

Bodyguard 10421

Chapter 10421

"brother lin, how many people are you going to send over?"

Shen Sanchi didn't seem to be troubled by Lin Yi's request.

If it were anyone else in his position, they would more or less adopt a certain attitude. Even if they didn't come to eat and ask for money, they would still take the opportunity to do him a favor.

But Sanchi wasn't that low-level-he knew who Lin Yi was, and he wouldn't do anything unnecessary.

lin yi thought that he was quite a picky judge of character, but he had to admit that shen sanchi's attitude was really refreshing.

As expected, to be able to take up such a position in the Alliance, none of them were mediocre.

"A hundred," Lin Yi said.

"alright," he said.

shen san chi didn't say anything and made the arrangements personally with his status as the alliance's executive.

to be fair, it would not be worth mentioning if 100 people were transported to other places.

however, the divine kingdom on land was isolated from jianghai, even more so than the mortal world and the sky class island. even with the alliance's terrifying foundation, teleporting 100 people wasn't an easy task.

Yet Shen Sanchi didn't even say anything to praise him, as if it was his job. He turned around and helped Lin Yi with everything.

lin yi could tell that shen sanchi wasn't just using his authority as an official executive of the alliance, he was using his personal influence as well. otherwise, even if it worked, it wouldn't be so efficient.

"they are yingluo."

When everyone walked out of the teleportation array, Shen san Chi couldn't help but be surprised.

He thought that Lin Yi would send out all the elites of the Jianghai Academy if he wanted to shake them off. After all, every school here was a force to be reckoned with, and if the Jianghai Academy wanted to act like a predator, they had to go all out.

however, from the appearance of these people, it didn't look like that.

"I'm sorry, Shen Bro, this is my personal guard unit," Lin Yi replied with a smile.

Naturally, he had thought about it carefully before transferring the guards unit over.

On one hand, it was naturally his trust in the guards unit's strength. After the previous battle, Lin Yi and the guards unit's tacit understanding had reached a very high level. The effect of one plus one was far greater than two.

On the other hand, the beast God Hall was still Jianghai Academy's greatest threat. Luo Banshi's top-tier combat force could not be touched easily.

It was important to establish a branch here, but it would be a huge joke if the beast God Hall were to steal their home.

Hence, moving the guards unit was the most logical choice.

Shen Sanchi couldn't help but click his tongue as he looked at the simplified version of Lin Yi's personal guard in front of him, feeling the invisible iron-blood aura from everyone.

Brother Lin's ability to train his subordinates is indeed not bad.

Shen san Chi sighed.

in terms of individual strength, lin yi's personal guard was barely qualified as a venerable. they weren't even at the average level of the god tier academies, let alone outstanding.

however, at shen sanchi's level, he had long passed the stage where fighting strength was divided by realm. even if this group of people were just standing there quietly without any substantial action, he could still feel the hidden terrifying aura on them.

this group of people had the appearance of trump cards!

There were four trump cards in the sea, and the God nation on land also had a series of trump cards. Any God-ranked Academy had the Grand ambition of creating a trump card battle team.

unfortunately, there were over 3000 academies in the divine kingdom on land. including the various family forces and powerful forces, there were only a mere ten teams that could truly be crowned with the title of ace!

with lin yi's personal guard's current strength, it was obviously impossible for them to be one of the ten trump cards.

After all, the disparity in absolute hard power was not so easy to cross.

But from Shen san Chi's perspective, if given enough time, and given enough opportunities and actual combat experience, it was not impossible for them to reach that height!

at this moment, a woman's teasing voice rang out from the back of the crowd. " "you can't just say that- they were trained by lin yi, not me."

everyone looked towards the source of the voice, and saw a beautiful woman with a unique temperament walking over with big steps. she put her arm around lin yi's shoulder casually, and her pure and hot eyes stared into his eyes with a smile that wasn't a smile.

"or do you also want to train me?"

"what are you doing here?" lin yi facepalmed.

It was Dongfang Yan.

Dongfang Yan was one of the top fighters in Jianghai Academy other than Banshi Luo. Lin Yi had thought about it before, but he didn't want to send her over for the safety of the school.

He didn't expect this great aunt to come over by herself.

"Am I not welcome?" Dongfang Yan glared at him.

In the eyes of those who were not familiar with her, this valiant and beautiful Warden was naturally cold and powerful, and they did not dare to approach her easily.

However, once they got to know each other, especially after drinking with her a few times, he immediately showed his carefree nature.

Of course, she didn't act friendly with everyone. She only acted friendly with people she liked, like Lin Yi.

strictly speaking, they didn't know each other that well, but both Lin Yi and her felt a sense of familiarity towards each other, as if they were old friends.

"welcome, welcome." Lin Yi smiled bitterly.

although Dongfang Yan's arrival had messed up his plans a little, with such a top-notch combat force at hand, many things would be much easier in the future. it could be considered an unexpected surprise.

"this is more like it."

Dongfang Yan glanced at him with a flirtatious look.

"don't be like this, i'm getting goosebumps." lin yi said, disgusted.

dongfang yan's looks weren't bad, and he could attract everyone's attention no matter where he went. he was also in line with lin yi's aesthetics, but for some reason, the two of them just couldn't have any ambiguous feelings.

dongfang yan laughed and squeezed even closer.

To be honest, if it was just the bouncy body, Lin Yi would've felt a bit of pleasure, but the man's laughter was too manly, and it felt like a brother who slept on the same bed as him.

Dongfang Yan's appearance also made Shen Sanchi's eyes light up. However, it was not because of her beauty, but the strong aura that she was exuding.

"Brother Lin, your Jianghai Academy is indeed full of hidden dragons and crouching tigers."

Shen Sanchi was full of praise. He knew that this was not all of Jianghai Academy's trump cards, but it was precisely this that made him feel apprehensive.

Of the 3000 Academies in the divine Kingdom on land, each of them had a late phase peak golden class venerable. This was especially true for God-ranked Academies, and the number of people in the publicly acknowledged first-class Academies would easily start from two digits.

Chapter 10422

The sudden appearance of such a person in Jianghai Academy itself was not surprising.

what really surprised shen sanchi was that whether it was xu anshan and the others who were with lin yi, or this dongfang yan in front of him, they were all the best among the golden class late phase peak venerables!

Even in the Alliance headquarters where geniuses gathered, they weren't normal people.

It was no exaggeration to say that this group of people had already reached the strength threshold of the Alliance's execution.

Of course, the Alliance was a level of power, and the strength threshold was only a small part of it. The real key was the means, ability, and background in other aspects.

but even so, it was still enough to shock people.

compared to the other veteran god-ranked academies, jianghai academy's top-notch combat strength might not be as good in numbers, but in terms of quality, it might be an exaggeration to say that no one could match up to it. however, there were truly not many academies that could match up to it.

jianghai academy was not a simple school.

Shen Sanchi only wanted to get closer to Lin Yi, but now it seemed that even if Lin Yi wasn't mentioned, the school itself was worth the investment!

The arrival of the guards unit, as expected, attracted a lot of attention.

However, not everyone had Shen Sanchi's eyes, and most of them judged people based on their cultivation level. With the negative comments about Lin Yi and the school, it was no surprise that they were met with another wave of ridicule.

For a time, it became a hot topic for the country bumpkins to enter the city in groups, and such innuendos could be heard everywhere after tea and meals.

