choose me. It won't affect the result at all!

Li Jingning could only comfort himself in this way.

However, Harlin's next choice disappointed him again.

"Number five, our eternal river Academy will choose Ye Jia."

His target was a giant man who was more than five meters tall among the freshmen. Just by standing there in a daze, the pressure that his body automatically emitted made the surrounding freshmen unable to approach him.

Without a doubt, this was a physical body expert who had broken through the shackles of growth five times!

"one is near and the other is far," xu anshan said faintly, "the eternal river academy's plan is quite perfect."

Lin Yi nodded. at least from the surface, it's a good duo. Although Ye Jia's disadvantage is obvious, his strong close combat ability is enough to make up for Ren Yuxing's disadvantage in close combat. In critical moments, he can even be Ren Yuxing's shield.

with his powerful physical body, ye jia's close combat ability was not as outstanding as ren yuxing's long-range threat. however, there was still a certain gap between him and qin shizhen and return to zero.

however, this difference was completely within an acceptable range.

In particular, the ability to resist attacks as a shield was even better than those two!

with this, the team-building plan for eternal river academy was very clear.

He would first widen the gap and rely on Ren Yuxing's powerful long-range threat to kill the opponent as much as possible, causing the opponent to have a key reduction in manpower.

and when the enemy finally managed to close in, they could use ye jia as the core of the melee and rely on the number advantage they had accumulated to fight against the enemy.

this entire strategy sounded very simple at first, but as long as it was executed properly, it was quite unsolvable.

That was because there was not a single freshman who could fight with Ren Yuxing from a distance. In the next selection of the eternal river Academy, as long as they could assist Ren Yuxing in blocking the distance, their advantage would be great!

"Hahaha, I really have to thank you, Jianghai Academy. If not for your generosity in helping us, I'm sure it wouldn't have been easy to pick such an unbeatable duo!"

Harlin laughed out loud at Lin Yi without hiding anything.

At that moment, even the people from the other two schools looked at Lin Yi with unfriendly eyes.

The Ganges "team was already a real threat to them. If Lin Yi didn't pick he Xiyin, the power of the close-range and long-range team would be greatly reduced if he picked either one of them.

The strong Archer Ren Yuxing was unique, but how could the perfect meat shield Ye Jia not be unique too?

From the other two schools "point of view, Lin Yi's actions were basically giving the enemy resources. Who the hell would believe that he didn't take any benefits from the school?

Lin Yi smiled nonchalantly. if you really want to thank me, you'd better give me something substantial. It's just that cheap thanks is more fitting for the eternal river Academy's reputation, but it'll still affect your public image.

Chapter 10373

Everyone couldn't help but laugh.

regardless of the situation, as long as it was a topic of ridicule for the eternal river academy, it would always be filled with a cheerful atmosphere.

The smile on Harlin's face instantly froze, and he snorted coldly. sure, when the freshman battle begins, I will definitely thank you all properly. I guarantee that you will be moved to tears!

"Let's wait and see,"

lin yi shook his head nonchalantly and turned to shen sanchi, number six, Jianghai college will choose Wang Yanqing.

among the new students, a man with a cold temperament raised his eyes and was slightly surprised.

the representatives from the other three academies frowned.

compared to he xiyin's number three, lin yi's choice this time was much more normal.

Wang Yanqing's strength might not be comparable to Qin Shizhen and GUI Ling, nor did he have any unique advantages like Ren Yuxing and Ye Jia, but his overall strength was indeed one of the more outstanding ones among the remaining freshmen.

moreover, it wasn't like he didn't have his own advantages.

This person was proficient in poison techniques!

in the eyes of the mainstream public, poison techniques had always been an unorthodox method that couldn't be used on the stage. especially in a formal occasion like the freshman battle, it was naturally the type that would be discriminated against.

Of course, this wasn't completely prejudice.

Compared to other frontal attacks, the use of poison was often delayed, especially if they encountered an opponent with high Poison resistance. It was very likely that they would drag it out until the dust settled, and it would not cause any substantial reduction in members.

the possibility of such a situation happening was extremely high in the high intensity freshmen battle!

Therefore, Wang Yanqing's threat in daily life would be greatly reduced in the freshmen battle. Naturally, he would be favored by the other freshmen in the same grade as him.

In reality, regardless of whether it was the great Zhou college, the hero college, or the eternal river college, although Wang Yanqing's name was in the backup plan, all of them were in the last few rounds.

in other words, wang yanqing had his value as a supplement to the lineup, but he was definitely not worth the first two rounds of draws.

what made the other three frowns was the fact that they didn't understand what lin yi was trying to do.

he xiyin and wang yanqing, what kind of team-building idea was this?

"a maze formation? Is there any use?"

Harlin felt that he had seen through Lin Yi's intentions and couldn't help but sneer, " walking your own path is the right path. you don't even understand this basic principle. you're indeed from a small place and have no knowledge. "

however, the following selection process made him unable to smile.

great zhou college and hero college's next candidates started to target eternal river college's near-ranged team. intentionally or unintentionally, they worked together to piece together the puzzle of their planned lineup.

the competition between the four schools to join the alliance was a life-and-death battle, and there was no room for reconciliation.

the battle between the new students had already begun from the moment the new talent show began.

as long as one side showed their outstanding side, they would definitely be targeted by the other three. this kind of tacit understanding did not need any language communication at all.

although the eternal river academy's near and far duo wasn't strong enough to crush the other academies, they were enough to attract the attention of the other three academies.

of course, this wasn't just limited to the eternal river academy.

between great zhou college and hero college, they were also consciously fighting for the important pieces of the puzzle in each other's team-building plan. in addition, with the various tricks of eternal river college, the competition was in chaos.

If one's brain was a little slower or distracted for a moment, they would immediately be unable to understand the situation.

