

## Bodyguard 10381

### Chapter 10381

At this time, Lin Yi had returned to the freshmen and looked at them indifferently, "you guys haven't finished your self-introductions yet. continue."

as his gaze swept over them, the unruly freshmen couldn't help but lower their heads.

What a joke! Pang rulong, who had been the first to jump, had erected a tombstone for him. Wang Yanqing, who should have been in control of the situation, had been turned into a fool by a slap.

Although the remaining few of them each had their own strengths, if they were to really fight, they would definitely not end up better than the other two.

on the contrary, there was a high probability that it would be even uglier.

"ma rumei greets all the instructors and students."

"Han Dingsheng, greetings to all the instructors and students."

"ding wen, same as above."

The remaining few new students were indeed outstanding talents. Once they recognized the situation, one of them immediately stood out.

In fact, they couldn't be blamed for being snobbish.

The relationship between the selected new students and the four Academies was a cooperative relationship of equal status.

The former wanted to perform well in the freshman battle, so as to win more resources in the Alliance in the future. The latter wanted to have the last laugh and obtain the only spot to enter the Alliance this year.

They could be said to be a complete community of shared interests. No matter which side wanted to go further, they had to cooperate with the other side wholeheartedly.

the reason why they made such a scene wasn't because they wanted to shed all pretenses with lin yi and the others, but because they wanted to show off their power first and use it to confirm the leadership of the collaboration.

However, the final result was that they were taught a solid lesson.

since their strength wasn't enough, they should lower their heads when it was time to do so. this group of elites didn't lack the ability to adapt to the situation.

lin yi nodded, his eyes landing on li jingning. "Do you know why I chose you?"

Li Jingning glanced at he Xiyin, who was too nervous to speak, and raised his eyebrows. "you've taken a fancy to my common fate?"

sharing fate was essentially a series of derived abilities of the rules of fate. the magical thing about it was that once it was completed, it could connect two completely different individuals into one in a short time.

In this state, the thoughts of both sides could penetrate each other and achieve a special connection of the mind.

The most important point was that the strength of both sides could be shared!

Among the new students, the most obvious effect was to mobilize the power of he Xiyin.

Even if her inner personality would not awaken easily, her huge power would not disappear.

As long as li Jingning and he Xiyin shared the same fate, he would be able to use the terrifying power of his inner personality, he Xiyin. Even if he couldn't fully restore the power of his inner personality due to the difference in combat talent and experience.

but even if it didn't work, just treating he xiyin as a humanoid power bank could still play a huge role!

besides, li jingning wasn't the only one who could share his fate with he xiyin.

Lin Yi nodded, "if your shared life can only be used in one-on-one fights, then it's not worth much. It's not enough for you to secure your position as the core of the team. But I've read your information. You've only used shared life with six people at the same time. That's priceless.

the crowd was in an uproar.

The one-on-one sharing of fate was indeed magical, but its power was only so-so, at best, it could barely realize the waste utilization of he Xiyin.

against the lineups of the other three academies, they wouldn't be able to gain any advantage just by relying on this.

However, if all seven of them could share the same fate at the same time, that would be really awesome.

This meant that li Jingning could focus the strength of all seven members of the team on one point and form a dimensional attack against other opponents!

What Qin Shizhen, what return to zero, what long-ranged combination, in front of the seven-in-one single point blast, they were all nothing.

just the thought of that scene made everyone's heart surge with excitement.

li jingning was shocked. " "i just got a few low-level wild beasts for an experiment when i was bored. how did you know?"

"There is no such thing as an impervious wall in this world."

lin yi smiled,"i also know that your experiment failed in the end, and you suffered quite a bit of backlash. it took you two months to barely recover."

what? " li jingning frowned. since you already know, you still dare to bet all your money on me? "

lin yi shrugged helplessly,"I don't have a choice,"

This was the truth.

Before the freshman selection, he had used the world's will to predict hundreds of thousands of futures in advance and made almost all the attempts to find a future that could get the top two lots.

However, he didn't.

Of all the futures he had seen, Jianghai Academy was either third or fourth in the lot.

somehow, dazhou college and hero college seemed to have monopolized the luck of the top two. lin yi had once guessed that such a strange phenomenon was very likely due to their own extremely powerful people protecting them from behind the scenes.

with lin yi's current strength, he was still helpless against a technique of this level.

Therefore, he had no choice but to settle for second best.

Since they couldn't get Qin Shizhen and return to zero no matter what, they could only use this seemingly underhanded and extreme method. With li Jingning as the core, they could forcibly gather an extreme lineup that was not inferior to those two!

If he wanted to break through the freshman battle, this was the only viable option.

even if in the eyes of others, the probability of winning the bet was still very low by using such an extreme method, it was still better than having no chance at all!

Li Jingning looked at him deeply. the success rate of resonance depends on the strength and number of connected individuals. The stronger the connected individuals are and the more the connected individuals are, the higher the possibility of failure.

" to be honest, even if you only want me to connect to her now, i can't guarantee that i'll succeed. "

" as for connecting all of them at once, i can tell you right now that there's no chance of success with their strength. "

His words poured a basin of cold water on everyone's head.

"you can't do it now, but that doesn't mean you can't do it in a month's time," lin yi said nonchalantly."how do you know it's impossible if you don't try?"

"No one knows my own matters better than I do."

Li Jingning thought that Lin Yi's brain must be fried.

If no matter what it was, as long as one persevered, one would definitely succeed, then how could there be so many tragedies that made one feel hopeless and helpless?

the other new students were the same-they all felt that lin yi had really made a mistake this time.

Chapter 10382

Even Li Jingning himself felt that it was impossible. No matter how much he tried, he was doomed to be hot-headed and everything would be in vain.

"you guys think that since this isn't going to work out, you might as well come up with a better plan, right?" Lin Yi said.

Everyone nodded subconsciously.

Since this path didn't work, then he'd have to take another path. Was there anything wrong with that?

"then I'll tell you now. with your current lineup, no matter what other conventional strategy you use, there's only one outcome when you face the Great Zhou Academy and Hero Academy. you'll be crushed instantly!"

Lin Yi's words were like steel.

Everyone's face turned red. Other than He Xiyin, they were all arrogant people!

Qin Shizhen and Return to Zero are indeed very strong. I have to admit that.

Hmph! Li Jingning snorted coldly and shook his head. but if you say that the gap between us is so great that I can be defeated in an instant, I definitely won't believe it.

The rest of the new students agreed.

Lin Yi shook his head and chuckled, among the thirty new students, your strength is indeed not bad. If there are no accidents, the evaluation of you and those two by the various mainstream intelligence agencies is indeed only one rank lower.

"if i were to give you a score, you, li jingning, would get 90 points. as for qin shizhen and zero, i would give them a full score of 100 points."

among the seven new students, other than he xiyin, the only one left, ma rumei, chimed in, " " that's only ten points away. you don't have to exaggerate, do you? "

"you don't seem to understand what i mean."

Lin Yi shook his head. I gave li Jingning 90 points because his strength is only 90 points. I gave those two 100 points because the full score is only 100 points!

" if we ignore the concept of full marks, i would give the two of them at least 200 points! "

"What are you going to use to compete with them?"

all the freshmen were collectively shocked.

they could tell that lin yi wasn't trying to scare them, and he wasn't joking. he really thought so!

if it weren't for the great world palm's display of power just now, the crowd would have definitely scoffed at it.

