

Bodyguard 10471

Chapter 10471

this person is quite interesting. He has a good grasp of his posture. No wonder he could gather such a large force.

Dongfang Yan walked in from the door and exclaimed, " " 600 academies. they're all formidable figures. the divine kingdom on land is indeed full of hidden dragons and crouching tigers. "

First, there was Xia Wenqing, and now, there was Yuan kun.

He'd only said a few words, but the pressure he gave Lin Yi was no less than Xia Wenqing's.

to a certain extent, it was even better!

xu anshan frowned and looked at lin yi, " "this person has a hidden agenda, he can't be trusted,"

emperor xu anshan never spoke nonsense.

since these words came out of his mouth, it meant that it was not purely about his personal likes and dislikes, but that he really did have a reason.

Lying to the Emperor was a sin. Although his Emperor's aura could not directly see through everyone's mind like the divine eye, it was enough to easily determine the truth.

he would immediately notice if anyone lied to him.

Lin Yi looked at Xia wubing.

His child eyes had integrated into the new world. Although in terms of degree of utilization, it was clearly more important to use it in the New World, it was not so convenient for him to use it personally.

xia wubing was the real expert in this field.

xia wubing shook his head. " he must have used some special tool. his divine eyes can only see through a mist. "

she couldn't help but take another look at lin yi as she spoke.

When she used her God's eye to look at Lin Yi, the result was the same.

"Yeah," Lin Yi nodded, "he's definitely prepared for this since he's here so openly. It's not weird."

no matter what, there was one thing he could be sure of. this person had come with ill intentions.

On the surface, it looked like they were here to extend an olive branch, but in reality, they were just trying to lure Lin Yi and the Jianghai college into this trap.

it didn't matter how nice it sounded, lin yi, jianghai college, and dazhou college were all pawns in his eyes, just like the other six hundred schools.

lin yi walked to the desk and looked at the so-called invitation card. he suddenly smiled.

"What's wrong?"

dongfang yan and the others were stunned.

lin yi reached out his finger and tapped on the word, and a shadow appeared-it was yuan kun.

It wasn't just an image, either-it even smiled apologetically at Lin Yi.

"i'm sorry, i didn't mean to eavesdrop on your conversation. i just suddenly thought of something and felt that i need to remind brother lin."

the hero Academy and the eternal river Academy have both clearly expressed their intention to join our new style Alliance. In the future, we will all be on the same side. I hope that brother Lin will take the big picture into consideration and show them mercy.

"Now that the situation has changed, brother Lin seems to have run into a little trouble. If you don't mind, you can look for me anytime."

"That's all I have to say, we'll meet again."

The image disappeared, and no one spoke for a long time.

After a long time, Dongfang Yan faintly said, "This guy is really a bit flirtatious."

everyone agreed.

this sudden turn of events was indeed a spine-breaking move.

Hmph! Xu Anshan snorted. they're here to offer an olive branch in name, but in reality, they're here to issue a declaration of war. They've directly taken over both the hero Academy and the eternal river Academy. What a big appetite!

Although Jianghai college alone could not take on all the defeated colleges in one go, be it hero college or eternal river college, there was no doubt that they were like the great Zhou college in the eyes of the public.

even if i can't take it all for myself, it's up to me how i want to distribute it.

without my consent, you directly put your chopsticks into my bowl. that's an out-and-out provocation!

yuan kun's actions had undoubtedly crossed the line.

However, this was indeed a difficult problem for everyone.

the biggest threat right now was xi rulai. if they provoked the new alliance with six hundred schools, no matter how confident lin yi and the others were, they wouldn't be able to do what they wanted.

At least from an outsider's point of view, it was not a wise move to make enemies on both sides at this time.

However, it wasn't Lin Yi's style to back down.

Lin Yi smiled nonchalantly at the troubled looks on everyone's faces. actually, there's nothing to be conflicted about. If those two colleges can eat, then eat. If they can't eat, then they'll think of other ways. As for the new alliance, didn't Yuan kun want to pull us into the Alliance? "

"Hehe, it's time for him to show his sincerity,"

everyone's eyes lit up.

in the end, xi rulai's pressure was too great, making them subconsciously afraid. if it wasn't for this, they wouldn't even need lin yi's advice. they would know what to do.

After all, both Xu Anshan and Dongfang Yan were domineering people.

if they were to fight one on one, it was hard to say if yuan kun's aura could suppress them.

it wasn't wise to go against the new alliance at this point, but wasn't it a risky move to go against lin yi and the others at this time?

Not to mention that Lin Yi group was extremely strong, and it was a tough bone to chew.

With Lin Yi's spotlight effect alone, the new style Alliance would inevitably become the focus of public opinion once they reached that point, completely exposed to everyone.

For a newly established Alliance, especially a new alliance that was under the banner of a commoner's counterattack, although exposure itself wasn't a bad thing, it was definitely not a good thing to attract the attention of the big shots too early.

one wrong move and they would die young.

So, once Lin Yi and the others decided to be tough, the opponent's most likely choice wouldn't be to fight them head-on, but to avoid them.

Yuan kun had chosen to come at this time for this purpose!

Seeing that everyone had come back to their senses, Lin Yi said, "The Queen and the guards unit will arrive at their designated location tomorrow. We should get moving too."

When everyone heard this, they immediately became excited.

when they first came up with this plan, they all thought that lin yi's courage was boundless.

They didn't plan to swallow one school first, but to make arrangements for three failed schools at the same time!

no matter how he looked at it, this plan was like walking on a tightrope. if anything went wrong, he would immediately lose the whole game and it was extremely dangerous.

The average person really couldn't understand why he had to take the initiative to pull the pace to such a full extent when he was clearly not forced to that extent.

But now, it seemed that if they really wanted to stand firm in this ever-changing situation, Lin Yi's decision wasn't the best, but it was definitely the one that had the highest chance of reaching the top.

Chapter 10472

Unless they were content with the status quo and were willing to become a brick for the Alliance of God-tier Academies, willing to become the vassals of those big shots, Lin Yi's decision was their only choice.

However, this path was also destined to be filled with thorns and extremely difficult!

xu anshan was silent for a moment and suddenly said, " "If you lose this time, then it'll be my turn to lead Jianghai Academy forward."

"i don't mind," lin yi laughed.

In the past, there were all kinds of conflicts between the two of them, so they didn't have much contact with each other and didn't know each other well.

now that they were on the same side, although they still didn't have much to say to each other, the two of them had already formed a deep understanding.

In the whole of Jianghai Academy, the one who understood Lin Yi the most wasn't his teacher and friend, Banshi Luo, nor was it Shen Yifan's group of brothers. It wasn't even his close female friend, Tang Yun. It was him, Xu Anshan.

after all, they were essentially the same kind of people.

At the same time, Lin Yi was the one who understood the natural-born Emperor the most in the entire school.

It was precisely because he understood Xu Anshan that he was willing to give his back to him unconditionally. Xu Anshan was not the person he had the closest relationship with in the Academy, but he was the person he trusted most.

This was not only because of the other party's character, but also because he trusted the other party's strength.

