

Bodyguard 10391

Chapter 10391

"Isn't Yingying much more powerful than Qin Shizhen?"

The audience in the live broadcast room reacted and quickly flooded the screen.

Other things aside, just looking at the two's performance against the incoming arrows, Return to Zero's skill was much better than Qin Shizhen's.

"Ms. Song, what do you think of the two of them?"

The commentator, Yu Shishi, took the opportunity to shift the topic to Song Zhong.

Song Zhong, however, raised his eyelids in a drunken state. "Nothing much, it's pretty good."

The meaning of his words was gaudy.

However, Yu Shishi shook her head, "I don't think so. Return to Zero's move is not only beautiful on the surface. If you slow it down, you'll realize that there are no unnecessary movements. It's simple and straightforward. Just like Qin Shizhen, it can be considered a skill that is close to the essence."

Song Zhong did not reply.

the hundreds of millions of viewers felt the same way. beauty was justice. compared to the honest and humble qin shizhen, return to zero's personal image and combat style were countless levels higher.

Anyone with a little bit of vision would definitely stand on his side without hesitation.

"next up, it's jianghai academy's turn,"

Following Yu Shishi's meaningful reminder, the focus of the live broadcast was directly focused on the last target of Ren Yuxing's three arrows, Jianghai Academy's first freshman, pang rulong.

"The first drop of HP is coming!"

The hundreds of millions of spectators who were watching the show suddenly became interested.

Before this, even if Ren Yuxing had shot three arrows in all seriousness, most of them would not have taken it seriously.

killing with an arrow from a thousand miles away, this kind of thing was really too far-fetched.

However, after seeing how Qin Shizhen and Return to Zero dealt with it, even if the two of them were safe and sound, everyone could still see the horror of Ren Yuxing's thousand-mile sniping.

The reason why Qin Shizhen and Gui Ling were able to pass the test safely was not because Ren Yuxing was too weak. On the contrary, it was because these two people were too strong!

It was also because of the strength of these two people that indirectly verified Ren Yuxing's strength at the same time.

All the pressure was now on Pang Rulong.

As a freshman of Jianghai Academy, he carried the hope of the entire Academy on his shoulders. He could not afford to be the slightest bit careless. If anything were to happen to him, it would mean that the entire Academy would be eliminated from the upcoming freshman battle.

In terms of position, he was in a much more advantageous position than the other two.

Regardless of whether it was Qin Shi Zhen or Gui Ling, their initial positions were only about 1000 miles away from Ren Yuxing, but Pang Rulong's position had already been extended to nearly 2000 miles.

According to normal logic, the power of the bow and arrow would decrease rapidly as the distance increased.

even if it was only 100 miles long, its power would be reduced by more than 90%!

"a thousand miles has become two thousand miles. the threat that pang rulong is facing is probably less than one percent of the previous two. this is a great fortune for jianghai academy."

Yu Shishi's tone was full of regret.

as a commentator and host, she was supposed to be neutral. however, it was clear that pang rulong wasn't as impressive as the other three. if there were fewer people on the field, he would be the one to be eliminated.

the bullet comments in the live broadcast room echoed.

If pang rulong had been in the same position as Qin Shizhen and the other man, about a thousand miles away from Ren Yuxing, most of the spectators would have thought that he was a corpse by now.

Qin Shizhen and GUI Ling might be able to take on a thousand-mile snipe, but he, pang rulong, might not be able to!

"that might not be the case. he might be the one with the worst luck," song zhong shook his head.

"what do you mean?"

everyone was confused.

In the lab, Harlin was looking at Lin Yi with a playful look on his face. "i'm really sorry, you obviously racked your brains to come up with a magical lineup of seven people sharing the same fate. tsk tsk, to be honest, even i have to praise you for your big spending."

"unfortunately, in the face of absolute strength, no matter how wonderful your plan is, it's just self-deception."

"Seven people sharing the same fate? Hehe, I'll let you die immediately!"

As he spoke, the last arrow had already crossed a distance of two thousand miles and was now in front of pang rulung.

Immediately, everyone realized that something was wrong.

"Are my eyes playing tricks on me? Why do I feel like it's getting stronger instead of getting weaker?"

" that's right. look at the aftermath of the airflow it brings up. the primeval forest below is as if it has been plowed. even if you dig three feet into the ground, it's only this much. damn, this is ridiculous! "

the further the distance, the stronger the power. Is this the rule power that Ren Yuxing has mastered? "

"Could it be the law of acceleration? i don't think so?"

The live broadcast room was in an uproar.

it was undeniable that everyone had miscalculated the threat of ren yuxing. the power of the bow and arrow he shot was exactly the opposite of the conventional knowledge. not only would it not weaken with the distance, but it would only become more and more terrifying.

"Ren Yuxing's rule power has two types: locking and stacking," Xi songzhong explained.

any single rule power is not that overbearing compared to other rule powers, but the chemical reaction produced when the two are combined is not something that ordinary rules can compare to.

"the law of superposition, as its name implies, can continuously overlay one's power, and then easily break through the limits of common sense."

the longer the time span and the greater the distance in space, the more terrifying the power it can stack. Once it's concentrated, it'll only take a few minutes to kill someone of a higher level.

however, it has a huge weakness. The longer the stacking process, the harder it is to hit the target. After all, the opponent is not an idiot. They will not stupidly stand still and wait for you to kill them!

"however, this weakness has been perfectly resolved after the patch of the locking rule."

because of the locking rule, as long as the opponent is within the target's range, you will never be able to escape its pursuit. The further you run, the more miserable your death will be!

Even the most ignorant passerby understood pang rulong's situation after his explanation.

to be precise, it was a desperate situation.

Yu Shishi sighed, I thought that pang rulong had drawn the best lot, but it turned out to be the worst. The power of this arrow is at least ten times stronger than when Qin Shizhen and return to zero were fighting.

"it's the jianghai academy's fate to have met such an opponent. what bad luck."

almost everyone had given pang rulong the death sentence.

Pang rulong didn't try to escape.

no one was surprised by this.

Chapter 10392

since ren yuxing had mastered the locking rule, there was no point in running away from him. after all, he was destined to be unable to get rid of him. in the end, he would only run further and die more miserably!

However, if he didn't escape, the outcome would still be death.

f * ck, this is so exciting right from the start. Are you guys even reasonable? "

Pang rulong cursed, but his expression was calm. At the last moment, he said, " "i'll leave it to you, instructor lin."

in an instant, his body was taken over by lin yi.

In the next second, the beastification rule power gushed out, and he turned into a mountain-like beast on the spot.

The wind and rain were heavy, and the sound was like thunder. He stood on one foot, and his back was green.

it was the legendary kui!

"This guy can actually transform into a kui cow? as expected, those who were directly recruited by the alliance are not easy to deal with!"

The live broadcast room was in an uproar.

the kui was a ferocious beast in myths and legends. to be able to occupy a place in the long history, it was naturally no small matter. in the future, as long as it fully matured, it would be a tyrannical existence that could dominate a region outside.

"what a pity, you'll have to throw away the goods when you compare them, and you'll die when you compare people!"

it can only be said that it's fate to encounter a freak like Ren Yuxing. So what if I transform into a kui? with a two-thousand-mile-long stack, the general trend is over!

if it was a thousand miles shorter, at Qin Shizhen and return to zero's position, he might be able to hold on. Unfortunately, it's too late now.

even though they knew how powerful kui was, the billions of spectators still chose to mourn for pang rulong in advance.