Lin Yi himself didn't have much of a reaction to this. In fact, he thought it was pretty good.

this way, at least to a certain extent, it could lower the vigilance of those failed academies. the mainstream public opinion would help them in the war, which was a rare treatment for only one academy.

however, the news that xu anshan brought back was not as ideal.

Intelligence was blocked.

It was not just a single mainstream Intelligence Agency, but all of the mainstream intelligence agencies in the market, even the unrated ones with a list were included. The entire intelligence community of the divine Kingdom on land had launched a comprehensive intelligence ban on Jianghai college!

Such a formation was truly rare.

If it was only the few intelligence agencies led by the Zhiwei Pavilion, it would be understandable. After all, Lin Yi used Zhao Xian, and Zhao Xian was a "traitor" that they had to kill. It wasn't strange for them to vent their anger on Lin Yi and the Jianghai college.

However, this time, it involved the entire intelligence world. It was obvious that it was not just a matter of the Zhiwei Pavilion.

"Xi Rulai's revenge came fast enough."

That was the only answer Lin Yi could think of.

"at first, there was nothing out of the ordinary," xu anshan agreed. "the price had already been negotiated. but when they were sorting out the information, they received an order and suddenly changed their minds."

They matched the timing-it was right after Lin Yi slapped Xi Chenyuan four times.

zhao xian analyzed in a low voice. " the competition within the intelligence industry is extremely fierce. even the top of the industry, the zhiwei pavilion, has far less authority to speak in the entire intelligence industry. only powerful forces from the outside world can achieve this. "

there's an unverified rumor that the Xi family is the behind-the-scenes shareholder of many important intelligence agencies. If Xi Rulai personally appears, it's just a matter of saying a word to block the information.

"So I hit that guy too early?" Lin Yi scratched his head.

that being said, if xi chenyuan was stuck at that point, then according to lin yi's strategy, he had to draw. he was already giving out damage, and if he could still be a ninja turtle, then he wasn't lin yi.

Dongfang Yan roughly understood the situation and pouted. " i don't think you hit him hard enough. if it were me, i would've crippled him. anyway, you've already hit him. why are you still so polite? "

lin yi was speechless.

four slaps were enough to make someone faint on the spot, and this was still called being polite?

did this guy have a different understanding of the word 'polite'?

At the side, Madam Qing shook her head and said, " if we really cripple him, I'm afraid Xi Rulai will have to do it himself. We might not be able to hold him off with just the few of us. However, there might be unexpected developments.

Xi Rulai personally making a move was a terrifying doomsday-like situation in the eyes of others, but it wasn't like Lin Yi and the others couldn't afford to offend him.

Don't forget, there were already two real gods that fell in Lin Yi's hands. No matter how powerful he was, could he be more powerful than an evil god?

moreover, if the situation really developed to the point of no return, that big shot would not stand by and watch.

lin yi was confident in that.

After all, even if they had not officially met, according to Jiang xiaoshang, the two sides were naturally on the same side. This kind of fundamental interest led to a stand that was far more reliable than any form of Alliance.

And this, after the previous crisis, had at least been partially verified.

If they really followed Dongfang Yan's train of thought, that person might really stand up and hold Xi Rulai down!

even though they were all top figures in the divine kingdom, everyone knew that there was a difference between the top figures.

if he was placed together with that person, even the powerful tathagata could only be classified as the weaker party.

but that way, the situation would develop too quickly, and it would be too difficult for lin yi to control the rhythm with his current strength.

Going too far was as bad as not going enough.

"we're on our own now that we've been completely shut down. how confident are you, brother zhao?" lin yi said, getting back to the topic.

zhao xian was stunned. " although i have a ready-made intelligence network in my hands, because it's my personal relationship, the scope of coverage is very small. for now, it can only barely cover one college. "

In other words, if they wanted to obtain information in a short period of time, they could only gather information from one of the three Academies.

To put it more accurately, it should be one of the two choices other than Dazhou college.

Lin Yi pondered for a moment before making a decision. "then we'll give priority to the eternal river academy."

Zhao Xian nodded. good. With their family's style, it's much easier to obtain information than other Academies. If we only target them, it should be enough.

In the end, just as they had decided on a plan, bad news came from the other side.

there was an internal conflict in the dazhou academy.

shen sanchi came to lin yi's door personally and handed him a jade scroll. "this is a message i just received from the alliance. i think you guys will need it. brother lin, take a look."

"Brother Shen is very thoughtful."

Lin Yi cupped his hands in thanks-the information was a great help to them when they needed it.

Lin Yi's face darkened as he scanned through the Jade.

Chapter 10423

although dazhou academy wasn't a member of the alliance, as a loser academy that had just participated in the freshman battle, it was still a hot topic here.

Especially this time, when such a shocking turn of events had occurred!

The Academy's Dean had died suddenly for no reason, and the leadership had split up and had internal strife. Nearly one-third of the leadership had been massacred!

This was no longer just a matter of great damage to their vitality. At this moment, when they were facing the backlash of luck and had encountered such a major change, it was difficult to say whether the Dazhou Institute could even survive, let alone recover.

or perhaps, this sudden change was the result of the backlash of luck!

however, lin yi still felt that there was a conspiracy in it.

he had just reached an agreement with xia wubing, but something happened to the dazhou academy immediately. the perfect coincidence at the right time made him suspicious.

Especially with the information from the intelligence community blocking him, the shadow of West Rulai behind him was no longer looming but was about to be revealed!

As one of the nine powerhouses, Xi Rulai clearly had the ability to blow up a failed Academy behind the scenes.

To him, it all came down to a single sentence.

the key was that he had sufficient motivation.

Although the one who slapped Xi Chenyuan was Lin Yi, it was at Dazhou College's temporary residence, and Xi Chenyuan's appearance there was also for Xia wubing.

If the whole thing was reviewed, it could easily be concluded that Xia wubing was the cause of jealousy.

Xi Rulai's structure was naturally not so shallow, but this did not stop him from venting his anger on the head of the great Zhou Academy.

Plus, something happening to Dazhou college at this time was a huge blow to Lin Yi!

zhao xian's face was solemn after reading the message. " this is going to be troublesome. both internal and external problems are erupting at the same time. the chances of the great zhou academy surviving this wave of attacks are extremely low. since that person has detonated it, he will definitely not give it any chance to make a comeback. "

Madam Qing frowned and said, "if we go according to the original plan and continue to cooperate with the Dazhou college, it will be difficult for us to get help. Instead, it is very likely that we will be dragged into the mud. The Dazhou college is considered an established college. It is not easy to get involved in this pool of muddy water.

since there's no benefit, let's change to another one. We didn't sign any formal agreement with it anyway, so it can't even be considered a verbal agreement.

The Queen showed an interested expression. "why don't we just take advantage of the situation and attack the dazhou academy?!"

everyone turned to look at him.

However, with the identity and temperament of the Queen of the abyss, it was not surprising for her to say such words. For her, who had a long life and had always been associated with the dark, the so-called justice of the pugilistic world was just a joke to deceive herself and others.

Only the law of the jungle was the true nature of the world.

The little girl, Xiao Wan 'er, was also interested and said, " "Looting a burning house! wan 'er also wants to loot a burning house!"

the queen's expression changed and she quickly changed her words, "what do you mean by looting a burning house?" Children don't learn well and have no human feelings at all. You hit a friend when he's down, is that what a human should do?"