If one day, Jianghai college really fell into a desperate situation, it would be the Emperor, Xu Anshan, who would lead the college out of it, if not Lin Yi!

just as lin yi and the others were getting ready, xi rulai, who was the focus of the public, received an important report.

The source of the report was from Lord an, who had met Lin Yi's group before.

"We can confirm that the young master is in Lin Yi's hands."

Looking at the final conclusion of the report, Xi Rulai fell into deep thought.

Everyone thought that he was going to kill Lin Yi in order to regain his power.

when he called lin yi back to the headquarters to explain himself, it was a little hard to accept, but if he really did make up his mind, no one would think that lin yi had any chance of living.

no matter how much he belittled xi rulai's style of doing things, even if his habit of following his heart had become a hot topic on the streets, he, xi rulai, was still an out-and-out giant.

If a Big Shot made up his mind but couldn't even touch an Academy, then if this came true, the entire understanding of the divine Kingdom on land would collapse!

However, this determination was not easy to make.

Before he could find out the true relationship between Gu jiumu and Lin Yi, Xi Rulai wouldn't make a move so easily.

Among the nine big bosses of the Supreme Board of Directors, the one that he feared the most was none other than Gu jiumu, who was silent but extremely powerful.

Xi Rulai wasn't even that afraid of the publicly acknowledged number one person on the Board of Directors. As the saying goes, a dog that bites doesn't bark. If Gu jiumu were to make a move, he would really kill him.

Previously, when he and his opponent had confronted each other in the air, they had seemed to be on par on the surface, and neither of them had suffered any losses.

However, in reality, he was suppressed the entire time and could not even lift his head. He had almost no power to resist.

If the other party didn't stop at the right time, then it wouldn't be as simple as just losing a bit of face. At the very least, it would be a serious injury.

Even though they were all top directors, the gap between the big shots was much bigger than people could imagine!

What if Gu jiumu exploded again after he made a move on Lin Yi?

Some things could only be done once, but not again. The first time was just a warning, but the second time, he would have to get serious.

Even if he, Xi Rulai, had always been flexible, he would never be willing to throw his face as a Big Shot on the ground and step on it unless it was the last resort.

Besides, sometimes it was not as easy as admitting defeat.

however, lin yi had to deal with it. in the current situation, if he let lin yi live for one more day, his face would be damaged!

if he didn't do anything, the world might even think that he'd really lowered his head to lin yi.

While he was pondering, one of Xi Rulai's most trusted advisors took the initiative to say, "If it's just because of Lin Yi, you don't have to be so angry, master. This guy has some skills, but it's not to the point where he's a threat to us,"

Xi Rulai shook his head, "a mere Lin Yi is nothing to worry about, but this concerns Gu jiumu. To be honest, I'm a little scared." &Nbsp;

if word of this got out, it would definitely cause a huge uproar.

Although Xi Rulai was not as good as Gu jiumu, and this was a fact that everyone knew, public opinion was one thing, but it was another to hear it from his mouth.

however, it was also because of this that he didn't lose his fierce and ambitious character.

If he couldn't be compared, then he couldn't be compared. Xi Rulai would never forcefully slap his face until it was swollen to act fat for the sake of his so-called face. He wasn't straightforward and upright, but at least in this kind of matter, he had always been open and honest.

To an existence at the level of the nine big shots, it was definitely not an easy task to be able to do this.

And this was precisely where Xi Rulai's charm lay.

The advisor laughed, "with Gu jiumu's current power, who wouldn't be afraid of him in the entire divine Kingdom?" It's just that some people are stubborn and aren't as open and honest as the patriarch."

This sentence hit Xi Rulai's itch.

our focus is on Lin Yi, but our real target is Gu jiumu. However, Gu jiumu is not our enemy, and there are many people who are more afraid of him than us. Why don't you try it out with the number one person?" the advisor continued.

"you mean wufu is borrowing power?"

Xi Rulai's eyes lit up.

if it was just him alone, he would not dare to go against gu jiumu. but then again, gu jiumu's rise to power had impacted him the most, not him, but the number one man!

Although on the surface, that person and Gu jiumu seemed to be at peace, even those who were not involved could see that there was an undercurrent under the table.

the other big shots who were also members of the supreme board of directors naturally felt this more deeply.

If there was a chance to suppress Gu jiumu, regardless of the attitude of the others, the number one would not let it go easily.

he, xi rulai, had to fight against gu jiumu alone. his strength was not his heart, but if he could borrow the power of the number one person, it would be a different result.

Moreover, the reason why the number one person was the number one person was not just because of his strength, but also because he had a group of invincible allies.

in the supreme board of directors alone, the faction led by the first person was undoubtedly the absolute majority.

in this aspect, gu jiumu could not even hope to catch up to him.

With Xi Rulai's shrewdness, there were many things that did not need to be explained. As long as he gave a little hint, he would naturally know what to do.

Chapter 10473

immediately, the west rulai group's huge network of connections began to operate.

According to the established rules, even if they were from the same faction, the big shots would not easily come into contact with each other.

on the one hand, it was due to the public's influence. the conspiracy theory that the supreme board of directors had taken control of the resources to suppress the ordinary academies had always been rampant. if the nine giants had private meetings from time to time, the billions of people in the divine kingdom on land would not even be able to sleep well.

On the other hand, it was also to maintain his independence.

Even if they were from the same faction, there were often times when the interests of each other were not the same. If they really got too close in private, some words could not be said so easily.

therefore, the communication between the big shots had to be done through the spokesperson below.

In this aspect, the West Rulai group, which controlled almost the entire intelligence world, had a natural advantage.

even if that number one person's power wanted to communicate with the other big shots, it wasn't easy. but he, xi rulai, could.

very quickly, xi rulai received the news.

The other party agreed.

Xi Rulai was overjoyed and immediately activated his network without hesitation. Since he had the permission of that person, he could directly contact all the big shots in his faction!

In other words, from this moment on, how to deal with Lin Yi wasn't just Xi Rulai's family's problem, but the entire faction's problem.

If Gu jiumu still wanted to protect Lin Yi, he'd have to think twice-he'd have to pay such a huge price for Lin Yi.

everything was ready. xi rulai was in high spirits and submitted the request to start a meeting without hesitation.

according to the rules of the supreme board of directors, only three people had the power to initiate a meeting. if the others wanted to initiate a meeting, they had to go through the application process.

he, xi rulai, was not one of the three.

however, since he had the permission of the first person in advance, there would naturally be no problem with the application process.

sure enough, the application process was approved as soon as it was submitted. in just an hour, the nine big shots appeared on the supreme board of directors at the same time.

Unlike the usual regular meetings, where the contents of the meeting could be made public and a group of senior executives would be allowed to attend. This time, it was a completely closed-door meeting.

The smaller the closed-door meeting, the more it would determine the direction of the big event.

for a time, all the institutions could smell something unusual.

A storm was coming.

dear board members, " Xi Rulai said directly, " Jianghai Academy has illegally taken control of the great Zhou Academy. In fact, it has even involved the use of human lives to nourish the divine eye. This has already violated the spirit and regulations of the Alliance.

everyone, please take a look. This is the evidence I just obtained. It's infuriating.

as he spoke, a series of photos and videos were presented in front of every big shot.

