

Bodyguard 10411

Chapter 10411

if he had held his ground and fought steadily with ye jia's strength, even if lin yi could mobilize part of he xiyin's strength, the final winner would still be unknown.

Unfortunately, there were no ifs in this world.

now that xia wubing had revealed he xiyin's true identity, the situation of the freshmen battle, which had already entered the final battle, suddenly began to become a little delicate.

The Dazhou Academy only had Qin Shizhen left. If the other side had the he Xiyin as their backup, they really didn't have any chance of winning.

however, if it was just a pseudo-awakened he xiyin, even with li jingning's six-person shared life system, she still posed a great threat. however, the words " no chance of winning " could already be thrown away.

" fortunately, the cage of fate dissolved on its own. otherwise, it would have been a real headache. "

lin yi smiled faintly as he looked at xia wubing.

If the cage of fate did not dissipate with Ye Jia's elimination, it would mean that he Xiyin would have to face Qin Shizhen alone. In that case, the possibility of her being sent away by Qin Shizhen would be extremely high.

at that time, the fate of six people would become that of five people. even if they wanted to face qin shizhen again, their chances of victory would be extremely low.

Xia wubing replied expressionlessly, " "Isn't it a little too early to talk about this?"

"that's true."

Lin Yi didn't say anything else and focused on the fight.

six against one might seem like a great advantage, but in front of qin shi zhen, they couldn't let down their guard in any of the rounds. otherwise, it was extremely likely to trigger a chain reaction, or even an instant collapse.

Similarly, Xia wubing also went all out.

ye jia's earlier experience was a good lesson for him. even though it was fortunate that he did not encounter the real he xiyin, the damage that she could deal was still visible to the naked eye even though she could only partially mobilize the power of her inner personality through the shared fate.

If he was not careful, it was not impossible for Qin Shizhen to follow in Ye Jia's footsteps.

This ultimate battle of six against one lasted for a full hour.

It wasn't just the freshmen participating in the battle, even the nerves of the hundreds of millions of viewers in the live broadcast room were tensed up. The scene was filled with danger at every moment, and victory could be decided at any moment.

However, it was such a suffocating battle that both sides were on the verge of collapse several times, but in the end, they tenaciously held on.

"our repeated attempts at survival have allowed us to witness qin shizhen's strength, as well as the tenacity of the new students of jianghai academy. to be more precise, we've seen the control of the mastermind behind them! "

"such a wonderful multi-thread operation is truly amazing," song zhong sighed with emotion.

the normal audience was focused on qin shizhen, but he was focused on lin yi, who was controlling six people at the same time!

As far as he was concerned, compared to Qin Shizhen's one-versus-six, Lin Yi's six-wire maneuver was the real challenge.

if he were in Lin Yi's shoes, he wouldn't have been able to hold on until now. He would've collapsed long ago.

"The support from Mentor Xia Wubing has been completely used up. From the start, Qin Shizhen has been fighting alone. No matter how strong Lin Yi's divine sense is, he's already at his limit from such an intense consumption."

Song Zhong's eyes were burning as he gave the final preview. "It's no longer a contest of strength. It's a contest of will. Let's see who can last until the last moment!"

Almost at the same time as his words left his mouth, the situation on the field suddenly changed.

A huge hole had appeared in the six-man formation of Jianghai Academy, and Qin Shizhen had managed to get in front of He Xiyin.

The distance between them was less than three steps!

The audience in the live broadcast room was confused.

After all, Xia Wubing and Lin Yi's conversation only happened in the laboratory and wasn't made public. Even Song Zhong, the host and commentator, didn't tell anyone, let alone the hundreds of millions of viewers in the stream.

from their point of view, they would only think that qin shizhen had really run out of energy, and his body's instincts were no longer under his control.

Since he wanted to break the six-person shared Fate system, anyone else would be a more ideal breakthrough. What the hell was this about sending him directly to his inner personality, he Xiyin?

no one knew that if qin shizhen really wanted to break out of this situation, he xiyin was the only one he could choose to do so.

As for the other freshmen from Jianghai college, other than li Jingning, who was the core of the combat system, even Masters like Wang Yanqing maintained a safe distance under Lin Yi's control.

if qin shizhen wanted to force his way through them, he would have to suffer an even more devastating blow. with his current state of health, he could not afford to waste any more of his energy.

Therefore, unless he was stubborn enough to choose to fight li Jingning head-on, he Xiyin was his only choice if he wanted to break through the six-person shared Fate system.

BOOM!

The result of Qin Shizhen and he Xiyin's collision had left everyone dumbfounded.

everyone had thought that with he xiyin's status, even if she couldn't crush qin shizhen, she would at least be on par with him.

however, in the end, he xiyin was sent flying by a single slash!

If it wasn't for Lin Yi's control of the situation and quick recover at the last moment, he Xiyin would've been eliminated.

"it's fake, right?"

the audience in the livestream room was dumbfounded. " the character he xiyin. she's a monster who can massacre an entire city. how can she be so weak? "

This was an opportunity that could not be missed!

Qin Shizhen clearly knew that this was a precious opportunity. Without a second word, he caught up to he Xiyin, who was flying backward, and prepared to finish her off.

Only by sending he Xiyin away would he have the confidence to destroy Jianghai Academy.

in the eyes of an ordinary bystander, this was merely a follow-up attack that he had taken advantage of. however, in the eyes of an expert like song zhong, this was the ultimate attack that represented the final outcome of the freshman battle!

More importantly, Qin Shizhen's movements were as smooth as floating clouds and flowing water. His rhythm was just a beat faster than the rest of the Jianghai Academy team, including Li Jingning.

Just this half a beat had determined that they would not be able to rescue him in time.

The timing was perfect!

However, at the last moment when the podao in his hand was about to fall, a trace of madness suddenly flashed in He Xiyin's eyes, and an invisible fierce aura penetrated her body.

It was as if a brutal beast that could destroy the heavens and earth was about to roar and rush out of her body!

Did Yingying really awaken?

Qin Shizhen and Xia Wubing, who was watching this scene from afar, were both shocked.

Breaking through He Xiyin was their only chance of winning, but if the inner personality He Xiyin really appeared at this time, how could they break through?

taking the initiative to approach at this time would instead be sending himself to his death!

Chapter 10412

however, the arrow had already been nocked, and it could not be withdrawn. qin shizhen could only brace himself and continue with this final slash.

Unfortunately, there was still a momentary pause in the middle.

even if it was only for one-thousandth of a second, it would be a fatal flaw in a battle between experts of this level.

In fact, it was because of this imperceptible pause that li Jingning had a great opportunity.

At the same time Qin Shizhen struck, li Jingning used all the strength of the six-man joint Fate system to attack without hesitation!

this was jianghai academy's final attack.

The aftershock swept across the entire area.

the entire livestream scene was in a daze, and the dust didn't dissipate for a long time. the hearts of hundreds of millions of viewers were in their throats.

"why hasn't the dust settled yet? who won and who lost?"

Someone couldn't help but ask.

They were not just bystanders. Many of them had placed their bets on Dazhou college. At the same time, there were also a small number of 'blind' people who had placed their bets on Jianghai college.

This not only concerned which school could compete to enter the Alliance, but also directly affected the wealth of countless people. They could not help but be anxious!

After a long time, the dust finally settled.

only the new students from jianghai academy were left, but qin shizhen was nowhere to be seen.

Qin Shizhen had been eliminated!