"but didn't you say you were going to take advantage of the situation?" xiao wan 'er asked.

the queen pursed her lips. " i was deliberately digging a hole for you to jump in. can't you tell? you fool.
"

everyone laughed.

The dignified Queen of the abyss had actually begun to show mercy. It turned out that the sun would rise from the West One day!

That being said, everyone still had to wait for Lin Yi's final decision.

although it would not look good to hit dazhou college while they were down, it was the safest choice if they were to make a rational judgment.

of the three academies that failed, whoever was the weakest would be the first to be attacked. this strategy was not wrong no matter how one looked at it.

On the other hand, if they were soft-hearted and continued to work together with the great Zhou Academy, they would be sent into their own trap. That would be foolish beyond belief!

"brother lin, i will not interfere with the internal affairs of your jianghai academy. however, i have to say that xi rulai is a man of honor." shen san chi reminded.

he won't let anyone hurt his reputation. You have to be careful.

After he finished speaking, he took his leave.

"what is he trying to do with all this confusion?" dongfang yan frowned.

"what brother shen means is that since i've hurt xi rulai's face in public, he'll definitely find a way to get his face back." lin yi explained after a moment of silence.

with his status, it's not good for him to fight me personally. However, it's more than enough for him to set me up behind the scenes.

"it's very likely that the dazhou academy's incident this time was targeted at me."

what? " Xu Anshan suddenly understood. the Dazhou Academy is just a cover to lure you out. The real killer move is hidden behind this.

A wavering Dazhou Academy hardly had much weight in Xi Rulai's eyes, and he wouldn't go to the extent of deliberately making it his own.

After all, as one of the nine big shots on the Supreme Board of Directors, he had to pay attention to the basic table manners.

If he ate too unsightly, not only would he be criticized, it would damage the prestige and face of the nine big shots. Most importantly, it would also attract the dissatisfaction of the other big shots. Once they were attacked by a group, even Xi Rulai couldn't bear it.

therefore, this time, it was obvious that the drunkard had other intentions.

xi rulai's real motive was to use dazhou college as bait to lure lin yi into the trap and destroy the entire jianghai college.

Thinking of this, an ordinary person would have shuddered.

In the eyes of the truly powerful, even a God-ranked Academy like Jianghai Academy, which had already officially joined the Alliance, was not necessarily more important than a bug.

he's a Big Shot. In his eyes, isn't it as easy as killing ants if he wants to kill us? "

lin yi smiled, "what i'm more curious about is, is this giant's palm harder than the other gods'?"

everyone revealed a smile.

this was the benefit of being tested by the gods.

ordinary people, even if they were from god-ranked academies, would definitely be trembling in fear when faced with xi rulai's anger, as if they were walking on thin ice.

However, to the people from Jianghai Academy, so what if they were up against the nine powerhouses? could they be tougher than the gods?

At least in terms of strategy, Jianghai Academy had the courage and confidence to look down on their enemies, even if their opponent was Xi Rulai!

of course, once they returned to the tactical level, they had to pay great attention.

with the other party's power and means, even if he did not personally take action, he had to overestimate the degree of danger that would follow.

In fact, no matter how severely he had overestimated it in advance, it was very likely that he had underestimated it in the end.

Chapter 10424

After a discussion, they finally came to a decision.

Lin Yi, Dongfang Yan, and Xu Anshan, the three top-tier fighters, formed a team and headed to Dazhou college to Scout out the situation and wait for the opportunity to test the waters.

the rest of the people would be led by madam qing, who would deal with the relevant procedures to join the alliance with shen san chi. at the same time, she would assist zhao xian in expanding the local intelligence network and be ready to lead the guards unit to participate in the war at any time.

luckily, lin yi had brought elite soldiers with him this time-no matter how bad the situation was, they still had the confidence to deal with it.

Otherwise, Lin Yi might've already been on his way to the big boss for help.

with lin yi's trio's speed, especially after using the alliance's well-developed teleportation network that covered the entire divine kingdom on land, they were able to get there quickly.

In less than two hours, the three of them had appeared in the great Zhou city, tens of thousands of li away.

This was one of the top ten super-large cities in the country. The permanent population in the city alone was in the tens of millions. With such a population, it would be a big city even in the densely populated secular world.

However, the city in front of Lin Yi's group wasn't as prosperous as they had expected. It was full of desolation and desolation.

the great zhou city had once been incomparably glorious, and the alliance had even once proposed to move their headquarters over. its status was so high that few cities in the divine kingdom could compare to it.

however, everything had a life cycle. the more powerful they were in the past, the more they would decline now.

Every year, hundreds of thousands or even millions of people fled, accelerating the decline of this old city.

and as the representative of the local academies, the fate of the dazhou academy was firmly tied to the great zhou city.

it was once a prestigious first-class school in the alliance of god-ranked academies, but it was swept out of the school due to an unforeseen event. since then, it had been unable to recover. this time, it had accumulated strength with great difficulty to make a comeback, but in the end, it lost all its battle merits to the freshmen.

now, it was even more unstable and on the verge of destruction at any time.

"what a joke."

lin yi sighed, but he didn't take xu anshan and dongfang yan to move immediately.

He was very clear that since Xi Rulai controlled the entire intelligence world, any movement of the three of them would not be able to escape the other party's eyes.

Especially since they had used the Alliance's teleportation formation this time, it was equivalent to directly revealing their whereabouts to the other party without any concealment.

there was no need to think about it. the people within the great zhou academy must have already known of his arrival.

it was very likely that they had their pockets full already, waiting for lin yi to bring people into the bag!

Lin Yi, naturally, wouldn't take the bait so easily. He found a hotel and settled down, not going out to ask for information. He sat down and started practicing.

"what's the situation? It's been a whole day, and you haven't done anything. You didn't even open the door?"

The countless pairs of eyes staring at the hotel fell into a daze.

This was not normal.

lin yi was definitely here for dazhou academy-there was no need to even think about it. they'd even prepared a show in advance. as long as any one of lin yi's group went out, they "coincidentally" would get the latest information about dazhou academy.

This wasn't fake information-it was real information. No matter how alert Lin Yi was, he wouldn't be able to find any mistakes.

the exquisite bait was already prepared, and they were just waiting for the prey to take the bait. in the end, the prey actually closed the door and did not come out. what kind of development was this?

"you're deliberately being mysterious! They must have noticed our existence and are trying to test our patience. It's okay, we can afford to waste time!"

Three days had passed, and Lin Yi and the other two were still silent.

this time, the crowd was no longer calm.

although the higher-ups didn't give a clear time limit, everyone knew that if the time dragged on, xi rulai's face would really drop to the ground and wouldn't be able to pick it up.

It would be too late even if they did Lin Yi by then.

But if Lin Yi and the other two didn't move, they didn't dare to move either.

After all, Lin Yi was the leader of the new alliance schools. If they really gathered their people and went in to kill Lin Yi, it would be a serious provocation to the entire Alliance, let alone whether they could succeed!

if they forced the alliance to fight, xi rulai wouldn't dare to protect them and might even hit them when they were down.

lin yi had to die, and he had to die in a way that the alliance couldn't find fault with. this was the difficulty they were facing!

"Send someone to investigate."