Gu jiumu's eyelids drooped slightly. These were all solid evidence, and Xi Rulai didn't need to cheat to obtain these things.

Especially now that Xia Wenqing was dead, he was forcefully pinning all the blame on Lin Yi and the Jianghai college. It wouldn't be easy for anyone to refute him.

The truly brilliant part was that everyone knew that the reason he wanted to deal with Lin Yi was for his son, Xi Chenyuan.

but he didn't say a word.

after all, this was a private matter. if he didn't have any concrete evidence, he wouldn't be able to hold his ground and gu jiumu would be able to suppress him with a single sentence.

But now, Xi Rulai didn't even mention it and firmly grasped the Alliance's regulations.

With that, even if Gu jiumu wanted to speak up for Lin Yi, it would be hard to break out of the situation.

only evidence could deal with evidence. but now that everything had happened so suddenly, even with gu jiumu's power, it was impossible for him to produce enough evidence to oppose them.

If he didn't have any evidence and tried to defend Lin Yi, he wouldn't be able to achieve anything substantial. The point was that the other party was prepared, and it wasn't something he could just talk back to. They might even find a loophole, and he'd be at a disadvantage.

don't forget, the number one person had been eyeing him covetously for a long time.

After a vehement speech, Xi Rulai's face was filled with heartache."everyone, our alliance was established to protect this land! The Alliance of God-tier Academies will not tolerate Lin Yi and the Jianghai Academy!"

"i propose that we expel jianghai college and take lin yi down on the spot!"

As soon as he finished speaking, one could hear a pin drop.

The few big shots who had already talked to each other before were not surprised at all.

Everyone's eyes quickly fell on the first person.

Xi Rulai didn't have the power to forcefully initiate a meeting, nor did he have the power to vote. He only had the power to propose.

in order for his plan to work, he would have to get an absolute majority from the board of directors. the final power would be in the hands of the number one person, kong shenglin.

kong shenglin's long and narrow eyes flickered with a terrifying glint.

"Then let's start the voting."

as soon as he finished speaking, xi ru was the first to respond, "it's not enough to appease the public anger if we don't punish him!"

immediately after, three other big shots responded.

all of them had a close relationship with kong shenglin, and it was their existence that supported kong shenglin's authority.

there were only nine people in the supreme board of directors, and there were already four votes in favor of the proposal. even if the rest of the board of directors voted against it, kong shenglin, who had yet to officially say anything, would definitely vote in favor of the proposal.

At this moment, the fate of Lin Yi and the Jianghai college was sealed.

Since opposition was meaningless, the remaining few big shots naturally wouldn't find trouble for themselves, and they quickly voted in favor.

After all, once they became the rejected minority, their own authority would more or less be affected.

Six votes in favor.

in the end, there were only three people who had yet to express their opinions. the first person to vote was kong shenglin, who was most likely to vote against gu jiumu. as for the last person, it was chu hantian.

the three of them were the real big shots who stood at the top of the board of directors.

they were the only ones who had a series of rights as a big shot, including some extremely overbearing privileges.

as for others like xi rulai, although they were also big shots, they only had partial rights in the strict sense. they didn't have any special privileges that could really decide the direction of the overall situation.

because of this, the attitude of these three people was particularly important!

Chapter 10474

"It's my turn?"

chu hantian's gaze swept across everyone's faces, especially between kong shenglin and gu jiumu. he even stopped for a moment.

After a while, Chu Hantian finally said, "I give up."

everyone was speechless.

Naturally, Chu Hantian was not on Kong shenglin's side.

the chu clan used to be the most powerful clan in the country. however, they were forced to split up. even the previous clan leader died in the internal strife of the clan, which caused them to suffer a great loss. they had not recovered until today.

however, a starving camel was still bigger than a horse. even though the chu clan had gone downhill, they were still able to firmly hold a seat on the highest board of directors.

Especially after Chu Hantian's sudden appearance, not only did the Chu clan stop its decline, but it even showed signs of revival!

this naturally led to the suppression of kong shenglin, the number one figure.

after all, even though he didn't directly intervene in the chu family's internal strife back then, he had single-handedly planned it. to put it bluntly, he was the one who had personally dismembered the chu family.

in the entire board of directors, if there was anyone who would challenge kong shenglin's authority, it would be chu hantian.

On this point, even Gu jiumu had to step aside.

however, this did not mean that he was in an alliance with gu jiumu.

although they had a common enemy, kong shenglin, and similar interests on many major matters, they also had huge differences.

while chu hantian was against kong shenglin, he would not take the initiative to speak up for gu jiumu.

forfeiting was his attitude.

thus, all eyes were once again focused on gu jiumu, waiting for the final reaction of this true big shot.

gu jiumu slowly opened his mouth and spat out two words, "denied."

"....."

everyone was in an uproar.

It was not an objection, but a denial!

the expressions of the group of big shots were wonderful.

Although these two words had the same meaning, they had completely different meanings in the Supreme Board of Directors!

an objection was just a normal vote. in the end, it would only be counted as an objection vote. if the objection vote could not reach an absolute majority, the objection would be invalid. the final result would still be passed normally and implemented in the name of the supreme board of directors.

a veto would directly veto the entire voting result!

in other words, no matter what the result of the vote was, as long as gu jiumu used his one veto vote, the entire voting process would be invalid!

it was no exaggeration to say that one veto vote was the supreme privilege given by the supreme board of directors.

its existence could allow the individual will of a big shot to override the collective will of the supreme board of directors!

at first glance, this privilege sounded too overbearing and even unreasonable. to a certain extent, it would greatly affect the order of the supreme board of directors.

However, in reality, this was the Supreme Board of Directors, and even the foundation of the Alliance of divine Academies!

For the Supreme Board of Directors, the most unbearable situation wasn't the fact that they couldn't come to an agreement during their internal meetings.

The worst thing was that after it gave an official resolution, it would not be truly executed.

That would be the most serious blow to his authority!

therefore, in order for the supreme board of directors to maintain their supreme authority, they had to win over those who could actually veto the final decisions.

among them, the most important ones were naturally these extremely powerful top-tier giants.

the existence of the supreme board of directors could be explained in one sentence: all the top bosses were in agreement.

If any of the top bosses disagreed with any of the issues, then the issue would not be passed by vote.

Because as long as they were determined, even if the meeting voted for it, the top leaders could rely on their individual strength and influence to forcibly veto it on a material level.

In order to avoid confrontation between these top Giants, the Supreme Board of Directors gave them the power to veto.

the existence of this privilege regulation had caused countless disputes and discussions since ancient times.

to this day, there were many people who were seriously dissatisfied with it and even went to spread the news that they wanted to abolish it.

it was just that these people with real power in the divine college alliance collectively chose to ignore this.

in fact, almost all the wise people in the country were dissatisfied with the divine college alliance, but they agreed from the bottom of their hearts with the official privilege regulation of one veto.

This was because they knew very well that it was not the Supreme Board of Directors who had given these bigshots special privileges. Instead, it was these bigshots who had given the Supreme power to the Supreme Board of Directors!

once the top leaders chose to go to war, the supreme board of directors would fall apart instantly, and the entire kingdom of god on land would fall into an endless abyss that was like an apocalypse.