Song Zhong heaved a long sigh of relief. congratulations to Jianghai Academy for taking first place in the new student tournament. From now on, Jianghai Academy will be a member of the Alliance of divine Academies. Congratulations!

the bullet comments in the live broadcast room were silent for a moment before exploding.

Other than a handful of lucky gamblers who had made a fortune by betting on Jianghai city, the rest of the audience were cursing and swearing.

This was especially true for those who had gone bankrupt and bet on Dazhou college. They were only one step away from becoming a winner in life. They wanted nothing more than to dig up Jianghai College's ancestral grave!

the sounds of darkness rose and fell.

However, no matter how much public opinion there was, it was only a reference for the Alliance of schools. Moreover, it was a very low-ranked reference.

Otherwise, the public opinion incident caused by Yu Shishi would not have been dealt with in such a way.

The dust had officially settled on the new student battle.

The higher-ups of the Alliance of schools had mixed feelings about this unexpected result. It was intriguing.

There were cold-eyed bystanders, some who secretly hated him, and some who deliberately befriended him.

as the number one person in charge of this year's new student competition, shen san chi was undoubtedly the third type of person.

he didn't have any conflict of interest with lin yi and the school, especially after he'd guessed the attitude of the board of directors. with the school's successful entry into the school alliance, it was only a matter of time before lin yi gained the favor of that person.

to be more precise, with that person's attitude, he was probably treating lin yi differently now.

With such an opportunity to ride on his coattails right in front of him, if he, Shen san Chi, could still miss it, then he could only say that he deserved to be stuck here for the rest of his life!

" congratulations, brother lin. you've brought jianghai academy into the alliance, which is enough to make the entire alliance of god-ranked academies even more powerful. as for you, you'll definitely become a rising star of the alliance. your future is boundless. "

Shen Sanchi cupped his hands in a serious manner, treating Lin Yi as someone of the same level.

If it was just his strength, even if he was a golden class mid phase peak venerable, being able to display the strength of a golden class late phase peak full master was shocking. At most, it would only make him think highly of him, but it wasn't enough for him to be so cautious.

after all, he was the executive of the alliance. other than the highest board of directors, he was a real big shot in the alliance!

Even those Deans who had entered the gates of God-ranked Academies would be a level lower in front of him.

Only the deans of the Alliance Academies were qualified to talk to him on equal terms!

And now, even if he didn't consider the big boss of the Supreme board that he had a close relationship with, Lin Yi's status alone was enough for him to try and get on his good side.

One must know that the competition between the higher-ups of the Alliance was very fierce. With his current position, if he wanted to move up to the next level, he not only needed the connections of the highest Board of Directors, but also needed to rope in enough outside help.

The academies that joined the Alliance had the right to vote on the changes in the higher-ups of the Alliance.

"Thank you, brother Shen," Lin Yi replied with a smile. "I'm new to Jianghai Academy and I'm not familiar with the rules of the Alliance. I'll be in your care in the future."

brother Lin, you're too kind. We hit it off the first time we met. We'll help each other in the future.

shen sanchi was very satisfied with lin yi's attitude.

If the winner this time had been the eternal river Academy, Harlin's eyes would have probably grown to the ceiling by now. Even if he was the executive of a powerful Alliance, he would probably only be despised.

"as per usual, i'll be in charge of all matters regarding the alliance. brother lin, if you have any concerns, feel free to let me know." shen sanchi lowered his voice.

brother, although I have limited experience and can't say much to the Supreme Board of Directors, I can still make some decisions on some small matters.

"i'll be counting on you then, shen bro," lin yi said, overjoyed.

"you're my brother, there's no need to regard me as an outsider."

Shen Sanchi looked at Xia wubing's back and suddenly asked, " "Brother Lin, what are your plans after this?"

lin yi blinked, confused.

"you're right." shen san chi smiled and explained, "normally, the schools that join the alliance will set up an office here to make it easier for them to contact the alliance headquarters."

"Then what do you mean by" extraordinary "?" Lin Yi asked.

"the ones who set up offices are mostly the local schools of the divine kingdom. they have their own sphere of influence and deep roots here. however, brother lin's jianghai college is a different story."

"even though jianghai isn't a bad place, it's too far away from the divine kingdom on land, especially from the headquarters. if something were to happen, we'd be too far away to help," shen sanchi explained patiently.

He had clearly done his homework on Jianghai Academy's situation.

He didn't need Lin Yi to reply and continued, "the beast god hall has been watching you like a tiger watching its prey. from the looks of it, the power it has projected won't be able to shake your foundation."

"however, the beast god hall is still powerful. even if there are many restrictions, once it's given enough time to react, your deity-ranked academy's strength won't be able to contend against it alone."

" the alliance naturally won't just stand by, but they are too far away. distant water can't quench present thirst. sooner or later, they won't be able to take care of it. "

" so i suggest that brother lin should consider building a sub-school here. after all, you can't put all your eggs in one basket. "

Chapter 10413

his words seemed to have the meaning of confiding in her.

lin yi couldn't help but be moved-it didn't matter what the guy was trying to do, but it was a good suggestion.

his original intention for bringing jianghai academy into the alliance was to fight against the beast god hall. with the banner of the alliance of god-ranked academies, even if the beast god hall wanted to continue looking for trouble, they would have to think twice.

however, the beast god hall was not a pushover. if they only joined in name and all the academy members remained in jianghai, the situation would not be any better.

it wasn't that lin yi didn't trust the alliance, but it was a huge organization with a lot of internal power struggles.

even if he managed to find a powerful backer in the alliance, it was highly likely that he would be held back by the power struggle. if the situation became critical and he was unable to send reinforcements in time, he could send the entire jianghai academy into the tiger's mouth.

Setting up a sub-academy in the divine Kingdom on land was the best solution!

"can the alliance provide resources in this area?" lin yi asked.

divine academies were different from others. setting up a sub-academy wasn't just a matter of randomly finding a piece of land. it was related to the huge problem of the ownership of luck.

in other words, a region's fate could only support a limited number of high-level cultivators, and it could also support a limited number of large forces.

this was especially so for divine ranked academies. even with the rich heritage of the god nation on land, there was a natural upper limit to the number of divine ranked academies it could support.

For things like luck, if you eat more, I will eat less.

once they couldn't get enough luck to support them, no matter how powerful a force was, it would fall apart in a day.

If Jianghai Academy decided to take the risk, they would have to snatch the food from the other Academies.

lin yi was well aware of this.

" no. " shen sanchi shook his head. " the alliance will give all kinds of resources and policy support to the new schools in the early stages. but if you want to build a sub-school, you'll have to rely on yourself. "

""

Lin Yi frowned. Without the Alliance's support, it wasn't going to be easy for a foreign school to steal from so many local schools.

shen sanchi smiled. "brother lin, don't be anxious. if there's no practical plan, i won't waste my breath."

"Please guide me, brother Shen." Lin Yi cupped his hands in respect.

"normally, it would be extremely difficult for your family to gain a foothold here."

shen san chi paused, then said meaningfully: "however, this is a critical period, so it's a different matter."

"what special period?" lin yi asked.

shen san chi explained with a smile, "previously, the alliance had specially made statistics. in the past, the academies that failed to compete to enter the alliance would suffer an invisible fate backlash. in addition to their own internal and external troubles, more than 80% of them would fall apart in an extremely short time!"

"brother shen, do you mean that the great zhou college, hero college, and eternal river college are not in a good situation?"

Lin Yi understood immediately.