Soon, a hotel staff member appeared at the door and tried to knock on it twice, but there was no response.

however, under the people's surveillance, the three of them were clearly in the room, never leaving.

the waiter hesitated for a moment and finally opened the door. however, there was nothing in front of him except for a fog that not only blocked his vision but also blocked his divine sense.

lin yi and the other two were long gone.

"Trash! A bunch of trash who deserve to eat shit!"

the person behind the scenes sent by xi rulai was a handsome man. unfortunately, the words that came out of his mouth in anger were completely different from his image.

Although all of this had been personally arranged by him, such an outcome was naturally due to the failure of the group of idiots from the great Zhou Academy. As for his plans, they had always been impeccable.

Behind him were the remaining leaders of the Dazhou college.

in front of the creator of the academy's tragedy, they, who used to be high and mighty, did not even dare to breathe.

In the eyes of the personal representative of West Rulai, their lives were not worth much more than those commoners.

Once they angered the other party, the group of Academy colleagues who had died tragically a few days ago would be their lesson.

After a while, the handsome man finally calmed down and walked into the room where Lin Yi and the others stayed.

Then, he found a leaf in the corner of the wall.

"Blinded by a single leaf? he's actually a formation master?"

the handsome man squinted his eyes, and the corners of his mouth curled up into a sinister arc. "you came here so brazenly to attract our attention and escape with a smokescreen. what are you going to do next?"

"Creating a diversion? or is he going straight to the root?"

the handsome man fell into deep thought. the leadership of the dazhou college behind him trembled in fear, not daring to make the slightest noise.

At this time, the eyelids of the vice principal, who was the highest ranked among the leadership, twitched. He glanced at the communication stone that lit up in his arms, and his expression changed. He hurriedly and carefully walked behind the handsome man.

"lord an, xia wubing has escaped."

the handsome man's body suddenly exploded with an indescribable ruthlessness, like a roaring tiger. he turned around and pressed the deputy dean to the ground with a palm.

"he ran away? with so many experts watching, how could she possibly escape?"

The Vice President didn't even have time to make a sound before his brain exploded on the spot, and he became a badly mutilated corpse in the blink of an eye.

the rest of the dazhou institute's leadership were collectively scared stiff.

Accompanying a sovereign was like accompanying a Tiger. They now had a real experience. The fickleness and ruthlessness of this Sir an in front of them was something they had never seen before in their lives.

"You!"

the handsome man pointed at one of the leaders. " "from now on, you'll be the deputy dean. i want to see xia wubing within the time it takes for an incense stick to burn. otherwise, you'll be the next one to have your head blown up."

The man who was pointed at trembled on the spot, but since he had been pointed out by the handsome man, he could not escape even if he wanted to.

In other words, he only had an incense's worth of time left to live.

unless he could find xia wubing.

"thank you for your support, lord an!"

This newly appointed Vice Dean was also a ruthless person. Since he couldn't escape, he could only accept his fate. Without saying anything else, he immediately mobilized all the remaining leaders present to search for Xia wubing's whereabouts.

if there was even the slightest delay, he would immediately welcome his merciless killing!

lord an had only given him the time it takes an incense stick to burn, so the lives of the others should not even dream of exceeding that.

even if they were colleagues who had a deep friendship in the past, there was no room for mercy at this time. they were all grasshoppers on the same rope and could only squeeze each other to death.

in the end, the great zhou city was their home ground.

When the remaining power of the Academy's leadership was completely squeezed out, the efficiency they displayed was extremely shocking. In less than the time it took for an incense stick to burn, they had locked onto Xia wubing's position!

"The dynasty Tower! Xia wubing is in Dynasty Tower!"

the newly appointed vice principal was pleasantly surprised, but he suddenly froze."Wait! The three from Jianghai Academy are up there as well!"

"Interesting,"

The handsome man smiled when he heard this. His figure flashed and he immediately sped towards the dynasty Tower. The leadership of the Dazhou college hurriedly followed him. If anything happened to the other party here, all of them would be buried with him.

at this moment, lin yi saw xia wubing at the top of the dynasty tower.

As a landmark of great Zhou city, the height of the dynasty Tower reached eight hundred meters, undoubtedly the highest height of the city.

standing at the top of the tower, one could easily overlook the outline of the entire great zhou city. even the smallest of humans couldn't help but feel like they were looking down on all life, the world beneath their feet.

Especially when Lin Yi and the other two were standing there, that overbearing aura of a powerful master was almost materialized.

Xia wubing was secretly shocked at this scene.

the dynasty tower was not just an eye-catching tower. the original intention of building it was to test the limit of a cultivator's spirit!

simply put, everyone who managed to reach the top of the tower would be able to see their true colors.

whether they were strong or weak, it was clear at a glance.

Generally speaking, the stronger the spirit of a person, the deeper the color of their skin. There was only one in a billion who could dye their skin black.

however, at this moment, behind lin yi, xu anshan, and dongfang yan, it wasn't just black-it was so black that it almost materialized!

if it was only one person, it would still be understandable. after all, there were always monsters that were beyond common sense in this world. xia wubing had seen them before.

However, Xia wubing couldn't understand why all three of them were like this.

for a moment, she even thought that the dynasty tower had malfunctioned because it had been abandoned for too long.

however, she immediately reacted. this wasn't the dynasty tower's problem. it was simply the three people in front of her who were too overbearing!

"This is truly shocking!"

xia wubing couldn't help but say, " any deity-ranked academy can rule a region with just one of you guys. you guys actually have three of you at once. it seems like i made the right choice. "

Lin Yi said helplessly as he looked towards the southeast, where Dazhou college was."Your choice is right, but I'm a little worried about whether my choice is right or not."

the original plan was to form an alliance with dazhou college, but now, there was internal strife in dazhou college, and xia wubing was the only one left.

what was even more annoying was that if he joined forces with xia wubing now, it would mean that he would become an enemy of the entire dazhou academy. this was very different from his original plan.

No matter how he looked at it, the losses outweighed the gains.

Xia wubing said calmly, " things have developed to this point. It's indeed beyond my control. However, please rest assured. I'm not the only one who is in an alliance with you. The entire Dazhou Academy will be in the Alliance.

"how do we prove it?" lin yi frowned.

" because the entire dazhou academy is in my eyes. "

As Xia wubing spoke, he slowly lifted the bangs on his forehead.

lin yi and the other two looked at each other, curious. could they finally see the real face?

however, what they saw next made their hearts skip a beat.

with xia wubing's figure and temperament, no matter how one thought about it, he should have a pair of beautiful and moving eyes.

in fact, even if her eyes were ordinary, she could still be considered a stunning beauty.

However, what if he did not have double pupils?

the scene fell into an unusual silence.

lin yi and the other two were speechless when they saw xia wubing's empty eyes.

if it was an ordinary person, they would be shocked to see this scene. the sexy and mysterious beautiful teacher had suddenly turned into a female ghost. who could stand it?

however, upon closer inspection, one would realize that it wasn't that xia wubing didn't have double pupils. it was just that her pupils were different from ordinary people's. they were crystal clear and without any impurities. at first glance, she looked like a pure transparent body.

"God's eye?"

emperor xu anshan blurted out subconsciously.

Lin Yi froze and turned to Jiang xiaoshang out of habit. Unfortunately, the guy had absorbed a part of the evil God's divinity after killing the evil god and entered some kind of deep evolution state.

