

## Bodyguard 10431

### Chapter 10431

His figure flickered, and a conspicuous red-tasseled spear swept past the ancient corpse guards and suddenly appeared in front of Lord an. With a piercing sound, it directly pierced through his chest!

the entire process was as smooth as floating clouds and flowing water. it was extremely abrupt, but the scene that fell into everyone's eyes was logical.

it was as if everything was supposed to be like this.

Lord an looked at the bloody hole in his chest in surprise, his expression twisting into a ferocious one. He glared at Lin Yi and the others with extreme hatred before disappearing.

"A clone?"

dongfang yan's eyes flashed with a trace of surprise.

although she had guessed that the other party would not be so easily hit, from the beginning to the end, the feedback from the red tasseled spear was a real physical body, which was different from any clone she had encountered in the past.

"i'm afraid it's not a normal clone," lin yi said, deep in thought.

he himself was a grandmaster-level expert who played with clones, and his understanding of various clones was far above that of most cultivators. with a glance, he could tell that the other party was not so much a clone, but more like a part of his physical body.

It was just like hair, a part that could be discarded at any time.

As for his true body, it should be hidden in a place far, far away, monitoring everything that was happening in front of him.

Putting everything else aside, this Sir an's slyness and cautiousness was definitely one of the best in Lin Yi's history of opponents.

Dongfang Yan's attack missed, and he had already fallen in the middle of the nine Guardian ancient corpses.

although the nine ancient corpses were not living people, they reacted extremely quickly under the control of the sealed soul. almost at the same time as dongfang yan landed, they had already made a gesture of besieging him.

Dongfang Yan's eyelids twitched.

these were all half-step mystics. she was confident in fighting them one on one, but if it was all nine of them at the same time, she would die without a doubt!

Fortunately, she was not alone.

at the same time that the nine ancient corpses launched an attack, the shadow of an emperor had already risen from the ground. accompanied by an incomparably solemn and heavy brilliant son of heaven qi, he struck down with his palm from above.

it was emperor xu anshan!

for a moment, the joint attack of the nine ancient corpses was suppressed by him, and they couldn't even lift their heads.

xia wubing was dumbfounded.

Lin Yi's performance just now had already changed her perception of him. She didn't think that this man who didn't smile could also perform such a heaven-defying performance!

that was the strength of nine half-step mystics! to most of the golden class late phase peak venerables, they couldn't even hold their ground in a one-on-one fight, let alone one-on-nine!

There were many hidden dragons and crouching tigers.

xia wubing once again adjusted his judgment of jianghai academy.

she'd said that she'd rather work with lin yi alone than with the school, but it seemed like the school was far more powerful than she'd expected.

However, even though Xu Anshan was strong, he could only suppress the nine of them for a short while.

faced with the combined counterattack of the nine ancient corpses, even his emperor's attack could not continue to suppress them. the giant palm shadow that had just been suppressed was forced to rise again.

but this was already enough.

dongfang yan, who had just been surrounded, had already found an opportunity to escape. the way she chose to escape was very simple. she directly stabbed the head of the ancient corpse in front of her.

Xia wubing's eyelids twitched at the sight, but he didn't say anything.

No matter how shocking the origin of these nine ancient corpses was, they were still the most important assets of the Dazhou Institute. The key was that they were neither alive nor dead, and they just happened to be outside the loading and resurrection range of her divine eyes.

Once it was destroyed here, it would be completely gone.

However, in the current situation, she could not regain control of the nine ancient corpses. Unless they were willing to die, there was no other way than to destroy them.

however, the ancient corpse that was comparable to a half-step mystique venerable was not easy to deal with. even though dongfang yan's spear had pierced through its head, it did not show any signs of falling. instead, it took the opportunity to move forward!

the spear body and the skull rubbed against each other violently, making a sharp and ear-piercing sound that made people's scalps numb.

In the blink of an eye, the ancient corpse had already rushed to Dongfang Yan from the tip of the spear, which was ten feet away. It roared silently and slapped out with its palm. Not to mention anything else, just the rich corpse Qi that hit one's face was enough to make one faint!

"What a brutal battle consciousness!"

if it were anyone else, they would have been scared out of their wits. the red-tasseled spear in their hands was stuck in the other party's skull and couldn't be pulled out in a short time, especially when the other eight ancient corpses around them also made themselves the target of concentrated fire.

it was obvious that they wanted to kill him first!

however, dongfang yan was not shocked. instead, he was happy. she was a natural-born warrior. the more dangerous the battle scene was, the more it could stimulate the fighting will and power hidden in her body.

there was no fear, only excitement!

to be honest, if she was alone in this situation where the best weapon in her hand was limited, no matter how strong her fighting spirit was, she was doomed to die.

However, it was obviously not the case at the moment.

at the same time the ancient corpse in front of him struck out with its palm, an unparalleled sword qi condensed behind it. the entire time and space stopped for a moment. then, this indescribable majestic sword qi landed on the ancient corpse.

sword sacrifice.

the sword qi dissipated, and the guard corpse that was comparable to a half-step mystic venerable was completely vaporized. not even a trace of it remained.

"I'm helping it, right?" Lin Yi said faintly.

Xia wubing was speechless.

From the Dazhou Academy's perspective, the loss of any ancient corpse would be an indescribable huge loss. One less ancient corpse would mean one less point of the Academy's heritage.

However, from her personal point of view, she couldn't help but feel gratified to see the souls of the past headmasters free from the ancient corpses.

This kind of feeling was contradictory and tangled.

the ancient corpse in front of him had been vaporized by lin yi's sword, but dongfang yan's danger had not been completely resolved. the other eight ancient corpses had already joined forces to attack him.

no matter how she looked at it, not only did her dangerous situation not ease, it became even more dangerous!

"Good! i've been tolerating you for a long time!"

dongfang yan laughed loudly. the red tasseled spear in his hand suddenly bloomed like a flower in the center of the eight ancient corpses 'siege.

little red lotus.

it was like a red lotus blooming. although there was no fluctuation of power impact on the scene, it did not look dangerous at first glance. instead, it had an inexplicable ink-like beauty.

however, the joint attack of the eight ancient corpses stopped abruptly.

after a moment's pause, the huge impact force sent them flying back collectively. the eight ancient corpses retreated a few thousand feet before they finally came to a stop.

Chapter 10432

“.....”

Xia wubing was once again dumbfounded and didn't know what to say.

lin yi was a monster, xu anshan was a monster, and even dongfang yan, who was also a woman, was a monster through and through!

What kind of concept was it to knock back eight ancient corpses that were comparable to half-step mystique venerable rank with one move?

It was no exaggeration to say that with this battle record alone, Dongfang Yan could even occupy a place in the Alliance's security Bureau, which was recognized as the most powerful core combat force.

the alliance's security bureau sounded ordinary, but it was actually the most violent organization in the entire divine kingdom on land.

other than the nine magnates on the supreme board of directors and the candidates for the most powerful combat force, the security bureau was the last line of defense for the guardian alliance.

any member who could join them was a peerless figure that was one in a billion.

Just like the 30 specially recruited freshmen of the Alliance this year, only the most outstanding among them could receive an invitation from the security Bureau. Others had no right to knock on the door of the security Bureau.

&Nbsp; once the security Department took action, it meant that the situation had reached a point where it threatened the Alliance's safety. Based on past experience, as long as the security Department took action, they would never fail.

