

Bodyguard 10461

Chapter 10461

As for Lin Yi himself, his aura rose up to the sky, fighting against the green qi that covered the sky!

"you don't know what's good for you."

The majestic and indifferent voice once again came from the sky. In an instant, the teaching building complex under everyone's feet was directly lowered by a large section.

It had been crushed by force!

and this was with lin yi holding the ground-if it weren't for him, not only would the building be crushed, but everyone else would be crushed as well.

with the strength of the three-man team, even if they were not directly crushed to death, they would at least have to pay a price of blood.

The pressure from the nine powerhouses was really not that easy to handle.

but even if lin yi could hold on for a moment, everyone could still feel the difference between them. their faces were all serious.

the previous xia wenqing was just a challenge for them. it seemed extremely difficult, but as long as they cooperated well, there was still a good chance of passing.

However, if it was Xi Rulai, even if they were willing to die, it would be difficult for them to win.

Especially since Lin Yi was starting to feel like he couldn't take it anymore.

in front of an opponent like xi rulai, he didn't dare to rashly use the world's will because with the other's knowledge, he might alert the other.

any information about the new world leaked out, even if it was just a piece of scale or claw that didn't seem so sensitive at first glance, it could bring about a fatal disaster here.

After all, this place was too close to the divine realm.

it was only when he was facing someone like xia wenqing, who he was sure he could kill, that lin yi dared to truly mobilize the world's will.

in other words, lin yi's fight against xi rulai was completely based on his aura!

To be able to hold on for less than three breaths of time was something to be proud of. Even Xi Rulai himself couldn't help but let out a surprised gasp.

however, that was all.

lin yi and the others were prepared to fight to the death as the blue wave came down on them!

However, at this moment, another majestic purple Qi wave swept over from the other side of the sky. In the blink of an eye, it had collided with the green qi wave.

lin yi's group widened their eyes as they watched the shockwaves clash with each other in the air.

"Has the heavens cracked?"

Dongfang Yan looked up and mumbled.

At this time, the purple and green waves each occupied half of the sky. The two sides were clearly separated, forming two worlds like the Chu River and han boundary.

"did that person make a move?" xu anshan asked, looking at lin yi.

"It can only be him," Lin Yi let out a breath, "the others don't have the strength to do that."

Only the nine powerhouses could fight one on one with the nine powerhouses.

This sentence had long become the consensus of public opinion in the divine Kingdom on land.

Without a doubt, it was the other one of the nine big shots who blocked the pressure for Lin Yi and the others!

Lin Yi had expected this to happen, but he wasn't too sure before.

After all, up until now, he had not officially met that person. All the cooperation before was due to the natural tacit understanding between them as they were on the same side.

however, lin yi wasn't sure if this alliance could withstand the test, especially xi rulai's test.

at least, he was prepared to fight to the death just now. if he saw that the situation was not good, he would drag xu anshan and the others into the new world and escape.

fortunately, that person finally responded.

The purple and green qi were evenly matched, and the heavens were divided into two. This shocking scene was not only seen in the Dazhou Academy, but also by everyone in the divine Kingdom on land.

For a time, everyone was in a state of panic.

Any one of the nine powerhouses didn't just represent himself or a top combat power that stood at the peak of the divine Kingdom on land. He represented an entire super force!

the greatest purpose of the supreme board of directors wasn't to create the alliance of divine academies, but to provide a platform.

it was a platform for the nine big shots to sit down and communicate.

Because of the long history, many people had forgotten the tragic scenes of the nine big shots fighting each other. They had forgotten the chaotic and hell-like era.

however, at this moment, seeing the shocking scene of the sky being split in half, some of the old people in the divine kingdom on land finally woke up from their fear of chaos and slaughter.

"The green qi is Xi Rulai, and the purple Qi is bi 'an, Gu jiumu!"

the more knowledgeable the person was, the more he sucked in a breath of cold air when he saw this scene. "Is the world going to be in chaos?"

If the person in conflict was someone else, everyone would be shocked, but with the long history of peace, they would still have some confidence.

after all, even if there was a conflict between the nine powerhouses, as long as the two strongest powerhouses could hold their ground, there was still a possibility of the situation being calmed down. the nine powerhouses were also divided into levels.

The problem now was that Gu jiumu was one of the two strongest!

Once this person was determined to go all out, who could still suppress him?

Xi Rulai was already unreasonably strong, but there was always a higher mountain. If the current situation continued to develop, the possibility of him being defeated was not great, but a hundred percent!

The only one who could possibly suppress Gu jiumu was the other publicly acknowledged strongest in the world.

however, if these two were to fight, the god nation on land that had been peaceful for so many years would definitely welcome an unprecedented apocalypse. at that time, no one would be able to stay out of it, including the other nine giants.

no one dared to imagine such a scene.

in an instant, the originally stable situation suddenly slid into an irredeemable abyss, shaking the tense nerves of the entire god kingdom on land.

In the face of this sudden change, not only the leaders of the various forces and the general public, but the remaining members of the nine Giants on the Supreme Board of Directors had also entered a state of first-class alert.

there were those who were worried, and there were those who were ambitious.

To the ambitious people, once Gu jiumu and West Rulai started a war, it meant that the situation would be irreversible, but at the same time, it was also the opportunity they had been waiting for.

The weather was unpredictable, and the confrontation between Gu jiumu and West Rulai was that storm!

just as the big shots from all sides were on full alert and ready to make a move as soon as they heard the news, the eastern tang academy, a commoner's academy that had never entered the mainstream view before, but had suddenly risen recently, was currently holding a grand alliance meeting.

The representatives of more than 600 Academies had gathered from all over the eastern Tang Academy's home ground. The scene was even grander than that of the Alliance of God-ranked Academies!

The Alliance of God-ranked Academies, including the newly joined Jianghai Academies, only had a total of 173 Academies. That was not even a third of the number of Academies present.

of course, those present were only ordinary academies. even if there were a few that could barely reach the threshold of a god-ranked academy, there was still a clear gap when compared to the real god-ranked academies in the alliance.

however, even if the quality was lacking, the quantity alone was enough to bring eastern tang academy to an unprecedented height.

As the number one expert of the new generation that had appeared out of nowhere in Eastern Tang, the eastern Tang Academy's new dean, Yuan kun, had even more of a reputation. He had already become a super new talent whose popularity had spread throughout the entire divine Kingdom on land!

It was worth mentioning that, like Harlin of the eternal river Academy, the new dean of the eastern Tang Academy was also a movie star.

In terms of popularity, he was even better than Harlin, and his fans were all over the country!

however, yuan kun's goal had never been to become a movie star. it was just a shortcut for him to expand his personal influence.

What he really wanted was what he was doing right now. He wanted to use his strong personal influence to create a huge Alliance that was enough to compete with the Alliance of divine Academies.

And he would rise to power as the founder of this new alliance, rising to the top of the power hierarchy of the divine Kingdom on land!

at this time, the banquet was in full swing. looking at the strange phenomenon that suddenly appeared in the sky, the venue suddenly burst into a clamor.

The academies that were willing to respond to the new alliance, in addition to their intention to form a group, were all dissatisfied with the current interest structure of the divine Kingdom on land.

The Supreme Board of Directors led the Alliance of divine Academies to eat up a large piece of meat, while ordinary Academies like them didn't even get a share of the soup. Who would be willing to accept this?