You're just a country bumpkin from a small place. What kind of world have you seen, and you dare to boast like this?

but now, the weight of lin yi's words was pressing down on their hearts, and they couldn't even breathe.

li jingning's face was pale. he opened his mouth as if he wanted to refute, but in the end, he couldn't say anything.

because subconsciously, this was a sad fact that even he himself was worried about, but his intuition instinctively recognized it.

"i'll say it again. using any conventional strategy to deal with those two people is destined to only invite humiliation. otherwise, why do you think the great zhou academy and hero academy chose them without hesitation?"

"because as long as they are chosen, the one who laughs in the end will be one of them."

"whether it's the eternal river academy or us, in their eyes, we're all just running around. we're not qualified to be their opponents."

"their only opponent is each other."

lin yi's words were like bloody knives, mercilessly stabbing into the hearts of li jingning and the others.

"So, now you know why we have to take this path?"

lin yi patted li jingning's shoulder, the six of us share the same fate. This is our only chance to turn the tables, although in terms of probability, there's a high chance that we'll still fail at the last step.

" but even if you are destined to lose in the end, are you willing to kneel in front of them obediently, or do you want to fight and fall on the road of charging? "

" ....."

after a long silence, li jingning suddenly raised his head."what do you want me to do?"

Lin Yi smiled, his eyes sweeping across the faces of the new students. "are you ready to experience hell?"

Everyone was confused.

With a snap of Lin Yi's fingers, the Queen walked over slowly, dragging the little girl behind her. Wherever she passed, the space around her was devoured by the endless abyss.

after only a few moments, everyone was shocked to find that they had unknowingly been placed in an endless abyss.

behind them was a familiar gravestone.

Pang rulong, who had just been pushed down, was now under the tombstone with an awkward expression. He waved at the crowd. we're classmates after all. Don't just stand there and watch. At least give your brother a hand, okay? "

When everyone dug him out from under the tombstone, pang rulong immediately recovered and began to discuss with the others.

"this group of people is indeed something, but as long as we work together, it shouldn't be difficult to take them down. brothers, it's time to let these country bumpkins from a small place experience the elegance of our land divine kingdom!"

after he finished speaking, he realized that everyone was looking at him like he was an idiot.

pang rulong scratched his head, what's wrong? isn't it just abyssal power? it's a little tricky, but it's not like we can't solve it with our strength."

"oh, really? i'm really interested to see how you're going to solve this."

The Queen appeared behind him, calm and composed.

all the freshmen looked at each other and patted his shoulder in earnest. they looked at him as if they were sending off a dead person. "Brother, take care."

Before pang rulong could react, the Queen grabbed him and gave him another round of beating.

The little girl followed behind him in a Huff. "sister queen, how can you be so cruel? this isn't good, right? can you teach it to wan 'er?"

pang rulong would never have thought that the one who saved him would be a joke from the little girl.

Of course, in the little girl's opinion, these words were definitely not a joke.

She really wanted to learn.

On the other side, Lin Yi had already started to get busy.

The purpose of letting the Queen cover the secret realm under her feet with the endless abyss was to deceive people and shield them from the monitoring of the surrounding array.

In this secret plane, if no protective measures were taken, everyone's every move would be monitored by the Alliance.

not to mention other things, if their carefully trained battle tactics were to be leaked out, or if they were sold to the other three academies in the form of information at a high price, they would be targeted to death when the new student battle began. at that time, they would really be unable to cry even if they wanted to.

As for the other reason, it was to get better training.

Lin Yi took out the nine-story Pagoda.

Ever since he had mastered the time law power, he had rarely used the time acceleration ability of the nine-story glazed Pagoda to cultivate.

after all, at his current level, the advancement of strength was no longer something that could be accumulated through time. without enough heaven-defying opportunities, even if he forced himself to cultivate in seclusion for ten thousand years, he would only make no progress.

## Chapter 10383

However, he could use it now.

Because of the endless abyss's fuzzy nature to time and space, the time acceleration effect of the nine-story glazed Pagoda could be perfectly released here.

In other words, everyone could enjoy the effects of time acceleration even without entering the nine-story glazed Pagoda.

With the help of Lin Yi's own time rule power, the time around the nine-story Pagoda was thirty times faster than the outside world!

One month in the outside world was equivalent to thirty months here.

this way, li jingning and the others had enough time to get used to each other, and naturally, it also gave them more confidence.

"does that mean there's a higher chance of success now?" lin yi asked with a smile.

li jingning nodded. "i didn't get a single point before. but now, i do have a single point. unfortunately, that's all."

It wasn't that he was undervaluing himself, but to have a shared fate with six people at the same time, especially with the strength level of the freshmen, with his current Foundation, it could be said to be as difficult as ascending to the heavens!

even if lin yi had bought him thirty months, the chances were still extremely low. he was already being optimistic by saying one point.

"one point is good enough."

"Just do your best and leave it to fate-if you do this well, maybe God will help you get the remaining nine," Lin Yi said, deep in thought.

Li Jingning gave him a strange look. "hehe, the heavens are helping? I didn't expect instructor Lin to have such an innocent side."

lin yi smiled, but didn't reply.

In the days that followed, li Jingning quickly understood the meaning behind Lin Yi's words.

although he was prepared to fight with all his might under lin yi's provocation, his rationality told him that the chances of success were extremely low.

He was currently unable to fulfill the two conditions required for the seven-man team to work together, quality and quantity.

Not to mention the distance, it was extremely difficult for him to even connect with any of his teammates of the same level.

after all, before this, the targets who could share their fate with him were much weaker than him. because he didn't know the mechanism and side effects of sharing their fate, no one was willing to do this with him unless they were close relatives or die-hard supporters.

this was normal.

Even if they succeeded in achieving a shared fate, li Jingning was the only one who could mobilize each other's power in the end. The party connected to a shared fate was completely one-sided and passive. There were no benefits, but there might be disadvantages. Who would be willing to do so?

It was only in such a special situation that the entire team was bound to a community of shared interests that the others were willing to cooperate.

Otherwise, don't even think about it.

because he had no prior experience, the development of the matter was within li jingning's expectations.

Other than failure, there was still failure.

it was a good thing lin yi was there to help control it, greatly reducing the backlash from the failure. otherwise, let alone li jingning, pang rulong would've been the first to die.

however, after four failures, li jingning suddenly realized that he was being helped by the gods on his fifth attempt.

The few key steps that were originally extremely difficult and had failed repeatedly, this time, for some reason, he was blessed and easily passed through it. The whole process was not blocked at all.

"It's done?"

pang rulong, who was a lab rat, was amazed by the power of shared fate.

he felt as if his and li jingning's fates, which had originally been completely unrelated, were now connected by an invisible thread of fate.

No matter what one party did, the other party's fate would cause a chain reaction, creating an extremely close fate linkage.

Li Jingning nodded, unable to hide the surprise in his eyes.

Even he himself did not expect things to go so smoothly. This was only the fifth time and he actually succeeded!

With a thought, Li Jingning's hands suddenly turned into a pair of ferocious and terrifying beast claws. The extremely rich beastification rule power on them was shocking, as if he was a real peerless beast.