There were no exceptions.

To the cultivators of the God nation on land, the invitation from the Alliance's security Agency was the greatest affirmation of their strength!

Lin Yi and the other two had the right to do so.

with the god's eye, xia wubing was a unique existence even in the divine kingdom on land, but when she stood with lin yi's group, she didn't seem that different even if she revealed her ability.

after all, they were all monsters.

" these guys are really hard to deal with. why is it that my little red lotus is like scraping sand when used on them? "

dongfang yan himself was not very satisfied with this result.

Xia wubing was speechless again.

these were all existences that were half a step into the mystic class-it was already a miracle that you could knock them all back in one move, do you really want to kill them all in one move?

If that was the case, there was no need to plan anything at all. He could defeat all of them with his strength, and no matter where he went, everyone would kneel down and sing 'conquer' to him!

At this moment, the eight ancient corpses that had been repelled had already charged over again.

"don't let them gather together, split them up!" lin yi said as he went up to them.

The others might still be confused, but as an array Grandmaster, he could see that when these ancient corpses gathered together, they would form an array.

The formation's effect was similar to the guards unit's, but it was of a higher grade and had an obvious damage reduction effect.

in a situation like this, it was almost impossible for lin yi and the others to break through them with their own strength.

only a point-to-point extreme explosion like the sword sacrifice could have the opportunity to break the formation instantly and achieve the result of an instant kill.

therefore, the best strategy was to separate them.

Xu Anshan and Dongfang Yan were both battle-hardened experts. They immediately understood the crux of the matter and acted immediately.

Lin Yi threw out a few beams of sword Qi, attracting the attention of the three ancient corpses.

Xu Anshan's Emperor's shadow immediately moved and drew the three ancient corpses to the side.

"You guys only left two for me? that's not fair, is it?"

Dongfang Yan mumbled in dissatisfaction.

as she spoke, the red tasseled spear in her hand was thrown out like a javelin, and the spear hit the forehead of the remaining ancient corpse. meanwhile, her body flashed to the front of the other ancient corpse, and she began to play a close-combat game.

xia wubing, who was in the center of the arena, looked at the three-man team that had divided the eight ancient corpses in the blink of an eye. he wanted to say something but stopped.

Strictly speaking, even if they had an agreement, Lin Yi's trio was only here to help in the away field-she was the target of the opposing team.

moreover, with her strength, although it was inevitable that it would be difficult for her to face the ancient corpse, it was not completely impossible.

yet, after lin yi's trio's actions, she, the only survivor of the school, became a spectator.

She didn't know if she should be glad or helpless to have such allies.

Of course, with her ability, she was not suitable for a head-on battle.

That was a blasphemy against the divine eye and a waste of God's gift.

The most suitable position for her was still battlefield support.

just like now, when the divine eyes were opened, information was directly shared with the three of them. although they could not directly attack the flaws of the soul like when they faced human cultivators, the weakness of each ancient corpse was clearly seen in the eyes of the three.

According to their original strength, whether it was one against three or one against two, Lin Yi's group was at a disadvantage in terms of pure strength.

Even if they could barely deal with it by relying on their individual abilities, the situation would still be very dangerous.

Whether it was Xu Anshan or Dongfang Yan, even if they could rely on their monstrous explosive power to temporarily suppress the entire scene, it was only temporary. It was impossible for them to be so strong throughout the entire battle.

however, with the help of xia wubing's god's eye, lin yi and the other two's attacks were all critical hits!

It was indeed not easy to fight normally, but now that every attack had a critical hit, it was a different story.

And this was only the elementary usage of the divine eye!

Even Lin Yi had to admit that the God's Eye wasn't as useful as the God's physique in a normal 1v1, but when it came to team-level, especially when it came to the scale of the Academy, its strategic value was far above the God's physique.

but even so, it wasn't that easy for the three to take down their respective opponents.

The addition of the divine eye's critical hit could only narrow the gap in strength between them and the ancient corpse, but it couldn't make up for it completely. It was even more impossible to completely change the strength of the two.

A half-step Mystic venerable, even if he wasn't at the peak of the mystic class, his strength wasn't just for show.

if these ancient corpses didn't have their souls sealed, they'd be controlled like the other puppets, and their movements would be stiff. lin yi and the other two could handle it with their strength.

but the problem was that they were not pure puppet corpses.

Their souls couldn't keep all their memories, but they did retain their battle awareness to a large extent. They relied on their rich battle experience to form muscle memory, and their reaction speed was much faster than Lin Yi and the others imagined!

they could even learn by themselves during the battle, adapting to the trio's fighting style and coming up with targeted strategies step by step.

every move and form was well-structured, just like when he was alive.

#### Chapter 10433

anyone who was a half-step into the mystic class was naturally a genius among geniuses, especially with their rich battle experience. unless an ordinary opponent used their full strength to crush them, it was almost impossible for them to slowly wear them out in a long battle.

In the end, the flaws that Xia wubing's divine eyes could find were not really fatal.

if there really was such an obvious and fatal loophole, they would not have become the ultimate trump card of the great zhou academy.

on the contrary, as they got used to the rhythm of the battle, the situation was getting worse for the three.

Lin Yi and the other two were surprised to find that the eight corpses had fewer and fewer flaws. Rather than saying how much damage they had caused, it was more like they had helped each other evolve.

If this continued, the flaws in these eight ancient corpses would completely disappear. At that time, it would be as difficult as ascending to the heavens to suppress or even defeat them.

xia wubing was secretly shocked at this scene.

Even she, who was a member of Dazhou Academy, didn't know that The Guardian ancient corpse could be so powerful. No wonder the Dean was so confident every time he mentioned them.

As long as they were there, unless a Mystic venerable made a move, Dazhou Academy would be safe.

If it wasn't for the backlash of luck, internal and external troubles, and especially with Xi Rulai's interference behind the scenes, her Dazhou Academy wouldn't have been so easily annihilated.

However, now that she was standing on the opposite side, the more perfect the ancient corpse's strength was, the slimmer her hope of turning the tables for the Academy.

If Lin Yi and the other two couldn't hold on any longer, the best outcome for everyone would be to escape.

however, even if they could escape successfully, the other party would be alerted and would definitely gather a large number of troops to guard the academy's general affairs office.

they couldn't even defeat eight corpses now, and when the enemies got stronger, the chances of lin yi and the others protecting her and loading the save file were less than one in ten thousand!

unless, of course, lin yi was willing to go all out and pull the main force of jianghai academy over to pay with their lives!

unfortunately, although xia wubing couldn't see through lin yi's heart, he could definitely feel that this man was extremely protective of his own people.

It was impossible for Lin Yi to sacrifice his brothers!

Just as Xia wubing was in a dilemma, Lin Yi's voice sounded in his consciousness,"don't think too much, just be a good support."

“.....”

Xia wubing's face, which had been expressionless for 10000 years, couldn't help but blush.

the situation was getting worse and worse, and as they got used to the strength of the three, especially after the ancient corpses' joint attack plan became more mature, lin yi and the other two couldn't help but fall into a complete disadvantage even with the critical hit buff.

helplessly watching as the flaws that could be exploited became fewer and fewer, to those who were at a disadvantage, it was no different from being gradually swallowed up by the swamp. no matter how tenacious their fighting spirit was, they would be wrapped in despair and unable to struggle.

