

Bodyguard 10481

Chapter 10481

lin yi wanted to laugh, "if you guys take out the key now and throw it in his face, he might really be tempted."

the reason why yuan kun was unmoved was simple. he didn't trust the empty promises of the eternal river academy.

In terms of making empty promises, if the eternal river Academy claimed to be second in the world, no one would dare to claim to be first.

it was a pity that no matter how good their plan was, it would be useless if they couldn't eat it in the end.

In this regard, the eternal river Academy had a lot of past records.

it was not the first or second time that they drew a wonderful promise to lure others to do things for them, but in the end, after the task was done, the promise was not fulfilled.

even if he did manage to honor it a few times, he would have to return the favor.

the end result was often that you worked hard for him, but the reward was still 30 - 70.

Don't misunderstand, you can only get 30%, and 70% is the Commission of the internal staff!

if you don't give this 70% commission, you won't even get the remaining 30%, and in turn, you'll be sued for not keeping your word!

if not for this, with the strong and natural connections of the eternal river academy, as long as they acted a little more normally, they would definitely be able to call for hundreds of responses among the vast number of ordinary academies. yuan kun wouldn't even have the chance to set up this new alliance.

yuan kun also knew the inside story, so although he was tempted, he didn't take any action.

Hearing this, Harlin still looked arrogant. "my eternal river academy has never gone back on our words. the key to the burial ground is an opportunity that you can only come across by luck, but the chief of the alliance's technology development bureau is one of our people. we can have as many keys to the burial ground as we want!"

"going back on your word for a mere bone burial key, dean yuan, aren't you underestimating the face of my eternal river academy?"

even lin yi was speechless, let alone yuan kun.

There were too many points of criticism, and it really made people speechless.

when did your eternal river academy have any face?

The Alliance Development Bureau was an organization on the same level as the Alliance Security Bureau. Every current director was not only an important member of the Alliance Executive Committee, but also regarded as a quasi-Big Shot in public opinion!

Although it was rare for a quasi-giant to be promoted to a giant, this in itself was enough to show the importance of power and status.

Such a crucial position was something that even an ordinary giant like Xi Rulai couldn't get his hands on. It would only be firmly held in the hands of the three top Giants.

To put it bluntly, only the core members who had the absolute trust of the three top-tier big shots could sit in such a position!

no matter how talented you were, you were from the eternal river academy, and you could only work for others and be the head of the technology development bureau. no one else would even dream of it!

What's more, the key to the burial ground was such an important opportunity that even the current director of the Alliance's technology development Bureau didn't dare to give it to others in private.

what f * cking get as many pixiu as you want

if it wasn't for the fact that the eternal river academy had always been like this, yuan kun would have suspected that the other party was deliberately insulting his intelligence.

Yuan kun immediately understood Lin Yi's intention after seeing his cold eyes. He shook his head helplessly.

"it's not that i don't trust your eternal river academy, it's just that i haven't seen much of the world, especially a treasure like the key to the burial ground. if i don't see it with my own eyes, i won't have any confidence."

"brother ha, if you can take it out now and let me see it with my own eyes, i promise i won't say anything else!" yuan kun said in a very humble manner.

"You're really petty,"

harlin and the other two from the eternal river academy looked at each other, and with a wave of his hand, an ancient key made of crystal jade appeared in his hand.

Lin Yi and Yuan kun's eyes lit up.

alright, I've seen what I need to see. Now, it's time for you to do your job, right? "

harlin turned around and put away the key to the burial ground.

as expected, yuan kun was moved. he immediately raised his palm and said, "get ready!"

as he spoke, the thousands of supreme realm cultivators behind him stood up and released their auras.

lin yi's side was naturally the same, but the elites from dazhou college behind him all had cold expressions on their faces. under the subtle influence of the world's will, their auras had become one!

the two sides were ready to fight.

harlin and the other two masters from eternal river academy immediately showed a proud expression.

"Lin, there's a way to heaven, but you refuse to take it. There's no Door to Hell, but you have to barge in!"

"since you're already so lucky, then you should just obediently eat that piece of dog shit. why did you have to come to my eternal river academy and act so arrogantly? do you really think you can do whatever you want with your little strength?"

"In the face of true strength, your luck is nothing!"

at this moment, harlin was really fearless.

This place was right in front of his eternal river Academy's Gate. The elites of the school had already gathered and were waiting for orders. Now, there were thousands of Supreme realm experts from the new style Alliance. He really did not know how to lose!

Although he wasn't strong, he wasn't weak in his eyes.

not to mention, he had two true masters with him, both of them golden class full venerables.

on his own, he might have misjudged the situation, but it was impossible for the two beside him to also run off course, right?

"Yeah, I'm a little scared," Lin Yi said with a smile.

" hehe, no need to be so sarcastic. you'll soon know what the iron fist of justice is! "

harlin said embarrassedly, " we've known each other for a long time. don't say that i didn't give you a chance. if you kneel down and kowtow to me three times now and bring me the little girl who followed you, i can be extra kind and give you a chance to surrender. "

lin yi blinked as he remembered who the girl was.

the queen.

"the queen's expression would be very interesting if she heard that, and you'd end up even more interesting!" lin yi didn't know if he should laugh or cry.

Harlin's eyes lit up, 'she's a Queen? that's even more brutal!"

"Is that so?"

lin yi's aura suddenly exploded. " although it's indeed fun, as a partner, i'm very angry about your dirty thoughts about desecrating her. "

“.....”

harlin didn't even have time to make a sound before his entire body turned into ashes, leaving no residue behind.

It all happened so suddenly that the two yellow Class full Venerables didn't even have time to react before Lin Yi sacrificed Harlin to heaven!

even yuan kun, who had been mentally prepared for this, couldn't help but feel his eyelids twitch.

he didn't even see how lin yi did it!

Chapter 10482

he could easily kill someone like harlin, but he couldn't do it to lin yi's level where people couldn't even understand him!

"You're looking for death!"

The two yellow Class full Masters were furious.

Harlin's status in the eternal river Academy was extremely special. The two of them had followed him here this time with the most important mission to protect him.

In the end, Harlin had self-destructed right in front of their eyes!

if they couldn't bring lin yi's head back today, they wouldn't have the face to go back to the eternal river academy. even if they did, they'd be severely punished!

although the eternal river academy was full of prodigies, and these two had always been unconventional in their thinking, their strength was real.

Even among the same level of Yellow Class full master Venerables, the two of them were definitely above average.

at this time, they were in a rage and exploded with all their strength. even yuan kun also retreated without a trace, afraid that he would be affected by the aftermath of their indiscriminate attack.

however, with just a flash of black light, the two complete yellow venerable's bodies came to a sudden stop. in the next moment, they were both cut in half at the waist and broke into four pieces. they were dead.

he was dead.

This time, Yuan kun's eyelids didn't just Twitch.

Lin Yi's instant kill on Harlin, even if the process was a bit confusing and impressive, only made him a bit more alert and more aware of Lin Yi's threat.

but now, two yellow class full circle venerables of the same level as him had been killed in a single move. the terrifying pressure that was so close to him made even his scalp go numb!

although lin yi didn't point the spear at him, yuan kun had a strong feeling.