"what?" Pang Rulong's eyelids twitched. "this is my power?"

Li Jingning nodded. feeling this unprecedented abundance of power, his eyes reignited with great confidence.

Lin Yi observed for a moment, "it seems like the effect of sharing life with a high-level target is better than i expected. not bad news."

Li Jingning was silent for a moment, then said in a deep voice, " "i don't believe that those two can be stronger than the current me."

If he had to rely on himself, there was no way he could beat Qin Shizhen and return to zero. He knew this very well.

but now that he'd gained control of pang rulong's power, his strength had increased by leaps and bounds. he was completely confident that he could fight the two of them head on!

"i'm still far from it." lin yi shook his head faintly.

There was no unnecessary explanation.

Li Jingning couldn't help but hold his breath, but when he recalled how Lin Yi had scared Wang Yanqing to death with a single slap, it didn't matter if he was willing to admit it or not. Every word Lin Yi said was very convincing, whether it was in front of him or the other freshmen.

the strong were respected, and this was not only reflected on the battlefield. the right to speak was more important.

Every word that came out of a powerhouse's mouth would always be regarded as the Holy Bible by everyone.

More importantly, the influence was everywhere.

Even if they were alert during the process, they would still be affected unconsciously.

Of course, Li Jingning was actually more concerned about what Lin Yi just said-God would help!

In his opinion, this was a stupid statement. Only those ignorant ordinary people would believe such nonsense. He only believed that he had to rely on himself to get to where he was today.

However, as soon as Lin Yi finished speaking, he succeeded after four attempts.

he couldn't even explain why the fifth time went so smoothly.

Everything he had done, including his own condition, was no different from the previous four times, but the results were very different.

other than the help of the heavens in metaphysics, he really couldn't find a more reliable reason.

"wait, if you can use my power, can i use yours?"

Pang Rulong suddenly raised a hand. if I'm only one-sidedly controlled by you, then I'll become your accessory. That's f \* cking unfair!

Hearing this, the freshmen who were training in the distance also looked over with inquiring eyes.

as a community with common interests, they didn't mind making a certain sacrifice for the team. after all, they would share prosperity and loss together.

But if they simply became li Jingning's human pendants, that was another matter.

## Chapter 10384

If that was the case, even if they won in the end, it would be li Jingning's one-man show, and they would just be props on the stage.

One had to know that the freshmen battle didn't only depend on the final result. Their performance during the process was equally important. It would directly determine how much importance they would receive in the future in the Alliance, and directly affect the allocation of key resources in the future!

Their sacrifice needed to be repaid.

A one-sided sacrifice without any tangible reward was not an awareness to them, but a complete and utter foolishness.

In other words, they could sacrifice for the team, but it had to be a sacrifice of personal value. At the very least, they had to let the higher-ups of the Alliance see their value!

a human pendant was obviously not the value they wanted.

Li Jingning let out a breath of air and glanced at pang rulong. "you can try it now."

"what?"

Pang rulong didn't understand what was going on at first, but he soon realized in shock that one mysterious and complex string of fate after another had appeared before his eyes.

Each string of fate was like a candle in the wind, on the verge of snapping.

but surprisingly, they were often extremely tough.

each person was connected to their own fate, showing a mysterious path up and down, but as time passed, these paths would change at any time.

"so this is what it means for fate to be erratic?"

Pang rulong felt like he had discovered a new continent. After searching for a long time, he finally found a thick string of fate. He reached out and tugged at it expectantly.

However, the next second, the Queen appeared in front of him with a murderous look.

Pang rulong raised his hand to show his innocence. "It wasn't me! I really didn't touch your destiny, I really didn't! Please don't wrong a good person!"

"did i say i was going to wrong you?"

As the Queen spoke, a huge tombstone descended and suppressed pang rulong again.

All of the other freshmen shuddered at the sight of this and quickly went about their own business. They didn't even look at pang rulong for fear of getting into trouble.

"i don't know." li jingning helplessly facepalmed. "the rules of fate aren't used this way."

he had seen pang rulong's actions clearly. he was clearly trying to take revenge on the queen by toying with her fate.

it was a pity that this fellow didn't know that once an expert reached a certain level, even if they didn't grasp the rules of fate, they would still be able to sense the abnormal fluctuations in their own string of fate at the first moment.

Pang rulong's action was no different from plucking the Queen's hair.

to be able to court death to this extent, he could be considered to have died a worthy death.

on the other hand, the rules of fate were more complicated than the rules of karma to a certain extent. if one did not have enough calculation power and experience, they could easily move the strings of fate of others. in the end, the one who would suffer the most from the backlash of fate would be themselves.

these were all bloody lessons that li jingning had learned himself.

but no matter what, even though pang rulong had courted death, it was still a calming pill for the freshmen.

Since they shared the same fate as their targets, their powers could be transferred to each other. They would not be purely human pendants. As long as they encountered the right opportunity, there would naturally be a time for them to show their abilities.

in fact, with the help of the shared fate, they were likely to play a more important role than usual at critical moments.

in other words, they could also become the beneficiaries of the seven people's fate!

As such, the freshmen were naturally filled with motivation.

without lin yi's order, the rest of the people took the initiative to replace the suppressed pang rulong as li jingning's next test target.

Li Jingning naturally didn't refuse.

with the good start just now, his subsequent attempts became more and more like divine help. even if he made some small mistakes in the middle, he could quickly correct himself and always end it smoothly.

The more it was so, the more shocked li Jingning was.

It must be known that if the same thing happened in the past, even those low-level cultivators or ordinary beasts would fail if they made the slightest mistake in the process, let alone the high-level targets of the same grade freshmen.

all of this had been too smooth for him to be normal.

it was fine if the heavens helped him once or twice, but he came every time. was he this diligent?

li jingning couldn't help but ask lin yi, "what did you do?" Even if it's luck, it shouldn't be this exaggerated, right?"

"don't think too much about it, it's just a simple luck boost," lin yi smiled.

"Do I look like I'm that easy to fool?"

li jingning was skeptical.

What he didn't know was that Lin Yi was telling the truth. From the start, Lin Yi had only provided him with luck.

However, this was different from what he had known before.

all the big shots he had met, no matter how strong their luck was, were only individuals.

Even if it exceeded the limit, it would at most be a share from one's own power. It would at most be a few times more than the limit of a person's luck. It was difficult to exceed the entire order of magnitude.

after all, the total amount of providence was determined by the region. even if it was a god-level academy, the total amount of providence couldn't be too exaggerated.

Moreover, there were many experts within the Academy, and after the overall luck was distributed, even the strongest person in the Academy would find it difficult to occupy more than 40%.

Lin Yi, on the other hand, was the true ruler of the four Seas, especially after absorbing forty percent of the evil God's divinity. Combined with the sea god's divinity he had just swallowed, the amount of luck he could control now was more than thirty percent of the entire sea!

This was no longer a problem that exceeded an individual's limit.

If the individual limit was one, then Lin Yi's luck was at least ten thousand!

There was probably no one else in the entire divine Kingdom with such a terrifying blessing.

Unless one day, someone could single-handedly overturn the Alliance of God-tier schools and unify the entire divine Kingdom, then they'd have the right to be compared to Lin Yi.