She rarely responded to the outside world in this state, and Lin Yi didn't want to disturb her.

xu anshan took the initiative to explain. " the god's eye is also called the god's eye. legend has it that it can see through everything and even accurately deconstruct the origin laws of the entire world. it is the same as the god's body. in theory, it is an ability that only the gods can have. "

He glanced at Lin Yi as he spoke.

Even Dongfang Yan's eyes couldn't help but wander between Lin Yi and Xia wubing.

as teammates, they naturally knew about lin yi's god body. lin yi had explained the nature of the god body to them without hiding anything.

unfortunately, knowing the theory behind this was one thing, but being able to do it was another.

breaking through the shackles of growth six times didn't seem difficult, but in reality, even with xu anshan's imperial talent, he couldn't do it. after all, he wasn't an ancient god cultivator.

Chapter 10426

lin yi was able to break through the shackles of growth six times not only because of his natural talent and external luck, but also because of the evolution of the new world.

without this opportunity, it would be impossible for human cultivators to cultivate a divine body.

However, if Lin Yi was the only abnormal one, he and Dongfang Yan would have accepted it. But now, God's eye suddenly appeared. Even with their mental endurance, they couldn't help but feel that they couldn't keep up with the changes in the world.

as she spoke, a subtle fluctuation came from xia wubing's body. more accurately, it came from her transparent and flawless divine eyes.

Immediately after, the world in front of the three changed.

the originally clear scene was actually deconstructed into many wonderful lines by itself. after a series of painstaking investigation, the three of them had a sudden feeling of enlightenment, as if they had finally understood the nature of the world.

it was abstract, cold, but extremely real.

So this is the world in the eyes of the gods?

Dongfang Yan's face showed a surprised expression. At this time, after the lines that were separated from the world had been reorganized, they had become a plane map.

It changed from three-dimensional to two-dimensional.

"dimension reduction?"

Lin Yi shook his head, "this is probably just the world's essence analyzed by her God's eye, not the real world's essence." &Nbsp;

As an ancient God Himself, Lin Yi had personally experienced the evolution of a new world. In terms of understanding the nature of the world, he was probably the best in the entire divine Kingdom on land.

xia wubing's performance was indeed eye-opening, but it still couldn't shake his understanding.

in fact, even though it was his first time seeing it, he could see the flaws of this two-dimensional world.

After all, he was the one who was closer to the essence of the world.

His knowledge and experience were far superior to Xia wubing's. In this aspect, he was more than qualified to be Xia wubing's mentor.

"what do you mean?"

Dongfang Yan and Xu Anshan looked at each other in confusion. To the two of them, everything that Xia wubing had just displayed was already far beyond what they could understand.

"There are a thousand hamlets in a thousand people's eyes. What you're seeing now can only be considered a world drawn out by Xia wubing's observation. It's not the real world."

xia wubing couldn't help but be surprised.

"it seems that my intuition was right. you are indeed very special."

It was not the first time she had seen this scene, but all the people who had seen it in the past either didn't understand it and thought it was amazing, or they thought they were smart and said some stupid things that seemed right but were actually laughable.

only lin yi hit the nail on the head, directly revealing the essence of the situation.

"the painting you're looking at is a world that i've recorded after using my divine eye to observe," xia wubing said frankly.

"in other words, this is equivalent to a sketch you drew with your divine eyes?" dongfang yan asked thoughtfully.

"you can understand it that way."

xia wubing nodded. " however, it's not just a painting. according to needs, it can be restored into a complete world. it's just that my ability is limited, so i can only cover the area of dazhou college. "

"restore?"

lin yi and the other two were shocked, "are you only restoring inanimate objects, or do you even include living things?"

if it was the former, then it would be fine.

however, if it could even restore living things, that would be too exaggerated. to a certain extent, this was almost like the ability of the creator!

Xia wubing was silent for a moment before he finally made up his mind. not only dead things, but even dead people can be resurrected as long as they are within the scope of my painting.

dongfang yan was dumbfounded, "according to what you said, isn't he invincible?" "If you draw a few more, your great Zhou Academy will immediately have a few times more experts. If you're happy, it might even be a hundred or a thousand times more. Who would be a match for you then?"

"You've misunderstood,"

xia wubing shook his head. "my ability is recovery, not duplication. the things in the painting, including the cultivators, can only cover the corresponding targets in reality. if the target is not dead, then i can't cover it."

lin yi remembered his new world and asked, "have you ever explored the principles behind it?"

"there's no uniqueness to inanimate objects, so they can be covered infinitely. even if they're not destroyed, they can be restored."

Xia wubing understood the purpose of Lin Yi's question and answered without hiding anything, "but life is different. every life is unique. in other words, every life has a unique part that only exists in living individuals."

"This unique part is the so-called soul."

the individuals recorded in my paintings are essentially dead objects without souls. Only when the original individual dies will the unique part enter my paintings, turning the recorded individual into a real living being.

" of course, all of this is just my personal thoughts. as for whether it's true or not, i can't be sure at the moment. "

lin yi was enlightened.

Ever since he had absorbed the evil God's divine persona, the new world's evolution speed had greatly increased, and single-celled creatures had also appeared. Since the first life form had already appeared, he thought that what happened next would be logical, and he would soon welcome a great explosion of life.

after all, everything was ready. no matter how one looked at it, the conditions were already met.

However, he didn't.

The evolutionary process of life was far more complicated than he had imagined. It was a huge threshold to have everything from nothing, and it was also an insurmountable threshold to have things from unicellular to multicellular.

The premise of the birth of multicellular creatures was that there must be enough single-cell creatures.

The cruel reality was that there weren't even many single-celled organisms in this new world. Lin Yi was even worried that he might not even be able to keep this pitiful Tinder of life if something were to happen.

lin yi thought it was a problem with reproduction.

However, after listening to Xia wubing's analysis today, he realized that the key to stopping the evolution of life in the New World was most likely the uniqueness of life.

to put it bluntly, the new world could evolve all things under the power of the divine persona, but it could not provide souls!

next, if he wanted to break through this shackle, he would have to start from the source of the soul. this might be a feasible direction.

Lin Yi's spirit was lifted-this hint alone was worth it!

moreover, although the situation at dazhou academy was not optimistic, xia wubing had a trump card like the divine eye, which meant that there was still a possibility of a successful comeback!

Chapter 10427

Xia wubing was surprised by Lin Yi's reaction.

The theory of the uniqueness of life was the most important insight she had gained over the years.

however, this theory was of no value to most cultivators. it involved topics like the soul. although it was extremely profound, it rarely had any practical applications.

after all, normal fighting and killing would not affect the soul at all.

lin yi, however, was clearly an exception.

"so you're saying that your ability is like creating a save file for dazhou college? you can resurrect anyone who's in your memory?" lin yi asked back to the point.

Xia wubing thought for a moment and finally nodded. "you can understand it that way."

Everyone looked at each other in silence.

without a doubt, this was an extremely heaven-defying ability. as long as xia wubing existed, the people of the great zhou academy were almost immortal.

even if you kill us all, we can still load and revive!

"the ability to be associated with the word" god "is indeed amazing," xu anshan said faintly.

The God Body gave Lin Yi a body that could crush any opponent, and the God's Eye in front of him gave the entire Dazhou college an undying hack. Each one was more insane than the last!

in contrast, even he, a natural-born emperor, couldn't help but feel that his strength was not in his heart.