No one could afford to pay that price.

having said that, just as there were only three people who had the right to vote by force, there were only three people who had the right to veto.

kong shenglin, gu jiumu, and chu hantian.

As for the other top board members like Xi Rulai, although they were also recognized as big shots, they were still far from being able to overrule the collective will by themselves.

in fact, according to the membership system of the supreme board of directors, only those who had the power to veto the decision would be invited.

in other words, in theory, every newly joined big shot would be given a veto vote.

However, the problem was that any individual or force would rise and fall, and there would always be a time when their strength would shrink.

the supreme board of directors was a pure authority, and the so-called qualifications were of no use here.

However, in order to save the face of the big shots and to reduce unnecessary disputes, the Supreme Board of Directors did not set up an exit mechanism at the beginning of its establishment.

in theory, once a big shot, he would be a big shot for life.

however, although the weakened big shots wouldn't be kicked out of the supreme board of directors, they would have their veto power taken back.

otherwise, once the one-vote veto power, which did not live up to its name, existed in large numbers, the supreme board of directors was bound to fall into endless wrangling in meetings, and then be substantially paralyzed.

That was why there was the difference between the so-called big shots and top-tier big shots.

there were nine big shots, and only three of them were true top-tier big shots.

the meeting room fell silent.

everyone knew that gu jiumu would defend lin yi, but they didn't think that he would do it to this extent!

Gu jiumu did have the power to veto, and as long as he said the word, he could remove the Board of Directors from suppressing Lin Yi.

Chapter 10475

however, even for the top giants, a veto vote was not something that could be used easily.

just like how the supreme board of directors had to give the top big shots a veto vote in order to maintain their authority, the top big shots had to ensure the actual effect of their veto vote in order to maintain their authority!

Once a veto vote was used, the top bigshots had to use their own strength to execute it to the end.

however, if the veto privilege was activated during the meeting, the authority of the individual would be severely damaged if they could only allow others to repeatedly do as they wished after the meeting.

If such things happened too many times, it was even possible that they would be unanimously determined to be weak, and then they would be deprived of one veto vote, and they would be removed from the ranks of the top Giants!

Since you're out here, I said I'll kill your whole family, so I'll definitely kill your whole family.

Although this sentence was very crude, it did reveal the essence of the power of the pugilistic world.

therefore, every time he used a veto vote, it was an out-and-out risk for the top giants.

heavy weapons should not be used lightly, this was the common understanding of all the big shots.

In order to protect Lin Yi this time, Gu jiumu had given his all, even though he only said two words lightly!

not only were the others surprised, even chu hantian, who was one of the top leaders, looked at gu jiumu with a meaningful gaze.

Because of the existence of Kong shenglin, who was their common enemy, he and Gu jiumu were naturally allies.

however, because of their past disputes, if they really wanted to form an alliance, they would face great resistance.

therefore, all this time, the two sides had no more private contact except for some tacit understanding on some major matters related to the situation.

In his impression, this potential ally had always been extremely cautious about the use of the veto.

according to past statistics, gu jiumu was the one who had used his veto power the least out of all the top powers.

"This Lin Yi, he's quite interesting,"

chu hantian remembered the report that master chu gave him. it mentioned that he was paying close attention to lin yi, and even suggested that house chu should recruit him before the other big shots made their move.

Although Chu Tianhan had a headache when it came to his solitary niece, he had always trusted her judgment of people and matters.

gu jiumu's actions had completely piqued his interest in lin yi.

At the same time, Xi Rulai, who was the initiator of the actual voting, was choked to the point that his face turned black.

his xi family also had a glorious time and once had the power of veto. every time he saw these top giants use their privileges, his heart ached.

Not to mention that Gu jiumu had stepped on his face!

However, while his face was ugly, Xi Rulai was also pleasantly surprised.

From the beginning to the end, his target had never been Lin Yi, but Gu jiumu.

gu jiumu's actions were indeed domineering, but at the same time, it also revealed a huge flaw.

usually, when he was hiding his strength, he was naturally invulnerable. however, this time, when he used his one veto vote, he took the initiative to show the target.

If he was alone, he would not dare to act rashly.

It was a pity that Gu jiumu wasn't going to face him alone. He was going to face the strongest faction of the Board of Directors led by the number one person, Kong shenglin!

At this moment, Xi Rulai could clearly feel the anger of his allies.

Gu jiumu's actions were not just a slap to the face of West Rulai, but the face of the entire faction, including Kong shenglin!

Everyone's eyes fell on Kong shenglin.

"if that's the case, let's move on to the next topic," the number one man of the present age said lightly.

At least on the surface, he didn't show any dissatisfaction from being slapped in the face.

the powerhouses were not surprised.

The one veto vote was the core interest of all the top Giants. Unless they had completely fallen out with each other, as long as anyone used it, at least in official procedures, the other top Giants would definitely maintain its authority and legitimacy.

otherwise, they would be the ones to suffer.

of course, what he said on the surface was one thing, and what he did in private was another.

Although Gu jiumu had blocked the possibility of them using official methods to kill Lin Yi, he couldn't do anything about what they were going to do privately.

Unless he was willing to use his Gu family's core power to protect Lin Yi at all costs, Lin Yi's chances of survival after being pushed to the point of no return were close to zero.

However, in that case, the Gu family would have to face the entire strongest faction head on.

even if it wasn't an open battle and was just a battle hidden under the water, it was definitely a stupid decision. the people of west rulai couldn't ask for more!

unfortunately, based on their past knowledge, gu jiumu was not that stupid.

" the next topic is about the candidate for the 10th seat. "

as soon as kong shenglin finished speaking, the elders looked at gu jiumu with a playful gaze.

faced with the sudden appearance of the 10th position, the powerhouses were unable to stop it, so they could only go with the flow.

Strictly speaking, even if they didn't do anything, the fate of the 10th giant would eventually come here.

however, this didn't mean that the big shots had no room for manipulation.

Heaven's will was difficult to go against, but it was also unpredictable and could change at any time.

As long as the operation was in place, it was entirely possible for them to make their own people sit in the tenth position and become the tenth Big Boss of the Supreme Board of Directors!

This was naturally very difficult to do. After all, not just anyone could gain the favor of heaven's will, and not just anyone could be on equal footing with these big shots.

However, if they succeeded, the returns would be so great that everyone, including Kong shenglin, would be tempted.

According to the results of the last meeting, Gu jiumu would be in charge of giving out a list of recommendations for the trial seats, and the Supreme Board of Directors would vote on it.

at first glance, this gave gu jiumu a huge advantage.

After all, the public could only vote on the name list provided by the recommendation. They did not even have the right to nominate people who were not on the recommendation list.

however, in reality, the final decision was still in the hands of the supreme board of directors. to be more precise, it was in the hands of the most powerful faction led by kong shenglin.

Only by getting their approval could the name list be released.

As for the list of recommendations that he had given, Gu jiumu could not possibly veto it with one vote!

Chapter 10476

in this process, everyone could justifiably and continuously reject gu jiumu's name list until they were satisfied, and this would undoubtedly be a huge drain on gu jiumu's personal authority!

especially at this moment, he had just exercised his right to veto, and everyone was waiting for him to take the initiative to present his face!