To be able to represent a God-ranked college here, all of them were extremely intelligent. There was no need to talk about the great Zhou college and the hero college. Even the Ganges college, which seemed to be the most unreliable, was also unfathomable in this aspect.

harlin himself might not be that profound, but he had an entire staff committee of the eternal river academy with him.

the following rounds of selection were filled with schemes and intrigues. every time the various academies made a move to choose their participants, they would experience hundreds of games.

Under such circumstances, the various Academies "team-building ideas were inevitably impacted greatly.

no matter how many contingency plans they had made, plans couldn't keep up with changes. no matter how they adjusted and played games in the process, it was inevitable that there would be some deviations in the final lineup.

In fact, as a last resort, he would be forced to change his original team-building idea.

The little girl's eyes lit up as she was engrossed in the whole process. " this must be the 500 games in a second that master talked about. it's so powerful! "

"you can understand it?"

the queen couldn't help but look at her in surprise. how old was this fellow and his heart was already so dirty?

the little girl nodded repeatedly, "i understand, aren't they just sabotaging each other?" it's the same logic as rock-paper-scissors, it's easy to understand."

As he spoke, he demonstrated it to the Queen in all seriousness.

"for example, if i play rock first and the opponent plays scissors, and i win, i have to guess what the opponent will play next. will it be paper?"

"But if I predict the opponent's paper, I'll play scissors and I'll still win!"

"If the opponent can predict my prediction, then he will use rock. But I'm not that stupid. I will predict that the opponent may predict my prediction, so I will still use paper."

of course, the opponent might be a little better than I thought. He might be able to predict that I'll predict his prediction of my prediction.

"....."

the queen's head was in a mess and she quickly stopped him, " "You're playing with my dolls. Where did you get all this nonsense prediction? who taught you this?"

The little girl blinked. no one taught me. I learned this by myself when I was playing Rock, Paper, Scissors.

"Who are you playing with?" the Queen asked suspiciously.

ever since she came here, she had spent the most time with the little girl. in order to prevent the other academies from using underhanded tactics and to ensure the little girl's safety, the little girl had almost no contact with outsiders these days.

in other words, the only people who could play games with the little girl were his own people.

Lin Yi was busy running around outside and didn't have the time.

Madam Qing, on the other hand, was busy helping Lin Yi analyze and sort out the information. She didn't have the time.

as for the emperor xu anshan, even if he had the time, how could he play rock, paper, scissors with the little girl?

it was too beautiful to look at.

The little girl pointed at her nose. Wan 'er is playing with herself. It's so fun.

"You played rock-paper-scissors with yourself?" the Queen's eyes twitched.

the little girl nodded proudly, " that's right. Wan 'er has improved a lot. She can already do 300 games in a second. Sister Queen, don't you think she's amazing? "

Chapter 10374

"Sure," the Queen replied.

the little girl was full of fighting spirit after getting the affirmation. " it's a pity that Wan 'er still can't compare to master. I must work harder in the future and reach 500 times a second as soon as possible!

“.....”

the queen was speechless and glared at lin yi with her death glare. was this the result of his teaching?

Lin Yi pretended not to hear.

the selection of new students continued.

Thanks to the confusing selection process from the start, Lin Yi's Jianghai College's selection process would inevitably be affected as compared to the other three schools that were targeted. However, the impact was much smaller.

No one thought that he would be crazy enough to bet all his money on he Xiyin.

it was important to know that he xiyin's problem wasn't just whether her inner personality would appear or not. even if she was lucky and her inner personality really appeared at the critical moment, whether she could control it was still a huge unknown.

judging from all the things that had happened in the past, besides the terrifying strength of he xiyin's personality, the rest of it was almost all shortcomings.

if such a person was a lone wolf, he might need to be wary.

however, once it was placed in a team, it would definitely be a disaster for the entire team. it was very likely that the enemy would not even need to do anything and they would collapse themselves.

as they went deeper into the selection process, especially after seeing lin yi's choices, everyone had a strong feeling.

he xiyin's choice for the third lot was most likely just a cover for him to set up a maze!

It was true that even if one looked at it from the perspective of a wise man after the fact, this was still a move that did not make up for the loss. However, it was by no means a useless move.

If Lin Yi were to be like the eternal river Academy and force a strong combination from the back, he'd be in a worse situation than he was now. He'd lost the two aces, Qin Shizhen and zero.

if that were to happen, jianghai academy would become the target of the other three academies!

on the other hand, with the eternal river school drawing the fire, and the two schools guarding against each other, the situation was a mess, giving lin yi the chance to fish in troubled waters.

no one could guess what he wanted to do, so naturally, no one could target him.

After all, the premise of prediction was to know what I was thinking.

in the blink of an eye, the selection of consorts had reached the final seventh round.

At this time, there were only six new students who had not been selected. Four of them would be selected by the bottom line. As for the last two who were left behind, they would become the abandoned children in the eyes of the four Academies.

Of course, even if they were forced to stay, they wouldn't be kicked out of the Alliance.

They would skip the freshman battle and directly begin the learning life of the Alliance's freshmen.

however, this also meant that they would be reduced to the lowest class among all the new students. they would only be able to receive the most basic supply of resources.

although they were still treated in the heavyweight class compared to the freshmen of other academies, they were destined to be insignificant people on the sidelines compared to the freshmen of the same level.

Such a huge gap was enough to kill a stunning peerless genius!

the remaining six people's hearts were already in their throats at this moment. the four academies 'final round of selection was no different from a trial of their future fate!

And among them, the one with the most complicated feelings was none other than li Jingning.

From the beginning, he was full of confidence and was certain that he would be selected in the first round to become the core of the school's fate. However, he was disappointed again and again. At this time, this proud genius who overflowed from the screen could no longer hide the numbness and dejection in his eyes.

Of course, he could continue to lie to himself, thinking that he was still the most important piece of the puzzle in the eternal river Academy.

The reason why the other side had not chosen him was because the other Academies had disrupted their formation.

However, such a self-deceiving statement could be believed once or twice, but now that he had said it six times, even if he didn't use his brain, he could figure out the problem with his toes.

he, li jingning, had never been part of the eternal river academy's plans.

the so-called promise that harlin had given him in person before was simply a lie that was deliberately used to confuse him in order to win over people's hearts and prevent him from having in-depth contact with other academies!