If he had been the one who had been attacked, he would have been seriously injured, if not dead!

In his original evaluation, Lin Yi was strong, but there was still a gap between them.

if not, he wouldn't have tried to pull lin yi into the alliance.

The reason why he had this idea was because he had the confidence to completely suppress Lin Yi in terms of strength. Otherwise, he'd be stupid to bring such an unstable factor into the new alliance!

But now, with the two golden class full Masters being killed in one move, Yuan kun lost all confidence.

yuan kun couldn't help but feel a chill down his spine as he looked at lin yi, who had retracted his aura and was now looking completely harmless.

He was starting to regret it.

Lin Yi was far more difficult to deal with than he thought!

At this time, there was an additional group of people in the new model Alliance's camp.

These were the experts of the eternal river Academy!

He'd said all that on purpose, not only because he had a weird personality, but also to numb Lin Yi.

Although the higher-ups of the eternal river Academy were weird, they weren't stupid.

on the contrary, their control of critical situations was far more accurate than that of ordinary people.

Yuan kun and the new type of Alliance were fence-sitters, and they knew that it was unrealistic to expect Yuan kun to take the initiative to kill Lin Yi for them.

therefore, they had to use their actions to force yuan kun to take action!

The strategy of the eternal river Academy was very simple. As long as they mixed their people with the thousands of Masters of the new style Alliance, they could cut off the possibility of Yuan kun changing sides at the last minute.

If they attacked Lin Yi, he would definitely drag the new model Alliance into this mess!

in the current situation, the simpler the strategy, the more effective it would be.

This in itself could not be considered wrong.

If they all split up, Lin Yi wouldn't be able to make a move easily when it was hard to tell them apart.

Otherwise, if there was an accidental injury, the people of the new style Alliance would definitely launch a counterattack. Even Yuan kun might not be able to suppress them, and if that happened, they would really go along with the other party's wishes.

unfortunately, the higher-ups of the eternal river academy had miscalculated one thing.

Yuan kun and Lin Yi had reached a tacit understanding to deal with them from the beginning.

their plan was indeed very well thought out. once the matter was settled, even if yuan kun wanted to go back on his word, it would be impossible.

However, at this critical juncture, the Masters of the eternal river Academy had already entered the new alliance formation, but they had not had the time to completely disperse!

Lin Yi's sudden attack caught them off guard!

"Kill!"

Lin Yi's simple word became a nightmare for everyone in the eternal river Academy.

Behind them, Xu Anshan and Dongfang Yan immediately rushed out like tigers, leading a group of elite experts from the Zhou Academy into the formation and crushing the panicking experts from the eternal river Academy.

on the way, thousands of masters of the new style alliance, who should have blocked their way, took the initiative to move aside under yuan kun's instructions.

not only did they not cause any resistance to xu anshan's group, but they had completely surrounded the eternal river college and blocked all their escape routes.

he was too smart for his own good.

The higher-ups of the eternal river Academy would never have thought that their ingenious plot would actually send them to their deaths.

The encirclement before their eyes was something that they had deliberately planned and forced their way in!

The people of the new style Alliance were already unhappy with them. They had already suppressed their anger when they let them in just now. Now that they had received Yuan kun's permission, even if they didn't directly attack the people from the eternal river Academy, they wouldn't let them break out easily.

Under such circumstances, no matter how strange the Ganges College's higher-ups' thoughts were, they didn't dare to rashly attack.

the people of the new style alliance were just watching and didn't intend to attack directly.

however, if they took the initiative to attack, especially if they caused any casualties in the process, the thousands of masters of the new style alliance who had already surrounded them would definitely join forces with xu anshan and the others to kill them from all sides!

No matter how arrogant the people of the eternal river Academy were, they didn't dare to imagine what would happen to them if they fell into such a situation.

Therefore, the only choice left for them at this moment was to face Xu Anshan and the others who were charging straight in!

At this critical moment, the people from eternal river Academy knew that they had been played, but they didn't panic. Instead, they laughed in anger!

"This is interesting! they really think we're pushovers, don't they?"

Although they had the idea of using the new type of Alliance to deal with Lin Yi group from the beginning, it was only to minimize losses and to clear some obstacles for him to take over the new type of Alliance.

If someone interpreted this strategy as them not being strong enough and not daring to fight head-on with others, then they would be stupid!

Since his eternal river Academy had the qualifications to compete for the Alliance, it meant that they already had the strength to rival God-ranked Academies.

they had absolute confidence in facing any academy head-on!

Chapter 10483

"You only sent so few people to die, and you're still hiding in the back and watching? Arrogant to this extent, if you don't die, who will?"

The leaders of the Ganges school looked at Lin Yi, who was still standing there, and smiled coldly.

If Lin Yi was the one leading the main force of the Jianghai Academy, they might have been a little worried.

But now, not only was Lin Yi not coming out, even the people he sent out weren't the main force, they were just a motley crew from the great Zhou Academy. They wanted to destroy the eternal river Academy with this?

What do you want to eat!

although they were suffering from the backlash of luck, because they had invested too much in the past, the degree of the backlash was far more severe than the other families.

But this didn't mean that anyone could ride over their heads!

with a loud bang, the elite group of experts from the great zhou college, with xu anshan and dongfang yan as the arrowhead, pierced straight into the battle formation of the eternal river college like a halberd.

hundreds of supreme realm cultivators had formed two unparalleled meat grinders, crushing each other in an extremely primitive and cruel way!

A life or death battle of this scale and level was rare even in the divine Kingdom where experts gathered.

although the masters of the new style alliance who were guarding the periphery had an absolute advantage in numbers, they couldn't help but be frightened at this time.

although their realms were not bad on the surface, apart from the advantage in numbers, their average strength was not inferior to the main forces of the two academies in the chaotic battle.

after all, it was a powerful lineup of 600 academies. even if the strength of ordinary academies was limited, with such a large number of people, their lineup was still enough to make any god-ranked academy feel intimidated.

however, the lineup on paper could be piled up, but the solid foundation of the team battle was not something that could be piled up just because they wanted to!

Yuan kun's eyes narrowed at the sight.

as the founder of the new type of alliance, he had high hopes for the 1000-man team that he had painstakingly gathered. after all, this was an important capital for him to achieve his ambitions in the future.

However, the impact of the battle in front of him made him feel a little cold.

Without years of continuous training, it would be impossible for the people under him to reach the level of the great Zhou college and the eternal river college.

the key was that whether it was the great Zhou college or the eternal river college, although they had a deep foundation compared to the ordinary colleges, they were still a huge gap from the true god-ranked colleges, especially the recognized first-class schools in the god-ranked college alliance.

at this moment, Yuan kun's original perception that he could sweep away all the god-ranked academies collapsed with a loud bang!

putting everything else aside, if his group of people were to go up against those top schools, even if they still had the absolute advantage in numbers, the final result was very likely to be an instant collapse.

not to mention the biggest enemy he expected of the new alliance, the alliance security bureau.

Thinking of this and looking at the tragic situation of the two sides killing each other, Yuan kun's mind could not help but waver.

"It doesn't seem to be what you expected."

lin yi chuckled.