Due to the power of the divine college Alliance, although the new alliance didn't directly announce the slogan of overthrowing the other party, the various measures that came out of Yuan kun's mouth were undoubtedly aimed at prying open the existing profit structure.

Although the six hundred schools that had joined the Alliance had their doubts about this, the fact that they were sitting here made their stance clear.

however, at this time, seeing such a shocking astronomical phenomenon, even if they had already made sufficient mental preparations, they could not help but be shocked!

They seemed to have underestimated the power of the nine big shots.

It wasn't an overstatement to say that with the shocking strength displayed by the nine big shots at this moment, if they were really targeted, the new model Alliance would most likely be completely wiped out.

This was not an alarmist talk!

however, just as everyone was panicking and thought that this would be a heavy blow to the morale of the new alliance, yuan kun, who was the founder of the alliance, laughed instead.

"everyone, the internal strife of the supreme board of directors is a godsend opportunity for us!"

following yuan kun's train of thought, the minds of the representatives of the 600 academies immediately became active, and their eyes lit up.

once the nine powerhouses started a civil war, it would be an unimaginable doomsday for the entire god nation on land.

However, for them who were bent on breaking the current situation and wanted to eat the meat and drink the soup while being inferior, this was a heaven-sent opportunity that could only be encountered but not sought!

Yuan kun continued to strike while the iron was hot. if they are United, the chance for us will be extremely slim. However, if we usher in a chaotic world, our era will not be far away.

"everyone, only in troubled times can heroes be born."

with just one sentence, he had completely ignited the ambitions of the representatives of the six hundred academies.

if they had fought on their own, they would have to worry about how they could protect themselves. however, now that they were sitting together, they had the right to share the cake with the various superpowers!

however, before they could be happy for long, the purple and green qi that occupied half of the sky each disappeared.

everyone was speechless.

his ambition had just been ignited, and this bucket of cold water had come too quickly, right?

the representatives of the six hundred academies all looked at yuan kun.

yuan kun's face didn't have the slightest embarrassment of being slapped. he was still full of confidence. although they didn't start fighting today, the internal conflict of the Supreme board has been made

public. It will only become more and more like fire and water. I believe that it won't be long before the day of change will come.

"everyone, we need to act quickly and make preparations for that day."

as soon as he finished speaking, the crowd roared in response.

the popularity of the eastern tang academy's newly-appointed dean could be seen.

however, after appeasing the representatives of the 600 colleges, yuan kun's gaze was now fixed on the dazhou college, which was thousands of miles away.

Although he didn't have direct control over almost the entire intelligence world like Xi Rulai, he also had his own channels of information. As a failed school, the great Zhou Academy had long been on his list of key attention.

Even though he was in charge of Eastern Tang's home ground, he knew everything that had happened in the great Zhou Academy recently.

after all, this was the prey that he had his eyes on.

"This Lin Yi ... He's really that influential, aww!"

yuan kun frowned.

even though all the signs before showed that gu jiumu was protecting jianghai college, he still stood up for lin yi and went head to head with xi rulai, who was also one of the nine giants. this was beyond his expectations.

Similarly, it was beyond the expectations of countless people.

After thinking for a moment, Yuan kun's mouth suddenly curved up, "this lin yi's value seems to be higher than i expected. good news."

now that the weather had returned to normal, the entire divine kingdom on land let out a sigh of relief.

What followed was all sorts of gossip.

for example, who was the one who backed down first?

At first glance, it seemed that the purple and green qi had retreated at the same time, and both sides had formed some kind of tacit understanding.

However, based on the world's understanding of these two nine Giants, they immediately came to a consensus that Xi Rulai should have chosen to retreat.

It was not only because he was facing Gu jiumu, one of the two strongest people in the world, but also because there was another more important reason that everyone knew.

Choosing to follow one's heart when facing a strong enemy was a tradition of the West Rulai clan.

this included xi rulai himself, and it was not the first time he had done this.

even so, it didn't affect his status as one of the nine big shots. after all, there were only a few people who could make him follow his heart. the others would at most laugh at him in private, but if he were to really face tathagata the west, he would never dare to show any disrespect.

However, it was difficult to tear off the label of Cong Xin as Xi Rulai.

Especially after today's scene, the commotion was so great that the whole country knew about it. From now on, even those three-year-old children would probably talk about this and whip the corpses back and forth.

"xi rulai is a ruthless person."

Lin Yi's evaluation was different from the others.

Chapter 10463

choosing to follow one's heart in front of everyone was a stain that was difficult to wash away. however, on the other hand, how many people had such courage in that situation just now?

It took courage to walk a tough road, and it also took courage to suppress decisiveness and follow the heart.

An opponent like him who was able to adapt to circumstances despite being in a high position like the Supreme Board of Directors was more worthy of fear.

"It's a good thing he's ruthless enough. Otherwise, I really don't know how to end this today." Dongfang Yan, who was standing beside him, laughed.

on the other side, xu anshan agreed.

Although Gu jiumu had stepped forward to help them take on Xi Rulai's pressure, if Xi Rulai was determined to fight to the end, the situation would quickly escalate and worsen. Not to mention whether Gu jiumu would follow them, once the situation escalated, the few people in the center of the battlefield would definitely bear the brunt.

the aftermath of the battle alone could easily raze the entire dazhou academy to the ground.

as for lin yi's group, they weren't in a good situation either.

Fortunately, the situation did not develop in the worst direction.

To Lin Yi, the biggest negative effect of this incident was that he'd become Xi Rulai's enemy. Xi Rulai would definitely get back at him in the future for the face he'd lost.

This level of pressure was enough to crush a formidable person to death.

however, lin yi didn't feel anything. even if he didn't see that scene just now, he and the west rulai group were destined to be enemies. there was no room for negotiation.

This was only a matter of time.

therefore, this was not considered a loss. however, the harvest this time was really a bit unexpected.

he had given the god's eye back to xia wubing, but the child eye he got from xia wenqing was still in lin yi's hands.

The mother and child eyes were one, and Lin Yi thought of letting Xia wubing absorb the special nature of the child eye. After all, Xia wubing was one of his own after this battle.

Furthermore, even though the God's Eye had heaven-defying abilities, it was mainly a support. Unless it evolved into the high-level God's eye that Xia Wenqing spoke of, it would have a limited increase in actual combat power.

From Xia wubing's feedback, the God's Eye wasn't like the God's body, which was a huge burden to the host.

Once Lin Yi merged it into his body, everything in the future would be centered around the God's Eye. The needs of the God's Eye would be the highest priority.

this obviously didn't fit in with lin yi's long-term plan.

In the end, the God's Eye was a good thing, but it wasn't good enough for Lin Yi to give up on his own strength system!

But then again, this was someone else's divine eye.

As an ancient God practitioner, as long as he found the right direction, Lin Yi was confident that he'd be able to cultivate his own innate divine eye in the future, just like a god Body.

However, before Lin Yi could say anything, Xia wubing shook his head and rejected him.

"i don't like the god's eye."

Xia wubing didn't hide his disgust for the divine eyes at all and said frankly, " " i can keep these eyes for you for the time being. when you change your mind or find someone else more suitable, i hope you can take them away as soon as possible. "

as for the child eyes, I can't bear the burden of the mother and child eyes in my body at the same time. You should keep them for yourself.