What was really outrageous was that Harlin had used the same trick on almost all the freshmen.

the remaining six freshmen all had the same experience as him.

But then again, with li Jingning's strength, he shouldn't have fallen to this point.

although his overall strength could not be compared to qin shizhen and return to zero, he was still an upper-class figure that could be ranked in the top ten among all the freshmen.

the reason why he had fallen to this state wasn't because eternal river academy had stood him up, but because of his compatibility with the other freshmen.

li Jingning's strength isn't ordinary, but it can only be fully displayed with him as the core. If we can't give him enough resources, he'll be lost and even drag the entire team down.

This was Zhao Xian's evaluation of him in the intelligence report.

That was the problem.

The great Zhou Academy had Qin Shizhen, the hero Academy had return to zero, and the eternal river Academy had Ren Yuxing and Ye Jia's close-range team. The core positions of these three schools had long been determined.

li jingning's strength, no matter compared to those above him, had no advantage, only a disadvantage.

and if he was a part of the puzzle, his compatibility was too bad, so it was expected that he would fall to such an uninterested state.

as for the only school that wasn't officially in the core, jianghai city, no one could understand what lin yi was doing-choosing him was out of the question.

after all, lin yi didn't give him any concrete promises back at the imperial kitchen.

That was why there was such an awkward situation.

Everyone's gazes fell on li Jingning. Everyone was guessing who li Jingning would end up in.

this included li jingning himself. although his confidence had been almost worn out after six rounds, he was still certain that he would be selected, and not be reduced to the tragic situation of only two people not being selected.

after all, no matter how one looked at it, using the last round to exchange for a top ten strength freshman, no matter how one looked at it, it was a huge profit.

however, the result was that the great zhou academy and the hero academy, who were ranked first in the seventh round of lots, chose someone else without hesitation!

Everyone was shocked.

The two people who had been chosen, according to normal standards, did not even have the qualifications to be on the same level as li Jingning.

not to mention the others, even they themselves were shocked and in disbelief.

Chapter 10375

Facing the surprised gazes of the audience, Hero Academy's representative, Chen guanqi, explained calmly, " seven rounds of lots, none of them are unnecessary. You are not in our planned lineup.

although xia wubing from the dazhou academy didn't say anything, his expression showed that he had the same thoughts.

Li Jingning suddenly felt like he had fallen into an ice cellar.

no one present was a fool, especially the new students. they could clearly see the back and forth between the few academies.

since the great zhou academy and the hero academy had this attitude, then the eternal river academy, which had a clear line of thought in their team-building, would naturally not be an exception.

Li Jingning knew very well that compared to great Zhou college and hero college, his compatibility with eternal river College's lineup was even worse!

As for Harlin's so-called promise, it was nothing but a fart at this point.

The only person left to decide if he'd make it or not was Lin Yi.

Up until now, no one had been able to see through Lin Yi's core train of thought. Whether or not he'd get stuck in the last round and pick Li Jingning, who everyone else thought was a great bargain, was something that no one could say for sure.

Shen Sanchi looked at Lin Yi meaningfully, "Next, we invite the representatives from Jianghai University to begin the seventh round of the selection."

under everyone's gazes, Lin Yi's eyes slowly swept past Li Jingning, and looked at the rest of the new students.

He was finished.

li jingning's heart sank to the bottom.

He'd already guessed that Lin Yi wouldn't choose him-even without the incident at the Imperial Kitchen, he knew that the chances of him getting chosen in the last round were slim to none.

After all, who would be stuck in the last round before choosing a team Core?

from the beginning when his heart was higher than the sky, to this moment when he felt as if he had lost something, li jingning's entire life's pride had been completely worn down today.

no matter what the result was, after today's brutal beating, the li jingning who was so conceited that he overflowed the screen would probably never be seen again.

then, he heard lin yi slowly open his mouth, "we choose li jingning."

"....."

there was a strange silence for a moment.

Li Jingning himself rubbed his ears in disbelief, his face full of doubt. Was he hallucinating?

Harlin, who was opposite him, reacted and immediately sneered, "I thought you had a brilliant plan, but it turns out that you've fallen to the end just to pick up this so-called cheap deal. even if you randomly pick a dog from the side of the road, the lineup you choose wouldn't be worse than yours, right?"

The eternal river Academy's representative behind him roared with laughter.

however, the representatives of the other two academies, xia wubing and chen guanqi, fell into deep thought at the same time.

After seeing he Xiyin, who was standing nervously on the side, the two woke up almost at the same time, revealing shocked expressions. They looked at Lin Yi again with fear.

"so this is what he was planning!"

jianghai college's name list was out, but they still couldn't see what lin yi was up to.

However, it was enough to see some of the crucial joints.

the core of the seven-man formation Lin Yi had chosen could only be Li Jingning. There was no other choice.

Everyone else, including He Xiyin, who had been chosen for the third lot, had their own strengths, but they were not strong enough to be the core of the team. Only Li Jingning was willing to take up the role!

With Li Jingning as the core of the team, there was a natural gap between him and the other three.

This gap was so great that it was almost impossible to make up for it to a large extent. It could be said to be an out-and-out injury.

In most people's eyes, Jianghai Academy was already far ahead of the other three Academies. This was because this was a major weakness that could not be overcome by the other freshmen who had their own strengths.

However, there was one advantage to Li Jingning being the core. He was the only core who could form a solid cooperation with the inner personality of He Xiyin. There was no other!

Whether it was Qin Shizhen, Return to Zero, or the long-range team from the Eternal River Academy, they couldn't coordinate with He Xiyin's inner personality.

Putting them in the same team as He Xiyin would only lead to two outcomes.

If the inner personality didn't show up, the outer personality would become useless cannon fodder. On the contrary, once the inner personality appeared, it would completely destroy the team's original chemical reaction.

eight hundred damage to the enemy, one thousand damage to oneself!