At the same time, they were also mourning for Jianghai University.

according to the rules, once there were no survivors, it meant that they had been eliminated. this was the time when accidents were most likely to happen.

even though not many people thought highly of jianghai academy before the match, it was still unexpected that they would be sent flying by an arrow.

in the end, pang rulong didn't even try to dodge the arrow that was imbued with massive kinetic energy. instead, he let out a roar.

Immediately, more than half of the battlefield within a radius of a thousand miles was directly enveloped by the rising and falling sound of the war drums!

Wave after wave of majestic sound waves crashed into the incoming arrows like roaring waves in the sea, endless!

under everyone's dumbstruck gazes, this two thousand li snipe that was enough to instakill most of the freshmen actually had its terrifying might forcibly offset by more than 90% by the kui war drum's sound.

"what a good battle drum as a shield, you really came up with it!"

Yu Shishi couldn't help but exclaim.

Like most of the audience, she had already silently sentenced pang rulong to death in her heart. No matter how hard he struggled, it would all be in vain.

Who would have thought that it would turn out like this!

song zhong mumbled, " this is not an ordinary battle drum as a shield. it's the overlapping of sound waves, which then turns into multiple explosions. this is the only way to offset the power of the thousand li sniper. otherwise, it'll be useless no matter how many sound waves there are. "

Yu Shishi was stunned for a moment, "pang rulong doesn't seem to know how to stack rules, right?" Just with the addition of the rules of beastification, he can control the kui cow's exclusive ability to such an extent. It seems that all of us have underestimated his talent."

just based on this point, he might not be as good as the hard talents, but at least in terms of soft talents, he definitely won't lose to Qin Shizhen or return to zero!

"This isn't his level."

song zhong shook his head and subconsciously glanced in the direction of the laboratory with his drunken eyes.

"you're saying that this is the work of that mentor from jianghai academy? i think his name is lin yi?"

Everyone came to a realization.

The puppetry system was one of the highlights of this year's new student battle. At critical moments, the instructors could take over the new student's body and use their own battle accomplishments and experience to help the new student pass. This had already been publicized before the competition.

The Arrow's momentum had been exhausted, and it still landed on pang rulong's kui. However, the kui was a legendary beast, and its physical strength was no exaggeration.

in the end, the remaining ten percent of the bow and arrow's power only managed to penetrate the kui cow's skin. at first glance, it seemed that the kui cow had suffered a great impact, and was pushed several miles away by the aftermath.

However, in reality, anyone with a discerning eye could see that this was only a superficial wound, far from the point of serious injury.

" three arrows were shot out, and the thunder was quite loud. unfortunately, none of them were sent away, not even seriously injured. ren yuxing is in an awkward position now. "

"at least his position has been exposed."

" if nothing goes wrong, the other three families will think of ways to close the distance and won't give him another chance to kill from a thousand miles away! "

once a strong Archer gets close to someone, especially someone like Ren Yuxing who likes to keep a distance, he'll be crippled.

"Yeah, the eternal river Academy is in trouble."

the focus of the bullet screen in the live broadcast room immediately shifted to the eternal river academy and ren yuxing.

that was the truth.

Even though the three arrows from before didn't have any substantial effect, especially on Qin Shizhen and return to zero, the threat they posed from the start to the end was rather limited. However, the three freshmen, including pang rulong, started to approach Ren Yuxing's position at the same time.

Yu Shishi analyzed the location on the map and commented, "from the looks of it, the eternal river academy has indeed made a mistake. their advantage has been turned into a disadvantage. it's going to be a little difficult."

I have to say, it's a perfect idea to send one away and seriously injure the other two at the same time, but they might be a little too optimistic.

"it's always been a glorious tradition of the eternal river college to be whimsical. if it wasn't so whimsical, how could it still be called the eternal river college?" the bullet comments in the live broadcast room continued.

commentator xi songzhong hiccuped, " "Although the way the eternal river Academy does things has always been strange, it's still a Great Academy that has crossed the threshold of God-ranked Academies. Do you really think that their brains are that simple?"

"Whoever believes that is a fool."

this sentence immediately silenced everyone in the live broadcast room.

If it was anyone else who said this, they would definitely be flamed for mental disorder. However, in the face of this slovenly drunkard, the average person really didn't have the courage to scold him.

not to mention this group of ordinary spectators, even yu shishi, who was sitting in the commentator's seat, was embarrassed.

although they were both quasi-alliance executors, she was inferior to the other party in terms of strength and qualifications. even if her background was deeper, she did not dare to easily refute the rules of the alliance.

besides, she really didn't see the deep meaning behind the eternal river academy.

Yu Shishi could only ask, "could it be that this situation is also part of the eternal river Academy's plan?"

"There's nothing easy to deal with in this match."

song zhong pursed his lips and said, losing all three arrows wasn't the opening that the eternal river Academy wanted, but it was definitely within their plans. These three arrows definitely weren't as simple as they seemed.

yu shishi was confused. " even if they have a backup plan, it's not fake that they're in a passive position. they can't possibly want to create this situation, right? "

"who knows?"

Song Zhong shook his head indifferently, but he had no intention of continuing the analysis.

Although the hundreds of millions of spectators were dissatisfied, they didn't dare to pester him. Instead, they began to guess the direction of the situation.

Although Ren Yuxing's first attack was a little like trying to steal a chicken only to end up losing the rice, this kind of back-and-forth game was definitely not a bad thing for the audience who did not mind watching the show.

At this moment, the live broadcast camera was split into four, all of them locked onto the freshmen of each team.

"according to the rules of this year's new student battle, if the new students of each academy wish to take the stage, they must find the abandoned temple and repair the temporary teleportation array."

Yu Shishi explained the rules and analyzed, " this isn't just a test of combat strength. it's also a test of the freshmen's overall strength in all aspects, and even their luck. "

"if there's a shortcoming in any segment, it could drag us down."

once a situation where more people are involved in the fight, the side with fewer people will immediately fall into a huge disadvantage. Even with Qin Shizhen and return to zero's strength, they will be in a very passive position if they want to make up for this disadvantage in numbers!

"What do you think, Ms. Song?"

Song Zhong nodded. speed is the most important thing in war. Next, it's time for everyone.

As a result, just as he finished speaking, Ren Yuxing suddenly released three arrows. Just like the opening, he was still aiming at the three first-string freshmen.

"he's still not giving up?"

everyone was confused and collectively expressed that they didn't understand.

The thousand-mile sniping kill was indeed very fierce, but since it had already been deciphered once, the power of the layering rule would become weaker and weaker as the distance between them got closer and closer, and the effect would definitely be greatly reduced.

If he shot an arrow at this time, it would not be a plus point in the eyes of the onlookers. Instead, it would be a bit of a loss.

Yu Shishi frowned. I can only understand it because the energy consumption of his thousand-mile snipe isn't high. He can shoot two arrows whenever he wants to, and it can be used to disrupt the opponent's rhythm. I really can't think of any other use.

"You've missed out on the other most important effect," Song Zhong added.

"What?" Yu Shishi was stunned.

"to show my presence."

song zhong's reply left everyone in the live broadcast room dumbfounded.

It was a tradition of the eternal river Academy to make his presence known, but in the current situation, any strong Archer would be eager for their opponent to forget about them. Ren Yuxing actually took the initiative to jump out to make his presence known?

This was a little too f * cking ridiculous.

But then again, the brain circuits of the eternal river Academy had always been different from that of ordinary people. It was as difficult as ascending to the heavens for ordinary people to understand them. Even if they cracked their brains, they would never be able to keep up with the magical thinking of this group of weirdos.

the crowd quickly gave up on this attempt that was destined to be ineffective and turned their attention to the other three academies.