As he spoke, he had already locked Yuan kun in place. If there was any movement, he would immediately bombard him with a fatal blow.

yuan kun smiled helplessly. " brother lin, you're being too careful. since i've already joined forces with you, i won't go back on my word. it won't do me any good. "

"is that so?"

"i think it's better to be careful," lin yi said noncommittally."after all, caution is the parent of safety."

Although Xia wubing's divine eyes couldn't see through the other party's thoughts, it didn't mean that he couldn't see through people's hearts.

From the beginning, the other party's mind had been wavering.

Whether it was him or the eternal river Academy, in the eyes of the other party, they were both worthy partners, but at the same time, they could be abandoned at any time, used as bargaining chips for a deal with another party.

If Lin Yi didn't act decisively and kill the three, the other party might not have just stood by and watched!

In fact, even now, Yuan kun and his new type of Alliance had not completely given up on the idea of joining forces with the eternal river Academy.

The group from the eternal river Academy was indeed surrounded and couldn't break out easily. But from another point of view, weren't the elite experts of Dazhou College led by Xu Anshan and Dongfang Yan also heavily surrounded?

the moment yuan kun changed his mind and ordered the new type of alliance to attack xu anshan's group, the situation would instantly turn for the worse!

As such, Lin Yi's most important task right now wasn't to lead the charge, but to look after Yuan kun.

if it had been before, yuan kun wouldn't have been afraid of him, even if they were extremely close.

but after seeing lin yi kill the three in seconds, yuan kun didn't dare to act rashly.

even now, he still didn't believe that lin yi had the ability to kill him in an instant. but if they really fought, he wasn't sure if he could escape unscathed.

although ambitious people often liked to put everything on the line, a qualified ambitious person would never take unnecessary risks.

therefore, yuan kun tactfully chose not to move.

he had to choose between lin yi and the eternal river school, and standing on lin yi's side didn't conflict with his original plan.

However, what happened next made him feel a little regretful.

In his expectations, even if the eternal river Academy's retreat route was blocked, their overall strength was still there. Even if they lost to Xu Anshan's group in the end, it would definitely be a lose-lose situation.

However, after a brief stalemate at the beginning, Xu Anshan and Dongfang Yan decisively seized the opportunity and directly broke into the heart of the eternal river Academy's battle formation!

The group of eternal river Academy's experts were helpless against the assault of the two.

To be precise, no one was his match!

If someone could stop the two of them, then the eternal river Academy could at least drag on a little longer.

Unfortunately, Xu Anshan and Dongfang Yan's advance was like two hot knives accurately stabbing into butter. The elite group of experts from Dazhou College behind them took advantage of the situation to attack. The battle formation of eternal river college was dismembered into three pieces on the spot!

More importantly, the current principal of the eternal river school was killed by Xu Anshan on the spot!

The army was defeated like a landslide.

If it wasn't for the backlash of luck, the eternal river Academy might still be able to struggle in this situation. After all, their hard power was not bad.

in the end, even if he could not turn defeat into victory, he would at least be able to bite off a piece of meat from the other party. at least, he would not let the other party win so easily.

it was a pity that the backlash of fate had erupted at this moment. all the hidden dangers that had been buried before were like time bombs exploding at the same time.

Chapter 10484

not to mention stabilizing the morale and launching a counterattack, internal strife broke out within the eternal river academy on the spot, starting a massacre that didn't distinguish between friend and foe!

The eternal river Academy had completely collapsed.

Yuan kun had never thought that a situation where both sides would suffer would actually end in such an unexpected way.

After the battle, Lin Yi's elite group only had less than thirty people with light injuries and eight with heavy injuries.

One had to know that the Ganges college had come out in full force this time. If things had gone according to plan, even if the great Zhou college had followed suit, it would have been impossible to pass this round without at least a hundred heavy casualties.

This battle record would definitely make everyone's eyes pop out of their sockets!

even for those genuine god-ranked academies, there were very few who could produce such a valiant battle record.

he looked at the stunned yuan kun and smiled as he cupped his hands, " brother yuan, you really keep your promise. in that case, i can't let you monopolize the limelight. according to our previous agreement, i'm willing to bring people to join the new style alliance. "

"....."

yuan kun felt like crying when he recalled this.

if this battle was a lose-lose situation for both sides, he would be more than happy to have lin yi and the others join him.

But now, it wasn't just Lin Yi who showed his strength, even the people under Lin Yi showed the potential to be unreasonable animals.

If Lin Yi entered his new alliance, it would be hard to say who would be in charge of the Alliance in the future.

In comparison, the group of weirdos from the eternal river Academy who claimed to take over the new alliance was only talking about it.

Lin Yi's group, on the other hand, was like a shark swimming in a pond-even if they didn't say anything, the entire new style Alliance would have to act according to their wishes.

Strength determined the right to speak. This saying was true everywhere.

The problem was that it was impossible for Yuan kun to go back on his word.

if he went back on his word, not only would he offend lin yi and the others, but he'd also attract suspicion from the new style alliance.

after all, they'd all seen lin yi's group's strength with their own eyes-it wasn't something that yuan kun could just make up a story to get away with, after all.

although yuan kun had completed the initial integration of the new alliance with his identity as the founder of the alliance, he had not reached the point where his words were absolute.

once there was an internal crisis, there was still the possibility of failure.

helplessly, yuan kun could only force out a smile, "on behalf of the new style alliance, i welcome brother lin to join us. from now on, you and i will work together in the same boat!"

lin yi nodded and said, your smile is very ugly. Don't smile for no reason in the future. It's very creepy.

“.....”

If he hadn't been intimidated just now, Yuan kun really wanted to kill this guy.

"If there's nothing else, I'll go collect the loot first. We'll talk later," Lin Yi added.

Yuan kun wanted to say something but stopped.

the eternal river academy was a huge organization. even if it had lost more than half of its capital, it was still a behemoth that most ordinary academies couldn't compare to.

who wouldn't be envious of such a big piece of fat meat?

even though there were 600 colleges in the new model alliance, they were all drooling over it.

yuan kun wasn't a thin-skinned person, but at this moment, he didn't know what to say.

to be more precise, he didn't dare to speak.

Lin Yi's fight just now made it clear to his opponent that Yuan kun's tactics on the other schools didn't work on him.

The moment Yuan kun made any unreasonable requests, Lin Yi would be able to put him in a spot in a matter of minutes.

This was the confidence of having a strong backing.

This time, Yuan kun truly experienced the saying, "it's easy to invite a God, but hard to send him away."

if he didn't invite lin yi to join the alliance, he could've taken the new alliance to take advantage of the situation even if he knew that lin yi's group wasn't to be messed with.

with the huge support of 600 academies, the new style alliance had no lack of people. even if there were some casualties, he could afford it.

But it was different now. Lin Yi didn't lower his voice when he spoke, and the news of him agreeing to join the alliance had already spread.

For the Masters of the new alliance who had just witnessed Lin Yi group's strength, this was definitely a boost to their morale!

especially since yuan kun was the one who had started this matter, if he were to go back on his word now, it would definitely cause an uproar.

lin yi would then take advantage of the situation and turn the tables-the new alliance he'd worked so hard to build up might really change hands after today.

lin yi laughed and led xu anshan, dongfang yan, and the others to the eternal river academy to collect the spoils of war.