"Tell me about the disadvantages of your ability," Lin Yi said.

There was no doubt about the power of the God's Eye, but since this ability was so powerful that it was almost a public cheat, it meant that there must be a flaw that was difficult to overcome.

Otherwise, Xia wubing wouldn't have needed to appear here and would have activated the infinite Rebirth mode for the Dazhou Academy.

If that was the case, even Xi Rulai would be scratching his head!

Xia wubing looked deeply into Lin Yi's eyes and whispered, "my god's eye is not complete, so there is a limit to the number of times i can load. there is another more important problem. if i want to load, i have to return to the original save point."

"where's the save point?" lin yi asked.

"The Academy's administrative office."

xia wubing's answer surprised the three of them.

The General Affairs Office was a common establishment in all the other schools. There was nothing too special about it, but it was a little odd in Jianghai Academy.

after all, there was a legendary general director in the general affairs department of the repeat student institution. according to the current clues, he and the deputy director xiang yusheng might be in the god kingdom on land!

This might just be a pure coincidence, but this coincidence was more or less thought-provoking.

Lin Yi asked a more important question, "do they know your save point?"

"I might know."

Although Xia wubing's tone wasn't very certain, one thing was certain from her answer. The other party definitely knew about her ability.

this was not strange in itself.

Loading a file and reviving, especially when it covered the entire Dazhou Academy, was something that could not be kept completely secret.

as long as a second person knew about it, it would immediately be revealed to more people, even to the point that the whole world would know.

this was a law that had never changed.

lin yi and the other two frowned.

"in other words, as long as the other party guards the general affairs office, they can completely block your god's eye loading file, and our only choice is to walk into the trap?"

Once this conclusion was made, the pleasant surprise brought by Xia wubing's divine eyes was immediately diluted, and the future became pessimistic.

the enemy had gathered the entire strength of dazhou college, especially with the masters sent by xi rulai. with such a lineup, even with lin yi's group of three, it would be difficult to break in.

lin yi and the other two were strong, but the people they were facing weren't weak either.

If he directly transferred the guards unit over and launched a full force attack, there was a chance.

However, this way, Lin Yi's personal guards unit would definitely suffer casualties, and it wouldn't be a small number.

Lin Yi didn't want to lose even one of his own forces for a completely unrelated Dazhou college.

"then we need to talk about the price," lin yi said, raising his eyes.

Previously, he had reached a tacit agreement with Xia wubing, but the premise was that he could bring out enough power in the great Zhou Academy. Now, Xia wubing was the only one left, and the entire Academy was standing on the opposite side.

Even if Xia wubing's God's eye was a good addition, the previous agreement was obviously invalid.

In the end, Lin Yi wasn't here to do good-he needed a strong ally!

Xia wubing was already mentally prepared for this, so he wasn't angry at all. He said, " "I can give you a reward, a generous reward that you can't refuse."

"How generous?"

"the cultivation method of the divine eye."

lin yi, xu anshan, and dongfang yan rubbed their ears at the same time and looked at each other, wondering if they were hallucinating.

no wonder they were in disbelief. xia wubing's reward was simply too shocking. everyone would be dumbfounded if they heard about it.

That was the God's Eye!

Especially after witnessing the God's Eye's heaven-defying ability, who wouldn't be tempted by such a creator-like cheat?

Even Lin Yi was no exception.

Lin Yi looked at Xia Wubing deeply and nodded without hesitation, " "deal," he said.

he didn't need to think too much to know that even if Xia Wubing did give him the method to cultivate the God's Eye, it wasn't something that Lin Yi and the others could master easily.

The result was likely to be the same as the Divine Body. Even if one knew the method, without a cheating method like the New World, one could only look at it and sigh.

But to Lin Yi, it was still very important.

Even if he could not master the Divine Eyes, he would at least know the direction of his future cultivation. At the level of the Supreme Realm, a clear direction of cultivation was even more important than the cultivation itself.

The latter was hard work, while the former was a choice.

Hence, Xu Anshan and Dongfang Yan agreed with Lin Yi's decision.

furthermore, even if the few of them could not master the divine eye, there were so many people in Jianghai Academy that they still stood a chance.

If even one person was able to cultivate the divine eye, it would be a huge boost to the overall combat power of Jianghai Academy. It was worth the gamble no matter how one looked at it.

Xia Wubing didn't hesitate and handed Lin Yi a jade scroll, this is the general outline of the cultivation of the God's Eye. As for the specific cultivation method, I'll give it to you after I've successfully loaded the file.

In other words, the cultivation superclass was her deposit.

Lin Yi took it and glanced at it, sending the message to Xu Anshan and Dongfang Yan at the same time. He didn't have the habit of monopolizing everything, especially to his own people.

Chapter 10428

Although he had many conflicts with Xu Anshan in the past, they were now comrades standing on the same front. Even if they were not close, they were partners who could trust each other at critical times.

They both had this tacit understanding.

After reading the content of the cultivation superclass, the eyes of the three of them lit up.

There were two ways to obtain the God's Eye. The first way was to kill a God.

the god's eye was the symbol of the gods. if someone could kill the gods, they would naturally have a way to dig out the god's eye from their body and exchange it for their own.

however, this method was useless.

even lin yi, who had the record of killing gods, couldn't reach this standard. killing gods wasn't enough- he had to be able to touch the bodies of the gods.

As everyone knew, the gods rarely left the divine realm.

in other words, in order to do this, one had to enter the divine realm and find a god to kill, then dig out their eyes!

If someone could really do this, would the God's Eye still matter?

the superclass 'second approach had some feasibility.

Bloodline awakening.

"Everyone is a natural God?"

"this is the first time i've heard of this." lin yi and the others looked at each other.

Xia wubing explained, " to be precise, we humans are the best of all living things. In theory, every one of us is an innate God. It's just that we are forcibly sealed by the omnipresent rules of the world.

"Why do you need to seal it?" Lin Yi asked.

Xia wubing replied, " this world doesn't need so many gods. Every addition of a God will increase the burden on the world's rules. Once there are too many gods, the world will collapse.

Lin Yi and the other two nodded. This explanation was quite convincing.

as the master of the new world, lin yi was touched by this. the new world was still in its infancy, and the will of the world could manage it alone, but even at this stage, he was starting to feel that there were people who didn't follow their hearts.

sometimes, lin yi would try to get jianye to help manage the place since he had nothing to do. it was a lot easier that way.

Jianzi was obedient, but he was different from the world's will-he was completely under Lin Yi's control. If he let him do whatever he wanted, he'd lose control.

After losing control, there would be a series of problems.

With the scale of the New World, Lin Yi could still deal with it in time with the help of the world will, but if it was the source world outside, the scene of too many sources of trouble was enough to make his scalp numb.

lin yi could now understand why the god of creation had such strict control over the gods.

If the saying that everyone was an innate God was true, and if it was not forcibly sealed, even if 10000 gods of creation came, they would probably die of exhaustion, let alone one.

xia wubing continued. " the so-called bloodline awakening is essentially to unseal the innate seal. however, this kind of seal requires one to challenge a part of the world's laws. therefore, it is extremely difficult and the possibility of success is extremely low. "

the God's eyes are also divided into levels according to the degree of unsealing.