"this is the list of recommendations i've drawn up, please take a look."

Gu jiumu projected the name list in front of every Big Shot.

everyone couldn't help but raise their eyebrows.

for a long time, no one spoke.

It wasn't that Gu Jiumu's recommendation list was too outrageous, but that the list was too perfect. It was based on the power of each family, and it perfectly took into account the benefits of everyone present.

It was not an exaggeration to say that unless the crowd did not want to create a list, Gu Jiumu's answer was the perfect answer.

There was no other.

Xi Rulai, who had gathered all his strength and was ready to object, felt as if he had punched cotton and almost spat out a mouthful of blood.

He was really determined to object, to get back at Gu Jiumu for trampling his face on the ground. But the problem was, when faced with the recommendation list, even he himself could not bear to object.

The candidates that were related to him were exactly the ones he had in mind, and none of them were lacking!

He wasn't the only one. All the other big shots present had the same feeling.

This list of recommendations was so perfect that none of them had the heart to object to it.

once they opposed the list, it was equivalent to opposing their own interests. no matter what changes were made to the subsequent list, there would definitely be dissatisfaction.

No one, including Xi Rulai, wanted to be the unlucky one to suffer losses after the list was changed!

Chu Hantian looked at everyone's complicated expressions and broke the silence with a chuckle, " the older the ginger, the spicier it gets. Uncle Gu is indeed an expert in grasping people's hearts. This list is amazing.

he had not expected that such a difficult and thankless task could be handled by gu jiumu to such an extent.

it was a simple name list, but it caused everyone to suffer internal injuries.

this wasn't just brilliant, it was simply divine!

Kong shenglin looked deeply at Gu jiumu. The more he acted this way, the more he had to be wary of this old man!

in terms of style, chu hantian was far more overbearing than gu jiumu. the number one man in the world, chu hantian, had also clashed with him more often than gu jiumu.

Whether it was the mainstream opinion or the Kong family, everyone believed that Chu Hantian was a greater threat.

in comparison, gu jiumu, who had always kept a low profile, was much gentler in the eyes of the crowd, and his threat was naturally much smaller.

only kong shenglin himself felt a sense of danger when facing this person.

He knew better than anyone else that if one day, his title as the number one in the world changed hands, it would not be replaced by the overbearing Chu Hantian, but Gu jiumu, who had a deep foundation that even he could not measure, but had always kept it hidden.

however, it was also because of this that he could not let the other party pass the recommendation list so easily.

kong shenglin's eyes swept across the room, and xi rulai immediately jumped out.

"why is lin yi's name on it? He's not even a golden class full master yet-it's an insult to everyone else if he's on such an important list, and it'll make the world look down on us, the Board of Directors!"

this was the only loophole that xi rulai could grasp.

Although the recommendation list was only for these people to try out the 10th position, they were still thousands of miles away from the real 10th position. However, no matter what, these people could indeed be seen as potential candidates for the 10th position.

with Lin Yi's level, especially the level he showed on the surface, it was a bit abrupt to appear here.

When Xi Rulai said this, the other big shots from the same faction immediately agreed.

Gu Jiumu's list of names had indeed scratched their itch, but if they did not pick on it and passed it by vote, they would not be able to face it.

Of course, they couldn't pick on their own people, but only those on the list who belonged to Gu Jiumu's line.

Lin Yi, who was at the heart of the storm, was the perfect opening.

Gu Jiumu was not surprised at all, and he said, " " a person's current strength and realm are not necessarily related to whether he can sit on the 10th position. "

Everyone was speechless.

for a moment, he was unable to refute.

these words did sound very contrary to common sense at first glance. if one wanted to become the tenth big shot, then one must have the corresponding strength. if one did not have enough strength, they would not be worthy of sitting in this high position.

even if he was forcefully helped up, he was destined to be unable to sit still.

however, gu jiumu's words were not unreasonable. instead, it was a true portrayal of the big shots on the board of directors.

This was because a Big Shot represented Supreme status and powerful strength. There had always been a saying that they were going to be big shots.

the most experienced and powerful alliance executors, the outstanding deans of the various divine ranked academies, as well as the famous face-ups of other forces were all frequent visitors on the list of so-called big shots.

however, none of the current powerhouses, especially kong shenglin, gu jiumu, and chu hantian, had ever made it out of the list of so-called 'quasi-powerhouses'!

The three of them were not popular candidates in the beginning. Instead, after silently accumulating power, they each grasped a wave of opportunities and soared to the sky, directly surpassing the other big shots!

according to xi rulai's logic, the three of them would not have the chance to try sitting.

no matter how clear and logical it seemed, at least from the result, xi rulai's reason was not valid.

To be precise, it was Bullsh * t.

xi rulai choked, but before he could organize his words, gu jiumu continued.

"If you guys don't agree, you can vote to get rid of Lin Yi. I have no objections to that."

"but before that, there's something i need to remind you all of."

" although the recommendation list only provides a trial seat, from a logical point of view, there is a high possibility that the tenth big shot is not on the list. "

however, if that were to happen, it would be a huge blow to the authority of the entire Supreme Board of Directors.

if some ambitious people see some kind of signal or misunderstand because of this, I won't be the only one who will suffer losses. Every Supreme Director here will suffer losses.

"That's all I have to say. You can make your own decision."

Everyone fell into silence again, especially Xi Rulai and this group of ordinary big shots with lower strength. They couldn't help but frown.

the will of the heavens could not be disobeyed. the appearance of the 10th giant was unstoppable.

If this person were to rise up in the wild, even if he successfully joined the Supreme Board of Directors, it would definitely damage the authority of the Supreme Board of Directors.

On the other hand, if a person on the recommendation list successfully became a Big Shot, it would send a strong signal to the outside world that everything was still under the control of the Supreme Board of Directors.

at that time, those ambitious schemers would have no choice but to continue to lie low.

And this was clearly the situation that everyone wanted to see the most.

however, strictly speaking, the entire board of directors would benefit from that situation. however, to the three most powerful people who naturally stood at the top of the pyramid, there was not much difference.

after all, they were the ones who gave the supreme board of directors the power. to them, the supreme board of directors was just a platform for them to release their power.

If one day it didn't work, he could just scrap it and build a new one.

however, to ordinary powerhouses like xi rulai, the meaning was completely different.

once the authority of the supreme board of directors was damaged, they would be the most affected.

If they were unable to continue suppressing the Restless heroes from all sides, the world would be in chaos and a wave of reshuffling would happen. It would be difficult to say whether these people could still retain their positions as the big shots.

Chu Hantian sneered at this scene.

Even he could see through the subtle thoughts of the crowd, let alone an old fox like Gu jiumu who was good at reading people's minds.

with kong shenglin's presence, the strongest faction had the advantage in numbers. many times, even a top bigshot like him was forced to retreat.

However, in terms of pure scheming, even if all of them were to join forces, they would still not be a match for Gu jiumu.

Seeing that the attitudes of the other big shots had changed, Xi Rulai naturally wouldn't continue to be stubborn. In this aspect, he had always been very clear.

"since you're trying to protect him, i have nothing to say, but if lin yi makes a fool of himself, it'll be embarrassing for the gu family."