Xia wubing couldn't help but suggest that they retreat. Whether it was for her own benefit or out of goodwill to her allies, she didn't want the three to die Here.

since he was destined to fail, he could only think of another way.

Lin Yi suddenly spoke up, " "The heat is almost ready, change!"

With that order, Xu Anshan and Dongfang Yan flashed at the same time. In the blink of an eye, the three of them had exchanged positions and opponents.

this sudden change in formation, just from the scene, did not seem to have any essential difference from before. it was just that the ancient corpses they were facing had changed.

if one had to point out the difference, it was nothing more than two ancient corpses in front of xu anshan and three in front of dongfang yan. that was all.

Xia wubing didn't understand Lin Yi's intention.

But in the next second, she saw the true strength of the three!

dongfang yan, who was full of fighting spirit, was the first to launch an attack. the red tasseled spear in his hand bloomed like a flower again, and swallowed the three ancient corpses in front of him on the spot.

However, this time, little red Lotus didn't directly push the ancient corpses back. The beautiful flowers that bloomed instantly withered and disappeared into the bodies of the three ancient corpses.

the scene froze for a moment.

Then, an ancient and mysterious force that had never been seen before exploded in their bodies!

Under Xia wubing's shocked gaze, the three ancient corpses, which had been forged with the efforts of the entire Academy, rotted and withered from the inside out in less than half a breath's time.

They were like three Broken Flowers, drifting away with the wind.

The great Red Lotus.

before xia wubing could recover from his shock, the emperor's phantom behind xu anshan suddenly took out a huge sword with a huge dragon coiling around it. it looked extremely dignified and luxurious.

the two ancient corpses in front of him subconsciously wanted to dodge the sword, but they had no chance at all.

the two ancient corpses were directly crushed into powder without any suspense.

the might of the brilliance was shocking.

The emperor's sword.

as for the last three ancient corpses, they were in an even worse state because they were facing lin yi.

at this time, lin yi had already drawn out the demon devouring sword, and under the activation of the 120000 sword souls, the hidden power slowly came out, forming a thin black armor on lin yi's face. a peerless evil qi rose from his back, making lin yi look like a supreme demon god that could destroy the world!

with a swing of his sword, he casually performed a sword sacrifice.

the three ancient corpses in front of him didn't even have the chance to react before they were directly evaporated from the world, not even leaving behind a trace.

xia wubing looked at the scene in a daze and didn't know how to react.

those were eight guardian corpses, eight half-step mystic venerables, and they were all killed by the three of them like they were vegetables!

if it wasn't for the god's eye, she would have thought that she was in an illusion!

Even if it was a dream, she would not dare to do this.

"you guys ..."

Xia wubing subconsciously wanted to ask who the hell they were, but he swallowed his words in the end.

It wasn't that she didn't understand what the three were doing.

from the beginning to the end, the rhythm of the entire battle had been controlled by the three of them, and it had never fallen to anyone else.

even after getting used to the ancient corpse's rhythm, the three of them were at a disadvantage. the situation where they were almost suffocating was also created by lin yi's group.

the ancient corpse would constantly adapt to its opponent's rhythm and adjust its strength. lin yi and the others had noticed it from the beginning.

However, they didn't target them on the spot. Instead, they played along and deliberately led the ancient corpses in front of them to fall into their own rhythm. They even further guided the other party to make up for their flaws until they reached a near-perfect stage!

#### Chapter 10434

In this way, these ancient corpses were almost like killing weapons tailored for the three of them. Whether it was Lin Yi, Xu Anshan, or Dongfang Yan, it would be difficult for them to have any effective countermeasures against them.

if they were to fight one on one, even if the three of them could have the last laugh, they would have to pay a heavy price.

However, they were a team.

the targeted evolution of these ancient corpses was very effective in front of each other, but once they suddenly changed their target, they would immediately become full of flaws again.

The more they adapted to their respective targets, the more obvious their flaws would be after switching targets!

and this was the killing opportunity that lin yi's group had been preparing from the start.

In an instant, they had used all their trump cards. In addition, Xia Wubing had provided them with a huge boost to their vital points. The strength that the three of them had unleashed at this moment was far beyond the imagination of ordinary people.

It looked like a simple killing blow, but it was actually a set of perfect arrangements that had been carefully designed!

If the souls of these ancient corpses knew about this in the underworld, they would know that it was not an injustice that he lost.

Even so, Xia Wubing, who had just regained his senses, was still shocked.

Even someone like her with the God's Eye couldn't defend against such a terrifying ability. Thinking back to the ultimate reversal in the freshmen battle, it seemed that this was only a small test of Lin Yi's skills!

Not to mention, no matter what, these three had all killed a half-step Mystic Venerable in seconds, and it was one against many!

The most ridiculous one was still Lin Yi—after all, he was still a Golden Class mid-phase peak, not just a little bit away from a half-step Mystic!

The Divine Kingdom on land was rich in geniuses, so it was not rare to see someone of a higher level being killed instantly.

however, to be able to jump levels and be like lin yi, especially when his targets were three half-step mystique venerable level existences-even with xia wubing's experience, he had never seen or heard of such a thing.

Xia wubing couldn't help but rejoice.

previously, when there was internal strife in the dazhou academy, she had also wavered.

If she didn't agree to work with Lin Yi, Xi Rulai might not have been so cruel to her Dazhou college. Even if the fate backfired, the college wouldn't be in such a miserable state today.

but after seeing lin yi's trio's performance, she realized how correct her decision was!

even if she didn't team up with lin yi, xi rulai's vengeful personality wouldn't let the dazhou college go. even if xi rulai didn't add fuel to the fire, just the three of them alone was enough to put the dazhou college in danger.

after all, other than his strength, lin yi's most terrifying ability was his planning!

Xia wubing shuddered at the thought of the Dazhou Academy becoming his target!

She had the God's Eye, but she really couldn't beat Lin Yi.

it was like this in the new student battle, and it was still the same in the life and death battle that concerned the survival of the academy.

lin yi looked at her, "it's too early to celebrate. the nine corpses are just the appetizer. the main course hasn't even been served yet."

That Lord an gave him a feeling that he was not simple. He was definitely not a fellow that could be easily dealt with.

Although the special clone had been destroyed by Dongfang Yan, Lin Yi could clearly feel that the other party must be hiding somewhere and observing their performance.

it was just that it was hidden so well that even xia wubing's divine eye couldn't detect it.

He had deliberately pretended to be weak in the beginning. On the one hand, it was to target the weakness of the ancient corpse. On the other hand, he also had the intention of fishing.

if the other side saw an opportunity and couldn't hold back, they would rush up to finish him off, and things would be simple.

Unfortunately, the other party was unmoved.

The most terrifying threat was a dormant venomous snake. Although this Lord an looked arrogant and domineering on the surface, just like the XI family's noble young master, they were in fact two extremes.

His arrogance was just a disguise-his true nature was far more cunning than any of Lin Yi's previous opponents!

If he failed this time, he would have to put in a lot of effort to lure him out again.

xia wubing's face reddened slightly as lin yi read her mind. even with her bangs covering her eyes, she could still feel the shyness in her.

"lin yi, you're indeed a human-shaped aphrodisiac, you can make people's hearts flutter wherever you go!" dongfang yan clicked his tongue in wonder.