" the elementary divine eyes can see through everything, including the true will in the depths of the target's heart, unless it is blocked by a power of the same level. "

Xia wubing couldn't help but glance at Lin Yi.

although xu anshan and dongfang yan were also perverts, in front of her divine eyes, they could be said to be completely transparent and had no secrets to speak of.

Lin Yi, on the other hand, was pitch black even under her God's eye.

There was only one reason. The divine eye could not see through the divine body.

"your god's eyes can see through everything, and you can save and load as well. you've obviously passed the beginner level. is it intermediate or advanced?"

"Intermediate level."

Xia wubing answered honestly.

If it was someone else, she wouldn't have said so much even if they'd come to an agreement, but she was being extremely honest with Lin Yi. Even she didn't know why.

the reason for this was probably because she felt the same kind of aura on lin yi.

with the divine eye, she was still a monster even in the dazhou academy, where experts were as numerous as clouds. other than the dean who had raised her, everyone else kept a subtle distance from her.

lin yi was the only one who gave her a sense of security, even though they didn't interact much.

while they were talking, xia wubing's expression suddenly changed. "We've been surrounded."

Lin Yi and the other two were stunned. Even Lin Yi, who had the strongest divine sense, didn't sense any enemies approaching.

moreover, they were standing at the highest altitude in great zhou city, which provided them with an excellent view. if someone really did come close, especially if they were surrounded, they would never be able to escape their eyes.

However, after Xia wubing switched to God's eye mode, the world he saw turned from two-dimensional to three-dimensional. He only divided it into lines, and the three immediately understood.

under this kind of see-through mode, nothing could be hidden.

Through the shared vision provided by Xia wubing, he could see dozens of experts from the Dazhou college who had concealed their auras. Under the cover of the alleys and houses, they were rapidly approaching from all directions.

lin yi raised a brow-he'd noticed a few of them before, and they were the people who'd been watching him in secret.

by making such a move at this time, the other party's intention was clear at a glance.

they are the traitors of the Academy who launched a rebellion and killed our Dean.

Xia wubing's tone was calm, but the moment she put down her fringe and covered her God's eyes again, Lin Yi could clearly see two drops of crystal tears falling down.

to xia wubing, the dean of the dazhou institute was not only the leader of the institute, but also a teacher and a father.

If there was one person in this world that Xia wubing couldn't let go of the most, it would be the principal who had already been killed.

Because of this, Xia wubing revealed a cold killing intent for the first time in his life as he faced his rapidly approaching comrades.

"What do you mean?"

Xu Anshan and Dongfang Yan both looked at Lin Yi.

The Masters from Dazhou college weren't low-the lowest was a late phase peak golden class venerable, and many of them were full Masters. Just from the surface, the situation was extremely disadvantageous to them.

Once they were surrounded, it would be difficult to escape.

However, Lin Yi's group had enough strength to face twenty times the number of enemies.

it was up to lin yi to decide whether to fight or retreat.

lin yi looked around. " they're going to fight sooner or later. since they're here, it's better than staying in the office. what do you guys think? "

Chapter 10429

dongfang yan replied with an excited smile, " "I have two hobbies, drinking and fighting. I've never been afraid of drinking or fighting."

as for xu anshan's reply, it was simple and concise. it was only one word.

"Let's do it,"

xia wubing couldn't help but look at him.

Although this wasn't Dazhou Academy's full strength, their overall strength was already far beyond what an individual could challenge. Unless these three people's individual strength could surpass the Golden class late phase peak and enter the legendary Mystic class venerable level.

And that was obviously impossible.

The divine Kingdom on land was the world of Supreme realm experts, but the majority of them were yellow rank Supreme realm experts.

It wasn't that there weren't monsters that could reach the mystic class, but they were extremely rare. Even a half-step Mystic was already close to the top of the pyramid, let alone a true Mystic.

among the alliance's higher-ups, after the highest board of directors, the alliance's most high-profile executive group's strength standard was half-step profound class!

No matter how he looked at it, it was a risky thing to do with Lin Yi and the other two's strength.

however, what happened next was beyond xia wubing's expectations.

"Teacher Xia, how about I borrow your God's eye to cooperate with me?"

Xia wubing didn't know what was going on, but he trusted his own kind and included Lin Yi in his God eyes 'surveillance system.

Furthermore, they shared the information.

Lin Yi's eyes brightened,"no wonder it's a high-grade item from the" God "generation. This sharing effect is much better than the Alliance's puppet play system."

as he spoke, the experts from dazhou college from all directions had already arrived at the foot of dynasty tower. they no longer hid their auras and charged towards the top of the tower.

his killing intent soared to the sky.

they were all genuine practitioners-even if they weren't as strong as lin yi's group in a 1v1, they weren't that far off in terms of strength.

Now that they had the advantage of tens of times the number of people, especially with Lord an from West Rulai personally supervising the Army, and with his attitude of killing a chicken when dealing with the previous Deputy Dean, if they lost again, they might not even have the chance to collectively apologize.

One had to know that the most famous thing about this Sir an was not that he was numb to killing people, but that every person who fell into his hands would suffer a fate worse than death.

a group of experts had once fallen into his hands, and they were rescued three days later.

However, the final result was that this group of people collectively committed suicide!

That scene was truly hair-raising.

For them, death was the only way to truly free themselves. If there was a chance that they would fall back into the hands of Sir an, they would rather die!

In comparison, the Deputy Dean, who had his head crushed by a palm, was already considered lucky.

With such a military supervisor watching from behind, no one present dared to slack off.

in today's battle, if lin yi and the others didn't die, they would rather die!

Once a Supreme realm expert was forced into a dead end, their explosive power was extremely shocking. In the blink of an eye, they had all rushed up the 800-meter Dynasty Tower.

They all worked together and formed a killing formation against the four of them!

In such a dangerous situation, other than Lin Yi who had a divine body, Xu Anshan, Dongfang Yan, and Xia Wubing would not be able to withstand their combined attack!

In the distance, Lord An watched this scene and revealed a sinister smile.

Although they were just a bunch of dogs, the people from Dazhou College were still a little stronger than he had expected.

At the very least, it would bare its teeth and bite!

But in the next second, Lin Yi, who was standing at the top of the Dynasty Tower, suddenly released his aura.

Under the impact of an unprecedented powerful aura, the group of Dazhou Academy experts fell to the ground like dead birds that had suddenly died in the air.

No one was spared!

The entire place was deathly silent, and even this proud Lord An was dumbstruck.

Lin Yi was the main target of his trip. He had naturally done some research on this person who dared to knock out the Xi family's young master, Xi Chenyuan, in public.

although there were indeed some redeeming qualities, in his eyes, she could only be considered a dark horse that rose up with luck.

once it was studied thoroughly, it would only be a matter of minutes before he died in front of others.

This kind of trash could not be on the big stage after all.

in the end, this person, who was not even on the stage in his eyes, had stunned dozens of elite experts from the great zhou academy on the spot with just his aura!

His three views were shattered.

these weren't normal cannon fodder-even if they couldn't do anything on their own, they weren't something anyone under the mystic class could just kill.

Even if Xi Rulai came personally, he could not guarantee that he could knock out any one of them with his aura.

not to mention that dozens of people had fainted at the same time!

killing someone was easy, but to be as domineering as lin yi, to be able to suppress everyone with just his presence alone, that wasn't an easy feat!

for a moment, lord an looked at lin yi from a distance and actually wanted to retreat.