No matter what the outcome was, they could not accept it.

Only Li Jingning was different.

Li Jingning's ability was enough to allow him to form a solid cooperation with He Xiyin, the outer personality who had not awakened. Even if the inner personality He Xiyin did not appear, they could still tap into her potential to a large extent!

compared to the long-range and long-range team of the Eternal River Academy, Li Jingning and He Xiyin, this seemingly incompatible duo, could actually pose a greater threat!

Xia Wubing and Chen Guanqi's expressions became extremely serious.

they had prepared almost all possible scenarios beforehand, so they naturally wouldn't miss out on this seemingly strange combination.

However, after weighing the pros and cons many times, this plan was ultimately placed as the last priority. The risk was simply too great.

Li Jingning and he Xiyin's combination had indeed made up for li Jingning's shortcomings as a core member to a certain extent, but whether they could reach the heights of Qin Shizhen and return to zero was still uncertain.

on the other hand, he xiyin's inner personality, who might awaken at any time, was always a time bomb.

it would be fine if it didn't explode, but once it exploded at the wrong time, it would definitely ruin things!

At the end of the day, this was a choice he had no other choice.

they believed that even lin yi wouldn't choose to gamble on qin shizhen or return to zero if he had the chance!

in any case, jianghai academy, who they had thought to be an opponent that had given up on themselves, had once again become a real threat to them.

Especially after reviewing the entire process, Xia wubing and Chen guanqi were shocked to find out that everything was within Lin Yi's calculations!

Thinking about it carefully, it wasn't just the inner personality he Xiyin-even the poison master Wang Yanqing, who Lin Yi had chosen with the sixth lot, all of the new students seemed to be in a mess, but they were all able to coordinate with li Jingning in some way!

In other words, li Jingning had been the core of the team since the beginning.

the other six members of jianghai academy were all centered around li jingning. without li jingning, the entire team would be like a pile of loose sand, unable to be considered a team at all.

"How could he be so bold?"

Some of the more observant people reacted, shocked by the courage Lin Yi displayed during the entire process!

Chapter 10376

Li Jingning had been left to the last round. Even if there were various reasons, his overall strength, which was enough to rank him in the top ten, was still a small probability from the perspective of an onlooker.

If one of the schools couldn't resist the temptation and took li Jingning's pick from the back, Lin Yi's entire strategy would be a complete failure.

it directly collapsed to the end!

At this moment, even the nine huge figures on the Supreme Board of Directors nodded slightly.

"That's right, it was indeed a wonderful talent show."

the layman watched the show, while the expert watched the tricks.

Lin Yi's courage and skills in this competition were beyond everyone's imagination.

he had deliberately left the most crucial member of the lineup, li jingning, to the last round, not because he was deliberately taking a risk, but because he was the only choice to maximize the advantage of the predetermined lineup.

otherwise, if they revealed their intentions too early, the other three schools would react at the first moment and target lin yi like they did to the eternal river college.

at that time, it would be as difficult as ascending to the heavens if they wanted to gather a lineup that could fully develop li jingning's potential.

As the core of the lineup, li Jingning had his shortcomings. If the lineup couldn't be matched to the extreme, it was almost impossible for them to have any chance of winning if they wanted to go head to head with the other three Academies.

it looked like lin yi was playing with everyone, but it was the only way he could stand on the same starting line as dazhou and hero.

even so, the people who reacted were still shocked.

Even the Queen could not help but ask softly, " "Did you really plan all of this? isn't this too outrageous?"

She believed in Lin Yi's schemes-after all, if Lin Yi wasn't dirty enough, he wouldn't be able to teach this little girl to play games three hundred times in a second.

the problem was that the representatives from the other three academies were not easy to deal with either.

Even Harlin, who seemed to be the most brainless, was not at an obvious disadvantage compared to the other two families in the whole selection process. They were basically at the same level.

They were both thousand-year-old foxes, so no one could play liaozhai for the other.

She'd believe Lin Yi if he said he could beat these people by a little, but she'd rather die than believe that he had everything under his control the whole time and was toying with the cream of the crop like a child.

"would you believe me if i told you that i've simulated all of this?" lin yi chuckled as he lowered his head.

"I don't believe you."

the queen rolled her eyes.

she knew that lin yi knew a little bit of time rule power, and when masters in this area reached a certain level, they could indeed see the future ahead of time.

however, this required a high level of control over time rule power, or a terrifying time talent, and lin yi didn't have either of those.

In the entire Jianghai Academy, only Luo Banshi was capable of such a feat.

in addition, even if he could use the time law power to see the future, he would not be able to see the only future, but only one of the countless futures.

Any change in the slightest factor could cause a butterfly effect, which could eventually lead to the future becoming unrecognizable!

It was precisely because of this characteristic that time ability users were still very precious, and there were still many people who paid a huge price to find them to predict the future. However, there was one thing that they could only use as a reference.

moreover, it could only be used as a reference for the trend of some major events.

as for directly and accurately predicting the result of such a complicated selection of freshmen, it was impossible.

if lin yi could really do it, then he'd end up being cut into pieces for research.

Lin Yi smiled, but didn't reply.

in fact, he was not lying.

he had indeed predicted today's entire process in advance. otherwise, the possibility of him having the last laugh was almost zero if he only relied on psychological games and calculations.

And what he relied on was indeed time rule power.

of course, if he could only control 5% of the rule power of time with his little control, he could only see one or two possibilities of the short-term future at most, even if he had received all the insights from banshi lu.

that was already the limit he could reach.

in today's complicated game, these one or two possibilities were completely inadequate and of no practical use at all.

However, just because Lin Yi couldn't tell by himself didn't mean that the New World couldn't.

the same time rule power, with the support of the new world's will, was like a low-level computer suddenly receiving the support of the top-tier algorithm.

he still couldn't get results that exceeded lin yi's power limit, but the number of possibilities he could predict had increased by an unimaginable amount.

it wasn't one to two, nor was it one to ten, but one to ten thousand, or even a hundred thousand or a million!