"....."

lin yi and xia wubing were both speechless.

fortunately, xu anshan, the emperor, came to her rescue. " now should be the time when Dazhou College's defenses are the weakest. Should we do it in one go? "

nine ancient corpses had been wiped out, and more than half of the school's higher-ups had been knocked out by lin yi's aura, still unconscious until now. dazhou college was at its weakest right now.

lin yi's group's progress must have caught lord an off guard.

no matter how highly he thought of lin yi and the others, he didn't think that the school's trump cards would be used up so quickly. even if he wanted to remedy the situation, he wouldn't be able to get so many high-level combatants to fill up the hole in front of him.

right now, it was indeed the best opportunity to launch a surprise attack on the dazhou academy!

on the other hand, if the time dragged on and sir an called for reinforcements, the situation would be different.

Lin Yi exchanged a look with the others and made a decision. "Let's do it now,"

"alright!"

dongfang yan was a militant. as long as there was a fight, she would be more than happy to have it.

however, she immediately pouted and pointed at the ground at the foot of the dynasty tower, where the unconscious experts of the great zhou academy's leadership were. " "What about them?"

This group of people had only been knocked unconscious and would not wake up in a short time. However, as long as they were given a little more time, they would immediately be full of energy again.

at that time, it would not be so easy to deal with them.

Firstly, after experiencing the impact of the aura, one would more or less gain some immunity. If they were to experience it again, the effect would definitely be greatly reduced.

On the other hand, Lin Yi's aura impact required a lot of luck. Although his luck was bound to the four Seas and could recover on its own, the recovery speed was limited. If he used too much in a short time, it could still drain his luck.

"He's your man, you decide." Lin Yi looked at Xia wubing.

xu anshan, who was ready to attack, quietly retracted his hand. with his emperor's heart, he would definitely eliminate the roots at this time, but since lin yi had already spoken, he couldn't object.

Everyone was waiting for Xia wubing's decision.

Xia wubing was silent for a moment.

Just when everyone thought that she would choose a compromise and limit these people, or even try to persuade her former colleagues to defect, she slowly walked forward and raised her palm slightly.

## Chapter 10435

A huge eye appeared on top of the dynasty Tower, and its gaze was focused on the unconscious experts of the Academy below.

The next second, he suddenly closed his eyes.

the experts of the academies were all turned into ashes!

Lin Yi and the other two's eyelids twitched-he just killed them all?

Xia wubing's heart was much tougher than they had expected. If it was an ordinary person, he wouldn't be so decisive in the face of his former colleagues!

Seeing that Xia wubing was still standing there in silence, Dongfang Yan stepped forward and patted her shoulder. "it's clean and efficient. that's good."

With her personality, she would definitely look down on the Saint lady Gu. Xia wubing's behavior was very much in line with her temper.

"You can load and revive later anyway," Lin Yi said, "it's not a bad thing for you or them to kill them now."

xia wubing nodded silently.

if she couldn't load and resurrect, she might not be able to do it in a short time. not to mention other things, it was difficult for her to get over it.

but in fact, even if they could collectively load and resurrect, it would not change the fact that she had killed a group of her colleagues.

this kind of huge psychological impact, unless one was born with a killer's heart, it was still very difficult for ordinary people to withstand it.

xia wubing had a strong premonition that since he had already taken the first step, the second and third steps wouldn't be far away.

In the past, she had always been under the protection of the Dean. Even though she seemed to be able to take charge of a certain area and even had the heaven-defying ability of the divine eye, in essence, she was still a greenhouse flower that had not been through the wind and rain.

It was only today that she finally welcomed her transformation!

Lin Yi asked, deep in thought. after they loaded the Save file and resurrected, do they have any memory of being killed? "

"I won't,"

Xia wubing paused for a moment before he replied, " they only have the memories from before the Save point. Their mental state and strength will be restored to before the Save point. They won't remember anything after that.

"what's the save point?" lin yi raised a brow.

"before the freshman battle."

xia wubing's answer was as lin yi expected.

because of the existence of the backlash of luck, the competition to enter the alliance was a crucial matter for any academy. moreover, they could not afford to fail at all. they would definitely not be stingy with any trump card that could be used to support them.

the dazhou academy had xia wubing, who was a godly cheat. if they didn't make good use of him, it could only mean that the dean in charge of the academy was out of his mind.

Dongfang Yan clicked his tongue and said, " not bad. You can perfectly avoid the backlash of luck. The nightmares you've had these few days will be written off. I'm so envious just thinking about it.

" if you're going to load the file, why don't you wait until everything is settled? " xu anshan asked. " wouldn't that be safer? "

obviously, that was the method to maximize the effect.

When the other defeated Academies were already half-dead or even divided up by the Predators, they would then let the great Zhou Academy be resurrected from the ruins with full health!

that way, not only would they be able to perfectly survive the crisis of the backlash of luck, but they would also be able to obtain a certain advantage after being resurrected with full health. if they did it well, they might even be able to go to other failed academies and get some soup!

Xia wubing shook his head. although I already have the intermediate-level divine eyes, there's a limit to how long I can maintain the Save file. Once I exceed the time limit, the Save file will lose its effect.

"If the opponent knows how to use the God's Eye and deliberately destroys the Save point, it can also make my save invalid."

the fact that she had the god's eye was a secret to ordinary people, but to the west rulai group, which controlled the entire intelligence world, there was no possibility of it escaping their eyes.

in fact, their understanding of the god's eye was far beyond xia wubing's.

The foundation of the nine big bosses of the Supreme Board of Directors was not only reflected in their strength and power, but more importantly, in their grasp of key information.

the unparalleled secret in the eyes of ordinary people might just be common sense to these top individuals and forces.

In any society, the upper class would always spare no effort in monopolizing knowledge, just in a different form.

"the more useful something is, the more restrictions it has. it's always been like this. let's go." lin yi knew this.

The four of them looked at each other and immediately rushed to the Dazhou Academy at full speed.

After suffering this defeat, Lord an must be mobilizing his troops at this moment. He might even be mobilizing the internal forces of the West Rulai group!

The key now was time.

only by getting xia wubing to load and resurrect the entire dazhou academy before the other party could react would they have the chance to take the initiative.

Soon, the four of them arrived at the periphery of the Dazhou Academy.

as one of the top schools in the alliance of divine schools, although the dazhou college had now declined, a skinny camel was still bigger than a horse. just looking at the layout of the entire college, its magnificence was far beyond that of other colleges.

in front of it, jianghai academy was nothing more than an academy of chickens. everything else aside, just the difference in status was more than two levels!

dazhou college was at least five times the size of jianghai college.

Lin Yi said.

it was no wonder the natives of the divine kingdom on land looked down on a remote place like jianghai and called it an ignorant country bumpkin.

Even the already declining Dazhou Academy had such an imposing manner. At least to a certain extent, it was excusable for the locals to have the arrogant mentality of a celestial country.

the layout of such a huge academy and the layers of array layout were naturally top-notch.

If he tried to force his way in, even a true Mystic class venerable would be badly injured, let alone a normal golden class late phase peak full master.

of course, with lin yi leading the team, they didn't have to force their way in.

however, it wasn't an easy task to solve such a complicated formation, even with lin yi's skills.

"it doesn't matter. i know how to break the formation."