Li Jingning would never have imagined what kind of monster he had encountered.

But one thing was for sure-Lin Yi and the school behind him were far more mysterious than they'd imagined!

And this point was repeatedly verified in the next 30 months.

&Nbsp; Alliance headquarters building, Supreme board meeting.

there were only five days left before the one-month deadline for the freshmen battle.

Shen Sanchi stood on the stage with a respectful expression. As the person in charge of this year's freshman battle, he was giving a pre-competition report to the nine highest level directors.

The most important part of the report was naturally the specific competition format of this year's new student battle.

Chapter 10385

"Combining the performances of the past freshmen battles, after many discussions, our preparation team has unanimously agreed that the best way to truly reflect the strength of the various Academies and the freshmen is the free-for-all Battle Royale."

"So, we're going to set the rules for this competition to be four academies competing at the same time. The venue will be in the thirteenth district of the mysterious realm."

There are many empty temples in the 13th District. They can be used to transport new students.

At this time, an unusually tall and fair-skinned giant said, "The 13th section is a good exam ground, but those temples don't have a complete teleportation array. They can only temporarily teleport one person. How do you plan to solve this?"

With the Alliance's strength, it wasn't difficult to specially set up a teleportation array inside, but if it was just for a temporary freshmen battle, then wouldn't it be too much of a mobilization?

In the face of this Big Shot, Shen Sanchi's heart trembled, and he did not dare to show the slightest neglect.

Supreme Director, someone suggested a temporary teleportation array, but I rejected it.

" in the end, we decided to use the teleportation limit of the empty temple to make an article. each college can only choose one new student to be teleported in at the beginning. after that, only when the established conditions are met can the next new student be teleported in. "

there will be layers of tests and barriers until all seven freshmen are transferred.

this will not only test the individual strength of the participating freshmen, but it will also test the team battle ability of the various Academies. In addition to the various variables in the middle, it will also be an extreme pressure test for their ability to adapt.

"Under such a competition format, if one is able to stay until the end, we will have sufficient reason to believe that the one with the most comprehensive strength will be the one."

After Shen Sanchi finished his introduction, he carefully observed the reactions of the nine big shots, feeling nervous.

Being the person in charge of this year's freshmen competition was a rare opportunity for him. After all, even if he was the Alliance's executive, it wasn't easy to directly appear on the Board of Directors.

only by obtaining the recognition of the nine big shots could his future possibly be further improved.

otherwise, no matter how well he did, he would only be able to work in the alliance for the rest of his life, until he was replaced by someone who came later and stepped back.

that was obviously not the result Shen San Chi wanted.

Before this, Shen Sanchi rarely showed his face in the Supreme Board of Directors, and his position in the Alliance had begun to gradually become marginalized.

if it wasn't for the fact that he had spent a great deal of effort to find the right connections, the opportunity to be in charge of the freshman battle this time would not have fallen on his head.

This year's freshman battle was not only a battle between the four Academies and the freshmen, but also a battle for a comeback that he had high hopes for!

the nine powerhouses pondered for a moment.

in the end, it was the one who spoke again, " " that's a good idea, but the four academies 'sense of participation is a little lacking. after all, they are also the key targets of our inspection this time. if they can't participate in the actual event, the result may not be so clear at a glance. "

"some of the academies might not be convinced."

shen san chi's heart sank, not knowing how to answer for a moment.

it wasn't that he didn't think of this-the strength of the teachers was clear for all to see. no matter how strong the freshmen were, they were still just golden class early phase venerables.

if they were also allowed to enter the battlefield, not to mention many, even if each academy only put one in, it would definitely have a decisive impact on the trend of the entire new student battle.

At that time, other than Qin Shizhen and return to zero, who were monstrous new students, the other new students would most likely end up as cannon fodder.

with that, the freshman battle naturally lost its meaning.

after all, if even the freshmen, who were the main body, were reduced to cannon fodder and decorations, how could it be called the freshmen battle?

as such, the academy's instructors were not allowed to enter the new student battle. this had long been tacitly agreed upon.

In the previous freshmen battles, there had never been such a precedent.

however, since the big shot had brought it up, shen san chi had to give a positive response. he couldn't make any excuses, because all excuses would become excuses when they fell into the big shot's ears.

the only thing he could say was a reasonable solution.

Just as Shen san Chi was hesitating whether to add another instructor battle for the four Academies, another black-haired old man with a solemn expression suddenly spoke.

didn't the technical department recently come up with a system called puppet show? why don't we take this opportunity to use it? "

Shen san Chi was stunned.

the rest of the big shots looked at each other and were more or less surprised.

They weren't surprised by the puppet show. The Alliance's technology Department had gathered all kinds of geniuses in the entire divine Kingdom on land to study all kinds of strange things, and the puppet show was only one of the most unremarkable results.

what really surprised them was that the black-haired old man, who rarely spoke on such occasions, had actually made an exception today!

After a moment of silence, the powerhouses finally nodded in agreement.

although the black-haired elder rarely expressed his opinion, he was undoubtedly one of the top three in the alliance, both in terms of his personal strength and the great power behind him.

Now, as the power behind him grew stronger and stronger, most people in the Alliance had silently acknowledged him as one of the top two existences in the Alliance.

it was to the extent that there were already faint cries that under the black-haired old man's steady and low-profile appearance, he actually already possessed the strength and qualifications to compete with the strongest in the alliance!

Therefore, once he opened his mouth, it would definitely carry a lot of weight.

unless it was a major matter that concerned their core interests, even the other big shots were not willing to easily stand against him.

in the end, the black-haired elder's proposal was passed unanimously.

although shen sanchi was the person in charge of the freshman battle, since the supreme board of directors had already decided on this matter, he naturally didn't have the right to speak. his true responsibility was to carry out the big shot's suggestion.

however, shen san chi was after all a clear-minded person. the black-haired old man's sudden statement this time, the deep meaning behind it, really made his heart fluctuate.

"could it be that the rumor that this big shot values lin yi a lot is true?"

before this, he had never really taken this rumor seriously.

After all, many rumors were deliberately spread by people with ulterior motives, and their motives were mostly hidden.

Based on his past experience, 99% of the rumors that were related to the Supreme Board of Directors or a certain Big Shot were people who wanted to use this to raise their own value and make their presence known. This was to fool the masses who did not know the truth and gain some benefits for themselves.

but this time, it seemed that it was not without reason.

The black-haired elder didn't mention Lin Yi and the Jianghai college directly, but with his status and position, he couldn't bring it up in public. It would be too degrading.

Chapter 10386

however, just by looking at how much importance he placed on this year's freshman battle, a person like shen san chi, who had a sharp mind, was already able to figure out three things.

his instinct told him that the black-haired elder and Lin Yi really did have some sort of relationship.

And so, Shen Sanchi told Lin Yi the rules as soon as he could.

although he was the person in charge of the freshman battle and it was his duty to announce the rules of the competition, but for him to personally announce it, and at the first moment at that, this was a favor done at no cost.

even Lin Yi had to admit it.

Shen Sanchi even had someone gather all the information on the puppetry system and send it to Lin Yi.

"I'll have to trouble brother Chen. After the new student battle is over, I'll be the host and treat brother Chen to a good drink."