In other words, this was the result of Lin Yi's careful selection from hundreds of thousands of possibilities, and he followed it step by step until it became a reality.

at the same time, out of the hundreds of thousands of possibilities, this was the only result that could obtain the complete lineup before their eyes.

Every step he took was carefully walking on a tightrope. If there was even the slightest mistake in the middle, there was a possibility of a butterfly effect, which could lead to failure at the last step.

But luckily, although there were a few accidents in the middle, Lin Yi's backup plans made it possible, and the script ended smoothly!

as the dust settled, the first thing that came to lin yi's mind wasn't the sense of accomplishment of having the whole thing under control, but someone else.

tian xiangyang.

This old master of the Tian family had laid out such a big scheme that included all the gods. He must have not only relied on his scheming, but also had seen countless futures in advance and picked out the only possibility from them.

with meticulous planning and a tightrope at every step, he had put his life on the line to push the perilous jianghai academy up to the doorstep of a god-ranked academy!

the painstaking effort and difficulty behind it was thousands of times higher than today's new talent show.

Before this, Lin Yi didn't really understand it, he just didn't know how to feel it.

however, at this moment, he finally understood how difficult it was for tian xiangyang to calculate to such an extent!

After all, Lin Yi was only facing a Supreme realm master, while Tian Xiangyang was facing a God.

as harlin picked the last person, shen san chi immediately announced, " this year's selection of freshmen has come to an end. The Alliance has already prepared training grounds for each college. The next month will be the time for everyone to get used to their training.

Chapter 10377

"I hope that everyone will be able to make good use of this opportunity. In the new student battle a month from now, you will be able to display your strongest strength."

" what are the rules for the freshman battle? " harlin suddenly interrupted. " you haven't told me yet. "

shen sanchi glanced at him. " the specific rules of the new student battle have not been officially decided yet. we still need to discuss it and hand it over to the supreme board of directors for review before we can officially announce it. "

"we don't even know the rules of the new student battle. how do you expect us to prepare? Isn't this a joke?"

Harlin scoffed.

From his words, he didn't have much respect for Shen Sanchi, the executive of the Alliance who held real power.

Everyone was not surprised by this.

inexplicable arrogance. this had always been the classic style of the eternal river academy.

the key was that with its family's strength and the big shots behind it, it was not easy for others to take this group of people seriously for their rudeness on the scene.

even with shen sanchi's status, if he didn't get serious, no matter what you said, it wouldn't hurt. but if he got serious, it would be too much of a commotion and he would be at a disadvantage.

shen sanchi's eyelids drooped and he suppressed the anger in his heart, " " although the specific rules have yet to be announced, the general idea is fixed, which is to fight as a team of seven. with this general direction, it should not affect the training preparation of the various academies. "

The rest of the people did not have much objection to this.

in the past, although the new student battles had their own differences, they had all been team battles without exception.

The various Academies' team-building strategies revolved around this point. Even if they made adjustments to the form or details later on, they wouldn't make mistakes that couldn't be fixed.

harlin sneered and said, "so, you're asking us to spend money for another intelligence war?" i'm seriously suspecting that the intelligence agencies on the market are privately opened by the higher-ups of your alliance. otherwise, why would you take care of their business?"

"....."

His words silenced the entire room.

everyone had a strange expression on their faces.

it wasn't that what he said was too outrageous. the reason why everyone was silent was the opposite. it was because he said the truth that no one responded.

Behind every high-level member of the Alliance, there was a huge interest entity. Almost all the profitable industries in the market were either inextricably linked to these interest entities or simply a part of them.

just like the mainstream intelligence agency represented by the zhiwei pavilion, its behind-the-scenes boss was a group of higher-ups in the alliance. after reaching a certain level, this would become an open secret.

because of this, they were able to get the most detailed and first-hand information.

&Nbsp; otherwise, with the Alliance headquarters 'terrifying strength, if they really did their job, who would be able to infiltrate?

i'll even break your dog legs.

shen san chi shook his head speechlessly. " if there are no other questions, then all the academies can now go to their respective training stations. a month is not long, i hope you can make good use of it. "

After that, he didn't bother to talk to Harlin anymore, and his figure disappeared on the spot.

the remaining people looked at each other and didn't have any intention of staying to talk. under the lead of the alliance staff, they all returned to their homes.

Lin Yi and the others led the seven new students to a secret realm.

this is the Alliance's exclusive training Mystic realm. It has the highest level of protection and can withstand the impact of the alliance's top experts. Everyone can do whatever they want without worrying about anything happening to the mystic realm.

in addition, the secret realm has opened up access for you all.

for the next month, no one will be able to enter except for you, so there's no need to worry about confidentiality.

The staff explained to Lin Yi and the others about the various problems of the secret realm before leaving.

Not to mention anything else, at least his clean and professional attitude made everyone look at him with respect. The Alliance's strong foundation was reflected in these details.

Lin Yi led the group into the secret realm.

As the staff said, Lin Yi and the others felt the difference the moment they entered the secret realm.

It wasn't because of the size of the secret realm or the density of the spiritual Qi in this place, but because of the various profound formations that were everywhere!

"Interesting."

As a formation master himself, Lin Yi's view was far more thorough than anyone else's.

defense, surveillance, support. Not only do we have all the arrays we can think of, but they are all top-notch. It is indeed the perfect training ground.

it wasn't a compliment, but as a formation master, lin yi truly believed that whoever set up this entire formation was amazing.

with his knowledge of arrays, he could perfectly replicate any one of the arrays here.

However, the difficulty of perfectly nested hundreds of formations of various sizes was much more difficult than just a few formations. Even he did not dare to say that he could do it with 100% certainty.

the complex formation before him had, to a certain extent, surpassed the level of simple application. it had already reached the level of art, even the level of dao.

"The Alliance really doesn't lack experts."

"It's the first time you're meeting each other," Lin Yi turned to the new students, "introduce yourselves and get to know each other."