According to common sense, the next college that was most likely to send the second freshman first would be the hero college.

The strength of the Dazhou Academy's Qin Shizhen wasn't bad, but in terms of speed, he was clearly much slower than return to zero.

and looking at the location on the map, the distance between the two was about the same as the nearest abandoned temple. the speed of zero approaching was undoubtedly faster.

However, the next scene made everyone's jaws drop.

the first to reach the abandoned temple was not hero college's return to zero, dazhou college's qin shizhen, or eternal river college's ren yuxing. it was actually jianghai college's pang rulong!

he's the latest to arrive at the abandoned temple. Pang rulong is a Dark Horse? "

yu shishi's face was filled with surprise as she asked, " but he wasn't any closer to the abandoned temple than the others, yet he was able to reach it before it hit zero. it's really unbelievable. the speed of his movement technique in his personal intelligence wasn't this shocking. "

This time, even song Zhong was surprised. However, he was surprised in a different way from the others.

" using the micro-explosion produced by the overlapping sound waves to increase his speed might seem ordinary at first glance, but the technical difficulty involved in this is much more difficult than the two thousand li sniping he did just now. "

after listening to song zhong's explanation, yu shishi was even more surprised,"Could it be that Lin Yi's taking over his body and helping him with the journey?"

Song Zhong nodded.

It wasn't that he was underestimating pang rulong. If pang rulong could do this all by himself, he would definitely be able to stand his ground against Qin Shizhen and GUI Ling.

Unfortunately, pang rulong wasn't at that level yet.

yu shishi couldn't help but click her tongue, "isn't that too unwise?" although there's no time limit for the tutor to take over the freshmen, in theory, if it's possible, the tutor can even take over the freshmen from the beginning to the end."

"But the problem is, even with the support of the puppetry system, taking over a new student from so far away would still consume a shocking amount of the instructor's divine sense."

"According to the technical staff's evaluation, a golden class late phase Peak's consciousness can only last for around two incense sticks" worth of time."

"even if the divine sense of each representative teacher is strengthened by a notch or even doubled, they can only maintain it for the time it takes for four incense sticks to burn at most."

in other words, the time that each of the freshmen can receive the combat strength boost from the instructors is very limited. Every minute used means one minute less!

"It's necessary to use it at the right time. It's understandable for Lin Yi to save him when he was shot from two thousand miles away. After all, if pang rulong was gone, everything would be gone."

"But we're just hurrying on our way. Although speed is the most important thing in war, it shouldn't be to such an extravagant extent, right?"

"I've done a rough calculation-he's used almost two incense sticks already, and he's only a golden class mid phase peak venerable-how could he have that much consciousness to use?"

In the end, Yu Shishi couldn't help but doubt, it seems like Jianghai Academy's resources are limited for sending such a mentor. He's already used up all his trump cards. What's he going to do next? lie down and die an equal death? "

the bullet comments in the live broadcast room were instantly filled with joy.

" he's blasting the king of three. how can ordinary people like us understand? "

ah, that's right, that's right. The Ganges Academy is a God. I don't think the Jianghai Academy will be any better.

a God meeting a God. This is to let us see a wave of high-end play in a god game. Don't sneer at us and learn your skills!

Chapter 10394

as he spoke, pang rulong was already scratching his head at the damaged formation.

before he could react, lin yi had taken over his body-it was repaired in two or three moves, and the light of teleportation lit up.

almost at the same time, hero academy's return to zero had also arrived at the abandoned temple. in the blink of an eye, the teleportation was activated.

"It's finally starting."

Li Jingning, who was standing at the other end of the teleportation formation, looked at the light of teleportation around him and slowly let out a breath of air.

as the core of the team that lin yi had handpicked, especially after the intense training he'd gone through, he was full of confidence that he'd be able to shine in the new student battle.

his name was destined to be above qin shizhen and gui ling!

when the white light fell and li jingning saw the figure in front of him, his eyes twitched.

the person standing in front of him was not his starting teammate, pang rulong. it was the core of the hero academy, return to zero!

"why are you here?"

li jingning's heart was suddenly in a state of shock.

he had thought of trampling both this man and qin shizhen under his feet, but not now when he was alone. at this critical juncture, it was far from the time to display the power of his fate.

Zero looked at him indifferently, "you really think we'll let you do as you please?" although you're not worthy of my attention, it doesn't mean that i'll be stupid enough to go easy on you. unfortunately, your ambition has ended before it even started."

meanwhile, pang rulong was also dazed by the demonic woman who had appeared before him.

Hero Academy, Qing Yuer.

"is there a mistake?"

pang rulong wasn't the only one who was speechless. the billions of spectators were also dumbfounded.

Jianghai Academy had sent Qing Yu 'er, but Hero Academy had sent li Jingning. No matter how one looked at it, this was a huge mistake!

Only Song Zhong raised his eyes and said, have you all forgotten about qing yu 'er's rule bending power?
"

After his reminder, Yu Shi Shi finally reacted, "Change the rules? did qing yu 'er replace li jingning's position with her own when she was being transported?"

Realization dawned on the crowd, and they began to mourn for Jianghai Academy.

" pang rulong versus qing yu 'er. it's fine if it's just this pair, since the outcome won't have much of an impact. however, if li jingning were to fall at the hands of zero, then jianghai academy's time is up. "

"Even li Jingning doesn't think he'll lose," Song Zhong said.

"How is that possible?"

Yu Shishi wanted to refute, but her eyes suddenly flashed, "you're saying that lin yi will play for you? but even if lin yi were to substitute, he might not be able to beat return to zero. the difference in strength between the two isn't small."

"besides, li jingning can get lin yi to play for him, so can't he get a mentor's help for return to zero?"

"Even though as a commentator I shouldn't be making such an early judgment, I have to say that Jianghai Academy has already gone far. Other than Qin Shizhen, no one here is a match for return to zero."

These words really shouldn't come from the mouth of a neutral commentator.

however, everyone was not surprised by this. it was said that hero academy had a close relationship with yu shishi's family. it was only natural for her to stand on the hero academy's side.

Moreover, most of the audience had the same judgment as her.

in a one-on-one battle, no matter how one looked at it, li jingning could not be return to zero's opponent!

On the field, li jingning looked at return to zero with a cautious expression. He couldn't help but struggle in his heart.

with his pride, he naturally wanted to have a good fight with the other party when he had the chance to have a fair fight. however, it would be difficult for him to take the big picture into consideration.

"Hesitating? You're hesitating about getting Lin Yi to play for you?"

Zero's words hit the nail on the head, and a hint of mockery appeared in his cold eyes. "Do you think you have the right to hesitate?"

before he finished speaking, he had already turned into a stream of light and shot towards li jingning, not giving him any chance to react.

even with li jingning's strength, he couldn't catch his trail at all. he could only vaguely sense a shadow.

to be more precise, it was a gust of wind.

The rule power that was reduced to zero was the well-known rule power of the wind system.

of course, in terms of level, the laws of the wind were only level two laws, and their theoretical upper limit could not be compared to those top-tier laws.

however, a theory was just a theory. it was a theory that could not be transformed into reality. no matter how beautiful the description was, it was just a castle in the air and meaningless.

When the various local powers of the divine Kingdom on land nurtured their next generation, unless they displayed extremely outstanding talent in a certain area, they would generally deliberately bypass the top-level rules and turn to nurturing second-level rules.

Among them, the more common a rule like the wind element was, the more popular it was.