She didn't give Lin Yi a chance to persuade her.

seeing lin yi helplessly turn his eyes to him, dongfang yan, who was watching from the side, waved his hand, " "don't look at me. i don't want this thing. it might even conflict with the berserk blood in my body. it's so troublesome."

as for xu anshan, he had just experienced an epiphany, and his entire temperament was much higher than before.

before lin yi could open his mouth, xu anshan cut him off, " "My Emperor's body can't contain any foreign objects."

"....."

lin yi didn't know whether to laugh or cry.

Good fellow, the divine eyes that even Xi Rulai coveted were actually trash in the eyes of these people!

However, it was the God's Eye, so he couldn't just throw it away, right?

After thinking for a while, Lin Yi finally came up with a compromise-he'd merge it into the new world.

If it was left directly in his body, it was hard to say what kind of hidden dangers would appear. However, if it was integrated into the new world, there would be no such worries.

with the level of the new world crushing them, even if there was something wrong with a mere pair of divine eyes, it would not be able to cause any waves.

As it turned out, Lin Yi was right.

After being thrown into the new world, the child eye, which had just been emitting a strange aura that was difficult to control, immediately became obedient under the control of the world's will.

Soon, they hung in the sky, one on the left and one on the right, echoing each other.

Immediately, Lin Yi felt the amazing effect of the pupils.

on one hand, it was connected to xia wubing's mother eye in the outside world. if he wanted to, he could draw nutrients from the mother eye at any time. on the other hand, its existence further improved the internal vision system of the new world.

As the master of this new world, Lin Yi knew everything about it.

However, this knowledge was only limited to the surface.

even with the help of the world's will, lin yi could only observe the molecular level at most. as for the finer particles, he could only combine his knowledge and see the general idea, but he couldn't do a deeper study.

now that he had the support of this pair of eyes, he had suddenly changed from a bird to a cannon.

lin yi could now see the inner structure of the molecules clearly, as well as all sorts of atoms.

More importantly, he could see the soul particles drifting in the New World!

naturally, lin yi had some understanding of the soul before, and he'd even encountered opponents with soul-related abilities. however, after hearing xia wubing's explanation on the soul and seeing it with his own eyes, his previous understanding was clearly too shallow.

or rather, it was too metaphysical.

Based on his current knowledge, those so-called soul ability users did not control the real soul. At most, they were fake souls formed from the mutation of the yuan Shen.

he had once thought that the primordial spirit and the soul were the same thing, but now it seemed that they were not.

the primordial spirit was a form of pure energy. before it was scattered, it had a distinct personal will. however, it was also because of this that the primordial spirit had never participated in reincarnation, except for the common possession and rebirth.

Its ending was often to vanish into thin air.

As for the soul, Lin Yi had thought that it was a type of energy as well, but the existence of the soul particles shattered that preconceived notion.

With the help of his eyes, Lin Yi could confirm that soul particles weren't pure energy. They were in an intermediate state between energy and matter.

It had the active characteristics of energy, and at the same time, it also had some structural characteristics of matter.

In fact, it could even convert between energy and matter!

Chapter 10464

of course, there was a close connection between soul particles and the primordial spirit.

if the primordial spirit could be said to be an artistic painting with profound meaning and a unique artistic expression, then the soul particles would be the paint on these paintings.

through the combination and collision of pigments, a pleasing artistic expression was completed. the spiritual meaning transmitted was intangible, but its existence itself was real.

"Is it a bridge between the physical body and the primordial spirit?"

Lin Yi said, deep in thought.

He couldn't help but think of the cycle of life and death after knowing about the essence spirit. At his level, Lin Yi knew that the cycle of life and death people imagined was just a legend. It didn't exist in reality.

at the very least, the primordial spirit that everyone knew would definitely not enter samsara.

but now it seemed that just because the primordial spirit could not reincarnate, it did not mean that reincarnation did not exist!

a primordial spirit with a distinct personal will could not be reincarnated, but the soul particles with material characteristics could completely form a big cycle similar to a natural ecological chain.

this cycle was reincarnation!

Lin Yi was very excited after thinking it through.

although he had no way of verifying the authenticity of his idea so far, this didn't stop him from putting it into practice.

once the hypothesis was established, then there was hope that the problem that limited the evolution of life in the new world could be solved.

Lin Yi was preparing to create a new world of reincarnation!

Everything was difficult at the beginning, and the most difficult thing for a super project like this, which needed to be explored from scratch, was to determine the direction.

As long as the direction was set, there would still be countless difficulties in the future, but at least the future development trajectory could be predicted. At least he knew that every step he took had a basis and was steady.

And this was Lin Yi's biggest gain this time.

As it was his first time trying it out, the model Lin Yi came up with was simple-it was a circular tunnel.

lin yi chose a fresh water lake as the starting point and ending point of the tunnel.

According to general knowledge, the ocean was the place where life was born, and it was vast enough. In theory, the ocean was the best choice for this key node.

but with the help of his eyes, lin yi realized that the soul particles weren't active in the ocean, but in freshwater.

therefore, he chose the largest freshwater lake in the new world and gave it a name, the lake of life.

In this Lake, all the soul particles in the New World would be gathered together. They would constantly collide and regroup with each other, just like how atoms made up molecules. In the end, they would form clusters of soul particles of different sizes.

This was the initial appearance of a soul.

After that, Lin Yi opened up a path between the lake of life and the ocean, allowing the souls to flow into the ocean.

in the sea, they would combine with the macromolecules with infinite possibilities, including protein and nucleic acid molecules.

This was the process of injecting a soul into matter.

From then on, through the soul, which was a bridge between matter and spirit, the initial spiritual fluctuations would appear in the macromolecules, which would then evolve into the instinct of survival and reproduction, and further improve the life structure.

And so, a complete life form was born.

However, there was a limit to everything. Due to the different structures of soul particles, after a long or short period of time, these soul bridges that connected the material and the spirit would be overwhelmed and eventually disintegrate into soul particles.

and this meant the death of a living being.

What Lin Yi needed to do next was to use the water cycle to send these soul particles to the land through rain and gather them in the lake of life again for the next collision and reorganization.

this process was the reincarnation of life.

When the whole process was broken down, Lin Yi's train of thought suddenly became clear!

When he completed the initial construction of the entire circulation system, the New World did not seem to have any changes at first glance. However, in the vision of his child eyes, some of the original soul particles had already entered this circulation spontaneously.

lin yi was overjoyed.

This meant that the entire life cycle model was indeed effective!

it seemed to have no effect now, but the number of soul particles in the new world was too small. as long as it was given a large enough number, the entire model could really work and promote the evolution of life!

however, where could he get so many soul particles?

It wasn't that he couldn't get them from the outside world, but the soul particles were like sand scattered in the sea. Lin Yi didn't have the means to do so, and even if he could see them with his God's eye, he couldn't gather them together.

Even with the help of the world's consciousness, the efficiency was still too low. Lin Yi couldn't afford to spend it now.

"wait, isn't there a ready-made one?"

Lin Yi suddenly realized.

He had now accepted Xia Wenqing's inheritance. Xia Wenqing's soul had naturally disappeared, but the souls of the nine former presidents had gone through special treatment and did not dissipate with him.