As a result, just as he finished speaking, a male freshman with short hair stood out and said with a disdainful expression, " "hey, hey, are you misunderstanding something?"

everyone turned to look at him.

"I've done my research on Jianghai Academy. It's just a small academy on the edge of the world. It's lucky enough to be a God-ranked academy, but in this place, I'd advise you not to think too highly of yourself," the crew-cut freshman said with a look of ridicule.

"You'd better be clear on one thing. The freshman battle is our freshman battle. You're just the logistics team that provides support."

"If you serve us well and perform well in the new student tournament, we might even be able to carry you to a sleeping victory. That way, Jianghai Academy would have a chance to join the alliance."

"Don't think that you can give us orders just because you chose us."

"If you really have such a stupid idea, you'd better quickly put it away. Otherwise, if you really cause an ugly scene, then you can only blame yourself for humiliating yourself."

Although the rest of the freshmen didn't say anything, they all showed a gesture of watching from the sidelines.

Chapter 10378

Only he Xiyin was extremely nervous. She wanted to persuade him, but in this situation, she was only a low-level cultivator in the foundation establishment stage and was not qualified to speak at all.

Even if she opened her mouth, she would be ignored by everyone.

If it wasn't for the fact that they were worried about her inner personality that might explode at any time, with the unruly nature of the freshmen present, they might have already thrown her out.

As for li Jingning, who was ranked at the forefront of the freshmen in terms of overall strength, and could even be said to be the strongest, he was exceptionally quiet at this time.

With his past arrogance, it was not the inch-haired freshman's turn to speak at this time. Between the strong, respect was more important. His strength was there, and he would never tolerate being overstepped by a weakling who was not as strong as him.

However, after the roller coaster of the draft, his temper had obviously calmed down a lot.

the most important thing was that his feelings towards lin yi were extremely complicated.

on one hand, it was lin yi who had saved him. if lin yi hadn't chosen him in the last round, he would've been crippled, let alone jianghai college.

Because the last-ranked eternal river Academy had already made it clear that they would not choose him.

once he failed to be selected, no matter how proud he was, he could only accept the fate of becoming an ordinary person. at the very least, he would never be able to raise his head again in front of the outstanding freshmen of the same grade.

Other than that, he also saw through Lin Yi's thoughts on building a team.

he knew that even though he had been chosen in the last round, he still had a core position in the team. this fact made him, who had already lost all hope, extremely happy.

but on the other hand, because of what happened at the imperial cuisine restaurant, and the entire selection process, lin yi never showed him any friendly attitude.

There was no hint or comfort.

The feeling he gave off was that he was just a cold tool!

If he had been as arrogant as he used to be, he wouldn't have taken this to heart. But now, he inexplicably felt a little uncomfortable.

His attitude towards Lin Yi could be summarized in one word:

it was a contradiction.

the scene fell into a brief silence. in the end, the queen stood up with a cold smile. "I'm really curious, though, as a golden class early phase venerable, where did you get such big words from?"

The inch-long haired freshman looked at her and could not help but be even more contemptuous. "Why are you interrupting when The Adults Are Talking? although we're new students, which one of us isn't a peerless genius?"

"Hehe, I'm only an early phase golden class venerable on the surface, but I've challenged a late phase golden class venerable four levels above me. Do you know what the result was, kid?"

"i killed that guy in one move."

" you guys came from a small place. it's not your fault that you haven't seen the world, but you should at least know your own limits. otherwise, if you make a fool of yourself and expose your butt, it'll be too ugly, right? "

The Queen nodded. alright, then let me see what kind of genius you are. You're a peerless genius!

The new student laughed and pointed at his nose. then you guys better remember that my name is pang rulong!

After he finished speaking, he released his aura and attacked the petite Queen without the slightest bit of pity.

although his tone was arrogant, he was not a fool.

even if the queen didn't release her aura, he could see that the queen's cultivation level was much higher than his. once she made a move, she had to use her full strength!

otherwise, he would be the one in trouble.

All the freshmen were watching this scene with cold eyes.

while not everyone was like pang rulong, they were still suspicious of jianghai academy's strength.

In terms of the power of the various Academies, the 3000 local Academies of the divine Kingdom on land were existences that no other local Academy could contend with.

as for the alliance's god-ranked academies, they stood at the top of the entire pyramid and were unrivaled.

From the very beginning, they only had eyes for God-ranked Academies. Moreover, they were the top Academies in the Alliance.

now that they had encountered a foreign institution that they had never even heard of, one could easily imagine their true attitude.

Even though logic told them not to underestimate any power, especially a God-ranked school like Jianghai Academy.

However, they would still instinctively look down on him.

The only difference between them and pang rulong was that they weren't as direct.

Now that pang rulong had stepped out to take the lead, the rest of the new students were more than happy to sit back and watch. They wanted to use this opportunity to see the true colors of Jianghai Academy.

To put it bluntly, it was Lin Yi who chose them, and now they were testing Lin Yi's group.

they wanted to see if lin yi and the jianghai academy had the strength to make them hand over their leadership of the freshmen battle!

"Fists and feet don't have eyes, little girl you have to be careful!"

pang rulong was so fast that no one could see how he moved. he was already behind the queen.

one claw was like a pincher, and it was condensed with some kind of extremely solid rule power. accompanied by the roar of some kind of beast, it went straight for the queen's slender throat.

Just this one move was unbearable to look at.

If this claw were to land, it would truly be a ruthless move to destroy a flower!

However, as soon as he finished speaking, an abyss had quietly appeared under his feet and swallowed his feet.

Then, before he could react, a black tombstone appeared behind him and pressed down on him. He didn't even have time to make a sound before he was crushed by the tombstone.

All of the new students gulped as they watched pang rulong being crushed into the abyss by the tombstone.

when he looked at the queen again, he couldn't help but be filled with fear!

they guessed that lin yi would be very strong as the leader, and they also guessed that xu anshan's strength couldn't be hidden from his emperor's aura even if he didn't say anything. even the kind old lady qing's strength might be unfathomable.