There was no other reason. One person's shortcomings were reflected on everyone's shortcomings. It was not wise to close one's door to work on something. Only with more cultivators on the same path could the final development be higher, and the practical limit would naturally be higher.

in comparison, the theoretical upper limit of the top-tier rules was nothing.

It was naturally not easy for ordinary cultivators to gather the strengths of a Hundred Schools of Thought. However, for those major forces with deep foundations, this aspect was as easy as turning their hands over.

Return to zero was the perfect representation of this type of core disciple from a major faction.

Even though he had yet to determine his future path like Qin Shizhen, his cultivation in the path of wind-type rule bending power could not be said to have reached the peak, but it was still sufficient to look down on his peers.

Even in the entire Alliance of divine Academies, there were very few students who could suppress him in the area of wind-type laws.

the moment return to zero moved, li jingning's hair stood on end.

a gentle breeze blew past, and the entire abandoned temple was instantly cut into pieces by countless wind blades, leaving behind dust on the ground.

However, li Jingning was the only one who was safe and sound.

"What's the situation? did she deliberately avoid him? Is returning to zero just a test?"

The audience in the livestream room was surprised.

Song Zhong raised his eyes with interest, at his level, even if he were to test the waters, it would be a pure killing move. The safe and sound that you see is just the result of a draw.

"both sides are tied? How is that possible?"

everyone was in disbelief as they waited for the other commentator's interpretation.

Yu Shishi was silent for a moment before she finally shook her head helplessly, " 157 times. the two sides have exchanged 157 blows just now, and neither of them was able to hurt the other. it's indeed a draw. "

"but this clearly isn't li jingning's own strength, it's lin yi's substitute."

in the arena, zero's eyes flashed with surprise."Lin Yi? With li Jingning's measly strength, he was able to force a draw with me. As a teacher of Jianghai Academy, he is indeed something."

li jingning's lips curled up, but the words he spoke were clearly lin yi's.

Chapter 10395

you should let Chen guanqi go. Otherwise, I'll be bullying the weak. It feels like an unfair victory.

Zero's arrogant eyes flashed with anger as he snorted, "I advise you not to speak too early. otherwise, you'll lose too much face and won't be able to step down from the stage!"

to obtain the bonus from the instructor through the puppet show was one of the essence of this freshman battle. he had nothing to say about this, nor did he have any thoughts of resisting.

however, the prerequisite for that was that they had to fight against qin shi zhen. the other freshmen were not worthy of such treatment.

as for li jingning, he had never taken him seriously.

in the lab, lin yi smiled. "If you don't listen to your elders, you'll suffer."

When Hero Academy's instructor Chen guanqi heard this, he replied indifferently, "Mentor Lin Yi, you shouldn't use such a simple psychological attack. It might be effective against you Jianghai Academy students, but it's a bit of a joke on zero."

"don't forget, people are different."

As he spoke, he didn't have any intention of interfering in the battle, allowing zero to face li Jingning, who Lin Yi was fighting for.

on one hand, it was naturally to take care of zero's pride. if he were to forcefully interfere at this time, it would definitely cause zero to be dissatisfied.

On the other hand, he also planned to save the precious time for the finale. After all, he would have to face Qin Shizhen at the end, who was the real enemy!

lin yi nodded in agreement, " "that's right, people are indeed different."

in less than ten breaths, the situation on the field had changed.

li jingning, who had been completely fine a moment ago, was now a bloody mess. there was almost no part of his body that was intact.

on the other hand, return to zero was still unscathed.

"The difference between the two is obvious!"

yu shishi said excitedly, " even a blind person can see that even with lin yi's help, li jingning is no match for zero. the miracle of turning the tables didn't happen. jianghai academy's road ends here. "

the hundreds of millions of spectators naturally had the same opinion.

Some of the spectators who had placed their bets on Jianghai city had expected this, but they still could not help but curse.

in an instant, the stream was flooded with all sorts of insults, taunting, and laughter directed at lin yi, as well as the entire school.

At this time, Song Zhong suddenly gave Yu Shishi a strange look, "You really can't tell?"

"Can't tell what?" Yu Shishi was stunned.

"can't you tell that return to zero is dying?"

song zhong's words once again made everyone speechless.

it took a long time for yu shishi to react. she looked at the live broadcast screen again and again and said disapprovingly, "Teacher song, aren't you being a little too alarmist? anyone with a bit of common sense would be able to tell that return to zero has the upper hand."

the bullet comments in the live broadcast room were full of doubts.

"Have you all forgotten about li Jingning's rule power?" Song Zhong replied.

At the same time, Lin Yi spoke softly in the lab, "It's time to reel in the net."

"....."

Chen guanqi had originally been watching coldly from the side. He had originally felt the same as return to zero, who was in the game, that this battle was already won. Even if he didn't come forward to play in his place, return to zero could easily crush li Jingning into dregs.

At least, from the entire process and the details, it was indeed so.

Li Jingning himself wasn't weak, especially after Lin Yi took over as a substitute. His combat strength could be considered a first-class team among the freshmen.

Unfortunately, he still didn't stand a chance against return to zero, who was going all out.

The rules of the wind attribute advocated speed to begin with, especially since return to zero was a top-tier expert. He immediately used his speed to forcefully increase the pace of the battle to an extreme.

under this kind of intense rhythm, even if lin yi was fighting for him, li jingning couldn't use his full strength.

the entire battle could be described in two words.

exhausted from running.

li jingning was no different from an ordinary rookie, not to mention being an effective threat to return to zero. he couldn't even come up with a decent offensive, and could only suffer one-sided abuse from beginning to end.

All of this was completely within Chen guanqi and return to zero's expectations.

It was common for an expert to beat an opponent one level lower than himself and pull the rhythm together to crush the opponent. He had fought countless battles like this and had never failed.

li jingning was nothing more than another defeated dog that had fallen at his hands, and there was nothing special about him.

but at this moment, chen guanqi finally realized that something was wrong.

"If there's a problem, return to zero and let me take over."

Chen guanqi quickly sent out a message to take over the body that had returned to zero. According to the predetermined mechanism of the puppet show system, if the instructor wanted to take over the new student, he must first get the permission of the new student.

"the battle is over." zero could not help but frown.

after he finished speaking, he did not care about chen guanqi's opinion and directly delivered the final blow to the bloody li jingning.

"No need. I'll do the last cut myself."

li jingning revealed a strange and bitter smile. then, a short knife suddenly appeared in his hand. before return to zero's final strike could land, he had stabbed himself in the heart.

"he committed suicide?" everyone was dumbfounded.

"This is Lin Yi's doing, right?" Yu Shishi blurted out.

almost at the same time as the short knife stabbed into li jingning's heart, return to zero's body suddenly trembled, and without any warning, his heart stopped beating.

zero's eyes were filled with disbelief, and with a thick shock that could not be dispelled, he fell in front of li jingning.

"Common fate, one for one."

song zhong's commentary pulled everyone back from their daze. " li jingning looked like he didn't do anything just now. he was only getting injured, but he actually took this opportunity to tie his fate to zero. "

" the effect of shared life isn't just about sharing power. it's also about sharing risks. "

"if one of us dies, all of us will die together."

"lin yi's a scary person."

He could clearly see that with li jingning's own strength, it was impossible for him to silently tie his fate to zero before he died.

Return to zero was no fool. With his perception and alertness, he would definitely notice it at the first moment.

The scene in front of her was undeniably Lin Yi's doing.