Shen Sanchi nodded. even in the best case scenario, at least two of the three schools would be destroyed. All the resources would be divided up by the other schools. Then, new strong people would be born from their corpses.

"This is not bad."

Lin Yi narrowed his eyes. If he could eat the corpses of these three schools, or even one of them, then he'd naturally be able to build a sub-school!

"there're so many god-ranked schools here," lin yi shook his head, "it won't be easy to steal food from them."

Shen San laughed foolishly. brother Lin might not know this, but it's true that many Academies are eyeing them. However, you don't have to think too much about the God-ranked Academies that have already entered the Alliance. The Alliance doesn't allow it.

" eating the corpses of those who have failed is a special privilege that the alliance rewards to new alliance schools. brother lin, you guys must make good use of it! "

"interesting," lin yi's eyes lit up.

If there weren't any local divine ranked Academies of the same grade coming to fight for it, and they were only dealing with the other ordinary local Academies, this matter would be much more feasible.

with the advantage of absolute strength, it was not impossible for a strong dragon to suppress the local snake!

lin yi paused for a second before asking, "the strong eating the weak is the natural law of the world, why doesn't the alliance allow its members to eat?"

according to common sense, regardless of the master-servant relationship between the alliance headquarters and the alliance academies, the stronger they were, the better. this would not only strengthen the alliance's dominant position in the divine kingdom on land, but it would also suppress the other academies. it was killing two birds with one stone.

Shen Sanchi's eyes were gloomy. nothing can last long. If the Alliance becomes too strong, it will bring disaster. This is the consensus reached by the nine big shots on the Supreme Board of Directors.

"That's pretty incredible," Lin Yi said, speechless.

He himself was the one who had gathered fate, so he naturally believed in the theory of fate.

however, the scale of the god tier academy alliance was so huge that they actually took it seriously and used it as the standard of action. it was really inconceivable.

shen sanchi looked around and explained in a low voice, " brother Lin doesn't know, but the Alliance has suffered a heavy lesson from this. If it wasn't for the nine big bosses on the Supreme Board of Directors, the Alliance would have fallen apart and become history.

regarding the past secrets of the alliance, shen sanchi didn't say much.

lin yi paid attention.

Since he was going to gain a foothold in the Alliance, he had to understand these secrets. Otherwise, he might step on a mine if he wasn't careful.

"i still have to report to the board of directors, so i won't disturb you guys. if there's anything you need my help with, just let me know."

Sanshen said with a smile.

strictly speaking, with his position, he was already speaking with a stranger. selling a good friend required a sense of maturity, and the most important thing was to know when to stop.

Lin Yi, of course, knew this.

After sending Shen Sanchi off, Lin Yi called Li Jingning and the other new students to the Imperial Kitchen. Today wasn't just his school's victory, it was also the victory of all the new students!

&Nbsp; with their outstanding performance in the freshmen battle today, all of them would definitely get a good rating in the Alliance headquarters.

although their outstanding performance was largely due to Lin Yi's help, at least their foundation was their own. compared to the other freshmen who didn't perform well and had similar foundations, the group clearly had an advantage.

to put it bluntly, if they were the goods on the shelves, then Lin Yi was the gold seller.

the final price of goods of the same quality would often be different in the hands of different sellers.

Chapter 10414

as for freshmen like Li Jingning, who had displayed tactical and even strategic value in actual combat, they were bound to have boundless prospects in the future!

of course, in terms of organization, the freshmen's ties with Jianghai Academy had come to an end.

the road returned to the road, and the bridge returned to the bridge.

If nothing unexpected happened, the possibility of both parties having any actual interactions in the future was not great.

with their pride before, they wouldn't have agreed to lin yi's suggestion. after all, the alliance's recruitment wasn't something they would look at with respect.

Lin Yi, however, was an exception.

After the time they'd spent together, Lin Yi's strength had been deeply imprinted in their minds.

they didn't just have a natural respect for lin yi, they also had an indescribable gratitude.

After all, with their qualifications, if they were placed in the other three Academies, even if they didn't directly become cannon fodder, it would be very difficult for them to receive enough attention. It was simply impossible for them to display their brilliance in the new student battle like today.

as long as it was lin yi's suggestion, even the most eccentric one among them would agree without hesitation.

What they didn't know was that this short relationship between teacher and student would not only help them soar today, but would also benefit them endlessly in the future!

During the meal, the proudest Li Jingning took the initiative to toast Lin Yi for the first time, even throwing out a sentence.

"If there's a battle, I'll answer your summons!"

With his personality, these words were a declaration of his loyalty to Lin Yi in front of everyone.

Even Li Chang, a senior in the family, was shocked, let alone the others. He looked at Lin Yi with a strange expression.

I told you to give some advice to the younger generation in my clan, not to abduct her away!

However, after seeing the other freshmen's agreement, Li Chang's gaze towards Lin Yi turned into one of worship.

When it came to winning people's hearts, he, Little Meng Wei, was definitely an expert.

However, to be able to subdue so many unruly and peerless heaven's favorites in such a short period of time, even with his courage and means, was simply unimaginable.

not to mention the distant, just li jingning, this family grandson, was enough to make him scratch his head.

it's brother Lin's luck to have met all of you, "Li Chang sighed. but it's your good fortune to have met a teacher like brother Lin. I'm so envious.

With his eyes, he could tell that both Lin Yi himself and the new students here had a bright future ahead of them.

Most importantly, they complemented each other, and their limits were immeasurable!

After the celebration party ended and the freshmen left, Lin Yi asked Li Chang to invite Zhao Xian over.

the victory in the freshmen battle didn't mean that he could relax. on the contrary, after obtaining the entrance ticket to the alliance, whether he could successfully establish himself here would be the true test.

zhao xian was surprised to see lin yi.

At this moment, this former manager of the Zhiwei Pavilion no longer had the calm bearing he had before. Although his appearance was clean and tidy, it was hard to hide his down and out appearance.

He had been having a hard time these days.

even though he had received li chang's financial aid and his family was living in the li clan's territory, there was no one who would come to pick a fight with him in the short term. however, he knew that this was only temporary.

with zhiwei pavilion's intelligence gathering ability, it was easy to target a person.

Intelligence could kill.

even if zhao xian knew their methods and could barely come up with some countermeasures, with his strength, it was only a matter of time before they found his loopholes.

even if li chang had the reputation of little meng, he could protect him for a while, but he could not protect him forever.

Not to mention, he wasn't alone. He still had a big family.

These were the most readily available loopholes, and they were definitely fatal loopholes.

During this period of time, he had been living under heavy pressure every day. He was constantly worried that his family would be destroyed in the next second.

Although the Zhiwei Pavilion was an Intelligence Agency, when it came to the means to kill people, even the most professional assassin agency could only pale in comparison.

The same way of killing people, scholars and Warriors killed people in completely different ways.

The latter was more bloody and cruel, but the former was more terrifying and terrifying.

Lin Yi stood up and pulled him to his seat, his expression sincere, "brother zhao was blamed by the zhiwei pavilion for helping me. this favor is as heavy as mount tai."

zhao xian's expression changed when he heard this. he quickly waved his hand and said, "Brother Lin, you're being too serious. I was kicked out of the Zhiwei Pavilion. The problem lies with me, it has nothing to do with you guys."

"is it because you sold me information on the new students?" lin yi looked at him seriously.