With a thought, the nine Deans "souls appeared in the New World.

These nine souls could also be considered as the spoils of war for this incident. If used well, they would be of great value.

According to Lin Yi's original plan, there were two ways to use it.

or, like xia wenqing, he could directly merge with it, and then achieve the effect of his strength skyrocketing.

however, there was a risk to doing so. lin yi's understanding of the soul was still limited, after all. if he hurt his own soul, it would be a huge loss.

The other option was to be more conservative and seal these souls into the nine Guardian ancient corpses.

with that, they'd have nine half-step mystic class fighters-it was a huge boost for lin yi's group, who was in desperate need of high-end fighters.

Lin Yi was leaning towards the latter at first, but his thoughts changed now.

Compared to the nine half-step mystics, the new world's evolution was obviously more important. After all, the New World was his everything!

As long as the New World could improve, Lin Yi's overall strength would rise as well. It didn't matter if he lost nine half-step mystique venerable Masters!

lin yi didn't hesitate to shatter the nine souls and pour them into the lake of life.

Compared to ordinary souls, the souls of the nine former deans of the great Zhou Academy were thousands of times stronger. Just the number of soul particles that were formed by any one of them was much larger than the original scale of the entire new world!

He hadn't tested it out yet, but Lin Yi could tell that the strength of a soul was largely determined by the number of soul particles it had.

Chapter 10465

The larger the number, the stronger the soul!

The number of soul particles in those weak primitive life forms was about a hundred, while the number of soul particles in high-level life forms with powerful spirits like humans was at least ten million.

as for the nine former deans, the number of people they had was in the hundreds of millions, or even billions!

As the nine souls were shattered, billions of soul particles swarmed into the lake. The originally empty lake of life began to boil.

As the number of soul particles increased, the chances of the soul particles colliding with each other increased greatly, and the possibility of them gathering into a large collection of soul particles also increased.

soon, the first batch of soul particles left the lake of life and headed for the ocean.

compared to the original souls in the new world, their bodies were obviously larger. this meant that they could combine with more complex macromolecules at the same time.

and so, lin yi witnessed the birth of a whole new batch of life forms.

Paramecium, amoeba, algae

they were still unicellular organisms in nature, but the vitality they displayed at this moment made lin yi's heart race.

He had taken the right step!

At this rate, the birth of the first multicellular organism wasn't too far away. Lin Yi had a strong feeling that the first explosion of life in this new world that he had been waiting for was coming soon!

what lin yi didn't know was that the result of his experiment wasn't just speeding up the pace of life evolution.

just as the brand-new living individual completed its first life cycle, in the endless deep space, where the god of creation and the gods regarded as the original explosive point of all the world's origins, an invisible, mysterious sequence quietly emerged.

at the end of this sequence was the new world.

Lin Yi himself didn't feel anything.

In fact, even if he could sense the existence of this invisible sequence, he had no idea what it represented.

Only the Supreme existence sleeping in the deepest part of the God domain suddenly opened his eyes. Immediately, an incomparably vast will spread out, enveloping the entire God domain, the God Kingdom on land, and even the surrounding areas.

who is the heavenly Dao's Mark? "

at his level, there was nothing in this world that could threaten his existence. the only thing that could make him feel fear was the heavenly dao that was above this world.

After all, he had already mastered the origin of this world. As the God of creation, he was already one with the world.

Only the heavenly Dao could separate him from the world.

Therefore, he paid close attention to any movement in the heavenly Dao, especially this time. He was extremely nervous!

One had to know that the last person who had received the attention of the mark of the heavenly path was not the arrogant ancient gods who had created their own worlds, but him!

Since then, he had risen at the speed of light from a nameless person. In the end, he had trampled all the ancient gods under his feet and become the Supreme God of creation today!

Today, someone had once again received the attention of the heavenly Dao's Mark. It was easy to imagine what this meant.

However, the God of creation could sense the existence of the marking sequence, but could not lock onto its final position.

in the end, the heavenly dao was the beginning of all the heavens and realms. even as the god of creation of a world, he was still inferior in terms of level.

after searching for a long time, he still had no clue.

In the end, the giant eyes in the deepest part of the divine realm closed again. The God of creation had more important things to do and could not waste too much time on this matter.

Lin Yi didn't know that he'd just walked one round in front of death's door, and that he'd already stepped half a foot into it.

Although the God of creation could not directly track down the heavenly Dao's sequence mark, if he really went to war and investigated carefully bit by bit, even if he could not directly lock onto him, he could still narrow down the scope infinitely.

at that time, he could be exposed at any time as long as he used the power of the new world.

Fortunately, he was not the God of creation's biggest problem.

at this moment, lin yi's full attention was still on the new world. the life cycle could be used now, but there were still many details that needed to be perfected.

There was still a huge amount of work to be done.

during this process, dongfang yan and xu anshan, who were guarding him on the side, suddenly realized that the aura around lin yi's body was rising at a visible speed!

"He's about to break through?"

Dongfang Yan was stunned. Xu Anshan, who was opposite him, was also surprised.

with their experience, it was extremely difficult to break through and level up in the eyes of others, but it was as common as drinking water for them, especially when xu anshan had just experienced an epiphany. although his realm didn't increase on the surface, his actual combat power had been reborn.

But even so, the speed at which Lin Yi broke through still made the two dumbfounded.

From the beginning, it hadn't even been a minute, and Lin Yi's aura had already surpassed the peak of the middle stage of the Golden class, reaching the late stage.

"Isn't he too smooth?" Dongfang Yan could not help but pout.

unless it was a miracle like the godhead's power empowerment, it might be an exaggeration to say that the breakthrough of any small realm at the supreme realm was as difficult as ascending to the heavens to geniuses like them, but it was definitely not a small matter.

A single breakthrough would easily take a few years or even decades of closed-door cultivation.

But when it came to Lin Yi, one minute ...

It wouldn't be too much to say that he was the fastest man in the world.

"it's not over yet." xu anshan's mouth twitched.

as expected, lin yi's aura rose again before he could finish his sentence.

this time, it was a little slower.

It took a full three minutes for Lin Yi's aura to reach the peak late phase of the Golden class.

dongfang yan choked for a long time before he finally uttered two words from the bottom of his heart, "
"You're abnormal."

she herself was a monster in other people's eyes, but there were different levels of monsters too. it was obvious that lin yi's level was far above hers.

xu anshan's expression was wooden as he silently agreed with dongfang yan's evaluation.

after this sudden realization, he thought that the difference in strength between him and lin yi should be closed by quite a bit. even if he couldn't be completely on the same level as lin yi, it shouldn't be too big of a difference.

but now, it seemed that the gap between him and lin yi wasn't shrinking at all, but widening rapidly!

Fortunately, he had the heart of a natural King, and wouldn't be so easily defeated. If it were anyone else, even as Lin Yi's teammate, they'd probably be crushed to death.

Fortunately, after reaching the peak late phase of the Golden class, Lin Yi's aura still increased, but it quickly stopped. He didn't reach the full phase of the Golden class immediately.

Chapter 10466

even so, lin yi's two level ups were a huge blow to his two teammates.

" damn it, i'm going to give him a good beating when he wakes up. otherwise, i won't be able to calm down! "

dongfang yan clenched his teeth while holding the wine pot.