"as a cultivator who hasn't specifically trained in the edicts of fate, he's able to use the edicts of fate so naturally in a battle of this intensity. if he had personally taken action, what kind of scene would it have been?"

an unprecedented look of anticipation appeared on song zhong's drunken face. he muttered, "I don't dare to imagine."

at this moment, return to zero's body glowed with white light and he was quickly teleported out of the arena.

Chapter 10396

every single one of the alliance's specially-recruited freshmen had one in a billion potential. the alliance naturally wouldn't let anything happen to them easily. they had already placed a special talisman on each of the freshmen beforehand. once they suffered a fatal attack, they would be teleported out.

as for the injuries that the new students suffered, they would be absorbed by the special formation talisman. with it on their bodies, it would not be easy for them to die.

on the other side, li jingning, who had also suffered a fatal injury, was not teleported out as well.

Yu Shishi was already confused by the sudden turn of events in front of her, "could there be a problem again? since it's a one for one, why is li jingning still inside?"

"there's nothing to be surprised about. lin yi used shared life twice right after sending zero away. look at pang rulong's condition." song zhong sipped his wine.

the camera followed the voice and focused on pang rulong.

In the end, this guy was running for his life like a stray dog, and his aura suddenly dropped a lot on the way. It was obvious that he had helped li Jingning take most of the fatal injuries.

as a beastified rule bending ability user, especially one that could transform into a kui cow, his vitality was far above that of ordinary cultivators.

even if it was such a fatal injury, as long as he was given enough time, he would be able to recover.

Yu Shishi's jaw dropped, "does this mean that Jianghai Academy didn't pay a substantial price and just sent return to zero away?" that's the number two hot topic in the entire stadium!"

at this moment, the hundreds of millions of viewers in the livestream room were also dumbfounded as if they were looking at a god.

that's it. Song Zhong nodded. Hero Academy basically ends here.

li jingning was the core of jianghai academy, and return to zero was the super core of hero academy. his importance to the team was even greater than li jingning's.

With his departure, Hero Academy had lost the ability to win in the end.

Everything had happened too quickly, so quickly that no one could understand it.

In the laboratory, Chen guanqi, who had been calm and composed, was now looking at Lin Yi as if he wanted to eat him up.

lin yi shrugged helplessly. " life is unpredictable. don't worry about it. we still have to live. "

"....."

Chen guanqi spat out a mouthful of blood on the spot.

Before this, the hero college had always viewed the great Zhou college as a formidable opponent. Even the seemingly unruly Ganges college was a greater threat to him than the Jianghai college.

in his eyes, the only variable in Jianghai Academy was the fate of the seven. The rest were not worth mentioning.

It was also because of this that he'd come up with this plan of letting Return to Zero and Li Jingning fight one on one after guessing Lin Yi's order.

From the looks of it, he had succeeded, but unfortunately, he had also buried his family at the same time.

Return to Zero had actually fallen at Li Jingning's hands. Who would believe such a thing?

At this moment, Harlin suddenly smiled and said, "Old Chen, there's no need for you to be so angry. Some petty people only have a moment of success. Since the Hero Academy has lost the hope of reaching the top, why don't you and I join forces according to our previous agreement?"

Chen Guanqi's eyes twitched.

He did have an agreement with Eternal River Academy before the match, but he had expected that they would soon suffer and eventually be forced to side with their own side. Now, the tables had turned.

"I don't think Jianghai Academy has the strength to stay until the end," Harlin said faintly. "But what if they're lucky enough to survive until that point? Wouldn't Hero Academy be in for a hard time?"

"sir, aren't you underestimating our situation?" chen guanqi was speechless.

qi was of course qi, but as long as one was able to reach the threshold of a god-ranked academy, how could they be led by such a little emotion?

perhaps only eternal river academy would be able to come up with such a strange train of thought.

Harlin chuckled. according to our agreement, as long as my eternal river Academy wins in the end, we'll immediately form an alliance with your Hero Academy. From now on, we'll advance and retreat together. This is a real benefit, right? "

the alliance between the academies was a major event. once the alliance was made public, it would really be a risk-sharing.

If they couldn't join the alliance of divine Academies directly, forming an alliance with one of the member academies was considered the second best choice.

the situation was stronger than the person.

Chen guanqi pondered for a moment and finally chose to lower his head, " "Deal," he said.

harlin laughed complacently. " old chen, you're indeed a rare understanding person. with the help of your hero academy's defeated troops, our eternal river academy is like a tiger with wings. this time, i'd like to see who can stop me. "

As he spoke, he looked at Xia wubing and Lin Yi with a provocative gaze.

the former did not even look at him.

Lin Yi, on the other hand, raised an eyebrow, "It's so scary."

" it's good that you're afraid. you'll be crying later. i'll settle all the new and old scores with you! "

harlin sneered.

however, the following game made him unable to smile.

the hero academy, which had lost its spirit, had indeed started to help him. however, the great zhou academy was not a free-for-all after all. under qin shizhen's lead, they launched a powerful offensive.

the closest distance between qin shizhen and ren yuxing was even within two miles at one point.

For an ultra-long-range Archer who could easily kill from a thousand miles away, there was no doubt that this was an extremely dangerous distance.

Fortunately, at the crucial moment, the Close Combat Expert, Ye Jia, stepped forward and forcefully held Qin Shizhen back.

otherwise, ren yuxing would have to follow in the footsteps of zero.

even so, the eternal river academy was still scared out of their wits. although ye jia had escaped death in the end, he had still been beaten half to death.

Qin Shizhen's strength was vividly displayed in this battle!

The three-man team led by Ye Jia was crushed by the three of them. In the end, two of them died and one was injured. Fortunately, Ye Jia was protected. Otherwise, he would have been beaten to a pulp.

however, compared to the battle on the other side, the truly surprising performance of the jianghai students was still the result.

Lin Yi's record of sending return to zero off in the beginning was indeed eye-blinding, but li Jingning, the core, was also heavily injured. It wasn't an exaggeration to say that both sides were injured.

combined with the uniqueness of their formation, everyone thought that their next strategy would be to hide.

On the other side, Dazhou college had already started fighting with Ganges college. From Jianghai College's perspective, as long as they held back and didn't advance rashly, they could gather a full seven-person formation while waiting for the other side to suffer heavy losses. Then, they might be able to take advantage of the situation!

however, he didn't.

Even if they did not have the slightest advantage in their formation, the students from Jianghai Academy had no intention of hiding.

Chapter 10397

without a word, he pushed his way through and forced his way into the battle between the great zhou and eternal river colleges!

"Where do they get their confidence from? Just because of Lin Yi?"

Yu Shishi's doubt was also the same as everyone else's.

to be honest, just from the performance earlier, the best player other than the 1v3 qin shizhen was lin yi, the coach.

not only had li jingning taken care of return to zero, but he had also been in charge of every single operation of the jianghai students. even those who did not like the jianghai students had to admit that the results had been good.

this year's new student tournament was practically lin yi's personal event-his shadow was everywhere.

It was as if the guest was usurping the host.

yu shishi couldn't help but say,"i've just calculated it. from the start of the freshmen competition until now, lin yi's total takeover time has far exceeded the normal four joss stick limit. he's almost at six joss stick."

"what's even more outrageous is that he's only a golden class mid phase peak venerable," song zhong added.

“.....”

there was silence in the live broadcast room.

Yu Shishi shook her head, "I have to say that Lin Yi is indeed talented in the area of consciousness. However, everyone has their limits. Even if he's not at the end of his life, he's definitely out of energy. It's impossible for him to last until the end of the freshman competition.