"....."

zhao xian smiled helplessly. this was indeed the trigger for him to be exposed. the private information he gave lin yi was the basis of his conviction.

but he knew that even without Lin Yi's incident, he'd be in this situation sooner or later if he started gathering private information.

Any mainstream Intelligence Agency would take the matter of their internal members opening private kitchens extremely seriously.

It was especially so for the Zhiwei Pavilion.

Although the intelligence Agency was not an underground gang that would easily deal with them according to the Family Law, at least on the surface, they would at most exonerate them and not pursue the matter excessively. After all, they were all civilized people.

but in reality, as long as they released a little bit of targeted information, they could make people suffer a fate worse than death.

Lin Yi was well aware of this, "brother Zhao, you've suffered. I invited you here today because I want to build a career with you. We're in the same boat through thick and thin. What do you think, brother Zhao?"

Zhao Xian was surprised, "brother Lin, you're so silly."

"I'm serious." Lin Yi nodded seriously.

this wasn't a spur of the moment decision. zhao xian's intelligence gathering ability had already been verified during the freshmen battle. it was definitely a rarely seen super-first-rate standard!

Ye Jia was the eternal river Academy's hidden trump card. He'd seen through it and warned Lin Yi about it.

it must be known that this was top secret information that no other intelligence agency had been able to find out except for a few mainstream intelligence agencies. although zhao xian was in the zhiwei pavilion, he had no way of knowing about the internal management system of the zhiwei pavilion.

in other words, this critical piece of information that directly affected the outcome of the freshman battle had been obtained through zhao xian's own investigation and analysis!

At least in this matter, he had single-handedly defeated all the other intelligence agencies and was on par with the top mainstream intelligence agencies in the market!

such an exaggerated intelligence gathering ability could only be described as terrifying.

because of this, the zhiwei pavilion would never let him leave unscathed. as long as he was alive, he would definitely challenge the jobs of all the intelligence agencies.

Zhao Xian was silent for a moment before looking deeply into Lin Yi's eyes. "Brother Lin, do you know what kind of situation you'll be in if you accept me?"

"Tell me," Lin Yi smiled.

"The most direct result is that you'll be implicated by me. You'll be blacklisted by all the mainstream intelligence agencies. This is the most crucial time for Jianghai Academy to gain a foothold. Without the support of sufficient intelligence, it'll be difficult for you."

the price behind this is not a small one. You must know that even a single piece of information that is not up to standard can ferment into a fatal crisis.

the countless bloody cases in the past have concluded a fatal lesson. You can offend one Intelligence Agency, but you can never offend all of them at the same time, or you will never go far.

For someone like him to take on a private job, he was destined to be banned by the entire intelligence community. This was no joke.

Lin Yi pondered for a moment before nodding, "What brother Zhao said makes sense."

zhao xian felt a little relieved, but at the same time, he was a little disappointed.

He needed someone to help him out in his current situation, but if he dragged Lin Yi into this, he'd feel really bad.

after all, he gave lin yi information about the new students to repay his kindness. if he ended up scamming lin yi, wouldn't that be returning kindness with enmity?

But Lin Yi laughed, " with my personality, I wouldn't put something as important as Intel in someone else's basket. The so-called Intel organizations in the market are all business people who only care about profit. Even pigs can climb trees if you expect them to be reliable.

so, brother Zhao, you're overthinking it. I never intended to work with them.

"You're my only choice now. Are you willing to help me?"

zhao xian choked for a long time, and his eyes couldn't help but redden. in the end, he raised his glass and drank it in one gulp.

"From now on, Zhao Xian will follow brother Lin's lead. I will do my best and not disappoint brother Lin."

"i was just waiting for you to say that, brother zhao!" lin yi was overjoyed.

zhao xian was indeed a professional in information gathering. after confirming their relationship, he quickly got into character.

"Now that you've successfully entered the Alliance, if I'm not wrong, brother Lin will set up a branch here to fight against the beast God Hall."

his words made xu anshan and the others treat him differently again.

This Zhao Xian was indeed something.

Seeing Lin Yi nod, Zhao Xian continued, Jianghai Academy has no foundation here. It'll be extremely difficult for them to gain a firm foothold in the short term. The best way is to use the special privileges granted to new Academies by the Alliance to take a bite out of the other three failed Academies.

"however, although those three academies will suffer a backlash, the specific circumstances are different. if we want to take the biggest piece, we must take the initiative."

"Intelligence is of utmost importance!"

everyone's eyes brightened. with just a few words, it was as if the clouds had been dispelled and the sun had been seen.

zhao xian's ability was not only that of an intelligence officer, but also that of a strategist. to him, intelligence gathering was a waste of talent!

"That's why the most important thing right now is to get detailed information on the three schools. Do you have any plans, brother Zhao?" Lin Yi agreed.

zhao xian did not beat around the bush and said directly, there are three ways. The first way is also the most ready-made way. I'll buy it directly from the mainstream intelligence agencies. However, I have to act quickly. If I wait until they notice my existence, this way will probably be blocked.

the second option is to collect intelligence by ourselves. I have an intelligence line in this area that can ensure the reliability of the information, but it will take a longer time to obtain it. For now, it can only be used as a supplement.

everyone looked at each other. they were not surprised by this, as they had more or less thought of it.

"what about the third option?" the queen of the abyss interrupted.

"the third option, i suggest you go talk to the three schools-there might be a surprise," zhao xian said.

Lin Yi froze for a moment, then recalled Chen guanqi's profound words when he left the lab.

The other party asked him to show mercy.

Lin Yi didn't understand what was going on, but now that he thought about it, it was clear that the enemy had anticipated this and was prepared for this!

Lin Yi pondered for a moment before making a decision. "brother zhao is right. let's not delay any further. let's do this three-pronged approach!"

After he finished speaking, he began to assign tasks to everyone.

emperor xu anshan did not show his face much in the outside world. he was considered an unfamiliar face and could lower one's guard. he was in charge of purchasing information related to the three academies from the intelligence agency.

Madam Qing had a better understanding of the local area, so she cooperated with Zhao Xian to set up an Intelligence Agency.

Lin Yi, on the other hand, was in charge of negotiating with the representatives from the three schools. It was a difficult task, but there was still a chance if he tried. If he didn't even try, then there wasn't even a one in ten thousand chance.

"what about me?"

the queen pointed at her own nose.

"Your job is the most important-take care of the kids," Lin Yi said after some thought.

the little girl, xiao wan 'er, jumped out immediately."what about me? Are you also taking care of the children?"

"yeah," lin yi blinked.

everyone burst into laughter.

The Queen's face turned as black as the bottom of a pot. She could understand if she was asked to take care of the child since she was the closest to the little girl. But who was the child that the little girl was talking about? her?

after leaving the imperial kitchen, lin yi went straight to dazhou college's temporary base.

If they could win the freshman battle, the Alliance headquarters would provide them with a permanent residence. Unfortunately, there was no 'if'. Although the Alliance was huge, they didn't have any extra land for the other Academies.

the officials had already issued a notice that the failed academy had to move out within two days.

If you want to stay and communicate, you can either rent it at a high price or buy a piece of land in the surrounding area at the same price.

one more thing, the surrounding areas were all alliance exclusive lands and would eventually go into the alliance headquarters 'pocket.

lin yi could empathize with the heavy expressions on the faces of the teachers.

after all, the situation they were about to face was not any better than the one they faced against the beast god hall alone. under the massive backlash, both internal and external problems would erupt, and it was very likely that they would fall apart overnight.

as for the academy's teachers, once they lost the protection of the academy, their following days would be destined to be extremely difficult.