Xu Anshan glanced at her. he's already holding back. With his aura just now, he might have a chance to break through to the Golden class full master.

Dongfang Yan rolled his eyes. nonsense. He's not stupid. Why would he do such a stupid thing? "

If it was anyone else, they wouldn't let go of any one-in-a-million chance of breaking through to the yellow Class full master. This was because once they missed this chance, they might never have another one in their lives.

but to lin yi, whether it was a golden class late phase peak or a golden class full phase venerable, it was just a necessary stage in his growth.

crossing over was inevitable, it was just a matter of time.

Just as Xu Anshan said, if he had this idea, he could force his way into the Golden class full phase venerable, and the chances of success were not small.

However, there was no need to.

breaking through by force would inevitably lead to a loss of vitality. although it was not completely impossible to make up for it, it would still overdraw the original huge potential in advance, which was not worth it.

if he was surrounded by strong enemies, he might have thought about it, but it wasn't necessary now.

If an enemy of Xi Rulai's level were to force his way over, even if he were to advance to the Golden class full master, it would be useless. In the end, he would still have to escape with his people, and there would be no real difference.

As for the others, they were not worthy of him paying such a price.

While Dongfang Yan and Xia wubing were complaining, Xia wubing had already started to load again and revive the people from Dazhou college.

originally, under xia wenqing's misdirection, she thought that she couldn't repeatedly load the save file, and even the save file's aura had disappeared. however, when she searched the general affairs office again, she still found the save mark.

In fact, Xia wubing had his doubts about resurrecting the people from Dazhou college.

although she was from dazhou college, other than being trained by xia wenqing as the host of the divine eye, she had been isolated by the entire college since she was a child.

to say that she had any feelings for zhao tianyin these people, it really could not be said.

Xia Wenqing was the only link between her and Dazhou college. Now that the truth was out, the link was naturally broken.

on the other hand, it was hard for her to have a good impression of the dazhou academy's experts due to their previous actions.

For some of them, it was a bit of an injustice to be wiped out as a group, but for most of them, it could be considered as reaping what they had sown.

"didn't your jianghai academy need a branch? Wouldn't it be more convenient to build it on the Dazhou Academy's shell without interference from these people?"

This was what Xia wubing asked Lin Yi before he started meditating.

"we do need a piece of land to build a branch, but we need a strong and reliable ally right now," lin yi replied.

Dazhou college was a ready-made branch, but if they were to directly pull Jianghai college over, they would definitely become a Public Enemy.

At that time, the situation would force Lin Yi to place all his focus on self-defense.

Even if he made it through, he'd lose the initiative-this wasn't Lin Yi's style.

It was not the right way to gain a son but lose the initiative.

compared to the loss of a city, he valued the initiative more.

Under the current circumstances, the best choice was to take over Dazhou college behind the scenes and make it a solid shield for their side.

As for whether or not they could bring Dazhou college under their control, that wasn't something Lin Yi needed to worry about. As long as Xia wubing didn't revive Xia Wenqing, Xu Anshan and Dongfang Yan would be able to take charge.

However, when they saw the group from Dazhou college who had gathered again, with a total of nearly four figures of Supreme realm experts, even Xu Anshan and Dongfang Yan felt a great deal of pressure.

fortunately, xia wubing didn't revive everyone but chose to revive.

Not only was Xia Wenqing not present, but there were also no troublemakers led by Vice Principal pang Qinglong. At least, they were not as hostile as before, causing the situation to go out of control.

At least, these people were willing to let Xia wubing finish.

After hearing the whole story from Xia wubing, everyone from the Dazhou Academy fell silent.

the truth was too bizarre. they had to take a while to digest it. otherwise, they would not be able to digest it.

in the end, the managing director zhao tianyin took the lead to speak."that's just your side of the story. you think we'll believe that? and you're even going to be jianghai academy's assistant? that's not right, is it?"

On the surface, it was an alliance with Jianghai Academy, and both sides were of equal status. However, anyone with a little experience in the martial arts world could tell that once the two sides formed an alliance, Dazhou Academy would inevitably become the other's vassal.

status wasn't something that could be obtained through verbal agreements, but rather, it was determined by one's strength. to be more precise, it was determined by the comparison of one's strength.

If Dazhou college still had Xia Wenqing, then they might be able to wrestle with Jianghai college.

But now, they couldn't even bring out a top-tier force that could hold up the front, especially since Xia wubing was obviously on Lin Yi's side. Once they formed an alliance, it would be hard for them to gain enough authority.

I'm only responsible for explaining the situation. As for how you choose, that's your business.

xia wubing didn't waste his breath.

Based on her current impression of Dazhou Academy, she had already done her best to load and resurrect these people. As for which path they would take next, she didn't care.

however, this caused everyone from dazhou college to freeze.

naturally, they were unwilling to be subservient to others. even if they were down and out now, after all, their ancestors had once been glorious. to this day, everyone still had the ambition to be above the other ordinary academies.

however, in the face of the cruel reality, their ambitions were somewhat inappropriate.

Zhao Tianyin was silent for a moment. He looked at Xu Anshan and Dongfang Yan, who were guarding Lin Yi, and said in a deep voice, " "If we choose to refuse, how are you going to deal with it?"

No matter what, kicking Lin Yi's group away at a time like this would make the school look like an ingrate.

Xu Anshan and Dongfang Yan looked at each other and said in an indifferent tone, " "there's no need to think so much. we do things for benefits and have never thought of asking you to repay a favor. so, you don't need to have any psychological burden if you choose not to form an alliance. "

Hearing that, Zhao Tianyin and the others all heaved a sigh of relief.

Chapter 10467

Although they knew that they were in the wrong, this matter concerned the authority of the Academy, so they couldn't care so much.

however, xu anshan's next sentence made them feel like they had fallen into an ice cellar.

however, with the situation of the great Zhou Academy, you are now like a piece of fat meat on an anvil. Anyone can take a bite. Since we are already standing here, the meat should be placed in our mouths. It would be inappropriate not to take a bite.

as xu anshan spoke, the aura of an emperor that had advanced slowly spread out. his words were like the emperor's decree, making people unable to muster the courage to resist him.

dongfang yan chuckled at the side. " this is the way of doing things for profit. are you satisfied? "

""

Everyone from the Dazhou Academy fell silent once again as they broke out in cold sweat.

If it was before, they would've swarmed up to Lin Yi if he dared to provoke them.

but now, facing xu anshan's emperor's aura, zhao tianyin and the others had lost their unruly courage for the first time.

although, in theory, they wouldn't have any memories of the previous scene after they had loaded and reincarnated. other than xia wubing's indifferent statement, they didn't know how weak the strength that they were so proud of was in front of xia wenqing.

However, some of them with sharp senses still couldn't help but feel fear from the aura of the battlefield left in the surroundings.

If Xia Wenqing was this terrifying, then just how strong was Lin Yi, who could kill him without paying any price?

Thinking about it carefully, he was terrified.

In the end, Zhao Tianyin smiled helplessly and bitterly. " we were the ones who didn't know what was good for us. if your academy doesn't mind, i'm willing to represent the great zhou academy in forming an alliance with your academy. from now on, we'll only follow your lead! "

This result not only shocked the rest of the Dazhou Academy, but even Xu Anshan and Dongfang Yan were a little surprised.