Xia wubing didn't say anything and immediately took the lead. Wherever she walked, the layers of formations would automatically be cut open, and the whole process was smooth as silk.

Even a formation master like Lin Yi couldn't help but feel like his horizons had been broadened.

"You're also a formation Grandmaster?"

dongfang yan could not help but ask the question in everyone's heart.

Xia wubing shook his head. I've never learned about arrays, but I can see all the links of the arrays clearly with my divine eyes. They're like balls of yarn that are tangled together. As long as I can find the head, I can easily untie them.

"I didn't have any playmates when I was young, so I read these formations every day when I was bored."

#### Chapter 10436

"Later on, when I grew up a little, I would often play in the array. I walked through the entire Academy's array more than ten thousand times, and I would not make a mistake even with my eyes closed."

"there are many ways to break it, even the academy's array grandmasters who are in charge of maintaining the array can't think of it."

"No wonder you were able to get out of here," Lin Yi nodded.

According to Xia wubing, the Dazhou Academy's arrays were not so much an obstacle, but the best cover for her.

As long as she entered the array, no one could stop her unless the other party destroyed their own Great Wall and directly destroyed all the protective arrays.

Under Xia wubing's lead, the four of them quickly entered the heart of the great Zhou Academy.

Along the way, they brushed past the Academy's patrol team several times, almost face to face with each other. However, under the cover of the Academy's array in the opposite direction, the other side was completely unaware.

Fifteen minutes later, the words "General Affairs Department" were written in gold at the entrance. Even Lin Yi couldn't help but feel that everything was surreal.

before this, he, xu anshan, and dongfang yan had all been prepared for a tough battle.

although the nine guardian ancient corpses and more than half of the school's leadership experts had been dealt with, and the great zhou academy was theoretically at its weakest at this moment, the foundation of the academy was still there. no matter how weak it was, it was not something that the few of them could easily break through.

If nothing unexpected happened, the battle at Dazhou Academy would be even more dangerous than the battle against the nine ancient corpses!

Don't forget, that Sir an has not yet revealed himself. He is currently hiding in some dark corner, watching like a tiger watching its prey.

who would have thought that it would go so smoothly?

"is this a trap?" dongfang yan could not help but feel worried.

xia wubing glanced at her but didn't say anything.

dongfang yan was stunned for a moment before he reacted and waved his hands."uh, i'm not talking about you, but i've never had such a smooth path in my life, so i'm really not used to it."

Lin Yi smiled, " don't be so suspicious. Just because it's going well now doesn't mean it'll be smooth in the future. The real problem is behind this door.

"that's true."

dongfang yan slowly let out a breath of turbid air. the red tasseled spear quietly appeared in his hand.

At the same time, Xu Anshan also started to gather his Qi. He was ready to deal with any unexpected situation.

The central office was definitely heavily guarded by the enemy. No one could predict what kind of lineup was hidden behind the door in front of them.

"Can you see the situation inside?" Lin Yi asked.

With the God's Eye, which could see through all battlefield information cheating devices, it directly eliminated the possibility of an ambush.

As long as they were mentally prepared, with Lin Yi's trio's strength, they could even charge into the dragon's pool or Tiger's Den!

Xia wubing's expression was a little confused. "it's strange, there's only one team of guards inside, all of them golden class late phase peak complete venerables, but there's no more than ten of them."

ten venerables at the completion of the yellow class-this was a grand lineup that could not be underestimated in other places.

However, for the Dazhou Academy, this lineup could only be regarded as a symbolic defense at best. There was no sign of them going all out!

Even after the internal strife and Xia wubing's last attack, the Dazhou Academy had lost more than 70% of their high-end combat power. They should not have such a weak lineup.

unless they didn't really realize that the general affairs office was xia wubing's save file loading point!

Such a possibility was not entirely impossible.

Although Lord an was a man of Xi Rulai, he might not be able to use all the resources of the West Rulai group. Xi Rulai might not be willing to open up all the top-secret information like the divine eye to him.

Thus, even if he knew that Xia wubing had the God's Eye, it was not impossible for him to not know Xia wubing's real loading point.

under such circumstances, it was logical to spread out their defenses.

However, Lin Yi still felt that something wasn't right.

Xia wubing stopped and waited for Lin Yi's final decision.

this was her home ground, but she knew that lin yi was the leader. after all, he was strong enough.

"Go in, but be careful."

lin yi couldn't figure out what was wrong, but he couldn't back off now.

He could only take one step at a time.

Lin Yi took the lead, and Xu Anshan and Dongfang Yan followed closely behind.

their mission was to clear the area for xia wubing.

This time, however, it wasn't like when they were dealing with the higher-ups, where Lin Yi and Xia wubing's God's eye worked together to clear the area with their auras.

it was a much easier way to do it, but he had to take into account the amount of luck he'd use-he wouldn't use it unless it was absolutely necessary. the other thing was that it'd cause an explosion of luck, and it'd cause a chain reaction.

Especially when he was suffering from the backlash of luck-everyone in the school was extremely sensitive to changes in luck. If Lin Yi did something like that, he'd attract the attention of the entire school.

At that time, the entire family of the Academy, young and old, would come and surround him. That would be troublesome.

As such, the three of them chose to hide their presence and make use of the enemy's blind spots to sneak in and kill their assigned targets in one blow!

in less than three breaths, the ten golden class late phase peak venerables from dazhou college were all dead.

xia wubing was speechless when he saw this.

Although the three of them were able to move so quickly and efficiently was largely due to the flaws in her God's eyes, without her God's eyes that could see through everything, it would be hard for them to find such a perfect opportunity to cut in even with their battle instincts and experience.

After all, even if these people were slightly weaker, they were still 10 golden class complete Venerables, not 10 newbies.

but even so, their actions still shocked xia wubing.

Out of all the Masters in Dazhou college, other than the Dean, who was killed by his underlings 'betrayal, no one could keep up with Lin Yi's group.

With such a powerful monster watching over them, Dazhou College's loss to Jianghai college was not in vain.

putting everything else aside, just comparing the two schools 'fortunes, compared to the once incomparably glorious dazhou college that was now declining, the jianghai college that was able to produce such a monster, and more than one at that, was definitely on the rise!

after clearing the area, there was no need for any verbal communication-lin yi and the other two entered their positions, guarding the most important and advantageous defensive position in the office.

Chapter 10437

Xia wubing didn't hesitate. He immediately lifted his fringe and revealed his God's eye. He calmed his mind and started to load.

Lin Yi and the other two were a little surprised.

they had thought that since they were loading the file, xia wubing must have set up some token in the general affairs office. however, it didn't seem like that was the case.

"the entire general affairs office is her token?"

Dongfang Yan quietly took out a wine pot and saw Lin Yi's eyes on him. He felt as embarrassed as if he'd been caught red-handed in class and threw the wine pot over after some thought.

Lin Yi didn't hold back-he opened it and took two sips before throwing it back.

He knew that Dongfang Yan's physique was special. It was not that he was addicted to alcohol that he could not even hold it in at this time. It was because this girl needed the help of alcohol to refresh herself. If he really held it in and did not let her drink a few mouthfuls, it would be really troublesome when her physique took effect.

"i'll go! why don't you just use your mouth?"

Dongfang Yan looked at the wet stain on the wine pot and couldn't help but glare at Lin Yi, his face full of disgust.