In the end, Lin Yi was taking Gu jiumu's spot on the list, and it didn't affect the other houses "benefits.

The main thing was that everyone was afraid of triggering the whole list-if they had to start all over again just for Lin Yi, they'd be the ones to suffer the most.

Otherwise, he would not have let this matter go so easily.

the ball returned to kong shenglin's feet.

however, the number one man of the present age was not prepared to pursue this matter. he wanted to suppress gu jiumu, but he did not want to be so petty.

"in that case, it's decided. next topic."

Seeing this, the group of big shots revealed a playful expression.

Only Gu jiumu's eyelids were heavy.

Kong shenglin was not a magnanimous person. As long as he had his eyes on a target, none of them had ever been able to escape unscathed.

He'd let Lin Yi go so easily not because he didn't care about him, but because he didn't want to use the official route anymore. He wanted to bypass the Board of Directors and deal with Lin Yi in private.

Anyone with eyes could see that this was the time when he and Gu jiumu were at their most intense. The two families had already rubbed each other's faces several times, and the smell of gunpowder had already been ignited.

it was just that neither of them had enough confidence in each other, so they had been trying their best to restrain themselves.

now that lin yi had appeared out of nowhere, and gu jiumu was trying so hard to protect him, from another perspective, wasn't he just putting him on fire?

The most amazing thing was that he was not a core figure of the Gu family.

In other words, even if Lin Yi died halfway, house Gu wouldn't really fight for him. After all, it wasn't their core interest.

suppressing lin yi would also greatly affect gu jiumu's authority. to kong shenglin and the others, lin yi was a perfect target!

the supreme board meeting had yet to end, but rumors had already spread.

The strongest faction had already issued a kill order on Lin Yi, saying that they wouldn't let him return to the Alliance headquarters alive!

After all, Jianghai college was new to the Alliance, and as the school's representative, even the strongest faction that Kong shenglin represented wouldn't let anything happen to him in the Alliance headquarters.

after all, they would be slapping their own faces.

but on the other hand, if something happened to lin yi outside, it would have nothing to do with them.

at that time, they would at most send out a trivial notice and let the alliance security bureau go through the motions. in the end, they would just leave it be, and no one would be able to pick on it.

From this moment on, the longer Lin Yi wandered outside, the more danger he was in.

The Kill Order from the strongest faction was no joke. Once they got serious, even the Alliance Security Bureau might not be able to compete with them.

don't forget that many of the bosses in the alliance security bureau were under the command of the strongest factions. some of them were even direct descendants of their families!

all of a sudden, the entire divine kingdom on land started paying attention to lin yi's position.

everyone was guessing if lin yi could make it back to the alliance headquarters alive. to him, this was the only safe zone in the entire divine kingdom.

At the same time, Lin Yi was leading his men to the eternal river Academy.

He wouldn't let go of the eternal river Academy and the hero Academy so easily. He'd be the one to suffer if he didn't take what the heavens gave him.

"Something's not right!"

Xia wubing, who was moving with him, suddenly sounded the alarm.

She wasn't a weak fighter to begin with, and with the God's Eye, Lin Yi wouldn't waste such a powerful aid.

Lin Yi raised his left hand, and the group behind him stopped.

other than xu anshan and dongfang yan, the rest were elite experts from dazhou college who had been specially selected.

Although the Dazhou Academy had not yet reached the point where the People's hearts had completely submitted to it, after a period of reorganization, the people who had remained had basically seen the situation clearly.

On the surface, Lin Yi's group was still strong, but they were forced by the situation and had no choice but to obey.

but thinking from another perspective, if lin yi and the others didn't help, they would all be xia wenqing's meat leeks now, repeating the tragic fate of being mercilessly harvested. thinking about it this way, they didn't resist joining lin yi's side that much.

lin yi and the others looked at each other, admiration in their eyes.

other things aside, the quality of the dazhou academy's elite experts was indeed excellent. even though this was their first time working together, they could clearly feel the tacit understanding of the team.

as expected of the super academy that once had a rich history.

Even the current Jianghai University was far from being able to match up to such an invisible foundation.

With either Xu Anshan or Dongfang Yan leading the team, they would be able to reach the height of the ACE team in a very short time.

At the end of the day, what the great Zhou Academy had always lacked the most was a tyrannical figure who could truly stand up and take charge of a region, other than Xia Wenqing.

and Lin Yi didn't lack monsters like that.

Through Xia Wubing's shared vision, Dongfang Yan tilted his neck with interest. "So many people? It's quite a scene, isn't it?"

Xia Wubing's divine eyes could see many Supreme realm experts, and many of them were even golden class full cultivation Venerables!

Such a lineup was something that even the veteran divine ranked academies couldn't come up with.

As for those ordinary schools, they didn't even need to think about it.

"These people aren't from the eternal river Academy," Xu Anshan said in a deep voice.

although he had never come into contact with the eternal river academy, he had carefully studied the information provided by zhao xian before he set off. he might not have a complete grasp of the situation at the eternal river academy, but he at least had a basic idea.

Not only was there a huge difference in the number of people, but even the most famous fighting forces of the eternal river Academy were not included.

"they are not friendly."

lin yi chuckled as he jumped, appearing in front of the army in the next second.

immediately after, a familiar figure that he had met once before appeared in front of him."Strictly speaking, brother Lin, you guys are the ones who came."

The person who had come was Yuan kun.

"We're meeting for the second time so soon, it seems like we're fated." Lin Yi raised his eyes.

yuan kun laughed. " we are indeed fated. if brother lin is willing to join our new style alliance, then this fate will be even better. i have a strong feeling that if you and i work together, we will definitely be able to achieve great things. "

"I'm not as far-sighted as you are, Sir. I only know that you have to eat the meat that's right in front of your mouth, or it'll be a waste." Lin Yi wasn't interested.

yuan kun looked troubled. " brother lin, you're making things difficult for me. i think i've already told you that the eternal river college has agreed to join our new style alliance. "

"You did say that, but what does that have to do with me?" Lin Yi nodded.

Yuan kun smiled helplessly. if we want to fight against a powerful force with benefits, we have to do our best to unite everyone. Just like brother Lin's Jianghai college, the eternal river college is an indispensable and powerful help to us.

other things aside, at least the last sentence was the truth.

Compared to the other God-ranked Academies in the Alliance of God-ranked Academies, the eternal river Academy, which had just reached the threshold, could only be considered ordinary.

However, for the other ordinary Academies, any Academy that could reach the threshold of a God-ranked Academy and obtain the opportunity to compete for the opportunity to enter the Alliance was already an existence that stood at the top of the pyramid. It was enough to trample on 99% of the ordinary Academies.

an alliance of ordinary schools like the new style alliance might seem powerful, but in the past, eternal river college might not have even taken it seriously.

After all, in terms of raw power, there was a clear gap between the ordinary schools and their eternal river college.