When the nest was overturned, how could the eggs remain intact?

seeing lin yi's appearance, the people from dazhou college were surprised and a little conflicted.

After all, if this guy wasn't so abnormal, they would have been the ones to win.

"what are you doing here? If you're just here to show off your victory, please go away. We're not interested in watching a clown's performance."

One of the teachers from Dazhou college did not even try to hide his hostility.

Chapter 10416

"i'm here to see the representative of dazhou academy, mentor xia wubing."

the other party couldn't help but frown and snorted back. "teacher xia is very busy right now and has no time to see an outsider like you. please go back."

this wasn't just an excuse. xia wubing wasn't idle at the moment.

after losing the freshmen battle, dazhou college was like the other two schools-a piece of meat waiting to be divided. lin yi wasn't the only one who wanted to get in touch with her.

Moreover, she was an extremely mysterious and beautiful woman, so there were many people who wanted to take this opportunity to get close to her.

Lin Yi didn't give up. He raised an eyebrow. "if i say i can help you get through this crisis, will you still chase me away?"

"Help us?"

the other party was stunned for a moment, and then became even more angry. " "Do you think I'm a three-year-old kid? Do you think I can't tell whether you're here to help or to hit me when I'm down?"

the alliance's rules were clear for all to see. the school that the three defeated academies were most wary of was undoubtedly jianghai academy!

After all, this was the only Academy in the Alliance that could act against them in a justified manner!

Lin Yi narrowed his eyes. to be honest, there are three schools I've visited. Your Dazhou school is the first one on my list. If this is your attitude, I'll adjust the order of my visit.

"You're so silly!"

The other party was about to curse out loud when Xia wubing's voice came from inside. "Please come in, instructor Lin."

Lin Yi looked at the teacher in front of him. It was obvious that the teacher still had a deep enmity towards him, but he still moved aside unwillingly.

Xia wubing was the full authority instructor. Even though she had already lost, as long as they were here, she would still be the full authority representative.

He entered the room and saw Xia wubing kneeling in front of the table. In front of him were two cups of freshly brewed spiritual tea.

"please have some tea."

Xia wubing was calm and composed, not flustered or flustered like a loser at all. Instead, he was sizing Lin Yi up.

She couldn't see her eyes, but Lin Yi could feel the scrutiny in her eyes. He felt like he was being seen through.

that kind of insight was not physical, but mental.

It wasn't obvious when they first came into contact, but at this moment, Lin Yi felt like he was being seen through. Any dark thoughts couldn't hide under the man's gaze.

Of course, this was just a feeling.

With the protection of the new world's will, even the high and mighty gods would find it difficult to see through him, let alone a Supreme realm expert.

"You're very special."

xia wubing's next sentence explained lin yi's confusion, my ability is spiritual X-ray. I can see through the deepest and darkest thoughts of my target, but I can't see through your heart.

Lin Yi asked, surprised."what do you mean i can't see through it?"

"there's a mysterious power that's blocking my x-ray vision of you,"

xia wubing was very honest about this."i've met a few of them before. they've received the favor of the gods, and have the special blessing of the gods. i heard that your jianghai academy has been baptized by the fallen divine spark. i'm sure teacher lin has benefited a lot from it."

"So that's the reason?"

Lin Yi, naturally, wouldn't correct him-he'd have to come up with a better explanation. After all, whether it was his new world or the world's will, they couldn't be exposed here.

The divine Kingdom on land was too close to the God domain.

"teacher lin, why did you choose dazhou college first?" xia wubing returned to the topic.

lin yi raised an eyebrow as he sipped his tea. "Has teacher Xia already seen through my intentions?"

Xia wubing continued calmly, " even though the Alliance has given you special privileges, it's impossible for you to swallow three failed schools in one go. Combined with the fact that you're here to help us, I can guess what you're thinking even though I can't see through your mind.

"Tell me," Lin Yi said, sipping his tea.

Xia wubing's tone remained calm. "you want to join forces with one of them and eat up the other two."

"this way, not only will the risk for jianghai academy be greatly reduced, but you'll also be able to get the biggest piece of the pie."

"and the academy that is allied with you can take this opportunity to pass on the conflicts in the academy to the outside world. if you can successfully take a bite, there is a great chance that you will safely survive this crisis of the backlash of luck."

"you're a thorough person, teacher xia," lin yi said, a look of admiration in his eyes.

This was the advantage of talking to smart people. It was easy to see through. If it were the person who had blocked the door just now, it would have taken a lot of time to explain. Even if he managed to explain it clearly, there was a high probability that he would be scolded for having ulterior motives.

"It seems like Jianghai Academy's Foundation here is limited," Xia wubing replied faintly.

"that's right, otherwise i wouldn't be here at this time," lin yi nodded with a smile.

if they had a choice, they would definitely choose a more reliable ally and not the dazhou academy, who they didn't know about and even had a grudge against to a certain extent.

In his eyes, the only reason why Dazhou college could be selected was that they had a strong motivation to seek self-protection.

As prey that was destined to be attacked by a group, cooperating with the most threatening predator to attack the other two preys was a strategy that had the attribute of shifting the crisis itself, and it had a huge allure in itself.

of course, dazhou college was not the only one with the same qualifications. the other two colleges were the same.

that's why there's the order of visits.

If he were to visit the other two families now, it was hard to say if he would come here again. Even if he did, he would probably have a different attitude of a predator towards his prey.

xia wubing fell into silence.

Lin Yi's offer was a rare opportunity for the school, but it wasn't without its benefits.

there were many key points that she had to deduce carefully.

otherwise, if he agreed rashly on impulse, it might be a disaster and not a blessing.

Lin Yi didn't rush him, and slowly sipped his tea, relaxed and at ease, not the least bit anxious.

After half an incense's time, Xia wubing raised her head. However, just as she was about to speak, the voice of the teacher from Dazhou college came from outside.

young master Xi, teacher Xia is receiving a guest. Can you wait for a moment? "

An arrogant voice immediately sounded, " who's that big-headed? there aren't many people who can make me wait in this place.

Chapter 10417

As he spoke, he ignored all obstructions and directly barged in.

The teachers from Dazhou college who followed him in looked helpless.

This person's background was too great, and he did not dare to stop him at all. Now that the Dazhou Academy was already in a precarious situation, if he were to make the other party unhappy, it would be hard to say what little chance he had left.

Lin Yi sized up the person-he was dressed in luxurious clothes, and although he had an air of arrogance about him, the noble air he exuded was still shocking.

this was no longer a matter of personal cultivation, but the origin of his family's knowledge had seeped into his bone marrow. to a certain extent, it was almost comparable to xu anshan's innate royal aura.

Even Lin Yi had never seen a background this strong before.

"Young master Xi, I'm receiving a guest," Xia wubing stood up slowly.

"what guest could be more important than me?"

the man smiled lightly and looked at lin yi, unconcerned."who are you?"

to be honest, with the new student battle's level of commotion, lin yi was more or less a celebrity now, no matter what the audience thought.

However, in this person's eyes, even the final winner of the freshman battle was not qualified to enter his eyes.

"lin yi, jianghai college."

Lin Yi looked at the man, calm and unruffled. He quickly confirmed the man's identity after some information about important people flashed through his mind.

he was xi chenyuan, the legitimate son of xi rulai, one of the nine big shots of the supreme board of directors.