"What if?" Song Zhong suddenly interrupted.

"then i'll take his surname," yu shishi blurted out on the spot.

As soon as he said that, the eyes of many people lit up.

'I'll take your surname' was a catchphrase for many people, but in the divine Kingdom on land, women couldn't say it so casually.

This was because the tradition of following the husband's last name was still maintained here. Once a woman followed the man's last name, it was equivalent to directly marrying the man.

Don't forget, she was in front of hundreds of millions of viewers, and with her background, there was no way she could go back on her word. In other words, if Lin Yi really did play the whole game, she would have to keep her promise.

by then, even if she was unwilling, the yu family behind her would probably force her to fulfill her promise.

to a wealthy family like the jia family, reputation was more important than anything else.

Of course, the crowd was just watching the fun and did not think that the matter would blow up. Not many people thought that this joke would come true.

At this moment, the new student battle had just entered the middlegame, and it was far from over.

even if lin yi really did have a one in a billion insane spirit sense, he could at most double the limit of a normal person and could only maintain it for eight incense's time.

Even if it was doubled, it would only be 12 incense sticks worth of time, and there was an extremely high chance that it would still be unable to end the freshman battle.

unless jianghai academy was eliminated early.

Amidst all the chaos, the competition's pace picked up once more. The main reason for this was the all-out assault from Jianghai Academy.

"what the hell! with the strength of these idiots from jianghai academy, they actually split their forces into three and attacked all three academies at once?"

looking at the distribution of people on the map, the hundreds of millions of viewers were collectively dumbfounded.

at this moment, the 13th district of the secret realms was ablaze with flames of war, and every single one of these flames of war had the participation of the jianghai academy.

The key was that they were not ordinary bystanders, but the true instigators of the battle.

In other words, Jianghai Academy was currently in a 1v3!

yu shishi also had a look of disbelief on her face, " not only did they choose the most unwise strategy, but it's hard to understand that the results are actually quite good. there are heads on every battlefield!"

"how is this possible?"

Everyone was puzzled by this question.

even if they were lucky enough to replace return to zero and give hero academy an early death sentence, no matter how one looked at it, jianghai academy, with its core li jingning heavily injured, was still far weaker than the other two.

As the weakest party, it was fine if you didn't hide well. It was also acceptable for you to jump out and gamble, but you can't gamble like this, right?

not only did they attack in all directions, but from the current situation, they had actually won!

It was simply unreasonable!

song zhong was also shocked. he clicked his tongue and sighed, "there are six new students in the arena, and lin yi is playing for them all at the same time. that's why he's able to create such an exaggerated effect. his combat skills in this new student battle are completely unrefined."

This was the only and most realistic explanation, but in everyone's eyes, it was really unreasonable.

"Doing six things at once? Is he still human?"

yu shishi was shocked speechless, "he must have cheated by consuming his divine sense, right?"

as soon as this was said, the live broadcast room was in an uproar.

Beside her, Song Zhong's drunkenness had mostly disappeared. He quickly glared at her and said, "teacher yu, there are some things you can't say."

Yu Shishi immediately reacted, but it was too late.

With her position as the host, this was the same as the officials questioning Lin Yi's rationality in public. Plus, this was the first time the puppetry system was officially in the public eye, and the public had a lot of doubts about it.

especially since this battle involved an astronomical number of bets, her words directly ignited the entire public opinion.

All the bullet comments were pointing at Lin Yi.

The words of the crowd could melt gold.

besides, lin yi's performance in this match was indeed abnormal. he was just a mid phase peak golden class venerable, and his divine sense was comparable to a late phase peak full master.

however, your current performance is not only far beyond that, but it's more than three times the normal limit!

Was that even possible?

The terrifying heritage of the divine Kingdom on land was laid bare for all to see. What kind of experts had the people here not seen?

However, he had never seen a monster whose spiritual sense was so heaven-defying!

Or rather, even if a monster like this really existed, any normal person would rather believe that Lin Yi used some kind of unusual method to cheat than believe in such a ridiculous probability!

Soon, the public opinion reached a point where even the Alliance couldn't control it. One by one, important calls were made, and even the highest Board of Directors was called.

"The new student battle is suspended!"

The Alliance was forced to start an emergency plan, and the focus of the hundreds of millions of people switched to the laboratory.

Shen Sanchi walked up to Lin Yi helplessly, "I'm sorry, brother Lin. In order to respond to the public's doubts, the technical staff will need to publicly test your puppet show system."

As the person in charge of this year's freshman battle, he really felt like strangling Shishi's heart.

His words had pushed him, the official representative of the Alliance, to the forefront of the storm. More importantly, once the seed of suspicion had been planted, it could never be completely eliminated.

Chapter 10398

Even if the technicians had publicly tested it today and found no problems, there would definitely be conspiracy theories everywhere.

at that time, the hundreds of millions of people who didn't know the truth would not only suspect lin yi for cheating, but they'd also link him to the corruption behind the scenes of the alliance. what was originally a pure freshman battle would become a dirty profit field.

As it became more and more intense, even the image of the Alliance of divine Academies would inevitably be affected!

This was almost a dead end.

Lin Yi was surprised, but he didn't say anything. "I don't mind, please go ahead."

Seeing this, Harlin said in a strange tone, " I was wondering why Jianghai Academy was acting like it's on drugs. You're so unreasonable and aggressive. So you've used an outside trick. No wonder, no wonder!

fortunately, the eyes of the crowd are sharp. Otherwise, if a villain like you were to succeed, the reputation of the Alliance of Academies would be stained with a stain that can never be erased. Tsk tsk!

Before Lin Yi could say anything, Shen Sanchi's face darkened as he turned to Harlin, "i'm sorry, but to be fair, your puppetry system will also need to be checked."

Harlin choked.

Through the live broadcast of the puppet show system's inspection, Shen Sanchi was very clear that what could really determine the direction of this year's freshman battle was not the conclusions of these few technical staff, but the views of the Supreme Board of Directors.

as a matter of fact, this concerned the image and reputation of the entire alliance of academies, so the nine bigshots of the supreme board of directors made an exception and held an emergency meeting.

For the Alliance, this was no longer a simple battle between the new students, but a crisis that they had to take seriously.

At this time, the nine big shots' first consideration was no longer about so-called fairness, but how to minimize the adverse impact on the Alliance!

harlin didn't want to give up, but he still walked to lin yi's side and continued to be sarcastic.

"how do you think those big shots will handle this? hehe, i'm willing to bet that the decision of the board of directors will be to kick you out of jianghai academy!"

no one could refute his words.

including shen san chi, in their hearts they had already calculated to this step.

it didn't matter if lin yi and the jianghai school had cheated or not, or where the problem was-the school alliance had to go along with the public opinion.

With that, 99% of the blame would fall on Lin Yi and the Jianghai college. The only responsibility the Alliance had was their poor supervision.

After that, as long as the appropriate punishment was given, and the cheater paid the price, the Justice in the hearts of hundreds of millions of people would be upheld, and everyone, including the Alliance officials, would be happy.

Finding a scapegoat was the only way to deal with crisis public relations, and it had always been tried and tested.

At that time, Lin Yi and the Jianghai college would be the only victims, along with the three addicts.

with such an accident, even if he was lucky enough to pass the test, he, as the first person in charge, would have done nothing. he would be thankful if he was not held accountable after the incident, let alone taking this opportunity to accumulate experience and advance to the next level.

and so, other than lin yi, who was the one in the middle of it all, shen sanchi was definitely the one in the worst mood.

unfortunately, with his status, he could not interfere with the decisions of the supreme board of directors. he could only silently wait for the verdict from the top.