It was only because they had failed in the competition to join the alliance and suffered the backlash of luck that the people of eternal river Academy had no choice but to put down their arrogant airs and agree to join the new alliance.

otherwise, if yuan kun wanted to pull them into the alliance, the difficulty wouldn't be any lower than pulling in a true god ranked academy. with the eternal river academy's arrogant nature, it might even be a bit harder!

lin yi didn't think much of it, " to you, the eternal river academy is a helping hand. but to me, it's just a piece of meat. that's all there is to it. if you think you can get rid of us with a few empty words, then you're looking down on our school. "

Yuan kun suddenly laughed. brother Lin, please don't misunderstand. Although I think highly of myself, I'm not so arrogant as to think that I can persuade you with just a few words.

"After all, that's something that even Xi Rulai, one of the nine big shots, can't do."

" i came here today to wait for brother lin. i just wanted to show you my attitude. i have no other intentions. "

lin yi looked at the thousands of supreme realm cultivators, "So, this is your attitude?"

Yuan kun looked at Lin Yi, his eyes full of meaning. "What do you think, brother Lin?"

if it was an ordinary person, not only would they be scared off by such a formation, but they would also feel some pressure.

it was a pity that lin yi was used to fighting people of a higher level than him and winning with fewer people. this scene didn't give him any pressure at all, but only made him more excited.

some people were born for grand occasions.

The pressure and challenges would only make them stronger!

Lin Yi's eyes flashed with fighting spirit as he slowly raised his right hand. Xu Anshan and the others, as well as the elites of Dazhou college, were all ready to attack.

Although there was a huge difference in numbers, even these experts from the Dazhou Academy did not feel the slightest bit nervous.

Wrapped in an invisible aura, their breathing rhythm was completely in sync. It was as if they had become a team of aces with full tacit understanding!

they didn't know what technique Lin Yi used, but they were extremely excited at this moment. they were even addicted to it!

Yuan Kun's eyes twitched.

Since he had established the new alliance, he had naturally done in-depth research on the outstanding students of ordinary colleges like the Dazhou college.

in his past knowledge, although the Dazhou college had a strong foundation, its average strength was not even comparable to some of the legitimate god-ranked colleges, let alone ordinary colleges.

however, because of the lack of face battle strength, they still lacked the spirit to face the other ace battle teams.

to put it bluntly, there were strong soldiers, but no fierce generals!

But now that she was under Lin Yi, this weakness was completely covered and she even became the strongest link!

lin yi had already poured all of his energy into the team.

The chemical reaction formed by the combination of the two caused Yuan kun's heart to palpitate even though the two sides had not officially fought yet.

he had the support of 600 colleges in the new style alliance. although few of these ordinary colleges were good enough to be listed, once they were gathered together, they could be said to have a high income.

especially with his training, yuan kun had the confidence to fight with any of the ace teams in the world to the end!

naturally, he had absolute confidence that he would be able to crush lin yi's group of elites under his feet!

Chapter 10479

But the problem was, with the strength Lin Yi and the others displayed, even if he could win in the end, he would have to pay a big price.

Yuan kun's grand ambitions had just begun. How could he lose the capital he had painstakingly accumulated in such an insignificant place?

the two sides were ready to fight, but just as they were about to do so, yuan kun suddenly spoke again.

"Brother Lin, you might have misunderstood. I didn't bring them here to stop you from attacking the eternal river Academy."

yuan kun's tone changed as he helplessly spread out his hands, " my intentions are the exact opposite. i'm here to help brother lin. this is also another meeting gift i'm giving you. "

"....."

Lin Yi couldn't help but re-evaluate the man. This sudden turn of events surprised him.

he had guessed that the other party had ulterior motives, but he had never thought that the other party would do such a thing.

Even if he was betraying his teammate, he didn't have to do it in such a way, right?

Lin Yi's eyes were probing, you just said that the eternal river Academy has agreed to join your new style Alliance. Aren't you afraid that your other allies will be disappointed by your actions? "

" i don't want to lie to you, brother lin, " yuan kun said with a smile. " there's a lot of internal debate in the new style alliance about the joining of the ganges college. "

"Oh?"

although the strength of the Ganges college is impressive, and if they join, it will indeed be a big boost to the overall strength of the new style Alliance, you have seen the way they do things, brother Lin.

Lin Yi said.

There was no need for the other party to continue, he could already guess what had happened.

With the eternal river Academy's arrogance, they would try their best to make their presence known even in the Alliance of God-ranked Academies. As for the new style Alliance, which was a "civilian organization" formed purely from ordinary Academies, once they joined, it was completely normal for them to overshadow the host.

"although i've shown enough sincerity," yuan kun said in a playful tone, "to the leadership of the eternal river college, it doesn't seem like they're here to join our new style alliance. they're here to lead us."

Lin Yi was speechless.

it had to be said that this was indeed the style of eternal river academy.

Therefore, it was easy to imagine the attitude of the new model Alliance.

it was obvious that there were very few rational people who were willing to give up their leadership in order to strengthen the new alliance.

at this rate, yuan kun, as the founder and actual leader of the new model alliance, would have sold out the eternal river college.

after all, he was the one who had been directly challenged by the eternal river academy.

By relying on the resentment he had accumulated, even if he sold out the eternal river Academy, he wouldn't lose much prestige. On the contrary, he might even gain more support!

Other things aside, just in terms of aggro-pulling, eternal river Academy was truly a unique existence.

"That's true, but there's a piece of meat right in front of you-you're really just going to let me have it?" Lin Yi said with a playful look.

yuan kun laughed lightly. " they have at least shown their intention to join the alliance. although their table manners are too unsightly and have incurred public anger, if we swallow it all in one go, it will ultimately affect the perception of the other academies who are still observing. "

the new style Alliance has just been established, and it's at the stage of building a good reputation. We can't do such a stupid thing.

" but to brother lin and the others, it's a different story. with jianghai academy's position, it's only natural for you to take over ganges academy. no one can say no to that. "

" as long as brother lin agrees to join the alliance, the stronger the jianghai institute is, the stronger the new style alliance will be. i'm happy to see that happen. "

His words were logical.

Lin Yi laughed,"I'm afraid you're not telling the whole truth, are you?" You're afraid that the eternal river Academy will overshadow the host, but aren't you afraid that my Jianghai Academy will take over the host's place?"

The atmosphere suddenly froze.

yuan kun was silent for a moment. " to be honest, brother lin, i do have some doubts about this. however, the overall situation is more important. as long as we can accomplish the great cause, personal gains and losses are ultimately trivial. "

"Furthermore, I believe that brother Lin is a truly smart person and knows how to control the situation."

"in addition, i have some confidence in my family's strength,"

while the two of them were talking, both sides were in a state of mutual hostility, and a great battle could break out at any time.

It wasn't until Lin Yi slowly lowered his right hand that the tension between them eased up.

But at this time, a group of people suddenly appeared from the back, and the three in the lead were in front of Lin Yi and Yuan kun in an instant.

the newcomers were the masters of the eternal river academy, and harlin was among them.

"lin yi, we meet again. it seems like enemies are bound to meet on a narrow road."

harlin sneered and spoke first.

lin yi couldn't help but be surprised.

with the loss of the previous freshman battle, the other party, as the person in charge, would have to take the blame no matter how he looked at it. especially this time, the eternal river academy had really put in a lot of money. even if harlin didn't directly be held accountable for his crimes, he would definitely lose his right to speak within the eternal river academy.

however, looking at the situation, it seemed that his position in the eternal river academy had not been affected.

this was also a talent!