They weren't surprised that the school submitted-as Lin Yi said, there was no reason to give away the meat that was already in their mouth. They could figure out how to eat it, but they wouldn't give it away to someone else.

But they did not expect that Zhao Tianyin, this seemingly hot-tempered person, who in theory was most likely to be stinky and stubborn, would actually be so tactful.

Indeed, you can't judge a book by its cover.

No matter what, with Zhao Tianyin taking the lead in expressing his position, the overall situation of the great Zhou Academy had already been settled.

even if the rest of the people were dissatisfied, they could not cause any substantial waves.

After all, their strength was there. If they didn't get the response of enough people, Xu Anshan and Dongfang Yan could easily suppress them if they wanted to cause trouble with just a few people.

The next thing to do was to take them in.

Lin Yi didn't plan on taking over the entire school, but things were already at this point-he had to keep it firmly in his hands. At the very least, he had to maintain a strong influence over it.

at the moment, there was no way to transfer anyone from Jianghai University to take over the administration through supervision and guidance.

However, in the various key departments of the great Zhou Academy, it was imperative to plant in people like Zhao Tianyin, who understood the current situation and would not be stubborn and think things through.

In this aspect, with the help of Xia Wubing's divine eyes, the operation was naturally successful.

On the other hand, as long as Xia wubing was around, the opposition would be able to sense it immediately if they had any dangerous thoughts.

the difficulty for them to stir up trouble was not only high, it was as difficult as ascending to the heavens.

To a certain extent, Xia wubing's God's eye was the perfect weapon for high-handed rule. Fortunately, Lin Yi didn't have the intention to do so, or the divine Kingdom on land would have an unprecedented tyrant.

lin yi was still meditating, but the situation at dazhou college had already stabilized under the leadership of xu anshan and the others.

from now on, lin yi's group had a real hand in the divine kingdom on land. even if they couldn't send all of jianghai college's forces over, with dazhou college as a pillar, they could still occupy a place in the future.

what lin yi didn't know was that at the same time, ten thousand miles away in the alliance headquarters, a huge event was happening.

The situation was so serious that even the nine big shots of the Supreme Board of Directors were shocked and all of them were present!

it was simple. a chair suddenly appeared at the meeting place of the supreme board of directors.

If this matter fell into the ears of outsiders who didn't know, they would only find it inexplicable.

&Nbsp; it was just a chair. Even if it was made of expensive materials or even God crystals, it wouldn't attract much attention in the Alliance headquarters, much less cause the Board of Directors to move so many people.

However, in the eyes of those who knew the truth, this was no different from an earth-shattering earthquake.

in comparison, even the confrontation between gu jiumu and west rulai did not seem as important.

this level of heavy news could not be hidden at all. the supreme board of directors had no intention of hiding it and announced it directly to the public.

The world was in an uproar.

Zhao Xian, who was in the middle of setting up an intelligence network, called Dazhou college as soon as he received the news. Lin Yi finally woke up from his meditation.

the Supreme Board of Directors has not been fixed since ancient times. At first, there were only five, but it expanded to seven, and it only expanded to nine today 200 years ago.

" as for when it will be expanded and how many slots it will take, these are no longer decided by the big shots themselves. they are decided by the will of the heavens! "

the Supreme Board of Directors used to be sitting on a wondrous rock.

" not only does it contain unimaginable luck, but it also has the ability to see through the secrets of heaven. since ancient times, every change in it means that something big is happening in the world. "

this point has already been verified by countless cases. There is no doubt about it.

" the positions of the big shots on the supreme board of directors are determined by the positions it evolves. five positions means five spots, and nine positions means nine spots. "

" now that there's suddenly an extra seat, it means that a new big shot will be born soon! "

lin yi and the others finally realized the severity of the situation.

the supreme board of directors wasn't just the highest level of authority in the alliance of divine academies. it was also the highest authority in the divine kingdom on land.

Any change in any of the big shots would directly determine the situation of the entire God Kingdom on land!

now that there was suddenly an extra quota, the impact on the current power structure could be imagined.

Not to mention other things, the delicate balance formed between the nine powerhouses would be the first to be impacted.

it would be fine if all parties could maintain their restraint, but once a confrontation like the one just now appeared, once any party chose to advance rashly, it was bound to cause a total chaos.

Chapter 10468

Even in the most ideal outcome, with the Ascension of the tenth Big Shot, there would eventually be a large-scale reshuffle of the forces.

If the situation was not ideal, there would be an all-out Civil War in the God Kingdom on land, and everyone would be dragged into the dark Age again.

"what if the nine of them work together and completely cut off the possibility of a tenth being born?" Lin yi asked after some thought.

the possibility of the nine powerhouses being the same might not appear in normal times. however, if the 10th powerhouse threatened their interests at the same time, under the stimulation of external forces, this possibility might not be impossible.

"that's impossible."

"there was a similar case in the past. when the seven powerhouses expanded to nine powerhouses, the seven powerhouses chose to join forces to suppress them," zhao xian said in a deep voice.

" however, the final result was that five of the seven giants died and one was injured. they almost collectively withdrew from the stage of history. "

it's hard to go against heaven's will. This is a bloody lesson. Even the nine big shots can't disobey it, and they don't dare to disobey it.

Lin Yi and the others were dumbfounded.

zhao xian continued his analysis. " the supreme board of directors is currently having an emergency closed-door meeting. we don't know what they will come up with in the end. however, with the previous examples, i'm guessing that they will still be inclined to accept the rise of the tenth tycoon. "

"However, in the middle of this, each family will definitely have an intense game."

after all, there's only so much meat. If someone comes in and takes an extra piece, they have to give up one piece. As for who will give up how much, there won't be a clear result without a contest.

moreover, the 10th person hasn't been decided yet. If we can help our own people, I'm sure the nine Giants will be very tempted.

"What's your opinion on the candidate for the tenth Big Shot?" Xu Anshan asked.

there are many different opinions, " Zhao Xian replied. the only widely accepted theory is that the birth of every new big Shot represents the direction of the world's power. If the Supreme Board of Directors doesn't absorb them, their power will be limited.

in other words, without the approval of this new big Shot, even the entire Supreme Board of Directors won't be able to succeed.

" the foundation of every big shot's existence is that they each have absolute authority in at least one aspect. "

and this is also the origin of the superpowers 'status.

dongfang yan suddenly interrupted and asked, " " do you know the exact time when the 10th seat of the supreme board of directors will appear? "

zhao xian was stunned for a moment. he thought for a while and said,"It seemed to have happened four hours ago, not long after the confrontation between Gu jiumu and West Rulai."

“.....”

Dongfang Yan and Xu Anshan looked at each other and their eyes fell on Lin Yi at the same time.

Wasn't that the time when he had leveled up twice? was there a connection between the two?

According to common knowledge, the new boss would be extremely strong, at least on the same level as the current nine big bosses. Lin Yi's current strength was still a lot weaker.

Even if he was forced to sit in that position, it would be difficult for him to hold it firmly.

other people wouldn't easily link him to this, but for the two who knew lin yi's past, anything that was connected to lin yi, the more impossible it seemed, the more likely it would be.

When he first came to Jianghai, he was so weak. Who would have thought that he could reach this level? even Xu Anshan, who was born to be an Emperor, could only look up to him.