The more it was so, the more Harlin gloated.

"blossoming in full bloom, proud of your success, didn't you think it was quite beautiful just now? tsk, tsk, i'll give you a sentence, one must know one's own limits."

lin yi raised his eyes and blurted out, "it was your eternal river academy that bought all the information on the new students, right?"

"ha?"

Harlin was stunned, and subconsciously said, " "How did you know?"

The four schools competing to enter the Alliance were naturally the ones that would spend sky-high prices to buy information on the freshmen from the various mainstream organizations. However, according to the knowledge of most people, they would subconsciously exclude the eternal river Academy.

the only reason was that the eternal river academy's financial resources weren't enough to spend money like that.

in comparison, the great zhou academy and hero academy were more likely choices.

lin yi had guessed the same thing before, but he still had a suspicion that things weren't as simple as they seemed.

he didn't expect that with such a sudden trick, he would actually get it out of the other party's mouth.

lin yi chuckled as he raised an eyebrow at the man's darkened face. "It's nothing, I'm just making a wild guess."

Harlin's face darkened and he didn't say anything. After a moment, he forced a smile again. "it doesn't matter. jianghai academy has nothing to do with what's happening now. it doesn't matter even if you've guessed it."

besides, so what if you've guessed it? you can't guess our true intentions anyway.

Before he could finish, Lin Yi interrupted him, " you guys didn't buy the information of the new students so that we can't buy it. this is not realistic at all. "

" since the various academies will definitely be able to obtain information on the new students with their methods, i'm afraid that the reason why you're spending such a sky-high price is not just to block the information. "

" if i'm not wrong, blocking the information is just a cover. your real intention should be to hide some key information. "

"to be precise, the reason you guys are doing this is to hide some information about a certain freshman."

"this crucial piece of information can change the entire battle!"

Harlin's face darkened with every word Lin Yi said, until it was as black as the bottom of a pot.

"seems like i'm in luck," lin yi smiled.

"....."

Harlin tried to hide his shock and sneered, " a person who's about to be kicked out for cheating is talking nonsense to me. Do you think you're very smart? "

lin yi smiled, " i don't think we'll be kicked out. the alliance of god tier academies isn't that bad. i believe in their fairness. "

naive fool, " Harlin sneered. just wait and see.

as soon as he finished speaking, Shen Sanchi received the final decision from the supreme board of directors. After reading it, he couldn't help but be shocked.

The resolution was simple. There were only two terms.

First, Yu Shishi's role as a commentator would be temporarily suspended, and the Administrative Committee would conduct an investigation on her.

Secondly, to clarify the legitimacy of Lin Yi and Jianghai College and continue the freshman war.

As soon as the resolution was announced, the result was just as Shen San Chi had expected, and the entire public opinion exploded.

Not to mention anything else, just this result alone was the best soil to brew conspiracy theories.

After today, no matter which school won the freshmen competition, it would be followed by a huge controversy. Especially if Lin Yi and the Jianghai College laughed at the end, the outcome would be unimaginable.

It wasn't an overstatement to say that the Supreme Board of Directors knew that this would be the result, but they still took the initiative to go against it.

"How could this be? how could that be?"

The commentator, Yu Shishi, was dumbfounded.

She did regret it when she said the word "cheating," but she felt more like it was a fluke. From what she knew, Lin Yi and the Jianghai college were bound to be the scapegoats for this.

The Board of Directors wouldn't go against the public just to support Lin Yi.

whether it was lin yi or the school, they didn't have that much power!

However, who would have thought that the final result would be like this?

Song Zhong glanced at her and said, "do you really think those old fogeys care about public opinion?" to be able to influence the decisions of the alliance's top brass just by relying on the thoughts of a group of ordinary people, if this is what your yu family thinks, then it will be dangerous in the future."

"....."

Yu Shishi was dejected and was taken away by the Administrative Committee in front of everyone.

she was originally a quasi-alliance executive with a promising future, but after today's incident, her future would be bleak.

it was only at this moment that she finally realized that there were some things that she could not say just because she wanted to.

On the other side, Harlin didn't take any less damage than her. It wouldn't have been so bad if Lin Yi had just managed to escape, but he'd be gloating at Lin Yi's misfortune at most.

the problem was that lin yi seemed to have guessed the final card of the school!

"Everyone, take your positions. The freshman battle will continue."

Shen Sanchi nodded at Lin Yi, his attitude towards Lin Yi becoming more polite, even respectful.

The Board of Directors had come up with such a tough decision so quickly, and they were all on Lin Yi's side. He could imagine who was behind this.

Other than the enigmatic black-haired elder, there was no other candidate.

lin yi's status in his eyes was far higher than he had imagined!

Under the clamor and voices of doubt, the new student battle continued.

lin yi didn't seem to be affected by the sudden change at all. he didn't hide the fact that the six of them were still fighting on his behalf, and continued to attack with full force!

This kind of performance naturally caused the voices of doubt to intensify.

No one's spirit sense was endless, no matter how strong they were. However, from Lin Yi's performance, it seemed like he had overturned this common sense.

the feeling he gave off was that his consciousness was endless and could never be exhausted!

what he didn't know was that although the amount of his deified soul was limited, it could be quickly reborn with the help of the world's will. as long as the degree of consumption did not exceed a certain critical point, it could be regenerated and continued.

It was also because of this that after learning about the puppetry system's effects, Lin Yi changed his original plan of holding back and exploding out without a second thought, turning it into an all-out attack.

Not only did he want Jianghai Academy to have the last laugh in this year's competition, he also wanted them to be unrivaled in their strength and build a firm foundation in the Alliance of Academies!

One battle to establish his might.

As the new student tournament resumed, even the spectators who had always looked down on Jianghai Academy began to realize the cruel reality of the situation.

Out of everyone present, the seemingly unremarkable Jianghai Academy was actually the most powerful!

so far, eight students have been eliminated from all the academies. Six of them, including return to zero, were personally sent away by Jianghai Academy.

Song Zhong was forced to shoulder the heavy responsibility of being the commentator. "this may be contrary to most people's understanding, but with lin yi's support, these guys from jianghai university actually have the upper hand in individual combat."

If he had said this before, everyone would have criticized him for being autistic.

However, the actual number of kills was still there. Not only did the six new students from Jianghai Academy lose one player each, but they were also still alive and well. Not a single one of them had been kicked out.

This could no longer be explained by luck.

originally, according to the previous momentum, after losing the core of the hero Academy, return to zero, it was obvious that they had begun to lean towards the eternal river Academy.

at the very least, in terms of their formation, they have a huge advantage. If they can fully utilize their strength, it wouldn't be surprising for them to suppress the Dazhou Academy led by Qin Shizhen, " explained Song Zhong.

"It's a pity that they're up against Jianghai Academy."

In reality, Harlin was already hopping mad in the laboratory at the overbearing attitude of Jianghai University.

" i really don't know what the supreme board of directors are thinking. they actually let a cheater like you stay here. if it were any other normal person, you guys would have been hammered to death and would never be able to make a comeback! "

Harlin looked at Lin Yi as if he wanted to eat him alive.

The rest of the staff looked at each other. This guy was the first one who dared to criticize the Supreme Board of Directors in public.

He could only say that he was indeed from the eternal river Academy.

naturally, lin yi didn't care about this kind of useless barking, but the person in charge, shen sanchi, obviously wasn't that nice.

"representative harlin, i have to remind you that any remarks about the supreme board of directors will be recorded. if you and the eternal river academy don't care, you can continue."