The Supreme Board of Directors was the sky of the Alliance, and the nine big shots stood at the top of the entire God Kingdom on land. Unless one had a death wish, no one would take the initiative to provoke the nine big shots.

with such a background, no one in the alliance dared to disobey him, except for the descendants of the big shots.

xi chenyuan tilted his head and looked at lin yi, deep in thought. "Oh, I think I've heard that name before. You're the person in charge of Jianghai Academy, right? I have something to discuss with you."

He didn't wait for Lin Yi's reply and continued, "you have to give up the privilege of being a new member of the alliance. as compensation, i will give you a position in the alliance. in the future, when you go out, you can also claim to be a disciple of my xi family."

Everyone, including Xia wubing, was moved by his words.

The quasi-Alliance Executive Officer was also among the higher-ups of the Alliance. Although it wasn't as powerful as the Alliance Executive Officer, it wasn't a small fry.

Once they had the Halo of a quasi-Alliance executive, they could basically walk freely in the God's kingdom on land. Anyone with a little common sense would definitely not dare to provoke them.

&Nbsp; after all, an outsider attacking the Alliance's higher-ups was equivalent to attacking the Alliance.

these words also applied to quasi-alliance executors.

"Should I thank you then?" Lin Yi chuckled.

According to the usual practice, the deans of the academies who joined the Alliance could generally obtain the status of the Executive Committee of the Alliance, but the premise was that they had to be recognized by the Executive Committee of the Alliance, and there were many links that had to be passed through.

as the president of the alliance academies, there were many people who couldn't pass the alliance executive committee.

many things were not taken for granted.

Xi Chenyuan waved his hand indifferently. the Alliance Executive Committee is full of dogs of my Xi family. It's just a matter of a word. Anyway, you will be one of them in the future. Just work hard.

" alright, you can get lost now. don't disturb my chat with miss xia. "

He walked to the front, signaling for Lin Yi to move.

at least, in his mind, except for those second-generation super-rich people who had similar backgrounds as him, no one had ever disobeyed his will. never.

Lin Yi didn't get up, the cup still in his hand."did i say i wanted to be a dog for your xi family?"

"Ha?"

xi chenyuan was stunned and did not react for a while. after a long time, he said in surprise, " "Are you disobeying me?"

"Disobey is a term used by a lower-level person to address a higher-level person. It doesn't apply to you or me. As a second generation with a strong background, we'll be laughed at if we don't get what we want."

Instead of getting angry, Xi Chenyuan laughed. hehe, interesting. This is the first time I've met such an interesting guy like you. But it's a pity, I only want to spend a good night with miss Xia now. Carry him away.

as soon as he finished speaking, five powerful guards rushed in from the outside. together, they formed a killing formation.

Everyone's eyelids twitched.

even a golden class late phase peak full master would be killed in one move!

Lin Yi was the person in charge of Jianghai Academy, an important figure that everyone was paying attention to. But in this man's eyes, Lin Yi was nothing but an ant that could be killed with a single word.

there was no need for any deep hatred. if you were obedient, i could give you some benefits like feeding a dog. if you were disobedient and got in the way, i would dispose of you like garbage.

From the beginning to the end, he didn't show any emotional fluctuations. This was the common thinking of the top second generation of the Alliance.

it didn't matter who you were or how powerful you were. in front of the supreme board of directors, you would die anyway.

The five guards were all golden class late phase peak Venerables, only one step away from the full circle.

even in an alliance with so many masters, a golden class late phase peak venerable was already the core of the combat power. many quasi-alliance executors were at this level, and had the freedom to choose their own fate to a certain extent. they rarely went to be guards for other families.

In other words, a golden class late phase peak venerable was basically the highest level of the family's guards, and those who could follow Xi Chenyuan were naturally the best of the best in the same realm.

In fact, each of them had the strength to challenge those of a higher level!

Xia wubing and the teachers from Dazhou college all retreated. With their current status, they were not the owners here. At most, they were tenants who were about to be kicked out of the Alliance.

especially when they were facing someone like xi chenyan-they couldn't afford to offend him, and they wouldn't stand up for lin yi.

after all, the two sides had yet to reach any substantial agreement and were still on opposing sides.

lin yi was the soul of jianghai college. if he were to die here, it would be a good thing for the college!

but the next scene left everyone dumbfounded.

Lin Yi's aura was fully released, and the five guards at the front trembled and fell in front of him before they could even make a sound.

he lost all consciousness.

"What's the situation? Did he faint from the aura?"

The teachers of the Dazhou Academy were all dumbfounded.

With their experience, they had naturally seen top-tier Masters with magnificent auras, but a man who was so domineering to this extent was definitely the first time they had seen such a man in their lives!

these were golden class late phase peak venerables, and they were all the best in their own realm-they weren't random people you could see on the side of the road. how did they all faint?

Chapter 10418

They were still two levels higher than Lin Yi!

Xi Chenyuan was clearly also stunned.

as xi rulai's son, he had more opportunities to come into contact with true top experts than the others present. but even in his knowledge, there were only a handful of people who could reach this level just by relying on their aura!

how was it possible for a nameless kid from the border area to be on par with those people?

Both Xi Chenyuan and Lin Yi were surprised.

Just now, his focus was naturally on the five expert guards who were closest to him, but at the same time, he had also launched an aura attack on the son of the first wife of West Rulai.

others might be afraid of western dust's background, and would not dare to attack him even if they resisted, but he did not have so many scruples.

Xi Rulai was one of the nine big bosses of the Supreme Board of Directors, and it wasn't good to mess with him, but since he was already in Lin Yi's face, he wouldn't be Lin Yi if he didn't f * cking go against him.

Moreover, the nine big shots kept each other in check. As long as they stood in place, it was not completely impossible to provoke them!

However, Xi Chenyuan remained unmoved and was not affected at all. This was truly unexpected.

As Xi Rulai's son, his strength wasn't that bad. On the surface, he was one level higher than the guards. He was a golden class late phase peak full master venerable!

however, lin yi could clearly feel that this person didn't have the aura of a battle-hardened master. to be able to get to where he was today, he had to rely on a huge amount of resources and top-tier opportunities.

in the eyes of these truly wealthy and powerful families, the supreme realm experts that ordinary people knew could not advance through external means were a joke.

to be more precise, it was a fairy tale, a fairy tale for ordinary people to deceive themselves and others.

however, no matter how high his cultivation level was, he was still a fake. in theory, xi chen yuan should have been weaker than his five guards in terms of his ability to withstand the impact of the qi field!

in the end, there was no reaction.

It was only now that Xi Chenyuan finally reacted, a hint of shock in his eyes. "You actually dare to attack my people? do you know what this means?"

Xia wubing watched this scene silently.

he didn't just attack your people, he had already attacked you, but you didn't even realize it!

even though xia wubing was complaining, he was still extremely shocked.

Lin Yi actually dared to make a move on Xi Chenyuan, and in the territory of the Alliance headquarters at that! He really didn't put Xi Rulai, one of the nine tycoons, in his eyes!

in an instant, lin yi's image in her eyes became a lot more complicated.

after the freshmen battle, she knew that lin yi wasn't the kind of person who would get angry without thinking. every move he made had a deeper meaning.

today, xi chen yuan's sudden appearance might have been out of his expectations, but there was definitely a reason for his attack on xi chen yuan!

lin yi looked at him indifferently. "courtesy demands reciprocity. if you attack someone, you must be prepared to be beaten back. even a three-year-old child knows this. i don't think i need to teach you, right?"

“.....”