Lin Yi didn't know why the guy was so friendly, but he wasn't a hothead anymore-he'd have to take it.

more friends meant more paths.

Shen Sanchi was the executive officer of the Alliance and was considered a rare heavyweight. He and Jianghai Academy did not have any connections here, and befriending such a person would save them a lot of unnecessary trouble.

Besides, Lin Yi had some admiration for Shen Sanchi himself.

To be able to lower his status like Shen San Chi in the Alliance, this kind of person was rare no matter where.

"then it's a deal," shen sanchi laughed.

he didn't mention anything else, especially the rumor about the black-haired old man.

after all, if he were to bring it up in person, it would not be a favor anymore.

after shen sanchi left, madam qing came over and said thoughtfully, " looking at his attitude, it seems like he's prepared to place a bet on you. What did he see? "

This question wasn't so much about Shen Sanchi's motive as Lin Yi's trump card.

in the divine kingdom, especially within the alliance, jianghai academy had almost no connections to the upper echelons.

It was because of this that it was so difficult for Lin Yi to bring Jianghai University into the Alliance.

But Lin Yi's performance didn't seem to be treading on thin ice at all-he was calm and composed, as if the whole situation was under his control.

This was clearly not just because of his confidence in his own strength.

Lin Yi's strength was strong, but even in the Alliance headquarters, where there were many masters, he was still a number one figure that couldn't be underestimated.

but with madam qing's understanding of this place, lin yi's strength could only guarantee a certain level of deterrence, not to the point where he could cover the entire situation!

lin yi knew this as well.

since he could be so sure, he must have a greater backer!

lin yi smiled, " i don't know what he saw, but time will tell. time will tell us the answer. "

“.....”

madam qing rolled her eyes, speechless.

lin yi blinked, "You've been unwilling to restore your original appearance, is it because you're afraid of being recognized?"

Madam Qing was shocked, and a trace of panic flashed through her eyes. She forced herself to calm down. "What original appearance? this is my original appearance. I'm already so old, isn't this normal?"

"that's normal," lin yi nodded.

at this moment, the queen came over with the information given by shen sanchi. " "This puppet show is paired with the special rules of the freshman battle. It's really quite interesting. You have to properly arrange the order of appearance."

" it's not hard to determine the order of the other three academies, " xu anshan said. " it's bound to be the strongest who will go first, but it'll be a little troublesome for us. "

According to the new rules of the freshman battle, other than the first batch of freshmen that was sent out, the next batch of freshmen would have to complete the corresponding mission objective before they could be sent out.

in other words, if the freshmen at the front weren't strong enough and were killed by the other academies, they would be declared a failure.

Although the possibility of this happening was low to reduce the influence of accidental factors, it could not be completely ruled out.

If they were really unlucky, they would really lose the whole game.

No Academy could afford to gamble on such a possibility.

Therefore, the strong came first. This was almost the only strategy that each Academy had. This way, not only could they ensure their own safety, but if the time was right, they could also launch a surprise attack on other competitors and directly kill them while they were still in their infancy!

the great zhou academy had qin shizhen, the hero academy had return to zero, and the eternal river academy could choose between yuxing and ye jia.

On the other hand, the seven new students of Jianghai Academy, be it li Jingning, who was the core of the team, or Wang Yanqing, who was an expert in the art of poison, were clearly weaker than the people above them.

No matter which of them was the first to be teleported, they could not eliminate the risk of being attacked and killed.

If they were to encounter any one of them, be it Li Jingning or Wang Yanqing, they would be at a complete disadvantage. Even if Wang Yanqing's poison technique succeeded, he would only be able to protect himself at best.

As for killing the opponent, he didn't even need to think about it.

From this point alone, it could be seen that the new rules were disadvantageous to the students from Jianghai Academy.

It wasn't just the start that was dangerous, the rest of the match was equally dangerous.

After all, the strength of the seven-person shared fate lay in the fact that Li Jingning could gather the strength of all seven of them in one spot and burst out. One of the most important prerequisites for this was that the lineup had to be complete!

If they couldn't even guarantee a formation of at least seven people, then the advantage of a seven-person formation was naturally impossible to talk about.

The most likely result would be that Li Jingning's group had worked hard to get through the most difficult opening, but in the end, they would inevitably suffer losses in the middle, unable to stack up their lineup advantages, and eventually unable to lose.

The Queen pursed her lips, "You call this a little trouble?" Do you have some misunderstanding of the word "slightly"? To us, this is completely the sinkhole rule, alright? It's a hell-level difficulty!"

Lin Yi waved his hand, "there's no point talking about this now. There's always a way out. No matter how bad the rules are for us, we'll still be able to find a way to deal with it."

"besides, it's not like there's no good news at all."

everyone was stunned for a moment before they reacted. "you mean the puppetry system?"

"the alliance's puppetry is basically turning the target into a puppet, with someone controlling it from behind the scenes."

during this process, the controller can deeply cooperate with the target's own consciousness, fully mobilizing the full potential of the marionette.

because it's the latest research result, no one has had the opportunity to touch it up close, except for the internal testers in the technology Department.

Chapter 10387

The Queen was confused. others can't come into contact with it. We can't either. How is this good news? "she asked.

Xu Anshan, on the other hand, was deep in thought. "Shared fate?"

"not bad!"

"to be fair, the alliance won't let anyone in on this. the other three only have access to the tech department's internal information," lin yi said seriously.

"but the information is one thing, and the actual operation is another."

but we have a natural advantage. We can use the shared life to simulate the puppet system, allowing the new students to get used to the feeling of the marionette in advance and form a tacit understanding with the operator.

Hearing this, everyone's eyes lit up and they were enlightened.

the advantage of adapting in advance could be significant or insignificant, but for the students of jianghai academy who were naturally targeted by the new student tournament rules, this was a life-saving straw.

the queen couldn't help but say, " who was the one who suggested the puppet show? we really have to thank him. otherwise, we'd be in deep trouble. "

"I do have to thank him."

if Lin Yi had known what happened during the board meeting, he'd understand why Sanchi was so eager to get on his good side.

Other people might not be able to tell which Academy the puppet show had the greatest impact on, but as the person in charge of the freshman battle, Shen San Chi was definitely clearer than anyone else!

Shen San Chi would never believe that the black-haired elder had no intention of helping Jianghai Academy.

The following days were even more rigorous closed-door training.

The intensity was so great that even Li Jingning and the others couldn't help but complain.

However, they were also clear that if they didn't suffer now, they wouldn't even have the chance to suffer once the new student competition ended.

It continued until the day before the start of the freshman battle, when everyone finally ended their high-intensity closed-door training.

Lin Yi brought them to the Imperial Kitchen to have the most down-to-earth hotpot and rest up for tomorrow!

The owner of the Imperial Kitchen, Li Chang, personally came out to accompany him.

Li Chang's eyes brightened at the change in Li Jingning's aura. He turned to Lin Yi, "brother Lin, I have to ask you this question. How did you manage to train my Li family's thousand Li horse?"

To be honest, in the past, even if they were related by blood, Li Chang still looked down on Li Jingning, the grandson of the family.

There was no other reason. He was too arrogant and had his eyes on the top of his head. Even if his current momentum was good, in his opinion, he would not be able to achieve anything.