However, even though she disliked it, she still continued to drink.

as for the indirect kiss, she didn't really mind-it was something that girls cared a lot about. or rather, she wouldn't mind if the other party was lin yi.

the jug was her life, and from the way she was willing to throw it to lin yi, it meant that lin yi had her complete trust-she didn't need to be wary of him.

While the two of them were interacting, Xia wubing's two-dimensional world had already been fully spread out. It had silently penetrated deep into the ground and corresponded with the map of the entire Dazhou Academy.

Other than the buildings that had been destroyed in the previous internal strife, every detail was perfect without any deviation.

The whole process was hard to notice even for Lin Yi and the other two who were so close to him if they didn't see it with their own eyes, let alone the Masters from Dazhou college outside.

When the two-dimensional world and the real Dazhou college were completely connected and everything was ready, Xia wubing slammed his palms down.

"Rise!"

With her clear voice, the two-dimensional underground world suddenly began to extend vertically, quickly extending into a three-dimensional structure at a speed visible to the naked eye.

then, these three-dimensional structural lines were like a set of delicate molds that were set on the broken real world!

Lin Yi and the other two's eyes were wide open.

This was their first time witnessing the process of ascending from the second dimension to the third dimension. Being able to observe the entire process and details at such a close distance would undoubtedly be of great benefit to deepening their understanding of the world's original structure.

When cultivators reached a higher level, they were no longer competing solely on talent and luck. More importantly, they were competing on their understanding of the world!

It was no exaggeration to say that a cultivator's level of knowledge was the ultimate upper limit of what he could achieve.

to lin yi, xu anshan, and dongfang yan, being able to watch xia wubing load from such a close distance was bound to benefit them greatly.

after all the buildings had been restored, the next thing to do was to restore the living things.

the focus was naturally on the dead cultivators.

lin yi's observation was extremely detailed-this involved the soul level, and it was extremely valuable to him.

The entire process was not complicated.

The Dazhou Academy experts who had already died were the first to recover their bodies. This step was no different from the restoration of the buildings just now.

the key was the second step, the return of the soul.

In fact, neither the naked eye nor the divine sense could truly observe the existence of souls. If one wanted to sense them, they could only rely on that mysterious intuition.

Xia wubing took the initiative to explain. the soul isn't a material. It's a mysterious power. That's why we can't observe it the way we perceive physical objects.

" but they are not pure power. power will disappear, but souls will not. "

" they exist in a special form that is between the real and the virtual. they exist in another dimension that is closely connected to this world. even if we die, our bodies will rot, and our powers will disappear, but our souls will still exist. "

lin yi said, deep in thought.

What exactly was a soul?

Before this, he had never really thought deeply about this question.

In his previous understanding, this was not a practical problem that could be studied in a material way, but a philosophical problem, especially when it involved life and death and reincarnation. It was even more like an illusory myth.

However, according to Xia wubing's words, this was not the case.

" actually, even my divine eyes can't really observe the form of a soul, " xia wubing continued. " only a few times can i see some extremely fine and pure particles. "

" they don't belong to any of the basic particles of this world. they will flow out of the body at the moment of death and step into another special dimension, quietly waiting for the next opportunity to enter the real world. "

and when new life is born, or when an already dead individual is resurrected like this, they will return to this world.

I've read an ancient book from the divine realm. They're called soul particles.

She shared her God's eye's vision with Lin Yi as she spoke.

lin yi perked up.

He saw the soul particles that the other party had mentioned. At this time, as the saveload was being loaded, the soul particles were entering the bodies of the dead cultivators.

The moment they entered, Lin Yi felt an indescribable life force from the bodies.

Soul return!

"many thanks."

No matter what the other party's intentions were, Lin Yi was still grateful for sharing this information that couldn't be found on the market.

it was no exaggeration to say that xia wubing's move had opened the door to a new world for him!

Although Lin Yi wouldn't be able to see the soul particles so clearly once he was out of Xia wubing's God's eye's sight, he at least had a basic concept of the existence of souls with this precious experience.

With a concept, there was a direction.

At the very least, he now had a clear idea of which direction he should focus on in order to upgrade the New World.

The last person who could make him feel so enlightened was Banshi Luo. At least from this perspective, Xia wubing was definitely his benefactor!

"it's just my personal opinion. it's good as long as it's helpful to you."

The corners of Xia wubing's mouth curved up slightly like a Snow Lotus that had just bloomed. There was an inexplicable warmth in the invisible coldness.

Chapter 10438

Dongfang Yan looked at this scene and revealed a ruminating smile. He turned to Xu Anshan and said, "don't you feel like you've been stuffed with dog food?"

"ha?"

Xu Anshan's face was full of question marks. He didn't know what was going on.

dongfang yan rolled his eyes. " just pretend i didn't say anything. he's a straight man of steel. you're an iron emperor! "

xu anshan frowned. he knew what the iron man meant, but the iron emperor qianqian seemed to have some potential?

while they were talking, xia wubing's loading with his divine eyes had come to an end.

in the entire dazhou academy, other than those experts who had not died, everything else, be it the buildings or the people, had already been restored to the state before the freshman battle.

Dongfang Yan couldn't help but Mutter, " "Isn't it too smooth?"

Lin Yi and the others felt the same way.

From the beginning to the end, they had been on guard against Lord an's backup plan. After all, no matter how they thought about it, it was impossible for the other party to let go of the great Zhou Academy, which was an excellent starting point.

once dazhou college recovered and formed an alliance with lin yi's jianghai college, it wouldn't just mean that lin yi would have one more powerful ally-it would completely change the situation between the three failed schools.

it wouldn't be so easy for him to target lin yi again.

As for what had happened, it was purely due to the other party's miscalculation. This was not impossible, but it was not very likely.

however, the truth was right there. no matter how suspicious lin yi and the others were, xia wubing's loading had already been settled. it was too late for the enemy to prepare anything else.

Of course, it was one thing to successfully load and revive. Whether Xia wubing could successfully convince the entire leadership of Dazhou college was another matter.

Since the Dazhou Academy had already had internal strife once, if the other party tried to copy the cat and Tiger and did it again, the possibility of success would still not be small.

After all, the backlash from Dazhou College's luck had not completely passed. In fact, it might have only just begun.

sure enough, after the dazhou academy's leadership experts were resurrected, although they collectively lost their memories of the internal strife, their own standpoints and considerations for benefits had not changed at all.

And this was the biggest unstable factor for Dazhou college.

moreover, the memories of the experts from the academy who had survived the previous incident did not disappear with xia wubing's loading.

These people's voice in the leadership was very limited, but through their mouths, the group of resurrected leadership experts could still hear the whole story.

as a result, new and old grudges were added together, and the dazhou academy was about to start a civil war again!

This was especially true for the leaders and experts who had died in the previous Civil War. Each and every one of them was gritting their teeth.

if it was before this, on the account that they were from the same academy, even if there were some conflicts of interest, as long as the other party did not go too far, they could still reluctantly tolerate it.

"But now, you've already f \* cking killed me. Why the hell would I care about the overall situation of the Academy?!"

in the blink of an eye, the spark of internal conflict had been reignited. although there were people who tried to persuade them, some impatient ones had already taken action.

"What do we do?"

lin yi and the other two looked at xia wubing.