Xi Chenyuan was stunned for a moment, and then he laughed. "I've seen arrogant people before, but I've never seen anyone as arrogant as you. You're the first one who dares to say such things in front of me."

"That means you're pretty lucky," Lin Yi said, looking at him. "You didn't meet any really tough guys."

xi chenyuan's expression became even more mocking, 'are you saying that you're a ruthless character? Or is it that you've lost your mind because of your lust, and you want to show off your so-called manliness in front of miss Xia?"

lin yi looked at xia wubing, who was standing far away, "I haven't even seen her true face. It's a bit of an injustice to say that I'm blinded by lust."

interesting. I'm here today to see what kind of soul-stealing eyes she has under her bangs.

Xi Chenyuan actually felt a sense of empathy for someone on the same path as him, but his expression immediately changed. "What qualifications do you have to appreciate miss Xia's beauty? you don't know your place!"

with that, he attacked lin yi himself.

everyone frowned in the face of this second-generation super who had an unpredictable mood. if anything were to happen to him, they would be implicated even if they just stood by and watched.

the key was whether lin yi dared to fight back against him!

Attacking Xi Chenyuan's guards and attacking him himself were two completely different concepts.

With Lin Yi's special identity, even if Xi Rulai heard about it, he might not do anything to Lin Yi.

after all, as one of the nine big shots, he still had to have a clear outlook on the table. if he acted too overbearing, not only would he be easily criticized, but the other big shots would also get a hold of him.

It was true that ordinary experts would not be able to shake the position of the nine powerhouses. However, it was hard to say between the nine powerhouses.

But if Lin Yi hurt Xi Chenyuan directly, Xi Rulai wouldn't just ignore it, given his protective personality.

even if it was just a scratch, he'd make lin yi pay a heavy price he would never forget!

The reputation of a new school might be useful in front of ordinary people, but it was nothing in front of the Board of Directors.

Everyone was waiting for Lin Yi's reaction.

according to their judgment, lin yi's best course of action was to hide. a noble like xi chenyuan wasn't a ruffian, after all. once he dodged, he wouldn't chase after him like a dog skin plaster.

Of course, he could try to take a hit from Lin Yi by force. Although Xi Chenyuan was a golden class late phase peak, he was still a fake. With Lin Yi's strength, taking a hit from him shouldn't be a problem.

In short, no matter what, he must not fight back!

In the end, Lin Yi didn't even bat an eye at the incoming punch. He raised his hand and gave him a big slap.

pa!

Looking at West dust edge, who had fallen to the ground, everyone present fell into a daze.

If they didn't see it with their own eyes, they wouldn't have believed it even if they were beaten to death. Lin Yi was really that brave!

"you ... you dare to hit me?"

xi chen yuan was clearly a little dazed from the beating.

In the past, as long as he personally made a move, no matter how strong the opponent was, he would always be successful. There had never been a time when he failed.

Not to mention, he had actually been retaliated by someone, and it was in the form of a slap, which was an extremely humiliating way!

With his status and background, this was definitely the first time in his life that he had done this.

Lin Yi's eyes flashed with a strange look. That slap looked like it was done with ease, but it was actually extremely difficult. If it was someone else, even if it was a golden class late phase peak venerable, the slap wouldn't have landed on Xi Chenyuan's face.

Chapter 10419

"divine talismans?"

In that instant, Lin Yi clearly felt a mysterious power that belonged to a God. It was similar to the protection talisman, but it was clearly above all ordinary rule forces.

Lin Yi had fought the sea god and the evil god before, so he was no stranger to this power.

This was the legendary divine talisman that was infused with the power of the gods!

with the divine talisman on him, he could practically do whatever he wanted just by relying on the suppression of his strength.

An ordinary expert wouldn't even be able to break his defense, let alone hurt him.

Only a super background like Tathagata the West could have such an amazing amount of money. If it was any other background, even a God-ranked Academy that dominated a region might not even be able to produce an authentic divine talisman!

After all, it wasn't just a matter of precious materials. The key was that it had to be personally infused with power by the gods, and it had to be the power of the divine persona.

Which deity would do such a thing?

As such, in terms of rarity, divine talismans were top-tier even in the divine Kingdom on land, where top-grade resources could be found everywhere.

it could be encountered but not sought!

However, while God's power was an insurmountable chasm for other practitioners, it was nothing to Lin Yi, who also had the power of a God.

after all, no matter how strong a talisman was, it could only contain a trace of god's power. lin yi could break it with a thought.

"You've never been beaten by anyone?"

lin yi crouched down, calm and composed.

Xi Chenyuan gritted his teeth. "You dare to slap me? do you know who I am? if you kneel down and kowtow to this young master now, i might let you die a little easier."

Lin Yi raised his hand again before she could finish.

PA.

with a crisp sound, xia wubing and the other teachers were completely dumbfounded. they looked at lin yi as if he was a monster from outer space!

it was fine if it was just a slap, but it could still be understood as a moment of uncontrollable anger.

And you actually dared to fight a second one?

xi chenyuan shook his somewhat dizzy head. he had been completely beaten senseless. since he was young, he had never seen such an arrogant person!

"you're so silly!"

Xi Chenyuan was just about to start cursing again when he saw Lin Yi raise his hand again, and he shivered subconsciously.

Then, in front of everyone, this second-generation super made a choice that left everyone dumbfounded.

he got up and ran!

Lin Yi shook his head as he looked at the guy's back. "You're not stupid,"

Xia wubing and the others were speechless.

the whole process was so mind-blowing that they didn't know what to say.

"Lin Yi, just you wait! i guarantee that you'll wish you were dead! I want you to regret coming to this world alive!"

Xi Chenyuan's venomous scolding came from outside.

everyone was speechless.

lin yi was the first person in history to force a second-generation super into a shrew-like state in the alliance headquarters 'territory.

however, they clearly underestimated lin yi's courage.

the moment xi chenyuan's voice rang out, lin yi's figure disappeared from their sight and reappeared in front of him.

The scolding suddenly stopped.

seeing lin yi raise his hand again with a playful look, xi chenyuan panicked and quickly turned to someone beside him for help, " "Why aren't you taking him down yet? are you really going to wait for him to beat me up?"

the person he was asking for help from was a face that lin yi had dealt with before.

Alliance execution, Master Chu.

Naturally, Lin Yi had a deep impression of this lady with the word "master" in her name. He couldn't help but ask, "You're his bodyguard too?"

"It's my duty," Master Chu replied indifferently with his arms crossed.

Although she said that, her feet did not have the slightest intention of moving. She just stood by and watched coldly.

Lin Yi looked at her, and before she could speak again, he raised his hand and slapped her again.

PA.

The atmosphere turned silent.

Xi Chenyuan covered his swollen cheeks, his eyes darting between Lin Yi and Master Chu, shocked and angry.

he was the trump card in the alliance headquarters and he was actually slapped three times. who would believe that?

the most outrageous thing was that master chu, this woman who was supposed to be responsible for his personal safety, was only watching from the side and had no intention of standing up for him.

if the two slaps had happened inside the house, she would have let it go if she had not seen it with her own eyes.

Although this kind of thing was no different from covering her ears and stealing a Bell for a peak late phase golden class venerable, especially when she was the executive of the Alliance with extremely high authority. She could mobilize all the formations at any time, and even the slightest movement couldn't escape her perception.

But at least on the surface, there was still a barely acceptable reason.

this time, he was doing it right in front of her!