However, in just a month's time, Li Jingning, who had reappeared in front of him, had learned to restrain himself, even though there was still arrogance flowing in the depths of his eyes.

A useless piece of Jade, after Lin Yi's training, had blossomed with the light of an unpolished jade.

Li Chang was also known as Little Meng Chang. He had made countless friends and knew countless people. Naturally, he knew how rare this was!

Lin Yi smiled, "I don't dare to claim credit for that. Young people mature naturally after experiencing more things. This is his own fortune.

Li Chang looked at Li Jingning and laughed. He raised his glass to Lin Yi, "I understand. I thank you on behalf of my Li clan. Thank you for your hard work, brother Lin. I'll drink this!"

"Brother Li, you're too kind. Please."

lin yi also raised his cup and drank.

Li Jingning suddenly stood up and raised his glass to Lin Yi, instructor Lin, I'll give you a toast. After the freshman battle, I'll give you three more toasts!

The meaning of his words was self-evident.

The rest of the new students stood up as well, toasting to Lin Yi.

Li Chang looked at this scene and nodded. "not bad, not bad. advancing and retreating together. in just this one month's time, there's already a tacit understanding that can be seen with the naked eye. it seems like many people will go bankrupt in this year's freshman battle."

there was no lack of outer areas in any competition, and the divine kingdom on land was no exception.

The new student battle this time was the focus of everyone's attention, attracting the attention of almost the entire divine Kingdom on land. Just the amount of gambling capital that the Alliance headquarters had absorbed was an astronomical figure that ordinary people wouldn't even dare to imagine.

of the four academies, jianghai academy was the most difficult to understand compared to the other three, and was naturally the least favored.

Some of the experts had guessed Lin Yi's plan-seven people sharing their lives was a good idea, but first of all, no one knew if this seemingly perfect plan would actually work or how far it would go.

Secondly, after the new student tournament rules were announced, anyone with a discerning eye could see that it was disadvantageous for Jianghai Academy!

as a result, jianghai academy's bets fell to the lowest point.

One to sixty.

If not for the fact that there were people who thought they could pick up a bargain and placed their bets on Jianghai University, the odds would have been even lower.

Even now, there were still many gamblers who had placed their bets on Jianghai Academy, crying for their parents in regret.

some of them even tore up the bill!

"brother li, didn't you buy some to play with?" lin yi said, his tone meaningful.

Li Chang laughed, "I'm actually not that interested in gambling. I'm just looking for a few people to do some calculations and mix them up to bet on some counter-charges. However, I've insisted on betting. Brother Lin, I've placed quite a lot of bets on your Jianghai Academy.

"I hope brother li won't have to pay for it."

lin yi smiled faintly. he'd used all of jianghai college's funds to buy this territory, and he was one of the biggest buyers.

the two of them laughed without saying anything.

Halfway through the wine, Li Chang suddenly said, " "Brother Lin, have you been in contact with Zhao Xian, who came with you last time?"

"Yeah?" Lin Yi blinked, "I've been in isolation lately, what's up?"

" i heard that he's not in a good situation at the zhiwei pavilion. it seems that he made a mistake. not only was he removed from his position as a manager, but he was also chased back home for his debt. "

li chang swirled his wine glass and said, " i saw him on the streets a few days ago. he was looking for work. i heard that even his house was used to pay off his debts. it's not easy for a big family to live in a small alley. "

"Thank you for the information, brother li."

"zhao xian helped me a lot last time, so i can't just sit back and do nothing about it. but tomorrow is the new student tournament, so it's not convenient for me to see him right now. i have a presumptuous request, and i hope brother li can help me."

li chang smiled, "brother lin, just say the word. i don't have any other hobbies, but it's a good thing. it's my honor that you can ask me for help."

"I'd like to ask li bro to come out and calm Zhao Xian's family down. I'll go and discuss it with him after the new student tournament."

Zhao Xian was a talent, and a rare intelligence talent at that.

if there was a chance, lin yi wanted to get him under his wing. with a local intel expert like him, jianghai college could build their own intel network here, and it would save them ten years of time.

Chapter 10388

"It's a small matter, I've already arranged for them to stay in our li clan's gathering area. No one will dare to bully them."

li chang agreed with a smile.

"As expected of little Meng, thanks." Lin Yi raised his glass.

the next day, the four academies brought their seven freshmen to gather together. under the alliance's executive shen san chi's lead, the anticipated freshman battle officially began.

Compared to the previous selection of freshmen, this time, other than Shen san Chi who was in charge of the freshmen competition, only a few other alliances that were on good terms with the various Academies came to carry out the operation.

As for the nine big shots of the Supreme Board of Directors, none of them showed up. They didn't even send a representative to attend.

just from the scale of the scene, the new student battle was far worse than the new student draft a month ago.

however, everyone knew that those nine powerhouses who had yet to reveal themselves were also silently watching this freshman battle.

after today, some of the relationships in the light and in the dark would inevitably gradually surface.

"the rules have been announced. everyone, please get ready."

After the short opening speech, Shen Sanchi didn't say anything unnecessary and directly ordered the people to open the special transmission channel to the secret realm area thirteen.

In such a rare occasion, if it was someone else, they might still want to show off and say a few words to brush up their presence, leaving a little impression on the nine big shots and the other major figures who were paying attention to this freshman battle.

but shen san chi was obviously not that stupid.

He always had a good grasp of what he should do in any situation.

In addition to his strength and background, he was able to get to his current position in the Alliance mainly because of his reliable ability to do things. As long as it was in his hands, he would handle it well.

Such a person might not be the absolute confidant of any Big Shot, but he was definitely an indispensable backup for any large force, including the Alliance of Academies.

Due to the special rules of this year's new student tournament, the organizer had ordered people to seal off the special transmission channel.

the four academies had four entrances. not only could outsiders not see them, but they could also not spy on each other. this way, they could put an end to the possibility of spying on each other's order of the freshmen.

This was especially true for the crucial starting freshmen.

apart from that, the representative teachers of the various academies were also getting ready in the control seats of the puppet show system.

since each school could only have one person in charge, there was no doubt that lin yi would be the one in charge.

Xia wubing was from Dazhou college, and Chen guanqi was from hero college. These two were very normal. Since they could be the team's instructors, their comprehensive abilities were definitely higher than the other instructors.

what was truly surprising was that eternal river academy had actually sent harlin.

although harlin was the full representative of the eternal river academy, it was obvious that the eternal river academy was not interested in his personal strength, but his influence as a star.

his greatest use was to create momentum for the eternal river academy.

as for this kind of technical work that highly valued personal strength, no matter which side it was, they expected that they would send a professional to replace him.

After all, although the puppet show didn't require the operator to be on the stage personally and didn't seem to require much of an individual's strength, it had extremely high requirements for the operator's combat literacy and combat experience.

if you can't even compare to the freshmen in these two aspects, then what's the point of controlling them? you might as well just let them do whatever they want.

No matter how he looked at it, Harlin didn't have such strength, and there was no possibility of him pretending to be a pig to eat a Tiger.

that didn't fit the style of the eternal river academy.

since the operators from all four schools were in the same sealed cabin, lin yi and the other two's surprised looks naturally couldn't escape harlin's eyes.

"you're all surprised, right?"