The matter of monsters could not be judged with common sense.

of course, this matter was of great importance. even if the two of them had a strong premonition, they would not say it out loud.

The walls had ears.

if the nine tycoons heard about this, they'd just scoff at it, but if they really did, lin yi would be in a really difficult position.

lin yi was about to hang up when zhao xian's tone changed."something has happened again!"

everyone was stunned.

Zhao Xian didn't sound so nervous even when it was such a huge matter. Could it be that the Supreme Board of Directors had really started fighting?

"One of my informants has just sent news that Xi Rulai's son, Xi Chenyuan, has gone missing," Zhao Xian said in a deep voice.

Lin Yi and the others looked at each other and raised an eyebrow."Is it related to me?"

Zhao Xian smiled bitterly. before he went missing, he had spread the news that he was gathering people to harm benefactor. In addition, benefactor had a conflict with him before. I'm afraid everyone will think that it was you who did it.

Everyone was silent.

If that was the case, things would indeed be a little troublesome.

"Could it be a self-directed trick by Xi Ruzi?" Xu Anshan frowned.

After all, Xi Chenyuan's identity was no small matter, especially after he'd just been taken advantage of by Lin Yi not too long ago. The security would definitely be raised to the highest level.

at this time, not to mention how many people would dare to provoke xi rulai, even if they had the courage, it would be difficult to have the strength. after all, not everyone could play tricks under the eyes of the big shots.

In comparison, Xi Rulai, who had just been rejected by Lin Yi, had more motivation in this aspect.

Dongfang Yan sat on the side drinking wine and shook his head. "No matter what, Xi Rulai is definitely going to use this as a pretext to make a big fuss. Let's see what he's going to do next."

the atmosphere couldn't help but become a little depressing.

although it was confirmed that gu jiumu was on their side, no one knew how much he was willing to protect lin yi.

with xi chenyuan as a cover, it was perfectly justifiable for xi rulai to attack lin yi again.

If Gu jiumu were to step in and stop them, he would be the one in the wrong, at least in public opinion.

although public opinion was only a weapon that could be used to manipulate the highest-level board of directors, and no one would really take it to heart, if there was already a conflict of interest, this so-called public righteousness would become the best excuse.

normally, gu jiumu would not care about it, but now that the tenth position had appeared, he might not.

Everyone looked at Lin Yi.

Lin Yi didn't show any emotion, his face still calm, "We'll deal with whatever comes our way. No matter what he does next, we'll just take it."

If Lin Yi, who had witnessed the power of the big boss, felt some pressure from Xi Rulai's covetous eyes, then now that he had successfully constructed the life cycle, he had enough confidence.

The nine big bosses of the Supreme Board of Directors didn't seem to be so high and mighty.

sensing lin yi's mental state, xu anshan and dongfang yan, who were a little nervous just now, froze for a moment and relaxed at the same time. they were even a little excited.

Chapter 10469

with a beast like lin yi leading the way, and none of them being nice, what was there to be nervous about?

The one who should be nervous was Xi Rulai!

Having said that, the preparations that needed to be made could not be slacked in the slightest.

everyone immediately sped up the reorganization of the great zhou academy.

there was a limit to the number of elites they could bring out, but dazhou college's foundation and scale were still there. before the army from jianghai college arrived, this was the most important foundation for lin yi's group.

there were many things that could not be supported by just a few top-tier combat forces. if one wanted to truly stand firm, the foundation was the key.

at the same time, the west rulai group had also started to move at full speed. even the entire intelligence community had been mobilized to find out the whereabouts of west earth edge.

Of course, even so, in the eyes of many people, this was probably a self-directed trick by Xi ru.

the reason why he was so ostentatious was nothing more than to put on a full show.

however, gradually, not only did the actions of the west rulai group not cease, but they also became more and more intense at all costs. finally, some people began to realize what was going on.

did yingluo really go missing?

all of a sudden, the focus of public opinion shifted back to lin yi.

If something had really happened to the Western dust edge, he would undoubtedly be the greatest suspect no matter how one looked at it.

everyone was waiting to see xi rulai's reaction.

according to his usual style, although he would always choose according to his heart when facing opponents of the same level or even stronger, he was tougher and more domineering than any other big shot when facing challenges from his subordinates.

Any trace of disrespect, even if it was just a slogan of the lower overcoming the upper, was an unpardonable sin in the eyes of this person.

he should be hacked into pieces!

If it was really Lin Yi who caught Xi Chenyuan this time, he wouldn't be Xi Rulai if he could take it.

however, the result was unexpected.

xi rulai didn't make a move on lin yi directly, but used the alliance's official channel to send a letter to jianghai college as the chairman, telling lin yi to go back to the headquarters and defend himself!

this development was truly shocking.

however, there was no problem with the procedure.

There was no such thing as a common law in the secular world. It was not applicable in the cultivation world where the strong were respected, especially in the divine Kingdom on land. The foundation of all rules and order existed here was to serve the strong.

At any time, as long as there was a need, the Supreme Director could order anyone in the Alliance to return to the headquarters to clarify and defend themselves.

this was clearly written in the alliance's official regulations.

However, most of the time, if the nine Giants wanted something, they just needed to give a little signal and a large group of people would solve it for them. There was no need to use such official regulations at all.

Using the official rules like this, to a certain extent, would make the outside world think that Xi Rulai couldn't control Lin Yi anymore.

If they could resolve the matter privately with their own abilities, they would not have caused the matter to escalate to such a state.

Of course, no matter how much Xi Rulai tried to drag Lin Yi down, they wouldn't think that he'd reached a point where he couldn't even handle Lin Yi.

The most likely scenario was that Gu jiumu, who was standing behind Lin Yi, was giving Xi Rulai too much pressure, forcing him to take this step.

No matter what, this wasn't a good thing for Lin Yi.

Luckily, the Alliance headquarters' letter had to be in the form of an official letter, especially if it was Lin Yi. They had to go through an internal process and have the headquarters personally deliver it to Lin Yi.

and so, there was still some time for lin yi to react.

However, this would not take too long. Once Xi Rulai personally pressured them, even if someone wanted to delay the process as much as possible, it would at most take two or three days.

once the letter was in lin yi's hands, he wouldn't have any more time to delay. he had to leave as soon as possible.

otherwise, he would be disobeying the highest board of directors. at that time, xi rulai would have the right to kill him, and even gu jiumu would not have a reason to stop him.

"So you're saying that we can only use our wits and not force?"

dongfang yan thought for a moment and suggested, " then we should hide for a while. we just have to not let the people from the headquarters find us. even west rulai is so flexible. we should also copy him and learn from him. "

zhao xian smiled bitterly, " the alliance headquarters 'exclusive intelligence network is undoubtedly the strongest in the country. furthermore, there is also the intelligence world controlled by xi rulai. unless you completely withdraw from the divine kingdom on land, you can't hide from their eyes. "

also, once you're found to be intentionally avoiding and delaying, you'll also be regarded as disobeying the Supreme Director.

To put it bluntly, no official rule of the Alliance would leave such an obvious loophole. It was not completely impossible to take advantage of this loophole to go against it.

xu anshan frowned, " but if we can't hide, then we can only follow their rhythm. once we reach the alliance headquarters, we won't have much room to turn things around. "

Outside, with Lin Yi's group's strength, they would have some room to maneuver no matter what trouble they encountered.