As outsiders, they couldn't easily interfere in this kind of occasion, especially with the natural rivalry between the winners and the losers. Once Lin Yi and the other two made a move, it would easily blow up the entire Dazhou Academy.

at that time, the most ideal situation would be to force everyone in the great zhou academy to join forces against a common enemy!

The Civil War might be able to stop for a while, but they would become the target of public criticism. If they wanted to talk about cooperation later, the difficulty would inevitably be infinitely increased!

Hence, Xia wubing had to solve this problem by himself.

In other words, Lin Yi and the other two could only do this much. If Xia wubing couldn't even handle this, then she didn't have the right to represent Dazhou college and form an alliance with Jianghai college!

xia wubing had obviously prepared for this.

However, with her own strength and status, if she wanted to stand out and raise her arm, she might be able to get the response of some of the experts in the Academy.

after all, she had the god's eye and was the adopted daughter of the dean. in addition, she was mysterious and charming. she had some appeal.

however, it was foreseeable that xia wubing could only rope in a small number of people.

the reason was simple. her status in dazhou college was indeed extraordinary, but the real power in her hands was limited.

in other words, the benefits that xia wubing could bring to the experts of the school were limited. with the current environment of the great zhou academy, position and interests were above all else. without these two things, the so-called appeal was destined to be empty.

Xia wubing was well aware of this.

in fact, she had never thought of solving the current situation on her own. there was only one person in the dazhou academy who could settle the current situation.

The hospital director, Xia Wenqing.

whether it was strength, status, or personal prestige, xia wenqing was the best choice. only he had the ability to make the factions in the academy, which had been completely torn apart, sit back down.

However, Xia wubing's expression changed when he inspected every corner of the Dazhou Academy with his divine eye.

"what's wrong?" lin yi asked.

xia wubing's tone was still calm, but there was a slight tremble in it. "The director is gone."

"What do you mean by gone? Didn't he die in the internal strife? didn't he load and resurrect?"

lin yi and the other two looked at each other, confused.

dongfang yan asked, "could it be that there's a limit to your strength when you load and resurrect with the divine eyes?" can't those who are stronger than a certain level be resurrected?"

According to Xia wubing, the Dean, Xia Wenqing, was publicly acknowledged as the number one master in Dazhou college. His strength was far beyond the others, and he was already a half-step Mystic venerable, only one step away from the true Mystic venerable realm!

such a person was a white jade pillar that held up the sky for the great zhou academy.

If he had not been the first to be ambushed and killed, the Academy's leadership would not have torn each other to that extent. In fact, the series of changes and tragedies that followed would not have happened.

The key to resolving the chaos in the great Zhou Academy was Xia Wenqing.

in the end, xia wenqing was gone.

xia wubing shook his head. "i don't know. i've resurrected a half-step mystic venerable before, but i can't say for higher mystic venerables."

"could it be that your dean was already a mystic venerable before he was ambushed?" lin yi and the other two looked at each other.

although it sounded a little ridiculous, this was the only explanation.

Chapter 10439

The God's Eye's loading had a strength limit, and it was just at the mystic venerable realm. In the end, Xia Wenqing had broken through just before the incident happened and crossed this line.

As a result, it led to the current F \* cked up situation. Everyone else had been resurrected except for him.

"But if it really was a Mystic class venerable, even if it's just early phase, would he be killed that easily?" Xu Anshan frowned.

There was a huge chasm between the Supreme realm and the Titan realm, and the difference between the mystic and yellow Class was like the difference between heaven and earth.

If he was a half-step Mystic venerable, it wouldn't be that strange if he was ambushed and killed by his underlings. After all, the difference wasn't that big.

Looking at the situation with the nine ancient corpses, at least with Lin Yi's group's strength, any one of them could create a suitable opportunity.

However, if it was a true Mystic venerable, it wouldn't be so easy.

Dongfang Yan thought for a moment and said, "the person who launched the sneak attack might not be someone from the great Zhou Academy. It might be someone from West Rulai. For example, that Lord an did it personally?"

Everyone nodded slightly.

a mystic class venerable was an impressive existence to an academy, but since it involved the west rulai group, it wasn't a big deal for a mystic venerable to be killed.

xia wubing's expression was dejected.

No matter what the reason was, it was an undeniable fact that Xia Wenqing was gone.

she had been brought up by xia wenqing, and her feelings for this director, who was both a teacher and a father, were far deeper than anyone else's.

in the face of such a chaotic situation in dazhou college, the most important belief that supported her to be able to hold on until now was to load the file and revive xia wenqing.

Without Xia Wenqing, not only would it be a huge disaster for the entire school, but it would also be an unprecedented blow to her!

The air froze for a moment.

As an ally, Lin Yi could ask Xia wubing to pull himself together, but as a person, there were some things he couldn't say.

" calm down first, " lin yi said. " we'll look around. it's not good to interfere directly, but we can do something in the dark to delay the situation and prevent the civil war from erupting too quickly. it shouldn't be a problem. "

on the other side, xu anshan and dongfang yan also had no objections.

in fact, even from the perspective of profit, xia wubing was still the most worthy person to invest in. her divine eye was even more important than the entire dazhou college.

"if the situation can't be reversed, you can take my god's eye," xia wubing suddenly said.

"Ha?"

lin yi froze.

Xu Anshan and Dongfang Yan were also shocked. What kind of nonsense was this girl suddenly saying?

xia wubing observed lin yi's expression for a while after sensing everyone's reaction. he suddenly smiled, "You guys are really good people."

She was not a flower vase who had never experienced the world. Because of the characteristics of the God's Eye, she had a deeper understanding of the sinister Jianghu than the average person.

the first reaction of most people when they learned about her divine eyes was to take them for themselves.

even many of the internal staff of the dazhou college had the same idea. however, due to their lack of strength and the various restrictions of the college's environment, they could not put this idea into action.

lin yi and the other two, however, were one of the very few exceptions she'd ever seen.

under her divine eyes, xu anshan and dongfang yan had no secrets to speak of. she knew exactly what they were thinking.

However, from the time they had met until now, the two of them were shocked and had all kinds of doubts about her divine eyes, but they did not have the desire to take them for themselves.

At the end of the day, both of them were proud to the bone.

They would yearn for greater power, but they would never use underhanded tricks. Whether it was Xu Anshan or Dongfang Yan, they would fight for anything they wanted with their own strength.

if they were to resort to trickery and force, especially when they were using such tricks against their allies, even if the divine eye was placed in front of them, they would probably not even care.

they would only find it dirty.

as for lin yi, although xia wubing couldn't see through his heart, he was able to make xu anshan and dongfang yan submit to him, which was enough to prove his personal charm.

plus, even though her time with lin yi was short, she felt an inexplicable sense of security.

She knew that Lin Yi was the same as her.

not only did lin yi have the god body, but he also had the god's unique items like her. more importantly, xia wubing knew that lin yi was the same as her, an alien that didn't fit in this world.

she didn't know how many secrets lin yi had, but it was an instinct that came from her own kind.

Xia wubing had always been confident in his intuition.

"i'm serious," xia wubing looked at lin yi, "if the god's eye is destined to fall into someone else's hands one day, i hope that person will be you."

"alright, i'll agree to it," lin yi said after a moment of silence.

"It's a deal,"

Xia wubing seemed to have fulfilled one of his wishes, and his entire spirit relaxed. He smiled and said, "But before that, I want to do my best to stabilize the situation in the Academy. The Dean has devoted his life to the Academy, and I can't just watch his efforts go to waste."