"no one will stop you if you want to die."

After the previous incident, he had a stomach full of anger. No matter whether the impact of the situation could be suppressed to the minimum, he, as the first person in charge, could not absolve himself from the blame.

in addition to the previous unpleasant grudges, harlin jumping out at this time was exactly the same as running into his gun.

Out of habit, Harlin wanted to give a tit for a tat, but when he met the eyes of Shen san Chi, he finally chose to lower his head.

If they really angered this person, even though they couldn't eliminate the eternal river Academy on the spot, with Shen san Chi's status and power, he would have plenty of ways to make them unhappy.

However, Harlin didn't give up and turned to look at Xia wubing from the Dazhou Academy.

"miss xia, why don't we have a temporary truce? our two houses are fighting each other to the death, and in the end, lin yi got the advantage-think about that face of his, can you take it?"

xia wubing glanced at him and said,"it's more appropriate to say that to yourself."

"....."

harlin choked for a while and couldn't help but grit his teeth. " "you woman, don't you know how to look at the big picture? Look at the situation now, his cheating has completely overturned the fairness. If you and I don't join hands now, neither of us can have the last laugh!"

Xia wubing didn't reply.

however, the two guilds 'next move still showed a considerable tacit understanding.

in the face of a common threat like jianghai city, even if they were mortal enemies, they would still temporarily ally with each other. this was the basic courtesy of a formidable leader.

Chapter 10400

with that, the freshmen battle had completely evolved into a dangerous situation of three guilds fighting one.

however, as the one being targeted by the other three, Jianghai Academy didn't give up on their all-out attack. Instead, with Lin Yi taking over, they became more aggressive and overbearing!

What was outrageous was that even in such an absolutely disadvantageous situation, they did not suffer any losses. Instead, they even took the opportunity to harvest two more heads.

The livestream room, which had been filled with curses, fell into a strange silence for a while.

The billions of spectators, their heads filled with conspiracy theories, naturally wouldn't say anything good about Lin Yi and the Jianghai College, but they couldn't bring themselves to continue mocking them in this situation.

There was no other reason. The more he ridiculed, the louder the face-smacking on the spot would be!

The crowd could only endure in silence, waiting for the moment when Jianghai Academy's decline would come. Then, they would step forward to add insult to injury.

Unfortunately, Lin Yi didn't have the intention to give them the chance.

The Alliance wasn't just for show, especially with the God Qin Shizhen in the middle. Lin Yi wouldn't be able to handle all the new students in Jianghai Academy, no matter what he did.

don't forget, he was able to deal with return to zero previously not by relying on his own strength, but by using the one for one sharing fate.

with li jingning's current state of serious injury, although he could still barely move, if he were to exchange his life again, he would definitely be killed!

"the key turning point now is whether jianghai academy can successfully send their seventh person to their position."

"the other six freshmen have already entered the stage. only he xiyin, who was chosen in the first round, is left!" song zhong reminded.

It had to be said that Lin Yi's idea of putting the strong freshmen he'd gotten in the first round last was a bit confusing.

But then again, with he Xiyin's special qualities, as long as she could make her way onto the stage and become a key part of the seven-person shared Fate system, then the rest of Jianghai Academy's plans would be set in stone.

And if they were lucky enough to encounter the outbreak of her personality awakening, it would be even more so.

"If there's anyone who can fight Qin Shizhen one-on-one, I'm afraid it's he Xiyin's inner personality."

at the same time, song zhong looked at the movements of the freshmen and explained, it's obvious that the other three families have realized this threat and have already surrounded the last remaining abandoned temple.

the bullet comments in the live broadcast room were full of mockery.

Because of what had just happened, and the sudden appearance of a Dark Horse, Lin Yi and Jianghai Academy were the prime villains in the eyes of the millions and millions of locals.

in their opinion, it was fine if you played some tricks and cheated behind the scenes. as long as you did your job well, the local public, who had seen the world, would not be bothered to pursue you, a country bumpkin from a remote area.

but now, not only did you take advantage of him, you even went all the way up to his head and relied on cheating to be so presumptuous.

The words 'a vile person intoxicated by success' were written on his forehead without any concealment!

Who couldn't endure it!

Song Zhong shook his head at this scene.

fortunately, the stream's bullet comments couldn't affect the duels on the stage. otherwise, lin yi and the jianghai college would've been killed by the public's outrage no matter how strong they were.

As the 3v1 match continued, the three guilds "encirclement of Jianghai Academy was completely sealed off. The highly anticipated battle between the freshmen had finally reached its final stage.

as they watched their opponents appear one after another from all directions, especially when they saw qin shizhen's figure slowly approaching, the six-man team from jianghai academy, including li jingning, could not help but feel a little breathless.

Even though Lin Yi's performance had boosted their confidence, they still wanted to run away from the pressure coming from Qin Shizhen.

"I'm very curious to see how strong the seven of you can be. It's a pity that we have more important matters to attend to," Qin Shizhen replied.

After he finished speaking, he didn't hesitate at all and directly faced a plain and unadorned saber Qi.

just by looking at its appearance, there was nothing special about it. it was almost the same as a noob swordsman who had just mastered the external release of saber qi.

In the common world, he was a rare master, but on Sky Class Island, especially in this God nation where Masters were everywhere, it was embarrassing even if he used it to teach children!

If this saber Qi had come from someone else, they definitely wouldn't have even given it a glance.

however, the other party was qin shizhen, so everyone had to be extremely careful.

This was the most basic respect for a heaven's pride expert.

"shared fate!"

Li Jingning endured the excruciating pain and immediately activated shared life to connect with his other five teammates.

"The six of us share the same fate!"

Commentator Xi songzhong's eyes lit up. everyone knows how difficult it is to have multiple people sharing their fate. From what I know, almost no one has ever managed to do it with more than five people. Li Jingning can even do it with six people in his current state. He has a bright future ahead of him.

He was not the only one. Many of the higher-ups in the Alliance had silently memorized li Jingning's name when they saw this scene.

Sharing one's fate had great tactical, even strategic, value. Such a character was destined to be highly sought after no matter where he went. It was not an exaggeration to say that one could only come across him by chance.

with the fate of the six, even if Jianghai Academy lost, Li Jingning's future in the alliance would not be bad.

"It only looks impressive. It's completely useless in front of Qin Shi Zhen!"

The bullet comments in the live broadcast room were still disdainful.

The following collision seemed to have completely verified their judgment.

With the blessing of the six people sharing their fate, Li Jingning, who was the primary target of the saber Qi, could directly use the strength of his other five teammates to withstand such an ordinary-looking saber Qi. No matter how one looked at it, there was no problem.

However, the final result caused even the spectators who had originally stood on Qin Shizhen's side to be unable to help but collectively cry out.

Li Jingning was directly cut in half!

Everyone was speechless.

however, some people immediately noticed that something was wrong. li jingning's body did not light up with a white teleportation light.

this meant that he wasn't really injured to the point of death. with the array masters from the alliance headquarters, the array that they personally built definitely wouldn't fail.

"how can he not die?"

the bullet screen in the live broadcast room was suddenly filled with dense and terrifying comments.

although the officials had set extremely strict requirements for the access of the live broadcast room before the game, and ordinary people had no right to send bullet comments, even so, there was a huge number of viewers. once the bullet comments were spammed, they would still be scared to death.

he must have borrowed Wang Yanqing's ability, " Song Zhong explained. as an expert in poison, Wang Yanqing's survival skills are definitely one of the best among the new students.