Harlin sneered. there's no hurry. There'll be more surprises later. Let me be humble and tell you, the eternal river Academy will have the last laugh in this freshmen battle. No matter how much you guys scheme, you're just a sidekick.

"Oh right, your Jianghai Academy is too weak. You don't even have the right to be a sidekick. You're more like cannon fodder."

to start a group fight without saying anything was an absolutely unwise and stupid move no matter where it was placed.

However, when it came to the eternal river college, it gave off an unexpectedly harmonious feeling.

If he didn't do this, everyone would find it strange.

lin yi raised his eyes indifferently. "Being cannon fodder isn't bad either, it's better than being used as cannon fodder."

Xia wubing and Chen guanqi looked at each other. These words had a deeper meaning.

While they were talking, the first batch of freshmen from each college had arrived at the 13th section of the secret land through the special transmission channel.

the secret realms were huge, and even if they were not as big as the divine kingdom on land, they were not far from it.

such a large mystery realm, in addition to the many temples in it, was vaguely related to many gods. therefore, even with the strength of the alliance of divine academies, it was impossible to completely occupy it.

But the 13th section was an exception.

The Alliance had personally sent their own Masters to open up the 13th area, so they had absolute control over the area. Even the other gods couldn't extend their hands into this area.

There were opportunities everywhere in the secret lands, especially in the 13th District, which was a newly explored area. Many people dreamed of coming in.

unfortunately, ordinary people did not have such qualifications.

This included the God-ranked Academies under the jurisdiction of the Alliance. It wasn't easy for them to obtain an entry quota. Only the group of new prodigies directly recruited by the Alliance had such a privilege.

The new student battle was admittedly a harsh test for them, but at the same time it was also a hard to come by reward.

This point could be clearly seen from the expressions of the two eliminated freshmen who were isolated from the competition and could only watch like the others.

It was worth mentioning that in order to show off the league's unparalleled Foundation, the officials had specially arranged for a live broadcast of the entire match.

today, just the number of viewers watching the live broadcast of this freshman battle exceeded 10 million!

Even with the most conservative estimate, there were at least 200 million people spectating the freshman battle.

in fact, the number of online users at the peak of the game even exceeded one billion, which was an unprecedented number in the divine kingdom on land.

One must know that the entire population of the God Kingdom on land was only 1.5 billion.

In other words, today's match, which represented the standard of the strongest new students in the Alliance, had already successfully attracted the attention of almost everyone in the country.

This was not only a grand event for the gamblers, but also an unprecedented national event!

And in order to coordinate with this Grand occasion, the Alliance had even sent out two quasi-Alliance experts to be in charge of the official commentating of this freshman battle.

This was a high level figure who was only second to the Alliance's executive officers. Under normal circumstances, it would be difficult for ordinary people to even meet him. This showed how much importance the Alliance placed on this freshman battle.

In comparison, the fact that the nine big shots didn't personally appear was a form of protection for the freshmen battle.

after all, each and every action of those nine people would attract the attention of too many people. once they appeared, they would instead overshadow the host and steal the limelight that should have belonged to the freshmen.

in fact, there was a possibility that it would be interpreted by others in many different ways, causing this freshman battle to lose its original purity.

alright, the starting freshmen of the four Academies have all entered the stage.

along with the commentator's voice, the screen switched to the map of the entire 13th district of the various secret realms. at the same time, it also marked the location of every freshman who entered the arena.

the starting positions of the four people just so happen to be in the North, South, East, and West. The distance between each of them is neither too far nor too close. They are all within the range of one to two thousand miles.

"the distance is very particular."

for ordinary people, a thousand miles is naturally a long journey. It may take several days to walk on foot.

" however, for supreme realm experts, especially those who specialize in speed, it would only take an incense's time. "

if there's someone with spatial ability, it'll be even easier. It'll only take a breath's time to cross this distance.

" however, none of the four freshmen should be good at spatial rule power. otherwise, the situation would have been tense from this moment on, and we have to be careful of the first drop of blood at any time. "

as expected, Qin Shizhen is from the great Zhou Academy, zero is from the hero Academy, Ren Yuxing is from the eternal river Academy, and pang rulong is from the Jianghai Academy? "

hmm, that's a little unexpected. It's neither the strongest overall, li Jingning, nor the poison master, Wang Yanqing. It seems like Jianghai Academy has made specific arrangements for the starting lineup.

A female official commentator spoke with fervor and assurance, giving off the aura of a professional commentator.

this person's name was yu shishi. she was a rare female high-ranking official in the alliance headquarters. because of her outstanding beauty and graceful manner of speaking, she had many suitors.

on the other hand, the other male commentator who was sent out this time did not seem so professional.

He held a bottle of wine in his hand and took a sip from time to time. His eyes were drowsy and he looked like he was about to collapse at any time. If it wasn't for his position as the executive of the Alliance, he would have been spat out by the netizens in the live broadcast room.

his name was song zhong, a famous drunkard in the alliance headquarters. he had been impeached many times for drinking and causing trouble. at the worst time, he had even been promoted to the supreme board of directors.

It was unbelievable that the nine big shots of the Supreme Board of Directors would spend time discussing the decision of a quasi-Alliance executive.

but in the end, he still stayed.

From then on, no one dared to look down on him. After all, anyone who could survive the personnel discussion of the Supreme board was a tough nut to crack.

however, this time, he was called to commentate on the live broadcast. such a strange arrangement was indeed a little outrageous.

Even if Yu Shishi had a million questions in her heart, she could only bite the bullet and partner with him.

"ms. song, when do you think the first drop of blood will appear?"

Yu Shishi tried to interact with Song Zhong.

In the end, Song Zhong looked at the screen in a drunken state and rolled his eyes."now."

"Ha?"

Yu Shishi was speechless. " but they're more than a thousand miles away from each other, and there's no sign of them getting close to each other. they won't start fighting for a while, right? "

Song Zhong burped without any regard for his image,"who said i can't kill people from thousands of miles away?"

as soon as he finished speaking, he saw ren yuxing standing in the field, drawing his bow and arrow. then, under the shocked gazes of hundreds of millions of people, he shot an arrow in each of the other three directions!

what the hell?

many of the spectators from the divine kingdom on land had seen many things before. they had seen all sorts of grand scenes of experts exchanging blows, but they had never seen such a scene.

What a joke, that was a thousand miles away, and the furthest target was even two thousand miles away. No matter how strong an Archer was, he couldn't be so unreasonable, right?

even a movie wouldn't dare to shoot it like this!

"that's impossible, right?" yu shishi was dumbfounded.

as a quasi-executive of the alliance, her strength was naturally far from that of ordinary people. her vision was also not to be underestimated. however, even she had never seen or heard of this scene before her.

unless you have the ability to manipulate space, you can directly skip the huge distance in space. Otherwise, no matter how strong an Archer is, they can't avoid the rapid decline of the power of the bow and arrow!

it's a thousand miles away. Not to mention that it's difficult for ordinary arrows to reach such a terrifying range, even if they could, their power would be reduced by more than ninety-nine percent.

"This little bit of power can't cause any real threat to experts of the same level."

"what you said is common sense," song zhong replied faintly, "but these people are here to break common sense. just because we can't do it doesn't mean they can't do it."