With that, she saluted Lin Yi and the other two, "the three of you, can you lend me your power?"

"of course." lin yi and the other two looked at each other.

"thank you,"

Xia wubing's face bloomed into an extremely pure smile.

lin yi and the other two didn't know that this was the day she smiled the most since she was born.

she didn't know who her parents were. because of the divine eye, she had been regarded as a monster since she was young and was isolated by all her peers.

Using the special ability of the God's Eye, she shuttled through the Academy's arrays time and time again. That was her entire childhood.

As she grew up, her every step of advancement seemed to be smooth sailing, but at this time, she had already seen too much malice and could no longer interact normally with others.

Therefore, she had never had any real friends, not even friends who would care for each other in name. Even though she had closed her eyes, she could see the malice in the depths of people's hearts.

The three of them should've been allies on guard against each other, but she felt for the first time what it was like to leave her back to someone else.

But it was too late.

xia wubing let out a breath of air and walked out of the general affairs office, heading toward the teaching building at a high speed.

Lin Yi and the other two followed quietly.

along the way, they could see the experts of the dazhou academy standing off against each other with their daggers drawn. the two camps were clearly divided, and it looked like the tragedy of the last internal strife was about to repeat itself.

At this moment, any spark would instantly cause a monstrous fire.

The fire would only be more intense than the last time.

the key was that xia wubing could only load once from the same save point. once this fire started, dazhou college would completely lose the chance to load again. then, they would really be doomed.

A few breaths later, Xia wubing brought the three to the roof of the building.

the teaching building was dazhou academy's landmark. rather than a building, it would be more appropriate to say that it was a magnificent and massive group of buildings. however, the roofs of the buildings were connected into one, forming a roof square that covered an area of several thousand mu.

this was the activity center of dazhou college. in the past, all major events would be announced and held here.

when xia wubing and the others arrived, almost all of the core leadership of dazhou college were present. just like the other places in the college, they were also divided into two factions.

one faction was led by vice principal pang qinglong, who had won the internal strife in name but had in fact already joined the masters of the academy in west rulai.

the other faction was led by the director of academic affairs, zhao tianyin, a group of losers who had been completely annihilated in the internal strife.

the two factions had many conflicts in the past. although they did not fight in public, everyone in the academy knew that the two sides had already fallen out in secret.

however, with the head of the academy, xia wenqing, suppressing them, most of the people on both sides only submitted to xia wenqing.

therefore, even if the atmosphere was not considered harmonious, the academy as a whole could still operate normally. at best, there would be some sparks from time to time.

Now that Xia Wenqing wasn't here, and with the people behind the scenes adding fuel to the fire, there was no need to deliberately provoke the conflict between the two factions. The conflict would naturally erupt!

Right now, there was only one spark left before a full-scale civil war between the two factions.

Under such an atmosphere, Xia wubing's sudden arrival naturally made him the center of attention.

"teacher xia?"

The Dean, Zhao Tianyin, frowned when he saw the situation. where's the director? where is he now? "

The relationship between Xia wubing and the Dean, Xia Wenqing, was known by everyone in the Academy. Moreover, Xia wubing had been the one to load and revive.

now that xia wenqing was nowhere to be seen, she was the only person who might know his whereabouts.

pang qinglong, the vice principal, sneered. " "what's the matter, old zhao? you know that you don't have the confidence, so you're asking the hospital director to back you up, right? No wonder the others are not convinced by you. You're a man, so petty. Who would like you?"

xia wubing cleared his throat. " the dean is currently in closed-door cultivation. he said that he would come out very soon. he sent me here to take a look at the situation. "

with one sentence, the experts on both sides who were at daggers drawn collectively calmed down.

Even pang Qinglong and Zhao Tianyin, who were the leaders of both sides, had their expressions change slightly.

The Dean, Xia Wenqing, had always been the person they feared the most.

If Xia Wenqing was already gone, then they could naturally fight however they wanted. But if Xia Wenqing was still here, then they had to think carefully.

Neither pang Qinglong, the Deputy Dean, nor Zhao Tianyin, the Managing Director, dared to face Xia Wenqing's anger alone.

it wasn't just because of the difference in strength, but more importantly, the experts they had won over would rarely stand on their side when faced with xia wenqing's prestige.

In other words, even if they wanted to force Xia Wenqing to abdicate, they were destined to fail. There would be no suspense.

Not to mention that they were of the same generation as Xia Wenqing. From the day they entered Dazhou college, they had been stepped on by Xia Wenqing's Halo. The shadow formed over the years made them unable to display their normal strength when facing Xia Wenqing.

Being in the same era as Xia Wenqing was destined to be a tragedy for their generation.

however, these two weren't simple characters. they weren't people that xia wubing could suppress by simply using the name xia wenqing.

" in this situation, he's still able to peacefully go into seclusion. isn't he being too irresponsible as the dean? "

pang qinglong said in a gloomy voice.

Unlike Zhao Tianyin, he had a guilty conscience.

According to the descriptions of the college survivors, he was not only the main culprit who caused the internal strife in the college, but he also betrayed the school and colluded with the West Rulai group to ambush the Dean, Xia Wenqing. With all these crimes added up, it was not an exaggeration to say that he was a heinous criminal.

although he was loading a savefile and starting over, he had not really done those things since he had started from the savepoint.

however, pang qinglong knew that this was his style. if he was given another chance, he would definitely do it again!

under such circumstances, if he was the dean, xia wenqing, would he let him go?

No matter how he thought about it, pang Qinglong didn't think he could get through this safely.

Of course, he could use the excuse that he had already borne the sins of his previous life and that he had done nothing wrong in this life and was an innocent person to absolve himself. He could also use the excuse of not blaming the masses to comfort himself. After all, there were many accomplices with him.

but no matter what, what was done was done.

no matter how magnanimous xia wenqing was, he would never let go of such a matter of principle.

Moreover, as his colleague and rival for so many years, pang Qinglong knew Xia Wenqing's true nature better than anyone else.

On the surface, he pretended to be magnanimous and could even tolerate a strong enemy like him who had all kinds of grudges. However, on the inside, he was cruel and merciless. Once anyone really threatened Xia Wenqing's core interests, they would not be able to see the sun tomorrow.

Both pang Qinglong and Zhao Tianyin had a profound understanding of this.

in the face of a superior like xia wenqing, others might look amiable, but as his right-hand men, it was really like walking on thin ice. accompanying a king was like accompanying a tiger.

pang qinglong's words were more of a test than a challenge.

in the current situation, xia wenqing still hadn't appeared in person and had instead sent a junior like xia wubing to save the situation. no matter how one looked at it, it was abnormal.

Zhao Tianyin also revealed a puzzled expression.

After all, they weren't fools. No matter how reasonable Xia wubing's excuse was, as long as Xia Wenqing didn't show up, it would be a huge flaw.

"The Dean has his own considerations for what to do. If Vice Dean pang isn't satisfied, you can go over and question him."

Xia wubing looked at pang Qinglong indifferently. "Do you want me to take you there now?"

Pang Qinglong choked.

although he had a lot of confidence and was almost certain that something had definitely happened to xia wenqing at this moment, if he had to face xia wenqing alone, even if there was less than a 10% chance, he didn't dare to take the risk.