"It's true that seeing me isn't a pleasant thing for you guys," Lin Yi replied with a smile.

"is that so?"

Harlin's face darkened, and then he sneered, "The freshman battle was won by you as a fisherman. However, that wasn't because you were strong, but purely because you were lucky. None of our clans took you seriously."

"the tables have turned. now that you've successfully attracted our attention, you don't still think you have the chance to steal a chicken, do you? "

Lin Yi looked at Yuan kun and smiled, "you're so fearless. it looks like you've indeed found a backer. "

harlin sneered back, "you're really a frog at the bottom of a well!" with the strength of our eternal river academy, what need is there for us to find a backer? If we're talking about backers, we're the backers. It's always been other people rushing to rely on us!"

yuan kun's face turned black on the spot.

lin yi's eyes were wide open.

As expected, the world was full of wonders. In the face of such a confident guy, he didn't even need to set a trap and incite disharmony. The other party had already set himself up.

in fact, they might even complain that your pockets weren't tight enough and ask you to tighten them again.

sure enough, as soon as harlin's voice fell, the other man who came with him said loudly, " "with the strength of our eternal river academy, we'll be a supreme existence in the new style alliance. why do you think so many people are here today? It's to express their utmost respect for our eternal river Academy!"

Chapter 10480

"that's right, we can also ambush you bunch of idiots as a congratulatory gift to welcome us into the alliance!"

The few of them spoke one after another, their voices getting higher and higher. In the end, it was clear that the new style Alliance was extremely sincere. Everything they did was to invite the eternal river Academy to be the leader of the Alliance.

Didn't you see that the position of Alliance leader of the new type of Alliance was still empty?

lin yi didn't know what to say.

it wasn't strange for a weirdo to appear, but for weirdos to appear in a group, especially when the entire academy was filled with such weirdos, it was truly inconceivable.

The most outrageous thing was that such a Strange Academy with such a strange gathering of weirdos could actually survive until today. It had even risen all the way and almost entered the Alliance of god tier Academies. This was really puzzling.

Lin Yi came to a conclusion after a long while.

Perhaps it was because this group of people was too strange and their actions were too absurd that the truly large forces did not take them seriously. That was why they could live until today.

Lin Yi couldn't help but pity Yuan kun as he looked at him.

This guy actually wanted to pull the eternal river Academy into the Alliance. Even if he only wanted to make use of them, it was not easy to deal with this group of people.

after harlin and the other two finished boasting, he turned to yuan kun and said, " "president yuan, so many people are waiting here to ambush this lin. now that the prey has taken the bait, what are you all waiting for?"

"you have to be decisive. since you want to show your sincerity, you can't make mistakes in such details!"

"You're talking so much nonsense with him here. If it causes a misunderstanding and our Academy suspects that you're not sincere enough, what will you do?"

his words made yuan kun go into a daze.

From the beginning, he had only used the eternal river Academy as a cover, and had never really thought of letting these guys join his new alliance. With his shrewdness, feigning civility was also his strength.

however, meeting such a group of weirdos, even he felt a bit of regret for the first time.

any normal person would have vomited blood when dealing with this bunch of people!

however, even though the way eternal river academy did things was strange, since they were able to get to where they were today, they must have their own survival philosophy.

harlin then changed the topic. " as long as the new style alliance is sincere, the eternal river academy will naturally not be stingy. a key to the burial ground is the gift we have prepared for you to join the alliance. "

the key to the burial ground!

yuan kun's eyes immediately lit up. this was a peerless opportunity that even he had been longing for!

the reason why he had tried to win over the eternal river academy was because he had used them as a cover, but also because he had wanted the key to the burial ground.

Lin Yi's eyes twitched.

he had studied the general information of the divine kingdom on land, so he naturally knew about this burial ground, which was known as one of the four forbidden lands.

fundamentally speaking, the burial ground was the same as the ancient battlefield, they were both part of the secret realms of gods.

however, due to the unique environment, it was difficult to reach it through normal means. in addition, it was extremely dangerous inside. even a golden class full master would have a 90% chance of dying, so it was called a forbidden area.

However, great risks often represented great benefits.

everyone who could walk out of the ancient battlefield alive would have a qualitative improvement in their essence, energy, and spirit. if an expert didn't go to the ancient battlefield, it was hard for him to be considered a true expert no matter how high his cultivation realm was on the surface.

similarly, the legendary burial ground of the gods also represented a huge opportunity for many people.

however, if one wanted to enter the boneyard, they had to obtain the key to the boneyard. otherwise, no matter how strong they were, they would have no way to enter.

However, the Boneyard key wasn't a natural creation. It was an artificial product created by the geniuses of the Alliance's technology development Bureau after studying the Boneyard's environment.

the key was that due to various restrictions, the number of keys each year was strictly regulated, and it was always used by the internal members of the alliance. it was very rare for it to flow outside the alliance.

because of the low number of people, it was extremely difficult for even the internal members of the alliance of divine academies to fight for a key to the burial ground. as for people outside the alliance, they had no chance at all.

for an outsider like yuan kun, the only way to obtain the key to the burial ground was to buy it from the alliance's internal members.

however, in this case, the price would definitely be raised to a sky-high price, and there were very few people who had the key but had no interest in the burial ground.

under normal circumstances, yuan kun wouldn't even have the chance to buy it.

As an ordinary college outside of the God-ranked college Alliance, the reason why eternal river college was able to obtain a key to the burial ground was because of the powerful connections behind them.

to put it bluntly, although there were weirdos everywhere in the eternal river academy, and even the temperament of the entire academy was somewhat abnormal, there were also many amazing and talented people who had come out of it.

many of them had left the eternal river academy and entered the various departments of the alliance headquarters.

Although these people had no relationship with the eternal river Academy objectively, they would still help them in the dark.

It was also because of these natural connections that the eternal river Academy could reach its current level.

Other things aside, at least in terms of resources, eternal river college was far better than the other ordinary colleges.

Among the ordinary colleges, only the Dazhou college, whose ancestors were once glorious and had a deep foundation, could compete with them.

The key to the burial ground in the hands of the eternal river college was most likely controlled by their internal connections in the Alliance's technical development Bureau.

no matter what yuan kun had planned before, at least the moment he heard about the key to the burial ground, he did show a certain degree of wavering.

Obviously, Harlin and the others had also noticed this.

lin yi shook his head silently. the fact that the eternal river academy was able to get to where they were today showed that they weren't all brainless. at least when it came to putting in their capital, they had some courage.

In the current situation, if Yuan kun led the new type of Alliance to change sides again, with the strength of the school itself, it would be difficult to take them down with just the people Lin Yi brought.

if things were not handled properly, more than half of the dazhou academy's elites and experts that had just been incorporated would die here.

For the current Lin Yi group, this was obviously an unbearable price.

harlin looked at yuan kun and snorted coldly, "my eternal river college has already shown its sincerity. what is dean yuan still waiting for?" i'll say this first, you're not the only one who wants this key to the burial ground. if you can't show equal sincerity, we'll give it to someone else!"