Along the way, the people from the new style Alliance showed envious expressions, and many of them were eager to take action, but in the end, they suppressed the urge to take advantage of the situation.

the bloody lesson of the eternal river academy was right in front of him.

people like them who came from ordinary academies might not have high standards, but it didn't mean that they would do stupid things.

if they really couldn't hold back, they might not be taking advantage of the situation, but their own corpses.

as they watched lin yi's group enter the school, the higher-ups of the new alliance gathered around yuan kun, their faces full of unwillingness.

"we're just going to give up such a huge enterprise like the eternal river academy to them?"

"Yeah, isn't this letting them off too easily?"

"although our brothers didn't attack them directly just now, how could they have won so easily without us holding the line?"

" even if he doesn't let us eat the meat, he should at least give us some of the soup. he's eating all of it by himself. he's not good at being human. "

the higher-ups all chimed in, their dissatisfaction clear as day.

However, in the end, they all expressed the same meaning, to let Yuan kun stand up for them.

In any case, they definitely did not have the guts to do so.

Yuan kun secretly shook his head. A bunch of idiots who can't be put on the stage!

However, the reason why he specially helped these people up was also because he saw this point in them.

otherwise, if a strong man with great ambitions came, the control of the new alliance might not be in his hands.

after listening for a moment, yuan kun cleared his throat and said, " "Everyone, listen to me. Since Lin Yi has agreed to join the alliance, he is our ally. The new style Alliance has a bright future, and what we need is to uphold justice for the millions of grassroots cultivators. We will not do something stupid like this."

in the end, the eternal river Academy was indeed won by his own family. Even if we wanted to ask, it wouldn't be easy.

The new Alliance's higher-ups were collectively embarrassed.

Chapter 10485

if yuan kun wasn't willing to take the lead, then no matter how well they planned, it was all in vain.

seeing this, yuan kun comforted them. " it's fine if the eternal river academy gives up. you don't have to be too conflicted. after all, if we want to grow stronger, there will be plenty of opportunities. don't forget that there's still a hero academy waiting for us. "

Everyone's eyes immediately lit up.

Although they had both reached the threshold of God-ranked Academies, Hero Academy's wealth wasn't any worse than eternal river Academy's.

As long as they did it well, they would have a chance to take a bite.

even if the hero academy had expressed their intention to join the alliance, so what?

who made the rule that i can't eat your food just because you want to join the alliance?

everyone's mind was stirred, but before yuan kun could breathe a sigh of relief, another piece of bad news came.

"the hero academy has been conquered?"

When Yuan kun received the news, he was stunned on the spot. He then became flustered and exasperated. "impossible! i've specially arranged for hundreds of experts there. at the same time, i've also set up countless informers. there's even a high-level spy in hero academy. how could someone else beat them to it?"

The reason why the eternal river School was crushed by Lin Yi's group was because of the difference in strength, but also because the elites from the school weren't reliable to begin with.

As long as they fought steadily and didn't give Lin Yi a chance to beat them at their own game, it wouldn't be easy for Lin Yi to take them down with his elite group.

At least, it would not be so easy.

On the other hand, not only was Hero Academy as strong as eternal river Academy, but they were also much more stable in their actions!

as long as they didn't take the initiative to join the enemy, it wouldn't be easy for the outside forces to take them down!

Not to mention that if the situation turned bad, he would have the people he had arranged in advance to provide support at any time.

Under such circumstances, even if a genuine God-ranked Academy were to come out in full force, it would not be easy to take down Hero Academy.

just as yuan kun and the others were in shock, thinking that they had lost a few billion, lin yi suddenly returned.

" by the way, i forgot to tell you just now that i've also sent someone to pick up hero academy. i heard that there are people from our new style alliance there. i'll have to trouble you to help me inform them. don't cause any misunderstandings. it'll be troublesome if we accidentally get injured. "

yuan kun and the others were dumbfounded as they watched lin yi leave.

This time, he really wanted to eat someone.

we'll tolerate it if you monopolize the eternal river academy, but you're too strong!

but now, you're not even going to let hero academy off. including dazhou academy, you've swallowed all three failed academies, leaving no residue for others. isn't this too much?

however, in addition to being flustered and exasperated, yuan kun and the new alliance's higher-ups, who had reacted, couldn't help but collectively suck in a cold breath.

While crushing eternal river college, they could also take down the heavily-guarded hero college. What kind of strength was this?

to deal with two existences that had reached the threshold of the divine level academies at the same time, even if their new alliance had a great reputation, they didn't dare to say that they had the confidence to win.

But not only did Lin Yi Do it, he did it so quietly, and the details made people shiver!

For a moment, Yuan kun and the others felt a chill.

this time, not only yuan kun was regretful, but even the new alliance's higher-ups couldn't help but feel some regret.

The new model Alliance did need more powerful allies, but someone as strong as Lin Yi's group wasn't something they wanted to see.

after all, jianghai college's main force had yet to enter the divine kingdom on land. the people lin yi was using right now could only be considered the vanguard of the school!

Due to Jianghai city's remote location, almost everyone assumed that their strength was limited.

Even if they managed to enter the Alliance successfully, it would mostly be because they were lucky enough and had taken advantage of the situation.

as a result, even now, the mainstream opinion of jianghai academy was that it was not a true god-ranked academy. at best, it was just an empty title.

Yuan kun's group's understanding was naturally not so shallow.

But even they didn't expect Lin Yi to swallow three failed schools with just this little Vanguard force!

everyone couldn't help but have a terrifying thought.

"Could it be that Jianghai Academy already possesses the strength of a first-rate school? was its previous low-profile all for the sake of playing the pig to eat the Tiger?"

if it was said that up until a moment ago, everyone, including yuan kun himself, was still a little tempted to make a move on the nearby eternal river academy, then now, they had completely extinguished this thought.

when the gap was too big, all that was left was fear.

This had been the case since ancient times.

In fact, when the news of Lin Yi taking over the three Academies spread, it wasn't just Yuan kun and his group that was shocked-the entire divine Kingdom on land was.

From the start of the highly anticipated freshmen battle to the various incidents that happened after that, especially when Xi Rulai directly pointed his spear at Lin Yi, it was no exaggeration to say that Lin Yi was the top topic in the divine Kingdom on land.

Lin Yi's every move was destined to be watched.

not to mention, such a big piece of news had appeared all of a sudden!

even jianghai academy's reputation was instantly reversed. from a burden that pulled down the ranks of the alliance of god-ranked academies, it had become an existence that could wrestle with first-rate schools.

Everyone, including the Board of Directors, finally realized that they had to reevaluate Jianghai University's position!

putting aside jianghai college's own strength, lin yi only needed to combine the resources of the zhou, ganges, and hero colleges to create a colossus that no one could underestimate!

Most importantly, this was only the beginning.

the alliance of divine academies had indeed set strict restrictions, not allowing the divine academies under their jurisdiction to annex the ordinary academies without authorization.

However, this didn't mean that the various divine ranked Academies 'road to expansion had been blocked.

on the contrary, the reason why the alliance's restriction was able to be implemented was precisely because it provided the deity-ranked academies with a broader prospect of expansion.

not to mention other things, just the resources in the four great forbidden areas were enough to throw ordinary academies out by dozens of streets!