Xi Chenyuan was flustered and exasperated. He covered his pig head and glared at Master Chu. "What are you still waiting for? are you waiting for the board of directors to hold you accountable for hitting me like this?"

Master Chu's long eyes flashed with a hint of mockery. "i'm only responsible for your personal safety. as for this kind of friendly communication that doesn't involve life-threatening danger, it's not something i should care about. you guys continue."

"friendly exchange, haha."

xi chen yuan felt like eating someone on the spot.

He knew that the other party had always found him an eyesore, but he really didn't expect that he would dare to be so brazen!

the problem was that this woman's background was not much weaker than his. according to her, as long as his personal safety was not threatened today, she did not even have to pay any price for her negligence!

Lin Yi got the hint and raised his hand again, a half-smile on his face."Then I'll accept your invitation."

After he finished speaking, under the terrified gaze of West earth Yuan, the fourth slap landed on the spot.

Bang! Bang!

Xi family's noble young master fell heavily to the ground, completely unconscious.

master chu looked at this scene and raised his eyes. "it's good. i guess from now on, he will have a psychological shadow of your palm. but i'm a little curious, are you really not afraid of xi ru coming to find trouble with you?"

"i'm afraid, of course i'm afraid,"

"He's one of the nine big bosses on the Board of Directors," Lin Yi said calmly, "how many people would be able to handle him if he wanted to?"

master chu looked at him with interest. " i thought you were so stubborn that you didn't even care about the nine magnanimous men. so, you're already prepared to pick a side? "

I'm a foreigner. I have to see which way the temple door is open first, right? "

Lin Yi's answer made the man even more interested.

Chapter 10420

"I hope you didn't find the wrong temple."

Master Chu laughed with interest, then stepped forward and grabbed one of Xi Chenyuan's legs. He dragged this Xi family's noble young master away on the street like he was dragging a dead dog, attracting countless onlookers along the way.

lin yi frowned at this scene. it was obvious that this woman and xi chenyuan didn't have the same background. there should be some grudges between them, just that they hadn't completely fallen out.

"There have been some conflicts between Chu Hantian and Xi Rulai recently. She's using this as an excuse to make a fuss, and you've been used as a gun."

Xia wubing's voice came from behind.

"She works for Chu Hantian?" Lin Yi raised a brow.

chu hantian had once been in the top two among the nine big bosses on the supreme board of directors. however, his ranking had dropped because of a huge change in his family a few decades ago.

However, even so, a starving camel was still bigger than a horse. Although Xi Rulai had always been an existence in the middle of the nine big shots, he was still a bit inferior to Chu Hantian.

master chu's actions just now clearly represented the big boss behind her beating the other party.

Xia wubing looked at Lin Yi deeply, throwing a stone to find the way. You've long expected that the West earth fate would come. Coming to join forces with our great Zhou Academy was a lie. Your true intention was to express your attitude to that Big Shot. Am I right? "

"you're trying to say that i'm trying to get on chu hantian's good side?" lin yi smiled.

you're asking the obvious. If you're so simple-minded, why did you catch the eye of that Big Shot? "

Xia wubing shook his head helplessly, but he didn't dare to reveal the name of that Big Shot.

As a new alliance School, the first thing Lin Yi needed to do was to pick a side if he wanted to bring Jianghai school into the Alliance.

He had to choose one of the nine big shots. Otherwise, not to mention gaining a firm foothold here, even the privilege of eating corpses for the new students in the Alliance Academy would be out of the question. At that time, even if they ate the corpses, they would have to spit them out in their original form, and they might even lose their lives.

reality was cruel.

the weak never had the right to be independent.

of course, with lin yi and jianghai college's special status, even if they didn't do anything, they'd already be labeled as big shots.

Otherwise, why would that Big Shot take the initiative to stand up for him during the Yu Shishi incident during the freshman battle?

Although Lin Yi hadn't officially met that person yet, and he didn't even have any intention of meeting her, it didn't stop them from having a tacit understanding.

At least for now, he and Jianghai Academy had yet to make a clear stand.

there was a world of difference in the results between doing certain things when one had not taken a side and doing it after one had clearly taken a side.

However, Lin Yi didn't expect Xia wubing to think of this. This woman seemed to be smarter than he thought.

Lin Yi shook his head. teacher Xia, you're half right. I didn't come to find Dazhou college just for an excuse. I'm sincerely looking for you to work together.

Xia wubing fell into silence.

If it wasn't for that, she would have already agreed, and she was confident enough to convince the entire Academy's leadership.

after all, the olive branch from jianghai university was extremely precious to the great zhou university at this stage. if they missed it, not only would they lose a powerful ally, but they would also have a terrifying enemy.

If he really fell into that state, he would definitely regret it!

But the problem was that with the matter of Xi Chenyuan, his own son had been humiliated. One could imagine Xi Rulai's reaction.

even if xi rulai didn't personally take part, it would inevitably cause a huge wave. the great zhou academy was already in a precarious situation. once it was affected by any of the waves, it would fall apart in an instant.

They couldn't bear Xi Rulai's anger, even if it was just a trace of it.

however, xia wubing could see the huge benefits behind this.

if she agreed to work with lin yi, it might be hard to weigh the pros and cons in a short time, but as long as she could get through it, she'd have a chance to use lin yi's relationship to talk to the big boss.

She couldn't help but be tempted by this temptation. After all, this was an opportunity to change the fate of the entire Dazhou Academy!

Lin Yi didn't rush Xia wubing when he saw that he was deep in thought.

Out of the three colleges, the Dazhou college was indeed his first choice, but that did not mean that he had to choose the Dazhou college.

if xia wubing refused, hero academy was also a good choice.

Even the eternal river Academy could do it. They were indeed a little weird, but in the face of life and death, they wouldn't be so ignorant.

At the end of the day, as a predator, he had the natural initiative, and the other party should be the one who was anxious.

In the end, Xia wubing made a choice. " i agree to your suggestion. i will also try my best to convince the leadership of our academy. "

"you're very bold."

lin yi nodded approvingly. the guy was the representative of the new student competition, and had a lot of influence within the school, but it still took a lot of courage to make a decision like that.

after all, a single mistake could lead to eternal damnation.

"same to you."

Xia wubing replied helplessly. Compared to Lin Yi's four earth-shattering slaps, she wasn't even worthy of carrying someone's shoes.

"How confident are you in convincing your school's leadership?" Lin Yi smiled.

"70%," xia wubing replied with a straight face.

after offending xi rulai, wagering on lin yi was indeed a very risky move. she could foresee that there would be a huge disagreement within the school's leadership.

but she had confidence in her dean.

"I'll be waiting for your good news then," Lin Yi nodded.

both sides were not long-winded and took action. since they had reached a tacit understanding, they immediately split up.

xia wubing went back to the school to convince the higher-ups, while lin yi had to start preparing for a series of related matters.

In addition to the intelligence work that had been assigned before, there was another more important thing, which was to gather reinforcements.

Building a branch was a huge matter, and just a few people weren't enough. Even if they could take a bite out of a failed school, they wouldn't be able to digest it.

At that time, even if he could win, there was a high probability that he would only be helping others, and if he couldn't win, the outcome would only be worse.

Hence, the most important thing now was to get people from Jianghai.

given the degree of isolation between jianghai and the divine kingdom on land, it would have been difficult to pull one or two people over, let alone a large number of people.

however, things were different now. as an official member of the alliance of academies, he still had this privilege.

of course, the prerequisite was that someone had to help.