But in the Alliance headquarters, under the eyes of the nine big bosses, especially in a situation like this where everyone's eyes were on him, Lin Yi's every move would be crazily suppressed.

When that time came, he would have to pin all his hopes on Gu jiumu.

It was never Lin Yi's style to put his safety in someone else's hands. Even if the other party had just saved his life, they hadn't met officially yet, and the tacit understanding wasn't completely settled.

besides, one may know a person's face, but not their heart.

it wasn't that lin yi was suspicious, it was just being cautious.

Lin Yi, on the other hand, laughed lightly as he looked at everyone's worried faces. there is no need to be so nervous. The Alliance headquarters isn't opened by West Rulai alone. At this critical moment, if we really fight, who knows who will suffer in the end? "

everyone was speechless.

However, after thinking about it carefully, it did make sense.

The barefooted weren't afraid of wearing shoes. Compared to Lin Yi, Xi Rulai was obviously the one wearing shoes. He had far more concerns than Lin Yi!

" alright, let's continue with our own business. don't let our rhythm be disrupted. "

Lin Yi's words put everyone at ease.

Although he didn't say it explicitly, the aura he exuded showed that he had the confidence to fight against Xi Rulai.

although the crowd did not know where his confidence came from, based on past experience, they chose to trust him unconditionally.

in the end, the sky wouldn't fall as long as lin yi was here.

Chapter 10470

Just as Lin Yi and the others were having a conference call, an uninvited guest arrived at Dazhou college.

Eastern Tang Academy's new dean? "

Lin Yi looked at the report that Zhao Tianyin sent up and couldn't help but frown.

Soon, he met Yuan kun in the reception room of Dazhou college.

the newly-appointed dean of the eastern tang academy had actually taken the host's seat.

That was originally Xia Wenqing's seat.

"sir, are you here with bad intentions?"

Lin Yi raised his eyes.

Even though this wasn't his territory in name, as Dazhou college was only an alliance with Jianghai college and they were of equal status, anyone with a little bit of knowledge knew that he was the one in charge here.

everyone in dazhou college, including zhao tianyin, was very aware of this. as for those who were not aware of this, they had either been arrested for causing trouble or had already left dazhou college on their own accord.

everyone felt that this was natural. after all, this was the logic of the strong being respected.

Even if Lin Yi didn't want to sit in the seat Xia Wenqing had cleared out, no one else would dare to.

who would've thought that an outsider would be able to sit on it?

Yuan kun raised his head and smiled at Lin Yi calmly, showing no intention of getting up. "I'm sorry, I came in a hurry and forgot to prepare a gift for you. Lend me a pen and paper, I'll write it for you on the spot."

as he spoke, he spread out a piece of xuan paper and began to splash ink.

lin yi didn't interrupt him, crossing his arms and looking on.

Yuan kun smiled at the sight and quickly pushed the paper in front of Lin Yi.

although the form isn't too formal, since I wrote it myself, it has the same effect. I hope brother Lin doesn't mind.

"new type of alliance invitation?" lin yi glanced at it.

"Let Me Reintroduce Myself. I'm yuan kun, the founder of the new alliance." Yuan kun stood up calmly.

"if you've been following the news, you should know that jianghai college has already joined the alliance of god tier schools. we won't be joining any other alliances."

besides, forgive me for my ignorance, but I've never heard of your new alliance.

Yuan kun laughed, " it's not strange. our new style alliance just held an alliance ceremony yesterday. brother lin, you're an outsider, so it's normal that you're not well-informed. "

"You sure are well-informed, Sir," Lin Yi said, amused.

Although he didn't know why the other party had come to find him, he was sure that the other party knew that the confrontation between Gu jiumu and West Rulai was because of him.

Yuan kun's smile carried a bit of self-satisfaction, we have no choice. There are 600 schools in the alliance. It's not easy for us to not be well-informed.

Lin Yi's eyes twitched.

Six hundred Academies, even if they were just ordinary Academies, were by no means a small force.

no wonder the other party had such confidence in front of him.

if they could really control a huge alliance of 600 academies, even god-ranked academies would not dare to be arrogant in front of them.

After all, when the quantity reached a certain level, it was completely possible to offset the difference in quality.

moreover, the comprehensive strength of some top ordinary academies wasn't much worse than that of god-ranked academies. most of the time, they only lacked in name.

yuan kun looked at lin yi's reaction and continued, as for the divine college Alliance, members are not allowed to join other alliances. The rules are dead, but people are alive. With brother Lin's intelligence and wisdom, I believe that such a small matter won't be difficult for you.

Lin Yi couldn't help but look at him strangely. " are you really that confident in your attraction to the new alliance? "

yuan kun smiled and shook his head. " i'm not confident in the new alliance, but i'm confident in your wisdom. you're a smart person, and you know how to maximize the benefits. i don't think i need to waste my breath. "

Lin Yi looked at the so-called invitation on the table and chuckled,"then i'm sorry, i'm not as smart as you think."

Yuan kun was stunned for a moment before he squinted his eyes. before you give me an answer, how about you listen to the philosophy of the new style Alliance? "

She didn't even wait for Lin Yi's reaction before continuing.

" all along, more than 90% of the resources in the god nation on land have been monopolized by those god-ranked academies. the remaining 3000 ordinary academies can only go and snatch the remaining 10%! "

"do you know how hard it is for us?"

" for a little opportunity that others don't even care about, we have to fight until our heads are broken and even our lives are lost. do you think this is fair? "

" the divine college alliance has the support of the supreme board of directors, while we, ants, have nothing. if we don't unite, we'll never have any chance to turn things around! "

" brother lin, i'm not inviting you on my behalf. i'm inviting you on behalf of the millions of civilian cultivators in the divine kingdom of land! "

I hope that we can work together in the face of those huge and arrogant groups with vested interests. We can fight for the world and our own sky!

his words were impassioned.

But Lin Yi remained unmoved.

he had seen too many ambitious people who used the banner of righteousness. no matter how beautiful yuan kun's words were, it all depended on his actions.

yuan kun observed lin yi's reaction and changed the topic, the above is what I said to the 600 schools. However, brother Lin is a smart person. I'm afraid that it won't have any effect on you.

"then let's say something smart people should say," lin yi said with a raised brow.

"alright," he said.

"I can see that brother Lin is a man with great ambitions. I'm not talented, but I'm also interested in those high and mighty positions." Yuan Kun laughed.

"However, with our own strength, the possibility of us making a name for ourselves under the eyes of those few is almost zero."

"If we want to achieve our own ambitions, we must take advantage of the situation."

As for the new model Alliance, it's the influence that I found for us. As long as we operate properly, we can at least occupy a seat on the Supreme board, even if we can't compete with them.

"When the world changes, we can take advantage of the situation and rush to the top in one fell swoop!"

"I wonder what brother Lin thinks about my explanation?"

These words were said with sincerity, and it seemed like he was speaking from the bottom of his heart.

Unfortunately, Lin Yi remained unmoved.

Seeing this, Yuan kun didn't continue to insist. He stood up and said, I've already said what I needed to say. Brother Lin, you don't have to rush to answer me. I'm here today to make one thing clear. The door of the new style Alliance is always open to you.

After he finished speaking, he actually didn't drag things out at all and directly bade farewell and left.