Lin Yi's Jianghai college hadn't even started yet, but they'd already displayed such shocking power.

once it was on the right track, what would it be like?

As everyone knew, the first three years of joining the Alliance was the period when the strength of each divine ranked Academy had the most rapid progress.

Even the smallest increase would double the amount when they first joined.

Chapter 10486

as for those who expanded the most rapidly, they could even increase it by several times, or even ten times!

When that time came, even if Jianghai city's numbers only rose by five times, it would still be enough to make all the top schools tremble in fear!

The cheers for the students of Jianghai University were ineffably loud.

but at the same time, it also meant that there were more potential opponents.

before this, lin yi's biggest enemy was the west rulai group, and the other god-ranked academies just watched on coldly.

but from today onwards, after feeling the real threat, they would officially stand against lin yi and jianghai college, especially the top schools.

at the end of the day, the best resources were always fought for.

even the alliance of divine academies, which was famous for its rich resources, was no exception in this regard.

Fortunately, even though they had begun to notice the existence of Jianghai Academy, they were not going to make a move on it in the short term.

Lin Yi's biggest threat was still the West Rulai group.

Of course, there was also the huge shadow standing behind Xi Rulai, the number one man in the world, Kong shenglin.

The danger was on the way, and Lin Yi had received Zhao Xian's warning. He knew that he'd become a thorn in the strongest faction's side.

Since Kong shenglin had already made up his mind to bypass the Supreme Board of Directors, he would soon be faced with a wave of fatal attacks.

lin yi, however, didn't react at all.

If it were anyone else, even if they didn't panic, they would definitely think of some targeted plans.

For example, he could use Gu jiumu's power to return to the Alliance headquarters as soon as possible!

&Nbsp; as long as he could return to the Alliance headquarters, all the dangers would naturally be solved.

lin yi, however, didn't.

Not only did he not, he even stayed in the three major loser Academies, which received a lot of attention, and methodically did his old job.

Building the formation.

in the eyes of others, this was undoubtedly a model of not doing proper work.

[you're facing a great disaster, yet you're not trying to think of a way to protect yourself. instead, you're doing such trivial chores. do you really want to die faster?]

It wasn't that formations weren't important. Regardless of which force it was, formations were the most important barrier to ensure their own safety.

But the problem was that it was precisely because it was so important that it needed to be left to the most professional to operate.

Letting a layman mess around blindly would ultimately be the one being screwed over.

The image Lin Yi had just shown them, on the other hand, didn't look anything like a formation master at all.

But if the outside world knew what Lin Yi was thinking, they'd all be shocked.

What Lin Yi wanted to build now wasn't just a single school's formation, but a super formation that was built on top of the foundations of the Zhou, Ganges, and hero schools!

the geographical distribution of the three academies was separated by thousands of miles, forming a triangle between each other.

it was not an easy task for any formation to cross such a long distance.

Not to mention, the effect Lin Yi wanted wasn't as simple as just linking them together. He wanted them to form a solid resonance, forming a complete formation that could respond instantly!

"This boss of yours is indeed interesting, but he seems to lack some self-awareness."

thousands of miles away, in the hero academy, a young man wearing glasses felt the waves of the array that were transmitted over from a distance. he curled his lips disapprovingly.

The abyssal Queen at the side didn't even try to hide her disgust.

This bespectacled young man looked gentle and harmless at first glance. Even if the first impression he gave was not perfect, it was definitely not bad.

In the beginning, the Queen did not care about this person.

however, after a short interaction, she immediately confirmed one thing-this person was a pervert.

he was an absolute pervert!

At other times, he would act normally, but when he encountered something small and cute, he would immediately enter an uncontrollable state of infatuation, and then involuntarily approach it. His face would have an unconcealable infatuated expression.

and when it came to petite and cute, was there anyone in the world who fit this description better than her, the queen?

even xiao wan 'er, a genuine little girl, had to step aside when she stood next to her.

as such, it was no surprise that she became the target of the bespectacled young man.

however, it was not the kind of pursuit that was led by hormones between men and women. the various actions of the man wearing glasses were more like he had found a toy that made him obsessed.

This toy was too exquisite and to his liking, so much so that he couldn't even bear to touch it. He was even afraid of desecrating the toy's perfect temperament by just getting a little closer.

what was even more outrageous was that even if the queen herself made a slight movement, this guy would be heartbroken by the side.

Although the man wearing glasses didn't do anything obscene, he was more gentlemanly than the average person.

But to the Queen, the disgust she felt did not decrease in the slightest.

Even an ordinary person would find it unbearable to encounter such a pervert who could not be measured by common sense, let alone the Queen who had long been used to being high and mighty.

However, to the Queen's frustration, this person was not someone she could easily drive away.

The success of taking down Hero Academy this time was partly due to her and Madam Qing, the two face-to-face combat forces, leading the team, and the incomprehensible strength of Lin Yi's personal guards.

But on the other hand, he still had to borrow the strength of this abnormal person beside him.

Just as Yuan kun and the others had commented, the hero Academy's own strength was no small matter. It was not like the eternal river Academy, which took an unusual path. In addition, there were hundreds of Masters from the new style Alliance around, watching them covetously. A slight move would affect the whole.

under normal circumstances, the possibility of the queen and madam qing leading a team to take down hero academy was extremely low.

One of the most critical factors for their success this time was that there were people working together from the inside and outside of Hero Academy.

the spy was none other than chen guanqi, who had represented hero academy in the new student tournament and had crossed paths with lin yi before.

chen guanqi was not a traitor and was prepared to live and die with the hero academy.

however, after the higher-ups of the hero academy decided to join the new alliance, his attitude changed.

Yuan kun was by no means a kind person. If an ordinary Academy fell into his hands, they would only be treated as chess pieces. As for the scale of Hero Academy, he would definitely not accept it sincerely. Instead, he would think of ways to dismember it. In the end, they would also become the burial objects of his ambition.

chen guanqi was not the only one in the hero academy who could see this.

Chapter 10487

however, the other higher-ups of hero academy only valued their personal interests. as for what would happen to the academy, they did not care since yuan kun had personally promised them.

Chen guanqi's words were limited and he was unable to change the overall situation.

thus, he had a crazy idea.

Instead of joining the ambitious Yuan kun, she might as well join Lin Yi!

With Chen guanqi's eye for people, if he had to choose between Lin Yi and Yuan kun, he didn't even need to choose. The correct answer was already written on his face.

he chose lin yi without a doubt.

It was because of this that he contacted Lin Yi and acted as Lin Yi's spy.

however, the other people from the hero academy were not to be trifled with. there were very few core figures who could come to the same conclusion as chen guanqi.

it wasn't that they didn't have a good eye, but that they'd never really interacted with lin yi before. all their knowledge of him and the school came from second-hand information and public opinion.

With Lin Yi's current situation, he could face the suppression of the West Rulai group at any time, and even the strongest faction might get involved.

the situation was not only pessimistic, it was even more despairing than hero academy!

in this case, it was easier said than done to rely on chen guanqi's strength alone to be a good spy and make a good standing for the queen and the others.