In terms of overall strength, compared to the two quasi-Alliance experts, the freshmen were naturally inferior.

however, the new generation would always surpass the old. the future heights of these new students, especially the few monstrous new students in the lead, might not necessarily be inferior to the experts of their era. it was even very likely that they would far exceed them.

At the very least, whether it was Song Zhong or Yu Shishi, both of them had never displayed such a ferocious performance in their freshman years.

while the two of them were talking, three long arrows had already rapidly approached their three targets.

this speed had even surpassed the supersonic missiles of the secular world!

yu shishi and the countless netizens in the live broadcast room were collectively dumbfounded as they looked at the live broadcast screen displayed by the surveillance cameras.

However, the other three first-year students who were involved were still at a loss about all this.

it was not just them. the instructors who were deeply connected to the first batch of freshmen through puppet shows could not see the live broadcast outside. the only information they could get was the real-time sensory transmission from the first batch of freshmen and the performance of the other three academies' instructors in the same room.

normally, the instructors would pay special attention to this, and would not easily let the opponent decipher any valuable information from their expressions.

but harlin was an exception.

Anything that involved the eternal river Academy would always have a strange change.

Just like at this moment, Harlin didn't even try to hide his pride. Instead, he looked at the three mentors one by one.

Chapter 10390

"The fun is starting now. Why don't we guess which unlucky family will be the first to be sent away?"

everyone was surprised.

but no matter if it was xia wubing, chen guanqi, or lin yi, they didn't show any change in expression.

it was only when they felt the long arrow coming through the air that the three instructors' hearts skipped a beat.

the long-range threat from ren yuxing would definitely be mentioned in the pre-match preparations of any opponent academy, and would definitely be the target of focus.

After all, to a certain extent, this thing was even more dangerous than Qin Shizhen and return to zero.

those two were tyrannical, but as long as they kept their distance, they could always ensure their safety. however, ren yuxing's long-range sniping was impossible to guard against!

Even so, everyone was still greatly shocked by Ren Yuxing's opening of the door from a thousand miles away!

i know you're arrogant, but i didn't know you were this arrogant!

in the eyes of anyone with a little common sense, no matter how heaven-defying ren yuxing was, even if he could really shoot an arrow a thousand miles away, he would be an arrow at the end of its flight by the time he reached the target and would no longer have any substantial lethality.

however, what happened next made everyone break out in cold sweat.

Out of the three targets, the first one to be targeted was Qin Shi Zhen, who was the closest.

He was chosen by the Dazhou college with lot number one and was known as the most popular super rookie of this year's rookie King.

Although he had the image of an honest old farmer, and even the personal information given by the mainstream intelligence agencies, the most evaluation of him was simple and unadorned, no one dared to underestimate his strength.

in fact, even in the vast majority of intelligence evaluations, he and return to zero were considered super rookies on the same level.

however, in the eyes of a true expert, qin shizhen was actually better than return to zero by half a level.

There was no other reason. Even though the two of them had the same terrifying potential, Qin Shizhen's personal style was much more clear than return to zero's.

It was to highlight the simplicity!

On the other hand, return to zero's personal style was constantly changing. Although he had already shown some more obvious future trends, he had not completely settled down.

On one hand, it was possible for him to return to zero. On the other hand, it also meant that his true combat strength was not as reliable as Qin Shizhen's!

at a crucial moment, it might drop the ball if it hit zero, but qin shizhen would definitely not.

just like now, when faced with the sudden attack from a thousand-mile shot, he didn't even need the reminder of his mentor, xia wubing, who was bound to his consciousness through the puppet show. he had already made the most accurate response.

he didn't dodge, he didn't dodge, he just drew his saber to fight!

It was a simple vertical chop without any gaudy moves. The entire posture fell into the eyes of hundreds of millions of people. There was really nothing profound to speak of. Just from the scene presented, it looked like an old farmer chopping firewood.

however, when this scene fell into the eyes of the experts, it made everyone's hearts tremble.

"Nothing to be picky about!"

even the drunk song zhong's eyes lit up in the commentator's box.

Yu Shishi's eyes also lit up. it's just a simple action. How can it give people the feeling of a beautiful painting? "

women were born to love beauty, especially with her personal background. she had a strong attachment to beautiful things that ordinary people could not understand.

Normally, regardless of appearance or combat style, Qin Shizhen would not be as likable as return to zero. Even she herself thought so.

However, when she saw Qin Shizhen's blade, she immediately sank in.

she even had a strange thought that she would not get tired of watching qin shizhen chopping firewood for a year!

In reality, she wasn't the only one who had such thoughts. Qin Shi Zhen's ordinary slash had captured the attention of the hundreds of millions of viewers in the live stream.

song zhong sipped his wine and nodded. " skills are close to dao. this is the charm of dao. "

Pfft!

the podao in qin shizhen's hand collided with the long arrow.

the long arrow carried unparalleled strength, but it was cut in half by the podao.

If the camera only focused on this scene, the audience would not be able to understand how terrifying Ren Yuxing's thousand-mile sniping was. After all, if they only looked at Qin Shizhen's response, they would at most say that it was nothing good.

the entire livestream room fell silent when the camera shifted to show the scene behind qin shizhen.

The primitive forest of over a hundred square kilometers behind him was razed to the ground by the aftershock of the arrow. Not even a speck of dust was left!

Everyone was speechless.

"i knew that ren yuxing was very fierce, but i really didn't expect him to be so fierce!"

"it's a good thing that it was qin shizhen-any other golden class early phase venerable would've been turned to dust by that arrow!"

"Early phase of the Golden class my ass-even a peak early phase golden class venerable wouldn't be able to take that arrow head on! He'd die there no matter how tough he was!"

hundreds of millions of viewers were discussing.

ren yuxing and qin shizhen's exchange of blows from thousands of miles away had already vividly reflected the strength of both sides. many of the other proud and arrogant new students of the same grade from the other divine ranked academies immediately fell silent after seeing this scene.

People were different from each other, and freshmen were different from each other.

it was only now that they deeply understood why the specially recruited freshmen under the alliance were the people present and not them.

At the same time, Harlin, who was in the laboratory, was observing Xia wubing's reaction.

As a person in the game, he could not directly see the live broadcast like the hundreds of millions of spectators outside the field. If he wanted to know the results, he could only indirectly observe through the expressions of several other opponent instructors, except for Ren Yuxing, who was deeply connected to his consciousness.

He was just waiting to see the other three's wonderful expressions when they were killed.

unfortunately, xia wubing had no reaction.

In reality, even though that arrow had appeared to be extremely dangerous, there was no need for her to remind Qin Shizhen. There was even no need for her to intervene. Qin Shizhen had already dealt with it himself.

"Tsk, tsk, women are so good at pretending."

Harlin pouted in disappointment and then turned to look at Chen guanqi from the hero Academy.

according to the distance, the next one would be return to zero, which their academy had chosen.

After witnessing Qin Shizhen's performance, the hundreds of millions of viewers were completely stirred up. Their focus was now on return to zero!

The performance of this legendary duo, who was on par with Qin Shizhen, did not disappoint the crowd.

in the face of the long arrow, his figure was like a knife. the live broadcast could not capture his movement trajectory at all. only a blurry image could be seen, followed by the broken arrows that were dismembered on the ground.

Everyone was shocked.