However, they had never thought that the Queen, who looked like an ordinary little loli, would have such terrifying strength!

among the 30 new students, pang rulong wasn't as outstanding as qin shizhen or gui ling, but in terms of raw strength, he was at least in the middle. he had been selected in the fourth round, so he wasn't some weakling.

Among the seven of them, li Jingning and Wang Yanqing, who was chosen by Lin Yi in the second round, were probably the only ones who could beat him a little, if he didn't consider he Xiyin as an uncertain factor.

Chapter 10379

however, such a person did not even last a single blow in front of the queen.

jane simply smashed a tombstone down and then it was gone.

the entire process was so fast that it made one's scalp tingle.

the queen looked at the freshmen with an indifferent expression. " "Whoever wants to go down and accompany him, do it while it's still hot."

“.....”

All the freshmen suddenly had the urge to escape.

he had thought that he had encountered a noob academy. who would have thought that the queen, who looked the most unremarkable, actually had such terrifying strength hidden in her small body? more importantly, she had a strong killing intent that regarded human lives as nothing!

This kind of invisible and natural aura was not something that ordinary people could pretend to be.

If his hands had not been stained with tens or even hundreds of thousands of lives, it was impossible for him to cultivate such an aura that seeped into his bone marrow!

given the environment of the divine kingdom on land, which one of them wasn't a vicious and unrivaled overlord?

all the freshmen felt that the way the queen looked at them was like a bloodthirsty beast looking at a group of prey tied to a stake.

in their eyes, the queen's cute little face was like a peerless beast with a huge bloody mouth, ready to devour people at any time!

"What's wrong? that shouldn't be the case, it's boring."

the queen waited for a moment, but seeing that no one dared to step forward to respond, she couldn't help but feel a little bored.

The little girl's face was full of disappointment. "Aren't you all very powerful? Sister Queen is so small, so many of you can't even beat her, how embarrassing! If you can't, then come at me together!"

"....."

all the freshmen's faces were so red that they were about to bleed.

They were just frightened by the Queen's terrifying strength, but the little girl's taunting had broken their defenses.

The key was that with the lesson of the Queen, they did not dare to underestimate the little girl. What if she was another hidden master?

the group of little girls wanted to add a few more words, but they were taken away by the queen.

"Come on, tell me clearly, who's the little one?"

the little girl was honest. "but sister queen is very young, much younger than master and the others. master said that in less than two years, wan 'er will be taller than sister queen."

“.....”

the queen choked for a while before glaring at lin yi. she changed the topic, "who taught you to seize the opportunity to mock them? you're good at stirring up emotions, but you even encouraged them to attack together. you're so young, yet you're still so unruly!"

the little girl looked proud. "my master taught me. he said that you can't use brute force when fighting with others. it's better to attack the heart. emotions are the best weapon. did wan 'er learn it well?"

the queen looked at lin yi with murderous intent. "You're teaching her these dirty things at her age? Is this what your master should be like?"

lin yi blushed and waved his hand. " i didn't really teach her anything. i just mentioned it by accident. she's self-taught. "

"Yes, Wan 'er is a self-taught genius!"

the little girl proudly raised her head.

then, he was dragged to the side by his sister queen, who had a black face, to receive re-education.

when the freshmen saw this scene, they looked at each other, not knowing how to react.

However, with the little girl's incident, at least the atmosphere had eased up a lot, and it was not as tense as before.

Lin Yi looked at the crowd. continue with your self-introduction, of course. If you guys prefer pang rulong's method, that's fine too. It's a quick way to get to know each other.

The freshmen looked at each other, and for a moment, no one stood up to answer.

What a joke. Someone as strong as pang rulong had been killed in a single blow, and they didn't even know if he was Dead or Alive. Who would dare to step forward and be the second one to do so?

however, there really was one.

"I'm Wang Yanqing, instructor Lin. Please give me your guidance."

under everyone's surprised gazes, a gloomy-looking wang yanqing walked out slowly and cupped his hands at lin yi.

"Sure." Lin Yi nodded.

"then i'll have to offend you."

as soon as wang yanqing's voice fell, a cloud of dark green venom gushed out from his back. in the blink of an eye, it had formed a dark green poisonous python that was more than 10000 feet long. it was like a small mountain that was coiled behind him.

the group of new students hurriedly retreated.

the venomous python's body was constantly emitting a poisonous aura. if they were to inhale even a little bit, the consequences would still be unimaginable even with their strength.

Xu Anshan and Madam Qing, on the other hand, had a look of admiration in their eyes.

madam qing agreed. " it's not the manifestation of rules, but it's more powerful than that. he's actually able to turn the rules of poison into such a poisonous python form purely by relying on his own talent. he's indeed one of the top ten freshmen. "

"this person's level of poison usage is indeed the first i've seen in my life," xu anshan added in a low voice.

As he spoke, he actually used the emperor's Qi to force out a layer of invisible poison in the air. The rest of the freshmen were alarmed when they saw this, but it was still too late.

It turned out that from the very beginning, the only poison master among the freshmen had already secretly poisoned the air.

however, it wasn't their fault for not noticing it.

wang yanqing's poison wasn't life-threatening, nor would it cause any physical harm to their bodies. otherwise, with the instincts and alertness of these geniuses, it was impossible for them not to notice it at all.

the poison he used was completely targeted at rule force.

Restricting the use of other rule bending powers was also the most important feature of the poison rule. If the poison was deeply poisoned, it could even completely seal a person's ability to use rule bending powers.

Just like now, although the freshmen weren't completely unable to use their rule power, it was already extremely difficult.

even if they forcefully activated it, its power would be greatly reduced compared to their normal state. if they were to fight someone at this time, they would be thankful if they could display 50% of their strength.

among the freshmen, li jingning was the least affected.

However, even he was only at 70% of his strength compared to his peak.

Everyone had a deep understanding of how terrifying Wang Yanqing's new teammate was.

the mainstream was biased against poison, and some of them didn't think much of wang yanqing, even thinking that lin yi's choice of number six was a waste of a treasure.