That was the truth. Even though Chen guanqi's actions throughout the entire process could be considered perfect, it still raised the vigilance of the other higher-ups of the hero Academy.

fortunately, someone had taken over the hero academy's array at the critical moment, turning the original protective array against the outside into a huge cage that restricted the internal personnel. this allowed the queen's group to finally enter smoothly.

The following development was very logical.

The Queen and Madam Qing attacked aggressively. After killing the Dean and Vice Dean of the hero Academy respectively, they were faced with Lin Yi's guards, who were like a giant meat grinder. The other people from the hero Academy were forced to surrender.

Among them, the person who played the most crucial role was the bespectacled man who was following the Queen at the moment.

His name was Shen Niao.

The name was perverted, but the person was even more perverted. This was the Queen's evaluation of this person.

under normal circumstances, the queen would rather die than talk to this guy. after seeing this guy's true nature, the most important thing was that she must not let this pervert see xiao wan 'er!

But the Queen couldn't help but retort after hearing the guy's comment.

"Lin Yi has his reasons for doing things, you know nothing!"

She was the one who was the most impolite to Lin Yi, especially when it came to Xiao Wan'er's education. She'd spit blood on Lin Yi's face every time.

However, she could say these words herself, but if it came from someone else's mouth, she would not be able to bear it!

Little Bird then adjusted his glasses and commented in a serious tone, "I can see what he's trying to do. He's trying to combine the formations of the Great Zhou, Ganges, and Hero Academies together to cross the distance between space and create a super formation that can resonate with each other.

"Can't I?" the Queen frowned.

She'd studied formations to a certain extent, too-she admired Lin Yi's skill, despite her shock.

An extraordinary person was an extraordinary person, and Lin Yi's structure alone was enough to make many people look up to him.

"Sure, there's nothing wrong with the idea itself."

Little Shen gave an unexpected affirmation, "after the super formation is integrated, it can mobilize the power of the three academies' formation at any time. the level of protection will have a qualitative leap. this idea is perfect. "

"Since it's perfect, what are you talking about?" the Queen shot him a disdainful look.

Shen Niao smiled politely, the idea is perfect, but his construction method is too crude. He used some unsystematic and unorthodox ways. His attainments in array can barely be called a Grandmaster in the outside world, but in the divine Kingdom on land, he is only an amateur.

The Queen was skeptical and snorted, "you're boasting shamelessly."

The other party could easily take over Hero Academy's array at a critical moment. His attainments in array techniques were naturally not fake.

Especially after experiencing the power of the hero Academy's formation, the Queen was very convinced that the level of the formation in the divine Kingdom on land was indeed much higher than that in other places.

She had to admit that this abnormal person's attainments in formations were higher than hers.

however, it would be bullshit if they said that even lin yi's skill level was useless here.

Shen Niao was unconcerned. She pointed at the formation that was spreading in the air and simply drew a few lines in the air.

the originally dense array lines suddenly became particularly simple and clear.

Even with the Queen's spell formation skills, she could see that after the modifications, not only did the lines of the entire spell formation become clearer, but the response speed of the entire spell formation had also increased by a large margin. The final defensive effect was not weakened at all.

If Lin Yi's processing before was rough calculation, then he had to force a final result.

In that case, little Shen's method was a coincidental calculation.

The results were the same, but little bird Shen's method was much more efficient. Lin Yi's method was a little too rough, getting half the result with twice the effort.

This modification, or to be precise, the optimization of the array, was worthy of a full score even for the Queen, who considered herself an outsider.

however, she couldn't admit that lin yi's formation skills weren't as good as his.

of course, if she knew that even in the divine kingdom on land where formation grandmasters were everywhere, he was still a formation grandmaster that could be counted on one's fingers, it might be a different situation.

shen niao saw through her thoughts and chuckled. " " it's not that i'm better at formations than him, but the overall level of formations in the divine kingdom on land is more advanced than in other places. i'm just lucky to be standing on the shoulders of a giant. "

"If you know you were lucky, then why are you so arrogant?"

The Queen snorted coldly.

these words were somewhat unreasonable.

from the beginning to the end, the other party's attitude could not be said to be humble, but it could still be called low-key. no matter how one looked at it, it could not be associated with arrogance.

According to a normal person's train of thought, even if the other party did not refute on the spot, he would still be somewhat unhappy.

However, he didn't.

not only that, but little bird shen's face was also filled with happiness. her face even had the look of someone who was begging him to scold her a little more.

This time, the Queen was completely shocked.

Not only was this guy a pervert, but he was also a masochist?

as the two spoke, the formation's fluctuations landed on the ground, and a figure appeared-it was lin yi.

Chapter 10488

naturally, lin yi didn't appear out of thin air with his own power. at hero academy's level, there would be teleportation formations set up inside the academy.

His array formation reconstruction was also built on the foundation of the space transmission array. This time, he was the first to be transmitted here. On the one hand, it was to modify the array formation, and on the other hand, it was to take over the hero Academy.

The Queen and Madam Qing alone were still lacking some deterrence.

" you're finally here! " the queen was overjoyed. " you're finally here! "

Lin Yi blinked.

although his relationship with the queen wasn't bad, it was far from being intimate. when did the queen have such a good relationship with him?

The Queen's next sentence answered his doubts.

"hurry up and help me get rid of this pervert!"

Lin Yi looked at Xiaoxiao in realization.

he had read madam qing's brief report before he was teleported here, so he knew the general situation here. naturally, he also knew that the success of taking down hero academy this time was largely due to shen little bird's help at this critical moment.

"i'm lin yi," lin yi cupped his hands in greeting, "on behalf of the jianghai academy, i thank brother shen for your help."

as he sized up the other party, the other party was also sizing him up.

however, little bird shen's face was expressionless as she cupped her hands in return, " "Nice to meet you, I've long heard of your great name."

his tone was indifferent, and he had no intention of using the situation to close the distance.

Lin Yi couldn't help but be surprised.

It wasn't that he was arrogant to the extent that he thought that everyone would flatter him, but since the other party had taken the initiative to attack, he would more or less have a bit of utilitarian heart.

Even though there was still a huge gap between his and Jianghai Academy's current strength and the more powerful factions, after taking over three other Academies, they were barely on the level of a top tier school.

this level of power was enough to form a mountain of its own, even in a divine kingdom on land.

Just like Chen guanqi, since he had taken the initiative to join them, whether it was material or status, he would always want some returns.

however, looking at little shen niao's attitude, it was clear that she had no such intentions.

"why are you being so polite with this pervert?" the queen, who was hiding behind him, said unhappily.
"hurry up and send him away!"

lin yi was speechless,"she's been a big help to us, how could we just send her away like that?" It's better to be more polite when you speak."

however, little bird shen shook her head repeatedly and looked at the queen attentively, " "no, no, no. it's good for her to talk like this. i like it."

"....."

lin yi finally understood what it meant to be a pervert.

He turned back to look at the Queen, and couldn't help but ask, "You can't beat him?"

The brief report that Madam Qing had given her only said that Shen xiaodao was an expert in formations. As for what her actual strength was, it did not mention anything.

With the Queen's domineering personality, even if the other party had helped her a lot, as long as they provoked her, she would definitely not be polite. When it was time to make a move, she would definitely not hesitate.