His strength was far above the experts from Dazhou college, and he was also a strong man who had experienced hundreds of battles. His heart was also cruel and ruthless enough. However, if he were to face an opponent who he could not figure out, he would not be so stupid as to force himself.

That was not his style.

even xu anshan and dongfang yan, who were his own people, were dumbfounded by the scene, let alone the other side.

They knew that Lin Yi was a monster, but they didn't expect him to be this crazy!

although the situation just now hadn't forced them into a desperate situation, the two of them had indeed been prepared to go all out.

After all, no matter how one looked at it, it was not easy to defeat an opponent who was dozens of times stronger than him.

in the end, the two of them didn't even have a chance to attack.

Lin Yi's body shook, and that was it.

this was simply f * cking ridiculous!

Xia wubing was the only one who looked at Lin Yi with a hint of understanding on top of shock.

that move just now looked simple at first glance-it was a burst of aura from the start to the end, but it was actually an extremely high level of skill.

With her God's eye, Lin Yi could see the mental holes in everyone's minds. The aura might look like it was an attack from all directions, but it was actually a precise attack on dozens of targets at the same time!

With the strength of these Masters from Dazhou college, a simple aura impact would only make them dizzy for a short while, giving Lin Yi and the others a chance to make the first move.

However, the moment one caught hold of a spiritual hole, the impact would immediately increase by a hundred times, and the effect would be outstanding!

Chapter 10430

the more xia wubing knew about these details, the more shocked he was.

this kind of operation was easy to say, but once it was actually done, the difficulty was unimaginable.

She possessed the God's Eye, and her own divine sense was far more powerful than those of the same level. She had thought of similar moves, but in the end, after testing it, it could only be said to be barely satisfactory, and the limit was only targeted at a specific target.

Targeting dozens of people like Lin Yi, and getting the results all at once, it was unimaginable!

no matter what, with lin yi's sudden burst of aura, the dangerous situation was turned around. the four of them looked at lord an in the distance.

the situation had been reversed.

" he's the mastermind behind the tragic internal strife in our dazhou academy. "

Xia wubing's tone was calm, but Lin Yi and the other two could hear a hint of hatred in it. To her, this man was the main culprit who destroyed her family. Even the most indifferent person would grit their teeth in anger.

"Xi Rulai's people?" Lin Yi raised his eyes.

as he spoke, his figure flashed and he sped towards the other party.

xu anshan and dongfang yan did not need to be called out and followed closely behind.

To capture the king, to capture the thief. Although Lord an was not a King and was at best a chess piece for Xi Rulai, as long as he could be captured, the situation with the Dazhou Academy would be easily resolved.

This was the perfect opportunity!

"A bunch of mutts, you really think I'm a soft persimmon?"

Seeing this, Lord an was so angry that he laughed.

He was indeed scared by Lin Yi's move and wanted to retreat, but it was just his heart. It didn't mean he was really afraid of Lin Yi.

Not to mention that he still had a large number of trump cards in his hands, even if he had used all his trump cards, he could only rely on himself to fight, and his chances of winning might not be small.

to be able to gain xi rulai's trust, this in itself was a gold medal of his strength!

It wasn't an overstatement to say that in terms of strength, even those powerful Alliance enforcers in the headquarters might not be able to suppress him!

but even though he was angry, he didn't lose his mind just like that. compared to lin yi, this group of wild cultivators from a small place, he thought that he had a golden body and wouldn't put himself in danger easily.

Pa!

With a snap of his fingers, nine sinister figures suddenly appeared in front of him. Each of them exuded an ancient and powerful aura, and at the same time, they also exuded a thick corpse Qi.

"This is a Kasaya."

lin yi and the other two stopped at the same time, their faces serious, " "A Living Dead?"

it was easy to tell from their auras that these nine were definitely not living people, but at the same time, they did not seem to be pure puppet corpses.

Although there was no clear evidence, one could clearly feel the existence of souls from their empty and dark eyes.

this was purely based on intuition.

At Lin Yi's level, intuition was far more accurate than experience, let alone three people appearing at the same time.

they are the ancient corpses that guard the Dazhou Academy.

Xia wubing's solemn voice sounded behind the three of them. our Dazhou Academy has a tradition. After the deans die, they will not be buried. Instead, they will be turned into ancient corpses with a unique secret technique.

all the acupuncture points of these ancient corpses will be sealed at the moment of death. This method is used to lock the soul forcefully.

in addition to the years of tempering by the secret technique, their physical bodies are extremely powerful. Moreover, because of the existence of their souls, they will still retain most of their strength and battle consciousness from when they were alive.

"each of them is equivalent to a half-step mystic venerable!"

his words made everyone's hair stand on end.

not only were they surprised by the powerful strength of the nine ancient corpses, but they were also surprised by the cruel tradition of dazhou college.

a person's death was the most important.

Even with the tradition of the divine Kingdom on land, they would also give a certain amount of respect to the dead. Whether it was a corpse keeper who made a fuss out of corpses or a puppeteer who used corpses as raw materials, they were all disdained and could not see the light of day.

However, this tradition of the Dazhou Academy did not only forcibly turn corpses into puppets, but more importantly, they did not even let go of the soul.

just to increase the ancient corpse's combat power, he had forcefully sealed his soul in the corpse.

even with lin yi and the other two's experience, they were still pissed off at this level of skill.

Even though no one knew where a person's soul would go after death, reincarnation or rest in peace were part of the cycle of the heavens, and they had their own destination.

The Dazhou Academy's way of doing things would undoubtedly cause the dead to be unable to live in peace and suffer eternal torture!

what was outrageous was that they were all the deans of the dazhou college.

everyone did not know whether to say that the deans of the dazhou college were selfless or pitiful. from the day they took the position of deans, they were destined to have such a tragic ending.

xia wubing could feel the complicated gazes from the crowd and said, " " for schools outside of the alliance like us, we have to do our best just to survive. this is especially so for the great zhou academy, who is still shouldering the mission of restoring our glory. "

"It's not easy for anyone,"

lin yi and the other two sighed. compared to jianghai college, which had to face the threat of the beast god hall, the other colleges in the divine kingdom on land weren't any better off.

"Can you take over their control?" Xu Anshan frowned.

Although the nine Guardian ancient corpses in front of them were nearly ten times fewer in number than the experts from the Dazhou Academy, the pressure they brought to the crowd had increased by a lot!

the point was that lin yi's aura had no effect on them, and he couldn't repeat the scene.

although their souls were sealed within their bodies, they didn't have as many mental weaknesses as normal people. they wouldn't give lin yi any chance to enter.

Xia wubing shook his head. only the Dean can control them. Now that the Dean is dead, the only control should be in his hands.

everyone was silent.

"Looks like we'll have to fight a tough battle," Dongfang Yan's lips curled up.

At this time, master an looked at Lin Yi with interest, "you're very bold, and your methods are not bad. if you know what's good for you and kneel down to beg me, i'll happily put in a few good words for you, and you might have a chance to struggle on whilst at death's door,"

"like you, a dog for xi rulai?" lin yi shot him a look.

lord an laughed, his handsome face not hiding his contempt. "do you think anyone has the right to work for lord xi rulai? hehe, one must know one's own limits. at your level, you're at most a dog for this lord. just this is already giving you a lot of face."

"what a good compliment!"

before lin yi could say anything, dongfang yan had already made his move.