But now, it was really nice to be teammates with such a poison expert.

"do you guys think he has a chance of winning?" someone among the freshmen couldn't help but ask.

"It's hard to say,"

If not for the huge shadow that the Queen had left behind, most of them would have placed their bets on Wang Yanqing without hesitation. After all, poison techniques were really unreasonable.

Chapter 10380

It's fine if you don't fall for it from the beginning to the end, but once you do, no matter how strong you are, the consequences are unpredictable.

"Twenty percent," li Jingning said faintly.

the other freshmen looked at each other and said, "you think he only has a 20% chance of winning?" that's not all, since he's so confident in challenging lin yi, it means that lin yi was the same as us, he fell for his trick."

that's right. There's a high possibility that he's more poisoned than us. After all, he's Wang Yanqing's primary target. We're just bystanders in the situation.

"if i'm not wrong, lin yi's strength right now isn't even half of his peak. even if he was strong before, could he be this much stronger than wang yanqing?"

look, Wang Yanqing has even summoned a venomous Python. His direct strength can not be underestimated. As long as he continues to drag this out, his chances of winning are not small at all!

All the new students spoke one after another, and they had already become familiar with each other under the imperceptible influence.

the consensus was that even if wang yanqing lost in the end, he wouldn't lose as badly as pang rulong. he would at least have the strength to fight a poisoned lin yi.

However, the final result had once again refreshed their knowledge.

one palm-lin yi had only used one palm from the start to the end, and the ten thousand feet long venomous python behind wang yanqing crumbled instantly. if he didn't hold back on purpose, wang yanqing would've been crushed along with it.

"what's the situation? what's the situation?"

Seeing Wang Yanqing walking back in a daze, the confused freshmen quickly gathered around him.

from an outsider's point of view, lin yi's palm wasn't light and didn't have any real power, but it was really ordinary.

if they didn't experience the terror of wang yanqing's poison techniques for themselves, they would've suspected that this guy was just putting on an act with lin yi.

li jingning looked at the dazed wang yanqing and asked with a frown, " "That palm just now was very strong?"

Wang Yanqing looked at him and shook his head in confusion.

What kind of reaction was that? Was he beaten silly?

the freshmen looked at each other. if lin yi was strong enough to kill wang yanqing in one move, they would accept it.

after all, pang rulong's example was there-even an ordinary-looking girl could have such terrifying strength. as the jianghai college's representative, it was only natural that lin yi would be stronger.

But from Wang Yanqing's confused expression, Lin Yi's attack wasn't a matter of strength-it was beyond his knowledge.

thinking of this, all the freshmen couldn't help but feel a chill.

Although Wang Yanqing was only a golden class early phase venerable like them, he was still one of the best among them.

Especially as a local genius, his knowledge and experience were not comparable to those of other peripheral small places.

It was hard for them to imagine how someone from Jianghai city, a place that was sealed off, could cause Wang Yanqing to be in such a state.

"what did you see?" the crowd asked again.

"i saw a world," wang yanqing mumbled.

“.....”

All the freshmen were speechless. It was over, this person was really stupid.

what he didn't know was that wang yanqing was telling the truth. he did see a vast world in lin yi's palm.

His poison-type nomological laws were completely unable to withstand a single blow in the face of that world that was crushing down on him.

there was no other reason. there was a huge gap between their levels!

With Wang Yanqing's background and experience, he could be considered well-informed even among the freshmen who were full of prodigies.

He'd even come into contact with late phase peak of the Golden class, or even a level higher than that. He'd even fought them to a certain extent.

However, even if he was an existence of that level, even if his strength was far inferior to his opponent's, at least he could still understand his opponent's moves. After all, the essence of it was only a difference in the control of laws.

However, he had never seen or heard of a power that could directly crush his poison-type nomological laws.

In fact, even the higher-ups of the divine Academy Alliance might not have seen it before, let alone him.

After all, this was not a mortal's move, but a move from a God.

The great world palm.

during the last battle with the evil god's clone, other than taking forty percent of the evil god's divinity in one fell swoop, allowing the new world to evolve at a much faster speed, and raising his own realm to golden class mid phase peak, the biggest gain he'd had was learning the great world palm.

He had only seen the evil God's clone use it once, and he had already learned it.

This kind of thing was absolutely inconceivable.

Normally, even the moves of high-level human cultivators were not easy to learn, let alone the moves of gods.

the problem was that the big world palm was a perfect fit for lin yi. other than the fallen evil god, there was no one else in the world who was more suitable for the big world palm.

with a whole new world in his hands and all sorts of rule bending powers, lin yi's practice of the great world palm was already perfect in terms of hardware.

Moreover, he still had the support of the new world's will!

Now, the great world palm had become Lin Yi's other killing move aside from the demonic sword. To a certain extent, this move's priority was even higher than the ultimate sword skill, sword sacrifice!

no matter how fierce the sword offering was, it was still a human move.

In terms of level alone, he had already been crushed by the great world palm and other deity's moves. This qualitative gap was almost impossible to make up for.

Of course, if the demonic devour sword was included in the sword sacrifice, it would be a different story. After all, the demonic devour sword was driven by 120000 sword souls, so it could no longer be considered a weapon of mortals.

"he's gotten stronger again."

The Emperor Xu Anshan said faintly.

When Lin Yi first entered Jianghai college, he could only look up to him.

But he didn't know when it started, but this natural-born King was left far behind by Lin Yi. Even after absorbing the evil God's divinity, his strength increased by leaps and bounds, but the gap between them didn't narrow. Instead, it seemed to be widening.

Even with his strong will, he couldn't help but feel a sense of powerlessness.

" it's not necessarily a bad thing to let things go, " madam qing said. " after all, with such a monster leading the way, it's indeed very stressful. but from another perspective, it can also improve our lap speed. "

" the world is huge. those who walk with the gods will one day be able to stand shoulder to shoulder with them. "

Xu Anshan looked at her in surprise and didn't say anything.