It was obvious that the Queen had tried this.

"I don't know," the Queen sighed helplessly.

lin yi was even more surprised.

if the other party was stronger than the queen, he could understand.

after all, the divine kingdom on land was full of hidden talents, especially someone like shen xiaodao. lin yi would be more surprised if the guy was just a formation master.

however, looking at the queen's expression, even with her eyesight, she couldn't tell the depth of the other party's strength?

"You tried?" Lin Yi couldn't help but ask.

The Queen nodded.

With her personality, how could she not make a move when she encountered such an annoying pervert?

Seeing that the other party had helped him a lot, at most, he would hold back a little when he attacked, so that he wouldn't break the other party's arms and legs.

However, little bird Shen did not respond to her probing.

in fact, it wasn't that there was no response. all her attempts were like a clay ox entering the sea, without a single splash. this was also a kind of response in itself.

However, the only feedback the Queen could get from this was that the other party was unfathomable.

As the controller of the abyssal power, the Queen was no stranger to such abilities. However, the more she was so, the more unfathomable the other party was in her eyes.

Although it was still unknown who would win if they were to fight for real, Shen Niao's existence still gave her a lot of pressure.

to a certain extent, he wasn't even below lin yi.

"That's interesting."

Lin Yi's interest was piqued. He wasn't a battle maniac, but he still felt excited when facing someone of the same level or even stronger.

However, this wasn't the time to be distracted.

They had just taken down three failed schools. Even without the direct threat from the West Rulai group, Lin Yi group was now the target of public criticism, including the new style Alliance.

The most important thing at the moment was to quickly reorganize the three Academies' formations.

He would only be able to obtain the most basic self-protection ability when he achieved the effect of his design.

after all, jianghai college's main force had yet to arrive. other than the great zhou college, which had completed the initial recruitment, the other colleges, be it the eternal river college or the hero college, had not officially submitted, although they had left behind quite a number of experts.

In other words, the existence of these people would not only not provide any help in the short term, but would also be a big hidden danger.

Lin Yi even had to send people to watch over them.

And so, even though his territory was expanding rapidly, he was still short on manpower.

If they didn't have enough manpower, they could only make up for it with formations.

The good thing was that Lin Yi's super formation required a lot of work-even if a formation master had the ability to build it, they'd need at least a few years, or even decades-but Lin Yi's formation speed was far faster than any other formation master.

This was because he could use a clone hack.

Although the clones of the other cultivators were also controlled by the main body, most of them could only do some relatively simple actions and could not do too detailed work.

the reason was simple. they didn't have such a strong primordial spirit.

but lin yi was different-not only was his essence spirit much stronger than his peers, but he also had the support of the new world's will.

not only could he do a hundred things at once, but his control over his clone was also far above that of other cultivators.

Whatever his main body could do, his doppelganger could do as well. The only difference was that the doppelganger was a body of pure energy. Once the main body's power was not supplemented, it could not continue to exist.

little bird shen couldn't hide her surprise as she watched lin yi's army of clones spread out and busy the construction site.

of course, he had seen an army of doppelgangers before, but it was his first time seeing his doppelgangers being used as laborers, especially for such a difficult task as being a formation grandmaster.

Chapter 10489

Although Lin Yi's formation skills were still unprofessional in her eyes, little bird Shen's eyes were full of curiosity.

He was not a warm-hearted citizen who appeared here for no reason.

He was helping Lin Yi this time, after all.

Both Lin Yi and the Queen had realized this.

Existences at their level already had a profound understanding of the saying that there was no free lunch in the world. They would not believe in any so-called coincidences.

it could be said that he was cautious and suspicious.

Anyone who entered their line of sight, especially those who were related to them, would have to go through layers of suspicion and selection.

Their initial judgment of little bird Shen was that she had no ill intentions.

If not for this, the Queen would never have allowed him to stay. Even if she was not confident in her personal strength, she did not necessarily have to fight him head-on if she wanted to get something done.

When it came to scheming, the Queen had never been afraid of anyone.

since she had allowed the other party to stay, it meant that little bird shen had already passed her initial test.

Lin Yi wasn't the only one who understood this-even little bird Shen knew this.

between smart people, there were some things that didn't need to be completely exposed. it was enough to just test out some tacit understanding.

once some things were exposed, it would not be so easy to handle.

While Lin Yi was setting up the formation, he didn't forget to send a clone to see Madam Qing. At the same time, he also sent another hero who had successfully taken down Hero Academy, Chen guanqi.

lin yi didn't have much contact with chen guanqi, but he had a deep impression of him.

after all, even in the divine kingdom on land where strange people could be seen everywhere, not everyone would bring a bird around. moreover, this bird was not an ordinary bird. it was the legendary tai ya, a descendant of the three-legged golden crow!

other than that, lin yi had a good impression of chen guanqi.

it was not because the other party had taken the initiative to surrender to him, but rather because the other party's style of doing things was quite to his liking.

he was loyal to the hero academy, but he wasn't completely blindly loyal. once things went south, he had his own set of judgment and handling methods.

He had principles and knew how to adapt. In short, he was a talent.

if everything went as planned, chen guanqi's position in lin yi group would be the same as xia wubing's. although he didn't have as much strategic value as xia wubing's divine eye, his existence was crucial to stabilizing the situation at hero academy.

If Lin Yi wanted to control Hero Academy, he couldn't go around Chen guanqi.

In the meeting that followed, Chen guanqi once again showed his pragmatic side.

He didn't even mention a single word about his personal life to Lin Yi-he'd gotten into the zone right away and started giving Lin Yi ideas as a subordinate, offering him a list of viable options to choose from.

as long as lin yi made a decision, even if he didn't use his most recommended plan, he wouldn't complain at all. he'd execute it immediately.

All Lin Yi needed to do was to get Madam Qing to provide some support, and at the same time, to supervise her.

it highlighted the worry-free aspect.

If he had such practical talents under him, he didn't have to do everything himself. It would be good to be a boss.

lin yi was still having a headache earlier. whether it was xu anshan, dongfang yan, the queen, or madam qing, they were all capable of fighting on their own, but they weren't suitable for daily affairs.

Unless he quickly transferred his brother, Shen Yifan, over to be the head butler, he would be annoyed to death by all kinds of trivial matters.

now, a ready-made butler candidate had appeared. it was simply perfect.

Chen guanqi inexplicably shivered.

Because of Lin Yi's trust, he was still deeply touched. He didn't know what kind of fate he would face next.

If Shen Yifan was here, he would definitely give him a piece of advice.

'Silly child, run!'

At the same time, little bird Shen continued to circle around the Queen as she watched Lin Yi's Army of clones work.

After a while, she couldn't stand Lin Yi's crude formation anymore and grabbed a clone to give him some pointers.

lin yi's clone paused for a moment, but he quickly regained his senses.

Seeing Lin Yi's clone use his skills in a practical battle, even little bird Shen was shocked.

what he had just taught seemed to be at his fingertips, as simple as a child's drawing.

however, in reality, it was a real high-level technique. even in the entire divine kingdom on land, there were only a few people who could really master these techniques.

lin yi was an accomplished formation master, and he could be called a grandmaster in the outside world.

however, in his opinion, because of the wild path, many of the ideas that had gone astray were already deeply rooted. it was like a piece of white paper that had been contaminated. the difficulty of repainting on it was not less than that of others. on the contrary, it was much higher.

He didn't expect Lin Yi to learn it, but he was just itching for it.

she didn't expect lin yi to learn it, and with such ease!

for a moment, shen niao couldn't help but feel a sense of appreciation for this talent.

although the formation world of the divine kingdom on land was filled with talents, and there would be a new generation of astonishing talents emerging every year, with his vision as a grandmaster of formations, the current situation was already a little lacking.

The so-called formation geniuses who were highly regarded were at most grandmasters in formation. It was rare to find someone who had the chance to touch the edge of the Grandmaster level.

Once the formation grandmasters of the current generation fell, it would be difficult for the new generation to replace them.

The existence of a formation Grandmaster was of utmost importance to the entire divine Kingdom on land.

lin yi came from an unorthodox background, and according to the common knowledge of the world of formations, these foreign grandmasters didn't have a solid foundation. even if there were some unexpected geniuses, they wouldn't be able to take the most important step.

In the long history of the divine Kingdom on land, all the truly recognized grandmasters of formations were, without exception, natives.

one could not rule out the possibility of exclusion.

at the same time, it also meant that it was much more difficult for foreign formation masters to take that step than the local formation masters.

but in lin yi's case, she seemed to see the possibility of an exception.

However, just as he thought that Lin Yi would use this high-level technique on the entire formation without hesitation, he realized that other than the clone he pointed out, the other clones didn't change at all.

could it be that the consciousness of the clones can not be synchronized? "

shen niao said thoughtfully.

Although the high-level technique he had just taught was at his fingertips, in the eyes of a formation Grandmaster, it was almost without a doubt the best solution.

most importantly, this technique wouldn't interfere with lin yi's own formation thought process.

its only use was to make the entire formation system more concise and efficient.

normally, anyone who discovered such a perfect shortcut without any side effects would definitely not be stupid enough to continue to take a detour.

even a fool would not.

lin yi's army of clones didn't react, which meant that they hadn't learned how to do it yet.

little shen had done her research on clones, but this was the first time she'd seen a special army of clones like lin yi's. it wasn't too surprising.

But when he saw what Lin Yi's real body was doing, his face darkened.

It was still acceptable if the other avatars did not know how to perform a certain action that the doppelganger had already mastered. However, it would be absolutely nonsense if the main body did not know how to do it.

in fact, he'd noticed that lin yi's real body was doing the same thing when the clone was learning.

But in the blink of an eye, Lin Yi's original body went back to his original thought process.

I won't take the perfect shortcut when there's a ready-made one. I just want to take the longest detour. That's my personality.

he was just playing!

Lin Yi's choice meant that after weighing the pros and cons, he decided that his stupid idea was better!

little bird shen understood this point and immediately laughed in anger.

As a Grandmaster of formations born and raised in the divine Kingdom on land, he wasn't an arrogant person, nor was he a frog in a well. However, after many comparisons, he firmly believed in the superiority of the formation system in the divine Kingdom.

this was indeed the truth.

compared to the formation system of the divine kingdom on land, the formation system of other places could only be regarded as unorthodox.

even if there were some highlights, on the whole, the two couldn't be compared at all. they were on completely different levels.

in the end, it couldn't be put on stage.

If Lin Yi made this decision because it would affect the other parts of the formation, then he'd just accept it.

After all, with Lin Yi's skill level, it was a bit difficult for him to adjust the entire formation's thought process.

But Lin Yi didn't seem to have any other side effects, and even a fool wouldn't make a mistake in a multiple choice question like this. He chose the dark path to the end, and that was something little bird couldn't understand.

If Lin Yi didn't show off his talent in formations, it would be fine.

Although he, little bird Shen, was rather conceited in the Dao of formations, he wasn't so conceited that he would think that everyone had to follow his own train of thought.

in the end, most of the people in the world were still hopelessly stupid.

but lin yi's display of talent in formations just now had even surprised him, and he even had the thought of choosing a talent for the country and raising the first non-local grandmaster himself.

yet, in the blink of an eye, lin yi had done something so stupid.

Little Shen bird was truly resentful.

however, lin yi, as the person in question, didn't feel the grandmaster's resentment at all.

He had truly enjoyed the technique that little bird Shen had just given him, and it had truly opened his eyes.

not to mention other things, after mastering that high-level array formation technique, he could save a lot of trouble in setting up arrays in the future.

however, that did not mean that was the only correct answer.

The technique just now was exquisite, and Lin Yi wouldn't have thought of it in his entire life if he didn't have the opponent's guidance, but it wasn't without its side effects.

Nothing in the world was truly perfect.

the so-called perfection was just a result of the side effects being infinitely underestimated, and after some rounding, it was finally returned to zero.

The more exquisite something was, the greater the hidden flaws were. It was just that it was difficult for ordinary people to detect them.

Lin Yi's super formation wasn't perfect, of course, but at least it was within his control. He wouldn't leave any obvious flaws.

sometimes, stupid methods were actually more reliable than clever ones.

With the help of Lin Yi's Army of clones, the Super formation that spanned the three Academies was quickly completed. There was only one last step left before the outline of the formation was complete.

after that, the only thing left to do was to strengthen the details.

Shen Niao felt her balls hurt.

Even he had to admit that the entire structure of the array was very good.

Even though only the preliminary framework was completed, it was obvious that the degree of completion was high enough to beat a large number of local formation Masters.

Especially when he considered Lin Yi's shocking efficiency in setting up formations-this was a miracle! Even a formation master like him wouldn't be able to do better than Lin Yi in such a short time.

the only flaw was that the entire formation technique was crude, which was really outrageous.

if he hadn't seen it with his own eyes, he would never have believed that the difference between the overall layout and the technique was made by the same person.

It was like someone using the single-digit addition and subtraction that a first-year primary school student had just learned, using the simplest and crudest calculation method to forcibly solve a calculus question in a college course.

no matter who it was, their first reaction would be disbelief.

if it was just an ordinary passerby who did not have enough knowledge of formations, they would only feel that it was amazing.

in little bird's eyes, however, lin yi was a lunatic, but a lunatic who was very good at something.

the super formation in front of him was the greatest mockery of the formation system of the divine kingdom on land.

Any local array master would feel greatly insulted by this. It was as if their intelligence was being stepped on by an illiterate person. The most painful part was that ordinary people really had no right to refute it.

This was because they really couldn't set up a super formation of this scale!

Little bird Shen was fine with it, but the more she acted this way, the more he felt that Lin Yi was wasting a God's gift.

"From your expression, you seem to be thinking about why this guy looks more like a pervert than me when I'm the one who's the pervert."

the queen's voice came from the side.

She'd been staying by Lin Yi's side all this time.

It wasn't like Lin Yi couldn't do anything when he was setting up the formation, but there were some crucial moments that he couldn't stop.

lin yi himself wouldn't be in any trouble if he was attacked by someone with ulterior motives, but the formation he'd worked so hard to build would be for nothing.

As for who she was most wary of, it went without saying.
